Notice of Annual Meeting of Stockholders
To Be Held on May 6, 2009

DEAR STOCKHOLDERS:

We cordially invite you to attend the Annual Meeting of Stockholders of Regal Entertainment Group, which will be held on May 6, 2009 at 9:30 a.m. (Eastern Time) at our Pinnacle Stadium 18 at Turkey Creek theatre, located at 11240 Parkside Drive, Knoxville, Tennessee 37922 for the following purposes:

1. To elect three Class I directors to serve for three-year terms on our board of directors;
2. To ratify the Audit Committee's selection of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2009; and
3. To transact such other business as may properly come before the Annual Meeting of Stockholders or any adjournments or postponements thereof.

These items of business are more fully described in the Proxy Statement accompanying this notice.

Our board of directors has fixed the close of business on Wednesday, March 11, 2009 as the record date for determining the stockholders entitled to notice of and to vote at the Annual Meeting of Stockholders or at any adjournment or postponement thereof. Therefore, stockholders who owned shares of our Class A or Class B common stock at the close of business on that date are entitled to notice of and to vote at the meeting. A list of these stockholders will be available at the time and place of the meeting and, during the ten days prior to the meeting, at the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918.

Only stockholders and persons holding proxies from stockholders may attend the meeting. If your shares are registered in your name, you should bring your proxy card and a proper form of identification such as your driver's license to the meeting. If your shares are held in the name of a broker, trust, bank or other nominee, you will need to bring a proxy or letter from that broker, trust, bank or other nominee that confirms you are the beneficial owner of those shares.

In order that your shares may be represented at the meeting if you are not personally present, you are urged to vote your shares by telephone or Internet, or, if you have received hard copy materials, by completing, signing and dating the enclosed proxy card and returning it promptly in the accompanying postage prepaid (if mailed in the U.S.) return envelope.

**ALL STOCKHOLDERS ARE EXTENDED A CORDIAL INVITATION
TO ATTEND THE ANNUAL MEETING OF STOCKHOLDERS**

By Order of the Board of Directors,

Knoxville, Tennessee
April 17, 2009

Peter B. Brandow
Executive Vice President,
General Counsel and Secretary

PROXY STATEMENT

GENERAL INFORMATION

This proxy statement is provided in connection with the solicitation of proxies by the board of directors of Regal Entertainment Group, a Delaware corporation (the "Company" or "Regal"), for use at the Annual Meeting of Stockholders of the Company, to be held on May 6, 2009 at 9:30 a.m. (Eastern Time), or any adjournment or postponement thereof, at our Pinnacle Stadium 18 at Turkey Creek theatre, located at 11240 Parkside Drive, Knoxville, Tennessee 37922 (the "Annual Meeting").

Pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"), we are providing access to our proxy materials, which include our notice of annual meeting, proxy statement and summary annual report over the Internet at www.proxyvote.com. These proxy materials are available free of charge.

This proxy statement and the accompanying proxy are first being sent or given to stockholders beginning on or about April 17, 2009. The costs of this proxy solicitation will be borne by the Company, which maintains its principal executive offices at 7132 Regal Lane, Knoxville, Tennessee 37918.

THE PROXY

A stockholder giving the electronic proxy by telephone or over the Internet or by mailed proxy card may revoke it at any time before it is used by giving written notice of revocation to the Secretary of the Company, by delivering to the Secretary of the Company a duly executed proxy bearing a later date or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, in and of itself, revoke a proxy. Proxies provided by telephone or over the Internet or by mailed proxy card, unless revoked, will be voted at the Annual Meeting as directed by you, or, in the absence of such direction, in favor of Proposals 1 and 2 at the Annual Meeting.

VOTING AT THE ANNUAL MEETING

The only voting securities of the Company are its shares of Class A and Class B common stock (collectively, the "Common Stock"). Only stockholders of record of our Common Stock at the close of business on March 11, 2009, the date selected as the record date by our board of directors, are entitled to vote at the Annual Meeting. The holders of Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to ten votes per share on each matter submitted to a vote of stockholders. The shares of Class A and Class B common stock will vote together as a single class on all matters to be considered at the Annual Meeting. At the close of business on March 11, 2009, 130,132,356 shares of Class A common stock and 23,708,639 shares of Class B common stock were outstanding and entitled to vote.

The holders of a majority of the voting power of the Common Stock entitled to vote at the Annual Meeting and who are present, in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting or any adjournment or postponement thereof. Abstentions and broker non-votes (which are explained below) are counted as present to determine whether there is a quorum

Table of Contents

for the Annual Meeting. Directors are elected by a plurality of the affirmative votes cast by the stockholders present at the Annual Meeting in person or by proxy, and entitled to vote. Cumulative voting is not permitted in the election of directors. The affirmative vote of the holders of a majority of the voting power of the Common Stock present at the Annual Meeting, in person or by proxy, and entitled to vote, is necessary for ratification of the Company's auditors. If ratification of the auditors is not approved, our Audit Committee of the board of directors will review its future selection of auditors.

Abstentions and broker non-votes are not relevant to the election of directors. Abstentions on the proposal for the ratification of Company's auditors will have the effect of votes against those proposals. Broker non-votes will have no effect on the vote for the ratification of auditors. A "broker non-vote" occurs if you do not provide the record holder of your shares (usually a bank, broker, or other nominee) with voting instructions on a matter and the holder is not permitted to vote on the matter without instructions from you under the New York Stock Exchange (the "NYSE") rules.

Unless you indicate otherwise on your proxy card, the persons named as your proxies will vote your shares: FOR all of the nominees for director named in this proxy statement and FOR ratification of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2009.

PROPOSAL 1. ELECTION OF CLASS I DIRECTORS

Regal's business and affairs are managed under the direction of our board of directors, which is currently comprised of nine members. The size of our board of directors may be fixed from time to time by our board of directors as provided in our bylaws. Pursuant to our amended and restated certificate of incorporation, our board of directors is divided into three classes, designated as Class I, Class II and Class III, and the members of each class are elected to serve a three-year term, with the terms of office of each class ending in successive years.

On September 5, 2007, Mr. Charles E. Brymer was appointed to the board of directors as a Class I director. Mr. Brymer was recommended for consideration to the Nominating and Corporate Governance Committee by Mr. Thomas D. Bell, Jr., a non-management director and the Chairman of the Nominating and Corporate Governance Committee.

At this Annual Meeting, there are three nominees for election to the board of directors, each of whom, if elected, will serve as a Class I director. The Class I directors, each of whom were recommended for election by the Nominating and Corporate Governance Committee, will serve on the board of directors for a three-year term expiring on the date of our Annual Meeting of Stockholders to be held in 2012. The names of each nominee and continuing director, their respective ages (as of April 6, 2009), class of the board of directors and the year during which each director's current term expires, periods during which they have served the Company as a director, position (if any) with the Company, business experience during at least the past five years and directorships of other publicly-held corporations appear below. There are no family relationships among any director, executive officer, or any person nominated or chosen by us to become a director.

Each nominee is an incumbent director and each nominee has consented to be named herein and to serve on the board of directors if elected. If any of these director nominees should be unavailable

Mr. Weigand has served as a member of the International Real Estate Federation ("FIABCI") since 1985 and served as the World President of FIABCI from 2001 to 2002. Mr. Weigand has over 46 years of experience in the real estate industry and has served in a variety of key roles in domestic and international real estate organizations. Mr. Weigand also serves as Chairman of the Board of Wesley Medical Center in Wichita, Kansas, a wholly-owned subsidiary of Hospital Corporation of America.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

Our board of directors adopted Corporate Governance Guidelines that reflect the principles by which the Company operates and set forth the Company's director qualification standards, responsibilities, compensation, evaluation, orientation and continuing education, board committee structure, Chief Executive Officer performance review, management succession planning and other policies for the governance of the Company. Copies of the Corporate Governance Guidelines are available on our website at www.regalentertainmentgroup.com under "Investor Relations," "Corporate Governance" or in print, without charge, to any stockholder who sends a request to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918.

Code of Business Conduct and Ethics

Our board of directors adopted the Code of Business Conduct and Ethics applicable to the Company's directors, officers and employees. The Code of Business Conduct and Ethics sets forth the Company's conflict of interest policy, records retention policy, insider trading policy and policies for the protection of the Company's property, business opportunities and proprietary information. The Code of Business Conduct and Ethics requires prompt disclosure to stockholders of any waiver of the Code of Business Conduct and Ethics for executive officers or directors made by the board of directors or any committee thereof. Copies of the Code of Business Conduct and Ethics are available on our website at www.regalentertainmentgroup.com under "Investor Relations," "Corporate Governance" or in print, without charge, to any stockholder who sends a request to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918.

Board and Committee Information

The board of directors held five meetings during our fiscal year ended January 1, 2009, which we refer to as fiscal 2008. Each of our incumbent directors attended at least 75% of the total number of meetings held by the board of directors and by the committees of the board of directors on which they served for the period during which he was a member.

Communications with the Board

Interested parties, including our stockholders, desiring to communicate with our board members, including our lead non-management director or non-management directors as a group, may do so by mailing a request to Secretary, Regal Entertainment Group, at 7132 Regal Lane, Knoxville, Tennessee 37918. Pursuant to the instruction of the Company's non-management directors, the Secretary will review inquiries and if they are relevant to, and consistent with our operations, policies and procedures, they will be forwarded to the director or directors to whom it is addressed. Inquiries not forwarded will be retained by the Company and will be made available to any director on request.

Table of Contents

Stockholder Recommendations of Candidates for Director

Stockholders wishing to recommend candidates to the Nominating and Corporate Governance Committee for consideration as directors should submit a written recommendation to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918. The Nominating and Corporate Governance Committee employs a process for evaluating all candidates for director, including those recommended by stockholders. See the discussion under the heading "Corporate Governance Nominating and Corporate Governance Committee."

Independence

Our board of directors has determined that each of Messrs. Bell, Brymer, Kaplan, Keyte, Thomas, Tyrrell, Weigand and Yemnidjian qualify as independent directors under the applicable listing standards of the NYSE and the categorical standards for independence adopted by our board of directors as set forth below. Pursuant to the NYSE listing standards, a director shall be considered independent if the board of directors makes an affirmative determination after a review of all relevant information that the director has no material relationship with the company. Under the categorical standards for independence established by our board of directors, a director will *not* be considered independent if the director:

is, or within the last three years has been, employed by the Company;

has an immediate family member (which, for purposes of these independence standards, shall include such person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brother and sisters-in-law, and anyone (other than domestic employees) who shares such person's home) who is, or within the last three years has been, employed as an executive officer of the Company;

has received, during any twelve-month period within the last three years, more than \$120,000 per year in direct compensation from the Company other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);

has an immediate family member who received, during any twelve-month period within the last three years, more than \$120,000 per year in direct compensation from the Company other than pension or other forms of deferred compensation (provided such compensation is not contingent in any way on continued service);

is a current partner or employee of the Company's auditor;

was, within the last three years, a partner or employee of the Company's auditor and personally worked on the Company's audit during that time;

has an immediate family member who is a current partner of the Company's auditor;

has an immediate family member who is a current employee of the Company's auditor and personally works on the Company's audit;

has an immediate family member who was, within the last three years, a partner or employee of the Company's auditor and personally worked on the Company's audit during that time;

is, or within the last three years has been, employed as an executive officer of another company where any of the Company's present executives serve, or within the last three years have served, on such other company's compensation committee;

has an immediate family member who is, or within the last three years has been, employed as an executive officer of another company where any of the Company's present executives serve, or within the last three years have served, on such other company's compensation committee;

is an employee of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues; or

has an immediate family member who is a current executive officer of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues.

The following factor is also considered by the board of directors in making an independence determination. However, the board of directors is not precluded from finding a director to be independent if the director:

is, or within the last three years has been, an executive officer of a charitable organization that receives contributions from the Company in an amount which, in any single fiscal year, exceeds the greater of \$1 million or 2% of such charitable organization's consolidated gross revenues.

Executive Sessions

Our non-management directors meet in an executive session at least once per year and approve a lead non-management director annually. We intend to hold an executive session including only our independent directors at least once a year.

Attendance at Annual Meetings

We encourage, but do not require, our board members to attend our annual stockholders meetings. Last year, all of our directors serving at the time of the annual meeting attended the annual stockholders meeting.

Committees

Our board of directors has established four standing committees. The standing committees consist of an Audit Committee, a Compensation Committee, an Executive Committee, and a Nominating and Corporate Governance Committee. The standing committees, except for the Executive Committee, are comprised entirely of our non-management directors as provided in the table below.

The functions performed by each of the committees are briefly described below:

Audit Committee

The primary purposes of the Audit Committee are to assist the board of directors' oversight of the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the qualifications and independence of the registered public accounting firm engaged to be the independent auditor of the Company, the performance of the Company's internal audit function and the independent registered public accounting firm, and to prepare the report required to be included in our annual meeting proxy statements. The Audit Committee operates under an Audit Committee Charter, adopted by our board of directors, which is available on our website at www.regalentertainmentgroup.com under "Investor Relations," "Corporate Governance," or in print, without charge, to any stockholder who sends a request to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918.

Each of the three individuals serving on our Audit Committee satisfies the standards for independence of the NYSE and the SEC as they relate to audit committees. Our board of directors believes each of the members of the Audit Committee is financially literate and that Mr. Yemenidjian qualifies as an "audit committee financial expert" within the meaning of the rules and regulations of the SEC.

Compensation Committee

The Compensation Committee is responsible for reviewing and making recommendations to the board of directors regarding compensation of the Company's directors and executive officers and administering and implementing the Company's incentive compensation plans and equity-based plans. The Compensation Committee's duties and responsibilities include reviewing and approving corporate goals and objectives relevant to the compensation of the Company's executive officers, evaluating their performance in light of such goals and objectives, and as a committee, determining and approving our executive officers' compensation level based on such evaluation. The Compensation Committee also reviews and discusses the Compensation Discussion and Analysis with our management, and based on such review and discussions, recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

The Compensation Committee operates under a Compensation Committee Charter, adopted by our board of directors, which is available on our website at www.regalentertainmentgroup.com under the links to "Investor Relations," "Corporate Governance," or in print, without charge, to any stockholder who sends a request to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918. Under our Compensation Committee Charter, the Compensation Committee has the authority to retain and terminate any compensation consultant and has the sole authority to approve the consultant's fees and other retention terms. In the past, the Compensation Committee has engaged an outside compensation consultant, Mellon Human Resources & Investor Services, which we refer to as our prior outside compensation consultant, to review and make recommendations to our executive compensation program. In fiscal 2008, the Compensation Committee engaged an outside compensation consultant, Towers Perrin, which we refer to as our current outside compensation consultant, to review and make recommendations to our executive and director compensation programs for fiscal 2009 through an analysis of market compensation data, and making recommendations with respect to the redesign of our long-term incentive based compensation. Certain elements of our executive compensation program have been developed, based in part, on the recommendations of the outside compensation consultants. See the discussion under the heading "Compensation Discussion and Analysis" for further information regarding these recommendations.

Table of Contents

In addition, the Compensation Committee has the authority to obtain advice and assistance from our executives, internal or outside legal, accounting or other advisors as it determines necessary to carry out its duties. Under the Compensation Committee Charter, however, none of our executives shall be involved in the Compensation Committee's determination of their own compensation. The Compensation Committee has the ability to delegate its authority to its members or a subcommittee as it deems appropriate, provided that any delegate or subcommittee shall report any actions taken by him, her or it to the whole Compensation Committee at the Compensation Committee's next regularly scheduled Compensation Committee meeting.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee was established to identify qualified nominees for our board of directors, to develop and recommend to our board of directors a set of corporate governance principles to assist the board of directors in fulfilling its corporate governance responsibilities and to oversee an annual evaluation of the board of directors and our management. This committee has the ability to consider nominees recommended by stockholders and other interested parties. The Nominating and Corporate Governance Committee does not distinguish between nominees recommended by our stockholders and those recommended by other parties.

The committee operates under the Nominating and Corporate Governance Committee Charter, adopted by our board of directors, a copy of which is available on our website at www.regalentertainmentgroup.com under the links to "Investor Relations," "Corporate Governance," or in print, without charge, to any stockholder who sends a request to the office of the Secretary of Regal Entertainment Group at 7132 Regal Lane, Knoxville, Tennessee 37918. The charter of the committee sets forth certain criteria for the Nominating and Corporate Governance Committee to consider in evaluating potential director nominees. In considering potential director nominees, the committee selects individuals who demonstrate the highest personal and professional integrity, who have demonstrated exceptional ability and judgment and who are expected to be most effective, in conjunction with the other members of the board of directors, in collectively serving the long-term interests of the Company and our stockholders.

The committee identifies director candidates based on input provided by a number of sources, including members of the committee, other directors, our stockholders, our Chief Executive Officer and third parties. The committee also has the authority to consult with or retain advisors or search firms to assist in the identification of qualified director candidates. As part of the identification process, the committee takes into account each nominee's skills, knowledge, perspective, broad business judgment and leadership, relevant industry knowledge, business creativity and vision, experience, age and diversity, all in the context of the perceived needs of the board of directors at that time. Incumbent directors who are being considered for re-nomination are re-evaluated both on their performance as directors and their continued ability to meet the required qualifications.

Executive Committee

Our Executive Committee is generally authorized to act on behalf of our board of directors between scheduled meetings of our board of directors on matters already approved in principle by the board of directors and on matters specifically delegated by the board of directors from time to time as permitted under Delaware corporate law.

Table of Contents**Director Compensation During Fiscal 2008**

Directors who are our or our subsidiaries' employees receive no additional cash or equity compensation for service on our board of directors. All of our directors are reimbursed for reasonable out-of-pocket expenses related to attendance at board of directors and committee meetings. In fiscal 2008, we provided the following annual compensation to directors who are not employed by us or our subsidiaries:

Name	Fees Earned or Paid in Cash(1)	Stock Awards(2)	All Other Compensation(3)	Total
Thomas D. Bell, Jr.	\$ 45,000	\$ 87,193	\$ 5,976	\$ 138,169
Charles E. Brymer	\$ 40,000	\$ 142,350	\$ 8,253	\$ 190,603
Stephen A. Kaplan	\$ 40,000	\$ 135,817	\$ 8,407	\$ 184,224
David H. Keyte	\$ 40,000	\$ 87,193	\$ 5,976	\$ 133,169
Lee M. Thomas	\$ 45,000	\$ 87,193	\$ 5,976	\$ 138,169
Jack Tyrrell	\$ 40,000	\$ 87,193	\$ 5,976	\$ 133,169
Nestor R. Weigand, Jr.	\$ 40,000	\$ 87,193	\$ 5,976	\$ 133,169
Alex Yemenidjian	\$ 50,000	\$ 87,193	\$ 5,976	\$ 143,169

- (1) Non-employee directors received an annual cash retainer for service on our board of directors of \$40,000 during fiscal 2008. During fiscal 2008, Mr. Yemenidjian, the Chairman of the Audit Committee, received an additional \$10,000 annual cash retainer and the other directors who serve on the Audit Committee (Messrs. Bell and Thomas) received an additional \$5,000 annual cash retainer for service on the Audit Committee. Directors do not receive additional cash or equity compensation for service on any other committees of the board of directors.
- (2) During fiscal 2008, directors who were not employees of the Company received a grant of restricted Class A common stock having, at the time of grant, a fair market value of approximately \$85,000. Such shares of restricted stock vest on the first anniversary of the date of grant. On January 16, 2008, Messrs. Bell, Brymer, Kaplan, Keyte, Thomas, Tyrrell, Weigand and Yemenidjian each received a grant of 4,980 shares of restricted stock, based on the closing market price of the Company's Class A common stock of \$17.07 per share on such date. The amounts presented in the table above represent the portion of the fair value of the restricted shares recognized as expense during fiscal 2008 (before estimated forfeitures related to service-based vesting conditions) for financial statement reporting purposes in accordance with SFAS No. 123R, "Share Based Payment," ("FAS 123R"), and does not represent cash payments made to the directors or amounts realized. Under FAS 123R, the fair value of restricted shares granted to directors is recognized ratably over the vesting period. See details of the assumptions used in valuation of the options in Note 9 to the Company's audited consolidated financial statements, which have been reproduced in Appendix A to this proxy statement and are included in the annual report on Form 10-K filed for fiscal 2008 filed with the SEC on March 2, 2009. The amounts reported for fiscal 2008 do not include the portion of the fair value of the January 14, 2009 grant to each of our non-employee directors of 8,492 restricted shares of Class A common stock, having a fair market value of approximately \$85,000, based on the closing market price of the Company's Class A common stock of \$10.01 per share on such date.
- (3) Represents dividends paid on the shares of restricted stock held by our non-employee directors during fiscal 2008.

AUDIT COMMITTEE REPORT

Our Audit Committee reviews our financial reporting process on behalf of our board of directors. In March 2004, our board of directors adopted a written charter for our Audit Committee, and has re-evaluated it in connection with the filing of our annual report on Form 10-K with the SEC. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the audited financial statements contained in the 2008 annual report on Form 10-K with our management and our independent registered public accounting firm, KPMG LLP. Our management is responsible for the financial statements and the reporting process, including the system of internal controls. KPMG is responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States. KPMG is also responsible for expressing an opinion on the effectiveness of the Company's internal control over financial reporting.

The Audit Committee has discussed with KPMG the matters requiring discussion by Statement on Auditing Standards No. 114, Communication with Audit Committees, and all other matters required to be discussed with the auditors. In addition, the Audit Committee has received the written disclosures and the letter from KPMG required by Independence Standards Board No. 1 (Independence Discussions with Audit Committees), as modified or supplemented, and discussed with KPMG their independence from Regal and our management. The Audit Committee has received the written disclosures and the letter from KPMG required by applicable requirements of the Public Company Accounting Oversight Board regarding KPMG's communications with the Audit Committee concerning independence, and, with KPMG, has discussed KPMG's independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to our board of directors (and our board of directors has approved) that the audited financial statements be included in our annual report on Form 10-K for fiscal 2008, for filing with the Securities and Exchange Commission.

Respectfully submitted on April 17, 2009 by the members of the Audit Committee of the board of directors.

Alex Yemenidjian, Chairman
Thomas D. Bell, Jr.
Lee M. Thomas

In accordance with the rules and regulations of the SEC, the above report of the Audit Committee shall not be deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulations 14A or 14C of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or to the liabilities of Section 18 of the Exchange Act and shall not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other filed document.

Independent Registered Public Accounting Firm

KPMG LLP served as our independent registered public accounting firm for fiscal 2008 and has been selected to serve as our independent registered public accounting firm for the current fiscal year. For the fiscal year ended December 27, 2007, which we refer to as fiscal 2007, and fiscal 2008, we incurred fees for services from KPMG as discussed below.

Audit Fees. The aggregate fees billed for professional services rendered by KPMG for the audit of our annual financial statements included in our Form 10-K and the review of the financial statements included in our Forms 10-Q were approximately \$990,000 for fiscal 2007 and \$1,000,000 for fiscal 2008. For fiscal 2007 and fiscal 2008, such fees included fees for KPMG's examination of the effectiveness of the Company's internal control over financial reporting.

Table of Contents

Audit-Related Fees. The aggregate fees billed for professional services rendered by KPMG for assurances and related services that are reasonably related to the performance of the audit or review of our financial statements were approximately \$0 for fiscal 2007 and fiscal 2008.

Tax Fees. The aggregate fees billed for professional services rendered by KPMG related to federal and state tax compliance, tax advice and tax planning were approximately \$11,900 for 2007 and \$11,000 for fiscal 2008. All of these services are permitted non-audit services.

All Other Fees. In fiscal 2008, the aggregate fees billed for other services rendered by KPMG were \$55,000 in connection with the issuance of our 6¹/₄% Convertible Senior Notes. There were no fees for professional services rendered by KPMG for continuing professional education and training in fiscal 2007 and fiscal 2008.

Audit Committee Pre-Approval Policy

The Audit Committee pre-approves all audit and permissible non-audit services provided by our independent registered public accounting firm on a case-by-case basis. These services may include audit services, audit-related services, tax services and other services. Our Chief Financial Officer is responsible for presenting the Audit Committee with an overview of all proposed audit, audit-related, tax or other non-audit services to be performed by our independent registered public accounting firm. The presentation must be in sufficient detail to define clearly the services to be performed. The Audit Committee does not delegate its responsibilities to pre-approve services performed by our independent registered public accounting firm to management or to an individual member of the Audit Committee.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Goals and Objectives of Our Executive Compensation Program

The primary goals of the Compensation Committee of our board of directors with respect to executive compensation are to create value for our stockholders in both the short and long term through growth in our earnings and to incentivize and reward our executive officers, including our named executive officers, Messrs. Campbell, Dunn, Brandow and Ms. Miles. To achieve these goals, we maintain compensation plans that tie a substantial portion of our executives' overall compensation to key short-term and long-term strategic, operational and financial goals which in fiscal 2008 were the achievement of budgeted levels of revenue, earnings before interest, taxes, depreciation and amortization, ("EBITDA"), earnings before interest, taxes, depreciation, amortization and rent ("EBITDAR") margin, and other non-financial goals that the Compensation Committee and board of directors deem important. We implement this philosophy by focusing on the following three key objectives:

1. Attract, retain and motivate talented executives;
2. Tie annual and long-term compensation incentives to achievement of specified performance objectives; and
3. Create long-term value by aligning the interests of our executives with our stockholders.

To achieve these objectives, management and the members of the Compensation Committee analyze market data and evaluate individual executive performance with a goal of setting compensation at levels they believe, based on their general business and industry knowledge and experience, are comparable with executives in other companies of similar size operating in the domestic motion picture exhibition industry and other comparable companies, which for fiscal 2008 were AMC Entertainment Inc. and Cinemark, Inc. (which we refer to as the comparable companies), based on such comparable companies' industry, size and scope of operations. The members of the Compensation Committee also take into account retention needs, internal pay equity, our relative performance and our own strategic goals in determining executive compensation. We generally rely on SEC filings made by each of the comparable companies or other publicly available data to collect this information.

With respect to internal pay equity, in setting each element of compensation, the Compensation Committee makes an assessment of each executive position's responsibility for and ability to impact Company performance, and based on such analysis, provides for differing amounts of compensation with respect to different named executive officers. For example, Mr. Campbell's annual executive incentive program targets and long-term performance-based equity compensation awards, each as a percentage of base salary, are higher than those of other named executive officers, based on the Compensation Committee's determination that Mr. Campbell, as our Chief Executive Officer, has the greatest management and oversight responsibility and has a greater ability to affect the Company's performance than our other named executive officers. In addition, the Compensation Committee's decisions with respect to each element of compensation take into account other elements of the executive officer's compensation. Specifically, we allow each of our named executive officers the opportunity to earn a larger portion of their overall compensation in the form of long-term performance-based equity awards as opposed to base salary, in order to put a greater percentage of potential compensation at risk in any given year and to further align the interests of our executives with our stockholders.

The Company has in the past and we intend in the future, to conduct an annual review of the aggregate level of our executive compensation as part of our annual budget review and annual performance review processes, which include determining the operating metrics (such as EBITDA and

Table of Contents

EBITDAR margin targets with respect to annual cash bonuses) and non-financial elements used to measure our performance and to compensate our executive officers. In appropriate circumstances, the Compensation Committee, in its discretion, considers the recommendations of members of management, primarily Mr. Campbell, our Chief Executive Officer, in setting executive compensation. In particular, the Compensation Committee finds it appropriate to solicit management's advice regarding the competitiveness of our compensation program, its perceived effectiveness in attracting, retaining and motivating talented executives, and in evaluation of executives whom report to management. In addition, Mr. Campbell has the ability to call Compensation Committee meetings and regularly attends such meetings. This allows Mr. Campbell to provide the Compensation Committee with his assessment of the performance of the Company's executives whom he oversees. The Compensation Committee, however, makes all final determinations regarding these awards and none of our executive officers are involved in the determination of their own compensation. Mr. Campbell does not attend the portion of Compensation Committee meetings in which his compensation is determined.

The Compensation Committee does not typically determine a set allocation or "weight" attributable to each element of compensation. Instead, the Committee considers all elements of the executive officer's total compensation package. The Compensation Committee targets compensation levels at or above the median for the comparable companies in order to be competitive, which allows the Company to achieve its objectives of attracting, retaining and motivating talented executives. The Compensation Committee bases awards of long-term compensation in part on the amount of current cash compensation that is paid to each executive officer, because we believe that tying a substantial portion of overall compensation opportunities to long-term equity awards such as restricted stock and performance shares helps to better align the interests of our named executive officers with our stockholders.

Elements of Compensation

Our executive compensation program consists of the following elements:

Base Salary. Base salaries for our executives are established based on the scope of their responsibilities, taking into account competitive market compensation for similar positions at the comparable companies, as well as seniority of the individual, and our ability to replace the individual. Generally, we believe that executive base salaries should be targeted near or above the median of the range of salaries for executives in similar positions with similar responsibilities at the comparable companies, as discussed above, in line with our compensation philosophy. Base salaries are reviewed annually by the Compensation Committee and may be adjusted from time to time pursuant to such review and/or in accordance with guidelines contained in the various employment agreements or at other appropriate times, such as at the time cash bonuses and restricted stock awards are made for the prior fiscal year, in order to realign salaries with market levels after taking into account individual responsibilities, performance and experience. Under their employment agreements, once increased, the base salaries for Messrs. Campbell and Dunn and Ms. Miles may not be reduced, and, as so increased, become the "base salary" under the agreements. As more fully described under the heading, "Post-Termination Compensation," on December 18, 2008, we entered into amended and restated employment agreements with each of Messrs. Campbell and Dunn, and Ms. Miles, in order to allow such executive employment agreements to comply with Section 409A of the Internal Revenue Code of 1986, which we refer to as the Code. Such amended and restated employment agreements (which we refer to as the employment agreements) contain the same provisions for determination of base salaries as the prior employment agreements (which we refer to as the 2008 employment agreements), which were in effect for a significant portion of fiscal 2008 and that are described above. For several years, base salaries for each of our named executive officers remained fairly constant, with little, if any increase from year to year. Although base salaries for our named executive officers were increased in each of fiscal 2008 and fiscal 2007, based upon management's recommendation to the Compensation

Table of Contents

Committee and the current economic environment, for fiscal 2009, base salaries were kept at the fiscal 2008 level.

Annual Cash Bonus. Pursuant to the employment agreements with Messrs. Campbell and Dunn and Ms. Miles, each such executive is eligible for an annual cash incentive bonus, paid pursuant to the material terms for our payment of executive incentive compensation, based on the Company's financial performance in relation to predetermined performance goals for the prior fiscal year. Mr. Brandow is also eligible, if we exceed our performance goals, for an annual cash incentive bonus in accordance with such material terms, subject to discretion of the Compensation Committee. Under the material terms for our payment of executive incentive compensation, which has been approved by our board of directors and our stockholders, the Compensation Committee has negative discretion, which prohibits the Compensation Committee from increasing the amount of compensation payable if a performance goal is met, but allows the Compensation Committee to reduce or eliminate compensation even if such performance goal is attained. In addition to awards of annual cash incentive bonuses under the annual executive incentive program, the Compensation Committee also has the authority to award discretionary annual performance bonuses to our executive officers outside such material terms. Any such discretionary annual performance bonuses, if awarded, may not be fully deductible under Section 162(m) of the Code. See the discussion under the heading " Tax Deductibility of Executive Compensation."

The annual cash incentive bonuses are intended to compensate officers for achieving short-term financial and operational goals and for achieving individual annual performance objectives over the course of one year. These objectives and goals vary from year to year and between named executive officers and are established in writing by the Compensation Committee, with the expectation that attainment of these goals would require significant effort in light of the current business environment and that such attainment was moderately likely, based upon the assumptions made in determination of the annual targets and the Company's historic performance with respect to similarly-determined targets in prior years. Traditionally and in fiscal 2008, these targets were allocated 75% to individual job performance and two discretionary strategic factors, targeted levels of EBITDA and EBITDAR margin, and 25% associated with financial factors applicable to all of our named executive officers, which in fiscal 2008, were targeted levels of EBITDA and EBITDAR margin. Under the material terms for payment of our executive compensation, the discretionary strategic factors used to determine 75% of the target award for our executives may be any one of, or a combination of, (1) total stockholder return; (2) such total stockholder return as compared to total return (on a comparable basis) of a publicly available index such as, but not limited to, the Standard & Poor's 500 Stock Index; (3) net income; (4) pretax earnings; (5) EBITDA; (6) EBITDAR; (7) pretax operating earnings after interest expense and before bonuses and extraordinary or special items; (8) EBITDAR margin; (9) earnings per share; (10) return on equity; (11) return on capital; (12) return on investment; (13) operating earnings; (14) working capital; (15) ratio of debt to stockholders' equity; and (16) revenue. In determining EBITDA and EBITDAR margin targets, the Company made assumptions regarding industry attendance figures for the 2008 fiscal year. Consistent with past practice, in consideration of awarding annual cash incentive bonuses, at the completion of the fiscal year, such EBITDA and EBITDAR margin targets are adjusted to reflect the actual industry attendance figures. Because industry attendance figures in 2008 were 4-5% lower than those anticipated in determining the projected targets for the fiscal year, such EBITDA and EBITDAR margin targets were adjusted to approximately \$525 million and approximately 32%, respectively. In fiscal 2008, the Company exceeded its adjusted EBITDA and EBITDAR margin targets. Because these annual cash incentive bonus amounts are intended to reward both overall Company and individual performance during the year, they can be highly variable from year to year, depending on factors both within and outside of the named executive officer's control.

Table of Contents

Pursuant to their employment agreements, each of Messrs. Campbell, and Dunn, and Ms. Miles are eligible for an annual cash incentive bonus up to an amount equal to a specified percentage of such executive's salary and the Compensation Committee determines a potential annual cash incentive bonus amount for Mr. Brandow in the same way. The Compensation Committee may increase the discretionary annual bonus paid to our executive officers using their judgment based on the Company exceeding certain financial goals, which we refer to as the "stretch bonus." Our Compensation Committee targeted annual cash incentive bonus amounts to be paid in fiscal 2009 for performance during fiscal 2008 at 100% of base salary for Mr. Campbell and 75% of base salary for Messrs. Dunn and Brandow, and Ms. Miles, with an additional "stretch bonus" amount of up to 50% of base salary for Mr. Campbell and up to 37.5% of base salary for Messrs. Dunn and Brandow, and Ms. Miles. The actual amount of annual cash incentive bonus, which varies by individual, is determined following a review of each named executive officer's individual performance and contribution to our strategic and financial goals. Each annual cash incentive bonus is paid in cash in an amount reviewed and approved by the Compensation Committee in the first quarter following the completion of a given fiscal year. The Compensation Committee determined the cash bonuses for fiscal 2008 for the named executive officers on January 14, 2009. The Company achieved its adjusted EBITDA and EBITDAR margin targets in fiscal 2008 and the Compensation Committee used its discretion to pay annual cash incentive bonuses at 90% of the targeted amount for such bonuses. See the discussion under the heading " 2008 Summary Compensation Table" for those amounts.

