**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

September 30, 2008 (Unaudited)

**1. BASIS OF PRESENTATION**

The accompanying unaudited interim consolidated financial statements include the accounts of BIO-key International, Inc. and its wholly owned subsidiary (collectively, the Company) and are stated in conformity with accounting principles generally accepted in the United States of America, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). The operating results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year. Pursuant to such rules and regulations, certain financial information and footnote disclosures normally included in the financial statements have been condensed or omitted. Significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited interim consolidated financial statements contain all necessary adjustments, consisting only of those of a recurring nature, and disclosures to present fairly the Company's financial position and the results of its operations and cash flows for the periods presented. The balance sheet at December 31, 2007 was derived from the audited financial statements, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the financial statements and the related notes thereto included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2007 (the Form 10-KSB).

*Recently Issued Accounting Pronouncements*

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157), which is effective for calendar year companies on January 1, 2008. This Statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The adoption of SFAS 157 had no impact on the Company's financial condition and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, (SFAS 159), which is effective for calendar year companies on January 1, 2008. This Statement allows an entity the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on a contract-by-contract basis. Subsequent changes in fair value of these financial assets and liabilities would be recognized in earnings when they occur. SFAS 159 further establishes certain additional disclosure requirements. The adoption of SFAS 159 had no impact on the Company's financial condition and results of operations.

## Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

In December 2007, the SEC issued SAB No. 110. SAB 110 allows for the continued use of a simplified method, as discussed in SAB No. 107, in developing an estimate of expected term of plain vanilla share options in accordance with SFAS 123 (revised 2004). Originally the SEC staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. Accordingly, the SEC staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007. The Company will continue to use the simplified method for determining the value of options granted as allowed by SAB 110.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* (SFAS No. 141(R)) which establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS No. 141(R) also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The

Table of Contents

provisions of SFAS No. 141(R) are applicable to business combinations consummated on or after December 15, 2008 with early adoption prohibited.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS No. 160) which establishes accounting and reporting standards for the noncontrolling interest in a subsidiary for the deconsolidation of a subsidiary. SFAS No. 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim statements within those fiscal years. The Company does not currently have any noncontrolling interests.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. (SFAS No.161) which amends and expands the disclosure requirements related to derivative instruments and hedging activities. The Statement requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The provisions of SFAS 161 are effective for the fiscal year beginning January 1, 2009. The company will comply with the disclosure requirements of this statement if it utilizes derivative instruments or engages in hedging activities upon its effectiveness.

*Reclassifications*

Certain amounts in the 2007 consolidated financial statements have been reclassified to conform to the 2008 presentation. These reclassifications had no effect on the previously reported net loss or stockholders' deficit.

## 2. LIQUIDITY AND CAPITAL RESOURCE MATTERS

We have only recently begun to generate significant revenues and have incurred significant losses to date, and at September 30, 2008, we had an accumulated deficit of approximately \$56 million. In addition, broad commercial acceptance of our technology is critical to the Company's success and ability to generate future revenues.

If the Company is unable to generate sufficient revenue to meet our goals, we will need to obtain additional third-party financing to (i) conduct the sales, marketing and technical support necessary to execute our plan to substantially grow operations, increase revenue and serve a significant customer base; and (ii) provide working capital. No assurance can be given that any form of additional financing will be available on terms acceptable to the Company, that adequate financing will be obtained by the Company in order to meet its needs, or that such financing would not be dilutive to existing shareholders.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which contemplate continuation of the Company as a going concern, and assumes continuity of operations, realization of assets and the

satisfaction of liabilities and commitments in the normal course of business. The matters described in the preceding paragraphs raise substantial doubt about the Company's ability to continue as a going concern. Recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheets is dependent upon the Company's ability to meet its financing requirements on a continuing basis and become profitable in its future operations. The accompanying condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

### 3. DISCONTINUED OPERATIONS

On May 22, 2007, the Company and ZOLL Data Systems, Inc. ( ZOLL ), a subsidiary of ZOLL Medical Corporation, entered into an Asset Purchase Agreement (the Purchase Agreement ), pursuant to which

Table of Contents

ZOLL acquired substantially all of the assets related to the Company's Fire/EMS Services division (the "Fire Segment" or "Fire").

At the closing of the sale, the Company received approximately \$1.8 million in cash, which represented the purchase price of \$7 million, less closing adjustments of approximately \$4.3 million, which was paid to the Senior Noteholder (see Note 9), approximately \$450,000, which was paid to the leaseholder of the Company's premises, \$400,000, which was placed in escrow pursuant to the Purchase Agreement, and approximately \$40,000 credited to Zoll on the assumption of certain liabilities.

During the quarter ended September 30, 2007, \$250,000 of the escrow balance was released to ZOLL. The remaining escrow balance was remitted to the Company May 6, 2008. From the remaining balance, \$50,000 was paid as a settlement of a customer claim associated with the discontinued Fire business, and \$15,454 was paid as related professional fees to settle the claim which resulted in the \$65,454 loss.

Prior to the sale, Fire had been reported as a separate segment. The Company sold its Fire operating segment to better focus on its core lines of business. The Fire business has been reported as a discontinued operation in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, and all periods presented have been recast accordingly to reflect these operations as discontinued.

