NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

1. OPERATIONS, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Operations

Royal Gold, Inc. (Royal Gold , the Company , we , us , or our), together with its subsidiaries, is engaged in the business of acquiring and managing precious metals royalties. Royalties are passive (non-operating) interests in mining projects that provide the right to revenue or production from the project after deducting specified costs, if any.

We seek to acquire existing royalties or to finance projects that are in production or near production in exchange for royalty interests. We are engaged in a continual review of opportunities to acquire existing royalties, to create new royalties through the financing of mine development or exploration, or to acquire companies that hold royalties. We currently, and generally at any time, have acquisition opportunities in various stages of active review, including, for example, our engagement of consultants and advisors to analyze particular opportunities, analysis of technical, financial and other confidential information, submission of indications of interest, participation in preliminary discussions and involvement as a bidder in competitive auctions. We also fund exploration on properties thought to contain precious metals and seek to obtain royalties and other carried ownership interests in such properties through the subsequent transfer of operating interests to other mining companies. Substantially all of our revenues are and will be expected to be derived from royalty interests. We do not conduct mining operations at this time.

Summary of Significant Accounting Policies

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments which are of a normal recurring nature considered necessary for a fair statement have been included in this Form 10-Q. Operating results for the nine months ended March 31, 2008, are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2008. Certain prior period amounts have been reclassified to conform to the current period presentation. These interim unaudited financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2007.

Recently Issued Accounting Pronouncements

On July 13, 2006, Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109*, was issued. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS 109. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 on July 1, 2007. Refer to Note 10 for a discussion regarding the effect of adopting FIN 48. In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements*. Statement No. 157 provides guidance for using fair value to measure assets and liabilities. Statement No. 157 applies whenever other accounting standards require (or permit) assets or liabilities to be measured at fair value but does not expand the use of fair value in any new circumstances. Under Statement No. 157, fair value

Table of Contents

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

refers to the price that would be received to sell an asset or paid to transfer a liability between participants in the market in which the reporting entity transacts. In this standard, the FASB clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability. The provisions of Statement No. 157 are effective for our fiscal year beginning July 1, 2008, and interim periods within the fiscal year. The Company is evaluating the impact, if any, the adoption of Statement No. 157 could have on its financial statements.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which allows entities to choose to measure many financial instruments and certain other items at fair value. The provisions of Statement No. 159 are effective for our fiscal year beginning July 1, 2008, and interim periods within the fiscal year. The Company is evaluating the impact, if any, the adoption of Statement No. 159 could have on its financial statements.

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations*, (SFAS 141R), which significantly changes the ways companies account for business combinations and will generally require more assets acquired and liabilities assumed to be measured at their acquisition date fair value. Under SFAS 141R, legal fees and other transaction-related costs are expensed as incurred and are no longer included in goodwill as a cost of acquiring the business. SFAS 141R also requires, among other things, acquirers to estimate the acquisition date fair value of any contingent consideration and to recognize any subsequent changes in the fair value of contingent consideration in earnings. In addition, restructuring costs the acquirer expected, but was not obligated to incur, will be recognized separately from the business acquisition. SFAS 141R is effective for the Company's fiscal year beginning July 1, 2009, and is to be applied prospectively. The Company is evaluating the impact, if any, the adoption of SFAS 141R could have on its financial statements.

Also in December 2007, the FASB issued Statement No. 160, *Non-controlling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). SFAS 160 requires all entities to report non-controlling interests in subsidiaries as a separate component of equity in the consolidated financial statements. SFAS 160 establishes a single method of accounting for changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation. Companies will no longer recognize a gain or loss on partial disposals of a subsidiary where control is retained. In addition, in partial acquisitions, where control is obtained, the acquiring company will recognize and measure at fair value 100 percent of the assets and liabilities, including goodwill, as if the entire target company had been acquired. SFAS 160 is effective for the Company's fiscal year beginning July 1, 2009, and is to be applied prospectively. The Company is evaluating the impact, if any, the adoption of SFAS 160 could have on its financial statements.

In March 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 intends to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance and cash flows. SFAS 161 also requires disclosure about an entity's strategy and objectives for using derivatives, the fair values of derivative instruments and their related gains and losses. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008, and will be applicable to the Company's fiscal year beginning July 1, 2009. The Company is evaluating the impact, if any, the adoption of SFAS 161 could have on its financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

2. ACQUISITION OF BATTLE MOUNTAIN GOLD EXPLORATION

On July 30, 2007, we entered into an Amended and Restated Agreement and Plan of Merger (the *Merger Agreement*) with Battle Mountain and Royal Battle Mountain, Inc. (*Merger Sub*), a newly-formed and wholly-owned subsidiary of Royal Gold, pursuant to which the *Merger Sub* was merged into Battle Mountain with Battle Mountain surviving as a wholly-owned subsidiary of Royal Gold.

On October 24, 2007, we completed the merger pursuant to the *Merger Agreement* and acquired 100% of the issued and outstanding capital stock of Battle Mountain in a transaction whereby the *Merger Sub* was merged with and into Battle Mountain for aggregate consideration consisting of 1.14 million shares of our common stock and approximately \$3.4 million in cash. Immediately prior to the merger, Royal Gold owned approximately 18% of Battle Mountain's outstanding common stock and accounted for this ownership under the equity method, which resulted in the Company recognizing a loss from equity investment of approximately \$0.5 million for the nine months ended March 31, 2008. As part of the acquisition of Battle Mountain, we acquired thirteen royalty interests in various stages of production, development or exploration. Please refer to Note 4 for a further discussion on the thirteen royalty interests acquired from Battle Mountain.

Subject to settlement of the Battle Mountain litigation discussed below, additional merger consideration of up to an aggregate of 37,418 shares of Royal Gold common stock and approximately \$0.1 million in cash may be paid to former Battle Mountain stockholders. On September 13, 2006, an action was filed against Battle Mountain and its former Chairman and Chief Executive Officer, Mark Kucher, by James E. McKay, a former officer and director of Battle Mountain, in the second Judicial Court of the State of Nevada. The action seeks to enforce alleged rights to certain shares of Battle Mountain common stock and options to purchase shares of Battle Mountain common stock pursuant to a stock option agreement and a stock option plan, and unspecified damages. Royal Gold may pay the additional consideration described above to Battle Mountain stockholders depending upon the cost of settling this litigation.

The acquisition of Battle Mountain has been accounted for as an asset acquisition using the purchase method of accounting, whereby assets acquired and liabilities assumed were recorded at their fair market values as of the date of acquisition. The purchase price was calculated using the fair market value of the Royal Gold common shares issued, as of the date we completed the transaction, plus cash and direct acquisition costs paid by Royal Gold.

We have allocated the purchase price of approximately \$65.8 million to the fair market values of the assets acquired and liabilities assumed, including \$85.5 million to royalty interests in mineral properties, \$2.2 million to current assets, \$5.8 million to intangible assets (included within *Other assets* on the consolidated balance sheets), \$3.8 million to deferred tax assets, \$6.5 million to a gold loan payable, \$24.5 million to deferred tax liabilities resulting from the acquisition and \$0.5 million of other liabilities. The amounts allocated to the acquired royalty interests in mineral properties and related deferred taxes are preliminary and are subject to change upon completion of final valuations. The operating impact of the assets acquired from Battle Mountain have been reflected in the results of Royal Gold from October 24, 2007.

The gold loan payable assumed as part of the acquisition of Battle Mountain was paid in full during November 2007. The *Note Receivable - Battle Mountain Gold Exploration* as shown on the Company's consolidated balance sheets as of June 30, 2007, was assumed during the acquisition and was included in the purchase price for Battle Mountain.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

3. ROYALTY ACQUISITIONS

Marigold and El Chanate Royalty Acquisitions

On February 20, 2008, we acquired three royalties from AngloGold Ashanti (U.S.A.) Exploration Inc. (**AngloGold**), a wholly-owned subsidiary of AngloGold Ashanti North America Inc., for \$13.75 million. The first royalty is a 2.0% net smelter return (**NSR**) royalty on the Marigold mine, located on the Battle Mountain-Eureka trend in Nevada, and operated by Goldcorp, Inc. (**Goldcorp**). The second royalty is a 2.0-4.0% sliding-scale NSR royalty on the El Chanate mine, located in Sonora, Mexico and operated by Capital Gold, Inc. (**Capital Gold**). The sliding-scale NSR royalty is capped once payments of approximately \$17.0 million have been received. The third royalty is a 10.0% net profits interest (**NPI**) royalty, also on the El Chanate mine. The 10.0% NPI royalty at El Chanate is capped at \$1.0 million. The sliding-scale NSR royalty at El Chanate pays at a rate of 2.0% when the average gold price is below \$300 per ounce, 3.0% when the gold price is between \$300 and \$350 per ounce, and 4.0% when the gold price is above \$350 per ounce. The El Chanate mine commenced production in mid-2007. For the three and nine months ended March 31, 2008, we recognized royalty revenue associated with the El Chanate sliding-scale and NPI royalties of \$0.2 million and \$0, respectively. Including royalty payments made to AngloGold, there have been cumulative payments made on the sliding-scale NSR royalty of \$0.7 million, resulting in \$16.3 million remaining under the \$17.0 million cap as of March 31, 2008. There have been no payments made on the NPI royalty as of March 31, 2008. The 2.0% NSR royalty interest on the Marigold mine covers the majority of six sections of land, containing a number of open-pits, but does not cover the current mining in the Basalt/Antler area. Approximately 38% of the current Marigold reserves are covered by this royalty. Based on our own estimates, we expect to begin receiving royalty payments on the 2.0% NSR royalty on the Marigold mine in calendar 2011, when mine operations are expected to move into areas covered by our royalty interest.

