INFORMATION ABOUT VOTING

Who Can Vote at the Meeting. You are entitled to vote the shares of the Company's common stock that you owned as of the close of business on March 3, 2016. As of the close of business on March 3, 2016, 4,652,292 shares of Company common stock were outstanding. Each share of common stock has one vote.

Voting by Proxy. This proxy statement is being sent to you by the Board of Directors of the Company to request that you allow your shares of The Community Financial Corporation common stock to be represented at the annual meeting by the persons named in the enclosed proxy card. All shares of the Company's common stock represented at the meeting by properly executed, dated proxies will be voted according to the instructions indicated on the proxy card. If you sign, date and return a proxy card without giving voting instructions, your shares will be voted as recommended by the Company's Board of Directors. The Board of Directors recommends that you vote:

“**FOR**” each of the nominees for director;

“**FOR**” ratification of the appointment of Stegman & Company as the Company's independent registered public accounting firm; and

“**FOR**” the approval of the compensation of the named executive officers.

If any matters not described in this proxy statement are properly presented at the annual meeting, the persons named in the proxy card will use their judgment to determine how to vote your shares. This includes a motion to adjourn or postpone the meeting to solicit additional proxies. If the annual meeting is postponed or adjourned, your common stock may also be voted by the persons named on the proxy card on the new meeting date, unless you have revoked your proxy. The Company does not know of any other matters to be presented at the annual meeting.

Registered stockholders can vote their shares of The Community Financial Corporation common stock by mailing a proxy card, via the Internet or by telephone. Specific instructions for Internet or telephone voting are set forth on the enclosed proxy or voting instruction card. The Internet and telephone voting procedures are designed to authenticate stockholders' identities, allow stockholders to provide their voting instructions and confirm that their instructions have been recorded properly. The deadline for voting by telephone or via the Internet is 11:59 p.m., Eastern time, on May 1, 2016.

Ownership of Shares; Attending the Meeting. You may own shares of the Company in one of the following ways:

Directly in your name as the stockholder of record;

Indirectly through a broker, bank or other holder of record in “street name”; or

Indirectly in the Community Bank of the Chesapeake Employee Stock Ownership Plan.

If your shares are registered directly in your name, you are the holder of record of these shares and we are sending these proxy materials directly to you. As the holder of record, you have the right to give your proxy directly to us or to vote in person at the annual meeting.

If you hold your shares in street name, your broker, bank or other holder of record is sending these proxy materials to you. As the beneficial owner, you have the right to direct your broker, bank or other holder of record how to vote by filling out a voting instruction form that accompanies your proxy materials. Your broker, bank or other holder of record may allow you to provide voting instructions by telephone or via the Internet. Please see the voting instruction form provided by your broker, bank or other holder of record that accompanies this proxy statement. If you hold your shares in street name, you will need proof of ownership to be admitted to the annual meeting. A recent brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of The Community Financial Corporation common stock held in street name in person at the annual meeting, you must obtain

a written proxy in your name from the broker, bank or other nominee who is the record holder of your shares.

If you participate in the Community Bank of the Chesapeake Employee Stock Ownership Plan, you will receive a voting instruction card that reflects all shares you may direct the plan trustees to vote on your behalf under the plan. Under the terms of the Employee Stock Ownership Plan, all allocated shares of Company stock held by the plan are voted by the trustees, as directed by plan participants. All unallocated shares of Company common stock held by the plan, and allocated shares for which no voting instructions are received, are voted by the trustees in the same proportion as shares for which the trustees have received timely voting instructions, subject to the exercise of their fiduciary duties. **The deadline for returning your voting instructions to the Employee Stock Ownership Plan trustees is April 25, 2016.**

Quorum. We will have a quorum and will be able to conduct the business of the annual meeting if the holders of a majority of the outstanding shares of common stock entitled to vote are represented at the meeting. If you return valid proxy instructions or attend the meeting in person, we will count your shares to determine whether there is a quorum, even if you abstain from voting. Broker non-votes (described below) also will be counted to determine the existence of a quorum.

Votes Required for Proposals. In voting on the election of directors, you may vote in favor of the nominees, withhold votes for all of the nominees, or withhold votes as to any of the nominees. There is no cumulative voting for the election of directors. Directors must be elected by a plurality of the votes cast at the annual meeting.

In voting on the ratification of the appointment of Stegman & Company as the Company's independent registered public accounting firm and on the non-binding resolution to approve the compensation of the named executive officers, you may vote in favor of the proposal, vote against the proposal or abstain from voting. All proposals will be decided by the affirmative vote of a majority of the shares cast at the annual meeting.

For all proposals, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the outcome of the voting on the proposals.

Effect of Not Casting Your Vote. If you hold your shares in street name it is critical that you cast your vote if you want it to count in the election of directors (Item 1 of this proxy statement) and the approval of the non-binding advisory vote on executive compensation (Item 3 of this proxy statement). Current regulations restrict the ability of your bank or broker to vote your shares on these matters on a discretionary basis. Thus, if you hold your shares in street name and you do not instruct your bank or broker how to vote in the election of directors and the approval of the non-binding advisory vote on executive compensation no votes will be cast on your behalf. These are referred to as broker non-votes. Your bank or broker will, however, continue to have discretion to vote any shares for which you do not provide voting instructions on the ratification of the appointment of the Company's independent registered public accounting firm (Item 2 of this proxy statement). If you are a stockholder of record and you do not cast your vote, no votes will be cast on your behalf on any of the items of business at the annual meeting.

Revocation of Proxy. Stockholders who execute proxies retain the right to revoke them at any time. Unless revoked, the shares represented by such proxies will be voted at the annual meeting and all adjournments thereof. Proxies may be revoked by written notice delivered in person or mailed to the Secretary of the Company, by delivering a later-dated proxy or by attending the annual meeting and voting in person. Attendance at the annual meeting will not in and of itself constitute revocation of your proxy.

CORPORATE GOVERNANCE

Director Independence. The Company's Board of Directors currently consists of nine members, all of whom are independent under the listing requirements of The NASDAQ Stock Market, except for Michael L. Middleton and William J. Pasenelli, who are employees of the Company and the Bank. In determining the independence of its directors, the Board considered transactions, relationships and arrangements between the Company and its directors that are not required to be disclosed in this proxy statement under the heading "*Relationships and Transactions with the Company and the Bank,*" including (1) legal services performed by the Jenkins Law Firm, LLC, of which Louis P. Jenkins, Jr. is a principal, and (2) loans or lines of credit that the Bank has directly or indirectly made to each of the directors on the Board.

