**Letter from the Chairman**

Dear Shareholder,

Despite continued weakness in the housing market and a credit crunch that began in the summer of 2007, the U.S. economy was largely resilient during the six-month reporting period ended November 30, 2007. In the first quarter of 2007, U.S. gross domestic product (GDP) growth was a tepid 0.6%, according to the U.S. Commerce Department. This was the lowest growth rate since the fourth quarter of 2002. The economy then rebounded, as second quarter 2007 GDP growth was a solid 3.8%. Given the modest increase earlier in the year, this higher growth rate was not unexpected. The final estimate for third quarter GDP growth was 4.9%. A surge in inventory-building and robust exports supported the economy during the third calendar quarter. While initial fourth quarter 2007 GDP data will not be released until the end of January 2008, the Federal Reserve Board (Fed), among others, anticipates that economic growth will moderate significantly.

**R. JAY GERKEN, CFA**

Chairman, President and  
Chief Executive Officer

Ongoing issues related to the housing and subprime mortgage markets and an abrupt tightening in the credit markets prompted the Fed to take several actions during the reporting period. The Fed initially responded by lowering the discount rate—the rate the Fed uses for loans it makes directly to banks—from 6.25% to 5.75% in mid-August 2007. Then, at its meeting on September 18, the Fed reduced the discount rate to 5.25% and the federal funds rate<sup>iii</sup> from 5.25% to 4.75%. This marked the first reduction in the federal funds rate since June 2003. The Fed again lowered the discount rate and federal funds rate in October to 5.00% and 4.50%, respectively. In December 2007, after the end of the reporting period, the Fed again reduced rates, as it cut both the discount rate and federal funds rate another 0.25% to 4.75% and

Western Asset Managed Municipals Fund Inc.

I

4.25%, respectively. In its statement accompanying the December meeting, the Fed stated: Incoming information suggests that economic growth is slowing, reflecting the intensification of the housing correction and some softening in business and consumer spending. Moreover, strains in financial markets have increased in recent weeks. Today's action, combined with the policy actions taken earlier, should help promote moderate growth over time.

During the six-month reporting period, both short- and long-term Treasury yields experienced periods of significant volatility given mixed economic data and shifting expectations regarding the Fed's future monetary policy. After falling during the first three months of 2007, yields then moved steadily higher during much of the second calendar quarter. This was due, in part, to inflationary fears, a solid job market and expectations that the Fed would not be cutting short-term rates in the foreseeable future. During the remainder of the reporting period, the U.S. fixed-income markets were extremely volatile, which negatively impacted market liquidity conditions. Initially, the concern on the part of market participants was limited to the subprime segment of the mortgage-backed market. These concerns broadened, however, to include a wide range of financial institutions and markets. As a result, other fixed-income instruments also experienced increased price volatility. This turmoil triggered several flights to quality, causing Treasury yields to move sharply lower (and their prices higher), while riskier segments of the market saw their yields move higher (and their prices lower). Overall, during the six months ended November 30, 2007, two-year Treasury yields fell from 4.92% to 3.04%. Over the same period, 10-year Treasury yields fell from 4.90% to 3.97%.

The municipal bond market lagged its taxable bond counterparts over the six months ended November 30, 2007. Over that period, the Lehman Brothers Municipal Bond Index<sup>iv</sup> and the Lehman Brothers U.S. Aggregate Index<sup>v</sup> returned 2.40% and 5.32%, respectively.

**Performance Review**

For the six months ended November 30, 2007, Western Asset Managed Municipals Fund Inc. returned 2.92% based on its net asset value ( NAV<sup>i</sup> ) and -2.27% based on its New York Stock Exchange ( NYSE ) market price per share. In comparison, the Fund's unmanaged benchmark, the Lehman Brothers Municipal Bond Index, returned 2.40% over the same time frame. The Lipper General Municipal Debt Funds' Leveraged Closed-End Funds Category Average<sup>vii</sup> returned -0.50% for the same period. Please note that Lipper performance returns are based on each fund's NAV per share.

