**FOR IMMEDIATE RELEASE**

**ONCOLYTICS BIOTECH ANNOUNCES 2002 THIRD QUARTER RESULTS**

**CALGARY, AB, November 20, 2002** Oncolytics Biotech Inc. ( Oncoylitics ) (TSX:ONC, NASDAQ:ONCY) today announced its financial results for the three and nine-month periods ending September 30, 2002.

**Third Quarter Highlights:**

Continued the enrollment process for two human trials for REOLYSIN®:

a T2 prostate cancer trial; and,

a Phase I/II trial for recurrent malignant glioma (brain cancer);

Commenced and successfully completed a key systemic toxicology study in primates; and

Secured a fifth U.S. patent covering REOLYSIN® technology.

During the quarter, we further advanced the development of REOLYSIN® through our focused clinical program, said Dr. Brad Thompson, President and CEO of Oncolytics. In addition, we made progress in preparing for a systemic administration clinical trial for REOLYSIN®, and secured a fifth U.S. patent, further protecting our intellectual property.

Subsequent to the quarter end, we also strengthened our Board and senior management team with two key appointments. Dr. George Gill joined the Company as Senior VP, Clinical and Regulatory Affairs, and Dr. William A. Cochrane, O.C., was appointed to our Board of Directors, said Dr. Thompson. These two appointments add significant depth to our management team and Board of Directors.

**Financial Review**

For the three months ended September 30, 2002, the Company reported a net loss of \$1,989,883 or \$.09 per share compared to a net loss of \$2,445,661 or \$.13 per share for the same period in 2001. For the nine months ended September 30, 2002, the Company reported a net loss of \$4,549,302 or \$.23 per share compared to a net loss of \$4,815,725 or \$.27 per share for the corresponding period a year ago.

As its products are still under development, the Company reported no revenue for either period, other than revenue derived from interest earned on its cash and investment balances. For the three months ended September 30, 2002, interest earned was \$52,799, as compared to \$160,587 for the same period a year ago. For the first nine months of 2002, interest earned was \$164,416, compared to \$564,529 for the first nine months of 2001. The decreases are primarily attributable to the relative decrease in cash balances in these periods.

Research and development expenses were \$1,621,500 for the three months ended September 30, 2002, and \$3,196,218 for the nine months ended September 30, 2002, as compared to \$2,041,166 for the three months ended September 30, 2001 and \$3,627,111 for the nine months ended September 30,

## **Table of Contents**

2001. The differences in 2002 over 2001 are primarily attributable to a \$1.0 million milestone payment to founding shareholders recorded in the third quarter of 2001 without a similar cost in the third quarter of 2002, reductions arising from the conclusion of the Phase I human clinical trial and reduced activity in process development. This was partially offset by the increased activity in the quarter resulting from the commencement of the prostate and glioma trials, and a key systemic toxicology study.

Operating expenses were \$444,982 for the three months ended September 30, 2002 and \$1,585,955 for the nine months ended September 30, 2002, as compared to \$427,209 for the three months ended September 30, 2001, and \$1,446,801 for the nine months ended September 30, 2001. The increase is due to increased costs directly attributable to increased legal and insurance costs and other activities supporting the Company's communications and filing requirements.

Amortization for the three months ended September 30, 2002 increased to \$146,200 from \$119,536 for the same period in 2001. The increase was primarily due to increased assets, primarily patent costs, subject to amortization.

As at September 30, 2002, the Company's cash balance was \$7,746,242 and working capital was \$7,207,134, as compared to a cash balance of \$14,970,756 and working capital of \$12,769,203 as at December 31, 2001.

### **About Oncolytics Biotech Inc.**

Oncolytics is a Calgary-based biotechnology company focused on the development of REOLYSIN®, its proprietary formulation of the human reovirus, as a potential cancer therapeutic. Oncolytics' researchers have demonstrated that the reovirus is able to selectively kill human cancer cells *in vitro* that are derived from many types of cancer, including breast, prostate, pancreatic and brain tumours, and have also demonstrated successful cancer treatment results in a number of animal models. Phase I clinical trial results have indicated that there were no toxicology-related issues with the administration of the reovirus, and that the reovirus demonstrated activity in tumours injected with REOLYSIN®. The company is currently conducting a T2 prostate cancer study, and a Phase I/II recurrent malignant glioma (brain cancer) study.

This press release contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including expectations as to progress in the clinical trial program and the Company's belief as to the potential of REOLYSIN® as a cancer therapeutic, involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue Research and Development projects, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN®, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements.