The AngloGold transaction has been accounted for as a purchase of assets. The total purchase price of \$13.75 million, less royalty amounts received for production prior to the purchase date of \$0.15 million, plus direct transaction costs, has been allocated to the three acquired royalties according to their relative fair values, as separate components of *Royalty Interests in Mineral Properties* on our consolidated balance sheets. Accordingly, \$7.5 million has been allocated to the sliding-scale NSR royalty at El Chanate, \$0.8 million has been allocated to the NPI royalty at El Chanate, and \$5.3 million has been allocated to the Marigold royalty.

Table of Contents**ROYAL GOLD, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited, in thousands except share data, per ounce and per pound amounts)****4. ROYALTY INTERESTS IN MINERAL PROPERTIES**

The following table summarizes the net book value of each of our royalty interests in mineral properties as of March 31, 2008 and June 30, 2007.

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

Discussed below is an update to our royalty interests in mineral properties during our fiscal year 2008. Please refer to the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2007, for further information about the Company's producing, development and exploration stage royalty interests.

Troy Mine

The 7.0% gross smelter return (GSR) royalty from all metals and products produced and sold from the Troy underground silver and copper mine extends until either cumulative production of approximately 9.9 million ounces of silver and 84.6 million pounds of copper, or the Company receives \$10.5 million in cumulative payments, whichever occurs first. As of March 31, 2008, we have recognized royalty revenue associated with the GSR royalty totaling \$7.1 million, which is attributable to cumulative production of approximately 3.0 million ounces of silver and approximately 26.0 million pounds of copper.

Taparko Mine

The 15.0% GSR (TB-GSR1) royalty on all gold produced from the Taparko open pit gold mine will remain in effect until cumulative production of 804,420 ounces of gold is achieved or until cumulative payments of \$35 million have been made to Royal Gold, whichever is earlier. The sliding-scale GSR royalty (TB-GSR2 ranging from 0% to 10%) on all gold produced from the Taparko mine is effective concurrently with TB-GSR1, and will remain in effect until the termination of TB-GSR1. As of March 31, 2008, we have recognized royalty revenue associated with the TB-GSR1 royalty totaling \$2.9 million, which is attributable to cumulative production of 23,022 ounces of gold. During our first fiscal quarter of 2008, High River commenced production at the Taparko mine. Accordingly, we reclassified our cost basis in TB-GSR1 and TB-GSR2 from development stage royalty interests to production stage royalty interests. As such, we began depleting the associated cost basis using the units of production method during the first quarter of fiscal 2008.

Our royalties on the Taparko mine were subject to completion of our \$35 million funding commitment to Somita and the royalty documents for the forgoing royalties had been signed but held pending the completion of the funding commitment. We completed the remaining \$0.4 million of our funding commitment on September 27, 2007. See Note 10 for further discussion.

Leeville Mining Complex

We carry our interest in the non-reserve portion of Leeville North as an exploration stage royalty interest, which is not subject to amortization at this time. During our third fiscal quarter of 2008, Newmont communicated to us that additional proven and probable reserves were developed at Leeville North. As such, we reclassified approximately \$0.6 million of our cost basis in the Leeville North exploration stage royalty interest to the Leeville North production stage royalty interest. In the event that future proven and probable reserves associated with our royalty interest are developed at Leeville North, additional cost basis of our exploration stage royalty interest will be reclassified as a development stage royalty interest or a production stage royalty interest in future periods, as appropriate. In the event that future circumstances indicate that the non-reserve portion of Leeville North will not be converted into proven and probable reserves, we will evaluate our carrying value in the exploration stage interest for impairment.

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

El Chanate

As discussed in Note 3, we own a sliding-scale NSR royalty on the El Chanate mine, located in Sonora, Mexico, and operated by Capital Gold. The sliding-scale ranges from 2.0%, when the gold price is below \$300 per ounce, to 4.0% when the gold price is above \$350 per ounce. The sliding-scale royalty is in effect until cumulative payments of approximately \$17.0 million have been made to Royal Gold. We also own a 10.0% NPI royalty on the El Chanate mine, which is in effect until cumulative payments of \$1.0 million have been made to Royal Gold. As the El Chanate mine is currently in production, we have classified our cost basis in the sliding-scale and NPI royalties as production stage royalty interests, which are subject to depletion using the units of production method. As of March 31, 2008, we have recognized royalty revenue associated with the sliding-scale royalty and the NPI royalty of \$0.2 million and \$0, respectively.

Marigold

As discussed in Note 3, we own a 2.0% NSR royalty on the Marigold mine, which contains a number of open-pits, and is located in Humboldt County, Nevada, at the north end of the Battle Mountain-Eureka Trend. The Marigold mine is operated by Goldcorp. Our royalty interest on the Marigold mine covers the majority of six sections of land but does not cover the current mining in the Basalt/Antler area. Our 2.0% NSR royalty is associated with existing proven and probable reserves and has been classified as a development stage royalty interest, which is not subject to amortization at this time.

Don Mario

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 3.0% NSR royalty on the Don Mario mine which is an open-pit and underground gold mine located in the Chiquitos Province of Bolivia. The Don Mario mine is operated by Orvana Minerals Corporation. A portion of the Don Mario royalty is currently in production and is classified as a production stage royalty interest. The production stage portion of the royalty is being depleted using the units of production method. A portion of the Don Mario royalty is associated with existing proven and probable reserves but is not currently in production. The non-producing portion has been classified as a development stage royalty interest, which is not subject to amortization at this time.

Williams

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 0.72% NSR royalty interest on the underground and open-pit Williams mine located in Marathon, Ontario, Canada. This gold mine is owned and operated by Teck Cominco Limited (50%) and a subsidiary of Barrick (50%). A portion of the Williams royalty is currently in production and is classified as a production stage royalty interest. The production stage portion of the royalty is being depleted using the units of production method. The portion of the Williams royalty which is not currently associated with proven and probable reserves is classified as an exploration stage royalty interest, and is not subject to amortization at this time.

El Limon

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 3.0% NSR royalty on the underground El Limon gold mine located in northern Nicaragua. The mine is owned and operated by Central Sun Mining Inc. (95%) and Inversiones Mineras S.A. (5%). A portion of the El Limon royalty is currently in production and is classified as a production stage royalty interest. The production stage portion of the royalty is being depleted using the units of production method. The portion of the El

Limon royalty which is not currently associated with proven and probable reserves is classified as an exploration stage royalty interest and is not subject to amortization at this time.

Dolores

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 1.25% NSR royalty on gold and a 2.0% NSR royalty on both gold and silver from the Dolores project located in Chihuahua, Mexico, and owned and operated by a subsidiary of Minefinders Corporation Ltd. The 2.0% NSR royalty becomes effective when the facility has been producing at 75% of its design capacity for three consecutive months. We carry our interest in the proven and probable reserves at the Dolores project as a development stage royalty interest, which is not currently subject to amortization. The remaining portion of the Dolores royalty, which is not currently associated with proven and probable reserves, is classified as an exploration stage royalty interest and is not subject to amortization at this time.

Benso

We hold a 1.5% NSR royalty on gold produced from the Benso concession located in the Western Region of the Republic of Ghana, West Africa. The Benso concession, controlled by Golden Star, is located approximately 25 miles south of Golden Star's Wassa mine. We carry our interest in the Benso gold concession as a development stage royalty interest, which is not subject to amortization at this time.

Relief Canyon

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 4.0% NSR royalty on the mineral deposit at Relief Canyon, located in Pershing County, Nevada, and owned by Firstgold Incorporated. The Relief Canyon royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

Seguenega

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 3.0% NSR royalty on the Seguenega (Sega) project, located in northern Burkina Faso, West Africa, and owned by Orezone Resources Incorporated. The Sega royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

Joe Mann

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 1.8% to 3.6% sliding-scale NSR royalty on gold produced from the Joe Mann mine located 330 miles north of Montreal, Quebec, Canada. The Joe Mann mine currently is owned by Campbell Resources Incorporated but is subject to a memorandum of understanding for sale of the mine to Gold Bullion Development Corporation. We also hold a 2.0% NSR royalty on all silver production in excess of 1.0 million ounces and a 2.0% NSR royalty on all copper production greater than 5.0 million pounds. The Joe Mann royalty interest is classified as an exploration stage royalty interest as it is currently under care and maintenance and is not subject to amortization at this time.

Marmato

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we own a 5.0% NSR royalty on certain properties located in the Municipality of Marmato in Colombia, South America, and believed to be owned by Mineros Nacionales S.A. The Marmato royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

Table of Contents

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

Lluvia de Oro

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we hold a 4.0% NSR royalty on the Lluvia de Oro property, located in Sonora, Mexico. The mining concessions to which the royalty applies are believed to be held by Atotonilco Construcciones, S.A. de C.V., subject to the right of a subsidiary of Tara Gold Resources Corp. (Tara Gold) to acquire the concessions. Tara Gold has entered into an agreement with Columbia Metals Corporation, pursuant to which Columbia Metals Corporation may acquire the concessions, subject to a retained interest by Tara Gold. The Lluvia de Oro royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

Fletcher Junction and Hot Pot

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we hold a 1.25% NSR royalty on both the Fletcher Junction property and the Hot Pot property. Both properties are located in Mineral County, Nevada, and are owned by Pediment Gold LLC (Pediment). The Fletcher Junction and Hot Pot royalty interests are classified as exploration stage royalty interests, which are not subject to amortization at this time.

Night Hawk Lake

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we hold a 2.5% NSR royalty on the Night Hawk Lake property located in Ontario, Canada, and owned by Selkirk Metals Corporation (40%), East West Resource Corporation (40%), and Canadian Golden Dragon Resources Limited (20%). The Night Hawk Lake royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

Vueltas Del Rio

As part of the acquisition of Battle Mountain (Note 2) on October 24, 2007, we hold a 2.0% NSR royalty on the Vueltas Del Rio property, located in Honduras, and owned by Lundin Mining Corporation. The Vueltas del Rio royalty interest is classified as an exploration stage royalty interest, which is not subject to amortization at this time.

