The following letter was sent by WMC Resources Ltd to shareholders on November 26, 2004.

WMC shareholders should read WMC's Solicitation/Recommendation Statement on Schedule 14D-9 when it is filed by WMC with the Securities and Exchange Commission, as it will contain important information. The Solicitation/Recommendation Statement and other public filings made from time to time by WMC with the SEC are available without charge from the SEC's website at [www.sec.gov](http://www.sec.gov).

26 November 2004

[WMC LETTERHEAD]

Dear Shareholder,

**Ignore all correspondence from Xstrata**

As you may be aware, Xstrata recently announced that it intends to make a conditional takeover offer for WMC Resources Ltd (WMC). This takeover offer is not endorsed by your Board.

Your Board believes that Xstrata's proposed offer of \$6.35 per share is highly conditional and fails to recognise the current and prospective value of WMC's assets and the strategic benefits to Xstrata or other potential acquirers. In addition, the WMC share price has traded at an average price of \$6.90 since Xstrata's original proposal was announced and closed at \$7.25 yesterday.

Your Board recommends that you TAKE NO ACTION in response to Xstrata's advertisements, announcements or documents. You may also be telephoned by Xstrata. We encourage you to only accept phone calls which are officially endorsed by the WMC Board.

As a shareholder in WMC, you are an owner of valuable and world-class assets. We have long life and low cost mines and your Board and management team are delivering operational improvements and significant growth opportunities.

Regarding operating performance in 2004:

we have delivered three consecutive quarters of strong operating performances with improvements in key indicators in each of our businesses;

we have delivered a record first half profit after tax of A\$515 million; and

we are on target to deliver an improved second half profit performance.

With respect to growth opportunities, in 2004:

we have delivered the strategy for the next phase of expansion of your nickel business which is planned to result in a 25% increase in production over the next few years;

we have identified a potential new nickel province at Collurabbie, close to existing operations at Mt Keith;

## Edgar Filing: WMC RESOURCES LTD - Form SC14D9C

we have signed a joint venture exploration agreement with the Jinchuan Group in China, our largest customer for nickel; and

we have upgraded, by almost 30%, the total mineral resources at our Olympic Dam mine as part of the major Olympic Dam development study.

The resource upgrade at Olympic Dam is of particular importance. Total resources have increased to make it the fourth largest copper deposit, the largest uranium deposit and the fourth largest gold deposit in the world.

Xstrata's proposed offer is highly conditional. It is even conditional on Xstrata's own shareholders endorsing the decision of Xstrata's Board to make the takeover offer. In any event, Xstrata's proposed offer fails to recognise the value of your company.

Your Board remains committed to maximising the value of WMC for all shareholders. We will provide you with our views on Xstrata's arguments and claims included in their press release and other documents after we have received their Bidder's Statement and we will continue to keep you informed of any material developments.

In the meantime, if you have any questions, please call the official WMC Shareholder Information Line on 1800 067 505 and +61 3 9415 4198 (outside Australia) Monday to Friday between 9.00am and 6.00pm (EST).

Yours sincerely,

Tommie Bergman  
Chairman

Andrew Michelmore  
Chief Executive Officer
