PROXY STATEMENT

**For the Annual Meeting of Stockholders
to be held June 11, 2013**

GENERAL INFORMATION

**INFORMATION ABOUT THE NOTICE OF INTERNET
AVAILABILITY OF PROXY MATERIALS**

As we have done in previous years, we are providing access to our proxy materials, including our Proxy Statement and Annual Report on Form 10-K, via the Internet rather than mailing a printed copy to each stockholder. This reduces the amount of paper necessary to produce these materials, as well as the costs associated with mailing these materials to all stockholders. Accordingly, on or about April 26, 2013 we began mailing a Notice of Internet Availability of Proxy Materials (the Notice) to some of our stockholders and posted our proxy materials on the website referenced in the Notice (<http://ir.dealertrack.com/proxy.cfm>). As more fully described in the Notice, stockholders may choose to access our proxy materials on the website referred to in the Notice or may request to receive a printed set of our proxy materials. In addition, the Notice and website provide information regarding how you may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis.

THE ANNUAL MEETING

Our board of directors is soliciting proxies to be used at our Annual Meeting of Stockholders to be held on June 11, 2013. This Proxy Statement, the accompanying Notice of Annual Meeting of Stockholders and form of proxy are being made available to our stockholders on or about April 30, 2013.

PURPOSE OF THE MEETING

The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice of Annual Meeting. The proposals are described in more detail in this Proxy Statement.

INFORMATION CONCERNING VOTING AND SOLICITATION OF PROXIES

WHO CAN VOTE

Only stockholders of record at the close of business on April 23, 2013 may vote at the Annual Meeting. As of April 15, 2013, there were 43,488,354 shares of our common stock outstanding.

HOW YOU CAN VOTE

Stockholders of Record. If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, LLC, you are considered a stockholder of record with respect to those shares, and the Notice or proxy materials, including the Proxy Statement and proxy card, were sent directly to you by the company.

Street Name Holders. If you hold your shares in an account at a brokerage firm, bank, broker-dealer, or other similar organization, then you are the beneficial owner of shares held in street name. The Notice or proxy materials, including the Proxy Statement and voting instruction card, were forwarded to you by the bank or broker holding your account, which is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that bank or broker on how to vote the shares held in your account.

TABLE OF CONTENTS

You may vote using one of the following methods:

By Mail. If you received proxy materials by mail, you may vote your shares by mail by marking your proxy card, dating, signing and returning it in the postage-paid envelope provided. If you received a Notice, you may request a proxy card at any time by following the instructions on the Notice. If you are a street name holder, you will receive instructions on how you may vote from your bank or broker, unless you previously enrolled in electronic delivery.

In Person. If you are a stockholder of record, you may vote your shares in person by attending the Annual Meeting. If you are a street name holder, you may vote in person at the Annual Meeting if you have a legal proxy from the bank or broker that holds your shares. A legal proxy is a bank's or broker's authorization for you to vote the shares it holds in its name on your behalf.

Via The Internet. If you received proxy materials by mail, you also can vote through the Internet using the procedures and instructions described on the proxy card. If you received a Notice, you can vote through the Internet using the procedures and instructions described on the Notice. Street name holders may vote by Internet if their bank or broker makes those methods available, in which case the bank or broker will enclose the instructions with the proxy materials.

If the bank or broker that holds your shares does not have discretion to vote shares held in street name on a particular proposal and does not receive voting instructions on how to vote those shares, the bank or broker may return the proxy card without voting on that proposal. This is generally referred to as a broker non-vote. Your bank or broker generally may vote without instructions on routine matters such as the ratification of our independent registered public accounting firm. Your bank or broker generally may not vote without instructions on non-routine matters such as the election of directors, executive compensation and amendment of our certificate of incorporation.

All shares that have been voted properly by an unrevoked proxy will be voted at the Annual Meeting in accordance with your instructions. If you sign your proxy card or vote via the Internet, but do not give voting instructions, the shares represented by that proxy will be voted as our board of directors recommends.

If any other matters are brought properly before the Annual Meeting, the persons named as proxies in the proxy card materials will have the discretion to vote on those matters for you. As of the date of this Proxy Statement, we did not know of any other matter to be raised at the Annual Meeting.

HOW YOU CAN ACCESS THE PROXY MATERIALS FOR THE ANNUAL MEETING

Stockholders may access the proxy materials, which include the Notice of Annual Meeting, Proxy Statement (including a form of proxy card) and Annual Report on Form 10-K for the year ended December 31, 2012, on the Internet at <http://ir.dealertrack.com/proxy.cfm>. We will also provide a hard copy of any of these documents free of charge upon request, which may be sent to Investor Relations, Dealertrack Technologies, Inc., 1111 Marcus Ave., Suite M04, Lake Success, NY 11042, submitted via the form set forth on our Investor Relations site at <http://ir.dealertrack.com/contactus.cfm> or submitted by calling our Investor Relations department at (888) 450-0478.

Instead of receiving future copies of our proxy materials by mail, you can elect to receive an e-mail that will provide electronic links to these documents. Opting to receive your proxy materials online will save the cost of producing and mailing documents to your home or business, will give you an electronic link to the proxy voting site and will help preserve environmental resources.

Stockholders of Record. If you vote on the Internet at www.proxyvote.com, simply follow the prompts for enrolling in the electronic proxy delivery service. You also may enroll in the electronic proxy delivery service at any time by

going directly to <http://ir.dealertrack.com/proxy.cfm> and following the enrollment instructions.

Street Name Holders. If you hold your shares in a bank or brokerage account, you also may have the opportunity to receive the proxy materials electronically. Please check the information provided in the proxy materials you receive from your bank or broker regarding the availability of this service.

Your election to receive proxy materials by email will remain in effect until you terminate it.

TABLE OF CONTENTS

HOW TO REVOKE YOUR PROXY OR CHANGE YOUR VOTE

You can revoke your proxy or change your vote before your proxy is voted at the Annual Meeting by:

If you are a stockholder of record, giving written notice of revocation to: Secretary, Dealertrack Technologies, Inc., 1111 Marcus Ave., Suite M04, Lake Success, NY 11042;

Submitting another timely proxy or voting instruction card with a later date by mail;

Voting again over the Internet prior to 11:59 p.m., Eastern Time, on June 10, 2013 (or, if you are a street name holder, such earlier time as your bank or broker may direct); or

Attending the Annual Meeting and voting in person. If your shares are held in street name, to vote at the Annual Meeting you must obtain a proxy executed in your favor from the holder of record. Attendance at the Annual Meeting will not, by itself, revoke your prior proxy.

