REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Retirement Plans Administrative Committee  
Fulton Financial Corporation 401(k) Retirement Plan  
Lancaster, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of Fulton Financial Corporation 401(k) Retirement Plan, (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

FULTON FINANCIAL CORPORATION  
401(k) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Fulton Financial Corporation 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective January 1, 2008, the Plan name was changed from Fulton Financial Corporation Profit Sharing Plan.

General: Effective January 1, 2008, the Plan's eligibility was expanded to include substantially all employees of Fulton Financial Corporation (the "Company" or the "Employer") and its subsidiaries, except for those employees who are participants in the Columbia Bank 401(k) Plan or the Resource Bank Stock and 401(k) Savings Plan. Effective January 1, 2009, employees who were participants of the Resource Bank Stock and 401(k) Savings Plan became eligible to participate in the Plan. Eligible employees who have completed 90 days of service and who have attained age 21 may make employee contributions to the Plan. To receive an employer matching contribution, an employee must complete a year of service and attain age 21. The Plan provides for retirement, death, and disability benefits. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

In connection with the mergers of certain qualified defined contribution plans into the Plan, the Plan shall receive and accept certain promissory notes from unpaid loans previously made by these qualified plans to participants.

Contributions:

The employer profit sharing contribution is discretionary and is allocated uniformly on the basis of compensation. To be eligible for an employer profit sharing contribution, an employee had (1) to be hired prior to July 1, 2007 and be eligible to participate in this Plan under the eligibility requirements in effect on that date or (2) to be an active participant in the Fulton Financial Affiliates Defined Benefit Pension Plan as of December 31, 2007.

Eligible employees may elect to contribute 1% to 50% of eligible compensation not to exceed the maximum allowed by law. Any participant who has attained age 50 by the end of the Plan year may make catch-up contributions in accordance with Code Section 414(v).

Effective January 1, 2008, the employer shall make a matching contribution equal to 100% of the first 5% of compensation deferred. Participants direct the investment of their participant and employer contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution, an allocation of the Company contributions and Plan earnings/(losses). Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

FULTON FINANCIAL CORPORATION  
401(k) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are immediately vested in their voluntary, employer matching, and rollover contributions plus actual earnings thereon. Vesting in the remainder of the accounts is based on years of service. Participants become 100% vested after completion of five years of credited service.

Effective January 1, 2009, Resource Bank employer contributions made prior to January 1, 2009 shall vest at a two year cliff vesting schedule.

Payment of Benefits: Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Benefit payments are distributed as either a lump sum or in installment payments over a period. The period over which benefits are paid is not to exceed either the life expectancy of the participant or the joint life expectancies of the participant and the participant's beneficiary.

Forfeitures: Forfeitures represent the nonvested portion of the participant's account plus earnings thereon that are not fully distributable to participants who terminate employment before they are 100% vested. Forfeitures are used to reduce the future contributions to the Plan. As of December 31, 2009 and 2008, there were no forfeitures available. Forfeitures used to reduce the employer contributions for the plan years ended December 31, 2009 and 2008 were \$116,156 and \$436,430, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Method: The Plan's financial statements are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risk and Uncertainties: The Plan provides for various investment options including any combination of certain mutual funds, common stock of the Company, or collective trust funds. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

NOTES TO FINANCIAL STATEMENTS  
December 31, 2009 and 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments other than participant loans are reported at fair value. Participant loans are reported at amortized cost. The fair value of participant loans is not practicable to estimate due to restrictions placed on the transferability of the loans. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The fair values of mutual fund investments and publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs). The fair value of participation units held by the Plan in a collective trust is based on the net asset value, as reported by the managers of the collective trust and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair value of the collective trust is classified within level 2 of the fair value hierarchy. The investment objective of the collective trust is to provide equity appreciation consistent with preservation of principal with reasonable income. The collective trust holds a diversified portfolio of common stocks and a money market fund. The collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.
