PROSPECTUS SUPPLEMENT

(To Prospectus dated February 23, 2007)

36,698,005 Shares

The Dow Chemical Company

Common Stock

We are selling 36,698,005 shares of our common stock pursuant to the employee stock ownership plan component (ESOP) of The Dow Chemical Company Employees Savings Plan (the Plan), which will be held in the Plan trust containing the suspense account of the ESOP (ESOP Trust) and will be allocated to eligible participants in the Plan pursuant to the Plan s terms. The price per share of common stock will be \$15.0561.

To the extent such sales would be required by the Employee Retirement Income Security Act of 1974, as amended (ERISA), the ESOP Trust, as the selling stockholder, may also use this prospectus supplement to offer and sell from time to time the same 36,698,005 shares of our common stock held by it, directly or through agents or broker-dealers, on terms to be determined at the time of the sale as described in more detail in this prospectus supplement. We will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholder.

Our common stock is listed on the New York Stock Exchange under the symbol DOW. The last reported closing price of our common stock on the New York Stock Exchange on May 11, 2009 was \$17.63 per share.

Investing in our common stock involves risks that are described under Risk Factors beginning on page S-12.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

May 11, 2009.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is comprised of two parts. The first part is this prospectus supplement, which contains the terms of this offering of common stock by us and other information. The second part is the accompanying prospectus dated February 23, 2007, which is part of our Registration Statement on Form S-3 (No. 333-140859), and contains more general information, some of which does not apply to this offering.

This prospectus supplement may add to, update or change the information in the accompanying prospectus. If information in this prospectus supplement is inconsistent with information in the accompanying prospectus, this prospectus supplement will apply and will supersede that information in the accompanying prospectus.

It is important for you to read and consider all information contained or incorporated by reference into this prospectus supplement and the accompanying prospectus in making your investment decision. You should also read and consider the information in the documents to which we have referred you in **Where You Can Find More Information** in this prospectus supplement.

No person is authorized to give any information or to make any representation that is different from, or in addition to, those contained or incorporated by reference into this prospectus supplement or the accompanying prospectus and, if given or made, such information or representations must not be relied upon as having been authorized. Neither the delivery of this prospectus supplement and the accompanying prospectus, nor any sale made hereunder, shall under any circumstances create any implication that there has been no change in our affairs since the date of this prospectus supplement, or that the information contained or incorporated by reference into this prospectus supplement or the accompanying prospectus is correct as of any time subsequent to the date of such information.

The distribution of this prospectus supplement and the accompanying prospectus and the offering of the common stock in certain jurisdictions may be restricted by law. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell, or an invitation on our behalf to subscribe to or purchase any shares of the common stock, and may not be used for or in connection with an offer or solicitation by anyone, in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. See **Plan of Distribution**.

In this prospectus supplement, unless otherwise stated or the context otherwise requires, references to **Dow**, **we**, **us**, **our**, and **Company** refer to The Dow Chemical Company and its consolidated subsidiaries, which, prior to April 1, 2009, did not include Rohm and Haas Company and its subsidiaries and, since April 1, 2009, has included Rohm and Haas Company and its subsidiaries. References to **TDCC** refer to The Dow Chemical Company excluding its subsidiaries. References to **Rohm and Haas** refer to Rohm and Haas Company and its consolidated subsidiaries. If we use a capitalized term in this prospectus supplement and do not define the term in this document, it is defined in the accompanying prospectus.

CAUTIONARY STATEMENTS RELATING TO FORWARD-LOOKING INFORMATION

This prospectus supplement and the accompanying prospectus, and the documents incorporated herein by reference, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the **Securities Act**) and Section 21E of the Securities Exchange Act of 1934, as amended (the **Exchange Act**). Those statements relate to developments, results, conditions or other events we expect or anticipate will occur in the future. We intend words such as **believes**, **anticipates**, **may**, **should**, **could**, **plans**, **expects** and similar expressions to identify forward-looking statements. The forward-looking statements involve risks and uncertainties that may affect our operations, markets, products, services, prices and other factors as more fully discussed elsewhere in this prospectus supplement and in the documents incorporated herein by reference. These risks and uncertainties include, but are not limited to, economic, competitive, legal, governmental and technological factors. Accordingly, there is no assurance that our expectations will be realized. We assume no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about us discussed elsewhere in this prospectus supplement, the accompanying prospectus or the documents that we have filed with the Securities and Exchange Commission (the "SEC") that are incorporated herein by reference. It does not contain all of the information that is important to you in deciding whether to purchase the common stock. We encourage you to read the entire prospectus supplement, the accompanying prospectus and the documents that we have filed with the SEC that are incorporated herein by reference, including the financial statements and notes thereto, prior to deciding whether to purchase the common stock.

Dow's Business

Dow is a diversified chemical company that combines the power of science and technology with the Human Element to constantly improve what is essential to human progress. Dow offers a broad range of products and services, connecting chemistry and innovation with the principles of sustainability to help provide everything from fresh water, food, and pharmaceuticals to paints, packaging and personal care products. Dow is the largest U.S. producer of chemicals and plastics, in terms of sales, with total sales of \$57.5 billion in 2008. Dow conducts its worldwide operations through global businesses, which, prior to April 1, 2009, were reported in six operating segments:

Performance Plastics, consisting of the Dow Automotive, Dow Building Solutions, Dow Epoxy, Polyurethanes and Polyurethane Systems, Specialty Plastics and Elastomers, and Technology Licensing and Catalyst businesses,

Performance Chemicals, consisting of the Designed Polymers, Dow Latex, and Specialty Chemicals businesses, along with the results of Dow Corning Corporation, and a portion of the results of the OPTIMAL Group of Companies and the SCG-Dow Group, all joint ventures of Dow,

Agricultural Sciences, consisting of the Dow AgroSciences business,

Basic Plastics, consisting of the Polyethylene, Polypropylene, and Polystyrene businesses, along with the results of Equipolymers and Americas Styrenics LLC, as well as a portion of the results of EQUATE Petrochemical Company K.S.C. and the SCG-Dow Group, all joint ventures of Dow,

Basic Chemicals, consisting of the Core Chemicals and Ethylene Oxide/Ethylene Glycol businesses, along with the results of MEGlobal, and a portion of the results of EQUATE Petrochemical Company K.S.C. and the OPTIMAL Group of Companies, all joint ventures of Dow, and

Hydrocarbons and Energy, consisting of the Hydrocarbons and Energy business, along with the results of Compañía Mega, S.A., and a portion of the results of the SCG-Dow Group, both joint ventures of Dow.

Following Dow's acquisition of Rohm and Haas, Dow announced a new management organization. As such, in the second quarter of 2009, Dow will reevaluate its reportable operating segments.

In 2008, Dow sold approximately 3,300 products and its services to customers in approximately 160 countries throughout the world. Thirty-six percent of its sales were to customers in North America; 38 percent were in Europe; while the remaining 26 percent were to customers in Asia Pacific, Latin America, India, the Middle East and Africa. In 2008, Dow employed approximately 46,000 people, with approximately 6,000 engaged in various research and development activities, and has a broad, global reach, with 150 manufacturing sites in 35 countries.

In 2008, Dow's net sales increased 7 percent over 2007 to \$57.5 billion, setting a new sales record for Dow, as a 12 percent increase in prices outweighed a 5 percent decline in volume. The increase in prices was principally in response to higher feedstock and energy purchased costs, which were up \$5.9 billion compared

S-1

Table of Contents

with 2007. Reported earnings in 2008 of \$579 million declined from \$2,887 million in 2007. The earnings decline in 2008 was largely due to a deterioration in global demand, higher feedstock and energy and other raw material costs, lower equity in earnings from nonconsolidated affiliates reflecting demand destruction, goodwill impairment losses, and the impact of a restructuring plan announced toward the end of 2008 as part of a series of actions to advance Dow's strategy and respond to the recent, severe economic downturn. The restructuring plan included the elimination of approximately 5,000 jobs (including planned divestitures) and the closure of facilities in high-cost locations. In addition, Dow announced the temporary idling of nearly 200 plants. Overall, Dow's focus on price and volume management and control of discretionary spending helped to partially offset deteriorating results in a challenging economic environment. In 2008, Dow reported strong cash flow from operating activities of \$4.7 billion and ended the year with \$2.8 billion of cash and cash equivalents.

Dow had net sales of \$9,087 million for the three months ended March 31, 2009, a decrease of 39 percent compared with net sales of \$14,824 million for the three months ended March 31, 2008. Compared with the same quarter of 2008, prices declined 20 percent, driven principally by decreases in feedstock and energy costs (which were down \$3.1 billion or 49 percent), while volume declined 19 percent due to an overall decrease in global demand. Net income attributable to The Dow Chemical Company for the three months ended March 31, 2009 was \$24 million, down from \$941 million for the three months ended March 31, 2008. Despite significantly lower feedstock and energy costs and our cost control efforts, earnings declined due to lower selling prices and lower volume, as well as a decline in our equity in the earnings of nonconsolidated affiliates, as our joint ventures were also impacted by poor economic conditions. In addition, earnings in the first quarter of 2009 were impacted by additional severance related to our restructuring activities, additional Rohm and Haas acquisition-related expenses, and our share of a restructuring charge recorded in the first quarter by Dow Corning Corporation.

Dow continues to implement a strategy designed to reduce earnings cyclicality and improve earnings growth by increasing investments in the Performance businesses and growing the Basics businesses through cost-advantaged joint ventures. In furtherance of this strategy, on April 1, 2009, Dow acquired Rohm and Haas Company. For a summary description of Rohm and Haas business, see Rohm and Haas Business below. For a summary description of Dow's acquisition of Rohm and Haas and the related financing, see Rohm and Haas Acquisition and Related Financing below.

For more information concerning Dow's business, see The Business of The Dow Chemical Company.

Rohm and Haas Business

Rohm and Haas, which became our wholly owned subsidiary on April 1, 2009, is a global specialty materials company with sales of \$9.6 billion in 2008 on a portfolio of global businesses including electronic materials, specialty materials and salt. Its products enable the creation of leading-edge consumer goods and other products found in a broad segment of dynamic markets, the largest of which include: building and construction, electronics, packaging and paper, industrial and other, transportation, household and personal care, water and food. To serve these markets, in 2008, Rohm and Haas had significant operations with approximately 98 manufacturing and 34 research facilities in 30 countries and approximately 15,490 employees. Prior to our acquisition of Rohm and Haas, Rohm and Haas financial results were reported in seven reportable segments organized within the following business groups:

Electronic Materials Group, consisting of the Electronic Technologies segment (which includes its Circuit Board Technologies, Packaging and Finishing Technologies and Semiconductor Technologies businesses) and Display Technologies segment,

Specialty Materials Business Group, consisting of Paint and Coatings Materials, Packaging and Building Materials, and Primary Materials segments,

Performance Materials Group, including its Process Chemicals and Biocides, Powder Coatings and other smaller business units, and

Table of Contents

Salt, with rights to some of the most recognized consumer brand names and product symbols in the United States and Canada. In 2008, Rohm and Haas sales increased 8 percent to \$9.6 billion over 2007, with reported earnings from continuing operations in 2008 of \$484 million compared with reported 2007 earnings from continuing operations of \$674 million. The increase in sales was due to aggressive pricing actions, favorable performance of the Salt segment's effective product line management, favorable currencies, as well as demand growth in Rapidly Developing Economies for most of 2008 and the impact of acquisitions. The earnings decline largely resulted from decreased overall demand coupled with higher raw material costs which more than offset pricing actions and favorable currencies, as well as the impact of restructuring actions taken by Rohm and Haas primarily in response to the economic downturn. In 2008, Rohm and Haas reported cash flow from operating activities of \$1,046 million and ended the year with \$335 million in cash and cash equivalents.

Rohm and Haas had net sales of \$1,772 million for the three months ended March 31, 2009, a decrease of 29 percent compared with net sales of \$2,507 million for the three months ended March 31, 2008. Compared with the same quarter of 2008, prices declined 3 percent and volumes declined 26 percent due to an overall decrease in global demand. Net (loss) earnings attributable to Rohm and Haas for the three months ended March 31, 2009 was a loss of \$31 million, down from earnings of \$172 million for the three months ended March 31, 2008. Despite lower operating and raw material costs, earnings declined due to lower volumes. In addition, earnings in the first quarter of 2009 were impacted by transaction costs associated with Dow's acquisition of Rohm and Haas.

For more information concerning Rohm and Haas business, see The Business of Rohm and Haas Company.

Rohm and Haas Acquisition and Related Financing

On April 1, 2009, we acquired Rohm and Haas pursuant to the terms of an Agreement and Plan of Merger, dated as of July 10, 2008 (the Merger Agreement), under which Ramses Acquisition Corp., our direct, wholly owned subsidiary, merged with and into Rohm and Haas, with Rohm and Haas as the surviving corporation of the merger (the Merger). The aggregate consideration paid to Rohm and Haas stockholders in connection with the Merger was approximately \$15.7 billion.

The Merger is intended to make us a leading specialty chemicals and advanced materials company, combining the two organizations' superior technologies, broad geographic reach and strong industry channels to create a business portfolio with significant growth opportunities. The acquisition is part of our strategy to reduce earnings cyclicality and is a defining step to shape us into a high value, diversified chemicals and materials company with leading global positions in performance products and advanced materials. Rohm and Haas provides us with an excellent position in a number of industry segments and brings access to new and exciting technologies, all of which are highly complementary to our existing platforms and value growth priorities.

Following the Merger, we expect that a greater share of our revenues will come from performance and specialty chemicals products that are more resistant to typical chemical industry cyclicality. The Merger is anticipated to create pretax annual cost synergies and savings of \$1.3 billion through, among other things, increased purchasing power for raw materials, manufacturing and supply chain work process improvements, and the elimination of redundant corporate overhead for shared services and governance. Achieving these cost synergies and savings is subject to risks and uncertainties, and we cannot assure you that or when all of these cost synergies or savings will be realized. See Risk Factors Failure to effectively integrate Rohm and Haas could adversely affect our financial condition and results of operations. We also anticipate that the Merger will produce growth synergies, through the application of each company's innovative technologies and as a consequence of the combined businesses' broader product portfolio in key industry segments with strong global growth rates. For more information concerning these matters, see Unaudited Pro Forma Combined Condensed Financial Information.

The Merger was financed initially with the borrowing of approximately \$9.2 billion under a term loan from a syndicate of lenders, and the proceeds of the issuance of \$4 billion of cumulative convertible perpetual preferred stock, \$2.5 billion of cumulative perpetual preferred stock and \$500 million of a separate series of

Table of Contents

cumulative convertible perpetual preferred stock. These financing transactions, which are more fully described in Description of the Financing Transactions, are referred to as the Financing Transactions, and together with the Merger, are referred to as the Transactions.

On April 1, 2009, Rohm and Haas, as our wholly owned subsidiary, entered into a stock purchase agreement (the Stock Purchase Agreement) with K+S Aktiengesellschaft (K+S), whereby K+S will acquire the salt business of Morton International, Inc. (MII), a wholly owned subsidiary of Rohm and Haas. The purchase price for the transaction is \$1.675 billion in cash, subject to adjustment at closing for working capital and certain indebtedness, pension and post-retirement benefit obligations. The transaction is subject to customary closing conditions, including receipt of regulatory approvals in the United States and Canada. The Stock Purchase Agreement contains certain termination rights for both Rohm and Haas and K+S, including the right of either party to terminate if the closing has not occurred by January 4, 2010. Additional disclosure regarding this transaction, including a copy of the Stock Purchase Agreement, is filed with the SEC. See Where You Can Find More Information.

Recent Developments of Dow

On February 12, 2009, our board of directors declared a reduced quarterly dividend of \$0.15 per share, which was paid on April 30, 2009, to stockholders of record on March 31, 2009. The dividend was reduced due to uncertainty in the credit markets, unprecedented lower demand for chemical products, and the ongoing global recession.

Our capital spending was \$234 million in the first quarter of 2009, down 35% from \$359 million in the first quarter of last year, and on track with the full-year pre-Merger target of \$1.1 billion (excluding Rohm and Haas).

We continue to reduce personnel headcount, which stood at 43,567 at March 31, 2009, down from 46,102 at December 31, 2008. Included in these reductions were approximately 1,600 employees who were part of our previously announced 2008 restructuring plan, approximately 650 employees due to asset and business divestitures, and approximately 170 employees who transferred to a joint venture.

In addition to the agreement to sell the salt business of MII, we have publicly stated our intention to sell our share in a petroleum refining partnership in the Netherlands and our equity stake in an olefins and derivatives business in South East Asia. On April 30, 2009, in furtherance of our de-leveraging plan, we also announced that we are reviewing a number of additional possible divestment options, including: continuing outreach and dialogue with state-owned resource owners, as well as a regional asset-light approach to our olefins envelope and related derivatives; global and regional options for our SB Rubber and SB Latex units within our aromatics envelope; the potential divestment of the heritage Rohm and Haas powder coatings business from our Dow Advanced Materials unit; and a variety of strategic options for our Dow AgroSciences business.

On May 5, 2009, we entered into a purchase agreement (the Purchase Agreement) with accounts and funds managed by Paulson & Co. Inc. (Paulson) and certain trusts established by members of the Haas family (the Haas Trusts) pursuant to which the Paulson funds and the Haas Trusts agreed to sell to us Perpetual Preferred Stock, Series B (as defined below) for shares of our common stock and/or our notes as may be determined by us at our sole discretion. The Perpetual Preferred Stock, Series B were originally issued in a transaction exempt from the registration requirements of the Securities Act. See Description of the Financing Transactions.

On May 6, 2009, we priced an offering of 150 million shares of our common stock, including over-allotment shares (the Common Stock Offering), at a price to the public of \$15.00 per share. Of the shares being offered, approximately \$1 billion in gross proceeds of the shares are offered by us and \$1.25 billion (including over-allotment shares) in gross proceeds of the shares are offered by the Paulson funds and the Haas Trusts, as the selling stockholders. We intend to use all of the net proceeds we receive from the Common Stock Offering to

Table of Contents

repay a portion of our borrowings under our Term Loan Agreement (as defined below). All of the shares offered by the selling stockholders in such offering were issued to them pursuant to the Purchase Agreement. We will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholders in such offering.

