GENERAL

This Information Statement is being furnished to the stockholders of OPKO Health, Inc., a Delaware corporation (the Company or OPKO), in connection with the issuance to a group of investors, which includes members of The Frost Group, LLC (the Frost Group), a private investment group controlled by Phillip Frost, M.D., our Chairman and CEO, of an aggregate of 13,513,514 shares (the Shares) of the Company's common stock, par value \$0.01 per share, in exchange for a \$15 million investment in the Company (the Investment). The Investment was approved effective as of August 7, 2008 by our Board of Directors and pursuant to a written consent of the holders of a majority of the voting power of our issued and outstanding common stock and preferred stock on such date, voting together as a group, in lieu of a special meeting of stockholders. Stockholder approval was sought in order to comply with applicable rules of the American Stock Exchange, on which our common stock is listed.

The Shares will be issued at a price of \$1.11 per share, which represents a discount of approximately 40% to the average trading price of our common stock on the American Stock Exchange for the five trading days immediately preceding the date of Board and stockholder approval. Hsiao and Uppaluri and Mr. Rubin voted the shares of our common stock presently owned by them in favor of the Investment. Members of the Frost Group present at the Board of Directors meeting during which the Investment was authorized abstained from voting on the matter.

In order to eliminate the costs involved in holding a special meeting, we elected to utilize the written consent of the holders of in excess of a majority in interest of our voting securities entitled to vote upon the actions described in this Information Statement.

Pursuant to Section 228 of the DGCL, we are required to provide prompt notice of the taking of those actions described above without a meeting of stockholders to all stockholders who did not consent in writing to such action. Change in Control During Fiscal 2007

On March 27, 2007, pursuant to the terms of a Merger Agreement and Plan of Reorganization, we were part of a three-way merger with Froprix Corporation, or Froprix, a development stage research and development company, controlled by The Frost Group, LLC, and Acuity Pharmaceuticals, Inc., or Acuity, a development stage research and development company (collectively referred to as the Acquisition). Per that agreement, we issued capital stock to acquire all of the issued and outstanding capital stock of Froprix and Acuity. After the Acquisition, we began doing business as OPKO Health, Inc., or OPKO, and changed our name as such.

Board of Directors Voting

We currently have ten directors comprising the entirety of our Board. The Frost Group, LLC (the Frost Group), an entity controlled by our Chairman and CEO and several of our members of senior management, has agreed to vote for two of the directors, Messrs. Paganelli and Baron, under the Board of Director composition provisions of a voting agreement between the Frost Group and the Company. In addition, four of our current directors, Drs. Frost and Hsiao and Messrs. Reich and Rubin, were elected to the Board pursuant to the merger agreement entered into in connection with the Acquisition.

OUR PRINCIPAL STOCKHOLDERS

Our voting securities are composed of our common stock, par value \$0.01 per share, and our Series A Preferred Stock, par value \$0.01 per share, of which 184,692,788 and 874,243 shares, respectively, were outstanding as of August 7, 2008. The holders of our common stock and Series A Preferred Stock are each entitled to one vote for each outstanding share on all matters submitted to our stockholders. The Frost Group, Frost Gamma Investments Trust, Drs. Hsiao and Uppaluri and Mr. Rubin voted those shares of our common stock presently owned by them in favor of the Investment.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation Committee Interlocks and Insider Participation

The current members of our compensation committee are Dr. Lerner, Mr. Beier, and Dr. Goldschmidt. Dr. Melvin L. Rubin was a member of the compensation committee until his resignation from the Board of Directors on September 25, 2007. None of these individuals was at any time during fiscal 2007 or at any time prior thereto, an officer or employee of ours.

Compensation Committee Report

The compensation committee of our Board has submitted the following report for inclusion in this Information Statement on Schedule 14C.

The compensation committee reviewed and discussed the Compensation Discussion and Analysis (appearing below) with management; and, based on such review and discussion, the compensation committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this Information Statement on Schedule 14C.

Compensation Committee

Richard A. Lerner, M.D., Chairman
Thomas E. Beier
Pascal J. Goldschmidt, M.D.

The compensation committee report above shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, each as amended, except to the extent that we specifically incorporate it by reference into such filing.

COMPENSATION DISCUSSION AND ANALYSIS

Our compensation philosophy is to attract and retain talented and dedicated executives who will work to achieve our desired business direction, strategy, and performance. The primary goals of our compensation program for our Named Executive Officers (as defined in the paragraph preceding the Summary Compensation Table) are (i) to attract, motivate, and retain talented executives with the skill sets and expertise we need to meet our scientific and business objectives; (ii) to be competitive in the marketplace; (iii) to tie annual and long-term cash and equity incentives to the achievement of specified performance objectives that will result in increased stockholder value; and (iv) to be cost-effective. To achieve these goals, we have formed a compensation committee that recommends executive compensation packages to our Board of Directors. These packages are generally based on a mix of salary, discretionary bonus, and equity awards. Although we have not adopted any formal guidelines for allocating total compensation between equity compensation and cash compensation, we maintain compensation plans that tie a substantial portion of our executives' overall compensation to the achievement of corporate goals.