5. CREDIT FACILITY

On January 23, 2008, the Company entered into an amendment of its existing credit facility with HSBC Bank USA, National Association. The amendment extends the maturity date of the credit facility two years from December 31, 2010 to December 31, 2012. The amendment also updated the assumptions used in the calculation of the borrowing base, which included an increase in the metal price assumption of gold and added a metal price assumption for silver. The \$80 million credit facility bears interest at LIBOR plus 1.5% and includes both affirmative and negative covenants, as defined, so long as any portion of the facility is outstanding and unpaid. The Company's borrowing base will be calculated based on our GSR1, GSR3, and NVR1 royalties at the Pipeline Mining Complex and our SJ Claims, Leeville, Bald Mountain and Robinson royalties. Additional royalties may be added to the borrowing base calculation with the lender's approval. As of March 31, 2008, the total availability under the borrowing base was \$80.0 million, based upon the future cash flows from the royalties included in the borrowing base calculation. The borrowing base calculation is recalculated as of April 15 and October 15 each year. As of April 15, 2008, the Company's borrowing

Table of Contents**ROYAL GOLD, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited, in thousands except share data, per ounce and per pound amounts)**

capacity under the credit facility was \$70.8 million. The Company had no amounts outstanding under the credit facility as of March 31, 2008 and June 30, 2007.

6. STOCK-BASED COMPENSATION

For the three and nine months ended March 31, 2008, we recorded total non-cash stock compensation expense related to our equity compensation plan of \$0.7 million and \$2.1 million, respectively, compared to \$0.4 million and \$1.7 million for the three and nine months ended March 31, 2007, respectively. Non-cash stock compensation is allocated among cost of operations, general and administrative, and exploration and business development in our consolidated statements of operations and comprehensive income as summarized below:

	For The Three Months Ended		For The Nine Months Ended	
	March 31, 2008	March 31, 2007	March 31, 2008	March 31, 2007
(Amounts in thousands)				
Non-cash stock compensation allocation:				
Cost of operations	\$ 99	\$ 48	\$ 257	\$ 222
General and administrative	350	240	1,159	1,082
Exploration and business development	278	114	729	421
Total non-cash stock compensation expense	\$ 727	\$ 402	\$ 2,145	\$ 1,725

As of March 31, 2008, there are 70,567 shares of common stock reserved for future issuance under our current long-term incentive plan.

Stock Options

For the three months ended March 31, 2008 and 2007, we recorded non-cash stock compensation expense associated with stock options of \$0.3 million and \$0.2 million, respectively. For the nine months ended March 31, 2008 and 2007, we recorded non-cash compensation associated with stock options of \$0.9 million and \$0.8 million. To determine non-cash stock compensation expense for stock option awards, the fair value of each stock option award is estimated on the date of grant using the Black-Scholes-Merton option pricing model for all periods presented.

Table of Contents**ROYAL GOLD, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited, in thousands except share data, per ounce and per pound amounts)**

A summary of the status of the Company's non-vested stock options for the nine months ended March 31, 2008 and 2007, is presented below:

	2008		2007	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Non-vested at beginning of period	138,434	\$ 13.00	132,334	\$ 11.24
Granted	110,500	\$ 12.82	108,100	\$ 13.79
Vested	(99,517)	\$ 12.45	(91,167)	\$ 11.62
Forfeited	(1,250)	\$ 13.94	(10,833)	\$ 10.93
Non-vested at March 31	148,167	\$ 13.23	138,434	\$ 13.00

The total intrinsic value of options exercised during the three and nine month periods ended March 31, 2008, was \$1.6 million and \$2.3 million, respectively. The total intrinsic value of options exercised during the three and nine month periods ended March 31, 2007, was \$0.1 million and \$0.4 million, respectively.

As of March 31, 2008, there was \$1.4 million of total unrecognized non-cash stock compensation expense related to non-vested stock options granted under our equity compensation plan, which is expected to be recognized over a weighted-average period of 1.8 years. The total fair value of shares vested during the three months ended March 31, 2008 and 2007, was \$24,000 and \$0, respectively. The total fair value of shares vested during the nine months ended March 31, 2008 and 2007, was \$1.3 million and \$1.1 million, respectively.

Other Stock-based Compensation

Officers and certain employees may be granted shares of restricted common stock that can be earned only if defined multi-year performance goals are met within five years of the date of grant (Performance Shares). For the three and nine months ended March 31, 2008, we recorded non-cash stock compensation expense associated with our Performance Shares of \$0.2 million and \$0.4 million, respectively. For the three and nine months ended March 31, 2007, we recorded non-cash stock compensation expense associated with our Performance Shares of \$0.2 million and \$0.6 million, respectively.

A summary of the status of the Company's non-vested Performance Shares for the nine months ended March 31, 2008 and 2007, is presented below:

	2008		2007	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Non-vested at beginning of period	27,000	\$ 28.78	41,500	\$ 19.19
Granted	48,000	\$ 29.75	36,000	\$ 28.78
Vested	(9,000)	\$ 28.78		\$
Forfeited		\$	(5,625)	\$ 19.53
Non-vested at March 31	66,000	\$ 29.49	71,875	\$ 23.97

Table of Contents**ROYAL GOLD, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited, in thousands except share data, per ounce and per pound amounts)**

We measure the fair value of the Performance Shares based upon the market price of our common stock as of the date of grant. As of March 31, 2008, total unrecognized non-cash stock compensation expense related to our Performance Shares was \$0.4 million, which is expected to be recognized over the remaining vesting period of 0.75 years.

Officers, non-executive directors and certain employees may be granted shares of restricted stock that vest on continued service alone (Restricted Stock). For the three months ended March 31, 2008 and 2007, we recorded non-cash stock compensation expense associated with the Restricted Stock of \$0.2 million and \$0.1 million, respectively. For the nine months ended March 31, 2008 and 2007, we recorded non-cash stock compensation expense associated with the Restricted Stock of \$0.8 million and \$0.3 million, respectively.

A summary of the status of the Company's non-vested Restricted Stock for the nine months ended March 31, 2008 and 2007, is presented below:

		2008		2007	
		Weighted- Average Grant Date Fair Value		Weighted- Average Grant Date Fair Value	
Non-vested at beginning of period	Shares		Shares		
	117,000	\$ 24.73	77,250	\$ 20.60	
Granted	87,500	\$ 29.75	63,500	\$ 28.83	
Vested	(10,625)	\$ 29.59	(7,500)	\$ 26.41	
Forfeited	(625)	\$ 29.20	(16,250)	\$ 20.36	
Non-vested at March 31	193,250	\$ 26.72	117,000	\$ 24.73	

We measure the fair value of the Restricted Stock based upon the market price of our common stock as of the date of grant. As of March 31, 2008, total unrecognized non-cash stock compensation expense related to Restricted Stock was \$4.0 million, which is expected to be recognized over a remaining average vesting period of 4.25 years.

7. STOCKHOLDERS' EQUITY**Stock Issuances**

On September 4, 2007, we issued 216,642 shares of our common stock to IAMGOLD Corporation (IAMGOLD) and Repadre International Corporation (Repadre) in connection with our acquisition from IAMGOLD and Repadre of all of their issued and outstanding shares of Battle Mountain common stock. We had the option to acquire the shares of Battle Mountain common stock from IAMGOLD and Repadre pursuant to an option and support agreement we entered into with IAMGOLD in connection with the merger with Battle Mountain.

On October 24, 2007, we issued 1,144,025 shares of our common stock to Battle Mountain shareholders as part of the Company's acquisition of 100% of the issued and outstanding shares of Battle Mountain. Refer to Note 2 for further discussion regarding the acquisition of Battle Mountain.

On March 10, 2008, we issued 3,977,683 shares of our common stock as part of the conversion of our 7.25% mandatory convertible preferred stock (Preferred Stock). Please refer to Mandatory Convertible Preferred Stock below for further information regarding the Preferred Stock.

Table of Contents

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

Common Stock Repurchase

On January 25, 2008, the Company announced that its board of directors authorized the repurchase of up to \$30.0 million of its common stock in the open market through March 31, 2008. The timing and number of shares repurchased through March 31, 2008, depended on market conditions and other corporate considerations. As of March 31, 2008, the Company repurchased 196,986 common shares at an average price of \$28.00 per common share for a total cost of approximately \$5.5 million. The common share repurchases were funded through cash and cash equivalents. The total cost to reacquire the 196,986 common shares is included in *Treasury Stock* on the Company's consolidated balance sheets as of March 31, 2008. The common stock repurchase program, pursuant to the January 25, 2008, announcement, ended on March 31, 2008.

On April 2, 2008, the Company determined that it will cancel the 196,986 common shares reacquired, pursuant to the repurchase plan. The 196,986 common shares repurchased will be returned to the Company's authorized but unissued amount of common stock.

Mandatory Convertible Preferred Stock

On November 9, 2007, the Company completed an offering of 1.15 million shares of Preferred Stock at a price to the public of \$100.00 per share, less underwriter discounts and other related expenses, resulting in net proceeds of \$111.1 million. Dividends on the Preferred Stock were payable on a cumulative basis when, as and if declared by our board of directors at an annual rate of 7.25% per share on the liquidation preference of \$100 per share. Dividends were payable, at the Company's discretion, in cash, common stock or a combination thereof, on February 15, May 15, August 15 and November 15 of each year to and including November 15, 2010, commencing on February 15, 2008.

On January 10, 2008, the Company's board of directors declared the regular quarterly dividend for the first dividend period of \$1.9333 per share of the Preferred Stock. The dividend was payable on February 15, 2008, to preferred shareholders of record at the close of business on February 1, 2008. The preferred dividend was paid in cash.