Executive Equity Incentives. We believe that creating long-term value for our stockholders is achieved, in part, by retaining our executive officers in a challenging business environment and aligning the interests of our executive officers with those of our stockholders. To achieve this goal, we utilize a combination of awards of shares of restricted stock and performance shares under our 2002 Stock Incentive Plan, which has been approved by our board of directors and our stockholders. Our restricted stock awards apply time-based vesting and our performance shares apply both performance and time-based vesting. Based on the past recommendations of our prior outside compensation consultant, and in part upon the Compensation Committee's analysis of our named executive officers' level of responsibility for market competitiveness and our performance, we target the projected vesting date value of our equity incentive awards based on a factor of 300% of our Chief Executive Officer's base salary and 200% of our other named executive officers' base salaries. We target providing half of such equity incentives in restrictive stock and half in performance shares. In determining the number of shares of restricted stock and the number of performance shares granted to each of our executive officers in furtherance of this objective, we award approximately 43% of such equity awards in restricted stock and approximately 57% of such equity awards in performance shares, to reflect the higher potential risk of forfeiture for the performance shares. Accordingly, in fiscal 2008, the Compensation Committee targeted equity incentive awards of \$2,400,000 for our Chief Executive Officer, Mr. Campbell, which reflected 300% of Mr. Campbell's base salary. Of this targeted amount, approximately 43% of such targeted equity incentive awards was allocated to restricted stock, with a projected vesting value of approximately \$1,029,000 and approximately 57% was allocated to performance shares, with a projected vesting value of approximately \$1,371,000, with the difference between the projected vesting value and the grant date fair value of such awards disclosed in the 2008 Grants of Plan-Based Awards table equal to the targeted appreciation in the price of the Company's Class A common stock over such vesting period and the projected payment of dividends on shares of restricted stock. The Compensation Committee targeted equity incentive awards of \$855,000, \$825,000 and \$670,000 for Mr. Dunn, Ms. Miles and Mr. Brandow, respectively, which reflected 200% of each such named executive officer's fiscal 2008 base salary. Of such targeted amounts, approximately 43% of such targeted equity incentive awards was allocated to restricted stock, with a projected vesting value of approximately \$366,000, \$354,000 and \$287,000, for Mr. Dunn, Ms. Miles and Mr. Brandow, respectively, and approximately 57% was allocated to performance shares, with a projected vesting

Table of Contents

value of approximately \$489,000, \$471,000 and \$383,000, for Mr. Dunn, Ms. Miles, and Mr. Brandow, respectively.

The award of restricted stock and performance shares enable us to account for our executive incentive program based on the price of our Class A common stock underlying these shares, fixed at the date of grant of the awards, resulting in a known maximum cost under the program at the time of grant. In addition, the use of restricted stock and performance shares allow us to compensate our executives, in part, through the payment of dividends, which we declare from time to time on our Class A common stock. Thus, we believe, the use of restricted and performance shares provides additional linkage between the interests of our executive officers and our stockholders.

Prior to 2005, the primary form of equity compensation that we awarded consisted of non-qualified stock options. Based in part on the recommendations of our prior outside compensation consultant, because we pay dividends on shares of our Class A common stock, and as part of our ongoing efforts to align the interests of our executives and our stockholders, the Compensation Committee concluded that awards of restricted stock and performance shares would provide a superior motivating form of incentive compensation by allowing our executives to participate in our dividends, while permitting us to issue fewer shares and reducing potential dilution. Thus, beginning in 2005, it has become our practice to grant restricted stock and performance shares, rather than options, to our executive officers. In fiscal 2008, awards of restricted stock and performance shares were made to all of our named executive officers, as described under the heading " 2008 Grants of Plan-Based Awards." In fiscal 2008, as in prior years, the Compensation Committee determined that the costs to the Company of the restricted and performance share awards to our executive officers were offset by the potential cost of stock options that the Compensation Committee might otherwise award to our executive officers over the duration of the performance period.

Restricted Stock. As described above, awards of restricted stock serve to retain our executive officers over the vesting period of the grant by conditioning delivery of the underlying shares on continued employment with our Company for the vesting period. Periodic awards of restricted stock can be made at the discretion of the Compensation Committee to eligible employees.

Performance Shares. Our performance shares provide our executive officers with equity incentives for attaining long-term corporate goals and maximizing stockholder value over the course of up to three years. The design of our long-term equity incentive program, the establishment of performance targets and the mix of performance and time-based targets as a percentage of each executive officer's compensation were established by our Compensation Committee and approved by our board of directors after discussion with, and recommendations from, our Chief Executive Officer (with respect to executives other than himself) and our prior outside compensation consultant. Under our 2002 Stock Incentive Plan, long-term equity incentive awards, which we refer to as performance shares, paid to our executive officers depend exclusively on the Company's satisfaction of target levels of total stockholder return as determined by the Compensation Committee.

Based on the Compensation Committee's review of the Company's long-term incentive policies, in 2006 we adopted a form of performance share award agreement, which we refer to as the 2006 performance share award agreement. Under the 2006 performance share award agreement, the total number of performance shares that may be issued under an award is based upon the attainment of a specified target relating to total stockholder return as of a specified date, which we refer to as the calculation date. Use of the total stockholder return measure was designed to provide a threshold, or minimum payout if we perform favorably in total stockholder return, which the Compensation Committee believes is one way to further link our executive officers' interests with those of our stockholders. Under the 2006 performance share award agreement, the targets for any particular fiscal year's performance share awards are established in writing by the Compensation Committee while the attainment of such goals is substantially uncertain. The amount of performance shares an executive may

Table of Contents

receive upon the calculation or vesting date cannot be determined at the time of grant because the payment of such compensation is contingent upon attainment of pre-established goals, and the actual incentive compensation to be paid to an executive officer may reflect the Compensation Committee's discretion to reduce the incentive compensation payable upon attainment of the performance goal.

Under our 2006 performance share award agreement, total stockholder return is calculated as our average annual total stockholder return attained for each twelve-month period in the three-year performance period. Each of the twelve-month periods included in the total stockholder return calculation end on a yearly anniversary of the grant date, including the final anniversary, which is the calculation date. The total stockholder return targets and number of corresponding performance shares issuable for the attainment of such return, are as follows:

Average Annual Stockholder Return Over the Performance Period	Performance Shares Issuable
Total stockholder return of equal to or greater than 12.5%, but less than 15.0%	50% of the target number of performance shares issuable
Total stockholder return of equal to or greater than 15.0%, but less than 17.5%	100% of the target number of performance shares issuable
Total stockholder return of equal to or greater than 17.5%, but less than 20.0%	125% of the target number of performance shares issuable
Total stockholder return of equal to or greater than 20.0%, but less than 25.0%	150% of the target number of performance shares issuable
Total stockholder return of equal to or greater than 25.0%	175% of the target number of performance shares issuable

Except with respect to the first performance share grant made in 2006, under the 2006 performance share award agreement the shares each executive officer receives upon attainment of the specified performance goals are subject to further service-based vesting for a period of one year beyond the calculation date. On the calculation date, the executive is entitled to receive a payment in an amount equal to the dividends paid by us with respect to a share of our Class A common stock from the grant date through the calculation date, multiplied by the number of shares of restricted stock, if any, such executive receives.

In 2009, based upon the recommendation of our current compensation consultant, the Compensation Committee adopted an amended and restated form of performance share award agreement, which we refer to as the 2009 performance share award agreement. Specifically, the Compensation Committee adopted this new form of performance share award agreement in order to: (i) more closely align the Company's compensation policy with competitive practice, (ii) increase the attraction and retention value of the Company's long-term incentive compensation program by utilizing performance goals viewed as more within our named executive officers' control, (iii) align the accounting expense of such long-term incentive compensation more closely with the expense participants realize from the performance shares, and (iv) reinforce the Company's long term performance objectives using a method the Company regularly measures itself against for internal performance review. Under the 2009 performance share award agreement, the specified performance target is based on as-adjusted EBITDA targets, and on the calculation date for such awards, the Compensation Committee will determine the actual performance percentage by calculating for each of the three fiscal years prior to the calculation date the percentage by which the Company's actual

Table of Contents

adjusted EBITDA met or exceeded adjusted annual EBITDA target for each such fiscal year, respectively, and averaging such performance percentages over such three fiscal year period. Like our awards of annual executive incentive compensation, such EBITDA targets will be adjusted annually at the completion of the fiscal year to reflect the actual industry attendance figures and to neither penalize nor reward our named executive officers for non-controllable industry results.

Equity Grant Practices

We generally seek to make equity compensation grants in the first quarter following the completion of a given fiscal year. In addition, we grant restricted stock to new executives on their hire date. Such grants are awarded by the Compensation Committee. We do not have any specific program, plan or practice related to timing equity compensation awards to executives in coordination with the release of non-public information.

Executive Stock Ownership Guidelines

Based on the recommendation of our prior outside compensation consultant, in 2004 we implemented stock ownership guidelines to require our executive officers to retain significant investments in the Company. We believe these guidelines foster long-term stock ownership and further align our named executive and other officers' interests with those of our stockholders. During the period from December 31, 2007 until January 1, 2009, our named executive officers were required to hold either (i) shares of our Common Stock and/or outstanding options with a combined value greater than, or equal to, between 25% of the applicable executive's compensation as derived from his or her exercise of options after May 8, 2002 or (ii) shares of our Common Stock with a value greater than or equal to 50% of the applicable executive's compensation as derived from his or her exercise of options after December 31, 2004. As of January 1, 2009, all of our named executive officers were in compliance with these guidelines.

Beginning on January 1, 2010, all other Company and Regal Cinemas executives, which include all of our executive officers, with the title of Senior Vice President and above, will be required to meet an equity holding requirement, calculated by adding the value of an executive's shares of our common stock and the value of an executive's vested or unvested stock options, equal to a multiple of their base salary. The applicable multiple of base salary will be determined as follows:

Tier 1 (Chief Executive Officer): five times base salary;

Tier 2 (President, Chief Operating Officer, Chief Financial Officer and General Counsel): two times base salary; and

Tier 3 (all Senior Vice Presidents of Regal Cinemas): one times base salary.

The variation in holding requirements between executive positions was based in part upon the board of directors' assessment of each executive position's responsibility for and ability to impact Company performance, as well as to reflect the difference in amounts of equity awards between our named executive officers, as discussed under the heading "Goals and Objectives of Our Executive Compensation Program." Based in part on the recommendations of our current compensation consultant, the Compensation Committee adopted changes to our executive stock ownership guidelines that are effective as of January 1, 2010 and which include providing a window for promoted executives to come into compliance with the guidelines, counting restricted shares against the guideline requirement, and eliminating the policy of withholding grants, replacing that policy with a retention ratio for executives who are below the compliance level.

Perquisites

We do not grant perquisites to our executive officers.

Post-Termination Compensation

We have entered into employment agreements with each of our named executive officers, other than Mr. Brandow, as discussed under the heading " Base Salary." The employment agreements provide for severance payments if we terminate such executive officer's employment, or such executive officer resigns for good reason, within three months prior to, or within one year after, a change in control of the Company.

Under the employment agreements, "good reason" is defined as one or more of the following conditions arising without consent of the executive and which has not been remedied by the Company within 30 days after notice by the executive: (i) a material reduction in the executive's base salary or the establishment of or any amendment to the annual executive incentive program which would materially impair the ability of the executive to receive the target bonus (other than the establishment of reasonable EBITDA or other reasonable performance targets to be set annually in good faith by the board); (ii) a material diminution of the executive's titles, offices, positions or authority, excluding for purposes of determining "good reason," an action not taken in bad faith; or the assignment to the executive of any duties inconsistent with the executive's position (including status or reporting requirements), authority, or material responsibilities, or the removal of executive's authority or material responsibilities, excluding for this purpose an action not taken in bad faith; (iii) a transfer of the executive's primary workplace by more than 50 miles from the current workplace; (iv) a material breach of the employment agreement by the Company; or (v) the executive is no longer serving in the position for which the employment agreement relates, and in the case of Mr. Campbell, and that he is no longer a member of the board of directors. Under the employment agreements, "change of control" is defined as both (1) the acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act), other than certain entities controlled by Philip F. Anschutz, of 20% or more of the combined voting power of the then-outstanding voting securities of the Company and (2) the beneficial ownership of such individual, entity or group of more than 20% of the voting power of the Company exceeds the beneficial ownership of such entities controlled by Mr. Anschutz.

We believe these change in control arrangements provide continuity of management in the event of an actual or threatened change in control of the Company. The three-month and one year periods are designed to retain Messrs. Campbell and Dunn and Ms. Miles through the date of the change in control and for a one-year period thereafter in order to allow us to effectuate the change in control and transition to new ownership with the benefit of the institutional knowledge and industry experience of these executive officers.

We also provide for severance payments if we terminate these executive officers' employment without cause or if these executive officers terminate their employment for good reason. Under the employment agreements, "cause" is defined as (i) any willful breach of any material written policy of the Company that results in material and demonstrable liability or loss to the Company; (ii) the executive engaging in conduct involving moral turpitude that causes material and demonstrable injury, monetarily or otherwise, to the Company, including, but not limited to, misappropriation or conversion of assets of the Company (other than immaterial assets); (iii) conviction of or entry of a plea of nolo contendere to a felony; or (iv) a material breach of the employment agreement by engaging in action in violation of the restrictive covenants in the employment agreement. For purposes of defining "cause" under the employment agreements, no act or failure to act by the executive shall be deemed "willful" if done, or omitted to be done, by such executive in good faith and with the reasonable belief that such action or omission was in the best interest of the Company.

We believe that these termination provisions reflect both market practices and competitive factors. Our board of directors believed that these severance payments and benefit arrangements were necessary to attract and retain our Chief Executive Officer, our President and Chief Financial Officer when these agreements were put into place and continues to believe that such provisions continue to

Table of Contents

reflect market practices and competitive factors. Additional information regarding the employment agreements and a quantification of benefits that would be received by these officers had termination occurred on January 1, 2009, is found below under the heading " Potential Payments upon Termination or Change in Control."

Tax Deductibility of Executive Compensation

Section 162(m) of the Code generally provides that no federal income tax business expense deduction is allowed for annual compensation in excess of \$1 million paid by a publicly-traded corporation to its chief executive officer and up to three other most highly compensated officers who are included in the summary compensation table in the Company's proxy statement for the following fiscal year, excluding the chief financial officer. Under the Code, however, there is no limitation on the deductibility of "qualified performance-based compensation." In order to satisfy the requirement for qualified performance-based compensation under the Code, the Compensation Committee is prohibited from increasing the amount of compensation payable if a performance goal is met, but may reduce or eliminate compensation even if such performance goal is attained. In addition, among other requirements, every five years, stockholders must approve the types of performance goals and the maximum amount that may be paid to covered executive officers or the formula used to calculate such amount. Our stockholders previously have approved the material terms for payment of our executive incentive compensation. Our Compensation Committee has taken, and intends to continue taking, the necessary steps to ensure that the Company's tax deduction is preserved and not limited by the \$1 million deductibility cap provided, however, that the Compensation Committee reserves the right, in circumstances that it deems appropriate, to pay discretionary amounts that are not deductible if such payments are in the best interest of the Company.

COMPENSATION COMMITTEE REPORT

Our Compensation Committee, which consists of Messrs. Kaplan, Tyrrell and Weigand, is composed entirely of independent directors based on the standards for independence of the NYSE as they relate to Compensation Committee membership.

The Compensation Committee met with management to review and discuss the Compensation Discussion and Analysis. Based on such review and discussion, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference in the Company's annual report on Form 10-K for fiscal 2008, and the board of directors has approved that recommendation.

Respectfully submitted on
April 17, 2009
by the members of the
Compensation Committee.

(1) Although base salaries for our named executive officers were increased in each of fiscal 2008 and fiscal 2007, based upon management's recommendation to the Compensation Committee and the current economic environment, for fiscal 2009, base salaries were kept at the fiscal 2008 level.

(2) The amounts represent the portion of the fair value of the performance shares and restricted shares recognized as expense during fiscal 2006, fiscal 2007 and fiscal 2008 (disregarding estimated forfeitures for service-based vesting conditions) for financial statement reporting purposes in accordance with FAS 123R and do not represent cash payments made to the individuals, amounts realized, or amounts that may be realized. Under FAS 123R, the fair value of such performance shares and restricted shares granted to employees is recognized ratably over the vesting period. (1) Amounts represent maximum potential cash bonus amounts if all goals and additional targets were achieved for the fiscal 2008 performance period under the annual executive incentive program for each named executive officer. The Compensation Committee of the board of directors of the Company approved 2008 bonuses for the named executive officers on January 14, 2009. Such amounts were paid during the first quarter of 2009. See the 2008 Summary Compensation Table for those amounts.

(2) On January 16, 2008, 94,889 performance shares, in the aggregate, were granted under our 2002 Stock Incentive Plan at nominal cost to our named executive officers. The closing price of our Class A common stock on the date of these grants was \$17.07 per share. Each performance share represents the right to receive from 0% to 175% of the target numbers of shares of restricted common stock. The number of shares of restricted common stock earned will be determined by comparing the average annual total stockholder returns attained, which is calculated as Regal's average annual return attained for each twelve-month period ending on a yearly anniversary date of the grant, including the calculation date, ("TSR") on Regal's Class A common stock on the calculation date of January 16, 2011 (the third anniversary of the grant date) to the target TSR. On the calculation date, the executive is entitled to receive a payment in an amount equal to the dividends paid by us with respect to a share of our Class A common stock from the grant date through the calculation date, multiplied by the number of restricted shares, if any, such executive receives under the award of performance shares. A target number of shares of restricted common stock to be earned by each eligible grantee has been established with respect to the 2008 performance share grants and is primarily based on the grantee's employee classification and base compensation. For purposes of this 2008 Grants of Plan-Based Awards table, (i) the threshold number of shares reported is the minimum number of shares that may be earned, based on attaining a TSR of equal or greater than 12.5%, but less than 15.0%, which would result in the issuance of 50% of the target number of performance shares issuable under the award; (ii) the target number of shares reported is the number of shares that may be earned, based on attaining a TSR of equal to or greater than 15%, but less than 17.5%, which would result in the issuance of 100% of the target number of performance shares issuable under the award; and (iii) the maximum number of shares reported is the number of shares that may be earned, based on attaining a TSR of equal to or greater than 25%, which would result in the issuance of 175% of the target number of performance shares issuable under the award, as described in the heading "Compensation Discussion and Analysis Elements of Compensation Executive Equity Incentives Performance Shares." In addition, all of these performance shares are subject to an additional one-year vesting requirement. The fiscal 2008 expense for such shares recognized for financial statement reporting purposes by the Company is included in the 2008 Summary Compensation Table in the column entitled "Stock Awards" and their valuation assumptions are referenced in footnote 2 to that table.

(3) On January 16, 2008, 71,236 restricted shares, in the aggregate, were granted under our 2002 Stock Incentive Plan at nominal cost to our named executive officers. The closing price of our Class A common stock on the date of these grants was \$17.07 per share. The restricted shares are subject to a continued employment restriction and such restriction is fulfilled upon continued employment for a specified number of years (typically four years after the award date). Upon the lapse of such restrictions, the restricted stock award immediately vests. The fiscal 2008 expense recognized for financial statement reporting purposes by the Company for these restricted shares is included in the 2008 Summary Compensation Table in the column entitled "Stock Awards" and their valuation assumptions are referenced in footnote 2 to that table.

The January 1, 2009 fair market value of these restricted shares was valued at the closing price of our Class A common stock on January 1, 2009 of \$10.21 per share.

(2) Amounts represent the number of unearned performance shares for each of our named executive officers, based on the achievement of threshold performance goals, as of the January 1, 2009, the end of fiscal 2008, and the market value of such unearned shares, based on the closing price of our Class A common stock on January 1, 2009 of \$10.21 per share. The threshold performance goals for these performance shares is more fully described in footnote 2 to the 2008 Grants of Plan-Based Awards table. The reported unearned performance shares will be issued, subject to the executive's performance share award agreement, on the calculation date. In addition, certain of the reported unearned performance shares granted to

(1)

These amounts reflect the number of shares acquired and the aggregate dollar amount realized on option exercises for our named executive officers during fiscal 2008. The aggregate dollar amount realized was computed by determining the difference between the market price of the underlying securities at exercise and the exercise price of the options.

Potential Payments Upon Termination or Change in Control

Potential Payments Upon Termination. Pursuant to our employment agreements with Messrs. Campbell and Dunn and Ms. Miles, if we terminate any of these executives without cause or such executive terminates his or her employment for good reason, he or she is entitled to severance payments equal to two times his or her base annual salary, one times such executive's target cash bonus, and health and life insurance benefits for 24 months from the date of the termination of his or her employment. Under those circumstances, he or she is also entitled to receive, pro-rated to the date of termination, any bonus he or she actually would have received for that year.

In addition, pursuant to our form of Restricted Stock Agreement, if we terminate Messrs. Campbell, Dunn and Brandow or Ms. Miles without cause, their restricted stock awards granted vest as to one-fourth of the total number of restricted shares granted for each of the anniversaries of the grant date for which they remained in service prior to such termination without cause.

Potential Payments Upon Change in Control. Pursuant to our employment agreements with Messrs. Campbell and Dunn and Ms. Miles, if we terminate any of these executives' employment, or if any of these executives resign for good reason, within three months prior to, or one year after, a change of control of the Company, which is defined in our 2002 Stock Incentive Plan as both (1) the acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act), other than certain entities controlled by Philip F. Anschutz, of 20% or more of the combined voting power of the then-outstanding voting securities of the Company and (2) the beneficial ownership of such individual, entity or group of more than 20% of the voting power of the Company exceeds the beneficial ownership of such entities controlled by Mr. Anschutz, he or she is entitled to receive severance payments equal to: (i) the actual bonus, pro-rated to the date of termination, that he or she would have received in respect of the fiscal year in which the termination occurs; and (ii) in the case of Mr. Campbell, two and one-half times his annual base salary plus two times his target bonus, and health and life insurance benefits for 30 months and in the case of Mr. Dunn or Ms. Miles, two times the executive's annual salary plus one and one-half times the executive's target bonus, and health and life insurance benefits for 30 months. Pursuant to our 2002 Stock Incentive Plan, upon a change in control, all restrictions with respect to restricted stock awards to these executives shall immediately lapse. For additional information regarding the philosophy behind our change in control arrangements, see the discussion under the heading, "Compensation Discussion and Analysis Post-Termination Compensation."

Under our 2002 Stock Incentive Plan, upon a change in control, restrictions on all restricted stock immediately lapse, irrespective of whether such executive is terminated. Amounts reported include the value of shares of restricted stock for which such restrictions immediately would lapse upon a change in control, but do not include any value of performance shares since the value of such shares depends on the stock price of our Class A common stock at the time of such change of control.

(1) Represents 584,482 shares underlying unexercised options and 793,005 unearned performance shares, based on the achievement of target performance goals.

(2) Does not take into account the unearned performance shares reported in column (a).

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than 10% of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our Common Stock and other equity securities. Executive officers, directors and holders of greater than 10% of our Common Stock are required by regulations of the SEC to furnish us with copies of all Section 16(a) reports they file.

To our knowledge, based solely upon a review of the copies of such reports furnished to us and written representations that no other reports were required to be filed during fiscal 2008, all filing requirements under Section 16(a) applicable to our officers, directors and 10% stockholders were satisfied timely.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**Related Person Transaction Policy**

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form DEF 14A

The board has adopted a policy for the review, approval or ratification of transactions involving the Company and "related persons" as defined under the relevant SEC rules. The policy covers any related person transaction that meets the minimum threshold for disclosure in the proxy statement

Table of Contents

under the relevant SEC rules (generally, transactions involving amounts exceeding \$120,000 in which a related person has a direct or indirect material interest). Our policy is as follows:

Any proposed related person transaction must be reported to the Company's Chief Executive Officer, Chief Financial Officer or General Counsel, whom we refer to in this policy as authorized officers, and reviewed and approved by the Audit Committee, after full disclosure of the related person's interest in the transaction, prior to effectiveness or consummation of the transaction, whenever practicable.

If an authorized officer determines that advance approval of such transaction is not practicable under the circumstances, the Audit Committee shall review, after full disclosure of the related person's interest in the transaction, and, in its discretion, may ratify the transaction at the next Audit Committee meeting or at its next meeting following the date that such transaction comes to the attention of such authorized officer.

An authorized officer may present any such transaction arising in the time period between meetings of the Audit Committee to the Chair of the Audit Committee, who shall review and may approve such transaction, subject to ratification, after full disclosure of the related person's interest in the transaction, by the Audit Committee at the next Audit Committee meeting.

Transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee, pursuant to the Compensation Committee charter.

In review of a related person transaction, the Audit Committee will review all relevant information available to it, and the Audit Committee may approve or ratify such transaction only if the Audit Committee determines that, under all of the circumstances, the transaction is in, or is not inconsistent with, the best interests of the Company.

The Audit Committee may, in its sole discretion, impose such conditions as it deems appropriate on the Company or the related person in connection with the approval of such transaction.

Related Party Transactions

During fiscal 2008 and through April 2, 2009, Regal Cinemas incurred capitalized costs of \$14.4 million to Qwest Communications and its subsidiaries for network infrastructure upgrades. Regal Cinemas incurred approximately \$6.2 million of expenses payable to Qwest Communications and its subsidiaries for telecommunication and network monitoring services during such period. In addition, Regal Cinemas incurred approximately \$0.3 million of expenses payable to Anschutz affiliates for certain advertising services and Regal Cinemas received less than \$0.1 million from an Anschutz affiliate for rent and other expenses related to a theatre facility.

During fiscal 2008 and through April 2, 2009, Regal entered into a management agreement with an Anschutz affiliate to manage a Los Angeles, California theatre site on their behalf. The ultimate financial terms of the management agreement were approved by the Company's board of directors, and the management fee payable to Regal will be based on a percentage of revenues generated by the theatre, subject to a minimum annual fee payable to Regal regardless of revenues generated. The theatre is scheduled to open in late 2009.

During fiscal 2008 and through April 2, 2009, in connection with an agreement with an Anschutz affiliate, Regal received various forms of advertising in exchange for on-screen advertising provided in certain of its theatres. The value of such advertising was approximately \$0.1 million.

During 2005 and 2006, National CineMedia entered into various lease assignment and sublease arrangements with RCM pursuant to which National CineMedia leases its regional offices in Eden Prairie, Minnesota, Chicago, Illinois and New York, New York. During fiscal 2008 and through April 2,

Table of Contents

2009, only the Chicago, Illinois lease arrangement remained effective. The amounts paid by National CineMedia under this arrangement totaled approximately \$0.1 million for such period.

During the fiscal year ended January 1, 2009, Mr. Campbell's brother, Charles Campbell, was employed by us as our Vice President of Security. Charles Campbell's compensation in the fiscal year ended January 1, 2009 was approximately \$123,000.

The Audit Committee has reviewed and approved or ratified these transactions.

Employment Agreements

We have entered into employment agreements with each of our named executive officers other than Mr. Brandow. For the details of these agreements, see the discussion under the heading " Compensation Discussion and Analysis Elements of Compensation" above.

Indemnification Agreements

Regal Cinemas, Inc. has entered into indemnification agreements with each of Messrs. Campbell, Dunn and Brandow and Ms. Miles. The indemnification agreements provide that Regal Cinemas will indemnify each of those individuals against claims arising out of events or occurrences related to that individual's service as an agent of Regal Cinemas, except among other restrictions to the extent such claims arise from conduct that was knowingly fraudulent, a knowing violation of law or of any policy of Regal Cinemas, deliberately dishonest or in bad faith or constituted willful misconduct.

On March 3, 2006, the board of directors adopted a form of Director Indemnification Agreement to be used as a template for future indemnification agreements between the Company and its directors. Pursuant to the indemnification agreement, the Company will indemnify each director who becomes a party thereto against claims arising out of events or occurrences related to such individual's service on our board of directors; provided such individual acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Company and our stockholders, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. Under the indemnification agreements, we agree to maintain directors' and officers' liability insurance for our directors. As of the date of this proxy statement, the Company has entered into indemnification agreements with each of its directors.

PROPOSAL 2. RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has unanimously selected KPMG LLP to be our independent registered public accounting firm for the fiscal year ending December 31, 2009 (fiscal 2009), and has further directed that management submit the selection of our independent registered public accounting firm for ratification by the stockholders at the Annual Meeting.

Ratification of the selection of KPMG by our stockholders is not required by law. As a matter of policy, however, such selection is being submitted to the stockholders for ratification at the Annual Meeting (and it is the present intention of our Audit Committee and board of directors to continue this policy). The persons designated in the enclosed proxy will vote your shares "FOR" ratification unless you include instruction in your signed proxy to the contrary. If the stockholders fail to ratify the selection of this firm, the Audit Committee will reconsider the matter.

Representatives of KPMG are expected to be present at the Annual Meeting to answer appropriate questions from the stockholders and will be given an opportunity to make a statement on behalf of KPMG should they desire to do so. None of our directors or executive officers has any substantial interest, direct or indirect, in KPMG.

Table of Contents

The board of directors unanimously recommends a vote "FOR" ratification of the selection of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2009.

OTHER BUSINESS

We know of no other matter to be acted upon at the Annual Meeting. If any other matters are properly brought before the Annual Meeting however, the persons named in the accompanying proxy card as proxies for the holders of Regal's Common Stock will vote thereon in accordance with their best judgment.

OTHER INFORMATION

Regal's audited consolidated financial statements are reproduced in Appendix A to this proxy statement and are included in the annual report on Form 10-K for fiscal 2007 filed with the SEC, 100 F Street N.E., Washington, D.C. 20549. Complimentary copies of the Form 10-K as filed with the SEC may be obtained by following the instructions provided below under the heading "Availability of Report on Form 10-K."

Costs of Proxy Statement

We pay for preparing, assembling and mailing this proxy statement and any other proxy materials transmitted on behalf of our board of directors. We will, upon request, reimburse brokerage firms and others for their reasonable expenses in forwarding proxy materials to the beneficial owners of our Common Stock.

Important Notice Regarding Delivery of Stockholder Documents

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

A number of brokers with account holders who are Regal's stockholders may be householding our proxy materials, to the extent such stockholders have given their prior express or implied consent in accordance with SEC rules. A single proxy statement and summary annual report (if you requested one) will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent, which is deemed to be given unless you inform the broker otherwise when you receive the original notice of householding. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and summary annual report, please notify your broker to discontinue householding and direct your written request to receive a separate proxy statement and summary annual report to the Company at: Regal Entertainment Group, Attention: Investor Relations, 7132 Regal Lane, Knoxville, Tennessee 37918, or by calling (865) 922-1123. Stockholders who currently receive multiple copies of the proxy statement and summary annual report at their address and would like to request householding of their communications should contact their broker.

STOCKHOLDER PROPOSALS

In order to include a stockholder proposal in our proxy statement and form of proxy relating to our next annual meeting of stockholders following the end of the 2009 fiscal year, we must receive it no

later than December 18, 2009. Any stockholder proposal submitted to us for consideration at next year's annual meeting but which is not intended to be included in the related proxy statement and form of proxy must be received between December 7, 2009 and January 6, 2010; otherwise, the proposal will be considered by us to be untimely and not properly brought before the meeting.

AVAILABILITY OF REPORT ON FORM 10-K

Upon your written request, we will provide to you a complimentary copy of our 2008 annual report on Form 10-K (without exhibits) as filed with the SEC. Your request should be mailed to Regal's offices, addressed as follows: Regal Entertainment Group, Attention: Investor Relations, 7132 Regal Lane, Knoxville, Tennessee 37918. A free copy of the Form 10-K may also be obtained at the Internet web site maintained by the SEC at www.sec.gov and by visiting our Internet web site at www.regalentertainmentgroup.com and clicking on "Investor Relations," then on "Financial Information" and then on "SEC Filings."

**REGAL ENTERTAINMENT GROUP
SUMMARY ANNUAL REPORT**

This Appendix A was reproduced primarily from Part I, Item 1A and Part II of our annual report on Form 10-K for fiscal 2008 that was filed with the Securities and Exchange Commission on March 2, 2009. You can obtain a free copy of the complete text of our Form 10-K by following the instructions in our Proxy Statement under the heading "Availability of Report on Form 10-K."

Exhibits 31.1 and 31.2 to our annual report on Form 10-K contain our Chief Executive Officer's and Chief Financial Officer's certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 regarding the quality of our public disclosure. Following our 2008 annual meeting of stockholders, we submitted the Section 303A.12(a) Chief Executive Officer Certification to the NYSE in accordance with NYSE's corporate governance rules.

MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common equity consists of Class A and Class B common stock. Our Class A common stock has traded on the New York Stock Exchange since May 9, 2002 under the symbol "RGC." There is no established public trading market for our Class B common stock.

The following table sets forth the historical high and low sales prices per share of our Class A common stock as reported by the New York Stock Exchange for the fiscal periods indicated.

	Fiscal 2008	
	High	Low
First Quarter (December 28, 2007 - March 27, 2008)	\$20.95	\$16.40
Second Quarter (March 28, 2008 - June 26, 2008)	20.27	14.50
Third Quarter (June 27, 2008 - September 25, 2008)	17.84	14.57
Fourth Quarter (September 26, 2008 - January 1, 2009)	15.84	6.72

	Fiscal 2007	
	High	Low
First Quarter (December 29, 2006 - March 29, 2007)	\$23.07	\$19.34
Second Quarter (March 30, 2007 - June 28, 2007)	23.14	19.70
Third Quarter (June 29, 2007 - September 27, 2007)	22.73	19.58
Fourth Quarter (September 28, 2007 - December 27, 2007)	22.91	17.70

On February 25, 2009, there were approximately 282 stockholders of record of our Class A common stock and one stockholder of record of our Class B common stock.

Additionally, as of February 25, 2009, approximately 584,482 shares of our Class A common stock are issuable upon exercise of stock options that vest and are exercisable at various dates through June 23, 2014, with exercise prices ranging from \$2.4407 to \$16.1768. Of such options, as of February 25, 2009, 559,358 were exercisable. Finally, as of February 25, 2009 our officers, directors and key employees hold, or in the case of performance shares are eligible to receive, approximately 2,023,699 restricted shares of our Class A common stock, for which the restrictions lapse or the performance criteria and vesting may be satisfied, at various dates through January 14, 2013. All shares underlying outstanding options and all shares of restricted stock are registered and will be freely tradable when the option is exercised, in the case of restricted stock when the restrictions lapse, or, in the case of performance shares when the performance criteria and vesting are satisfied, unless such

shares are acquired by an affiliate of Regal, in which case the affiliate may only sell the shares subject to the volume limitations imposed by Rule 144 of the Securities Act.

Dividend Policy

During fiscal 2008, we paid to our stockholders four quarterly cash dividends of \$0.30 per share, on each outstanding share of our Class A and Class B common stock, or approximately \$184.2 million in the aggregate. During fiscal 2007, we paid to our stockholders four quarterly cash dividends of \$0.30 per share, on each outstanding share of our Class A and Class B common stock, or approximately \$183.1 million in the aggregate. In addition, on March 5, 2007, Regal declared an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock. Stockholders of record at the close of business on March 28, 2007 were paid this \$302.0 million dividend on April 13, 2007. On January 21, 2009, we declared a cash dividend of \$0.18 per share on each outstanding share of Class A and Class B common stock. The dividend is payable on March 17, 2009 to our stockholders of record on March 5, 2009. This dividend reflects a \$0.12 per share reduction from our last quarterly cash dividend of \$0.30 per share declared on October 23, 2008. These dividends have been or will be funded through cash flow from operations and available cash on hand. We, at the discretion of our board of directors and subject to applicable law, anticipate paying regular quarterly dividends on our Class A and Class B common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors. For a description of the loan agreement restrictions on the payment of dividends, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources" included in Part II, Item 7 of this Form 10-K and Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Unregistered Sales of Equity Securities and Use of Proceeds

None.

Issuer Purchases of Equity Securities

During fiscal 2004, the Company's board of directors authorized a share repurchase program, which provided for the authorization to repurchase up to \$50.0 million of the Company's outstanding Class A common stock within a twelve month period. During fiscal 2005, the Company repurchased 520,386 shares of its outstanding Class A common stock at an aggregate cost of approximately \$10.0 million. The Company's board of directors extended the share repurchase program during fiscal 2008 for an additional twelve month period. Accordingly, the Company can repurchase up to an additional \$40.0 million under the share repurchase program through November 2009. The Company made no repurchases of its outstanding Class A common stock during fiscal 2006, fiscal 2007 or fiscal 2008. Repurchases can be made from time to time as market conditions warrant, through open market purchases, negotiated transactions, or in such a manner deemed appropriate by the Company. Treasury shares are retired upon repurchase.

