**UNIVERSAL SECURITY INSTRUMENTS, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**Statement of Management**

The condensed consolidated financial statements include the accounts of Universal Security Instruments, Inc. (USI or the Company) and its majority owned subsidiaries. Significant inter-company accounts and transactions have been eliminated in consolidation. In the opinion of the Company's management, the interim condensed consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. The condensed consolidated balance sheet as of March 31, 2014 was derived from audited financial statements as of and for the year ended March 31, 2014. The interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's March 31, 2014 audited financial statements filed with the Securities and Exchange Commission on Form 10-K. The interim operating results are not necessarily indicative of the operating results for the full fiscal year.

**Use of Estimates**

The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (US-GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ materially from those estimates.

**Joint Venture**

The Company and its joint venture partner, a Hong Kong corporation, each owns a 50% interest in a Hong Kong joint venture, Eyston Company Limited (the "Joint Venture"), that manufactures security products in its facilities located in the People's Republic of China. The following represents summarized balance sheet and income statement information of the Joint Venture as of and for the nine months ended December 31, 2014 and 2013:

	2014	2013
Net sales	\$12,508,403	\$16,424,133
Gross profit	2,678,840	4,283,152
Net (Loss) income	(832,838 )	633,945
Total current assets	12,758,188	15,148,093
Total assets	32,804,224	35,368,407
Total current liabilities	5,336,225	6,005,538
Total liabilities	5,336,225	6,011,317

During the nine months ended December 31, 2014 and 2013 the Company purchased \$4,844,335 and \$6,122,297, respectively, of products directly from the Joint Venture for resale. For the nine month periods ended December 31, 2014 and 2013 the Company has adjusted its earnings of the Joint Venture to reflect an increase of \$80,950 and \$154,536, respectively, to eliminate inter-Company profit on purchases held by the Company in inventory.

### **Income Taxes**

We calculate our interim tax provision in accordance with the guidance for accounting for income taxes in interim periods. At the end of each interim period, we estimate the annual effective tax rate and apply that tax rate to our ordinary quarterly pre-tax income. The tax expense or benefit related to discrete events during the interim period is recognized in the interim period in which those events occurred. In addition, the effect of changes in enacted tax laws or rates or tax status is recognized in the interim period in which the change occurs.

The Company recognizes a liability or asset for the deferred tax consequences of temporary differences between the tax basis of assets or liabilities and their reported amounts in the financial statements. These temporary differences may result in taxable or deductible amounts in future years when the reported amounts of the assets or liabilities are recovered or settled. The deferred tax assets are reviewed periodically for recoverability and a valuation allowance is provided whenever it is more likely than not that a deferred tax asset will not be realized. The Company established a full valuation allowance of approximately \$2,311,000 on its deferred tax assets during the year ended March 31, 2014 to recognize that certain foreign tax credits expiring in future periods will likely not be realized. This determination was made based on continued taxable losses during fiscal 2014 that were not in line with projections, as well as product offering delays which cause uncertainty as to whether the Company will generate sufficient taxable income to use the deferred tax assets prior to expiration. Our ability to realize the tax benefits associated with the deferred tax assets depends primarily upon the timing of future taxable income and the expiration dates of the components of the deferred tax assets. If sufficient future taxable income is generated, we may be able to offset a portion of future tax expenses.

The Company follows ASC 740-10 that gives guidance to tax positions related to the recognition and measurement of a tax position taken or expected to be taken in a tax return and requires that we recognize in our financial statements the impact of a tax position, if that position is more likely than not to be sustained upon an examination, based on the technical merits of the position. Interest and penalties related to income tax matters are recorded as income tax expenses. The Company has recorded a long-term liability of \$25,000 for an uncertain income tax position, tax penalties and any imputed interest thereon.

#### **Accounts Receivable and Amount Due From Factor**

The Company assigns the majority of its short-term receivables arising in the ordinary course of business to our factor. At the time a receivable is assigned to our factor the credit risk associated with the credit worthiness of the debtor is assumed by the factor. The Company continues to bear any credit risk associated with delivery or warranty issues related to the products sold.

Management assesses the credit risk of both its trade accounts receivable and its financing receivables based on the specific identification of accounts that have exceeded credit terms. An allowance for uncollectible receivables is provided based on that assessment. Changes in the allowance account are charged to operations in the period the change is determined. Amounts ultimately determined to be uncollectible are eliminated from the receivable accounts and from the allowance account in the period that the receivables' status is determined to be uncollectible.

Based on the nature of the factoring agreement and prior experience, no allowance related to Amounts Due from Factor has been provided. At December 31, 2014 and 2013, an allowance of approximately \$57,000 has been provided for uncollectible trade accounts receivable.

## **Net Income per Common Share**

Basic earnings per common share are computed based on the weighted average number of common shares outstanding during the periods presented. Diluted earnings per common share is computed based on the weighted average number of common shares outstanding plus the effect of stock options and other potentially dilutive common stock equivalents. The dilutive effect of stock options and other potentially dilutive common stock equivalents is determined using the treasury stock method based on the Company's average stock price.

Dilutive income per common share for the three and nine month periods ended December 31, 2014 excludes 25,000 shares issuable upon the exercise of "in the money" stock options as their impact on net loss is anti-dilutive. There were no potentially dilutive stock equivalents outstanding during the three and nine month periods ended December 31, 2014. As a result, basic and diluted weighted average common shares outstanding are identical for the three and nine month periods ended December 31, 2014 and 2013.

## **Shareholders' Equity**

*Stock Options.* In October 2011, the shareholders approved the Company's 2011 Non-Qualified Stock Option Plan (the "Plan"). Under the terms of the Plan, 120,000 shares are reserved for the granting of stock options, of which 97,000 were issued. Under the provisions of the Plan, a committee of the Board of Directors determines the option price and the dates exercisable. During December 2011, ninety-seven thousand (97,000) options were granted at an option price of \$5.51 per share. These options expired December 14, 2013, with no forfeiture or exercise activity.

In addition, in March 2009, 25,000 options were granted at \$3.25 for restricted shares of the Company's common stock. These options are fully vested and were exercised in March 2014.

For the three and nine month periods ended December 31, 2013, we recorded \$11,116 and \$55,585, respectively of stock-based compensation cost as general and administrative expense in our statement of operations.

### **Contingencies**

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on consultation with legal counsel, that material losses from litigation are not reasonably likely.

### **Recent Accounting Pronouncements Not Yet Adopted**

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers,” which requires an entity to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. The new standard will replace most of the existing revenue recognition standards in U.S. GAAP when it becomes effective on January 1, 2017. Early adoption is not permitted. The new standard can be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the change recognized at the date of the initial application. We are currently assessing the impact the adoption of ASU 2014-09 will have on our condensed consolidated financial position, results of operations and cash flows.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

As used throughout this Report, "we," "our," "the Company" "USI" and similar words refers to Universal Security Instruments, Inc.

**Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains certain forward-looking statements reflecting our current expectations with respect to our operations, performance, financial condition, and other developments. These forward-looking statements may generally be identified by the use of the words "may", "will", "believes", "should", "expects", "anticipates", "estimates", and similar expressions. These statements are necessarily estimates reflecting manageme