On May 7, 2009, we priced an offering of senior debt of \$1.75 billion aggregate principal amount of 7.60% notes due 2014; \$3.25 billion aggregate principal amount of 8.55% notes due 2019; and \$1 billion aggregate principal amount of 9.40% notes due 2039 (the Debt Offering). Of the \$6 billion in notes that are offered, \$1.35 billion aggregate principal amount of the 8.55% notes due 2019 will be offered by the Paulson funds and the Haas Trusts, as the selling noteholders. These investors received notes due 2019 from us in payment for 1.31 million shares of our Perpetual Preferred Stock, Series B, at par plus accrued dividends. We intend to use the net proceeds from the Debt Offering to repay certain portions of our existing debt, including a portion of the amounts outstanding under our Term Loan Agreement. We will not receive any of the proceeds from the sale of notes by the selling noteholders in such offering.

The consummation of this offering by us is not conditioned upon the consummation of any other offering, but the consummation of the sale of notes by the selling noteholders is conditioned upon consummation of our Common Stock Offering. In the event we do not consummate our Common Stock Offering, we will issue and sell the notes that would otherwise have been sold by the selling noteholders in the Debt Offering.

Our principal executive offices are located at 2030 Dow Center, Midland, Michigan 48674, and our telephone number is (989) 636-1000. Our Internet website address is www.dow.com. The information on or connected to our website is not incorporated by reference into this prospectus supplement or the accompanying prospectus, and you should not consider them to be a part of this prospectus supplement or the accompanying prospectus.

(unaudited)					
Statements of Operations Data:					
Net sales	\$ 1,772	\$ 2,507	\$ 9,575	\$ 8,897	\$ 8,230
Gross profit	390	660	2,410	2,467	2,483
Earnings (loss) from continuing operations before income taxes (1)	(58)	233	561	880	1,042
Net earnings (loss)	(33)	177	486	675	748
Balance Sheets Data (end of period):					
Land, buildings and equipment, net of accumulated depreciation	\$ 2,737	\$ 2,917	\$ 2,853	\$ 2,871	\$ 2,669
Total assets	9,278	10,549	9,909	10,107	9,553
Short-term obligations	142	272	177	158	393
Long-term debt	3,145	3,230	3,210	3,139	1,688
Total debt (2)	3,287	3,502	3,387	3,297	2,081
Total stockholders' equity (3)(4)	2,992	3,498	3,189	3,361	4,153

- (1) Changed from "Earnings from continuing operations before income taxes, and minority interests" due to retrospective application of SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*.
- (2) Total debt equals Short-term obligations plus Long-term debt.
- (3) As a result of the implementation of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, Rohm and Haas recorded a \$245 million charge to stockholders' equity in 2006.
- (4) The primary reason for the reduction in stockholders' equity in 2007 is a \$1 billion accelerated share repurchase in 2007.

Summary Unaudited Pro Forma Combined Condensed

Financial Information

The following summary unaudited pro forma combined condensed financial information of Dow has been prepared to assist you in your analysis of the financial effects of the Transactions using the historical consolidated financial statements of Dow and Rohm and Haas.

The following tables set forth summary unaudited pro forma combined condensed financial information of Dow giving effect to the Transactions, using the acquisition method of accounting, as if the Transactions had occurred on the dates indicated and after giving effect to the pro forma adjustments. The unaudited pro forma combined condensed balance sheet data as of March 31, 2009 give effect to the Transactions as if the Transactions had occurred on March 31, 2009. The unaudited pro forma combined condensed statements of operations data for the year ended December 31, 2008 and the three months ended March 31, 2009 give effect to the Transactions as if the Transactions had occurred on January 1, 2008.

In addition to presenting the effects of the Transactions, the pro forma adjustments reflect (i) the sale of the MII salt business and the application of assumed proceeds to reduce our borrowings under the Term Loan Agreement, dated September 8, 2008, as amended by a First Amendment to Term Loan Agreement, which we entered into on March 5, 2009 (as so amended, the Term Loan Agreement); (ii) the divestitures of the businesses required by the United States Federal Trade Commission (FTC) as a condition of its approval of the Merger; and (iii) the conversion of the Cumulative Convertible Perpetual Preferred Stock, Series C to common stock.

You should read this information in conjunction with Rohm and Haas Acquisition and Related Financing, Unaudited Pro Forma Combined Condensed Financial Information, Selected Historical Financial and Other Data of Dow, Selected Historical Financial and Other Data of Rohm and Haas, and the consolidated financial statements and related notes of Dow and Rohm and Haas incorporated by reference into this prospectus supplement.

Table of Contents

RISK FACTORS

You should carefully consider the following risk factors, as well as the other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision. The factors described below represent our principal risk factors.

Risks Relating to Our Business

We operate in a global, competitive environment in each of our operating segments and geographic areas.

We sell a broad range of products and services in a competitive, global environment. In addition to other large multinational chemical companies, the chemical divisions of major international oil companies provide substantial competition. We compete worldwide on the basis of quality, price and customer service. Increased levels of competition could result in lower prices or lower sales volume, which would have a negative impact on our results of operations.

The earnings generated by our basic chemical and basic plastic products vary from period to period based in part on the balance of supply relative to demand within the industry.

The balance of supply relative to demand within the industry may be significantly impacted by the addition of new capacity. For basic commodities, capacity is generally added in large increments as world-scale facilities are built. This may disrupt industry balances and result in downward pressure on prices due to the increase in supply, which could negatively impact our results of operations.

Our global business operations give rise to market risk exposure.

Our global business operations give rise to market risk exposure related to changes in foreign exchange rates, interest rates, commodity prices and other market factors such as equity prices. To manage such risks, we enter into hedging transactions, pursuant to established guidelines and policies. If we fail to effectively manage such risks, it could have a negative impact on our results of operations.

Volatility in purchased feedstock and energy costs impacts our operating costs and adds variability to earnings.

Since 2005, purchased feedstock and energy costs have accounted for almost half of our total production costs and operating expenses. We use our feedstock flexibility and financial and physical hedging programs to lower overall feedstock costs. However, when these costs increase, we are not always able to immediately raise selling prices and, ultimately, our ability to pass on underlying cost increases is greatly dependent on market conditions. Conversely, when these costs decline, selling prices decline as well, usually at a faster rate. As a result, volatility in these costs could negatively impact our results of operations.

We are party to a number of claims and lawsuits arising out of the normal course of business with respect to commercial matters, including product liability, governmental regulation and other actions.

Certain of the claims and lawsuits facing us purport to be class actions and seek damages in very large amounts. All such claims are being contested. With the exception of the possible effect of the asbestos-related liability of Union Carbide Corporation ("Union Carbide"), our wholly owned subsidiary, described below, it is the opinion of management that the possibility is remote that the aggregate of all such claims and lawsuits will have a material adverse impact on our consolidated financial statements.

Union Carbide is and has been involved in a large number of asbestos-related suits filed primarily in state courts during the past three decades. At March 31, 2009, Union Carbide's asbestos-related liability for pending

Table of Contents

and future claims was \$910 million (\$934 million at December 31, 2008) and its receivable for insurance recoveries related to the asbestos liability was \$403 million (unchanged from December 31, 2008). At March 31, 2009, Union Carbide also had receivables of \$271 million (\$272 million at December 31, 2008) for insurance recoveries for defense and resolution costs. It is the opinion of management that it is reasonably possible that the cost of Union Carbide disposing of its asbestos-related claims, including future defense costs, could have a material adverse impact on our results of operations and cash flows for a particular period and on our consolidated financial position.

If key suppliers are unable to provide the raw materials required for production, we may not be able to obtain the raw materials from other sources and on as favorable terms.

We purchase hydrocarbon raw materials, including liquefied petroleum gases, crude oil, naphtha, natural gas and condensate. We also purchase electric power, benzene, ethylene, propylene and styrene, to supplement internal production, as well as other raw materials. If our key suppliers are unable to provide the raw materials required for production, it could have a negative impact on our results of operations. For example, during 2005 and again in the third quarter of 2008, we experienced temporary supply disruptions related to major hurricanes on the U.S. Gulf Coast. In addition, volatility and disruption of financial markets could limit suppliers' ability to obtain adequate financing to maintain operations, which could have a negative impact on our results of operations.

Adverse conditions in the global economy and disruption of financial markets could negatively impact our customers and therefore our results of operations.

A continuation of the economic downturn in the businesses or geographic areas in which we sell our products could reduce demand for these products and result in a decrease in sales volume that could have a negative impact on our results of operations. In addition, volatility and disruption of financial markets could limit customers' ability to obtain adequate financing to maintain operations, which could result in a decrease in sales volume and have a negative impact on our results of operations.

Weather-related matters could impact our results of operations.

In 2005 and again in the third quarter of 2008, major hurricanes caused significant disruption in our operations on the U.S. Gulf Coast, logistics across the region and the supply of certain raw materials, which had an adverse impact on volume and cost for some of our products. If similar weather-related matters occur in the future, it could negatively affect our results of operations, due to our substantial presence on the U.S. Gulf Coast.

Actual or alleged violations of environmental laws or permit requirements could result in restrictions or prohibitions on plant operations, substantial civil or criminal sanctions, as well as the assessment of strict liability and/or joint and several liability.

We are subject to extensive federal, state, local and foreign laws, regulations, rules and ordinances relating to pollution, protection of the environment, and the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances and waste materials. At March 31, 2009, we had accrued obligations of \$308 million (\$312 million at December 31, 2008) for environmental remediation and restoration costs, including \$21 million (\$22 million at December 31, 2008) for the remediation of Superfund sites. This is management's best estimate of the costs for remediation and restoration with respect to environmental matters for which we have accrued liabilities, although the ultimate cost with respect to these particular matters could range up to approximately twice that amount. Costs and capital expenditures relating to environmental, health or safety matters are subject to evolving regulatory requirements and depend on the timing of the promulgation and enforcement of specific standards which impose the requirements. Moreover, changes in environmental regulations could inhibit or interrupt our operations, or require modifications to our facilities. Accordingly, environmental, health or safety regulatory matters could result in significant unanticipated costs or liabilities.

Table of Contents

Local, state and federal governments have begun a regulatory process that could lead to new regulations impacting the security of chemical plant locations and the transportation of hazardous chemicals.

Growing public and political attention has been placed on protecting critical infrastructure, including the chemical industry, from security threats. International terrorism, natural disasters and political unrest in some areas of the world have increased concern regarding the security of chemical production and distribution. In addition, local, state and federal governments have begun a regulatory process that could lead to new regulations impacting the security of chemical plant locations and the transportation of hazardous chemicals, which could result in higher operating costs and interruptions in normal business operations.

Increased concerns regarding the safety of chemicals in commerce and their potential impact on the environment could lead to new regulations.

Concerns regarding the safety of chemicals in commerce and their potential impact on the environment reflect a growing trend in societal demands for increasing levels of product safety and environmental protection. These concerns could manifest themselves in stockholder proposals, preferred purchasing and continued pressure for more stringent regulatory intervention. In addition, these concerns could influence public perceptions, the viability of our products, our reputation, the cost to comply with regulations, and our ability to attract and retain employees, which could have a negative impact on our results of operations.

The value of investments is influenced by economic and market conditions, which could have a negative impact on our financial condition and results of operations.

The current economic environment is negatively impacting the fair value of pension and insurance assets, which could trigger increased future funding requirements of the pension trusts and could result in additional other-than-temporary impairment losses for certain insurance assets.

Volatility and disruption of financial markets could affect access to credit.

The current economic environment is causing contraction in the availability of credit in the marketplace. This could reduce sources of liquidity for us.

A downgrade of our credit rating could have a negative impact on our ability to access credit markets.

Our credit rating is currently investment grade. Our long-term credit rating was downgraded by Standard & Poor's on April 1, 2009 from BBB to BBB- with credit watch negative and by Moody's on April 22, 2009 from Baa1 to Baa3 with outlook negative. On May 6, 2009, Standard & Poor's credit watch was removed; the long-term credit rating was unchanged with outlook negative. Our short-term credit ratings were reduced to A-3/P-3 negative/negative by S&P/Moody's. If our credit ratings are further downgraded, it could have a negative impact on our ability to access credit markets and could increase borrowing costs.

Increased costs related to the financing of the Merger could reduce our flexibility to respond to changing business and economic conditions or fund capital expenditures or working capital needs.

We borrowed \$9.2 billion pursuant to a Term Loan Agreement and issued preferred equity securities in the amount of \$7 billion to finance the Merger. This financing requires additional interest and dividend payments and thus may reduce our flexibility to respond to changing business and economic conditions or fund capital expenditure or working capital needs. This may also increase our vulnerability to adverse economic conditions. For more information regarding increased costs related to the financing of the Merger, see Unaudited Pro Forma Combined Condensed Financial Information.

Failure to effectively integrate Rohm and Haas could adversely affect our financial condition and results of operations.

The Merger is a significant acquisition and a significant step in the implementation of our strategy. While we have acquired businesses in the past, the magnitude of the integration of this acquisition could present significant challenges and costs, especially given the effects of the current global economic environment. If the

Table of Contents

integration of Rohm and Haas is not completed as planned, we may not realize the benefits, such as cost synergies and savings and growth synergies, anticipated from the acquisition, and the costs of achieving those benefits may be higher than, and the timing different from, our current expectations. Realizing the benefits of the acquisition requires the successful integration of some or all of our sales and marketing, distribution, manufacturing, engineering, finance, information technology systems and administrative operations of Rohm and Haas with those of Dow. This will require substantial attention from the management of the combined company, which may decrease the time management devotes to normal and customary operations. In addition, the integration and implementation activities could result in higher expenses and/or the use of more cash or other financial resources than expected. If the integration of Rohm and Haas is not successfully executed, it could adversely affect our financial condition and results of operations.

An impairment of goodwill would negatively impact our financial results.

Based on preliminary valuations, the Merger will increase our goodwill by an estimated \$9.2 billion. At least annually, we perform an impairment test for goodwill. Under current accounting guidance, if the carrying value of goodwill exceeds the estimated fair value, impairment is deemed to have occurred and the carrying value of goodwill is written down to fair value with a charge against earnings. Accordingly, any determination requiring the write-off of a significant portion of goodwill recorded in connection with the Merger could negatively impact our results of operations.

Failure to execute certain asset divestitures could adversely affect our financial condition and results of operations.

We are focused on reducing our indebtedness and intend to pursue a strategy of divesting certain assets to achieve that goal. If we are unable to successfully sell such assets, we could have difficulty reducing our indebtedness, which could result in further downgrades of our credit ratings and adversely affect our financial condition and results of operations.

Risks Relating to the Merger and Related Financing Transactions

We substantially increased our leverage in order to finance the Merger.

To finance a portion of the Merger, we entered into the Term Loan Agreement with a syndicate of banks. As of March 31, 2009, we had approximately \$13.0 billion of indebtedness and Rohm and Haas had approximately \$3.3 billion of indebtedness. On April 1, 2009, we borrowed approximately \$9.2 billion under the Term Loan Agreement in connection with the Merger. For additional information, see Capitalization and Description of the Financing Transactions. Increased indebtedness may increase our vulnerability to adverse economic conditions and reduce our flexibility to respond to changing business and economic conditions or fund capital expenditure or working capital needs because we will require additional funds to service our indebtedness. After giving effect to the Transactions, our ratio of total indebtedness to capitalization, as of March 31, 2009, increased from 48.7% to 54.3%. After giving effect to the Transactions, for the year ended December 31, 2008, we would have had pro forma interest expense of \$1,735 million compared to our historical interest expense of \$648 million for the same period, and our net income available for common stockholders would have been reduced by \$728 million of dividends payable on preferred equity as compared to the same period on a historical basis.

Additionally, the Term Loan Agreement expires on April 1, 2010. Although the Term Loan Agreement may be extended at our option, subject to certain conditions, for a maximum of \$8 billion, such extension would increase our costs of indebtedness as it would require the payment of an extension fee and would increase the interest rate of the term loan on the date of extension, on the 90th day following such date and on each successive 90th day thereafter. We are also subject to higher rates under the Term Loan Agreement if we do not consummate the Common Stock Offering or one or more other offerings of equity interests or equity-linked securities within the applicable periods of time specified therein.

Table of Contents

Rohm and Haas may have liabilities that are not known, probable or estimable at this time.

As a result of the Merger, Rohm and Haas has become our subsidiary and we have effectively assumed all of Rohm and Haas' liabilities, whether or not asserted. There could be unasserted claims or assessments that we failed or were unable to discover or identify in the course of performing due diligence investigations on Rohm and Haas. In addition, there may be liabilities that are neither probable nor estimable at this time which may become probable and estimable in the future. Any such liabilities, individually or in the aggregate, could have a material adverse effect on our business. We may learn additional information about Rohm and Haas that adversely affects us, such as unknown, unasserted or contingent liabilities and issues relating to compliance with applicable laws. Additional information regarding Rohm and Haas' contingent liabilities, including potential remedial and natural resource liabilities at Berry's Creek and Wood-Ridge, New Jersey arising out of releases of contaminants from a former mercury manufacturing facility acquired by MII, can be found in Note 25: Contingent Liabilities, Guarantees and Commitments to Rohm and Haas' audited financial statements and notes thereto for the year ended December 31, 2008 and Note 13: Contingent Liabilities, Guarantees and Commitments to Rohm and Haas' interim financial statements and notes thereto for the three months ended March 31, 2009, included as Exhibits 99.1 and 99.2, respectively, to our May 5th 8-K/A, which is incorporated herein by reference.

We will incur significant transaction, integration and restructuring costs in connection with the Merger.

We will incur significant transaction costs related to the Merger. In addition, the combined company will incur integration and restructuring costs following the completion of the Merger as we integrate Rohm and Haas businesses with our businesses. Although we expect that the realization of benefits and efficiencies related to the integration of the businesses may offset these transaction, integration and restructuring costs over time, no assurances can be made that this net benefit will be achieved in the near term, or at all, which could adversely affect our financial condition and results of operations.

If we are unable to retain key Rohm and Haas personnel after the Merger is completed, the combined business may suffer.

The success of the Merger will depend in part on our ability to retain key Rohm and Haas employees who will continue to be employed by us after the Merger. If these key employees terminate their employment, our sales, marketing or development activities might be adversely affected, management's attention might be diverted from successfully integrating Rohm and Haas' operations to hiring suitable replacements, we may not be able to locate suitable replacements for any such key employees that leave us, and our business may suffer.

