Notes to Consolidated Financial Statements

(unaudited)

1) Basis of Presentation

The accompanying consolidated financial statements have been prepared without audit. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of only normal recurring accruals and elimination of intercompany balances and transactions) necessary to present fairly the financial position of Bed Bath & Beyond Inc. and subsidiaries (the Company) as of August 27, 2011 and February 26, 2011 and the results of its operations for the three and six months ended August 27, 2011 and August 28, 2010, respectively, and its cash flows for the six months ended August 27, 2011 and August 28, 2010, respectively.

The accompanying unaudited consolidated financial statements are presented in accordance with the requirements for Form 10-Q and consequently do not include all the disclosures normally required by U.S. generally accepted accounting principles (GAAP). Reference should be made to Bed Bath & Beyond Inc.'s Annual Report on Form 10-K for the fiscal year ended February 26, 2011 for additional disclosures, including a summary of the Company's significant accounting policies, and to subsequently filed Forms 8-K.

2) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs are inputs that reflect a company's judgment concerning the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

- Level 2 Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

As of August 27, 2011, the Company's financial assets utilizing Level 1 inputs include long term investment securities traded on active securities exchanges. The Company did not have any financial assets utilizing Level 2 inputs. Financial assets utilizing Level 3 inputs included long term investments in auction rate securities consisting of preferred shares of closed end municipal bond funds (See Investment Securities, Note 4).

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the Company's degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability must be classified in its entirety based on the lowest level of input that is significant to the measurement of fair value.

Table of Contents

Valuation techniques used by the Company must be consistent with at least one of the three possible approaches: the market approach, income approach and/or cost approach. The Company's Level 1 valuations are based on the market approach and consist primarily of quoted prices for identical items on active securities exchanges. The Company's Level 3 valuations of auction rate securities are based on the income approach, specifically, discounted cash flow analyses which utilize significant inputs based on the Company's estimates and assumptions. Inputs include current coupon rates and expected maturity dates.

The following table presents the valuation of the Company's financial assets as of August 27, 2011 measured at fair value on a recurring basis by input level:

(in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)	Total
Long term - available-for-sale securities:			
Auction rate securities	\$	\$ 95.6	\$ 95.6
Long term - trading securities:			
Nonqualified deferred compensation plan assets	18.1		18.1
Total	\$ 18.1	\$ 95.6	\$ 113.7

The following table presents the changes in the Company's financial assets that are measured at fair value on a recurring basis using significant unobservable inputs (Level 3):

(in millions)	Auction Rate Securities
Balance on February 26, 2011, net of temporary valuation adjustment	\$ 109.7
Change in temporary valuation adjustment included in accumulated other comprehensive income	1.5
Redemptions at par	(15.6)
Balance on August 27, 2011, net of temporary valuation adjustment	\$ 95.6

Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, investment securities, accounts payable and certain other liabilities. The Company's investment securities consist primarily of U.S. Treasury securities, which are stated at amortized cost, and auction rate securities, which are stated at their approximate fair value. The book value of all financial instruments is representative of their fair values.

3) Cash and Cash Equivalents

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

Included in cash and cash equivalents are credit and debit card receivables from banks, which typically settle within five business days, of \$76.2 million and \$61.9 million as of August 27, 2011 and February 26, 2011, respectively.

Table of Contents**4) Investment Securities**

The Company's investment securities as of August 27, 2011 and February 26, 2011 are as follows:

(in millions)	August 27, 2011	February 26, 2011
Available-for-sale securities:		
Short term	\$	\$ 5.8
Long term	95.6	103.9
Trading securities:		
Long term	18.1	17.6
Held-to-maturity securities:		
Short term	724.9	599.8
Total investment securities	\$ 838.6	\$ 727.1

