News & Information

No. 14-109E
3:00 P.M. JST, October 31, 2014

Consolidated Financial Results
for the Second Quarter Ended September 30, 2014

Tokyo, October 31, 2014 -- Sony Corporation today announced its consolidated financial results for the second quarter ended September 30, 2014 (July 1, 2014 to September 30, 2014).

(Billions of yen, millions of U.S. dollars, except per share amounts)

Second Quarter ended September 30

	2013	2014	Change in yen	2014*
Sales and operating revenue	¥ 1,774.2	¥ 1,901.5	+7.2 %	\$ 17,445
Operating income (loss)	13.9	(85.6)	-	(785)
Income (loss) before income taxes	5.1	(90.0)	-	(825)
Net (loss) attributable to Sony Corporation's stockholders	(19.6)	(136.0)	-	(1,247)
Net loss attributable to Sony Corporation's stockholders per share of common stock:				
- Basic	¥ (19.25)	¥ (124.32)	-	\$ (1.14)
- Diluted	(19.25)	(124.32)	-	(1.14)

*U.S. dollar amounts have been translated from yen, for convenience only, at the rate of 109 yen = 1 U.S. dollar, the approximate Tokyo foreign exchange market rate as of September 30, 2014.

All amounts are presented on the basis of Generally Accepted Accounting Principles in the U.S. ("U.S. GAAP").

Sony realigned its business segments from the first quarter of the fiscal year ending March 31, 2015 to reflect modifications to its organizational structure as of April 1, 2014, primarily repositioning the operations of the previously reported Game and Mobile Products & Communications ("MP&C") segments. In connection with this realignment, the previously-reported operations of the network business which were included in All Other have been integrated with the previously-reported Game segment and are now reported as the Game & Network Services ("G&NS") segment. The previously reported Mobile Communications category which was included in the MP&C segment has been reclassified as the newly established Mobile Communications ("MC") segment, while the other categories in the previously reported MP&C segment are now included in All Other. This includes the reclassification of the PC business into All Other.

In addition, as of the first quarter of the fiscal year ending March 31, 2015, the power supply business, which was previously included in the Devices segment, has been integrated into All Other to reflect modifications Sony made to its organizational structure as of June 1, 2014.

In connection with these realignments, the sales and operating revenue (“sales”) and operating income (loss) of each segment in the fiscal year ended March 31, 2014 have been reclassified to conform to the presentation of the fiscal year ending March 31, 2015.

Certain figures for the fiscal year ended March 31, 2014 related to the Financial Services segment have been revised from the versions previously disclosed. For further details, please see Note 8 on page F-19.

The average foreign exchange rates during the quarters ended September 30, 2013 and 2014 are presented below.

	Second Quarter ended September 30			
	2013	2014	Change	
The average rate of yen				
1 U.S. dollar	¥ 98.9	¥ 103.9	4.8	%(yen depreciation)
1 Euro	131.1	137.8	4.9	(yen depreciation)

Consolidated Results for the Second Quarter Ended September 30, 2014

Sales were 1,901.5 billion yen (17,445 million U.S. dollars), an increase of 7.2% compared to the same quarter of the previous fiscal year (“year-on-year”). This increase was primarily due to a significant increase in G&NS segment sales, reflecting the contribution of the PlayStation 4 (“PS4”), a significant increase in Devices segment sales primarily due to the strong performance of image sensors, as well as the favorable impact of foreign exchange rates. This increase was partially offset by a significant decrease in sales in All Other, primarily related to Sony’s exit from the PC business. On a constant currency basis, sales increased 3% year-on-year. For further details about sales on a constant currency basis, see Note on page 11.

An operating loss of 85.6 billion yen (785 million U.S. dollars) was recorded, compared to operating income of 13.9 billion yen in the same quarter of the previous fiscal year. This significant deterioration was primarily due to the 176.0 billion yen (1,615 million U.S. dollars) impairment of goodwill recorded in the MC segment. As announced on September 17, 2014, Sony performed its interim goodwill impairment test during the current quarter and concluded that the fair value of the MC business has decreased. As a result, an impairment of goodwill of 176.0 billion yen was recorded. This deterioration in the current quarter’s operating results was partially offset by a significant improvement in the operating results of the G&NS, Imaging Products & Solutions (“IP&S”), Home Entertainment & Sound (“HE&S”), Devices and Pictures segments.

Operating loss in the current quarter includes a net benefit of 4.2 billion yen (39 million U.S. dollars) from insurance recoveries related to damages and losses incurred from the floods in Thailand in the fiscal year ended March 31, 2012 (the “Floods”). In the same quarter of the previous fiscal year, a gain of 12.8 billion yen from the sale of certain shares of M3, Inc. (“M3”) and a net benefit of 4.8 billion yen from the above-mentioned insurance recoveries were recorded.

During the current quarter, restructuring charges, net, increased 1.6 billion yen year-on-year to 9.4 billion yen (86 million U.S. dollars). PC exit costs of 7.7 billion yen (70 million U.S. dollars) were recorded in the current quarter, which includes 4.1 billion yen (38 million U.S. dollars) of restructuring charges. For further details about PC exit costs, see page 7.

Equity in net income of affiliated companies, recorded within operating loss, was 0.6 billion yen (6 million U.S. dollars), compared to a loss of 2.0 billion yen in the same quarter of the previous fiscal year. This improvement was mainly due to the improvement of equity in net income (loss) for EMI Music Publishing.

The net effect of other income and expenses was an expense of 4.4 billion yen (40 million U.S. dollars), an improvement of 4.4 billion yen year-on-year. This was primarily due to a decrease in net foreign exchange losses.

A loss before income taxes of 90.0 billion yen (825 million U.S. dollars) was recorded, compared to income of 5.1 billion yen in the same quarter of the previous fiscal year.

Income taxes: During the current quarter, Sony recorded 30.1 billion yen (276 million U.S. dollars) of income tax expense. Income tax expense was recorded despite the net loss before income taxes primarily due to the nondeductible goodwill impairment recorded during the current quarter.

