PART I

ITEM 1. BUSINESS

GENERAL

Latin American Casinos, Inc. (the "Company") operates a slot machine rental and remanufacturing Company in South and Central America and is involved in the distribution and sale of its own premium brand cigars in the United States. The Company was initially organized as Repossession Auction, Inc., a Florida corporation, in 1989. The Company merged into a Delaware corporation bearing the same name in 1991. In 1994, the Company changed its name to Latin American Casinos, Inc. to reflect its entrance into the gaming and casino business in South and Central America. The Company does business under the name Latin American Industries, reflecting the diversification of the Company with the introduction of a premium cigar business. The Company maintains its principal place of business at 2000 NE 164th Street, North Miami Beach, Florida

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

33162. Its telephone number is (305)945-9300.

SLOT MACHINE OPERATIONS

The Company concentrates its efforts on the rental of used five reel slot machines. The Company purchases these machines at a fraction of the cost of new machines, which are then refurbished at facilities in Latin America for use in South and Central America. Whereas a new slot machine costs approximately \$10,000, plus duty charges, the used slot machines purchased by the Company cost approximately \$700 each, including freight, duty, and limited refurbishing expenses. The Company has determined that more extensive refurbishing extends the working life of each slot machine for up to an additional five years. Currently, the expected useful life of a used slot machine is five years. Such additional refurbishing increases the cost of each machine by approximately \$100. This refurbishing in no way impacts any government regulations that could mandate obsolescence.

The Company entered the gaming and casino industry in Peru in 1994. Since then, the Company has been engaged in the renting of slot machines to licensed gaming establishments in various major cities through its wholly owned subsidiaries in South and Central America. In 1994, the Company formed its Peruvian subsidiary, in late 1995, the Company formed its Colombian subsidiary, and in 1997, the Company formed a subsidiary in Nicaragua, which was liquidated in year 2000.

As of December 31, 2000, approximately 678 slot machines were in operation in Peru and approximately 324 slot machines were in operation in Colombia. These machines are installed in, among other establishments, drug stores, pool halls, bars, restaurants and nightclubs. The Company is in the process of scaling down it's operations in both Peru and Columbia in order to prepare for the announced planned merger with Digital Convergence.

The Company has offices in Lima, Peru; and Bogota, and Medellin, Colombia.

Hurricane Mitch adversely affected the Company's operations in Nicaragua, which were not substantial, in October 1998. The Company liquidated all of its assets in Nicaragua in the year 2000.

The Company competes with all the major gaming companies in Latin America, including IGT, Novomatic and Admiral. Many of the companies are more established and have greater resources. The Company, through its current relationships with its existing clients believes that it has created in which the impact of competition from major companies is limited.

SOURCE OF MACHINES

The Company had purchased used slot machines from several vendors in Australia, including Damlite Pty. Ltd. and Olympic Video Gaming, a subsidiary of International Gaming Technology. The Company's principal vendor is AJ Electronics Repairs Pty. Ltd., ("AJ"), an Australian Company which services and disposes of used slot machines. The loss of any of these suppliers, including AJ, would not have a material adverse effect on the Company's business due to the existence of other sources.

REFURBISHING PROCESS

All slot machines purchased were delivered to the Company's warehouses in Lima, Peru or Bogota, Colombia and were refurbished by the Company's technicians. Each slot machine is electronically tested for 30 minutes to assure that it is in correct working order. Defective or worn parts are replaced or repaired. Once the technician is satisfied that the machine is in proper working order, the machine is thoroughly cleaned inside and out. At that time, a

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

computerized printed card that translates the rule of play from English to Spanish is placed inside the machine in such a way that it can be seen and read by the slot machine player. Refurbished machines are then placed in service in the various locations. While the

1

refurbishing does extend the useful life of a used slot machine, this refurbishing in no way impacts the effect of any possible government regulations that could mandate obsolescence.

RENTAL OF SLOT MACHINES

The slot machines are rented to licensed individual owner operators under a rental contract usually for a term of one year or longer. The contract provisions vary depending on, among other things, the number of slot machines requested by the renter. All contracts are backed by a personal guarantee for the first four installment payments from the renter to insure against non-payment of rental fees in the contract's initial stage. The rental contracts also provide insurance to cover any loss by fire, theft, vandalism or political unrest.