Auction Rate Securities

As of August 27, 2011 and February 26, 2011, the Company's available-for-sale investment securities represented approximately \$97.3 million and approximately \$112.9 million par value of auction rate securities, respectively, less temporary valuation adjustments of approximately \$1.7 million and \$3.2 million, respectively. Since these valuation adjustments are deemed to be temporary, they are recorded in accumulated other comprehensive income, net of a related tax benefit, and did not affect the Company's net earnings. These securities at par are invested in preferred shares of closed end municipal bond funds, which are required, pursuant to the Investment Company Act of 1940, to maintain minimum asset coverage ratios of 200%. All of these available-for-sale investments carried triple-A credit ratings from one or more of the major credit rating agencies as of August 27, 2011 and February 26, 2011, and none of them are mortgage-backed debt obligations. As of August 27, 2011 and February 26, 2011, the Company's available-for-sale investments have been in a continuous unrealized loss position for 12 months or more, however, the Company believes that the unrealized losses are temporary and reflect the investments' current lack of liquidity. Due to their lack of liquidity, the Company classified approximately \$95.6 million and \$103.9 million of these investments as long term investment securities at August 27, 2011 and February 26, 2011, respectively. During the six months ended August 27, 2011, approximately \$15.6 million of these securities were redeemed at par.

U.S. Treasury Securities

As of August 27, 2011 and February 26, 2011, the Company's short term held-to-maturity securities included approximately \$724.9 million and approximately \$599.8 million, respectively, of U.S. Treasury Bills with remaining maturities of less than one year. These securities are stated at their amortized cost which approximates fair value.

Long Term Trading Investment Securities

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

The Company's long term trading investment securities, which are provided as investment options to the participants of the nonqualified deferred compensation plan, are stated at fair market value. The values of these trading investment securities included in the table above are approximately \$18.1 million and \$17.6 million as of August 27, 2011 and February 26, 2011, respectively.

5) Property and Equipment

As of August 27, 2011 and February 26, 2011, included in property and equipment, net is accumulated depreciation and amortization of approximately \$1.5 billion and \$1.4 billion, respectively.

6) Stock-Based Compensation

The Company measures all employee stock-based compensation awards using a fair value method and records such expense in its consolidated financial statements. Currently, the Company's stock-based compensation relates to restricted stock awards and stock options. The Company's restricted stock awards are considered nonvested share awards.

Table of Contents

Stock-based compensation expense for the three and six months ended August 27, 2011 was approximately \$10.6 million (\$6.5 million after tax or \$0.03 per diluted share) and approximately \$24.3 million (\$15.1 million after tax or \$0.06 per diluted share), respectively. Stock-based compensation expense for the three and six months ended August 28, 2010 was approximately \$10.8 million (\$6.6 million after tax or \$0.03 per diluted share) and approximately \$22.6 million (\$13.8 million after tax or \$0.05 per diluted share), respectively. In addition, the amount of stock-based compensation cost capitalized for the six months ended August 27, 2011 and August 28, 2010 was approximately \$0.7 million and \$0.6 million, respectively.

Incentive Compensation Plans

The Company currently grants awards under the Bed Bath & Beyond 2004 Incentive Compensation Plan (the "2004 Plan"). The 2004 Plan is a flexible compensation plan that enables the Company to offer incentive compensation through stock options, restricted stock awards, stock appreciation rights and performance awards, including cash awards. Under the 2004 Plan, grants are determined by the Compensation Committee for those awards granted to executive officers and by an appropriate committee for all other awards granted. Awards of stock options and restricted stock generally vest in five equal annual installments beginning one to three years from the date of grant.

Prior to fiscal 2004, the Company had adopted various stock option plans (the "Prior Plans"), all of which solely provided for the granting of stock options. Upon adoption of the 2004 Plan, the common stock available under the Prior Plans became available for issuance under the 2004 Plan. No further option grants may be made under the Prior Plans, although outstanding awards under the Prior Plans will continue to be in effect.

Under the 2004 Plan and the Prior Plans, an aggregate of 83.4 million shares of common stock were authorized for issuance. The Company generally issues new shares for stock option exercises and restricted stock awards. As of August 27, 2011, unrecognized compensation expense related to the unvested portion of the Company's stock options and restricted stock awards was \$26.2 million and \$129.3 million, respectively, which is expected to be recognized over a weighted average period of 3.5 years and 4.2 years, respectively.