Each share of the Preferred Stock was to automatically convert on November 15, 2010, into between 2.8335 and 3.4002 shares of our common stock, subject to anti-dilution adjustments. At any time prior to November 15, 2010, holders may have elected to convert each share of the Preferred Stock into shares of our common stock at the minimum conversion rate of 2.8335 shares of common stock per share of the Preferred Stock, subject to anti-dilution adjustments. At any time prior to May 15, 2008, we may have, at our option, caused the conversion of all, but not less than all, of the Preferred Stock into shares of our common stock at the provisional conversion rate described within the Preferred Stock offering. However, we may not have elected to exercise our provisional conversion right if, on or prior to May 15, 2008, we completed a material transaction involving the acquisition of assets or a business with a purchase price of \$100 million or more.

On January 25, 2008, the Company announced that it exercised its provisional conversion right for all of the issued and outstanding shares of its Preferred Stock. As part of the provisional conversion right, each share of the Preferred Stock was converted into shares of our common stock on March 10, 2008 (the *Conversion Date*), based on the average closing price per common share on the Nasdaq Global Select Market (*Nasdaq*) over a 20 consecutive trading day period, which ended on March 5, 2008, as provided in the Certificate of Designations of the Preferred Stock. The average closing price over the 20 consecutive trading day period was \$29.78 and each outstanding share of Preferred Stock was automatically converted into 3.4589 shares of common stock on the Conversion Date. The Company issued 3,977,683 shares of its common stock upon conversion of the Preferred Stock.

In connection with the conversion, all accrued and unpaid dividends on the Preferred Stock up to the Conversion Date were payable at \$0.5035 per share of Preferred Stock and were paid in cash to holders of

Table of Contents**ROYAL GOLD, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited, in thousands except share data, per ounce and per pound amounts)**

record on the Conversion Date. Trading of the Preferred Stock on the Nasdaq was suspended at the close of business on March 5, 2008, and the Preferred Stock was de-listed on March 24, 2008. The Company applied a contingent beneficial conversion feature model to account for the provisional conversion of the Preferred Stock during its third fiscal quarter of 2008, which resulted in the Company recognizing a deemed dividend of \$2.0 million for the three and nine months ended March 31, 2008. There were no tax consequences to the Company upon conversion of the Preferred Stock.

8. EARNINGS PER SHARE (EPS) COMPUTATION

	For The Three Months Ended March 31, 2008		
	Income	Shares	Per-Share
	(Numerator)	(Denominator)	Amount
Net income	\$ 7,420		
Preferred stock dividends	(1,598)		
Preferred stock deemed dividend upon conversion	(1,986)		
Net income available to common stockholders for basic earnings per share	\$ 3,836	30,932,084	\$ 0.12
Effect of other dilutive securities		281,579	
Diluted EPS	\$ 3,836	31,213,663	\$ 0.12

	For The Three Months Ended March 31, 2007		
	Income	Shares	Per-Share
	(Numerator)	(Denominator)	Amount
Basic EPS			
Income available to common stockholders	\$ 3,439	24,042,235	\$ 0.14
Effect of dilutive securities		276,503	
Diluted EPS	\$ 3,439	24,318,738	\$ 0.14

For the three months ended March 31, 2008 and 2007, 1,600 stock-based compensation awards, at a purchase price of \$32.40 per share, were outstanding, but were not included in the computation of diluted EPS because the exercise price of these awards was greater than the average market price of our common stock for the period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

The Company adopted the provisions of FIN 48 on July 1, 2007, with no impact on its financial statements. As a result of the acquisition of Battle Mountain on October 24, 2007, the Company recorded a liability for unrecognized tax benefits of approximately \$0.4 million. The liability for unrecognized tax benefits is reflected within *Other long-term liabilities* on the Company's consolidated balance sheets.

The material income tax returns the Company files are the U.S. federal income tax return, which has a three year statute of limitations, and the Colorado state income tax return, which has a four year statute of limitations. The U.S. federal return for tax years ended on or after June 30, 2004, and the Colorado state return for tax years ended on or after June 30, 2003, are subject to examination by the relevant taxing authority.

Interest and penalties associated with the liability for unrecognized tax benefits is approximately \$47,000 at March 31, 2008, and is included in *Other long-term liabilities* on the Company's consolidated balance sheets.

10. COMMITMENTS AND CONTINGENCIES

Taranis

On November 4, 2005, we entered into a strategic alliance with Taranis for exploration on the Kettukuusikko project located in Finland. During our fiscal year 2006, we funded exploration totaling \$0.5 million in return for a 2.0% NSR royalty. We also have an option to fund up to an additional \$0.6 million. The Company elected to exercise this option in April 2006. If we fund the entire additional amount, we will earn a 51% joint venture interest in the Kettukuusikko project, and we will release our 2.0% NSR royalty. In the event that we do not fully fund the \$0.6 million to earn the joint venture interest, we would retain our 2.0% NSR royalty. As of March 31, 2008, we have funded \$0.5 million of the additional \$0.6 million option, which has been expensed during our fiscal year ended June 30, 2007.

Revett

Under the terms of the Revett purchase agreement relating to the Troy mine, the Company has the right, but not the obligation, to cure any default by Revett under their obligations pursuant to an existing mortgage payable, secured by a promissory note, to Kennecott Montana Company, a third party and prior joint venture interest owner of the Troy mine. In February 2008, Revett satisfied all of the outstanding principal and accrued interest under the promissory note with Kennecott Montana Company.

Casmalia

On March 24, 2000, the United States Environmental Protection Agency (EPA) notified Royal Gold and 92 other entities that they were considered potentially responsible parties (PRPs) under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (Superfund), at the Casmalia Resources Hazardous Waste Disposal Site (the Site) in Santa Barbara County, California. EPA's allegation that Royal Gold was a PRP was based on the disposal of allegedly hazardous petroleum exploration wastes at the Site by Royal Gold's predecessor, Royal Resources, Inc., during 1983 and 1984.

After extensive negotiations, on September 23, 2002, Royal Gold, along with 35 members of the PRP group targeted by EPA, entered into a Partial Consent Decree with the United States of America intending to settle their liability for the United States of America's past and future clean-up costs incurred at the Site. Based on the minimal volume of allegedly hazardous waste that Royal Resources, Inc. disposed of at the Site, our share of the \$25.3 million settlement amount was \$0.1 million, which we deposited into

Table of Contents

ROYAL GOLD, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands except share data, per ounce and per pound amounts)

the escrow account that the PRP group set up for that purpose in January 2002. The funds were paid to the United States of America on May 9, 2003. The United States of America may only pursue Royal Gold and the other PRPs for additional clean-up costs if the United States of America's total clean-up costs at the Site significantly exceed the expected cost of approximately \$272 million. We believe our potential liability with the United States of America to be a remote possibility.

At present, Royal Gold is considering entering into a de minimis settlement with the State of California. The date for accepting a settlement was extended indefinitely by the State of California pending preparation of settlement documentation by the State. Such settlement will result in a final conclusion regarding the Company's responsibility to address the Casmalia Site matter.

11. RELATED PARTY

Crescent Valley Partners, L.P. ("CVP") was formed as a limited partnership in April 1992. It owns a 1.25% net value royalty on production of minerals from a portion of the Pipeline Mining Complex. Denver Mining Finance Company, our wholly-owned subsidiary, is the general partner and holds a 2.0% interest in CVP. In addition, Royal Gold holds a 29.6% limited partner interest in the partnership, while our Executive Chairman, the Chairman of our Audit Committee, and one other member of our board of directors hold an aggregate 35.56% limited partner interest. The general partner performs administrative services for CVP in receiving and processing the royalty payments received from the operator including the disbursement of royalty payments and record keeping for in-kind distributions to the limited partners, including our directors and Executive Chairman.

CVP receives its royalty from the Cortez Joint Venture in-kind. The Company, as well as certain other limited partners, sells its pro-rata share of such gold immediately and receives distributions in cash, while CVP holds gold for certain other limited partners. Such gold inventories, which totaled 27,464 ounces of gold as of March 31, 2008, are held by a third party refinery in Utah for the account of the limited partners of CVP. The inventories are carried at historical cost and are classified as *Inventory - restricted* on the consolidated balance sheets. The carrying value of the gold in inventory was \$10.9 million and \$10.6 million as of March 31, 2008 and June 30, 2007, respectively, while the fair value of such ounces was \$25.6 million and \$17.9 million as of March 31, 2008 and June 30, 2007, respectively. None of the gold currently held in inventory as of March 31, 2008, is attributed to Royal Gold, as the gold allocated to Royal Gold is typically sold within five days of receipt.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide information to assist you in better understanding and evaluating our financial condition and results of operations. We recommend that you read this MD&A in conjunction with our consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q, as well as our 2007 Annual Report on Form 10-K. This MD&A contains forward-looking information. You should review our important note about forward-looking statements following this MD&A.

We refer to GSR, NSR, and other types of royalty interests throughout this MD&A. These terms are defined in our 2007 Annual Report on Form 10-K.

Overview

Royal Gold, together with its subsidiaries, is engaged in the business of acquiring and managing precious metals royalties. Royalties are passive (non-operating) interests in mining projects that provide the right to revenue or production from the project after deducting specified costs, if any.

We seek to acquire existing royalties or to finance projects that are in production or near production in exchange for royalty interests. We are engaged in a continual review of opportunities to acquire existing royalties, to create new royalties through the financing of mine development or exploration, or to acquire companies that hold royalties. We currently, and generally at any time, have acquisition opportunities in various stages of active review, including, for example, our engagement of consultants and advisors to analyze particular opportunities, analysis of technical, financial and other confidential information, submission of indications of interest, participation in preliminary discussions and involvement as a bidder in competitive auctions. We also fund exploration on properties thought to contain precious metals and seek to obtain royalties and other carried ownership interests in such properties through the subsequent transfer of operating interests to other mining companies. Substantially all of our revenues are and will be expected to be derived from royalty interests. We do not conduct mining operations at this time. During the quarter ended March 31, 2008, we focused on the management of our existing royalty interests, the acquisition of royalty interests, and the creation of royalty interests through financing and strategic exploration alliances.