HOW MANY VOTES YOU HAVE

Each stockholder has one vote for each share of common stock that he or she owned on the record date for all matters being voted on.

QUORUM

A quorum is constituted by the presence, in person or by proxy, of holders of our common stock representing a majority of the aggregate number of shares of common stock entitled to vote. Abstentions and broker non-votes will be considered present to determine the presence of a quorum. If a quorum is not present, the Annual Meeting will be adjourned until a quorum is obtained.

VOTES REQUIRED

Election of Directors. The three nominees for director receiving the highest vote totals will be elected. Abstentions and broker non-votes will have no effect on the election of directors.

Ratification of PricewaterhouseCoopers LLP as our Independent Registered Public Accounting Firm. To pass, this proposal must receive a for vote of a majority of the votes present and entitled to vote in person or by proxy at the Annual Meeting. Abstentions will have the effect of a vote against the ratification of our independent registered public accounting firm.

Advisory Vote on Compensation of Our Executive Officers. The affirmative vote of a majority of the votes present and entitled to vote in person or by proxy at the Annual Meeting is required to adopt this advisory resolution. Since this proposal is advisory in nature, the results of this vote are not binding on the board of directors. However, the board of directors will consider the results of this advisory vote when considering future executive compensation decisions. Abstentions will have the effect of a vote against adoption of the advisory resolution. Broker non-votes will have no effect on this proposal.

ATTENDING THE ANNUAL MEETING

Stockholders of Record. If you are a stockholder of record and received a Notice, the Notice is your admission ticket. If you are a stockholder of record and received proxy materials by mail, your admission ticket is attached to your

proxy card. You will need to bring the Notice or the admission ticket and valid photo identification with you in order to be admitted to the Annual Meeting.

Street Name Holders. If you hold your shares in street name, bring your most recent brokerage statement or a letter from your broker or other nominee and valid photo identification with you to the Annual Meeting. We will use that statement or letter to verify your ownership of common stock and admit you to the Annual Meeting; however, you will not be able to vote your shares at the Annual Meeting without a legal proxy from your bank or broker.

Mr. Tischler currently serves on the Engineering Advisory Board at George Washington University. He holds a BS in Mathematics from the University of Maryland and an MS in Engineering and Operations

Research from The George Washington University. Our board of directors has determined that Mr. Tischler's independence, experience as President and Chief Executive Officer of Credit Online, Inc., an early entrant into Dealertrack's industry, as well as his extensive experience with First Advantage Dealer Services and CMSI, have provided him with wide knowledge of our industry and qualify him to serve as a member of our board of directors.

BOARD MEETINGS HELD DURING 2012

Our board of directors held eight meetings during 2012 and acted three times by written consent. During 2012, each director attended at least 80% of the board of directors and committee meetings held while such director served as a director and committee member. At each regular meeting of the board of directors, the non-management directors met in executive session with our lead director presiding.

BOARD INDEPENDENCE

The Nominating and Corporate Governance Committee and our board of directors annually assess the independence of the non-management directors by reviewing the financial and other relationships between the directors and the company. This review is designed to determine whether these directors are independent under the criteria established by the NASDAQ Stock Market (NASDAQ) for independent board of directors members. The Nominating and Governance Committee and our board of directors have determined that all of our non-management directors (i.e., directors other than Mr. O'Neil) qualify as independent under those standards.

In determining the independence of the following board of directors member, the board of directors considered the following relationship in addition to those addressed by the board of directors' standards of independence:

Jack McDonnell, one of our directors, is a director of a company that we have entered into a license agreement under which we paid approximately \$85,000 in fees during 2012. Mr. McDonnell is also the managing member and 45% percent owner of an investment vehicle which owns a 1/3 interest in this licensor. We are currently in negotiations to enter into an additional license agreement with this licensor in connection with supporting one of our customer's major initiatives that is expected to result in our paying this licensor approximately \$2.2 million in implementation and licensing fees during 2013 as well as provide for additional fees on a per transaction basis. We believe this agreement to be on similar terms as would have been negotiated with any other third party. A majority of the fees above represent a pass through of fees from our customer to the licensor with our making a percentage markup on the

ongoing transaction fees.

The board of directors determined that this relationship would not interfere with the director's independent judgment.

Such accounts are deemed to be invested in share units that track the value of our common stock. PROPOSAL THREE: ADVISORY VOTE ON THE COMPENSATION OF EXECUTIVE OFFICERS

General

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, enables stockholders to vote to approve on an advisory, nonbinding basis, the compensation of our Named Executive Officers, as we have described it in the Executive Compensation section of this proxy statement, beginning on page 29. This vote, commonly known as a say-on-pay vote, provides stockholders with the opportunity to express their views on our Named Executive Officers' compensation. The vote is not intended to address any specific item of our executive compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and practices described in this proxy statement. The board of directors has adopted a policy providing for annual say-on-pay votes. Unless the board of directors modifies this policy, the next say-on-pay vote will be held at our 2014 Annual Meeting of Stockholders.

Compensation Philosophy

As described in the section of this proxy statement entitled Compensation Discussion and Analysis, our executive compensation program is designed to:

- attract and retain top contributors to ensure that we have high caliber executives;
- create and maintain a performance-driven organization, by providing upside compensation opportunity for outstanding performance and downside compensation risk in the event of performance below expectations;
- align the interests of our executives and stockholders by motivating executives to increase stockholder value along with the achievement of other key corporate goals and objectives and rewarding executives when stockholder value increases;
- encourage teamwork and cooperation while recognizing individual contributions by linking variable compensation to company and individual performance based on position responsibilities and ability to influence financial and organizational results;
- provide flexibility and allow for discretion in applying our compensation principles in order to appropriately reflect individual circumstances as well as changing business conditions and priorities;
- motivate our executives to manage our business to meet and appropriately balance our short- and long-term objectives, and reward them for meeting these objectives; and
- reinforce our entrepreneurial culture.

