## PARK ELECTROCHEMICAL CORP. REPORTS DEATH OF CO-FOUNDER AND DIRECTOR ANTHONY CHIESA

Melville, New York, February 4, 2008...Park Electrochemical Corp. (NYSE-PKE) reported that Anthony Chiesa, a Director of the Company since its founding, died on January 30, 2008. Mr. Chiesa was a founder of the Company with Jerry Shore in 1954 and had been a Director since that time and had served as Vice President of the Company from 1954 to 1977.

Brian Shore, Park Electrochemical Corp. s President and CEO, said, Tony Chiesa was one of the kindest and most decent and honest people I have ever met in my life. In a world where real friends are few and loyalty is not honored or respected, Tony was a true friend to Park from its very first day in existence. And to me personally, Tony was family. I have known Tony as family since I was a small child. Board meetings will not be the same without Tony sitting there to my left. I will miss Tony very much, and I will never forget him. Our condolences go out to Tony s wife and family.

Park Electrochemical Corp. is a global advanced materials company which develops and manufactures high-technology digital and RF/microwave printed circuit materials (the Nelco® product line) and advanced composite materials (the Nelcote<sup>TM</sup> product line) principally for the telecommunications and internet infrastructure, high-end computing and aerospace markets. Park focuses on the general aviation aircraft segment of the aerospace market. Park s core capabilities are in the areas of polymer chemistry formulation and coating technology. The Company s manufacturing facilities are located in Singapore, China, France, Connecticut, New York, Arizona and California. In addition, the Company is in the process of constructing a new development and manufacturing facility in Newton, Kansas.

Additional corporate information is available on the Company s website at www.parkelectro.com.