GOVERNMENT REGULATION

The governments of Peru, Colombia have regulations governing gaming activities. Essentially, these regulations establish licensing requirements for slot machine operations. It is anticipated that new regulations governing the age and condition of machines will soon be enacted. The Company takes appropriate steps to verify the licenses of its customers. The Company is in the process of reviewing it's operations in both Peru and Columbia in order to prepare for the announced planned merger with Digital Convergence.

The Peruvian government, in October 1996, imposed an excise tax of 200% on lessees of gaming equipment, including slot machines. The excise tax caused many of the Company's customers to return their slot machines to the Company rather than pay the higher tax.

In January 1997, the Company obtained a temporary injunction against the Peruvian government, prohibiting it from implementing the excise tax of 200%. The Government has lowered the tax to a more realistic level. It is anticipated that new regulations governing the age and condition of machines will be enacted in the coming years. Given this, the Company is evaluating whether to increase or decrease its slot machine operations in Peru.

The re-imposition of an excise tax of 200% in Peru would adversely affect future earnings. Accordingly, if the Company were not successful in preventing the tax, it would reevaluate its position in Peru.

PREMIUM CIGAR OPERATIONS

Beginning in September 1997, the Company directed part of its efforts into establishing a business of producing, distributing and selling premium cigars throughout the United States.

World's Best Rated Cigar Company ("World's Best") was formed as a subsidiary to distribute cigars produced by Claudio Norberto Mercado. Mr. Mercado resides in Santiago, Dominican Republic, in the Villa Gonzalez region, the heart of the tobacco-growing valley. In a business arrangement, World's Best advanced \$75,000 to Mr. Mercado to build a cigar factory. World's Best also advanced the sum of \$15,000 to purchase all necessary fixtures to produce cigars, such as molds, rolling tables, compressors, etc. World's Best holds a

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

mortgage on the factory to secure these advances. However, the Company determined that the plan of selling one cigar from one manufacturer was too limited. Therefore, during the summer of 1998, World's Best entered into contractual arrangements with five other manufacturers in Nicaragua, Honduras and the Dominican Republic. All of the manufacturers produce hand made 100% Cuban seed, long leaf filler premium cigars. The manufacturers are world-renowned and they manufacture cigars for over 20% of the brand name cigars currently on the market.

These agreements allow the Company to acquire cigars at a fraction over their cost and will enable them to be sold at a retail price significantly below the current retail price for brand name premium cigars. The agreements require that the manufacturers use high grade long leaf tobacco, hand roll the cigars utilizing high grade filler and parchment wrapping of a grade selected by the Company and wrap the cigars individually in cellophane and box them for shipping. They also require the manufacturers to retain a specified amount of inventory at all times to satisfy the Company's cigar purchase orders. The cigars are then transported to the Company's facilities in Miami where they are shipped to both retail customers and wholesale distributors.

The cigars are marketed through our web site: www.worldsbestrated.com as well as our toll free number in bundles and boxes of twenty-five from the six manufacturers. A color-coded cigar ring identifies each of the products of the six cigar manufacturers. Traffic to the web site and to our toll free number, is generated by our advertising in both traditional and non-traditional cigar magazines, newspapers, electronic advertising. Our clients are provided with literature describing the manufacturer's history, factories and plantations. This change in sales strategy has resulted in a nearly six-fold increase in sales and the Company believes this increase can be sustained through the year 2001.

2

Suggested retail pricing on the cigars range from \$40.00 for a bundle of 25 panatelas to \$50.00 for a bundle of 25 presidentes. The popular Churchill size has a suggested retail price of \$48.00 for a bundle of 25. These prices are 60% to 80% lower than prices charged in tobacco shops for cigars of the same quality and they include free shipping anywhere in the USA. Substantially all incurred advertising expenses were paid with barter transactions.