Net loss attributable to Sony Corporation’s stockholders, which excludes net income attributable to noncontrolling interests, increased 116.3 billion yen year-on-year to 136.0 billion yen (1,247 million U.S. dollars).

Operating Performance Highlights by Business Segment

“Sales and operating revenue” in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. “Operating income (loss)” in each business segment represents operating income (loss) reported before intersegment transactions are eliminated and excludes unallocated corporate expenses.

Mobile Communications (MC)

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥304.6	¥308.4	+1.2	% \$2,829
Operating income (loss)	8.8	(172.0)	-	(1,578)

Sales increased 1.2% year-on-year (a 4% decrease on a constant currency basis) to 308.4 billion yen (2,829 million U.S. dollars), primarily due to the favorable impact of foreign exchange rates, partially offset by a decrease in sales mainly in Japan.

Operating loss of 172.0 billion yen (1,578 million U.S. dollars) was recorded, compared to operating income of 8.8 billion yen in the same quarter of the previous fiscal year. This deterioration was primarily due to the above-mentioned 176.0 billion yen impairment charge of goodwill recorded in this segment. In the current quarter, marketing expenses and research and development expenses increased year-on-year in order to expand sales channels.

Game & Network Services (G&NS)

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥169.0	¥309.5	+83.2	% \$2,839
Operating income (loss)	(4.2)	21.8	-	200

Sales increased 83.2% year-on-year (a 74% increase on a constant currency basis) to 309.5 billion yen (2,839 million U.S. dollars). This significant increase was primarily due to the contribution from PS4 hardware sales, a significant increase in network services revenue related to the introduction of the PS4 and the contribution from PS4 software sales, partially offset by a decrease in PlayStation®3 (“PS3”) hardware and PS3 software sales. Sales to external customers increased 97.0% year-on-year.

Operating income of 21.8 billion yen (200 million U.S. dollars) was recorded, compared to an operating loss of 4.2 billion yen in the same quarter of the previous fiscal year. This significant improvement was primarily due to the impact of the above-mentioned increase in sales related to the introduction of the PS4, partially offset by the impact of the above-mentioned decrease in PS3 software sales.

Imaging Products & Solutions (IP&S)

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥175.5	¥178.6	+1.8	% \$1,639
Operating income (loss)	(2.3)	20.1	-	184

The IP&S segment includes the Digital Imaging Products and Professional Solutions categories. Digital Imaging Products includes compact digital cameras, interchangeable single-lens cameras and video cameras; Professional Solutions includes broadcast- and professional-use products. Due to certain changes in Sony's organizational structure, sales and operating revenue and operating income of the IP&S segment of the comparable prior period have been reclassified to conform to the current presentation.

Sales increased 1.8% year-on-year (a 2% decrease on a constant currency basis) to 178.6 billion yen (1,639 million U.S. dollars). Sales were essentially flat year-on-year primarily due to the favorable impact of foreign exchange rates and an improvement in the product mix of digital cameras* reflecting a shift to high value-added models, partially offset by a significant decrease in unit sales of digital cameras.

Operating income of 20.1 billion yen (184 million U.S. dollars) was recorded, compared to an operating loss of 2.3 billion yen in the same quarter of the previous fiscal year. This significant improvement was mainly due to a reduction in selling, general and administrative expenses, the above-mentioned improvement in product mix reflecting a shift to high value-added models and the favorable impact of exchange rates.

* Digital cameras includes compact digital cameras and interchangeable single-lens cameras.

Home Entertainment & Sound (HE&S)

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥263.8	¥282.4	+7.0	% \$2,590
Operating income (loss)	(12.1)	8.0	-	73

The HE&S segment includes the Televisions and Audio and Video categories. Televisions includes LCD televisions; Audio and Video includes Blu-ray Disc™ players and recorders, home audio, headphones and memory-based portable audio devices.

Sales increased 7.0% year-on-year (a 2% increase on a constant currency basis) to 282.4 billion yen (2,590 million U.S. dollars). This increase was primarily due to a significant increase in sales of televisions and the favorable impact of foreign exchange rates. Unit sales of LCD televisions increased significantly in Europe, North America, and Asia-Pacific, partially offset by a significant decrease in unit sales in Latin America. Audio and Video category sales decreased mainly due to a decrease in sales in Latin America reflecting adverse market conditions.

Operating income of 8.0 billion yen (73 million U.S. dollars) was recorded, compared to an operating loss of 12.1 billion yen in the same quarter of the previous fiscal year. This improvement was primarily due to cost reductions and an improvement in the product mix reflecting the shift to high value-added models, partially offset by a decrease in the average selling price of LCD televisions.

In Televisions, sales increased 14.7% year-on-year to 199.7 billion yen (1,832 million U.S. dollars). This significant increase was primarily due to the above-mentioned significant increase in unit sales of LCD televisions, and the favorable impact of foreign exchange rates. Operating income* of 4.9 billion yen (45 million U.S. dollars) was recorded, compared to an operating loss of 9.3 billion yen in the same quarter of the previous fiscal year. This improvement was primarily due to cost reductions and an improvement in the product mix of LCD televisions reflecting a shift to high value-added models, partially offset by a decrease in the average selling price.

*The operating income (loss) in Televisions excludes restructuring charges, which are included in the overall segment results and are not allocated to product categories.

Devices

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in	2014
	yen	yen	yen	U.S. dollars
Sales and operating revenue	¥ 201.3	¥ 247.7	+23.1%	\$ 2,273
Operating income	11.9	29.6	+149.0	271

The Devices segment includes the Semiconductors and Components categories. Semiconductors includes image sensors; Components includes batteries, recording media and data recording systems. Due to certain changes in Sony's organizational structure, sales and operating revenue and operating income of the Devices segment of the comparable prior period have been reclassified to conform to the current presentation.

Sales increased 23.1% year-on-year (an 18% increase on a constant currency basis) to 247.7 billion yen (2,273 million U.S. dollars). This significant increase was primarily due to a significant increase in sales of image sensors reflecting higher demand for mobile products, a significant increase in sales of camera modules, as well as the favorable impact of foreign exchange rates. Sales to external customers increased 25.1% year-on-year.