We seek to provide executive compensation that is competitive with a peer group of companies similar in size to ours. We generally aim to set each Named Executive Officer's target total direct compensation between the median and 75th percentile of the levels paid to similarly situated executives in our peer group (with lower positioning of target cash compensation offset by higher positioning of long-term incentive grants). However, peer group data is intended to serve as one of several reference points to assist the Compensation Committee in its discussions and deliberation. The Compensation Committee reserves flexibility to vary from this positioning based on a variety of factors including prior year compensation targets, the Named Executive Officer's overall performance, changes in roles or responsibilities, and prior year short- and long-term incentive payments. The primary elements of executive compensation are base salary, an annual incentive plan, and annual grants of long-term equity awards. Executive compensation has a high proportion of total direct compensation delivered through pay-for-performance incentive and long-term equity compensation, equating to a greater proportion of at-risk compensation.

Please see our Compensation Discussion and Analysis (beginning on page 20), the compensation tables and related narrative disclosures for detailed information about our executive compensation programs, including information about the fiscal 2012 compensation of our Named Executive Officers.

TABLE OF CONTENTS

Compensation Adjustments

In an effort to align executive compensation with company performance, the performance metrics in our executive compensation plans include revenue, free cash flow, adjusted net income and total shareholder return. The objective of these programs is to focus our Named Executive Officers on achieving both short and long-term financial results. The Compensation Committee considered our 2012 budget and financial performance expectations in designing the 2012 Named Executive Officer compensation program.

The company's financial performance for 2012 experienced varied results across our performance metrics and all factors were used to determine 2012 compensation levels. As a result each of our executive officers received total direct annual compensation (base salary, actual annual incentive bonus and awarded value of stock options, restricted stock units and performance based stock units) less than his or her target amount in alignment with the Committee's pay-for performance philosophy. Specifically, each Named Executive Officer received a bonus for 2012 below his or her bonus target. The bonuses ranged from 85% of bonus target to 92% of bonus target.

Accordingly, we are requesting your nonbinding vote on the following resolution:

RESOLVED, that the stockholders of Dealertrack Technologies, Inc. approve, on an advisory basis, the compensation of the Named Executive Officers, as disclosed in this proxy statement for the 2013 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables and the related narrative disclosures.

This say-on-pay vote is advisory and, therefore, not binding on Dealertrack, our board of directors, or the Compensation Committee of the board of directors. Our board of directors and Compensation Committee value the opinions of our stockholders and will take into account the outcome of the vote when considering future executive compensation decisions and arrangements.

*Our board of directors recommends that you vote **FOR** the approval, on an advisory basis, of the compensation of our Named Executive Officers, as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC.*

COMPENSATION DISCUSSION AND ANALYSIS

In this section, we discuss and analyze the compensation paid to each of our Named Executive Officers in 2012.

Executive Summary

Financial and Strategic Achievements in 2012

Revenue was \$388.9 million, an increase of 10% from 2011 in total and an increase of 15% organically. Our adjusted EBITDA was \$97.3 million and our adjusted EBITDA margin was approximately 25%, compared to adjusted EBITDA of \$85.9 million in 2011, which represented 24% of revenue. Please see Exhibit 99.1 to our Form 8-K filed on February 25, 2013 for a reconciliation of adjusted EBITDA to GAAP net income.

While 2012 was a successful year as measured by the company's performance toward the goals it set at the outset, its achievement of those goals was not to the same extent as in prior years.

We successfully completed 3 acquisitions: ClickMotive, LLC, 1st Auto Transport Directory, Inc. and Ford of Canada's DMS business.

The Chrome Data Solutions, LP joint venture was formed.

We hired approximately 535 additional team members including through acquisitions.

Our stock price performance for 2012 was an increase of 5%. This compares to our 2- and 3- year performance of 43% and 53%.

Our Compensation Committee is Committed to Appropriate Pay Practices

A majority of all Named Executive Officer compensation is at risk, (i.e., contingent upon our meeting performance targets and/or increasing stockholder value). A small percentage of executive compensation (19% in the case of the Chief Executive Officer and 23% on average for the other Named Executive Officers) is paid out as base salary that is not contingent upon the achievement of specific performance goals and/or increases in stock price.

We pay our executives an annual cash bonus only if we achieve specific financial and operating performance goals. The performance goals are approved in advance by the Compensation Committee based on our business and operating plans, which are reviewed and approved by the full board of directors. The financial performance goals are based on free cash flow and revenue. For 2012, the Named Executive Officers were awarded between 85% to 92% of their target annual bonuses, which was significantly less than their 2011 actual bonuses.

Long-term incentives are predominantly performance-based, and consist of a combination of performance-based stock options, restricted stock units and performance shares that are designed to align the interests of our Named Executive Officers with the interests of our stockholders.

Our change of control cash severance benefits are double triggered in that they are only payable if a Named Executive Officer's employment is terminated following a change of control.

The company maintains stock ownership requirements for members of the senior management team, including all vice presidents and executive officers. Our Chief Executive Officer is required to hold shares with a value equal to six times his base salary and the other Named Executive Officers are required to hold shares with a value equal to two times their respective base salaries.

Our independent Compensation Committee makes all decisions regarding the compensation of our Named Executive Officers.

To assist in the performance of its duties, the Committee engages its own independent consultant, Frederic W. Cook & Co., Inc. (F.W. Cook). The consultant reports directly to the Committee and provides no

services to the company or management.

TABLE OF CONTENTS

At the company's annual meeting of stockholders held in June 2012, we believe the results of our say on pay vote and the significant support was indicative that no material changes to the compensation program were necessary.

Objectives of our Executive Compensation Program

Our compensation programs for our executives are designed to achieve the following objectives:

- Attract and retain top contributors to ensure that we have high caliber executives;
- Create and maintain a performance-driven organization, by providing upside compensation opportunity for outstanding performance and downside compensation risk in the event of performance below expectations;
- Align the interests of our executives and stockholders by motivating executives to increase stockholder value along with the achievement of other key corporate goals and objectives and rewarding executives when stockholder value increases;
- Encourage teamwork and cooperation while recognizing individual contributions by linking variable compensation to company and individual performance based on position responsibilities and ability to influence financial and organizational results;
- Provide flexibility and allow for discretion in applying our compensation principles in order to appropriately reflect individual circumstances as well as changing business conditions and priorities;
- Motivate our executives to manage our business to meet and appropriately balance our short- and long-term objectives, and reward them for meeting these objectives; and
- Reinforce our entrepreneurial culture.