Stock Options

Stock option grants are issued at fair market value on the date of grant and generally become exercisable in either three or five equal annual installments beginning one year from the date of grant for options issued since May 10, 2010, and beginning one to three years from the date of grant for options issued prior to May 10, 2010. Option grants expire eight years after the date of grant for stock options issued since May 10, 2004, and expire ten years after the date of grant for stock options issued prior to May 10, 2004. All option grants are nonqualified.

The fair value of the stock options granted was estimated on the date of the grant using a Black-Scholes option-pricing model that uses the assumptions noted in the following table. During the first quarter of fiscal 2011, the Company granted approximately 0.5 million stock options. No stock options were granted during the second quarter of fiscal 2011.

(1) Forfeitures are estimated based on historical experience.

(2) The expected life of stock options is estimated based on historical experience.

(3) Expected volatility is based on the average of historical and implied volatility. The historical volatility is determined by observing actual prices of the Company's stock over a period commensurate with the expected life of the awards. The implied volatility represents the implied volatility of the Company's call options, which are actively traded on multiple exchanges, had remaining maturities in excess of twelve months, had market prices close to the exercise prices of the employee stock options and were measured on the stock option grant date.

(4) Based on the U.S. Treasury constant maturity interest rate whose term is consistent with the expected life of the stock options.

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

Table of Contents

Changes in the Company's stock options for the six months ended August 27, 2011 were as follows:

(Shares in thousands)	Number of Stock Options	Weighted Average Exercise Price
Options outstanding, beginning of period	10,135	\$ 37.08

The weighted average fair value for the stock options granted during the first six months of fiscal 2011 and 2010 was \$19.65 and \$17.05, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options outstanding as of August 27, 2011 was 3.1 years and \$138.3 million, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options exercisable as of August 27, 2011 was 2.3 years and \$110.0 million, respectively. The total intrinsic value for stock options exercised during the first six months of fiscal 2011 and 2010 was \$44.7 million and \$25.4 million, respectively.

Net cash proceeds from the exercise of stock options for the first six months of fiscal 2011 were \$77.7 million and the net associated income tax benefit was \$7.5 million.

Restricted Stock

Restricted stock awards are issued and measured at fair market value on the date of grant and generally become exercisable in five equal annual installments beginning one to three years from the date of grant. Vesting of restricted stock awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test for the fiscal year of grant, and assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's employ on specified vesting dates. The Company recognizes compensation expense related to these awards based on the assumption that the performance-based test will be achieved. Vesting of restricted stock awarded to the Company's other employees is based solely on time vesting.

Changes in the Company's restricted stock for the six months ended August 27, 2011 were as follows:

(Shares in thousands)	Number of Restricted Shares	Weighted Average Grant-Date Fair Value
Unvested restricted stock, beginning of period	4,575	\$ 35.58
Granted	843	55.81
Vested	(789)	36.02
Forfeited	(54)	36.57
Unvested restricted stock, end of period	4,575	\$ 39.22

7) Shareholders' Equity

Between December 2004 and December 2010, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$4.950 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. The Company also purchases shares of its common stock to cover employee related taxes withheld on vested restricted stock awards. In the first six months of fiscal 2011, the Company repurchased approximately 10.0 million shares of its common stock for a total cost of approximately \$531.6 million, bringing the aggregate total of common stock repurchased to approximately 83.6 million shares for a total cost of approximately \$3.3 billion since the initial authorization in December 2004.

Table of Contents

8) Earnings Per Share

The Company presents earnings per share on a basic and diluted basis. Basic earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding including the dilutive effect of stock-based awards as calculated under the treasury stock method.

