PART III NARRATIVE

The Registrant is unable to timely file its Form 10-KSB for the period ended December 31, 2005, because the auditors have not completed the audited financial statements of the Registrant and are unable to complete such financial statements without unreasonable effort and expense. The Registrant was unable to obtain certain information related to contingencies in a timely manner and additional time is required to determine their impact on the Registrant's financial statements and required disclosures.

The Company will reflect a net loss of approximately \$5,880,000 compared to a net loss of \$3,064,481 for 2004. In general, the Company's net loss is primarily due to the Company's recording provisions for loan losses amounting to approximately \$2,578,000 during 2005. The Company is at risk under certain of its agreements with private investors for credit losses and the cost of foreclosure on default of the borrower. The Company analyzed certain attributes of the mortgage loans that it has sold to investors and determined that a substantial provision for loan losses was necessary in order to provide for potential future loan losses. In addition, the Company experienced a significant reduction in the amount of residential mortgage loans funded in 2005 and a reduction in the realized gain on the sale of residential mortgage loans.

Pursuant to Rule 12B-25 of the General Rules and Regulations under Securities and Exchange Act of 1934, we inform you that we have been furnished a copy of Form NT 10-K to be filed by First Financial Corporation and Subsidiaries (FFC) on or about March 29, 2006, which contains notification of the registrant's inability to file its Form 10-KSB by March 31, 2006. We have read FFC's statements contained in Part III therein and we agree with the stated reason as to why we have been unable to complete our audit and report on the financial statements for the year ended December 31, 2005 to be included in the Form 10-KSB. We anticipate our opinion to include an explanatory paragraph describing doubts about the ability of the Company to continue as a going concern based on its inability to obtain financing for further activities and its mounting losses from operations.