Operating income increased 17.7 billion yen year-on-year to 29.6 billion yen (271 million U.S. dollars). This significant increase was primarily due to the above-mentioned increase in sales of image sensors, the favorable impact of foreign exchange rates and an improvement in the results of the battery business.

* * * * *

Total inventory of the five Electronics* segments above as of September 30, 2014 was 823.0 billion yen (7,550 million U.S. dollars), an increase of 8.8 billion yen, or 1.1% year-on-year. Inventory increased by 141.6 billion yen, or 21.0% compared with the level as of June 30, 2014.

* The term "Electronics" refers to the sum of the MC, G&NS, IP&S, HE&S and Devices segments.

In connection with the realignment made from the first quarter of the fiscal year ending March 31, 2015, total inventory of the five Electronics segments as of September 30, 2013 has been reclassified to conform to the presentation for the fiscal year ending March 31, 2015. For further details, please see page 1.

* * * * *

Pictures

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in	2014
	yen	yen	yen	U.S. dollars
Sales and operating revenue	¥177.8	¥182.2	+2.4	% \$1,671

Operating loss	(17.8)	(1.0)	-	(10)
----------------	-------	---	------	---	---	-----	---

The Pictures segment is comprised of the Motion Pictures, Television Productions, and Media Networks categories. Motion Pictures includes the production, acquisition and distribution of motion pictures; Television Productions includes the production, acquisition and distribution of television programming; Media Networks includes the operation of television and digital networks.

The results presented in Pictures are a yen-translation of the results of Sony Pictures Entertainment (“SPE”), a U.S.-based operation that aggregates the results of its worldwide subsidiaries on a U.S. dollar basis. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results is specified as being on “a U.S. dollar basis.”

Sales increased 2.4% year-on-year (a 3% decrease on a constant currency (U.S. dollar) basis) to 182.2 billion yen (1,671 million U.S. dollars) primarily due to the favorable impact of the depreciation of the yen against the U.S. dollar. The decrease on a U.S. dollar basis was primarily due to a decrease in sales for Motion Pictures, reflecting lower theatrical revenues, partially offset by higher home entertainment and television licensing revenues. Theatrical revenues decreased as the same quarter of the previous fiscal year benefited from a higher number of theatrical releases. Home entertainment and television licensing revenues were higher as the current year benefited from the home entertainment releases of *The Amazing Spider-Man 2* and *Heaven is for Real* and from the television licensing sales of *Men In Black 3* and *The Amazing Spider-Man*.

Operating loss decreased 16.7 billion yen year-on-year to 1.0 billion yen (10 million U.S. dollars) as the same quarter of the previous fiscal year included higher marketing expenses as a result of a higher number of theatrical releases as well as the underperformance of White House Down.

Music

(Billions of yen, millions of U.S. dollars)

Second Quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥115.0	¥116.8	+1.5	% \$1,071
Operating income	9.7	11.8	+21.9	108

The Music segment is comprised of the Recorded Music, Music Publishing and Visual Media and Platform categories. Recorded Music includes the distribution of physical and digital recorded music and revenue derived from artists' live performances; Music Publishing includes the management and licensing of the words and music of songs; Visual Media and Platform includes various service offerings for music and visual products and the production and distribution of animation titles.

The results presented in Music include the yen-translated results of Sony Music Entertainment ("SME"), a U.S.-based operation which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis, the results of Sony Music Entertainment (Japan) Inc., a Japan-based music company which aggregates its results in yen, and the yen-translated consolidated results of Sony/ATV Music Publishing LLC ("Sony/ATV"), a 50% owned U.S.-based joint venture in the music publishing business which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis.

Sales increased 1.5 % year-on-year (a 2% decrease on a constant currency basis) to 116.8 billion yen (1,071 million U.S. dollars). The decrease in sales on a constant currency basis is primarily due to lower Music Publishing and Recorded Music sales, partially offset by higher Visual Media and Platform sales. On a constant currency basis, sales of Music Publishing decreased primarily due to a decrease in revenue outside of the U.S. Recorded Music sales decreased slightly as the worldwide decline in physical and digital download sales were partially offset by higher digital streaming revenues. Visual Media and Platform sales increased mainly due to higher sales of animation products. Best-selling titles included Barbra Streisand's Partners, Chris Brown's X and Sia's 1000 Forms of Fear.

Operating income increased 2.1 billion yen year-on-year to 11.8 billion yen (108 million U.S. dollars). This increase was primarily due to an improvement in equity in net income (loss) from EMI Music Publishing and a reduction in selling, general and administrative expenses.

Financial Services

(Billions of yen, millions of U.S. dollars)

Second quarter ended September 30

	2013	2014	Change in yen	2014
Financial services revenue	¥ 243.7	¥ 269.6	+10.6%	\$ 2,473

Operating income	38.4	47.7	+24.2	437
------------------	------	------	-------	-----

The Financial Services segment results include Sony Financial Holdings Inc. (“SFH”) and SFH’s consolidated subsidiaries such as Sony Life Insurance Co., Ltd. (“Sony Life”), Sony Assurance Inc. and Sony Bank Inc. (“Sony Bank”). The results of Sony Life discussed in the Financial Services segment differ from the results that SFH and Sony Life disclose separately on a Japanese statutory basis.

Certain figures for the fiscal year ended March 31, 2014 have been revised from the versions previously disclosed. For details, please see Note 8 on page F-19.

Financial services revenue increased 10.6% year-on-year to 269.6 billion yen (2,473 million U.S. dollars) primarily due to an increase in revenue at Sony Life. Revenue at Sony Life increased 12.1% year-on-year to 242.5 billion yen (2,225 million U.S. dollars), mainly due to an improvement in investment performance in the separate account resulting from a larger rise in the Japanese stock market compared to the same quarter of the previous fiscal year, as well as an increase in insurance premium revenue reflecting an increase in policy amount in force.