Board Leadership Structure. The Company currently separates the offices of President and Chief Executive Officer and Chairman of the Board. Doing so allows the President and Chief Executive Officer to better focus on his responsibilities of managing the day-to-day operations of the Company, enhancing stockholder value and expanding and strengthening the franchise while allowing the Chairman of the Board to lead the Board in its fundamental role of providing advice to and oversight of management. The Board also has created a Lead Director position to further enhance Board independence and oversight. Joseph V. Stone, Jr. is currently the Lead Director of the Board of Directors. Among other things, the Lead Director (1) presides at meetings of the Board at which the Chairman of the Board is not present, including executive sessions of the independent directors, and (2) may call meetings of the independent directors.

The Board's Role in Risk Oversight. Risk is inherent with every business and how well a business manages risk can ultimately determine its success. We face a number of risks, including credit risk, interest rate risk, liquidity risk, operational risk, strategic risk and reputation risk. Management is responsible for the day-to-day management of risks the Company faces, while the Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, the Board of Directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed. To do this, senior management attends the Board meetings and is available to discuss strategy and risks facing the Company and to address any questions or concerns raised by the Board on risk management and any other matters. The Board also provides strong oversight of the Company's management and affairs through its standing committees and, when necessary, special meetings of independent directors.

Committees of the Board of Directors. The following table identifies the members of the Board's Audit, Enterprise Risk Management, Governance and Compensation Committees as of March 3, 2016. All members of the Audit, Governance and Compensation Committees are independent in accordance with the listing requirements of The NASDAQ Stock Market. Each committee operates under a written charter, which is approved by the Board of Directors, that governs its composition, responsibilities and operation. Each committee reviews and reassesses the adequacy on its charter at least annually. The charters of the committees are available in the Investor Relations portion of the "About Community Bank" section of the Company's website (www.cbtc.com).

** Lead Director

Audit Committee. The Audit Committee engages the Company's independent registered public accounting firm and meets with them in connection with their annual audit and reviews the Company's accounting and financial and regulatory reporting policies and practices. Other responsibilities of the Audit Committee include engagement of compliance and internal audit providers and the review with management of reports issued by such parties. The Board of Directors has determined that the Audit Committee does not have a member who is an "audit committee financial expert" as defined under the rules and regulations of the Securities and Exchange Commission. While the Board has not designated any individual Board member as an "audit committee financial expert," the Board believes the level of financial knowledge and experience of the current members of the Audit Committee, including the ability to read and understand financial statements, is cumulatively sufficient to discharge the Audit Committee's responsibilities.

Enterprise Risk Management Committee. The Enterprise Risk Management Committee assists the Board in its oversight responsibilities by focusing specifically on the Company's enterprise risk management activities including the significant policies, procedures and practices employed to manage capital adequacy, market risk, earnings, credit risk, liquidity, compliance, regulatory, legal, reputation, and strategic operational risk and by providing recommendations to the Board and management on strategic guidance with respect to the assumption, management and mitigation of risk.

Governance Committee. The Governance Committee is responsible for promoting sound corporate governance policies that promote the best interests of the Company and its stockholders. The Committee's responsibilities include: identification of director candidates; director education; recommendations on the size and composition of the Board and the boards of any subsidiaries, review of any shareholder proposals; monitoring of regulatory and statutory compliance; review of committee charters; and evaluations of Board oversight and effectiveness. The Governance Committee also annually reviews and recommends, in conjunction with the Compensation Committee, the appropriate level of director compensation.

Compensation Committee. The Compensation Committee approves the compensation objectives for the Company and the Bank and establishes the compensation for the Chief Executive Officer and other executives. Our Chief Executive Officer, Chief Operating Officer and Chief Administrative Officer make recommendations to the Compensation Committee from time to time regarding the appropriate mix and level of compensation for other executives. The Compensation Committee reviews compensation for the Company's executive officers to ensure an appropriate balance between short-term pay and long-term incentives. In addition to reviewing competitive market values, the Compensation Committee also examines the total compensation mix, pay-for-performance relationship, and how all elements, in the aggregate, comprise the executive's total compensation package. Decisions by the Compensation Committee with respect to the compensation of executive officers are approved by the full Board of Directors. The Compensation Committee also annually reviews and recommends, in conjunction with the Governance Committee, the appropriate level of director compensation.

Director Nomination Process. The Governance Committee selects nominees for election as directors. The Governance Committee seeks to create a Board that is strong in its collective knowledge and has a diversity of skills

and experience in accounting and finance, management and leadership, vision and strategy, business operations, business judgment, industry knowledge and corporate governance. To accomplish this, the Governance Committee considers a candidate's knowledge of the banking business and involvement in community, business and civic affairs, and also considers whether the candidate would adequately represent the Company's market area. Any nominee for director must be highly qualified with regard to some or all these attributes. In searching for qualified director candidates to fill vacancies on the Board, the Governance Committee solicits its current directors for the names of potential qualified candidates. The Governance Committee may also ask its directors to pursue their business contacts for the names of potentially qualified candidates. The Governance Committee would then consider the potential pool of director candidates, select the top candidates based on the candidates' qualifications and the Company's needs, and conduct a thorough investigation of each proposed candidate's background. If a stockholder has submitted a proposed nominee in accordance with the procedures specified below, the Governance Committee would consider the proposed nominee, along with any other proposed nominees recommended by directors, in the same manner in which the Governance Committee would evaluate nominees for director recommended by the Board of Directors.

Consideration of Recommendations by Stockholders. The Governance Committee will consider recommendations for directors submitted by stockholders. Stockholders who wish the Governance Committee to consider their recommendations for nominees for director should submit their recommendations in writing to the Governance Committee in care of the Secretary, The Community Financial Corporation, 3035 Leonardtown Road, Waldorf, Maryland 20601. Each written recommendation must set forth (1) the name of the recommended candidate, (2) the number of shares of stock of the Company that are beneficially owned by the stockholder making the recommendation and by the recommended candidate, and (3) a detailed statement explaining why the stockholder believes the recommended candidate should be nominated for election as a director. In addition, the stockholder making such recommendation must promptly provide any other information reasonably requested by the Governance Committee. To be considered by the Governance Committee for nomination for election at an annual meeting of stockholders, the recommendation must be received by the January 1 preceding that annual meeting.

Board and Committee Meetings. During 2015, the Board of Directors of the Company held four meetings. No director attended fewer than 75% of the meetings of the Board of Directors and Board committees on which they served in 2015.

Director Attendance at Annual Meeting of Stockholders. While the Company does not have a policy regarding Board member attendance at annual meetings of stockholders it encourages directors to attend the annual meeting of stockholders. All of the Company's directors attended the Company's 2015 annual meeting of stockholders.

Code of Ethics. The Community Financial Corporation maintains a Code of Ethics that is designed to ensure that the Company's directors and employees meet the highest standards of ethical conduct. The Code of Ethics, which applies to all employees and directors, addresses conflicts of interest, the treatment of confidential information, general employee conduct and compliance with applicable laws, rules and regulations. In addition, the Code of Ethics is designed to deter wrongdoing and promote honest and ethical conduct, the avoidance of conflicts of interest, full and accurate disclosure and compliance with all applicable laws, rules and regulations. Under the terms of the Code of Ethics, violations of the Code of Ethics are required to be reported to the Audit Committee of the Board of Directors. A copy of the Code of Ethics was filed as an exhibit to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Employee directors receive only the annual retainer and Board meeting fees; they do not receive fees for committee meetings.

