ZONE 4 PLAY, INC. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. DOLLARS

NOTE 1: GENERAL

- a. Zone4Play Inc. ("the Company") was incorporated under the laws of the State of Nevada on April 23, 2002 as Old Goat Enterprises, Inc. On February 1, 2004, the Company acquired Zone4Play, Inc. ("Zone4Play (Delaware)") (see b. below), which was incorporated under the laws of the State of Delaware on April 2, 2001, and subsequently changed the Company's name to Zone4Play, Inc., a Nevada corporation. The Company develops and markets interactive games applications for Internet,

Edgar Filing: ZONE 4 PLAY INC - Form 10QSB

portable devices and interactive TV platforms.

The Company conducts its operations and business with and through its subsidiaries, (1) Zone4Play (Delaware), (2) Zone4Play Limited, an Israeli corporation incorporated in July 2001, which is engaged in research and development and marketing of the applications, (3) Zone4Play (UK) Limited, a United Kingdom corporation, incorporated in November 2002, which is engaged in marketing of the applications, (4) MixTV Ltd., an Israeli corporation which develops and markets participation TV games applications, and (5) Gaming Ventures Plc ("Gaming"), a company incorporated in the Isle of Man.

The Company's shares of common stock are currently traded on the OTC Bulletin Board under the trading symbol "ZFPI.OB."

- b. The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered losses from operations and negative cash flows from operations since inception. For the nine months ended September 30, 2007 the Company incurred a loss from continuing operations of \$2,484,320, negative cash flows from operations of \$2,484,216 and has an accumulated deficit of \$16,452,564 as of September 30, 2007.

Despite its negative cash flows, the Company has been able to secure financing in order to support its operation to date, based on shares issuances. Management believes that, despite the financial hurdles and funding uncertainties going forward, it has under development a business plan that, if successfully funded and executed as part of a financial restructuring can significantly improve operating results. As part of the Company's plan, management intends to raise capital funds in the near future in order to secure on going operations. The consolidated financial statements do not include any adjustments that may result from the outcome of this uncertainty.

- c. According to an agreement between the Company and Zone4Play (Delaware), the Company issued 10,426,190 shares of common stock to the former holders of equity interest in Zone4Play (Delaware). The acquisition has been accounted for as a reverse acquisition, whereby the Company was treated as the acquiree and Zone4Play (Delaware) as the acquirer, primarily because Zone4Play (Delaware) shareholders owned a majority, approximately 58% of the Company's common stock, upon completion of the acquisition. Immediately prior to the consummation of the transaction, the Company had no material assets and liabilities, hence the reverse acquisition is treated as a capital stock transaction in which Zone4Play (Delaware) is deemed to have issued the common stock held by the Company shareholders for the net assets of the Company. The historical financial statements of Zone4Play (Delaware) became the historical financial statements of the Company.
- d. Concentration of risk that may have a significant impact on the Company:

The Company derived 81% of its revenues from three major customers (see Note 4b).

NOTE 2: BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments including non-recurring adjustments attributable to reorganization and severance and impairment considered necessary for a fair presentation have been included. Operating results for the nine months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. For further information, reference is made to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2006.

The interim condensed consolidated financial statements incorporate the financial statements of the Company and all of its subsidiaries. All significant intercompany balances and transactions have been eliminated on consolidation.

The significant accounting policies applied in the annual consolidated financial statements of the Company as of December 31, 2006 contained in the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission ("SEC") on March 30, 2007, have been applied consistently in these unaudited interim condensed consolidated financial statements.

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

- a. These financial statements should be read in conjunction with the audited annual financial statements of the Company as of December 31, 2006 and their accompanying notes.
- b. Accounting for stock-based compensation

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004) ("SFAS 123(R)"), "Share-Based Payment," and Staff Accounting Bulletin No. 107 ("SAB 107"), which was issued in March 2005 by the SEC. SFAS 123(R) addresses the accounting for share-based payment transactions in which the Company obtains employee services in exchange for equity instruments of the Company. This statement requires that employee equity awards be accounted for using the grant-date fair value method. SAB 107 provides supplemental implementation guidance on SFAS 123(R), including guidance on valuation methods, classification of compensation expense, income statement effects, disclosures and other issues.

The following table shows the total stock-based compensation charge included in the Consolidated Statement of Operations:

NOTE 5: RECENTLY ISSUED ACCOUNTING STANDARDS

In September 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). This standard establishes a framework for measuring fair value and expands related disclosure requirements; however, it does not require any new fair value measurement. As applicable to the Company, this statement will be effective as of the year beginning January 1, 2008. The Company is currently evaluating the impact that the adoption of SFAS 157 would have on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). This standard permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. As applicable to the Company, this statement will be effective as of the year beginning January 1, 2008. The Company is currently evaluating the impact that the adoption of SFAS 159 would have on its consolidated financial statements.

