The Fund

The Fund is a non-diversified, closed-end investment company whose objective is to seek long-term capital appreciation through investment in equity and equity-linked securities of Swiss companies. The Fund also may acquire and hold equity and equity-linked securities of non-Swiss companies in limited instances as more fully described in this report.

The Fund is listed on the New York Stock Exchange under the symbol "SWZ".

Net Asset Value is calculated daily by 6:15 P.M. (Eastern Time). The most recent calculation is available by calling 1-888-SWISS-00 or by accessing our Website. Net Asset Value is also published weekly in BARRON'S, the Monday edition of THE WALL STREET JOURNAL and the Sunday Edition of THE NEW YORK TIMES.

1

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders

GLOBAL OVERVIEW

After the May-June slump and a short consolidation phase, performance during the fourth quarter of 2006 was very strong across all of the major equity markets with the sole exception of Japan. Emerging markets outperformed, with China and India in the lead, and Europe did well, clearly outperforming US indexes. Liquidity, low interest rates, and the mergers and acquisitions activity were again the main drivers. Earnings did not slow down, contrary to some expectations, and the US economy was able to absorb the shock of a higher Fed funds rate.

SWISS ECONOMIC NOTES

On December 14th 2006, the Swiss National Bank (SNB) again increased its target range for the three-month Libor by 0.25%, to 1.50%-2.50%, and has said it intends to hold rates in the middle of the range for now. The Swiss economy has seen a successful year with rising consumer confidence, increasing exports and improving private household expenditures with many industries reporting production at maximum sustainable capacity. The SNB forecasts real GDP growth of just under 3% in 2006. The unemployment rate, at 3.1% in December, is expected to fall below 3% in the beginning of 2007, its lowest level since 2002.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Europe's economic situation improved significantly this year, especially in Germany, where the IFO Index of business climate sentiment increased by nine points for the year, including 1.9 points in December, to the highest ever reading. Europe is Switzerland's most important trading partner, accounting for 62% of Swiss exports (31% to Germany alone). Its economic strength therefore had a positive impact on the Swiss economy. This source of strength, however, might be subdued in 2007 due to the impact of an increase in Germany's value added taxes from 16% to 19% at the beginning of the year.

For 2007, the SNB expects a decline in economic momentum, forecasting 2% growth in Switzerland's GDP for the year. The KOF (Swiss Institute for Business Cycle Research) leading indicator indicates acceleration in GDP up to the end of 2006 followed by a slow down during the first half of 2007.

In its last monetary policy assessment, the SNB stated that it expects annual inflation to be 1.1% for 2006, 0.4% for 2007 and 0.9% in 2008. The effect of a 2% interest rate is still expansionary. The yield on the 10-year Swiss Confederation bond increased significantly during the first half of the year, along with short term interest rates, but it remained more or less flat during the second half, despite a continuing rise in short term rates. The yield on the 10-year bond finished the year at 2.51%

On the currency front, the Swiss franc has increased nearly 8% against the US dollar. Against the euro, on the other hand, the Swiss franc declined about 4%, possibly as an adjustment based on an expected differential in interest rates. Interestingly enough, both the SNB and the Swiss Finance Minister have recently expressed some concern with the weakness of the Swiss franc. The SNB has let

2

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders (continued)

the market know that it was uncomfortable with the Swiss franc being a funding currency for the carry trade and indicated it could be considering raising interest rates in the current low volatility environment in order to encourage more strength in the franc.

SWISS MARKET REVIEW AND FUND PERFORMANCE

The Swiss market was up 20% in local currency for the year, in line with most European markets. The clear winners for the year were the high volatility names, despite having been hit by a sharp correction in May. The large defensive stocks (pharmaceuticals and food) did not fare as well.

The 35% return of the mid and small sized companies clearly outperformed the 16% return of the blue chips, a change from 2005, during which the large caps outperformed slightly. Mid and small cap companies now trade at a premium to the rest of the market. This could be sustainable if the global economy stays on a growth path and if, as Management believes, private equity money continues to flow into the sector.

Looking at individual issues, the cyclical industrial and the financial sectors have performed the best, with ABB Ltd, Swatch Group AG, Syngenta AG, Adecco SA, Julius Baer Holding AG, Credit Suisse Group and Baloise Holding AG

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

clearly leading on the large cap side. Looking at the mid and small caps, restructuring industrials such as OC Oerlikon Corp, Gurit Holding AG and Schmolz & Bickenbach AG (formerly Swiss Steel AG) moved up strongly.

The Fund has been heavily positioned in the mid cap portion of the healthcare sector, benefiting from a 146% increase in Actelion Ltd, a 53% increase in Basilea Pharmaceutica and a 45% increase in Galenica Holding AG. It also was well positioned in the utility sector benefiting from 64% increases in Centralschweizerische Kraftwerke AG and BKW Energie AG. However, because of the Fund's low exposure to the mid and small cap industrial sector, a large part of this sector's strong performance was not captured.

Most of the market's recovery from its May-June lows was attributable to an increase in valuations on the back of the decrease in long term interest rates, even though earnings growth contributed as well. A very supportive liquidity backdrop drove the market to new highs and rewarded exposure to systematic risk (market risk). It was therefore quite difficult to differentiate oneself through stock picking.

SWISS MARKET QUARTERLY CORPORATE NEWS

Kudelski SA, a world leader in conditional access systems for digital TV, announced on October 19th 2006, that it was taking over a controlling stake in Open TV, the number one provider of set-top box middleware based in San Francisco. With this acquisition, Kudelski SA will improve its offering and satisfy the increasing need for integrated solutions in digital TV.

On October 25th, 2006, Vontobel Holding announced the acquisition of Lombard Odier Darier Hentsch's brokerage and corporate

3

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders (continued)

finance business. Vontobel already holds a leading market position with regard to listed products in Switzerland. With this acquisition Vontobel should be able to strengthen its market position in its brokerage and corporate finance areas as well.

On November 20, 2006, Actelion Ltd announced a definitive agreement to acquire US-based Cotherix, Inc. Cotherix is a biopharmaceutical company also active in the treatment of pulmonary arterial hypertension (PAH). It also markets Ventavis, the only approved inhaled therapy treatment of PAH in the United States. This acquisition should strengthen its leading position in this therapeutic area.

Nestle SA announced on December 14, 2006 the acquisition of Novartis Medical Nutrition, a company with sales of about \$950 million in 2006. Nestle's management believes the business is complementary to its healthcare nutrition business and the combination offers a product portfolio covering all diseases needing special nutrition therapies. This continues Nestle's strategic transformation process to a nutrition, health and wellness company.

/1/ BASED ON NET ASSET VALUE.

The Swiss industrial sector continues to attract a strong inflow of foreign capital especially from the rest of Europe, be it private equity investors or investors taking a substantial stake in small to mid sized listed companies. Switzerland has strong know-how in financial services, pharmaceuticals and machinery. The first two areas have been "global" for a long time (as witnessed by the size of UBS, Credit Suisse, Novartis and Roche), but the industrial sector has not developed as quickly. While many corporations in that sector have substantial international sales, they have been active mostly in niche markets.

