INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on March 1, 2002 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting. At the Record Date, 42,693,394 shares of AsiaInfo's common stock ("Common Stock") were issued and outstanding and held of record by approximately 197 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Registered stockholders can vote by mail, telephone or the Internet. Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-593-3363. Internet voting can be accessed by logging on to the following Internet address: (<http://www.proxyvotenow.com/asi>). Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank or broker, follow the voting instructions on the form you receive from your bank or broker. The availability of telephone or Internet voting will depend on your bank or broker's voting process.

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of proposals 1 and 2. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Adams Lin, Corporate Secretary and Legal Counsel of AsiaInfo, at the Company's principal executive offices.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card. If you do attend, you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in accordance with their best judgment. As of the date of this Proxy Statement, AsiaInfo is not aware of any other matter that might be presented at the Annual Meeting.

Each share of Common Stock outstanding on the Record Date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. Broker non-votes will not be counted in determining the number of votes cast with respect to a proposal. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by AsiaInfo as present at the Annual Meeting. Abstentions will also be counted by AsiaInfo in determining the total number of votes cast with respect to a proposal (other than the election of directors). If, however, such quorum shall not be present or represented, the stockholders present in person or represented by proxy shall have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting until a quorum shall be present or represented. If a broker indicates on a proxy that such broker does not have discretionary authority to vote on a particular matter, under applicable Delaware law those shares will be counted as present for purposes of determining the presence of a quorum, but will not be counted as votes cast on the matter and will have no effect on the outcome of the vote on such matter.

The cost of soliciting proxies will be borne by AsiaInfo. Proxies may be solicited by certain of AsiaInfo's directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. In addition, AsiaInfo has retained Morrow & Co., Inc. to assist in such solicitation. The fee to be paid to such firm is not expected to exceed \$4,000 plus reasonable out-of-pocket costs and expenses. In addition, AsiaInfo may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

The Board held four regular meetings during the fiscal year ended December 31, 2001, and acted eight times by unanimous written consent. The Board has an audit committee, a compensation committee and a finance committee. The Board does not have a nominating committee.

The audit committee makes recommendations to the Board regarding the selection of independent accountants, reviews the results and scope of audit and other services provided by our independent accountants and reviews and evaluates our audit and control functions.

Director Compensation

In 2001, each non-executive director was entitled to receive an annual retainer of \$10,000 and a fee of \$1,000 for each Board meeting attended. However, the non-executive directors waived their rights to receive the \$10,000 annual retainers and the \$1,000 per meeting fee for 2001.

During the last two years of the vesting schedule, the options vest quarterly. Each year, we grant new options to our non-executive directors as their options vest, so that the unvested portion of each non-executive director's options is maintained at 20,000.

Vote Required

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote.

Beginning on July 5, 2003, the remaining 20,000 stock options vest on a schedule of 2,500 stock options per quarter. The potential realizable value of the stock options is calculated using the closing market price of AsiaInfo's Common Stock on the grant date, \$9.625 per share.

We have entered into two-year employment agreements with James Ding, our President and Chief Executive Officer, Ying Han, our Executive Vice President and Chief Financial Officer, Michael Zhao, our Senior Vice President and General Manager for Network Infrastructure Solutions, Steve Zhang, our Senior Vice President and General Manager for Operation Support System Solutions, and Fan Bao, our Chief Strategy Officer and Senior Vice President for Business Development, which provide for annual base salaries of \$145,000, \$148,795, \$145,000, \$145,000 and \$150,000, respectively. The agreements terminate on January 1, 2004, January 1, 2004, January 4, 2003, January 1, 2004 and March 9, 2004, respectively.

On October 17, 2000, the compensation committee of the Board adopted a resolution on severance policy for departing members of AsiaInfo's senior management. In the event that AsiaInfo terminates an employee at the level of senior vice president or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by AsiaInfo, or six month's base salary, whichever is greater. In addition, the employee will have 120 days to exercise his or her vested options. Unvested options are forfeited. Notwithstanding the foregoing, pursuant to a resolution of the Board in 1998, in the event that the employment of James Ding or Michael Zhao is terminated, they will be entitled to severance

pay equal to at least 12 month's base salary and immediate vesting of all options granted prior to the date of the resolution.

Each of the Named Executive Officers has entered into a non-compete agreement with AsiaInfo, pursuant to which they are prevented from engaging in any commercial activity in competition with AsiaInfo for two years after the termination of their employment. In addition, they are required to disclose all their patent and copyright applications to AsiaInfo during their employment and within one year after the termination of their employment.

