Note Regarding Forward-looking Statements

This Form 10-QSB for the quarter ended March 31, 2007, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), including statements regarding, among other items, our growth strategies, anticipated trends in our business and our future results of operation, market conditions in the research and development industry and the impact of governmental regulation. These forward-looking statements are based largely on our expectations and are subject to a number of risks and uncertainties, many of which are beyond our control. Actual results could differ materially from these forward-looking statements as a result of, among other things:

- Our ability to raise capital
- Our ability to sell our products
- Our ability to retain and attract experienced and knowledgeable personnel; and
- Our ability to compete in the renewable energy industry

In addition, the words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” and similar expressions they relate to us, our business or our management, are intended to identify forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-QSB. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this Form 10-QSB may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through March 31, 2007

NOTE 1 - Basis of Presentation

The unaudited financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim reporting, and in the opinion of management reflect all adjustments, including those of a normal recurring nature, that are necessary for a fair presentation of financial position and results of operations for the interim periods presented. As permitted under those requirements, certain footnotes or other financial information that are normally required by accounting principles generally accepted in the United States of American have been condensed or omitted. As used herein, the terms "Trulite," "the Company," "we," "our" and "us" refer to Trulite, Inc.

For further information, refer to the financial statements and footnotes included in our Annual Report on Form 10-KSB for the year ended December 31, 2006. Interim results are not necessarily indicative of results to be expected for the full fiscal year ending December 31, 2007. Certain reclassifications have been made to conform prior period amounts to the current period presentation. These reclassifications had no effect on net loss or stockholders deficit.

The Company from inception (July 15, 2004) through March 31, 2007, did not have significant revenues. The Company has no significant operating history as of March 31, 2007. The accompanying financial statements have been prepared assuming the Company will continue as a going concern. From inception (July 15, 2004) through March 31, 2007, management has raised additional equity and debt financing to fund operations and to provide additional working capital. However, there is no assurance that future such financing will be in amounts sufficient to meet the Company's needs.

New Accounting Pronouncements:

In February 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 155, "Accounting for Certain Hybrid Financial Instruments." SFAS No. 155 provides entities with relief from having to separately determine the fair value of an embedded derivative that would otherwise have to be bifurcated from its host contract in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 155 allows an entity to make an irrevocable election to measure such a hybrid financial instrument at fair value in its entirety, with changes in fair value recognized in earnings. SFAS No. 155 was effective for the Company for all financial instruments acquired, issued or subject to a remeasurement event occurring after January 1, 2007. The adoption of SFAS No. 155 did not have an impact on the Company's financial statements as the Company has no hybrid financial instruments.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Serving of Financial Assets an Amendment to FASB Statement No. 140." SFAS No. 156 requires entities to recognize a servicing asset or liability each time they undertake an obligation to service a financial asset by entering into a servicing contract in certain situations. This statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value and permits a choice of either the amortization or fair value measurement method for subsequent measurements. SFAS No. 156 was effective for the Company January 1, 2007. This pronouncement did not have an impact on the Company's financial statements as it does not have any servicing contracts.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value and applies to other accounting pronouncements that require or permit fair value measurements and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting SFAS No. 157

on its financial statements.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting For Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106 and 132(R)." The standard requires companies to recognize the funded status (plan obligations less the fair value of plan assets) of pension and other postretirement benefit plans on their balance sheets, effective for fiscal years ending after December 15, 2006. The statement will also require fiscal year-end measurements of plan assets and benefit obligations, effective for fiscal years ending after December 15, 2008. SFAS No. 158 will have no effect on the Company's financial statements, as the Company does not maintain defined benefit pension or other postretirement plans.

-8-

Trulite, Inc. (a Development Stage Company)**Notes to Financial Statements****As of and for the Period from Inception (July 15, 2004) Through March 31, 2007**

In September 2006, the SEC issued Staff Accounting Bulletin ("SAB") No. 108, to address diversity in practice in quantifying financial statement misstatements and the potential for the build up of improper amounts on the balance sheet. SAB No. 108 identifies the approach that registrants should take when evaluating the effects of unadjusted misstatements on each financial statement, the circumstances under which corrections of misstatements should result in a revision to financial statements, and disclosures related to the correction of misstatements. SAB No. 108 was effective for the Company on January 1, 2007, but had no effect on the Company's financial statements.