Revenues and net income (loss) for the Fire Segment for the three and nine month periods ended September 30, 2008 and 2007 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Revenues	\$	\$	\$	\$ 1,546,746
Net income (loss)			(65,454)	440,105

#### 4. SHARE BASED COMPENSATION

The Company accounts for share based compensation in accordance with the provisions of SFAS 123R, which requires measurement of compensation cost for all stock awards at fair value on date of grant and recognition of compensation over the service period for awards expected to vest. The majority of our share-based compensation arrangements vest over either a three or four year vesting schedule. The Company expenses its share-based compensation under the ratable method, which treats each vesting tranche as if it were an individual grant. The fair value of stock options is determined using the Black-Scholes valuation model, and requires the input of highly subjective assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (the "expected option term"), the estimated volatility of our common stock price over the option's expected term, the risk-free interest rate over the option's expected term, and the Company's expected annual dividend yield. Changes in these subjective assumptions can materially affect the estimate of fair value of stock-based compensation and consequently, the related amount recognized as an expense in the consolidated statements of operations. As required under the accounting rules, we review our valuation assumptions at each grant date and, as a result, are likely to change our valuation assumptions used to value employee stock-based awards granted in future periods. The values derived from using the Black-Scholes model are recognized as expense over the service period, net of estimated forfeitures (the number of individuals that will ultimately not complete their vesting requirements). The estimation of stock awards that will ultimately vest requires significant judgment. We consider many factors when estimating expected forfeitures, including types of awards, employee class, and historical experience. Actual results, and future changes in estimates, may differ substantially from our current estimates.

The compensation expense recognized under SFAS 123R increased the Company's loss from continuing operations by \$50,532 and \$145,173 with no effect per share (basic and diluted) for the three months ended September 30, 2008 and 2007 respectively, and \$382,733 and \$534,157 with a \$0.01 effect per share (basic and diluted), for the nine months ended September 30, 2008 and 2007 respectively.

## *Valuation Assumptions for Stock Options*

For the three months ended September 30, 2008 and 2007, 195,000 and 137,000 stock options were granted, respectively. For the nine months ended September 30, 2008 and 2007, 759,272 and 290,000 stock options were granted, respectively. The fair value of each option was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

The stock volatility for each grant is determined based on the review of the experience of the weighted average of historical daily price changes of the Company's common stock over the expected option term. The expected term was determined using the simplified method for estimating expected option life, which qualify as plain-vanilla options; and the risk-free rate is based on the U.S. Treasury yield curve in effect at the time

of grant for periods corresponding with the expected life of the option.

EQUITY COMPENSATION PLAN INFORMATION

*1996 Stock Option Plan*

During 1996, the Board of Directors and stockholders of the Company adopted the 1996 Stock Option Plan (the 1996 Plan ). Under the 1996 Plan, 750,000 shares of common stock are reserved for issuance to employees, officers, directors, and consultants of the Company at exercise prices which may not be below 100% of fair market value for incentive stock options and 50% for all others. The term of stock options granted may not exceed ten years. Options issued under the 1996 Plan vest pursuant to the terms of stock option agreements with the recipients. In the event of a change in control, as defined, all options outstanding vest immediately. The 1996 Plan expired in May 2005.

*1999 Stock Option Plan*

During 1999, the Board of Directors of the Company adopted the 1999 Stock Option Plan (the 1999 Plan ). The 1999 Plan was not presented to stockholders for approval and thus incentive stock options are not available under the plan. Under the 1999 Plan, 2,000,000 shares of common stock are reserved for issuance to employees, officers, directors, and consultants of the Company at exercise prices which may not be below 85% of fair market value. The term of nonstatutory stock options granted may not exceed ten years. Options issued under the 1999 Plan vest pursuant to the terms of stock option agreements with the recipients. In the event of a change in control, as defined, all options outstanding vest immediately. The 1999 Plan expires in August 2009.

*2004 Stock Option Plan*

On October 12, 2004, the Board of Directors of the Company approved the 2004 Stock Option Plan (the 2004 Plan ). The 2004 Plan has not yet been presented to stockholders for approval and thus incentive stock options are not available under this plan. Under the terms of the 2004 Plan, 4,000,000 shares of common stock are reserved for issuance to employees, officers, directors, and consultants of the Company at exercise prices which may not be below 85% of fair market value. The term of stock options granted may not exceed ten years. Options issued under the 2004 Plan vest pursuant to the terms of stock option agreements with the recipients. In the event of a change in control, as defined, all options outstanding vest immediately. The 2004 Plan expires in October 2014.

*Non-Plan Stock Options*

Periodically, the Company has granted options outside of the 1996, 1999, and 2004 Plans to various employees and consultants. In the event of change in control, as defined, certain of the non-plan options outstanding vest immediately.

*Stock Option Activity*

\$ 0.11-1.62	7,617,941			6,759,902	

The aggregate intrinsic value in the table above represents the total intrinsic value, based on the Company's closing stock price of \$0.10 as of September 30, 2008, which would have been received by the option holders had all option holders exercised their options as of that date. There were no in-the-money options exercisable as of September 30, 2008.

The weighted average fair value of options, as determined under SFAS No.123R, granted during the three months ended September 30, 2008 and 2007 was \$0.11 and \$0.07 per share, respectively, and during the nine months ended September 30, 2008 and 2007 was \$0.11 and \$0.13 per share, respectively.

As of September 30, 2008 future compensation cost related to nonvested stock options is approximately \$145,406 and will be recognized over an estimated weighted average period of approximately 1.12 years.

5. EARNINGS (LOSS) PER SHARE COMMON STOCK ( EPS )

The Company's basic EPS is calculated using net income (loss) available to common shareholders and the weighted-average number of shares outstanding during the reporting period. Diluted EPS includes the effect from potential issuance of common stock, such as stock issuable pursuant to the exercise of stock options and warrants and the assumed conversion of convertible notes and preferred stock. For the three and nine months ended September 30, 2008 and 2007, diluted per share computations are not presented since this effect would be antidilutive.