The historical and unaudited pro forma financial information included elsewhere in this prospectus supplement may not be representative of our results as a combined company after the Merger, and accordingly, you have limited financial information on which to evaluate the combined company and your investment decision.

We and Rohm and Haas operated as separate companies prior to the Merger. We have had no prior history as a combined entity and our operations have not previously been managed on a combined basis. The pro forma financial information, which was prepared in accordance with Article 11 of the SEC's Regulation S-X, is presented for informational purposes only and is not necessarily indicative of the financial position or results of operations that would have actually occurred had the Merger been completed at or as of the dates indicated, nor is it indicative of the future operating results or financial position of the combined company. The pro forma financial information does not reflect future nonrecurring charges resulting from the Merger. The Unaudited Pro Forma Combined Condensed Statements of Operations do not reflect future events that may occur after the Merger, including the potential realization of operating cost savings (synergies) or restructuring activities or other costs related to the planned integration of Rohm and Haas, and do not consider potential impacts of current market conditions on revenues, expense efficiencies or asset dispositions (with the exception of MII). The pro forma financial information presented in this prospectus supplement is based in part on certain assumptions regarding the Merger that we believe are reasonable under the circumstances. We cannot assure you that our assumptions will prove to be accurate over time.

Table of Contents

Risks Relating to our Common Stock

The price of our common stock may be volatile and you could lose all or part of your investment.

Volatility in the market price of our common stock may prevent you from being able to sell your shares at or above the price you paid for your shares. The market price of our common stock has fluctuated significantly in the recent past and could fluctuate significantly in the future for various reasons, which include:

actual or anticipated fluctuations in our quarterly or annual earnings or those of other companies in our industry;

general global macroeconomic conditions and their effect on demand for chemical products;

our ability to successfully integrate Rohm and Haas;

changes in market valuations or operating performance of our competitors or companies similar to ours;

changes in our quarterly dividends;

additions and departures of key personnel;

variance in our financial performance from the expectations of market analysts, including changes in earnings estimates or recommendations by research analysts who track our common stock or the stocks of other companies in our industry;

changes in accounting standards, policies, guidance, interpretations or principles;

economic, financial, geopolitical, regulatory or judicial events that affect us or financial markets generally; and

risks enumerated elsewhere in this section.

In addition, in recent years, the stock market has experienced substantial price and volume fluctuations. In the fourth quarter of 2008, the volatility in capital markets reached unprecedented levels. This volatility has had a significant impact on the market price of securities issued by many companies including us and the companies in our industry. The price of our common stock could fluctuate based upon factors that have little or nothing to do with our company, and these fluctuations could materially reduce our stock price and your ability to sell your shares.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted. A securities class action suit against us could result in substantial costs and divert our management's attention and resources that would otherwise be used to benefit the future performance of our operations.

Dilution will occur upon the occurrence of certain events, including additional sales of our common stock in the public market.

As of April 30, 2009, we had 1,500,000,000 authorized shares of common stock and 925,915,403 issued and outstanding shares of common stock. As of April 30, 2009, we had 63,468,340 shares issuable upon the exercise of stock options granted to our employees and directors. These shares may be sold in the public market at various times in compliance with their terms. Additionally, on April 1, 2009, we issued and sold

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

4,000,000 shares of our Cumulative Convertible Perpetual Preferred Stock, Series A, and 500,000 shares of our Cumulative Convertible Perpetual Preferred Stock, Series C, each of which is convertible into shares of our common stock. Each share of our Cumulative Convertible Perpetual Preferred Stock, Series A, may be converted at any time, at the option of the holder, into 24.2010 shares of our common stock, subject to certain anti-dilution adjustments.

S-17

Table of Contents

In accordance with the terms of the Cumulative Convertible Perpetual Preferred Stock, Series C, if we file an effective shelf registration statement relating to such shares prior to a certain specified date, each such share is automatically convertible into a number of shares of common stock based on a volume weighted average price formula. We intend to file an effective shelf registration statement relating to the Cumulative Convertible Perpetual Preferred Stock, Series C prior to such date, and such resulting automatic conversion may dilute your holdings. See [Description of the Financing Transactions](#) for more information.

Additionally, we are issuing an additional 150 million shares of common stock through our Common Stock Offering, and we may also in the future issue and sell additional shares of common stock from time to time. The occurrence of any of these events may cause you to experience dilution and could adversely affect the market price of our common stock.

There is no assurance that we will continue declaring dividends on our common stock or have the available cash to make dividend payments on our common stock.

Although we have paid a cash dividend every quarter since 1912, there can be no assurance that funds will be available for this purpose in the future. Additionally, our common stock dividend was reduced in February 2009, for the first time in this 97-year period, due to uncertainty in the credit markets, unprecedented lower demand for chemical products and the ongoing global recession. The declaration and payment of common stock dividends is subject to the discretion of our board of directors, is not cumulative, and will depend upon our profitability, financial condition, capital needs, future prospects, and other factors deemed relevant by our board of directors. Additionally, the terms of our outstanding preferred stock restrict us from paying dividends on our common stock if we fail to pay dividends on such outstanding preferred stock. See [Description of the Financing Transactions](#).

Provisions in our certificate of incorporation and bylaws, as amended and re-adopted, or Delaware law might discourage, delay or prevent a change in control of our company or changes in our management and, therefore, depress the trading price of our common stock.

Our amended and restated certificate of incorporation and bylaws contain provisions that could depress the trading price of our common stock by acting to discourage, delay or prevent a change in control of our company or changes in our management that our stockholders may deem advantageous. These provisions:

authorize the issuance of blank check preferred stock that our board of directors could issue to increase the number of outstanding shares to discourage a takeover attempt;

prohibit stockholder action by written consent, and require that all stockholder actions be taken at a meeting of our stockholders;

provide that the board of directors is expressly authorized to amend, alter, change, adopt and repeal our bylaws; and

establish advance notice requirements for nominations for elections to our board or for proposing matters that can be acted upon by stockholders at stockholder meetings.

Additionally, we are subject to Section 203 of the Delaware General Corporation Law, which generally prohibits a Delaware corporation from engaging in any of a broad range of business combinations with any interested stockholder for a period of three years following the date on which the stockholder became an interested stockholder and which may discourage, delay or prevent a change in control of our company.

Table of Contents

USE OF PROCEEDS

We expect the net proceeds to us from the initial sale of our common stock to the ESOP Trust will be approximately \$552 million (after deducting our estimated offering expenses). We intend to use all of the net proceeds from this offering to repay a portion of our borrowings under the Term Loan Agreement, which we entered into to finance a portion of the Merger. The borrowings under the Term Loan Agreement accrue interest at a rate per annum equal to either a base rate or LIBOR plus, in each case, an applicable margin (which interest rate currently is approximately 3.92%), and have a maturity date of April 1, 2010, which may be extended for one year for a maximum of \$8 billion.

We will not receive any of the proceeds from the allocation of the shares of common stock by the Plan from time to time or any resale by the ESOP Trust from time to time. All such proceeds will be for the account of the selling stockholder and/or for the benefit of employees and retirees and their beneficiaries participating in the Plan. For more information, see Selling Stockholder.

S-19

Table of Contents**CAPITALIZATION**

The following table sets forth, as of March 31, 2009, our consolidated cash and cash equivalents, short-term debt, long-term debt and common and preferred equity, on an actual basis, an as adjusted basis to give effect to the Transactions, and an as further adjusted basis to give effect to (i) the issuance of shares of our common stock in the Common Stock Offering (including the exercise of the underwriters' over-allotment option which was exercised on May 7, 2009) and the application of the proceeds as described under Other Offerings, (ii) the issuance of shares of our common stock and notes in consideration for our purchase of the Cumulative Perpetual Preferred Stock, Series B, as described under Prospectus Supplement Summary Recent Developments of Dow, (iii) the issuance of the notes in the Debt Offering and the application of the proceeds as described under Other Offerings, (iv) the issuance of the shares of our common stock offered hereby and (v) the application of the net proceeds from this offering as described under Use of Proceeds.

You should read this table in conjunction with Selected Historical Financial and Other Data of Dow, Selected Historical Financial and Other Data of Rohm and Haas, Unaudited Pro Forma Combined Condensed Financial Information, Other Offerings, Prospectus Supplement Summary Recent Developments of Dow and the consolidated financial statements and related notes thereto of Dow and Rohm and Haas which are incorporated by reference herein.

---	-----------	-----------	-----------

- (1) Unlike the Unaudited Pro Forma Combined Condensed Balance Sheet, the numbers in this column do not give effect to (i) the sale of the MII salt business and the application of assumed proceeds to reduce our borrowings under the Term Loan Agreement or (ii) the divestitures of the businesses required by the FTC as a condition of its approval of the Merger.
- (2) This number does not give effect to the issuance of common stock upon conversion of any shares of our Cumulative Convertible Perpetual Preferred Stock, Series A. Additionally, in accordance with the terms of the Cumulative Convertible Perpetual Preferred Stock, Series C, if we file an effective shelf registration statement relating to these shares prior to a certain specified date, these shares will be automatically convertible into a number of shares of common stock based on a volume weighted average price formula. Since we intend to file an effective shelf registration statement relating to the Cumulative Convertible Perpetual Preferred Stock, Series C prior to such date, we assume that these shares will automatically convert into shares of common stock. As a result, an increase in common stock is reflected in the as adjusted column and no shares of Cumulative Convertible Perpetual Preferred Stock, Series C are shown as being outstanding in this table. See Unaudited Pro Forma Combined Condensed Financial Information.

DESCRIPTION OF THE OFFERING AND THE PLAN

The Offering

We are registering shares of our common stock for sale to the ESOP Trust, which is the trust holding the suspense account of the ESOP component of the Plan. The shares sold to the ESOP Trust will initially be held in the suspense account, and will be available for allocation to Plan participants from time to time pursuant to the terms and conditions of the Plan. We will sell the shares of common stock to the ESOP Trust at a price of \$15.0561 per share. We will sell to the ESOP Trust the number of shares of our common stock that is equal to the quotient obtained by dividing \$552,528,833.08 by such price. However, no fractional shares of common stock will be issued to the ESOP Trust. In lieu of any fractional shares of common stock, the ESOP Trust will retain the amount in cash that it would have used to purchase such fractional share.

The shares will be allocated to Plan participants from time to time in accordance with the terms of the Plan.

The number of our outstanding common shares and the calculation of our earnings per share will not be affected by the initial issuance of our shares to the ESOP Trust. The shares will be counted as outstanding only if and when they are allocated to participants in the Plan. The fair market value of the shares at the time of allocation will be accounted for as compensation expense.

The Plan

The following is a summary description of the Plan. You should carefully review the full text of the Plan document for more complete information, which may be obtained from us upon request. You should also review the documents described in Rule 428(a) of the Securities Act, which will be delivered to all Plan participants.

The Plan is intended to be qualified under Sections 401(a) and 401(k) of the Internal Revenue Code (the "Code"). Pursuant to the terms of the Plan, eligible U.S. employees may elect to contribute a portion of their compensation to their account under the Plan, which is held in trust for the benefit of employees or their beneficiaries. Participants in the Plan may elect that a portion of their contributions to the Plan be invested in our common stock.

The Plan also provides that we may match participant contributions to the Plan, in whole or in part, in the form of our common stock and may make annual nonelective contributions of our common stock to participant accounts. Generally, with some exceptions, participants in the Plan cannot receive distributions from their accounts until the earlier of their retirement, death, disability, or severance from employment.

Table of Contents

SELLING STOCKHOLDER

We are further registering all 36,698,005 shares covered by this prospectus supplement on behalf of the ESOP Trust as the selling stockholder (including its transferees or successors who receive any of the shares covered by this prospectus supplement in a non-sale transfer). We are registering the shares in order to permit the selling stockholder to offer these shares for resale from time to time, to the extent such sales may be required by ERISA. The selling stockholder may sell all, some or none of the shares covered by this prospectus supplement. For more information, see Plan of Distribution.

The selling stockholder is a trust established under an employee benefit plan sponsored by us for the benefit of our current and former employees. The Plan provides that the trustee of the trust is only a directed trustee with respect to employer stock held by the trust and that participants are to direct the trustee with respect to the voting and disposition of allocated shares. The Plan further provides that the trustee will vote unallocated shares, and allocated shares over which the trustee receives no direction from Plan participants, in the same proportion as the allocated shares in the accounts of participants who have directed the trustee.

The prospectus supplement also covers any additional shares of common stock that become issuable in connection with the shares being registered by reason of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration that results in an increase in the number of outstanding shares of our common stock.

The percentage of beneficial ownership is based on 925,915,403 shares of common stock outstanding on April 30, 2009. However, you should note that 1,075,915,403 shares are expected to be outstanding after the consummation of our Common Stock Offering, which is expected to close on May 12, 2009. The number of shares of common stock outstanding as of April 30, 2009 assumes no exercise of outstanding stock options after that date. The number of shares of common stock expected to be outstanding after this offering excludes:

63,468,340 shares issuable upon the exercise of stock options granted to our employees and directors, of which 43,575,830 were exercisable at a weighted average exercise price of \$39.54 as of April 30, 2009;

shares available under employee benefit plans for future grants; and

shares issuable upon conversion of our Cumulative Convertible Perpetual Preferred Stock, Series A.

In addition, the number of shares of common stock outstanding does not include the number of shares that would be issuable upon conversion of our Cumulative Convertible Perpetual Preferred Stock, Series C. In accordance with the terms of the Cumulative Convertible Perpetual Preferred Stock, Series C, if we file an effective shelf registration statement relating to these shares of Cumulative Convertible Perpetual Preferred Stock, Series C prior to a certain specified date, these shares will automatically convert on the date immediately following the 10 full trading days commencing on the date of filing of such shelf registration statement into a number of shares of common stock equal to the sum of one-tenth of the liquidation preference of that share divided by 95% of the volume weighted average price per share of our common stock for each of the 10 full trading days immediately prior to such conversion date. We intend to file an effective shelf registration statement relating to the Cumulative Convertible Perpetual Preferred Stock, Series C prior to that date, which will automatically convert the Cumulative Convertible Perpetual Preferred Stock, Series C into shares of common stock in accordance with this formula.

The address of the ESOP Trust is Fidelity Management Trust Company, 82 Devonshire Street, Boston MA 02109.

Table of Contents

The table below lists the selling stockholder and the other information regarding the ownership of the common stock by the selling stockholder on May 11, 2009.

Name of Selling Stockholder	Beneficial Ownership Prior to Offering(1)		Number of Shares Offered Hereby	Beneficial Ownership After Offering(2)	
	Number of Shares of Common Stock	Percentage		Number of Shares of Common Stock	Percentage
ESOP Trust	36,698,005	3.81%	36,698,005	0	0%

(1) Includes shares being offered hereby.

(2) Assumes that the selling stockholder disposes of all the shares of common stock covered by this prospectus supplement and does not acquire or dispose of any additional shares of common stock. However, the selling stockholder is not representing that any of the shares covered by this prospectus supplement will be offered for sale, and the selling stockholder reserves the right to reject, in whole or in part, any proposed sale of shares.

S-23

Table of Contents**PRICE RANGE OF OUR COMMON STOCK AND OUR DIVIDENDS**

Our common stock is listed on the New York Stock Exchange under the symbol DOW. The following table sets forth, for the periods indicated, the high and low intraday prices of our common stock as reported by the New York Stock Exchange.

	High	Low
Fiscal Year Ended 2009		
Second Quarter (through May 11, 2009)	\$ 17.71	\$ 8.14
First Quarter	\$ 16.68	\$ 5.89
	High	Low
Fiscal Year Ended 2008		
Fourth Quarter	\$ 32.28	\$ 14.93
Third Quarter	\$ 39.99	\$ 30.82
Second Quarter	\$ 43.43	\$ 34.30
First Quarter	\$ 40.04	\$ 33.01
	High	Low
Fiscal Year Ended 2007		
Fourth Quarter	\$ 47.43	\$ 39.20
Third Quarter	\$ 47.96	\$ 38.89
Second Quarter	\$ 47.60	\$ 43.71
First Quarter	\$ 47.26	\$ 39.02

On May 11, 2009, the closing sale price of our common stock was \$17.63.

On April 30, 2009, we paid a quarterly dividend of \$0.15 per share of common stock to stockholders of record on March 31, 2009. Since 1912, we have increased the amount of the quarterly dividend 47 times (approximately 12 percent of the time), and maintained the amount of the quarterly dividend approximately 88 percent of the time. The dividend was reduced in 2009, for the first time in this 97-year period, due to uncertainty in the credit markets, unprecedented lower demand for chemical products and the ongoing global recession. We declared dividends of \$1.68 per share in 2008 and \$1.635 per share in 2007.

Table of Contents**SELECTED HISTORICAL FINANCIAL AND OTHER DATA OF DOW**

The following table sets forth selected historical financial and other data of Dow and, except as otherwise indicated below, is derived from our audited consolidated financial statements and unaudited consolidated financial statements. (2) Changed from Net earnings due to retrospective application of SFAS No. 160.

(3) Total debt equals Short-term obligations plus Long-term debt.

(4) As a result of the implementation of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, Rohm and Haas recorded a \$245 million charge to stockholders' equity in 2006.

(5) The primary reason for the reduction in Stockholders' equity in 2007 is a \$1 billion accelerated share repurchase.

Table of Contents

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION

The following unaudited pro forma combined condensed financial information reflects the presentation shown in our May 5th 8-K/A.

Introduction

The following unaudited pro forma combined condensed financial information (pro forma financial information) is based on the historical consolidated financial statements and the accompanying notes of The Dow Chemical Company (the Company or Dow) and Rohm and Haas Company (Rohm and Haas) and has been prepared to illustrate the effects of the Company 's acquisition of Rohm and Haas. The Unaudited Pro Forma Combined Condensed Balance Sheet has been prepared assuming the acquisition of Rohm and Haas had been consummated on March 31, 2009. The Unaudited Pro Forma Combined Condensed Statements of Operations have been prepared assuming the acquisition of Rohm and Haas had been consummated on January 1, 2008.