Comparative Stock Performance

The following performance graph compares the yearly percentage change in the cumulative total stockholder return on Regal's Class A common stock with (i) the cumulative total return on the Standard and Poor's Corporation Composite 500 Index and (ii) a self-determined peer group of another public company primarily engaged in the motion picture exhibition industry, for the period commencing January 2, 2004 (the first day of fiscal 2004) and ending January 1, 2009 (the last day of Regal's fiscal 2008). The comparison assumes \$100 was invested on January 2, 2004 in Regal's Class A common stock and in the foregoing index and peer group, and further assumes the reinvestment of dividends. The peer group for the Company's fiscal years 2003-2007 is comprised of Carmike Cinemas, Inc. and for fiscal year 2008 is comprised of Carmike Cinemas, Inc., and Cinemark, Inc. Cinemark, Inc., was added to the Company's peer group in fiscal 2008, the first full fiscal year after Cinemark, Inc. became a public reporting company and such data was publicly available.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity and cash flows of Regal Entertainment Group for the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006. The following discussion and analysis should be read in conjunction with the consolidated financial statements of Regal and the notes thereto included elsewhere in this Form 10-K.

Overview and Basis of Presentation

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form DEF 14A

We conduct our operations through our wholly owned subsidiaries. We operate the largest and most geographically diverse theatre circuit in the United States, consisting of 6,801 screens in 552 theatres in 39 states and the District of Columbia as of January 1, 2009. We believe the size, reach and quality of our theatre circuit provide an exceptional platform to realize economies of scale from our theatre operations. We also maintain an investment in National CineMedia, which concentrates on

Table of Contents

in-theatre advertising and creating complementary business lines that leverage the operating personnel, asset and customer bases of its theatrical exhibition partners, which include us, AMC and Cinemark. The Company manages its business under one reportable segment: theatre exhibition operations.

We generate revenues primarily from admissions and concession sales. Additional revenues are generated by our vendor marketing programs and electronic video games located adjacent to the lobbies of certain of our theatres. In addition, National CineMedia provides us with a theatre access fee associated with revenues generated from its sale of on-screen advertising, rental of theatres for business meetings and concerts and other events. Film rental costs depend on a variety of factors including the prospects of a film, the popularity and box office revenues of a film and such film rental costs generally increase as the admissions revenues generated by a film increase. Because we purchase certain concession items, such as fountain drinks and popcorn, in bulk and not pre-packaged for individual servings, we are able to improve our margins by negotiating volume discounts. Other operating expenses consist primarily of theatre labor and occupancy costs.

On February 12, 2007, we, along with AMC and Cinemark, formed DCIP, to create a financing model and establish agreements with major motion picture studios for the implementation of digital cinema. Future digital cinema developments will be managed by DCIP, subject to the approval of us, AMC and Cinemark. Each of Regal, AMC and Cinemark has an equal ownership and voting interest in DCIP. Recently, DCIP announced the execution of long-term deployment agreements with five film studios. DCIP is continuing to work with film studios and financial institutions to negotiate and finalize the related financing plans that would provide for a studio-financed conversion to digital projection. Upon completion, we are prepared to begin converting our existing theatres from 35 mm film projection to digital projection and intend to complete the conversion of our entire circuit in approximately three to four years.

On February 13, 2007, NCM, Inc., a newly formed entity that serves as the sole manager of National CineMedia, completed an IPO of its common stock. In connection with the series of transactions completed in connection with the IPO, Regal received gross cash proceeds totaling approximately \$628.3 million and retained a 22.6% interest in NCM, Inc. After the payment of current taxes, net cash proceeds from these transactions totaled approximately \$447.4 million. As discussed further in Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, as a result of the transactions completed in connection with the IPO, the Company recognized a gain of approximately \$350.7 million during the year ended December 27, 2007. In addition, as a result of the annual adjustment provisions of the Common Unit Adjustment Agreement, on April 9, 2008, we received from National CineMedia approximately 0.8 million newly issued common units of National CineMedia. Further, on May 29, 2008, we received from National CineMedia approximately 2.9 million newly issued common units of National CineMedia in accordance with the adjustment provisions of the Common Unit Adjustment Agreement for our increase in screens in connection with our acquisition of Consolidated Theatres. These adjustments increased the number of National CineMedia common units held by us to approximately 24.9 million and as a result, on a fully diluted basis, we own a 25.1% interest in NCM, Inc. as of January 1, 2009.

On March 10, 2008, Regal issued \$200.0 million aggregate principal amount of 6¹/₄% Convertible Senior Notes. Concurrent with the issuance of the 6¹/₄% Convertible Senior Notes, we entered into simultaneous convertible note hedge and warrant transactions with respect to our Class A common stock in order to reduce the potential dilution from conversion of the 6¹/₄% Convertible Senior Notes into shares of our Class A common stock. The net cost of the convertible note hedge and warrant transactions was approximately \$6.6 million and is included as a component of equity in the accompanying consolidated balance sheet as of January 1, 2009. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further description of the 6¹/₄% Convertible Senior Notes and the related convertible note hedge and warrant transactions. The Company used cash on hand and a portion of the net proceeds from the issuance of the

Table of Contents

6¹/₄% Convertible Senior Notes to redeem approximately \$90.0 million principal amount of the 3³/₄% Convertible Senior Notes due May 15, 2008 (the "3³/₄% Convertible Senior Notes"), in a series of privately negotiated transactions. As a result of the early redemption, the Company recorded a \$52.8 million loss on debt extinguishment during fiscal 2008. In connection with the early redemption, the Company received net proceeds of approximately \$13.7 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes described further in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Such proceeds were recorded as an increase to additional paid-in capital. In connection with the final maturity of the 3³/₄% Convertible Senior Notes on May 15, 2008, holders of the remaining \$33.7 million in principal amount exercised their conversion rights. The Company elected to settle these conversions entirely in cash for approximately \$51.4 million using the remaining proceeds from the issuance of the 6¹/₄% Convertible Senior Notes. As a result of these conversions, the Company recorded an additional \$17.7 million loss on debt extinguishment during fiscal 2008. In connection with these conversions, the Company received net proceeds of approximately \$5.2 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes. Such proceeds were also recorded as an increase to additional paid-in capital. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of this transaction.

On April 30, 2008, the Company acquired Consolidated Theatres, which holds a total of 28 theatres with 400 screens in Georgia, Maryland, North Carolina, South Carolina, Tennessee and Virginia. The total net cash purchase price for the acquisition was approximately \$209.3 million, subject to post-closing adjustments. In conjunction with the closing, we entered into a final judgment with the DOJ, which required us to hold separate and divest ourselves of four theaters comprising 52 screens in North Carolina. As described more fully in Note 3 to the consolidated financial statements included in Part II, Item 8, of this Form 10-K, during fiscal 2008, the Company entered into an agreement to sell three of the four theatres and recorded impairment charges of approximately \$7.9 million related to these theatres. On October 23, 2008, the Company completed its divestiture of the three theatres comprising 42 screens in North Carolina pursuant to a final judgment with the DOJ. In accordance with the final judgment, a court appointed trustee has been selected to attempt to sell the last of the four theatres. See Note 3 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of this acquisition.

For a summary of other industry trends as well as other risks and uncertainties relevant to the Company, see "Business Industry Overview and Trends" and "Risk Factors."

Recent Developments

Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

Results of Operations

Based on our review of industry sources, national box office revenues for calendar year 2008 were estimated to have decreased slightly in comparison to that of calendar year 2007. The industry's box office results were negatively impacted by difficult comparisons generated by high profile films released during 2007, including *Spider-Man 3*, *Transformers*, *Pirates of the Caribbean: At World's End*, *Shrek the Third* and *Harry Potter & the Order of The Phoenix*, largely offset by ticket price increases and strong attendance from 2008 film releases, such as *The Dark Knight*, and films outside the 15 highest grossing pictures.

Table of Contents

Our total revenues for the fifty-three week fiscal year ended January 1, 2009 ("Fiscal 2008 Period") were \$2,771.9 million and consisted of \$1,883.1 million of admissions revenues, \$758.0 million of concessions revenues and \$130.8 million of other operating revenues, and increased approximately 4.2% from total revenues of \$2,661.2 million for the fifty-two week fiscal year ended December 27, 2007 ("Fiscal 2007 Period").

During the Fiscal 2008 Period, total admissions revenues increased \$78.6 million, or 4.4%, to \$1,883.1 million, from \$1,804.5 million for the Fiscal 2007 Period. The Fiscal 2008 Period results were favorably impacted by the timing of the Fiscal 2008 Period calendar, which consisted of fifty-three weeks compared to the fifty-two weeks during the Fiscal 2007 Period. The additional week of operations was the week between Christmas and New Years, a traditionally high attendance and revenue week for the Company and the industry. The additional week of operations was significant in that it accounted for approximately 9.7 million attendees, or 4.0%, of the Fiscal 2008 Period total attendance and contributed to approximately \$73.6 million, or 3.9%, of the Fiscal 2008 Period total admissions revenues. The Fiscal 2008 Period results were also bolstered by the addition of the 400 screens acquired with Consolidated Theatres on April 30, 2008 and 13 net screens added since the end of the Fiscal 2007 Period. The 400 screens acquired from Consolidated Theatres accounted for 9.5 million attendees, or 3.9%, of the Fiscal 2008 Period total attendance and contributed to approximately \$69.3 million, or 3.7%, of the Fiscal 2008 Period total admissions revenues. These factors were largely offset by the impact of the decline in industry attendance during the Fiscal 2008 Period and as a result, total attendance for the Fiscal 2008 Period increased by approximately 0.9%. The Fiscal 2008 Period admissions revenues were also favorably impacted by a 3.4% increase in average ticket prices. Price increases identified during our ongoing periodic pricing reviews (which include analysis of various factors including general inflationary trends and local market conditions) along with the mix of film product exhibited during the Fiscal 2008 Period were the primary drivers of the increase in our Fiscal 2008 Period average ticket price.

On a 'comparable screen' basis (i.e., excluding the effects of the impact of week 53 and the inclusion of Consolidated Theatres during the Fiscal 2008 Period), attendance for the Fiscal 2008 period was approximately 226.0 million, a 7.0% decrease from the Fiscal 2007 Period and admissions revenues for the Fiscal 2008 period was approximately \$1,740.2 million, a decrease of 3.6% from the Fiscal 2007 Period. These declines were primarily a result of the decline in attendance among the top tier films exhibited during the Fiscal 2008 Period, partially offset by a 3.6% increase in comparable screen average ticket prices. Based on our review of certain industry sources, the decrease in our admissions revenues on a comparable screen basis was slightly greater than the industry's results for the Fiscal 2008 Period as compared to the Fiscal 2007 Period. We believe the greater than industry decline in admissions revenues on a comparable screen basis was primarily attributable to the Company's out-performance on top-tier films exhibited during the Fiscal 2007 Period, our less than industry average increase in ticket prices during the Fiscal 2008 Period and our less than industry average screen growth during the Fiscal 2008 Period.

In addition, during the Fiscal 2008 Period, on a comparable screen basis, we experienced a decrease in total concessions revenues and a slight increase in other operating revenues. The decline in total concessions revenues on a comparable screen basis was primarily a result of the decrease in attendance discussed above during the Fiscal 2008 Period in comparison to the Fiscal 2007 Period. Average concessions revenues per patron during the Fiscal 2008 Period was positively impacted by price increases effected during the Fiscal 2008 Period. The increase in other operating revenues for the Fiscal 2008 Period was primarily attributable to increases in revenues related to unredeemed gift certificates and discount tickets, National CineMedia revenues and other theatre revenues.

On a comparable screen basis, during the Fiscal 2008 Period, income from operations decreased \$88.2 million, or 27.4%, from the Fiscal 2007 Period. The decrease in income from operations on a comparable screen basis during the Fiscal 2008 Period was primarily attributable to a reduction in

Table of Contents

admissions and concessions revenues, coupled with increases in certain operating expense items such as rent expense, other operating expenses, depreciation and amortization and net loss on disposal and impairment of operating assets, partially offset by increases in other operating revenues and reductions in film rental and advertising costs and cost of concessions. The Company reported net income of \$72.5 million in the Fiscal 2008 Period compared to net income of \$363.0 million in the Fiscal 2007 Period. Diluted earnings per share of Class A and Class B common stock was \$0.47 in the Fiscal 2008 Period compared to \$2.28 during the Fiscal 2007 Period. The decreases in net income and diluted earnings per share of Class A and Class B common stock were primarily due to a \$350.7 million gain (\$209.0 million after related tax effects) resulting from transactions completed in connection with the Fiscal 2007 Period IPO of NCM, Inc., the impact of a \$70.5 million loss (\$44.1 million after related tax effects) on debt extinguishment recorded in the Fiscal 2008 Period in connection with the redemption of approximately \$123.7 million principal amount of the 3³/₄% Convertible Senior Notes, the \$28.6 million gain (\$17.2 million after related tax effects) recorded in connection with the sale of the Company's equity interest in Fandango, Inc. ("Fandango") during the Fiscal 2007 Period, a decrease in operating income and incremental interest expense, partially offset by the impact of incremental earnings recognized from National CineMedia described below.

During the Fiscal 2008 Period, we continued to make progress with respect to the following strategic initiatives:

We demonstrated our commitment to providing incremental value to our stockholders. Total cash dividends distributed to our stockholders during the Fiscal 2008 Period totaled approximately \$184.2 million.

On April 30, 2008, the Company acquired Consolidated Theatres, which holds a total of 28 theatres with 400 screens in Georgia, Maryland, North Carolina, South Carolina, Tennessee and Virginia, for a total net cash purchase price of approximately \$209.3 million, subject to post-closing adjustments.

In addition to the acquisition of Consolidated Theatres during the Fiscal 2008 Period, we opened 9 new theatres with 126 screens, added 12 screens through expansion of existing theatres and closed 12 underperforming theatres with 125 screens, ending the Fiscal 2008 Period with 552 theaters and 6,801 screens.

Finally, we continue to embrace new technologies to enhance the movie-going experience and broaden our content offerings. Specifically, the installation of digital projection systems, when combined with 3D technology or IMAX® theatre systems, will allow us to offer our patrons premium 3D and large format movie experiences, which we believe will generate incremental revenue for the Company. Through January 1, 2009, we operated 246 digital screens outfitted with digital projection systems and increased our digital 3D screen count to 168. During 2008, we announced an agreement with IMAX® to expand our IMAX® presence by agreeing to install a total of 52 IMAX® digital projection systems by the end of 2010. With the rollout of digital cinema, we expect to increase our total digital 3D screen count to approximately 1,500. We remain optimistic regarding the benefits of digital cinema primarily as it relates to future growth potential associated with 3D film product and other 3D content and are pleased to see growing support of 3D and IMAX® film product by the major studios.

We are optimistic regarding the breadth of the 2009 film slate and the timing of the release schedule and share the view of a number of film studio executives who believe the industry is poised to benefit from a year of solid box office performance. Evidenced by the film studios' continued efforts to promote and market upcoming film releases, 2009 appears to be another year of high-profile releases such as *Monsters vs. Aliens* (3D), *Hannah Montana: The Movie*, *X-Men Origins: Wolverine*, *Angels & Demons*, *Night at the Museum: Battle of the Smithsonian*, *Terminator Salvation*, *Up* (3D),

Table of Contents

Transformers: Revenge of the Fallen, Ice Age: Dawn of the Dinosaurs (3D), Harry Potter and the Half-Blood Prince and Avatar (3D).

We intend to grow our theatre circuit through selective expansion and through accretive acquisitions. With respect to capital expenditures, subject to the timing of certain construction projects, we expect capital expenditures to be in the range of \$85 million to \$100 million for fiscal 2009, consisting of new theatre development, expansion of existing theatre facilities, upgrades and replacements.

Overall for the fiscal 2009 year, we expect to benefit from modest increases in ticket prices and average concessions per patron. In addition, we expect fiscal 2009 admissions and concessions revenues to be supported by our continued focus on efficient theatre operations. We will continue to maintain a business strategy focused on the evaluation of accretive acquisition opportunities, selective upgrades and providing incremental returns to our stockholders. For an understanding of the significant factors that influenced our performance during the past three fiscal years, the preceding and following discussion should be read in conjunction with the consolidated financial statements and the notes thereto presented in this Form 10-K.

Fiscal 2008 Period Compared to Fiscal 2007 Period

Admissions

During the Fiscal 2008 Period, total admissions revenues increased \$78.6 million, or 4.4%, to \$1,883.1 million, from \$1,804.5 million for the Fiscal 2007 Period. The Fiscal 2008 Period results were favorably impacted by the timing of the Fiscal 2008 Period calendar, which consisted of fifty-three weeks compared to the fifty-two weeks during the Fiscal 2007 Period. The additional week of operations was the week between Christmas and New Years, a traditionally high attendance and revenue week for the Company and the industry. The additional week of operations was significant in that it accounted for approximately 9.7 million attendees, or 4.0%, of the Fiscal 2008 Period total attendance and contributed to approximately \$73.6 million, or 3.9%, of the Fiscal 2008 Period total admissions revenues. The Fiscal 2008 Period results were also bolstered by the addition of the 400 screens acquired with Consolidated Theatres on April 30, 2008 and 13 net screens added since the end of the Fiscal 2007 Period. The 400 screens acquired from Consolidated Theatres accounted for 9.5 million attendees, or 3.9%, of the Fiscal 2008 Period total attendance and contributed to approximately \$69.3 million, or 3.7%, of the Fiscal 2008 Period total admissions revenues. These factors were largely offset by the impact of the decline in industry attendance during the Fiscal 2008 Period and as a result, total attendance for the Fiscal 2008 Period increased by approximately 0.9%. The Fiscal 2008 Period admissions revenues were also favorably impacted by a 3.4% increase in average ticket prices. Price increases identified during our ongoing periodic pricing reviews (which include analysis of various factors including general inflationary trends and local market conditions) along with the mix of film product exhibited during the Fiscal 2008 Period were the primary drivers of the increase in our Fiscal 2008 Period average ticket price.

On a comparable screen basis (i.e., excluding the effects of the impact of week 53 and the inclusion of Consolidated Theatres during the Fiscal 2008 Period), attendance for the Fiscal 2008 period was approximately 226.0 million, a 7.0% decrease from the Fiscal 2007 Period and admissions revenues for the Fiscal 2008 period was approximately \$1,740.2 million, a decrease of 3.6% from the Fiscal 2007 Period. These declines were primarily a result of the decline in attendance among the top tier films exhibited during the Fiscal 2008 Period, partially offset by a 3.6% increase in comparable screen average ticket prices. Based on our review of certain industry sources, the decrease in our admissions revenues on a comparable screen basis was slightly greater than the industry's results for the Fiscal 2008 Period as compared to the Fiscal 2007 Period. We believe the greater than industry decline in admissions revenues on a comparable screen basis was primarily attributable to the Company's out-performance on top-tier films exhibited during the Fiscal 2007 Period, our less than industry average increase in ticket prices during the Fiscal 2008 Period and our less than industry average screen growth during the Fiscal 2008 Period.

Concessions

During the Fiscal 2008 Period, total concessions revenues increased \$23.0 million, or 3.1%, to \$758.0 million, from \$735.0 million for the Fiscal 2007 Period. On a comparable screen basis, total concessions revenues for the Fiscal 2008 Period declined by approximately \$38.1 million, or 5.2% from the Fiscal 2007 Period. The decline in total concessions revenues on a comparable screen basis was primarily a result of the decrease in attendance discussed above during the Fiscal 2008 Period in comparison to the Fiscal 2007 Period. Average concessions revenues per patron during the Fiscal 2008 Period was positively impacted by price increases effected during the Fiscal 2008 Period.

Other Operating Revenues

Total other operating revenues increased \$9.1 million, or 7.5%, to \$130.8 million for the Fiscal 2008 Period, from \$121.7 million for the Fiscal 2007 Period. Included in other operating revenues are

Table of Contents

the theatre access fees paid by National CineMedia (net of payments for on-screen advertising time provided to our beverage concessionaire), marketing revenues from our vendor marketing programs and other theatre revenues, including revenue related to unredeemed gift certificates and discount tickets. Such increase was primarily attributable to increases in revenues related to unredeemed gift certificates and discount tickets, National CineMedia revenues and other theatre revenues.

Film Rental and Advertising Costs

Film rental and advertising costs as a percentage of admissions revenues decreased to 52.6% during the Fiscal 2008 Period as compared to 53.1% in the Fiscal 2007 Period. The decrease in film rental and advertising costs as a percentage of box office revenues during the Fiscal 2008 Period was primarily the result of a lower percentage of box office revenues generated by the top tier films exhibited during the Fiscal 2008 Period and a decline in advertising expense during the period.

Cost of Concessions

Cost of concessions increased \$2.8 million, or 2.7%, during the Fiscal 2008 Period as compared to the Fiscal 2007 Period. Cost of concessions as a percentage of revenues for the Fiscal 2008 Period were consistent with that of the Fiscal 2007 Period. On a comparable screen basis, cost of concessions declined \$5.8 million, or 5.6%, during the Fiscal 2008 Period as compared to the Fiscal 2007 Period. On a comparable screen basis, the decrease in cost of concessions during the Fiscal 2008 Period was primarily related to a change in a vendor marketing program, price increases in our concession products effected during the Fiscal 2008 Period, partially offset by slightly higher food costs. On a comparable screen basis, cost of concessions as a percentage of revenues for the Fiscal 2008 Period were consistent with that of the Fiscal 2007 Period.

Rent Expense

During the Fiscal 2008 Period, rent expense increased \$27.4 million, or 8.2%, to \$363.3 million, from \$335.9 million in the Fiscal 2007 Period. Such increase was primarily due to the inclusion of Consolidated Theatres during Fiscal 2008 Period. On a comparable screen basis, rent expense increased \$6.5 million, or 1.9% during the Fiscal 2008 Period as compared to the Fiscal 2007 Period. On a comparable screen basis, the increase in rent expense in the Fiscal 2008 Period was primarily attributable to general inflationary increases and to a lesser extent, incremental rent from the inclusion of 13 net screens added since the end of the Fiscal 2007 Period.

Other Operating Expenses

Other operating expenses increased \$47.6 million, or 6.9%, to \$739.9 million in the Fiscal 2008 Period, from \$692.3 million in the Fiscal 2007 Period. Such increase was primarily due to the impact of the fifty-three weeks of operations and the inclusion of Consolidated Theatres during the Fiscal 2008 Period. On a comparable screen basis, during the Fiscal 2008 Period, other operating expenses increased \$10.3 million, or 1.5%, from the Fiscal 2007 Period. The increase in other operating expenses on a comparable screen basis during the Fiscal 2008 Period was primarily attributable to increases in non-rent occupancy and other fixed costs.

General and Administrative Expenses

General and administrative expenses decreased \$1.0 million, or 1.6%, to \$62.1 million during the Fiscal 2008 Period as compared to \$63.1 million in the Fiscal 2007 Period. As a percentage of total revenues, general and administrative expenses decreased to 2.2% during the Fiscal 2008 Period as compared to 2.4% in the Fiscal 2007 Period. The slight decrease in general and administrative expenses

Table of Contents

during the Fiscal 2008 Period was primarily attributable to a reduction of legal and professional fees and share-based compensation expense during the period.

Depreciation and Amortization

For the Fiscal 2008 Period, depreciation and amortization expense increased \$18.9 million, or 10.3%, to \$202.3 million, from \$183.4 million in the Fiscal 2007 Period. Such increase was primarily due to the impact of the fifty-three weeks of operations and the inclusion of Consolidated Theatres during the Fiscal 2008 Period. On a comparable screen basis, depreciation and amortization expense increased \$4.3 million, or 2.3%, during the Fiscal 2008 Period as compared to the Fiscal 2007 Period. On a comparable screen basis, the increase in depreciation and amortization expense during the Fiscal 2008 Period was primarily related to the replacement of existing older screens with newer screens.

Income from Operations

Income from operations totaled \$284.4 million during the Fiscal 2008 Period, which represents a decrease of \$37.8 million, or 11.7%, from \$322.2 million in the Fiscal 2007 Period. On a comparable screen basis, during the Fiscal 2008 Period, income from operations decreased \$88.2 million, or 27.4%, from the Fiscal 2007 Period. On a comparable screen basis, the decrease in income from operations during the Fiscal 2008 Period was primarily attributable to a reduction in admissions and concessions revenues, coupled with increases in certain operating expense items such as rent expense, other operating expenses, depreciation and amortization and net loss on disposal and impairment of operating assets, partially offset by increases in other operating revenues and reductions in film rental and advertising costs and cost of concessions.

Interest Expense, net

During the Fiscal 2008 Period, net interest expense increased \$11.4 million, or 10.1%, to \$124.3 million, from \$112.9 million in the Fiscal 2007 Period. The increase in net interest expense during the Fiscal 2008 Period was principally due to less interest income (\$6.3 million and \$19.5 million, respectively, for the Fiscal 2008 Period and Fiscal 2007 Period) from a lower average cash balance outstanding as a result of the \$209.3 million acquisition of Consolidated Theatres and incremental interest expense from the issuance of the \$200.0 million 6¹/₄% Convertible Senior Notes, partially offset by a lower effective interest rate on our term facility under the Amended Senior Credit Facility (the "Term Facility") during the Fiscal 2008 Period.

Earnings Recognized from NCM

The Company recorded \$33.1 million and \$18.6 million, respectively, in cash distributions from National CineMedia during the Fiscal 2008 Period and Fiscal 2007 Period. Approximately \$2.8 million of these cash distributions received during the year ended January 1, 2009 were recognized as a reduction in our investment in National CineMedia. The remaining amounts were recognized in equity earnings during each of these periods and have been included as component of "Earnings recognized from NCM" in the consolidated financial statements. In addition, during the Fiscal 2008 Period, the Company recorded an additional \$2.6 million of equity earnings with respect to additional investments in National CineMedia during such period. As a result, during the Fiscal 2008 Period and the Fiscal 2007 Period, the Company recognized \$32.9 million and \$18.6 million, respectively, of earnings from National CineMedia.

During the first fiscal quarter of 2007, the Company recorded a loss of \$2.0 million, representing its pre-IPO share of the net loss of National CineMedia. Such amounts are presented as a component of "Equity in earnings of joint venture including former employee compensation" in the consolidated financial statements.

Income Taxes

The provision for income taxes of \$50.8 million and \$242.9 million for the Fiscal 2008 Period and the Fiscal 2007 Period, respectively, reflect effective tax rates of approximately 41.2% and 40.1%, respectively. The increase in the effective tax rate for the Fiscal 2008 Period was primarily attributable to the state tax effects of the \$70.5 million loss (\$44.1 million after related tax effects) on debt extinguishment recorded in the Fiscal 2008 Period in connection with the redemption of approximately \$123.7 million principal amount of the 3³/₄% Convertible Senior Notes. The effective tax rates for the Fiscal 2008 Period and the Fiscal 2007 Period reflect the impact of certain non-deductible expenses.

Net Income

During the Fiscal 2008 Period, net income totaled \$72.5 million, which represents a decrease of \$290.5 million, from net income of \$363.0 million in the Fiscal 2007 Period. The decrease in net income for the Fiscal 2008 Period as compared to the Fiscal 2007 Period was primarily attributable to a \$350.7 million gain (\$209.0 million after related tax effects) resulting from transactions completed in connection with the Fiscal 2007 Period IPO of NCM, Inc., the impact of a \$70.5 million loss (\$44.1 million after related tax effects) on debt extinguishment recorded in the Fiscal 2008 Period in connection with the redemption of approximately \$123.7 million principal amount of the 3³/₄% Convertible Senior Notes, the \$28.6 million gain (\$17.2 million after related tax effects) recorded in connection with the sale of the Company's equity interest in Fandango during the Fiscal 2007 Period, a decrease in operating income and incremental interest expense, partially offset by the impact of incremental earnings recognized from National CineMedia described above.

Fiscal 2007 Period Compared to Fiscal 2006 Period

Admissions

Total admissions revenues increased \$77.4 million during the Fiscal 2007 Period, or 4.5%, to \$1,804.5 million, from \$1,727.1 million for the Fiscal 2006 Period. Price increases identified during our ongoing periodic pricing reviews (which include analysis of various factors including general inflationary trends and local market conditions) and a favorable mix of film product exhibited during the Fiscal 2007 Period were the primary drivers of a 6.4% increase in our average ticket price and led to the increase in admissions revenues despite a 1.8% decline in attendance. We believe that the decline in attendance was primarily a result of a lack of breadth in the Fiscal 2007 Period film slate. Based on our review of certain industry sources, the increase in our admissions revenues was in line with the industry's results for the Fiscal 2007 Period as compared to the Fiscal 2006 Period.

Concessions

During the Fiscal 2007 Period, total concessions revenues increased \$38.3 million, or 5.5%, to \$735.0 million, from \$696.7 million for the Fiscal 2006 Period. The increase in concessions revenues in the Fiscal 2007 Period was due to a 7.4% increase in average concessions per patron, partially offset by the aforementioned Fiscal 2007 Period decrease in attendance. The growth in average concessions revenues per patron for the Fiscal 2007 Period was primarily attributable to price increases, concession-friendly films exhibited during the Fiscal 2007 Period, such as *Spider-Man 3*, *Transformers*, *Pirates of the Caribbean: At World's End*, *Shrek the Third*, *Harry Potter & the Order of The Phoenix* and *Ratatouille*, and a favorable mix of concession products sold during the Fiscal 2007 Period.

Other Operating Revenues

Total other operating revenues decreased \$52.6 million, or 30.2%, to \$121.7 million for the Fiscal 2007 Period, from \$174.3 million for the Fiscal 2006 Period. Included in other operating revenues are the theatre access fees paid by National CineMedia, net of payments for on-screen advertising time

Table of Contents

provided to our beverage concessionaire, marketing revenues from our vendor marketing programs and other theatre revenues, including revenue related to unredeemed gift certificates and discount tickets. The decrease in other operating revenues in the Fiscal 2007 Period was primarily attributable to a modification of the payment arrangement with National CineMedia (effective upon consummation of the IPO of NCM, Inc. on February 13, 2007) described in further detail under Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, partially offset by increases in marketing revenues from our vendor marketing programs and an increase in revenue related to unredeemed gift certificates and discount tickets.

Film Rental and Advertising Costs

Film rental and advertising costs as a percentage of admissions revenues increased to 53.1% during the Fiscal 2007 Period as compared to 52.5% in the Fiscal 2006 Period. The increase in film rental and advertising costs as a percentage of box office revenues during the Fiscal 2007 Period was primarily the result of a higher percentage of box office revenues generated by the top 10 films exhibited during the Fiscal 2007 Period.

Cost of Concessions

During the Fiscal 2007 Period, cost of concessions remained relatively consistent with that of the Fiscal 2006 Period. Cost of concessions as a percentage of concessions revenues decreased to 14.1% during the Fiscal 2007 Period as compared to 15.0% in the Fiscal 2006 Period. The decrease in the cost of concessions as a percentage of concessions revenues during the Fiscal 2007 Period was primarily related to increases in concession prices, coupled with the mix of concession products sold during such periods.

Rent Expense

Rent expense increased \$12.7 million, or 3.9%, to \$335.9 million in the Fiscal 2007 Period, from \$323.2 million in the Fiscal 2006 Period. The increase in rent expense in the Fiscal 2007 Period was primarily attributable to general inflationary increases along with incremental rent from the inclusion of 189 new screens added since the end of the Fiscal 2006 Period and the 58 screens acquired from AMC during the third fiscal quarter of 2006, partially offset by the closure of 204 underperforming screens subsequent to the end of the Fiscal 2006 Period.

Other Operating Expenses

Other operating expenses increased approximately \$22.8 million, or 3.4%, to \$692.3 million in the Fiscal 2007 Period, from \$669.5 million in the Fiscal 2006 Period. The increase in total other operating expenses during the Fiscal 2007 Period was primarily attributable to increases in variable costs and increased labor and non-rent occupancy costs, partially offset by a decrease in expenses of National CineMedia. Increases in labor costs were primarily the result of state minimum wage increases, coupled with normal inflationary increases.

General and Administrative Expenses

During the Fiscal 2007 Period, general and administrative expenses decreased \$2.8 million, or 4.2%, to \$63.1 million, from \$65.9 million in the Fiscal 2006 Period. As a percentage of total revenues, general and administrative expenses decreased to 2.3% in the Fiscal 2007 Period from 2.5% in the Fiscal 2006 Period. The decrease in general and administrative expenses during the Fiscal 2007 Period as compared to the Fiscal 2006 Period was primarily attributable to a reduction of legal and professional fees during the Fiscal 2007 Period.

Table of Contents

Depreciation and Amortization

Depreciation and amortization decreased \$13.7 million, or 7.0%, to \$183.4 million during the Fiscal 2007 Period, from \$197.1 million in the Fiscal 2006 Period. The decrease in depreciation and amortization expense during the Fiscal 2007 Period was primarily related to our equipment utilized in NCM's digital content network.

Income from Operations

During the Fiscal 2007 Period, income from operations totaled approximately \$322.2 million, which represents an increase of \$13.7 million, or 4.4%, from \$308.5 million in the Fiscal 2006 Period. The increase in income from operations during the Fiscal 2007 Period was primarily attributable to incremental admissions and concessions revenues described above, coupled with decreases in certain operating expense items such as depreciation and amortization, equity in earnings of joint venture including former employee compensation and loss on disposal and impairment of operating assets, partially offset by decreases in other operating revenues and increases in film and advertising costs, rent expense, and other operating expenses.

Interest Expense, net

Net interest expense decreased \$12.3 million, or 9.8%, to \$112.9 million in the Fiscal 2007 Period, from \$125.2 million in the Fiscal 2006 Period. The decrease in net interest expense during the Fiscal 2007 Period as compared to the Fiscal 2006 Period was principally due to incremental interest income (\$19.5 million and \$4.8 million, respectively, for the Fiscal 2007 Period and the Fiscal 2006 Period) from a higher outstanding cash balance during the Fiscal 2007 Period resulting from transactions completed in connection with the IPO of NCM, Inc. (see Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion).

Income Taxes

The provision for income taxes of \$242.9 million and \$57.7 million for the Fiscal 2007 Period and the Fiscal 2006 Period, respectively, each reflect an effective tax rate of approximately 40.1%. The effective tax rates for the Fiscal 2007 Period and the Fiscal 2006 Period reflect the impact of certain non-deductible expenses.

Earnings Recognized from NCM

During the Fiscal 2007 Period, the Company received \$18.6 million in cash distributions from National CineMedia. As a result, \$18.6 million in equity earnings were recognized from NCM during the Fiscal 2007 Period. Such amount is presented as a component of "Earnings recognized from NCM" in the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

During the Fiscal 2006 Period and for the period from December 29, 2006 through February 12, 2007, the Company recorded a loss of \$3.5 million and \$2.0 million, respectively, representing its share of the net loss of National CineMedia. Such amounts are presented as a component of "Equity in earnings of joint venture including former employee compensation" in the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Net Income

During the Fiscal 2007 Period, net income totaled \$363.0 million, which represents an increase of \$276.7 million, from \$86.3 million in the Fiscal 2006 Period. The increase in net income for the Fiscal 2007 Period was primarily attributable to an increase in operating income as described above, a \$350.7 million gain (\$209.0 million after related tax effects) resulting from transactions completed in

Table of Contents

connection with the IPO of NCM, Inc. (see Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion), a \$28.6 million gain (\$17.2 million after related tax effects) resulting from transactions completed in connection with the sale of our equity interest in Fandango (see Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion), the impact of earnings recognized from NCM, a reduction of net interest expense, and the impact of a \$37.0 million loss (\$22.2 million after related tax effects) on debt extinguishment recorded in the Fiscal 2006 Period in connection with conversions of a portion of the Company's 3³/₄% Convertible Senior Notes.