Operating income increased 9.3 billion yen year-on-year to 47.7 billion yen (437 million U.S. dollars). This increase was mainly due to an increase in operating income at Sony Life. Operating income at Sony Life increased 9.3 billion yen year-on-year to 45.7 billion yen (419 million U.S. dollars) primarily due to an improvement in investment performance in the general account.

All Other

(Billions of yen, millions of U.S. dollars)

Second quarter ended September 30

	2013	2014	Change in yen	2014
Sales and operating revenue	¥212.0	¥108.6	-48.8	% \$997
Operating loss	(2.5)	(18.2)	-	(165)

All Other includes the PC business. Due to certain changes in Sony's organizational structure, sales and operating revenue and operating loss of All Other of the comparable prior period have been reclassified to conform to the current presentation.

Sales decreased 48.8% year-on-year (a 51% decrease on a constant currency basis) to 108.6 billion yen (997 million U.S. dollars). This decrease was primarily due to a significant decrease year-on-year in unit sales of PCs reflecting Sony's exit from the PC business.

Operating loss increased 15.7 billion yen year-on-year to 18.2 billion yen (165 million U.S. dollars). This deterioration was primarily due to a gain of 12.8 billion yen from the sale of certain shares of M3 recorded in the same quarter of the previous fiscal year and the recording of PC exit costs in the current quarter. The following table provides PC exit costs and the total PC operating loss.

(Billions of yen, millions of U.S. dollars)

Second quarter ended September 30, 2014

	All Other	Corporate and Elimination	Consolidated Total	Year-on-year change	Consolidated Total
(I) Restructuring charges	¥ 3.3	¥ 0.9	¥ 4.1	¥ +4.1	\$ 38
After-sales service					
(II) expenses etc.	3.5	-	3.5	+3.5	33
PC exit costs (I+II)	6.8	0.9	7.7	+7.7	70
Operating loss excluding exit costs	(5.1)	-	(5.1)	+2.3	(47)

Total PC operating loss	¥ (11.9)	¥ (0.9)	¥ (12.8)	¥ (5.4)	\$ (117)
-------------------------	-----------	----------	-----------	----------	-----------

Consolidated Results for the Six Months ended September 30, 2014

For Consolidated Statements of Income and Business Segment Information for the six months ended September 30, 2014 and 2013, please refer to pages F-3 and F-7 respectively.

Sales for the six months ended September 30, 2014 (“the current six months”) increased 6.5% year-on-year to 3,711.4 billion yen (34,050 million U.S. dollars). This increase was primarily due to the significant increase in sales in the G&NS segment and the favorable impact of foreign exchange rates, partially offset by a significant decrease in sales in All Other, primarily related to Sony’s exit from the PC business.

During the current six months, the average rates of the yen were 103.1 yen against the U.S. dollar and 139.0 yen against the euro, which were 4.1% lower and 6.5% lower, respectively, as compared with the same period in the previous fiscal year. On a constant currency basis, consolidated sales increased 3%. For further detail about sales on a constant currency basis, see Note on page 11.

In the MC segment, sales increased primarily due to the favorable impact of foreign exchange rates. In the G&NS segment, sales increased significantly primarily due to the contribution of PS4 hardware sales, as well as a significant increase in network services revenues accompanying the launch of the PS4. In the IP&S segment, sales decreased primarily due to lower sales of video cameras and digital cameras. In the HE&S segment, sales increased primarily due to a significant increase in sales of televisions and the favorable impact of foreign exchange rates. In the Devices segment, sales increased significantly mainly due to an increase in sales of image sensors for mobile devices and the favorable impact of foreign exchange rates. In the Pictures segment, sales increased significantly due to higher home entertainment and television licensing revenues for Motion Pictures as well as the favorable impact of the depreciation of the yen against the U.S. dollar. In the Music segment, sales increased primarily due to the favorable impact of the depreciation of the yen against the U.S. dollar and an increase in Visual Media and Platform sales, partially offset by a decrease in Recorded Music sales. In the Financial Services segment, revenue increased primarily due to higher insurance premiums revenue and an improvement in investment performance in the general account at Sony Life.

Operating loss of 15.8 billion yen (145 million U.S. dollars) was recorded, compared to operating income of 49.4 billion yen in the same period of the previous fiscal year. This deterioration was primarily due to the impairment of goodwill of 176.0 billion yen (1,615 million U.S. dollars) recorded in the MC segment, partially offset by a significant improvement in the operating results of the G&NS, IP&S, HE&S, Devices, Pictures and Financial Services segments.

Operating loss during the current six months includes a net benefit of 5.1 billion yen (47 million U.S. dollars) from insurance recoveries related to damages and losses incurred from the Floods. The same period of the previous fiscal year included a gain of 12.8 billion yen from the sale of certain shares of M3, a net benefit of 7.1 billion yen from insurance recoveries related to damages and losses incurred from the Floods and a benefit of 7.0 billion yen from the reversal of a patent royalty accrual.

In the MC segment, operating results significantly deteriorated year-on-year mainly due to the above-mentioned impairment charge recorded in this segment as well as an increase in marketing expenses. In the G&NS segment, operating results improved significantly year-on-year primarily due to the contribution of PS4 hardware and software. In the IP&S segment, operating income increased significantly year-on-year primarily due to a reduction in costs and an improvement in product mix reflecting a shift to high value-added models. In the HE&S segment, operating income was recorded compared to a loss in the same period of the previous fiscal year primarily due to cost reductions and an improvement in product mix reflecting a shift to high value-added models. In the Devices segment, operating income increased significantly mainly due to the increase in sales of image sensors. In the Pictures segment, operating results improved significantly primarily due to the stronger performance of the current fiscal year’s film release slate as the previous fiscal year reflected the underperformance of White House Down and After Earth,

partially offset by the gain recognized on the sale of SPE's music publishing catalog in the same period of the previous fiscal year. In the Music segment, operating income increased primarily due to the impact of an increase in Visual Media and Platform sales and a reduction in selling, general and administrative expenses. In the Financial Services segment, operating income increased primarily due to an improvement in investment performance in the general account at Sony Life.

