**SEMI-ANNUAL REPORT / JUNE 30, 2009**

**Western Asset Municipal Partners Fund Inc.  
(MNP)**

Managed by **WESTERN ASSET**

**INVESTMENT PRODUCTS: NOT FDIC INSURED • NO BANK GUARANTEE • MAY LOSE VALUE**

**Fund objective**

The Fund's primary investment objective is to seek a high level of current income which is exempt from regular federal income taxes,\* consistent with the preservation of capital. As a secondary investment objective, the Fund intends to enhance portfolio value by purchasing tax exempt securities that, in the opinion of the investment manager, may appreciate in value relative to other similar obligations in the marketplace.

\* Certain investors may be subject to the federal alternative minimum tax ( AMT ), and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax or legal adviser.

**Letter from the chairman**

Dear Shareholder,

The U.S. economy remained weak during the six-month reporting period ended June 30, 2009. Looking back, the U.S. Department of Commerce reported that third and fourth quarter 2008 U.S. gross domestic product ( GDP )i contracted 2.7% and 5.4%, respectively. Economic contraction has continued in 2009 as GDP fell 6.4% during the first quarter and the advance estimate for the second quarter is a 1.0% decline. The economy's more modest contraction in the second quarter was due, in part, to smaller declines in exports and business spending.

The U.S. recession, which began in December 2007, now has the dubious distinction of being the lengthiest since the Great Depression. Contributing to the economy's troubles has been extreme weakness in the labor market. Since December 2007, approximately six and a half million jobs have been shed and we have experienced eighteen consecutive months of job losses. In addition, the unemployment rate continued to move steadily higher, rising from 9.4% in May to 9.5% in June 2009, to reach its highest rate since August 1983.

Another strain on the economy, the housing market, may finally be getting closer to reaching a bottom. After plunging late in 2008, new single-family home starts have been fairly stable in recent months and, while home prices have continued to fall, the pace of the decline has moderated somewhat. Other recent economic news also seemed to be less negative. Inflation remained low, manufacturing contracted at a slower pace and inventory levels were drawn down.

Ongoing issues related to the housing and subprime mortgage markets and seizing credit markets prompted the Federal Reserve Board ( Fed )ii to take aggressive and, in some cases, unprecedented actions. After reducing the federal funds rateiii from 5.25% in August 2007 to a range of 0 to 1/4 percent in December 2008 a historic low the Fed has maintained this stance thus far in 2009. In conjunction with its June meeting, the Fed stated that it will maintain the target range for the federal funds rate at 0 to 1/4 percent and continues to anticipate that economic conditions are likely to warrant exceptionally low levels of the federal funds rate for an extended period.

**Letter from the chairman *continued***

In addition to maintaining extremely low short-term interest rates, the Fed took several actions to improve liquidity in the credit markets. Back in September 2008, it announced an \$85 billion rescue plan for ailing AIG and pumped \$70 billion into the financial system as Lehman Brothers bankruptcy and mounting troubles at other financial firms roiled the markets. More recently, the Fed has taken additional measures to thaw the frozen credit markets, including the purchase of debt issued by Fannie Mae and Freddie Mac, as well as introducing the Term Asset-Backed Securities Loan Facility ( TALF ). In March 2009, the Fed continued to pursue aggressive measures as it announced its intentions to:

- Purchase up to an additional \$750 billion of agency mortgage-backed securities, bringing its total purchases of these securities to up to \$1.25 trillion in 2009.
- Increase its purchases of agency debt this year by up to \$100 billion to a total of up to \$200 billion.
- Buy up to \$300 billion of longer-term Treasury securities over the next six months.

The U.S. Department of the Treasury has also taken an active role in attempting to stabilize the financial system, as it orchestrated the government's takeover of mortgage giants Fannie Mae and Freddie Mac in September 2008. In October, the Treasury's \$700 billion Troubled Asset Relief Program ( TARP ) was approved by Congress and signed into law by former President Bush. Then, in March 2009, Treasury Secretary Geithner introduced the Public-Private Partnership Investment Program ( PPIP ), which is intended to facilitate the purchase of troubled mortgage assets from bank balance sheets. President Obama has also made reviving the economy a priority in his administration, the cornerstone thus far being the \$787 billion stimulus package that was signed into law in February 2009.