Stock-based awards for the three and six months ended August 27, 2011 of approximately 1.0 million and 1.2 million, respectively, and for the three and six months ended August 28, 2010 of approximately 3.5 million and 2.4 million, respectively, were excluded from the computation of diluted earnings per share as the effect would be anti-dilutive.

9) Lines of Credit

At August 27, 2011, the Company maintained two uncommitted lines of credit of \$100 million each, with expiration dates of September 2, 2011 and February 29, 2012, respectively. Subsequent to the end of the second fiscal quarter of 2011, the expiration date on the line of credit that would have otherwise expired on September 2, 2011 was extended to September 2, 2012. These uncommitted lines of credit are currently and are expected to be used for letters of credit in the ordinary course of business. During the first six months of fiscal 2011, the Company did not have any direct borrowings under the uncommitted lines of credit. Although no assurances can be provided, the Company intends to renew both uncommitted lines of credit before the respective expiration dates.

10) Supplemental Cash Flow Information

The Company paid income taxes of \$313.7 million and \$268.2 million in the first six months of fiscal 2011 and 2010, respectively.

The Company recorded an accrual for capital expenditures of \$15.2 million and \$13.4 million as of August 27, 2011 and August 28, 2010, respectively.

Bed Bath & Beyond Inc. and subsidiaries (the "Company") is a chain of retail stores, operating under the names Bed Bath & Beyond ("BBB"), Christmas Tree Shops ("CTS"), Harmon and Harmon Face Values ("Harmon") and buybuy BABY. In addition, the Company is a partner in a joint venture which operates two stores in the Mexico City market under the name Home & More. The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products. The Company's objective is to be a customer's first choice for products and services in the categories offered, in the markets in which the Company operates.

The Company's strategy is to achieve this objective through excellent customer service, an extensive breadth and depth of assortment, everyday low prices, and introduction of new merchandising offerings, supported by the continuous development and improvement of its infrastructure.

The Company continues to face a number of economic challenges impacting consumer confidence and spending, including relatively high unemployment and commodity prices and a sluggish housing market. The Company cannot predict whether, when or the manner in which these economic conditions will change.

The following represents an overview of the Company's financial performance for the periods indicated:

- For the three and six months ended August 27, 2011, the Company's net sales were \$2.314 billion and \$4.424 billion, respectively, an increase of approximately 8.3% and 9.0%, respectively, as compared with the three and six months ended August 28, 2010.
- Comparable store sales for the fiscal second quarter of 2011 increased by approximately 5.6% as compared with an increase of approximately 7.4% for the corresponding period last year. For the six months ended August 27, 2011, comparable store sales increased by approximately 6.3% as compared with an increase of approximately 7.9% for the six months ended August 28, 2010.

A store is considered a comparable store when it has been open for twelve full months following its grand opening period (typically four to six weeks). Stores relocated or expanded are excluded from comparable store sales if the change in square footage would cause meaningful disparity in sales over the prior period. In the case of a store to be closed, such store's sales are not considered comparable once the store closing process has commenced.

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

- Gross profit for the three months ended August 27, 2011 was \$951.0 million, or 41.1% of net sales, compared with \$874.9 million, or 40.9% of net sales, for the three months ended August 28, 2010. Gross profit for the six months ended August 27, 2011 was \$1.809 billion, or 40.9% of net sales, compared with \$1.650 billion, or 40.6% of net sales, for the six months ended August 28, 2010.
- Selling, general and administrative expenses (SG&A) for the three months ended August 27, 2011 were \$579.4 million, or 25.0% of net sales, compared with \$578.0 million, or 27.1% of net sales, for the three months ended August 28, 2010. SG&A for the six months ended August 27, 2011 were \$1.148 billion, or 25.9% of net sales, compared with \$1.128 billion, or 27.8% of net sales, for the six months ended August 28, 2010.
- The effective tax rate for the three months ended August 27, 2011 was 38.0% compared with 38.9% for the three months ended August 28, 2010. The effective tax rate for the six months ended August 27, 2011 was 37.8% compared with 39.0% for the six months ended August 28, 2010.
- For the three months ended August 27, 2011, the Company's net earnings per diluted share were \$0.93 (\$229.4 million), an increase of approximately 33%, as compared with net earnings per diluted share of \$0.70 (\$181.8 million) for the three months ended August 28, 2010. For the six months ended August 27, 2011, the Company's net earnings per diluted share were \$1.65 (\$410.0 million), an increase of approximately 35%, as compared with net earnings per diluted share of \$1.22 (\$319.3 million) for the six months ended August 28, 2010. The increase in net earnings per diluted share for the three and six months ended August 27, 2011 primarily reflects the favorable changes in gross profit and SG&A expenses.