The Company continues to work on establishing relationships with various distributors in the United States which supply convenience stores, restaurants, bars and supermarkets with products. While the Company has had limited success with this strategy, it will continue to attempt to establish these relationship with companies that have various means of distribution. These relationships require many meetings and conversations over a protracted period of time. The Company is committed to pursuing these relationships.

EMPLOYEES

The Company currently has a total of 43 full-time employees. The reduction of 22 employees from the previous year was a result of our operations in Nicaragua, and downsizing of our technical staff in our other locations. The Company has four employees in the Miami office: two executives and two in clerical positions. In Lima, Peru, the Company has five clerical employees in its business office, including a general manager and 12 service technicians in its warehouse and remanufacturing plant. In Colombia, the Company employs a total of seven clerical employees including a general manager in its three business offices and 15 service technicians in its warehouse and refurbishing facility.

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

The Company believes its relations with its employees are good.

ITEM 2. PROPERTIES

The Company's executive offices and operating facilities located at 2000 NE 164th Street, North Miami Beach, Florida 33162 are leased for a period of three years until September 30, 2001, at a monthly rental of \$2,500. The premises consist of approximately 3,300 square feet. The property is in overall good condition. In addition the Company is obligated for a two-year lease beginning on February 8, 1999 for warehouse space at a rental of \$1400 per month. This lease was renewed at the same rate for a period of one-year with a clause, which permits the Company to terminate the lease with three months notice.

The Company leases a 2,000 square foot business office in San Isidro, a municipality in Lima, Peru, for \$680 per month. The lease terminates in June 2001, with a renewal option. The Company also leases a 10,000 square foot main warehouse and refurbishing facility in Lima, for \$1,200 per month, the lease terminates on June 2001. The Company is currently negotiating with the landlords in Lima, Peru for a reduction in rent.

In Bogota, Colombia the Company leases a 4300 square foot combined office and warehouse facility for \$1065 per month. This lease terminates on January 1, 2002. The Company also leases in Bogota an additional 1100 square foot warehouse for \$260 per month. This lease expires May 19, 2001. In Medellin, Colombia the Company has rented a 2,700 square foot combined office and warehouse for \$465.00 per month. This lease expires on February 1, 2002. The Company is currently negotiating with the landlord in Medellin, Columbia to terminate the lease. The monthly rent has been converted into U.S. Dollars from Columbian Pesos and as such it fluctuates based upon the value of the U.S. Dollar in Columbia.

The Company was the lessor of office space and used car lot at 11337 NW 7th Avenue in Miami on a month-to-month basis for \$1,200 per month. The property is leased to an unrelated party. The Company acquired the property as an office space and used car lot in 1990. This property was converted to a rental property when the Company exited the used vehicle business and entered the slot machine business. Over the years, the Company, expended in excess of \$100,000 as a result of environmental concerns on the property. The Company took a charge to operations in 1999 to reduce the value of this property to its net realizable value. In March 2001, the Company sold this property and recorded a net loss on the sale of the property of \$64,000.

ITEM 3. LEGAL PROCEEDINGS

The Company is a defendant from time to time in claims and lawsuits arising out of the normal course of its business, none of which have or are expected to have a material adverse effect on its business, operations, financial position or corporate liquidity.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

and Rule 506 promulgated by the Securities and Exchange Commission under that Section. The Company incurred approximately \$64,500 of costs in regard to this private placement. The debt issuance costs will be amortized over the life of the debentures. The interest on the debentures is payable either in cash or in additional shares of common stock, at the discretion of the company. The conversion price of the debentures was determined by the approximate market value of the common stock at the date of issuance.

In December 2000 the Company issued private warrants to purchase 3,300,000 shares of common stock at an exercise price of \$1.75 per share through December 11, 2005. These warrants were issued in connection with services rendered by several individuals and entities.

4

In June 1998 the Company issued 225,000 warrants to an investment banker in exchange for assistance in possible mergers, acquisitions and internal capital structuring. These warrants were originally exercisable at the closing bid price of \$1.875 as of June 5, 1998, which can be exercised through June 5, 2003. Effective February 8, 2000, the Board of Directors reduced the exercise price to \$1.06, which was the closing price of the stock at that date.