The accompanying pro forma financial information should be read in conjunction with the historical financial statements and the accompanying notes of the Company included in the Annual Report on Form 10-K for the year ended December 31, 2008, filed with the U.S. Securities and Exchange Commission (SEC) on February 20, 2009, and the Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 filed with the SEC on May 4, 2009, as well as the historical financial statements and the accompanying notes of Rohm and Haas, which are filed in the Current Report on Form 8-K/A.

The pro forma financial information, which was prepared in accordance with Article 11 of Regulation S-X, is not necessarily indicative of the financial position or results of operations that would have actually occurred had the acquisition been completed at or as of the dates indicated, nor is it indicative of the future operating results or financial position of the combined company. The pro forma financial information does not reflect future nonrecurring charges resulting from the acquisition. The Unaudited Pro Forma Combined Condensed Statements of Operations do not reflect future events that may occur after the acquisition of Rohm and Haas, including the potential realization of operating cost savings (synergies) or restructuring activities or other costs related to the planned integration of Rohm and Haas, and do not consider potential impacts of current market conditions on revenues, expense efficiencies or asset dispositions (with the exception of the Rohm and Haas salt business).

Transaction Background

On April 1, 2009, the Company completed the acquisition of Rohm and Haas. Pursuant to the July 10, 2008 Agreement and Plan of Merger (the Merger Agreement), Ramses Acquisition Corp., a direct, wholly owned subsidiary of the Company, merged with and into Rohm and Haas (the Merger), with Rohm and Haas continuing as the surviving corporation and a direct, wholly owned subsidiary of the Company.

The Company pursued the acquisition of Rohm and Haas to make the Company a leading specialty chemicals and advanced materials company, combining the two organizations' best-in-class technologies, broad geographic reach and strong industry channels to create a business portfolio with significant growth opportunities.

Pursuant to the terms and conditions of the Merger Agreement, each outstanding share of Rohm and Haas common stock was converted into the right to receive cash of \$78 per share, plus additional cash consideration of \$0.97 per share. The additional cash consideration represented 8 percent per annum on the \$78 per share consideration from January 10, 2009 to the closing of the Merger, less dividends declared by Rohm and Haas with a dividend record date between January 10, 2009 and the closing of the Merger. All options to purchase shares of common stock of Rohm and Haas granted under the Rohm and Haas stock option plans and all other equity-based compensation awards, whether vested or unvested as of April 1, 2009, became fully vested and converted into the right to receive cash of \$78.97 per share, less any applicable exercise price. Total cash consideration paid to Rohm and Haas shareholders was \$15.7 billion.

Table of Contents

Financing for the transaction included debt of \$9.2 billion obtained through a Term Loan Agreement, as well as equity investments by Berkshire Hathaway Inc. (BHI) and by the Kuwait Investment Authority (KIA) in the form of Cumulative Convertible Perpetual Preferred Stock, Series A of 3 million shares for \$3 billion (BHI) and 1 million shares for \$1 billion (KIA).

In connection with the closing of the Merger, the Company entered into an Investment Agreement with the Haas Trusts and Paulson & Co. Inc. (Paulson), each of whom was a significant shareholder of Rohm and Haas common stock at the time of the Merger. Under the Investment Agreement, the Haas Trusts and Paulson purchased from the Company 2.5 million shares (Haas Trusts 1.5 million shares; Paulson 1.0 million shares) of Cumulative Perpetual Preferred Stock, Series B for an aggregate price of \$2.5 billion, with \$1.5 billion from the Haas Trusts and \$1.0 billion from Paulson. The Haas Trusts made an additional investment in 0.5 million shares of Cumulative Convertible Perpetual Preferred Stock, Series C for an aggregate price of \$500 million.

See Notes to the Unaudited Pro Forma Combined Condensed Financial Statements.

Table of Contents**NOTES TO THE UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL STATEMENTS****NOTE A BASIS OF PRO FORMA PRESENTATION**

The acquisition of Rohm and Haas is being accounted for in accordance with Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations (SFAS 141R). In accordance with SFAS 141R, the assets acquired and the liabilities assumed have been measured based on preliminary estimates of acquisition-date fair values. The final determination of the recognition and measurement of the assets acquired and liabilities assumed will be based on the fair value of actual net tangible and intangible assets and liabilities of Rohm and Haas at the April 1, 2009 closing date. Because the pro forma financial information has been prepared based on preliminary estimates, the final amounts recorded for the acquisition-date fair values may differ from the information presented.

The pro forma financial information, which was prepared in accordance with Article 11 of Regulation S-X, is not necessarily indicative of the financial position or results of operations that would have actually occurred had the acquisition been completed at or as of the dates indicated, nor is it indicative of the future operating results or financial position of the combined company. The pro forma financial information does not reflect nonrecurring charges resulting from the acquisition. The Unaudited Pro Forma Combined Condensed Statements of Operations do not reflect future events that may occur after the acquisition of Rohm and Haas, including the potential realization of operating cost savings (synergies) or restructuring activities or other costs related to the planned integration of Rohm and Haas, and do not consider potential impacts of current market conditions on revenues, expense efficiencies or asset dispositions (with the exception of the Rohm and Haas salt business).

Certain Rohm and Haas amounts have been reclassified to conform with the Company's basis of presentation.

NOTE B PURCHASE PRICE

The calculation of the cash purchase price is as follows:

Purchase Price**In millions**

Purchase of all outstanding Rohm and Haas shares at \$78 per share	\$ 15,154
Additional consideration of \$0.97 per share	188
Stock options and other stock-based awards	339
Total Purchase Price	\$ 15,681

NOTE C ASSETS ACQUIRED AND LIABILITIES ASSUMED

The following table summarizes the preliminary estimated fair values of the assets acquired and liabilities assumed from Rohm and Haas on April 1, 2009, based on the current best estimates of management. Accordingly, the fair values of the assets and liabilities included in the table below are subject to change. The Company is in the process of finalizing its assessment of the fair value of the assets acquired and liabilities assumed. The completion of the fair valuation of the assets acquired and liabilities assumed may result in adjustments to the carrying value of Rohm and Haas assets and liabilities, revisions of the remaining useful lives of fixed assets and/or revisions of the useful lives of intangible assets, and the determination of any residual amount that will be recognized as goodwill. The related depreciation and amortization expense for the acquired assets is therefore also subject to revision based on the final valuation.

Table of Contents

An increase/decrease in the fair value of inventory, property, plant and equipment or any identifiable intangible assets will decrease/increase the amount of goodwill to be recorded and may result in increased/decreased depreciation and/or amortization expense. The pro forma adjustments to reflect assets acquired and liabilities assumed at preliminary estimated fair values and the resulting goodwill are provided in the following table:

Assets Acquired, Liabilities Assumed and Goodwill**In millions**

Total Rohm and Haas Stockholders' Equity	\$ 2,798
Fair Value Adjustments:	
Inventory	217
Investments in nonconsolidated affiliates	120
Property, plant and equipment	1,440
Identifiable intangible assets	3,592
Long-term debt	521
Pension and postretirement obligations	160
Noncontrolling interests	(231)
Salt business assets held for sale	943
Deferred income tax liabilities at 35 percent	(1,964)
Restricted ESOP cash	552
Elimination of Rohm and Haas historical goodwill	(1,639)
Goodwill created by the acquisition	9,172
Total Purchase Price	\$ 15,681

As part of the purchase price of \$15,681 million, \$552 million in cash was paid to the Rohm and Haas Company Employee Stock Ownership Plan (ESOP) on April 1, 2009 for 7.0 million shares of Rohm and Haas common stock held by the ESOP on April 1, 2009. This cash consideration is shown as Restricted ESOP cash in the Unaudited Pro Forma Combined Condensed Balance Sheet at March 31, 2009.

Based on a review of Rohm and Haas' summary of significant accounting policies disclosed in Rohm and Haas' 2008 financial statements, as well as preliminary discussions with Rohm and Haas management, the nature and amount of any adjustments to conform the two companies' accounting policies are not expected to be significant. Further review of Rohm and Haas' accounting policies to conform the accounting policies of the two companies may impact actual results.

NOTE D DEPRECIATION EXPENSE

The estimated increase in depreciation expense related to the estimated fair value of property, plant and equipment acquired from Rohm and Haas, depreciated over an estimated average life of 9 to 25 years, is \$101 million for the year ended December 31, 2008 and \$25 million for the quarter ended March 31, 2009. The increase in depreciation expense was allocated \$84 million to Cost of sales, \$4 million to Research and development expenses, and \$13 million to Selling, general and administrative expenses for the year ended December 31, 2008 based on Rohm and Haas 2008 expenses. For the quarter ended March 31, 2009, the depreciation expense was allocated \$21 million to Cost of sales, \$1 million to Research and development expenses, and \$3 million to Selling, general and administrative expenses for the quarter ended March 31, 2009.

NOTE E AMORTIZATION EXPENSE

The estimated increase in amortization expense related to the estimated fair value of certain intangible assets acquired from Rohm and Haas, primarily consisting of customer lists, technology and trademarks, amortized

Table of Contents

over an estimated average life of 10 to 16 years, is \$257 million for the year ended December 31, 2008 and \$64 million for the quarter ended March 31, 2009.

NOTE F AMORTIZATION OF DEBT

The estimated increase in interest expense related to the estimated fair value of debt acquired from Rohm and Haas is \$58 million for the year ended December 31, 2008 and \$15 million for the quarter ended March 31, 2009.

NOTE G INCOME TAXES

For purposes of this pro forma financial information, the U.S. Federal statutory tax rate of 35 percent has been used for all periods presented. This rate is an estimate and does not take into account any possible future tax events that may result for the ongoing combined company.

NOTE H DIVESTITURES

As a condition of the United States Federal Trade Commission's approval of the Merger, the Company is required to divest a portion of its acrylic monomer business, a portion of its latex polymers business and its hollow sphere particle business within eight months of the closing of the Merger. Total net sales and cost of sales for these businesses amounted to approximately one percent of the Company's 2008 net sales and cost of sales. The pro forma financial information has been prepared to reflect the divestiture of these businesses effective March 31, 2009 for the Unaudited Pro Forma Combined Condensed Balance Sheet and as of January 1, 2008 for the Unaudited Pro Forma Combined Condensed Statements of Operations. The divestiture of these businesses is expected to have an immaterial impact on the Company's consolidated financial statements. Because there is no purchase agreement for these assets, for purposes of the pro forma financial information, a sale at book value was assumed, with proceeds reflected in cash and cash equivalents.

On April 1, 2009, the Company announced the entry into a definitive agreement to sell the stock of Morton International, Inc. (Morton), the salt business of Rohm and Haas, to K+S Aktiengesellschaft. The transaction is subject to customary closing conditions, including regulatory approval, and is expected to close in mid-2009. The Unaudited Pro Forma Combined Condensed Balance Sheet has been prepared to reflect the sale of the salt business effective March 31, 2009. The Unaudited Pro Forma Combined Condensed Statements of Operations have been prepared to reflect the sale of the salt business effective January 1, 2008. The transaction values Morton at \$1,675 million, with proceeds subject to customary post-closing adjustments. For purposes of the pro forma financial information, estimated net after-tax proceeds of \$1,570 million have been applied to reduce the Term Loan balance (\$1,226 million applied to Long-term debt due within one year and \$344 million applied to Long-Term Debt) (see Note J).

NOTE I INTERCOMPANY TRANSACTIONS

Pro forma adjustments have been made to eliminate sales and the corresponding cost of sales between the Company and Rohm and Haas in the Unaudited Pro Forma Combined Condensed Statements of Operations. The impact of these transactions was immaterial to the Company.

NOTE J DEBT FINANCING

Debt financing for the acquisition was provided by a \$9.2 billion draw on a Term Loan Agreement (Term Loan) on April 1, 2009. The Term Loan matures on April 1, 2010, provided however, that the original maturity date may be extended for an additional year at the option of the Company, for a maximum outstanding balance of \$8.0 billion. The actual interest rate of the Term Loan and the resulting amounts that the Company will ultimately pay for the Term Loan can vary significantly and are dependent on the current short-term interest rates

Table of Contents

in effect, the mode of borrowing (Base Rate or Eurodollar), the Company's actual current long-term debt rating by Moody's and Standard & Poor's, the outstanding amount of the Term Loan at the end of each fiscal quarter, and the Company's progress toward key targets such as the issuance of equity financing, among other factors.

For purposes of the pro forma financial information, it is assumed that the Company has applied estimated net after-tax proceeds of \$1,570 million from the sale of the salt business of Rohm and Haas (see Note H) to the remaining outstanding balance of the Term Loan at March 31, 2009 for the Unaudited Pro Forma Combined Condensed Balance Sheet and at January 1, 2008 for the Unaudited Pro Forma Combined Condensed Statements of Operations, and that the balance of the Term Loan will remain outstanding for the full 24-month term of the Term Loan. The Company intends to repay the Term Loan in a period shorter than 24 months through a combination of proceeds obtained through asset sales, the issuance of debt securities and/or the issuance of equity securities. The timing and amount of these transactions are unknown and may significantly change the timing of the recognition of expense and total overall cost of the financing for the acquisition.

For purposes of the Unaudited Pro Forma Combined Condensed Statements of Operations, pursuant to the agreement, it is assumed the amounts outstanding under the Term Loan bear interest at one-year LIBOR of 187.75 basis points, plus 350 basis points based on the Company's current long-term credit rating of BBB-/Baa3. The pro forma financial information reflects interest expense related to the Term Loan of \$865 million for the year ended December 31, 2008 and \$381 million for the quarter ended March 31, 2009, which includes the amortization of all loan origination costs over the 24-month term of the Term Loan. Interest expense increases in the second year due to additional extension and draw fees to extend the Term Loan beyond 12 months.

The amounts that the Company will ultimately pay may vary significantly from the above assumptions and will depend on the Company's actual credit rating, the actual amount outstanding under the Term Loan at the end of each fiscal quarter, credit received from the Rating Agencies for equity financing, the actual amount and terms of permanent debt and/or equity financing, the actual LIBOR rate, and the status of any potential asset sales, among other factors. A drop in the Company's long-term credit rating of one notch will increase interest expense for the Term Loan \$77 million in the first year. An increase of LIBOR by 1/8 percentage point will increase interest expense for the Term Loan \$10 million in the first year.

NOTE K EQUITY FINANCING

Equity financing for the acquisition was provided by three series of preferred stock.

Cumulative Convertible Perpetual Preferred Stock, Series A

Equity securities in the form of Cumulative Convertible Perpetual Preferred Stock, Series A (preferred series A) were issued on April 1, 2009 to Berkshire Hathaway Inc. in the amount of \$3 billion (3 million shares) and the Kuwait Investment Authority in the amount of \$1 billion (1 million shares). The Company will pay cumulative dividends on preferred series A at a rate of 8.5 percent per annum in either cash, shares of common stock, or any combination thereof, at the option of the Company. For purposes of the pro forma financial information, it is assumed that the dividends on preferred series A will be paid in cash, resulting in an annual cash dividend payment of \$340 million which is reflected in this pro forma financial information. Shareholders of preferred series A may convert all or any portion of their shares, at their option, at any time, into shares of the Company's common stock at an initial conversion rate of 24.2010 shares of common stock for each share of preferred series A. Under certain circumstances, the Company will be required to adjust the conversion rate. On or after the fifth anniversary of the issuance date, if the common stock price exceeds \$53.72 per share for any 20 trading days in a consecutive 30-day window, the Company may, at its option, at any time, in whole or in part, convert preferred series A into common stock at the then applicable conversion rate. For purposes of this pro forma financial information, it is assumed that no conversion has taken place and no changes to the conversion rate are required.

Table of Contents

Cumulative Perpetual Preferred Stock, Series B

At the time of the Merger, the Haas Trusts and Paulson & Co. Inc. (Paulson) purchased from the Company Cumulative Perpetual Preferred Stock, Series B (preferred series B) in the amount of 2.5 million shares (Haas Trusts 1.5 millions shares; Paulson 1.0 million shares) for an aggregate price of \$2.5 billion (Haas Trusts \$1.5 billion; Paulson \$1.0 billion). The Company will pay cumulative dividends on the preferred series B at a rate of 7 percent per annum in cash and 8 percent per annum either in cash or as an increase in the liquidation preference of preferred series B, at the Company's option. For purposes of this pro forma financial information, it is assumed that all dividends on preferred series B will be paid in cash, resulting in an annual cash dividend payment of \$375 million which is reflected in this pro forma financial information.

Cumulative Convertible Perpetual Preferred Stock, Series C

At the time of the Merger, the Haas Trusts invested \$500 million in Cumulative Convertible Perpetual Preferred Stock, Series C (preferred series C). Prior to June 1, 2009, the Company will pay cumulative dividends on preferred series C at a rate of 7 percent per annum in cash and 8 percent per annum either in cash or as an increase in the liquidation preference of preferred series C, at the Company's option. On and after June 1, 2009, if preferred series C shares have not been converted to common stock, the Company will be required to pay cumulative dividends of 12 percent per annum in cash. At any time following ten full trading days after April 1, 2009 and before June 1, 2009, holders of preferred series C, at their option, may convert their shares into shares of the Company's common stock. The preferred series C shares automatically convert to common stock on the date immediately following the ten full trading days commencing on the date on which there is an effective shelf registration statement relating to the common stock underlying the preferred series C, if such registration statement is effective prior to June 1, 2009. In either case, all shares of preferred series C will convert into shares of the Company's common stock at a conversion price per share of common stock equal to 95 percent of the average of the common stock volume-weighted average price for the ten trading days preceding the conversion.

For purposes of this pro forma financial information, it is assumed that a filed shelf registration will become effective prior to June 1, 2009 and thus it is assumed that preferred series C will automatically convert to common stock. As a result, no preferred series C shares are shown as being outstanding in this pro forma financial information. For purposes of this pro forma financial information, it is assumed that the conversion price will be \$11.82 per common share, based on 95 percent of the volume-weighted average price observed during the period of April 16, 2009 through April 29, 2009, resulting in the issuance of 43.4 million shares of common stock. The conversion price of \$11.82 per common share is for illustrative purposes only, as the actual conversion price will be based on trading days in the future; thus the actual conversion amount will vary from the assumed conversion amount presented. This scenario assumes conversion by June 1, 2009 and thus an increase in liquidation preference equivalent to a 15 percent preferred dividend for 60 days (\$13 million) on preferred series C is included in this pro forma financial information. If the preferred series C is not converted, the post-June 1, 2009 dividend of 12 percent would amount to \$60 million annually.