Table of Contents

Capital expenditures for the six months ended August 27, 2011 and August 28, 2010 were \$89.6 million and \$83.6 million, respectively. The Company remains committed to making the required investments in its infrastructure to help position the Company for continued success. The Company continues to review and prioritize its capital needs while continuing to make investments, principally for new stores, existing store improvements, information technology enhancements including increased spending on its interactive platforms, and other projects whose impact is considered important to its future.

During the three and six months ended August 27, 2011, the Company repurchased 5.2 million and 10.0 million shares, respectively, of its common stock at a total cost of approximately \$286.7 million and \$531.6 million, respectively. During the three and six months ended August 28, 2010, the Company repurchased 4.9 million and 6.8 million shares, respectively, of its common stock at a total cost of approximately \$193.1 million and \$278.3 million, respectively.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long term objectives. For all of fiscal 2011, the Company expects that the total number of new store openings will be approximately 40 stores across all of its concepts. During the fiscal second quarter of 2011, the Company opened three BBB stores, seven buybuy BABY stores and four CTS stores, and closed one BBB store.

Results of Operations

Net Sales

Net sales for the three months ended August 27, 2011 were \$2.314 billion, an increase of \$177.3 million or approximately 8.3% over net sales of \$2.137 billion for the corresponding quarter last year. For the three months ended August 27, 2011, approximately 66.5% of the increase in net sales was attributable to the increase in comparable store sales and the balance of the increase was primarily attributable to an increase in the Company's new store sales.

For the three months ended August 27, 2011, comparable store sales for 1,095 stores represented \$2.229 billion of net sales and for the three months ended August 28, 2010, comparable store sales for 1,035 stores represented \$2.035 billion of net sales. The number of stores includes only those which constituted a comparable store for the entire respective fiscal period. The increase in comparable store sales for the three months ended August 27, 2011 was approximately 5.6%, as compared with an increase of approximately 7.4% for the comparable period last year. The increase in comparable store sales for the fiscal second quarter of 2011 was due to increases in both the average transaction amount and the number of transactions.

Sales of domestics merchandise and home furnishings for the Company accounted for approximately 42% and 58% of net sales, respectively, for the three months ended August 27, 2011 and approximately 43% and 57% of net sales, respectively, for the three months ended August 28, 2010.

For the six months ended August 27, 2011, net sales were \$4.424 billion, an increase of \$364.2 million or approximately 9.0% over net sales of \$4.060 billion for the corresponding six months last year. For the six months ended August 27, 2011, approximately 68.7% of the increase in net

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

sales was attributable to the increase in comparable store sales and the balance of the increase was primarily attributable to an increase in the Company's new store sales.

For the six months ended August 27, 2011, comparable store sales for 1,079 stores represented \$4.256 billion of net sales and for the six months ended August 28, 2010, comparable store sales for 1,015 stores represented \$3.846 billion of net sales. The number of stores includes only those which constituted a comparable store for the entire respective fiscal period. The increase in comparable store sales for the six months ended August 27, 2011 was approximately 6.3%, as compared with an increase of approximately 7.9% for the comparable period last year. The increase in comparable store sales for the six months ended August 27, 2011 was primarily attributed to an increase in the number of transactions.

Sales of domestics merchandise and home furnishings for the Company accounted for approximately 42% and 58% of net sales, respectively, for the six months ended August 27, 2011 and August 28, 2010.