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities," which permits the choice to measure certain financial assets and liabilities at their fair value at specified election dates. The new standard is effective for the Company on January 1, 2008, unless early adoption is elected. The Company does not expect the new standard to have a material impact on its financial position or results of operation.

NOTE 2 - Stock-Based Compensation

The Company has granted options to purchase common stock to employees, consultants and outside directors under the Trulite, Inc. Stock Option Plan, as amended and restated (the "Plan"). A total of 3,110,805 shares are reserved for issuance and, as of March 31, 2007, 765,841 shares remained available for grant under the Plan.

For the three month period ended March 31, 2007, total stock-based compensation expense recognized was \$37,211. The compensation expense related to the three month period ended March 31, 2006 was not significant. The total unrecognized compensation cost at March 31, 2007, relating to non-vested share-based compensation arrangements granted under the Plan, was \$544,392. That cost is expected to be recognized over four years, with a weighted average period of 3.2 years.

There were no additional options granted during the three month period ended March 31, 2007. During the three months ended March 31, 2006, the Company granted options to purchase 5,000 shares of common stock under the Plan. The exercise price of these options was \$0.88 per common share, whereas the fair value of a share of common stock on the date of grant was \$0.18, and the options vest over four years and have a contractual live of seven years. The fair value of these options was based upon the weighted average assumptions noted below:

Risk free rate	4.30%
Expected life (in years)	4.8
Expected volatility	71%
Expected dividends	-
Fair value	\$ 0.05

The Company estimates the fair value of stock options under SFAS No. 123R at the date of grant using a Black-Scholes-Merton valuation model. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The expected term (estimated period of time outstanding) of option grants is based on the "simplified" method of estimating expected term for "plain vanilla" options allowed by SEC Staff Accounting Bulletin No. 107, and varies based on the vesting period and contractual term of the option. Expected volatility has historically been based on an evaluation of similar companies' trading activity. The Company has not issued any cash dividends on its common stock.

NOTE 5 - Income taxes

Since inception, the Company has incurred net operating losses and, accordingly, no provision for current income taxes has been recorded in these financial statements. In addition, no benefit for income taxes has been recorded in respect of the net deferred tax assets as management believes it is more likely than not that the deferred tax assets will not be fully realizable. Accordingly, the Company has provided for a full valuation allowance against its net deferred tax assets at March 31, 2007 and December 31, 2006.

In June 2006, the FASB issued FASB Interpretation No.48, "Accounting for Uncertainty in Income Taxes-an interpretation of SFAS No.109". The interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through March 31, 2007

The Company adopted the provisions of FIN 48 on January 1, 2007. After application of the provisions of FIN 48, it was not necessary for the Company to recognize any liability for unrecognized tax benefits or adjustment to the balance of retained earnings as of January 1, 2007. The Company's policy is to classify interest and penalties related to unrecognized tax benefits in income tax expense. As of January 1, 2007, the Company had no accrued interest and penalties related to unrecognized tax benefits. As of January 1, 2007, after the implementation of FIN 48, the Company's unrecognized tax benefits were \$0. The amount, if recognized, that would affect the effective tax rate is \$0.

The Company files an income tax return in the U.S. federal jurisdiction. For federal tax purposes, the Company's 2004 through 2006 tax years remain open for examination by the tax authorities under the normal three year statute of limitations. The adoption of FIN 48 on January 1, 2007 did not have a material effect on the Company's results of operations or financial condition.

NOTE 6 - Research and Development Costs

Expenditures for research activities relating to product development and improvement are charged to expense as incurred. Such expenditures amounted to \$417,867 and \$148,546 for the quarters ended March 31, 2007 and 2006, respectively.