OVERVIEW

Edgar Filing: ZONE 4 PLAY INC - Form 10QSB

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles. The financial statements of our subsidiaries Zone4Play (UK) Limited, and Zone4Play (Israel) Ltd whose functional currency has been determined to be its local currency, have been translated into dollars. All balance sheet amounts have been translated using the exchange rates in effect at each balance sheet date. Statement of operation amounts have been translated using the average exchange rate prevailing during the period. The resulting translation adjustments are reported as a separate component of accumulated other comprehensive loss in shareholder's equity

You should read the following discussion of our financial condition and results of operations together with the unaudited financial statements and the notes to unaudited financial statements included elsewhere in this report.

OUR BUSINESS

We are a software and technology developer and provider to companies that service the interactive gaming industry, delivering cross-platform systems that are built for mass participation gaming over mobile devices, TV and the internet. Our software provides and supports play-for-fun and play-for-real interactive games. We offer five core solutions to companies that offer play-for-real gaming, namely:

(i) Multiplayer blackjack tournaments (which we refer to as Blackjack Software): 24/7 availability of a variety of blackjack tournaments games based on a peer-to-peer technology allowing users to compete against each other and not against the "house".

(ii) Mobile gaming: the provision of services on mobile devices, including fixed odds games, multiplayer games, sports betting services, scratch cards and exchange betting.

(iii) Interactive TV gaming: the provision of software and technology currently supporting fixed odds games.

(iv) Participating TV gaming: the provision of services via the interaction of television broadcasts and mobile text messages, IVR (interactive voice response) lines or Java interaction.

(v) Online gaming: the provision of fixed odds and casino games over the internet.

We also provided marketing services related to our Blackjack Software business and other games thorough our subsidiary Get21 Limited, or Get21, which used Golden Palace Ltd., or Golden Palace, for the full operation of the service which includes payment, processing, customer support, fraud and collusion prevention and other services. Effective July 15, 2007, our board of directors decided to cease the marketing services provided for gaming applications marketing activities due to cash flow difficulties.

We have recently re-prioritized our operations and currently plan to focus on two products: our jointly operated brand "the Winner Channel" and our Blackjack Software.

Our technology allows our customers to generate additional revenue from their existing infrastructure and user base by allowing a subscriber to switch from

Edgar Filing: ZONE 4 PLAY INC - Form 10QSB

one platform, such as Interactive TV, mobile, internet or participating TV to another platform using a single account with the same account balance and user information. In addition, our technology allows mobile service providers, TV broadcasters and channels to provide additional content, as well as an increased variety of services, to their customers.

We enter into license and/or revenue-sharing agreements with our customers under which the customers use our software and technology to offer games to their subscribers and pay us a fixed fee and/or a percentage of the net revenues generated from those games.

We devote substantially all of our efforts toward conducting research, development and marketing of our software. In the course of these activities, we have sustained operating losses and expect such losses to continue in the foreseeable future. To date, we have not generated sufficient revenues to achieve profitable operations or positive cash flow from operations. As of September 30, 2007, we had an accumulated deficit of \$16,452,564. There is no assurance that profitable operations, if ever achieved, will be sustained on a continuing basis. During the nine months ended September 30, 2007, we derived approximately 81% of our revenues from three major customers.

Our shares of common stock are currently traded on the OTC Bulletin Board under the trading symbol "ZFPI.OB".

GOING CONCERN

We have generated revenues since inception but they were not an adequate source of cash to fund future operations. Historically we have relied on private placement issuances of equity.

It is likely that we will need to raise additional working capital to fund our ongoing operations and growth. The amount of our future capital requirements depends primarily on the rate at which we increase our revenues and correspondingly decrease our use of cash to fund operations. Cash used for operations will be affected by numerous known and unknown risks and uncertainties including, but not limited to, our ability to successfully market our products and services and the degree to which competitive products and services are introduced to the market. As long as our cash flow from operations remains insufficient to completely fund operations, we will continue depleting our financial resources and seeking additional capital through equity and/or debt financing. If we raise additional capital through the issuance of debt, this will result in increased interest expense. If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership of our company held by existing stockholders will be reduced and those stockholders may experience significant dilution. In addition, new securities may contain rights, preferences or privileges that are senior to those of our common stock.

There can be no assurance that acceptable financing to fund our ongoing operations can be obtained on suitable terms, if at all. If we are unable to obtain the financing necessary to support our operations, we may be unable to continue as a going concern. In that event, we may be forced to cease operations and our stockholders could lose their entire investment in our company.

OUTLOOK

We believe that our future success will depend upon our ability to enhance our existing products and solutions and introduce new commercially viable products and solutions addressing the demands of the evolving markets. As part of the product development process, we work closely with current and potential customers, distribution channels and leaders in our industry to identify market needs and define appropriate product specifications. Our current anticipated levels of revenue and cash flow are subject to many uncertainties and cannot be assured. In order to have sufficient cash to meet our anticipated requirements for the next twelve months, we may be dependent upon our ability to obtain additional financing. The inability to generate sufficient cash from operations or to obtain the required additional funds could require us to curtail operations. We are attempting to reduce our operating expenses from \$450,000 a month to below \$140,000 per month and have already downsized our workforce to 15 full time basis employees. There can be no assurance that acceptable financing to fund our ongoing operations can be obtained on suitable terms, if at all. If we are unable to obtain the financing necessary to support our operations, we may be unable to continue as a going concern. In that event, we may be forced to cease operations and our stockholders could lose their entire investment in our company.