Gross Profit

Gross profit for the three months ended August 27, 2011 was \$951.0 million, or 41.1% of net sales, compared with \$874.9 million, or 40.9% of net sales, for the three months ended August 28, 2010. Gross profit for the six months ended August 27, 2011 was \$1.809 billion, or 40.9% of net sales, compared with \$1.650 billion, or 40.6% of net sales, for the six months ended August 28, 2010. The increases in gross profit as a percentage of net sales for the three and six months ended August 27, 2011 were primarily due to a reduction in markdowns and coupons as a percentage of net sales, partially offset by an increase in inventory acquisition costs and a shift in the mix of merchandise sold to lower margin categories.

Selling, General and Administrative Expenses

SG&A for the three months ended August 27, 2011 was \$579.4 million, or 25.0% of net sales, compared with \$578.0 million, or 27.1% of net sales, for the three months ended August 28, 2010. SG&A for the six months ended August 27, 2011 was \$1.148 billion, or 25.9% of net sales, compared with \$1.128 billion, or 27.8% of net sales, for the six months ended August 28, 2010. The decreases in SG&A as a percentage of net sales for the three and six months ended August 27, 2011 was primarily attributed to relative decreases in payroll, occupancy and advertising expenses as a percentage of net sales, all of which benefited from the increases in comparable store sales for both the three and six months ended August 27, 2011. In addition, advertising expenses as a percentage of net sales for both the second quarter and fiscal first half, benefited from a reduction in the mailing of advertising pieces.

Operating Profit

Operating profit for the three months ended August 27, 2011 was \$371.6 million, or 16.1% of net sales, compared with \$296.9 million, or 13.9% of net sales, during the comparable period last year. For the six months ended August 27, 2011, operating profit was \$660.6 million, or 14.9% of net sales, compared with \$522.3 million, or 12.9% of net sales, during the first six months of fiscal 2010. The increases in operating profit as a percentage of net sales were a result of the changes in the gross profit margin and SG&A as a percentage of net sales as described above.

Income Taxes

The effective tax rate for the three months ended August 27, 2011 was 38.0% compared with 38.9% for the three months ended August 28, 2010. The tax rate for the three months ended August 27, 2011 included a decrease in the overall state effective tax rate as well as a net benefit of approximately \$1.2 million, primarily due to favorable resolutions in the quarter of certain discrete tax items from ongoing income tax examinations.

The effective tax rate for the six months ended August 27, 2011 was 37.8% compared with 39.0% for the six months ended August 28, 2010. The tax rate for the six months ended August 27, 2011 included a net benefit of approximately \$5.0 million, primarily due to favorable resolutions of certain discrete tax items from ongoing income tax examinations. The tax rate for the six months ended August 28, 2010 included an approximate \$0.7 million expense due to the recognition of certain discrete items.

The Company expects continued volatility in the effective tax rate from quarter to quarter because the Company is required each quarter to determine whether new information changes the assessment of both the probability that a tax position will effectively be sustained and the appropriateness of the amount of a recognized benefit.

Net Earnings

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

As a result of the factors described above, net earnings for the three and six months ended August 27, 2011 were \$229.4 million and \$410.0 million, respectively, compared with \$181.8 million and \$319.3 million for the corresponding periods in fiscal 2010.

Expansion Program

The Company is engaged in an ongoing expansion program involving the opening of new stores in both new and existing markets, the expansion or relocation of existing stores and the continuous review of strategic acquisitions.