NOTE 7 - Series A Preferred Stock

In May 2006, all of the Company's 8% Cumulative Convertible Series A Preferred Stock was converted into the Company's common stock.

The 8% Cumulative Convertible Series A Preferred Stock ("Series A Preferred Stock") had a liquidation value of \$1.00 per share plus dividends whether or not earned or declared from the issuance date thereof at the annual rate of eight percent (8%) (the "Preferred Dividends") of \$1.00 per share (the "Original Issue Price"), payable at the option of the Company in cash or in shares of Series A Preferred Stock. In addition, the Preferred Stock had preferential treatment in liquidation to all Common Stock and any other stock of the Company ranking junior to the Series A Preferred Stock. Accretion of cumulative dividends outstanding on these shares was \$29,095 during the three months ended March 31, 2006.

NOTE 8 - Notes Payable

On February 6, 2007, the Company incurred indebtedness of \$600,000 pursuant to the terms of two promissory notes. Under the terms of the first promissory note, the Company borrowed \$240,000 from Contango Venture Capital Corporation, LLC ("CVCC") which beneficially owns approximately 17.0% of the Company's common stock. Under the terms of the second promissory note, the Company borrowed \$360,000 from Standard Renewable Energy Group, LLC, ("SREG"). SREG owns NewPoint Energy Solutions, LP ("NewPoint"), the owner of approximately 45.2% of the Company's common stock. Both notes bear interest at a rate of 11.25% until August 6, 2007, at which time the rate will become the prime rate plus 3%. Both notes mature on October 31, 2007, and may be prepaid by the Company at any time without penalty.

NOTE 9 - Stockholders' Equity

On February 22, 2007, the Company's Board of Directors agreed to extend the term of the warrants, until April 13, 2008, that were issued April 2006 in connection with the issuance of common stock for cash consideration of \$1.00

per share. These warrants entitled the holders to purchase an additional 1,000,000 shares of common stock of the Company at an exercise price of \$1.50 per common share that were originally set to expire on April 13, 2007. A difference of \$104,880 in the fair value of these warrants after modification, when compared to their fair value immediately prior to the modification, was recorded as a deemed dividend in the first quarter of 2007.

NOTE 10 - Commitments and Related Party Transactions

Leases

Rent expense during the three months ended March 31, 2007 and 2006, was \$14,043 and \$2,915, respectively. Rent expense is included in general and administrative expenses in the accompanying statements of operations.

As of March 31, 2007, total future rental commitments under operating leases (all of which expire in 2007) total approximately \$21,870.

Interest

During the three months ended March 31, 2007, the Company incurred interest expense of \$23,062, \$18,891, and \$3,516 related to outstanding promissory notes with SREG, CVCC and Standard Renewable Energy, LP, a wholly owned subsidiary of SREG, respectively. No promissory notes were outstanding during the first quarter of 2006.

Other

The Company had employment agreements with certain employees that expire during 2007, under which the committed obligations totaled \$216,250 at March 31, 2007.

During the three months ended March 31, 2007, SREG billed the Company \$96,948 for management and administrative services.

NOTE 12 - Subsequent Events

On April 4, 2007, the Company entered into a consulting agreement with the Fenway Advisory Group ("Fenway Consulting Agreement") for the following services: (i) identification of potential investors; (ii) general consulting advice regarding financing strategies; and (iii) general consulting advice regarding the Company's business. The agreement terminates on May 31, 2007. In exchange for these services, the Company issued to Fenway 150,000 shares of common stock and warrants having a five year term to purchase 100,000 shares of common stock at an exercise price of \$3.00 per share. Effective May 11, 2007, the Fenway Consulting Agreement dated April 4, 2007, was terminated by the Company. Around May 11, 2007, Fenway Advisory Group informed a consultant to the Company that Fenway Advisory Group would not be able to provide the services described in the Fenway Consulting Agreement, so on May 11, 2007, the Company terminated the Fenway Consulting Agreement without issuing to Fenway Advisory Group any shares of common stock or warrants to purchase common stock. No early termination penalties were incurred by the Company in connection with termination of the Fenway Consulting Agreement.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through March 31, 2007