Both short- and long-term Treasury yields fluctuated during the reporting period. This was often prompted by changing perceptions regarding the economy, future Fed policy decisions and the government's initiatives to stabilize the financial system. When the period began, Treasury yields were extremely low, given numerous flights to quality in 2008 that were triggered by the financial crisis. After starting the period at 0.76% and 2.25%, respectively, two- and ten-year Treasury yields drifted even lower (and their prices higher) in mid-January 2009. Yields then generally moved higher (and their prices lower) until early June. Two- and ten-year yields peaked at 1.42% and 3.98%, respectively, before falling and ending the reporting period at 1.11% and 3.53%. Over the six months ended June 30, 2009, longer-term yields moved higher than their shorter-term counterparts due to fears of future inflation given the government's massive stimulus

**II Western Asset Municipal Partners Fund Inc.**

program. In a reversal from 2008, investor risk aversion faded as the six-month reporting period progressed, driving spread sector (non-Treasury) prices higher.

The municipal bond market outperformed its taxable bond counterpart over the six months ended June 30, 2009. Over that period, the Barclays Capital Municipal Bond Index<sup>iv</sup> and the Barclays Capital U.S. Aggregate Index<sup>v</sup> returned 6.43% and 1.90%, respectively. Municipal securities outperformed the taxable bond market during four of the six months of the reporting period, as risk aversion decreased and investors were drawn to the attractive yields and valuations in the tax-free market.

### Performance review

For the six months ended June 30, 2009, Western Asset Municipal Partners Fund Inc. returned 17.79% based on its net asset value ( NAV )<sup>vi</sup> and 27.90% based on its New York Stock Exchange ( NYSE ) market price per share. The Fund's unmanaged benchmark, the Barclays Capital Municipal Bond Index, returned 6.43% over the same time frame. The Lipper General Municipal Debt (Leveraged) Closed-End Funds Category Average<sup>vii</sup> returned 18.36% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During this six-month period, the Fund made distributions to shareholders totaling \$0.33 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of June 30, 2009. **Past performance is no guarantee of future results.**

Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax or legal adviser.

### PERFORMANCE SNAPSHOT as of June 30, 2009 (unaudited)

PRICE PER SHARE	6-MONTH TOTAL RETURN*
\$13.50 (NAV)	(not annualized)
\$12.05 (Market Price)	17.79%
	27.90%

**All figures represent past performance and are not a guarantee of future results.**

**\*Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

**Letter from the chairman *continued***

**A special note regarding increased market volatility**

Dramatically higher volatility in the financial markets has been very challenging for many investors. Market movements have been rapid sometimes in reaction to economic news, and sometimes creating the news. In the midst of this evolving market environment, we at Legg Mason want to do everything we can to help you reach your financial goals. Now, as always, we remain committed to providing you with excellent service and a full spectrum of investment choices. Rest assured, we will continue to work hard to ensure that our investment managers make every effort to deliver strong long-term results.

We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our enhanced website, [www.leggmason.com/cef](http://www.leggmason.com/cef). Here you can gain immediate access to many special features to help guide you through difficult times, including:

- Fund prices and performance,
- Market insights and commentaries from our portfolio managers, and
- A host of educational resources.

During periods of market unrest, it is especially important to work closely with your financial advisor and remember that reaching one's investment goals unfolds over time and through multiple market cycles. Time and again, history has shown that, over the long run, the markets have eventually recovered and grown.

**Information about your fund**

Important information with regard to certain regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

**Looking for additional information?**

## Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSRS

The Fund is traded under the symbol **MNP** and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol **XMNPX** on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as [www.leggmason.com/cef](http://www.leggmason.com/cef).

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 5:30 p.m. Eastern Standard Time, for the Fund's current NAV, market price and other information.

**IV** Western Asset Municipal Partners Fund Inc.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

**R. Jay Gerken, CFA**

Chairman, President and Chief Executive Officer

July 31, 2009

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

**RISKS:** An investment in the Fund is subject to risk, including the possible loss of the principal amount that you invest in the Fund. Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. As interest rates rise, bond prices fall, reducing the value of the Fund's fixed-income securities. Lower-rated, higher-yielding bonds are subject to greater credit risk than higher-rated obligations.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product ( GDP ) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board ( Fed ) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- iv The Barclays Capital (formerly Lehman Brothers) Municipal Bond Index is a market value weighted index of investment grade municipal bonds with maturities of one year or more.

## Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSRS

v The Barclays Capital (formerly Lehman Brothers) U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.

vi Net asset value ( NAV ) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.

vii Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended June 30, 2009, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 58 funds in the Fund's Lipper category.

Under the Statement of Financial Accounting Standards No. 157, all securities are deemed Level 2. Please refer to Note 1 of the Notes to Financial Statements.

- (a) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax ( AMT ).
  - (b) Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2009.
  - (c) Pre-Refunded bonds are escrowed with U.S. government obligations and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.
  - (d) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
  - (e) Bonds are escrowed to maturity by government securities and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.
  - (f) Variable rate demand obligations have a demand feature under which the Fund can tender them back to the issuer or liquidity provider on no more than 7 days notice. Date shown is the date of the next interest rate change.
- # Aggregate cost for federal income tax purposes is substantially the same.

Abbreviations used in this schedule:

A-1/VMIG1	0.3
NR	4.6
	100.0%

As a percentage of total investments.

In the event that a security is rated by multiple nationally recognized statistical rating organizations ( NRSROs ) and receives different ratings, the fund will treat the security as being rated in the highest rating category received from an NRSRO.

See pages 9 and 10 for definitions of ratings.

**Bond ratings (unaudited)**

The definitions of the applicable rating symbols are set forth below:

*Standard & Poor's Ratings Service (Standard & Poor's)* Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
BB, B, CCC, CC and C	Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominant speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
D	Bonds rated D are in default and payment of interest and/or repayment of principal is in arrears.

*Moody's Investors Service (Moody's)* Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aaa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa	Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge." Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes can be visualized as most unlikely to impair the fundamentally strong position of such issues.
Aa	Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.
A	Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
Baa	Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
Ba	

Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

**Bond ratings (unaudited) *continued***

B	Bonds rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
Caa	Bonds rated Caa are of poor standing. These may be in default, or present elements of danger may exist with respect to principal or interest.
Ca	Bonds rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short-comings.
C	Bonds rated C are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
NR	Indicates that the bond is not rated by Standard & Poor's or Moody's.

**Short-term security ratings (unaudited)**

SP-1	Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
A-1	Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
VMIG 1	Moody's highest rating for issues having a demand feature VRDO.
MIG1	Moody's highest rating for short-term municipal obligations.
P-1	Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.
F1	Fitch's highest rating indicating the strongest capacity for timely payment of financial commitments; those issues determined to possess overwhelming strong credit feature are denoted with a plus (+) sign.

See Notes to Financial Statements.

- 1 For the six months ended June 30, 2009 (unaudited).
- 2 Per share amounts have been calculated using the average shares method.
- 3 Amount represents less than \$0.01 per share.
- 4 Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.
- 5 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.
- 6 Ratios calculated on the basis of income and expenses relative to the average net assets of common shares and excludes the effect of dividend payments to preferred stockholders.
- 7 Annualized.
- 8 Included in the expense ratios are certain non-recurring restructuring (and reorganization, if applicable) fees that were incurred by the Fund during the period. Without these fees, the gross and net expense ratios would both have been 1.25%.
- 9 The impact to the expense ratio was less than 0.01% as a result of fees paid indirectly.
- 10 Reflects fee waivers and/or expense reimbursements.
- 11 Excludes accumulated and unpaid distributions.

See Notes to Financial Statements.

**Notes to financial statements (unaudited)**

**1. Organization and significant accounting policies**

Western Asset Municipal Partners Fund Inc. (the Fund) was incorporated in Maryland on November 24, 1992 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's primary investment objective is to seek a high level of current income which is exempt from federal income taxes, consistent with the preservation of capital. As a secondary investment objective, the Fund intends to enhance portfolio value by purchasing tax exempt securities that, in the opinion of the investment manager, may appreciate in value relative to other similar obligations in the marketplace.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through August 24, 2009, the issuance date of the financial statements.

**(a) Investment valuation.** Securities are valued based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. When prices are not readily available, or are determined not to reflect fair value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

DESCRIPTION	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
Long-term securities:				
Municipal bonds		\$212,268,610		\$212,268,610
Short-term securities		700,000		700,000
Total investments		\$212,968,610		\$212,968,610

See Schedule of Investments for additional detailed categorizations.