The inflow of foreign money is pushing for merger and acquisition activity

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

to take this knowledge to a larger global scale. This trend will support the valuation of the industrial sector and continue to make Switzerland, with the quality of its infrastructure and the skill level of its business elite, an interesting place to invest. The World Economic Forum recognized that fact when its report on global competitiveness, issued at the end of September, put Switzerland at the top of its list of the most competitive economies in the world.

OUTLOOK

The globalization forces at play have been highly supportive for the world equity markets, with global trade accounting for a record level of global GDP. While it has kept inflation in goods and services at a relatively low level, it has put upside pressure on the prices of real estate and financial assets and, at the same time, kept real wage growth in developed countries at a very modest level. Political pressure on global trade and calls for more protectionism are potential risks for globalization, trends that could, in turn, negatively impact equity markets. Another underlying risk is the rebalancing of the global economy towards more savings in the US and more spending in the developing world, threatening the US dollar and bond market. This process is expected to unfold in the long run, however, and its effects should not be felt in 2007. The more immediate worry is investor complacency driven by a high level of liquidity and a hunt for yield, with the tendency to under price risk. While it is true that the debt market, with its high valuation, looks more overvalued than the equity market, an increase in the debt market's risk

6

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders (concluded)

premium would substantially affect the equity market as well.

Macro risks are again evident, as they were in the last two years, but in the absence of a short term catalyst, it is not possible to assess the timing of an adjustment that would be strong enough to trigger a sharp market correction. Of particular interest will be the action of central banks in the US and Europe, especially with regard to the impact of a monetary policy that is tighter than expected. On the other hand, if the central banks become less hawkish, the market might experience a reduction in the risk premiums of equities as compared to bonds.

In this context, Management will continue its effort to control systematic risk and to have exposure to specific investment cases less dependent on global economic conditions. In terms of industry groups Management believes that in Switzerland, the sectors driven by the capital cycle (where there is supply constraint) will continue to benefit, with energy being an obvious candidate.

STOCK REPURCHASE PROGRAM

Pursuant to authorization by the Board, the Fund began open market purchases of its common stock on the New York Stock Exchange ("NYSE") in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio. The Board has authorized the Fund to repurchase up to 500,000 shares during 2007. During the year ended December 31, 2006, the Fund repurchased and retired 430,800 shares at an average price of \$17.53 per

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

share (including brokerage commissions) and a weighted average discount of 10.25%. These repurchases, which had a total cost of \$7,550,175, resulted in an increase of \$843,650 to the Fund's net asset value.

Sincerely,

/s/ Rodolphe E. Hottinger

24

THE SWISS HELVETIA FUND, INC.

Notes to Financial Statements

NOTE 1--ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION

The Swiss Helvetia Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a non-diversified, closed-end investment management company. The Fund is organized as a corporation under the laws of the State of Delaware.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

The investment objective of the Fund is to seek long-term growth of capital through investment in equity and equity-linked securities of Swiss companies.

The Fund may also acquire and hold equity and equity-linked securities of non-Swiss companies in the limited instance where: (1) the Fund holds an investment in a Swiss company, and (2) such Swiss company undergoes a merger, takeover, reorganization or other form of business combination with a non-Swiss issuer (a "reorganization"), or reorganizes (or "redomiciles") itself as a new corporate entity outside of Switzerland, and (3) the Fund, as a shareholder in the Swiss company, acquires equity or equity-linked securities in the non-Swiss issuer as a result of the transaction. The Fund would be permitted, but not required, to reacquire equity and equity-linked securities of Swiss companies that have redomiciled, so long as the Fund held an investment in the Swiss company at or before the time the company redomiciled.

B. VALUATION OF SECURITIES

The Fund values its investments at market value.

When valuing listed equity securities, the Fund uses the last sale price prior to the calculation of the Fund's net asset value. When valuing equity securities that are not listed or that are listed but have not traded, the Fund uses the mean between the bid and asked prices for that day.

When valuing fixed income securities, the Fund uses the last bid price prior to the calculation of the Fund's net asset value. If a current bid price is not available, the Fund uses the mean between the latest quoted bid and asked prices. When valuing fixed income securities that mature within sixty days, the Fund uses amortized cost.

It is the responsibility of the Fund's Board of Directors (the "Board") to establish fair valuation procedures. When valuing securities for which market quotations are not readily available or for which the market quotations that are available are considered unreliable, the Fund determines a fair value in good faith in accordance with these procedures. The Fund may use these procedures to establish the fair value of securities when, for example, a significant event occurs between the time the market closes and the time the Fund values its investments. After consideration of various factors, the Fund may value the securities at their last reported price or at some other value. There were no fair valued securities on December 31, 2006.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME

Securities transactions are recorded on the trade date. Realized gains and losses are determined by comparing the proceeds of a sale or the cost of a purchase with a specific offsetting transaction.

Dividend income, net of any foreign taxes withheld, is recorded on the ex-dividend date. Interest income, including amortization of premiums and accretion of discounts, is accrued daily. Estimated expenses are also accrued daily.

The Fund records Swiss withholding tax as a reduction of dividend income, net of any amount reclaimable from Swiss tax authorities in accordance with the tax treaty between the United States and Switzerland.

D. DISTRIBUTIONS

The Fund pays dividends at least annually to the extent it has any net investment income and net realized gains from foreign currency transactions and makes distributions of any net realized capital gains to the extent they exceed any capital loss carryforwards. The Fund determines the size and nature of these distributions in accordance with provisions of the Internal Revenue Code. Distributions may be paid either in cash or in stock with an option to take cash. The Fund records dividends and distributions on its books on the

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

ex-dividend date.

E. FEDERAL INCOME TAXES

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its stockholders. Therefore, no federal income tax provision is required.

25

THE SWISS HELVETIA FUND, INC.

Notes to Financial Statements (continued)

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. See Note 5 for Federal income tax treatment of foreign currency gain/losses.

F. SECURITIES LENDING INCOME

The Fund may lend securities to financial institutions. The Fund retains beneficial ownership of the securities it has loaned and continues to receive amounts equivalent to the dividends paid on these securities and to participate in any changes in their market value. For the initial transaction, the Fund requires the borrowers of the securities to establish collateral with the Fund in the form of cash and/or government securities equal to 105% of the value of the securities loaned. Subsequent to the initial transaction, the Fund requires the borrowers to maintain collateral with the Fund equal to 100% of the value of the securities loaned. The Fund receives fees as compensation for lending its securities. Either the Fund or the borrower may terminate the securities loan at any time. There were no securities on loan during the period ended December 31, 2006.

G. FOREIGN CURRENCY TRANSLATION

The Fund maintains its accounting records in U.S. dollars. The Fund determines the U.S. dollar value of foreign currency denominated assets, liabilities and transactions by using prevailing exchange rates. The cost basis of foreign denominated assets & liabilities is determined on the date that they are first recorded within the Fund and translated to U.S. dollars. These assets and liabilities are subsequently valued each day at prevailing exchange rates. The difference between the original cost and current value denominated in U.S. dollars is recorded as Unrealized Currency Gain/Loss. In valuing assets and liabilities, the Fund uses the prevailing exchange rate on the valuation date. In valuing securities transactions, the receipt of income and the payment of expenses, the Fund uses the prevailing exchange rate on the transaction date.

