The Company's Board of Directors is making this proxy solicitation. Subject to the restrictions described in the attached Proxy Statement, all shares of Common Stock that are presented by properly executed and unrevoked proxies received by the Company's selected vendor (Worldwide Stock Transfer, LLC) to tabulate the vote of the Company's common stockholders, prior to the Meeting, will be voted, and all shares of the Company's Series D Convertible Preferred Stock that are presented by properly executed and unrevoked proxies received by the Company, prior to the Meeting, will be voted.

PROXY STATEMENT

This Proxy Statement contains information related to the special meeting (the “Meeting”) of stockholders of NeoMedia Technologies, Inc., a Delaware corporation (the “Company”), to be held on March 18, 2010, at 11:00 a.m., local time, at Two Concourse Parkway, Suite 500, Atlanta, Georgia 30328, and any postponements or adjournments thereof. The Company is making this proxy solicitation. It is anticipated that this Proxy Statement and the enclosed proxy card (the “Proxy”) will be sent to the Company’s stockholders on or about February 19, 2010.

ABOUT THE MEETING

What is the purpose of the Meeting?

At the Meeting, stockholders will act upon the matters outlined in the “Notice of Special Meeting of Stockholders”, which appears as the cover page of this Proxy Statement, including (1) the approval of an amendment to the Company’s Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the Company’s outstanding common stock, par value \$0.01 per share (“Common Stock”), (2) the approval of an amendment to the Company’s Certificate of Incorporation to fix the amount of authorized shares of the Company’s common stock at 5,000,000,000 shares, (3) the approval of an amendment to the Company’s Certificate of Incorporation to decrease the par value of the Company’s common stock from \$0.01 to \$0.001, and (4) any other matters that may properly come before the Meeting or any postponement or adjournment thereof.

Who is entitled to vote?

Only stockholders of record on the close of business on February 1, 2010 (the “Record Date”), are entitled to receive notice of the Meeting and to vote the shares of Common Stock, shares of Series C convertible preferred stock, par value \$0.01 per share (“Series C Preferred Stock”) and shares of Series D convertible preferred stock, par value \$0.01 per share (“Series D Preferred Stock”), that they held on the Record Date at the Meeting, or any postponements or adjournments thereof. At the Meeting, the holders of the Common Stock and the Series D Preferred Stock may vote on all matters presented to the holders of Common Stock and will vote together as a class. Each outstanding share of Common Stock entitles the holder to one vote. Generally, each outstanding share of Series C Preferred Stock (on an as converted basis as described below) entitles the holder to the number of votes equal to the number of shares of Common Stock issuable upon conversion of the Series C Preferred Stock. However, due to contractual restrictions, currently, no shares of Series C Preferred Stock can be converted into shares of Common Stock or voted at the Meeting. From January 5, 2010 until April 5, 2010, each share of Series D Preferred Stock entitles its holder to one hundred thousand (100,000) votes per share of Series D Preferred Stock voting together with the Common Stock.

As of the Record Date, there were 2,267,567,835 shares of Common Stock, 8,642 shares of Series C Preferred Stock, and 25,000 shares of Series D Preferred Stock issued and outstanding. Due to contractual restrictions on the convertibility of Series C Preferred Stock and related voting rights, the current holders of Series C Preferred Stock are not entitled to cast any votes at the Meeting with respect to such Series C Preferred Stock. On an as converted basis, the holders of Series D Preferred Stock are entitled to cast votes equivalent to an aggregate of 2,500,000,000 shares of Common Stock. Accordingly, there are a total of 4,767,567,835 shares entitled to vote at the Meeting. For information regarding security ownership by management and by 5% or greater stockholders, see “Security Ownership

of Certain Beneficial Owners and Management of the Company,” below.

1

Who can attend the Meeting?

All stockholders of the Company as of the Record Date, or their duly appointed proxies, may attend the Meeting. Seating, however, is limited. Admission to the meeting will be on a first-come, first-serve basis. Registration will begin at 10:00 a.m. and seating will begin at 10:30 a.m. Each stockholder will be required to present valid picture identification, such as a driver's license or passport. Cameras, recording devices and other electronic devices will not be permitted at the Meeting.

What constitutes a quorum?

One-third (1/3) of the issued and outstanding shares entitled to vote, represented in person or by Proxy, constitutes a quorum for the Meeting.

