NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
INTERIM FINANCIAL STATEMENTS

The accompanying condensed consolidated balance sheets of the Company as of September 30, 2017 and October 1, 2016, the condensed consolidated statements of operations and comprehensive loss for the three months ended September 30, 2017 and October 1, 2016 and the condensed consolidated statements of cash flows for the three months ended September 30, 2017 and October 1, 2016 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X, without audit. Accordingly, they do not include all of the information required by accounting principles generally accepted in the United States of America for annual financial statements. Therefore, these condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2017.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position at the balance sheet dates and the results of operations for the periods presented have been included. The condensed consolidated balance sheet at July 1, 2017, presented herein, was derived from the audited balance sheet included in the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2017.

Going Concern Uncertainty

As of September 30, 2017, the Company's current liabilities exceed its current assets by \$8.8 million. The current liabilities include a bridge loan of \$15.6 million used to pay lease termination expenses, which matures May 30, 2018. The Company has listed the LA studio for sale and believes it will eventually sell the building for proceeds sufficient to meet its current obligations and its cash flow needs. However, if the LA studio does not sell in the next twelve months and the bridge loan comes due, the Company will be unable to repay the bridge loan at its maturity (May 30, 2018). As a result, the Company has concluded that there is substantial doubt about its ability to continue as a going concern for the next year.

Corporate Restructure and Strategic Partnership

During the fourth quarter of fiscal 2017, bebe stores, inc. ("bebe" or the "Company") expanded upon its strategic joint venture arrangement entered into during fiscal 2016, and have closed all retail stores, sold its merchandise, inventory, furnishings, trade fixtures, equipment, improvements in real property, purchase orders related to its website and international wholesale business and is committed to selling its Los Angeles Design Studio. Under this partnership, during fiscal 2016 bebe contributed all of its trademarks, trademark license arrangements and related intellectual property, including domain names, social media accounts and agreements with certain of its international distributors to its joint venture BB Brand Holdings LLC (the "Joint Venture"). The Company's partner in the venture, Bluestar Alliance, LLC ("Bluestar") continues to leverage its existing brand management organization and infrastructure to develop a wholesale domestic and international lifestyle licensing business for the Joint Venture and will manage its day-to-day operations. Going forward, the Joint Venture will aggressively pursue a licensing strategy designed to capitalize on the value of our brand in all categories and channels on a global scale. The Company expects the Joint Venture to generate long-term, committed royalties from prospective licensees of the bebe brand name. The decision to exit its retail operations was the result of continued operating losses.

The Company has agreed to provide transition services to Global Brands Group ("GBG"), an unrelated third party on a short-term basis not expected to go beyond November 30, 2018 for which it will receive a service fee that is expected to cover the Company's costs of providing the services. GBG has entered into a license agreement with the Joint Venture and beginning May 2, 2017 began to operate the website www.bebe.com as well as the international business formerly operated by the Company. In connection with this arrangement, GBG purchased the remaining finished goods inventory of from the Company on May 2, 2017.

Included in receivables is \$2.6 million due from GBG for services received as of September 30, 2017.

The summarized income statement for the three month period ended September 30, 2017 for the Joint Venture is as follows:

Table of Contents

	Three Month Ended	
	September 30, 2017	October 1, 2016
	(in thousands)	
Revenue	\$2,894	\$ 1,338
Gross Profit	2,894	1,338
Net income from continuing operations	2,051	899
Net Income	\$2,051	\$ 899

The Company authorized the Joint Venture to administer payments to a former landlord pursuant to a note payable in connection with a store closure. The amount of each payment is deducted from the quarterly distribution made to bebe from the Joint Venture. For the three month period ended September 30, 2017, the amount so deducted by the Joint Venture was \$228,429.

**FISCAL YEAR**

The Company's fiscal year is a 52 or 53 week period, each period ending on the first Saturday on or after June 30. The three month periods ended September 30, 2017 and October 1, 2016 each include 13 weeks.

**RECENT ACCOUNTING PRONOUNCEMENTS**

See note 1 to the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2017.

**DISCONTINUED OPERATIONS**

In the fourth quarter of fiscal 2017, as a result of continued operating losses, the Company closed all of its stores and transferred its license to operate its online store and international operations to its equity method investment. The results of the Company's retail operations have been presented as discontinued operations in the accompanying consolidated statements of operations and comprehensive income (loss) for all periods presented and are as follows:

	Three Month Ended	
	September 30, 2017	October 1, 2016
	(in thousands)	
Net sales	\$—	\$87,238
Cost of sales, including production and occupancy	(10 )	(59,743 )
Gross margin	(10 )	27,495
Selling, general and administrative expenses	(1,566 )	(26,257 )
Gain on Sale of Assets	6,666	—
Income from discontinued operations, before income tax provision	5,090	1,238
Tax provision	(148 )	(17 )
Income from discontinued operations, net of tax provision	\$4,942	\$ 1,221

Costs associated with these exit activities are as follows:

	Lease Termination	Severance	Total
	(in thousands)		
Balance as of July 1, 2017	\$2,024	\$ 1,772	\$ 3,796
Costs incurred in fiscal 2018	—	967	967
Cash payments made	(252 )	(377 )	(629 )

Edgar Filing: bebe stores, inc. - Form 10-Q

Balance as of September 30, 2017 \$1,772 \$ 2,362 \$4,134

The Company anticipates completing lease termination payments by July 1, 2019 and severance payments before December 31, 2018.