During this six-month period, the Fund made distributions to shareholders totaling \$0.27 per share (which may have included a return of capital). The performance table shows the Fund's six-month total return based on its NAV and market price as of November 30, 2007. **Past performance is no guarantee of future results.**

Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax or legal adviser.

**Performance Snapshot as of November 30, 2007 (unaudited)**

<b>Price Per Share</b>	<b>6-Month Total Return</b>
\$12.09 (NAV)	2.92%
\$10.66 (Market Price)	-2.27%

**All figures represent past performance and are not a guarantee of future results.**

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares.

**Special Shareholder Notices**

On November 19, 2007, the Board of Directors of Western Asset Managed Municipals Fund Inc. approved changes, to be effective on December 19, 2007, to non-fundamental investment policies relating to the credit ratings and types of securities in which the Fund may invest.

These changes, which are further described below, are expected to provide the portfolio managers with additional flexibility to meet the Fund's investment objective and address developments in the market, but the Fund's portfolio managers do not currently anticipate any dramatic changes in the Fund's portfolio composition or investment approach will result.

Under the Fund's amended non-fundamental investment policies recommended by Fund management and approved by the Board of Directors, the Fund may, under normal market conditions, invest up to 20% of its total assets in municipal obligations that are, at the time of investment, rated below investment grade ( high-yield ) by a nationally recognized statistical rating organization ( NRSRO ) or, if unrated, of equivalent quality as determined by the investment manager. Previously, the Fund did not have the ability to invest in municipal obligations that were not rated investment grade by any NRSRO at the time of purchase.

In addition, the Fund has the ability to invest in participation interests in municipal bonds, including industrial development bonds, private activity bonds and floating and variable rate securities. The Fund may also invest in non-appropriation municipal lease obligations. Previously, the Fund had the ability to invest only up to 5% of its assets in such participation interests and only up to 5% in non-appropriation municipal lease obligations, respectively.

Investments in these types of securities may involve additional risks. High-yield securities, commonly referred to as junk bonds, and unrated securities generally offer a higher current yield than that available from higher grade issues, but are considered speculative and, compared to investment grade securities, tend to have more volatile prices and increased price sensitivity to changing interest rates and to adverse economic and business developments, a greater risk of loss due to default or declining credit quality, a greater likelihood that adverse economic or company specific events will make the issuer unable to make interest and/or principal payments, a greater susceptibility to negative market sentiments leading to depressed prices and

decreased liquidity. During periods of economic downturn or rising interest rates, issuers of low-rated and unrated instruments may experience financial stress that could adversely affect their ability to make payments of principal and interest and increase the possibility of default. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, may also decrease the values and liquidity of low-rated and unrated securities especially in a market characterized by a low volume of trading.

A participation interest gives the Fund an undivided interest in a municipal bond owned by a bank, which the Fund has the right to sell back to the bank. If a participation interest is unrated, it will be backed by an irrevocable letter of credit or guarantee of a bank that the Board has determined meets certain credit quality standards or the payment obligation will otherwise be collateralized by U.S. government securities. The Fund will have the right, with respect to certain participation interests, to draw on the letter of credit on demand, after specified notice for all or any part of the principal amount of the Fund's participation interest, plus accrued interest. Generally, the Fund intends to exercise the demand under the letters of credit or other guarantees only upon a default under the terms of the underlying bond, or to maintain the Fund's assets in accordance with its investment objective and policies. The ability of a bank to fulfill its obligations under a letter of credit or guarantee might be affected by possible financial difficulties of its borrowers, adverse interest rate or economic conditions, regulatory limitations or other factors. The manager will monitor the pricing, quality and liquidity of the participation interests held by the Fund and the credit standing of the banks issuing letters of credit or guarantees supporting such participation interests on the basis of published financial information, reports of rating services and bank analytical services.