Directors Retirement Plan. The Bank maintains a retirement plan for non-employee members of the Board of Directors of the Bank (the “Directors’ Plan”). Under the Directors’ Plan, each eligible director of the Bank will receive an annual retirement benefit for ten years following his or her termination of service on the Bank’s Board in an amount equal to the product of his “Benefit Percentage” and \$3,500. A participant’s “Benefit Percentage” is 0% for less than five years of service, 33 % for five to nine years of service, 66 % for 10 to 14 years of service, and 100% for 15 or more years of service. If a participant terminates service on the Board due to disability, the Bank will pay the participant each year for ten years an amount equal to the product of his or her Benefit Percentage and \$3,500. If a participant dies before collecting either his or her retirement or disability benefit, the participant’s surviving spouse or estate will

receive a lump sum payment having a present value equal to five times the annual retirement benefit to which the participant was entitled, assuming the participant separated service on the date of death. If the participant dies after beginning to receive his or her retirement or disability benefits, the participant's surviving spouse or estate will receive a lump sum payment having a present value equal to the remaining benefits to which the participant was entitled from the date of death through the tenth annual payment thereafter. A participant will become fully vested in the event of a "change in control" (as defined in the Directors' Plan) or upon separation from service on the Board after attaining the age 72 or incurring a disability.

The Directors' Plan also establishes a deferred compensation program for participants, under which they may elect to defer all or any portion of the fees and/or salary otherwise payable. Deferred amounts may be credited quarterly and adjusted annually with a rate of return equal to the Company's return on equity for the calendar year, as determined under accounting principles generally accepted in the United States.

AUDIT RELATED MATTERS

Report of the Audit Committee. The Company's management is responsible for the Company's internal controls and financial reporting process. The Company's independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and issuing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States. The Audit Committee oversees the Company's internal controls and financial reporting process on behalf of the Board of Directors.

The Audit Committee has met and held discussions with management and the independent registered public accounting firm. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm. The Audit Committee discussed with the independent registered public accounting firm matters required to be discussed by Statement on Auditing Standard No. 16, as amended (AICPA, *Professional Standards*, Vol. 1. AU Section 380) as adopted by the Public Company Accounting Oversight Board in Rule 3200T, including the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosures in the financial statements.

In addition, the Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence from the Company and its management. In concluding that the registered public accounting firm is independent, the Audit Committee considered, among other factors, whether the non-audit services provided by the firm were compatible with its independence.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for its audit. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of its examination, its evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting.

In performing all of these functions, the Audit Committee acts only in an oversight capacity. In its oversight role, the Audit Committee relies on the work and assurances of the Company's management, which has the primary responsibility for financial statements and reports, and of the independent registered public accounting firm that, in its report, expresses an opinion on the conformity of the Company's financial statements to accounting principles generally accepted in the United States. The Audit Committee's oversight does not provide it with an independent

basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent registered public accounting firm do not assure that the Company's financial statements are presented in accordance with accounting principles generally accepted in the United States, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent registered public accounting firm is "independent."

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the Securities and Exchange Commission.

Item 2 – Ratification of the Independent Registered Public Accounting Firm.

Stegman & Company, which was the Company's independent registered public accounting firm for 2015, has been retained by the Audit Committee of the Board of Directors to be the Company's independent registered public accounting firm for 2016, subject to ratification by the Company's stockholders. A representative of Stegman & Company is expected to be present at the annual meeting and will have the opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

If the ratification of the appointment of the independent registered public accounting firm is not approved by a majority of the votes cast by stockholders at the annual meeting, the Audit Committee may consider other independent registered public accounting firms.

The Board of Directors recommends that stockholders vote “FOR” the ratification of the appointment of Stegman & Company as the Company’s independent registered public accounting firm.

Item 3 – Advisory Vote on Executive Compensation.

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) requires that we provide our stockholders with the opportunity to express their views, on a non-binding basis, on the compensation of our named executive officers as disclosed in this proxy statement. This vote, which is often referred to as the “say-on-pay” vote, provides stockholders with the opportunity to endorse or not endorse the following resolution:

“Resolved, that the stockholders approve the compensation of the named executive officers, as described in the tabular disclosure regarding named executive officer compensation and the accompanying narrative disclosure in this proxy statement.”

Because your vote is advisory, it will not be binding upon the Compensation Committee or the Board of Directors. However, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

The Board of Directors unanimously recommends a vote “FOR” approval of the compensation of the named executive officers.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis is intended to provide shareholders with a description of the Company’s executive compensation philosophy, components of its executive compensation program, and the factors considered by the Compensation Committee (or “committee” in this section) for determining executive compensation for our named executive officers in 2015. Our 2015 named executive officers are our Chief Executive Officer, Chief Financial Officer and our next three most highly-compensated executive officers who were serving as an executive officer at the end of 2015. This compensation discussion and analysis should be read in conjunction with the compensation tables and associated narrative that follows.

William J. Pasenelli	President & Chief Executive Officer
Todd L. Capitani	EVP, Chief Financial Officer
James M. Burke	EVP, Chief Risk Officer
Gregory C. Cockerham	EVP, Chief Lending Officer
Michael L. Middleton	Executive Chairman

The Company's compensation program for our named executive officers is structured to motivate and retain our talented team of executives who are critical to the Company's success. Our competitive salary and benefits program reflects a balanced and responsible pay approach while also considering the environment in which the company operates. Our executive compensation program is designed to reward our executive management team for delivering results and driving sustainable growth. The Company seeks to accomplish this goal in a way that rewards performance and is aligned with its shareholders' long-term interests.

2015 Performance Highlights

During 2015, the Company and its subsidiary Community Bank of the Chesapeake (the "Bank") made a number of strategic decisions to meet our longer-term objectives of increased profitability and increased shareholder value. The Company continued to execute its plans to improve asset quality, increase transaction deposits, and slow the growth of compensation and benefits and operating expenses.

Net income available to common shareholders for 2015 was stable compared to the prior year increasing \$30,000 to \$6.3 million, or 0.5%, compared to 2014. The Company's return on average assets ("ROAA") was 0.58% in 2015, a decrease of five basis points from 2014. The Company's return on average common stockholders' equity was 6.33% in 2015, a decrease of 36 basis points from 2014. Net income growth was slowed by lower than anticipated net loan growth, a one-time sale of branch premises and equipment and higher OREO costs compared to the prior year.

A more detailed analysis comparing the results of operations for the years ended December 31, 2015 and 2014 is provided in the Annual Report on Form 10-K for the year ended December 31, 2015.

