## NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

### Note A – Summary of Significant Accounting Policies

*Presentation of Consolidated Condensed Financial Statements* – The significant accounting policies followed by the Company and its wholly owned subsidiaries for interim financial reporting are consistent with the accounting policies followed for its annual financial reporting. All adjustments that are of a normal recurring nature and are in the opinion of management necessary for a fair statement of the results for the periods reported have been included in the accompanying consolidated condensed financial statements. The consolidated condensed balance sheet of the Company as of December 30, 2017 has been derived from the audited consolidated balance sheet of the Company as of that date. Certain information and note disclosures normally included in the Company’s annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K annual report for 2017 filed with the Securities and Exchange Commission.

*Reclassifications* – Certain reclassifications have been made to prior year financial statements to conform to the current year financial statement presentation. These reclassifications had no effect on net earnings.

### Note B - Seasonal Aspects

The results of operations for the three and six month periods ended July 14, 2018 and July 15, 2017 are not necessarily indicative of the results to be expected for the full year.

### Note C - Inventories

## Note D – Equity Interest Investments

The Company had a 50% interest in a joint venture, Stiga Sports AB (Stiga). The joint venture was accounted for under the equity method of accounting. Stiga, located in Sweden, is a global sporting goods company producing table tennis equipment, snow sleds, and game products. The Company entered into a share purchase agreement for the private sale of the Company's 50% interest in the Stiga joint venture. On May 17, 2018, the Company completed the sale of its 50% interest for \$33.7 million, resulting in a gain on sale of \$13.0 million. In conjunction with the sale, the Company entered into a new license agreement with Stiga for the licensing rights to manufacture, market, promote, sell and distribute Stiga-branded table tennis hobby products in the United States, Mexico and Canada. The Company has had the licensing rights for such products since 1995 pursuant to an existing license agreement that continues through December 31, 2018. The new license agreement will go into effect on January 1, 2019.

Financial information for Stiga reflected in the table below has been translated from local currency to U.S. dollars using exchange rates in effect at the respective period-end for balance sheet amounts, and using average exchange rates for statement of operations amounts. Financial information for the current year represents the results of Stiga through the sale completion date. The Company's 50% portion of net income for Stiga, included in equity in earnings of affiliates on the Company's statements of operations, is as follows:

	<b>Period from</b>	<b>Three Months</b>	<b>Period from</b>	<b>Six Months</b>

Net income	264	154	241	49

Note E – Income Taxes

The provision for income taxes was computed based on financial statement income.

During the year ended December 30, 2017, the Company calculated its best estimate of the impact of the Tax Cuts and Jobs Act of 2017 and as a result, recorded \$3.0 million of income tax benefits. Additional work is necessary to determine the amount of accumulated foreign earnings and the corresponding foreign tax credit. The final impact may differ from these provisional amounts, possibly materially, due to, among other things, issuance of additional regulatory guidance, changes in interpretations and assumptions the Company has made, and actions the Company may take as a result of the Tax Cuts and Jobs Act of 2017. No adjustments were made to the provisional estimate during the six month period ended July 14, 2018.

#### Note F – Fair Values of Financial Instruments

The following methods were used to estimate the fair value of all financial instruments recognized in the accompanying balance sheets at amounts other than fair values.

##### Cash and Cash Equivalents

Fair values of cash and cash equivalents approximate cost due to the short period of time to maturity.

## Long-term Debt

Fair values of long-term debt is estimated based on borrowing rates currently available to the Company for bank loans with similar terms and maturities and determined through the use of a discounted cash flow model. Proceeds from the sale of the Company's 50% interest in Stiga were used to pay off outstanding debt during the quarter ending July 14, 2018.

The following table presents estimated fair values of the Company's financial instruments and the level within the fair value hierarchy in which the fair value measurements fall in accordance with FASB ASC 825 at July 14, 2018, December 30, 2017 and July 15, 2017.

Note G – Stock Compensation

The fair value of stock-based compensation is recognized in accordance with the provisions of FASB ASC 718, *Stock Compensation*.