Additionally, the Fund may invest in participations in lease obligations or installment purchase contract obligations of municipal authorities or entities that contain non-appropriation clauses ( non-appropriation municipal

lease obligations ). Although lease obligations do not constitute general obligations of the municipality for which the municipality's taxing power is pledged, a lease obligation is ordinarily backed by the municipality's covenant to budget for, appropriate and make the payments due under the lease obligation. However, certain lease obligations contain non-appropriation clauses, which provide that the municipality has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis. In addition to the non-appropriation risk, these securities represent a relatively new type of financing that has not yet developed the depth of marketability associated with more conventional securities. Although non-appropriation lease obligations are secured by the leased property, disposition of the property in the event of foreclosure might prove difficult. In addition, the tax treatment of such obligations in the event of non-appropriation is unclear.

#### **Information About Your Fund**

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

#### **Looking for Additional Information?**

The Fund is traded under the symbol *MMU* and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol *XMMUX* on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as [www.leggmason.com/individualinvestors](http://www.leggmason.com/individualinvestors).

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA  
Chairman, President and Chief Executive Officer

*December 28, 2007*

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

**RISKS:** Fixed-income investments are subject to interest rate risk. As interest rates rise, the price of fixed-income investments declines. Derivatives are subject to a number of risks such as liquidity risk, interest rate risk, credit risk, leveraging risk, management risk, and may disproportionately increase losses and could have a potentially large impact on Fund performance.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product ( GDP ) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board ( Fed ) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- iv The Lehman Brothers Municipal Bond Index is a market value weighted index of investment grade municipal bonds with maturities of one year or more.
- v The Lehman Brothers U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- vi NAV is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is at the Fund's market price as determined by supply of and demand for the Fund's shares.
- vii Lipper, Inc. is a major independent mutual-fund tracking organization. Returns are based on the six-month period ended November 30, 2007, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 54 funds in the Fund's Lipper category.

12 Western Asset Managed Municipals Fund Inc. 2007 Semi-Annual Report

**Bond Ratings (unaudited)**

The definitions of the applicable rating symbols are set forth below:

*Standard & Poor's Ratings Service (Standard & Poor's)* Ratings from AA to CCC may be modified by the addition of a plus (+) or minus ( ) sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
BB, B, CCC, CC and C	Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
D	Bonds rated D are in default and payment of interest and/or repayment of principal is in arrears.

*Moody's Investors Service (Moody's)* Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aaa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa	Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge". Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
Aa	Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.
A	Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
Baa	Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
Ba	Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
B	

## Edgar Filing: WESTERN ASSET MANAGED MUNICIPALS FUND INC. - Form N-CSRS

- Bonds rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
- Caa Bonds rated Caa are of poor standing. These may be in default, or present elements of danger may exist with respect to principal or interest.
- Ca Bonds rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short-comings.
- C Bonds rated C are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
- NR Indicates that the bond is not rated by Standard & Poor's and Moody's.

**Short-Term Security Ratings (unaudited)**

- SP-1 Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- A-1 Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- VMIG 1 Moody's highest rating for issues having a demand feature VRDO.
- MIG1 Moody's highest rating for short-term municipal obligations.
- P-1 Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

## Edgar Filing: WESTERN ASSET MANAGED MUNICIPALS FUND INC. - Form N-CSRS

- (1) For the six months ended November 30, 2007 (unaudited).
- (2) Amount represents less than \$0.01 per share.
- (3) The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.
- (4) Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.
- (5) The prior investment manager fully reimbursed the Fund for losses incurred resulting from an investment transaction error. Without this reimbursement, total return would have been 6.02%.
- (6) Calculated on the basis of average net assets of common stock shareholders. Ratios do not reflect the effect of dividend payments to preferred stockholders.
- (7) Annualized.
- (8) Included in the expense ratios are certain non-recurring restructuring (and reorganization, if applicable) fees that were incurred by the Fund during the period. Without these fees, the gross and net expense ratios would both have been 1.05%.
- (9) Reflects fee waivers and/or expense reimbursements.
- (10) Excludes accumulated and unpaid distributions.