On April 5, 2007, the Company entered into agreements with SREG, Standard Renewable Energy, LP, and CVCC regarding the exchange of all of the Company's outstanding promissory notes aggregating \$1,850,000 in principal amount for shares of the Company's common stock. Under each of these agreements, the Company and the holder of the note agreed that on the third business day following the last of the first ten trading days on which the Company's common stock has been traded on the Over the Counter Bulletin Board, all principal and accrued but unpaid interest on the notes would be canceled, and in consideration of cancellation the Company would issue to the holder of the notes in a private transaction a number of shares of the Company's common stock determined by multiplying 2 times the quotient of (x) the aggregate principal balance of and accrued but unpaid interest on the notes as of the close of business on the day before such issuance divided by (y) the average closing sale price for the Company's common stock as quoted on the Over the Counter Bulletin Board for the first ten trading days. March 31, 2007, accrued but unpaid interest on the notes aggregated \$45,469.

On April 24, 2007, the Company and SREG, Standard Renewable Energy, LP and CVCC each amended their agreed upon agreement to exchange of all of the Company's outstanding promissory notes aggregating \$1,850,000 in principal amount for shares of the Company's common stock such that said exchange would not occur until the last to occur of; (i) the first business day following the filing by Company with the State of Delaware of a Certificate of Amendment to the Certificate of Incorporation of the Company to reflect an increase in the number of authorized shares of common stock to 50,000,000; (ii) the third business day following the last of the first ten (10) trading days on which the Company's common stock has traded on the Over the Counter Bulletin Board; or (iii) the first business day following the date on which the Company first has outstanding 13,785,491 shares of common stock.

On August 9, 2006, the Company incurred indebtedness of \$250,000 pursuant to the terms of two promissory notes. Under the terms of the first promissory note, the Company borrowed \$125,000 from CVCC. Under the terms of the second promissory note, the Company borrowed \$125,000 from Standard Renewable Energy, LP. Both notes bore interest at a rate of 11.25% and were to be repaid on May 1, 2007. In connection with the agreement noted above to convert all of the outstanding notes, plus accrued and unpaid interest, into shares of the Company's common stock, each of the Company, CVCC and Standard Renewable Energy, LP agreed to extend the maturity date of these two notes to June 30, 2007.

Item 2. Management's Discussion and Analysis and Plan of Operation

The following Management's Discussion and Analysis and Plan of Operation highlights the principal factors that have affected the Company's financial condition and results of operations as well as the Company's liquidity and capital resources for the periods described and should be read in conjunction with our unaudited financial statements for the three months ended March 31, 2007, with their explanatory notes included as part of this Form 10-QSB, and our Management's Discussion and Analysis and Plan of Operation for the twelve months ended December 31, 2006 included in our Form 10-KSB.

Overview and Plan of Operation

Trulite is engaged in the development and production of portable and stationary products that produce hydrogen for the generation of electricity for commercial and consumer markets. Our strategy is to leverage the Company's unique hydrogen source and control technology to develop fuel cell products to address end-user applications in three identified markets: Industrial Remote Monitoring; Back-up Power Generation; and Recreational Off-Site uses.

The Company is a development stage company and, as such, has not had any meaningful revenues and has accumulated a deficit since its inception on July 15, 2004. From July 15, 2004 through December 31, 2004, the Company had \$1,750 in sales. For the years ended December 31, 2005 and 2006, the Company had revenue of \$16,667 and \$8,333, respectively. For the three months ended March 31, 2007, the Company had no sales. We estimate that we will begin to have commercially viable products resulting from the ongoing research and development and product development by the fourth quarter of 2007. Research and development expenditures will be made to further enhance the performance of the hydrogen fuel sources, to develop the electronics that control the process to generate electricity, to improve the performance of the fuel cells and other components, to increase the electrical output of the products and to test the performance and reliability of the products. Since our inception, we have spent \$2,684,406 in research and development, including \$417,867 in the first quarter of 2007, and anticipate that we will spend at least \$2.0 million during 2007, prior to having the first products commercially available. We will have ongoing research and development expenditures for the foreseeable future as products are developed for new applications and markets. The timing, amount and success of the research and development and manufacturing estimates are dependent on a number of factors that are difficult to project, including but not limited to the availability of qualified people, the success of the technologies under development, the cost to implement technologies, the cost of the product, the requirements of the marketplace, regulatory requirements, the availability of funds, and other factors.