During the six months ended July 14, 2018 and pursuant to the 2017 Incentive Plan, in lieu of cash payments of director fees, the Company awarded to certain directors 11,530 shares of common stock. During the six months ended July 14, 2018, the Company awarded 14,250 restricted stock units to directors and 40,278 restricted stock units to employees. The restricted stock units awarded to directors time vest over two years (one-half one year from grant date and one-half two years from grant date) provided that the director is still a director of the Company at the vest date. Director restricted stock units are subject to forfeiture, except for termination of services as a result of retirement, death or disability, if on the vesting date the director no longer holds a position with the Company. The 2018 restricted stock units awarded to employees fully vest over four years (one-third two years from grant date, one-third three years from grant date and one-third four years from grant date) provided that the employee is still employed by the Company on each applicable vesting date and that the performance criteria related to the market price of the Company's stock is satisfied. The performance criteria is for any 30 consecutive trading days on the NASDAQ Stock Market (or such other principal securities exchange on which the Company's shares of common stock are then traded) during the period beginning on the grant date and ending on the fourth anniversary thereof, the cumulative average Volume Weighted Average Price per share is at least 15% higher than the closing price per share on the grant date plus any incremental dividends paid above the current quarterly dividend rate of \$0.125 per share by the Company during such four year period. If the performance criteria is not satisfied as of an applicable vesting date, then one-half of the RSUs eligible to vest on that date will vest and the remaining one-half will vest if, and only if, the performance criteria is met prior to the end of the four year vesting period. The Company utilizes the Monte Carlo technique to determine the fair value of restricted stock units granted for awards with market conditions.

For the three and six months ended July 14, 2018, including expense associated with issuing certain directors stock in lieu of cash for certain director fees, the Company recognized stock based compensation expense of \$374 thousand and \$535 thousand, respectively compared to stock based compensation expense of \$326 thousand and \$440 thousand for the same periods in the prior year. At July 14, 2018 and July 15, 2017, respectively, there was \$0.8 million and \$0.8 million in unrecognized stock-based compensation expense related to non-vested stock awards.

## Note I – Dividend Payment

On June 14, 2018, the Company paid a quarterly dividend of \$0.125 per common share to all shareholders of record on June 7, 2018. The total amount of the dividend was approximately \$1.8 million and was charged against retained earnings.

On March 19, 2018, the Company paid a quarterly dividend of \$0.125 per common share to all shareholders of record on March 12, 2018. The total amount of the dividend was approximately \$1.8 million and was charged against retained earnings.

## Note J - Earnings Per Share

The shares used in computation of the Company's basic and diluted earnings per common share are as follows:

	Three Months Ended		Six Months Ended	
	July 14,	July 15,	July 14,	July 15,
In thousands	2018	2017	2018	2017

Stock options that are anti-dilutive as to earnings per share and unvested restricted stock units which have a market condition for vesting that has not been achieved are ignored in the computation of dilutive earnings per share. The number of stock options and restricted stock units that were excluded in 2018 and 2017 were 71,781 and 83,600, respectively.

## Note K – New Accounting Standards and Changes in Accounting Principles

With the exception of that discussed below, there have been no recent accounting pronouncements or changes in accounting pronouncements during the three and six month periods ended July 14, 2018, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2017, that are of significance, or potential significance to the Company.

In May 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-09, Compensation-Stock Compensation (Topic 718): Scope of Modification Accounting, which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. ASU 2017-09 is effective for annual periods beginning after December 15, 2017, with early adoption permitted, including adoption in any interim period for which financial statements have not yet been issued. The Company adopted this standard on December 31, 2017. The adoption of this ASU did not have an impact on our condensed consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) to clarify the definition of a business to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2017-01 is effective for fiscal years beginning after December 15, 2017 including interim periods within those fiscal years. The Company adopted this standard on December 31, 2017. The adoption did not have any impact on our condensed consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The new standard is in response to current diversity in practice and will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017 including interim periods within those fiscal years, with early adoption permitted. The Company adopted this standard on December 31, 2017. The adoption of this ASU did not have any impact on our consolidated condensed statements of cash flows.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which outlines a single comprehensive revenue model for entities to use in accounting for revenue arising from contracts with customers. The guidance supersedes most current revenue recognition guidance, including industry-specific guidance, and requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 is effective for fiscal years beginning after December 15, 2017 including interim periods within those fiscal years, with early adoption permitted for periods beginning after December 15, 2016. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method). In 2016, the FASB issued further guidance that offers narrow scope improvements and clarifies certain implementation issues related to revenue recognition, including principal versus agent considerations and the identification of performance obligations and licensing. These additional updates have the same effective date as the new revenue guidance.