Pension Plans

For the benefit of employees who are citizens or lawful permanent residents of the United States, AsiaInfo has adopted a Simplified Employee Pension Plan (the "Plan"). The Plan covers employees who have worked at AsiaInfo for at least six months. The Company makes monthly contributions under the Plan in amounts equal to 5% of each covered employee's monthly salary. The contributions are deductible by the Company and are not taxable to the employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties.

In 2001, the Company contributed approximately \$62,067 to all the employees covered by the Plan. With respect to the Named Executive Officers, AsiaInfo contributed approximately \$6,021, \$7,250 and \$6,146 on behalf of each of James Ding, Michael Zhao and Steve Zhang, respectively.

COMPENSATION COMMITTEE REPORT

The compensation committee currently consists of Messrs. Bickell (Chair), Keen and Sun, all of whom are independent directors of AsiaInfo. The compensation committee reviews and recommends to the Board the compensation and benefits of all officers of AsiaInfo and establishes and reviews general policies relating to compensation and benefits of employees of AsiaInfo. The following is the report of the compensation committee describing compensation policies and rationale applicable to AsiaInfo's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended December 31, 2001. The information contained in this report, shall not be deemed to be "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, (the "Securities Act") or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that AsiaInfo specifically incorporates such information by reference in such filing.

11

Compensation Philosophy and Review

Our executive compensation program is generally designed to align the interests of our executives with the interests of our stockholders and to reward our executives for achieving corporate and individual objectives. The executive compensation program is also designed to attract and retain the services of qualified executives in the highly competitive telecommunications software and services marketplaces. Executive compensation currently consists of a base salary, long-term equity incentives, and other compensation and benefit programs generally available to other employees.

Policy Regarding Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") generally disallows a tax deduction to public companies for compensation in

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

excess of \$1 million paid to the company's Chief Executive Officer or any of the four most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit.

It is the compensation committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for federal income tax purposes. AsiaInfo's stock option plans have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations.

The compensation committee has considered the potential impact of Section 162(m) of the Code on the compensation paid to AsiaInfo's executive officers.

Base Salaries

Base salary levels for the President and Chief Executive Officer and other executive officers are intended to compensate executives competitively within the high-technology marketplace. Base salaries are determined on an individual basis by evaluating each executive's scope of responsibility, past performance, prior experience and data on prevailing compensation levels in relevant markets for executive talent. The compensation committee also takes into account AsiaInfo's financial performance during the previous fiscal year, including revenue growth, net income growth, operational cash flow and Common Stock performance. Base salaries for executives are reviewed annually by the compensation committee.

Long-Term Equity Incentives

AsiaInfo provides long-term equity incentives to its executive officers and to all other employees through the grant of stock options under its stock option plans. The purpose of granting stock options is to create a direct link between compensation and the long-term performance of AsiaInfo. Stock options are generally granted at an exercise price equal to 100% of the fair market of AsiaInfo's Common Stock on the date of grant, have a ten year term and generally vest over a four year period. Because the receipt of value by an executive officer under a stock option is dependent upon an increase in the price of AsiaInfo's Common Stock, this portion of the executives' compensation is aligned with an increase in stockholder value. The primary stock options granted to executive officers are generally in conjunction with the executive officer's acceptance of employment with AsiaInfo. When determining the number of stock options to be awarded to an executive officer, the compensation committee considers the executive's current contribution to AsiaInfo's performance, the executive officer's anticipated contribution in meeting AsiaInfo's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by other information technology companies. The compensation committee also reviews stock option levels for executive officers at the beginning of each fiscal year in light of long term strategic and performance objectives and each executive's current and anticipated contributions to AsiaInfo's future performance. In 2001, the compensation committee recommended (and the full Board granted) stock option grants for the Named Executive Officers

12

representing the right to acquire an aggregate of 490,000 shares of Common Stock. These options vest according to the schedules described in the table detailing the stock options granted to the Named Executive Officers on page 10 of this proxy statement.

Other Compensation

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

AsiaInfo's executive officers are also eligible to participate in benefit programs generally available to other employees. In addition, from time to time, executive officers have received sign-on bonuses or other bonuses based on extraordinary effort.

Chief Executive Officer Compensation

James Ding is President and Chief Executive Officer. The compensation committee reviews Mr. Ding's compensation annually using the same criteria and policies as are employed for other executive officers.