Net realized and unrealized gains and losses on foreign currency translations shown on the Fund's financial statements result from the sale of foreign currencies, from currency gains or losses realized between the trade and settlement dates on securities transactions, and from the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

When calculating realized and unrealized gains or losses on investments in equity securities, the Fund does not separate the gain or loss attributable to

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

changes in the foreign currency price of the security from the gain or loss attributable to the change in the U.S. dollar value of the foreign currency. Other foreign currency transactions resulting in realized and unrealized gain (loss) are disclosed separately.

H. ESTIMATES

In preparing its financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions. Actual results may be different.

NOTE 2--FEES AND TRANSACTIONS WITH AFFILIATES

Hottinger Capital Corp. ("HCC"), which is owned jointly by Hottinger U.S., Inc. and Hottinger & Cie (Zurich), is the Fund's advisor (the "Advisor"). The Fund pays the Advisor an annual fee based on its month-end net assets which is calculated and paid monthly at the following annual rates: 1.00% of the first \$60 million, 0.90% of the next \$40 million, 0.80% of the next \$100 million, 0.70% of the next \$100 million, 0.65% of the next \$100 million, 0.60% of the next \$100 million, 0.55% of the next \$100 million, and 0.50% of such assets in excess of \$600 million. The Fund paid the Advisor \$3,638,546 in investment advisory fees for the year ended December 31, 2006. The Fund paid Hottinger & Cie (Zurich) \$38,108 in brokerage commissions for the year ended December 31, 2006.

The Fund and the Advisor have agreed to share certain common expenses subject to review and allocation by the Audit Committee (the "Committee") of the Board. During the year ended December 31, 2006, the Committee allocated \$72,500 of expenses incurred in connection with publicizing the Fund as follows: \$36,250 to the Fund and \$36,250 to the Advisor.

Certain officers and directors of the Fund are also officers or directors of HCC, Hottinger U.S., Inc. and Hottinger & Cie (Zurich). These persons are not paid by the Fund for serving in these capacities.

26

THE SWISS HELVETIA FUND, INC.

Notes to Financial Statements (continued)

NOTE 3--OTHER FEES

Citigroup Fund Services, LLC ("Citigroup") provides certain administration and portfolio accounting services to the Fund.

American Stock Transfer & Trust Company is the Fund's transfer agent. The Fund pays the transfer agent an annual fee which is accrued daily and paid monthly.

On December 28, 2006, Swiss American Securities, Inc. and Credit Suisse First Boston commenced transition of Custody responsibility to Citibank, N.A. The transfer was completed on January 16, 2007. The Fund pays the custodian an annual fee.

The Fund pays each director who is not an interested person (as such term is defined in the Act) of the Fund, its Advisor, or Citigroup, approximately \$29,530 per annum in compensation, except for the Chairman of the Board to whom the Fund pays an annual fee of approximately \$41,530 and for the Chairmen of the Audit Committee and the Governance/Nominating Committee, to whom the Fund

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

pays an annual fee of approximately \$34,698. In addition, the Fund pays each disinterested director \$1,300 for each Board meeting attended and \$750 for each committee meeting attended, if it is held separately. In addition, the Fund reimburses directors who are not employees of or affiliated with the Advisor for out-of-pocket expenses incurred in conjunction with attendance at meetings.

Directors' fees and expenses payable of \$92,791 shown on the Statements of Assets & Liabilities represents total dollars owed to Directors that have been accrued and not paid. Directors' fees and expenses of \$543,634 shown on the Statement of Operations represent the portion of Directors' fees and expenses accrued during the period January 1, 2006 through December 31, 2006. These fees are calculated by projecting Directors' fees contractually owed and adding estimates of reimbursable expenses based on historical activity.

NOTE 4--CAPITAL SHARE TRANSACTIONS

The Fund is authorized to issue up to 50 million shares of capital stock. HCC owned 140,307 of the 24,397,655 shares outstanding on December 31, 2006. Transactions in capital shares were as follows:

	For the Year Ended December 31, 2006		For the Year Ended December 31, 2005	
	Shares	Amount	Shares	Amount
Dividends				
Reinvested	798,957	\$12,903,159(a)	542,380	\$ 7,643,488
Repurchased	(430,800)	(7,550,175)	(422,100)	(6,568,476)
	-----	-----	-----	-----
Net increase	368,157	\$ 5,352,984	120,280	\$ 1,075,012
	=====	=====	=====	=====

(A) REPRESENTS SHARES ISSUED TO STOCKHOLDERS WHO DID NOT ELECT CASH IN CONJUNCTION WITH A LONG TERM CAPITAL GAINS DISTRIBUTION OF \$1.276 PER SHARE PAID JANUARY 31, 2006 TO STOCKHOLDERS OF RECORD ON DECEMBER 19, 2005.

NOTE 5--FEDERAL INCOME TAX AND INVESTMENT TRANSACTIONS

At December 31, 2006, accumulated net investment income and accumulated net realized gain from investments and foreign currency transactions have been adjusted for current period permanent book/tax differences which arose principally from differing book/tax treatments of foreign currency transactions.

The following reclassification was a result of currency gains/losses and has no impact on the net assets of the Fund.

Undistributed Net Investment Income	Undistributed Net Realized Gain
\$(370,396)	\$370,396

The tax character of distributions paid during 2006 and 2005 was as follows (see page 31 for details):

2006	2005
------	------

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Ordinary income \$14,699,228 \$ 1,762,873
Long-term capital gains \$33,698,569 \$37,076,957

At December 31, 2006, the components of distributable earnings on a tax basis were as follows:

Ordinary income \$ --
Long-term capital gains \$ 12,864,471
Capital and other losses \$ (155,222)
Unrealized Appreciation \$313,896,791

27

THE SWISS HELVETIA FUND, INC.

Notes to Financial Statements (concluded)

Gains from foreign currency transactions will be treated as ordinary income for Federal income tax purposes.

For tax purposes, the current year post-October loss was \$155,222. This loss will be recognized for tax purposes on the first business day of the Fund's next year.

The aggregate cost of purchases and proceeds from sales of investments, other than short-term obligations, for the year ended December 31, 2006, were \$160,230,472 and \$177,627,176, respectively.

NOTE 6--STOCK REPURCHASE PROGRAM

Pursuant to authorization by the Board, the Fund began open market purchases of its common stock on the New York Stock Exchange ("NYSE") in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio. The Board has authorized the Fund to repurchase up to 500,000 shares during 2007. During the year ended December 31, 2006, the Fund repurchased and retired 430,800 shares at an average price of \$17.53 per share (including brokerage commissions) and a weighted average discount of 10.25%. These repurchases, which had a total cost of \$7,550,175, resulted in an increase of \$843,650 to the Fund's net asset value.

NOTE 7--LINE OF CREDIT

The Fund has entered into a line of credit agreement with the Custodian to be used for temporary purposes. The agreement provides that the Fund may borrow up to an aggregate amount not to exceed \$45,000,000 at any one time outstanding. The Fund will pay interest on the unpaid principal amount of each advance made to it from the date of such advance until such principal amount is paid in full. The interest is payable in arrears on demand, or if no demand has been made, on the last day of the interest period for such advance, pursuant to the agreement.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

As of December 31, 2006, the Fund had no loans outstanding under the line of credit.