The Company adopted this standard on December 31, 2017 using the modified retrospective method. The adoption of this standard did not impact the timing of revenue recognition for our customer sales. We do not incur significant costs to obtain or to fulfill revenue contracts. For the Company, the most significant impact of the new standard is the requirement for enhanced footnote disclosures. Refer to Note L for disclosure requirements related to the adoption of this standard.

#### Note L – Revenue from Contracts with Customers

**Revenue Recognition** – Effective December 31, 2017, we adopted ASC 606. The adoption of this standard did not impact the timing of revenue recognition for customer sales. Revenue is recognized when obligations under the terms of a contract with our customer are satisfied; generally this occurs with the transfer of control of our goods at a point in time based on shipping terms and transfer of title. Revenue is measured as the amount of consideration we expect to receive in exchange for transferring goods. Sales, value add, and other taxes we collect concurrent with revenue-producing activities are excluded from revenue. Shipping and handling fees charged to customers are reported within revenue.

**Gross-to-net sales adjustments** – We recognize revenue net of various sales adjustments to arrive at net sales as reported on the statement of operations. These adjustments are referred to as gross-to-net sales adjustments and primarily fall into one of three categories; returns, warranties and customer allowances.

**Returns** – The Company records an accrued liability and reduction in sales for estimated product returns based upon historical experience. An accrued liability and reduction in sales is also recorded for approved return authorizations that have been communicated by the customer.

*Warranties* – Limited warranties are provided on certain products for varying periods. We record an accrued liability and reduction in sales for estimated future warranty claims based upon historical experience and management’s estimate of the level of future claims. Changes in the estimated amounts recognized in prior years are recorded as an adjustment to the accrued liability and sales in the current year.

*Customer Allowances* – Customer allowances are common practice in the industries in which the Company operates. These agreements are typically in the form of advertising subsidies, volume rebates and catalog allowances and are accounted for as a reduction to gross sales. The Company reviews such allowances on an ongoing basis and accruals are adjusted, if necessary, as additional information becomes available.

**Disaggregation of Revenue** – We generate revenue from the sale of widely recognized sporting goods brands in basketball goals, archery, indoor and outdoor game recreation and fitness products. These products are sold through multiple sales channels that include; mass merchants, specialty dealers, key on-line retailers (“E-commerce”) and international. The following table depicts the disaggregation of revenue according to sales channel:

**Contract Balances** – The following table provides information on changes in our contract liability balances during the three and six month periods ending July 14, 2018 and July 15, 2017. The contract liability recorded during the quarter ending July 14, 2018 is related to a lump sum payment received for consulting services to be provided over the next year. The contract liability will be amortized, and revenues recognized, evenly over the year. At July 14, 2018, the contract liability balance was \$930 and was reported within Accrued liabilities in our Consolidated Condensed Balance Sheet.

Note M – Commitments and Contingencies

The Company is involved in litigation arising in the normal course of business. The Company does not believe that the disposition or ultimate resolution of existing claims or lawsuits will have a material adverse effect on the business or financial condition of the Company.

Item 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Forward-Looking Statements**

This report contains forward-looking statements relating to present or future trends or factors that are subject to risks and uncertainties. These risks include, but are not limited to, the impact of competitive products and pricing, product demand and market acceptance, new product development, Escalade's ability to achieve its business objectives, especially with respect to its Sporting Goods business on which it has chosen to focus, Escalade's ability to successfully achieve the anticipated results of strategic transactions, including the integration of the operations of acquired assets and businesses and of divestitures or discontinuances of certain operations, assets, brands, and products, the continuation and development of key customer, supplier, licensing and other business relationships, the ability to successfully negotiate the shifting retail environment and changes in consumer buying habits, the financial health of our customers, disruptions or delays in our supply chain, Escalade's ability to control costs, general economic conditions, fluctuation in operating results, changes in foreign currency exchange rates, changes in the securities market, Escalade's ability to obtain financing and to maintain compliance with the terms of such financing, the availability, integration and effective operation of information systems and other technology, and the potential interruption of such systems or technology, risks related to data security of privacy breaches, and other risks detailed from time to time in Escalade's filings with the Securities and Exchange Commission. Escalade's future financial performance could differ materially from the expectations of management contained herein. Escalade undertakes no obligation to release revisions to these forward-looking statements after the date of this report.