The above example is based on assumptions stated therein and is presented for illustrative purposes only. Actual results will vary based on the application of the applicable conversion formula set forth in the preferred series C certificate of designations to stock prices at the relevant time. The certificate of designations establishing the terms of the preferred series C is attached as Exhibit 3.3 to our Current Report on Form 8-K filed on April 1, 2009.

Financing Costs

Deferred financing costs of approximately \$100 million were charged to Additional paid-in capital upon the issuance of preferred equity securities.

NOTE L EARNINGS (LOSS) PER SHARE

The calculation of pro forma diluted earnings (loss) per share in the Unaudited Pro Forma Combined Condensed Statements of Operations uses the basic weighted-average share count, as the effect of using the diluted share count would be antidilutive.

Table of Contents

NOTE M ACQUISITION-RELATED EXPENSES

Included in the actual 2008 results in the pro forma financial information are pretax charges totaling \$89 million (\$49 million Dow and \$40 million Rohm and Haas) for legal expenses and other transaction costs related to the acquisition of Rohm and Haas. Included in the actual first quarter of 2009 results are acquisition-related expenses totaling \$81 million (\$48 million Dow and \$33 million Rohm and Haas). The pro forma financial information does not reflect additional acquisition-related expenses that could be incurred in future periods.

NOTE N ESTIMATED ANNUAL COST SAVINGS

The Company expects the transaction to create \$1.3 billion in estimated pretax annual cost synergies and savings including increased purchasing power for raw materials; manufacturing and supply chain work process improvements; and the elimination of redundant corporate overhead for shared services and governance. The Company also anticipates that the transaction will produce significant growth synergies through the application of each company's innovative technologies and as a consequence of the combined business' broader product portfolio in key industry segments with strong global growth rates. The pro forma financial information does not reflect any of these anticipated synergies.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements made by or on behalf of the Company. The forward-looking statements contained in this document involve risks and uncertainties that may affect the Company's operations, markets, products, services, prices and other factors as discussed in filings with the SEC. These risks and uncertainties include, but are not limited to, economic, competitive, legal, governmental and technological factors. Accordingly, there is no assurance that the Company's expectations will be realized. The Company assumes no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.

S-37

Table of Contents

THE BUSINESS OF THE DOW CHEMICAL COMPANY

Dow is a diversified chemical company that combines the power of science and technology with the Human Element to constantly improve what is essential to human progress. Dow delivers a broad range of products and services to customers in approximately 160 countries, connecting chemistry and innovation with the principles of sustainability to help provide everything from fresh water, food and pharmaceuticals to paints, packaging and personal care products. In 2008, Dow had annual sales of \$57.5 billion and employed approximately 46,000 people worldwide. Dow had 150 manufacturing sites in 35 countries and produced approximately 3,300 products. Below are descriptions of Dow's businesses by operating segment prior to April 1, 2009.

Following the Merger, we announced a new management organization. As such, in the second quarter of 2009, we will reevaluate our reportable operating segments.

Performance Plastics

Dow Automotive is a leading global provider of technology-driven solutions that meet consumer demands for vehicles that are safer, stronger, quieter, lighter, cleaner, more comfortable and stylish. The business provides plastics, adhesives, glass bonding systems, emissions control technology, films, fluids, structural enhancement and acoustical management solutions to original equipment manufacturers, tier, aftermarket and commercial transportation customers. With offices and application development centers around the world, Dow Automotive provides materials science expertise and comprehensive technical capabilities to its customers worldwide.

Dow Building Solutions manufactures and markets an extensive line of insulation, weather barrier, and oriented composite building solutions and adhesives. The business is the recognized leader in extruded polystyrene (XPS) insulation, known industry-wide by its distinctive Blue color and the Dow STYROFOAM brand for more than 60 years.

Dow Epoxy is a leading global producer of epoxy resins, intermediates and specialty resins and epoxy systems for a wide range of industries and applications such as coatings, electrical laminates, civil engineering, wind energy, adhesives and composites. With plants strategically located across four continents, the business is focused on providing customers around the world with differentiated solution-based epoxy products and innovative technologies and services.

The **Polyurethanes and Polyurethane Systems** business is a leading global producer of polyurethane raw materials and polyurethane systems. Dow's polyurethane products and fully formulated polyurethane systems are used for a broad range of applications including construction, automotive, appliance, furniture, bedding, shoe soles, decorative molding, athletic equipment and more.

Specialty Plastics and Elastomers includes a broad range of engineering plastics and compounds, performance elastomers and plastomers, monomers, specialty copolymers, synthetic rubber, polyvinylidene chloride resins and films (PVDC), and specialty film substrates. Key applications include automotive, adhesives, civil construction, wire and cable, building and construction, consumer electronics and appliances, food and specialty packaging, textiles, and footwear.

The **Technology Licensing and Catalyst** business includes licensing and supply of related catalysts, process control software and services for the UNIPOL polypropylene process, the METEOR process for ethylene oxide (EO) and ethylene glycol (EG), the LP OXO process for oxo alcohols, the Mass ABS process technology and Dow's proprietary technology for production of purified terephthalic acid (PTA). Licensing of the UNIPOL polyethylene process and sale of related catalysts, including metallocene catalysts, are handled through Univation Technologies, LLC, a 50:50 joint venture of Union Carbide Corporation, a wholly owned subsidiary of TDCC.

Table of Contents

Performance Chemicals

Designed Polymers is a business portfolio of products and systems characterized by unique chemistry, specialty functionalities, and people with deep expertise in regulated industries. Within Designed Polymers, Dow Water Solutions offers technology-based solutions for desalination, water purification, trace contaminant removal and water recycling. Also in Designed Polymers, businesses such as Dow Wolff Cellulosics, Dow Biocides and ANGUS Chemical Company (an indirect wholly owned subsidiary of TDCC), develop and market a range of products that enhance or enable key physical and sensory properties of end-use products in applications such as food, pharmaceuticals, oil and gas, paints and coatings, personal care, and building and construction.

The **Dow Latex** business provides the broadest line of styrene-butadiene products supporting customers in paper and paperboard applications, as well as carpet and artificial turf backings. UCAR Emulsion Systems manufactures and sells latexes for use in architectural and industrial coatings, adhesives, construction products and traffic paint. As a condition of the FTC's approval of the Merger, Dow is required to divest a portion of its latex polymers business and its hollow sphere particle business in the United States, Canada, Puerto Rico, and Mexico.

The **Specialty Chemicals** business provides products and services used in a diverse range of applications, such as agricultural and pharmaceutical products and processing, building and construction, chemical processing and intermediates, electronics, food processing and ingredients, gas treating solvents, fuels and lubricants, oil and gas, household and institutional cleaners, coatings and paints, pulp and paper manufacturing, metal degreasing and dry cleaning, and transportation. As a condition of FTC's approval of the Merger, Dow is required to divest a portion of its acrylic acid and esters business in North, Central, and South America.

The Performance Chemicals segment also includes the results of Dow Corning Corporation, and a portion of the results of the OPTIMAL Group of Companies and the SCG-Dow Group, all joint ventures of Dow.

Agricultural Sciences

Dow AgroSciences is a global leader in providing pest management, agricultural and crop biotechnology products and solutions. The business develops, manufactures and markets products for crop production; weed, insect and plant disease management; and industrial and commercial pest management. Dow AgroSciences is building a leading biotechnology business in agricultural seeds, traits and healthy oils.

Basic Plastics

The **Polyethylene** business is the world's leading supplier of polyethylene-based solutions through sustainable product differentiation. Through the use of multiple catalyst and process technologies, the business offers customers one of the industry's broadest ranges of polyethylene resins via a strong global network of local experts focused on partnering for long-term success.

The **Polypropylene** business, a major global polypropylene supplier, provides a broad range of products and solutions tailored to customer needs by leveraging Dow's leading manufacturing and application technology, research and product development expertise, extensive market knowledge and strong customer relationships.

The **Polystyrene** business, the global leader in the production of polystyrene resins, is uniquely positioned with geographic breadth and participation in a diversified portfolio of applications. Through market and technical leadership and low cost capability, the business continues to improve product performance and meet customer needs.

The Basic Plastics segment also includes the results of Equipolymers and Americas Styrenics LLC, as well as a portion of the results of EQUATE Petrochemical Company K.S.C. and the SCG-Dow Group, all joint ventures of Dow.

Table of Contents

Basic Chemicals

The *Core Chemicals* business is a leading global producer of each of its basic chemical products, which are sold to many industries worldwide, and also serve as key raw materials in the production of a variety of Dow's performance and plastics products.

The *Ethylene Oxide/Ethylene Glycol* business is a key supplier of ethylene glycol to MEGlobal, a 50:50 joint venture and a world leader in the manufacture and marketing of merchant monoethylene glycol and diethylene glycol. Dow also supplies ethylene oxide to internal derivatives businesses. Ethylene glycol is used in polyester fiber, polyethylene terephthalate (PET) for food and beverage container applications, polyester film and antifreeze.

The Basic Chemicals segment also includes the results of MEGlobal and a portion of the results of EQUATE Petrochemical Company K.S.C. and the OPTIMAL Group of Companies, all joint ventures of Dow.

Hydrocarbons and Energy

The *Hydrocarbons and Energy* business encompasses the procurement of fuels, natural gas liquids and crude oil-based raw materials, as well as the supply of monomers, power and steam principally for use in Dow's global operations. The business regularly sells its byproducts; the business also buys and sells products in order to balance regional production capabilities and derivative requirements. The business also sells products to certain Dow joint ventures. Dow is the world leader in the production of olefins and aromatics.

The Hydrocarbons and Energy segment also includes the results of Compañía Mega S.A. and a portion of the results of the SCG-Dow Group, both joint ventures of Dow.

Unallocated and Other includes the results of New Ventures (which includes new business incubation platforms focused on identifying and pursuing new commercial opportunities); Venture Capital; Dow's insurance operations and environmental operations; and certain overhead and other cost recovery variances not allocated to the operating segments.

Table of Contents

THE BUSINESS OF ROHM AND HAAS COMPANY

Rohm and Haas, which became our wholly owned subsidiary on April 1, 2009, is a global specialty materials company with a portfolio of global businesses including electronic materials, specialty materials and salt. Its products enable the creation of leading-edge consumer goods and other products found in a broad segment of dynamic markets, the largest of which include: building and construction, electronics, packaging and paper, industrial and other, transportation, household and personal care, water and food. To serve these markets, in 2008 Rohm and Haas had significant operations with approximately 98 manufacturing and 34 research facilities in 30 countries and approximately 15,490 employees. Prior to our acquisition of Rohm and Haas, Rohm and Haas' financial results were reported in seven reportable segments organized within the following four business groups:

Electronic Materials Group

Rohm and Haas' Electronic Materials group is comprised of two reportable segments: Electronic Technologies and Display Technologies. This group develops, manufactures and delivers materials for use in applications such as telecommunications, consumer electronics and household appliances.

The Electronic Technologies segment is an aggregation of Circuit Board Technologies, Packaging and Finishing Technologies and Semiconductor Technologies businesses.

Circuit Board Technologies develops, manufactures and delivers the technology, materials and fabrication services for increasingly powerful, high-density printed circuit boards in computers, cell phones, automobiles and many other electronic devices. Rohm and Haas is a leading global supplier of specialty chemicals and materials used in the fabrication of printed circuit boards, and is focused on the development of metallization and imaging technologies.

Packaging and Finishing Technologies develops, manufactures and delivers innovative materials and processes that boost the performance of a diverse range of electronic, optoelectronic and industrial finishing applications. Rohm and Haas supplies integrated metallization processes critical for interconnection, corrosion resistance, metal finishing, and decorative applications.

Semiconductor Technologies develops, manufactures and supplies integrated products and technologies on a global basis. Rohm and Haas enables its customers to drive leading edge semiconductor design, and to boost performance of semiconductor devices powered by smaller and faster chips. This business also develops and delivers materials used for chemical mechanical planarization (CMP), a process that creates the flawless surfaces required to make faster and more powerful integrated circuits and electronic substrates.

Display Technologies develops, manufactures and sells materials used in the production of electronic displays. This business includes the consolidated results of Rohm and Haas' joint venture with SKC Corporation of Korea formed on November 30, 2007, SKC Haas Display Films, which develops, manufactures, and sells advanced specialty films and materials used in LCD and plasma displays. These include light diffuser films, micro lens films, optical protection films, release protection films, reflectors, technology for touch panels, Plasma Display Panel filters, and process chemicals used to manufacture LCD color filters. This business also includes leading-edge light management film technology acquired from Eastman Kodak on June 15, 2007, as well as process chemicals used in LCD production originally developed by Rohm and Haas. In addition, in April 2008, Rohm and Haas acquired Gracel Displays, Inc., a leading developer and manufacturer of Organic Light Emitting Diode Materials, which offer many performance benefits to improve the brightness, clarity, and efficiency of display.

Table of Contents

Specialty Materials Business Group

The Specialty Materials Business Group encompasses three reportable segments: Paint and Coatings Materials, Packaging and Building Materials, and Primary Materials. Rohm and Haas believes that it is the largest and most broadly based supplier of acrylic polymers in the markets it serves, and also the largest combined supplier of the key raw materials to make these acrylic polymers, namely methacrylate and acrylate monomers. The largest consumers of Rohm and Haas acrylic monomers are its downstream polymer businesses Paint and Coatings Materials and Packaging and Building Materials.

Paint and Coatings Materials offers high quality, technologically advanced binders and additives for paint and coatings that improve the durability, tint retention, adhesion, stain resistance and opacity of paint. This business offers products for the architectural and decorative coatings markets, as well as products used in the manufacture of industrial coatings (for use on wood and metal, and in traffic paint), construction materials (for use in roofing materials, insulation, and cement modification), and floor care products.

Packaging and Building Materials offers a range of polymers, additives, and formulated value-added products sold globally (which utilize a broad range of chemistries and technologies, including acrylic technology), including:

Formulated adhesives and adhesive polymers used in flexible packaging, tape and label, transportation, and other applications;

Performance enhancing additives for plastics used in a broad array of applications, especially construction materials (e.g., vinyl siding, vinyl windows, vinyl fencing) and packaging;

Processing aids for plastic production; and

Specialty polymers and coatings for use in leather, textile, graphic arts, paper and packaging applications.

Primary Materials produces methyl methacrylate, acrylic acid and associated esters as well as specialty monomer products which are building blocks used in Rohm and Haas downstream polymer businesses and which are also sold externally. Primary Materials also provides polyacrylic acid dispersants, opacifiers and rheology modifiers/thickeners to the global household and industrial markets.

Performance Materials Group

This reportable segment includes the sales and operating results of Rohm and Haas other businesses, including Process Chemicals and Biocides, Powder Coatings, and other smaller business units.

Process Chemicals and Biocides includes Rohm and Haas technology platforms in ion exchange resins and biocides. These technologies continue to be adapted to more advanced applications, such as bio-processing, advanced water treatment (e.g., ultra-pure water for the electronics industry), and microbial protection for both building materials and personal care. In addition to this strong technical capability, this business has global reach and adaptable business models, such as its Viance joint venture for wood preservation.

Powder Coatings produces a comprehensive line of powder coatings that are sprayed onto consumer and industrial products in a solid form. During the powder coating process, tiny particles receive an electrostatic charge as they pass through a sprayer, which causes them to adhere to the product. The product is later cured at a high temperature, where the particles melt onto the product to form the final coating. Powder coatings are often more cost-effective than liquid coatings, while providing similar or enhanced benefits, including increased durability such as temperature and wear resistance. Powder coatings are used on a wide variety of products, ranging from door handles to patio and deck furniture, to windshield wipers, televisions and industrial shelving.

Also included in the Performance Materials Segment are several small businesses that are building positions based on technology areas outside of the core of Rohm and Haas operations. For example, Rohm and Haas

Table of Contents

AgroFresh subsidiary is a global leader in maintaining the freshness of fruits, vegetables and flowers with a portfolio of products and services based on proprietary 1-MCP technology. AgroFresh is now expanding the use of 1-MCP technology to the protection of field crops from heat and drought stress. InvinsaTM crop stress protection technology is being further developed and commercialized in partnership with Syngenta AB.

Salt

This segment includes table and specialty salts and salt used for water conditioning, ice control, food processing and chemical/industrial use. On April 1, 2009, Rohm and Haas, as our wholly owned subsidiary, entered into the Stock Purchase Agreement with K+S, whereby K+S will acquire the salt business of MII from Rohm and Haas. The purchase price for the transaction is \$1.675 billion in cash, subject to adjustment at closing for working capital and certain indebtedness, pension and post-retirement benefit obligations. The transaction is subject to customary closing conditions, including receipt of regulatory approvals in the United States and Canada. The Stock Purchase Agreement contains certain termination rights for both Rohm and Haas and K+S, including the right of either party to terminate if the closing has not occurred by January 4, 2010.

DESCRIPTION OF THE FINANCING TRANSACTIONS

Term Loan

On September 8, 2008, TDCC, as borrower, entered into a Term Loan Agreement (the "Original Agreement") with a syndicate of banks in order to finance a portion of the Merger, to retire certain debt of Rohm and Haas and to pay related fees, costs and expenses. On March 5, 2009, the parties to the Original Agreement entered into a First Amendment to Term Loan Agreement (the "First Amendment") in order to amend the Original Agreement (as so amended, the "Term Loan Agreement"). The following description of the Term Loan Agreement is qualified in its entirety by reference to the Original Agreement and the First Amendment, copies of which have been filed by us with the SEC on Current Reports on Form 8-K dated September 9, 2008 and March 6, 2009, respectively.