**See Notes to Financial Statements.**

**Notes to Financial Statements (unaudited)**

**1. Organization and Significant Accounting Policies**

Western Asset Managed Municipals Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is to seek as high a level of current income exempt from federal tax as is consistent with preservation of principal.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

**(a) Investment Valuation.** Securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. When prices are not readily available, or are determined not to reflect fair value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

**(b) Financial Futures Contracts.** The Fund may enter into financial futures contracts typically to hedge a portion of the portfolio. Upon entering into a financial futures contract, the Fund is required to deposit cash or securities as initial margin, equal to a certain percentage of the contract amount (initial margin deposit). Additional securities are also segregated up to the current market value of the financial futures contracts. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial instruments. For foreign denominated futures, variation margins are not settled daily. The Fund recognizes an unrealized gain or loss equal to the fluctuation in the value. When the financial futures contracts are closed, a realized gain or loss is recognized equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contracts.

The risks associated with entering into financial futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying financial instruments. In addition, investing in financial futures contracts involves the risk that the Fund could lose more than the initial margin deposit and subsequent payments required for a futures transaction. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

**(c) Security Transactions and Investment Income.** Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific

**Notes to Financial Statements (unaudited) (continued)**

identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

**(d) Distributions to Shareholders.** Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from federal and certain state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund. Distributions of net realized gains, if any, are taxable and are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

In addition, the holders of the Auction Rate Cumulative Preferred Stock shall be entitled to receive dividends in accordance with an auction that will normally be held weekly and out of the funds legally available to shareholders.

**(e) Net Asset Value.** The net asset value ( NAV ) of the Fund's Common Stock is determined no less frequently than the close of business on the Fund's last business day of each week (generally Friday) and on the last business day of the month. It is determined by dividing the value of the net assets available to Common Stock by the total number of shares of Common Stock outstanding. For the purpose of determining the NAV per share of the Common Stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's assets less (1) the Fund's liabilities, (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the Auction Rate Cumulative Preferred Stock issue, and (3) accumulated and unpaid dividends on the outstanding Auction Rate Cumulative Preferred Stock issue.

**(f) Federal and Other Taxes.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

**(g) Reclassification.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

**2. Investment Management Agreement and Other Transactions with Affiliates**

## Edgar Filing: WESTERN ASSET MANAGED MUNICIPALS FUND INC. - Form N-CSRS

Legg Mason Partners Fund Advisor, LLC ( LMPFA ) is the Fund's investment manager and Western Asset Management Company ( Western Asset ) is the Fund's subadviser. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason, Inc. ( Legg Mason ).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays LMPFA an investment management fee, calculated daily and paid monthly, at an annual rate of 0.55% of the Fund's average daily net assets. LMPFA has delegated to the subadviser the day-to-day portfolio management of the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

20 Western Asset Managed Municipals Fund Inc. 2007 Semi-Annual Report

**Notes to Financial Statements (unaudited) (continued)**

**3. Investments**

During the six months ended November 30, 2007, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$114,977,461
Sales	130,483,878

At November 30, 2007, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$40,568,294
Gross unrealized depreciation	(2,777,300)
Net unrealized appreciation	\$37,790,994

At November 30, 2007, the Fund had the following open futures contracts:

	Number of Contracts	Expiration Date	Basis Value	Market Value	Unrealized Loss
<b>Contracts to Sell:</b>					
U.S. Treasury Bonds	172	3/08	\$20,083,515	\$20,156,250	\$(72,735)

**4. Auction Rate Cumulative Preferred Stock**

As of November 30, 2007, the Fund had 2,000 outstanding shares of Auction Rate Cumulative Preferred Stock ( ARCP ) of Series M, Series T, Series W, Series Th and Series F, respectively. The ARCP dividends are cumulative at a rate determined at an auction and the dividend period is typically seven days. The dividend rates ranged from 3.470% to 4.430% during the six months ended November 30, 2007. At November 30, 2007, the dividend rates in effect were as follows:

	Series M	Series T	Series W	Series Th	Series F
Dividend Rates	4.150%	4.320%	4.200%	4.430%	4.150%

The ARCP are redeemable under certain conditions by the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to the liquidation preference, which is the sum of \$25,000 per share plus accumulated and unpaid dividends.