Role of Compensation Committee in Compensation Decisions

The Compensation Committee of our board of directors makes all compensation decisions regarding senior management, which includes our Named Executive Officers and other senior officers of the company reporting directly to our Chief Executive Officer. Each member of the Compensation Committee is an independent, non-employee director. As described below, the Compensation Committee considers the Chief Executive Officer's recommendations in determining the compensation of the other Named Executive Officers. The Compensation Committee's decisions regarding the compensation of our Named Executive Officers are made outside the presence of the applicable officer. The Compensation Committee is also responsible for approving our executive compensation program and general compensation policies, all new or materially amended broad-based compensation plans, and the performance measures used in our executive compensation programs. The Compensation Committee also reviews the long-term incentive program, the deferred compensation program and the payments that would be required to be paid to the Named Executive Officers under various termination and change in control scenarios.

Role of Executive Officers in Compensation Decisions

On an annual basis, in concert with our Chief Executive Officer, our Named Executive Officers engage in a process whereby they participate in setting corporate goals, recommend goals for their respective business or function, and recommend their individual performance goals for the year to come. These goals are then presented to the Compensation Committee and/or our board of directors for their consideration and approval. Following the completion of our fiscal year, our Named Executive Officers formally assess the extent to which each executive believes his individual goals were met. Our Chief Executive Officer reviews and discusses these self-assessments with each of our Named Executive Officers and makes recommendations to the Compensation Committee concerning compensation of the Named Executive Officers other than himself. The Compensation Committee takes these recommendations into account in determining base salaries, cash incentive awards and equity-based awards for our Named Executive Officers. Our Human Resources department also works with the Compensation Committee and its

independent compensation consultant, F.W. Cook, to ensure that the Compensation Committee is provided with appropriate information upon which to base its decisions.

TABLE OF CONTENTS

Role of Independent Compensation Consultant in Compensation Decisions

The Compensation Committee engaged F.W. Cook, an independent executive compensation consulting firm, to advise the Compensation Committee on matters related to Chief Executive Officer and other executive compensation with respect to 2012. As advisor to the Compensation Committee, F.W. Cook reviews the total compensation strategy and pay levels for the Named Executive Officers, informs the Compensation Committee of developing legal and regulatory considerations affecting executive compensation and benefit programs as well as compensation trends and best practices, and provides general advice to the Compensation Committee with respect to all compensation decisions pertaining to the Named Executive Officers. F.W. Cook also provides input on non-employee director compensation, proposed meeting agendas and presentation materials submitted by management to the Compensation Committee.

To safeguard the independence of F.W. Cook, the Compensation Committee retains the consultant and has the sole authority to terminate its engagement. The Compensation Committee determines the terms and conditions of the consultant's engagement, including the fees charged. F.W. Cook reports directly to the Compensation Committee and provides no services to the company or management. The Compensation Committee has assessed the independence of F.W. Cook pursuant to SEC rules and concluded that no conflict of interest exists with respect to its services to the Committee.

Role of Say on Pay Vote in Compensation Decisions

At our 2012 Annual Meeting, over 93% of the votes cast, including abstentions, voted in favor of the compensation of our executive officers. The Compensation Committee considered the results of our 2012 say on pay vote and the significant support expressed by stockholders, and this was an important factor in the Compensation Committee's decision not to make any material changes to our executive compensation program in 2012.

Peer Group and Benchmarking

On behalf of the Compensation Committee of the company, F.W. Cook reviewed the company's executive compensation peer group that was used for 2011 compensation decisions to determine if any changes were necessary. The peer group for 2012 was updated to include the following companies, which reflects the removal of NetSuite and RightNow Technologies due to their smaller size and the inclusion of CSG Systems International, Fair Isaac and JDA Software Group due to their similarities to the company in terms of business content and size.

ACI Worldwide	Fair Isaac	TNS
Blackbaud	JDA Software Group	Tyler Technologies
Blackboard	Liquidity Services	Websense
Bottomline Technologies	Radiant Systems	Wright Express
CSG Systems International	S1 Corporation	
Digital River	Synchronoss Technologies	

Annually, the Compensation Committee reviews each Named Executive Officer's base salary, incentive bonus and equity incentive awards with the guidance of the Compensation Committee's independent consultant. While we generally aim to set each Named Executive Officer's target total direct compensation between the median and 75th percentile of the levels paid to similarly situated executives in our peer group (with lower positioning of target cash compensation offset by higher positioning of long-term incentive grants), such data is intended to serve as one of

several reference points to assist the Compensation Committee in its discussions and deliberation. The Compensation Committee reserves flexibility to vary from this positioning based on a variety of factors including prior year compensation targets, the Named Executive Officer's overall performance, changes in roles or responsibilities, and prior year short- and long-term incentive payments.

In making compensation decisions, the Compensation Committee considers all elements of executive compensation, including forms of indirect compensation, such as severance and change in control provisions. The Compensation Committee uses peer group information to ensure that the compensation program for our Named Executive Officers is competitive in our industry and the areas in which we compete for talent, and reflects the scope and responsibilities of each executive's role.

TABLE OF CONTENTS

Components of Executive Compensation for 2012

In this section, we discuss and analyze our compensation programs and the specific amounts of compensation paid to our Chief Executive Officer (CEO), Chief Financial Officer (CFO) and the other three most highly compensated executive officers for fiscal 2012. Collectively, we refer to these individuals as the Named Executive Officers. They are:

Mark F. O Neil, Chairman, President and CEO
Eric D. Jacobs, Executive Vice President, Chief Financial and Administrative Officer
Raj Sundaram, Executive Vice President, Dealer Solutions, Sales and Marketing
Rick G. Von Pusch, Senior Vice President, Sales
Richard McLeer, Executive Vice President, Chief Information Officer and Services
Base Salary

The Compensation Committee believes that payment of competitive base salaries is an important element in attracting, retaining and motivating our executive officers. The Compensation Committee also believes that having a certain level of fixed compensation allows our executive officers to dedicate their full time business attention to our company. Each executive officer's base salary is designed to provide the executive with a fixed amount of annual compensation that is competitive within the marketplace. The annual base salary for each Named Executive Officer is the primary form of fixed (not at-risk) compensation. Base salaries, however, represent 19% of total target direct compensation opportunity for the Chief Executive Officer and 23%, on average, of the target total direct compensation opportunity for the other Named Executive Officers.

Our Compensation Committee reviews base salary levels annually, but only makes adjustments based on performance, market trends and surveys of peer group compensation levels. Base salary may be adjusted during the year if a change in the scope of the executive officer's responsibilities justifies such consideration.

After not awarding any increases in 2011, the Compensation Committee, based on the Chief Executive Officer's recommendation, granted the Named Executive Officers salary increases on average of 4.7%.