## Table of Contents

The reconciliation of the numerators of the basic and diluted EPS calculations was as follows for both of the following three and nine month periods ended September 30:

	Three Months ended September 30,		Nine Months ended September 30,	
	2008	2007	2008	2007
<b>Numerator:</b>				
Loss from continuing operations	\$ (44,968)	\$ (1,190,615)	\$ (726,927)	\$ (4,950,681)

## 7. GOODWILL AND OTHER INTANGIBLE ASSETS

The Company's goodwill resulted from the acquisition of Public Safety Group, Inc. and certain assets and assumed liabilities of the Mobile Government Division of Aether Systems, Inc. in 2004. As provided by SFAS No. 142, the Company has elected to perform the annual assessment of the carrying value of all goodwill as of September 30<sup>th</sup> of each year using a number of criteria, including the value of the overall enterprise. Impairment charges from existing operations or other acquisitions, if any, are reflected as an operating expense in the statement of operations. As of September 30, 2008 goodwill totaled \$7,836,986.

Other intangible assets as of September 30, 2008 consisted of the following:

	September 30, 2008			December 31, 2007		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount

Aggregate amortization expense for the three months ended September 30, 2008 and 2007, was \$187,815 and \$203,818 respectively, and was \$556,528 and \$571,847 for the nine months ended September 30, 2008 and 2007 respectively.

**8. INVESTMENTS**

## Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

During 2005, BIO-key was issued shares in a private company, which specialized in providing security products and associated software. There was no cost to the investment for these shares, and because BIO-key had a minimal ownership interest in the company and was unable to exhibit any influence on the company's management or board, BIO-key treated the investment on the cost basis as promulgated under APB 18, *Equity Method of Accounting for Investments in Common Stock*.

## Table of Contents

In February 2008, the above mentioned private company consummated a reverse merger with a publicly traded US company. As a result of the merger, BIO-key's investment was converted into shares of the public company. This change in circumstances enabled the fair value of the investment to be readily determinable under the provisions of FAS 115, *Accounting for Certain Investments in Debt and Equity Securities*. Accordingly, BIO-key now classifies its investment as an available-for-sale security, and accounts for it at its market value as specified on a securities exchange.

Unrealized gains and temporary losses on investments classified as available-for-sale are included within accumulated other comprehensive income, net of any related tax effect. Upon realization, those amounts are reclassified from accumulated other comprehensive income to investment income. Realized gains and losses and other than temporary impairments on investments are reflected in the income statement in investment income or expense. Gains or losses are calculated primarily using the first-in, first-out method.

The following table summarizes our investment at September 30, 2008 and December 31, 2007. The investment is classified within current assets in the balance sheet. Fair value for publicly-traded available-for-sale investments is determined based upon quoted prices. Fair value is not readily available for privately-held investments.

	September 30, 2008		December 31, 2007	
	Cost	Fair Value	Cost	Fair Value
Available-for-sale security	\$	\$ 1,109	\$	\$
Balance as of September 30, 2008	\$	\$ 1,109	\$	\$

Unrealized gain on the available-for-sale security was \$1,109 at September 30, 2008. Realized gain on the available-for-sale security was \$118,631 at September 30, 2008.

## 9. CONVERTIBLE DEBT FINANCING / WARRANTS

Long-term obligations consisted of the following as of:

	September 30, 2008	December 31, 2007
<b>2004</b>		
FMV of warrants	\$ 1,885	\$ 11,663
<b>2005</b>

## Senior Convertible Term Notes

**2004 and 2005 Senior Notes**

On September 29, 2004, the Company entered into a Securities Purchase Agreement (the "2004 Senior Purchase Agreement") with Laurus Master Fund, Ltd. ("Laurus") to issue secured convertible term notes in the aggregate principal amount of \$5,050,000. On June 8, 2005, we entered into a second Securities Purchase Agreement (the "2005 Senior Purchase Agreement") with Laurus.

Table of Contents

On May 22, 2007, the Company used approximately \$4,300,000 of the net cash proceeds received in connection with the sale of the Fire Segment (see Note 3) to repay in full its obligations to Laurus under the 2004 and 2005 Senior Notes.

The account balance shown represents the fair market value of warrants issued in conjunction with debt offerings undertaken from the 2004 to 2006 fiscal years. The Warrants are classified as liabilities and were valued as of September 30, 2008, using the Black Scholes Option Pricing model with the following assumptions: dividend yield of 0%; annual volatility of 91% to 108% and risk-free interest rate of 2.4% to 2.8%.

**2004 and 2005 Senior Note Derivatives and Discounts**

The 2004 and 2005 Senior Notes contained features that were considered embedded derivative financial instruments, such as: Principal s conversion option, Monthly Payments Conversion Option, Interest Rate Adjustment provision, and the Default provision. These features were bifurcated and recorded on the Company s balance sheet at their fair value.

Following the repayment of the 2004 and 2005 Senior Notes on May 22, 2007, the value of the embedded derivatives and amortized discounts related to the Notes were written off to Loss on Extinguishment of Debt.

10. ACCRUED LIABILITIES

Accrued liabilities consisted of the following:

	September 30, 2008	December 31, 2007
Contract costs not yet invoiced by vendors	\$ 118,805	\$ 2,185,610

Interest	176,083	176,083
Other	186,732	160,853
Total	\$ 1,273,235	\$ 3,401,749

11. NOTES PAYABLE

On July 28, 2008, the Company entered into a Settlement and Mutual Release Agreement (the Settlement Agreement ) with a vendor in order to resolve all matters relating to invoices totaling approximately \$2,350,000 that the Company received in January 2008 for materials that had been delivered by the vendor, as a subcontractor on a long-term project for which the Company had served as the prime contractor. Pursuant to the Settlement Agreement, the parties agreed to a payment schedule under which the Company will be required to satisfy this outstanding balance, plus interest at seven percent (7%) per annum on the unpaid portion of the balance, in full on or before June 1, 2009. In return, the vendor agreed to forbear from exercising any of its rights and remedies against the Company with respect to these amounts so long as the Company remains in compliance with its obligations under of the Settlement Agreement. As of September 30, 2008 the remaining balance due was \$1,854,383.