How do I vote by Proxy?

Follow the instructions on the enclosed Proxy to vote on each proposal to be considered at the Meeting. Sign and date the Proxy and mail it back to the Company in the enclosed envelope. If you own shares of Common Stock as of the Record Date then you may also vote with respect to those shares by Internet as described in the Proxy. The proxy holders named on the Proxy will vote your shares as you instruct. If you sign and return the Proxy but do not vote on a proposal, the proxy holders will vote for you on that proposal.

What if I do not specify how my shares are to be voted?

For "Proposal No. 1 – Reverse Stock Split of Outstanding Common Stock", if you submit a Proxy but do not indicate any voting instructions, your shares will be counted as a vote for the amendment of the Company's Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the outstanding Common Stock. For "Proposal No. 2 – Adjustment of Authorized Common Stock", if you submit a Proxy but do not indicate any voting instructions, your shares will be counted as a vote for the amendment of the Company's Certificate of Incorporation to fix the amount of authorized Common Stock at 5,000,000,000 shares. For "Proposal No. 3 – Change in Par Value", if you submit a Proxy but do not indicate any voting instructions, your shares will be counted as a vote for the amendment of the Company's Certificate of Incorporation to decrease the par value of the Common Stock from \$0.01 to \$0.001.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your Proxy, you may change your vote at any time before the Proxy is exercised by filing with the Secretary of the Company either a notice of revocation or a duly executed Proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the Meeting in person and so request, although attendance at the Meeting will not by itself revoke a previously granted Proxy.

What if other matters come up at the Meeting?

The matters described in this Proxy Statement are the only matters we know will be voted on at the Meeting. If other matters are properly presented at the Meeting, the proxy holders will vote your shares as they see fit in accordance with any applicable laws.

Can I vote in person at the Meeting rather than by completing the Proxy Card?

Although we encourage you to complete and return the Proxy to ensure that your vote is counted, you can attend the Meeting and vote your shares in person by ballot.

What do I do if my shares are held in “street name”?

If you hold your shares in “street name” through a broker or other nominee, and you do not tell the nominee by the tenth day preceding the Meeting, how to vote your shares, the nominee can vote them as it sees fit only on matters that are determined to be routine, and not on any other proposal. None of the matters presented in this Proxy Statement are “routine” items. If you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such “broker non-votes,” however, will be counted in determining whether there is a quorum. If you hold your shares in street name, you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the Record Date and check in at the registration desk at the Meeting. If you intend to vote your street name shares in person at the Meeting, you will need to obtain a “Legal Proxy” from your brokerage firm.

How are votes counted?

We will hold the Meeting if holders of one-third (1/3) of the total shares of voting capital stock of the Company either sign and return their Proxies or attend the Meeting. If you sign and return your Proxy, your shares will be counted to determine whether the Company has a quorum even if you abstain or fail to vote on any of the proposals listed on the Proxy.

Who pays for this proxy solicitation?

The Company will pay all the costs of solicitation, including the preparation, assembly, printing and mailing of this Proxy Statement, the Proxy, and any additional solicitation materials furnished to stockholders. Stockholders will not be charged fees for voting via Internet. Copies of solicitation materials will be furnished to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. In addition, the Company may reimburse such persons for their costs in forwarding the solicitation materials to such beneficial owners. In addition to sending you these materials, some of the Company’s employees may contact you by telephone, by mail, or in person. None of these employees will receive any extra compensation for doing this.

What vote is required to approve each item?

Amendment to Certificate of Incorporation – Reverse Stock Split of Outstanding Common Stock. For the approval of an amendment to the Company’s Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the Company’s outstanding Common Stock, the affirmative vote of a majority, as of the Record Date, of the outstanding shares of Common Stock and Series D Preferred Stock (on an as converted basis) voting together as a single class will be required. A properly executed Proxy marked “Abstain” with respect to such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

Amendment to Certificate of Incorporation – Adjustment of Authorized Common Stock. For the approval of an amendment to the Company’s Certificate of Incorporation to fix the amount of authorized Common Stock at 5,000,000,000 shares, the affirmative vote of a majority, as of the Record Date, of the outstanding shares of Common Stock and Series D Preferred Stock (on an as converted basis) voting together as a single class will be required. A properly executed Proxy marked “Abstain” with respect to such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