Under the Term Loan Agreement, TDCC borrowed approximately \$9.2 billion to finance a portion of the Merger. The Term Loan Agreement will mature on the earlier of (a) the first anniversary of the closing date and (b) April 14, 2010; provided, however, that the original maturity date of the Term Loan Agreement may be extended to the date occurring one year following the original maturity date, at our option, subject to the satisfaction of certain conditions precedent, including (i) the absence, since December 31, 2008, of a material adverse change in the financial position or operations of TDCC and its consolidated subsidiaries, considered as a whole (except for the Merger and the financing thereof and except for any changes disclosed in our 2008 10-K; provided that any changes or developments relating to matters so disclosed (and the effects thereof) that arise after December 31, 2008 may be taken into account in determining whether a material adverse change has occurred), (ii) compliance with the total leverage ratio covenant described below as of the original maturity date, if such covenant is applicable on such date, (iii) the reduction of the aggregate principal amount of the loans under the Term Loan Agreement to \$8 billion or less, and (iv) the payment of an extension fee equal to 2% of the aggregate principal amount of the outstanding loans on the original maturity date (after giving effect to any prepayment or repayment on such date).

The Term Loan Agreement permits loans bearing interest at a rate per annum equal to either a base rate or LIBOR plus, in each case, a margin that varies based on TDCC's credit rating (the "Applicable Margin"); provided, however, that if the original maturity date of the Term Loan Agreement is extended as described in the preceding paragraph, then the Applicable Margin shall increase, as set forth in the Term Loan Agreement, on the date of extension, on the 90th day following such date and on each successive 90th day thereafter.

We paid to the lenders a structuring fee equal to 1.25% of the aggregate amount of the lenders' commitments. Additionally, under the Term Loan Agreement, TDCC is obligated from time to time to pay certain duration fees to the lenders, as set forth in the Term Loan Agreement. Higher rates will apply to certain of these fees (i) unless, on or prior to the 90th day following the date of the closing of the Merger, TDCC consummates one or more sales of certain equity interests or equity-linked securities for which it receives aggregate gross cash proceeds of at least \$1.5 billion (calculated, in the case of equity-linked securities, based on the amount of equity credit accorded thereto by certain rating agencies) (a "New Equity Issuance") or (ii) if a New Equity Issuance does occur on or prior to such 90th day following the date of the closing of the Merger, but the outstanding indebtedness under the Term Loan Agreement has not been reduced to the extent specified under the Term Loan Agreement. Our issuance of the Perpetual Preferred Stock, Series B (as defined below) and the Convertible Preferred Stock, Series C (as defined below), together with the Common Stock Offering, meets this New Equity Issuance requirement.

The Term Loan Agreement contains provisions relating to mandatory prepayment of the loans in certain circumstances, such as receipt by TDCC or any of its consolidated subsidiaries of proceeds from any sale of assets the proceeds of which exceed \$50 million, incurrence of indebtedness for borrowed money (other than (i) commercial paper issued by TDCC in the normal course of business and consistent with past practice, (ii) refinancings, renewals, replacements and refundings of indebtedness whether outstanding on the date of the effective date of the Original Agreement or thereafter, (iii) any indebtedness incurred to finance our day-to-day

Table of Contents

operations in the normal course of business and any indebtedness incurred to finance loans to, or other investments in, our joint ventures, and (iv) certain other indebtedness) the proceeds of which exceed \$50 million, any sale or issuance of certain equity interests or equity-linked securities, or any litigation, arbitration, settlement or other dispute resolution related to the proposed K-Dow joint venture transaction, in each case subject to agreed exceptions.

Subject to certain conditions, TDCC may at its option prepay in whole or in part the principal amount of the loans together with accrued interest without penalty.

The Term Loan Agreement contains affirmative and restrictive covenants applicable to us, including: (a) periodic financial reporting requirements, (b) limitations on liens, (c) the requirement that the ratio of TDCC's consolidated indebtedness (as defined in the Term Loan Agreement) to its consolidated capitalization (as defined in the Term Loan Agreement) not be greater than 0.65 to 1.00, (d) limitations on sale and lease-back transactions, (e) limitations on consolidations, mergers and sales of assets, and (f) a requirement to provide guarantees from any subsidiary that guarantees certain other indebtedness of TDCC. In addition, TDCC agreed to use the proceeds of the loans solely to (i) finance the acquisition of Rohm and Haas, (ii) repay certain indebtedness of Rohm and Haas and its subsidiaries on the closing date and (iii) finance related transaction costs. Furthermore, if and when both of TDCC's credit ratings from Moody's and S&P fall below certain levels or no credit rating is available (or, if the New Equity Issuance does not occur on or prior to the 90th day following the date of the closing of the Merger, if either of TDCC's credit ratings from Moody's or S&P falls below certain levels or no credit rating is available), TDCC may not permit the total leverage ratio (as defined in the Term Loan Agreement) to be greater than certain levels (initially 5.75 to 1.00 and progressively declining to 4.25 to 1.00 at September 30, 2010 and thereafter). On April 1, 2009, S&P downgraded our long-term credit rating to BBB- with credit watch negative and on April 22, 2009, Moody's downgraded our long-term credit rating to Baa3 with outlook negative, resulting in a current requirement for TDCC to maintain a total leverage ratio of 5.75 to 1.00, which ratio may decline progressively, as described above or may be removed if our credit ratings improve. The Term Loan Agreement contains customary events of default.

Under the Term Loan Agreement, TDCC has agreed that unless its credit rating from Moody's is Baa3 or higher (with at least a stable outlook) and its credit rating from S&P is BBB- or higher (with at least a stable outlook), then upon notice by the administrative agent at any time and from time to time following the 60th day after the day the loans are extended beyond their original maturity date, TDCC will offer and, if certain investment banks are able to place the securities referred to below, issue and sell, prior to the 30th day after such notice (subject to extension by an additional 15 days for blackout periods and other events), such aggregate principal amount of debt securities as will generate gross proceeds sufficient to refinance (in whole or in part, as determined by the administrative agent) all outstanding loans under the Term Loan Agreement, subject to a maximum interest rate and certain other conditions. So long as TDCC complies with the request to offer such securities, failure of the investment banks to place and sell such securities shall not constitute a default under the Term Loan Agreement. If TDCC fails to offer such securities as described above, such failure would constitute a default under the Term Loan Agreement and result in an increase in the interest rate payable thereunder.

On March 5, 2009, TDCC also entered into a Securities Issuance Letter (the "Securities Issuance Letter") with Citigroup Global Markets Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Morgan Stanley Senior Funding, Inc. (the "Arrangers"), pursuant to which TDCC confirmed that, subject to the effectiveness of the First Amendment, the closing of the Merger, compliance with all applicable laws and regulations, and other customary conditions precedent, TDCC is committed to issuing up to \$3 billion of debt prior to or within 90 calendar days after the closing of the Merger (subject to extension under certain circumstances), so long as (a) the yield on such debt is no higher than a rate separately agreed between TDCC and the Arrangers, (b) such debt is unsecured and not guaranteed by any of TDCC's subsidiaries, and (c) unless otherwise agreed by TDCC, such debt does not contain covenants, defaults or other provisions materially adverse to it other than those contained in its 5.7% Senior Notes due 2018 and a ratings-based interest adjustment. The Securities Issuance Letter provides that the inability or other failure by TDCC to issue or offer to issue such debt shall not constitute

Table of Contents

a default under the Term Loan Agreement or its other agreements. Upon consummation of the Debt Offering that we priced on May 7, 2009, we will have met our commitment under this Securities Issuance Letter. See Prospectus Supplement Summary Recent Developments of Dow and Other Offerings.

The Cumulative Convertible Perpetual Preferred Stock, Series A

On April 1, 2009, in accordance with the provisions of investment agreements (the Series A Investment Agreements) between TDCC and each of Berkshire Hathaway Inc. (BHI) and the Kuwait Investment Authority (KIA and, together with BHI, the Investors) TDCC issued to BHI and KIA 3,000,000 and 1,000,000 shares, respectively, of cumulative convertible perpetual preferred stock, Series A having a liquidation preference of \$1,000 per share (the Convertible Preferred Stock, Series A), for an aggregate consideration of \$4.0 billion. The following description of the Series A Investment Agreements and the Convertible Preferred Stock, Series A is qualified in its entirety by reference to the Series A Investment Agreements attached as Exhibits 10.1 and 10.2 to our Current Report on Form 8-K filed on October 27, 2008 and to the certificate of designations establishing the terms of the Convertible Preferred Stock, Series A (the Series A Certificate of Designations) attached as Exhibit 3.1 to our Current Report on Form 8-K filed on April 1, 2009.

Under the Series A Certificate of Designations:

Each share of the Convertible Preferred Stock, Series A may be converted at any time, at the option of the holder, into 24.2010 shares of our common stock, subject to certain anti-dilution adjustments and certain other adjustments which represents an initial conversion price of approximately \$41.32 per share;

On or after five years from the date on which the Convertible Preferred Stock, Series A is issued, we may, at our option, at any time or from time to time, cause some or all of the Convertible Preferred Stock, Series A to be converted into shares of our common stock at the then applicable conversion rate if, (i) for 20 trading days within any period of 30 consecutive trading days ending on the trading day preceding the date we give notice of conversion at its option, the closing price of our common stock exceeds 130% of the then-applicable conversion price and (ii) we have declared and paid (or have declared and set apart for payment) any past due dividends on the Convertible Preferred Stock, Series A;

We will pay cumulative dividends on the Convertible Preferred Stock, Series A quarterly in arrears, at the rate of 8.5% per annum, in either cash, common stock or a combination of both, at our option, plus 10% per annum additional dividends on the amount of any unpaid dividends;

The Convertible Preferred Stock, Series A will rank senior to our outstanding common stock and any other junior capital stock (collectively, the Junior Stock) with respect to the payment of dividends and distributions in liquidation; at any time when dividends on the Convertible Preferred Stock, Series A have not been paid in full, we will not, and will cause our subsidiaries not to, declare or pay any dividend on Junior Stock, make any distributions relating to Junior Stock, redeem, purchase, acquire or make a liquidation payment relating to Junior Stock, or make any guarantee payment with respect to Junior Stock, in each case subject to certain exceptions set out in the Series A Certificate of Designations;

The Convertible Preferred Stock, Series A is perpetual and has no maturity date and is not redeemable at our option; and

Holders of Convertible Preferred Stock, Series A do not have voting rights, except under certain circumstances. If dividends on the Convertible Preferred Stock, Series A are not paid in full for six dividend periods, holders of Convertible Preferred Stock, Series A (together with the holders of any of our other preferred stock with similar voting rights) will have the right to elect two directors of our board of directors.

Table of Contents

In addition, under the Series A Investment Agreements, each Investor has agreed to be subject to certain standstill provisions, which will terminate, subject to an outer limit of seven years from the Closing Date, on the later of the third anniversary of the Closing Date and the date on which the Investors beneficially own less than 2% of the outstanding shares of common stock. Each Investor has also agreed not to offer, transfer, hypothecate, sell, contract to sell or hedge the Convertible Preferred Stock, Series A, any of our common stock received upon conversion of the Convertible Preferred Stock, Series A or its exposure to our common stock for a period of five years following the date on which the Convertible Preferred Stock, Series A was issued, subject to certain exceptions as specified in the Series A Investment Agreements.

The Cumulative Perpetual Preferred Stock, Series B

On April 1, 2009, in accordance with the provisions of an investment agreement (the "Series B and C Investment Agreement") among TDCC, the Haas Trusts and Paulson funds, we issued to the Haas Trusts and Paulson funds 1,500,000 and 1,000,000 shares, respectively, of our cumulative perpetual preferred stock, series B, having an initial liquidation preference of \$1,000 per share (the "Perpetual Preferred Stock, Series B"), for an aggregate consideration of \$2.5 billion. On April 1, 2009, subsequent to our initial issuance of the Perpetual Preferred Stock, Series B, to the Paulson funds and the Haas Trusts, the Haas Trusts sold 250,000 shares of Perpetual Preferred Stock, Series B, to Paulson Credit Opportunities Master Limited. The following description of the Series B and C Investment Agreement and the Perpetual Preferred Stock, Series B is qualified in its entirety by reference to the Series B and C Investment Agreement attached as Exhibit 10.2 to our Current Report on Form 8-K filed on March 12, 2009 and to the certificate of designations establishing the terms of the Perpetual Preferred Stock, Series B (the "Series B Certificate of Designations") attached as Exhibit 3.2 to our Current Report on Form 8-K filed on April 1, 2009.

Under the Series B Certificate of Designations:

we will pay cumulative dividends on the Perpetual Preferred Stock, Series B, quarterly in arrears, at a rate of 7% per annum in cash ("Cash Dividends") and 8% per annum either (at our option) in cash or as an increase in the liquidation preference of the Perpetual Preferred Stock, Series B, plus 3% per annum additional dividends on the amount of any unpaid Cash Dividends (payable as an increase in the liquidation preference of the Perpetual Preferred Stock, Series B) if any Cash Dividends are not timely declared and paid;

the Perpetual Preferred Stock, Series B will rank senior to our outstanding Junior Stock with respect to the payment of dividends and distributions in liquidation; at any time when dividends on the Perpetual Preferred Stock, Series B have not been paid in full, we will not, and will cause our subsidiaries not to, declare or pay any dividend in excess of \$0.01 per share on Junior Stock, make any distributions relating to Junior Stock, redeem, purchase, acquire or make a liquidation payment relating to Junior Stock, or make any guarantee payment with respect to Junior Stock, in each case subject to certain exceptions set forth in the Series B Certificate of Designations;

the Perpetual Preferred Stock, Series B is redeemable (i) at the option of the holders upon a change of control of us or at any time after the 60th anniversary of issuance and (ii) at our option at any time after the 5th anniversary of issuance, in each case, on the terms and at the prices set forth in the Series B Certificate of Designations; and

the holders of the Perpetual Preferred Stock, Series B do not have voting rights except under certain circumstances as described in the Series B Certificate of Designations, including: the right to vote (together with the holders of any of our other preferred stock with similar voting rights) to elect two directors of our board of directors in the event of certain dividend arrearages; the right to vote as a class with respect to the issuance of our senior capital stock or certain adverse changes to our organizational documents; and as required by Delaware law.

Additionally, pursuant to the Series B and Series C Investment Agreement, we have granted to the Haas Trusts and Paulson funds certain registration rights to allow them to resell their shares of the Perpetual Preferred Stock, Series B in an offering registered with the SEC under certain circumstances.

Table of Contents

In addition, through a Replacement Capital Covenant relating to the Perpetual Preferred Stock, Series B, dated April 1, 2009 (the Series B Replacement Capital Covenant), which was contemplated by the Series B Certificate of Designations, we covenanted, for the benefit of holders of a designated series of our long-term indebtedness, that we will only redeem or repurchase shares of the Perpetual Preferred Stock, Series B on or before the Termination Date (as defined in the Series B Replacement Capital Covenant) with the proceeds that we have received during the 180 days prior to the date of such redemption or repurchase from the sale of certain qualifying securities that have equity-like characteristics that are the same as, or more equity-like than, the applicable characteristics of the Perpetual Preferred Stock, Series B. The foregoing description of the Series B Replacement Capital Covenant is qualified in its entirety by reference to the Series B Replacement Capital Covenant attached as Exhibit 99.2 to our Current Report on Form 8-K filed on April 1, 2009.

The Cumulative Convertible Perpetual Preferred Stock, Series C

Under the Series B and C Investment Agreement, we issued to the Haas Trusts 500,000 shares of cumulative convertible preferred stock, series C, having an initial liquidation preference of \$1,000 per share (the Convertible Preferred Stock, Series C, for an aggregate consideration of \$500 million.

The following description of the Series B and C Investment Agreement and the Convertible Preferred Stock, Series C is qualified in its entirety by reference to the Series B and C Investment Agreement attached as Exhibit 10.2 to our Current Report on Form 8-K filed on March 12, 2009 and to the certificate of designations establishing the terms of the Convertible Preferred Stock, Series C (the Series C Certificate of Designations) attached as Exhibit 3.3 to our Current Report on Form 8-K filed on April 1, 2009.

Under the Series C Certificate of Designations:

prior to June 1, 2009, we will pay cumulative dividends on the Convertible Preferred Stock, Series C, quarterly in arrears, at a rate of 7% per annum in Cash Dividends and 8% per annum either (at our option) in cash or as an increase in the liquidation preference of the Convertible Preferred Stock, Series C, plus 3% per annum additional dividends on the amount of any unpaid Cash Dividends (payable as an increase in the liquidation preference of the Convertible Preferred Stock, Series C) if any Cash Dividends are not timely declared and paid;

if we have an effective shelf registration statement relating to the common stock underlying the Convertible Preferred Stock, Series C, prior to June 1, 2009, the Convertible Preferred Stock will automatically convert on the date immediately following the 10 full trading days commencing on the date of filing of such shelf registration statement into a number of shares of common stock equal to the sum of one-tenth of the liquidation preference of that share divided by 95% of the volume weighted average price per share of our common stock for each of the 10 full trading days immediately prior to the conversion date (the Early Conversion Rate);

prior to June 1, 2009, if the Convertible Preferred Stock, Series C, has not yet automatically converted because we do not have an effective shelf registration statement as described above, the Convertible Preferred Stock, Series C will be convertible into our common stock at the option of the holders at any time following 10 full trading days after issuance, at the Early Conversion Rate;

on and after June 1, 2009, if the Convertible Preferred Stock, Series C is still outstanding, we will pay cumulative dividends on the Convertible Preferred Stock, Series C, quarterly in arrears, at a rate of 12% per annum in cash, plus 3% per annum additional dividends (payable as an increase in the liquidation preference of the Convertible Preferred Stock, Series C) if any such dividends are not timely declared and paid;

on and after June 1, 2009, if the Convertible Preferred Stock, Series C is still outstanding, the Convertible Preferred Stock, Series C will become convertible into our common stock at the option of the holders at a conversion price per share of common stock equal to 110% of the lowest one-day volume weighted average price per share of our common stock during the period beginning on April 1, 2009 and ending on June 1, 2009;

Table of Contents

the Convertible Preferred Stock, Series C will rank senior to our Junior Stock with respect to the payment of dividends and distributions in liquidation; at any time when dividends on the Convertible Preferred Stock, Series C have not been paid in full, we will not, and will cause our subsidiaries not to, declare or pay any dividend in excess of \$0.01 per share on Junior Stock, make any distributions relating to Junior Stock, redeem, purchase, acquire or make a liquidation payment relating to Junior Stock, or make any guarantee payment with respect to Junior Stock, in each case subject to certain exceptions set forth in the Series C Certificate of Designations;

the Convertible Preferred Stock, Series C is redeemable (i) at the option of the holders upon a change of control of us or at any time after the 60th anniversary of issuance and (ii) at our option at any time after the 5th anniversary of issuance, in each case, on the terms and at the prices set forth in the Series C Certificate of Designations; and

holders of the Convertible Preferred Stock, Series C do not have voting rights except under certain circumstances as described in the Series C Certificate of Designations, including: the right to vote (together with the holders of any of our other preferred stock with similar voting rights) to elect two directors of our board of directors in the event of certain dividend arrearages; the right to vote as a class with respect to the issuance of our senior capital stock or certain adverse changes to our organizational documents; and as required by Delaware law.