12. REDEEMABLE PREFERRED STOCK

**Series B Convertible Preferred Stock**

The Company issued 1,000,000 shares of redeemable Series B Convertible Preferred Stock on February 23, 2006, upon the conversion of certain convertible term notes. Each share of Series B Preferred Stock has an Original Issue Price of \$1.00 per share. The holder has the option to redeem the shares of Series B Preferred Stock at any time for a number of shares of the Company's common stock equal to the Original Issue Price plus accumulated and unpaid dividends divided by the fixed conversion price of \$0.30 per share of Common. The conversion price is subject to adjustment if common stock is issued by the Company subsequent to the original issue date of the Series B Preferred Stock, except for other conversions, options, warrants, dividends paid in stock or pursuant to an acquisition by the Company, at a price less than the conversion price. Mandatory conversion of all Series B shares will be automatic if, for the 30 trading days prior to January 1, 2009, the average closing bid price for one share of common stock is at least \$1.10. The shares shall be converted at the conversion price then in effect. If the average bid price for the 30 trading days prior to January 1, 2009 per common share is less than \$1.10 the Company shall mandatorily redeem all remaining outstanding Series B Preferred Stock by paying cash equal to \$1.00 per share with all accrued and unpaid dividends. The Company may, at its election, redeem any or all of the remaining outstanding Series B shares in cash at a conversion price equal to \$1.20 per share, together with all accrued and unpaid dividends upon giving 30 day notice. Holders of the Series B Preferred Stock are entitled to cumulative, prior and in preference to holders of common stock dividends equal to 15% per annum of the Original Purchase Price still outstanding, payable quarterly. In any liquidation of the Company, each share of Preferred Stock is entitled to a liquidation preference on a pari passu basis with the Series A and Series C Preferred Stock before any distribution may be made on the Company's common stock.

As of September 30, 2008, 1,000,000 shares of Series B Preferred Stock were authorized, 970,612 of which were issued and outstanding, at a par value of \$0.0001 and a liquidation preference of \$1.00 with accumulated dividends in arrears of \$37,207, which have been accreted to the principal balance of the Series B preferred stock.

The Preferred Stock contains features that are considered embedded derivative financial instruments: Preferred Stock's conversion option: The Preferred Stock is convertible at the Holder's option at any time at the fixed conversion price of \$0.30 per share; Quarterly Dividends Conversion Option: Holders have the option to convert the Stock's quarterly dividend payment at a conversion price of the average 10 days closing price prior to the dividend record date. These features have been bifurcated and recorded on the Company's balance sheet at their fair value.

As of September 30, 2008 the derivatives were valued at \$439. Conversion related derivatives were valued using the Binomial Option Pricing Model with the following assumptions: dividend yield of 15%; annual volatility of 49%; and risk free annual interest rate of 0.92% as well as probability analysis related to trading volume restrictions.

An amount equal to the original value of the derivatives was recorded as a discount to the Preferred Stock. The discount is being accreted to the principal balance of the Preferred Stock, using the effective interest method, over the expected term of the Preferred Stock. At September 30, 2008, the unamortized discount on the Preferred Stock was \$31,620.

**Series C Convertible Preferred Stock**

The Company issued 592,032 shares of redeemable Series C Convertible Preferred Stock on August 10, 2006, upon the exchange of certain convertible term notes. Each share of Series C Preferred Stock has an Original Issue Price of \$10.00 per share. The holder has the option to redeem the shares of Series C Preferred Stock at any time for a number of shares of the Company's common stock equal to the Original Issue Price plus accumulated and unpaid dividends divided by the fixed conversion price of \$0.30 per share of Common Stock. The conversion price is subject to adjustment if common stock is issued by the Company subsequent to the original issue date of the Series C Preferred Stock, except for other conversions, options, warrants, dividends paid in stock or pursuant to an acquisition by the Company, at a price less than the conversion price. Mandatory conversion of all Series C shares will be automatic if, for the 30 trading days prior to January 1, 2009, the average closing bid price for one share of common stock is at least \$1.20. The shares shall be converted at the conversion price then in effect. If the average bid price for the 30 trading days prior to January 1, 2009 per common share is less than \$1.20 the Company shall

Table of Contents

mandatorily redeem all remaining outstanding Series C preferred stock by paying cash equal to \$10.00 per share with all accrued and unpaid dividends. The Company may, at its election, redeem any or all of the remaining outstanding Series C shares in cash at a conversion price equal to \$12.00 per share, together with all accrued and unpaid dividends upon giving 30 day notice. Holders of the Series C preferred stock are entitled to cumulative, prior and in preference to holders of common stock dividends equal to 15% per annum of the Original Purchase Price still outstanding, payable quarterly. In any liquidation of the Company, each share of Preferred Stock is entitled to a liquidation preference on a pari passu basis with the Series A and Series B Preferred Stock before any distribution may be made on the Company's common stock.

As of September 30, 2008, 600,000 Shares of Series C Preferred Stock were authorized, 592,032 of which were issued and outstanding, at a par value of \$0.0001 and a liquidation preference of \$10.00 with accumulated dividends in arrears of \$482,220, which have been accreted to the principal balance of the Series C Preferred Stock.

The Preferred Stock contains features that are considered embedded derivative financial instruments: Preferred Stock's conversion option: The Preferred Stock is convertible at the Holder's option at any time at the fixed conversion price of \$0.30 per share; Quarterly Dividends Conversion Option: Holders have the option to convert the Stock's quarterly dividend payment at a conversion price of the average 10 days closing price prior to the dividend record date. These features have been bifurcated and recorded on the Company's balance sheet as liabilities, at their fair value.

As of September 30, 2008 the derivatives were valued at \$1,805. Conversion related derivatives were valued using the Binomial Option Pricing Model with the following assumptions: dividend yield of 15%; annual volatility of 49%; and risk free annual interest rate of 0.92% as well as probability analysis related to trading volume restrictions.