Amendment to Certificate of Incorporation – Change in Par Value. For the approval of an amendment to the Company’s Certificate of Incorporation to decrease the par value of the Common Stock from \$0.01 to \$0.001, the affirmative vote of a majority, as of the Record Date, of the outstanding shares of Common Stock and Series D Preferred Stock (on an as converted basis) voting together as a single class will be required. A properly executed Proxy marked “Abstain” with respect to such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

Other Matters. For most other matters that properly come before the Meeting, the affirmative vote of a majority of shares of voting capital stock, present in person or represented by Proxy and voted at the Meeting, will be required. With respect to certain matters that may come before the Meeting a separate class vote of the Series C Preferred Stock or Series D Preferred Stock may be required. A properly executed Proxy marked “Abstain” with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

What are the Board’s recommendations?

The recommendation of the Company’s board of directors (the “Board”) is set forth together with the description of each item in this Proxy Statement. In summary, the Board recommends a vote:

- For the approval of an amendment to the Company’s Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the Company’s outstanding Common Stock;
- For the approval of an amendment to the Company’s Certificate of Incorporation to fix the amount of authorized shares of Common Stock at 5,000,000,000 shares;
- For the approval of an amendment to the Company’s Certificate of Incorporation to decrease the par value of the Common Stock from \$0.01 to \$0.001; and

With respect to any other matter that properly comes before the Meeting, the proxy holders will vote as recommended by the Board or, if no recommendation is given, in their own discretion.

SPECIAL CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

From time to time, the Company and its senior managers will make forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are contained in this Proxy Statement and may be contained in other documents that the Company files with the Commission. Forward-looking statements can generally be identified by words such as “may”, “could”, “should”, “would”, “believe”, “anticipate”, “estimate”, “seek”, “exp”, “plan” and similar expressions.

Forward-looking statements provide our expectations or predictions of future conditions, events or results. They are not guarantees of future performance. By their nature, forward-looking statements are subject to risks and uncertainties. These statements speak only as of the date they are made. We do not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements were made. There are a number of factors, many of which are beyond our control, which could casue actual conditions, events or results to differ significantly from those described in the forward-looking statements.

STOCKHOLDER PROPOSALS

PROPOSAL NO. 1 – AUTHORIZATION OF AN AMENDMENT TO THE COMPANY’S CERTIFICATE OF INCORPORATION TO AUTHORIZE A 1 SHARE FOR 100 SHARES REVERSE SPLIT OF THE COMPANY’S OUTSTANDING COMMON STOCK

Reverse Stock Split in General

As of February 1, 2010, we had 2,267,567,835 shares of our Common Stock outstanding and an additional 1,307,031,375 shares of Common Stock reserved for issuance upon the exercise of issued and outstanding options and warrants. The large number of shares of Common Stock outstanding combined with our low share price makes our Common Stock unattractive to investors. We believe that a reverse stock split of our outstanding Common Stock will have the effect of increasing both the visibility and marketability of our stock to future investors.

Our Board has adopted a resolution seeking authorization of our stockholders to amend our Certificate of Incorporation to effect a reverse split of our outstanding Common Stock at a ratio of 1-for-100 (the “Reverse Split”). If this proposal is approved by our stockholders at the Meeting, we may effect the Reverse Split, within one year after the Meeting. If we determine to effect the Reverse Split as proposed, we will file an amendment to our Certificate of Incorporation, as set forth in Exhibit A, with the Secretary of State of Delaware which will provide that our shares of Common Stock then issued and outstanding will be combined at a ratio of 1-for-100. Except for any changes resulting from the treatment of fractional shares, each stockholder will hold the same percentage of Common Stock outstanding immediately after the Reverse Split as such stockholder did immediately prior to the Reverse Split. We may abandon the proposed Reverse Split if our Board deems it advisable.

The number of outstanding shares of Series C Preferred Stock and Series D Preferred Stock will not change as a result of the Reverse Split. The conversion price of the Series C Preferred Stock and Series D Preferred Stock, however, will be adjusted as a result of the Reverse Split which will result in the number of shares of Common Stock issuable upon conversion of the Series C Preferred Stock and Series D Preferred Stock being reduced in proportion to the Reverse Split.

