Operational Highlights:

- US: Significant outperformance of main competition
Excellent progress by Jared
Operating margin increased
- UK: Results reflect very difficult trading conditions
Diamond participation and average selling price continue to increase

2005/06 Store Investment:

- Group: Capital expenditure to increase to c.£85m (2004/05: £70m)
- US: 9% space increase planned for year
- UK: 82 store remodels and resites planned

Terry Burman, Group Chief Executive, commented: We are pleased with the further advance in Group profits. A strong performance by our US division, which accounts for 70% of Group sales, compensated for the decline in UK results. The US division gained further market share and again outperformed its main competition. In common with other retailers, the UK business experienced very difficult trading conditions throughout the period.

The outcome for the full year will, as usual, be influenced by the external trading environment on both sides of the Atlantic during the important Christmas period. Our businesses will continue to execute their proven strategy and are well placed to compete.

Interim Results Statement

GROUP

In the 26 weeks to 30 July 2005 Group profit before tax rose by 5.7% at constant exchange rates, the increase on a reported basis being 4.2% to £52.1 million (H1 2004/05: £50.0 million). Like for like sales advanced by 3.3%. Total sales rose by 6.9% at constant exchange rates and by 5.6% on a reported basis to £722.9 million (H1 2004/05: £684.3 million). These results have been prepared in accordance with International Financial Reporting Standards (IFRS), see Note 10 for further details.

Operating profit rose by 3.0% at constant exchange rates and by 1.5% on a reported basis to £55.5 million (H1 2004/05: £54.7 million). Operating margin was slightly down at 7.7% (H1 2004/05: 8.0%). Earnings per share advanced by 11.1% to 2.0p (H1 2004/05: 1.8p), the tax rate being 34.5% (H1 2004/05: 36.4%). The Board has approved an increase of 10.0% in the interim dividend to 0.4125p per ordinary share (H1 2004/05: 0.375p).

The outcome for the full year will, as usual, be influenced by the external trading environment on both sides of the Atlantic during the important Christmas period. The businesses will continue to execute their proven strategy and are well placed to compete.

OPERATING REVIEW

US Division (circa 70% of Group sales)

The US division had an excellent first half year with like for like sales up 7.9%. Although it faced demanding prior year comparatives, the business again significantly outperformed its main competition and gained further market share. Total sales rose by 12.6% at constant exchange rates to £539.6 million (H1 2004/05: £487.0 million) and by 10.8% on a reported basis. Operating profit rose by 19.6% at constant exchange rates; on a reported basis the increase was 17.7% to £61.1 million (H1 2004/05: £51.9 million). The average unit selling price rose by 12.6% following selective price increases and actions taken to attract customers to higher price points. Such initiatives included the continued development of the Leo Diamond range, three stone diamond jewellery category and the larger diamond selection.

Gross margin rate was slightly down on that of last year due to changes in sales mix. Supply chain and price initiatives offset higher commodity costs. Operating margin rose to 11.3% (H1 2004/05: 10.7%) having benefited from like for like sales growth leverage. Bad debt charges at 2.7% of total sales (H1 2004/05: 2.5%) were in-line with the average of the previous five years.

Bridal and diamond categories again performed well and the fashion gold selection continued to benefit from collaborative marketing with the World Gold Council. Jared loose diamond and luxury watch ranges performed particularly strongly. There was a rise in the number of Kay television and print impressions during the Valentine's and Mother's Day periods. There will be a further increase in advertising expenditure over the important Christmas period with the planned annual marketing to sales ratio being maintained at a broadly similar level to that of last year. The capacities of the distribution and repair centres have been increased and central support for staff training and recruitment has also been expanded. The division's superior customer service, based on exceptionally well trained staff, remains a key competitive advantage.

During the six month period there were 22 mall store openings, with a further 29 planned in the second half. 15 mall stores are anticipated to be closed during the year. 26 mall stores were refurbished or relocated in the first half, with a further 48 scheduled for the second half. The trial of Kay stores in off-mall centres has been very encouraging and it is planned to instigate the initial roll-out of the concept in 2006; in the first half three of these stores were opened and eight more are planned by the end of the year. The period also saw the opening of two Kay stores in metropolitan locations, a new market sector for the division, and it is expected that one further site will start trading later this year. Four Jared stores were opened in the first half, with a further 14 scheduled for the second half. The total store complement at year end should rise to 1,222 consisting of 1,079 mall stores, 31 off-mall Kay stores, three Kay metropolitan locations and 111 Jared stores. It is expected that approximately 9% will have been added to total US store space during 2005/06 and consideration is being given to a further measured increase in the rate of store openings in future years.