NOTE 8--RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes -- an Interpretation of FASB Statement No. 109" (the "Interpretation"). The Interpretation establishes for all entities, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Interpretation is effective for fiscal years beginning after December 15, 2006, and is required to be implemented by calendar year closed-end funds by no later than June 29, 2007. The Investment Manager has recently begun to evaluate the application of the Interpretation to the Fund, and is not in a position at this time to estimate the significance of its impact, if any, on the Fund's financial statements.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") 157, Fair Value Measurements, which clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. Adoption of SFAS 157 requires the use of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. At this time, the Fund is in the process of reviewing the impact, if any, of the SFAS on the Fund's financial statements.

28

THE SWISS HELVETIA FUND, INC.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors of
The Swiss Helvetia Fund, Inc.

We have audited the accompanying statement of assets and liabilities of The Swiss Helvetia Fund, Inc. (the "Fund"), including the schedule of investments, as of December 31, 2006, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and the financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and the financial highlights based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodians. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

DELOITTE & TOUCHE LLP

29

THE SWISS HELVETIA FUND, INC.

Additional Information (Unaudited)

This report is sent to the stockholders of The Swiss Helvetia Fund, Inc. for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

Proxy Voting Information

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available, without charge and upon request, by calling 1-888-SWISS-00 and on the SEC's website at <http://www.sec.gov>. The Fund's proxy voting record for the twelve-month period ended June 30 is available, without charge and upon request, by calling 1-888-SWISS-00 and on the SEC's website at <http://www.sec.gov>.

Availability of Quarterly Portfolio Schedules

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available, without charge and upon request, on the SEC's website at <http://www.sec.gov> or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

Certifications

The Fund's chief executive officer has certified to the NYSE, pursuant to the requirements of Section 303A.12(a) of the NYSE Listed Company Manual, that, as of June 7, 2005, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund's reports to the Securities and Exchange Commission on Form N-CSR and Form N-Q contain certifications by the Fund's chief executive officer and chief financial officer as required by Rule 30a-2(a) under the Act, including certifications regarding the

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

quality of the Fund's disclosures in such reports and certifications regarding the Fund's disclosure controls and procedures and internal control over financial reporting.

Code of Ethics

The Board of Directors of the Fund and the Advisor have adopted Codes of Ethics pursuant to provisions of the Investment Company Act of 1940 (the "Codes"). The Codes apply to the personal investing activities of various individuals including directors and officers of the Fund and designated officers, directors and employees of the Advisor. The provisions of the Codes place restrictions on individuals who are involved in managing the Fund's portfolio, who help execute the portfolio manager's decisions or who come into possession of contemporaneous information concerning the investment activities of the Fund.

The fundamental principle of the Codes is that the individuals covered by the Codes have a fiduciary responsibility to the Fund and its stockholders. They are therefore required at all times to place the interests of the Fund and the stockholders first and to conduct all personal securities transactions in a manner so as to avoid any actual or potential conflict of interest or abuse of their position of trust.

Portfolio managers and other individuals with knowledge of Fund investment activities are prohibited from purchasing or selling a security during a blackout period of 30 calendar days before and after the date on which the Fund effects a trade in the same or a similar security. They are also prohibited from engaging in short term trading of Swiss equity or equity linked securities.

30

THE SWISS HELVETIA FUND, INC.

Additional Information (Unaudited) (concluded)

Additionally, the Fund's portfolio managers are prohibited from participating in any initial public offering or private placement of Swiss equity and equity linked securities and other covered individuals must obtain prior clearance before doing so.

Any individual who violates the provisions of the Codes is required to reverse the transaction and to turn over any resulting profits to the Fund. The Fund and the Advisor have adopted compliance procedures and have appointed compliance officers to ensure that all covered individuals comply with the Codes.

Distributions

The following information summarizes all distributions declared by the Fund during the year ended December 31, 2006.

Distribution	Record Date	Payable Date	Amount
Income	6/19/06	7/5/06	\$0.02800
Long-Term Capital Gains	6/19/06	7/5/06	\$0.22700
Long-Term Capital Gains	12/18/06	1/29/07	\$1.72500

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Total Distributions

\$1.98000
=====

The Fund elected to pass through \$.04200 per share to its stockholders as a credit for taxes paid to Switzerland during its fiscal year ended December 31, 2006.

The Fund has designated 51.66% of its ordinary income dividend distributions for the qualified dividend rate (QDI) as defined in Section 1(h)(11) of the Internal Revenue Code. The Fund also designates 1.42% of its income dividends as qualified interest income (QII) and 100.00% as qualified short-term capital gain dividends exempt from U.S. tax for foreign shareholders (QSD).

Tax Information For the Year Ended December 31, 2006

The amounts may differ from those elsewhere in this report because of differences between tax and financial reporting requirements. The Fund's distributions to stockholders of long-term capital gains included \$5,031,325 in connection with the distribution paid July 5, 2006 to stockholders of record on June 19, 2006, and \$28,667,244 in connection with the distribution to be paid January 29, 2007 to shareholders of record on December 18, 2006.

31

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited)

Revised Investment Strategies, Policies and Related Risks--Stockholder Approved
At the 2006 Annual Meeting of Stockholders, the Fund's stockholders approved changes to the Fund's fundamental investment policies and restrictions to permit the Fund to: (1) leverage up to 10% of its total assets (including the amount borrowed); (2) invest in securities of Swiss Real Estate Companies (as defined below), and to acquire, hold and sell real estate or mortgages on real estate acquired through default, liquidation or other distributions or an interest in real estate as a result of the Fund's ownership of such securities; (3) acquire equity and equity-linked securities of non-Swiss companies in limited instances; and (4) engage in certain options transactions. There are certain risks associated with these investment strategies, which are discussed below.

PERMITTED USE OF LEVERAGE AND LEVERAGE RISK

Previously, the Fund was subject to a fundamental investment restriction prohibiting the Fund from borrowing money for the purpose of making investments (known as "leverage"). The Fund is now permitted, but not required, to borrow up to 10% of the Fund's total assets (including the amount borrowed) for investment purposes. The Fund may seek to leverage a portion of the Fund's assets to promote investment flexibility and to seek to ensure that the Fund has funds available for investment in attractive opportunities, without requiring the Fund to sell existing investments.

Using leverage is a speculative investment technique and involves certain risks. These include higher volatility of net asset value, the possibility of

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

more volatility in the market value of the Fund's shares and the possibility that the Fund's return will fall if the interest rate on any borrowings rises. The Fund will pay any costs and expenses relating to any borrowings, including interest and any commitment or other fee required to maintain a line of credit. So long as the Fund is able to realize a higher net return on investments purchased with borrowings than the then current cost of any leverage together with other related expenses, the effect of the leverage will be to cause the Fund to realize higher net return than if the Fund were not so leveraged. However, to the extent that the cost of any leverage, together with other related expenses, is more than the net return on investments purchased with borrowings, use of leverage would result in a lower rate of return than if the Fund were not so leveraged. There can be no assurance that any leverage strategy the Fund employs will be successful.