Certain Disadvantages Associated With the Reverse Split

There can be no assurance that the total market capitalization of our Common Stock after the proposed Reverse Split will be equal to or greater than the total market capitalization before the proposed Reverse Split or that the per share market price of our Common Stock following the Reverse Split will either exceed or remain higher than the current per share market price. There can be no assurance that the market price per new share of our Common Stock after the Reverse Split will rise or remain constant in proportion to the reduction in the number of old shares of our Common Stock outstanding before the Reverse Split. For example, based on the market price of our Common Stock on February 1, 2010 of \$0.007 per share, following a 1-for-100 reverse split of the outstanding Common Stock there can be no assurance that the post-split market price of our Common Stock would be \$0.70 per share or greater. Accordingly, the total market capitalization of our Common Stock after the proposed Reverse Split may be lower than the total market capitalization before the proposed Reverse Split and, in the future, the market price of our Common Stock following the Reverse Split may not exceed or remain higher than the market price prior to the proposed Reverse Split. In many cases, the total market capitalization of a company following a reverse stock split is lower than the total market capitalization before the reverse stock split.

A decline in the market price for our Common Stock after the Reverse Split may result in a greater percentage decline than would occur in the absence of such action and the liquidity of our Common Stock could be adversely affected following the Reverse Split.

The market price of our Common Stock will also be based on our performance and other factors, some of which are unrelated to the number of shares outstanding. If the Reverse Split is effected and the market price of our Common Stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of the Reverse Split. In many cases, both the total market capitalization of a company and the market price of a share of such company's common stock following a reverse stock split are lower than they were before the reverse stock split. Furthermore, the liquidity of our Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the Reverse Split.

If the authorized number of shares of Common Stock remains at 5,000,000,000 shares as proposed by Proposal No. 2 herein, but the number of outstanding shares of Common Stock immediately after the Reverse Split will be reduced by a factor of one hundred (100), the Company will be able to issue more shares of Common Stock which could result in additional dilution and which could have a negative effect on the market price of our Common Stock.

Principal Effects of the Reverse Split

Corporate Matters. If our common stockholders approve this Proposal No. 1 authorizing a reverse stock split of our outstanding Common Stock at a ratio of 1-for-100, the Reverse Split would have the following effects:

- every 100 shares of Common Stock outstanding prior to the effective time of the Reverse Split would be automatically combined into one (1) share of Common Stock;
- the number of shares of our Common Stock issued and outstanding will be reduced proportionately based on the 1-for-100 split ratio;
- in connection with the approval of Proposal No. 2 herein, the number of authorized shares of our Common Stock would remain 5,000,000,000. Also, the number of authorized shares of preferred stock would remain 25,000,000;
- based on the 1-for-100 ratio, proportionate adjustments will be made to the per share exercise price and the number of shares issuable upon the exercise of all outstanding options, convertible debentures and warrants entitling the holders thereof to purchase shares of our Common Stock, which will result in approximately the same aggregate price being required to be paid for such options, convertible debentures or warrants upon exercise of such options, convertible debentures or warrants immediately preceding the Reverse Split; and
- the number of shares reserved for issuance under our existing stock option plans will be reduced proportionately based on the 1-for-100 split ratio.

When effected, the Reverse Split will be effected simultaneously for all of our Common Stock and the ratio will be the same for all of our Common Stock. The Reverse Split will affect all of our common stockholders uniformly and will not affect any stockholder's percentage ownership interests in our Company, except to the extent that the Reverse Split results in any of our common stockholders owning a fractional share. As described below, common stockholders holding fractional shares will be entitled to cash payments in lieu of such fractional shares. Such cash payments would reduce the number of post-split common stockholders to the extent there are common stockholders presently holding fewer than 100 shares. Common Stock outstanding following the Reverse Split will remain fully paid and non-assessable. We will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended (the "34 Act").

Fractional Shares. No scrip or fractional certificates will be issued in connection with the Reverse Split. Common stockholders who otherwise would be entitled to receive fractional shares because they hold, as of a date prior to the effective time of the Reverse Split, a number of shares of our Common Stock not evenly divisible by 100 will be entitled, upon surrender of certificate(s) representing such shares, to a cash payment in lieu thereof. The cash payment will equal the product obtained by multiplying (a) the fraction to which the stockholder would otherwise be entitled by (b) the per share closing sales price of our Common Stock on the day immediately prior to the effective time of the Reverse Split, as reported on the OTC Bulletin Board. The ownership of a fractional interest will not give the holder thereof any voting, dividend or other rights except to receive payment therefore as described herein.