UK Division (circa 30% of Group sales)

In the UK external trading conditions were very difficult throughout the first half. Against this background, and demanding prior year comparatives, like for like sales declined by 7.8% (H.Samuel -8.4% and Ernest Jones -7.1%). Total sales fell by 7.1% to £183.3 million (H1 2004/05: £197.3 million). This resulted in an operating loss of £2.4 million (H1 2004/05: profit of £6.0 million including a £1.7 million restructuring charge). Gross margin rate was a little above last year's level.

Tight control of costs, gross margin and inventory was maintained. The strategy to increase diamond participation in the sales mix continued and was again reflected in a rise in the overall average selling price. The drive to further enhance customer service was sustained, with a strong emphasis on staff training.

The results from the redesigned, more customer-friendly, stores continue to meet the required sales differential. A further 49 redesigned stores commenced trading in the first half (including three new store openings), bringing the total to 191 (31 July 2004: 105 stores). By Christmas, 229 stores, predominantly H.Samuel, are expected to be trading in the revised format, accounting for about 45% of the division's sales. A further two H.Samuel stores and two Ernest Jones stores are planned to be opened by the end of the year, and it is anticipated that, net of a further six store closures, there will then be 388 H.Samuel and 208 Ernest Jones stores.

Group central costs, financing costs and taxation

Group central costs were £3.2 million (H1 2004/05: £3.2 million). Financing costs fell to £3.4 million (H1 2004/05: £4.7 million). The tax charge was £18.0 million (H1 2004/05: £18.2 million).

Net debt

Net debt at 30 July 2005 was £140.3 million (31 July 2004: £131.1 million). Group gearing (that is the ratio of net debt to shareholders' funds) at 30 July 2005 was 17.4% (31 July 2004: 19.0%). Reflecting normal seasonal factors net debt has increased by £56.8 million (H1 2004/05: up £51.2 million) since the start of the financial year. Fixed capital investment in the current year is expected to be about £85 million (2004/05: £70.5 million), the increase reflecting additional space growth in the US.

Notes to the unaudited interim financial results

for the 26 weeks ended 30 July 2005

1. Basis of preparation

These interim financial statements have been prepared on the basis of International Accounting Standards and International Financial Reporting Standards (collectively IFRS) expected to be endorsed by the European Union (EU) and available for use by European companies for accounting periods beginning on or after 1 January 2005. IFRS is subject to review and possible amendment or interpretive guidance and therefore subject to change. Details of the accounting policies applied are set out in the Group's Annual Report and Accounts for the year ended 29 January 2005, as amended for the adoption of IFRS, details of which are given in Note 10 below. These policies assume that the amendments to IAS 19

Employee Benefits, allowing actuarial gains and losses to be recognised in full through reserves, will be endorsed by the EU.

These interim financial statements are unaudited and do not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. The comparative figures for the 52 weeks ended 29 January 2005 are not the Company's statutory accounts for that period. Those accounts, which were prepared under UK GAAP, have been reported on by the Company's auditors and have been delivered to the Registrar of Companies following the Company's Annual General Meeting. The report of the auditors was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the Companies Act 1985.

4. Taxation

The net taxation charges in the profit and loss accounts for the 13 weeks and 26 weeks ended 30 July 2005 has been based on the anticipated effective taxation rate for the 52 weeks ending 28 January 2006.

5. Translation differences

The exchange rates used for the translation of US dollar transactions and balances in these interim statements are as follows:

	30 July	31 July	29 January
	2005	2004	2005
	<u> </u>	<u> </u>	<u> </u>
Profit and loss account (average rate)	1.86	1.83	1.86
Balance sheet (closing rate)	1.76	1.82	1.89
	<u> </u>	<u> </u>	<u> </u>

The effect of restating the balance sheet at 31 July 2004 to the exchange rates ruling at 30 July 2005 would be to increase net debt by £4.7 million to £135.8 million. Restating the profit and loss account would decrease the pre-tax profit for the 26 weeks ended 31 July 2004 by £0.7 million to £49.3 million.

9. Reconciliation of IFRS to US GAAP

Whilst the Group is not required to prepare a US GAAP reconciliation on a quarterly basis, it has historically provided such a reconciliation for the convenience of shareholders and potential investors. As part of the transition to IFRS, the Group will provide IFRS to UK GAAP reconciliations for interim reporting during 2005 but does not expect to provide an IFRS to US GAAP reconciliation. The Group will provide an IFRS to US GAAP reconciliation in its financial statements for the year ended 28 January 2006 as part of its Annual Report on Form 20-F.

