**Dow Jones index places Cemig as  
world leader in the electricity sector**

*DJSI World selects Cemig for sixth year running*

**Cemig** is very happy to announce that it has been selected, for the 6th year running, for inclusion in the **Dow Jones Sustainability World Indexes** (DJSI World) for 2005-2006, together with 317 companies from all over the world, and was elected as the world leader in the electricity sector. The survey involved 2,500 companies from 58 industrial sectors in 34 countries.

The **DJSI World** is made up of shares of companies that are recognized for their sustainability, in terms of being able to create value for stockholders over the long term, due to their success in taking advantage of opportunities and managing the risks associated with economic, environmental and social factors - taking into account not only financial performance, but principally quality, and continuous improvement, in management. In management, the index reflects the inclusion of environmental and social activity as a means to sustainability over the long term.

Since its creation in January 1999 the DJSI World has become an important reference for investors and managers of foreign funds, who take its performance into account in investment decisions.

Over recent years **Cemig** has maintained its position as the only company in the Latin American electricity sector to be included in the Dow Jones Index.

Being part of the DJSI World means: recognition that **Cemig** carries out its activities according to the principles of sustainable development, including practices of respect for the environment and for the well-being of society as a whole. For more information on the DJSI World, see [www.sustainability-indexes.com](http://www.sustainability-indexes.com).

**Market announcement**

**CEMIG (Cia. Energética de Minas Gerais) and WHITE MARTINS Gases Industriais Ltda.** announce that on October 3, 2005, in an association in which Cemig holds 49% and White Martins 51%, they presented a **binding proposal to Banco Santander S.A.** for acquisition of 100% of the shares of **Gas Brasileiro Distribuidora S.A. ("GBD")** owned by **ENI International B.V. (80%) and Intalgas - Società Italiana per il Gas Per Azioni (20%)**. GBD holds the concession for piped distribution of gas in the Northwestern region of the state of São Paulo, Brazil, an area of 142,000 km<sup>2</sup> (57% of the total area of the state), serving 375 municipalities. The area is contiguous to the concession area of **Gasmig** where **White Martins** is strongly active. GBD's sales in 2004 averaged 196,000 m<sup>3</sup>/day, to 1,331 consumers, 93% of these consumers being industrial. The area has potential for 1.5 million m<sup>3</sup>/day. Piped gas distribution service in this area is regulated by the Public Energy Services Committee of the State of São Paulo (CSPE). For **Cemig** and **White Martins** the acquisition, if completed, would represent creation of value for its stockholders through achievement of operational and commercial synergies and a better positioning in the emerging Brazilian natural gas sector.

Remuneration Interest Maturity Date immediately prior to the date of its effective payment, in accordance with the following formula:

$J = VNe \times (InterestFactor - 1)$ , where:

**J** = the amount of interest due at the end of each Capitalization Period, calculated to 6 (six) decimal places without rounding;

**VNe** = issue Nominal Value or balance of the Nominal Value of the debenture at the beginning of the Capitalization Period, calculated to 6 (six) decimal places, without rounding;

**InterestFactor** = factor of compound interest on the floating basis, augmented by a spread, calculated to 9 (nine) decimal places, with rounding, calculated as follows:

$InterestFactor = DIFactor \times SpreadFactor$ , where:

**DIFactor** = product of the DI-Over rates percentage rates applied, from the date of start of capitalization, inclusive, up to the date of calculation, exclusive, calculated to 8 (eight) decimal places, with rounding, as follows:

**DT** = the number of days between the last and the next event, being a whole number;

**DP** = the number of business days between the last event and the present date, being a whole number;

(iii) In the event of the DI rate being temporarily unavailable at the time of payment of any pecuniary obligation resulting from the setting of the Remuneration Interest, there shall be used, to substitute it, the same daily rate produced by the last known DI rate, up to the date of the calculation, and no financial compensation shall

be payable either by the company or by the debenture holders, when the respective DI rate is subsequently published.

(iv) In the absence of calculation and/or publication of the DI rate for a period more than 15 (fifteen) consecutive business days after the Issue Date or, in the event of its abolition, or non-applicability by force of law, to replace the DI rate there shall be used the average rate of daily financings backed by federal securities calculated in the Special Settlement and Custody System (the Selic Rate ), or, in its absence, the reference rate of the National Financial System which may from time-to-time substitute the Selic Rate (Replacement Rate ).

(v) In the event of there not being any Replacement Rate, the Fiduciary Agent shall, within a maximum period of 30 (thirty) days from either (i) the 15<sup>th</sup> consecutive business day of absence of calculation and/or publication of the DI rate, or (ii) the abolition, or non-applicability by force of law, of the DI rate, carry out a General Meeting of Debenture Holders, to decide, by agreement with the Issuer, subject to the applicable regulations, the parameter to be used for the remuneration of the Debentures, which shall be proposed by the Issuer. Until the decision on this parameter, the same daily rate produced by the last known DI rate shall be used for the calculation of the value of any obligations under this Clause, up to the date of the decision of the General Assembly of Debenture Holders.

(vi) If the Replacement Rate is published before the holding of the General Assembly of Debenture Holders, the said

Assembly shall not be held, and the Replacement Rate, as from its publication, shall thereafter be used for the calculation of the Remuneration Interest on the Debentures.

(vii) If the General Assembly of Debenture Holders does not decide, by common agreement between the Issuer and the Debenture Holders, the parameter to be used for the remuneration of the Debentures, the Issuer, in common agreement with the Debenture Holders, shall choose one of the 5 (five) largest first-line banks in Brazil to calculate the new parameter for the Remuneration Interest. The bank that is chosen shall adopt a new parameter for the purposes of calculation of the Remuneration Interest in such a way as to preserve the original remuneration of the Debentures, taking into account, including for this purpose, the last 15 (fifteen) previous public debenture issue transactions in the Brazilian market.

(viii) The remuneration of the debentures of the First Series in the second period of incidence of remuneration shall be paid annually, on November 1 of the years 2006, 2007, 2008 and 2009.