Common stockholders should be aware that, under the escheat laws of the various jurisdictions where our common stockholders reside, where we are domiciled and where the funds will be deposited, sums due for fractional interests that are not timely claimed after the effective time may be required to be paid to the designated agent for each such jurisdiction. Thereafter, common stockholders otherwise entitled to receive such funds may have to seek to obtain them directly from the state to which they were paid.

If approved and effected, the Reverse Split will result in some common stockholders owning "odd lots" of less than 100 shares of our Common Stock. Brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in "round lots" of even multiples of 100 shares.

Accounting Matters. The per share net income or loss and net book value of our Common Stock will be restated because there will be fewer shares of Common Stock outstanding.

Procedure for Effecting the Reverse Stock Split and Exchange of Stock Certificates

In order to effect the Reverse Split, we will file an amendment to our Certificate of Incorporation with the Secretary of State of Delaware to amend our existing Certificate of Incorporation. The Reverse Split will become effective at the time specified in the amendment, which is referred to below as the "effective time". Beginning at the effective time, each certificate representing shares of Common Stock prior to the effective time of the Reverse Split will be deemed for all corporate purposes to evidence ownership of resulting combined number of shares following such Reverse Split. The text of the amendment to effect the Reverse Split will be in substantially the form attached hereto as Exhibit A; provided, however, that the form of amendment attached hereto is subject to modification to include such changes as may be required by the office of the Secretary of State of Delaware and as the Board deems necessary and advisable to effect the Reverse Split, including the insertion of the effective time as determined by the Board.

As soon as practicable after the effective time, common stockholders will be notified that the Reverse Split has been effected. We expect that our transfer agent, Worldwide Stock Transfer, LLC, will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of pre-split common shares will be asked to surrender to the exchange agent certificates representing such shares in exchange for certificates representing post-split shares of Common Stock in accordance with the procedures to be set forth in the letter of transmittal that we send to our common stockholders. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the exchange agent. Any pre-split share certificates submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for certificates representing post-split shares. **COMMON STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.**

No Dissenters' Rights

Under the Delaware General Corporation Law, our common stockholders are not entitled to dissenters' rights with respect to the Reverse Split, and we will not independently provide common stockholders with any such right.

Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material federal income tax consequences of the Reverse Split, does not purport to be a complete discussion of all of the possible federal income tax consequences of the Reverse Split, and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities,

nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the pre-split shares of Common Stock were, and the post-split shares of Common Stock will be, held as "capital assets," as defined in the Internal Revenue Code of 1986, as amended (the "Code") (i.e., generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the Reverse Split.

The Reverse Split is intended to qualify as a reorganization under Section 368(a)(1)(E) of the Code.

A stockholder that receives only post-split shares in the Reverse Split (i.e., a stockholder that does not receive any cash for fractional shares) should recognize no gain or loss upon such stockholder's exchange of certificates representing pre-split shares for post-split shares pursuant to the Reverse Split. In such a case, the aggregate tax basis of the post-split shares received in the Reverse Split should be the same as the stockholder's aggregate tax basis in the pre-split shares exchanged therefor. In addition, the stockholder's holding period for the post-split shares should include the period during which the stockholder held the pre-split shares surrendered in the Reverse Split.

A stockholder that receives both post-split shares and cash for fractional shares in the Reverse Split should recognize no gain or loss upon such stockholder's exchange of certificates representing pre-split shares for post-split shares pursuant to the Reverse Split. However, such a stockholder should recognize dividend income in an amount equal to the cash received for such stockholder's fractional shares in the Reverse Split. Generally, the aggregate tax basis of the post-split shares received in the Reverse Split should be the same as the stockholder's aggregate tax basis in the pre-split shares exchanged therefor. The stockholder's holding period for the post-split shares should include the period during which the stockholder held the pre-split shares surrendered in the Reverse Split.

A stockholder that receives no post-split shares in the Reverse Split (i.e., a stockholder that receives only cash for fractional shares because such stockholder owns fewer than 100 pre-split shares) should recognize gain or loss based on such stockholder's adjusted basis in the fractional share interest redeemed for cash in the Reverse Split. In such a case, the gain or loss should constitute long-term capital gain or loss if the stockholder has held its shares for more than one year.