Benchmarking of Cash and Equity Compensation

Our compensation committee reviews executive compensation levels on an annual basis to ensure they remain competitive in our industry. Data for this review is prepared and provided to the compensation committee by our Vice President, Human Resources, with input from our Chief Executive Officer, as well as other members of senior management. This data details relevant market rates for executive base salaries, annual cash incentive, long-term incentive, and total compensation for companies of similar size in our industry. The sources for this data include the Executive Compensation Survey, a survey of 67 biotech companies ranging in size from less than \$20 million in revenues with less than 150 employees to over \$500 million in revenue with over 1,000 employees. The data we used for our analysis focused on 24 companies with less than \$20 million in revenues and less than 150 employees. We believe that criteria used by the Executive Compensation Survey were effective in yielding a comprehensive survey group of companies, or peer groups, comparable to the Company. Utilizing the compiled information, the compensation committee reviews the various components of executive compensation to determine the base salary, annual cash incentive, long term incentive, and equity compensation.

5

We may retain the services of third-party executive compensation specialists from time to time in connection with the establishment of cash and equity compensation and related policies, although we have not previously done so.

Elements of Compensation

We evaluate individual executive performance with a goal of setting compensation at levels the Board of Directors and the compensation committee believe are comparable with executives in other companies of similar size and stage of development. At the same time, our Board of Directors and compensation committee takes into account our relative performance and our own strategic goals. The primary elements of our compensation plans are base salary, discretionary annual bonus, and equity compensation, each of which is described in greater detail below.

Base Salary. We establish and maintain competitive annual base salaries for our Named Executive Officers by utilizing available resources, which include surveys as discussed above. While base salaries are not primarily performance-based, we believe it is important to provide adequate, fixed compensation to executives working in a highly volatile and competitive industry such as ours. We provide fixed salary compensation to our Named Executive Officers based on their responsibilities and individual experience, taking into account competitive market compensation paid by other companies for similar positions within the pharmaceutical industry. Although it is the general intent of the compensation committee to position base salaries at approximately the competitive median of the Company's peer groups based on data reviewed, the base salaries for the Company's Named Executive Officers in 2007 are below the median of our peer group. Because we are a development stage company and generated little revenue in 2007, we are trying to place an emphasis on incentive forms of compensation, such as stock option grants. For 2008, none of the Named Executive Officers were granted increases in their base salaries.

Discretionary Annual Bonus. In addition to base salaries, our compensation committee has the authority to award discretionary annual bonuses to our Named Executive Officers based on corporate and individual performance. Incentives, as a percent of salary, increase with executive rank so that, as rank increases, a greater portion of total annual cash compensation is based on annual corporate and individual performance. Furthermore, as an executive's rank increases, a greater percentage of that executive's cash bonus is based on corporate performance, rather than individual performance. Because we are a development stage company and generated little revenue during fiscal 2007, the compensation committee determined not to award annual cash incentive bonuses for fiscal 2007 and to focus on other forms of incentive compensation, such as stock option grants.

Equity Compensation. We believe that equity compensation should be a primary component of our executive compensation program. Stock options are a critical element of our long-term incentive strategy. The primary purpose of stock options is to provide Named Executive Officers and other employees with a personal and financial interest in our success through stock ownership, thereby aligning the interests of such persons with those of our stockholders. This broad-based program is a vital element of our goal to empower and motivate outstanding long-term contributions by our Named Executive Officers and other employees. The compensation committee believes that the value of stock options will reflect our financial performance over the long-term. Under our employee stock option program, options are granted at fair market value at the date of grant, and options granted under the program become exercisable only after a vesting period. Consequently, employees benefit from stock options only if the market value of our common stock increases over time. With respect to these stock options, we recognize compensation expense based on the Statement of Financial Accounting Standard 123R, Share-Based Payments (SFAS 123R). The compensation committee typically grants stock options to our Named Executive Officers under our 2007 Equity Incentive Plan. For all executives, other than the Chief Executive Officer, the compensation committee considers the recommendations of our Chief Executive Officer based on his subjective assessment of their performance. We have not granted any restricted stock or restricted stock awards pursuant to our equity benefit plans. However, our compensation committee, in its discretion, may in the future elect to make such grants to our Named Executive Officers if it deems it advisable.

6

Employment Agreements. We have not entered into an employment agreement with any of our current executive officers.

Severance and Change-in-Control Benefits. None of our current executive officers are entitled to severance or change of control benefits.

401(k) Profit Sharing Plan. We have adopted a tax-qualified 401(k) Profit Sharing Plan (the 401(k) Plan) covering all qualified employees. The effective date of the 401(k) Plan is January 2008. Participants may elect a salary reduction of at least 1% as a contribution to the 401(k) Plan, up to the statutorily prescribed annual limit for tax-deferred contributions (\$15,500 for employees under age 50 and an additional \$5,000 for employees 50 and above in 2008). In 2008, the Company adopted the Roth contribution for employee elections. The 401(k) Plan permits employer matching of up to 4% of a participant's salary up to the statutory limits. In 2008, we elected a safe harbor contribution at 4% of annual compensation. All of our safe harbor contributions are immediately vested.

