FutureFuel Provides Update on Second Half 2007 Operating Results

St. Louis, MO, February 7, 2008 – FutureFuel Corp. ("FutureFuel", "we" or the "Company") reported its first half 2007 results in an announcement filed with the London Stock Exchange's Alternative Investment Market on February 1, 2008 and trading of its securities resumed. Today FutureFuel provided an update on its operations during the second half of 2007.

As disclosed in its first half 2007 results, FutureFuel's revenues and earnings before interest, taxes, depreciation and amortization during the first half of 2007 were \$79.1 million and \$2.0 million, respectively. The Company's first half 2007 financial results are available on the investor relations page of the Company's website at www.futurefuelcorporation.com. These results were broadly in line with management's expectations. During the second half of 2007, the Company experienced improved performance, with results across nearly all product lines coming in ahead of expectations.

Revenue during the second half of 2007 is estimated to be in excess of \$90 million, with full year revenue of approximately \$170 million. The higher revenue base in the second half of the year is also expected to result in increased profitability. At December 31, 2007 the Company had approximately \$74 million of cash, cash equivalents and short term investments, versus approximately \$63 million at June 30, 2007. All of the above financial information is preliminary and is subject to audit and further adjustment.
