The 2019 Short-Term ICP provides that financial performance goals will provide 70% of total cash incentive award potential for each of the executive officers, with the remaining 30% allocated to individual performance goals established by the Compensation Committee.

The financial goals portion of the cash incentive awards to Dr. Laukien and Mr. Herman will be determined based on achievement of specified 2019 performance goals allocated to the following corporate financial objectives: currency-adjusted organic revenue growth, non-GAAP operating profit improvement, non-GAAP earnings per share growth and reduction in the Company's working capital ratio.

The financial goals portion of the cash incentive awards to each of the Company's Group Presidents, Drs. Busse and Munch and Mr. Srega, will be determined based on achievement of specified 2019 financial performance goals for their respective Group, as well as corporate financial performance relative to the Company's non-GAAP earnings per share growth objective. Performance goals for each Group, which represent approximately 85% of the respective Group President's target bonus opportunity based on financial goals (i.e., 60% of each Group President's total target bonus opportunity), are allocated to the following Group-level objectives: currency-adjusted revenue growth, non-GAAP gross profit improvement, non-GAAP operating profit improvement and working capital ratio improvement. Approximately 15% of the respective Group President's target bonus opportunity allocated to financial goals (i.e., 10% of each Group President's total target bonus opportunity) will be determined based on the Company's non-GAAP earnings per share growth.

The financial goals portion of the cash incentive award to Dr. Prause will be determined based on achievement of specified 2019 financial performance goals for the BEST operating segment, as well as corporate financial performance relative to the Company's non-GAAP earnings per share growth objective. Performance goals for the BEST segment, which represent approximately 85% of Dr. Prause's target bonus opportunity based on financial goals (i.e., 60% of his total target bonus opportunity), are allocated to the following BEST segment objectives: currency-adjusted revenue growth, non-GAAP gross profit improvement, non-GAAP operating profit improvement and working capital ratio improvement. Approximately 15% of Dr. Prause's target bonus opportunity allocated to financial goals (i.e., 10% of his total target bonus opportunity) will be determined based on the Company's non-GAAP earnings per share growth.

Portions of the incentive awards linked to the achievement of financial performance goals will be calculated based on percentage achievement of each financial target goal, with no threshold or maximum. However, the incentive award payout for performance attributable to financial performance goals is subject to a maximum aggregate payout of 200% of the respective executive officer's total target bonus opportunity linked to such goals.

The individual goals portion of the cash incentive payments to be awarded under the 2019 Short-Term ICP will be determined based on measures of the respective executive officer's contributions to the achievement of certain strategic and operational management objectives, as approved by the Compensation Committee. Under the 2019 Short-Term ICP, payments for individual goals will be made in a range of 0% to 125% of their respective targets, subject to satisfaction of certain minimum performance expectations.

A copy of the 2019 Short-Term Incentive Compensation Program approved by the Compensation Committee is attached hereto as Exhibit 10.1.