Restructuring charges, recorded as operating expenses, amounted to 24.7 billion yen (226 million U.S. dollars) for the current six months compared to 12.5 billion yen for the same period of the previous fiscal year.

Equity in net income of affiliated companies, recorded within operating loss was 3.8 billion yen (35 million U.S. dollars), compared to a loss of 2.5 billion yen in the same period of the previous fiscal year. This improvement was mainly due to the improvement of equity in net income for Intertrust Technologies Corporation.

The net effect of other income and expenses was an expense of 5.8 billion yen (53 million U.S. dollars), compared to income of 1.1 billion yen in the same period of the previous fiscal year. This was primarily due to a decrease in other non-operating income.

Loss before income taxes was 21.6 billion yen (198 million U.S. dollars) compared to income of 50.5 billion yen in the same period of the previous fiscal year.

Income taxes: During the current six months, Sony recorded 56.1 billion yen (515 million U.S. dollars) of income tax expense. Income tax expense was recorded despite the net loss before income taxes primarily due to nondeductible goodwill impairments recorded during the current six months.

Net loss attributable to Sony Corporation's stockholders for the current six months increased 92.7 billion yen year-on-year to 109.2 billion yen (1,001 million U.S. dollars).

* * * * *

Cash Flows

For Consolidated Statements of Cash Flows, charts showing Sony's cash flow information for all segments, all segments excluding the Financial Services segment and the Financial Services segment alone, please refer to pages F-5 and F-17.

In the Financial Services segment, certain figures for the fiscal year ended March 31, 2014 have been revised from the versions previously disclosed. For further details, please see Note 8 on page F-19.

Operating Activities: During the current six months, there was a net cash inflow of 104.1 billion yen (955 million U.S. dollars) from operating activities, compared to a net cash outflow of 12.8 billion yen in the same period of the previous fiscal year.

For all segments excluding the Financial Services segment, there was a net cash outflow of 110.2 billion yen (1,011 million U.S. dollars) for the current six months, a decrease of outflow of 104.1 billion yen, or 48.6% year-on-year. This decrease of outflow was primarily due to the positive impact of an improvement in net income (loss) after taking into account non-cash adjustments (including depreciation and amortization, other operating (income) expenses, net, deferred income taxes and equity in net income (loss) of affiliated companies), a smaller increase in inventories, and a smaller increase in other receivables from component assembly companies, included in other current assets. This decrease of outflow was partially offset by the negative impact of a smaller year-on-year increase in notes and accounts payable, trade.

The Financial Services segment had a net cash inflow of 222.1 billion yen (2,038 million U.S. dollars), an increase of 13.9 billion yen, or 6.7% year-on-year. This increase was primarily due to an increase of insurance premiums revenue in line with a growing policy amount in force at Sony Life.

Investing Activities: During the current six months, Sony used 282.9 billion yen (2,595 million U.S. dollars) of net cash in investing activities, an increase of 58.7 billion yen, or 26.2% year-on-year.

For all segments excluding the Financial Services segment, there was a 0.1 billion yen (1 million U.S. dollars) net cash outflow, compared to a 7.7 billion yen net cash inflow in the same period of the previous fiscal year. This was primarily due to a year-on-year decrease in proceeds from the sales of fixed assets and investment securities. Sales of fixed assets and investment securities in the current six months included the intersegment sale of Sony Corporation's headquarters' land to Sony Life, the sale of certain buildings and premises at the Gotenyama Technology Center in Japan and the sale of Sony's shares in SQUARE ENIX HOLDINGS CO., LTD.

The Financial Services segment used 282.8 billion yen (2,594 million U.S. dollars) of net cash, an increase of 51.0 billion yen, or 22.0% year-on-year. This increase was mainly due to the intersegment purchase of Sony Corporation's headquarters' land by Sony Life, which is eliminated in the consolidated financial statements.

In all segments excluding the Financial Services segment, net cash used in operating and investing activities combined*1 for the current six months was 110.3 billion yen (1,012 million U.S. dollars), a decrease of 96.3 billion yen, or 46.6% year-on-year.

Financing Activities: During the current six months, 273.0 billion yen (2,505 million U.S. dollars) of net cash and cash equivalents was used in financing activities, compared to 111.2 billion yen of net cash and cash equivalents provided in the same period of the previous fiscal year.

For all segments excluding the Financial Services segment, there was a 255.4 billion yen (2,343 million U.S. dollars) net cash outflow, compared to a 84.8 billion yen net cash inflow in the same period of the previous fiscal year. This was primarily due to an issuance of straight bonds for Japanese retail investors in the same period of the previous fiscal year and the redemption of straight bonds and the repayment of a syndicated loan in the current six months.

In the Financial Services segment, financing activities used 25.5 billion yen (234 million U.S. dollars) of net cash, compared to 19.7 billion yen of net cash provided in the same period of the previous fiscal year. This was mainly due to a larger decrease in customer deposits at Sony Bank, compared to the figure in the same period of the previous fiscal year.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in foreign exchange rates, the total outstanding balance of cash and cash equivalents at September 30, 2014 was 610.5 billion yen (5,601 million U.S. dollars). Cash and cash equivalents of all segments excluding the Financial Services segment was 456.3 billion yen (4,186 million U.S. dollars) at September 30, 2014, a decrease of 71.7 billion yen, or 13.6% compared with the balance as of September 30, 2013, and a decrease of 349.8 billion yen, or 43.4% compared with the balance as of March 31, 2014. Sony believes that it continues to maintain sufficient liquidity through access to a total, translated into yen, of 749.7 billion yen (6,878 million U.S. dollars) of unused committed lines of credit with financial institutions in addition to the cash and cash equivalents balance at September 30, 2014. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was 154.2 billion yen (1,415 million U.S. dollars) at September 30, 2014, a decrease of 43.4 billion yen, or 22.0% compared with the balance as of September 30, 2013, and a decrease of 86.1 billion yen, or 35.8% compared with the balance as of March 31, 2014.