Our view regarding the tax consequences of the Reverse Split is not binding on the Internal Revenue Service or the courts. ACCORDINGLY, EACH STOCKHOLDER SHOULD CONSULT WITH SUCH STOCKHOLDER'S OWN TAX ADVISOR WITH RESPECT TO ALL OF THE POTENTIAL TAX CONSEQUENCES TO SUCH STOCKHOLDER WHICH MIGHT ARISE FROM THE REVERSE SPLIT.

Required Vote

Approval to amend the Company's Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the outstanding Common Stock will require that the holders of at least a majority of the outstanding shares entitled to vote thereon vote "FOR" the proposal.

Recommendation of the Board

The Board recommends that the stockholders vote "FOR" an amendment to the Company's Certificate of Incorporation to authorize a 1 share for 100 shares reverse split of the outstanding Common Stock.

PROPOSAL NO. 2 – AUTHORIZATION OF AN AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO FIX THE AMOUNT OF AUTHORIZED SHARES OF COMMON STOCK AT 5,000,000,000 SHARES

Fixing of Authorized Shares in General

As of February 1, 2010, we had a total of 5,000,000,000 authorized shares of Common Stock. We believe that maintaining the number of shares of authorized Common Stock, in connection with the approval of the Reverse Split, will enable the Company to issue more shares of Common Stock in connection with financing projects and attracting potential investors.

8

Our Board has adopted a resolution seeking authorization of our stockholders to amend our Certificate of Incorporation to fix our number of authorized shares of Common Stock at 5,000,000,000 shares (the “Adjustment”). To effect the Adjustment as proposed, we will file an amendment to our Certificate of Incorporation, as set forth in Exhibit A, with the Secretary of State of Delaware which will provide that our authorized Common Stock will be set at 5,000,000,000 shares. We may subsequently abandon the proposed Adjustment if our Board deems it advisable.

The number of outstanding shares of Series C Preferred Stock and Series D Preferred Stock will not change as a result of the Adjustment. The Adjustment will not reduce the number of authorized shares of preferred stock, Series C Preferred Stock or Series D Preferred Stock, which will remain 25,000,000, 30,000 and 25,000, respectively.

Certain Disadvantages of the Adjustment

If the authorized number of shares of Common Stock remains at 5,000,000,000 shares as proposed by this Proposal No. 2, but the number of outstanding shares of Common Stock immediately after the Reverse Split will be reduced by a factor of one hundred (100) as proposed by Proposal No. 1 herein, the Company will be able to issue more shares of Common Stock which could result in additional dilution and which could have a negative effect on the market price of our Common Stock.

Principal Effects of the Adjustment

If our common stockholders approve this Proposal No. 2 authorizing the fixing of the amount of our authorized shares of Common Stock at 5,000,000,000 shares, the Adjustment would effectively maintain the Company’s current amount of authorized shares of Common Stock which is set at 5,000,000,000 shares. When effected, the Adjustment will be effected simultaneously with the Reverse Split. The Adjustment will affect all of our common stockholders uniformly and will not affect any stockholder’s percentage ownership interests in our Company. We will continue to be subject to the periodic reporting requirements of the ‘34 Act, as amended.

Procedure for Effecting the Adjustment

In order to effect the Adjustment, we will file an amendment to our Certificate of Incorporation with the Secretary of State of Delaware to amend our existing Certificate of Incorporation. The Adjustment will become effective at the time specified in the amendment. The text of the amendment to effect the Adjustment will be in substantially the form attached hereto as Exhibit A; provided, however, that the form of amendment attached hereto is subject to modification to include such changes as may be required by the office of the Secretary of State of Delaware and as the Board deems necessary and advisable to effect the Adjustment. As soon as practicable our common stockholders will be notified that the Adjustment has been effected.

No Dissenters' Rights

Under the Delaware General Corporation Law, our common stockholders are not entitled to dissenters' rights with respect to the Adjustment, and we will not independently provide common stockholders with any such right.

Required Vote

Approval to amend the Company’s Certificate of Incorporation to fix the amount of authorized Common Stock at 5,000,000,000 shares will require that the holders of at least a majority of the outstanding shares entitled to vote thereon vote “FOR” the proposal.