Cash Flows

See Note 2 under "Reclassifications" to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of a reclassification of certain items originally presented as cash flows provided by operating activities during the Fiscal 2007 Period which have been reclassified as cash flows provided by investing activities herein to conform to the Fiscal 2008 Period presentation. Such reclassification for the Fiscal 2007 Period is also reflected in the discussion in "EBITDA" below. The following table summarizes certain cash flow data for the Fiscal 2008 Period, the Fiscal 2007 Period and the Fiscal 2006 Period:

	Fiscal 2008 Period	Fiscal 2007 Period	Fiscal 2006 Period
	(in millions)		
Net cash provided by operating activities	\$ 270.9	\$ 453.4	\$ 304.4
Net cash (used in) provided by investing activities	(338.5)	299.8	(151.7)
Net cash used in financing activities	(197.4)	(480.2)	(186.8)
Net increase (decrease) in cash and cash equivalents	\$ (265.0)	\$ 273.0	\$ (34.1)

Fiscal 2008 Period Compared to Fiscal 2007 Period

Net cash flows provided by operating activities decreased by approximately \$182.5 million to approximately \$270.9 million for the Fiscal 2008 Period from approximately \$453.4 million for the Fiscal 2007 Period. The decrease in net cash flows generated from operating activities for the Fiscal 2008 Period was primarily attributable to the transactions completed in the Fiscal 2007 Period in connection with the IPO of NCM, Inc. (see Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion). These transactions resulted in approximately \$100.1 million of net cash provided by operating activities in the Fiscal 2007 Period. In addition to the changes in cash flows related to the IPO of NCM, Inc., the timing of other Fiscal 2008 Period vendor payments negatively impacted cash flows from operating activities.

Net cash flows used in investing activities totaled approximately \$338.5 million for the Fiscal 2008 Period compared to cash flows provided by investing activities of approximately \$299.8 million for the Fiscal 2007 Period. Contributing to the increase in cash flows used in investing activities was the \$209.3 million acquisition of Consolidated Theatres during the Fiscal 2008 Period, incremental capital expenditures of approximately \$17.3 million coupled with fewer proceeds from the disposition of assets of approximately \$37.0 million during the Fiscal 2008 Period as compared to the Fiscal 2007 Period, the impact of \$315.1 million of proceeds received in connection with the redemption of preferred units of NCM during the Fiscal 2007 Period, the impact of \$32.2 million of proceeds from the sale of NCM common units to NCM, Inc. during the Fiscal 2007 Period and the impact of the \$28.6 million of proceeds received in connection with the sale of the Company's equity interest in Fandango during the Fiscal 2007 Period.

Table of Contents

Net cash flows used in financing activities were approximately \$197.4 million for the Fiscal 2008 Period compared to cash flows used in financing activities of approximately \$480.2 million for the Fiscal 2007 Period. The net decrease in cash flows used in financing activities during the Fiscal 2008 Period was primarily attributable to a \$300.9 million reduction of dividends paid to shareholders during the Fiscal 2008 Period as compared to the Fiscal 2007 Period, the proceeds received in connection with the issuance of \$200.0 million 6¹/₄% Convertible Senior Notes during the Fiscal 2008 Period, partially offset by net cash used to redeem approximately \$123.7 million principal amount of the 3³/₄% Convertible Senior Notes, net cash used in connection with the 2008 Convertible Note hedge and warrant transactions during the Fiscal 2008 Period, fewer proceeds from stock option exercises and fewer excess tax benefits from share-based payment arrangements during the Fiscal 2008 Period as compared to the Fiscal 2007 Period.

Fiscal 2007 Period Compared to Fiscal 2006 Period

Net cash flows provided by operating activities increased by approximately \$149.0 million to approximately \$453.4 million for the Fiscal 2007 Period from approximately \$304.4 million for the Fiscal 2006 Period. The increase in net cash flows generated from operating activities for the Fiscal 2007 Period was primarily attributable to the transactions completed in connection with the IPO of NCM, Inc. (see Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion). These transactions resulted in an increase in net cash provided by operating activities for the Fiscal 2007 Period of approximately \$100.1 million (proceeds of \$281.0 million offset by Federal and state tax payments of \$180.9 million). The components of the \$100.1 million increase in net cash provided by operating activities related to the transactions completed in connection with the NCM, Inc. IPO include an increase in net income of approximately \$209.0 million, an increase in deferred revenue of approximately \$281.0 million and an increase in other liabilities of \$5.7 million offset by a gain of approximately \$350.7 million and a deferred tax benefit of \$44.9 million. In addition to the changes in cash flows related to the IPO of NCM, Inc., the increase in net income and the timing of other Fiscal 2007 vendor payments positively impacted cash flows from operating activities and resulted in a \$149.0 million increase in net cash provided by operating activities for the Fiscal 2007 Period.

Net cash flows provided by investing activities totaled approximately \$299.8 million for the Fiscal 2007 Period compared to cash flows used in investing activities of approximately \$151.7 million for the Fiscal 2006 Period. Contributing to the increase in cash flows provided by investing activities was \$315.1 million of proceeds received in connection with the redemption of preferred units of NCM during the Fiscal 2007 Period, \$32.2 million of proceeds from the sale of NCM common units to NCM, Inc. during the Fiscal 2007 Period, \$28.6 million of proceeds received in connection with the sale of the Company's equity interest in Fandango during the Fiscal 2007 Period and incremental proceeds from the disposition of assets of approximately \$33.5 million during the Fiscal 2007 Period as compared to the Fiscal 2006 Period. In addition, the Fiscal 2006 Period included cash used for acquisitions totaling approximately \$34.1 million.

Net cash flows used in financing activities were approximately \$480.2 million for the Fiscal 2007 Period compared to cash flows used in financing activities of approximately \$186.8 million for the Fiscal 2006 Period. The net increase in cash flows used in financing activities during the Fiscal 2007 Period was primarily attributable to \$305.5 million of incremental dividends paid to shareholders (including an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock, or approximately \$302.0 million in the aggregate) during the Fiscal 2007 Period as compared to the Fiscal 2006 Period, coupled with a \$140.4 million reduction in borrowings from the Regal Cinemas senior credit facility during the Fiscal 2007 Period, partially offset by less net cash used to settle conversions of the Company's 3³/₄% Convertible Senior Notes and greater excess tax benefits from share-based payment arrangements during the Fiscal 2007 Period as compared to the Fiscal 2006 Period.

Liquidity and Capital Resources

On a consolidated basis, we expect our primary uses of cash to be for operating expenses, capital expenditures, general corporate purposes related to corporate operations, debt service and the Company's quarterly dividend payments. The principal sources of liquidity are cash generated from operations, cash on hand and borrowings under the Amended Senior Credit Facility described below. Under the terms of the Amended Senior Credit Facility, Regal Cinemas is restricted as to how much it can advance or distribute to Regal, its indirect parent. Since Regal is a holding company with no significant assets other than the stock of subsidiaries, this restriction could impact Regal's ability to effect future debt or dividend payments, pay corporate expenses or redeem or convert for cash its 6¹/₄% Convertible Senior Notes.

Our revenues are generated principally through admissions and concessions sales with proceeds received in cash or via credit card at the point of sale. Our operating expenses are primarily related to film and advertising costs, rent and occupancy, and payroll. Film costs are ordinarily paid to distributors within 30 days following receipt of admissions revenues and the cost of the Company's concessions are generally paid to vendors approximately 30 to 35 days from purchase. Our current liabilities generally include items that will become due within twelve months. In addition, from time to time, we use cash from operations and borrowings to fund dividends in excess of net income and cash flows from operating activities less cash flows from investing and financing activities. As a result, at any given time, our balance sheet may reflect a working capital deficit.

We fund the cost of capital expenditures through internally generated cash flows, cash on hand, proceeds from disposition of assets and financing activities. Our capital requirements have historically arisen principally in connection with acquisitions of theatres, new theatre construction, adding new screens to existing theatres, upgrading the Company's theatre facilities (including digital 3D and IMAX® screens) and replacing equipment. The costs of implementing digital projection in our theatres will be substantially funded by DCIP. DCIP and its members have yet to execute definitive agreements concerning the extent of such funding, but based on current negotiations, we expect DCIP to fund the implementation of digital projection through virtual print fees from motion picture studios. We will bear operating and maintenance costs with respect to digital projection systems in our theatres, which we expect to be similar to what we currently spend on our conventional film projectors. Should the conversion process to digital cinema rapidly accelerate and the major studios not cover the cost of the conversion as expected, we may have to incur additional capital expenditures associated with this potential change. We intend to continue to grow our theatre circuit through selective expansion and acquisition opportunities. The Company has a formal and intensive review procedure for the authorization of capital projects, with the most important financial measure of acceptability for a discretionary non-maintenance capital project being whether its projected discounted cash flow return on investment meets or exceeds the Company's internal rate of return targets. We currently expect capital expenditures for theatre development, replacement, expansion, upgrading and replacements to be in the range of approximately \$85.0 million to \$100.0 million in fiscal year 2009, exclusive of acquisitions. Such capital expenditures are expected to be partially funded through asset dispositions conducted during the normal course of our business. During the Fiscal 2008 Period, we invested approximately \$131.7 million in capital expenditures.

As described more fully in Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on February 13, 2007, NCM, Inc., a newly formed entity that serves as the sole manager of National CineMedia, completed an IPO of its common stock. In connection with the IPO of NCM, Inc., RCH, AMC and Cinemark amended and restated the operating agreement of National CineMedia and other ancillary agreements. In connection with the series of transactions completed in connection with the IPO, Regal received gross cash proceeds totaling approximately \$628.3 million and retained a 22.6% interest in NCM, Inc. After the payment of current taxes, net cash proceeds from these transactions totaled approximately \$447.4 million. The Company used a portion of

Table of Contents

the net cash proceeds to fund an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock, or approximately \$302.0 million in the aggregate. Stockholders of record at the close of business on March 28, 2007 were paid this dividend on April 13, 2007. The Company used the remaining net cash proceeds along with additional cash on hand for the acquisition of Consolidated Theatres as more fully described below and in Note 3 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

During the year ended December 27, 2007, the Company sold its equity interest in Fandango for proceeds of \$28.6 million. As a result of this transaction, the Company recognized a gain on the sale of approximately \$28.6 million (\$17.2 million after tax). In addition, during the year ended January 1, 2009, the Company received an additional \$3.4 million of sale proceeds related to Fandango. Accordingly, the Company recognized an additional gain of \$3.4 million (\$2.0 million after tax) during the year ended January 1, 2009. In connection with the sale, the Company agreed to amend its existing contract with Fandango in exchange for an amendment fee totaling \$5.5 million. This amount has been recorded as deferred revenue and will be amortized to revenue on a straight-line basis over the six-year term of the amendment.

On March 10, 2008, Regal issued \$200.0 million aggregate principal amount of the 6¹/₄% Convertible Senior Notes. Concurrent with the issuance of the 6¹/₄% Convertible Senior Notes, we entered into simultaneous convertible note hedge and warrant transactions with respect to our Class A common stock in order to reduce the potential dilution from conversion of the 6¹/₄% Convertible Senior Notes into shares of our Class A common stock. The net cost of the convertible note hedge and warrant transactions was approximately \$6.6 million and is included as a component of equity in the accompanying consolidated balance sheet as of January 1, 2009. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further description of the 6¹/₄% Convertible Senior Notes and the related convertible note hedge and warrant transactions. The Company used cash on hand and a portion of the net proceeds from the issuance of the 6¹/₄% Convertible Senior Notes to redeem approximately \$90.0 million principal amount of the 3³/₄% Convertible Senior Notes, in a series of privately negotiated transactions. As a result of the early redemption, the Company recorded a \$52.8 million loss on debt extinguishment during fiscal 2008. In connection with the early redemption, the Company received net proceeds of approximately \$13.7 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes described further in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Such proceeds were recorded as an increase to additional paid-in capital. In connection with the final maturity of the 3³/₄% Convertible Senior Notes on May 15, 2008, holders of the remaining \$33.7 million in principal amount exercised their conversion rights. The Company elected to settle these conversions entirely in cash for approximately \$51.4 million using the remaining proceeds from the issuance of the 6¹/₄% Convertible Senior Notes. As a result of these conversions, the Company recorded an additional \$17.7 million loss on debt extinguishment during fiscal 2008. In connection with these conversions, the Company received net proceeds of approximately \$5.2 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes. Such proceeds were also recorded as an increase to additional paid-in capital. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of this transaction.

On April 30, 2008, the Company acquired Consolidated Theatres, which holds a total of 28 theatres with 400 screens in Georgia, Maryland, North Carolina, South Carolina, Tennessee and Virginia. The total net cash purchase price for the acquisition was approximately \$209.3 million, subject to post-closing adjustments. In conjunction with the closing, we entered into a final judgment with the Antitrust Division of the DOJ, which requires us to hold separate and divest ourselves of four theaters comprising 52 screens in North Carolina. As described more fully in Note 3 to the consolidated financial statements included in Part II, Item 8, of this Form 10-K, during fiscal 2008, the Company entered into an agreement to sell three of the four theatres and recorded impairment charges of

Table of Contents

approximately \$7.9 million related to these theatres. On October 23, 2008, the Company completed its divestiture of the three theatres comprising 42 screens in North Carolina pursuant to a final judgment with the DOJ. In accordance with the final judgment, a court appointed trustee has been selected to attempt to sell the last of the four theatres. See Note 3 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of this acquisition.

As described more fully in Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on April 9, 2008, we received from National CineMedia approximately 0.8 million newly issued common units of National CineMedia. In addition, on May 29, 2008, we received from National CineMedia approximately 2.9 million newly issued common units of National CineMedia in accordance with the adjustment provisions of the Common Unit Adjustment Agreement for our increase in screens in connection with our acquisition of Consolidated Theatres. These adjustments increased the number of National CineMedia common units held by us to approximately 24.9 million and as a result, on a fully diluted basis, we own a 25.1% interest in NCM, Inc. as of January 1, 2009.

Regal Cinemas maintains its Amended Senior Credit Facility, which consists of the Term Facility in an aggregate original principal amount of \$1,700.0 million and a revolving credit facility (the "Revolving Facility") in an aggregate principal amount of up to \$100.0 million. Due to the of recent bankruptcy filings by Lehman and certain of its affiliates and the sudden deterioration in the credit standing of the Lehman affiliate party to our Revolving Facility, the aggregate principal amount available for drawing under the Revolving Facility was reduced by \$5.0 million to \$95.0 million during fiscal 2008. The Revolving Facility has a separate sublimit of \$10.0 million for short-term loans and a sublimit of \$30.0 million for letters of credit. The Term Facility will mature on October 27, 2013 and the Revolving Facility will mature on October 27, 2011. Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

As of January 1, 2009, we had approximately \$1,661.8 million aggregate principal amount outstanding under the Term Facility, \$200.0 million aggregate principal amount outstanding under the 6¹/₄% Convertible Senior Notes, and \$51.5 million aggregate principal amount outstanding under the Regal Cinemas 9³/₈% Senior Subordinated Notes. As of January 1, 2009, we had approximately \$2.7 million outstanding in letters of credit, leaving approximately \$92.3 million available for drawing under the Revolving Facility.

Regal paid four quarterly cash dividends of \$0.30 per share on each outstanding share of the Company's Class A and Class B common stock, or approximately \$184.2 million in the aggregate, during the Fiscal 2008 Period. Further, on January 21, 2009, the Company declared a cash dividend of \$0.18 per share on each share of the Company's Class A and Class B common stock (including outstanding restricted stock), payable on March 17, 2009, to stockholders of record on March 5, 2009. This dividend reflects a \$0.12 per share reduction from our last quarterly cash dividend of \$0.30 per share declared on October 23, 2008. These dividends have been or will be funded through cash flow from operations and available cash on hand. We, at the discretion of our board of directors and subject to applicable law, anticipate paying regular quarterly dividends on our Class A and Class B common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors.

EBITDA

EBITDA (earnings before interest, taxes, depreciation, and amortization) was approximately \$449.9 million, \$902.2 million and \$466.3 million for the Fiscal 2008 Period, the Fiscal 2007 Period and the Fiscal 2006 Period, respectively. The net decrease in EBITDA in the Fiscal 2008 Period from the

Table of Contents

Fiscal 2007 Period was primarily attributable to the \$350.7 million gain recorded in the Fiscal 2007 Period resulting from transactions completed in connection with the IPO of NCM, Inc. (see Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion), the impact of a \$70.5 million loss on debt extinguishment recorded in the Fiscal 2008 Period in connection with the redemption of approximately \$123.7 million principal amount of the 3³/₄% Convertible Senior Notes, the \$28.6 million gain in connection with the sale of the Company's equity interest in Fandango during the Fiscal 2007 Period and a decline in operating income during the Fiscal 2008 Period, partially offset by the incremental earnings recognized from National CineMedia. The Company uses EBITDA as a supplemental liquidity measure because we find it useful to understand and evaluate our capacity, excluding the impact of interest, taxes, and non-cash depreciation and amortization charges, for servicing our debt, paying dividends and otherwise meeting our cash needs, prior to our consideration of the impacts of other potential sources and uses of cash, such as working capital items. We believe that EBITDA is useful to investors for these purposes as well. EBITDA should not be considered an alternative to, or more meaningful than, net cash provided by operating activities, as determined in accordance with U.S. generally accepted accounting principles ("GAAP"), since it omits the impact of interest, taxes and changes in working capital that use or provide cash (such as receivables, payables and inventories) as well as the sources or uses of cash associated with changes in other balance sheet items (such as long-term loss accruals and deferred items). Because EBITDA excludes depreciation and amortization, EBITDA does not reflect any cash requirements for the replacement of the assets being depreciated and amortized, which assets will often have to be replaced in the future. Further, EBITDA, because it also does not reflect the impact of debt service, income taxes, cash dividends, capital expenditures and other cash commitments from time to time as described in more detail elsewhere in this annual report on Form 10-K, does not represent how much discretionary cash we have available for other purposes. Nonetheless, EBITDA is a key measure expected by and useful to our fixed income investors, rating agencies and the banking community all of whom believe, and we concur, that these measures are critical to the capital markets' analysis of our ability to service debt, fund capital expenditures, pay dividends and otherwise meet cash needs, respectively. We also evaluate EBITDA because it is clear that movements in these non-GAAP measures impact our ability to attract financing and pay dividends. EBITDA, as calculated, may not be comparable to similarly titled measures reported by other companies. A reconciliation of EBITDA to net cash provided by operating activities is calculated as follows (in millions):

	Fiscal 2008 Period	Fiscal 2007 Period	Fiscal 2006 Period
EBITDA	\$ 449.9	\$ 902.2	\$ 466.3

Contractual Cash Obligations and Commitments

The Company has assumed long-term contractual obligations and commitments in the normal course of business, primarily debt obligations and non-cancelable operating leases. Other than operating leases which are detailed below, the Company does not utilize variable interest entities or any other

- (1) These amounts are included on our consolidated balance sheet as of January 1, 2009. Our Amended Senior Credit Facility provides for mandatory prepayments under certain scenarios. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for additional information about our long-term debt obligations and related matters. Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.
- (2) Future interest payments on the Company's unhedged debt obligations (consisting of approximately \$961.8 million of variable interest rate borrowings under the Term Facility, \$200.0 million outstanding under the 6¹/₄% Convertible Senior Notes, approximately \$51.5 million due under the Senior Subordinated Notes and approximately \$0.3 million of other debt obligations) are based on the stated fixed rate or in the case of the \$961.8 million of variable interest rate borrowings under the Term Facility, the current interest rate as of January 1, 2009 (3.21%). Future interest payments on the Company's hedged indebtedness as of January 1, 2009 (the remaining \$700.0 million of borrowings under the Term Facility) are based on (1) the applicable margin (as defined in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K) as of January 1, 2009 (1.75%) and (2) the expected fixed interest payments under the Company's interest rate swap agreements, which are described in further detail under Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.
- (3) The present value of these obligations, excluding interest, is included on our consolidated balance sheet as of January 1, 2009. Future interest payments are calculated based on interest rates implicit in the underlying leases, which have a weighted average interest rate of 11.19%, maturing in various installments through 2021. Refer to Note 5 to the consolidated financial statements

Table of Contents

included in Part II, Item 8 of this Form 10-K for additional information about our capital lease obligations and lease financing arrangements.

- (4) Includes estimated capital expenditures to which we were committed as of January 1, 2009, including improvements associated with existing theatres, the construction of new theatres and the estimated cost of ADA related betterments.
- (5) We enter into operating leases in the normal course of business. Such lease agreements provide us with the option to renew the leases at defined or then fair value rental rates for various periods. Our future operating lease obligations would change if we exercised these renewal options or if we enter into additional operating lease agreements. Our operating lease obligations are further described in Note 6 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.
- (6) These amounts are included on our consolidated balance sheet as of January 1, 2009 and represent liabilities associated with unrecognized tax benefits. The table does not include approximately \$24.9 million of recorded liabilities associated with unrecognized tax benefits for which we do not believe that the amount and timing of the payments are reasonably estimable.
- (7) In addition, as of January 1, 2009, Regal Cinemas had approximately \$92.3 million available for drawing under the \$95.0 million Revolving Facility. Regal Cinemas also maintains a sublimit within the Revolving Facility of \$10.0 million for short-term loans and \$30.0 million for letters of credit.

We believe that the amount of cash and cash equivalents on hand, cash flow expected from operations and availability under our Revolving Facility will be adequate for the Company to execute its business strategy and meet anticipated requirements for lease obligations, capital expenditures, working capital and debt service for the next 12 months.

Ratings

The Company is rated by nationally recognized rating agencies. The significance of individual ratings varies from agency to agency. However, companies assigned ratings at the top end of the range have, in the opinion of certain rating agencies, the strongest capacity for repayment of debt or payment of claims, while companies at the bottom end of the range have the weakest capability. Ratings are always subject to change and there can be no assurance that the Company's current ratings will continue for any given period of time. A downgrade of the Company's debt ratings, depending on the extent, could increase the cost to borrow funds. Below are our latest ratings per category, which were current as of the date of this annual report on Form 10-K.

Debt Obligations

On October 27, 2006, Regal Cinemas entered into its Amended Senior Credit Facility which consisted of the Term Facility in an aggregate principal amount of \$1,700.0 million and a Revolving Facility in an aggregate principal amount of up to \$100.0 million. Due to the of recent bankruptcy filings by Lehman and certain of its affiliates and the sudden deterioration in the credit standing of the Lehman affiliate party to our Revolving Facility, the aggregate principal amount available for drawing under the Revolving Facility was reduced by \$5.0 million to \$95.0 million during fiscal 2008. For a detailed summary of the material terms of our Amended Senior Credit Facility, please refer to the information provided under Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and

other financing transactions effected subsequent to the year ended January 1, 2009. For information regarding our other material debt instruments, including our 6¹/₄% Convertible Senior Notes and Regal Cinemas' Senior Subordinated Notes, please see the information under Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Interest Rate Swaps

On July 13, 2004, Regal Cinemas entered into four hedging relationships via four distinct interest rate swap agreements with final maturity terms ranging from three to five years each. On September 8, 2005, Regal Cinemas entered into an additional hedging relationship via a distinct interest rate swap agreement with a maturity term of four years. These interest rate swaps were designated to hedge approximately \$1,100.0 million of its variable rate debt obligations. On June 30, 2007, one of our interest rate swaps designated to hedge approximately \$200.0 million of variable rate debt obligations matured. On August 9, 2007, Regal Cinemas entered into two additional hedging relationships via two distinct interest rate swap agreements with maturity terms of two years each. These interest rate swaps were designated to hedge approximately \$200.0 million of variable rate debt obligations. On June 30, 2008, two of our interest rate swaps designated to hedge \$300.0 million of variable rate debt obligations matured. On October 3, 2008, an interest rate swap agreement designed to hedge approximately \$100.0 million of variable rate debt obligations effectively terminated as more fully described below.

Under the terms of the remaining three interest rate swap agreements (which hedge an aggregate of approximately \$700.0 million of variable rate debt obligations as of January 1, 2009), Regal Cinemas pays interest at various fixed rates ranging from 4.15% to 4.994% and receives interest at a variable rate based on the 3-month LIBOR. The 3-month LIBOR rate on each reset date determines the variable portion of the interest rate swaps for the following three-month period. The interest rate swaps settle any accrued interest for cash on the last day of each calendar quarter, until expiration. At such dates, the differences to be paid or received on the interest rate swaps will be included in interest expense. No premium or discount was incurred upon the Company entering into the interest rate swaps, because the pay and receive rates on the interest rate swaps represented prevailing rates for each counterparty at the time the interest rate swaps were entered into. The interest rate swaps qualify for cash flow hedge accounting treatment in accordance with Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133") and as such, the Company has effectively hedged its exposure to variability in the future cash flows attributable to the 3-month LIBOR on approximately \$700.0 million of variable rate obligations. The change in the fair values of the interest rate swaps is recorded on the Company's consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps' gains or losses reported as a component of other comprehensive income (loss) and the ineffective portion reported in earnings. As interest expense is accrued on the debt obligation, amounts in accumulated other comprehensive income/loss related to the designated hedging instruments (the three interest rate swaps) will be reclassified into earnings to obtain a net cost on the debt obligation equal to the effective yield of the fixed rate of each swap. The fair value of the Company's interest rate swaps is based on dealer quotes, and represents an estimate of the amounts Regal Cinemas would receive or pay to terminate the agreements taking into consideration various factors, including current interest rates.

On September 15, 2008, because of the sudden deterioration in the credit standing of the Lehman counterparty to an interest rate swap agreement designed to hedge approximately \$100.0 million of variable rate debt obligations, the Company concluded that the hedging relationship was no longer expected to be highly effective in achieving offsetting cash flows. As a result, on September 15, 2008, the hedging relationship ceased to qualify for hedge accounting under SFAS 133. For the period from September 15, 2008 through September 25, 2008, the Company recognized \$0.5 million (the change in fair value of the former hedging derivative) as a reduction of interest expense in the consolidated financial statements. On October 3, 2008, the Lehman counterparty filed for bankruptcy protection

Table of Contents

under Chapter 11 of the U.S. Bankruptcy Code. As a result, an event of default occurred under the provisions of the interest rate swap agreement between us and the Lehman counterparty, which effectively terminated the interest rate swap on October 3, 2008, as indicated above. Accordingly, \$1.6 million of accumulated other comprehensive loss as of October 3, 2008 will be reclassified into earnings in the periods during which the hedged forecasted transaction affects earnings (i.e., when interest payments are made on the variable rate debt obligations) as an adjustment to interest expense over the remaining life of the two-year original hedge as long as the variable rate debt obligations remain outstanding. During the fiscal quarter ended January 1, 2009, the Company released a portion of the deferred loss in accumulated other comprehensive loss by recording interest expense (net of related tax effects) of approximately \$0.4 million and a corresponding \$0.4 million reduction of other comprehensive loss. The Company is in the process of determining a final termination value associated with the interest rate swap, but does not expect the termination value to be materially different from the current liability recorded (approximately \$2.1 million) as of January 1, 2009.

As of January 1, 2009, the aggregate fair value of the remaining three interest rate swaps was determined to be approximately \$(14.2) million, which has been recorded as a component of *Accrued Expenses* with a corresponding amount of \$(8.7) million, net of tax, recorded to *Accumulated Other Comprehensive Loss*" These interest rate swaps exhibited no ineffectiveness for the years ended January 1, 2009, December 27, 2007 and December 28, 2006.

Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

Sale-Leaseback Transactions

For information regarding our various sale and leaseback transactions, refer to Note 6 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Critical Accounting Estimates

Our consolidated financial statements are prepared in conformity with U.S generally accepted accounting principles, which require management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosures of contingent assets and liabilities as of the date of the balance sheet as well as the reported amounts of revenues and expenses during the reporting period. We routinely make estimates and judgments about the carrying value of our assets and liabilities that are not readily apparent from other sources. We evaluate and modify on an ongoing basis such estimates and assumptions, which include those related to film costs, property and equipment, goodwill, income taxes and purchase accounting as well as others discussed in Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances. The results of these estimates may form the basis of the carrying value of certain assets and liabilities. Actual results, under conditions and circumstances different from those assumed, may differ materially from estimates. The impact and any associated risks related to estimates, assumptions, and accounting policies are discussed within "Management's Discussion and Analysis of Financial Condition and Results of Operations", as well as in the notes to the consolidated financial statements, if applicable, where such estimates, assumptions, and accounting policies affect our reported and expected results. Management has discussed the development and selection of its critical accounting estimates with the audit committee of our board of directors and the audit committee has reviewed our related disclosures herein.

Table of Contents

We believe the following accounting policies are critical to our business operations and the understanding of our results of operations and affect the more significant judgments and estimates used in the preparation of our consolidated financial statements:

We have applied the principles of purchase accounting when recording theatre acquisitions. Under purchase accounting principles, we are required to estimate the fair value of all assets and liabilities, including: (i) the acquired tangible and intangible assets, including property and equipment, (ii) the liabilities assumed at the date of acquisition, and (iii) the related deferred tax assets and liabilities. Because the estimates we make in purchase accounting can materially impact our future results of operations, for significant acquisitions, we have obtained assistance from third party valuation specialists in order to make these valuation estimates, which are made based on information available to us at the acquisition date. The estimation of the fair value of the assets and liabilities involves a number of judgments and estimates that could differ materially from the actual amounts. Historically, the estimates made have not experienced significant changes and, as a result, we have not disclosed such changes.

SFAS 142, "Goodwill and Other Intangible Assets" specifies that goodwill and indefinite-lived intangible assets will be subject to an annual impairment assessment. Based on our annual impairment assessment conducted during fiscal 2008, fiscal 2007 and fiscal 2006, we were not required to record a charge for goodwill impairment. In assessing the recoverability of the goodwill, we must make various assumptions regarding estimated future cash flows and other factors in determining the fair values of the respective assets. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for these assets in future periods.

We estimate our film cost expense and related film cost payable based on management's best estimate of the expected box office revenue of each film over the length of its run in our theatres and the ultimate settlement of such film costs with the distributors. Generally, less than one-third of our quarterly film expense is estimated at period-end. The length of time until these costs are known with certainty depends on the ultimate duration of the film play, but is typically "settled" within two to three months of a particular film's opening release. Upon settlement with our film distributors, film cost expense and the related film cost payable are adjusted to the final film settlement. The ultimate revenues of a film can be estimated reasonably accurately within a few weeks after the film is released based on the film's initial box office performance, which is determined by a film's initial box office receipts. As a result, there are typically insignificant variances between our estimates of film cost expense and the final film cost payable, because we make such estimates based on each film's box office receipts through the end of the reporting period. For the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006, there were no significant changes in our film cost estimation and settlement procedures.

We depreciate and amortize the components of our property and equipment relating to both owned and leased theatres on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets. Each owned theatre consists of a building structure, structural improvements, seating and concession and film display equipment. While we have assigned an estimated useful life of less than 30 years to certain acquired facilities, we estimate that our newly constructed buildings generally have an average economic useful life to us of 30 years. Certain of our buildings have been in existence for more than forty years. With respect to equipment (e.g., concession stand, point-of-sale equipment, etc.), a substantial portion is depreciated over seven years or less, which has been our historical replacement period. Seats and projection equipment generally have a longer useful economic life, and their depreciable lives (12-15 years) are based on our experience and replacement practices. The estimates of the assets' useful lives require our judgment and our knowledge of the assets being depreciated and amortized. Further, we review the economic useful lives of such assets annually and make

Table of Contents

adjustments thereto as necessary. Actual economic lives may differ materially from these estimates.

The majority of our properties were appraised as part of the bankruptcy process described in Note 1 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Such appraisals supported the estimated lives being used for depreciation and amortization purposes. Furthermore, our analysis of our historical capital replacement program is consistent with our depreciation policies. Finally, we review long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be fully recoverable. Such analysis generally evaluates assets for impairment on an individual theatre basis. When the estimated future undiscounted cash flows of the operations to which the assets relate do not exceed the carrying value of the assets, such assets are written down to fair value. Our experience indicates that theatre properties become impaired primarily due to market or competitive factors rather than physical (wear and tear) or functional (inadequacy or obsolescence) factors. In this regard, we do not believe the frequency or volume of facilities impaired due to these market factors are significant enough to impact the useful lives used for depreciation periods.

For the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006, no significant changes have been made to the depreciation and amortization rates applied to operating assets, the underlying assumptions related to estimates of depreciation and amortization, or the methodology applied. For the fiscal year ended January 1, 2009, consolidated depreciation and amortization expense was \$202.3 million, representing 7.3% of consolidated total revenues. If the estimated lives of all assets being depreciated were increased by one year, the consolidated depreciation and amortization expense would have decreased by approximately \$13.8 million or 6.8%. If the estimated lives of all assets being depreciated were decreased by one year, the consolidated depreciation and amortization expense would have increased by approximately \$16.0 million or 7.9%.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. We record a valuation allowance if it is deemed more likely than not that our deferred income tax assets will not be realized. We reassess the need for such valuation allowance on an ongoing basis. An increase in the valuation allowance generally results in an increase in the provision for income taxes recorded in such period. With the exception of valuation allowances recorded relative to pre-acquisition periods, decreases in the valuation allowance generally result in a decrease in the provision for income taxes. Should we ultimately realize a benefit from tax assets in excess of the amount recorded that relates to pre-acquisition periods, goodwill would be reduced to the extent of such excess or recorded goodwill, as appropriate (see Note 2 under "Recent Accounting Pronouncements" to the consolidated financial statements included in Part II, Item 8 of this Form 10-K).

Additionally, income tax rules and regulations are subject to interpretation, require judgment by us and may be challenged by the tax authorities. As described further in Note 7 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, effective December 29, 2006, the Company adopted the provisions of Financial Accounting Standards Board ("FASB") Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" an interpretation of FASB Statement No. 109 ("FIN 48"). Although we believe that our tax return

Table of Contents

positions are fully supportable, in accordance with FIN 48, we recognize a tax benefit only for tax positions that we determine will more likely than not be sustained based on the technical merits of the tax position. With respect to such tax positions for which recognition of a benefit is appropriate, the benefit is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions are evaluated on an ongoing basis as part of our process for determining our provision for income taxes. Among other items deemed relevant by us, the evaluations are based on new legislation, other new technical guidance, judicial proceedings, and our specific circumstances, including the progress of tax audits. With the exception of tax benefits realized relative to changes in pre-acquisition uncertain tax positions, any change in the determination of the amount of tax benefit recognized relative to an uncertain tax position impacts the provision for income taxes in the period that such determination is made (see Note 2 under "Recent Accounting Pronouncements" to the consolidated financial statements included in Part II, Item 8 of this Form 10-K).

For fiscal 2008, our provision for income taxes was \$50.8 million. Changes in management's estimates and assumptions regarding the probability that certain tax return positions will be sustained, the enacted tax rate applied to deferred tax assets and liabilities, the ability to realize the value of deferred tax assets, or the timing of the reversal of tax basis differences could impact the provision for income taxes and change the effective tax rate. A one percentage point change in the effective tax rate from 41.2% to 42.2% would have increased the current year income tax provision by approximately \$1.2 million.

Quarterly Results

The Company's consolidated financial statements for fiscal 2008 include the results of operations of the 28 theatres acquired from Consolidated Theatres on April 30, 2008 for the period subsequent to the date of acquisition. The acquisition of Consolidated Theatres is described in Note 3 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. The comparability of our results between quarters is impacted by the inclusion from such date of the results of operations of the Consolidated Theatres acquisition and to a lesser extent, seasonality.

The following tables set forth selected unaudited quarterly results for the eight quarters ended January 1, 2009. The quarterly financial data as of each period presented below have been derived from Regal's unaudited condensed consolidated financial statements for those periods. Results for these periods are not necessarily indicative of results for the full year. The quarterly financial data should be read in conjunction with the consolidated financial statements of Regal and notes thereto included elsewhere in this Form 10-K.

Inflation

The Company does not believe that inflation has had a material impact on its financial position or results of operations.

