**Item 9. Regulation FD Disclosure**

The information included in this section is intended to be furnished and not filed pursuant to Regulation FD.

Expedia, Inc. today filed an amended annual report on Form 10-K/A, in part to reflect a restatement of its historical earnings on a GAAP basis.

In the process of calculating its first quarter 2003 earnings, Expedia discovered an error in the calculation of amortization of the Microsoft options that converted to Expedia options on the completion of Expedia's initial public offering. The restatement accelerates the expense for the recognition of stock-based compensation for the period from Expedia's initial public offering November 1999 through the quarter ended December 31, 2002.

The restatement increases the company's GAAP net income for the periods ending after June 30, 2000, and decreases GAAP net income for the year ended June 30, 2000. It does not affect the company's reported adjusted earnings or cash flow in any period. The impact of the recognition of the stock-based compensation on the previously issued financial statements for the prior periods is as follows (in thousands except for per share figures):

	Year ended	Six-months	Years ended June 30,	
	December 31,	period ended		
	2002	December 31,	2001	2000
<b>Recognition of stock-based compensation:</b>

## Edgar Filing: EXPEDIA INC - Form 8-K

As previously reported	\$ (1.55)
Restated	\$ (1.68)

The following sections of Expedia's Form 10-K have been revised in the amendment to reflect the restatement: Selected Financial Data (Item 6), Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7) and the Consolidated Financial Statements, including the Notes to Consolidated Financial Statements (Item 15).

The 10-K/A filed today also includes Part III of the 10-K/A, which was expected to be included in the proxy statement related to Expedia's 2003 annual meeting of shareholders and incorporated by reference. Expedia has not yet determined a date for the annual meeting of shareholders.