An amount equal to the original value of the derivatives was recorded as a discount to the Preferred Stock. The discount is being accreted to the principal balance of the Preferred Stock, using the effective interest method, over the expected term of the Preferred Stock. At September 30, 2008, the unamortized discount on the Preferred Stock was \$112,361.

Together with the above transaction, the terms of certain warrants held by the Company's investment bankers and their associates were modified. The incremental value of the modification was calculated to be \$110,453, and was allocated against the proceeds of the Series C Convertible Preferred Stock as a cost of financing, and is being accreted to the principal balance of the Preferred Stock, using the effective interest method, over the expected term of the term of the Preferred Stock. At September 30, 2008, the net amount remaining to be accreted was \$11,562.

## 13. STOCKHOLDERS EQUITY

Common Stock

The Company is authorized to issue 170,000,000 shares of common stock, \$0.0001 par value per share, of which 65,853,492 were outstanding as of September 30, 2008.

Holders of common stock have equal rights to receive dividends when, as and if declared by the Board of Directors, out of funds legally available therefor. Holders of common stock have one vote for each share held of record and do not have cumulative voting rights.

Holders of common stock are entitled, upon liquidation of the Company, to share ratably in the net assets available for distribution, subject to the rights, if any, of holders of any preferred stock then outstanding. Shares of common stock are not redeemable and have no preemptive or similar rights. All outstanding shares of common stock are fully paid and nonassessable.

Table of Contents

During the three months and the nine months ended September 30, 2008, preferred stockholders converted accumulated dividends of \$313,747 into 1,940,109 shares and accumulated dividends of \$656,096 into 4,700,290 shares of the Company's common stock respectively.

Series A Convertible Preferred Stock

Within the limits and restrictions provided in the Company's Certificate of Incorporation, the Board of Directors has the authority, without further action by the shareholders, to issue up to 5,000,000 shares of preferred stock, \$.0001 par value per share, in one or more series, and to fix, as to any such series, any dividend rate, redemption price, preference on liquidation or dissolution, sinking fund terms, conversion rights, voting rights, and any other preference or special rights and qualifications.

In March 2004, we designated 100,000 shares of preferred stock as Series C Convertible Preferred Stock. In connection with the Company's reincorporation in Delaware on January 1, 2005, each share of Series C Convertible Preferred Stock was automatically converted into one share of Series A Convertible Preferred Stock (the "Series A Shares"), of which 30,557 were issued and outstanding September 30, 2008.

The Series A Shares accrue a cumulative annual dividend of 7% on the \$100 face amount of such shares payable June 15 and December 15 each year in shares of common stock. In the event of a liquidation, dissolution or winding up of the Company, the Series A shares have a liquidation preference of \$100 per share (plus all accrued and unpaid dividends thereon) prior to any payment or distribution to holders of our common stock. The Series A Shares are convertible into common stock at a conversion price of \$0.30 per share. The conversion price is subject to proportional adjustment in the event of stock splits, stock dividends or reclassifications. Subject to certain exceptions, in the event we issue additional shares of common stock at a purchase price less than the conversion price of the Series A Shares, the conversion price shall be lowered to such lesser price. In the event that the average closing bid price of our common stock is less than \$1.00 per share for thirty (30) consecutive trading days at any time after November 17, 2008, we will be required to redeem the Series A Shares by payment of \$100 per share plus all accrued and unpaid dividends due thereon.

We are required to obtain the consent of the holders of a majority of the Series A Shares in order to, among other things, issue any shares of preferred stock that are equal to or have a preference over the Series A shares or issue any shares of preferred stock, rights, options, warrants, or any other securities convertible into common stock of the Company, other than those issued to employees of the Company in the ordinary course of their employment or to consultants or other persons providing services to the Company so long as such issuances do not exceed 500,000 shares of common stock. We are also required to obtain such consent in order to, among other things, complete a sale or other disposition of any material assets, complete an acquisition of a material amount of assets, engage in a merger, reorganization or consolidation, or incur or guaranty any indebtedness in excess of \$50,000.

As of September 30, 2008, cumulative dividends in arrears related to the Series A preferred stock were approximately \$406,754, which have been accreted to the principal balance of the Series A preferred stock.

## 15. SEGMENT INFORMATION

The Company's consolidated operations are divided into two segments: Law and Biometric. The Company evaluates performance and allocates resources based on revenues and operating income (loss). Operating income (loss) for each segment includes selling, general and administrative expenses directly attributable to the segment in addition to those allocated as a percentage based on the segment's budgeted revenues. The segmentation of operating income (loss) as noted above and detailed below reflects how management now evaluates its business. Assets for the company are commingled and are related to all operating segments. Management does not evaluate or identify the operating assets of the segments separately.

Prior to the sale of the Fire business in May 2007, Fire had been reported as a separate segment. Prior periods presented have been recast accordingly to reflect these operations as discontinued. Geographically, North American sales accounted for approximately 96% and 100% of the Company's total sales for the three month periods and 97% and 100% for the nine month periods ended September 30, 2008 and 2007 respectively.

Summarized financial information concerning our reportable segments is shown in the following table:

16. INCOME TAXES

On January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 *Accounting for the Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* ( FIN No. 48 ). FIN No. 48 requires that the impact of tax positions be recognized in the financial statements if they are more likely than not of being sustained based on the technical merits of the position. The Company has a valuation allowance against the full amount of its net deferred taxes. The Company currently provides a valuation allowance against deferred taxes when it is more likely than not that some portion, or all of its deferred tax assets will not be realized.

As a result of the implementation of FIN No. 48, the Company reduced its deferred tax assets and the associated valuation allowance for gross unrecognized tax affected benefits by approximately \$4,000,000. There was no adjustment to accumulated deficit as a result of these unrecognized tax benefits since there was a full valuation allowance against the related deferred tax assets. If these unrecognized tax benefits are ultimately recognized, they would have no impact on the effective tax rate due to the existence of the valuation allowance.