*1 Sony has included the information for cash flow from operating and investing activities combined, excluding the Financial Services segment's activities, as Sony's management frequently monitors this financial measure, and believes this non-U.S. GAAP measurement is important for use in evaluating Sony's ability to generate cash to maintain liquidity and fund debt principal and dividend payments from business activities other than its Financial Services segment. This information is derived from the reconciliations prepared in the Condensed Statements of Cash Flows on page F-17. This information and the separate condensed presentations shown below are not required or prepared in accordance with U.S. GAAP. The Financial Services segment's cash flow is excluded from the measure because SFH, which constitutes a majority of the Financial Services segment, is a separate publicly traded entity in Japan with a significant minority interest and it, as well as its subsidiaries, secure liquidity on their own. This measure may not be comparable to those of other companies. This measure has limitations because it does not represent residual cash flows available for discretionary expenditures principally due to the fact that the measure does not deduct the principal payments required for debt service. Therefore, Sony believes it is important to view this measure as supplemental to its entire statement of cash flows and together with Sony's disclosures regarding investments, available credit facilities and overall liquidity.

A reconciliation of the differences between the Consolidated Statement of Cash Flows reported and cash flows from operating and investing activities combined excluding the Financial Services segment's activities is as follows:

(Billions of yen, millions of U.S. dollars)

Edgar Filing: SONY CORP - Form 6-K

* * * * *

Note

The descriptions of sales on a constant currency basis reflect sales obtained by applying the yen's monthly average exchange rates from the same quarter of the previous fiscal year to local currency-denominated monthly sales in the current quarter. In certain cases, most significantly in the Pictures segment and SME and Sony/ATV in the Music segment, the constant currency amounts are after aggregation on a U.S. dollar basis. Sales on a constant currency basis are not reflected in Sony's consolidated financial statements and are not measures in accordance with U.S. GAAP. Sony does not believe that these measures are a substitute for U.S. GAAP measures. However, Sony believes that disclosing sales information on a constant currency basis provides additional useful analytical information to investors regarding the operating performance of Sony.

* * * * *

Outlook for the Fiscal Year ending March 31, 2015

The forecast for consolidated results for the fiscal year ending March 31, 2015, as announced on September 17, 2014, remains unchanged, as per the table below:

The forecasts for consolidated operating income (loss), income (loss) before income taxes and net loss attributable to Sony Corporation's stockholders were updated on September 17, 2014 solely to reflect the approximately 180 billion yen impairment of goodwill in the MC segment. No other factors were incorporated into the revisions in the forecast announced on September 17, 2014.

	(Billions of yen)				Change - October Forecast vs.	
	October Forecast	September Forecast	July Forecast	March 31, 2014 Results	September Forecast	March 31, 2014 Results
Sales and operating revenue	¥ 7,800	¥ 7,800	¥ 7,800	¥ 7,767.3	- %	+0.4 %
Operating income (loss)	(40)	(40)	140	26.5	-	¥ -66.5 bil
Income (loss) before income taxes	(50)	(50)	130	25.7	-	¥ -75.7 bil
Net loss attributable to Sony Corporation's stockholders	(230)	(230)	(50)	(128.4)	-	¥ - 01.6 bil

Assumed foreign currency exchange rates for the remainder of the fiscal year ending March 31, 2015: approximately 110 yen to the U.S. dollar and approximately 138 yen to the euro. (Assumed foreign currency exchange rates for the remainder of the fiscal year ending March 31, 2015 at the time of the July and September forecasts: approximately 103 yen to the U.S. dollar and approximately 137 yen to the euro.)

The consolidated sales forecast for the current fiscal year remains unchanged from the September forecast as the favorable impact of the depreciation of the yen is expected to be offset by a downward revision in the sales forecasts for the HE&S, Pictures and MC segments. The consolidated operating loss forecast remains unchanged from the September forecast.

Costs related to the exit from the PC business and other strategic management initiatives are expected to be approximately 311 billion yen for Sony Group, an increase of 176 billion yen above the July forecast, primarily due to

the recording of goodwill impairment charges in the MC segment. Such costs in the previous fiscal year were 177.4 billion yen. The above costs have been incorporated into the consolidated operating loss forecast as an operating expense. Of the above costs, approximately 85 billion yen is expected to be recorded as restructuring charges, an increase of 5 billion yen compared to the July forecast, due to an increase in restructuring charges primarily in the MC segment (restructuring charges in the previous fiscal year were 80.6 billion yen).

Edgar Filing: SONY CORP - Form 6-K

The forecast for each business segment has been revised as follows:

* Operating income (loss) for the July forecast has been adjusted to reflect the approximately 180 billion yen impairment of goodwill for the MC segment that was announced on September 17, 2014. The July forecasts for the other segments are those initially announced.

Mobile Communications

Sales are expected to be below the July forecast primarily due to an expected decrease in the annual unit sales of smartphones mainly in China, partially offset by the favorable impact of foreign exchange rates. Operating loss is expected to be larger than the July forecast primarily due to the unfavorable impact of the appreciation of the U.S. dollar, reflecting the high ratio of U.S. dollar-denominated hardware costs in the segment, the impact of a decrease in sales and the expected recording of restructuring charges mainly related to initiatives to reduce headcount in this segment as announced on September 17, 2014. The October forecast for operating loss also includes the 176 billion yen impairment charge recorded in the current quarter.

Game & Network Services

Sales are expected to be higher than the July forecast primarily due to the favorable impact of foreign exchange rates and the strong performance of the PS4. Operating income is expected to be above the July forecast primarily due to the above-mentioned increase in sales, partially offset by the unfavorable impact of the appreciation of the U.S. dollar, reflecting the high ratio of U.S. dollar-denominated costs in the segment.

Imaging Products & Solutions

Sales are expected to be above the July forecast primarily due to the favorable impact of foreign exchange rates and an upward revision in the annual unit sales forecast for digital cameras. Operating income is expected to be above the July forecast primarily due to cost reductions and the favorable impact of foreign exchange rates.