7

---

Table of Contents

## ASSETS OF DISCONTINUED OPERATIONS HELD FOR SALE

Assets of discontinued operations held for sale consist of the following, which are stated at the lower of cost or market:

Description	September 30, 2017	July 1, 2017
	(in thousands)	
Distribution Center	\$—	\$15,622
LA Studio	8,613	8,613
Condominiums	—	1,561
Total	\$8,613	\$25,796

The Company sold its Distribution center and condominiums for net proceeds totaling \$23.7 million during the first quarter of fiscal 2018 and recorded a gain on sale totaling \$6.7 million, which is included in income from discontinued operations, net of tax.

## FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board has established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of September 30, 2017, the Company held no financial instruments that are measured at fair value on a recurring basis.

The following items are measured at fair value on a recurring basis as of July 1, 2017:

Description	July 1, 2017	Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Fair value measurements at reporting date (In thousands)			
Cash equivalents	\$ 236	\$ 236	\$ —	\$ —
Total	\$ 236	\$ 236	\$ —	\$ —

## Non-Financial Assets:

The Company measures certain non-financial assets and liabilities, including long-lived assets, at fair value on a non-recurring basis. During the three months ended September 30, 2017 and October 1, 2016, the Company recorded impairment charges of approximately \$0.0 million and \$0.8 million, respectively, related to under-performing stores.

Table of Contents

The following table presents the Company's considerations of at-risk assets for the three month period ended October 1, 2016:

	Three Months Ended October 1, 2016 (dollar amounts in millions)
Number of stores identified as at risk and evaluated for impairment	7
Number of stores identified as at risk, but not impaired	(3 )
Number of stores identified as at risk with impairment	4
Total carrying amount of stores identified as at risk prior to any impairment charges taken	\$ 1.7
Total carrying amount of stores identified as at risk, but not impaired	(0.9 )
Total carrying amount of stores identified for impairment	0.8
Impairment charges recorded during the period	\$ 0.8

The fair market value of these assets was determined using the income approach and Level 3 inputs, which require management to make significant estimates about future operating plans and projected cash flows. Management estimates the amount and timing of future cash flows based on its experience and knowledge of the retail market in which each store operates. The assumptions used in preparing the discounted cash flow model and the related sensitivity analysis around the discounted cash flow model include estimates for weighted average cost of capital 11.0% and annual revenue growth rates (range from 0.0% – 5.0%). The stores not impaired had undiscounted cash flows that exceeded their net carrying amount at a weighted average of 126% for the three month period ended October 1, 2016.

The impairment charge is included in loss from discontinued operations, net of tax in the accompanying condensed consolidated statements of operations and comprehensive loss. The Company was not required to measure any other significant non-financial assets and liabilities at fair value.

**INCOME TAXES**

Deferred income taxes arise from temporary differences between the tax and financial statement recognition of revenue and expenses. The Company regularly assesses the need for a valuation allowance against its deferred tax assets. In evaluating whether it is more likely than not that some or all of the Company's deferred tax assets will not be realized, it considers all available positive and negative evidence, including recent year's operational results which is objectively verifiable evidence. As a result of its evaluation of the realizability of its deferred tax assets as of September 30, 2017, the Company continues to believe, based upon all available evidence, that it is more likely than not that the majority of its deferred tax assets will continue to not be realized. Accordingly, the tax benefit related to the current quarter losses is not recognized. The Company will continue to maintain a valuation allowance against its deferred tax assets until the Company believes it is more likely than not that these assets will be realized in the future. If sufficient positive evidence arises in the future indicating that all or a portion of the deferred tax assets meet the more likely than not standard, the valuation allowance will be reversed accordingly in the period that such determination is made.

**BRIDGE LOAN**

The company has received a waiver from its lenders of the requirements of a loan agreement covenant requiring the company to maintain a required level of cash as of certain dates. The waiver is effective through December 31, 2017 as long as the Company maintains at least \$10 million of cash and cash equivalents.

**EARNINGS (LOSS) PER SHARE**

Basic earnings (loss) per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share reflects the potential dilution that could occur from common shares issuable through the exercise of dilutive stock options.

Table of Contents

There is no difference between the number of shares used in the basic and diluted earnings per share computations. Excluded from the computation of the number of diluted weighted average shares outstanding were options to purchase 80,003 and 236,887 shares of common stock for the three months ended September 30, 2017 and October 1, 2016, respectively, which would have been anti-dilutive.

LEGAL PROCEEDINGS

As of the date of this filing, the Company is involved in ongoing legal proceedings as described below.