Annual Incentive Bonus Plan

Annual incentive bonuses are paid to reward achievement of critical shorter term operating, financial, strategic and individual performance objectives that are expected to contribute to stockholder value creation over time.

The Compensation Committee believes variable incentive pay should be a significant portion of each Named Executive Officer's annual target cash compensation. The annual incentive bonus targets are established for the Named Executive Officers each year. In 2012, the Named Executive Officers' target bonuses ranged from 55% to 85% of their respective base salaries, and their maximum bonuses ranged from 170% to 210% of their respective target bonuses.

The Annual Incentive Bonus Plan pool is determined based the company's achievement of (a) a free cash flow target and (b) a total company revenue target for the year, as described below, which determines the percentage of target for funding the pool. The free cash flow and total company revenue goals are weighted equally in this determination. This approach is intended to balance the named executives' focus on growth in both revenues and earnings as measured by free cash flow. Our Compensation Committee may then decrease this result based on overall company performance.

Each Named Executive Officer's bonus award is calculated by multiplying the officer's annual base salary by the officer's target award percentage, and multiplying the product by the pool percentage determined by the Compensation Committee as described above. A Named Executive Officer's bonus may be increased or decreased based upon

individual performance.

The Compensation Committee uses free cash flow as a key metric to review and assess the company's operating performance and the management team's performance because it provides useful information with respect to the performance of the company's fundamental business activities, and is frequently used by equity research analysts and others in evaluating the company. Free cash flow is calculated as adjusted EBITDA less capital expenditures.

Adjusted EBITDA is defined in our quarterly and annual financial filings with the SEC.

TABLE OF CONTENTS

Our free cash flow target for 2012 for purposes of calculating named executive compensation was \$59.0 million. The company was required to achieve a threshold of at least 80% of this target in order for our executive officers to be eligible to receive any credit toward their annual incentive bonuses from free cash flow.

The free cash flow bonus pool contribution, which constituted 50% of the total bonus pool contribution, was determined as follows:

2012 Company Free Cash Flow	Free Cash Flow Bonus Pool Contribution
Less than \$47.2 million	None
\$47.2 million	25%
Between \$47.2 million and \$59.0 million	Straight line interpolation between 25% and 100% of the target pool contribution
\$59.0 million	100% of the target bonus pool contribution
Between \$59.0 million and \$64.9 million	Straight line interpolation between 100% and each employee's maximum bonus as a % of their target bonus
Over \$64.9 million (maximum)	Each employee's maximum bonus as a % of their target bonus

The Compensation Committee uses total revenue as the other key metric to review and assess the company's operating performance and the management team's performance because our total revenue reflects the extent to which we have been able to grow our businesses and increase our presence in the markets we serve. Our total revenue target for 2012 for purposes of calculating named executive compensation was \$384.0 million. The company was required to achieve a threshold of at least 92.5% of this target in order for our executive officers to be eligible to receive any credit toward their annual incentive bonuses from total revenue.

The total revenue bonus pool contribution, which constituted the other 50% of the bonus pool contribution, was determined as follows:

2012 Total Company Revenue	Total Company Revenue Bonus Pool Contribution
Less than \$355.2 million	None
\$355.2 million	25%
Between \$355.2 million and \$384.0 million	Straight line interpolation between 25% and 100% of the target pool contribution
\$384.0 million	100% of the target bonus pool contribution
Between \$384.0 million and \$393.6 million	Straight line interpolation between 100% and each employee's maximum bonus as a % of their target bonus
Over \$393.6 million (maximum)	Each employee's maximum bonus as a % of their target bonus

For fiscal 2012, our total revenue was \$388.8 million and our free cash flow was \$56.6 million. Based on the formula set forth above and these results, the company bonus pool would have been funded at 103.4% of target, however, based on overall performance compared to prior years the pool was decreased. When applying the bonus formula to individual businesses on a prorated basis, some of the businesses had performance that fell under the overall company performance. As a result, the board of directors concluded that the overall pool be adjusted downward to reflect performance below targeted financial goals of certain businesses within the company.

Our Compensation Committee has the ability to modify the bonus awarded to each executive officer depending on its assessment of performance. In making this assessment for executive officers other than the Chief Executive Officer, the Compensation Committee also considers input from our Chief Executive Officer.

TABLE OF CONTENTS

For 2012 the Compensation Committee awarded each Named Executive Officer, including our Chief Executive Officer, a bonus award in the range of 85% to 92% of their respective target based on individual performance.

Annual Equity Incentive Awards

In order to align the executive officers' interests with our stockholders, each executive officer receives an annual equity incentive award. The following factors were considered in determining the level of equity incentive awards provided to the executive officers:

- the executive's performance;
- the executive's potential future contributions to the company;
- the current compensation of the executive;
- the current overall value of the executive's long-term incentives; and
- peer group long-term incentive grant values.

For 2012, approximately one-third of the Named Executive Officers' grant date equity incentive award value was granted in the form of restricted stock units, approximately one-third in the form of performance-based stock options and approximately one-third in the form of performance-based stock units. In 2011, the Compensation Committee adopted a performance-based vesting component still in effect, under which stock option grants become eligible to vest only in the event the company improves its adjusted EBITDA performance between the year issued and the subsequent year. In 2012, our adjusted EBITDA grew 13% and the 2012 stock option grants are eligible for time-based vesting.

The annual equity grants also serve as a retention tool because they vest and are earned through service with the company over a four-year period. For example, the 2012 stock option and restricted stock unit grants both vest over a four-year period. The stock options have a seven-year life. We believe these equity grants further the long-term perspective necessary for continued success of the business. The split between award types balances the objectives of retention (time-vested restricted stock units), stock price appreciation (stock options, which only have value to the extent that the stock price appreciates from the date of grant) and performance (performance shares and stock options).

The Compensation Committee typically approves the company's annual equity grants at its first regularly scheduled meeting of a given fiscal year. Option grants to new hires are generally approved at the first regularly scheduled Compensation Committee meeting that follows the date of hire. In 2010, the Compensation Committee adopted an equity grant policy still in effect, under which equity grants are granted on the fifth business day each quarter after earnings are released.