The Company has not been audited by the Internal Revenue Service ( IRS ) or any states in connection with income taxes. The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The periods from 2005-2007 remain open to examination by the IRS and state jurisdictions. The Company believes it is not subject to any tax risk beyond the preceding discussion. The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. The Company does not have any accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the three and nine months ended September 30, 2008 and 2007.

These factors are not intended to represent a complete list of the general or specific factors that may affect us. It should be recognized that other factors, including general economic factors and business strategies may be significant, presently or in the future. Except as required by law, we undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.

### OVERVIEW

## Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

BIO-key develops and delivers advanced identification solutions and information services to customers in both the private sector and government, including law enforcement departments, and public safety agencies. Our high-performance, yet easy-to-deploy biometric finger identification technology accurately identifies and authenticates users of wireless and enterprise data, improving security, convenience and privacy while reducing identity theft. Our mobile wireless technology provides first responders with critical, reliable, real-time data and images from local, state and national databases. Today, over 750 police departments in North America depend on BIO-key solutions, making us one of the leading suppliers of mobile and wireless solutions for public safety worldwide

On March 30, 2004, BIO-key acquired Public Safety Group, Inc. (PSG), a privately held company that was a leader in wireless solutions for law enforcement and public safety markets. PSG's primary technology was PocketCop, a handheld solution that provides mobile police officers, such as detectives who are not typically in their vehicles, a hand-held mobile information software solution.

On September 30, 2004, BIO-key acquired Aether Systems, Inc.'s Mobile Government Division ( Mobile Government or AMG ), a leading provider of wireless data solutions for use by public safety organizations, primarily state, local police, fire and rescue and emergency medical services organizations. Our PacketCluster mobile information software, originally acquired as part of this transaction, is integrated with 50 separate State/NCIC databases, as well as other state, local and federal databases. Its open architecture and its published Application Programming Interface (API) make it easy to interface with a wide range of information sources. PacketCluster products deliver real-time information in seconds, freeing dispatchers to handle more pressing emergencies.

On May 22, 2007, BIO-key completed a transaction with ZOLL Data Systems, Inc. ( ZOLL ), a subsidiary of ZOLL Medical Corporation, in which ZOLL acquired substantially all of the assets related to the Company's Fire/EMS Services division.

**CRITICAL ACCOUNTING POLICIES**

For detailed information on our critical accounting policies and estimates, see our financial statements and notes thereto included in this Report and in our Annual Report on Form 10-KSB, for the fiscal year ended December 31, 2007. There have been no material changes to our critical accounting policies and estimates from those disclosed in our 10-KSB filed on March 26, 2008.

**RECENT ACCOUNTING PRONOUNCEMENTS**

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157), which is effective for calendar year companies on January 1, 2008. This Statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. Management has adopted SFAS 157. The adoption of SFAS 157 had no impact on the Company's financial condition and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which is effective for calendar year companies on January 1, 2008. The statement allows an entity the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on a contract-by-contract basis. Subsequent changes in fair value of these financial assets and liabilities would be recognized in earnings when they occur. SFAS 159 further establishes certain additional disclosure requirements. The adoption of SFAS 159 had no impact on the Company's financial condition and results of operations.

In December 2007, the SEC issued SAB No. 110. SAB 110 allows for the continued use of a simplified method, as discussed in SAB No. 107, in developing an estimate of expected term of plain vanilla share options in accordance with SFAS 123 (revised 2004). Originally the SEC staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. Accordingly, the SEC staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007. The Company will continue to use of the simplified method for determining the value of options granted as allowed by SAB 110.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* (SFAS No. 141(R)) which establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS No. 141(R) also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The provisions of SFAS No. 141(R) are applicable to business combinations consummated on or after December 15, 2008 with early adoption prohibited.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS No. 160) which establishes accounting and reporting standards for the noncontrolling interest in a subsidiary for the deconsolidation of a subsidiary. SFAS No. 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim statements within those fiscal years. The Company does not currently have any noncontrolling interests.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. (SFAS No.161) which amends and expands the disclosure requirements related to derivative instruments and hedging activities. The Statement requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The provisions of SFAS 161 are effective for the fiscal year beginning January 1, 2009. The company will comply

**INTRODUCTION**

## Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

Over the past few years, the Company has integrated the products, operations and technology acquired from PSG and AMG and restructured its operations into three business segments: Biometrics, Law Enforcement and Fire Safety, the last of which was sold in May 2007 to ZOLL. Our Biometrics and Law Enforcement segments are headed by a General Manager and are organized to quickly respond to market needs as well as to drive down costs to achieve profitability.

A detailed analysis of both segments can be found below.

The Company evaluates performance and allocates resources based on revenues and operating income (loss). Operating income (loss) for each segment includes selling, general and administrative expenses directly attributable to the segment in addition to those allocated as a percentage based on the segments revenues and other factors. The segmentation of operating income as noted above and detailed below reflects how management now evaluates its business. Assets for the Company are commingled and are related to all operating segments. Management does not evaluate or identify the operating assets of the segments separately.

**Revenues**
Law Enforcement

Service revenue for the segment for the three month period ended September 30, 2008 increased by 18% as a result of increased maintenance revenue from new license orders.

License and other revenue for the three month period ended September 30, 2008 increased 68% from the same period in 2007. The increase in the 2008 revenue was due to an increase in the size and volume of orders including a \$175,000 order from an existing customer.

Biometrics

For the three months ended September 30, 2008, Service revenue increased 370% from the same period in 2007 as a result of maintenance revenue associated with new license orders.

License and other revenue for the three months ended September 30, 2008 increased 49% as a result of revenue generated from a new international customer, as well as additional license revenue from existing customers.