INVESTMENTS IN SWISS REAL ESTATE COMPANIES AND RISKS OF INVESTING IN REAL ESTATE
Previously, the Fund was subject to a fundamental investment restriction prohibiting the Fund from buying real estate or interests in real estate. The Fund is now permitted, but not required, to invest in equity and equity-linked securities issued by Swiss real estate companies, including real estate investment trusts ("REITs") or REIT-like structures ("Swiss Real Estate Companies"). The Fund defines a real estate company as a company that derives at least 50% of its revenue from the ownership, construction, financing, management or sale of commercial, industrial or residential real estate or has at least 50% of its assets in real estate investments. The Fund also considers a real estate company to be a Swiss Real Estate Company if it: (1) is organized in or has its principal office in Switzerland or (2) has a significant amount of real estate assets or investments in Switzerland, even if it is organized or its principal office is outside of Switzerland. The Fund's investment in Swiss Real Estate Companies is deemed to be an investment in

32

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited) (continued)

Swiss equity or equity-linked securities for purposes of the Fund's investment objective.

In addition to the general risks associated with investing in Swiss equity and equity-linked securities, the Fund's investments in Swiss Real Estate Companies will be linked to the performance of the Swiss real estate markets. The Fund will not invest in real estate directly (except as described below), but only in securities issued by Swiss Real Estate Companies. However, these investments are subject to the risks associated with the direct ownership of real estate. These risks are described in further detail below:

Real Estate--General. Real property investments are subject to varying degrees of risk. The price of real estate company shares may decline because of the failure of borrowers to pay their loans and poor management. Many real estate companies also utilize leverage, which increases investment risk and could adversely affect a company's operations and market value in periods of rising interest rates. If real estate properties do not generate sufficient income to meet operating expenses, the income and ability of the real estate company to make payments of any interest and principal on its debt securities will be adversely affected. In addition, real property may be subject to the quality of credit extended and defaults by borrowers and tenants. A real estate company

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

also may have joint venture investments in certain of its properties and, consequently, its ability to control decisions relating to these properties may be limited.

The performance of the Swiss economy and the economies of any other countries and regions in which the real estate owned by a portfolio company is located affects occupancy, market rental rates and expenses and, consequently, has an impact on the income from such properties and their underlying values. There also are risks associated with particular sectors of real estate investments, such as in the retail, office, hotel, healthcare and multifamily sectors, each of which will be affected by the economic health of the sector specifically and the overall economy generally, demographic changes, spending patterns, governmental regulations, competition and obsolescence.

Real Estate Investment Trusts. A common type of U.S. real estate company, a real estate investment trust, is dedicated to owning, and usually operating, income producing real estate, or to financing real estate. Such companies normally derive income from rents or from interest payments, and may realize capital gains by selling properties that have appreciated in value. REITs are characterized as equity REITs, mortgage REITs and hybrid REITs. Equity REITs, which may include operating or finance companies, own real estate directly and the value of, and income earned by, the REITs depends upon the income of the underlying properties and the rental income they earn. Mortgage REITs can make construction, development or long-term mortgage loans and are sensitive to the credit quality of the borrower. Mortgage REITs derive their income from interest payments on such loans. Hybrid REITs combine the characteristics of both equity and mortgage REITs. The values of securities issued by REITs are affected by tax and regulatory requirements and by perceptions of management skill.

Investing in REITs involves certain unique risks in addition to those risks associated with investing in the real estate industry in general. An equity REIT may be affected by changes in the value of the underlying properties owned by the REIT. A mortgage REIT may be affected by changes in interest rates and the ability of the issuers of its portfolio mortgages to repay their obligations. REITs are generally dependent upon maintaining cash flows to repay borrowings and

33

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited) (continued)

to make distributions to shareholders and are subject to the risk of default by lessees or borrowers. REITs whose underlying assets are concentrated in properties used by a particular industry are also subject to risks associated with such industry. REITs or REIT-like structures may experience delays in enforcing their rights as a mortgagee or lessor and may incur substantial costs associated with protecting their investments. REITs also may fail to qualify under any tax provisions pursuant to which they were structured, and the application of unanticipated taxation may significantly reduce the return to the Fund.

The Fund also may acquire real estate or mortgages on real estate as a result of default, liquidation or other distributions of an interest in real estate solely as a result of the Fund's ownership of Swiss Real Estate

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Companies. The Fund may have difficulty enforcing its rights as a mortgagee or lessor and may incur substantial costs in connection with protecting its investments.

INVESTMENTS IN NON-SWISS SECURITIES AND RELATED RISKS

The Fund's stockholders also approved a proposal to revise the Fund's investment objective. The Fund is now permitted, but not required, to acquire and hold equity and equity-linked securities of non-Swiss companies in the limited instance where: (1) the Fund holds an investment in a Swiss company, and (2) such Swiss company undergoes a merger, takeover, reorganization or other form of business combination with a non-Swiss issuer (a "reorganization"), or reorganizes (or "redomiciles") itself as a new corporate entity outside of Switzerland, and (3) the Fund, as a shareholder in the Swiss company, acquires equity or equity-linked securities in the non-Swiss issuer as a result of the transaction. The Fund also is now permitted, but not required, to reacquire equity and equity-linked securities of Swiss companies that have redomiciled, so long as the Fund held an investment in the Swiss company at or before the time the company redomiciled.

Although investments in Swiss securities are subject to the Fund's other investment policies, the Fund's Board of Directors and HCC cannot predict the percentage of non-Swiss securities that could constitute the Fund's portfolio, as the number and frequency of these types of transactions would be affected by activity in the capital markets and not through any actions taken by the Fund or HCC.

ENGAGING IN CERTAIN OPTIONS TRANSACTIONS AND RELATED RISKS

Previously, the Fund was subject to a fundamental investment restriction prohibiting the Fund from buying, selling or writing put or call options. The Fund is now permitted, but not required, to engage in certain options transactions which are considered derivative instruments. The Fund may engage in the following options transactions: (i) buying calls on securities in which the Fund can invest; (ii) buying calls on Swiss stock indices; (iii) writing covered calls on securities in which the Fund can invest; (iv) buying puts on these types of securities; and (v) buying puts on Swiss stock indices. The Fund may engage in these options transactions on an established Swiss exchange, European exchange (for example, Eurex) or in the over-the-counter market.

Exchange-traded options generally are guaranteed by the clearing agency which is the issuer or counterparty to such options. This guarantee usually is supported by a daily variation margin system operated by the clearing agency in order to reduce overall credit risk. As a result, unless the clearing agency defaults, there is relatively little counterparty credit risk associated with options purchased on an exchange. By contrast, no

34

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited) (continued)

clearing agency guarantees over-the-counter options. Accordingly, to the extent the Fund enters into such options, HCC will consider the creditworthiness of counterparties to over-the-counter options in the same manner as it would review the credit quality of a security to be purchased by the Fund.

HCC may utilize options contracts to manage the Fund's exposure to changing

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

security prices. Some options strategies, including buying puts, will tend to hedge the Fund's investments against price fluctuations. Other strategies, including buying calls, will tend to increase market exposure.

The Fund may write (I.E., sell) covered call options with respect to specific securities in which the Fund may invest. A call option gives the purchaser of the option the right to buy, and obligates the writer to sell, the underlying security or securities at the exercise price at any time during the option period, or at a specific date. A covered call option is a call option with respect to which the Fund owns the underlying security, has an absolute and immediate right to acquire that security without additional cash consideration or otherwise covers the transaction by segregating permissible liquid assets. The Fund receives a premium from writing covered call options which it retains whether or not the option is exercised, although by writing a call option the Fund forgoes any appreciation in the subject securities above the exercise price if the option is exercised by the purchaser of the option.