In the Purchase Agreement, the Haas Trusts and Dow have agreed to amend the Series C Certificate of Designations to provide that the deadline for the automatic conversion of the Convertible Preferred Stock, Series C will be extended from June 1, 2009 to June 8, 2009.

Additionally, pursuant to the Series B and Series C Investment Agreement, we have granted to the Haas Trusts certain registration rights to allow them to resell their shares of the Convertible Preferred Stock, Series C, as well as the shares of common stock issuable upon conversion of the Convertible Preferred Stock, Series C, in an offering registered with the SEC under certain circumstances.

In addition, through a Replacement Capital Covenant relating to the Convertible Preferred Stock, Series C, dated April 1, 2009 (the Series C Replacement Capital Covenant), which was contemplated by the Series C Certificate of Designations, we covenanted, for the benefit of holders of a designated series of our long-term indebtedness, that we will only redeem or repurchase shares of the Convertible Preferred Stock, Series C on or before the Termination Date (as defined in the Series C Replacement Capital Covenant) with the proceeds that we have received during the 180 days prior to the date of such redemption or repurchase from the sale of certain qualifying securities that have equity-like characteristics that are the same as, or more equity-like than, the applicable characteristics of the Convertible Preferred Stock, Series C. The foregoing description of the Series C Replacement Capital Covenant is qualified in its entirety by reference to the Series C Replacement Capital Covenant attached as Exhibit 99.3 to our Current Report on Form 8-K filed on April 1, 2009.

Table of Contents

OTHER OFFERINGS

The Common Stock Offering

On May 6, 2009, we priced our Common Stock Offering of 150 million shares of our common stock, including the over-allotment shares, at a price to the public of \$15.00 per share. Of the shares being offered, approximately \$1 billion in gross proceeds of the shares are offered by us and \$1.25 billion (including the over-allotment shares) in gross proceeds of the shares are offered by the Paulson funds and the Haas Trusts, as the selling stockholders. We intend to use all of the net proceeds we receive in the Common Stock Offering to repay a portion of our borrowings under our Term Loan Agreement. We will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholders in such offering.

The Debt Offering

On May 7, 2009, we priced our Debt Offering of \$1.75 billion aggregate principal amount of 7.60% notes due 2014; \$3.25 billion aggregate principal amount of 8.55% notes due 2019; and \$1 billion aggregate principal amount of 9.40% notes due 2039. Of the \$6 billion in notes that are offered, \$1.35 billion aggregate principal amount of the 8.55% notes due 2019 are offered by the Paulson funds and the Haas Trusts, as selling noteholders. We intend to use the net proceeds we receive from the Debt Offering to repay a portion of our borrowings under our Term Loan Agreement and for refinancings, renewals, replacements, and refundings of outstanding indebtedness. We will not receive any of the proceeds from the sale of notes by the selling noteholders in such offering. The consummation of this offering by us is not conditioned upon the consummation of any other offering, but the consummation of the sale of notes by the selling noteholders is conditioned upon consummation of our Common Stock Offering. In the event we do not consummate our Common Stock Offering, we will issue and sell the notes that would otherwise have been sold by the selling noteholders in the Debt Offering.

All of the shares and notes offered by the selling stockholders and the selling noteholders, respectively, were issued to them pursuant to the Purchase Agreement in consideration for our repurchase of shares of their Perpetual Preferred Stock, Series B. See Prospectus Supplement Summary Recent Developments of Dow.

Table of Contents

DESCRIPTION OF THE COMMON STOCK

The following summary of our common stock does not purport to be complete and is subject to, and qualified in its entirety by reference to, the relevant provisions of Delaware law, and by our restated certificate of incorporation and bylaws, as amended and re-adopted, attached as Exhibit 3(i) to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2007 and Exhibit 99.1 to our Current Report on Form 8-K filed on October 14, 2008, respectively. This description reflects certain amendments to our certificate of incorporation and our bylaws effected subsequent to the date of the accompanying prospectus and supersedes the description of our common stock in the accompanying prospectus.

We are authorized to issue 1,750,000,000 shares of all classes of stock, 1,500,000,000 of which are shares of common stock, par value \$2.50 per share, and 250,000,000 of which are shares of preferred stock, par value \$1.00 per share. As of April 30, 2009, there were 925,915,403 shares of our common stock issued and outstanding. However, you should note that 1,075,915,403 shares are expected to be outstanding after the consummation of our Common Stock Offering, which is expected to close on May 12, 2009. All issued and outstanding shares of common stock are fully paid and non-assessable. Any additional shares of common stock and preferred stock that we issue pursuant to this prospectus supplement will be fully paid and non-assessable. Neither our common stockholders nor preferred stockholders have preemptive rights.

Common Stock

General

Our certificate of incorporation provides that, subject to all of the rights of holders of preferred stock provided for by the board of directors or by Delaware corporate law, the holders of common stock will have full voting rights on all matters requiring stockholder action, with each share of common stock being entitled to one vote and having equal rights of participation in our dividends and assets.

Board of Directors

Our certificate of incorporation provides that all of our directors are elected each year at our annual meeting for a term of one year and until his or her successor is duly elected and qualified. A quorum of directors consists of a majority of our entire board of directors then holding office.

Number, Filling of Vacancies and Removal of Directors

Our certificate of incorporation and bylaws provide that its board of directors may not have less than six or more than twenty-one members. The actual number of directors is determined by a vote of a majority of our entire board of directors. Currently, we have twelve members on our board of directors. Vacancies on our board of directors and any newly created directorships are filled by a vote of the majority of the other directors then in office. Directors elected to fill a vacancy or a new position hold office until the next annual meeting of stockholders. Directors can be removed from office at any time, with or without cause, by the affirmative vote of a majority of the voting power of all the outstanding shares of our capital stock then entitled to vote in the election of directors. Holders of our outstanding preferred stock in certain circumstances will have the right to elect two directors of our board of directors. See Description of the Financing Transactions.

Dividends

Delaware corporate law generally provides that a corporation, subject to restrictions in its certificate of incorporation, including preferred stockholders' rights to receive dividends prior to common stockholders, may declare and pay dividends out of:

surplus; or

net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year, if there is no surplus.

Table of Contents

Dividends may not be declared or paid out of net profits if the capital of the corporation is less than the aggregate amount of capital represented by the issued and outstanding stock of all classes having a preference on the distribution of assets. Dividends on our common stock are not cumulative. Our certificate of incorporation does not contain any additional restrictions on the declaration or payment of dividends. However, we currently have, and in the future may have, outstanding preferred equity which restricts our ability to pay dividends on our common stock if we fail in the payment of dividends on the preferred equity. See Description of the Financing Transactions.

Selected Provisions in Our Certificate of Incorporation and Bylaws

Our certificate of incorporation and bylaws contain a number of provisions that could have the effect of prohibiting or delaying a third party's ability to take control of us.

Special Meetings of Stockholders

Our bylaws provide that a special stockholders' meeting for any purpose may be called only by the board of directors by a resolution adopted by a majority of the entire board:

upon motion of a director; or

upon written request of stockholders holding at least 50% of the voting power of the shares of capital stock outstanding and entitled to vote generally in the election of directors.

Stockholder notices requesting a special meeting must be given to our Secretary. The notice must include, as to each matter the stockholder proposes to bring before the meeting:

the name and address of the stockholder;

the class or series and number of shares of capital stock that are beneficially owned by the stockholder;

a brief description of the business to be brought before the meeting, including the text of any proposed amendment to the certificate of incorporation or bylaws;

a description of all arrangements or understandings between the stockholder and any other persons related to the business proposal;

any material business interests of the stockholder in the business proposal; and

a representation that the stockholder intends to appear in person or by proxy at the meeting to bring the business before the meeting.

Advance Notice Provisions for Stockholder Proposals Other than Election of Directors

Our bylaws provide that a stockholder may bring business before an annual stockholders' meeting if the stockholder is a stockholder on the record date of giving notice and on the record date of the meeting and gives notice to our secretary of business that is proper to be brought at the meeting under Delaware corporate law:

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

no earlier than 120 days or later than 60 days before the anniversary date of the first mailing of proxy materials for the last annual meeting; or

if the annual meeting is more than 30 days before or after the anniversary date of the last annual meeting, we must receive the stockholder's notice no later than the close of business on the 10th day after the earlier of the date on which notice of the annual meeting date was mailed or publicly disclosed.

The notice must include the same information required to be included in a stockholder's notice in connection with requesting a special meeting. See Special Meetings of Stockholders.

S-52

Table of Contents

Advance Notice Provisions for Stockholder Nominations of Directors at an Annual Meeting

Our bylaws provide that a stockholder entitled to vote in the election for directors may nominate a person for election to the board of directors at an annual stockholders' meeting if the stockholder gives notice to our Secretary:

no more than 120 days and no less than 60 days before the anniversary date of the first mailing of proxy materials for the last annual meeting; or

if the annual meeting is more than 30 days before or after the anniversary date of the last annual meeting, we must receive the stockholder's notice no later than the close of business on the 10th day after the earlier of the date on which notice of the annual meeting date was mailed or publicly disclosed.

The notice must include the following:

a description of all arrangements or understandings between the stockholder and the nominee and any other person pursuant to which the nomination is made;

the information regarding the nominee that would have been required to be included in a proxy statement filed under the proxy rules of the SEC if the nominee had been nominated by the board of directors; and

the consent of the nominee to serve as a director if he or she is elected.

Advance Notice Provisions for Stockholder Nominations of Directors at a Special Meeting

Our bylaws provide that a stockholder may nominate a person for election to the board of directors at a special meeting of stockholders if the stockholder gives our secretary notice of the nomination no later than by the close of business on the seventh day after notice of the special meeting is first given to stockholders.

In addition to the information required to be included in a stockholder's notice in connection with a special meeting, the notice must include the same information that would be required to nominate a person for election as a director at an annual meeting. See *Advance Notice Provisions for Stockholder Nominations of Directors at an Annual Meeting*.

Stockholder Action by Written Consent

Under Delaware corporate law, unless otherwise provided in a corporation's certificate of incorporation, any action required or permitted to be taken at an annual or special stockholders' meeting may be taken by written consent, without a meeting, prior notice or a vote. The written consent must be signed by holders of outstanding stock having not less than the minimum number of votes necessary to authorize or take such action at a meeting at which all shares entitled to vote on the matter were present and voted. Dow's certificate of incorporation, however, provides that any action required or permitted to be taken by the stockholders must be taken at a duly called annual or special stockholders' meeting and may not be taken by written consent.

Transactions with Interested Stockholders and a Merger or Sale of Assets

Delaware corporate law requires the approval of the board of directors and a majority of a corporation's outstanding stock entitled to vote to authorize a merger or consolidation. Unless required by a corporation's certificate of incorporation, stockholder approval, however, is not required in certain cases, such as where either:

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

no shares of common stock of the surviving corporation and no shares, securities or obligations convertible into common stock are to be issued or delivered in the merger; or

the authorized and unissued shares or the treasury shares of common stock of the surviving corporation to be issued or delivered in the merger, plus those initially issuable upon conversion of any other

S-53

Table of Contents

shares, securities or obligations to be issued or delivered in the merger, do not exceed 20% of the shares of common stock of the corporation outstanding immediately prior to the effective date of the merger.

A sale of all or substantially all of a Delaware corporation's assets or a voluntary dissolution of a Delaware corporation requires the vote of a majority of the board of directors and a majority of the corporation's outstanding shares entitled to vote on the matter unless the company's certificate of incorporation requires a greater percentage. Our certificate of incorporation does not require a greater percentage.

Delaware corporate law generally defines an interested stockholder as a person, other than the corporation and any direct or indirect majority owned subsidiary of the corporation:

who is

the direct or indirect owner of 15% or more of the outstanding voting stock of the corporation; or

an affiliate or associate of the corporation and was the direct or indirect owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date it asked for determination of its status as an interested stockholder,

and the affiliates and associates of that person.

Delaware corporate law prohibits an interested stockholder from engaging in a business combination with the corporation for three years following the time of becoming an interested stockholder. This three-year waiting period does not apply when:

prior to the time of becoming an interested stockholder, the board of directors approves either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

as a result of becoming an interested stockholder, the stockholder owned, excluding shares owned by directors who are also officers and employee stock plans in which participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer, at least 85% of the outstanding voting stock of the corporation at the time the transaction commenced; or

at or after the time of becoming an interested stockholder, the business combination is approved by the board of directors and authorized at a meeting of stockholders by a vote of at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

These restrictions also do not apply in other circumstances, which are set forth in Section 203 of the Delaware General Corporation Law, including business combinations with an interested stockholder that are proposed after the earlier of a public announcement or the notice required under such section of and prior to the consummation or abandonment of:

certain mergers or consolidations specified in Section 203 of the Delaware General Corporation Law;

sales of 50% or more of the aggregate market value of a corporation's assets or outstanding voting stock; or

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

tender offers or exchange offers for 50% or more of a corporation's voting stock.

Delaware corporate law allows a corporation to specify in its certificate of incorporation or bylaws that it will not be governed by the section relating to transactions with interested stockholders. Dow has not made that election in its certificate of incorporation or bylaws.

PLAN OF DISTRIBUTION

The selling stockholder (including, subject to applicable law, its transferees or successors who receive any shares covered by this prospectus supplement in a non-sale transfer) may sell from time to time shares of our common stock that we are issuing as part of this prospectus supplement. This prospectus supplement covers the selling stockholder's resale of up to 36,698,005 shares of our common stock. We will not receive any of the proceeds from the resale of our common stock by the selling stockholder.

The selling stockholder may allocate or sell the shares of common stock described in this prospectus supplement to Plan participants or sell directly to purchasers or to or through broker-dealers, which may act as agents or principals. In addition, if any shares covered by this prospectus supplement qualify for sale pursuant to Rule 144 under the Securities Act, the selling stockholder may sell such shares under Rule 144 rather than pursuant to this prospectus supplement.

From time to time, the selling stockholder may allocate shares pursuant to the terms of the Plan, or may sell shares of common stock in one or more transactions as follows:

at fixed prices that may be changed;

at market prices prevailing at the time of sale;

at prices related to such prevailing market prices; or

at negotiated prices.

The selling stockholder may offer its shares of common stock in one or more of the following transactions (which may include block trades and crosses):

on any national securities exchange or quotation service on which the common stock may be listed or quoted at the time of sale, including the New York Stock Exchange;

in the over-the-counter market;

in privately negotiated transactions;

through put or call options; or

by a combination of the above methods of sale.

In effecting sales, brokers or dealers engaged by the selling stockholder may arrange for other brokers or dealers to participate in the resales.

The selling stockholder and any underwriters, broker-dealers or agents that participate in the distribution of the shares of common stock may be deemed underwriters within the meaning of the Securities Act. As underwriters, any profits on the resale of the shares of common stock and any compensation to be received by an underwriter, broker-dealer or agent would be deemed underwriting discounts and commissions under the Securities Act. The selling stockholder has represented to us that it is purchasing the common stock in the ordinary course of its business, it is not a party to any agreement or other understanding to distribute the securities, directly or indirectly.

S-55

Table of Contents

To our knowledge, the selling stockholder has not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of the shares, nor is there an underwriter or coordinating broker acting in connection with the proposed sale of shares by the selling stockholder.

Upon our being notified by a selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker-dealer, a supplement to this prospectus supplement will be filed, if required, under Rule 424(b) under the Securities Act, disclosing relevant information regarding such arrangement.

The selling stockholder and any other person participating in a distribution will be subject to the Exchange Act, which may limit the timing of purchases and sales of common stock by the selling stockholder or any such other person. Under Regulation M of the Exchange Act, any person engaged in the distribution of the shares of common stock may not simultaneously engage in market-making activities with respect to the common stock for certain periods prior to the start of the distribution. The foregoing may affect the marketability of the common stock and the ability of any person or entity to engage in market-making activities with respect to the common stock.

S-56

Table of Contents

LEGAL MATTERS

The validity of the shares of common stock has been passed upon for us by Duncan A. Stuart, our Assistant General Counsel Corporate and Financial Law. We are represented by Shearman & Sterling LLP, New York, New York. Certain legal matters relating to the offering will be passed upon for the underwriters by Mayer Brown LLP, Chicago, Illinois. Mayer Brown LLP has from time to time acted as counsel for us and our subsidiaries and may do so in the future.

EXPERTS

The consolidated financial statements, the related financial statement schedule, and the effectiveness of The Dow Chemical Company's internal control over financial reporting incorporated by reference into this prospectus supplement and the accompanying prospectus from our Annual Report on Form 10-K for the year ended December 31, 2008 have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference (which reports (1) express an unqualified opinion on the financial statements and financial statement schedule and include explanatory paragraphs referring to the Company's involvement in litigation related to an agreement to acquire Rohm and Haas Company and relating to a change in the method of accounting for defined benefit pension and other postretirement plans to conform to Statement of Financial Accounting Standards No. 158, and (2) express an unqualified opinion on the effectiveness of internal control over financial reporting). Such financial statements and financial statement schedule have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

The audited historical financial statements of Rohm and Haas Company included as Exhibit 99.1 to our Current Report on Form 8-K/A filed on May 5, 2009 incorporated by reference into this prospectus supplement and the accompanying prospectus have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC under the Exchange Act. You can read and copy any reports, statements or other information we file with the SEC at the SEC's Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information relating to the Public Reference Room. You can also obtain copies of this information by mail from the Public Reference Section of the SEC, 100 F Street, N.E., Washington, D.C. 20549, at prescribed rates.

The SEC also maintains an Internet site that contains reports, proxy statements and other information about issuers, including us, that file electronically with the SEC. The address of that site is <http://www.sec.gov>.