Home Entertainment & Sound

Sales are expected to be below the July forecast mainly due to a downward revision in the annual unit sales forecast for LCD televisions, partially offset by the favorable impact of foreign exchange rates. Operating income is expected to remain unchanged from the July forecast mainly due to cost reductions being offset primarily by the unfavorable impact of the appreciation of the U.S. dollar, reflecting the high ratio of U.S. dollar-denominated costs in the segment and the above-mentioned decrease in sales.

Devices

Sales are expected to be higher than the July forecast primarily due to the favorable impact of foreign exchange rates and an anticipated increase in sales of image sensors. Operating income is expected to be higher than the July forecast primarily due to the favorable impact of foreign exchange rates and the above-mentioned increase in sales.

Pictures

Sales are expected to be lower than the July forecast primarily due to an expected decrease in Motion Pictures and Media Networks revenues, partially offset by the favorable impact of the depreciation of the yen against the U.S. dollars. Operating income is expected to be lower than the July forecast primarily due to the above-mentioned decrease in Motion Pictures and Media Networks revenues.

Music

Sales and operating income are expected to be higher than the July forecast primarily due to the favorable impact of foreign exchange rates.

The forecasts for the Financial Services segment remains unchanged from the July forecast.

The effects of future gains and losses on investments held by the Financial Services segment due to market fluctuations have not been incorporated within the above forecast as it is difficult for Sony to predict market trends in the future. Accordingly, future market fluctuations could further impact the current forecast.

Sony's forecast for capital expenditures, depreciation and amortization, as well as research and development expenses for the current fiscal year, announced on July 31, 2014, has been changed as per the table below.

Consolidated

	(Billions of yen)			Change - October Forecast vs.	
	October Forecast	July Forecast	March 31, 2014 Results	July Forecast	March 31, 2014 Results

This forecast is based on management's current expectations and is subject to uncertainties and changes in circumstances. Actual results may differ materially from those included in this forecast due to a variety of factors. See "Cautionary Statement" below.

Cautionary Statement

Statements made in this release with respect to Sony's current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as "believe," "expect," "plans," "strategy," "prospects," "forecast," "estimate," "project," "anticipate," "aim," "intend," "seek," "may," "might," "should," and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management's assumptions, judgments and beliefs in light of the information currently available to it. Sony cautions investors that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore investors should not place undue reliance on them. Investors also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to:

- (i) the global economic environment in which Sony operates and the economic conditions in Sony's markets, particularly levels of consumer spending;
- (ii) foreign exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales and incurs production costs, or in which Sony's assets and liabilities are denominated;
- (iii) Sony's ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including televisions, game platforms and smartphones, which are offered in highly competitive markets characterized by severe price competition and continual new product and service introductions, rapid development in technology and subjective and changing consumer preferences;
- (iv) Sony's ability and timing to recoup large-scale investments required for technology development and production capacity;
- (v) Sony's ability to implement successful business restructuring and transformation efforts under changing market conditions;
- (vi) Sony's ability to implement successful hardware, software, and content integration strategies for all segments excluding the Financial Services segment, and to develop and implement successful sales and distribution strategies in light of the Internet and other technological developments;
- (vii) Sony's continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to prioritize investments correctly (particularly in the electronics businesses);
- (viii) Sony's ability to maintain product quality;
- (ix) the effectiveness of Sony's strategies and their execution, including but not limited to the success of Sony's acquisitions, joint ventures and other strategic investments;
- (x) significant volatility and disruption in the global financial markets or a ratings downgrade;
- (xi) Sony's ability to forecast demands, manage timely procurement and control inventories;
- (xii) the outcome of pending and/or future legal and/or regulatory proceedings;
- (xiii) shifts in customer demand for financial services such as life insurance and Sony's ability to conduct successful asset liability management in the Financial Services segment;
- (xiv) the impact of unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment; and
- (xv) risks related to catastrophic disasters or similar events.

Risks and uncertainties also include the impact of any future events with material adverse impact.

The 2013 segment disclosure above has been reclassified to reflect the change in the business segment classification discussed in Note 5.

Operating income (loss) is sales and operating revenue less costs and expenses, and includes equity in net income (loss) of affiliated companies.

Corporate and elimination includes headquarters restructuring costs and certain other corporate expenses, including the amortization of certain intellectual property assets such as the cross-licensing of intangible assets acquired from Ericsson at the time of the Sony Mobile Communications acquisition, which are not allocated to segments.

Within the Home Entertainment & Sound (“HE&S”) segment, the operating income (loss) of Televisions, which primarily consists of LCD televisions, for the three months ended September 30, 2013 and 2014 was (9,262) million yen and 4,922 million yen, respectively. The operating income (loss) of Televisions excludes restructuring charges which are included in the overall segment results and are not allocated to product categories.

The 2013 segment disclosure above has been reclassified to reflect the change in the business segment classification discussed in Note 5.

Operating income (loss) is sales and operating revenue less costs and expenses, and includes equity in net income (loss) of affiliated companies.

Corporate and elimination includes headquarters restructuring costs and certain other corporate expenses, including the amortization of certain intellectual property assets such as the cross-licensing of intangible assets acquired from Ericsson at the time of the Sony Mobile Communications acquisition, which are not allocated to segments.

Within the HE&S segment, the operating income (loss) of Televisions, which primarily consists of LCD televisions, for the six months ended September 30, 2013 and 2014 was (4,055) million yen and 12,838 million yen, respectively. The operating income (loss) of Televisions excludes restructuring charges which are included in the overall segment results and are not allocated to product categories.

The above table includes a breakdown of sales and operating revenue to external customers for certain segments shown in the Business Segment Information on page F-6. Sony management views each segment as a single operating segment. However, Sony believes that the breakdown of sales and operating revenue to external customers

for the segments in this table is useful to investors in understanding sales by product category.

Sony has realigned its product category configuration from the first quarter of the fiscal year ending March 31, 2015. In connection with the realignment, all prior period sales amounts by product category in the table above have been reclassified to conform to the current presentation.