The Fund also is permitted to purchase put and call options in respect of specific securities in which the Fund may invest (or groups or "baskets" of specific securities) or Swiss stock indices. A put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security or securities at the exercise price at any time during the option period, or at a specific date. The Fund will pay premiums to purchase put and call options, whether or not the options are exercised. An option on a stock index is similar to an option in respect of specific securities, except that settlement does not occur by delivery of the securities comprising the index. Instead, the option holder receives an amount of cash if the closing level of the stock index upon which the option is based is greater than in the case of a call, or less than in the case of a put, the exercise price of the option. Thus, the effectiveness of purchasing stock index options will depend upon price movements in the level of the index rather than the price of a particular stock.

Successful use by the Fund of options will be subject to HCC's ability to predict correctly movements in the prices of securities and indices underlying options and the stock market generally. To the extent HCC's predictions are incorrect, the Fund may incur losses.

Revised Investment Strategies, Policies and Related Risks--Board Approved
At a meeting of the Board of Directors on December 7, 2006, the Board approved a proposal to permit the Fund to invest its assets in certain pooled investment vehicles ("funds"), including investment companies and funds that invest in private equity by investing in private equity funds (so-called funds of funds) and by making direct investments, including in infrastructure projects and real estate investments. The Fund is only permitted to purchase interests in (i) funds that were organized or domiciled in Switzerland or (ii) funds that meet the standards approved by its stockholders in Proposal 3C (INVESTMENTS IN NON-SWISS SECURITIES) at the 2006 Annual Stockholder Meeting (described above). For purposes of complying with Proposal 3C, the fund must

35

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited) (continued)

either (a) be organized in or have its principal office in Switzerland or (b)

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

meet the three-part test set forth above under "Investments in Non-Swiss Securities and Related Risks."

The proposal approved by the Board of Directors limited the Fund's permitted investments in these types of funds to the following:

- . COUNTRIES. A fund must have at least 80% of its total assets invested in companies in developed markets and may have no more than 20% of its total assets invested in emerging market countries or issuers;
- . CURRENCIES. A fund must have at least 80% of its underlying investments denominated in currencies of countries in developed markets. A fund that satisfies the first prong of the test also will be deemed to satisfy this prong; and
- . PRICING. For funds that are not listed on an exchange, a fund must (i) invest in exchange-listed issuers or securities that can be readily valued or (ii) provide HCC fair valuations of its underlying investments either through regular shareholder communications or through other written means that, based on information reasonably available at the time the valuation is made, HCC believes to be reliable.

General Risks. HCC expects that a majority of the funds investing in private equity transactions will be listed on Swiss or other European exchanges, but cannot predict that the Fund would only invest in these funds. Any of the Fund's holdings in funds that are purchased in private transactions will be illiquid and subject to the Fund's 10% limit on investments in illiquid securities.

In addition to the general risks associated with investing in Swiss equity and equity-linked securities, the Fund would be subject to a height-ened risk in respect of investing a greater percentage of its total assets in illiquid private equity securities. The risks associated generally with such investments include: (i) very limited liquidity due to legal or contractual limitations on resales or lack of a public market; (ii) dependence on an exit strategy, such as an initial public offering or sale of a business, which may not occur to realize the anticipated value of an investment or dispose of the investment without a significant or total loss; and (iii) dependence on managerial assistance provided by other investors and the willingness of those investors or third parties to provide additional financial support to the issuer.

Depending on the specific facts and circumstances of a private equity security investment, there may not be a reasonable basis to revalue it for a substantial period of time after the Fund's investment. It is possible that the fair value attributed to the investment may not accurately reflect its actual value and, consequently, the net asset value and/or market value of the Fund's shares may not reflect the actual values of the Fund's portfolio. If the Fund invests in private equity securities, changes in the Fund's net asset value may be more pronounced than with other funds that do not invest in private equity securities.

The business of identifying attractive investments in private equity securities of the types contemplated for the Fund is competitive, and involves a high degree of uncertainty. Furthermore, the availability of investment opportunities in private equity securities generally will be subject to market conditions as well as, in some cases, the prevailing regulatory or political climate. Accordingly, there can be no assurance that the Fund will be able to identify attractive investments in private equity securities.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

THE SWISS HELVETIA FUND, INC.

Other Matters (Unaudited) (concluded)

Investing in these types of funds also will subject the Fund's stockholders to additional fees and expenses, including advisory fees charged, and operating expenses borne, by each underlying fund. As a result, stockholders will bear not only the Fund's advisory fee and certain operating expenses, but also the fees and expenses of the underlying fund attributable to the Fund's investment. Additionally, the Fund may have limited access to information concerning the underlying fund and its investments.

For funds that are not listed on an exchange, HCC will fair value the Fund's investment pursuant to procedures approved by the Fund's Board of Directors. The valuation ordinarily will be the value determined at the end of a fund's fiscal period in accordance with the fund's valuation policies. The fair value of the Fund's investment in a fund represents the amount that the Fund could reasonably expect to receive from a fund if the Fund's investment were redeemed at the time of valuation, based on information reasonably available at the time the valuation is made and that HCC believes to be reliable. In the unlikely event that a fund does not report a value to HCC on a timely basis, HCC would determine the fair value of the fund based on the most recent value reported by the fund, as well as any other relevant information available at that time. Although HCC will review the valuations provided by the funds, HCC may not be able to confirm independently the accuracy of such valuations.

Tax Risks. HCC expects that most of these funds will be "passive foreign investment companies" ("PFICs"), and the Fund may be subject to U.S. federal income tax -- notwithstanding the Fund's Subchapter M election -- on a portion of any "excess distribution" or gain from the disposition of shares of the funds even if such income is distributed as a taxable dividend by the Fund to its stockholders.

Dividends paid by a PFIC are not eligible for taxation at preferential rates that apply to certain dividends from domestic corporations and certain other foreign corporations. The determination of whether a fund is a PFIC is made annually on the basis of facts that may be beyond the Fund's control, and there can be no assurance that the Fund will not invest in a fund that is a PFIC. Certain elections--not always in the Fund's control--may mitigate some of the negative tax consequences of investing in PFICs.

37

THE SWISS HELVETIA FUND, INC.

Dividend Reinvestment Plan (Unaudited)

The Plan

The Fund's Dividend Reinvestment Plan (the "Plan") offers a convenient way for you to reinvest capital gains distributions and ordinary income dividends, payable in whole or in part in cash, in additional shares of the Fund.

Some of the Plan features are:

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

- . Once you enroll in the Plan, all of your future distributions and dividends payable in whole or in part in cash will be automatically reinvested in Fund shares in accordance with the terms of the Plan.
- . You will receive shares valued at the lower of the Fund's net asset value or the Fund's market price as described below. The entire amount of your distribution or dividend will be reinvested automatically in additional Fund shares. For any balance that is insufficient to purchase full shares of the Fund, your account will be credited with fractional shares.
- . Your shares will be held in an account with the Plan agent. You will be sent regular statements for your records.
- . You may terminate participation in the Plan at any time.