Table of Contents

*Costs of goods sold*

Law Enforcement

Cost of services for the three months ended September 30, 2008 decreased approximately 18% from the same period in 2007 due to lower personnel related expenses.

Cost of licenses for the three months ended September 30, 2008 increased by approximately 7% from the same period in 2007 due to an increase in revenue related third-party software and royalty costs.

Biometrics

For the three months ended September 30, 2008, cost of services increased approximately 10% from the same period in 2007 due to a slight increase in outside training and installation services.

License and other costs increased for the three months ended September 30, 2008 from the same period in 2007 by approximately 4% as orders with third party software increased, offset by a decrease in hardware orders.

*Selling, general and administrative*

	Three months ended September 30,

Law Enforcement & Biometrics

SG&A expenses decreased by 18% for the three months ended September 30, 2008 from the same period in 2007 due to lower personnel related expenses, stock compensation charges and fees for professional services, offset by higher commission expense in the Biometrics segment. As referenced above, the Company will continue to allocate resources based on revenue and operating income and expects that SG&A expenses

# Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

will remain at approximately the same level for the remainder of 2008.

## *Research, development and engineering*

# Table of Contents

## Law Enforcement

Research, development and engineering expenses decreased by 15% for the three months ended September 30, 2008 from the same period in the prior year, driven largely by reductions in facilities and personnel related expenses.

## Biometrics

Research, development and engineering expenses increased by 7% for the three months ended September 30, 2008 from the same period in 2007, due to an increase in consultant expenses.

## *Other income and expense*

	Three months ended September 30,			
	2008	2007	\$ Change	% Change
<b>Derivative and warrant fair value adjustments</b>	\$ 73,600	\$ 262,539	\$ (188,939)	(72)%

<b>Total</b>	\$ 146,573	\$ 258,832	\$ (112,259)	(43)%

For the quarter ended September 30, 2008, derivative and warrant fair value adjustments decreased, when compared to the 2007 period, due to changes in the fair market value of embedded derivatives and detachable warrants issued with convertible debt issued in 2004 and 2005, as well as additional derivatives recorded as a result of financings in 2006. The fair value of the derivatives will fluctuate based on our stock price on the valuation date, the debt conversion price, the volatility of our stock price over a period of time, changes in the value of the risk free interest rate and the time to maturity of the outstanding instruments at different points in time.

For the quarter ended September 30, 2008, interest expense increased 131% as compared to the same quarter in 2007. The increase was attributable the repayment of note payable. Interest expense includes actual cash paid for interest and deferred charges.

For the quarter ended September 30,2008, investment income increased 100% as an available-for-sale security was sold at its market value and the income was realized.

## Revenues

### Law Enforcement

For the nine months ended September 30, 2008, service revenue increased by 4% from the same period in 2007 as a result of increased maintenance revenue from new orders, offset slightly by cancellations of existing customers.

License and other revenue for the nine months ended September 30, 2008 is approximately the same as the corresponding period in 2007. The company continues to receive orders from both existing and new customers at a rate higher than the nine month period ended September 30, 2007 which included \$310,000 from a cash payment that the Company received for long term project.

Biometrics

Service revenue for the nine months ended September 30, 2008 increased 216% as the Company has added new maintenance customers during the period.

Table of Contents

License & other revenue increased 274% as a result of revenue generated from a new OEM customer, as well as additional license revenue from existing customers.

*Costs of goods sold*

Law Enforcement

Cost of services for the nine months ended September 30, 2008 decreased 20% from the same period in 2007 due to lower personnel related expenses.

Cost of License & other for the nine months ended September 30, 2008 increased by 155% from the nine months ended September 30, 2007 as a result of an increase in third-party software and royalty costs.

Biometrics

Cost of services decreased 52% from the same period in 2007 due to lower personnel related expenses. The Company expects these costs will increase in future periods as additional Biometric customers are added.

Costs of License and other for the nine months ended September 30, 2008 increased 20% due to an increase in hardware and third party software costs.

For the nine months ended September 30, 2008, derivative and warrant fair value adjustments decreased 93%, when compared to the 2007 period, due to changes in the fair market value of embedded derivatives and detachable warrants issued with convertible debt issued in 2004 and 2005, as well as additional derivatives recorded as a result of financings in 2006. The fair value of the derivatives will fluctuate based on our stock price on the valuation date, the debt conversion price, the volatility of our stock price over a period of time, changes in the value of the risk free interest rate, and the time to maturity of the outstanding instruments at different points in time.

For the nine months ended September 30, 2008, interest expense decreased 92% as compared to the same period in 2007. The decrease was attributable to reductions in convertible debt, related discount and other debt related instruments due to the Company restructuring in August 2006, the expiration of the letter of credit arrangement with Aether Systems Inc. on December 31, 2006, and the repayment of all debt in May 2007. Interest expense includes actual cash paid for interest, as well as non-cash charges for amortization of debt discounts and deferred charges.

For the nine months ended September 30,2008, investment income increased 100% as an available-for-sale security was sold at its market value and the income was realized.

Table of Contents

The balance of unamortized debt discounts, deferred financing charges, and derivatives with respect to the 2004 and 2005 financings were extinguished as part of the May 2007 debt repayment. The changes represented non-cash income and expense charges to the statement of operations and were classified as loss on extinguishment of debt.

**LIQUIDITY AND CAPITAL RESOURCES**

For the nine months ended September 30, 2008, net cash used in operations was approximately \$383,000. Of this amount, approximately \$367,000 was from continuing operations and approximately \$16,000 was from discontinued operations. The cash used for continuing operations was primarily due to the following items:

- Positive cash flow due to a decrease in accounts receivable and cost and earnings in excess of billings on uncompleted contracts of approximately \$334,000,
- Negative cash flows from a decrease in accounts payable, accrued liabilities and notes payable of approximately \$1,186,000,
- Negative cash flows from a decrease in deferred rent of approximately \$363,000 which represents the difference between the rent payment and the rent expense,
- Positive cash flows from an increase in deferred revenue of approximately \$598,000 due to the timing of billings.