**Overview**

Escalade, Incorporated (Escalade, the Company, we, us or our) is focused on growing its Sporting Goods business through organic growth of existing categories, strategic acquisitions, and new product development. The Sporting Goods business competes in a variety of categories including basketball goals, archery, indoor and outdoor game recreation and fitness products. Strong brands and on-going investment in product development provide a solid foundation for building customer loyalty and continued growth.

Within the sporting goods industry, the Company has successfully built a robust market presence in several niche markets. This strategy is heavily dependent on expanding our customer base, barriers to entry, strong brands, excellent customer service and a commitment to innovation. A key strategic advantage is the Company's established relationships with major customers that allow the Company to bring new products to market in a cost effective manner while maintaining a diversified portfolio of products to meet the demands of consumers. In addition to strategic customer relations, the Company has substantial manufacturing and import experience that enable it to be a low cost supplier.

To enhance growth opportunities, the Company has focused on promoting new product innovation and development and brand marketing. In addition, the Company has embarked on a strategy of acquiring companies or product lines that complement or expand the Company's existing product lines or provide expansion into new or emerging categories in sporting goods. A key objective is the acquisition of product lines with barriers to entry that the Company can take to market through its established distribution channels or through new market channels. Significant synergies are achieved through assimilation of acquired product lines into the existing Company structure. The Company also sometimes divests or discontinues certain operations, assets, brands, and products that do not perform to the Company's expectations or no longer fit with the Company's strategic objectives.

The Company is working to overcome the industry-wide downturn in the archery category, and bankruptcies that have plagued the retail industry. We believe these conditions have masked improvements in our other existing and acquired businesses and the expansion of our online distribution channels. Management believes that key indicators in measuring the success of these strategies are revenue growth, earnings growth, new product introductions, and the expansion of channels of distribution.

## Results of Operations

The following schedule sets forth certain consolidated statement of operations data as a percentage of net revenue:

	Three Months Ended			Six Months Ended		
	July 14, 2018		July 15, 2017	July 14, 2018		July 15, 2017
Net revenue	100.0	%	100.0	%	100.0	%
Cost of products sold	76.4	%	75.7	%	74.7	%
Gross margin	23.6	%	24.3	%	25.3	%
Selling, administrative and general expenses	18.7	%	17.2	%	19.9	%
Amortization	0.9	%	0.9	%	0.9	%
Operating income	4.0	%	6.2	%	4.5	%

## Revenue and Gross Margin

Sales decreased by 9.7% for the second quarter of 2018, compared with the same period in the prior year as the unseasonably cold spring weather carried well into the second quarter affecting our Outdoor product categories. For the first half of 2018, sales were down 5.8% compared to prior year.

The overall gross margin percentage decreased to 23.6% for the second quarter of 2018, compared to 24.3% for 2017 due to product mix. Gross margin percentage increased to 25.3% for the first six months of 2018, compared to 24.9% for the same period in the prior year. Gross margin in 2017 was negatively impacted by our archery category as we modified our crossbow product line to remain focused on providing the right product to the consumer.

## Selling, General and Administrative Expenses

Selling, general and administrative expenses (SG&A) were \$9.1 million for the second quarter of 2018 compared to \$9.3 million for the same period in the prior year, a decrease of \$0.2 million or 1.5%. SG&A as a percent of sales is 18.7% for the second quarter of 2018 compared with 17.2% for the same period in the prior year. For the first half of 2018, SG&A were \$16.1 million compared to \$15.2 million for the same period in 2017, an increase of \$0.9 million or 5.8%. As a percent of sales, SG&A is 19.9% for the first half of 2018 compared with 17.7% for the same period in the prior year.