The following are answers to frequently asked questions about the Plan.

How do I enroll in the Plan?

If you are holding certificates for your shares, contact American Stock Transfer & Trust Company (AST) at the address shown below. If your shares are held in a brokerage account, contact your broker. Not all brokerage firms permit their clients to participate in dividend reinvestment plans such as the Plan and, even if your brokerage firm does permit participation, you may not be able to transfer your Plan shares to another broker who does not permit participation. Your brokerage firm will be able to advise you about its policies.

How does the Plan work?

The cash portion of any dividends or distributions you receive, payable in whole or in part in cash, will be reinvested in shares of the Fund. The number of shares credited to your Plan account as a result of the reinvestment will depend upon the relationship between the Fund's market price and its net asset value per share on the record date of the distribution or dividend, as described below:

- . If the net asset value is greater than the market price (the Fund is trading at a discount), AST, as Plan Agent, will buy Fund shares for your account on the open market on the New York Stock Exchange or elsewhere. Your dividends or distributions will be reinvested at the average price AST pays for those purchases.
- . If the net asset value is equal to the market price (the Fund is trading at parity), the Fund will issue for your account new shares at net asset value.
- . If the net asset value is less than but within 95% of the market price (the Fund is trading at a premium of less than 5%), the Fund will issue for your account new shares at net asset value.
- . If the net asset value is less than 95% of the market price (the Fund is trading at a premium of 5% or more), the Fund will issue for your account new shares at 95% of the market price.

If AST begins to buy Fund shares for your account at a discount to net asset value but, during the course of the purchases, the Fund's market price increases to a level above the net asset value, AST will complete its purchases, even

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

though the result may be that the average price paid for the purchases exceeds net asset value.

Will the entire amount of my distribution or dividend be reinvested?

The entire amount of your distribution or dividend, payable in cash, will be reinvested in additional Fund shares. If a balance remains after the purchase of whole shares, your account will be credited with any fractional shares (rounded to three decimal places) necessary to complete the reinvestment.

How can I sell my shares?

You can sell any or all of the shares in your Plan account by contacting AST. AST charges \$15 for the transaction plus \$.10 per share for this service. You can also withdraw your shares from your Plan account and sell them through your broker.

Does participation in the Plan change the tax status of my distributions or dividends?

No. The distributions and dividends are paid in cash and their taxability is the same as if you received the cash. It is only after the payment of distributions and dividends that AST reinvests the cash for your account.

Can I get certificates for the shares in the Plan?

AST will issue certificates for whole shares upon your request. Certificates for fractional shares will not be issued.

Is there any charge to participate in the Plan?

There is no charge to participate in the Plan. You will, however, pay a pro rata share of brokerage commissions incurred with respect to AST's open market purchases of shares for your Plan account.

How can I discontinue my participation in the Plan?

Contact your broker or AST in writing. If your shares are in a Plan account, AST will send you a certificate for your whole shares and a check for any fractional shares.

Where can I direct my questions and correspondence?

Contact your broker, or contact AST as follows:

By mail:

American Stock Transfer & Trust
Company
PO Box 922
Wall Street Station
New York, NY 10269-0560

Through the Internet:

www.amstock.com

Through AST's automated voice response System:

1-888-556-0425

AST will furnish you with a copy of the Terms and Conditions of the Plan without charge.

ANNUAL REPORT
FOR THE
YEAR ENDED
DECEMBER 31, 2006

ITEM 2. CODE OF ETHICS

As of the end of the period covered by this report, the Registrant has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its principal executive officer and senior financial officer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Directors (the "Board") has determined that Messrs. Paul R. Brenner, Esq., Didier Pineau-Valencienne and Stephen K. West, Esq., each a member of the audit committee of the Board, are audit committee financial experts as defined by the Securities and Exchange Commission (the "SEC"). Messrs. Brenner, Pineau-Valencienne and West each are "independent" as defined by the SEC for purposes of audit committee financial expert determinations.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a) The aggregate fees billed for each of the last two fiscal years (the "Reporting Periods") for professional services rendered by the Registrant's principal accountant for the audit of the Registrant's annual financial statements, or services that are normally provided by the principal accountant in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$38,575 in 2005 and \$40,750 in 2006.

(b) There were no audit-related fees billed to the Registrant in the Reporting Periods for assurance and related services rendered by the principal accountant

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

that were reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4.

There were no fees billed in the Reporting Periods for assurance and related services rendered by the principal accountant to the Registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant (collectively the "investment adviser") which were required to be pre-approved by the audit committee as described in paragraph (e) (1) of this Item 4.

(c) The aggregate fees billed in the Reporting Periods for professional services rendered by the principal accountant to the Registrant for tax compliance, tax advice and tax planning ("Tax Services") were \$4,200 in 2005 and \$4,400 in 2006. These services consisted of review or preparation of U.S. federal, state, local and excise tax returns.

(d) There were no other fees billed in the Reporting Periods for products and services provided by the principal accountant to the Registrant, other than the services reported in paragraphs (a) through (c) of this Item.

(e) (1) The Registrant's Audit Committee pre-approves the principal accountant's engagements for audit and non-audit services to the Registrant, and certain non-audit services to the investment adviser that are required to be pre-approved on a case-by-case basis. Pre-approval considerations include whether the proposed services are compatible with maintaining the principal accountant's independence.

(e) (2) No services included in (b)--(d) above were approved pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X.

(f) None.

(g) The aggregate non-audit services billed by the principal accountant for services rendered to the Registrant in the reporting periods were \$4,200 in 2005 and \$4,400 in 2006. There were no fees billed in each of the Reporting Periods for non-audit services rendered by the principal accountant to the investment adviser.

(h) The Registrant's Audit Committee considers whether the provision of any non-audit services rendered to the investment adviser not pre-approved (not requiring pre-approval) by the Audit Committee is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Registrant has a separately-designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Securities Exchange Act of 1934, as amended. It is composed of the following Directors, each of who is not an "interested person" as defined in the Investment Company Act of 1940, as amended (the "Act"):

Paul R. Brenner, Esq.
Michael Kraynak, Jr.
Didier Pineau-Valencienne
Stephen K. West, Esq.

ITEM 6. SCHEDULE OF INVESTMENTS

Not Applicable.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Registrant has delegated voting of proxies in respect of portfolio holdings to its investment adviser, Hottinger Capital Corp. (the "Advisor"), to vote the Registrant's proxies in accordance with Advisor's proxy voting guidelines and procedures. The Advisor has adopted proxy voting guidelines (the "Voting Guidelines") that provide as follows:

- . The Advisor votes proxies in respect of a client's securities in the client's best economic interests and without regard to the interests of the Advisor or any other client of the Advisor.
- . Unless the Advisor's Proxy Voting Committee (the "Committee") otherwise determines (and documents the basis for its decision) or as otherwise provided below, the Advisor votes proxies in a manner consistent with the Voting Guidelines.
- . To avoid material conflicts of interest, the Advisor applies the Voting Guidelines in an objective and consistent manner across client accounts. Where a material conflict of interest has been identified and the matter is covered by the Voting Guidelines, the Committee votes in accordance with the Voting Guidelines. Where a conflict of interest has been identified and the matter is not covered by the Voting Guidelines, the Advisor will disclose the conflict and the Committee's determination of the manner in which to vote to the Registrant's Audit Committee.
- . The Advisor also may determine not to vote proxies in respect of securities of any issuer if it determines that it would be in the client's overall best interests not to vote.