AUDIT COMMITTEE REPORT

The audit committee reviews the Company's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process. The Company's independent auditors are responsible for expressing an opinion on the conformity of our audited financial statements to generally accepted accounting principles. The audit committee currently consists of Messrs. Keen (Chair), Bickell and Lau, all independent directors.

The audit committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2001 with our management, has discussed with our independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards), has received the written disclosures required by Independent Standards Board No. 1 (Independence Discussions with Audit Committees) and has discussed with our independent auditors their independence. The audit committee has also considered whether the provision of non-audit services by our auditor is compatible with maintaining our auditors' independence. The Board adopted the written charter of our audit committee in November 1999.

In reliance on the reviews and discussions referred to above, the audit committee recommended to the Board that the audited financial statements for the fiscal year ended December 31, 2001 be included in the Company's Annual Report on Form 10-K.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with China Netcom

Edward Tian has served as a member of the Board of AsiaInfo since our inception and is the beneficial owner of approximately 14.4% of our Common Stock. In June 1999, he became President and Chief Executive Officer of China Netcom. Prior to joining China Netcom, Dr. Tian and James Ding co-founded AsiaInfo in Dallas, Texas in 1993, and Dr. Tian served as AsiaInfo's President until May of 1999. Along with China Telecommunications Corporation, China United Telecommunications Corporation and China Mobile Communications Corporation, China Netcom is one of the largest providers of telecommunications and Internet services in China. Like most of the other major participants in that industry, China Netcom has entered into contracts with AsiaInfo for systems integration and software products. In 2001, those agreements included the following:

- .. In April 2001, we entered into a contract to provide China Netcom with hardware products and related services in connection with its Beijing and Shanghai access networks. Our expected revenues from this contract, net of hardware costs, are approximately \$63,000.
- .. In May 2001, we entered into a contract to provide China Netcom with hardware products and related services in connection with the construction of its transmission network for three main cities in Shandong province, which will strengthen China Netcom's Internet infrastructure in the region and expand its backbone capacity. Our expected revenues from this contract, net of hardware costs, are approximately \$711,000.
- .. In August 2001, we entered into a contract to provide China Netcom with hardware products and related services in connection with the construction of its transmission network for the Yangtze River Delta area, which will strengthen China Netcom's Internet infrastructure in the region and expand its backbone capacity. Our expected revenues from this contract, net of hardware costs, are approximately \$382,000.
- .. In September 2001, we entered into a contract with China Netcom to construct the access network for its wireless LAN billing systems. We will also provide China Netcom with our customer care and billing software for this network. Our expected revenues from this contract, net of hardware costs, are approximately \$235,000.
- .. In November 2001, we entered into a contract to provide China Netcom with hardware products and related services in connection with the construction of its transmission network for the Zhu River Delta area, which will strengthen China Netcom's Internet infrastructure in the region and expand its backbone capacity. Our expected revenues from this contract, net of hardware costs, are approximately \$639,000.
- .. In December 2001, we entered into a contract with China Netcom to construct its unified billing system. Our expected revenues from this contract, net of

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

hardware costs, are approximately \$378,000.

- .. In December 2001, we entered into a contract to provide China Netcom with operation support system solutions for its Chongqing broadband network. Our expected revenues from this contract, net of hardware costs, are \$209,000.
- .. In December 2001, we entered into a contract to provide China Netcom with a billing and accounting system in connection with its broadband telephony services. We will also provide China Netcom with our convergent billing software, AsiaInfo Convergent Billing System. Our expected revenues from this contract, net of hardware costs, are \$200,000.
- .. In December 2001, we entered into an agreement to provide China Netcom with our billing software products, AsiaInfo Online Billing System and AsiaInfo Convergent Billing System, in connection with its broadband network in the province of Guangdong. Our expected revenues from this contract, net of hardware costs, are approximately \$100,000.

15

- .. In addition to the above agreements, we entered into two supplementary equipment agreements with China Netcom during 2001. Our expected revenues from these contracts, net of hardware costs, are approximately \$99,000 in the aggregate.

Each of the foregoing transactions was an arm's-length, negotiated transaction on terms that we believe are no less favorable than terms we would have received from an unrelated party. We will continue to recognize revenues from the foregoing contracts in the current fiscal year, and anticipate that we will enter into additional contracts with China Netcom in the current fiscal year and future fiscal years.

Other

On January 17, 2001, AsiaInfo purchased a convertible promissory note in the principal amount of \$750,000 from ChinaPalmInfo Holdings Co., Ltd.
