Operating performance for the third quarter of 2013

During the third quarter of 2013, Luxottica continued the solid growth recorded in the first six months of the year, both in terms of sales and profitability measured at constant exchange rates. Both the Wholesale and Retail Divisions contributed to this growth in all the geographic regions in which the Group operates and also thanks to an excellent Summer season in Europe. Group's performance measured at current exchange rates was affected by the further weakening of several currencies against the Euro.

We are very satisfied with the third quarter's performance and the systematic growth we have been pursuing with determination since the beginning of the year, recording a +7.4% increase in sales at constant exchange rates² and increased profitability supported by constant efficiency gains. Commented Andrea Guerra, Chief Executive Officer of Luxottica. We have further reduced our net debt due to excellent free cash flow³ of Euro 295 million generated in the quarter.

The Wholesale Division grew +13.1% at constant exchange rates², Andrea Guerra remarked. Europe is in excellent shape with results exceeding expectations (+15.1%^{2,6}) and with outstanding performances in Germany, France and the Nordics. Italy continued its positive growth trend (+7.4%) and Spain is back to growth, recording an increase of +11.3%. Emerging market countries continue to be a source of enormous satisfaction, recording sales increases of +19.6%⁶ at constant exchange rates². North America is also a structurally growing market as a result of an excellent brand portfolio and our efficient organization.

The Retail Division's sales performance is in line with that recorded in the first half of 2013. Sunglass Hut achieved an outstanding performance at the end of an excellent Summer season in which total sales increased by +11.1% globally at constant exchange rates². This success was achieved by strengthening its leadership position in the fashion sun segment and through new sales initiatives such as the opening of the flagship store in New York City's Times Square.

We are satisfied with our results and are determined to continue along our path of solid growth. We approach the end of 2013 with faith and optimism, steady consumer demand in the key markets and supported by the excellent performance of our brands. Luxottica has solid foundations in its vertically integrated and geographically diversified business model, and looking forward we will continue to invest in expanding our distribution network and new sales channels, in ongoing technological innovation, in our brand portfolio and in the emerging markets.

The Group

The Group's net sales for the third quarter of 2013 reached Euro 1,785 million, in line with the Euro 1,783 million recorded in the third quarter of 2012 (+7.4% at constant exchange rates², +0.1% at current exchange rates). In the first nine months of 2013, net sales reached Euro 5,667 million, up +3.9% compared to the Euro 5,454 million of the corresponding period in 2012 (+7.5% at constant exchange rates²).

EBITDA³ for the third quarter of 2013 rose by +2.3% from Euro 339 million in the third quarter of 2012 to Euro 347 million in the same period of 2013. In the first nine months of 2013, adjusted EBITDA^{3,5} reached Euro 1,175 million, increasing +7.3% as compared to Euro 1,095 million in the same period of 2012.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Operating income for the third quarter of 2013 was Euro 255 million, up 3.8% compared to the Euro 246 million in the third quarter of 2012. The operating margin for the third quarter increased to 14.3% compared to 13.8% in the third quarter 2012.

In the first nine months of the year adjusted operating income^{3,5} reached Euro 901 million, up 8.4% compared to Euro 831 million in the same period of 2012, with an adjusted operating margin^{3,5} up from 15.2% in the first nine months of 2012 to 15.9% in the same period of 2013.

Net income for the third quarter of 2013 increased by 7.9% to Euro 148 million, compared to Euro 137 million in the third quarter of 2012 resulting in EPS (earnings per share) of Euro 0.31. EPS in U.S. dollars was USD 0.41, up 12.5% (at an average EUR/USD exchange rate of 1.3242). In the first nine months of 2013, adjusted net income^{3,5} reached Euro 525 million, growing 10.5% compared to Euro 475 million in the same period of 2012.

In the third quarter of 2013, the Group achieved a new record in terms of free cash flow³ which reached Euro 295 million. As a result net debt was further reduced to Euro 1,572 million at September 30, 2013 (Euro 1,662 million at December 31, 2012) with a ratio of net debt to LTM adjusted EBITDA^{3,5} of 1.1x.

Wholesale Division

Sales performance for the Wholesale Division included double digit sales growth at constant exchange rates. Europe enjoyed a particularly favorable Summer season (+15.1%⁶ at constant exchange rates²) and emerging markets continued to record excellent results (+19.6%⁶ at constant exchange rates²). Sales in North America rose by +8.8%^{2,6} in USD, excluding a drop in Oakley sales in its military business to the U.S. Army.

In the third quarter of 2013, the Wholesale Division's net sales were Euro 686 million, up 6.1% compared to Euro 647 million in the third quarter of 2012 (+13.1% at constant exchange rates²). In the first nine months of 2013, net sales were Euro 2,347 million compared to Euro 2,162 million in the corresponding period of 2012, up 8.6% (+12.1% at constant exchange rates²).