A former employee filed a complaint against the Company on November 2, 2010, in the Superior Court of California, San Bernardino County (Case No. CIVRS1011823) alleging failure to pay wages, failure to provide meal and rest periods, and other violations of the California Labor Code and Business & Professions Code §17200 et. seq. The plaintiff purported to bring the action on behalf of current and former California bebe stylists and sales associates who are similarly situated. The complaint sought damages, civil penalties, and injunctive relief among other remedies. In June 2016, the parties entered into a settlement agreement conditioned upon final Court approval. In August 2017, the Court preliminarily approved the class action settlement. The parties are in the process of the administration of the settlement with the class members. The Company believes the settlement amounts, accrued in Q4 of fiscal 2017, will not have a material adverse effect on our business, financial condition or results of operations.

A customer served the Company with a complaint on January 31, 2014, in the United States District Court for the Northern District of California (Civil Action No. C14-267 DMR) alleging various violations of the Telephone Consumer Protection Act (47 U.S.C. §§227 et seq.) and violations of California's unfair competition law (California Business and Professions Code §§ 17200, et seq.) stemming from an alleged failure to obtain customer consent prior to sending text messages. The plaintiff purported to bring the action on behalf of others similarly situated. The complaint sought damages and injunctive relief among other remedies. A companion proceeding, previously reported, in the United States District Court for the Northern District of California (Civil Action No. 3:14-CV-01968) was consolidated with this action. In April 2016, the parties entered into a settlement agreement conditioned upon final Court approval. In July 2017, the Court preliminarily approved the class action settlement. The parties are in the process of the administration of the settlement with the class members. The Company believes the settlement amounts, accrued in fiscal 2017, will not have a material adverse effect on our business, financial condition or results of operations.

The Company is subject to various other legal proceedings and claims arising in the ordinary course of business. Regarding all matters referenced herein, the Company intends to vigorously defend itself and has accrued estimated amounts of liability where required, appropriate and determinable. Any such estimates may be revised as further information becomes available. The results of any litigation are inherently uncertain and as such the Company cannot assure that it will be able to successfully defend itself in these proceedings or that any amounts accrued are sufficient.

Table of Contents

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements. Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” “thinks” and similar expressions are forward-looking statements. Forward-looking statements include statements about our expected results of operations, capital expenditures and store openings. Although we believe that these statements are based upon reasonable assumptions, we cannot assure you that our goals will be achieved. These forward-looking statements are made as of the date of this Form 10-Q, and we assume no obligation to update or revise them or provide reasons why actual results may differ. Factors that might cause such a difference include, but are not limited to, our ability to respond to changing fashion trends, obtain raw materials and find manufacturing facilities, attract and retain key management personnel, develop new concepts, successfully open future stores, successfully manage our online business, maintain and protect information technology, respond effectively to competitive pressures in the apparel industry and adverse economic conditions and protect our intellectual property as well as declines in comparable store sales performance, changes in the level of consumer spending or preferences in apparel and/or other factors discussed in “Risk Factors” and elsewhere in this Form 10-Q.

OVERVIEW

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Consolidated Financial Statements and related notes included elsewhere in this report. The following Management’s Discussion and Analysis of Financial Condition and Results of Operations contains forward looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under “Risks Factors” under Item 1A of this report.

During fiscal 2017 as a result of continued operating losses, we shut down our retail operations and transferred the remainder of our licenses and intellectual property to our equity method investment. We have entered into an agreement to provide transition services to a third party, Global Brands Group (“GBG”) that has taken over bebe's online and international licensee businesses. The agreement is scheduled to end November 30, 2018 and we are being paid a fee which we expect to cover substantially all of the costs of providing these services. Once this agreement ends, we will transition to managing our investment in the Joint Venture and we expect to receive a quarterly cash dividend from this investment. In addition, we expect our operating costs to reduce to an insignificant amount once we have completed the transition.

Strategic partnership During the fourth quarter of fiscal 2016, we entered into a strategic joint venture arrangement with Bluestar Alliance LLC (Bluestar). Under this partnership, bebe contributed all of its trademarks, trademark license arrangements (described in the next paragraph) and related intellectual property, including certain domain names, to a newly formed joint venture, BB Brand Holdings LLC (the Joint Venture) and received just over 50% ownership interest in the joint venture. Bluestar contributed \$35 million to the newly formed joint venture that was then paid to bebe and received just under 50% ownership interest in the joint venture. Bluestar will leverage its existing brand management organization and infrastructure to develop a wholesale domestic and international lifestyle licensing business for the joint venture and will manage its day-to-day operations. During fiscal 2018 and in future years, the Joint Venture will aggressively pursue a licensing strategy designed to capitalize on the value of our brand in all categories and channels on a global scale. We expect the Joint Venture to generate long-term, committed royalties from prospective licensees of the bebe brand name.