As a result of this program, the Company operated 986 BBB stores, 70 CTS stores, 45 Harmon stores and 54 buybuy BABY stores at the end of the fiscal second quarter of 2011, compared with 972 BBB stores, 61 CTS stores, 45 Harmon stores and 33 buybuy BABY stores at the end of the corresponding quarter last year. At August 27, 2011, Company-wide total store square footage was approximately 35.6 million square feet. In addition, the Company is a partner in a joint venture which operates two stores in the Mexico City market under the name Home & More.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long-term objectives. During the fiscal second quarter of 2011, the Company opened three BBB stores, seven buybuy BABY stores and four CTS stores, and closed one BBB store. For all of fiscal 2011, the Company expects that the total number of new store openings will be approximately 40 stores across all of its concepts. In fiscal 2012, in order to further improve the communication, collaboration, coordination and execution across all of its concepts, activities and platforms, the Company plans to incur costs to relocate its offices from Farmingdale and Garden City, New York to its Union, New Jersey corporate headquarters buildings. The continued growth of the Company is dependent, in large part, upon the Company's ability to execute its expansion program successfully.

Liquidity and Capital Resources

The Company has been able to finance its operations, including its expansion program, entirely through internally generated funds. For fiscal 2011, the Company believes that it will continue to finance its operations, including its expansion program, share repurchase program and planned capital expenditures, entirely through existing and internally generated funds.

Fiscal 2011 compared to Fiscal 2010

Net cash provided by operating activities for the six months ended August 27, 2011 was \$486.2 million, compared with \$404.1 million in the corresponding period in fiscal 2010. Year over year, the Company experienced an increase in net earnings partially offset by an increase in cash used by the net components of working capital (primarily accounts payable, deferred rent & other liabilities, income taxes payable and merchandise inventories, partially offset by other current assets).

Inventory per square foot was \$59.51 as of August 27, 2011 compared to \$55.78 as of August 28, 2010. Inventory per square foot was approximately 6.7% higher than the prior period primarily to support increases in comparable store sales and timing of merchandise receipts.

Net cash used in investing activities for the six months ended August 27, 2011 was \$198.8 million, compared with \$252.5 million in the corresponding period of fiscal 2010. For the six months ended August 27, 2011, net cash used in investing activities was due to \$109.2 million of purchases of investment securities, net of redemptions, and \$89.6 million of capital expenditures. For the six months ended August 28, 2010, net cash used in investing activities was due to \$168.9 million of purchases of investment securities, net of redemptions, and \$83.6 million of capital expenditures.

Capital expenditures for fiscal 2011, principally for new stores, existing store improvements, and information technology enhancements including increased spending on interactive platforms and other projects, are planned to be approximately \$250 million, but may reach as high as \$300 million, depending on the composition and timing of projects.

Net cash used in financing activities for the six months ended August 27, 2011 was \$452.9 million, compared with \$207.2 million in the corresponding period of fiscal 2010. The increase in net cash used was primarily due to an increase of \$253.2 million in common stock repurchases, partially offset by an increase of \$7.6 million in cash proceeds from the exercise of stock options.

Auction Rate Securities

As of August 27, 2011, the Company held approximately \$95.6 million of net investments in auction rate securities. Beginning in mid-February 2008, the auction process for the Company's auction rate securities failed and continues to fail. These failed auctions result in a

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

lack of liquidity in the securities but do not affect the underlying collateral of the securities. All of these investments carry triple-A credit ratings from one or more of the major credit rating agencies and the Company believes that given their high credit quality, it will ultimately recover at par all amounts invested in these securities. As of August 27, 2011, these securities had a temporary valuation adjustment of approximately \$1.7 million to reflect their current lack of liquidity. Since this valuation adjustment is deemed to be temporary, it was recorded in accumulated other comprehensive income, net of a related tax benefit, and did not affect the Company's net earnings for the six months ended August 27, 2011.

During the six months ended August 27, 2011, approximately \$15.6 million of auction rate securities were redeemed at par.

The Company does not anticipate that any potential lack of liquidity in its auction rate securities, even for an extended period of time, will affect its ability to finance its operations, including its expansion program, share repurchase program, and planned capital expenditures. The Company continues to monitor efforts by the financial markets to find alternative means for restoring the liquidity of these investments. These investments will remain primarily classified as non-current assets until the Company has better visibility as to when their liquidity will be restored. The classification and valuation of these securities will continue to be reviewed quarterly.