The following non-cash items reflected in the Company's statement of operations are used to reconcile the net loss to the net cash used in operating activities during the nine months ended September 30, 2008:

- The Company issued notes in 2004, 2005 and 2006 and preferred stock in 2006, all of which contained embedded derivatives, and associated warrants. In 2008, the Company recognized a gain of approximately \$62,000 related to the decrease in value of the derivatives and associated warrants. The decrease in value is driven mainly by the decrease in value of the underlying BIO-key stock.
- The Company recorded approximately \$557,000 of charges in 2008 for the expense of amortizing intangible

assets.

- The Company recorded approximately \$383,000 of charges in 2008 for the expense of issuing options to employees for services.

Net cash provided by investing activities for the nine months ended September 30, 2008 was approximately \$535,000, including approximately \$585,000 provided by continuing operations, offset by \$50,000 used by the discontinued Fire business. The cash provided by investing activities for continuing operations was primarily driven by approximately \$480,000 in deposits for the Company's Marlborough facility that were used to offset the Company's rent payments. Additionally, there was \$153,000 that was released from the escrow account established as part of the sale of the Fire business, offset by approximately \$40,000 used to support a letter of credit in conjunction with the Company's new lease for its Marlborough facility. The \$50,000 used for discontinued operations was related to the settlement of a customer claim associated with the discontinued Fire business.

Working capital deficit at September 30, 2008 was approximately \$5,161,000, as compared to a deficit of approximately \$5,796,000 at December 31, 2007, the improvement of which was driven largely by the reduction of accounts payable, accrued liabilities and notes payable of approximately \$1,186,000,

somewhat offset by a reduction in deposits.

Since January 7, 1993 (date of inception), our capital needs have been principally met through proceeds from the sale of equity and debt securities.

We do not expect any material capital expenditures during the next twelve months.

We do not currently maintain a line of credit or term loan with any commercial bank or other financial institution.

***Liquidity outlook***

At September 30, 2008 our total of cash and cash equivalents was \$1,117,297 as compared to \$964,774 at December 31, 2007.

As discussed above, the Company has financed itself through access to the capital markets by issuing debt securities, convertible preferred stock and common stock. We currently require approximately \$920,000 per month to conduct our operations. During the first nine months of 2008, we generated approximately \$9,003,000 of revenue and achieved profitability in the three months ended June 30, 2008. For the three months ended September 30, 2008, we had a net loss of approximately \$45,000. While the Company expects to reach profitability during the remainder of 2008, there can be no assurance that we will achieve that goal.

During the three months ended March 31, 2008, the Company received invoices of approximately \$2,300,000 from a vendor that had been a subcontractor on a long term project for which the Company was the prime contractor. This amount had previously been recorded as an Accrued Liability and has now been moved to Notes Payable. On July 28, 2008, the Company reached agreement with the vendor to resolve all matters relating to these invoices. Pursuant to this agreement, the parties agreed to a payment schedule under which the Company will be required to satisfy this outstanding balance, plus interest at seven percent (7%) per annum on the unpaid portion of the balance, in full on or before June 1, 2009.

The Company's Series A Convertible Preferred Stock is redeemable in cash by the stockholders within 10 days after December 31, 2008 if certain stock price performance conditions are not met. This date was deferred from March 31, 2008 by an agreement with the holders of the Series A Shares on March 24, 2008.

In addition, the Company's Series B and Series C Convertible Preferred Stock is redeemable in cash by the stockholders during the first quarter of 2009 if certain stock price performance conditions are not met.

Due to several factors, including our history of losses and limited revenue, our former and current independent auditors have included an explanatory paragraph in opinions they have previously issued related to our annual financial statements as to the substantial doubt about our ability to continue as a going concern. Our long-term viability and growth will depend upon the successful commercialization of our technologies and our ability to obtain adequate financing. The recent financial crisis in the global capital markets and the current negative global economic trends have had an adverse impact on market participants including, among other things, volatility in security prices, diminished liquidity, and limited access to financing. These events could, therefore, effect our efforts to commercialize our technology and to obtain adequate financing. In particular, these conditions could impact the ability and willingness of our current and prospective customers to make investments in our technology and pay their obligations to us. In addition, to the extent that we require additional financing, no assurance can be given that any form of additional financing will be available on terms acceptable to us, that adequate financing will be obtained to meet our needs, or that such financing would not be dilutive to existing stockholders. If available financing is insufficient or we fail to continue to generate meaningful revenue, we may be required to further reduce operating expenses, delay the expansion of operations, be unable to pursue merger or acquisition candidates, or continue as a going concern.

**ITEM 4. CONTROLS AND PROCEDURES**

## Edgar Filing: BIO KEY INTERNATIONAL INC - Form 10-Q

### *Evaluation of Disclosure Controls and Procedures*

An evaluation of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13(a)-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) was carried out by the Company under the supervision and with the participation of the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

During the review of the Company's operating results for the period covered by this report, our CEO and CFO determined that, as of September 30, 2008, our disclosure controls and procedures were effective in providing reasonable assurance that information we are required to disclose in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission rules and forms. Our management reached this conclusion after identifying our system to capture disclosure items, our internal process of review for account reconciliations, our documentation of internal controls and our internal process for preparing our quarterly report on Form 10-Q for the quarterly period ended September 30, 2008 as being adequate to provide such assurance. In conjunction with this evaluation, our Board of Directors undertook a review of management's process, including with respect to internal communications, used to reach its conclusion regarding the Company's disclosure controls and procedures in order to further the Board's understanding of this process.

### *Changes in Internal Control Over Financial Reporting.*

No change in our internal control over financial reporting occurred during the fiscal quarter ended September 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