Other Compensation. All of our Named Executive Officers have standard benefits that are offered to all full-time, exempt employees. These standard benefits include health, dental and life insurance, and short and long term disability. We intend to continue to maintain the current benefits and perquisites for our Named Executive Officers; however, our compensation committee, in its discretion, may in the future revise, amend, or add to the benefits and perquisites of any Named Executive Officer if it deems it advisable.

Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code generally does not allow a deduction for annual compensation in excess of \$1,000,000 paid to our executive officers. This limitation on deductibility does not apply to certain compensation, including performance based compensation under a plan approved by our stockholders. It is expected that equity grants under our 2007 Equity Incentive Plan will qualify for the performance-based exceptions from the Section 162(m) limitations. Our policy is generally to preserve the federal income tax deductibility of compensation and to qualify eligible compensation for the performance-based exception in order for compensation not to be subject to the limitation on deductibility imposed by Section 162(m) of the Internal Revenue Code. We may, however, approve

compensation that may not be deductible if we determine that the compensation is in our best interests as well as the best interests of our stockholders.

7

AUTHORIZATION OR ISSUANCE OF SECURITIES OTHERWISE THAN FOR EXCHANGE

As of August 7, 2008, our Board of Directors and certain stockholders, holding a majority of our outstanding capital stock entitled to vote, approved the issuance (the "Issuance") to a group of investors which includes members of The

Frost Group, LLC (the Frost Group), a private investment group controlled by Phillip Frost, M.D., our Chairman and CEO, of an aggregate of 13,513,514 shares (the Shares) of our common stock, par value \$0.01 per share, in exchange for a \$15 million investment in the Company. The Shares will be issued at a price of \$1.11 per share, which represents a discount of approximately 40% to the average trading price of our common stock on the American Stock Exchange (AMEX) for the five trading days immediately preceding the date as of which the Board and stockholders approved the transaction.

The principal member of the Frost Group is Frost Gamma Investments Trust, of which Dr. Phillip Frost, M.D., is the sole trustee. Additionally, the Frost Group includes in its membership Dr. Jane Hsiao, our Vice Chairman and Chief Technical Officer, Dr. Rao Uppaluri, our Chief Financial Officer, and Mr. Steven D. Rubin, our Executive Vice President-Administration and director. Following issuance of the Shares, the members of the Frost Group will beneficially own an aggregate of approximately 62% of our issued and outstanding common stock.

The Shares will be issued in a transaction not involving any public offering and will therefore be restricted securities as defined by Rule 144 promulgated under the Securities Act of 1933, as amended. Additionally, the Shares will be subject to a two-year lockup, during which time the Shares may not be sold. The proceeds from the investment will be used to fund research and development efforts, including the ongoing Phase III trial for bevasiranib and for general working capital. The Issuance of the Shares will not affect the rights of our existing security holders.

Our audit committee and Board reviewed the proposed Issuance. Our audit committee and Board of Directors discussed and considered, among other things, our current liquidity, capital resources and cash needs, current market conditions, market discounts in arms-length private-investment-in-public-entity (PIPE) transactions, the volatility in our stock price, and timing and expense considerations associated with various alternative financing strategies, as well as other alternatives available to obtain financing, if any. Upon consideration of the foregoing, and following recommendation by the audit committee, our Board of Directors approved the Issuance in exchange for the substantial investment in our Company by investors, which includes members of the Frost Group. This capital inflow will provide additional financial resources to support our ongoing efforts to bring our ophthalmic drugs and products to the market. The Issuance is solely a reasonable means of obtaining financing and is not compensatory. Notwithstanding the foregoing, AMEX interprets any issuance of shares below market to be compensatory under Section 711 of the AMEX Company Guide and requires stockholder approval of such issuances. Accordingly, we have obtained stockholder approval of the Issuance and we are delivering this Information Statement to stockholders.

Subject to the prior rights of the holders of any shares of preferred stock currently outstanding or which may be issued in the future, the holders of the common stock are entitled to receive dividends from our funds legally available therefor when, as and if declared by our board of directors, and are entitled to share ratably in all of our assets available for distribution to holders of common stock upon the liquidation, dissolution or winding-up of our affairs subject to the liquidation preference, if any, of any then outstanding shares of preferred stock. Holders of our common stock do not have any preemptive, subscription, redemption or conversion rights. Holders of our common stock are entitled to one vote per share on all matters which they are entitled to vote upon at meetings of stockholders or upon actions taken by written consent pursuant to Delaware corporate law. The holders of our common stock do not have cumulative voting rights, which means that the holders of a plurality of the outstanding shares can elect all of our directors. All of the shares of our common stock currently issued and outstanding are fully-paid and nonassessable. No dividends have been paid to holders of our common stock since our incorporation, and no cash dividends are anticipated to be declared or paid in the reasonably foreseeable future.
