**Item 2.05. Costs Associated with Exit and Disposal Activities.**

On December 18, Caterpillar Inc. (the Company, we, us, our) committed to a restructuring plan (the Plan) for our Gosselies, Belgium operations in order to improve the competitiveness of our European manufacturing footprint.

Our Plan is designed to achieve competitiveness in our European operations by refocusing our current Gosselies operations on final machine assembly, test and paint with limited component or fabrication operations. These actions will include reshaping our supply base for more efficient sourcing, improving factory efficiencies and workforce reductions.

We recently completed negotiations with the representatives of our hourly and salaried employees regarding separation benefits, and the resulting proposals have been approved by a majority vote. These proposals are still subject to Belgian Ministerial approval. We estimate these employee cash separation costs to be about \$300 million before tax, which represents substantially all of the restructuring charges to be incurred under the Plan. A decision by the Belgian Minister of Employment is expected during the first quarter of 2014, and subject to such approval, we expect to recognize substantially all of these separation-related charges throughout 2014.

**Forward-Looking Statements**

Certain statements in this filing relate to future events and expectations and are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as believe, estimate, will be, will, would, expect, anticipate, plan, project, should or other similar words or expressions often identify forward-looking statements. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding our outlook, projections, forecasts or trend descriptions. These statements do not guarantee future performance, and we do not undertake to update our forward-looking statements.

Caterpillar's actual results may differ materially from those described or implied in our forward-looking statements based on a number of factors, including, but not limited to: (i) global economic conditions and economic conditions in the industries and markets we serve; (ii) government monetary or fiscal policies and infrastructure spending; (iii) commodity or component price increases, fluctuations in demand for our products, or limited availability of raw materials and component products, including steel; (iv) our and our customers', dealers' and suppliers' ability to access and manage liquidity; (v) political and economic risks and instability, including national or international conflicts and civil unrest; (vi) our and Cat Financial's ability to: maintain credit ratings, avoid material increases in borrowing costs, and access capital markets; (vii) the financial condition and credit worthiness of Cat Financial's customers; (viii) changes in interest rates or market liquidity; (ix) changes in financial services regulation; (x) inability to realize expected benefits from acquisitions, including ERA Mining Machinery Limited, and divestitures, including the divestiture of the Bucyrus distribution business to our independent dealers; (xi) international trade and investment policies; (xii) market acceptance of our products and services; (xiii) changes in the competitive environment, including market share, pricing and geographic and product mix of sales; (xiv) successful implementation of capacity expansion projects, cost reduction initiatives and efficiency or productivity initiatives, including the Caterpillar Production System; (xv) inventory management decisions and sourcing practices of our dealers