The Fund is required to maintain certain asset coverages with respect to the ARCPS. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the ARCPS in order to meet the applicable requirement. Additionally, failure to meet the foregoing asset requirements would restrict the Fund's ability to pay dividends to common stock shareholders.

**Notes to Financial Statements (unaudited) (continued)**

Citigroup Global Markets Inc. ( CGM ) currently acts as the broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to the participating broker/dealer, from monies the Fund provides, a participation fee at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. For the six months ended November 30, 2007, the Fund incurred auction participation fees of \$313,666 for CGM s services as the participating broker/dealer.

**5. Capital Loss Carryforward**

As of May 31, 2007 the Fund had a net capital loss carryforward of \$44,029,253, of which \$7,927,688 expires in 2008, \$10,369,607 expires in 2011, and \$25,731,958 expires in 2013. These amounts will be available to offset any future taxable gains.

**6. Other Matters**

As previously disclosed, on September 16, 2005, the staff of the Securities and Exchange Commission ( SEC ) informed Smith Barney Fund Management LLC ( SBFM ) and Salomon Brothers Asset Management Inc. ( SBAM ), that the staff was considering recommending administrative proceedings against SBFM and SBAM for alleged violations of Section 19(a) and 34(b) of the 1940 Act (and related Rule 19a-1). On September 27, 2007, SBFM and SBAM, without admitting or denying any findings therein, consented to the entry of an order by the SEC relating to the disclosure by certain other closed-end funds of the sources of distributions paid by the funds between 2001 and 2004. Each of SBFM and SBAM agreed to pay a fine of \$450,000, for which it was indemnified by Citigroup, Inc., its former parent. It is not expected that this matter will adversely impact the Fund or its current investment adviser.

**7. Recent Developments**

On May 21, 2007, the United States Supreme Court agreed to hear an appeal in *Department of Revenue of Kentucky v. Davis*, a case concerning the validity of statutes that create a state tax exemption for interest from municipal securities. The Kentucky Court of Appeals had held that Kentucky s statute, which provided an exemption for interest earned on municipal securities of Kentucky issuers while taxing interest earned on municipal securities of issuers in other states, violated the Interstate Commerce Clause of the United States Constitution. If the Supreme Court were to adopt the reasoning of the Kentucky Court of Appeals, its decision would affect the state tax status of fund distributions. It is unclear how such a decision would affect the market for municipal securities, but it could adversely affect the value of securities held by the Fund, and therefore of the Fund s shares. Such a decision could also prompt legislation at the state level that would have further impacts upon the taxability of Fund distributions and upon the market for municipal securities. The case was argued before the Supreme Court on November 5, 2007, but no decision has yet been issued.

**Notes to Financial Statements (unaudited) (continued)**

**8. Recent Accounting Pronouncements**

During June 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation 48 ( FIN 48 or the Interpretation ), *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109*. FIN 48 supplements FASB Statement 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. FIN 48 prescribes a comprehensive model for how a fund should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the fund has taken or expects to take on a tax return. FIN 48 requires that the tax effects of a position be recognized only if it is more likely than not to be sustained based solely on its technical merits. Management must be able to conclude that the tax law, regulations, case law, and other objective information regarding the technical merits sufficiently support the position's sustainability with a likelihood of more than 50 percent. FIN 48 is effective for fiscal periods beginning after December 15, 2006, which for this Fund was June 1, 2007. At adoption, the financial statements must be adjusted to reflect only those tax positions that are more likely than not to be sustained as of the adoption date. Management of the Fund has determined that adopting FIN 48 will not have a material impact on the Fund's financial statements.

\* \* \*

On September 20, 2006, FASB released Statement of Financial Accounting Standards No. 157 *Fair Value Measurements* ( FAS 157 ). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157.

