**CAMTEK ANNOUNCES FIRST SALE IN JAPAN OF FALCON**

Expects a new record quarter  
with total revenues around \$19 million

MIGDAL HAEMEK, Israel September 27, 2004 Camtek Ltd. (NASDAQ: CAMT) announced today a first sale in Japan of a Falcon 300. The system was sold to a major Japanese manufacturer of semiconductors and electronic products. The Company also reported that it expects revenues in the current quarter from sales of systems to the semiconductor manufacturing and packaging industries worldwide to reach approximately \$1.8 million, compared to nearly \$1 million in the previous quarter.

This sale is a milestone in our penetration activity into the semiconductor industry, said Amir Gilead, Camtek's VP of Semiconductor and Packaging Division. This customer is a major player, and we hope that their acceptance of the Falcon will significantly improve our position in the strategic Japanese market.

We are currently supporting several Falcon evaluations in advanced stages, while continually devoting significant marketing efforts in promoting these products across the global semiconductor manufacturing and packaging industry, added Mr. Gilead.

Rafi Amit, Camtek's CEO, added: We are pleased with the acceptance of various Falcon models by our customers. We expect the contribution from sales to this industry, along with our sales to the PCB and HDI-S industries, to bring our revenues in the third quarter to a new record level of approximately \$19 million.

**ABOUT CAMTEK LTD.**

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek's automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry.
