DENTON, Texas, July 17, 2012

Sally Beauty Holdings, Inc. (NYSE:SBH) (the Company) today announced preliminary results for the fiscal quarter ended June 30, 2012.

Preliminary Results for the Quarter Ended June 30, 2012

For the quarter ended June 30, 2012 (the fiscal 2012 third quarter), the Company's consolidated net sales were approximately \$887.0 million, an increase of 6.0% from the quarter ended June 30, 2011 (the fiscal 2011 third quarter). This fiscal 2012 third quarter sales increase is attributed primarily to same store sales growth, the addition of new stores and acquisitions. The negative impact from changes in foreign currency exchange rates was \$11.0 million or 132 basis points in the fiscal 2012 third quarter. Consolidated same store sales growth in the fiscal 2012 third quarter was approximately 5.2% compared to 5.9% in the fiscal 2011 third quarter. Key drivers of same store sales growth include increased customer traffic and higher average ticket in both business segments.

In the fiscal 2012 third quarter, GAAP net earnings were approximately \$69.5 million, a 0.5% increase, when compared to fiscal 2011 third quarter GAAP net earnings of \$69.1 million. In the fiscal 2012 third quarter, GAAP diluted earnings per share were approximately \$0.37, flat when compared to fiscal 2011 third quarter GAAP diluted earnings per share of \$0.37. Fiscal 2011 third quarter includes an after-tax credit of \$13.4 million from a litigation settlement, net of non-recurring expenses.

In the fiscal 2012 third quarter, adjusted net earnings (a non-GAAP measure) increased by 28.3% to approximately \$71.6 million, or \$0.38 earnings per diluted share compared to fiscal 2011 third quarter adjusted net earnings of \$55.8 million and \$0.30 earnings per diluted share. Adjusted net earnings in the fiscal 2012 third quarter were adjusted for expenses related to the refinancing of the outstanding balance on the Company's Senior Term B loan with a portion of the proceeds from the sale of \$700 million of the Company's 5.75% Senior Notes due 2022. The Company's adjusted net earnings for the fiscal 2011 third quarter were adjusted for an after-tax credit of \$13.4 million from a litigation settlement, net of non-recurring expenses. See Use of Non-GAAP Financial Measures below for a reconciliation of adjusted net earnings to GAAP net earnings and a reconciliation of adjusted earnings per diluted share to GAAP diluted earnings per share.

The Company's Adjusted EBITDA (a non-GAAP measure) for the fiscal 2012 third quarter was approximately \$155.7 million, an increase of 17.3% compared to Adjusted

EBITDA for the fiscal 2011 third quarter of \$132.7 million. See *Use of Non-GAAP Financial Measures* below for a reconciliation of adjusted EBITDA to GAAP net earnings.

The results described above for the Company and the Company's business segments are estimated, preliminary, subject to completion and may change. Because we have not completed our normal quarterly closing and review procedures for the quarter ended June 30, 2012, and subsequent events may occur that require adjustments to these results, there can be no assurance that the final results for the quarter ended June 30, 2012 will not differ materially from these estimates. These estimates should not be viewed as a substitute for full interim financial statements prepared in accordance with GAAP. Accordingly, you should not place undue reliance on the foregoing estimates.

Use Of Non-GAAP Financial Measures

The Company occasionally utilizes financial measures and terms not calculated in accordance with generally accepted accounting principles in the United States (GAAP) in order to provide investors with an alternative method for assessing our operating results in a manner that enables investors to more thoroughly evaluate our current performance as compared to past performance. We also believe these non-GAAP

measures provide investors with a more informed baseline for modeling the Company's future financial performance. Our management uses these non-GAAP measures for the same purpose. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. We have provided tables to reconcile the non-GAAP financial measures utilized to GAAP financial measures.

Adjusted EBITDA

We define the measure Adjusted EBITDA as GAAP Net Earnings before depreciation and amortization, share-based compensation, interest expense (which includes the loss on extinguishment of indebtedness), and income taxes. Our management uses Adjusted EBITDA as a supplemental measure in the evaluation of our businesses and believes that Adjusted EBITDA provides a meaningful measure of our ability to meet our future debt service, capital expenditures and working capital requirements.

Adjusted Net Earnings

This measure consists of GAAP Net Earnings, which is then adjusted solely for the purpose of excluding non-cash interest expense (which includes the loss on extinguishment of indebtedness). We believe excluding non-cash interest expense from our GAAP Net Earnings provides investors with a better depiction of the Company's core operating results and provides a more informed baseline for modeling future earnings expectations.

Adjusted Earnings Per Diluted Share (Adjusted EPS)

We define this non-GAAP financial measure as the portion of the Company's GAAP Net Earnings assigned to each share of stock, excluding non-cash interest expense (which includes the loss on extinguishment of indebtedness). We believe excluding non-cash interest expense from our GAAP Net Earnings provides investors with a better depiction of the Company's core operating results and provides a more informed baseline for modeling future earnings expectations.