Long-Term Equity Incentive Program

In February 2010, the Compensation Committee added performance-based stock units as a component of our Named Executive Officers' annual equity grants. The performance stock units granted to the Named Executive Officers vest only upon the achievement of certain corporate objectives, described below. These grants will vest fully only to the extent that during the applicable measurement period we achieve our Adjusted Net Income performance goals and Total Shareholder Return goals set forth below. Additionally, each executive officer must remain continuously employed with the company through January 31 of the year following the three year measurement period to qualify to receive an award. The Committee selected Total Shareholder Return as a performance metric, in order to more closely tie the compensation of our executive officers to the interests of our stockholders and ensure that the relative performance is part of our executive compensation program. The Committee selected adjusted net income as a performance metric, as it is an important measure of profitability

50% of the performance stock units (the Adjusted Net Income Units) relate to the performance of the company with respect to Adjusted Net Income, and will be eligible for vesting only to the extent the relevant Adjusted Net Income goals are met. Adjusted Net Income is calculated in the same manner as for purposes of our financial statements.

TABLE OF CONTENTS

The number of actual Adjusted Net Income Units that will be eligible to be paid to the executive (the Actual Net Income Payout), if any, will be determined as follows:

2012 Company Adjusted Net Income	Actual Net Income Payout
Below \$41,500,000	None
\$41,500,000	25% of the Target Adjusted Net Income Award
Between \$41,500,000 and \$48,800,000	Straight line interpolation between 25% and 100% of the Target Adjusted Net Income Award
\$48,800,000	100% of the Target Adjusted Net Income Award
Between \$48,800,000 and \$53,700,000	Straight line interpolation between 100% and 125% of the Target Adjusted Net Income Award
\$53,700,000 or greater	125% of the Target Adjusted Net Income Award

Based on the company's Adjusted Net Income for fiscal year 2012 of \$49.1 million, the Actual Net Income Payout will be 103% of the target payout, and will become payable subject to the satisfaction of the time-based vesting restrictions that apply through January 31, 2015.

The other 50% of the performance stock units (the TSR Units) will be eligible for vesting only to the extent the company meets its relevant total shareholder return (TSR) targets during the period from 2012 through 2014. The number of actual TSR Units that will be eligible to be paid to the executive (the Actual TSR Payout), if any, is determined based on the company's TSR for the three year period ending December 31, 2014 (the TSR Performance Period) compared with the TSR of the individual companies that comprise the NASDAQ US Benchmark Software Index.

The Actual TSR Payout will be determined as follows:

Total Shareholder Return During the TSR Performance Period (2012 to 2014)	Actual TSR Payout
25% or below	0%
Between 25 th and 50 th percentile	Straight line interpolation between 0% and 100% of Target TSR Award
50 th percentile	100% of Target TSR Award
Between 50 th and 75 th percentile	Straight line interpolation between 100% and 150% of Target TSR Award
75 th percentile or greater	150% of Target TSR Award

Stock Ownership Requirements

The Compensation Committee maintains stock ownership requirements for members of the senior management team, including all vice presidents and executive officers. Our Chief Executive Officer is required to hold shares with a value equal to six times his base salary. The other Named Executive Officers are required to hold shares with a value equal to two times their respective base salaries. Vice Presidents and other executive officers are required to hold shares equal to the lesser of (a) a multiple of their respective base salaries and (b) a fixed number of shares.

Each executive officer is expected to attain the ownership target within five years from the date he or she became subject to the guidelines. Stock options are not included in determining compliance with this share ownership

requirement. Performance stock units are not included except for any portion which may have been earned based on achievement of the applicable performance conditions, but which remain subject to additional time-based vesting requirements. Shares subject to restricted stock units are included in determining compliance with this share ownership requirement. Named Executive Officers are expected to retain 25% of the net after-tax shares acquired through the exercise of stock options until they achieve their minimum share ownership positions. Shares acquired through the company's Employee Stock Purchase Plan are credited

TABLE OF CONTENTS

toward the stock ownership requirement. The Compensation Committee annually reviews compliance with the stock ownership requirements. As of the end of 2012, our chief executive officer and the other Named Executive Officers each met the stock ownership requirements.

Employment Agreements

The company has entered into employment agreements with each of the Named Executive Officers that provide for severance equal to twelve months of base salary in the event of termination without cause or resignation for good reason, payable on the sixtieth day following the severance date. However, in the event that the executive's termination of employment is within twelve months of a change in control, the severance amount is increased to twenty-four months of base salary.

The company's employment agreements provide for limited accelerated vesting of equity grants (other than performance-based stock units) in the event of a termination of employment by the company without cause or by the Named Executive Officer for good reason. In return, each executive agrees not to compete or solicit the company's employees for one year from the date of termination.

The employment agreements also provide change in control protections for the Named Executive Officers' equity grants. In the event we undergo a change of control, the employment agreements provide for 36 months of accelerated vesting for time-based stock options and restricted stock unit grants, and full vesting of such grants in the event of termination within twelve months of the change of control. The performance-based stock unit grants provide for full acceleration upon a change in control. We believe that it is important to provide for accelerated vesting because equity grants provide such a high proportion of the total compensation. Very often, members of senior management lose their jobs in connection with a change of control. By agreeing up front to protect the Named Executive Officers from losing their equity in the event of a change in control, we believe we can reinforce and encourage the continued attention and dedication of the executive officers to their assigned duties without distraction in the face of an actual or threatened change of control.

The employment agreements entered into by the company with its Named Executive Officers prior to 2010, which include agreements for Messrs. O Neil, Jacobs, McLeer, Sundaram and Von Pusch, provide for a tax gross-up payment to the Named Executive Officers in the event they become subject to the 20% golden parachute excise tax. In 2010, the Compensation Committee approved a change for all future executives providing that such executives would not receive this tax gross-up payment.

Please see page 38 for more information regarding the material terms of the Named Executive Officers' employment agreements.

Perquisites

We believe that cash and equity compensation are the two key components in attracting and retaining management talent and generally do not provide any perquisites other than relocation expenses. For the 2012 fiscal year, no relocation expenses were paid on behalf of our Named Executive Officers.

Deferred Compensation Plan

We have a deferred compensation plan that allows the Named Executive Officers to defer bonus compensation by investing it in deferred stock units based on the fair market value of the common stock on the date the bonuses would otherwise be paid. This plan provides a tax effective means of allowing the executive officers to invest in the stock and fulfills the objective of encouraging equity ownership. None of our Named Executive Officers deferred any portion of their 2012 bonuses.