10. Adoption of IFRS

(i) Revised accounting policies adopted

For financial years commencing on or after 1 January 2005 the Group is required to report in accordance with IFRS as adopted by the EU. The Group therefore now prepares its interim results under IFRS. This announcement contains comparative information for the 13 weeks and 26 weeks ended 31 July 2004 and for the 52 weeks ended 29 January 2005 that has been prepared under IFRS. IFRS is subject to review and possible amendment or interpretive guidance and therefore subject to change. Revised accounting policies adopted as a result of the application of IFRS are given below. All other accounting policies applied are consistent with those disclosed in the Annual Report & Accounts for the 52 weeks ended 29 January 2005.

These changes have no impact on the Group's historical or future cash flows or the timing of cash received and paid.

The rules for the first time adoption of IFRS are set out in IFRS 1 *First-time Adoption of International Reporting Standards*. In general, a company is required to determine its IFRS accounting policies and apply these retrospectively to determine its opening balance sheet under IFRS. A number of exceptions from retrospective application are allowed to assist companies as they move to reporting under IFRS. Where the Group has taken advantage of the exemptions they are noted below.

IFRS 2 Share-based Payments

In accordance with IFRS 2, the Group recognises a charge to income in respect of the fair value of outstanding employee share options. The fair value is calculated using the binomial valuation model and charged to income over the relevant option vesting period. The optional transitional arrangements, which allow companies to apply IFRS 2 fully retrospectively to all options granted but not fully vested at the relevant reporting date, have been used.

IFRS 3 Business Combinations

Goodwill is carried at cost with impairment reviews performed annually and when there are indications that the carrying value may not be recoverable. Under the transitional arrangements the Group applies IFRS 3 prospectively from the transition date. As a result, all prior business combination accounting is frozen at the transition date of 31 January 2004 and the value of goodwill is also frozen at that date.

IAS 10 Proposed Dividend

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Dividends are not accrued for until approved.

IAS 17 Leasing

Where operating leases include clauses in respect of predetermined rent increases, those rents are charged to the income statement on a straight line basis over the lease term. Furthermore, any construction period or other rental holidays are included in the determination of the straight-line expense period. Inducements to enter into a lease are recognised over the lease term.

IAS 18 Revenue Recognition

Revenue is only recognised when all significant risks of ownership have been transferred to the buyer. Provisions for returned goods are recognised in net assets with movements in these provisions recognised in the income statement.

IAS 32 and 39 Financial Instruments

The Group has taken the exemption not to restate comparatives for IAS 32 *Financial Instruments: Disclosure and Presentation* and IAS 39 *Financial Instruments: Recognition and Measurement*. As a result, the comparative information in this announcement for the 13 weeks and 26 weeks ended 31 July 2004 and for the 52 weeks ended 29 January 2005 is presented on the previously existing UK GAAP basis. The Group applies the hedge accounting provisions of IAS 39 as they relate to forward currency and commodity contracts to the extent practically and economically appropriate in order to minimise future volatility arising from its implementation.

IAS 38 Intangible Assets

Computer software that is not an integral part of the related hardware is classified as an intangible asset and is stated at cost less accumulated depreciation. Depreciation is charged on a straight line basis over periods from three to five years.

Independent review report by KPMG Audit Plc to Signet Group plc

Introduction

We have been engaged by the Company to review the financial information set out on pages 5 to 13 and we have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with the terms of our engagement to assist the Company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the Company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company for our review work, for this report, or for the conclusions we have reached.

Directors responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are to be disclosed.

As disclosed in note 1 to the financial information, the next annual financial statements of Signet Group plc will be prepared in accordance with IFRSs adopted for use in the European Union. The accounting policies that have been adopted in preparing the financial information are consistent with those that the directors currently intend to use in the next annual financial statements. There is, however, a possibility that the directors may determine that some changes to these policies are necessary when preparing the full annual financial statements for the first time in accordance with those IFRSs adopted for use by the European Union. This is because, as disclosed in note 1, the directors have anticipated that certain standards, which have yet to be formally adopted for use in the European Union, will be adopted in time to be applicable to the next annual financial statements.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4: *Review of interim financial information* issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of Signet Group plc management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review is substantially less in scope than an audit performed in accordance with Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

Edgar Filing: SIGNET GROUP PLC - Form 6-K

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the 26 weeks ended 30 July 2005.