Historically, we designed, developed and produced a distinctive line of contemporary women’s apparel and accessories that is unique, sophisticated and timelessly sexy. We were founded by Manny Mashouf, our Chief Executive Officer and Chairman of the Board. We opened our first store in San Francisco, California in 1976, which was also the year we incorporated in California. We marketed our products under the bebe and BEBE SPORT brand names through our retail stores, the significant majority of which were bebe stores, including an on-line store at [www.bebe.com](http://www.bebe.com), and also

through bebe outlet stores. The 82 international licensees' operated stores in 22 countries and, pursuant to our product licensing, through certain select domestic and international retailers.

## Table of Contents

### CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our consolidated financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States of America.

The preparation of these financial statements requires the appropriate application of certain accounting policies, many of which require us to make estimates and assumptions about future events and their impact on amounts reported in our financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the financial statements. We believe our application of accounting policies, and the estimates inherently required therein, are reasonable. Our most critical accounting policies are those related to revenue recognition, stock based compensation, inventories, marketable securities, impairment of long lived assets and income taxes. We continually evaluate these accounting policies and estimates, and we make adjustments when facts and circumstances dictate a change. Our accounting policies are described in Note 1 to the consolidated financial statements in our annual report on Form 10-K for the fiscal year ended July 1, 2017. This discussion and analysis should be read in conjunction with such discussion and with our condensed consolidated financial statements and related notes included in Part 1, Item 1 of this quarterly report.

### RESULTS OF OPERATIONS

Our fiscal year is a 52 or 53 week period, each period ending on the first Saturday on or after June 30. The three months ended September 30, 2017 and October 1, 2016 include 13 weeks respectively.

**Selling, General and Administrative Expenses.** Selling, general and administrative expenses during the first quarter of fiscal 2018 primarily represents the costs to support the transition services provided to GBG, offset by fees charged to GBG. The amount decreased to \$2.3 million during the three months ended September 30, 2017 from \$9.5 million for the comparable period of the prior year, a decrease of \$7.2 million, or 76.1%. The decrease was primarily driven by the impact of \$6.9 million of fees charged to GBG during the first fiscal quarter of 2018 pursuant to the transition services agreement entered into in the fourth quarter of fiscal 2017.

**Interest and Other (Loss) Income, net.** Interest expense, net increased to \$1.0 million for the three months ended September 30, 2017, from a nominal amount in the comparable period in the prior year. The increase was the result of interest expense related to the bridge loan entered into in the fourth quarter of fiscal 2017.

**Provision for Income Taxes.** The tax rate for the first quarter of fiscal 2017 was 0.0% compared to 0.0% for the comparable period of the prior year. The current quarter effective tax rate reflects the continuing impact of maintaining a valuation allowance against net deferred tax assets. Therefore, our effective tax rate for both fiscal year 2018 and 2017 continues to approximate 0%.

**Earnings in equity method investment.** Earnings increased by \$0.6 million in the first fiscal quarter of 2018 to \$1.0 million from \$0.5 million in the first fiscal quarter of the prior year. The increase primarily reflects that the Joint Venture did not exist for the full fiscal quarter in 2017.

**Income from Discontinued Operations, net of tax.** Income from discontinued operations during the first quarter of fiscal 2018 primarily represented the net gain on sale of real estate sold during the quarter. The previous year's amount reflected the results of our retail operations which were discontinued in the fourth quarter of fiscal 2017.

### SEASONALITY OF BUSINESS AND QUARTERLY RESULTS

The business of our equity method investment varies with general seasonal trends that are characteristic of the retail and apparel industries. As a result, a higher percentage of our annual income from our equity method investment is generated in the second quarter of our fiscal year, which includes the holiday selling season, compared to the other quarters of our fiscal year. If for any reason the income of the joint venture were below seasonal norms during the second quarter of our fiscal year, our annual operating results would be negatively impacted. Because of the seasonality of the business, results for any quarter are not necessarily indicative of results that may be achieved for a full fiscal year or for any other fiscal quarter.

### LIQUIDITY AND CAPITAL RESOURCES

During fiscal 2017 as a result of continued operating losses, we shut down our retail operations. We have entered into an agreement to provide transition services to a third party that has taken over bebe's online and international licensee businesses. We are being paid a fee which we expect to cover substantially all of the costs of providing these services. Once this agreement

12

---

Table of Contents

ends, we will transition to managing our investment in the Joint Venture and we expect to receive a quarterly cash dividend from this investment. In addition, we expect our operating costs to reduce to an insignificant amount once we have completed the transition which we expect to occur by the end of the second quarter of fiscal 2018.

As of September 30, 2017, our current liabilities exceeded our current assets by \$8.8 million. The current liabilities include a bridge loan of \$15.6 million used to pay the lease termination expenses, which matures on May 30, 2018. We have listed the LA studio for sale and believe we will eventually sell the building for proceeds sufficient to meet our current obligations and cash flow needs. However, if the LA studio does not sell in the next twelve months and the bridge loan comes due, we will be unable to repay the bridge loan at its maturity (May 30, 2018). As a result, we have concluded that there is substantial doubt about our ability to continue as a going concern for the next year.