401(k) Plan

We maintain a 401(k) plan that covers substantially all of our employees. The 401(k) plan is an essential part of the retirement package needed to attract and retain employees in our industry. The 401(k) plan permits employees to contribute up to the lesser of 60% of earnings or the annual dollar limit prescribed by law. The company provides a matching contribution, the amount of which is determined at our discretion. For 2012, the matching contribution from January 1st through April 28th, was 25% of each employee's contribution up to 6% of eligible pay and from April 29th through December 31st, the matching contribution was 37.5% of each

TABLE OF CONTENTS

employee's contribution up to 6% of eligible pay, subject to Internal Revenue Code limitations. An additional company match may be earned based solely on the overall financial performance of the company. For 2012, the company provided an additional discretionary match equal to 90% from January 1st through April 28th and 30% from April 29th through December 31st, of the matching contribution that was already provided, subject to Internal Revenue Code limitations.

Section 162(m) Policy

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to their chief executive officers and certain of their other most highly compensated executive officers unless certain tests are met. The Compensation Committee's general intent is to design and administer our executive compensation programs to preserve the deductibility of compensation payments to Named Executive Officers. However, our goal of preserving the deductibility of compensation is secondary in importance to achievement of the company's compensation objectives. We believe that the potential increased tax liability is of insufficient magnitude to warrant alteration of our current executive compensation programs, which we believe are achieving our desired compensation objectives while retaining our flexibility to exercise judgment in assessing our Named Executive Officers' performances.

This column represents the aggregate grant date fair value of restricted stock unit and performance stock unit awards assuming target company performance and does not correspond to the actual value that will be recognized by the Named Executive Officers. The aggregate grant date fair values of the 2012 restricted stock unit and performance stock unit awards in the event the company achieves maximum performance are as follows: Mr.

(1) O Neil: \$1,526,138; Mr. Jacobs: \$640,595; Mr. Sundaram: \$720,585; Mr. McLeer: \$640,595; Mr. Von Pusch: \$560,605. Fair value is calculated in accordance with FASB ASC Topic 718 based on the closing price of our common stock on the date of grant. For a discussion of the assumptions and methodologies used to calculate the amounts reported, refer to Notes 2 and 14 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012. Under generally accepted accounting principles, stock-based compensation expense is generally recognized over the vesting periods applicable to the awards.

(2) This column represents the aggregate grant date fair value of stock options granted in such year calculated in accordance with FASB ASC Topic 718. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For a discussion of the assumptions and methodologies used to calculate the amounts reported, refer to Notes 2 and 14 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012. See the Grants of Plan-Based Awards Table for information on options granted in 2012. These amounts reflect the grant date fair

value for these awards, and do not correspond to the monetary value that may be recognized by the Named Executive Officers.

(3) The amounts shown include awards earned under our annual incentive bonus plan in the fiscal year although such amounts are payable in the following year.

GRANTS OF PLAN-BASED AWARDS IN 2012

The following table provides information about equity and non-equity awards granted to the Named Executive Officers in 2012:

TABLE OF CONTENTS

- For these awards, the rows show the potential value of the payout of the annual cash incentive bonuses for 2012 performance for each Named Executive Officer if the minimum, target and maximum performance levels are
- (1) achieved. The potential payout is performance-based and driven by company and individual performance. The actual amount of the annual cash incentive bonuses paid under these awards for 2012 performance is shown in the Executive Compensation Table under the Non-Equity Incentive Plan Compensation column.
- For these awards, the rows show the potential value of the performance-based stock unit grants provided to each Named Executive Officer under our equity incentive plan for 2012 performance if the minimum, target and
- (2) maximum performance levels are achieved. The potential vesting is based on the company's achievement of certain TSR and Adjusted Net Income objectives over a three year period. For more detail on these grants, please see the Compensation Discussion and Analysis section, beginning on page 20.
- For these awards, the rows show the number of stock options granted in 2012 to the Named Executive Officers pursuant to the company's Fourth Amended and Restated 2005 Incentive Award Plan. Subject to the achievement
- (3) of an adjusted EBITDA vesting condition, 25% of the shares subject to the options vest on the one year anniversary of the date of grant, and 1/36th of the remaining shares subject to the options vest each month thereafter, such that 100% of the shares subject to the options will be fully vested four years after the date of grant.
- For these awards, the rows show the number of restricted stock units granted in 2012 to the Named Executive Officers pursuant to the company's Fourth Amended and Restated 2005 Incentive Award Plan. 25% of these awards
- (4) vest each year on the anniversary of the grant date, such that 100% of the awards subject to the grant will be fully vested four years after the grant date.
- (5) This column shows the exercise price for the stock options granted during 2012. All option awards granted during 2012 were granted under the company's Fourth Amended and Restated 2005 Incentive Award Plan.

OUTSTANDING EQUITY AWARDS AT 2012 FISCAL YEAR END

The following table provides information on the current holdings of equity awards by the Named Executive Officers. This table includes unexercised and unvested option awards, unvested restricted stock units, and restricted common stock or units with performance conditions that have not yet been satisfied. Each equity grant is shown separately for each Named Executive Officer. The vesting schedule for each grant is shown following this table, based on the award grant date.

TABLE OF CONTENTS

- (1) These awards vest in four equal annual installments from date of grant.
- (2) The market value is based on the closing price of our common stock as of December 31, 2012, which was \$28.72. These are performance-based stock unit awards. The number of shares set forth represents the number that would be received by the executive if the company achieves its target performance level. Each March 9, 2010 grant relates to 2010 adjusted net income and our stock's performance during the three year period ending December 31, 2012, and will vest on or about January 31, 2013, provided that the executive officer remains employed on such date. Each February 24, 2011 grant relates equally to our 2011 adjusted net income and our stock's performance during the three year period ending December 31, 2013, and will vest on or about January 31, 2014, provided that the executive officer remains employed on such date. Each February 28, 2012 grant relates to our 2012 adjusted net income and our stock's performance during the three year period ending December 31, 2014, and will vest on or about January 31, 2015, provided that the executive officer remains employed on such date. See page 25 Long-Term Equity Incentive Program .
- (4) The market value is based on the closing price of our common stock as of December 31, 2012, which was \$28.72, without taking any discounts and assuming target level payouts on 2012 performance stock units.

Option Vesting Schedule

Because any previously applicable EBITDA vesting condition has been satisfied, the vesting schedule for stock options is 25% of the shares subject to the option vest on the one year anniversary of the date of grant, and 1/36th of the remaining shares subject to the option vest each month thereafter, such that 100% of the shares subject to the option will be fully vested four years after the date of grant.