We do not currently have sufficient capital to fully execute our business plan and we anticipate the need to raise additional capital to develop, promote, and distribute our product. Historically, our activities have been funded through a combination of common and preferred stock issuances and loans from existing investors. Our current financial plans require us to secure between \$2.0 million and \$5.0 million in 2007. Additional funding may be raised through public or private, equity or debt financings. Additional funding may not be available under favorable terms, if at all. If adequate funds are not available, we may be required to curtail operations significantly or to obtain funds on terms not as favorable as we would hope.

Results of Operations

The following table summarizes our results of operations for the three months ended March 31, 2007 and 2006:

	Three Months Ended March 31,

Revenues

For the three months ended March 31, 2007, revenues totaled zero versus \$8,333 for the same period ended March 31, 2006.

Gross profit

For the three months ended March 31, 2007, the Company had no gross profit versus \$2,421 for the same period ended March 31, 2006.

Operating expenses

For the three months ended March 31, 2007, as compared to 2006, operating expenses increased by \$513,032. Operating expenses were \$895,099 for the three month period ended March 31, 2007, as compared to \$382,067 for the period ending March 31, 2006. Research and development expenses increased to \$417,867 for the three month period

ended March 31, 2007, as compared to \$148,546 for the corresponding prior year period. This increase was due to a scale up of research and development of the KH-4X 150-watt power system, as compared to the first quarter of 2006 when there was only a small development team supporting an early stage design. Depreciation expense increased \$2,922 for the three months ended March 31, 2007, compared to the corresponding prior year period. This increase was due to additions of equipment purchased for research and development. General and administrative costs increased to \$471,590 for the three months ended March 31, 2007, as compared to \$230,801 for the corresponding prior period in 2006, primarily due to legal, accounting and administrative charges.

Loss from Operations

Operating losses were \$895,099 for the three months ended March 31, 2007, as compared to operating losses of \$379,646 for the three months ended March 31, 2006, due to the increases in operating expenses noted above.

Other Income (Expense)

Other income (expense) for the three months ended March 31, 2007, totaled a loss of \$43,808, a decrease from the \$412 of other income for the three months ended March 31, 2006, primarily due to interest expense on outstanding borrowings.

Net Loss

Net loss for the three months ended March 31, 2007, was \$938,907 as compared to \$379,234 for the three months ended March 31, 2006. The net loss was primarily due to increased operating expenses as noted above.

Cash position and sources and uses of cash

Our cash position at March 31, 2007, was \$156,126 as compared to \$275,957 at December 31, 2006.

Our operating activities for the three months ended March 31, 2007, used cash in the amount of \$713,100, as compared to \$199,969 used in the three months ended March 31, 2006. Cash used in operating activities for the three month period ending March 31, 2007, and March 31, 2006, reflected a net loss of \$938,907 and \$379,234, respectively, both partially offset by adding back the non-cash charges associated with depreciation and stock-based compensation.

The Company used \$6,731 and \$0 in investing activities for the purchase of property and equipment for the three months ended March 31, 2007 and 2006, respectively.

The Company had cash inflows from financing activities of \$600,000 during 2007 from the issuance of two promissory notes. Under the terms of the first promissory note, the Company borrowed \$240,000 from Contango Venture Capital Corporation, LLC ("CVCC") which beneficially owns approximately 17.0% of the Company's common stock. Under the terms of the second promissory note, the Company borrowed \$360,000 from Standard Renewable Energy Group, LLC, ("SREG"). SREG owns NewPoint Energy Solutions, LP ("NewPoint"), the owner of approximately 45.2% of the Company's common stock. Both notes bear interest at a rate of 11.25% until August 6, 2007, at which time the rate will become the prime rate plus 3%.