**Board Approval of Management and Sub-Advisory Agreements Western Asset Managed Municipals Fund Inc. (unaudited)**

**Background**

The Investment Company Act of 1940 (the 1940 Act ) requires that the Board of Directors (the Board ) of Western Asset Managed Municipals Fund Inc. (the Fund ), including a majority of its members that are not considered to be interested persons under the 1940 Act (the Independent Directors ) voting separately, approve the continuation of the investment management contract (the Management Agreement ) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager ) and the sub-advisory agreement (the Sub-Advisory Agreement ) with the Manager's affiliate, Western Asset Management Company (the Subadviser ), on an annual basis. At a meeting (the Contract Renewal Meeting ) held in-person on November 13 and 14, 2007, the Board, including the Independent Directors, considered and approved continuation of each of the Management and Sub-Advisory Agreements for an additional one-year term. To assist in its consideration of the renewals of the Management and Sub-Advisory Agreements, the Board received and considered a variety of information about the Manager and Subadviser, as well as the management and sub-advisory arrangements for the Fund and other funds overseen by the Board (the Contract Renewal Information ), certain portions of which are discussed below. A presentation made by the Manager and Subadviser to the Board at the Contract Renewal Meeting in connection with its evaluations of the Management and Sub-Advisory Agreements encompassed the Fund and all the funds for which the Board has responsibility. In addition to the Contract Renewal Information, including information presented by management at the Contract Renewal Meeting, the Board received performance and other information throughout the year related to the respective services rendered by the Manager and the Subadviser to the Fund. The Board's evaluation took into account the information received throughout the year and also reflected the knowledge and familiarity gained as Board members of the Fund and other funds in the same complex with respect to the services provided to the Fund by each of the Manager and Subadviser.

The discussion below covers both advisory and administrative functions being rendered by the Manager, each function being encompassed by the Management Agreement, and the investment advisory functions being rendered by the Subadviser.

**Board Approval of Management Agreement and Sub-Advisory Agreement**

In its deliberations regarding renewal of the Management Agreement and Sub-Advisory Agreement, the Fund's Board, including the Independent Directors, considered the factors below.

**Nature, Extent and Quality of the Services under the Management Agreement and Sub-Advisory Agreement**

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Fund by the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreement, respectively, during

**Board Approval of Management and Sub-Advisory Agreements Western Asset Managed Municipals Fund Inc. (unaudited) (continued)**

the past year. The Board also reviewed Contract Renewal Information regarding the Fund's compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the Contract Renewal Information and the Board's discussions with the Manager at the Contract Renewal Meeting, the financial resources available to the parent organization of the Manager and Subadviser, Legg Mason, Inc. (Legg Mason).

The Board considered the responsibilities of the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreement, respectively, including the Manager's coordination and oversight of services provided to the Fund by the Subadviser and others. The Board also considered the Manager's and Subadviser's brokerage policies and practices, the standards applied in seeking best execution, the policies and practices of the Manager and Subadviser regarding soft dollars, the use of a broker affiliated with the Manager or the Subadviser, and the existence of quality controls applicable to brokerage allocation procedures. In addition, the Manager also reported generally to the Board on, among other things, its business plans, recent organizational changes, including Legg Mason's plans to address the pending retirement of its Chief Executive Officer, and the compensation plan for the Fund's portfolio managers.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Management Agreement and the Sub-Advisory Agreement have been satisfactory under the circumstances.

**Fund Performance**

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe consisted of all funds (including the Fund) classified by Lipper as closed-end preferred stock leveraged general municipal debt funds regardless of asset size or primary distribution channel. The Board noted that it had received and discussed with management information throughout the year at periodic intervals comparing the Fund's performance against its benchmark(s) and, at the Board's request, its peer funds as selected by Lipper.

The Lipper Performance Information comparing the Fund's performance to that of its Performance Universe showed, among other things, that the Fund's performance for the 3-, 5- and 10- year periods ended June 30, 2007 was in each case below the Performance Universe median but that its performance for the 1-year period ended June 30, 2007 was

**Board Approval of Management and Sub-Advisory Agreements Western Asset Managed Municipals Fund Inc. (unaudited) (continued)**

above the median for the Performance Universe. The Board considered the Manager's explanation of the underperformance relative to the Performance Universe. Among other things, the Manager noted that the Fund's present portfolio management team has been in place for a limited time and that the impact of its efforts may become more apparent only in future periods. In this regard, the Manager observed that the Fund's performance for the 1-year period ended June 30, 2007 reflected improvement following portfolio strategy adjustments by the present portfolio management team. In explaining the Lipper Performance Information, Management further noted that the Fund did not utilize leverage until July 2002, making 10-year comparisons with funds included in the Performance Universe that did utilize leverage during that period difficult.