Operating income for the third quarter of 2013 was Euro 134 million, up 7.1% compared to the Euro 125 million recorded in the third quarter of 2012, with an operating margin of 19.5% (19.3% in the same period of the previous year). On a nine-month basis, adjusted operating income³ rose to Euro 564 million an 11.6%⁵ increase over the Euro 505 million in the corresponding period of 2012. The adjusted operating margin³ increased to 24.0%⁵ from 23.4% in the same nine-month period of 2012.

Retail Division

During the third quarter of 2013, the Retail Division's comparable store sales⁴ grew 2.5% compared to the same period of 2012. LensCrafters, the largest specialty retailer in the optical segment, recorded improved profitability despite flat comparable store sales⁴ on a year-over-year basis.

Sunglass Hut continued its excellent growth trend, supported by a stronger penetration of the premium and luxury sun segment, by the development of new sales channels such as e-commerce and department store sales, and by its growing presence in the so-called gateways and megacities. Comparable store sales⁴ on a global basis increased by +7.5%, with breakthrough performances in the United Kingdom, emerging market countries, and North America which recorded an increase of +6.3%.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

In the third quarter of 2013, the Retail Division's net sales were Euro 1,099 million compared to Euro 1,137 million in the same period of 2012 (+4.2% at constant exchange rates², -3.3% at current exchange rates). In the nine-month period, net sales increased to Euro 3,320 million compared to Euro 3,292 million in the corresponding period of 2012 (+4.5% at constant exchange rates², +0.8% at current exchange rates).

The Retail Division's operating income in the third quarter 2013 was Euro 165 million compared to Euro 166 million in the third quarter of 2012 (-0.7% at current exchange rates). In the third quarter of 2013, the operating margin increased to 15.0% from 14.6% in the third quarter of 2012. In the first nine months of 2013, the Retail Division's adjusted operating income³ rose to Euro 477 million from Euro 461.5 million in the corresponding period of 2012 (+3.5%⁵ at current

exchange rates). The adjusted operating margin³ in the first nine months of 2013 was 14.4% (14.0%⁵ in the same period of 2012).

Notes on the press release

(1) All comparisons, including percentage changes, are between the three-month and the nine-month periods ended September 30, 2013 and September 30, 2012. As of January 1, 2013, the Group adopted revised IAS 19 - Employee Benefits. Group information for prior periods has been restated in compliance with the requirements of the revised standards. As a result, the Group's third quarter 2012 operating income and net income decreased by Euro 3.1 million and Euro 1.9 million, respectively. In the first nine months of 2012 the Group's operating income and net income decreased by Euro 9.0 million and Euro 5.5 million, respectively.

(2) Figures given at constant exchange rates have been calculated using the average exchange rates in effect for the respective comparative period in the previous year. For further information, please see the attached tables.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

(3) EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA margin, adjusted operating income, adjusted operating margin, free cash flow, net debt, ratio of net debt to adjusted EBITDA, adjusted net income and adjusted EPS are not measures in accordance with IAS/IFRS. For additional information on non-IAS/IFRS measures, please see the attached tables.

(4) Comparable store sales reflect the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period, and applies to both periods the average exchange rate for the prior period and the same geographic area.

(5) The adjusted data for the first nine months of 2013 does not include non-recurring costs relating to the reorganization of Alain Mikli International amounting to an approximately Euro 9 million adjustment to operating income (approximately Euro 6 million on an after-tax basis).

The adjusted data for the first nine months and full year 2012 does not include non-recurring costs relating to the reorganization of the Australian retail business amounting to an approximately Euro 22 million adjustment to operating income and an approximately Euro 15 million adjustment to net income.

(6) Sales performance of the Wholesale Division of Luxottica Group in the third quarter of 2013 at current exchange rates was approximately +13.0% in Europe compared to the same period of 2012. Sales performance of emerging markets at current exchange rates recorded an increase of 7.0%. North America's sales performance at current exchange rates was +8.0% in USD excluding Oakley's drop in military sales to the U.S. Army.

Non-IAS/IFRS Measures: Adjusted measures

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

We have made such adjustments to the following measures: EBITDA, EBITDA margin, operating income, operating margin, net income and earnings per share.

For comparative purposes, management has adjusted each of the foregoing measures by excluding non-recurring restructuring costs related to the Alain Mikli acquisition of approximately Euro 9.0 million as of September 30, 2013.

In addition, we have made adjustments to fiscal year 2012 measures for comparative purposes as described in the footnotes to the tables that contain such fiscal year 2012 data.

As of January 1, 2013, the Group adopted revised IAS 19 - Employee Benefits. Group information for prior periods has been restated in compliance with the requirements of the revised standard. As a result, 2012 Group's operating income and net income decreased

by Euro 9.0 million and Euro 5.5 million, respectively, for the nine-month period ended September 30, 2012 and Euro 3.1 million and Euro 1.9 million, respectively, for the three-month period ended September 30, 2012.