Our financial results are primarily tied to the price of gold and other metals, as well as production from our royalty properties. For the quarter ended March 31, 2008, the price of gold averaged \$925 per ounce compared with an average price of \$650 per ounce for the quarter ended March 31, 2007. The increase in the average gold price, the continued ramp-up of gold production at the Taparko and Leeville mines and production from the recently acquired Battle Mountain Gold Exploration Corp. (Battle Mountain) royalties, contributed to royalty revenue of \$19.5 million during the quarter ended March 31, 2008, compared to royalty revenue of \$11.2 million during the quarter ended March 31, 2007.

Table of Contents**Our Producing Royalty Interests**

Our principal producing royalty interests are shown in the following table:

Mine	Location	Operator	Royalty (Gold unless otherwise stated)
Pipeline Mining Complex	Nevada, USA	Barrick Gold Corporation (Barrick)	GSR1: 0.40%-5.0% sliding-scale GSR GSR2: 0.72% 9.0% sliding-scale GSR, GSR3: 0.71% GSR NVR1 ⁽¹⁾ : 0.39% NVR
Robinson	Nevada, USA	Quadra Mining Ltd. (Quadra)	3.0% NSR (copper, gold, silver, molybdenum)
SJ Claims-Goldstrike	Nevada, USA	Barrick	0.9% NSR
Troy	Montana, USA	Revett Minerals, Inc. (Revett)	7.0% GSR (silver and copper)
Leeville Mining Complex (Leeville North and Leeville South)	Nevada, USA	Newmont Mining Corporation (Newmont)	1.8% NSR
Taparko	Burkina Faso, West Africa	High River Gold Mines Ltd. (High River)	15% GSR (TB-GSR1) and a 0%-10% sliding-scale GSR (TB GSR2)
Bald Mountain	Nevada, USA	Barrick	1.75%-3.5% sliding-scale NSR
Mulatos	Sonora, Mexico	Alamos Gold, Inc. (Alamos)	0.30%-1.5% sliding-scale NSR
El Chanate ⁽²⁾	Sonora, Mexico	Capital Gold, Inc. (Capital Gold)	2.0%-4.0% sliding-scale NSR; 10.0% net profits interest (NPI)
Martha	Santa Cruz Province, Argentina	Coeur d'Alene Mines Corporation (Coeur d'Alene)	2.0% NSR (silver)
Don Mario ⁽³⁾	Chiquitos Province, Bolivia	Orvana Minerals Corp. (Orvana)	3.0% NSR
Williams ⁽³⁾	Marathon, Ontario	Teck Cominco Limited (Teck) / Barrick	0.72% NSR
El Limon ⁽³⁾	El Limon, Nicaragua	Central Sun Mining, Inc. (Central Sun) (95%) and Inversiones Mineras S.A. (Inversiones) (5%)	3.0% NSR

- (1) The NVR1 royalty is a 1.25% NVR royalty. The Company owns 31.6% of the 1.25% NVR (or 0.39%), while our consolidated minority interest owns the remaining portion of the 1.25% NVR.
- (2) Royalties were acquired on February 20, 2008. Please refer to Recent Developments - Marigold and El Chanate Royalty Acquisitions within this MD&A for further discussion.
- (3) Royalty was acquired on October 24, 2007, as part of the acquisition of Battle Mountain. Please refer to Recent Developments Acquisition of Battle Mountain Gold Exploration Corp. within this MD&A for further discussion.

Table of Contents**Our Development Stage Royalty Interests**

We also own the following royalty interests that are in the development stage and are not currently in production:

Mine	Location	Operator	Royalty (Gold unless otherwise stated)
Taparko	Burkina Faso, West Africa	High River	2.0% GSR (TB-GSR3)
Peñasquito	Zacatecas, Mexico	Goldcorp Inc. (Goldcorp)	2.0% NSR (gold, silver, lead and zinc)
Pascua-Lama	Region III, Chile	Barrick	0.16%-1.08% sliding-scale NSR
Gold Hill	Nevada, USA	Kinross Gold Corporation	1.0%-2.0% sliding-scale NSR
Dolores ⁽¹⁾	Chihuahua, Mexico	Minefinders Corporation, Ltd. (Minefinders)	1.25 % NSR 2.0 % NSR (gold and silver) (when commercial production has been producing at 75% of its design capacity for three consecutive months)
Don Mario ⁽¹⁾	Chiquitos Province, Bolivia	Orvana	3.0% NSR
Marigold ⁽²⁾	Nevada, USA	Goldcorp	2.0% NSR
Benso ⁽³⁾	Republic of Ghana, West Africa	Golden Star Resources Ltd. (Golden Star)	1.5% NSR

(1) Royalty was acquired on October 24, 2007, as part of the acquisition of Battle Mountain. Please refer to Recent Developments Acquisition of Battle Gold Exploration Corp. within this MD&A for further discussion.

(2)

Royalty was acquired on February 20, 2008. Please refer to Recent Developments - Marigold and El Chanate Royalty Acquisitions within this MD&A for further discussion.

- (3) Royalty was acquired on December 7, 2007. Please refer to Recent Development - Acquisition of Benso Royalty within this MD&A for further discussion.

Table of Contents**Our Exploration Stage Royalty Interests**

In addition, we own royalty interests in the following exploration stage projects. None of these exploration stage projects contains proven and probable reserves as of December 31, 2007.

Property	Location	Royalty	Owned or Controlled By
Santa Cruz Province	Santa Cruz Province, Argentina	2.0% NSR	Hidefield Gold PLC
Long Valley	California, USA	1.0% NSR	Vista Gold Corporation

Hot Pot ⁽¹⁾	Nevada, USA	1.25% NSR	Pediment
Svetloye	Far East Russia	1.0% NSR	Fortress Minerals Corporation

(1) Royalty was acquired on October 24, 2007, as part of the acquisition of Battle Mountain. Please refer to Recent Developments Acquisition of Battle Gold Exploration Corp. within this MD&A for further discussion.

Table of Contents**Operators Production Estimates by Royalty for Calendar 2008**

We received production estimates from the operators of our producing mines during the first calendar quarter of 2008. The following table show such production estimates for calendar 2008 as well as the actual production reported to us by such operators for the three months ended March 31, 2008. The estimates and production reports are prepared by the operators of the mining properties. We do not participate in the preparation or calculation of the operators estimates or production reports and have not independently assessed or verified the accuracy of such information.

Operators Production Estimate by Royalty for Calendar 2008 and Reported Production for the period January 1, 2008 through March 31, 2008

Royalty	Calendar 2008 Operator s Production Estimate ⁽¹⁾			Reported Production through March 31, 2008 ⁽²⁾		
	Gold (oz.)	Silver (oz.)	Copper (lbs.)	Gold (oz.)	Silver (oz.)	Copper (lbs.)
Pipeline GSR1	316,000			110,543		
Pipeline GSR2	51,000			6,206		
Pipeline GSR3	367,000			116,749		
Pipeline NVR1	242,000			18,952

		2.3				
Peñasquito ⁽³⁾	67,000	million				
		1.0				
Dolores ⁽⁴⁾	40,000	million				
Don Mario ⁽⁵⁾				18,209		
Williams	126,000			30,714		
El Limon	43,000			12,194		
Bald Mountain	28,000			7,353		
Mulatos	120,000			32,081		
El Chanate	50,000			9,026		
Benso	25,000					
		5.0				
Martha ⁽⁶⁾		million			836,361	
			130			38.9
Robinson ⁽⁶⁾	100,000		million	32,313		million
		1.4				2.0
Troy ⁽⁷⁾		million	million		204,368	million

(1) There can be no assurance that these production estimates will be achieved. Please refer to our cautionary language regarding forward looking

statement and to the risk factors identified in our Annual Report on form 10-K and Quarterly Reports on Form 10-Q for information regarding factors that could affect actual results.

- (2) Reported production relates to the amount of metal sales, subject to our royalty interests, for the period January 1, 2008 through March 31, 2008, as reported to us by the operators of the mines.
- (3) Goldcorp announced that they expect their first gold pour at the Peñasquito project during the fourth calendar quarter of 2008.
- (4) Production at Dolores is expected to commence late in the second calendar quarter of 2008.
- (5) The operator at Don Mario did not provide us a production

estimate for
calendar 2008.
In a press
release dated
February 11,
2008, the
operator
reported
production of
approximately
21,000 ounces
of gold for their
first fiscal
quarter of 2008,
which ended
December 31,
2007.

Table of Contents

(6) Recovered metal contained in concentrate and subject to third party treatment charges and recovery losses.

(7) Recovered metal contained in concentrate and subject to third party recovery losses.

Recent Developments**Acquisition of Battle Mountain Gold Exploration Corp.**

On October 24, 2007, we acquired 100% of the issued and outstanding capital stock of Battle Mountain in a transaction whereby our wholly-owned subsidiary, Royal Battle Mountain, Inc., was merged with and into Battle Mountain, with Battle Mountain surviving as a wholly-owned subsidiary of Royal Gold. The aggregate consideration consisted of 1.14 million shares of our common stock and approximately \$3.4 million in cash.

Subject to settlement of the Battle Mountain litigation discussed below, additional consideration of up to an aggregate of 37,418 shares of Royal Gold common stock and approximately \$0.1 million in cash may be paid to Battle Mountain stockholders. On September 13, 2006, an action was filed against Battle Mountain and its former Chairman and Chief Executive Officer, Mark Kucher, by James E. McKay, a former officer and director of Battle Mountain, in the second Judicial Court of the State of Nevada. The action seeks to enforce alleged rights to certain shares of Battle Mountain common stock and options to purchase shares of Battle Mountain common stock pursuant to a stock option agreement and a stock option plan, and unspecified damages. Royal Gold may pay the additional consideration described above to Battle Mountain stockholders depending upon the cost of settling this litigation.

As part of the acquisition of Battle Mountain, we acquired the following thirteen royalty interests in various stages of production, development or exploration. The Company recognized approximately \$1.8 million in royalty revenue associated with the acquired Battle Mountain production stage royalty interests from the date of acquisition through March 31, 2008. Please refer to Note 2 of the notes to consolidated financial statements for further discussion on the acquisition of Battle Mountain.