Effective December 31, 1998, the Company ratified the repricing of the employee stock options to \$1.00 per share and simultaneously authorized the issuance of 85,000 options at an exercise price of \$1.00 per share and canceled 10,000 options issued in 1995 at \$2.50 per share. ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS - 2000 COMPARED TO 1999

Revenues from the rental of slot machines in Peru and Colombia for the year ended December 31, 2000 decreased by \$1,181,000 or (63.8%), to \$670,000 from \$1,851,000 for the comparable period in 1999. The Company's revenues from cigar sales were \$163,900 for the year ended December 31, 2000 as compared to sales of \$28,000 for the same period in 1999.

The reason for the decrease in revenues was the overall weakness of the economy in South America. Additionally, the decrease was due in part to continued concerns over government-mandated obsolescence, political changes, increased competition, the devaluation of foreign currency as well as the need to replace machines with newer more modern equipment.

Selling, general, and administrative expenses incurred in the year ended December 31, 2000 increased \$823,500 or 46.5%, to \$2,595,200 from \$1,771,700 for the same period in 1999.

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

The increase in selling, general, and administrative expenses were due to the costs involved in mergers and acquisitions as well as costs incurred in the issuance of debentures.

The Company recorded non-recurring expenses of compensation for stock issued of \$350,000, costs associated with the liquidation of Nicaraguan subsidiary of \$162,000 and officer compensation of \$115,000 due the former Chief operating officer, Lloyd Lyons, under his employment agreement. The increase is also due in part to the increased cost of servicing the older machines and the cost of employee severance requirements in these countries.

Net (loss) for the year ended December 31, 2000 was (\$2,116,800) or (\$0.63) per share compared to (\$1,506,300) loss or (\$0.46) per share for the same period in 1999. The net loss was attributable to the significant decline in revenues from slot machine operations and an increase in overhead expenditures including officer compensation.

Through 2000 the Company expended approximately \$1,142,000 on the establishment of a premium cigar business; additional expenditures for marketing and personnel are expected in year 2001. The Company expended approximately \$42,000 in 2000 in the cigar business down from \$174,000 in 1999 a decrease of \$132,000. There were no costs associated with acquisitions of cigars and related inventory in 2000, which resulted in the decrease in the expenditures in cigar operations in year 2000. The Company anticipates that it will generate significant revenues from this business in year 2001, although the amount of such revenues is, at this time, impossible to forecast. The effect that this business will have on the overall profitability of the Company is uncertain.

RESULTS OF OPERATIONS - 1999 COMPARED TO 1998

The Company's revenues from the rental of slot machines were \$1,851,000 for the year ended December 31, 1999, a decreased of \$541,000 (22.6%) from the year ending December 31, 1998. The decrease was due in part to the concerns over government mandated obsolescence, political changes, increased competition, as well as the devaluation of the foreign currency. The Company's revenues from cigar sales were \$28,000 in 1999 and were negligible in 1998.

5

Selling, General and Administrative Expenses incurred in the operation of the Company's cigar, gaming and casino business for the year ended December 31, 1999 increased as a percentage of revenues from 72% in 1998 to 94% in 1999 from \$1,727,600 to \$1,771,700 in 1999.

As a result of the decrease in revenues, without a significant change in operating expenses, the effect of the increase in Selling, General and Administrative Expenses, as well as the impairment cost of the Company's gaming, cigar, and real estate assets, the Company's net loss was (\$1,506,000) and (\$0.46) per share for the year ended December 31, 1999 compared to net income of \$531,000 or \$0.16 per share for the preceding year. As a result of political changes and government-mandated obsolescence of certain gaming equipment, the company adjusted previously recorded cost of gaming equipment to its anticipated net realizable value.