Based on its review, which included consideration of all of the factors noted above, the Board concluded that it will continue to evaluate the Fund's performance and any further actions taken by the Manager and the Subadviser to continue to improve performance.

**Management Fees and Expense Ratios**

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager in light of the nature, extent and quality of the management and sub-advisory services provided by the Manager and the Subadviser. The Board noted that the compensation paid to the Subadviser is paid by the Manager, not the Fund, and, accordingly, that the retention of the Subadviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in both a relevant expense group (the Expense Universe) and a broader group of funds, each selected and provided by Lipper for the 1-year period ended June 30, 2007. The Expense Universe consisted of the Fund and all other closed-end preferred stock leveraged general municipal debt funds, excluding certain funds regarded by Lipper as inappropriate for comparative purposes. The Expense Universe consisted of eleven funds (including the Fund), having assets ranging from \$226.3 million to \$606.7 million.

The Lipper Expense Information, comparing the Management Fee as well as the Fund's actual total expenses to the Fund's Expense Universe, showed that the Management Fee, whether on a contractual basis or an actual basis (i.e., giving in effect to a voluntary fee waiver implemented by the Manager), was below the median for the Expense Universe. The Board noted that the Fund's actual total expenses were below the median for the Expense Universe on a common assets basis and at the median for the Expense Universe on a common and leveraged assets basis.

The Board also reviewed Contract Renewal Information regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, separate accounts. The Board was advised that the fees paid by such other clients generally are lower, and may be significantly lower, than the

**Board Approval of Management and Sub-Advisory Agreements Western Asset Managed Municipals Fund Inc. (unaudited) (continued)**

Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other fund service providers. The Board considered the fee comparisons in light of the differences required to manage these different types of accounts. The Contract Renewal Information included an analysis of complex-wide management fees provided by the Manager, which, among other things, set out a proposed framework of fees based on asset classes.

Taking all of the above into consideration, the Board determined that the Management Fee and the sub-advisory fee were reasonable in light of the nature, extent and quality of the services provided to the Fund under the Management Agreement and the Sub-Advisory Agreement.

**Manager Profitability**

The Board, as part of the Contract Renewal Information, received an analysis of the profitability to the Manager and its affiliates in providing services to the Fund. The Board also received profitability information with respect to the Legg Mason fund complex as a whole. In addition, the Board received Contract Renewal Information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data, together with a report from an outside consultant that had reviewed the Manager's methodologies. The profitability to the Subadviser was not considered to be a material factor in the Board's considerations since the Subadviser's fee is paid by the Manager, not the Fund. The profitability analysis presented to the Board as part of the Contract Renewal Information indicated that profitability to the Manager in providing services to the Fund had decreased during the periods covered by the analysis. Under the circumstances, the Manager's profitability was considered not excessive by the Board in light of the nature, extent and quality of the services provided to the Fund. However, the Board noted that the Manager had implemented a new revenue and cost allocation methodology in 2007 which was used in preparing the profitability analysis presented at the Contract Renewal Meeting and that the methodology was subject to further review and refinement. The Board consequently concluded that it would be appropriate to continue to monitor profitability in light of the parties' limited experience with the new allocation methodologies.

**Economies of Scale**

The Board received and discussed Contract Renewal Information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that because the Fund is a closed-end Fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan, any significant growth in its assets generally will occur through appreciation in the value of the Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board noted that the Management

**Board Approval of Management and Sub-Advisory Agreements Western Asset Managed Municipals Fund Inc. (unaudited) (continued)**

Fee is lower than the median of management fees paid by the other funds in the Expense Universe. The Board determined that the management fee structure was appropriate under present circumstances.