**(b) Futures contracts.** The Fund may use futures contracts to gain exposure to, or hedge against, changes in the value of interest rates. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date.

Upon entering into a futures contract, the Fund is required to deposit with a broker cash or cash equivalents in an amount equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses in the Statement of Operations and the Fund recognizes a realized gain or loss when the contract is closed.

Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

**(c) Concentration of credit risk.** Since the Fund invests a portion of its assets in obligations of issuers within a single state, it may be subject to possible concentration risks associated with economic, political, or legal developments or industrial or regional matters specifically affecting that state.

**(d) Security transactions and investment income.** Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to

**Notes to financial statements (unaudited) continued**

generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

**(e) Distributions to shareholders.** Distributions to common shareholders from net investment income for the Fund, if any, are generally declared quarterly and paid on a monthly basis. The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from federal and certain state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund. Distributions of net realized gains, if any, are taxable and are declared at least annually. Distributions to common shareholders are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP. Distributions to preferred shareholders are accrued daily and paid on a weekly basis and are determined as described in Note 5.

**(f) Fees paid indirectly.** The Fund's custody fees are reduced according to a fee arrangement, which provides for a reduction based on the level of cash deposited with the custodian by the Fund. The amount is shown as a reduction of expenses on the Statement of Operations. Interest expense, if any, paid to the custodian related to cash overdrafts is included in interest expense in the Statement of Operations.

**(g) Federal and other taxes.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of June 30, 2009, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

**(h) Reclassification.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

**2. Investment management agreement and other transactions with affiliates**

Legg Mason Partners Fund Advisor, LLC ( LMPFA ) is the Fund's investment manager and Western Asset Management Company ( Western Asset ) is the Fund's subadviser. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason, Inc. ( Legg Mason ).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays LMPFA an investment management fee, calculated daily and paid monthly, at an annual rate of 0.55% of the Fund's average weekly net assets. For purposes of calculating this fee, the liquidation value of any outstanding preferred stock of the Fund is not deducted in determining the Fund's net assets.

LMPFA has delegated to Western Asset the day-to-day portfolio management of the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

**3. Investments**

During the six months ended June 30, 2009, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$17,929,391
Sales	11,519,118

At June 30, 2009, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 4,416,628
Gross unrealized depreciation	(8,680,200)
Net unrealized depreciation	\$ (4,263,572)

**4. Derivative instruments and hedging activities**

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, requires enhanced disclosure about an entity's derivative and hedging activities.

At June 30, 2009 the Fund did not hold any derivative instruments.

**Notes to financial statements (unaudited) continued**

The following tables provide information about the effect of derivatives and hedging activities on the Fund's Statement of Operations for the six months ended June 30, 2009. The first table provides additional detail about the amounts and sources of gains/(losses) realized on derivatives during the period. The second table provides additional information about the changes in unrealized appreciation/(depreciation) resulting from the Fund's derivatives and hedging activities during the period.

**AMOUNT OF REALIZED GAIN OR (LOSS)  
ON DERIVATIVES RECOGNIZED**

	INTEREST RATE CONTRACTS RISK	OTHER CONTRACTS RISK	TOTAL
Futures contracts	\$(518,078)		\$(518,078)

**CHANGE IN UNREALIZED APPRECIATION/DEPRECIATION  
ON DERIVATIVES RECOGNIZED**

	INTEREST RATE CONTRACTS RISK	OTHER CONTRACTS RISK	TOTAL
Futures contracts	\$2,034,313		\$2,034,313

**5. Auction rate preferred stock**

On April 2, 1993, the Fund closed its public offering of 800 shares of \$0.001 par value Auction Rate Cumulative Preferred Stock, Series M ( Preferred Stock ), at an offering price of \$50,000 per share. On July 20, 2007, the Fund acquired the Preferred Stock of Western Asset Municipal Partners Fund II Inc. On October 1, 1993, Western Asset Municipal Partners Fund II Inc. closed its public offering of 900 shares of \$0.001 par value Preferred Stock at an offering price of \$50,000 per share. Thus, the Fund now has 1,700 shares of Preferred Stock outstanding. The Preferred Stock has a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends (whether or not earned or declared) and subject to certain restrictions, are redeemable in whole or in part.