Additionally, the Company reduced the valuation of certain real estate value in Miami to reflect current market conditions and adjusted its investment in the cigar operations to account for the slower than expected sales. The total impairment charge was computed as follows:

Gaming Equipment Asset Impairment Charge	\$ 1,245,000
Miami Real Estate Impairment Charge	86,000

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

Reduction of Cigar Investment	169,000
Other	15,000

Total	\$ 1,515,000
	=====

The gaming equipment impairment charge was based on valuation of obsolescence and replacement values made by management. Consideration in the valuation was the decrease in utilization of the gaming equipment due to decreased volume of operations. The impairment value of the Miami Real Estate was based on an independent appraisal received and subsequent sale of the property as further described in Note 13 to the Financial Statements. The impairment cost of the cigar inventory cost was the result of certain packaging and tube cost that had been abandoned.

Through 1999 the Company expended approximately \$1,100,000 on the establishment of a premium cigar business; additional expenditures for marketing and personnel are expected in year 2000. The Company expended approximately \$174,000 in 1999 in the cigar business down from \$926,000 in 1998 a decrease of \$752,000. The fact that there were no costs associated with acquisitions of cigars and related inventory in 1999, accounted for the change. In 1999, an insignificant amount was spent to acquire additional inventory. The Company anticipates that it will generate significant revenues from this business in year 2000, although the amount of such revenues is, at this time, impossible to forecast. The effect that this business will have on the overall profitability of the Company is uncertain.

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents increased approximately \$3,622,500 or 452%, to \$4,423,000 at December 31, 2000 from \$800,000 at December 31, 1999. The increase is attributable to the issuance of debentures in December 2000, which resulted in a \$3,435,000 net of expenses being received. In addition, stock options were exercised which resulted in an increase in cash of \$725,000.

The Company anticipates that its cash from operations and interest earned on cash equivalents should be sufficient to meet its cash needs for the next twelve months.

The Company does not have any commitments for material capital expenditures.

FORWARD LOOKING STATEMENTS

From time to time, the Company may publish forward looking statements relating to such matters as anticipated financial performance, business prospects, new products and certain other matters. The words "may", "will", "expect", "anticipate", "continue", "estimate", "project", "intend" and similar expressions are intended to identify such forward looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that a variety of factors could cause its actual results and experience to differ materially from anticipated results and other expectations that may effect the operations, performance, development and results of the Company's business, including the following:

1. Changes in government regulations of gaming, such as the excise tax imposed by Peru, could have an effect on the Company's operations and business.
2. Political factors affecting South and Central America, particularly as they pertain to currency valuation, could affect the Company's business in ways,

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

which are difficult to predict.

6

3. The agreements, which the Company has with five of its cigar manufacturers, are cancelable upon 60 days written notice. One or more such cancellations could have a material adverse effect on the Company's cigar operations.

4. The Company's cigar operations are in the final stages with regard to our marketing plan. This business is subject to all the risks and uncertainties associated with the commencement of a new enterprise. There can be no assurances that the Company will be able to successfully penetrate the market, or that its cigar operations will become profitable.

5. The Company may be required to raise additional funds to expand its business operations, particularly the cigar business, if it proves successful. There can be no assurances that the Company will be able to raise such funds, either through the sale of equity or debt securities or through commercial sources. The inability to acquire needed capital could have a material adverse effect on the Company's ability to expand.

6. The Company may be required to expand its infrastructure, including the hiring of additional personnel in its executive offices. There can be no assurances that the Company will be able to attract and retain qualified personnel who will be successful in managing the Company's operations.

EMPLOYMENT AGREEMENTS

In January 1997, the Company entered into a five-year employment agreement with Lloyd Lyons, that provided for an annual salary commencing January 1997 of \$275,000 and increasing \$25,000 per annum commencing January 1, 1998. The contract provided for salary continuation for a period of two years after the death of the officer. In January 2000, Mr. Lyons passed away and effective August 2, 2000 the Company amended its employment contract with the surviving widow (Geraldine Lyons, the Company's Chief Financial Officer and Secretary) and primary beneficiary of the Estate of the Lloyd Lyons, where-in the salary continuation clause included in his contract was replaced with a severance arrangement which requires the Company to pay Geraldine Lyons \$100,000 over a one year period commencing on the first month following her termination from her employment with the Company and upon her termination she is to receive 100,000 shares of common stock pursuant to an amendment to her employment agreement. The amended employment agreement obligates the company to register these shares and reimburse her for the difference in the gross proceeds upon the sale of such shares and \$300,000, regardless of the time she holds such shares. Upon termination of the employee contract, the company will record additional compensation at the greater of the then market price of the company's stock or the guaranteed price stipulated in the contract. The agreement further provides that Geraldine Lyons remain in the employment of the company for at least four months following the amendment of the contract. The contract revisions further provided that the officer loan of Lloyd Lyons in the amount of \$115,000 be recorded as additional compensation, as required by the officer compensation agreement. The employment agreement with Geraldine Lyons remains intact in all other regards and obligates the company to provide an annual compensation at the rate of \$46,800 per annum in the year 2000 and \$51,480 in the subsequent year.