As of September 30, 2017, all cash and equivalents were held in accounts managed by third-party financial institutions consisting of invested cash and cash in our operating accounts. The invested cash is invested in interest bearing funds managed by third-party financial institutions. These funds invest in direct obligations of the government of the United States. To date, we have experienced no loss or lack of access to our invested cash or equivalents; however, we can provide no assurances that access to our invested cash and equivalents will not be impacted by adverse conditions in the financial markets.

We hold our operating and invested cash in accounts that are with third-party financial institutions. These balances exceed the Federal Deposit Insurance Corporation insurance limits. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or could be subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to invested cash or cash in our operating accounts.

Net cash used by operating activities for the three months ended September 30, 2017 was \$11.4 million compared to net cash used by operating activities of \$7.8 million for the three months ended October 1, 2016. The increase in cash usage of \$3.6 million from the comparable period was primarily the result of the decrease in accounts payable as well as an increase in accounts receivable balances for the three months ended September 30, 2017 as compared to the same period in the prior year.

Net cash provided by investing activities for the three months ended September 30, 2017 was \$23.6 million compared to \$0.4 million used by investing activities for the three months ended October 1, 2016. The \$24.0 million increase versus the prior year comparable period was primarily due to proceeds from sale of real estate holdings in the current year.

Net cash used by financing activities was \$18.1 million for the three months ended September 30, 2017 compared with the \$0.0 million provided by financing activities for the three months ended October 1, 2016. This increase in cash usage in the first quarter of fiscal 2018 was due to the repayment of a portion of the bridge loan during the fiscal quarter.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risks, which include changes in U.S. interest rates and, to a lesser extent, foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes.

**Interest Rate Risk**

According to our investment policy, we may invest in taxable and tax-exempt instruments. In addition, the policy establishes limits on credit quality, maturity, issuer and type of instrument. We do not use derivative financial instruments.

The following table lists our cash as of September 30, 2017:

	Fair Value	
	(Dollars in thousands)	
Cash	\$	11,138
Weighted average interest rate	0.00	%
Total	\$	11,138

**Foreign Currency Risks**

We enter into a significant amount of purchase obligations outside of the United States, substantially all of which are negotiated and settled in U.S. Dollars and, therefore, have only minimal exposure to foreign currency exchange risks. We also operate a subsidiary for which the functional currency is the Canadian Dollar. We translate assets and liabilities of Canada's operations into U.S. dollars at month-end rates, while we translate income and expenses at the weighted average exchange rates for the month. We record the related translation adjustments in accumulated other comprehensive income as a separate component of shareholders' equity. Fluctuations in exchange rates therefore impact our financial condition and results of operations, as reported in U.S. Dollars. We may hedge from time to time against foreign currency risk through the purchase of forward contracts but we believe that foreign currency exchange risk is immaterial.

#### ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this quarterly report at the reasonable assurance level. There has been no change in our internal control over financial reporting during the quarter ended September 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the Legal Matters section of the Notes to the Condensed Consolidated Financial Statements for a discussion of legal proceedings.

ITEM 1A. RISK FACTORS

Our past performance may not be a reliable indicator of future performance because actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, the risks and uncertainties discussed below. In addition, historical trends should not be used to anticipate results or trends in future periods. Factors that might cause our actual results to differ materially from the forward-looking statements discussed elsewhere in this report, as well as affect our ability to achieve our financial and other goals, include, but are not limited to, the following:

Risks Related to Our Business

1. The success of our business depends in large part on the ability of the Joint Venture's licensees to identify fashion trends as well as to react to changing customer demand in a timely manner and to generate positive cash from its operations as a result.

Our future success depends, in part, upon the ability of the Joint Venture's licensees to anticipate, identify and respond effectively to changing customer demands and fashion trends in a timely manner. The specialty retail apparel business fluctuates according to changes in customer preferences directed by trends and fashions. If they miscalculate customers' product preferences or the demand for their products, they may be faced with excess inventory, which historically has resulted in markdowns and/or write-offs of raw materials as well as finished goods, which could impair their profitability, and may do so in the future. Similarly, any failure on their part to anticipate, identify and respond effectively to changing customer demands and fashion trends will adversely affect our business. Starting in the fourth quarter of fiscal 2016 and expanding in fiscal 2017, the Company entered into the Joint Venture and shifted its strategy, such that we have closed all of our retail stores, sold our merchandise, inventory, furnishings, trade fixtures, equipment, improvements in real property, purchase orders related to our website and international wholesale business and are committed to selling our Los Angeles Design Studio. Further, bebe has contributed all of its trademarks, trademark license arrangements and related intellectual property to the Joint Venture, including domain names, social media accounts and agreements with certain of its international distributors to the Joint Venture.