In the IP&S segment, Digital Imaging Products includes compact digital cameras, interchangeable single-lens cameras and video cameras; Professional Solutions includes broadcast- and professional-use products. In the HE&S segment, Televisions includes LCD televisions; Audio and Video includes Blu-ray disc players and recorders, home audio, headphones, and memory-based portable audio devices. In the Devices segment, Semiconductors includes image sensors; Components includes batteries, recording media and data recording systems. In the Pictures segment, Motion Pictures includes the production, acquisition and distribution of motion pictures; Television Productions includes the production, acquisition and distribution of television programming; Media Networks includes the operation of television and digital networks. In the Music segment, Recorded Music includes the distribution of physical and digital recorded music and revenue derived from artists' live performances; Music Publishing includes the management and licensing of the words and music of songs; Visual Media and Platform includes various service offerings for music and visual products and the production and distribution of animation titles.

Depreciation associated with restructured assets as used in the context of the disclosures regarding restructuring activities refers to the increase in depreciation expense caused by revising the useful life and the salvage value of depreciable fixed assets to coincide with the earlier end of production under an approved restructuring plan. Any impairment of the assets is recognized immediately in the period it is identified.

Major areas in each geographic segment excluding Japan, United States and China are as follows:

- (1) Europe: United Kingdom, France, Germany, Russia, Spain and Sweden
- (2) Asia-Pacific: India, South Korea and Oceania
- (3) Other Areas: The Middle East/Africa, Brazil, Mexico and Canada

Condensed Financial Services Financial Statements

The results of the Financial Services segment are included in Sony's consolidated financial statements. The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services. These presentations are not in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which is used by Sony to prepare its consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements. Transactions between the Financial Services segment and Sony without the Financial Services segment, including noncontrolling interests, are included in those respective presentations, then eliminated in the consolidated figures shown below.

(Notes)

1. U.S. dollar amounts have been translated from yen, for convenience only, at the rate of ¥109 = U.S. \$1, the approximate Tokyo foreign exchange market rate as of September 30, 2014.
2. As of September 30, 2014, Sony had 1,271 consolidated subsidiaries (including variable interest entities) and 102 affiliated companies accounted for under the equity method.
3. The weighted-average number of outstanding shares used for the computation of earnings per share of common stock are as follows:

Weighted-average number of outstanding shares	(Thousands of shares)	
	Three months ended September 30	
Net loss attributable to Sony Corporation's stockholders	2013	2014
— Basic	1,019,875	1,093,725
— Diluted	1,019,875	1,093,725

Weighted-average number of outstanding shares	(Thousands of shares)	
	Six months ended September 30	
Net loss attributable to Sony Corporation's stockholders	2013	2014
— Basic	1,015,395	1,068,703
— Diluted	1,015,395	1,068,703

All potential shares were excluded as anti-dilutive for the three and six months ended September 30, 2013 and 2014 due to Sony incurring a net loss attributable to Sony Corporation's stockholders for the respective periods.

4. Recently adopted accounting pronouncements:

Obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date

In February 2013, the Financial Accounting Standards Board ("FASB") issued new accounting guidance for obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date. The guidance requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors, plus any additional amount the reporting entity expects to pay on behalf of its co-obligors. This guidance was effective for Sony as of April 1, 2014. The adoption of this guidance did not have a material impact on Sony's results of operations and financial position.

Parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity

In March 2013, the FASB issued new accounting guidance for the parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. The guidance resolved diversity in practice and clarifies the applicable guidance for the release of the cumulative translation adjustment when the parent sells a part or all of its investment in a foreign entity, ceases to have a controlling financial interest in a subsidiary or group of assets that is a business within a foreign entity, or obtains control in a business combination achieved in stages involving an equity method investment that is a foreign entity. After adoption of this guidance, any accumulated translation adjustments associated with a previously held equity interest, are included in earnings in a business combination achieved in stages. This guidance was effective for Sony as of April 1, 2014. The adoption of this guidance did not have a material impact on Sony's results of operations and financial position.

Presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists

In July 2013, the FASB issued new accounting guidance for the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance requires an unrecognized tax benefit to be presented as a reduction to a deferred tax asset for a net operating loss, a similar tax loss, or a tax credit carryforward if certain criteria are met. This guidance was effective for Sony as of April 1, 2014. The adoption of this guidance did not have a material impact on Sony's results of operations and financial position.

F-18

5. Sony realigned its business segments for the first quarter of the fiscal year ending March 31, 2015 to reflect modifications to its organizational structure as of April 1, 2014, primarily repositioning the operations of the previously reported Game and Mobile Products & Communications (“MP&C”) segments. In connection with this realignment, the previously-reported operations of the network business which were included in All Other are now integrated with the previously-reported Game segment and are reported as the G&NS segment. The previously reported Mobile Communications category which was included in the MP&C segment has been reclassified as the newly established Mobile Communications segment, while the other categories in the previously reported MP&C segment are now included in All Other. This includes the reclassification of the PC business into All Other. As of the first quarter of the fiscal year ending March 31, 2015, the power supply business, which was previously included in the Devices segment, has been integrated into All Other to reflect modifications Sony made to its organizational structure as of June 1, 2014. For further details of new segments and categories, see page F-8 and F-9. In connection with this realignment, the sales and operating revenue and operating income (loss) of each segment for the comparable period have been reclassified to conform to the current quarter’s presentation.
6. Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or extraordinary transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which they occur.
7. Certain reclassifications of the financial statements and accompanying footnotes for the three and six months ended September 30, 2013 have been made to conform to the presentation for the three and six months ended September 30, 2014. Reclassifications include changes in the presentation and disclosure related to internal-use software, effective on March 31, 2014. Due to the changes, the amortization of internal-use software was reclassified from other to depreciation and amortization, including amortization of deferred insurance acquisition costs in the cash flows from operating activities section of the consolidated statements of cash flows. Depreciation and amortization in the business segment information were also reclassified, accordingly.
8. During the fourth quarter of the fiscal year ended March 31, 2014, Sony revised its financial statements related to the recognition of revenue for certain of its universal life insurance contracts as disclosed in the previous fiscal year. Accordingly, certain financial information for the comparable period has been revised. The principal amounts that have been revised are indicated below.