In January 2000 the company entered into two additional employment contracts, with President, Jeffrey Felder and President of Latin American Operations, Angel Garcia, both for the duration of two years and provides that company be obligated for an aggregate

10

compensation of \$115,000 in year 2000 and \$126,500 in year 2001. Effective August 2, 2000 both of these employment contracts were amended to reflect upon termination from employment these individuals would also be entitled to nine months of compensation and will receive in the aggregate 35,000 shares of common stock which the company has agreed to reimburse the respective employees the difference between the gross proceeds they receive upon sale and \$105,000, regardless of the term the employees hold such shares. Upon termination of the employee, the company will record additional compensation at the greater of the market price of the company stock or the guaranteed price stipulated in the contract.

The company entered into two additional one-year employment agreements with the Chief Operating Officer, William Bossung and the Chief Executive Officer, Todd Sanders, whereby the company issued to each 100,000 shares of stock and warrants to purchase 750,000 shares of common stock at \$1.75 per share. The issuance of the stock was considered compensation in the year 2000. The issuance of the private warrants were part of the arrangement with the executive officers of the corporation who also received restricted stock aggregating 200,000 shares. Compensation was recorded on the arrangement equal to the then market value of the restricted stock, \$350,000.

Other than the incentive bonus plan described above and the stock option plans described below, as of December 31, 2000, the Company does not have any

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

contingent forms of remuneration, including any pension, retirement, stock appreciation, cash or stock bonus, or other compensation plan.

DIRECTOR COMPENSATION

Non-Management directors receive \$300 for each meeting attended.

1994 STOCK OPTION PLAN

In June 1994, the Board of Directors adopted the 1994 Stock Option Plan (the "Plan"). The maximum number of shares available for issuance under the Plan is 1,500,000 shares. The Plan terminates on June 13, 2004. The Plan is designed to provide additional incentives for Directors and officers and other key employees of the Company, to promote the success of the business and to enhance the Company's ability to attract and retain the services of qualified persons. The Board of Directors administers the Plan. The Plan authorizes the Board of Directors to grant key employees selected by it, incentive stock options and non-qualified stock options. The exercise price of shares of Common Stock subject to options qualifying, as incentive stock options must not be less than the fair market value of the Common Stock on the date of the grant. The exercise price of incentive options granted under the Plan to any participant who owns stock possessing more than 10% of the total combined voting power of all classes of outstanding stock of the Company must be at least equal to 100% of the fair market value on the date of grant. Fair market value has been determined to be the closing sales price for the Company's common stock reported by NASDAQ. In October 2000 the Board of Directors authorized the issuance of stock options under the Plan to certain officers and directors of the Company as more fully set forth in the footnotes to the Security Ownership table in Item 11 below.

The Board of Directors may amend the Plan at any time but may not, without shareholder approval, adopt any amendment, which would materially increase the benefits accruing to participants, or materially modify the eligibility requirements. The Company also may not, without shareholder approval, adopt any amendment, which would increase the maximum number of shares, which may be issued under the Plans, unless the increase results from a stock dividend, stock split or other change in the capital stock of the Company. In March 1999, the Board of Directors authorized an amendment to the Plan increasing the number of shares to be issued thereunder from 1,000,000 to 1,500,000. This amendment was submitted for shareholder approval at the 1998 Annual Meeting and was approved.