Capital Resources Going Forward

Our intended plan of operations for the twelve month period beginning January 1, 2007, is to manufacture, sell and distribute limited quantities of our KH-3X product and to continue to develop our KH-4X product. In the past, the Company primarily used funds derived from the private placement of its securities to fund its operations.

Cash on hand as of March 31, 2007, and cash generated by operations in conjunction with our working capital, will not be sufficient to continue our business for the next twelve months. We continually review our overall capital and funding needs, taking into account current business needs, as well as the Company's future goals and requirements. Based on our business strategy, we believe we will need to increase our available capital through the sale of additional securities.

Should our costs and expenses prove to be greater than we currently anticipate, or should we change our current business plan in a manner that will increase or accelerate our anticipated costs and expenses, the depletion of our working capital would be accelerated. To the extent it becomes necessary to raise additional cash in the future as our cash on hand and working capital resources are depleted, we intend to raise additional capital through the sale of additional equity securities, public or private sale of debt or equity securities, debt financing or short term loans, or a combination of these options. We currently do not have a binding commitment for, or readily available sources of, additional financing. We cannot give any assurance that we will be able to secure the additional cash or working capital that we may require to continue our operations under such circumstances or that it will be on terms that would not hinder our ability to execute our business strategy.

Our anticipated costs are estimates based upon our current business plan. Our actual costs could vary materially from these estimates. Further, we could change our current business plans, which may also result in a change in our anticipated costs.

Off Balance Sheet Arrangements

There are no guarantees, commitments, lease and debt agreements or other agreements that would trigger adverse changes in our credit rating, earnings, or cash flows, including requirements to perform under stand by agreements.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America.

Impairment of Long Lived Assets

On an ongoing basis, we evaluate our estimates and impairment of long lived assets. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates, including those for the above described items.

The Company reviews the recoverability of its long-lived assets, such as property and equipment, when events or changes in circumstances occur that indicate the carrying value of the asset or asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows (undiscounted) of the related operations. If these cash flows are less than the carrying value of such asset, an impairment loss is recognized for the difference between estimated fair value and carrying value.

Revenue Recognition

Although at this stage in our development we have had no significant revenues we consider revenue recognition a critical accounting policy as it affects the timing of earnings recognition. We recognize revenues on delivery and to date our operations have not involved any uncertainty of accounting treatment, subjective judgment or estimates over revenue recognition.

Item 3. Controls and Procedures

Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Within the 90 days prior to the filing date of this quarterly report, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

Changes in internal controls.

There have been no significant changes in our internal controls or in other factors that could significantly affect these controls and procedures subsequent to the date we completed our evaluation. Therefore, no corrective actions were taken.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

To the best knowledge of the officers and directors, the Company is not a party to any legal proceeding or litigation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds. None

Item 3. Defaults Upon Senior Securities. None.

Item 4. Submission of Matters to a Vote of Security Holders. None.

Item 5. Other Information.

Effective May 11, 2007, the consulting agreement dated April 4, 2007, between the Company and Fenway Advisory Group (the “Fenway Consulting Agreement”) was terminated by the Company. The Fenway Consulting Agreement provided for Fenway Advisory Group to (i) identify potential investors in the Company, (ii) provide general consulting advice regarding financing strategies and (iii) provide general consulting advice regarding the Company's business, in consideration of the Company's agreement to issue to Fenway Advisory Group 150,000 shares of the Company's Common Stock and warrants to purchase 100,000 shares of the Company's Common Stock. Around May 11, 2007, Fenway Advisory Group informed a consultant to the Company that Fenway Advisory Group would not be able to provide the services described in the Fenway Consulting Agreement, so on May 11, 2007 the Company terminated the Fenway Consulting Agreement without issuing to Fenway Advisory Group any shares of Common Stock or warrants to purchase Common Stock. No early termination penalties were incurred by the Company in connection with termination of the Fenway Consulting Agreement.