Because our common stock is listed on the New York Stock Exchange, you can also inspect reports, proxy statements and other information about us at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The SEC allows us to incorporate by reference information into this prospectus supplement and the accompanying prospectus. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be a part of this prospectus supplement and the accompanying prospectus, except for any information that is superseded by subsequent incorporated documents or by information that is included directly in this document.

Table of Contents

This prospectus supplement and the accompanying prospectus incorporates by reference our Annual Report on Form 10-K for the year ended December 31, 2008, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 and our Current Reports on Form 8-K or 8-K/A filed with the SEC on January 6, 2009 (two filings), January 26, 2009, February 19, 2009, March 6, 2009, March 9, 2009, March 10, 2009, March 12, 2009, April 1, 2009 (but not with respect to Item 7.01 or Exhibit 99.1), April 7, 2009 (but not with respect to Item 7.01 or Exhibit 99.1), May 5, 2009 and May 11, 2009. These documents contain important information about us and our financial condition.

We also incorporate by reference any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act until we have sold all of the securities to which this prospectus supplement relates. Our subsequent filings with the SEC will automatically update and supersede information in this prospectus supplement and the accompanying prospectus.

You can obtain a copy of any of the documents incorporated by reference into this prospectus supplement or accompanying prospectus at no cost by writing to or telephoning us at the following address and telephone number:

You should rely only on the information contained or incorporated by reference in this prospectus or any supplement. Dow has not authorized anyone else to provide you with different information. Dow is offering these securities only in states where the offer is permitted. You should not assume that the information in this prospectus or any supplement is accurate as of any date other than the date on the front of those documents. Dow's business, financial condition, results of operations and prospects may have changed since that date.

In this prospectus, references to Dow, we, us or our are to The Dow Chemical Company and does not include its subsidiaries, except under the caption The Dow Chemical Company.

Table of Contents**ABOUT THIS PROSPECTUS**

This prospectus is part of a registration statement filed by Dow with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf process, we are registering an unspecified amount of each class of the securities described in this prospectus, and we may sell any combination of the securities described in this prospectus in one or more offerings. In addition, selling security holders may sell securities under our shelf registration statement. This prospectus provides you with a general description of the securities we or any selling security holders may offer. Each time we or any selling security holders sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. If there is any inconsistency between the information in this prospectus and any applicable prospectus supplement, you should rely on the information in the applicable prospectus supplement. You should read both this prospectus and any applicable prospectus supplement, together with additional information described under the heading **Where You Can Find More Information**.

The registration statement containing this prospectus, including the exhibits to the registration statement, provides additional information about us and the securities to be offered. The registration statement, including the exhibits, can be read at the SEC web site or at the SEC offices mentioned under the heading **Where You Can Find More Information**.

THE DOW CHEMICAL COMPANY

Dow is a diversified chemical company that offers a broad range of innovative chemical, plastic and agricultural products and services to customers in more than 175 countries, helping them to provide everything from fresh water, food and pharmaceuticals to paints, packaging and personal care. In 2006, Dow had annual sales of \$49 billion and employed approximately 42,600 people worldwide. Dow has 150 manufacturing sites in 37 countries and supplies more than 3,100 products. Dow's corporate offices are located at 2030 Dow Center, Midland, Michigan 48674, and Dow's telephone number is (989) 636-1000.

Additional information concerning Dow and its subsidiaries is included in the documents filed with the SEC and incorporated in this prospectus by reference. See the discussion under the heading **Where You Can Find More Information**.

USE OF PROCEEDS

Dow expects to use the net proceeds from sales of any securities described in this prospectus for its general corporate purposes, which may include funding capital expenditures, pursuing growth initiatives, whether through acquisitions, joint ventures or otherwise, repaying or refinancing indebtedness or other obligations, and financing working capital. Pending the application of the net proceeds, Dow expects to invest the net proceeds in marketable securities or reduce its short-term indebtedness.

RATIOS OF EARNINGS TO FIXED CHARGES

	Year Ended December 31,				
	2006	2005	2004	2003	2002
Ratio of earnings to fixed charges	6.1x	7.2x	4.3x	2.5x	(1)
Ratio of earnings to combined fixed charges and preferred share dividends	6.1x	7.2x	4.3x	2.5x	(1)

Table of Contents

- (1) As a result of a pretax charge of \$828 million related to Union Carbide Corporation's potential asbestos-related liability and pretax merger-related expenses and restructuring charges of \$280 million, earnings for the year ended December 31, 2002 were inadequate to cover fixed charges, with a deficiency of \$615 million.

For the purpose of these ratios, earnings consist of income before (i) income taxes, (ii) minority interests, (iii) extraordinary items, (iv) cumulative effect of changes in accounting principles, (v) amortization of capitalized interest and (vi) fixed charges (adjusted to exclude capitalized interest) and after adjustment for unremitted earnings of 20% to 50% owned companies. Fixed charges consist of interest on all indebtedness, amortization of capitalized debt costs, discount or premium and a portion of rentals deemed to represent an interest factor.

Because Dow did not have any preferred shares outstanding and therefor paid no preferred share dividends during any of the periods presented, the ratio of earnings to combined fixed charges and preferred share dividends is identical to the ratio of earnings to fixed charges for each of the periods presented.

DESCRIPTION OF CAPITAL STOCK

The following summary of common stock and preferred stock of Dow does not purport to be complete and is subject to, and qualified in its entirety by reference to, the relevant provisions of Delaware law, and by Dow's certificate of incorporation and bylaws, which are incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

Dow is authorized to issue 1,750,000,000 shares of all classes of stock, 1,500,000,000 of which are shares of common stock, par value \$2.50 per share, and 250,000,000 of which are shares of preferred stock. As of January 31, 2007, there were 959,167,793 shares of common stock issued and outstanding and no shares of preferred stock issued or outstanding. All issued and outstanding shares of common stock are fully paid and non-assessable. Any additional shares of common stock and preferred stock that Dow issues pursuant to this prospectus will be fully paid and non-assessable. Neither Dow's common stockholders nor preferred stockholders have preemptive rights.

Common Stock

General

Dow's certificate of incorporation provides that, subject to all of the rights of holders of preferred stock provided for by the board of directors or by Delaware corporate law, the holders of common stock will have full voting rights on all matters requiring stockholder action, with each share of common stock being entitled to one vote and having equal rights of participation in the dividends and assets of Dow.

Board of Directors

Dow's certificate of incorporation provides that all of Dow's directors are elected each year at Dow's annual meeting for a term of one year and until his or her successor is duly elected and qualified. A quorum of directors consists of a majority of Dow's entire board of directors then holding office.

Number, Filling of Vacancies and Removal of Directors

Dow's certificate of incorporation and bylaws provide that its board of directors may not have less than six or more than twenty-one members. The actual number of directors is determined by a vote of a majority of Dow's entire board of directors. Currently, Dow has twelve members on its board of directors. Vacancies on Dow's board of directors and any newly created directorships are filled by a vote of the majority of the other

Table of Contents

directors then in office. Directors elected to fill a vacancy or a new position hold office until the next annual meeting of stockholders. Directors can be removed only for cause and only by the vote of stockholders holding 80% of the voting power of Dow's outstanding stock entitled to vote generally in the election of directors, voting together as a single class.

Dividends

Delaware corporate law generally provides that a corporation, subject to restrictions in its certificate of incorporation, including preferred stockholders' rights to receive dividends prior to common stockholders, may declare and pay dividends out of:

surplus; or

net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year, if there is no surplus.

Dividends may not be paid out of net profits if the capital of the corporation is less than the aggregate amount of capital represented by the issued and outstanding stock of all classes having a preference on the distribution of assets. Dividends on Dow common stock are not cumulative. Dow's certificate of incorporation does not contain any additional restrictions on the declaration or payment of dividends.

Preferred Stock

Dow's board of directors is authorized, subject to Delaware corporate law and without a vote of its stockholders, to issue shares of preferred stock from time to time in one or more series and to determine the voting rights, designations, preferences and relative, participating, optional or other special rights and qualifications, limitations and restrictions of any series of preferred stock. The prospectus supplement relating to an offering of shares of Dow's preferred stock will describe the terms of the series of preferred stock Dow is offering.

The rights of holders of the common stock and/or the preferred stock offered may be adversely affected by the rights of holders of any shares of preferred stock that may be issued in the future. Shares of preferred stock issued by Dow may have the effect of rendering more difficult or discouraging an acquisition of Dow deemed undesirable by the board of directors of Dow.

Any shares of preferred stock will be, when issued, fully paid and non-assessable. Holders of preferred stock will not have any preemptive or subscription rights to acquire more stock of Dow.

The transfer agent, registrar, dividend disbursing agent and redemption agent for shares of each series of preferred stock will be named in the prospectus supplement relating to such series.

Rank

Unless otherwise specified in connection with a particular offering of preferred stock, such shares will rank on an equal basis with each other series of preferred stock and prior to the common stock as to dividends and distributions of assets.

Dividends

Holders of each series of preferred stock will be entitled to receive cash dividends when, as and if declared by Dow's board of directors out of funds legally available for dividends. The rates and dates of payment of dividends will be set forth in the prospectus supplement relating to each series of preferred stock. Dividends will be payable to holders of record of preferred stock as they appear on Dow's books or, if applicable, the records of the depositary referred to below under "Description of Depositary Shares," on the record dates fixed by Dow's board of directors. Dividends on a series of preferred stock may be cumulative or non-cumulative.

Table of Contents

Dow may not declare, pay or set apart for payment dividends on the preferred stock unless full dividends on other series of preferred stock that rank on an equal or senior basis have been paid or sufficient funds have been set apart for payment for:

all prior dividend periods of other series of preferred stock that pay dividends on a cumulative basis; or

the immediately preceding dividend period of other series of preferred stock that pay dividends on a non-cumulative basis.

Partial dividends declared on shares of preferred stock and each other series of preferred stock ranking on an equal basis as to dividends will be declared pro rata. A pro rata declaration means that the ratio of dividends declared per share to accrued dividends per share will be the same for each series of preferred stock.

Similarly, Dow may not declare, pay or set apart for payment non-stock dividends or make other payments on the common stock or any other stock of Dow ranking junior to the preferred stock until full dividends on the preferred stock have been paid or set apart for payment for:

all prior dividend periods if the preferred stock pays dividends on a cumulative basis; or

the immediately preceding dividend period if the preferred stock pays dividends on a non-cumulative basis.

Conversion and Exchange

The prospectus supplement for a series of preferred stock will state the terms, if any, on which shares of that series are convertible into or exchangeable for shares of Dow's common stock.

Redemption

If so specified in the applicable prospectus supplement, a series of preferred stock may be redeemable at any time, in whole or in part, at Dow's option or the holder thereof and may be mandatorily redeemed.

Any partial redemptions of preferred stock will be made in a way that Dow's board of directors decides is equitable.

Unless Dow defaults in the payment of the redemption price, dividends will cease to accrue after the redemption date on shares of preferred stock called for redemption, and all rights of holders of such shares will terminate except for the right to receive the redemption price.

Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding up of Dow, holders of each series of preferred stock will be entitled to receive distributions upon liquidation in the amount set forth in the prospectus supplement relating to such series of preferred stock, plus an amount equal to any accrued and unpaid dividends. Such distributions will be made before any distribution is made on any securities ranking junior relating to liquidation, including common stock.

If the liquidation amounts payable relating to the preferred stock of any series and any other securities ranking on a parity regarding liquidation rights are not paid in full, the holders of the preferred stock of such series and such other securities will share in any such distribution of available assets of Dow on a ratable basis in proportion to the full liquidation preferences. Holders of such series of preferred stock will not be entitled to any other amounts from Dow after they have received their full liquidation preference.

Table of Contents

Voting Rights

The holders of shares of preferred stock will have no voting rights except:

as otherwise stated in the prospectus supplement;

as otherwise stated in the certificate of designation establishing such series; and

as required by applicable law.

Selected Provisions in Dow's Certificate of Incorporation and Bylaws

Dow's certificate of incorporation and bylaws contain a number of provisions that could have the effect of prohibiting or delaying a third party's ability to take control of Dow.

Special Meetings of Stockholders

Dow's bylaws provide that a special stockholders' meeting for any purpose may be called only by the board of directors by a resolution adopted by a majority of the entire board:

upon motion of a director; or

upon written request of stockholders holding at least 50% of the voting power of the shares of capital stock outstanding and entitled to vote generally in the election of directors.

Stockholder notices requesting a special meeting must be given to Dow's Secretary. The notice must include, as to each matter the stockholder proposes to bring before the meeting:

the name and address of the stockholder;

the class or series and number of shares of capital stock that are beneficially owned by the stockholder;

a brief description of the business to be brought before the meeting, including the text of any proposed amendment to the certificate of incorporation or bylaws;

a description of all arrangements or understandings between the stockholder and any other persons related to the business proposal;

any material business interests of the stockholder in the business proposal; and

a representation that the stockholder intends to appear in person or by proxy at the meeting to bring the business before the meeting.

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

Advance Notice Provisions for Stockholder Proposals Other than Election of Directors

Dow's bylaws provide that a stockholder may bring business before an annual stockholders' meeting if the stockholder is a stockholder on the record date of giving notice and on the record date of the meeting and gives notice to Dow's Secretary of business that is proper to be brought at the meeting under Delaware corporate law:

no earlier than 120 days or later than 60 days before the anniversary date of the first mailing of proxy materials for the last annual meeting; or

if the annual meeting is more than 30 days before or after the anniversary date of the last annual meeting, Dow must receive the stockholder's notice no later than the close of business on the 10th day after the earlier of the date on which notice of the annual meeting date was mailed or publicly disclosed.

The notice must include the same information required to be included in a stockholder's notice in connection with requesting a special meeting. See Special Meetings of Stockholders.

Table of Contents

Advance Notice Provisions for Stockholder Nominations of Directors at an Annual Meeting

Dow's bylaws provide that a stockholder may nominate a person for election to the board of directors at an annual stockholders' meeting if the stockholder gives notice to Dow's Secretary:

no more than 120 days and no less than 60 days before the anniversary date of the first mailing of proxy materials for the last annual meeting; or

if the annual meeting is more than 30 days before or after the anniversary date of the last annual meeting, Dow must receive the stockholder's notice no later than the close of business on the 10th day after the earlier of the day on which notice of the annual meeting date was mailed or publicly disclosed.

The notice must include the following:

a description of all arrangements or understandings between the stockholder and the nominee and any other person pursuant to which the nomination is made;

the information regarding the nominee that would have been required to be included in a proxy statement filed under the proxy rules of the SEC if the nominee had been nominated by the board of directors;

the consent of the nominee to serve as a director if he or she is elected; and

the information required to be included in a stockholder's notice in connection with requesting a special meeting. See the section of this prospectus captioned "Special Meetings of Stockholders."

Advance Notice Provisions for Stockholder Nominations of Directors at a Special Meeting

Dow's bylaws provide that a stockholder may nominate a person for election to the board of directors at a special meeting of stockholders if the stockholder gives Dow's Secretary notice of the nomination no later than the close of business on the seventh day after notice of the special meeting is first given to stockholders.

In addition to the information required to be included in a stockholder's notice in connection with a special meeting, the notice must include the same information that would be required to nominate a person for election as a director at an annual meeting. See "Advance Notice Provisions for Stockholder Nominations of Directors at an Annual Meeting."

Stockholder Action by Written Consent

Under Delaware corporate law, unless otherwise provided in a corporation's certificate of incorporation, any action required or permitted to be taken at an annual or special stockholders' meeting may be taken by written consent, without a meeting, prior notice or a vote. The written consent must be signed by holders of outstanding stock having the minimum number of votes necessary to authorize or take such action at a meeting at which all shares entitled to vote on the matter were present and voted. Dow's certificate of incorporation, however, provides that any action required or permitted to be taken by the stockholders must be taken at a duly called annual or special stockholders' meeting and may not be taken by written consent.

Transactions with Interested Stockholders and a Merger or Sale of Assets

Delaware corporate law requires the approval of the board of directors and a majority of a corporation's outstanding stock entitled to vote to authorize a merger or consolidation unless the company's certificate of incorporation requires a greater percentage. Unless required by a

Edgar Filing: DOW CHEMICAL CO /DE/ - Form 424B5

corporation's certificate of incorporation, stockholder approval, however, is not required in certain cases, such as where either:

no shares of common stock of the surviving corporation and no shares, securities or obligations convertible into common stock are to be issued or delivered in the merger; or

Table of Contents

the authorized and unissued shares or the treasury shares of common stock of the surviving corporation to be issued or delivered in the merger, plus those initially issuable upon conversion of any other shares, securities or obligations to be issued or delivered in the merger, do not exceed 20% of the shares of common stock of the corporation outstanding immediately prior to the effective date of the merger.

A sale of all or substantially all of a Delaware corporation's assets or a voluntary dissolution of a Delaware corporation requires the vote of a majority of the board of directors and a majority of the corporation's outstanding shares entitled to vote on the matter unless the company's certificate of incorporation requires a greater percentage. Dow's certificate of incorporation does not require a greater percentage, except as described below.

Delaware corporate law generally defines an interested stockholder as a person, other than the corporation and any direct or indirect majority owned subsidiary of the corporation:

who is the direct or indirect owner of 15% or more of the outstanding voting stock of the corporation; or

is an affiliate or associate of the corporation and was the direct or indirect owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date it asked for determination of its status as an interested stockholder; and

the affiliates and associates of that person.

Delaware corporate law prohibits an interested stockholder from engaging in a business combination with the corporation for three years following the time of becoming an interested stockholder. This three-year waiting period does not apply when:

prior to the time of becoming an interested stockholder, the board of directors approves either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

as a result of becoming an interested stockholder, the stockholder owned, excluding shares owned by directors who are also officers and employee stock plans in which participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer, at least 85% of the outstanding voting stock of the corporation at the time the transaction began; or

at or after the time of becoming an interested stockholder, the business combination is approved by the board of directors and authorized at a meeting of stockholders by a vote of at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

These restrictions also do not apply in other circumstances, which are set forth in Section 203 of the Delaware General Corporation Law, including business combinations with an interested stockholder that are proposed after a public announcement of and prior to the consummation or abandonment of:

certain mergers or consolidations specified in Section 203 of the Delaware General Corporation Law;

sales of 50% or more of the aggregate market value of a corporation's assets or outstanding voting stock; or