2015 Executive Compensation Decisions

The Compensation Committee began its work on executive compensation for 2015 by assessing competitive market compensation using a number of data sources including publicly disclosed information on a selected peer group of publicly traded banking organizations similar in asset size and geographic region. Consideration was given to the Company's 2014 financial performance and the goals and objectives set forth in the Company's strategic plan. There were no material changes to the elements of executive compensation in 2015. In 2015, the Committee approved the addition of tiered payout levels based upon our ROAA achievement, which impacted the total percentage of the pool distributed to named executives and other key officers.

The committee approved modest increases to base salaries for 2015. Incentive award targets and objectives were aligned with the annual strategic plan approved by the board. Based on the Company's performance and the achievement of specific strategic objectives, the committee approved cash and equity awards as described under Performance-Based Incentive Compensation and Long-Term Equity Awards sections. For 2015 the Company's ROAA achievement resulted in an incentive pool of eight percent (8%) of net income after income taxes and before benefits.

Say On Pay Vote Results

The Company provides its shareholders with the opportunity to cast an annual advisory vote on executive compensation. At the Company's 2015 annual meeting of shareholders, approximately 82% of the votes cast on the say-on-pay proposal were voted for the proposal, demonstrating support of the committee's executive pay decisions.

The committee will continue to consider the results of the Company's say-on-pay votes when making future compensation decisions for the named executive officers.

Compensation Philosophy and Guiding Principles

Our compensation philosophy is grounded on the following guiding principles:

Team-Based Approach. Each named executive officer is a member of the Company's executive team. The Company's executive compensation program is intended to promote and maintain stability within the executive team.

Performance Expectations. The Company has clear performance expectations of its officers that are reinforced by its performance review and compensation programs. First, each executive officer must demonstrate exceptional personal performance in order to remain part of the executive team. Second, each executive officer must contribute to the Company's overall success, rather than focus solely on specific objectives within the officer's area of responsibility.

Internal Equity. Because the Company's executive officers operate as a team, the committee considers internal pay equity to be an important factor in its decisions on executive compensation. As a result, the incentive portion of compensation awarded to each of the Company's executive officers in 2015 was generally the same, when expressed as a percent of salary.

Ownership. We believe executives should have an ownership position in our Company. Under the Company's stock ownership guidelines, our CEO is expected to own shares of Company common stock that have a value equal to 1.5 times his base salary. Other named executives must own 1.0 times their salary and until these target ownership levels are reached, an executive must retain 100% of his or her net shares from any vested awards (after taxes and any exercise price). All named executive officers, with the exception of Mr. Capitani, met the minimum stock ownership requirements at the end of 2015. Because an executive officer must retain a percentage of net shares acquired from equity awards until the specified target of ownership is met, there is no minimum time period required to achieve the target level of ownership.

Risk Considerations

In addition to our guiding principles, the Company engages in the following practices to ensure its executive compensation program is aligned with shareholders' interests and protects us against risk. We believe that the design and objectives of our executive compensation program provide an appropriate balance of incentives for executives and avoid inappropriate risks. The committee considers, in establishing and reviewing the executive compensation program, whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. In this regard, our executive compensation program includes, among other things, the following design features:

- Variable compensation based on a variety of performance goals
- Compensation Committee discretion to lower annual incentive award amounts
- Balanced mix of short-term and long-term incentives
- Stock ownership requirements
- Claw-back provisions

The committee conducts an annual evaluation of all of the Company's compensation programs, policies and practices to ensure that compensation policies and incentive compensation programs in place are not reasonably likely to have a material adverse impact on the Company and do not encourage our employees to excessive risks.

Role of the Compensation Committee, Management, and Compensation Consultants

Role of the Compensation Committee. The Compensation Committee is responsible for overseeing and administering the Company's employee benefit plans and policies. The committee determines all compensation for the named executive officers. Each year, the committee conducts an evaluation of each executive officer to determine if any changes in the officer's compensation would be appropriate based on the considerations described above.

The Compensation Committee is composed of at least three directors who are determined to be "independent directors" as defined by NASDAQ Rule 5605(d) (2) (A). The members of the committee are appointed annually by the Board of Directors. Four members of the Company's Board of Directors serve on the Compensation Committee, each of whom is an "independent director". The Chair of the Compensation Committee reports to the Company's Board regarding committee actions.

Compensation Committee Interlocks and Insider Participation. No member of the Compensation Committee is a current or former officer or employee of the Company or any of its subsidiaries. There are no compensation committee interlocks with other entities with respect to any such member.

Role of Management. At the Compensation Committee's request, Mr. Pasenelli provides input regarding the performance and appropriate compensation of the other executive officers. The Compensation Committee considers Mr. Pasenelli's evaluation of the other executive officers because of his direct knowledge of each executive officer's performance and contributions. In accordance with NASDAQ rules, Mr. Pasenelli is not present when his compensation is being discussed or approved.

Role of the Compensation Consultant. In 2015, the Compensation Committee retained the services of ChaseCompGroup to perform a competitive assessment of our executive and director compensation programs, as well as to provide guidance on the changing regulatory environment governing executive compensation. The Compensation Committee assessed the independence of ChaseCompGroup pursuant to SEC and NASDAQ rules and concluded that no conflict of interest exists that would prevent ChaseCompGroup from serving as an independent consultant to the Compensation Committee.

The executive and director compensation reviews included an assessment of our financial performance relative to peers, a review of equity compensation and bonuses for named executive officers, and a review of board and committee compensation. The committee sought input from ChaseCompGroup on a range of external market factors, including evolving compensation trends, appropriate peer companies, and market survey data. The compensation assessment provided the committee with a broad array of information from which to assess the effectiveness of our compensation programs and served as a foundation for 2016 compensation decisions. ChaseCompGroup assisted the committee in developing a more performance based incentive philosophy to be implemented in 2016. This information was not used for 2015 compensation decisions.

Compensation Peer Group and Benchmarking. With the assistance of ChaseCompGroup, the Compensation Committee identified a group of peer companies to use for compensation comparison purposes for 2016 compensation decisions. In determining the compensation peer group, the committee selected regional, publicly traded banks with assets from approximately half to two times our asset size. These are banks in our view that compete with the Company for talent in the community banking industry.

The Compensation Committee selected the following peer group for 2016, which ranged between \$1.9 billion and \$598 million in assets:

Company Name	City	State

The committee reviews both compensation and performance at peer companies to inform its decision-making process so it can set total compensation levels that it believes are commensurate with the market and the Company's scope and performance. The committee refers to executive compensation studies prepared by its independent consultants when it reviews and approves executive compensation. The studies reflect compensation levels and practices for executives holding comparable positions at peer group companies, which help the committee set compensation at competitive levels. The committee's primary selection criteria are industry (commercially focused banks), asset size, and geography. The committee compares each executive officer's base salary, target total cash compensation, and target long-term incentive compensation value to amounts paid for similar positions at peer group companies.