We have audited the accompanying consolidated balance sheet of Latin American Casinos, Inc. and Subsidiaries as of December 31, 2000, and 1999 the related consolidated statements of operations, changes in stockholder's equity and cash flows for the years ended. These consolidated financial statements are the responsibility on the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2000 AND 1999

Note 1. Summary of Significant Accounting Policies (Continued)

C Property and Equipment

Property and Equipment are stated at cost. Depreciation is provided on accelerated and straight-line methods over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterment's are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations. Whenever there is a change in events or circumstances, the Company performs an impairment analysis by comparing the future undiscounted cash flows are less than the carrying amount, and impairment charge is recorded to reduce the assets to its estimated fair value.

D Revenue Recognition

Revenue is recognized monthly on the rental of slot machines as the slot machines are placed in service. Typical rental arrangements for slot machines are for one year or less in duration with consistent rent income earned over the life of the lease. As a general rule the company does not incur any significant direct cost with the inception of the lease. All leasing expense, payroll and maintenance of equipment are charged to operations as incurred. Revenue on the sale of cigars are recorded when customer orders are shipped. The cost of cigar sales represent the direct cost of the product sold.

E Statement of Cash Flows

For purposes of this statement, the company considers all liquid investments purchased with an original maturity of three months or less to be cash equivalents.

F Income (Loss) Per Common Share

Basic earnings per common share and common share equivalent were computed by dividing net (loss) by the weighted average number of shares of common stock outstanding during the period. Fully diluted earnings per share was calculated based on the assumption that the increase in the number of common shares assumed outstanding on conversion are reduced by the number of common shares that are assumed to be purchased with the proceeds from the exercise of the incentive stock options. During 2000 and 1999 all warrants, stock options and underwriter's options (Note 5, 6, 7) were anti-dilutive, and excluded from the computation of basic and diluted earning (loss) per share. In the future the convertible debt, and these warrants, stock options, and underwriting options could be dilutive and as such future earnings per share could be

Edgar Filing: NUWAY ENERGY INC - Form 10KSB/A

diluted by 7,607,496 additional shares.

Effective August 2, 2000 both of these employment contracts were amended to reflect upon termination from employment these individuals will be entitled to nine months of compensation and will receive in the aggregate 35,000 shares of common stock which the company has agreed to

reimburse the respective employees the difference between the gross proceeds they receive upon sale and \$105,000, regardless of the term the employees hold such shares. Upon termination of the employee contract the company will record additional compensation at the greater of the market price of the company stock or the guaranteed price stipulated in the contract.

The company entered into two additional one-year employment agreements with the Chief Operating Officer and the Chief Executive Officer requiring the company issue 100,000 shares of stock individually and 750,000 warrants to purchase additional common stock at \$1.75 per shares, individually (see notes 4 & 12). The issuance of the private warrants were part of the arrangement with the executive officers of the corporation who also received restricted stock aggregating 200,000 shares. Compensation was recorded on the arrangement equal to the market value of the restricted stock, \$350,000.

C Foreign Assets

The accompanying consolidated balance sheets for the period ended December 31, 2000, includes assets relating to the company's slot machine operations in Peru and Colombia of \$3,537,000 and \$1,281,000 respectively. Although these countries are considered politically and economically stable, it is possible that unanticipated events in foreign countries could disrupt the company's operations. In that regard, the company was informed that in Peru an excise tax has been instituted effective October 1, 1996, on the leases of gaming equipment. The company with others in the industry negotiated with the appropriate governmental agencies and have had the excise tax significantly curtailed. In addition, a significant portion of the company's inventory in cigars is being stored in South America awaiting instructions to deliver them to the Miami location. Revenue from rental operations is entirely earned in Colombia and Peru. In October, 1998, Nicaragua suffered the effects of hurricane "Mitch" and ceased operations in Nicaragua. In the year 2000 the company had decided to liquidate all remaining assets in Nicaragua and included in operating expense is \$75,000 as compensation the fair value of the assets retained by an employee of the Nicaraguan subsidiary. The compensation is included as part of the selling general and administrative expenses in the accompanying report. In addition, \$87,000 of asset impairment costs were recorded for the physical deterioration and theft of other assets in Nicaragua.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2000 AND 1999