## Other Income and Expense

During the second quarter of 2018, the Company sold its 50% equity interest in Stiga Sports AB (Stiga) for \$33.7 million, resulting in a gain on sale of \$13.0 million. This one time gain substantially increased the Company's second quarter earnings, offsetting the decreased operating revenues.

## Provision for Income Taxes

The effective tax rate for the first half of 2018 was 18.7% compared to 32.5% for the same period last year. The effective tax rate for 2018 is lower than 2017 as a result of the Tax Cuts and Jobs Act of 2017 effective for 2018 calendar year.

## Financial Condition and Liquidity

Total debt at the end of the first six months of 2018 was zero. Proceeds from the sale of the Company's 50% interest in Stiga were used to pay off outstanding debt during the second quarter ending July 14, 2018. The following schedule summarizes the Company's total debt:

	<b>July 14,   December 30,   July 15,</b>		
In thousands	<b>2018</b>	<b>2017</b>	<b>2017</b>
Current portion long-term debt	\$ 0	\$ 1,250	\$ 1,300
Long term debt	0	21,871	22,386
Total	\$ 0	\$ 23,121	\$ 23,686

As a percentage of stockholders' equity, total debt was zero, 20.7% and 22.8% at July 14, 2018, December 30, 2017, and July 15, 2017 respectively.

The Company funds working capital requirements through operating cash flows and revolving credit agreements with its bank. Based on working capital requirements, the Company expects to have access to adequate levels of revolving credit to meet growth needs. The Company's use of proceeds from the Stiga sale to repay its outstanding bank indebtedness included repayment of the \$4.7 million outstanding amount on its term loan. The Company believes that its revolving credit facility, which had availability of \$35.0 million as of July 14, 2018, is sufficient and that such term loan was not needed prior to its scheduled January 2021 maturity.

### Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to financial market risks, including changes in currency exchange rates and interest rates. The Company attempts to minimize these risks through regular operating and financing activities and, when considered appropriate, through the use of derivative financial instruments. During the quarter there were no derivatives in use. The Company does not purchase, hold or sell derivative financial instruments for trading or speculative purposes.

#### *Interest Rates*

The Company's exposure to market-rate risk for changes in interest rates relates primarily to its revolving variable rate bank debt which is based on LIBOR interest rates. A hypothetical 1% or 100 basis point change in interest rates would not have a significant effect on our consolidated financial position or results of operation.

#### *Foreign Currency*

The Company conducts business in various countries around the world and is therefore subject to risks associated with fluctuating foreign exchange rates. The Sporting Goods foreign currency transactions are denominated primarily in Mexican Peso and Chinese Yuan.

The geographic areas outside the United States in which the Company operates are generally not considered by management to be highly inflationary. Nonetheless, the Company's foreign operations are sensitive to fluctuations in currency exchange rates arising from, among other things, certain inter-company transactions that are denominated in currencies other than the respective functional currency.

The Company and its subsidiaries conduct substantially all of their business in their respective currencies to avoid the effects of cross-border transactions. The functional currency for the foreign operations of Escalade is the U.S. dollar. To protect against reductions in value and the volatility of future cash flows caused by changes in currency exchange rates, the Company carefully considers the use of transaction and balance sheet hedging programs such as matching

assets and liabilities in the same currency. Such programs reduce, but do not entirely eliminate the impact of currency exchange rate changes. The Company has evaluated the use of currency exchange hedging financial instruments, but has determined that it would not use such instruments under the current circumstances. Changes in currency exchange rates may be volatile and could affect the Company's performance.

Item 4.

CONTROLS AND PROCEDURES

**Evaluation of Disclosure Controls and Procedures**

Escalade maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rules 13a-15(e) and 15d-15(e). In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, could provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective.

## Changes in Internal Control over Financial Reporting

Management of the Company has evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the second quarter of 2018.

There have been no changes to the Company's internal control over financial reporting that occurred since the beginning of the Company's first quarter of 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company has one stock repurchase program which was established in February 2003 by the Board of Directors and which initially authorized management to expend up to \$3,000,000 to repurchase shares on the open market as well as in private negotiated transactions. In February 2005, February 2006, August 2007 and February 2008 the Board of Directors increased the remaining balance on this plan to its original level of \$3,000,000. The repurchase plan has no termination date and there have been no share repurchases that were not part of a publicly announced program.
