CAMTEK TO TRADE ON THE TEL AVIV STOCK EXCHANGE IN ADDITION TO NASDAQ

Listing in Tel Aviv expected to begin Wednesday, December 21st, under the symbol CAMT

MIGDAL HA EMEK, Israel, December 19, 2005 Camtek Ltd. (Nasdaq: CAMT) announced today that it has applied for its shares to be traded on the Tel Aviv Stock Exchange (TASE). Trading of the company's shares on the TASE is expected to begin this Wednesday, December 21. Listing on TASE will be in addition to the existing listing on the NASDAQ National Market where Camtek's shares trade under the symbol CAMT.

Mr. Rafi Amit, Camtek's CEO, commented: Camtek's decided to list its shares on TASE to facilitate trading by Israeli investors and lower their transaction costs. In addition, dual listing may increase the Company's overall trading volume by providing Israeli institutional investors, some of which are currently limited in their trading on foreign exchanges, greater and easier access to Camtek's shares. Other Israeli and European investors who trade in Tel Aviv may take advantage of this venue as well.

ABOUT CAMTEK LTD.

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek's automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry. This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry, price reductions as well as due to risks identified in the documents filed by the Company with the SEC.
