# **CAMTEK ANNOUNCES FIRST QUARTER 2008 RESULTS**

## Growth in revenues, gross margin and net income

MIGDAL HAEMEK, Israel May 15, 2008 Camtek Ltd. (NASDAQ: CAMT and TASE: CAMT), today announced its financial results for the first quarter ended March 31, 2008.

The Company reported revenues for the first quarter of \$21.3 million, an increase of 47% over the \$14.5 million reported in the first quarter of last year and a slight increase sequentially from the \$21.0 million reported in the fourth quarter of 2007.

Gross profit margin for the first quarter of 2008 improved to 44.5%, as compared to 41.5% for the first quarter of 2007, and 43.7% for the fourth quarter of 2007.

Operating income for the first quarter of 2008 was \$114 thousand (0.5% of revenues), compared with an operating loss of \$4.3 million in the first quarter of 2007 and an operating income of \$126 thousand (0.6% of revenues) in the prior quarter.

The Company s profitability was affected by strong devaluation of the US dollar against the Israeli shekel in the first quarter of 2008, which increased Israel-based shekel costs in dollar terms. However, the company hedged its dollar/shekel exposure and subsequently reported increased financial income which compensated for the increase in expenses due to the devaluation of the dollar.

Financial income in the quarter of \$466 thousand, compared with \$133 thousand in the first quarter of 2007 and \$66 thousand in the prior quarter.

Net income for the first quarter of 2008 was \$493 thousand, or \$0.02 per diluted share. This is compared to a net loss of \$4.3 million, or \$0.14 per share, in the first quarter of 2007. For the previous quarter in 2007, net income was \$247 thousand, or \$0.01 per diluted share.

The Company reported a positive operating cash flow of \$307 thousand in the quarter. As of March 31st, 2008, the Company reported a net cash and equivalents of \$20.7 million as compared with \$20.0 million at December 31st, 2007.

We are satisfied with our first quarter results, especially with the increase in profitability and positive cash flow , commented Rafi Amit, Camtek s CEO. We maintained our revenues at similar level to that of the last two quarters in spite of the on-going macroeconomic situation and the weakness of the electronic industry. Our activity in the PCB sector has been stable, while we recorded a slight increase in revenues from the semiconductors manufacturing and packaging industry. We attribute this growth to technology-driven demand for our wafer inspection systems.

Mr. Amit continued, Following our continuous investment in R&D, we have recently introduced three new lines of inspection systems: Planet, for ultra-fine line PCB panels; Mustang for finished boards of mobile products; and Falcon 1000, enhanced performance wafer inspection systems. Products from all the new lines have already been sold to customers.

3

At the same time, we continue to look for additional growth opportunities both internal and external in related markets into which we can leverage our technologies and global organization.

SIGNATURE 2

Mr. Amit concluded, We expect second quarter revenues at a similar level to that of the current quarter, between \$20 and 22 million.

The Company also announced the appointment of Roy Porat to the newly created position of General Manager at the Company s headquarters in Israel. Roy s previous role was President of Camtek HK, where he oversaw all of Camtek s activities in Asia. Aharon Sela, previously VP of Sales at Camtek Europe, was appointed to replace Mr. Porat in Camtek HK.

#### Conference call

Camtek will host a conference call today, May 15, at 9:00am ET. Rafi Amit, Chief Executive Officer, and Ronit Dulberg, Chief Financial Officer will host the call and will be available to answer questions after presenting the results.