Battle Mountain Production Stage Royalty Interests

Mine	Location	Owner	Royalty (Gold unless otherwise stated)
Williams ⁽¹⁾	Ontario, Canada	Teck (50%) and Barrick (50%)	0.72% NSR
El Limon ⁽²⁾	El Limon, Nicaragua	Central Sun (95%) and Inversiones (5%)	3.0% NSR
Don Mario ⁽³⁾	Chiquitos Province, Bolivia	Orvana	3.0% NSR

(1)

The Williams mine is an open-pit and underground operation, which produced approximately 290,000 ounces of gold during calendar 2006. With existing proven and probable reserves, the remaining mine life is estimated at five years.

- (2) El Limon is a fully mechanized underground mine and produced approximately 34,000 ounces of gold during calendar 2006. With existing proven and probable reserves, the remaining mine life is estimated at four years.

- (3) The Don Mario mine is an open-pit and underground mine in eastern Bolivia that produced approximately 86,000 ounces of gold as of their fiscal year ended September 30, 2007. With existing proven

and probable
reserves, the
remaining mine
life is estimated
at five years.

Table of Contents*Battle Mountain Development Stage Royalty Interests*

Mine	Location	Owner	Royalty (Gold unless otherwise stated)
Dolores ⁽¹⁾	Chihuahua, Mexico	Minefinders	1.25% NSR (gold) and 2.0% NSR (gold and silver)

(1) In February 2006, Minefinders received an optimized bankable feasibility study and approved the mine construction on the Dolores project. Mine construction is proceeding and the mine is expected to achieve commercial production in the second quarter of calendar 2008. The mine plan estimates a 12 year mine life.

Battle Mountain Exploration Stage Royalty Interests

Mine/Property	Location	Owned or Controlled By	Royalty (Gold)

Night Hawk Lake ⁽⁶⁾	Ontario, Canada	Selkirk (40%), East West (40%), Canadian Golden Dragon (20%)	2.5% NSR

(1) A collection of properties located in the Municipality of Marmato, an established mining district in Colombia, and believed to be owned by Mineros.

(2) The Joe Mann mine produced approximately 14,100 ounces of gold in calendar 2006. The mine is currently under care and maintenance. In September 2007, Campbell Resources Incorporated entered into a memorandum of understanding with Gold Bullion for the sale of the Joe Mann mine property. The existing 1.0% NSR would remain in effect upon completion of the sale.

(3)

Firstgold is evaluating plans to restart the mine at Relief Canyon.

- (4) The Segla project is an advanced exploration project in northern Burkina Faso, West Africa.

- (5) Battle Mountain acquired two royalties amounting to a 4.0% NSR on the Lluvia de Oro property, a former open-pit gold and silver mine, not currently in production, located in Sonora, Mexico. The mining concessions to which the royalties apply are believed to be held by Atotonilco Construcciones, S.A. de C.V., subject to the right of a subsidiary of Tara Gold to acquire the concessions. Tara Gold has entered into an agreement with Columbia Metals Corporation, pursuant

exploration
properties.

Acquisition of Benso Royalty

On December 7, 2007, Royal Gold paid \$1.875 million to FairWest Energy Corporation (FairWest) in exchange for a 1.5% NSR royalty on gold produced from the Benso concession in the Western Region of the Republic of Ghana, West Africa. The Benso concession, controlled by Golden Star Resources Ltd. (Golden Star), is located approximately 25 miles south of Golden Star's Wassa mine. Golden Star has reported that, as of June 15, 2007, the project contains 252,000 ounces of proven reserves. The operator expects production to commence during the third quarter of calendar 2008. The Benso royalty interest is classified as a development stage royalty interest on the Company's consolidated balance sheets.

Marigold and El Chanate Royalty Acquisitions

On February 20, 2008, we acquired three royalties from AngloGold Ashanti (U.S.A.) Exploration Inc. (AngloGold), a wholly-owned subsidiary of Anglo Gold Ashanti North America Inc., for \$13.75 million. The first royalty is a 2.0% NSR royalty on the Marigold mine, located on the Battle Mountain-Eureka trend in Nevada, and operated by Goldcorp. The second royalty is a 2.0-4.0% sliding-scale NSR royalty on the El Chanate mine, located in Sonora, Mexico, and operated by Capital Gold. The third royalty is a 10.0% NPI royalty, also on the El Chanate mine. The sliding-scale royalty is capped once payments of approximately \$17.0 million have been received while the 10.0% NPI royalty is capped at \$1.0 million.

The Marigold mine is a large scale, open-pit, heap leach operation. The 2.0% NSR royalty interest burdens the majority of six sections of land, containing a number of open-pits, but does not cover the current mining area in the Basalt/Antler area. Approximately 38% of the current reserves are covered by this royalty. According to Goldcorp's December 31, 2006, reserve statement, proven and probable reserves include 102.2 million tons of ore, at a grade of 0.021 ounces per ton, containing about 2.1 million ounces of gold. We estimate this royalty will begin generating royalty revenue in calendar 2011 when mining operations move into areas covered by our royalty interests. The Marigold 2.0% NSR royalty is classified as a development stage royalty interest on the Company's consolidated

balance sheets.

According to Capital Gold's reserve statement on September 4, 2007, El Chanate contains proven and probable reserves of 43.5 million tons of ore, at a grade of 0.019 ounces per ton, containing about 832,000 ounces of gold. The mine commenced production in mid-2007 and Capital Gold estimates production of approximately 60,000 ounces of gold in calendar 2008, with a potential expansion to 100,000 ounces per year in calendar 2009. The El Chanate sliding-scale royalty pays at a rate of 2.0% when the average gold price is below \$300 per ounce, 3.0% when the gold price is between \$300 and \$350 per ounce, and 4.0% when the gold price is above \$350 per ounce. Including royalty payments made to AngloGold, there have been cumulative payments made on the sliding-scale NSR royalty of \$0.7 million, resulting in \$16.3 million remaining under the \$17.0 million cap as of March 31, 2008. There have been no payments made on the NPI royalty as of March 31, 2008. The El Chanate sliding-scale and NPI royalties are classified as production stage royalty interests on the Company's consolidated balance sheets.

Table of Contents**Results of Operations****Quarter Ended March 31, 2008, Compared to Quarter Ended March 31, 2007**

For the quarter ended March 31, 2008, we recorded net earnings of \$7.4 million, or \$0.12 per basic share and diluted share (after adjustments for preferred stock dividends and deemed dividends), as compared to net earnings of \$3.4 million, or \$0.14 per basic and diluted share, for the quarter ended March 31, 2007. An adjustment to net earnings of approximately \$3.6 million, or \$0.12 per basic and diluted share, associated with the preferred stock dividends and deemed dividends was recorded during the quarter ended March 31, 2008.

For the quarter ended March 31, 2008, we recognized total royalty revenue of \$19.5 million, at an average gold price of \$925 per ounce, compared to royalty revenue of \$11.2 million, at an average gold price of \$650 per ounce for the quarter ended March 31, 2007. Royalty revenue and the corresponding production, attributable to our royalty interests, for the quarter ended March 31, 2008 compared to the quarter ended March 31, 2007 is as follows:

Table of Contents

The increase in royalty revenue for the quarter ended March 31, 2008, compared with the quarter ended March 31, 2007, resulted from an increase in the average gold price, increased production at Leeville and the Pipeline Mining Complex, the continued ramp up of gold production at the Taparko mine and production from the recently acquired Battle Mountain production stage royalty interests. The continued ramp up of production at the Taparko mine contributed approximately \$3.1 million in royalty revenue during the period, while production from the recently acquired Battle Mountain production stage royalty interests contributed approximately \$1.1 million in royalty revenue during the period. The increase in royalty revenue was offset slightly by decreases in production volume at the SJ claims and Troy mine royalties.

Taparko gold production increased significantly during the quarter but still fell short of the operator's projections as misalignment of the mill drive-train caused low mill availability. All components within the drive-train were realigned during the quarter and the mill is now approaching design capacity and availability. The mill operation at Taparko is increasing its critical spare parts inventory and is working through production ramp-up issues in an effort to obtain continuous and sustained production. In addition to lower gold production at Taparko, our royalty revenue was further impacted during the period due to doré inventory in transit at March 31, 2008. The Company is entitled to royalty revenue from Taparko during the period in which the doré is sold.

Cost of operations expenses increased to \$1.0 million for the quarter ended March 31, 2008, from \$0.7 million for the quarter ended March 31, 2007. The increase was primarily due to an increase in the Nevada Net Proceeds Tax expense, which resulted from an increase in royalty revenue from the Pipeline Mining Complex, Leeville and Robinson royalties.

General and administrative expenses increased to \$2.0 million for the quarter ended March 31, 2008, from \$1.6 million for the quarter ended March 31, 2007. The increase was primarily due to an increase in non-recurring general corporate costs, associated with the preferred stock offering, of approximately \$0.2 million and an increase in employee related costs of approximately \$0.1 million.

Exploration and business development expenses increased to \$0.8 million for the quarter ended March 31, 2008, from \$0.7 million for the quarter ended March 31, 2007. The increase is due to an increase in legal and consulting services for business development activities during the period.

The Company recorded total non-cash stock compensation expense related to our equity compensation plans of \$0.7 million for the quarter ended March 31, 2008, compared to \$0.4 million for the quarter ended March 31, 2007.

Our non-cash stock compensation is allocated among cost of operations, general and administrative, and exploration and business development in our consolidated statements of operations and comprehensive income. Please refer to Note 6 of the notes to consolidated financial statements for further discussion of the allocation of non-cash stock compensation for the quarter ended March 31, 2008 and 2007.

Depreciation, depletion and amortization increased to \$5.9 million for the quarter ended March 31, 2008, from \$2.6 million for the quarter ended March 31, 2007. The increase was primarily due to the continued ramp up of gold production at the Taparko mine, which contributed approximately \$1.9 million in additional depletion during the period. Depletion from the recently acquired Battle Mountain producing royalties also contributed approximately \$0.8 million in additional depletion during the period.