Dividend rates generally reset every 7 days and are determined by auction procedures. The dividend rate cannot exceed a certain maximum rate, including in the event of a failed auction. The maximum rate is calculated using the higher of 110% of the taxable equivalent of the short-term municipal bond rate and 110% of the prevailing 30 day AA commercial paper rate. The Fund may pay higher maximum rates if the rating of the Fund's Preferred Stock were to be lowered by the rating agencies. To the extent capital gains and other taxable income are allocated to holders of Preferred Shares for tax purposes, the Fund will likely have to pay higher dividends to holders of Preferred Shares to compensate them for the increased tax liability to them resulting from such allocation. Due to failed auctions experienced by the Fund's Preferred Stock

starting on February 15, 2008, the Fund pays the applicable maximum rate. The dividend rates on the Preferred Stock during the six months ended June 30, 2009 ranged from 0.442% to 1.432%. The weighted average dividend rate for the six months ended June 30, 2009 was 0.723%. At June 30, 2009, the dividend rate was 0.442%.

After each auction, the auction agent will pay to each broker/dealer, from monies the Fund provides, a participation fee. For the period of the report and for all previous periods since the ARCPS have been outstanding, the participation fee has been paid at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. However, subsequent to the period of this report, effective on August 3, 2009, Citigroup Global Markets Inc. ( CGM ), reduced its participation fee to an annual rate of 0.05% of the purchase price of the ARCPS, in the case of a failed auction. For the six months ended June 30, 2009, the Fund paid \$108,008 to participating broker/dealers.

The Fund is subject to certain restrictions relating to the Preferred Stock. The Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%. The Preferred Stock is also subject to mandatory redemption at \$50,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in its Articles Supplementary are not satisfied.

The Preferred Stock Shareholders are entitled to one vote per share and generally vote with the common shareholders but vote separately as a class to elect two directors and on certain matters affecting the rights of the Preferred Stock. The issuance of Preferred Stock poses certain risks to holders of common stock, including, among others, the possibility of greater market price volatility, and in certain market conditions, the yield to holders of common stock may be adversely affected. The Fund is required to maintain certain asset coverages with respect to the Preferred Stock. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of shares of the Preferred Stock in order to meet the applicable requirement. The Preferred Stock is otherwise not redeemable by holders of the shares. Additionally, failure to meet the foregoing asset coverage requirements would restrict the Fund's ability to pay dividends to common shareholders.

#### **6. Distributions subsequent to June 30, 2009**

**Common Stock Distributions.** On May 26, 2009, the Board of Directors of the Fund declared common stock distributions from net investment income, each in the amount of \$0.06 per share, payable on July 31, 2009 and August 28, 2009 to shareholders of record on July 24, 2009 and August 21, 2009, respectively.

**Notes to financial statements (unaudited) *continued***

On August 13, 2009, the Fund's Board declared three dividends in the amount of \$0.065 per share, payable September 25, 2009, October 30, 2009 and November 27, 2009 to shareholders of record on September 18, 2009, October 23, 2009 and November 20, 2009, respectively.

**7. Tender offer**

On January 15, 2008, the Fund, in accordance with its tender offer for up to 538,453 of its issued and outstanding shares of common stock, accepted and made payment of these shares at \$14.62 per share (98% of the net asset value per share of \$14.91). These shares represent 5% of the Fund's then outstanding shares.

On July 15, 2008, the Fund, in accordance with its tender offer for up to 511,530 of its issued and outstanding shares of common stock, accepted and made payment of these shares at \$14.03 per share (98% of the net asset value per share of \$14.32). These shares represent 5% of the Fund's then outstanding shares.

**8. Capital loss carryforward**

As of December 31, 2008, the Fund had a net capital loss carryforward of approximately \$891,295, all of which expires in 2016. This amount will be available to offset any future taxable capital gains.

**9. Subsequent event**

At the May 2009 meeting, the Board approved a recommendation from LMPFA to change the fiscal year-end for the Fund from December 31st to November 30th. This change will result in a stub period annual report being produced for the eleven-month period ending November 30, 2009.

