How the Redemption Amount is calculated

The Redemption Amount will be determined as follows:

- If the Ending Price is greater than the Starting Price, the Redemption Amount will be equal to the lesser of:

- (i) \$1,000 *plus*

- (ii) the Capped Value

- If the Ending Price is less than or equal to the Starting Price, but greater than or equal to the Threshold Price, the Redemption Amount will be equal to \$1,000

- If the Ending Price is less than the Threshold Price, the Redemption Amount will be equal to \$1,000 *minus*

In such a case, you will lose up to 85.00% of your Principal Amount.