Our strategic focus for fiscal 2018 and the years to come is to continue to focus on discretionary spending, restructure our operations and based on the success of initiatives in the Joint Venture, collect revenue from its licensing arrangements. The inability to generate positive cash flow from such operations could have a material adverse effect on our business and financial conditions. In addition, if additional financing is needed, we may not be able to secure such financing on favorable terms, or at all.

2. Our auditors have made reference to the substantial doubt as to our ability to continue as a going concern in their audit report for the fiscal year ended July 1, 2017. There is no assurance that we will be able to continue as a going concern.

Our financial statements included with this Quarterly Report for the fiscal quarter ended September 30, 2017 have been prepared assuming that we will continue as a going concern. Our auditors have made reference to the substantial doubt as to our ability to continue as a going concern in their audit report on our audited financial statements for the year ended July 1, 2017. Because we have been issued an opinion by our auditors that substantial doubt exists as to whether the Company can continue as a going concern, it may be more difficult for the Company to attract investors. Since our auditors have raised a substantial doubt about our ability to continue as a going concern, this typically results greater difficulty to obtain financing than businesses that do not have a qualified auditors opinion.

Additionally, any loans we might obtain may be on less advantageous terms. Our future is dependent upon our ability to obtain funding and upon future profitable operations from our business. We plan to seek additional funds through

the sale of our remaining real estate assets. If we are unable to sell these assets on favorable terms, or at all, we may be unable to continue as a going concern. As a result, you may be investing in a company that will not have the funds necessary to continue as a going concern. If we are not able to achieve sufficient revenues or find funding to cover our expenses, then we likely will be forced to cease operations and investors may lose their entire investment.

3. The success of our business depends in large part on our ability to maintain our brand, image and reputation. Our ability to maintain our brand image and reputation is integral to our business via the licensing arrangement with the Joint Venture as well as the implementation of strategies to expand such efforts. Maintaining, promoting and growing our brand will depend largely on the success of the Joint Venture's design, merchandising and marketing efforts and its ability to

Table of Contents

provide a consistent, high-quality client experience. In addition, while our brand is mature, the success depends on our ability to retain existing customers and attract new customers to shop our brand. Our business would be adversely affected if we fail to achieve these objectives for our brand. In addition, failure to achieve consistent, positive performance or the receipt of any negative publicity could adversely impact our brand and the brand loyalty of our customers, which would adversely impact our business via the Joint Venture.

4. We face significant competition in the retail and apparel industries, which could harm our business. The retail and apparel industries are highly competitive and are characterized by low barriers to entry. We expect competition in these markets to increase. The primary competitive factors in our markets are: brand name recognition and appeal, sourcing, product styling, quality, presentation and pricing, timeliness of product development and delivery, store ambiance, customer service and convenience. The Joint Venture competes with traditional department stores, specialty store retailers, lower price point retailers, business-to-consumer websites, off-price retailers and direct marketers for, among other things, raw materials, market share, retail space, finished goods, sourcing and personnel. Because many of these competitors are larger and have substantially greater financial, distribution and marketing resources than the Joint Venture or maintain comparatively lower cost of operations, it may lack the resources to effectively compete with them. If the Joint Venture fails to remain competitive in any way, it could harm our business, financial condition and results of operations.

5. Our business has recently undergone significant changes, including management, personnel and business changes. If we do not effectively and successfully adapt to these changes, it could have a material adverse effect on our business.

As we realign our business around the initiatives of the Joint Venture, we continue to make substantial personnel and operational changes in an effort to streamline our business and control costs. These significant changes have created additional pressures on existing personnel, and we have been working to adapt to operating our business in a manner that differs meaningfully from prior periods. We cannot assure that these changes will lead to the desired improvement in our business and results of operations. If we do not effectively and successfully adapt to these changes, it could have a material adverse effect on our business.

6. General economic conditions, including increases in energy and commodity prices, that are largely out of our control, may adversely affect our financial condition and results of operations.

The demand for bebe products is influenced by national and local economic factors that may affect consumer spending or buying habits. Factors that could adversely affect the demand for our products include recessionary economic cycles, higher interest rates, higher fuel and other energy costs, inflation, deflation, increases in commodity prices, higher levels of unemployment, higher consumer debt levels, higher tax rates and other changes in tax laws. A decline in economic conditions could also result in limitations on the prices the Joint Venture's licensees can charge for bebe products, either of which could adversely affect our business. We can provide no assurance that demand for bebe products will not be adversely affected by national or local economic conditions, thereby harming our business.

7. Our business could be adversely impacted by unfavorable international political conditions.

Our sales and operating results are, and will continue to be, affected by international social, political, legal and economic conditions. In particular, our business could be adversely impacted by instability or changes resulting in the disruption of trade with the countries in which our contractors, suppliers, licensees or customers are located, significant fluctuations in the value of the dollar against foreign currencies or restrictions on the transfer of funds, or additional trade restrictions imposed by the United States and other foreign governments. We can provide no assurance that our business will not be adversely affected by such international events.