The Compensation Committee believes that the market median is a useful reference point in helping to achieve the executive compensation program objectives. However, the committee also considers other factors when setting compensation; and target total direct compensation for each executive may vary from the market median based on the factors the committee considers relevant each year, including particular job responsibilities and scope, adjustments for individual skills and expertise, and internal pay equity.

The Compensation Committee's executive compensation determinations are the result of the committee's business judgment, which is informed by the experiences of the members of the committee, as well as input from shareholders and market data.

Compensation Framework and Allocation of Pay Components

The executive compensation program for named executive officers reflects our compensation philosophy and uses a full range of pay components to achieve our objectives. We believe that we can meet the objectives of our compensation philosophy by reaching a balance among base salary, short-term incentives and long-term incentives for our named executive officers.

The allocation of base salary and performance-based compensation (short-term cash incentives and equity awards) varies depending upon the role of a named executive officer in our organization and his or her individual performance and achievements in support of our strategic objectives.

Direct Compensation Elements

The Company's executive compensation program consists of four components: base salary, annual cash incentives, equity awards, and benefits.

Base Salaries. Competitive base salaries are critical in attracting and retaining our executives. We establish base salaries and assess market competitiveness by comparing our executives' qualifications, experience, and responsibilities as well as their individual performance and value with similar positions among our peers.

Historically our philosophy has been to pay competitive base salaries that will retain our highly experienced and cohesive executive team. Our participation in the Capital Purchase Program ("CPP") imposed regulatory limitations on our performance-based pay. We placed more emphasis on base salaries due to these limitations, resulting in base salaries for our named executive officers that were higher than the median salary levels of our peers. We ended our participation in CPP in 2011 and began working with our Compensation Consultant toward the end of 2015 to adjust our overall compensation structure to balance fixed and variable compensation for our named executive officers. Base salaries for our named executive officers were adjusted in 2015 to reflect modest cost of living increases only and 2016 increases were minimal.

Executive	Title	2014 Salary	2015 Salary	% Increase	2016 Salary	% Increase		
William J. Pasenelli	President and Chief Executive Officer	\$ 400,000	\$ 408,000	2.0	% \$ 408,000	0.0	%	
Todd L. Capitani	EVP, Chief Financial Officer	270,000	275,400	2.0	% 278,154	1.0	%	
James M. Burke	EVP, Chief Risk Officer	282,450	288,099	2.0	% 290,980	1.0	%	
Gregory C. Cockerham	EVP, Chief Lending Officer	282,450	288,099	2.0	% 290,980	1.0	%	
Michael L. Middleton	Executive Chairman	321,661	328,095	2.0	% 328,095	0.0	%	

Annual Performance-Based Incentive Compensation. We maintain a short-term annual compensation plan which allows us to provide our named executive officers with the opportunity to earn compensation for achieving specific Company performance goals. In 2015, the committee approved an annual incentive pool of up to ten percent (10%) of the Company's net income. In addition, in 2015 we added tiered payout levels based upon our ROAA achievement. Total incentive awards paid for 2015 performance ranged between 15%-16% of base salary. A portion of the incentives, once earned, is paid in restricted stock of which one third vests on the first anniversary of the grant and the other two thirds vests over the next two years.

Performance criteria used to determine the annual bonuses for the named executive officers were net income and ROAA as determined in accordance with generally accepted accounting principles. These criteria were chosen because they reflect commonly recognized measures of overall company performance and are associated with shareholder value creation. As mentioned earlier, we are refining our performance metrics and incentive plan for 2016 to include more competitive award opportunities and additional performance factors.

At the end of the year, the Compensation Committee determines the amount of the bonus to be paid to each executive officer by comparing the Company's financial results to the performance goals. The following performance goals were used for 2015. For 2015 the Company's ROAA achievement resulted in an incentive pool of eight percent (8%) of net income after income taxes and before benefits, which impacted the total percentage of the pool distributed to named executives and other key officers.

ROAA Target	Incentive Pool (% of Net Income)	
	After Income Taxes & Before Benefits	
70+ basis points	10	%
60-69 basis points	8	%
50-59 basis points	6	%
Under 50 basis points	4	%

The named executive officers were paid the following incentives based on actual results for 2015:

Long-Term, Equity Based Compensation. The Compensation Committee believes that equity should represent a meaningful portion of executive compensation to align the interests of our executives and stockholders. Additionally, we believe that equity provides for a longer-term retention tool. These ownership and retention objectives are supported by paying a portion of the cash bonuses in restricted stock, as noted in the table above and in our Summary Compensation table, and through the use of time-based vesting for equity awards. The Compensation Committee makes an annual determination as to who will receive equity awards, the type of awards, vesting conditions, and level of the awards. Additional detail about equity grants made to named executive officers in 2015 is provided in the Grants of Plan-Based Awards table in the proxy statement.

Going forward, the Company desires to place a greater emphasis on long-term incentives and will be working with its consultants to design a formal long-term incentive plan that is performance-based. Shareholders approved a new equity plan in 2015, which authorized 400,000 shares.

Committee Discretion in 2015 Payouts

The Compensation Committee retains the discretion to decrease all forms of incentive payouts based on significant individual or Company performance shortfalls. The committee also retains the discretion to increase awards or consider special awards for significant performance or due to subjective factors, or exclude extraordinary

non-recurring results. For purposes of 2015 incentive payout calculations, the Compensation Committee adjusted net income to exclude the impact of the loss incurred due to the sale of the branch in King George, Virginia. The primary reason for the exclusion was due to the unusual, one time nature of the outcome that did not represent core operations.

Executive Benefits and Perquisites

Our objective is to attract and retain talented executive officers who will make a positive contribution to the overall success of the Company. The committee feels that the benefits offered to named executives are effective in achieving retention objectives and help maintain stability within the management team. These types of benefits are commonly offered by peers within the industry.

The Company offers named executives the following additional executive benefits and perquisites.

Employment Agreements. The named executive officers have employment agreements with change of control provisions which are summarized after our Summary Compensation table. The committee believes that employment contracts can protect both the Company and our named executive officers in the event of certain separation events.

Supplemental Executive Retirement Plans (“SERPs”). The Company maintains salary continuation agreements with each of the named executives which provide additional compensation at retirement or upon termination of employment due to death, disability, or a change of control. The SERPs aim to provide approximately thirty-five percent (35%) of our CEO’s final projected salary during his retirement and twenty-five percent (25%) of final projected salaries for our other named executives. Additional information is provided in the Pension Benefits table in the Executive Compensation section of the proxy statement.