**Additional shareholder information (unaudited)**

**Result of annual meeting of shareholders**

The Annual Meeting of Shareholders of Western Asset Municipal Partners Fund Inc. was held on April 28, 2009, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the meeting:

**Election of directors**

NOMINEES	COMMON SHARES VOTES FOR	COMMON SHARES VOTES WITHHELD	PREFERRED SHARES VOTES FOR	PREFERRED SHARES VOTES WITHHELD
Carol L. Colman	8,632,638.54	375,468.80	521	0
Leslie H. Gelb	8,615,773.03	392,334.31	521	0
Riordan Roett*			521	0

\* Mr. Roett has been designated as a Preferred Stock Director.

At June 30, 2009, in addition to Carol L. Colman, Leslie H. Gelb and Riordan Roett, the other Directors of the Fund were as follows:

Daniel P. Cronin  
 Paolo M. Cucchi  
 William R. Hutchinson  
 Jeswald W. Salacuse  
 R. Jay Gerken

**Dividend reinvestment plan (unaudited)**

Pursuant to certain rules of the SEC, the following additional disclosure is provided.

Pursuant to the Fund's Dividend Reinvestment Plan ( Plan ), holders of Common Stock whose shares of Common Stock are registered in their own names will be deemed to have elected to have all distributions automatically reinvested by American Stock Transfer & Trust Company ( Plan Agent ) in Fund shares pursuant to the Plan, unless they elect to receive distributions in cash. Holders of Common Stock who elect to receive distributions in cash will receive all distributions in cash by check in dollars mailed directly to the holder by the Plan Agent as dividend-paying agent. Holders of Common Stock who do not wish to have distributions automatically reinvested should notify the Plan Agent at the address below. Distributions with respect to Common Stock registered in the name of a bank, broker-dealer or other nominee (i.e., in street name ) will be reinvested under the Plan unless the service is not provided by the bank, broker-dealer or other nominee or the holder elects to receive distributions in cash. Investors who own shares registered in the name of a bank, broker-dealer or other nominee should consult with such nominee as to participation in the Plan through such nominee, and may be required to have their shares registered in their own names in order to participate in the Plan.

The Plan Agent serves as agent for the holders of Common Stock in administering the Plan. After the Fund declares a distribution on the Common Stock or determines to make a capital gain distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy the Fund's Common Stock in the open market, on the NYSE or elsewhere, for the participants' accounts. The Fund will not issue any new shares of Common Stock in connection with the Plan.

Participants have the option of making additional cash payments to the Plan Agent, monthly, in a minimum amount of \$250, for investment in the Fund's Common Stock. The Plan Agent will use all such funds received from participants to purchase shares of Common Stock in the open market on or about the first business day of each month. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, it is suggested that participants send in voluntary cash payments to be received by the Plan Agent approximately ten days before an applicable purchase date specified above. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be invested.

The Plan Agent maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in an account, including information needed by shareholders for personal and tax records. Shares of Common Stock in the account of each Plan participant will be held by the Plan Agent in the name of the participant, and each shareholder's proxy will include those shares purchased pursuant to the Plan.

In the case of holders of Common Stock, such as banks, broker-dealers or other nominees, who hold shares for others who are beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the holders as representing the total amount registered in such holders' names and held for the account of beneficial owners that have not elected to receive distributions in cash.

There is no charge to participants for reinvesting of distributions or voluntary cash payments. The Plan Agent's fees for the reinvestment of distributions and voluntary cash payments will be paid by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions and voluntary cash payments made by the participant. The receipt of distributions under the Plan will not relieve participants of any income tax which may be payable on such distributions.

Participants may terminate their accounts under the Plan by notifying the Plan Agent in writing. Such termination will be effective immediately if notice in writing is received by the Plan Agent not less than ten days prior to any distribution record date. Upon termination, the Plan Agent will send the participant a certificate for the full shares held in the account and a cash adjustment for any fractional shares or, upon written instruction from the participant, the Plan Agent will sell part or all of the participant's shares and remit the proceeds to the participant, less a \$2.50 fee plus brokerage commission for the transaction.

Experience under the Plan may indicate that changes in the Plan are desirable. Accordingly, the Fund and the Plan Agent reserve the right to terminate the Plan as applied to any voluntary cash payments made and any distributions paid subsequent to notice of the termination sent to all participants in the Plan at least 30 days before the record date for the distribution. The Plan also may be amended by the Fund or the Plan Agent upon at least 30 days' written notice to participants in the Plan.

All correspondence concerning the Plan should be directed to the Plan Agent at 59 Maiden Lane, New York, New York 10038.