In addition, trade restrictions, including increased tariffs or quotas, embargoes and customs restrictions could increase the cost or reduce the supply of merchandise available to us and adversely affect our business. We also purchase a substantial amount of our raw materials from China, and our business and operating results may be affected by

changes in the political, social or economic environment in China.

8. Our ability to conduct business could be negatively impacted by the effects of natural disasters, war, terrorism, public health concerns or other catastrophes.

We operate a corporate office in Brisbane, California, a design studio in Los Angeles, California and a distribution facility in Hong Kong. Any serious disruption at these facilities whether due to construction, relocation, fire, flood, earthquake, terrorist acts or otherwise could harm our business. Natural disasters, extreme weather and public health concerns, including severe infectious diseases, could impact our ability to open and run our corporate offices, distribution center, stores and other operations in affected areas and/or negatively impact our foreign sourcing offices and the operations of our vendors. In addition, our ability to continue to operate our business without significant interruption in the event of a disaster or other disruption depends, in part, on the ability of our information systems to operate in accordance with our disaster recovery and business continuity plans. Lower client traffic due to the effect of natural disasters or extreme weather, security concerns, war

Table of Contents

or the threat of war and public health concerns could result in decreased sales that could have a material adverse effect on our business. In addition, threat of terrorist attacks or actual terrorist events in the United States and world-wide could cause damage or disruption to international commerce and the global economy, disrupt the production, shipment or receipt of our merchandise or lead to lower client traffic. Our ability to mitigate the adverse impact of these events depends, in part, upon the effectiveness of our disaster preparedness and response planning as well as business continuity planning. However, we cannot be certain that our plans will be adequate or implemented properly in the event of an actual disaster or other catastrophic situation. In addition, although we maintain business interruption and property insurance, we cannot assure you that our insurance coverage will be sufficient or that insurance proceeds will be timely paid to us.

9. If we, through our interest in the Joint Venture, are not able to protect our intellectual property our business may be harmed.

Although we and the Joint Venture take actions to protect our trademarks and other proprietary rights, we cannot assure you that we will be successful or that others will not imitate our products or infringe upon our intellectual property rights. In addition, we cannot assure that others will not resist or seek to block the sale of our products as infringements of their trademark and proprietary rights.

Historically, we have sought to register our trademarks domestically and internationally and the Joint Venture will continue to do so in the future. Obstacles may exist that may prevent the Joint Venture from obtaining a trademark for the bebe and BEBE SPORT brand names or related names. The Joint Venture may not be able to register certain trademarks, purchase the right or obtain a license to use these names or related names on commercially reasonable terms. If the Joint Venture fails to obtain trademarks of, or ownership or license of the requisite rights, it would limit the ability to expand the business under the bebe brand.

In some jurisdictions, despite successful registration of bebe's trademarks, third parties may allege infringement and bring actions against us and or the Joint Venture. In addition, if our licensees fail to use the bebe intellectual property correctly, the reputation and value associated with the trademarks may be diluted. Furthermore, if we or the Joint Venture do not demonstrate use of our trademarks, our trademark rights may lapse over time.

In addition, we face the potential of receiving claims that the technology we use or license infringes on another's proprietary rights. In certain circumstances, we may be subject to having to defend ourselves from such claims and/or be subject to unanticipated license fees or the necessity to transition away from technology we are using or abandon such use altogether.

10. Our business may be negatively impacted by any failure to comply with regulatory requirements.

As a public company, we are subject to numerous regulatory requirements, including those imposed by the Sarbanes-Oxley Act of 2002, the SEC and The NASDAQ Capital Market. In addition, we are subject to numerous domestic and foreign laws and regulations affecting our business, including those related to labor, employment, worker health and safety, competition, privacy, consumer protection, credit cards, import/export and anti-corruption, including the Foreign Corrupt Practices Act and the Telephone Consumer Protection Act. Our employees, subcontractors, vendors and suppliers could take actions that violate these requirements and/or our compliance policies and procedures, which could have a material adverse effect on our reputation, financial condition and on the market price of our common stock. Regulatory developments regarding the use of "conflict minerals," certain minerals originating from the Democratic Republic of Congo and adjoining countries, could affect the sourcing and availability of raw materials used by suppliers and subject us to costs associated with the relevant regulations, including for diligence pertaining to the presence of any conflict minerals used in our products, possible changes to products, processes or sources of our inputs and reporting requirements.

11. There are litigation and other claims against us from time to time, which could distract management from our business activities and could lead to adverse consequences to our business and financial condition.

We are involved from time to time with litigation and other claims against us. Often these cases can raise complex factual and legal issues, which are subject to risks and uncertainties and which could require significant management time. Although we do not currently believe that the outcome of any current litigation or claim against us will have a material adverse effect on our overall financial condition, we have, in the past, incurred unexpected expense in connection with litigation matters. In the future, adverse settlements, judgments or resolutions may negatively impact our business. Injunctions against us could have an adverse effect on our business by requiring us to do, or prohibiting us from engaging in, certain activities. We may in the future be the target of material litigation, which could result in substantial costs and divert our management's attention and resources.