Seasonality

The Company's revenues are usually seasonal, coinciding with the timing of releases of motion pictures by the major distributors. Generally, studios release the most marketable motion pictures during the summer and the holiday seasons. The unexpected emergence of a "hit" film during other periods can alter the traditional pattern. The timing of movie releases can have a significant effect on the Company's results of operations, and the results of one quarter are not necessarily indicative of the results for the next or any other quarter. The seasonality of motion picture exhibition, however, has become less pronounced as studios are releasing motion pictures somewhat more evenly throughout the year.

Recent Accounting Pronouncements

For a discussion of the recent accounting pronouncements relevant to our operations, please refer to the information provided under Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, which information is incorporated herein by reference.

Off-Balance Sheet Arrangements

Other than the operating leases detailed above under "Contractual Cash Obligations and Commitments," the Company has no other off-balance sheet arrangements.

FORWARD-LOOKING STATEMENTS

Some of the information in this Form 10-K includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included in this Form 10-K, including, without limitation, certain statements under "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" may constitute forward-looking statements. In some cases you can identify these forward-looking statements by words like "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of those words and other comparable words. These forward-looking statements involve risks and uncertainties. Our actual results could differ materially from those indicated in these statements as a result of certain risk factors as more fully discussed under "Risk Factors" below.

RISK FACTORS

Investing in our securities involves a significant degree of risk. In addition to the other information contained in this Form 10-K, you should consider the following factors before investing in our securities.

Our substantial lease and debt obligations could impair our financial condition.

We have substantial lease and debt obligations. For fiscal 2008, our total rent expense and net interest expense were approximately \$363.3 million and \$124.3 million, respectively. As of January 1, 2009, we had total debt obligations of \$2,014.4 million. As of January 1, 2009, we had total contractual cash obligations of approximately \$6,475.2 million. For a detailed discussion of our contractual cash obligations and other commercial commitments over the next several years, refer to "Management's

Table of Contents

Discussion and Analysis of Financial Condition and Results of Operations "Contractual Cash Obligations and Commitments" provided in Part II, Item 7 of this Form 10-K below.

If we are unable to meet our lease and debt service obligations, we could be forced to restructure or refinance our obligations and seek additional equity financing or sell assets. We may be unable to restructure or refinance our obligations and obtain additional equity financing or sell assets on satisfactory terms or at all. As a result, inability to meet our lease and debt service obligations could cause us to default on those obligations. Many of our lease agreements and the agreements governing the terms of our debt obligations contain restrictive covenants that limit our ability to take specific actions or require us not to allow specific events to occur and prescribe minimum financial maintenance requirements that we must meet. If we violate those restrictive covenants or fail to meet the minimum financial requirements contained in a lease or debt instrument, we would be in default under that instrument, which could, in turn, result in defaults under other leases and debt instruments. Any such defaults could materially impair our financial condition and liquidity.

Our theatres operate in a competitive environment.

The motion picture exhibition industry is fragmented and highly competitive with no significant barriers to entry. Theatres operated by national and regional circuits and by small independent exhibitors compete with our theatres, particularly with respect to film licensing, attracting patrons and developing new theatre sites. Moviegoers are generally not brand conscious and usually choose a theatre based on its location, the films showing there and its amenities.

Generally, stadium seating found in modern megaplex theatres is preferred by patrons over slope-floored multiplex theatres, which were the predominant theatre-type built prior to 1996. Although, as of January 1, 2009, approximately 78% of our screens were located in theatres featuring stadium seating, we still serve many markets with sloped-floored multiplex theatres. These theatres may be more vulnerable to competition than our modern megaplex theatres, and should other theatre operators choose to build and operate modern megaplex theatres in these markets, the performance of our theatres in these markets may be significantly and negatively impacted. In addition, should other theatre operators return to the aggressive building strategies undertaken in the late 1990's, our attendance, revenue and income from operations per screen could decline substantially.

We depend on motion picture production and performance.

Our ability to operate successfully depends upon the availability, diversity and appeal of motion pictures, our ability to license motion pictures and the performance of such motion pictures in our markets. We license first-run motion pictures, the success of which have increasingly depended on the marketing efforts of the major studios. Poor performance of, or any disruption in the production of these motion pictures (including by reason of a strike or lack of adequate financing) these motion pictures, or a reduction in the marketing efforts of the major studios, could hurt our business and results of operations. In addition, a change in the type and breadth of movies offered by studios may adversely affect the demographic base of moviegoers.

Development of digital technology may increase our capital expenses.

The industry is in the process of converting film-based media to electronic-based media. There are a variety of constituencies associated with this anticipated change, which may significantly impact industry participants, including content providers, distributors, equipment providers and exhibitors. Should the conversion process rapidly accelerate and the major studios not cover the cost of the conversion as expected, we may have to use cash flow from operations, cash on hand or raise additional capital to finance the conversion costs associated with this potential change. The additional capital necessary may not, however, be available to us on attractive terms, if at all. Furthermore, it is

Table of Contents

impossible to accurately predict how the roles and allocation of costs (including operating costs) between various industry participants will change if the industry changes from physical media to electronic media.

An increase in the use of alternative film delivery methods may drive down movie theatre attendance and reduce ticket prices.

We also compete with other movie delivery vehicles, including cable television, downloads via the Internet, in-home video and DVD, satellite and pay-per-view services. Traditionally, when motion picture distributors licensed their products to the domestic exhibition industry, they refrained from licensing their motion pictures to these other delivery vehicles during the theatrical release window. We believe that a material contraction of the current theatrical release window could significantly dilute the consumer appeal of the in-theatre motion picture offering, which could have a material adverse effect on our business and results of operations. We also compete for the public's leisure time and disposable income with other forms of entertainment, including sporting events, concerts, live theatre and restaurants.

We depend on our relationships with film distributors.

The film distribution business is highly concentrated, with ten major film distributors accounting for 93% of our admissions revenues during fiscal 2008. Our business depends on maintaining good relations with these distributors. In addition, we are dependent on our ability to negotiate commercially favorable licensing terms for first-run films. A deterioration in our relationship with any of the ten major film distributors could affect our ability to negotiate film licenses on favorable terms or our ability to obtain commercially successful films and, therefore, could hurt our business and results of operations.

No assurance of a supply of motion pictures.

The distribution of motion pictures is in large part regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases. Consent decrees resulting from those cases effectively require major motion picture distributors to offer and license films to exhibitors, including us, on a film-by-film and theatre-by-theatre basis. Consequently, we cannot assure ourselves of a supply of motion pictures by entering into long-term arrangements with major distributors, but must compete for our licenses on a film-by-film and theatre-by-theatre basis.

We may not benefit from our acquisition strategy.

We may have difficulty identifying suitable acquisition candidates. Even if we do identify such candidates, we anticipate significant competition from other motion picture exhibitors and financial buyers when trying to acquire these candidates, and there can be no assurances that we will be able to acquire such candidates at reasonable prices or on favorable terms. Moreover, some of these possible buyers may be stronger financially than we are. As a result of this competition for limited assets, we may not succeed in acquiring suitable candidates or may have to pay more than we would prefer to make an acquisition. If we cannot identify or successfully acquire suitable acquisition candidates, we may not be able to successfully expand our operations and the market price of our securities could be adversely affected.

In any acquisition, we expect to benefit from cost savings through, for example, the reduction of overhead and theatre level costs, and from revenue enhancements resulting from the acquisition. There can be no assurance, however, that we will be able to generate sufficient cash flow from these acquisitions to service any indebtedness incurred to finance such acquisitions or realize any other anticipated benefits. Nor can there be any assurance that our profitability will be improved by any one

Table of Contents

or more acquisitions. If we cannot generate sufficient cash flow to service debt incurred to finance an acquisition, our results of operations and profitability would be adversely affected. Any acquisition may involve operating risks, such as:

the difficulty of assimilating the acquired operations and personnel and integrating them into our current business;

the potential disruption of our ongoing business;

the diversion of management's attention and other resources;

the possible inability of management to maintain uniform standards, controls, procedures and policies;

the risks of entering markets in which we have little or no experience;

the potential impairment of relationships with employees;

the possibility that any liabilities we may incur or assume may prove to be more burdensome than anticipated;

the possibility that any acquired theatres or theatre circuit operators do not perform as expected; and

the possibility that the Antitrust Division of the United States Department of Justice (the "DOJ") may require us to dispose of existing or acquired theatres in order to complete acquisition opportunities.

Our investment in and revenues from National CineMedia may be negatively impacted by the competitive environment in which National CineMedia operates.

As of January 1, 2009, we owned approximately 25.1% of National CineMedia. In addition, we receive theatre access fees and mandatory distributions of excess cash from National CineMedia. National CineMedia's in-theatre advertising operations compete with other cinema advertising companies and other advertising mediums including, most notably, television, newspaper, radio and the Internet. There can be no guarantee that in-theatre advertising will continue to attract major advertisers or that National CineMedia's in-theatre advertising format will be able to generate expected sales of advertising. Although we have representation on the board of directors of National CineMedia, we do not control this business. Should National CineMedia fail to maintain the level of profitability it hopes to achieve, its results of operations may be adversely affected and our investment in and earnings and cash flows from National CineMedia may be adversely impacted.

We depend on our senior management.

Our success depends upon the retention of our senior management, including Michael Campbell, our Chairman and Chief Executive Officer. We cannot assure you that we would be able to find qualified replacements for the individuals who make up our senior management if their services were no longer available. The loss of services of one or more members of our senior management team could have a material adverse effect on our business, financial condition and results of operations. The loss of any member of senior management could adversely affect our ability to effectively pursue our business strategy.

The interests of our controlling stockholder may conflict with your interests.

Anschutz Company owns all of our outstanding Class B common stock. Our Class A common stock has one vote per share while our Class B common stock has ten votes per share on all matters to be voted on by stockholders. As a result, as of January 1, 2009, Anschutz

Company controlled

approximately 78% of the voting power of all of our outstanding common stock. For as long as Anschutz Company continues to own shares of common stock representing more than 50% of the voting power of our common stock, it will be able to elect all of the members of our board of directors and determine the outcome of all matters submitted to a vote of our stockholders, including matters involving mergers or other business combinations, the acquisition or disposition of assets, the incurrence of indebtedness, the issuance of any additional shares of common stock or other equity securities and the payment of dividends on common stock. Anschutz Company will also have the power to prevent or cause a change in control, and could take other actions that might be desirable to Anschutz Company but not to other stockholders. In addition, Anschutz Company and its affiliates have controlling interests in companies in related and unrelated industries, including interests in the sports, motion picture production and music entertainment industries. In the future, it may combine our company with one or more of its other holdings.

A prolonged economic downturn could materially affect our business by reducing consumer spending on movie attendance.

We depend on consumers voluntarily spending discretionary funds on leisure activities. Motion picture theatre attendance may be affected by prolonged negative trends in the general economy that adversely affect consumer spending, such trends resulting from terrorist attacks on, or wars or threatened wars involving, the United States. During 2008, many economists determined that the U.S. economy has entered into a recession as a result of the deterioration in the credit markets and the related financial crisis, as well as a variety of other factors. Continued reduction in consumer confidence or disposable income in general may affect the demand for motion pictures or severely impact the motion picture production industry, which, in turn, could adversely affect our operations.

The global financial crisis may have an impact on our business and financial condition in ways that we currently cannot predict.

The continued credit crisis and related turmoil in the global financial system has had, and may continue to have, an impact on our business and our financial condition. For example, the credit crisis could impact our ability to borrow on our revolving credit facility or the effectiveness of our remaining and future interest rate hedging arrangements, if one or more counterparties files for bankruptcy protection or otherwise fails to perform their obligations.

In addition, the global financial crisis may present significant challenges for the Company if conditions in the financial markets do not improve or continue to worsen. For example, our ability to access capital markets may be severely restricted at times when the implementation of our business strategy may require us to do so, which could have an impact on our flexibility to react to changing economic and business conditions. Also, deteriorating conditions in the global credit markets could negatively impact our business partners which may impact film production, the development of new theatres or the enhancement of existing theatres, including delaying the deployment of new projection and other technologies to our theatres. All of these factors could adversely affect our credit ratings, the market price of our Class A common stock and our financial condition and results of operations.

Substantial sales of our Class A common stock could cause the market price for our Class A common stock to decline.

We cannot predict the effect, if any, that market sales of shares of our Class A common stock or the availability of shares of our Class A common stock for sale will have on the market price of our Class A common stock prevailing from time to time. Sales of substantial amounts of shares of our Class A common stock in the public market, or the perception that those sales will occur, could cause the market price of our Class A common stock to decline.

Table of Contents

As of February 25, 2009, we had outstanding 23,708,639 shares of Class B common stock that may convert into Class A common stock on a one-for-one basis, all of which shares of common stock constitute "restricted securities" under the Securities Act. Provided the holders comply with the applicable volume limits and other conditions prescribed in Rule 144 under the Securities Act, all of these restricted securities are currently freely tradable.

Anschutz Company is able to sell their shares pursuant to the registration rights that we have granted. We cannot predict whether substantial amounts of our Class A common stock will be sold in the open market in anticipation of, or following, any divestiture by Anschutz Company or our directors or executive officers of their shares of our common stock.

Our amended and restated certificate of incorporation and our amended and restated bylaws, as amended, contain anti-takeover protections, which may discourage or prevent a takeover of our company, even if an acquisition would be beneficial to our stockholders.

Provisions contained in our amended and restated certificate of incorporation and amended and restated bylaws, as amended, as well as provisions of the Delaware General Corporation Law, could delay or make it more difficult to remove incumbent directors or for a third party to acquire us, even if a takeover would benefit our stockholders.

Our issuance of shares of preferred stock could delay or prevent a change of control of our company.

Our board of directors has the authority to cause us to issue, without any further vote or action by the stockholders, up to 50,000,000 shares of preferred stock, par value \$0.001 per share, in one or more series, to designate the number of shares constituting any series, and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, voting rights, rights and terms of redemption, redemption price or prices and liquidation preferences of such series. The issuance of shares of preferred stock may have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders, even where stockholders are offered a premium for their shares.

Our issuance of preferred stock could dilute the voting power of the common stockholders.

The issuance of shares of preferred stock with voting rights may adversely affect the voting power of the holders of our other classes of voting stock either by diluting the voting power of our other classes of voting stock if they vote together as a single class, or by giving the holders of any such preferred stock the right to block an action on which they have a separate class vote even if the action were approved by the holders of our other classes of voting stock.

Our issuance of preferred stock could adversely affect the market value of our common stock.

The issuance of shares of preferred stock with dividend or conversion rights, liquidation preferences or other economic terms favorable to the holders of preferred stock could adversely affect the market price for our common stock by making an investment in the common stock less attractive. For example, investors in the common stock may not wish to purchase common stock at a price above the conversion price of a series of convertible preferred stock because the holders of the preferred stock would effectively be entitled to purchase common stock at the lower conversion price causing economic dilution to the holders of common stock.

We are a holding company dependent on our subsidiaries for our ability to service our debt and pay our dividends.

Regal is a holding company with no operations of our own. Consequently, our ability to service our and our subsidiaries' debt and pay dividends on our common stock is dependent upon the earnings

Table of Contents

from the businesses conducted by our subsidiaries. Our subsidiaries are separate and distinct legal entities and have no obligation to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. Any distribution of earnings to us from our subsidiaries, or advances or other distributions of funds by these subsidiaries to us, all of which are subject to statutory or contractual restrictions, are contingent upon the subsidiaries' earnings and are subject to various business considerations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of our 6¹/₄% Convertible Senior Notes due March 15, 2011 (the "6¹/₄% Convertible Senior Notes") and our common stock to participate in those assets, will be structurally subordinated to the claims of that subsidiary's creditors. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

Hedging transactions and other transactions.

We have entered into convertible note hedge and warrant transactions with respect to our common stock, the exposure for which was held by Credit Suisse International ("Credit Suisse") at the time the 6¹/₄% Convertible Senior Notes were issued. The convertible note hedge and warrant transactions are expected to reduce the potential dilution from conversion of the 6¹/₄% Convertible Senior Notes. In connection with these hedging arrangements, Credit Suisse has taken positions in our Class A common stock in secondary market transactions and/or entered into various derivative transactions after the pricing of the 6¹/₄% Convertible Senior Notes. Such hedging arrangements could affect the price of our Class A common stock. Credit Suisse may modify its hedge positions from time to time prior to the March 15, 2011 maturity of the 6¹/₄% Convertible Senior Notes by purchasing and selling shares of our Class A common stock, other securities of Regal or other instruments we may wish to use in connection with such hedging. We cannot assure you that such activity will not affect the market price of our Class A common stock. For further description of the convertible note hedge and warrant transactions, see Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's market risk is confined to interest rate exposure of its and its wholly owned subsidiaries' debt obligations that bear interest based on floating rates. The original senior credit facility provided for and the Amended Senior Credit Facility provides variable rate interest that could be adversely affected by an increase in interest rates. Borrowings under the prior term facility bore and the Term Facility bear interest, at Regal Cinemas' option, at either an adjusted Eurodollar rate (as defined in the Amended Senior Credit Facility) or the base rate plus, in each case, an applicable margin.

During 2004 and 2005, Regal Cinemas entered into five distinct hedging relationships via five separate interest rate swap agreements with final maturity terms ranging from three to five years for the purpose of hedging an aggregate of approximately \$1,100.0 million of its variable rate debt obligations. On June 30, 2007, one of our interest rate swaps designated to hedge approximately \$200.0 million of variable rate debt obligations matured. On August 9, 2007, Regal Cinemas entered into two additional hedging relationships via two distinct interest rate swap agreements with maturity terms of two years each and require Regal Cinemas to pay interest at a fixed rate of 4.944% and receive interest at a variable rate. These interest rate swaps were designated to hedge approximately \$200.0 million of variable rate debt obligations. On June 30, 2008, two of our interest rate swaps designated to hedge \$300.0 million of variable rate debt obligations matured. On October 3, 2008, an interest rate swap agreement designed to hedge approximately \$100.0 million of variable rate debt obligations effectively terminated. Under the terms of the remaining three interest rate swap agreements (which hedge an aggregate of approximately \$700.0 million of variable rate debt obligations as of January 1, 2009), Regal Cinemas pays interest at various fixed rates ranging from 4.15% 4.994% and receives interest at a variable rate based on the 3-month LIBOR. Please refer to Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

As of January 1, 2009 and December 27, 2007, borrowings of \$1,661.8 million and \$1,683.0 million, respectively, were outstanding under the Term Facility and the prior term facility, respectively, at an effective interest rate of 4.42% (as of January 1, 2009) and 6.09% (as of December 27, 2007), after the impact of the interest rate swaps is taken into account. A hypothetical change of 10% in the Company's effective interest rate under the Term Facility as of January 1, 2009, would increase or decrease interest expense by \$7.4 million for the fiscal year ended January 1, 2009.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors
Regal Entertainment Group:

Management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended.

Management, including our principal executive officer and principal financial officer, conducted an evaluation of the effectiveness of such controls as of January 1, 2009. This assessment was based on criteria for effective internal control over financial reporting described in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management believes that the Company's internal control over financial reporting is effective as of January 1, 2009.

KPMG LLP, independent registered public accounting firm of the Company's consolidated financial statements, has issued an audit report on management's assertion with respect to the effectiveness of the Company's internal control over financial reporting as of January 1, 2009, as stated in their report which is included herein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Regal Entertainment Group:

We have audited the accompanying consolidated balance sheets of Regal Entertainment Group as of January 1, 2009 and December 27, 2007, and the related consolidated statements of income, stockholders' equity (deficit) and comprehensive income (loss), and cash flows for each of the years in the three-year period ended January 1, 2009. We also have audited Regal Entertainment Group's internal control over financial reporting as of January 1, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Regal Entertainment Group's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Regal Entertainment Group as of January 1, 2009 and December 27, 2007, and the results of their operations and their cash flows for each of the years in the three-year period ended January 1, 2009, in conformity with U.S. generally accepted accounting principles. Also in our opinion, Regal Entertainment Group maintained, in all material respects, effective internal control over financial reporting as of January 1, 2009, based on criteria established in

Table of Contents

Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

As discussed in Notes 2 and 9 to the consolidated financial statements, effective December 30, 2005, the Company adopted Statement of Financial Accounting Standards No. 123(revised), *Share-Based Payment*. As discussed in Note 7 to the consolidated financial statements, effective December 29, 2006, the Company adopted Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*.

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

January 1, 2009, December 27, 2007 and December 28, 2006

1. THE COMPANY AND BASIS OF PRESENTATION

Regal Entertainment Group (the "Company," "Regal," "we" or "us") is the parent company of Regal Entertainment Holdings, Inc. ("REH"), which is the parent company of Regal Cinemas Corporation ("Regal Cinemas") and its subsidiaries. Regal Cinemas' subsidiaries include Regal Cinemas, Inc. ("RCI") and its subsidiaries, which include Edwards Theatres, Inc. ("Edwards"), Regal CineMedia Corporation ("RCM"), Hoyts Cinemas Corporation ("Hoyts") and United Artists Theatre Company ("United Artists"). The terms Regal or the Company, REH, Regal Cinemas, RCI, Edwards, RCM, Hoyts and United Artists shall be deemed to include the respective subsidiaries of such entities when used in discussions included herein regarding the current operations or assets of such entities.

Regal operates the largest theatre circuit in the United States, consisting of 6,801 screens in 552 theatres in 39 states and the District of Columbia as of January 1, 2009. The Company formally operates on a 52-week fiscal year with each quarter generally consisting of 13 weeks, unless otherwise noted. The Company's fiscal year ends on the first Thursday after December 25, which in certain years (such as fiscal 2008) results in a 53-week fiscal year.

In May 2002, the Company sold 18.0 million shares of its Class A common stock in an initial public offering at a price of \$19.00 per share, receiving aggregate net offering proceeds, net of underwriting discounts, commissions and other offering expenses, of \$314.8 million.

In March 2005, Regal and AMC Entertainment Inc. ("AMC") announced the combination of the operations of RCM and AMC's subsidiary, National Cinema Network, Inc. ("NCN"), into a new joint venture company known as National CineMedia, LLC ("National CineMedia"). In July 2005, Cinemark, Inc. ("Cinemark"), through a wholly owned subsidiary, acquired an interest in National CineMedia. On February 13, 2007, National CineMedia, Inc. ("NCM, Inc."), a newly formed entity that serves as the sole manager of National CineMedia, completed an initial public offering, or IPO, of its common stock. In connection with the IPO of NCM, Inc., RCM, through its wholly owned subsidiary Regal CineMedia Holdings, LLC ("RCH"), AMC and Cinemark amended and restated the operating agreement of National CineMedia and other ancillary agreements. In connection with the series of transactions completed in connection with the IPO, Regal received gross cash proceeds totaling approximately \$628.3 million and retained a 22.6% interest in NCM, Inc. After the payment of current taxes, net cash proceeds from these transactions totaled approximately \$447.4 million. The Company used a portion of the net cash proceeds to fund an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock, including outstanding restricted stock, or approximately \$302.0 million in the aggregate. Stockholders of record at the close of business on March 28, 2007 were paid this \$302.0 million dividend on April 13, 2007. As discussed further in Note 4 "Investment in National CineMedia, LLC," as a result of the transactions completed in connection with the IPO, the Company recognized a gain of approximately \$350.7 million during the year ended December 27, 2007.

On February 12, 2007, we, along with AMC and Cinemark, formed a joint venture company known as Digital Cinema Implementation Partners, LLC, a Delaware limited liability company ("DCIP"), to create a financing model and establish agreements with major motion picture studios for the implementation of digital cinema. The Company's cumulative cash investment in DCIP totaled approximately \$5.5 million as of January 1, 2009. Such investment is included as a component of "Other Non-current Assets" in the accompanying consolidated balance sheets. We account for our investment in DCIP following the equity method of accounting. For the year ended January 1, 2009,

1. THE COMPANY AND BASIS OF PRESENTATION (Continued)

the Company recorded a loss of \$3.2 million representing its share of the net loss of DCIP. Such loss is presented as a component of "Minority interest in earnings of consolidated subsidiaries and other."

On March 10, 2008, Regal issued \$200.0 million aggregate principal amount of 6¹/₄% Convertible Senior Notes due March 15, 2011 (the "6¹/₄% Convertible Senior Notes"). Concurrent with the issuance of the 6¹/₄% Convertible Senior Notes, we entered into simultaneous convertible note hedge and warrant transactions with respect to our Class A common stock in order to reduce the potential dilution from conversion of the 6¹/₄% Convertible Senior Notes into shares of our Class A common stock. The net cost of the convertible note hedge and warrant transactions was approximately \$6.6 million and is included as a component of equity in the accompanying consolidated balance sheet as of January 1, 2009. See Note 5 "Debt Obligations" for further description of the 6¹/₄% Convertible Senior Notes and the related convertible note hedge and warrant transactions. The Company used cash on hand and a portion of the net proceeds from the issuance of the 6¹/₄% Convertible Senior Notes to redeem approximately \$90.0 million principal amount of Regal's 3³/₄% Convertible Senior Notes due May 15, 2008 (the "3³/₄% Convertible Senior Notes"), in a series of privately negotiated transactions. As a result of the early redemption, the Company recorded a \$52.8 million loss on debt extinguishment during the year ended January 1, 2009. In connection with the early redemption, the Company received net proceeds of approximately \$13.7 million from Credit Suisse International ("Credit Suisse") attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes described further in Note 5 "Debt Obligations." Such proceeds were recorded as an increase to additional paid-in capital. In connection with the final maturity of the 3³/₄% Convertible Senior Notes on May 15, 2008, holders of the remaining \$33.7 million in principal amount exercised their conversion rights. The Company elected to settle these conversions entirely in cash for approximately \$51.4 million using the remaining proceeds from the issuance of the 6¹/₄% Convertible Senior Notes. As a result of these conversions, the Company recorded an additional \$17.7 million loss on debt extinguishment during the year ended January 1, 2009. In connection with these conversions, the Company received net proceeds of approximately \$5.2 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes. Such proceeds were also recorded as an increase to additional paid-in capital. See Note 5 "Debt Obligations" for further discussion of this transaction.

On April 30, 2008, the Company acquired Consolidated Theatres Holdings, G.P. ("Consolidated Theatres"), which holds a total of 28 theatres with 400 screens in Georgia, Maryland, North Carolina, South Carolina, Tennessee and Virginia. The total net cash purchase price for the acquisition was approximately \$209.3 million, subject to post-closing adjustments. The results of operations of the acquired theatres have been included in the Company's consolidated financial statements for periods subsequent to the acquisition date. In conjunction with the closing, we entered into a final judgment with the Antitrust Division of the United States Department of Justice ("DOJ"), which requires us to hold separate and divest ourselves of four theaters comprising 52 screens in North Carolina. During the year ended January 1, 2009, the Company entered into an agreement to sell three of the four theatres and recorded impairment charges of approximately \$7.9 million related to these theatres. On October 23, 2008, the Company completed its divestiture of the three theatres comprising 42 screens in North Carolina pursuant to a final judgment with the DOJ. In accordance with the final judgment, a court appointed trustee has been selected to attempt to sell the last of the four theatres. See Note 3 "Acquisition" for further discussion of this transaction.

January 1, 2009, December 27, 2007 and December 28, 2006

1. THE COMPANY AND BASIS OF PRESENTATION (Continued)

As described more fully in Note 4 "Investment in National CineMedia, LLC," on April 9, 2008, we received from National CineMedia approximately 0.8 million newly issued common units of National CineMedia in accordance with the annual adjustment provisions of the Common Unit Adjustment Agreement. In addition, on May 29, 2008, we received from National CineMedia approximately 2.9 million newly issued common units of National CineMedia in accordance with the adjustment provisions of the Common Unit Adjustment Agreement for our increase in screens in connection with our acquisition of Consolidated Theatres. These adjustments increased the number of National CineMedia common units held by us to approximately 24.9 million and as a result, on a fully diluted basis, we own a 25.1% interest in NCM, Inc. as of January 1, 2009.

During the year ended January 1, 2009, Regal paid four quarterly cash dividends of \$0.30 on each outstanding share of the Company's Class A and Class B common stock, or approximately \$184.2 million in the aggregate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of Regal and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Revenue Recognition

Revenues are generated principally through admissions and concessions sales with proceeds received in cash or via credit card at the point of sale. Other operating revenues consist primarily of product advertising (including vendor marketing programs) and other ancillary revenues which are recognized as income in the period earned. The Company generally recognizes payments received attributable to the marketing and advertising services provided by the Company under certain vendor programs as revenue in the period in which the related impressions are delivered. Such impressions are measured by the concession product sales volume, which is a mutually agreed upon proxy of attendance and reflects the Company's marketing and advertising services delivered to its vendors. In instances where the consideration received is in excess of fair value of the advertising services provided, the excess is recorded as a reduction of concession costs. Proceeds received from advance ticket sales and gift certificates are recorded as deferred revenue. The Company recognizes revenue associated with gift certificates and advanced ticket sales at such time as the items are redeemed, or when redemption becomes unlikely. The determination of the likelihood of redemption is based on an analysis of the Company's historical redemption trends.

Cash Equivalents

The Company considers all unrestricted highly liquid debt instruments and investments purchased with an original maturity of three months or less to be cash equivalents. At January 1, 2009, the Company held substantially all of its cash in temporary cash investments in the form of certificates of deposit and variable rate investment accounts with major financial institutions.

Table of Contents**REGAL ENTERTAINMENT GROUP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****January 1, 2009, December 27, 2007 and December 28, 2006****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Inventories*

Inventories consist of concession products and theatre supplies. The Company states inventories on the basis of first-in, first-out (FIFO) cost, which is not in excess of net realizable value.

Property and Equipment

The Company states property and equipment at cost. Major renewals and improvements are capitalized, while maintenance and repairs which do not improve or extend the lives of the respective assets are expensed currently. Gains and losses from disposition of property and equipment are included in income and expense when realized.

The Company capitalizes the cost of computer equipment, system hardware and purchased software ready for service. During the years ended January 1, 2009 and December 27, 2007, the Company capitalized approximately \$26.6 million and \$10.0 million of such costs, which were associated primarily with (i) new point-of-sale devices at the Company's box offices and concession stands, (ii) new ticketing kiosks, and (iii) computer hardware and software purchased for the Company's theater locations and corporate office. The Company also capitalizes certain direct external costs associated with software developed for internal use after the preliminary software project stage is completed and Company management has authorized further funding for a software project and it is deemed probable of completion. We capitalize these external software development costs only until the point at which the project is substantially complete and the software is ready for its intended purpose.

The Company records depreciation and amortization using the straight-line method over the following estimated useful lives:

Buildings	20-30 years
Equipment	3-20 years
Leasehold improvements	Lesser of term of lease or asset life
Computer equipment and software	3-5 years

As of January 1, 2009 and December 27, 2007, included in property and equipment is \$105.2 million of assets accounted for under capital leases and lease financing arrangements, net of accumulated depreciation of \$42.5 million and \$36.8 million, respectively. The Company records amortization using the straight-line method over the shorter of the lease terms or the estimated useful lives noted above.

Impairment of Long-Lived Assets

The Company reviews long-lived assets, including intangible assets and investments in non-consolidated entities described below, for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be fully recoverable. The Company generally evaluates assets for impairment on an individual theatre basis, which management believes is the lowest level for which there are identifiable cash flows. If the sum of the expected future cash flows, undiscounted and without interest charges, is less than the carrying amount of the assets, the Company recognizes an impairment charge in the amount by which the carrying value of the assets exceeds their fair market value. The fair value of assets is determined using the present value of the estimated future

cash flows or the expected selling price less selling costs for assets of which the Company expects to dispose. This analysis resulted in the recording of impairment charges of \$22.4 million, \$6.8 million and \$13.6 million for the years ended January 1, 2009, December 27, 2007 and December 28, 2006, respectively.

Leases

The majority of the Company's operations are conducted in premises occupied under non-cancelable lease agreements with initial base terms ranging generally from 15 to 20 years. The Company, at its option, can renew a substantial portion of the leases at defined or then fair rental rates for various periods. Certain leases for Company theatres provide for contingent rentals based on the revenue results of the underlying theatre and require the payment of taxes, insurance, and other costs applicable to the property. Also, certain leases contain escalating minimum rental provisions. There are no conditions imposed upon us by our lease agreements or by parties other than the lessor that legally obligate the Company to incur costs to retire assets as a result of a decision to vacate our leased properties. None of our lease agreements require us to return the leased property to the lessor in its original condition (allowing for normal wear and tear) or to remove leasehold improvements at our cost.

The Company accounts for leased properties under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 13, *Accounting for Leases* and other authoritative accounting literature. SFAS No. 13 requires that the Company evaluate each lease for classification as either a capital lease or an operating lease. The Company performs this evaluation at the inception of the lease and when a modification is made to a lease. As to those arrangements that are classified as capital leases, the Company records property under capital leases and a capital lease obligation in an amount equal to the lesser of the present value of the minimum lease payments to be made over the life of the lease at the beginning of the lease term, or the fair value of the leased property. The property under capital lease is amortized on a straight-line basis as a charge to expense over the lease term, as defined, or the economic life of the leased property, whichever is less. During the lease term, as defined, each minimum lease payment is allocated between a reduction of the lease obligation and interest expense so as to produce a constant periodic rate of interest on the remaining balance of the lease obligation. The Company does not believe that exercise of the renewal options in its leases are reasonably assured at the inception of the lease agreements because our leases: (i) provide for either (a) renewal rents based on market rates or (b) renewal rents that equal or exceed the initial rents, and (ii) do not impose economic penalties upon our determination whether or not to exercise the renewal option. As a result, there are not sufficient economic incentives at the inception of our leases, in our view, to consider that our lease renewal options are reasonably assured of being exercised and therefore, we generally consider the initial base term as the lease term under SFAS No. 13.

The Company records rent expense for its operating leases with contractual rent increases in accordance with Financial Accounting Standards Board ("FASB") Technical Bulletin 85-3, *Accounting for Operating Leases with Scheduled Rent Increases*, on a straight-line basis from the "lease commencement date" as specified in the lease agreement until the end of the base lease term.

For leases in which the Company is involved with construction of the theatre, the Company accounts for the lease during the construction period under the provisions of Emerging Issues Task

Table of Contents**REGAL ENTERTAINMENT GROUP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****January 1, 2009, December 27, 2007 and December 28, 2006****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Force ("EITF") 97-10, *The Effect of Lessee Involvement in Asset Construction*. The landlord is typically responsible for constructing a theatre using guidelines and specifications agreed to by the Company and assumes substantially all of the risk of construction. In accordance with EITF 97-10, if the Company concludes that it has substantially all of the construction period risks, it records a construction asset and related liability for the amount of total project costs incurred during the construction period. Once construction is completed, the Company considers the requirements under SFAS No. 98, *Accounting for Leases: Sale-Leaseback Transactions Involving Real Estate: Sales-Type Leases of Real Estate; Definition of the Lease Term; and Initial Direct Costs of Direct Financing Leases*, for sale-leaseback treatment, and if the arrangement does not meet such requirements, it records the project's construction costs funded by the landlord as a financing obligation. The obligation is amortized over the financing term based on the payments designated in the contract.

In accordance with FASB Staff Position 13-1, *Accounting for Rental Costs Incurred during a Construction Period* ("FSP 13-1"), we expense rental costs incurred during construction periods for operating leases as such costs are incurred. For rental costs incurred during construction periods for both operating and capital leases, the "lease commencement date" is the date at which we gain access to the leased asset. Historically, and for the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006, these rental costs have not been significant to our consolidated financial statements.

Sale and Leaseback Transactions

The Company accounts for the sale and leaseback of real estate assets in accordance with SFAS No. 98, *Accounting For Leases*. Losses on sale leaseback transactions are recognized at the time of sale if the fair value of the property sold is less than the undepreciated cost of the property. Gains on sale and leaseback transactions are deferred and amortized over the remaining lease term.