Executive Deferred Compensation Plan. The Company maintains a voluntary deferred compensation plan in which our named executives can defer all or a portion of their base salaries. Deferred compensation will receive an earnings credit based on the consolidated ROE of the Company. The Executive Chair and President/CEO have pre-retirement split dollar life insurance benefits of \$1,000,000 and the other named executives have \$500,000. Additional information is provided in the Non-Qualified Deferred Compensation table.

Other Benefits. The named executive officers are also eligible to participate in the Company’s health and welfare programs, Employee Stock Ownership Plan, 401(k) plan, and other broad-based programs on the same basis as other employees.

Business-Related Benefits and Perquisites. The Company also provides company owned cars to executive officers and a local country club membership to Mr. Cockerham for business development purposes. The values for other benefits and perquisites, if applicable, are represented under All Other Compensation in the Summary Compensation table.

Accounting and Tax Considerations

The committee considers the accounting and tax implications of compensation plans prior to making any changes. To the extent required by law, the Compensation Committee has structured the compensation program to comply with Section 162(m) and Section 409A of the Internal Revenue Code (the “Code”).

Section 162(m) of the Internal Revenue Code (the “Code”) places a \$1 million limit on the amount of compensation the Company can deduct in any one year for compensation paid to the chief executive officer and the three most highly-compensated executive officers employed by the Company at the end of the year. However, the \$1 million deduction limit generally does not apply to compensation that is performance-based and provided under a shareholder-approved plan. While the Compensation Committee considers the deductibility of awards as one factor in determining executive compensation, it also looks at other factors in making its decisions, as noted above, and retains the flexibility to grant awards it determines to be consistent with the Company’s goal for its executive compensation program, even if the award is not deductible by the Company for tax purposes.

In general, the Company’s performance-based cash bonuses have been designed to qualify for tax deductibility because they are paid based on achievement of pre-determined performance goals established by the Compensation Committee pursuant to its incentive plans.

Prohibition on Hedging and Short Sales. The Company prohibits short sales and transactions in derivatives of Company securities, including hedging transactions, for all directors and officers of the Company.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis that is required by the rules established by the Securities and Exchange Commission. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement. See “*Compensation Discussion and Analysis.*”

Mr. Middleton's employment agreement ends on June 30, 2016. The term of the employment agreements with Messrs. Pasenelli, Capitani, Burke and Cockerham are automatically extended by one day each day so that the term remains at three years, until either party gives notice to the other of its intent to stop the renewal of the term of the agreement. Among other things, the agreements provide for an annual salary, participation in an equitable manner in any stock option plan or incentive plan to the extent authorized by the Company's Board of Directors for its key management employees and for participation in pension, group life insurance, medical coverage and in other employee benefits applicable to executive personnel.

Messrs. Middleton, Pasenelli, Burke and Cockerham are entitled to a total annual benefit for a period of 15 years of \$128,048, \$92,212, \$65,000 and \$77,035, respectively, upon normal retirement at or after age 62 for Mr. Middleton and 65 for Messrs. Pasenelli, Burke and Cockerham. A reduced benefit is payable if the executive retires before normal retirement age. The annual benefits are payable on a monthly basis to the executives or their designated beneficiaries.

The Bank also maintains a supplemental executive retirement plan (“SERP”) with Messrs. Pasenelli, Capitani, Burke, Cockerham and Middleton to provide the executives with additional compensation at retirement or upon termination of employment due to death, disability or a change in control. Messrs. Middleton, Pasenelli, Capitani, Burke and Cockerham are entitled to a total annual benefit for a period of 15 years of \$28,348, \$124,974, \$154,711, \$77,434 and \$13,087, respectively, upon normal retirement at or after age 65 for Messrs. The annual benefits are payable on an annual basis to the executives or their designated beneficiaries.

The Bank maintains an Executive Deferred Compensation Plan under which Messrs. Pasenelli, Capitani, Burke, Cockerham and Middleton may defer all or any portion of their base salary. Deferred amounts may be credited annually with interest at a rate equal to the Company’s return on equity for the calendar year. The executive’s account balance under the plan will be distributed to the executive following the executive’s termination of service in either a lump sum or over a period of one to ten years, as elected by the executive.

OTHER POTENTIAL POST-TERMINATION BENEFITS

Payments Made Upon Termination with Cause. Each of the named executive officer’s employment agreements contain a definition of cause for which we may terminate the executive’s employment. If we terminate the executive’s employment for cause, he will receive only his base salary or other compensation earned through the date of termination and retain the rights to any vested benefits subject to the terms of the plan or agreement under which those benefits are provided.

The SERPs for Messrs. Pasenelli, Capitani, Burke, Cockerham and Middleton contain a definition of cause for which we may terminate the executive’s employment. If the executive’s employment is terminated for cause, they will not be entitled to any benefits under the terms of the SERPs.

Under the 1995 Stock Option and Incentive Plan, if we terminate an executive for just cause (as defined in the plan), any stock option granted under the plan and held by the terminated employee is cancelled upon the date of termination.

Pursuant to the 2005 Equity Compensation Plan and the 2015 Equity Compensation Plan, if an executive is terminated for cause, all rights to any restricted stock and long-term restricted stock units award granted under the plan and held by the terminated employee will expire as of the effective date of termination.

Payments Made Upon Termination Without Cause. If we terminate Mr. Middleton's employment without cause, he will receive (1) his base salary or other compensation earned through the date of termination and retain the rights to any vested benefits subject to the terms of the plan or agreement under which those benefits are provided, and (2) a lump sum payment equal to his base salary for the remaining term of the agreement, which expires on June 30, 2016. We would also continue Mr. Middleton's medical, dental and life insurance benefits as of the date of termination until the expiration date of the agreement.

Under his employment agreement, if we terminate the employment of Mr. Pasenelli without cause, he would receive a lump sum payment equal to three times his base salary and three times his most recent annual incentive compensation payment. Under the employment agreements for Messrs. Capitani, Burke or Cockerham, if we terminate the executive's employment without cause, he would receive a lump sum payment equal to two times his base salary and two times his most recent annual incentive compensation payment. We would also continue each executives' medical, dental and life insurance benefits for 36 months.

Pursuant to the 2005 Equity Compensation Plan and the 2015 Equity Compensation Plan, if we terminate an executive without cause and unless otherwise determined by the Compensation Committee, all unvested shares of restricted stock and interests under long-term restricted stock units are forfeited as of the termination date of the executive.

Payments Made Upon Termination by Executive with Good Reason. If Mr. Middleton voluntarily terminates his employment under circumstances that would constitute good reason (as defined in his employment agreement), he will receive (1) his base salary or other compensation earned through the date of termination and retain the rights to any vested benefits subject to the terms of the plan or agreement under which those benefits are provided, and (2) a lump sum payment equal to his base salary for the remaining term of the agreement. We would also continue Mr. Middleton's medical, dental and life insurance benefits as of the date of termination until the expiration date of the agreement.