The Advisor's Voting Guidelines address how it will vote proxies on particular types of matters such as the election for directors, adoption of option plans and anti-takeover proposals. For example, the Advisor generally will:

- . support management in most elections for directors, unless the board gives evidence of acting contrary to the best economic interests of shareholders;
- . support option plans, if it believes that they provide for their administration by disinterested parties and provide incentive to directors, managers and other employees by aligning their economic interests with those of the shareholders while limiting the transfer of wealth out of the company; and
- . oppose anti-takeover proposals unless they are structured in such a way that they give shareholders the ultimate decision on any proposal or offer.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PRINCIPAL PORTFOLIO MANAGERS

As of the date of the filing of this Report on Form N-CSR, Messrs. Philippe Comby and Rudolf Millisits are primarily responsible for the management of the Registrant's portfolio.

Mr. Comby has been a portfolio manager of the Registrant since 1999, when he joined the Advisor. Mr. Comby is a Vice President of the Registrant and a

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Director and Senior Vice President of the Advisor. He also is a Director and the President of Hottinger U.S., Inc. and the Chief Investment Officer and Senior Vice President of Hottinger Brothers LLC, each of which is a registered investment adviser affiliated with the Advisor. Mr. Comby has been affiliated with the Hottinger Group since 1994, providing portfolio management and client advisory services. He is a member of the New York Society of Security Analysts, a member of Global Association of Risk Professionals and a Chartered Financial Analyst.

Mr. Millisits has been a portfolio manager of the Registrant since 1994, when he joined the Advisor. Mr. Millisits is the Senior Vice President and Chief Financial Officer of the Registrant and the Chief Operating Officer, Executive Vice President and Chief Compliance Officer of the Advisor. He also is the Chairman and Chief Executive Officer of Hottinger U.S., Inc. and the President and Chief Financial Officer of Hottinger Brothers, LLC. Mr. Millisits has been affiliated with the Hottinger Group since 1993, providing portfolio management and private banking services. Prior to joining the Hottinger Group, Mr. Millisits was a portfolio manager for private clients for Credit Suisse in New York and Geneva.

PORTFOLIO MANAGEMENT

The Registrant's portfolio managers manage multiple accounts for a diverse client base, including private clients and institutions.

Material Conflicts Related to Management of Similar Accounts. The potential for conflicts of interest exist when the Advisor or its affiliates and the portfolio managers manage other accounts that invest in securities in which the Registrant may invest or that may pursue a strategy similar to the Registrant's strategy (collectively, "Similar Accounts"). In addition, the Registrant, as a registered investment company, is subject to different regulations than certain of the Similar Accounts, and, consequently, may not be permitted to engage in all the investment techniques or transactions, or to engage in such techniques or transactions to the same degree, as the Similar Accounts.

Potential conflicts of interest may arise because of a portfolio manager's management of the Registrant and Similar Accounts. For example, conflicts of interest may arise with both the aggregation and allocation of securities transactions and allocation of limited investment opportunities, as the portfolio manager may be perceived as causing accounts he manages to participate in an offering to increase his overall allocation of securities in that offering, or to increase his ability to participate in future offerings by the same underwriter or issuer. Allocations of bunched trades, particularly trade orders that were only partially filled due to limited availability, and allocation of investment opportunities generally, could raise a potential conflict of interest, as the portfolio manager may have an incentive to allocate securities that are expected to increase in value to preferred accounts. Initial public offerings, in particular, are frequently of very limited availability. Additionally, the Registrant's portfolio managers may be perceived to have a conflict of interest because of the number of Similar Accounts, in addition to the Registrant, that they are managing. In addition, the Advisor could be viewed as having a conflict of interest to the extent that the Advisor or its affiliates and/or the portfolio managers have a materially larger investment in a Similar Account than their investment in the Registrant.

A potential conflict of interest may be perceived to arise if transactions in one account closely follow related transactions in a different account, such as when a purchase increases the value of securities previously purchased by the other account, or when a sale in one account lowers the sale price received in a sale by a second account.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-CSR

Other Accounts Managed by the Portfolio Managers. The chart below includes information regarding the Registrant's portfolio managers, as of December 31, 2006. Specifically, it shows the number of other portfolios and assets, including the Registrant, managed by the Registrant's portfolio managers. Neither portfolio manager manages any accounts with respect to which the advisory fee is based on this performance of the account.

PORTFOLIO MANAGER	REGISTERED INVESTMENT COMPANIES (\$)	OTHER POOLED INVESTMENT VEHICLES (\$)	OTHER ACCOUNTS (\$)
Philippe Comby	1 (502.8 million)	0	24 (61.2 million)
Rudolf Millisits	1 (502.8 million)	0	24 (61.2 million)

COMPENSATION FOR THE PORTFOLIO MANAGERS

The portfolio managers are generally responsible for managing multiple types of accounts that may, or may not, invest in securities in which the Registrant may invest or pursue a strategy similar to one of the Registrant's strategies.

During the fiscal period covered by this Report on Form N-CSR, the Registrant's portfolio managers were compensated by a competitive salary and bonus structure, which was determined both quantitatively and qualitatively. Salary and bonus are paid in cash. The portfolio managers are compensated on the performance of the aggregate group of portfolios they manage rather than for a specific fund or account. Various factors are considered in the determination of the portfolio managers' compensation. All of the portfolios managed by the portfolio managers are comprehensively evaluated to determine each portfolio manager's positive and consistent performance contribution over time. Further factors include the amount of assets in the portfolios as well as qualitative aspects that reinforce the Advisor's investment philosophy.

Total compensation is generally not fixed, but rather is based on the following factors: (i) leadership and commitment, (ii) maintenance of current knowledge and opinions on companies owned in the portfolio; (iii) generation and development of new investment ideas, including the quality of security analysis and identification of appreciation catalysts; (iv) ability and willingness to develop and share ideas; and (v) the performance results of the portfolios managed by the portfolio managers.

Variable bonus is based on the portfolio managers' quantitative performance as measured by their ability to make investment decisions that contribute to the pre-tax absolute and relative returns of the accounts managed by the portfolio manager, by comparison to predetermined benchmarks (for the Registrant, the Swiss Market Index and the Swiss Performance Index) over the current fiscal year and the longer-term performance (3-, 5- or 10-year, if applicable), as well as performance relative to peers. The portfolio managers' bonuses also can be influenced by subjective measurement of the managers' ability to help others make investment decisions.

OWNERSHIP OF SECURITIES OF THE REGISTRANT

12/01/06 - 12/31/06				569,200
Total	430,800	16.9068	430,800	569,200

At the December 7, 2006 meeting of the Board, the Board approved the purchase of up to 500,000 shares of the Fund by the Advisor during 2007. The approved purchase plan, announced to the public in a press release on December 7, 2006, expires on December 31, 2007. The Fund does not intend to terminate the plan prior to its expiration.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No material changes to procedures.

ITEM 11. CONTROLS AND PROCEDURES

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.