Goodwill

The changes in the carrying amount of goodwill for the years ended January 1, 2009 and December 27, 2007 are as follows (in millions):

	Year ended January 1, 2009	Year ended December 27, 2007
Balance at beginning of year	\$ 181.7	\$ 214.9
Adoption of FIN 48		(1.6)
Adjustments related to certain pre-acquisition deferred tax assets	(0.1)	(31.0)
Other	(2.8)	(0.6)
Balance at end of year	\$ 178.8	\$ 181.7

Under SFAS No. 142, *Goodwill and Other Intangible Assets*, the Company has identified its reporting units to be the designated market areas in which the Company conducts its theatre operations. The fair value of the Company's identified reporting units were estimated using the expected present value of associated future cash flows and market values of the underlying theatres

within each reporting unit. The Company's annual goodwill impairment assessments for the years ended January 1, 2009 and December 27, 2007 indicated that the fair value of its reporting units exceeded their carrying value and therefore, goodwill was not deemed to be impaired.

Intangible Assets

Intangible assets are recorded at cost or fair value, in the case of intangible assets resulting from acquisitions, and are amortized on a straight-line basis over the estimated remaining useful lives of the assets. In connection with the acquisition of Consolidated Theatres described in See Note 3 "Acquisition," the Company acquired certain identifiable intangible assets, including \$9.9 million related to favorable leases with a weighted average amortization period of 13.1 years and approximately \$8.2 million related to an on-screen advertising contract which will be amortized on a straight-line basis through January 2011. During the year ended January 1, 2009, the Company recognized \$2.6 million of amortization related to these intangible assets. The Company did not record an impairment of any intangible assets during the year ended January 1, 2009. Estimated amortization expense for the next five fiscal years for such intangible assets as of January 1, 2009 is projected below:

	Projected amortization expense (in millions)
2009	\$ 3.8
2010	3.7
2011	0.9
2012	0.7
2013	0.7

Debt Acquisition Costs

Other non-current assets include debt acquisition costs, which are deferred and amortized over the terms of the related agreements using a method that approximates the effective interest method. Debt acquisition costs as of January 1, 2009 and December 27, 2007 were \$53.4 million and \$52.1 million, respectively, net of accumulated amortization of \$22.8 million and \$19.4 million, respectively.

Investments

The Company accounts for its investments in non-consolidated entities using the equity method of accounting and has recorded the investments within "Other Non-Current Assets" in its consolidated balance sheets. The Company records equity in earnings and losses of these entities accounted for following the equity method of accounting in its consolidated statements of income. As of January 1, 2009, the Company holds a 25.1% interest in National CineMedia (see Note 4 "Investment in National CineMedia, LLC), a one-third interest in DCIP and a 50% interest in a non-consolidated theatre. The carrying value of the Company's investment in these entities as of January 1, 2009 was approximately \$77.6 million.

During the year ended December 27, 2007, the Company sold its equity interest in Fandango for proceeds of \$28.6 million. As a result of this transaction, the Company recognized a gain on the sale of

approximately \$28.6 million (\$17.2 million after tax). In addition, during the year ended January 1, 2009, the Company received an additional \$3.4 million of sale proceeds related to Fandango. Accordingly, the Company recognized an additional gain of \$3.4 million (\$2.0 million after tax) during the year ended January 1, 2009. In connection with the sale, the Company agreed to amend its existing contract with Fandango in exchange for an amendment fee totaling \$5.5 million. This amount has been recorded as deferred revenue and will be amortized to revenue on a straight-line basis over the six year term of the amendment.

There was no impairment of the Company's investments as of January 1, 2009.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records a valuation allowance if it is deemed more likely than not that its deferred income tax assets will not be realized. The Company expects that certain deferred income tax assets are not more likely than not to be recovered and therefore has established a valuation allowance. The Company reassesses its need for the valuation allowance for its deferred income taxes on an ongoing basis. Should the Company realize certain tax assets with a valuation allowance that relate to pre-acquisition periods, goodwill would be reduced (see "Recent Accounting Pronouncements" below in this Note 2).

Additionally, income tax rules and regulations are subject to interpretation, require judgment by the Company and may be challenged by the taxation authorities. As described further in Note 7 "Income Taxes," effective December 29, 2006, the Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*. In accordance with FIN 48, the Company recognizes a tax benefit only for tax positions that are determined to be more likely than not sustainable based on the technical merits of the tax position. With respect to such tax positions for which recognition of a benefit is appropriate, the benefit is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions are evaluated on an ongoing basis as part of the Company's process for determining the provision for income taxes.

Interest Rate Swaps

Regal Cinemas has entered into hedging relationships via interest rate swap agreements to hedge against interest rate exposure of its variable rate debt obligations. Certain interest rate swaps settle any accrued interest for cash on the last day of each calendar quarter, until expiration. At such dates, the differences to be paid or received on the interest rate swaps will be included in interest expense. The interest rate swaps qualify for cash flow hedge accounting treatment in accordance with SFAS No. 133 and as such, the change in the fair values of the interest rate swaps is recorded on the Company's consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps'

gains or losses reported as a component of other comprehensive income (loss) and the ineffective portion reported in earnings. As interest expense is accrued on the debt obligation, amounts in accumulated other comprehensive income/loss related to the interest rate swaps will be reclassified into earnings to obtain a net cost on the debt obligation equal to the effective yield of the fixed rate of each swap. In the event that an interest rate swap is terminated prior to maturity, gains or losses accumulated in other comprehensive income or loss remain deferred and are reclassified into earnings in the periods during which the hedged forecasted transaction affects earnings. The fair value of the Company's interest rate swaps is based on dealer quotes, and represents an estimate of the amounts Regal Cinemas would receive or pay to terminate the agreements taking into consideration various factors, including current interest rates.

Deferred Revenue

Deferred revenue relates primarily to vendor programs, gift certificates, advance ticket sales, the amount we received related to the sale of our equity interest in Fandango (see Note 1 "The Company and Basis of Presentation") and the amount we received for agreeing to the existing exhibitor service agreement ("ESA") modification described in Note 4 "Investment in National CineMedia, LLC". Deferred revenue related to vendor programs, gift certificates and advance ticket sales are recognized as revenue as described above in this Note 2 under "Revenue Recognition." As described in this Note 2 under "Investments," deferred revenue related to the sale of our equity interest in Fandango will be amortized to revenue on a straight-line basis over the six year term of the agreement. The amount we received for agreeing to the ESA modification will be amortized to advertising revenue over the 30 year term of the agreement following the units of revenue method. In addition, as described in Note 4 "Investment in National CineMedia, LLC," amounts recorded as deferred revenue in connection with the receipt of newly issued common units of NCM pursuant to the provisions of the Common Unit Adjustment Agreement will be amortized to advertising revenue over the remaining term of the ESA following the units of revenue method. As of January 1, 2009 and December 27, 2007, approximately \$337.2 million and \$276.2 million of deferred revenue related to the ESA was recorded as a component of non-current deferred revenue in the accompanying consolidated balance sheets.

Deferred Rent

The Company recognizes rent on a straight-line basis after considering the effect of rent escalation provisions resulting in a level monthly rent expense for each lease over its term. The deferred rent liability is included in other non-current liabilities in the accompanying consolidated balance sheets.

Film Costs

The Company estimates its film cost expense and related film cost payable based on management's best estimate of the ultimate settlement of the film costs with the distributors. Generally, less than one-third of our quarterly film expense is estimated at period-end. The length of time until these costs are known with certainty depends on the ultimate duration of the film play, but is typically "settled" within two to three months of a particular film's opening release. Upon settlement with our film distributors, film cost expense and the related film cost payable are adjusted to the final film settlement.

Loyalty Program

Members of the Regal Crown Club® earn credits for each dollar spent at one of our theatres and earn concession or ticket awards based on the number of credits accumulated. The Company's accounting policy for the loyalty program is based on the guidance provided for Issue 1 in EITF Issue No. 00-22. Because we believe that the value of the awards granted to our Regal Crown Club® members is insignificant in relation to the value of the transactions necessary to earn the award, the Company records the estimated incremental cost of providing awards under our Regal Crown Club® loyalty program at the time the awards are earned. Historically, and for the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006, the costs of these awards have not been significant to our consolidated financial statements.

Advertising and Start-Up Costs

The Company expenses advertising costs as incurred. Start-up costs associated with a new theatre are also expensed as incurred.

Stock-Based Compensation

As described in Note 9 "Capital Stock And Share-Based Compensation," effective December 30, 2005, we adopted SFAS No. 123 (revised), *Share-Based Payment* utilizing the modified prospective approach. Under SFAS No. 123R, share-based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite service period. Prior to the adoption of SFAS No. 123R, we accounted for stock option grants in accordance with Accounting Principles Board ("APB") Opinion No. 25 *Accounting for Stock Issued to Employees* (the intrinsic value method), and accordingly, recognized no compensation expense for stock option grants when the exercise price equaled the fair value of common stock on the date of grant.

In connection with the adoption of SFAS No. 123R, the Company also elected to adopt the alternative transition method provided in FASB Staff Position No. 123(R)-3, *Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards* for calculating the tax effects of share-based compensation pursuant to SFAS No. 123R. The alternative transition method includes a simplified method to establish the beginning balance of the additional paid-in capital pool ("APIC pool") related to the tax effects of employee share-based compensation, which is available to absorb tax deficiencies which could be recognized subsequent to the adoption of SFAS No. 123R.

Estimates

The preparation of financial statements in conformity with U.S generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, but are not limited to, those related to film costs, property and equipment, goodwill, income taxes and purchase accounting. Actual results could differ from those estimates.

As of January 1, 2009, December 27, 2007 and December 28, 2006, the Company managed its business under one reportable segment: theatre exhibition operations.

Acquisitions

The Company accounts for acquisitions under the purchase method of accounting. The purchase method requires that the Company estimate the fair value of the assets acquired and liabilities assumed and allocate consideration paid accordingly. For significant acquisitions, the Company obtains independent third party valuation studies for certain of the assets acquired and liabilities assumed to assist the Company in determining fair value. The estimation of the fair values of the assets acquired and liabilities assumed involves a number of estimates and assumptions that could differ materially from the actual amounts recorded. The results of the acquired businesses are included in the Company's results from operations beginning from the day of acquisition.

Comprehensive Income

Total comprehensive income for the years ended January 1, 2009, December 27, 2007 and December 28, 2006 was \$64.2 million, \$347.8 million and \$87.8 million, respectively. Total comprehensive income consists of net income and other comprehensive income (loss), net of tax, related to the change in the aggregate unrealized gain (loss) on the Company's interest rate swap arrangements during each of the years ended January 1, 2009, December 27, 2007 and December 28, 2006. The Company's interest rate swap arrangements are further described in Note 5 "Debt Obligations."

Reclassifications

Certain reclassifications have been made to the 2006 and 2007 consolidated financial statements to conform to the 2008 presentation. In addition, the consolidated statement of cash flows for the year ended December 27, 2007 was revised to reclassify the \$347.3 million of proceeds received in connection with the redemption of preferred units of NCM and sale of NCM common units to NCM, Inc. (see in Note 4 "Investment in National CineMedia, LLC") from operating cash flows to investing cash flows. We believe this presentation more clearly reflects the underlying source of funding of such proceeds, provides more enhanced clarity to our cash flows from operations from our on-going business activities and enhances comparability amongst the periods presented in our consolidated financial statements. The following table summarizes the reclassification of these items within the consolidated statement of cash flows for the year ended December 27, 2007:

	Year Ended December 27, 2007 (Previously Reported)	Reclassification	Year Ended December 27, 2007 (As Reclassified)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. Among other requirements, SFAS No. 157 defines fair value and establishes a framework for measuring fair value and also expands disclosure about the use of fair value to measure assets and liabilities. The adoption of SFAS No. 157 did not have a material impact on the Company's consolidated financial position, cash flows and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS No. 159 permits entities to choose to measure certain financial instruments and other eligible items at fair value when the items are not otherwise currently required to be measured at fair value. Under SFAS No. 159, the decision to measure items at fair value is made at specified election dates on an irrevocable instrument-by-instrument basis. Entities electing the fair value option would be required to recognize changes in fair value in earnings and to expense upfront cost and fees associated with the item for which the fair value option is elected. Entities electing the fair value option are required to distinguish, on the face of the statement of financial position, the fair value of assets and liabilities for which the fair value option has been elected and similar assets and liabilities measured using another measurement attribute. The adoption of SFAS No. 159 did not have a material impact on the Company's consolidated financial position, cash flows and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*. SFAS No. 141(R) requires all business combinations completed after the effective date to be accounted for by applying the acquisition method (previously referred to as the purchase method). SFAS No. 141(R) expands the definition of transactions and events that qualify as business combinations; requires that the acquired assets and liabilities, including contingencies, be recorded at the fair value determined on the acquisition date and changes thereafter reflected in revenue, not goodwill; changes the recognition timing for restructuring costs; and requires acquisition costs to be expensed as incurred. Future reductions in the valuation allowance recorded relative to pre-acquisition periods will result in a decrease in the provision for income taxes. In addition, with respect to uncertain tax positions, changes in the amount of tax benefit recognized relative to pre-acquisition periods will result in an increase/decrease in the provision for income taxes (see Note 7 "Income Taxes" for further discussion). Adoption of SFAS No. 141(R) is required for combinations after December 15, 2008. Early adoption and retroactive application of SFAS No. 141(R) to fiscal years preceding the effective date are not permitted. The Company is evaluating the adoption of SFAS No. 141(R) and its impact on the Company's consolidated financial position, cash flows and results of operations.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements*. SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. SFAS No. 160 clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest. In addition, this statement requires that a parent recognize a gain or loss

in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The Company is evaluating the adoption of SFAS No. 160 and its impact on the Company's consolidated financial position, cash flows and results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* which amends SFAS No. 133, and requires companies with derivative instruments to disclose information about how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133, and how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows. The required disclosures include the fair value of derivative instruments and their gains or losses in tabular format, information about credit-risk-related contingent features in derivative agreements, counterparty credit risk, and the company's strategies and objectives for using derivative instruments. The Statement expands the current disclosure framework in SFAS No. 133. SFAS No. 161 is effective prospectively for annual or interim reporting periods beginning on or after November 15, 2008.

In May 2008, the FASB issued FASB Staff Position APB 14-a, *Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)* ("FSP 14-a"). FSP 14-a specifies that issuers of such instruments should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate on the instrument's issuance date when interest cost is recognized in subsequent periods. The 6¹/₄% Convertible Senior Notes and the 3³/₄% Convertible Senior Notes are within the scope of FSP 14-a; therefore, we will be required to record the debt portions of the 6¹/₄% Convertible Senior Notes and the 3³/₄% Convertible Senior Notes at their fair values as of the dates of issuance and amortize the discount into interest expense over the life of the debt during the periods in which the debt instruments are outstanding. However, there will be no effect on our cash interest payments. A cumulative effect of a change in accounting principle on periods prior to those presented shall be recognized as of the beginning of the first period presented with an offsetting adjustment to retained earnings. FSP 14-a is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years, and will be applied retrospectively to all periods presented. Accordingly, the adoption of FSP 14-a will be reflected in our consolidated financial statements beginning with the first fiscal quarter of 2009. The Company is currently evaluating the adoption of FSP 14-a and its impact on its consolidated financial position, cash flows and results of operations.

3. ACQUISITION*Acquisition of Consolidated Theatres*

On April 30, 2008, the Company acquired Consolidated Theatres, which holds a total of 28 theatres with 400 screens in Georgia, Maryland, North Carolina, South Carolina, Tennessee and Virginia. The total net cash purchase price for the acquisition was approximately \$209.3 million, subject to post-closing adjustments. In conjunction with the closing, we entered into a final judgment with the

DOJ, which requires us to hold separate and divest ourselves of four theaters comprising 52 screens in North Carolina. Three of the four theatres subject to the judgment were existing Regal properties and the fourth theatre was acquired from Consolidated Theatres. Because the fourth theatre had minimal and declining cash flows at the acquisition date, none of the below purchase price was allocated to the long-lived assets associated with this theatre. Our impairment review during the quarter ended June 26, 2008 did not result in any impairment charges related to these four theatres on a stand alone basis. However, during the quarter ended September 25, 2008, the Company made the decision to sell three of these four theatres (two of the Regal theatres and the Consolidated theatre) together in order to partially satisfy our divestiture requirement. As a result of agreeing to sell the theatres as a package, we were required to evaluate the theatres for impairment as a disposal group (as opposed to the stand alone evaluation during the quarter ended June 26, 2008) and accordingly, we recorded an impairment charge of \$7.9 million during the quarter ended September 25, 2008. On October 23, 2008, the Company completed its divestiture of the three theatres comprising 42 screens in North Carolina pursuant to a final judgment with the DOJ. In accordance with the final judgment, a court appointed trustee has been selected to attempt to sell the last of the four theatres.

The acquisition has been accounted for using the purchase method of accounting and, accordingly, the purchase price has been allocated to the assets acquired and liabilities assumed for each of the respective theatre locations based on their estimated fair values at the date of acquisition. The allocation of the purchase price is based on management's judgment after evaluating several factors, including an independent third party valuation. The results of operations of the acquired theatres have been included in the Company's consolidated financial statements for periods subsequent to the acquisition date.

The following is a summary of the preliminary allocation of the cash purchase price to the estimated fair values of the assets acquired and liabilities assumed at the date of acquisition (in millions):

Current assets	\$ 1.4
Property and equipment, net	209.9
Intangible assets	18.1
Current liabilities	(11.2)
Long-term liabilities	(8.9)
 Total purchase price	 \$ 209.3

The transaction included the acquisition of certain identifiable intangible assets, including \$9.9 million related to favorable leases with a weighted average amortization period of 13.1 years and approximately \$8.2 million related to an on-screen advertising contract which will be amortized on a straight-line basis through January 2011.

The following unaudited pro forma results of operations for the years ended January 1, 2009 and December 27, 2007 assume the above acquisition occurred as of the beginning of fiscal 2007. The pro forma results have been prepared for comparative purposes only and do not purport to indicate the

4. INVESTMENT IN NATIONAL CINEMEDIA, LLC*Formation of National CineMedia, LLC*

In March 2005, Regal and AMC announced the combination of the operations of RCM and AMC's subsidiary, NCN, into a new joint venture company known as National CineMedia. In July 2005, Cinemark, through a wholly owned subsidiary, acquired an interest in National CineMedia. National CineMedia concentrates on in-theatre advertising and creating complementary business lines that leverage the operating personnel, asset and customer bases of its theatrical exhibition partners, which includes us, AMC and Cinemark. National CineMedia is, subject to limited exceptions, the exclusive provider of advertising and event services to Regal, AMC and Cinemark.

As part of the March 2005 joint venture transaction, RCM and NCN entered into a Contribution and Unit Holders Agreement with National CineMedia pursuant to which, among other things, RCM and NCN agreed to contribute assets to National CineMedia and National CineMedia agreed to assume specified liabilities of RCM and NCN in consideration for the issuance of equity units by National CineMedia to RCM's wholly-owned subsidiary, RCH and NCN, respectively. The assets contributed to National CineMedia by RCM included fixed assets and agreements as well as approximately \$1.3 million in cash. The Company accounts for its investment in National CineMedia using the equity method of accounting and did not recognize any gain or loss resulting from the initial formation of National CineMedia due to the Company's continued involvement in the operations of National CineMedia.

Pursuant to the other documents entered into in connection with the joint venture transaction, AMC and Regal, through their subsidiaries, retained all advertising contracts signed on or before the close of business on March 31, 2005, and Cinemark retained all advertising contracts signed on or before the close of business on July 15, 2005, subject to an administrative fee (32% during fiscal 2006 through the date of the IPO of NCM, Inc.) payable to National CineMedia to service such contracts. For the period from December 29, 2006 through February 12, 2007 and the year ended December 28, 2006, administrative fees paid to National CineMedia with respect to these contracts totaled less than \$0.1 million (on less than \$0.1 million of revenue) and \$4.8 million (on \$15.0 million of revenue), respectively. Revenues and expenses attributable to these advertising contracts were recorded as a component of other operating revenues and other operating expenses in the Company's financial

statements. For contracts signed by National CineMedia after the close of business on March 31, 2005 through February 12, 2007, AMC and Regal, and with respect to advertising contracts signed after the close of business on July 15, 2005, Cinemark, through their respective subsidiaries, received revenue from National CineMedia with respect to advertising and event services at their respective theatres through an agreed upon formula as well as equity in income/loss of National CineMedia. Such formula was based on the weighted average number of screens owned by and the number of theatre patrons of the applicable exhibitor's theatres for any measurement period. During the period from December 29, 2006 through February 12, 2007, the Company recorded \$6.2 million of advertising revenues and \$0.4 million of other revenues derived from these contracts, which are presented as a component of other operating revenues in the Company's financial statements. During the year ended December 28, 2006, the Company recorded \$58.5 million of advertising revenues and \$3.1 million of other revenues derived from these contracts. For the period from December 29, 2006 through February 12, 2007 and the year ended December 28, 2006, the Company recorded a loss of \$2.0 million and \$3.5 million, respectively, representing its share of the net loss of National CineMedia. As of December 28, 2006, RCH owned 45.4% of the Class A Units of National CineMedia, AMC, as successor in interest to NCN, owned 26.3% of the Class A Units of National CineMedia and Cinemark owned 28.3% of the Class A Units of National CineMedia. See "Initial Public Offering of National CineMedia, Inc. and Other Developments" below for a discussion of related amounts for the period from February 13, 2007 through December 27, 2007.

In connection with the formation of National CineMedia, on May 11, 2005, RCI adopted and approved the RCI Severance Plan For Equity Compensation (the "Severance Plan"). Participation in the Severance Plan is limited to employees of RCM who held an unvested option to purchase shares of Regal's Class A common stock or unvested shares of Regal's restricted Class A common stock pursuant to the terms of the Company's 2002 Incentive Plan (the "Incentive Plan") immediately prior to such employee's termination of employment with RCM and commencement of employment with National CineMedia. Each employee's termination of employment with RCM was effective as of the close of business on May 24, 2005 and commencement of employment with National CineMedia was effective as of May 25, 2005. Under the terms of and subject to the conditions of the Severance Plan, each eligible employee who participates in the Severance Plan is, at the times set forth in the Severance Plan, entitled to cash payments based on the value of Regal's Class A common stock on May 24, 2005 as calculated pursuant to the terms of the Severance Plan. As the Severance Plan provides for payments over future periods that are contingent upon continued employment with National CineMedia, the cost of the Severance Plan will be recorded as an expense over the remaining required service periods. During the years ended January 1, 2009, December 27, 2007 and December 28, 2006, the Company recorded total severance expense of approximately \$0.5 million, \$1.9 million and \$3.9 million, respectively, including payments in lieu of dividends, related to the Severance Plan.

Initial Public Offering of National CineMedia, Inc.

On February 13, 2007, NCM, Inc., a newly formed entity that serves as the sole manager of National CineMedia, completed an IPO of its common stock. NCM, Inc. sold 38.0 million shares of its common stock for \$21 per share in the IPO, less underwriting discounts and expenses. NCM, Inc. used a portion of the net cash proceeds from the IPO to acquire newly issued common units from National CineMedia. As a result of the NCM, Inc.'s acquisition of common units in National CineMedia, the

Company recognized a change in interest gain of approximately \$182.7 million along with a corresponding increase in the Company's equity investment in National CineMedia.

In connection with the completion of the IPO, the joint venture partners, including RCI, amended and restated their exhibitor services agreements ("ESA") with National CineMedia. In exchange for a significant portion of its pro rata share of the IPO proceeds, RCI agreed to a modification of National CineMedia's payment obligation under the ESA. The modification extended the term of the ESA to 30 years, provided National CineMedia with a five year right of first refusal beginning one year prior to the end of the term and changed the basis upon which RCI is paid by National CineMedia from a percentage of revenues associated with advertising contracts entered into by National CineMedia to a monthly theatre access fee. The theatre access fee is composed of a fixed \$0.07 payment per patron which will increase by 8% every five years starting at the end of fiscal 2011 and a fixed \$800 payment per digital screen each year, which will increase by 5% annually starting at the end of fiscal 2007 (or \$840 for fiscal 2008). The access fee revenues received by the Company under its contract are determined annually based on a combination of both fixed and variable factors which include the total number of theatre screens, attendance and actual revenues (as defined in the ESA) generated by National CineMedia. The ESA does not require us to maintain a minimum number of screens and does not provide a fixed amount of access fee revenue to be earned by the Company in any period. The theatre access fee paid in the aggregate to us, AMC and Cinemark will not be less than 12% of NCM's aggregate advertising revenue, or it will be adjusted upward to meet this minimum payment. On-screen advertising time provided to our beverage concessionaire is provided by National CineMedia under the terms of the ESA. In addition, we receive mandatory quarterly distributions of any excess cash from National CineMedia.

The amount we received for agreeing to the ESA modification was approximately \$281.0 million, which represents the estimated fair value of the ESA modification payment. We estimated the fair value of the ESA payment based upon a valuation performed by the Company with the assistance of third party specialists. This amount has been recorded as deferred revenue and will be amortized to advertising revenue over the 30 year term of the agreement following the units of revenue method. Under the units of revenue method, amortization for a period is calculated by computing a ratio of the proceeds received from the ESA modification payment to the total expected decrease in revenues due to entry into the new ESA over the 30 year term of the agreement and then applying that ratio to the current period's expected decrease in revenues due to entry into the new ESA.

At the closing of the IPO, the underwriters exercised their over-allotment option to purchase an additional 4.0 million shares of common stock of NCM, Inc. at the initial offering price of \$21 per share, less underwriting discounts and commissions. In connection with this over-allotment option exercise, Regal, AMC and Cinemark each sold to NCM, Inc. common units of National CineMedia on a pro rata basis at the initial offering price of \$21 per share, less underwriting discounts and expenses. Regal sold approximately 1.6 million common units to NCM, Inc. for proceeds of approximately \$32.2 million and recognized a gain on the sale of such units of approximately \$19.3 million. Upon completion of this sale of common units, Regal held approximately 21.2 million common units of National CineMedia. Such common units are immediately redeemable on a one-to-one basis for shares of NCM, Inc. common stock. We account for our investment in National CineMedia following the equity method of accounting.

4. INVESTMENT IN NATIONAL CINEMEDIA, LLC (Continued)

Upon the closing of the IPO, National CineMedia entered into a \$725.0 million term loan facility, the net cash proceeds of which were used to redeem preferred units issued to each of Regal, AMC and Cinemark on a pro rata basis pursuant to a recapitalization of National CineMedia prior to completion of the IPO. We received approximately \$315.1 million as a result of the preferred unit redemption. The Company recognized such cash distributions from National CineMedia by (1) reducing its equity investment in National CineMedia from approximately \$166.4 million to zero and (2) recording distributions in excess of the investment balance in National CineMedia of approximately \$148.7 million as a gain. Because the investment (and net advances) in National CineMedia has been reduced to zero, we will not provide for any additional losses as we have not guaranteed obligations of National CineMedia and we are not otherwise committed to provide further financial support for National CineMedia. In addition, during future periods, the Company will not recognize its share of any undistributed equity in the earnings of National CineMedia from the Company's initial investment in National CineMedia until National CineMedia's future net earnings equal or exceed the amount of the above excess distribution. Until such time, equity earnings related to the Company's initial investment in National CineMedia will be recognized only to the extent that the Company receives cash distributions from National CineMedia. During the years ended January 1, 2009 and December 27, 2007, the Company received \$33.1 million and \$18.6 million, respectively, in cash distributions from National CineMedia. Approximately \$2.8 million of these cash distributions received during the year ended January 1, 2009 were recognized as a reduction in our investment in National CineMedia. The remaining amounts were recognized in equity earnings during each of these periods and have been included as component of "Earnings recognized from NCM" in the accompanying consolidated financial statements.

After the payment of current taxes, net cash proceeds from these transactions totaled approximately \$447.4 million. The Company used a portion of the net cash proceeds to fund an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock, or approximately \$302.0 million in the aggregate. Stockholders of record at the close of business on March 28, 2007 were paid this dividend on April 13, 2007.

Also in connection with the IPO, the joint venture partners entered into a Common Unit Adjustment Agreement with National CineMedia. The Common Unit Adjustment Agreement was created to account for changes in the number of theatre screens operated by each of the joint venture partners. Historically, each of the joint venture partners has increased the number of screens it operates through acquisitions and newly built theatres. Since these incremental screens and increased attendance in turn provide for additional advertising revenues to National CineMedia, National CineMedia agreed to compensate the joint venture partners by issuing additional common membership units to the joint venture partners in consideration for their increased attendance and overall contribution to the joint venture. The Common Unit Adjustment Agreement also provides protection to National CineMedia in that the joint venture partners may be required to transfer or surrender common units to National CineMedia based on certain limited events, including declines in attendance and the number of screens operated. As a result, each joint venture partner's equity ownership interests are proportionately adjusted to reflect the risks and rewards relative to their contributions to the joint venture.

4. INVESTMENT IN NATIONAL CINEMEDIA, LLC (Continued)

The Common Unit Adjustment Agreement provides that transfers of common units are solely between the joint venture partners and National CineMedia. There are no transfers of units among the joint venture partners. In addition, there are no circumstances under which common units would be surrendered by the Company to National CineMedia in the event of an acquisition by one of the joint venture partners. However, adjustments to the common units owned by one of the joint venture partners will result in an adjustment to the Company's equity ownership interest percentage in National CineMedia.

Pursuant to our Common Unit Adjustment Agreement, from time to time, common units of National CineMedia held by the joint venture partners will be adjusted up or down through a formula ("common unit adjustment") primarily based on increases or decreases in the number of theatre screens operated and theatre attendance generated by each joint venture partner. The common unit adjustment is computed annually, except that an earlier common unit adjustment will occur for a joint venture partner if its acquisition or disposition of theatres, in a single transaction or cumulatively since the most recent common unit adjustment, will cause a change of two percent or more in the total annual attendance of all of the joint venture partners. In the event that a common unit adjustment is determined to be a negative number, the joint venture partner shall cause, at its election, either (a) the transfer and surrender to National CineMedia a number of common units equal to all or part of such joint venture partner's common unit adjustment or (b) pay to National CineMedia, an amount equal to such joint venture partner's common unit adjustment calculated in accordance with the Common Unit Adjustment Agreement.

As a result of the annual adjustment provisions of the Common Unit Adjustment Agreement, on April 9, 2008, we received from National CineMedia approximately 0.8 million newly issued common units of National CineMedia. In addition, on May 29, 2008, we received from National CineMedia approximately 2.9 million newly issued common units of National CineMedia in accordance with the adjustment provisions of the Common Unit Adjustment Agreement for our increase in screens in connection with our acquisition of Consolidated Theatres. These adjustments increased the number of National CineMedia common units held by us to approximately 24.9 million and as a result, on a fully diluted basis, we own a 25.1% interest in NCM, Inc. as of January 1, 2009. The Company recorded the additional units at fair value using the available closing stock prices of NCM, Inc. as of the dates at which the units were received. Since the additional common units received do not represent the funding of prior losses of National CineMedia, the fair value of such units were recorded as separate investment tranches in National CineMedia. Accordingly, the Company recorded a \$73.4 million increase in its investment in National CineMedia during the year ended January 1, 2009. Since Consolidated Theatres maintains an existing agreement with an on-screen advertising provider, National CineMedia will not be provided access to such theatre locations until expiration of the related advertising contract. In accordance with the Common Unit Adjustment Agreement, Regal agreed to pay National CineMedia an amount that approximates the earnings before interest, taxes, depreciation and amortization that would have been generated by National CineMedia if it were able to sell on-screen advertising in the acquired theatre locations on an exclusive basis. The fair value of such payment was approximately \$8.0 million and was accrued by the Company during the year ended January 1, 2009. Such amount was determined by the present value of the ultimate amount estimated to be paid to National CineMedia (approximately \$8.9 million) through expiration of the on-screen advertising contract. The accretion associated with this obligation will be reflected in interest expense

over the life of the related obligation. The Company recorded the remaining \$65.4 million as an increase to deferred revenue. This amount will be amortized to advertising revenue over the remaining term of the ESA (approximately 29 years) following the units of revenue method.

Since the additional common units received represent separate investment tranches in National CineMedia, any undistributed equity in the earnings of National CineMedia pertaining to these tranches will be recognized under the equity method of accounting. As a result, the Company's share in the net income of National CineMedia with respect to these tranches totaled \$2.6 million during the year ended January 1, 2009. Such amounts have been included as a component of "Earnings recognized from NCM" in the consolidated financial statements. As of January 1, 2009, our investment in National CineMedia totaled approximately \$73.1 million.

As a result of the ESA amendment and related modification payment, the Company recognizes various types of other revenue from National CineMedia, including per patron and per digital screen theatre access fees, net of payments for on-screen advertising time provided to our beverage concessionaire, other NCM revenue (such as meeting and event services, live and pre-recorded concerts, sporting events and other entertainment programming content) and amortization of upfront ESA modification fees utilizing the units of revenue amortization method. These revenues are presented as a component of other operating revenue in the Company's financial statements and consist of the following amounts:

	Year Ended January 1, 2009	Period from February 13, 2007 through December 27, 2007
	(in millions)	
Theatre access fees per patron	\$ 16.3	\$ 14.8
Theatre access fees per digital screen	4.9	4.0
Other NCM revenue	3.5	2.8
Amortization of ESA modification fees	3.2	2.1
Payments to beverage concessionaire	(13.6)	(16.4)
Total	\$ 14.3	\$ 7.3

As of January 1, 2009, approximately \$2.3 million and \$2.2 million due from/to National CineMedia were included in "Trade and other receivables, net" and "Accounts payable," respectively. As of December 27, 2007, approximately \$2.0 million and \$2.2 million due from/to National CineMedia were included in "Trade and other receivables, net" and "Accounts payable," respectively.

As of the date of this annual report on Form 10-K, no summarized financial information for National CineMedia was available for the year ended January 1, 2009.

On or after December 15, 2010, our note holders will have the option to convert their 6¹/₄% Convertible Senior Notes, in whole or in part, into shares of our Class A common stock at any time prior to maturity, subject to certain limitations, unless previously purchased by us at the note holder's option upon a fundamental change (as defined in the indenture to the 6¹/₄% Convertible Senior Notes dated March 10, 2008) at the then-existing conversion price per share. Prior to December 15, 2010, our note holders have the right, at their option, to convert their 6¹/₄% Convertible Senior Notes, in whole or in part, into shares of our Class A common stock, subject to certain limitations, unless previously purchased by us at the note holder's option upon a fundamental change, at the then existing conversion price per share, subject to further adjustments described below, if:

during any calendar quarter commencing after June 30, 2008, and only during such calendar quarter, if the last reported sale price per share of Class A common stock for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeds 130% of the conversion price per share of Class A common stock for the 6¹/₄% Convertible Senior Notes on the last trading day of such immediately preceding calendar quarter;

during the five consecutive business days immediately after any ten consecutive trading day period (such 10 consecutive trading day period, the "Note Measurement Period") in which the

trading price (calculated using the trading price for each of the trading days in the Note Measurement Period) per \$1,000 principal amount of the 6¹/₄% Convertible Senior Notes was less than 95% of the product of the last reported sale price per share of Class A common stock and the conversion rate for each day of the Note Measurement Period as determined following a request by a holder of the notes in accordance with the procedures described more fully in the 6¹/₄% Convertible Senior Notes indenture;

during certain periods if specified corporate transactions occur or specified distributions to holders of common stock are made, each as set forth in the 6¹/₄% Convertible Senior Notes indenture (excluding certain distributions and excluding quarterly dividends not in excess of the base dividend amount (as defined in the 6¹/₄% Convertible Senior Notes indenture)), in which case, the conversion price per share will be adjusted as set forth in the 6¹/₄% Convertible Senior Notes indenture; or

a fundamental change (as defined in the 6¹/₄% Convertible Senior Notes indenture) occurs, a note holder may elect to convert all or a portion of its notes at any time commencing on the effective date of such transaction or 15 days prior to the anticipated effective date (in certain circumstances) until the latter of: (i) the day before the fundamental change repurchase date and (ii) 30 days following the effective date of such transaction (but in any event prior to the close of business on the business day prior to the maturity date), in which case we will increase the conversion rate for the notes surrendered for conversion by a number of additional shares of Class A common stock, as set forth in the table in the 6¹/₄% Convertible Senior Notes indenture.