Pursuant to the 2005 Equity Compensation Plan, if an executive voluntarily terminates his or her employment and unless otherwise determined by the Compensation Committee, all unvested shares of common stock and interests under long-term restricted stock units are forfeited as of the termination date of the executive.

Payments Made Upon Disability. Under Mr. Middleton's employment agreement, if he becomes disabled and we terminate his employment pursuant to the terms of the agreement, he will receive his base salary or other compensation earned through the date of termination and retain the rights to any vested benefits subject to the terms of the plan or agreement under which those benefits are provided. In addition, Mr. Middleton will be entitled to the base salary that would have been paid through the expiration date of his agreement, reduced by any amounts to be paid under any disability program sponsored by the Company or the Bank during the same period.

Under Messrs. Pasenelli's, Capitani's, Burke's or Cockerham's employment agreements, if we terminate an executive due to disability pursuant to the terms of the agreement, the executive will receive the compensation and benefits provided for under the agreement for (1) any period during the term of the agreement and before the establishment of the executive's disability; or (2) any period of disability before the executive's termination of employment due to disability.

The SERPs for Messrs. Pasenelli, Capitani, Burke, Cockerham and Middleton provide for a disability benefit equal to the executive's accrued benefit, calculated as of the date of determination of disability. Payment of the disability benefit will commence on the first day of the month following the earlier of the executive's 65th birthday or death and shall be paid in 15 equal annual installments.

Under the salary continuation agreements dated September 6, 2003, as amended, upon termination of employment as a result of disability, Messrs. Middleton, Pasenelli and Cockerham are entitled to an annual benefit for a period of 15 years of \$128,048, \$74,112 and \$72,235, respectively, commencing with the month following the executive attaining age 65, or in Mr. Middleton's case, age 62. Under the salary continuation agreements dated August 21, 2006, as amended, Messrs. Pasenelli and Cockerham are entitled to an annual disability benefit ranging from \$12,592 to \$18,100 and \$3,885 to \$4,800, respectively, depending on the date of termination, commencing with the month following the executive attaining age 65. Under the salary continuation agreement dated August 21, 2006, as amended, Mr. Burke is entitled to an annual disability benefit of \$65,000 on the date of termination, commencing with the month following the executive attaining age 65. Mr. Burke is entitled to an annual distribution benefit ranging from \$36,268 to \$65,000 depending on the date of termination, commencing with the month following the executive attaining age 65.

Under the 1995 Stock Option and Incentive Plan, if we terminate an executive's employment due to a disability, outstanding stock options will vest and remain exercisable until the earlier of one year from the date of termination or the expiration date of the stock options.

Pursuant to the 2005 Equity Compensation Plan and the 2015 Equity Compensation Plan, if we terminate an executive's employment due to a disability, outstanding restricted stock and long-term restricted stock unit awards will immediately vest as of the date of termination.

Payments Made Upon Death. Under Mr. Middleton's employment agreement, upon Mr. Middleton's death, Mr. Middleton's beneficiary will receive the sum of the base salary that would have been paid for the remaining term of the agreement, plus any other compensation or benefits to be provided in accordance with the terms and provisions of the Company's benefit plans and programs.

Under Messrs. Pasenelli's, Capitani's, Burke's or Cockerham's employment agreements, upon the executive's death, the Company will pay his or her beneficiary or estate any compensation due to the executive through the end of the month in which death occurred, plus any other compensation or benefits to be provided in accordance with the terms and provisions of the Company's benefit plans and programs.

Each of the executive's SERPs provide for a death benefit equal to the executive's accrued benefit, payable to the executive's beneficiary in 15 equal annual installments beginning the second month following the death of the executive if the executive dies before reaching normal retirement age. If the executive dies after the commencement of the SERP benefit payments, the executive's beneficiary is entitled to the unpaid balance of the executive's 15 annual benefit payments.

Under their salary continuation agreements, if the executive dies while in active service with the Bank, Mr. Middleton's, Mr. Pasenelli's, Mr. Burke's and Mr. Cockerham's designated beneficiaries will receive an annual benefit, for a period of 15 years, of \$128,048, \$92,212, \$65,000 and \$77,035, respectively, commencing with the month following the executive's death. If the executive dies after his employment has terminated but before payments under the agreement have commenced, their designated beneficiary will be entitled to the same payments beginning on the first day of the month after the executive's death.

Under the 1995 Stock Option and Incentive Plan, if an executive dies, outstanding stock options will vest and remain exercisable until the earlier of two years from the date of death or the expiration date of the stock options.

Pursuant to the 2005 Equity Compensation Plan and the 2015 Equity Compensation Plan, if an executive dies, outstanding awards vest immediately.

Payments Made Upon a Change in Control. Mr. Middleton's employment agreement provides that if during the two-year period following a change in control (as defined in the agreement), Mr. Middleton terminates employment for any reason, he will be entitled to (1) his base salary or other compensation earned through the date of termination, and retain the rights to any vested benefits subject to the terms of the plan or agreement under which those benefits are provided, and (2) a lump sum payment equal to his base salary for the remaining term of the agreement. We would also continue Mr. Middleton's medical, dental and life insurance benefits as of the date of termination through the remaining term of the agreement. Section 280G of the Internal Revenue Code provides that payments related to a change in control that equal or exceed three times the individual's "base amount" (defined as average annual taxable compensation over the five preceding calendar years) constitute "excess parachute payments." Individuals who receive excess parachute payments are subject to a 20% excise tax on the amount that exceeds the base amount, and the employer may not deduct such amounts. Mr. Middleton's employment agreement provides for an additional tax indemnification payment if payments under the agreement exceed three times his base amount ("280G Limit"). The indemnification payment provides the executive with a net amount sufficient to pay the excise tax and related taxes to place Mr. Middleton in the same economic position in which he would have been had the 280G Limit not applied.

Mr. Pasenelli's employment agreement provides that if (1) the executive's employment is terminated without cause or without the executive's consent and for a reason other than cause in connection with or within 12 months after a change in control (as defined in the agreement); or (2) the executive voluntarily terminates employment within 12 months following a change in control upon the occurrence of events described in the agreement, he will receive a lump sum payment equal to three times his annual base salary and three times his most recent annual incentive compensation payment, plus continued health and welfare benefits for 36 months following termination. Under Messrs. Capitani's, Burke's and Cockerham's employment agreement, each will receive a lump sum payment equal to two times his annual base salary and two times his most recent annual incentive compensation payment, plus continued health and welfare benefits for 36 months following termination. Messrs. Pasenelli's, Capitani's, Burke's or Cockerham's employment agreements provide that if the value of the benefits provided under the agreements in connection with a change in control exceed his 280G Limit, his payment will be reduced or revised so that the aggregate payments do not exceed his 280G Limit.