NONQUALIFIED DEFERRED COMPENSATION

We have a deferred compensation plan that allows the executive officers to defer up to 100% of annual bonus earnings by investing it in deferred stock units based on the fair market value of the common stock on the date the bonuses would otherwise be paid. None of our Named Executive Officers elected to defer any portion of their 2010, 2011 or 2012 bonuses.

TABLE OF CONTENTS**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL**

The tables set forth below describe and quantify certain compensation that would become payable under existing plans and arrangements if the Named Executive Officer's employment had terminated on December 31, 2012, based on our closing stock price on that date. Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed may be different. Factors that could affect these amounts include the timing during the year of any such event and our stock price. None of our Named Executive Officers are entitled to any compensation in the event of a voluntary termination without good reason or an involuntary termination for cause. In the event of a payment of cash severance benefits upon termination, such payment will occur on the sixtieth day following the date of termination. The values of equity awards are calculated based on the closing stock price of \$28.72 (the closing price of our stock on December 31, 2012, the assumed termination date).

TABLE OF CONTENTS**EMPLOYMENT AGREEMENTS WITH NAMED EXECUTIVE OFFICERS**

Each of our Named Executive Officers has entered into a written employment agreement with us or one of our subsidiaries that governs the terms and conditions of their employment. Each employment agreement with respect to the Named Executive Officers provides:

The initial term of employment for each of Mr. O Neil, Mr. Jacobs, Mr. Sundaram, Mr. Von Pusch and Mr. McLeer ended on August 8, 2008 and was automatically renewed for successive one-year periods according to its terms. Each agreement will continue automatically to be extended for additional one-year periods unless either party notifies the other of non-extension at least 60 days prior to the end of a term.

The annual base salary for 2013 and 2012 for each of the Named Executive Officers is as follows:

	2013	2012
Mark F. O Neil	\$ 600,000	\$ 550,000
Eric D. Jacobs	\$ 325,000	\$ 308,500
Raj Sundaram	\$ 325,000	\$ 310,000
Rick Von Pusch	\$ 263,500	\$ 263,500
Richard McLeer	\$ 318,000	\$ 300,000

Each Named Executive Officer is eligible to receive an annual performance-based cash bonus. Each year, the amount of such bonus, if any, is determined based upon our performance relative to certain performance benchmark targets as described above under Annual Incentive Bonus.

Each Named Executive Officer is prohibited from competing with us or soliciting our employees or customers during the term of his employment and for a period of two years thereafter, and from disclosing our confidential or proprietary information indefinitely.

In the event that a Named Executive Officer's employment is terminated by us without cause, death or disability, or by the executive for good reason, the Named Executive Officer will be entitled to be reimbursed for COBRA payments for a period of one year following termination and to be paid an amount equal to his base salary for a period of one year, however, if the termination is following a change in control, he will be paid an amount equal to his base salary for a period of two years. Additionally, the Named Executive Officer shall be entitled to receive a pro rata annual bonus based on the percentage of the year worked through the date of termination. Notwithstanding the foregoing, in no event will any Named Executive Officer be entitled to receive any such payment or benefits after he or she violates any non-compete, non-disclosure or non-solicit covenant. Cause means any of the following: (i) the executive officer's conviction for a felony, commission of fraud or embezzlement upon us; (ii) the executive officer's commission of any willful act intended to injure our reputation, business, or business relationships; (iii) the refusal or failure to perform his duties with us in a competent and professional manner (in certain cases, with a cure period of ten business days); or (iv) the refusal or failure of the executive officer to comply with any of his material obligations under his employment agreement (in certain cases, with a cure period of ten business days). Good reason means any of the following: (i) a material breach by us of an executive officer's employment agreement or in connection with our stock incentive plans (which has not been cured within the allotted time); (ii) a material reduction of an executive officer's title or duties or the assignment to the officer of any duties materially inconsistent with his then current position; (iii) any material reduction in the executive officer's salary or benefits; (iv) the failure of any successor entity to assume the terms of the executive officer's employment agreement upon a change of control; or (v) relocation of the officer's location a distance of at over fifty miles; or (vi) if we do not renew the executive officer's employment agreement upon its expiration.

In the event that a Named Executive Officer's employment is terminated by us without cause or by the executive for good reason, the Named Executive Officer shall be credited with twenty-four months of accelerated vesting with respect to any options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan. Upon a change of control, the Named Executive Officer shall automatically be credited with

38

TABLE OF CONTENTS

thirty-six months of accelerated vesting with respect to any options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan. Further, in the event that, within twelve months following a change of control, a Named Executive Officer's employment is terminated or his position is eliminated or he experiences a material negative change in his compensation or responsibilities or he is required to be based at a location more than 50 miles from his current work location, any remaining unvested options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan shall become fully vested. Change of control means any of the following: (i) certain transactions or series of transactions in which a third party directly or indirectly acquires more than 50% of the total combined voting power of our securities (other than through registered public offerings, employee benefit plans and transactions with affiliates); (ii) over a two year period, our directors who were nominated by our stockholders or elected by our board of directors cease to constitute a majority of our board of directors; (iii) a merger, consolidation, reorganization, business combination, sale or other disposition of all or substantially all of our assets or the acquisition of assets or stock of another entity, in which our voting securities outstanding immediately before the transaction cease to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction, or after which a person or group beneficially owns voting securities representing 50% or more of the combined voting power of the successor entity; provided, however, that no person or group shall be deemed to beneficially own 50% or more of combined voting power of the successor entity solely as a result of the voting power held in us prior to the consummation of the transaction; or (iv) our stockholder's approval of a liquidation or dissolution. In the case of those Named Executive Officers who have entered into employment agreements with one of our subsidiaries rather than with the parent company, change of control also means the occurrence of any of the above with respect to such subsidiary.

Each Named Executive Officer is entitled to a gross-up payment that, on an after-tax basis, is equal to the taxes imposed on the severance payment under the Named Executive Officer's employment agreement and any other benefits in the event any payment or benefit to the Named Executive Officer is considered an excess parachute payment and subject to an excise tax imposed by Section 4999 of the Internal Revenue Code. In 2010, the Compensation Committee approved a change for all future executives providing that such executives would not receive this tax gross-up payment.

Mr. Sundaram's employment agreement contains a separate Unfair Competition and Nonsolicitation Agreement in which he agreed not to solicit from or compete with our ALG business for a period of ten years from May 25, 2005. On October 1, 2011 we sold our ALG business to a third party.