**Other Benefits to the Manager and the Subadviser**

The Board considered other benefits received by the Manager, the Subadviser and its affiliates as a result of their relationship with the Fund, including the opportunity to obtain research services from brokers who effect Fund portfolio transactions.

\* \* \* \* \*

In light of all of the foregoing, the Board determined that continuation of the Management and Sub-Advisory Agreements would be consistent with the interests of the Fund and its shareholders under the circumstances and unanimously voted to continue each Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of the Management and Sub-Advisory Agreements, and each Board member attributed different weights to the various factors. The Independent Directors were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum discussing its responsibilities in connection with the proposed continuation of the Management and Sub-Advisory Agreements from Fund counsel and the Independent Directors separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Directors also discussed the proposed continuation of the Management Agreement and the Sub-Advisory Agreement in private sessions with their independent legal counsel at which no representatives of the Manager were present.

**Results of Annual Meeting of Shareholders**

The Annual Meeting of Shareholders of Western Asset Managed Municipals Fund Inc. was held on September 18, 2007, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting:

**Election of Directors**

	<b>Common Shares Voted For Election</b>	<b>Common Shares Withheld</b>	<b>Preferred Shares Voted For Election</b>	<b>Preferred Shares Withheld</b>
<b>Nominees</b>				
Daniel P. Cronin	39,704,908	781,043	9,855	5
Jeswald W. Salacuse	N/A	N/A	9,855	5

At November 30, 2007, in addition to Daniel P. Cronin and Jeswald W. Salacuse, the other Directors of the Fund were as follows:

Carol L. Colman

Paolo M. Cucchi

Leslie H. Gelb

R. Jay Gerken

William R. Hutchinson

Dr. Riordan Roett

**Dividend Reinvestment Plan (unaudited)**

Under the Fund's Dividend Reinvestment Plan ( Plan ), a shareholder whose shares of common stock are registered in his own name will have all distributions from the Fund reinvested automatically by American Stock Transfer & Trust Company ( AST ), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of AST as dividend paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds 98% of the net asset value per share of the common stock on the determination date (generally, the record date for the distribution), Plan participants will be issued shares of common stock by the Fund at a price equal to the greater of 98% of net asset value or 95% of the market price of the common stock.

If the market price of the common stock is less than 98% of the net asset value of the common stock at the time of valuation (which is the close of business on the determination date), AST will buy common stock in the open market, on the NYSE or elsewhere, for the participants accounts. If following the commencement of the purchases and before AST has completed its purchases, the market price exceeds the net asset value of the common stock as of the valuation time, AST will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) 98% of net asset value as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent AST is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by AST may exceed the net asset value of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in common stock issued by the Fund at such net asset value. AST will begin to purchase common stock on the open market as soon as practicable after the determination date for the dividend or capital gains distribution, but in no event shall such purchases continue later than 30 days after the payment date for such dividend or distribution, or the record date for a succeeding dividend or distribution, except when necessary to comply with applicable provisions of the federal securities laws.

AST maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common stock in the account of each Plan participant will be held by AST in uncertificated form in the name of the Plan participant.

**Dividend Reinvestment Plan (unaudited) (continued)**

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions under the Plan. AST's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the Fund. No brokerage charges apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The Plan also may be amended or terminated by AST, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. All correspondence concerning the plan should be directed by mail to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038 or by telephone at 1 (877) 366-6441.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that from time to time the Fund may purchase, at market prices, shares of its common stock in the open market.

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ( SEC ) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at [www.sec.gov](http://www.sec.gov). The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. To obtain information on Form N-Q from the Fund, shareholders can call Shareholder Services at 1-800-451-2010.

Information on how the Fund voted proxies relating to portfolio securities during the prior 12-month period ended June 30th of each year and a description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio transactions are available (1) without charge, upon request, by calling 1-800-451-2010, (2) on the Fund's website at [www.leggmason.com/individualinvestors](http://www.leggmason.com/individualinvestors) and (3) on the SEC's website at [www.sec.gov](http://www.sec.gov).