Table of Contents

12. We are subject to cyber-security risks and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.

We currently support the business of the Joint Venture via a transition services agreement, which involves the storage and transmission of customers' personal information, consumer preferences and credit card information. We also facilitate the Joint Venture's use mobile devices, social networking and other on-line activities to connect with our customers. If we experience a significant data security breach or fail to detect and appropriately respond to a significant data security breach, we or the Joint Venture could be exposed to government enforcement actions and private litigation, and our business could be adversely affected. For example, in November 2014, we detected suspicious activity on computers that operate the payment processing system for our stores, which appeared to be limited to data from payment cards swiped in the United States and its territories between November 8, 2014 and November 26, 2014. The data may have included cardholder name, account number, expiration date and verification codes, although we have no indication of fraudulent charges to date. We cannot assure you that we will not suffer future breaches of the portion of our network that handles payment card data, with further payment card and client information being stolen. These sorts of breaches might cause bebe customers to lose confidence in our or the Joint Venture's ability to protect their personal information, which could cause them to stop shopping with bebe altogether. The loss of confidence from a significant data security breach involving our employees could also hurt our reputation and adversely affect our business and financial results.

13. The Joint Venture relies on information technology to help manage its operations and our e-commerce store, the disruption of which could adversely impact our business.

We currently assist the Joint Venture with various information systems, which it relies on to help manage its operations and regularly assess the cost-benefit analysis associated with making additional investments to upgrade, enhance or replace such systems. If at any time we experience any disruptions that impact the Joint Venture's information systems we could experience a material adverse impact on our business.

14. We are responsible for maintaining the privacy of personally identifiable information of our customers.

Through our sale transactions, loyalty programs and other methods, we obtained personally identifiable information about our customers which is subject to federal, state and international privacy laws. These laws are constantly changing. If we fail to comply with these laws, we may be subject to fines, penalties or other adverse actions. We are highly dependent on the use of credit cards to complete sale transactions through our websites, and if we fail to comply with Payment Card Industry Data Security Standards, we may become subject to limitations on our ability to accept credit cards. Moreover, third parties may seek to access this information through improper means such as computer hacking, malware and viruses. Any incidents involving unauthorized access or improper use of our customers' personally identifiable information could damage our reputation and brand and result in legal or regulatory action against us.

Risks Related to Our Common Stock

1. Because Manny Mashouf beneficially owns a substantial portion of the outstanding shares, other shareholders have limited ability to influence corporate matters.

As of September 29, 2017, Manny Mashouf, our CEO and Chairman of the Board, beneficially owned approximately 56.8% of the outstanding shares of our common stock. As a result, he has the ability to control our management and affairs and substantially all matters submitted to our shareholders for approval, including the election and removal of directors and approval of any significant transaction. He also has the ability to control our management and business affairs. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control, impeding a merger, consolidation, takeover or other business combination involving us, or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control of our business, and could limit the price that certain investors might be willing to pay for shares of common stock, even if such a transaction would benefit other shareholders. In addition, he could also sell his shares at any time, in open market transactions, registered

offerings or otherwise and such a sale could negatively impact our share price.

2. Our stock price could fluctuate substantially for reasons outside of our control.

Our common stock is quoted on The NASDAQ Capital Market, which has experienced, and is likely to experience in the future, significant price and volume fluctuations, which could adversely affect our stock price without regard to our financial performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and comparable sales; announcements by other apparel, accessory, music and gift item retailers; the trading volume of our stock; changes in estimates of our performance by securities analysts; litigation; overall economic and political conditions, including the global economic downturn; the condition of the financial markets, including the credit crisis; and other events or factors outside of our control could cause our stock price to fluctuate substantially.

Table of Contents

3. Our failure to meet the continued listing requirements of The NASDAQ Capital Market could result in a delisting of our common stock.

If we fail to satisfy the continued listing requirements of The NASDAQ Capital Market, such as the corporate governance requirements or the minimum closing bid price requirement, NASDAQ may take steps to de-list our common stock. Such a delisting would likely have a negative effect on the price of our common stock and would impair your ability to sell or purchase our common stock when you wish to do so. In the event of a delisting, we would expect to seek to take actions to restore our compliance with NASDAQ's listing requirements, but we can provide no assurance that any such action taken by us would allow our common stock to become listed again, stabilize the market price or improve the liquidity of our common stock, prevent our common stock from dropping below the NASDAQ minimum bid price requirement or prevent future non-compliance with NASDAQ's listing requirements.

4. If we sell shares of our common stock in the future, shareholders may experience immediate dilution and, as a result, our stock price may decline.

We may from time to time issue additional shares of common stock at a discount from the current trading price of our common stock. As a result, our shareholders would experience immediate dilution. In addition, as opportunities present themselves, we may enter into financing or similar arrangements in the future, including the issuance of debt securities, preferred stock or common stock. If we issue common stock or securities convertible into common stock, our common shareholders would experience additional dilution and, as a result, our stock price may decline.