Recommendation of the Board

The Board recommends that the stockholders vote “FOR” an amendment to the Company’s Certificate of Incorporation to fix the amount of authorized Common Stock at 5,000,000,000 shares.

PROPOSAL NO. 3 – AUTHORIZATION OF AN AMENDMENT TO THE COMPANY’S CERTIFICATE OF INCORPORATION TO DECREASE THE PAR VALUE OF THE COMPANY’S COMMON STOCK FROM \$0.01 TO \$0.001

Reduction in Par Value in General

The Board has adopted a resolution seeking approval to amend the Company’s Certificate of Incorporation to reduce the par value of the Common Stock. The Certificate of Incorporation currently authorizes the issuance of shares of Common Stock with a par value of \$0.01 per share. The Board believes it is in the best interests of the Company to reduce the par value of the Common Stock to \$0.001 per share. The reduction in par value is intended to bring the Company in line with the practice of other public companies with respect to par value.

We further believe that a change from a par value of \$0.01 per share to \$0.001 per share will provide the Company with greater flexibility with respect to the issuance of stock and stock-based compensation because Delaware law requires that we receive at least the par value per share as consideration for the issuance of Common Stock.

Historically, the concept of par value served to protect creditors and senior security holders by ensuring that a company received at least the par value as consideration for issuance of stock. Over time, the concept of par value has lost its significance, generally. Many companies that incorporate today use a nominal par value or have no par value.

Certain Disadvantages Associated With Change in Par Value

There are possible negative ramifications associated with lowering the par value of the Common Stock. For example, the ability to issue shares of Common Stock at a lower price may afford the Company added flexibility to deter a potential takeover of the Company that may otherwise be beneficial to stockholders by diluting the shares held by a potential suitor or issuing shares to a stockholder that will vote in accordance with the Board’s desires. A takeover may be beneficial to independent stockholders because, among other reasons, a potential suitor may offer such stockholders a premium for their shares of Common Stock compared to the then-existing market price. The Company does not have any plans or proposals to adopt provisions or enter into agreements that may have material anti-takeover consequences. Although there are these negative possibilities, and possibly others, the Company’s management and Board believe that the benefits to the Company’s stockholders outweigh the negatives.

Procedure for Effecting Change in Par Value

In order to effect the change in par value, we will file an amendment to our Certificate of Incorporation with the Secretary of State of Delaware to amend our existing Certificate of Incorporation. The text of the amendment to effect the change in par value will be in substantially the form attached hereto as Exhibit A; provided, however, that the form of amendment attached hereto is subject to modification to include such changes as may be required by the office of the Secretary of State of Delaware and as the Board deems necessary and advisable to effect change in par value.

No Dissenters' Rights

Under the Delaware General Corporation Law, our common stockholders are not entitled to dissenters' rights with respect to the change in par value, and we will not independently provide common stockholders with any such right.

Required Vote

Approval to amend the Company's Certificate of Incorporation to decrease the par value of the Common Stock from \$0.01 to \$0.001 will require that the holders of at least a majority of the outstanding shares entitled to vote thereon vote "FOR" the proposal.

Recommendation of the Board

The Board recommends that the stockholders vote “FOR” an amendment to the Company’s Certificate of Incorporation to decrease the par value of Common Stock from \$0.01 to \$0.001.

(1) Applicable percentage of ownership is based on 2,267,567,835 shares of Common Stock outstanding; 25,000 shares of Series D Convertible Preferred Stock outstanding; and the combined voting power of the Common Stock and Series D Convertible Preferred Stock in the amount of 4,767,567,835 shares as of February 1, 2010. Percentage ownership is determined based on shares owned together with securities exercisable or convertible into shares of Common Stock within 60 days of February 1, 2010 for each stockholder. Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power with respect to securities. Shares of Common Stock subject to securities exercisable or convertible into shares of Common Stock that are currently exercisable or exercisable within 60 days of February 1, 2010 are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Our Common Stock, Series C Preferred Stock and Series D Preferred Stock are our only issued and

outstanding classes of securities eligible to vote. From January 5, 2010 until April 5, 2010, each share of Series D Preferred Stock is entitled to vote on an as-converted basis with the Common Stock multiplied by one hundred thousand (100,000). Pursuant to the consummation of the transaction contemplated by the Investment Agreement, during the Voting Period, YA may be deemed to have control of the Company due to its beneficial ownership, during such period, of