On January 1, 2009, at the then-current conversion price of \$23.0336 per share (which conversion price may be adjusted pursuant to the certain events described further in the 6¹/₄% Convertible Senior Notes indenture), each \$1,000 of aggregate principal amount of 6¹/₄% Convertible Senior Notes is convertible into approximately 43.4148 shares of our Class A common stock. Upon conversion, we may elect to deliver cash in lieu of shares of Class A common stock or a combination of cash and shares of Class A common stock. The conversion price and the number of shares delivered on conversion are subject to adjustment upon certain events.

In connection with the issuance of the 6¹/₄% Convertible Senior Notes, we used approximately \$6.6 million of the net proceeds of the offering to enter into convertible note hedge and warrant transactions with respect to our Class A common stock to reduce the potential dilution from conversion of the 6¹/₄% Convertible Senior Notes. Under the terms of the convertible note hedge arrangement (the "2008 Convertible Note Hedge") with Credit Suisse, we paid \$12.6 million for a forward purchase option contract under which we are entitled to purchase from Credit Suisse a fixed number of shares of our Class A common stock (at January 1, 2009, at a price per share of \$23.0336). In the event of the conversion of the 6¹/₄% Convertible Senior Notes, this forward purchase option contract allows us to purchase, at a fixed price equal to the implicit conversion price of shares issued under the 6¹/₄% Convertible Senior Notes, a number of shares of Class A Common stock equal to the shares that we issue to a note holder upon conversion. Settlement terms of this forward purchase option allow the Company to elect cash or share settlement based on the settlement option it chooses in settling the conversion feature of the 6¹/₄% Convertible Senior Notes. We accounted for the 2008 Convertible Note Hedge pursuant to the guidance in EITF 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in a Company's Own Stock*. Accordingly, the \$12.6 million purchase price of

the forward stock purchase option contract was recorded as an increase to consolidated stockholders' deficit.

We also sold to Credit Suisse a warrant (the "2008 Warrant") to purchase shares of our Class A common stock. The 2008 Warrant is currently exercisable for approximately 8.7 million shares of our Class A common stock at a January 1, 2009 exercise price of \$25.376 per share (which exercise price may be adjusted pursuant to the provisions of the 2008 Warrant). We received \$6.0 million in cash from Credit Suisse in return for the sale of this forward share purchase option contract. Credit Suisse cannot exercise the 2008 Warrant unless and until a conversion event occurs. We have the option of settling the 2008 Warrant in cash or shares of our Class A common stock. We accounted for the sale of the 2008 Warrant as the sale of a permanent equity instrument pursuant to the guidance in EITF 00-19. Accordingly, the \$6.0 million sales price of the forward stock purchase option contract was recorded as a debit to consolidated stockholders' deficit.

The 2008 Convertible Note Hedge and the 2008 Warrant allow us to acquire sufficient Class A common shares from Credit Suisse to meet our obligation to deliver Class A common shares upon conversion by the note holder, unless the Class A common share price exceeds \$25.376 (as of January 1, 2009). When the fair value of our Class A common shares exceeds such price, the equity contracts no longer have an offsetting economic impact, and accordingly will no longer be effective as a share-for-share hedge of the dilutive impact of possible conversion.

The 6¹/₄% Convertible Senior Notes allow us to settle any conversion by remitting to the note holder the accreted value of the note in cash plus the conversion spread (the excess conversion value over the accreted value) in either cash, shares of our Class A common stock or a combination of stock and cash. The accounting for convertible debt with such settlement features is addressed in the consensus reached by the EITF with respect to the accounting for Instrument B as set forth in EITF 90-19, *Convertible Bonds with Issuer Option to Settle for Cash upon Conversion*. Because the accreted value of the 6¹/₄% Convertible Senior Notes may be settled in cash, shares of our Class A common stock or a combination of stock and cash, the accreted value of the 6¹/₄% Convertible Senior Notes is assumed to be settled in shares and will result in dilution in our earnings per share computations using the if-converted method, if the effect is dilutive (see Note 10 "Recent Accounting Pronouncements").

Regal 3³/₄% Convertible Senior Notes On May 28, 2003, Regal issued \$240.0 million aggregate principal amount of 3³/₄% Convertible Senior Notes due May 15, 2008. Interest on the 3³/₄% Convertible Senior Notes was payable semi-annually in arrears on May 15 and November 15 of each year, beginning November 15, 2003. The 3³/₄% Convertible Senior Notes were senior unsecured obligations of Regal and ranked on parity with all of our existing and future senior unsecured indebtedness and prior to all of our subordinated indebtedness. The 3³/₄% Convertible Senior Notes were effectively subordinated to all of our future secured indebtedness to the extent of the assets securing that indebtedness and to any indebtedness and other liabilities of our subsidiaries. None of our subsidiaries guaranteed any of our obligations with respect to the 3³/₄% Convertible Senior Notes. Our note holders had the option to convert their 3³/₄% Convertible Senior Notes, in whole or in part, into shares of our Class A common stock at any time prior to maturity, subject to certain limitations, unless previously purchased by us at the note holder's option upon a change in control, at the then existing conversion price per share.

5. DEBT OBLIGATIONS (Continued)

In connection with the issuance of the 3³/₄% Convertible Senior Notes, we used approximately \$18.8 million of the net proceeds of the offering to enter into convertible note hedge and warrant transactions with respect to our Class A common stock to reduce the potential dilution from conversion of the 3³/₄% Convertible Senior Notes. Under the terms of the convertible note hedge arrangement (the "Convertible Note Hedge") with Credit Suisse, we paid \$36.2 million for a forward purchase option contract under which we are entitled to purchase from Credit Suisse a fixed number of shares of our Class A common stock. We accounted for the Convertible Note Hedge pursuant to the guidance in EITF 00-19. Accordingly, the \$36.2 million purchase price of the forward stock purchase option contract was recorded as an increase to consolidated stockholders' deficit.

We also sold to Credit Suisse a warrant (the "Warrant") to purchase shares of our Class A common stock. We received \$17.4 million in cash from Credit Suisse in return for the sale of this forward share purchase option contract. We accounted for the sale of the Warrant as the sale of a permanent equity instrument pursuant to the guidance in EITF 00-19. Accordingly, the \$17.4 million sales price of the forward stock purchase option contract was recorded as a debit to consolidated stockholders' deficit.

The Convertible Note Hedge and the Warrant allowed us to acquire sufficient Class A common shares from Credit Suisse to meet our obligation to deliver Class A common shares upon conversion by the note holder, unless the Class A common share price exceeded then current Warrant exercise prices. When the fair value of our Class A common shares exceeded such Warrant exercise prices, the equity contracts no longer had an offsetting economic impact, and accordingly were no longer effective as a hedge of the dilutive impact of possible conversion.

The 3³/₄% Convertible Senior Notes allowed us to settle any conversion by remitting to the note holder the accreted value of the note in cash plus the conversion spread (the excess conversion value over the accreted value) in either cash, shares of our Class A common stock or a combination of stock and cash. The accounting for convertible debt with such settlement features is addressed in the consensus reached by the EITF with respect to the accounting for Instrument C as set forth in EITF 90-19, *Convertible Bonds with Issuer Option to Settle for Cash Upon Conversion*. Because the accreted value of the 3³/₄% Convertible Senior Notes would be settled in cash upon the conversion, only the conversion spread (the excess conversion value over the accreted value), which could be settled in stock, resulted in dilution in our earnings-per-share computations.

During the year ended December 28, 2006, holders of \$116.3 million in principal amount of 3³/₄% Convertible Senior Notes exercised their conversion rights. The Company elected to settle these conversions entirely in cash for approximately \$152.1 million. As a result of these conversions, the Company recorded a \$37.0 million loss on debt extinguishment (including a related \$1.2 million write-off of unamortized debt issue costs) during the year ended December 28, 2006. In connection with these conversions, the Company received net proceeds of approximately \$17.9 million from Credit Suisse attributable to the Convertible Note Hedge and the Warrant. Such proceeds were recorded as an increase to additional paid-in capital.

In connection with the issuance of the 6¹/₄% Convertible Senior Notes described above, on March 5, 2008 and March 10, 2008, we redeemed a total of approximately \$90.0 million principal amount of the 3³/₄% Convertible Senior Notes, in a series of privately negotiated transactions. As a

result of the early redemption, the Company recorded a \$52.8 million loss on debt extinguishment during the year ended January 1, 2009. In connection with the early redemption, the Company received net proceeds of approximately \$13.7 million from Credit Suisse attributable to the convertible note hedge (the "2003 Convertible Note Hedge") and the warrant (the "2003 Warrant") associated with the 3³/₄% Convertible Senior Notes. Such proceeds were recorded as an increase to additional paid-in capital. In connection with the final maturity of the 3³/₄% Convertible Senior Notes on May 15, 2008, holders of the remaining \$33.7 million in principal amount exercised their conversion rights. The Company elected to settle these conversions entirely in cash for approximately \$51.4 million using the remaining proceeds from the issuance of the 6¹/₄% Convertible Senior Notes. As a result of these conversions, the Company recorded an additional \$17.7 million loss on debt extinguishment during the year ended January 1, 2009. In connection with these conversions, the Company received net proceeds of approximately \$5.2 million from Credit Suisse attributable to the convertible note hedge and warrant transactions associated with the 3³/₄% Convertible Senior Notes. Such proceeds were also recorded as an increase to additional paid-in capital.

Regal Cinemas 9³/₈% Senior Subordinated Notes On January 29, 2002, Regal Cinemas issued \$200.0 million aggregate principal amount of 9³/₈% Senior Subordinated Notes due 2012 (the "Senior Subordinated Notes"). Interest on the Senior Subordinated Notes is payable semi-annually on February 1 and August 1 of each year, and the Senior Subordinated Notes mature on February 1, 2012. The Senior Subordinated Notes are guaranteed by most of Regal Cinemas' existing subsidiaries and are unsecured, ranking behind Regal Cinemas' obligations under its fifth amended and restated Senior Credit Facility (the "Amended Senior Credit Facility") and any future senior indebtedness.

On April 17, 2002, Regal Cinemas sold an additional \$150.0 million principal amount of the Senior Subordinated Notes, which were issued under the indenture pursuant to which Regal Cinemas sold its Senior Subordinated Notes in January 2002.

Regal Cinemas has the option to redeem the Senior Subordinated Notes, in whole or in part, at any time on or after February 1, 2007 at redemption prices declining from 104.688% of their principal amount on February 1, 2007 to 100% of their principal amount on or after February 1, 2010, plus accrued interest.

On April 15, 2004, Regal and its subsidiary, Regal Cinemas Bond Corporation ("RCBC"), commenced a cash tender offer and consent solicitation for the \$350.0 million aggregate principal amount of the 9³/₈% Senior Subordinated Notes. On April 27, 2004, the Company completed its consent solicitation with respect to the Senior Subordinated Notes amending the indenture governing the Senior Subordinated Notes to eliminate substantially all of the restrictive covenants and certain default provisions. Consideration for each \$1,000 principal amount of Senior Subordinated Notes tendered was \$1,169.05, plus a consent payment of \$20.00 per \$1,000 principal amount of Senior Subordinated Notes for those holders who properly tendered their Senior Subordinated Notes with a consent on or before April 27, 2004. Such consideration was determined as of April 28, 2004 by reference to a fixed spread above the yield to maturity of the 2.25% U.S. Treasury Note due February 15, 2007. The tender offer was completed on May 12, 2004 and approximately \$298.1 million aggregate principal amount of the Senior Subordinated Notes were purchased. Total additional consideration paid for the tender offer and consent solicitation was approximately \$56.3 million. The tender offer and consent solicitation were financed with a portion of the proceeds from the Amended

Senior Credit Facility described below. Approximately \$918.3 million of the proceeds from the Amended Senior Credit Facility, together with a portion of Regal Cinemas' available cash, was distributed by Regal Cinemas to Regal, which used approximately \$718.3 million of the proceeds to pay an extraordinary dividend of \$5.00 per share to its holders of Class A and Class B common stock on June 2, 2004. The remaining balance was retained for the acquisitions of seven theatres acquired during the quarter ended July 1, 2004, 28 theatres acquired from Signature Theatres on September 30, 2004 and for general corporate purposes. Upon consummation of the refinancing of Regal Cinemas' senior indebtedness, Regal recognized a loss on debt extinguishment of approximately \$76.1 million. On July 15, 2004, the Company purchased an additional \$361,000 principal amount of the Senior Subordinated Notes from a third party.

Regal Cinemas Fifth Amended and Restated Credit Agreement On October 27, 2006, Regal Cinemas entered into a fifth amended and restated credit agreement (the "Amended Senior Credit Facility") with Credit Suisse, Cayman Islands Branch (as successor to Credit Suisse First Boston), as Administrative Agent and the other lenders party thereto, which consists of a term loan facility (the "Term Facility") in an aggregate original principal amount of \$1,700.0 million and a revolving credit facility (the "Revolving Facility") in an aggregate principal amount of up to \$100.0 million. Due to the of recent bankruptcy filings by Lehman and certain of its affiliates and the sudden deterioration in the credit standing of the Lehman affiliate party to our Revolving Facility, the aggregate principal amount available for drawing under the Revolving Facility was reduced by \$5.0 million to \$95.0 million during the year ended January 1, 2009. The Revolving Facility has a separate sublimit of \$10.0 million for short-term loans and a sublimit of \$30.0 million for letters of credit.

The principal balance of the Term Facility in the Amended Senior Credit Facility was higher than the term loan balance in the prior credit facility, and such higher principal balance resulted in net proceeds of \$21.2 million from the Amended Senior Credit Facility which were set aside for general corporate purposes. Upon the execution of the Amended Senior Credit Facility, Regal recognized a loss on debt extinguishment of approximately \$2.3 million, including \$0.8 million of third party costs. In addition, approximately \$19.2 million of new debt acquisition costs were recorded in connection with consummation of the Amended Senior Credit Facility.

The Term Facility will mature on October 27, 2013 and the Revolving Facility will mature on October 27, 2011. Interest is payable (a) in the case of base rate loans, quarterly in arrears, and (b) in the case of Eurodollar rate loans, at the end of each interest period, but in no event less often than every three months. The Term Facility amortizes in equal quarterly installments in an aggregate annual amount equal to 1.0% of the original principal amount of the Term Facility during the first six years thereof, with the balance payable in two equal installments, the first on June 30, 2013 and the second on October 27, 2013.

The obligations of Regal Cinemas are secured by, among other things, a lien on substantially all of its tangible and intangible personal property (including but not limited to accounts receivable, inventory, equipment, general intangibles, investment property, deposit and securities accounts, and intellectual property) and certain real property. The obligations under the Amended Senior Credit Facility are also guaranteed by certain subsidiaries of Regal Cinemas and secured by a lien on all or substantially all of such subsidiaries' personal property and certain real property. The obligations are

further guaranteed by Regal Entertainment Holdings, Inc., on a limited recourse basis, with such guaranty being secured by a lien on the capital stock of Regal Cinemas.

Borrowings under the Amended Senior Credit Facility bear interest, at Regal Cinemas' option, at either a base rate or an Adjusted Eurodollar Rate (as defined in the Amended Senior Credit Facility) plus, in each case, an applicable margin. The base rate is the higher of Prime Rate, as determined by Credit Suisse, and the Federal Funds Effective Rate plus 0.5%. Regal Cinemas may elect interest periods of 1, 2, 3, 6 or (if available to all lenders) 12 months for the Adjusted Eurodollar Rate. The applicable margin is determined according to the consolidated leverage ratio of Regal Cinemas and its subsidiaries. Calculation of interest is on the basis of the actual days elapsed in a year of 360 days (or 365 or 366 days, as the case may be, in the case of base rate loans based on the Prime Rate) and interest is payable at the end of each interest period (or quarterly in the case of base rate loans based on the Prime Rate) and, in any event, at least every 3 months. As of January 1, 2009 and December 27, 2007, borrowings of \$1,661.8 million and \$1,683.0 million, respectively, were outstanding under the Term Facility at an effective interest rate of 4.42% (as of January 1, 2009) and 6.09% (as of December 27, 2007), after the impact of the interest rate swaps described below is taken into account.

Regal Cinemas may prepay borrowings under the Amended Senior Credit Facility, in whole or in part, in minimum amounts and subject to other conditions set forth in the Amended Senior Credit Facility. Regal Cinemas is required to make mandatory prepayments with:

50% of excess cash flow in any fiscal year (as reduced by voluntary repayments of the Term Facility), with elimination based upon achievement and maintenance of a leverage ratio of less than 3.75:1.00;

100% of the net cash proceeds of all asset sales or other dispositions of property by Regal Cinemas and its subsidiaries, subject to certain exceptions (including reinvestment rights);

100% of the net cash proceeds of issuances of funded debt of Regal Cinemas and its subsidiaries, subject to exceptions; and

50% of the net cash proceeds of issuances of equity securities by Regal Cinemas, including the net cash proceeds of capital contributions to Regal Cinemas, with elimination based upon achievement and maintenance of a leverage ratio of less than 3.50:1.00.

The above-described mandatory prepayments are required to be applied pro rata to the remaining amortization payments under the Term Facility. When there are no longer outstanding loans under the Term Facility, mandatory prepayments are to be applied to prepay outstanding loans under the Revolving Facility with no corresponding permanent reduction of commitments under the Revolving Facility.

The Amended Senior Credit Facility includes several financial covenants including:

maximum ratios of (i) the sum of funded debt (net of unencumbered cash) plus the product of eight (8) times lease expense to (ii) consolidated EBITDAR (as defined in the Amended Senior Credit Facility) (initially set at 6.00:1.00 and declining in subsequent periods);

maximum ratios of funded debt (net of unencumbered cash) to consolidated EBITDA, (initially equal to 4.00:1.00 and declining in subsequent periods);

minimum ratio of (i) consolidated EBITDAR to (ii) the sum of interest expense plus lease expense of 1.50 to 1.0 throughout the term of the Amended Senior Credit Facility; and

maximum capital expenditures not to exceed 35% of consolidated EBITDA for the prior fiscal year plus a one-year carryforward for unused amounts from the prior fiscal year.

The Amended Senior Credit Facility contains customary affirmative covenants including, among other things, maintenance of corporate existence and rights; performance of obligations; delivery of financial statements and other financial information; delivery of notices of default, litigation, ERISA events and material adverse change; maintenance of properties; maintenance of insurance; maintenance of a rating of Regal Cinemas and of the Amended Senior Credit Facility by each of Standard & Poor's Ratings Services and Moody's Investors Service, Inc; compliance with laws; inspection of books and properties; further assurances; and payment of taxes.

The Amended Senior Credit Facility also contains customary negative covenants (subject to exceptions, limitations and baskets) which limit the ability of Regal Cinemas and its subsidiaries to, among other things, incur indebtedness, grant liens, make investments or acquisitions, engage in affiliate transactions, or pay dividends. These limitations may restrict the ability of Regal Cinemas to fund the operations of the Company or any subsidiary of the Company that is not designated as a restricted subsidiary of Regal Cinemas under the Amended Senior Credit Facility.

The Amended Senior Credit Facility specifies customary events of default including, among other things, nonpayment of principal, interest or other amounts; breach of certain covenants; breach of representations and warranties in any material respect; cross default and cross acceleration with respect to indebtedness in an aggregate principal amount of \$25.0 million or more; bankruptcy; judgments involving liability of \$25.0 million or more; ERISA events; actual or asserted invalidity of guarantees or security documents; and change of control. Upon the occurrence of an event of default, all obligations under the Amended Senior Credit Facility may be accelerated.

Under the Amended Senior Credit Facility, Regal Cinemas also established an additional term loan facility ("Incremental Term Facility") solely to fund, or reimburse Regal Cinemas for funding, distributions to the Company for the purpose of redeeming, repurchasing, acquiring or otherwise settling the conversion of all or a portion of the 3³/₄% Convertible Senior Notes. The Incremental Term Facility expired on May 15, 2008, the date at which the 3³/₄% Convertible Senior Notes matured.

Please refer to Note 14 to the consolidated financial statements for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

Interest Rate Swaps

On July 13, 2004, Regal Cinemas entered into four hedging relationships via four distinct interest rate swap agreements with final maturity terms ranging from three to five years each. On September 8, 2005, Regal Cinemas entered into an additional hedging relationship via a distinct interest rate swap agreement with a maturity term of four years. These interest rate swaps were designated to hedge approximately \$1,100.0 million of its variable rate debt obligations. On June 30, 2007, one of our interest rate swaps designated to hedge approximately \$200.0 million of variable rate debt obligations

Table of Contents**REGAL ENTERTAINMENT GROUP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****January 1, 2009, December 27, 2007 and December 28, 2006****5. DEBT OBLIGATIONS (Continued)**

matured. On August 9, 2007, Regal Cinemas entered into two additional hedging relationships via two distinct interest rate swap agreements with maturity terms of two years each. These interest rate swaps were designated to hedge approximately \$200.0 million of variable rate debt obligations. On June 30, 2008, two of our interest rate swaps designated to hedge \$300.0 million of variable rate debt obligations matured. On October 3, 2008, an interest rate swap agreement designed to hedge approximately \$100.0 million of variable rate debt obligations effectively terminated.

Under the terms of the remaining three interest rate swap agreements (which hedge an aggregate of approximately \$700.0 million of variable rate debt obligations as of January 1, 2009), Regal Cinemas pays interest at various fixed rates ranging from 4.15% to 4.994% and receives interest at a variable rate based on the 3-month LIBOR. The 3-month LIBOR rate on each reset date determines the variable portion of the interest rate-swaps for the following three-month period. The interest rate swaps settle any accrued interest for cash on the last day of each calendar quarter, until expiration. At such dates, the differences to be paid or received on the interest rate swaps will be included in interest expense. No premium or discount was incurred upon the Company entering into the interest rate swaps, because the pay and receive rates on the interest rate swaps represented prevailing rates for each counterparty at the time the interest rate swaps were entered into. The interest rate swaps qualify for cash flow hedge accounting treatment in accordance with SFAS No. 133 and as such, the Company has effectively hedged its exposure to variability in the future cash flows attributable to the 3-month LIBOR on approximately \$700.0 million of variable rate obligations. The change in the fair values of the interest rate swaps is recorded on the Company's consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps' gains or losses reported as a component of other comprehensive income (loss) and the ineffective portion reported in earnings. As interest expense is accrued on the debt obligation, amounts in accumulated other comprehensive income/loss related to the designated hedging instruments (the three interest rate swaps) will be reclassified into earnings to obtain a net cost on the debt obligation equal to the effective yield of the fixed rate of each swap. The fair value of the Company's interest rate swaps is based on dealer quotes, and represents an estimate of the amounts Regal Cinemas would receive or pay to terminate the agreements taking into consideration various factors, including current interest rates.

On September 15, 2008, because of the sudden deterioration in the credit standing of the Lehman counterparty to an interest rate swap agreement designed to hedge approximately \$100.0 million of variable rate debt obligations, the Company concluded that the hedging relationship was no longer expected to be highly effective in achieving offsetting cash flows. As a result, on September 15, 2008, the hedging relationship ceased to qualify for hedge accounting under SFAS No. 133. For the period from September 15, 2008 through September 25, 2008, the Company recognized \$0.5 million (the change in fair value of the former hedging derivative) as a reduction of interest expense in the consolidated financial statements. On October 3, 2008, the Lehman counterparty filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. As a result, an event of default occurred under the provisions of the interest rate swap agreement between us and the Lehman counterparty, which effectively terminated the interest rate swap on October 3, 2008, as indicated above. Accordingly, \$1.6 million of accumulated other comprehensive loss as of October 3, 2008 will be reclassified into earnings in the periods during which the hedged forecasted transaction affects earnings (i.e., when interest payments are made on the variable rate debt obligations) as an adjustment to interest expense over the remaining life of the two-year original hedge as long as the variable rate debt obligations

remain outstanding. During the quarter ended January 1, 2009, the Company released a portion of the deferred loss in accumulated other comprehensive loss by recording interest expense (net of related tax effects) of approximately \$0.4 million and a corresponding \$0.4 million reduction of other comprehensive loss. The Company is in the process of determining a final termination value associated with the interest rate swap, but does not expect the termination value to be materially different from the current liability recorded (approximately \$2.1 million) as of January 1, 2009.

As of January 1, 2009, the aggregate fair value of the remaining three interest rate swaps was determined to be approximately \$(14.2) million, which has been recorded as a component of "Accrued Expenses" with a corresponding amount of \$(8.7) million, net of tax, recorded to "Accumulated Other Comprehensive Loss." These interest rate swaps exhibited no ineffectiveness for the years ended January 1, 2009, December 27, 2007 and December 28, 2006.

Please refer to Note 14 to the consolidated financial statements for a discussion of an amendment to our Amended Senior Credit Facility and other financing transactions effected subsequent to the year ended January 1, 2009.

Lease Financing Arrangements These obligations primarily represent capitalized lease obligations resulting from the requirements of EITF 97-10 and SFAS No. 98.

Maturities of Debt Obligations The Company's long-term debt and future minimum lease payments for its capital lease obligations and lease financing arrangements are scheduled to mature as follows:

The Company accounts for a majority of its leases as operating leases. Minimum rentals payable under all non-cancelable operating leases with terms in excess of one year as of January 1, 2009, are summarized for the following fiscal years (in millions):

2009	\$ 352.6
2010	350.7
2011	345.3
2012	334.0
2013	325.8
Thereafter	2,166.7

Rent expense under such operating leases amounted to \$363.3 million, \$335.9 million and \$323.2 million for the years ended January 1, 2009, December 27, 2007 and December 28, 2006, respectively. Contingent rent expense was \$20.4 million, \$19.6 million and \$18.4 million for the years ended January 1, 2009, December 27, 2007 and December 28, 2006, respectively.

Sale-Leaseback Transactions

The Company has historically entered into sale and leaseback transactions whereby owned properties were sold and leased back under operating leases. The minimum rentals for these operating leases are included in the table above.

In December 1995, UATC entered into a sale and leaseback transaction whereby 31 owned properties were sold to and leased back from an unaffiliated third party. In conjunction with the transaction, the buyer of the properties issued publicly traded pass-through certificates. In connection with this sale and leaseback transaction, UATC entered into a Participation Agreement that requires UATC to comply with various covenants, including limitations on indebtedness, restricted payments, transactions with affiliates, guarantees, issuance of preferred stock of subsidiaries and subsidiary distributions, transfer of assets and payment of dividends. As of January 1, 2009, 12 theaters were subject to the sale leaseback transaction and approximately \$42.8 million in principal amount of pass-through certificates were outstanding.

The components of the provision for income taxes for income from operations are as follows (in millions):

	Year ended January 1, 2009	Year ended December 27, 2007	Year ended December 28, 2006
Federal:			
Current	\$ 53.9	\$ 199.2	\$ 63.9

Significant components of the Company's net deferred tax asset consisted of the following at (in millions):

	January 1, 2009	December 27, 2007
Deferred tax assets:		
Net operating loss carryforward	\$ 44.5	\$ 54.9
Excess of tax basis over book basis of intangible assets	46.5

Total deferred tax assets	298.5	223.5
Valuation allowance	(12.1)	(10.5)
Total deferred tax assets, net of valuation allowance	286.4	213.0
Deferred tax liabilities:		
Excess of book basis over tax basis of fixed assets	(128.5)	(78.0)
Excess of book basis over tax basis of intangible assets		(3.5)
Excess of book basis over tax basis of NCM joint venture and other	(59.4)	(66.2)
Other	(2.0)	(1.8)
Total deferred tax liabilities	(189.9)	(149.5)
Net deferred tax asset	\$ 96.5	\$ 63.5

At January 1, 2009, the Company had net operating loss carryforwards for federal income tax purposes of approximately \$95.9 million with expiration commencing in 2018. The Company's net operating loss carryforwards were generated by the entities of United Artists, Edwards and Hoyts. The Tax Reform Act of 1986 imposed substantial restrictions on the utilization of net operating losses in the event of an "ownership change" of a corporation. Accordingly, the Company's ability to utilize the net operating losses acquired from United Artists, Edwards and Hoyts may be impaired as a result of the "ownership change" limitations.

In assessing the realizable value of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which these temporary differences become deductible. The Company has recorded a valuation allowance against deferred tax assets at January 1, 2009 and December 27, 2007 totaling \$12.1 million and \$10.5 million, respectively, as management believes it is more likely than not that certain deferred tax assets will not be realized in future tax periods. Approximately \$7.6 million and \$8.0 million of the valuation allowance relates to pre-acquisition deferred tax assets of Edwards and

United Artists as of January 1, 2009 and December 27, 2007, respectively. Reductions in the valuation allowance associated with a change in management's determination of the Company's ability to realize these deferred tax assets reduce recorded goodwill related to such acquisitions (see Note 2 under "Recent Accounting Pronouncements"). During the year ended January 1, 2009, the valuation allowance was increased by \$0.7 million as a result of an adjustment in the deferred tax asset against which such valuation allowance was recorded. Additionally, during the year ended January 1, 2009, the valuation allowance was increased by \$0.9 million related to management's determination that it was more likely than not that certain state net operating losses created during the year ended January 1, 2009, would not be realized.

Effective December 29, 2006, the Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" an interpretation of FASB Statement No. 109 ("FIN 48"). A reconciliation of the change in the amount of unrecognized tax benefits during the years ended January 1, 2009 and December 27, 2008 was as follows (in millions):

	Year Ended January 1, 2009	Year Ended December 27, 2007
Beginning balance	\$ 37.9	\$ 32.5
Additions based on tax positions related to the current year		7.6
Expired tax attributes	(0.1)	(1.3)
State tax settlements	(1.5)	
Lapse of statute of limitations	(2.2)	(0.9)
Ending balance	\$ 34.1	\$ 37.9

Exclusive of interest and penalties, it is reasonably possible that gross unrecognized tax benefits associated with state tax positions will decrease between \$2.0 million and \$4.0 million within the next twelve months due the expiration of the statute of limitations and settlement of tax disputes with taxing authorities.

The total net unrecognized tax benefits that would affect the effective tax rate if recognized at January 1, 2009 and December 27, 2007, were \$5.3 million and \$5.7 million, respectively. Additionally, as of January 1, 2009 and December 27, 2007, approximately \$1.6 million of the total net unrecognized tax benefit would result in an increase to the valuation allowance if recognized. Subsequent to the adoption of SFAS No. 141R, approximately \$20.1 million of the net unrecognized tax benefits at January 1, 2009 will affect the effective tax rate if recognized (see Note 2 under "Recent Accounting Pronouncements").

The Company recognizes interest and penalties accrued related to unrecognized tax benefits as a component of income tax expense. As of January 1, 2009 and December 27, 2007, the Company had accrued gross interest and penalties of approximately \$2.7 million and \$3.8 million, respectively. No interest and penalties were recognized in the statement of income for the year ended January 1, 2009. The total amount of interest and penalties recognized in the statement of income for the period ended December 27, 2007 was \$0.6 million. Additionally, during the year ended January 1, 2009, accrued

interest and penalties were reduced by \$1.1 million as a result of payment of accrued amounts and the resolution of uncertain tax positions that impacted recorded goodwill.

The Company and its subsidiaries collectively file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. In June 2005, the Company was notified that the Internal Revenue Service ("IRS") would examine its 2002 and 2003 federal income tax returns. During October 2005, the IRS completed its examination of the Company's federal tax returns for such years and the Company and the IRS agreed to certain adjustments to the Company's 2002 and 2003 federal tax returns. Such adjustments did not have a material impact on the Company's provision for income taxes. The Company is no longer subject to U.S. federal examinations by tax authorities for years before 2005, and with limited exceptions, is no longer subject to state income tax examinations for years before 2004. However, the taxing authorities still have the ability to review the propriety of tax attributes created in closed tax years if such tax attributes are utilized in an open tax year.

8. LITIGATION AND CONTINGENCIES

Acquisition of Consolidated Theatres

As described in Note 3 "Acquisition," in conjunction with the closing of Consolidated Theatres, we entered into a final judgment with the DOJ, which requires us to hold separate and divest ourselves of four theatres comprising 52 screens in North Carolina. During the year ended January 1, 2009, the Company entered into an agreement to sell three of the four theatres. On October 23, 2008, the Company completed its divestiture of the three theatres. In accordance with the final judgment, a court appointed trustee has been selected to attempt to sell the last of the four theatres.

Other

Our theatres must comply with Title III of the Americans with Disabilities Act of 1990 (the "ADA") to the extent that such properties are "public accommodations" and/or "commercial facilities" as defined by the ADA. Compliance with the ADA requires that public accommodations "reasonably accommodate" individuals with disabilities and that new construction or alterations made to "commercial facilities" conform to accessibility guidelines unless "structurally impracticable" for new construction or technically infeasible for alterations. Non-compliance with the ADA could result in the imposition of injunctive relief, fines, awards of damages to private litigants and additional capital expenditures to remedy such non-compliance.

In prior years, private litigants and the DOJ had filed claims against us or our subsidiaries alleging that a number of our theatres with stadium seating violated the ADA because these theatres allegedly failed to provide wheelchair-bound patrons with lines of sight comparable to those available to other members of the general public and denied persons in wheelchairs access to the stadium portion of the theatres. On June 8, 2005, Regal reached an agreement with the DOJ resolving and dismissing the private litigants' claims and all claims made by the United States under the ADA. From time to time, we receive claims that the stadium seating offered by our theatres allegedly violates the ADA. In these instances, we seek to resolve or dismiss these claims based on the terms of the DOJ settlement or under applicable ADA standards.

8. LITIGATION AND CONTINGENCIES (Continued)

In addition, we, from time to time, receive letters from the attorneys general of states in which we operate theatres regarding investigation into the accessibility of our theatres to persons with visual or hearing impairments. We believe we provide the members of the visually and hearing impaired communities with reasonable access to the movie-going experience.

We believe that we are in substantial compliance with all current applicable regulations relating to accommodations for the disabled. We intend to comply with future regulations in this regard, and except as set forth above, we do not currently anticipate that compliance will require us to expend substantial funds. Our theatre operations are also subject to federal, state and local laws governing such matters as wages, working conditions, citizenship and health and sanitation requirements. We believe that we are in substantial compliance with all of such laws.

On or about January 3, 2007, suit was initiated against the Company in Federal Court, Central District of California, styled, *Bateman, individually and on behalf of all others similarly situated, v. Regal Cinemas, Inc. and United Artists Theatre Circuit, Inc., et al.*, alleging violations of the Fair and Accurate Transaction Act, for allegedly printing expiration dates and credit card numbers on customer receipts. The plaintiff seeks to represent a class of individuals allegedly harmed by this alleged practice. The complaint seeks actual damages and/or statutory damages of at least one hundred dollars or up to one thousand dollars per violation, and attorney fees and costs. We believe we are in substantial compliance with all applicable federal and state laws governing these trade practices.

RCI is a defendant in a few remaining claims arising from its decision to file voluntary petitions for bankruptcy relief. We and our various subsidiary corporations are also presently involved in various legal proceedings arising in the ordinary course of our business operations, including personal injury claims, employment and contractual matters and other disputes. We believe we have adequately provided for the settlement of such matters. Management believes any additional liability with respect to these claims and disputes will not be material in the aggregate to our consolidated financial position, results of operations or cash flows.

The Company has employment contracts with three of its current executive officers, Messrs. Campbell and Dunn, and Ms. Miles. Under each of these three agreements, the Company shall indemnify each such executive against all liabilities with respect to such executives' service as an officer, and as a director, to the extent applicable. In addition, under the employment contracts with its three current executives, each executive is entitled to severance payments in connection with the termination by the Company of the executive without cause, the termination by the executive for good reason, or the termination of the executive, under circumstances, in connection with a change in control of Regal.