Messrs. Middleton's, Pasenelli's, Cockerham's, Capitani's and Burke's SERPs provide that if the executives experience a separation from service within 24 months following a change in control, the executives are entitled to an annual benefit for a period of 15 years of \$28,348, \$124,974, \$13,087, \$154,711 and \$77,434, respectively. The executives will receive the benefit payment in the form of (1) a lump sum, (2) equal annual installments over two years, or (3) equal annual installments over five years, as previously elected by each executive.

Under the salary continuation agreements dated September 6, 2003, as amended, upon the termination of employment within 12 months (24 months in the case of Mr. Middleton) subsequent to a change in control and before age 65 (62 in the case of Mr. Middleton), Mr. Middleton, Mr. Pasenelli and Mr. Cockerham are entitled to an annual benefit for a period of 15 years of \$128,048, \$74,112 and \$72,235, respectively, commencing with the month following the executive attaining age 65 (62 in the case of Mr. Middleton). As with his employment agreement, Mr. Middleton's salary continuation agreement provides for an additional tax indemnification payment if payments under the agreement exceed his 280G Limit. Each of Mr. Pasenelli's and Mr. Cockerham's salary continuation agreements dated

September 6, 2003, as amended, provide that if the value of the benefits provided in connection with a change in control exceed his 280G Limit, his payment will be reduced or revised so that the aggregate payments do not exceed his 280G Limit. Under the salary continuation agreement dated August 21, 2006, as amended, Mr. Pasenelli is entitled to an additional annual benefit ranging from \$12,502 to \$18,100 (based on the date of termination) if his employment is terminated within 12 months subsequent to a change in control and before age 65. Under the salary continuation agreement dated August 21, 2006, as amended, Mr. Cockerham is entitled to an additional annual benefit equal to the present value of \$4,800 using an interest factor of 5% upon the termination of employment within 12 months subsequent to a change in control and before age 65. Under the salary continuation agreement dated August 21, 2006, as amended, Mr. Burke is entitled to an additional annual benefit equal to \$65,000 upon the termination of employment within 12 months subsequent to a change in control and before age 65. Mr. Burke is entitled to an additional annual benefit ranging from \$27,145 to \$65,000 (based on the date of termination) if his employment is terminated within 12 months subsequent to a change in control and before age 65.

In the event of a change in control of The Community Financial Corporation or Community Bank of the Chesapeake, outstanding stock options granted pursuant to our 1995 Stock Option and Incentive Plan automatically vest and, unless otherwise provided for by the committee administering the plan, the option holder will receive in cash an amount equal to the difference between the fair market price of the securities and the exercise price of the option for each option held. Under the Company's 2005 Equity Compensation Plan and 2015 Equity Compensation Plan, a change in control accelerates the vesting of all outstanding stock options, restricted stock awards and long-term restricted stock units. The value of the accelerated options count toward the executive's 280G Limit.

OTHER INFORMATION RELATING TO

DIRECTORS AND EXECUTIVE OFFICERS

Section 16(a) Beneficial Ownership Reporting Compliance. Pursuant to federal securities laws, the Company's officers, directors and persons who own more than 10% of the outstanding common stock are required to file reports detailing their ownership and changes of ownership in such common stock, and to furnish the Company with copies of all such reports. Based solely on its review of the copies of such reports received during the past fiscal year and written representations from such persons that no additional reports of changes in beneficial ownership were required, the Company believes that during 2015, all of its officers, directors and all of its stockholders owning in excess of 10% of the outstanding common stock of the Company, have complied with the reporting requirements.

Policies and Procedures for Approval of Related Persons Transactions. We maintain a Policy and Procedures Governing Related Person Transactions, which is a written policy and set of procedures for the review and approval or ratification of transactions involving related persons. Under the policy, related persons consist of directors, director nominees, executive officers, persons or entities known to us to be the beneficial owner of more than five percent of any outstanding class of the voting securities of the Company, or immediate family members or certain affiliated entities of any of the foregoing persons.

Transactions covered by the policy consist of any financial transaction, arrangement or relationship or series of similar transactions, arrangements or relationships, in which:

- the aggregate amount involved will or may be expected to exceed \$50,000 in any calendar year;
- the Company is, will or may be expected to be a participant; and
- any related person has or will have a direct or indirect material interest.

The policy excludes certain transactions, including:

any compensation paid to an executive officer of the Company if the Governance Committee of the Board approved (or recommended that the Board approve) such compensation;

any compensation paid to a director of the Company if the Board or an authorized committee of the Board approved such compensation; and

any transaction with a related person involving consumer and investor financial products and services provided in the ordinary course of the Company's business and on substantially the same terms as those prevailing at the time for comparable services provided to unrelated third parties or to the Company's employees on a broad basis (and, in the case of loans, in compliance with the Sarbanes-Oxley Act of 2002).

Related person transactions will be approved or ratified by the Audit Committee. In determining whether to approve or ratify a related person transaction, the Audit Committee will consider all relevant factors, including:

- whether the terms of the proposed transaction are at least as favorable to the Company as those that might be achieved with an unaffiliated third party;
- the size of the transaction and the amount of consideration payable to the related person;
- the nature of the interest of the related person;
- whether the transaction may involve a conflict of interest; and
- whether the transaction involves the provision of goods and services to the Company that are available from unaffiliated third parties.

A member of the Audit Committee who has an interest in the transaction will abstain from voting on approval of the transaction, but may, if so requested by the chair of the Audit Committee, participate in some or all of the discussion.

Relationships and Transactions with the Company and the Bank. The Sarbanes-Oxley Act of 2002 generally prohibits loans by the Company to its executive officers and directors. However, the Sarbanes-Oxley Act contains a specific exemption from such prohibition for loans by the Bank to its executive officers and directors in compliance with federal banking regulations. Federal regulations require that all loans or extensions of credit to executive officers and directors of insured financial institutions must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons not related to the Bank and must not involve more than the normal risk of repayment or present other unfavorable features. The Bank is therefore prohibited from making any new loans or extensions of credit to executive officers and directors at different rates or terms than those offered to the general public. Notwithstanding this rule, federal regulations permit the Bank to make loans to executive officers and directors at reduced interest rates if the loan is made under a benefit program generally available to all other employees and does not give preference to any executive officer or director over any other employee. The Bank does not currently have such a program in place. From time to time, the Bank makes loans and extensions of credit to its executive officers and directors, and members of their immediate families. The outstanding loans made to our directors and executive officers, and members of their immediate families, were made in the ordinary course of business, were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Bank, and did not involve more than the normal risk of collectibility or present other unfavorable features. As of December 31, 2015, these loans were performing according to their original terms.

In accordance with banking regulations, the Board of Directors reviews all loans made to a director or executive officer in an amount that, when aggregated with the amount of all other loans to such person and his or her related interests, exceed the greater of \$25,000 or 5% of the Company's capital and surplus (up to a maximum of \$500,000), and such loan must be approved in advance by a majority of the disinterested members of the Board of Directors.