The Company believes that these adjusted measures are useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry because they exclude the impact of non-recurring items that are not relevant to the Company's operating performance.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). We include these adjusted measures in this presentation in order to provide a supplemental view of operations that excludes items that are unusual, infrequent or unrelated to our ongoing core operations.

These adjusted measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company. The Company cautions that these adjusted measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Investors should be aware that Luxottica Group's method of calculating these adjusted measures may differ from methods used by other companies.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

The Company recognizes that there are limitations in the usefulness of adjusted measures due to the subjective nature of items excluded by management in calculating adjusted comparisons. We compensate for the foregoing limitation by using these adjusted measures as a comparative tool, together with IAS/IFRS measures, to assist in the evaluation of our operating performance.

See the tables on the following pages for a reconciliation of the adjusted measures discussed above to their most directly comparable IAS/IFRS financial measures or, in the case of adjusted EBITDA and adjusted EBITDA margin, to EBITDA and EBITDA margin, respectively, which are also non-IAS/IFRS measures. For a discussion of EBITDA and EBITDA margin and a reconciliation of EBITDA and EBITDA margin to their most directly comparable IAS/IFRS financial measures, see the tables on the pages immediately following the reconciliation of the adjusted measures.

Non-IAS/IFRS Measure: EBITDA and EBITDA margin

EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. **EBITDA margin** means EBITDA divided by net sales. The Company believes that EBITDA is useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). We include them in this presentation in order to:

- improve transparency for investors;
- assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;
- assist investors in their assessment of the Company's cost of debt;
- ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;
- properly define the metrics used and confirm their calculation; and
- share these measures with all investors at the same time.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company. The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Investors should be aware that Luxottica Group's method of calculating EBITDA may differ from methods used by other companies. The Company recognizes that the usefulness of EBITDA has certain limitations, including:

- EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;
- EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;
- EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

- EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs; and
- EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IAS/IFRS measures, to assist in the evaluation of our operating performance and leverage.

See the table on the following page for a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of EBITDA margin.

- (3) (a) non-recurring OPSM reorganization costs with an approximately Euro 22 million impact on operating income and an approximately Euro 15 million adjustment to net income; and
(b) non-recurring accrual for the tax audit relating to Luxottica S.r.l. (fiscal year 2007) of approximately Euro 10 million.

Non-IAS/IFRS Measure: Net Debt to EBITDA ratio

Net debt to EBITDA ratio: Net debt means the sum of bank overdrafts, current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interests, taxes, other income/expense, depreciation and amortization. The Company believes that EBITDA is useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Company's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). We include them in this presentation in order to:

- improve transparency for investors;
- assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;
- assist investors in their assessment of the Company's cost of debt;
- ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;
- properly define the metrics used and confirm their calculation; and
- share these measures with all investors at the same time.

EBITDA and ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company. The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies. The Company recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

- EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;
- EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

- EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;
- EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and
- The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IAS/IFRS measures, to assist in the evaluation of our operating performance and leverage.

See the table on the following page for a reconciliation of net debt to long-term debt, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure, see the table on the preceding pages.

(b) non-recurring accrual for the tax audit relating to Luxottica S.r.l. (fiscal year 2007) of approximately Euro 10 million.

Non-IAS/IFRS Measures: Free Cash Flow

Free cash flow represents net income before non-controlling interests, taxes, other income/expense, depreciation and amortization (i.e. EBITDA see table on the earlier page) plus or minus the decrease/(increase) in working capital over the prior period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. The Company believes that free cash flow is useful to both management and investors in evaluating the Company's operating performance compared with other companies in its industry. In particular, our calculation of free cash flow provides a clearer picture of the Company's ability to generate net cash from operations, which is used for mandatory debt service requirements, for funding discretionary investments, for paying dividends or pursuing other strategic opportunities.

Free cash flow is not a measure of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). We include it in this presentation in order to:

- Improve transparency for investors;
- Assist investors in their assessment of the Company's operating performance and its ability to generate cash from operations in excess of its cash expenses;
- Ensure that this measure is fully understood in light of how the Company evaluates its operating results;
- Properly define the metrics used and confirm their calculation; and
- Share this measure with all investors at the same time.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, this non-IAS/IFRS measure should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company. The Company cautions that this measure is not a defined term under IAS/IFRS and its definition should be carefully reviewed and understood by investors. Investors should be aware that Luxottica Group's method of calculation of free cash flow may differ from methods used by other companies. The Company recognizes that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

- The manner in which the Company calculates free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;
- Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and
- Free cash flow can be subject to adjustment at the Company's discretion if the Company takes steps or adopts policies that increase or diminish its current liabilities and/or changes to working capital.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IAS/IFRS measures, to assist in the evaluation of our operating performance.

See the table on the following page for a reconciliation of free cash flow to EBITDA and the table on the earlier page for a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure.