Pursuant to our employment agreements with Messrs. Campbell and Dunn and Ms. Miles, if we terminate any of these executives' employment, or if any of these executives resign for good reason, within three months prior to, or one year after, a change of control of the Company, which we refer to as a change in control, he or she is entitled to receive severance payments equal to: (i) the actual bonus, pro-rated to the date of termination, that he or she would have received in respect of the fiscal year in which the termination occurs; and (ii) in the case of Mr. Campbell, two and one-half times his annual base salary plus two times his target bonus, and health and life insurance benefits for 30 months and in the case of Mr. Dunn or Ms. Miles, two times the executive's annual salary plus one and one-half times the executive's target bonus, and health and life insurance benefits for 30 months.

We also provide for severance payments if we terminate a covered executive's employment without cause or if a covered executive terminates his or her employment for good reason if such executive provides written notification to us of the existence of a condition constituting good reason within 90 days of the initial existence of such condition and the resignation occurs within two (2) years of such existence date. These severance payments would be equal to two times such executive's base annual salary plus one times such executive's target cash bonus. Under those circumstances, he or she is entitled to receive, pro-rated to the date of termination, any bonus he or she would have received for that year as well as health and life insurance benefits for 24 months from the date of termination.

Pursuant to such employment agreements, the maximum amount of payments and benefits payable to Messrs. Campbell and Dunn and Ms. Miles if such executives were terminated as of January 1, 2009 would be \$7.7 million.

Each executive's employment agreement contains standard provisions for non-competition and non-solicitation of the Company's employees (other than executive's secretary or other administrative employee who worked directly for him or her) that become effective as of the date of the executive's termination of employment and that continue for one year thereafter. Each Executive is also subject to a permanent covenant to maintain confidentiality of the Company's confidential information.

9. CAPITAL STOCK AND SHARE-BASED COMPENSATION

Capital Stock

As of January 1, 2009, the Company's authorized capital stock consisted of:

500,000,000 shares of Class A common stock, par value \$0.001 per share;

200,000,000 shares of Class B common stock, par value \$0.001 per share; and

50,000,000 shares of preferred stock, par value \$0.001 per share.

Of the authorized shares of Class A common stock, 18.0 million shares were sold in connection with the Company's initial public offering in May 2002. The Company's Class A common stock is listed on the New York Stock Exchange under the trading symbol "RGC." As of January 1, 2009, 129,801,284 shares of Class A common stock were outstanding. Of the authorized shares of Class B common stock, 23,708,639 shares were outstanding as of January 1, 2009, all of which are held by Anschutz. Each share of Class B common stock converts into one share of Class A common stock at the option of the holder or upon certain transfers of a holder's Class B common stock. Each holder of Class B common stock is entitled to ten votes for each outstanding share of Class B common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote. Of the authorized shares of the preferred stock, no shares were issued and outstanding as of January 1, 2009. The Class A common stock is entitled to one vote for each outstanding share of Class A common stock on every matter properly submitted to the stockholders for a vote. Except as required by law, the Class A and Class B common stock vote together as a single class on all matters submitted to the stockholders. The material terms and provisions of the Company's certificate of incorporation affecting the relative rights of the Class A common stock and the Class B common stock are described below.

9. CAPITAL STOCK AND SHARE-BASED COMPENSATION (Continued)

Common Stock

The Class A common stock and the Class B common stock are identical in all respects, except with respect to voting and except that each share of Class B common stock will convert into one share of Class A common stock at the option of the holder or upon a transfer of the holder's Class B common stock, other than to certain transferees. Each holder of Class A common stock will be entitled to one vote for each outstanding share of Class A common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote. Each holder of Class B common stock will be entitled to ten votes for each outstanding share of Class B common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote. Except as required by law, the Class A common stock and the Class B common stock will vote together on all matters. Subject to the dividend rights of holders of any outstanding preferred stock, holders of common stock are entitled to any dividend declared by the board of directors out of funds legally available for this purpose, and, subject to the liquidation preferences of any outstanding preferred stock, holders of common stock are entitled to receive, on a pro rata basis, all the Company's remaining assets available for distribution to the stockholders in the event of the Company's liquidation, dissolution or winding up. No dividend can be declared on the Class A or Class B common stock unless at the same time an equal dividend is paid on each share of Class B or Class A common stock, as the case may be. Dividends paid in shares of common stock must be paid, with respect to a particular class of common stock, in shares of that class.

Holders of common stock do not have any preemptive right to become subscribers or purchasers of additional shares of any class of the Company's capital stock. The outstanding shares of common stock are, when issued and paid for, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock may be adversely affected by the rights of the holders of shares of any series of preferred stock that the Company may designate and issue in the future.

Preferred Stock

The Company's certificate of incorporation allows the Company to issue, without stockholder approval, preferred stock having rights senior to those of the common stock. The Company's board of directors is authorized, without further stockholder approval, to issue up to 50,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions of any series of preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. The issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of common stock or could adversely affect the rights and powers, including voting rights, of the holders of common stock. The issuance of preferred stock could also have the effect of decreasing the market price of the Class A common stock. As of January 1, 2009, no shares of preferred stock are outstanding.

Share Repurchase Program

During 2004, the Company's board of directors authorized a share repurchase program, which provided for the authorization to repurchase up to \$50.0 million of the Company's outstanding Class A common stock within a twelve month period. During 2005, the Company repurchased 520,386 shares of its outstanding Class A common stock at an aggregate cost of approximately \$10.0 million. The

Company's board of directors extended the share repurchase program during the fiscal year ended January 1, 2009 for an additional twelve month period. Accordingly, the Company can repurchase up to an additional \$40.0 million under the share repurchase program through November 2009. The Company made no repurchases of its outstanding Class A common stock during the years ended January 1, 2009, December 27, 2007 and December 28, 2006. Repurchases can be made from time to time as market conditions warrant, through open market purchases, negotiated transactions, or in such a manner deemed appropriate by the Company. Treasury shares are retired upon repurchase. At retirement, the Company records treasury stock purchases at cost with any excess of cost over par value recorded as a reduction of additional paid-in capital.

Warrants

Other than disclosed in Note 5 "Debt Obligations" and Note 12 "Earnings Per Share," no warrants to acquire the Company's Class A or Class B common stock were outstanding as of January 1, 2009.

Dividends

Regal paid four quarterly cash dividends of \$0.30 per share on each outstanding share of the Company's Class A and Class B common stock, or approximately \$184.2 million in the aggregate, during the year ended January 1, 2009. Regal paid four quarterly cash dividends of \$0.30 per share on each outstanding share of the Company's Class A and Class B common stock, or approximately \$183.1 million in the aggregate, during 2007. In addition, on March 5, 2007, Regal declared an extraordinary cash dividend of \$2.00 per share on each outstanding share of its Class A and Class B common stock, or approximately \$302.0 million in the aggregate. Stockholders of record at the close of business on March 28, 2007 were paid this dividend on April 13, 2007. Regal paid four quarterly cash dividends of \$0.30 per share on each outstanding share of the Company's Class A and Class B common stock, or approximately \$179.6 million in the aggregate, during the year ended December 28, 2006.

Share-Based Compensation

In 2002, the Company established the Incentive Plan for a total of 11,194,354 authorized shares, which provides for the granting of incentive stock options and non-qualified stock options to officers, employees and consultants of the Company. As described below under "Restricted Stock" and "Performance Share Units" the Incentive Plan also provides for grants of restricted stock and performance shares that are subject to restrictions and risks of forfeiture.

In conjunction with the exchange transaction on April 12, 2002, the holders of outstanding options of United Artists and Regal Cinemas received under the Incentive Plan replacement options to purchase 8,832,147 shares of Regal Class A common stock at prices ranging from \$4.44 to \$12.87 per share. As a result, stock option information presented herein prior to the exchange of options has been retroactively restated to reflect the effects of the exchange transaction.

Stock Options

In connection with the July 1, 2003, June 2, 2004 and April 13, 2007 extraordinary cash dividends and pursuant to the antidilution adjustment terms of the Incentive Plan, the exercise price and the number of shares of Class A common stock subject to options held by the Company's option holders were adjusted to prevent dilution and restore their economic position to that existing immediately before the extraordinary dividends. The antidilution adjustments made with respect to such options resulted in a decrease in the range of exercise prices, from \$2.4407 to \$16.1768 per share, an increase in the aggregate number of shares issuable upon exercise of such options by 5,185,100, and an increase in the total number of authorized shares under the Incentive Plan to 18,269,213 (after giving effect to the May 11, 2005 amendment to the Incentive Plan, which increased the total number of shares of Class A common stock authorized for issuance under the Incentive Plan by 1,889,759 shares). As of January 1, 2009 and after giving effect to the antidilution adjustments and the May 11, 2005 amendment to the Incentive Plan, options to purchase a total of 584,482 shares of Class A common stock were outstanding under the Incentive Plan, and 2,663,462 shares remain available for future issuance under the Incentive Plan. Stock option information presented herein has been adjusted to give effect to the extraordinary dividends. There were no accounting consequences for changes made to reduce the exercise prices and increase the number of shares underlying options as a result of the extraordinary cash dividends because (1) the aggregate intrinsic value of the awards immediately after the extraordinary dividends was not greater than the aggregate intrinsic value of the awards immediately before the extraordinary dividends and (2) the ratio of the exercise price per share to the market value per share was not reduced.

Effective December 30, 2005, the Company adopted SFAS No. 123R utilizing the modified prospective approach. Prior to the adoption of SFAS No. 123R, we accounted for stock option grants in accordance with APB 25 (the intrinsic value method), and accordingly, recognized no compensation expense for those stock options having an exercise price equal to the market value of the Company's Class A common stock on the date of the grant. Under the modified prospective approach, SFAS No. 123R applies to awards that were outstanding on December 30, 2005 and to new awards and the modification, repurchase or cancellation of awards after December 30, 2005. Under the modified prospective approach, compensation cost recognized in the first quarter of fiscal 2006 includes share-based compensation cost for all share-based payments granted prior to, but not yet vested as of December 30, 2005, based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* and recognized as expense over the remaining requisite service period. Share-based compensation cost for all share-based payments granted subsequent to December 30, 2005 are based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123R and recognized as expense over the employee's requisite service period. Prior periods were not restated to reflect the impact of adopting the new standard.

On November 10, 2005, the FASB issued FASB Staff Position No. FAS 123(R)-3, *Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards*. The Company has elected to adopt the alternative transition method provided in this FASB Staff Position for calculating the tax effects of share-based compensation pursuant to SFAS No. 123R. The alternative transition method includes a simplified method to establish the beginning balance of the APIC pool related to the tax

effects of employee share-based compensation, which is available to absorb tax deficiencies recognized subsequent to the adoption of SFAS No. 123R.

Stock options granted in connection with the exchange transaction are generally exercisable in installments of 20% per year from the original grant date of the exchanged options and expire no later than 10 years from the date of grant. Stock option grants issued subsequent to the exchange transaction have been established at prices not less than the fair market value as of the date of grant and are exercisable in installments of 20% per year and expire no later than 10 years from the date of grant.

We use the Black-Scholes option pricing model to estimate the fair value of our stock option awards based on factors at the date of grant. Stock compensation expense for each of the years ended January 1, 2009, December 27, 2007 and December 28, 2006 was based on the following assumptions at the dates the stock options were granted:

Expected volatility	38.0% - 39.0%
Expected life of options (in years)	7.5
Risk-free interest rate	3.0% - 4.9%
Dividend yield	3.0% - 4.5%

Expected volatility is based on historical volatility of the Company's common stock price. The expected term of options granted is derived using the midpoint of the average vesting period and contractual life of the stock options. The risk-free interest rate assumption is based upon observed interest rates appropriate for the terms of the Company's employee stock options. The Company does not target a specific dividend yield for its dividend payments but is required to assume a dividend yield as an input to the Black-Scholes model. The dividend yield assumption is based on the Company's history and expectation of future dividend payouts and may be subject to substantial change in the future. There were no stock options granted during the years ended January 1, 2009, December 27, 2007 and December 28, 2006.

As share-based compensation expense recognized in the consolidated statement of income for the years ended December 27, 2007 and December 28, 2006 is based on awards ultimately expected to vest, it should be reduced for estimated forfeitures. SFAS No. 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

During the years ended January 1, 2009, December 27, 2007 and December 28, 2006, the Company recognized approximately \$0.2 million, \$1.3 million and \$6.5 million, respectively, of share-based compensation expense related to stock options. Such expense is presented as a component of general and administrative expenses. At January 1, 2009, there was \$0.3 million of unrecognized compensation cost related to share-based payments which is expected to be recognized through June 2009.

We receive a tax deduction for certain stock option exercises during the period the options are exercised, generally for the excess of the price at which the stock is sold over the exercise price of the options. In accordance with SFAS No. 123R, we are required to report excess tax benefits from the award of equity instruments as financing cash flows. Excess tax benefits are recorded when a deduction reported for tax return purposes for an award of equity instruments exceeds the cumulative compensation cost for the instruments recognized for financial reporting purposes. For the year ended

January 1, 2009, our consolidated statement of cash flows reflects \$0.2 million of excess tax benefits as financing cash flows. Net cash proceeds from the exercise of stock options were \$0.5 million for the year ended January 1, 2009. The actual income tax benefit realized from stock option exercises was \$0.3 million for the same period.

The following table represents stock option activity for the year ended January 1, 2009:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contract Life (Yrs.)
Outstanding options at beginning of period	655,965	\$ 9.30	4.78

Outstanding options at end of period	584,482	9.37	3.78
Exercisable options at end of period	559,358	9.06	3.70

The aggregate intrinsic value of options outstanding at January 1, 2009 was \$1.5 million, and the aggregate intrinsic value of options exercisable was \$1.5 million. Total intrinsic value of options exercised was \$0.6 million, \$43.9 million and \$40.2 million, for the years ended January 1, 2009, December 27, 2007 and December 28, 2006, respectively. As of January 1, 2009, the Company had 25,124 nonvested stock options outstanding with a weighted average grant date fair value of \$4.55. As of December 27, 2007, the Company had 98,292 nonvested stock options outstanding with a weighted average grant date fair value of \$4.37.

Restricted Stock

The Company maintains the Incentive Plan which provides for restricted stock awards to officers, directors and key employees. Under the Incentive Plan, shares of Class A common stock of the Company may be granted at nominal cost to officers, directors and key employees, subject to a continued employment restriction. The restriction is fulfilled upon continued employment for a specified number of years (typically one to four years after the award date) and as such restrictions lapse, the award immediately vests. In addition, we will receive a tax deduction when restricted stock vests. The Incentive Plan participants are entitled to cash dividends and to vote their respective shares, although the sale and transfer of such shares is prohibited during the restricted period. The shares are also subject to the terms and conditions of the Incentive Plan. On February 11, 2005, 229,990 shares were granted under the Incentive Plan at nominal cost to officers and key employees. The closing price of our Class A common stock on the date of grant was \$19.90 per share. On March 7, 2006, 169,689 shares were granted under the Incentive Plan at nominal cost to officers, directors and key employees. The closing price of our Class A common stock on the date of grant was \$18.67 per share. On April 25, 2006, June 6, 2006 and September 18, 2006, a total of 15,973 shares were granted in the aggregate under the Incentive Plan at nominal cost to a key employee and certain newly-elected directors. The closing price of our Class A common stock was \$20.51 per share on April 25, 2006, \$19.28 per share on June 6, 2006 and \$19.52 per share on September 18, 2006. On January 10, 2007, 164,647 shares were granted under the Incentive Plan at nominal cost to officers, key employees and certain directors. The closing price of our Class A common stock on the date of grant was \$22.25 per

share. On August 8, 2007 and September 5, 2007, a total of 7,846 shares were granted in the aggregate under the Incentive Plan at nominal cost to certain newly-elected directors. The closing price of our Class A common stock was \$20.98 per share on August 8, 2007 and \$22.40 per share on September 5, 2007. On January 16, 2008, 229,572 shares were granted under the Incentive Plan at nominal cost to officers, key employees and certain directors. The closing price of our Class A common stock on the date of grant was \$17.07 per share.

During the fiscal years ended January 1, 2009, December 27, 2007 and December 28, 2006, the Company recognized approximately \$3.7 million, \$2.9 million and \$1.6 million, respectively, of share-based compensation expense related to restricted share grants. Such expense is presented as a component of general and administrative expenses. The compensation expense for these awards was determined based on the market price of our stock at the date of grant applied to the total numbers of shares that were anticipated to fully vest. As of January 1, 2009, we have unrecognized compensation expense of \$5.4 million associated with restricted stock awards. Upon adoption of SFAS No. 123R, the cumulative effect of a change in accounting principle as a result of our change in policy from recognizing forfeitures as they occur to one where we recognize expense based on our expectation of the amount of awards that will vest over the requisite service period for our restricted stock awards was not material. During the year ended January 1, 2009, the Company paid four cash dividends of \$0.30 on each share of outstanding restricted stock totaling approximately \$0.8 million.

The following table represents the restricted stock activity for the years ended January 1, 2009, December 27, 2007 and December 28, 2006:

	Year Ended January 1, 2009	Year Ended December 27, 2007	Year Ended December 28, 2006

Performance Share Units

The Incentive Plan also provides for grants in the form of performance share units to officers, directors and key employees. Performance share agreements are entered into between the Company and each grantee of performance share units (each a "Performance Agreement"). Pursuant to the terms and conditions of the Performance Agreement, grantees will be issued shares of restricted common stock of the Company in an amount determined by the attainment of Company performance criteria set forth in the Performance Agreement. The performance criteria are tied to the average annual total shareholder returns (stock price appreciation plus dividend yield) attained ("TSRA") by the Company for each full twelve month period ending on the yearly anniversary of the grant date through the applicable calculation date (subject to the provisions contained in the Performance Agreement relating to the grantee's death, disability, retirement, termination with or without cause or

the occurrence of a change of control). The shares of restricted common stock received upon attainment of the performance criteria will be subject to further vesting over a period of time, provided the grantee remains a service provider to the Company during such period. Pursuant to the Performance Agreement, on the calculation date, the grantee will be entitled to receive a payment in an amount equal to the dividends paid by the Company with respect to a share of its Class A common stock from the grant date through the calculation date, multiplied by the number of shares of restricted common stock, if any, the grantee receives pursuant to the Performance Agreement.

On June 1, 2006, 402,150 performance shares were granted under the Incentive Plan at nominal cost to officers and key employees. The closing price of our Class A common stock on the date of grant was \$19.40 per share. On January 10, 2007, 188,789 performance shares were granted under the Incentive Plan at nominal cost to officers and key employees. The closing price of our Class A common stock on the date of grant was \$22.25 per share. On January 16, 2008, 252,721 performance shares were granted under the Incentive Plan at nominal cost to officers and key employees. The closing price of our Class A common stock on the date of grant was \$17.07 per share. Each performance share represents the right to receive from 0% to 175% of the target numbers of shares of restricted common stock. The number of shares of restricted common stock earned will be determined by comparing the actual TSRA on Regal's Class A common stock on the third anniversary of the grant date to the target TSRA set forth in the Performance Agreement. A target number of shares of restricted common stock to be earned by each eligible grantee has been established with respect to the performance share grants and is primarily based on the grantee's employee classification and base compensation, referred to as "target long-term incentive" ("Target LTI") below. In addition, these awards are subject to an additional one-year vesting requirement. The Company has developed a performance range around the target TSRA and the number of shares of restricted stock that will be issued will be based on actual TSRA, according to the following schedule:

Average Annual Shareholder Return	Target Shares of Restricted Stock
12.5% TSRA < 15.0%	50% of Target LTI
15.0% TSRA < 17.5%	100% of Target LTI
17.5% TSRA < 20.0%	125% of Target LTI
20.0% TSRA < 25.0%	150% of Target LTI
25.0% TSRA	175% of Target LTI

Since the performance shares contain a market condition which should be reflected in the grant date fair value of an award in accordance with the provisions of SFAS 123R, the performance shares were measured on the date of grant using a Monte Carlo simulation model. The Monte Carlo simulation model utilizes multiple input variables that determine the probability of satisfying the market condition stipulated in the award grant and calculates the fair market value for the performance shares granted. As of the respective grant dates, the aggregate fair value of the performance share awards was determined to be \$6.7 million, which includes related dividends on shares ultimately earned and paid on the third anniversary of the respective grant dates. The fair value of the performance share awards will be amortized as compensation expense over the expected terms of the awards, which range from 3 to 4 years. During the years ended January 1, 2009, December 27, 2007 and December 28, 2006, the Company recognized approximately \$1.8 million, \$1.6 million and \$0.5 million, respectively, of share-based compensation expense related to these performance shares. Such expense is presented as a

Table of Contents**REGAL ENTERTAINMENT GROUP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****January 1, 2009, December 27, 2007 and December 28, 2006****9. CAPITAL STOCK AND SHARE-BASED COMPENSATION (Continued)**

component of general and administrative expenses. As of January 1, 2009, there was \$3.0 million of unrecognized compensation cost related to the performance shares. The key assumptions used for valuing performance share awards follow:

	As of January 1, 2009	
Measurement dates	6/1/2006, 1/10/2007 and 1/16/2008	
Measurement dates closing stock price	\$17.07	\$22.25
Expected volatility	18.3%	19.98%
Risk-free interest rate	2.55%	5.02%
Expected dividend yield	5.39%	7.03%

Expected volatility is based on historical volatility of the Company's dividend adjusted common stock price measured daily over a three year period ending on the respective grant dates. The risk-free interest rate is set equal to the yield on three-year (constant maturity) U.S. Government bonds as of June 1, 2006, January 10, 2007 and January 16, 2008. The expected dividend yield assumption is based on the Company's history and expectation of future dividend payouts. The dividend yield is included in the calculation of returns for measurement against the performance goals defined above.

The following tables summarize information about the Company's number of performance shares for the years ended January 1, 2009, December 27, 2007 and December 28, 2006:

	Year Ended January 1, 2009	Year Ended December 27, 2007	Year Ended December 28, 2006
Unvested at beginning of period:	567,632	383,310	
Granted (based on target TSRA)	252,721	188,789	402,150
Forfeited during the period ended	(27,348)	(4,467)	(18,840)
Unvested at end of period	793,005	567,632	383,310

The above table does not reflect the maximum or minimum number of shares of restricted stock contingently issuable. An additional 594,754 shares of restricted stock could be issued providing the maximum TSRA is met.

10. RELATED PARTY TRANSACTIONS

During the year ended December 28, 2006, in connection with an agreement with an Anschutz affiliate, Regal received various forms of advertising in exchange for on-screen advertising provided in certain of its theatres. The value of such advertising was less than \$0.2 million.

During the year ended December 28, 2006, Regal Cinemas, incurred approximately \$3.9 million of expenses payable to an Anschutz affiliate, Qwest Communications and its subsidiaries, for telecommunication services. In addition, Regal Cinemas incurred approximately \$0.2 million of expenses payable to Anschutz affiliates for certain advertising services during the year ended December 28, 2006. During the year ended December 28, 2006, Regal Cinemas received from an Anschutz affiliate approximately \$0.1 million for rent and other expenses related to a theatre facility and reimbursement of travel costs incurred on behalf of an Anschutz affiliate.

10. RELATED PARTY TRANSACTIONS (Continued)

In October 2006, as required by our stockholders agreement, we filed a registration statement with the Securities and Exchange Commission relating to the secondary offering of shares of our Class A common stock by OCM Principal Opportunities Fund II, L.P. ("OCM"). One of our directors, Mr. Kaplan, is a principal of OCM's general partner. In connection with this offering, we agreed to bear all registration fees and expenses, other than underwriting discounts or commissions. Such fees and expenses were approximately \$0.3 million.

During the year ended December 27, 2007, Regal Cinemas, incurred approximately \$4.1 million of expenses payable to an Anschutz affiliate, Qwest Communications and its subsidiaries, for telecommunication services. In addition, Regal Cinemas incurred approximately \$0.3 million of expenses payable to Anschutz affiliates for certain advertising services during the year ended December 27, 2007. During the year ended December 27, 2007, Regal Cinemas received less than \$0.1 million, from an Anschutz affiliate for rent and other expenses related to a theatre facility.

During the year ended December 27, 2007, in connection with an agreement with an Anschutz affiliate, Regal received various forms of advertising in exchange for on-screen advertising provided in certain of its theatres. The value of such advertising was approximately \$0.1 million.

During the year ended January 1, 2009, Regal Cinemas incurred capitalized costs of \$14.3 million to Qwest Communications and its subsidiaries for network infrastructure upgrades. Regal Cinemas incurred approximately \$4.2 million of expenses payable to Qwest Communications and its subsidiaries for telecommunication and network monitoring services during the year ended January 1, 2009. In addition, Regal Cinemas incurred approximately \$0.2 million of expenses payable to Anschutz affiliates for certain advertising services during the year ended January 1, 2009. Also during the year ended January 1, 2009, Regal Cinemas received less than \$0.1 million from an Anschutz affiliate for rent and other expenses related to a theatre facility.

During the year ended January 1, 2009, Regal entered into a management agreement with an Anschutz affiliate to manage a Los Angeles, California theatre site on their behalf. The ultimate financial terms of the management agreement were approved by the Company's board of directors, and the management fee payable to Regal will be based on a percentage of revenues generated by the theatre, subject to a minimum annual fee payable to Regal regardless of revenues generated. The theatre is scheduled to open in late 2009. Regal incurred approximately \$0.6 million of out of pocket costs (primarily for legal fees and architectural plans) in connection with the site. During the year ended December 27, 2007, the Anschutz affiliate reimbursed Regal for such legal fees and acquired the architectural plans at cost, for an aggregate total of \$0.6 million.

During the year ended January 1, 2009, in connection with an agreement with an Anschutz affiliate, Regal received various forms of advertising in exchange for on-screen advertising provided in certain of its theatres. The value of such advertising was approximately \$0.1 million.

During 2005 and 2006, National CineMedia entered into various lease assignment and sublease arrangements with RCM pursuant to which National CineMedia leases its regional offices in Eden Prairie, Minnesota, Chicago, Illinois and New York, New York. Related party amounts for these arrangements for each of the fiscal years ended December 27, 2007 and December 28, 2006 were approximately \$0.8 million. During the year ended January 1, 2009, only the Chicago, Illinois lease

arrangement remained effective. The amounts paid by National CineMedia under this arrangement totaled approximately \$0.1 million for the fiscal year ended January 1, 2009.

11. EMPLOYEE BENEFIT PLAN

The Company sponsors an employee benefit plan, the Regal Entertainment Group 401(k) Profit Sharing Plan (the "Plan") under section 401(k) of the Internal Revenue Code of 1986, as amended, for the benefit of substantially all full-time employees. The Plan provides that participants may contribute up to 50% of their compensation, subject to Internal Revenue Service limitations. The Plan currently matches an amount equal to 100% of the first 3% of the participant's contributions and 50% of the next 2% of the participant's contributions. Employee contributions are invested in various investment funds based upon elections made by the employee. The Company made matching contributions of approximately \$2.6 million, \$2.4 million and \$1.3 million to the Plan in fiscal 2008, 2007 and 2006, respectively.

12. EARNINGS PER SHARE

We compute net income per share of Class A and Class B common stock in accordance with SFAS No. 128, *Earnings per Share* using the two-class method. Under the provisions of SFAS No. 128, basic net income per share is computed using the weighted average number of common shares outstanding during the period. Diluted net income per share is computed using the weighted average number of common shares and, if dilutive, common stock equivalents outstanding during the period. Potential common stock equivalents consist of the incremental common shares issuable upon the exercise of common stock options, restricted stock and performance shares, the conversion spread on the 3³/₄% Convertible Senior Notes, the 2003 Warrant, the assumed conversion of the 6¹/₄% Convertible Senior Notes and the 2008 Warrant issued in connection with the 6¹/₄% Convertible Senior Notes. The dilutive effect of outstanding stock options, restricted shares and performance shares, the conversion spread on the 3³/₄% Convertible Senior Notes, the 2003 Warrant and the 2008 Warrant issued in connection with the 6¹/₄% Convertible Senior Notes is reflected in diluted earnings per share by application of the treasury-stock method. The dilutive effect of assumed conversion of the 6¹/₄% Convertible Senior Notes is reflected in diluted earnings per share by application of the if-converted method. In addition, the computation of the diluted net income per share of Class A common stock assumes the conversion of Class B common stock, while the diluted net income per share of Class B common stock does not assume the conversion of those shares.

The rights, including the liquidation and dividend rights, of the holders of our Class A and Class B common stock are identical, except with respect to voting. In accordance with EITF 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128*, the undistributed earnings for the periods presented are allocated based on the contractual participation rights of the Class A and Class B common shares as if the earnings for the periods presented had been distributed. As the liquidation and dividend rights are identical, the undistributed earnings are allocated on a proportionate basis. Further, as we assume the conversion of Class B common stock in the computation of the diluted net income per share of Class A common stock, the undistributed earnings are equal to net income for that computation.

The methods and assumptions used to estimate the fair value of each class of financial instrument are as follows:

Cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities:

The carrying amounts approximate fair value because of the short maturity of these instruments.

Long term obligations, excluding capital lease obligations and lease financing arrangements:

The fair value of the Amended Senior Credit Facility described in Note 5 "Debt Obligations," which consists of the Term Loan and the Revolving Facility, is estimated based on quoted market prices as of January 1, 2009 and December 27, 2007. The associated interest rates are based on floating rates identified by reference to market rates and are assumed to approximate fair value. The fair values of the 6¹/₄% Convertible Senior Notes, the 3³/₄% Convertible Senior Notes and Senior Subordinated Notes are estimated based on quoted market prices for these issuances as of January 1, 2009 and December 27, 2007. The fair value of the Company's other debt obligations were based on recent financing transactions for similar debt issuances and carrying value approximates fair value. The aggregate carrying amounts and fair values of long-term debt at January 1, 2009 and December 27, 2007 consist of the following:

14. SUBSEQUENT EVENTS***Restricted Stock and Performance Share Grants***

On January 14, 2009, 371,129 restricted shares were granted under the Incentive Plan at nominal cost to officers, directors and key employees. Under the Incentive Plan, Class A common stock of the Company may be granted at nominal cost to officers, directors and key employees, subject to a continued employment restriction (typically one to four years after the award date). The awards vest 25% at the end of each year for four years in the case of officers and key employees and vest 100% at the end of one year in the case of directors. The plan participants are entitled to cash dividends and to vote their respective shares, although the sale and transfer of such shares is prohibited during the restricted period. The shares are subject to the terms and conditions of the Incentive Plan. The closing price of our Class A common stock on the date of this grant was \$10.01 per share.

Also on January 14, 2009, 401,907 performance shares were granted under our Incentive Plan at nominal cost to officers and key employees. Each performance share represents the right to receive from 0% to 150% of the target numbers of shares of restricted Class A common stock. The number of shares of restricted common stock earned will be determined based on the attainment of specified performance goals by January 14, 2012 (the third anniversary of the grant date) set forth in the Performance Agreement. The shares are subject to the terms and conditions of the Incentive Plan. The closing price of our Class A common stock on the date of this grant was \$10.01 per share.

Other

On January 20, 2009, Regal Cinemas entered into the First Amendment (the "Amendment") to the Amended Senior Credit Facility. As a result of the Amendment, either the Company, or its wholly-owned subsidiary, REH, will be permitted from time to time to purchase loans outstanding under the Amended Senior Credit Facility. The Amendment provides that the aggregate principal amount of loans that can be repurchased shall not be more than \$300.0 million and all such repurchases shall close on or before the date that is 270 days after the First Amendment Effective Date, as defined in the Amendment, and sets forth the terms for implementing an offer to repurchase such loans (such repurchase being the "Dutch Auction.") There can be no assurance that the Company will conduct a Dutch Auction or that, if the Company conducts one, the Company will be able to successfully purchase loans at a price less than their aggregate principal amount.

Under the Amendment, (i) the Applicable Margin, as defined in the Amendment, for Revolving Loans under the Revolving Facility and for Term Loans under the Term Facility (each of which are determined by reference to the then-applicable Consolidated Leverage Ratio) is increased by 2.0%, (ii) Regal Cinemas' ability to elect interest periods for LIBOR borrowings is limited to interest periods of 2, 3, 6 or (if available to all lenders) 12 months, with 1 month interest periods no longer being available, and (iii) Regal Cinemas may exclude a minimum of \$100.0 million, but not more than \$200.0 million, of Subordinated Debt, as defined in the Amendment, that is used to repay amounts outstanding under the Term Loan from certain financial covenant calculations.

The Amendment also modifies other financial covenants to be less restrictive as follows:

(i) extending the time period for which the Maximum Consolidated Adjusted Leverage Ratio, as defined in the Amendment, may not exceed 5.75:1.00 until the 2nd fiscal quarter of 2011 and (ii) providing that the Maximum Consolidated Adjusted Leverage Ratio may not exceed (x) 5.50:1.00 from the 3rd fiscal quarter of 2011 through the 4th fiscal quarter of 2011 and (y) 5.25:1.00 from the 1st fiscal quarter of 2012 and thereafter; and

(i) extending the time period for which the Maximum Consolidated Leverage Ratio, as defined in the Amendment, may not exceed 3.75:1.00 until the 2nd fiscal quarter of 2011 and (ii) providing that the Maximum Consolidated Leverage Ratio may not exceed (x) 3.50:1.00 from the 3rd fiscal quarter of 2011 through the 4th fiscal quarter of 2011 and (y) 3.25:1.00 from the 1st fiscal quarter of 2012 and thereafter.

The Company is currently evaluating the accounting implications of the loan fees related to the Amendment and the remaining unamortized debt issue costs associated with the Amended Senior Credit Facility on its consolidated financial position, cash flows and results of operations.

On January 21, 2009, the Company declared a cash dividend of \$0.18 per share on each share of the Company's Class A and Class B common stock. The dividend is payable on March 17, 2009 to stockholders of record on March 5, 2009. This dividend reflects a \$0.12 per share reduction from our last quarterly cash dividend of \$0.30 per share declared on October 23, 2008.

Subsequent to the year ended January 1, 2009, Regal Cinemas entered into four additional hedging relationships via four distinct interest rate swap agreements with maturity terms of two to three years each from the respective effective dates of the swaps and require Regal Cinemas to pay interest at a fixed rates ranging from 2.15% to 2.53% and receive interest at a variable rate. These interest rate swaps were designated to hedge approximately \$1.0 billion of variable rate debt obligations.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit to the Securities and Exchange Commission under the Securities Exchange Act of 1934 ("Exchange Act"), as amended, is recorded, processed, summarized and reported within the time periods specified by the Commission's rules and forms, and that information is accumulated and communicated to our management, including our principal executive and principal financial officers (whom we refer to in this periodic report as our Certifying Officers), as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our Certifying Officers, the effectiveness of our disclosure controls and procedures as of January 1, 2009, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of January 1, 2009, our disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting and Attestation of Registered Public Accounting Firm

Our management's report on internal control over financial reporting and our registered public accounting firm's audit report on the effectiveness of management's assessment of our internal control over financial reporting are included in Part II, Item 8, on pages 53, 54 and 55 of this Form 10-K, which are incorporated herein by reference.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our fiscal quarter ended January 1, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Management is responsible for the preparation and fair presentation of the consolidated financial statements included in this annual report. The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles reflect management's judgments and estimates concerning effects of events and transactions that are accounted for or disclosed. The Company's internal control over financial reporting includes those policies and procedures that pertain to the Company's ability to record, process, summarize and report reliable financial data. Management recognizes that there are inherent limitations in the effectiveness of any internal control over financial reporting, including the possibility of human error and the circumvention or overriding of internal control. Accordingly, even effective internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of internal control over financial reporting may vary over time.