Interest and other income increased to \$1.7 million for the quarter ended March 31, 2008, from \$0.5 million for the quarter ended March 31, 2007. The increase is primarily due to an increase in funds available for investing over the prior period, which is due primarily to the preferred stock offering completed in November 2007, as discussed below in "Liquidity and Capital Resources" within this MD&A. The increase was partially offset by lower interest rates on our cash investments when compared to the prior period.

Table of Contents

During the quarter ended March 31, 2008, we recognized current and deferred tax expense totaling \$3.6 million compared with \$1.7 million during the quarter ended March 31, 2007. This resulted in an effective tax rate of 32.5% in the current period, compared with 32.9% in the prior period.

Nine Months Ended March 31, 2008, Compared to Nine Months Ended March 31, 2007

For the nine months ended March 31, 2008, we recorded net earnings of \$18.2 million, or \$0.45 per basic share and diluted share (after adjustments for preferred stock dividends and deemed dividend), as compared to net earnings of \$14 million, or \$0.59 per basic share and diluted share, for the nine months ended March 31, 2007. An adjustment to net earnings of approximately \$4.8 million, or \$0.16 per basic and diluted share, associated with the preferred stock dividends and deemed dividends was recorded during the nine months ended March 31, 2008.

For the nine months ended March 31, 2008, we recognized total royalty revenue of \$47.7 million, at an average gold price of \$796 per ounce, compared to royalty revenue of \$34.0 million, at an average gold price of \$629 per ounce for the nine months ended March 31, 2007. Royalty revenue and the corresponding production, attributable to our royalty interests, for the nine months ended March 31, 2008, compared to the nine months ended March 31, 2007 is as follows:

Royalty Revenue and Production Subject to Our Royalty Interests

Table of Contents

- (2) Receipt of royalty revenue commenced during the quarter ended September 30, 2007.
- (3) Royalty acquired on October 24, 2007, as part of the acquisition of Battle Mountain. Recognized royalty revenue is from the acquisition date through March 31, 2008.
- (4) Royalty was acquired on February 20, 2008. Please refer to Recent Developments Marigold and El Chanate Royalty Acquisitions within this MD&A for further discussion.

The increase in royalty revenue for the nine months ended March 31, 2008, compared with the nine months ended March 31, 2007, primarily resulted from an increase in the average gold price, an increase in production at Robinson, Leeville and the Pipeline Mining Complex, and the commencement of gold production at the Taparko mine during the first fiscal quarter of 2008. The continued ramp-up of production at Taparko resulted in approximately \$4.6 million of additional royalty revenue during the period. Production from the recently acquired Battle Mountain production stage royalties also contributed approximately \$1.8 million in additional royalty revenue during the period. The increase in royalty revenue for the nine month period was offset slightly by decreases in production volume at the SJ claims and Troy mine royalties.

Taparko gold production increased significantly during our third fiscal quarter but still fell short of the operator's projections as misalignment of the mill drive-train caused low mill availability. All components within the drive-train were realigned during our third fiscal quarter and the mill is now approaching design capacity and availability. The mill operation at Taparko is increasing its critical spare parts inventory and is working through production ramp-up issues in an effort to obtain continuous and sustained production. In addition to lower gold production at Taparko, our royalty revenue was further impacted during the period due to doré inventory in transit at March 31, 2008. The

Company is entitled to royalty revenue from Taparko during the period in which the doré is sold.

Cost of operations increased to \$2.8 million for the nine months ended March 31, 2008, compared to \$2.3 million for the nine months ended March 31, 2007. The increase was primarily due to an increase in the Nevada Net Proceeds Tax expense, which resulted primarily from an increase in royalty revenue from the Pipeline Mining Complex, Robinson and Leeville royalties.

General and administrative expenses increased to \$5.5 million for the nine months ended March 31, 2008, from \$4.2 million for the nine months ended March 31, 2007. The increase was primarily due to an increase in non-recurring general corporate costs, associated with the preferred stock offering, of approximately \$0.4 million. An increase in accounting, tax and legal expenses of approximately \$0.4 million and an increase in employee related expenses of approximately \$0.2 million also contributed to the overall increase.

Exploration and business development expenses increased to \$3.3 million for the nine months ended March 31, 2008, from \$1.6 million for the nine months ended March 31, 2007. The increase is due to an increase in legal and consulting services for business development activities during the period.

The Company recorded total non-cash stock compensation expense related to our equity compensation plans of \$2.1 million for the nine months ended March 31, 2008, compared to \$1.7 million for the nine months ended March 31, 2007. Our non-cash stock compensation is allocated among cost of operations, general and administrative, and exploration and business development in our consolidated statements of operations and comprehensive income. Please refer to Note 6 of the notes to consolidated financial statements for further discussion of the allocation of non-cash stock compensation for the nine months ended March 31, 2008 and 2007.

Depreciation, depletion and amortization increased to \$11.9 million for the nine months ended March 31, 2008, from \$5.8 million for the nine months ended March 31, 2007. The initial and continued ramp up of gold production at the Taparko mine during the period contributed to additional depletion of approximately \$2.8 million. Increased production at the Leeville and Robinson mines resulted in additional depletion of approximately \$0.8 million, while an increase in depletion rates at Troy resulted in

Table of Contents

additional depletion of approximately \$0.4 million. Finally, the acquisition of the Battle Mountain production stage royalties also contributed to additional depletion of approximately \$1.4 million during the period.

Interest and other income increased to \$5.7 million for the nine months ended March 31, 2008, from \$2.4 million for the nine months ended March 31, 2007. The increase is primarily due to an increase in funds available for investing over the prior period, which is due primarily to the preferred stock offering completed in November 2007, as discussed below in Liquidity and Capital Resources within this MD&A. The increase was partially offset by lower interest rates on our cash investments when compared to the prior period.

Interest and other expense increased to \$1.5 million for the nine months ended March 31, 2008, from \$0.8 million for the nine months ended March 31, 2007. The increase is due to an increase in interest paid on our note payable of approximately \$0.7 million during the period.

During the nine months ended March 31, 2008, we recognized current and deferred tax expense totaling \$8.8 million compared with \$6.6 million during the nine months ended March 31, 2007. This resulted in an effective tax rate of 32.6% in the current period, compared with 32.1% in the prior period. The increase in our effective tax rate is the result of an increase in the amount of foreign losses for which no tax benefit is currently recognized as well as an increase in our non-cash stock compensation expense associated with incentive stock options for which there is no tax deduction.

Liquidity and Capital Resources

Overview

At March 31, 2008, we had current assets of \$199.9 million compared to current liabilities of \$9.0 million for a current ratio of 22 to 1. This compares to current assets of \$95.7 million and current liabilities of \$4.7 million at June 30, 2007, resulting in a current ratio of approximately 20 to 1. Our current ratio increased during the period primarily due to net proceeds received from the issuance of preferred stock related to our November 2007 preferred stock offering, discussed below, of approximately \$111.1 million as well as cash received during the period from royalty income of approximately \$36.4 million. This increase in cash was partially offset by cash paid as part of the acquisition of Battle Mountain of approximately \$3.4 million, cash paid for common and preferred stock dividends of approximately \$8.7 million and cash paid out during the period for royalty acquisitions of approximately \$15.9 million.

During the nine months ended March 31, 2008, liquidity needs were met from \$47.7 million in royalty revenues (including \$0.7 million of minority interest royalty revenue), net proceeds from issuance of preferred stock related to our November 2007 preferred stock offering of approximately \$111.1 million, our available cash resources and interest and other income of \$5.7 million. Also during our nine months ended March 31, 2008, our total assets increased to \$540.3 million compared to \$356.6 million at June 30, 2007. The increase was primarily attributable to net proceeds received from our November 2007 preferred stock offering of approximately \$111.1 million and the preliminary allocation of approximately \$85.5 million in royalty interests in mineral properties as part of the Battle Mountain acquisition.

We believe that our current financial resources and funds generated from operations will be adequate to cover anticipated expenditures for general and administrative expense costs, exploration and business development costs, and capital expenditures for the foreseeable future. Our current financial resources are also available for royalty acquisitions and to fund dividends. Our capital requirements are primarily affected by our ongoing acquisition activities. We have used both cash and our common stock as consideration in our acquisitions. We currently, and generally at any time, have acquisition opportunities in various stages of active review and may enter into one or more acquisition transactions at any time. In the event we enter into a significant royalty or other acquisition, we may need to seek additional debt or

Table of Contents

equity financing. This could have a dilutive effect on our existing shareholders and impose debt burdens on the Company.

Recent Liquidity and Capital Resource Developments

Acquisition of Battle Mountain Gold Exploration Corp.

On October 24, 2007, we acquired 100% of the issued and outstanding capital stock of Battle Mountain in a transaction whereby our wholly-owned subsidiary, Royal Battle Mountain, Inc., was merged with and into Battle Mountain, with Battle Mountain surviving as a wholly-owned subsidiary of Royal Gold, for aggregate consideration consisting of 1.14 million shares of our common stock and approximately \$3.4 million in cash. At the time of acquisition, Battle Mountain had approximately \$1.4 million in cash. Please refer to Note 2 of the notes to consolidated financial statements for further discussion on the acquisition of Battle Mountain.

Mandatory Convertible Preferred Stock Offering

On November 9, 2007, the Company completed an offering of 1,150,000 shares of 7.25% mandatory convertible preferred stock (the Preferred Stock) at a price to the public of \$100.00 per share, less underwriter discounts and other related expenses, resulting in net proceeds of \$111.1 million. Dividends on the Preferred Stock were payable on a cumulative basis when, as and if declared by our board of directors at an annual rate of 7.25% per share on the liquidation preference of \$100 per share. We were to pay dividends in cash, common stock or a combination thereof, on February 15, May 15, August 15 and November 15 of each year to and including November 15, 2010, commencing on February 15, 2008.

Each share of the Preferred Stock was to automatically convert on November 15, 2010, into between 2.8335 and 3.4002 shares of our common stock, subject to anti-dilution adjustments. At any time prior to November 15, 2010, holders may have elected to convert each share of the Preferred Stock into shares of our common stock at the minimum conversion rate of 2.8335 shares of common stock per share of the Preferred Stock, subject to anti-dilution adjustments. At any time prior to May 15, 2008, we may have, at our option, caused the conversion of all, but not less than all, of the Preferred Stock into shares of our common stock at the provisional conversion rate described within the Preferred Stock offering. However, we may not have elected to exercise our provisional conversion right if, on or prior to May 15, 2008, we completed a material transaction involving the acquisition of assets or a business with a purchase price of \$100 million or more.

On January 10, 2008, the Company's board of directors declared the regular quarterly dividend for the first dividend period of \$1.9333 per share of the Preferred Stock. The dividend was paid on February 15, 2008, to preferred shareholders of record at the close of business on February 1, 2008. The preferred dividend of \$2.2 million was paid in cash.

On January 25, 2008, the Company announced that it exercised its provisional conversion right for all of the issued and outstanding shares of its Preferred Stock. As part of the provisional conversion right, each share of the Preferred Stock was converted into shares of our common stock on March 10, 2008 (the Conversion Date), based on the average closing price per common share on the Nasdaq Global Select Market (Nasdaq) over a 20 consecutive trading day period, which ended on March 5, 2008, as provided in the Certificate of Designations of the Preferred Stock. The average closing price over the 20 consecutive trading day period was \$29.78 and each outstanding share of Preferred Stock was automatically converted into 3.4589 shares of common stock on the Conversion Date. The Company issued 3,977,683 shares of its common stock upon conversion of the Preferred Stock.

In connection with the conversion, all accrued and unpaid dividends on the Preferred Stock up to the Conversion Date were paid in cash at \$0.5035 per share of Preferred Stock, or \$0.6 million, to holders of record on the Conversion Date. Trading of the Preferred Stock on the Nasdaq was suspended at the close

Table of Contents

of business on March 5, 2008, and the Preferred Stock was de-listed on March 24, 2008. The conversion of the Preferred Stock into shares of our common stock will simplify our capital structure and will significantly reduce our cost of capital due to the elimination of the 7.25% after tax Preferred Stock dividend payment. The Company applied a contingent beneficial conversion feature model to account for the provisional conversion of the Preferred Stock during its third fiscal quarter of 2008, which resulted in the Company recognizing a deemed dividend of \$2.0 million for the three and nine months ended March 31, 2008. There were no tax consequences to the Company upon conversion of the Preferred Stock.

Common Stock Dividend Increase

On November 14, 2007, the Company announced that its board of directors increased the Company's annual (calendar year) common stock dividend from \$0.26 per share to \$0.28 per share, payable on a quarterly basis of \$0.07 per share of common stock, beginning with the quarterly dividend paid on January 18, 2008.

Amendment to Credit Facility

On January 23, 2008, the Company entered into an amendment of its existing credit facility with HSBC Bank USA, National Association. The amendment extends the maturity date of the credit facility two years from December 31, 2010 to December 31, 2012. The amendment also updated the assumptions used in the calculation of the borrowing base, which included an increase in the metal price assumption of gold and added a metal price assumption for silver. The borrowing base calculation is recalculated as of April 15 and October 15 each year. As of March 31, 2008, the Company's borrowing capacity under the credit facility was the full \$80 million under the credit facility. As of April 15, 2008, the Company's borrowing capacity under the credit facility was \$70.8 million. Please refer to Note 5 of the notes to the consolidated financial statements for a further discussion on the credit facility.

Stock Repurchase Program

On January 25, 2008, the Company announced that its board of directors authorized the repurchase of up to \$30.0 million of its common stock in the open market through March 31, 2008. The timing and number of shares repurchased through March 31, 2008, depended on market conditions and other corporate considerations. As of March 31, 2008, the Company repurchased 196,986 common shares, at an average price of \$28.00 per common share for a total cost of approximately \$5.5 million. The common share repurchases were funded through cash and cash equivalents. The total cost to reacquire the 196,986 common shares is included in *Treasury Stock* on the Company's consolidated balance sheets as of March 31, 2008. The repurchase program, pursuant to the January 25, 2008, announcement, ended on March 31, 2008.

On April 2, 2008, the Company determined that it will cancel the 196,986 common shares repurchased, pursuant to the January 25, 2008, repurchase announcement. The 196,986 common shares reacquired will be returned to the Company's authorized but unissued amount of common stock.

Recently Issued Accounting Pronouncements

Please refer to Note 1 of the notes to consolidated financial statements for a discussion on recently issued accounting pronouncements.

Forward-Looking Statements

Cautionary Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995. With the exception of historical matters, the matters discussed in this report are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from projections or estimates contained herein. Such forward-looking statements include statements regarding projected

Table of Contents

production estimates and estimates of timing of commencement of production from the operators of our royalty properties; the adequacy of financial resources and funds to cover anticipated expenditures for general and administrative expenses as well as costs associated with exploration and business development and capital expenditures, and our expectation that substantially all our revenues will be derived from royalty interests. Factors that could cause actual results to differ materially from these forward-looking statements include, among others:

changes in gold and other metals prices;

the production at or performance of our producing royalty properties;

decisions and activities of the operators of our royalty properties;

the ability of operators to bring projects into production and operate in accordance with feasibility studies;

unanticipated grade and geological, metallurgical, processing or other problems at the properties;

changes in project parameters as plans of the operators are refined;

changes in estimates of reserves and mineralization by the operators of our royalty properties;

economic and market conditions;

future financial needs;

federal, state and foreign legislation governing us or the operators;

the availability of royalties for acquisition or other acquisition opportunities and the availability of debt or equity financing necessary to complete such acquisitions;

our ability to make accurate assumptions regarding the valuation and timing and amount of royalty payments when making acquisitions;

risks associated with conducting business in foreign countries, including application of foreign laws to contract and other disputes, environmental laws and enforcement and uncertain political and economic environments;

risks associated with issuances of substantial additional common stock in connection with acquisitions or otherwise; and

risks associated with the incurrence of substantial additional indebtedness if we take such actions in connection with acquisitions or otherwise.

as well as other factors described elsewhere in our Annual Report on Form 10-K and other reports filed with the Securities and Exchange Commission (SEC). Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth in, contemplated by or underlying the forward-looking statements. We disclaim any obligation to update any forward-looking statement made herein. Readers are cautioned not to put undue reliance on forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our earnings and cash flow are significantly impacted by changes in the market price of gold and other metals. Gold and other metal prices can fluctuate widely and are affected by numerous factors, such as demand, production levels, economic policies of central banks, producer hedging, world political and economic events, and the strength of the U.S. dollar relative to other currencies. Please see Volatility in gold and other metal prices may have an adverse impact on the value of our royalty interests and reduce our royalty revenues, under Part I, Item 1A of our 2007 Annual Report on Form 10-K for more information that can affect gold and other prices as well as historical gold, silver and copper prices.

During the nine months period ended March 31, 2008, we reported royalty revenues of \$47.7 million, with an average gold price for the period of \$796 per ounce and an average copper price of \$3.43 per pound. Approximately 76% of our total recognized revenues for the nine months ended March 31, 2008, were attributable to gold sales from our gold producing royalty interests, as shown within the MD&A. For the nine months ended March 31, 2008, if the price of gold had averaged higher or lower by \$50 per ounce, we would have recorded an increase or decrease in revenues of approximately \$2.3 million, respectively. Approximately 21% of our total recognized revenues for the nine months ended March 31, 2008, were attributable to copper sales at Robinson and Troy. For the nine months ended March 31, 2008, if the price of copper had averaged higher or lower by \$0.25 per pound, we would have recorded an increase or decrease in revenues of approximately \$0.8 million, respectively.

ITEM 4. CONTROLS AND PROCEDURES

The Company's management, with the participation of the President and Chief Executive Officer and Chief Financial Officer and Treasurer of the Company, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based on such evaluation, the Company's President and Chief Executive Officer and Chief Financial Officer and Treasurer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the required time periods and are designed to ensure that information required to be disclosed in its reports is accumulated and communicated by the Company's management, including the President and Chief Executive Officer and Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure.

Even an effective internal control system, no matter how well designed, has inherent limitations, including the possibility of the circumvention or overriding of controls. Therefore, the Company's internal control over financial reporting can provide only reasonable assurance with respect to the reliability of the Company's financial reporting and financial statement preparation.

There has been no change in the Company's internal control over financial reporting during the three months ended March 31, 2008, that has materially affected, or that is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 1A. RISK FACTORS

Information regarding risk factors appears in Item 2 MD&A Forward-Looking Statements, and various risks faced by us are also discussed elsewhere in Item 2 MD&A of this Quarterly Report on Form 10-Q. In addition, risk factors are included in Part I, Item 1A of our 2007 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information regarding repurchases by the Company of its common stock during the three month period ended March 31, 2008:

ISSUER PURCHASES OF EQUITY SECURITIES

(In thousands except share and per share data)

Period		Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share ⁽²⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽³⁾
January 25, 2008	January 31, 2008				\$ 30,000
February 1, 2008	February 29, 2008	145,827	\$ 27.86	145,827	\$ 25,936
March 1, 2008	March 31, 2008	51,159	\$ 28.38	51,159	\$ 24,483
Total		196,986	\$ 28.00	196,986	\$ 24,483

(1) Shares have only been repurchased through the Company's publicly announced repurchased program.

(2) Average share price excludes brokerage fees.

(3) The dollar value of shares reported in the table is covered by a board of director authorization to

repurchase up to
\$30.0 million of
the Company's
common stock
as publicly
announced on
January 25,
2008. The
authorization to
repurchase up to
\$30.0 million of
the Company's
common stock
expired on
March 31, 2008.
