PART I.

ITEM 1. BUSINESS
CNB FINANCIAL CORPORATION

CNB Financial Corporation (the Corporation) is a Financial Holding Company registered under the Bank Holding Company Act of 1956, as amended. It was incorporated under the laws of the Commonwealth of Pennsylvania in 1983 for the purpose of engaging in the business of a Financial Holding Company. On April 26, 1984, the Corporation acquired all of the outstanding capital stock of County National Bank, a national banking chartered institution. In December of 2006, County National Bank changed its name to CNB Bank and became a state bank chartered in Pennsylvania and subject to regulation by the Pennsylvania Department of Banking and the Federal Deposit Insurance Corporation.

The Corporation is subject to regulation, supervision and examination by the Board of Governors of the Federal Reserve System. In general, the Corporation is limited to owning or controlling banks and engaging in such other activities as are properly incident thereto. The Corporation is currently engaged in four non-banking activities through its wholly owned subsidiaries CNB Securities Corporation, County Reinsurance Company, CNB Insurance Agency, and Holiday Financial Services Corporation. CNB Securities Corporation was formed in 2005 to hold and manage investments that were previously owned by the Bank and the Corporation and to provide the Corporation with additional latitude to purchase other investments. County Reinsurance Company was formed in June of 2001 as a corporation in the state of Arizona. The company provides accidental death and disability and life insurance as a part of lending relationships of the Bank. CNB Insurance Agency was established in February of 2003. The company provides fixed annuity products to banking customers. The Corporation's newest subsidiary, Holiday Financial Services Corporation, was formed in the third quarter of 2005 to facilitate the Corporation's entry into the consumer discount loan and finance business. Finally, in addition to these operating subsidiaries, the Corporation has a wholly owned affiliate, CNB Statutory Trust I, which is accounted for using the equity method based on the nature and purpose of the entity.

The Corporation does not currently engage in any operating business activities, other than the ownership and management of CNB Bank (the Bank), CNB Securities Corporation, County Reinsurance Company, CNB Insurance Agency, and Holiday Financial Services Corporation.

CNB BANK

The Bank was incorporated in 1934 and is chartered in the State of Pennsylvania. The Bank's Main Office is located at 1 South Second Street, Clearfield, (Clearfield County) Pennsylvania. The primary marketing area consists of the Pennsylvania Counties of Clearfield, Elk (excluding the Townships of Millstone, Highland and Spring Creek), McKean, Cambria and Cameron. It also includes a portion of western Centre County including Philipsburg Borough, Rush Township and the western portions of Snow Shoe and Burnside Townships and a portion of Jefferson County, consisting of the boroughs of Brockway, Falls Creek, Punxsutawney, Reynoldsville and Sykesville, and the townships of Washington, Winslow and Henderson.

ERIEBANK, a division of CNB Bank, began operations in 2005 when the Bank established a loan production office in Erie, Pennsylvania and started offering commercial loan service to businesses located within Erie and Erie County. During the third quarter of 2006, management opened its first full service branch in the Erie market at a temporary location and has begun the process of growing the ERIEBANK franchise. In 2007, the Bank plans to continue expansion into the Erie market with the addition of three full-service branches. The primary market area for the ERIEBANK division will be the north western Pennsylvania county of Erie including the city of Erie.

The approximate population of the general trade area is 450,000. The economy is diversified and includes manufacturing industries, wholesale and retail trade, services industries, family farms and the production of natural resources of coal, oil, gas and timber.

In addition to the Main Office, the Bank has 22 full-service branch offices and 2 loan production offices located in various communities in its market area.

The Bank is a full-service bank engaging in a full range of banking activities and services for individual, business, governmental and institutional customers. These activities and services principally include checking, savings, and time deposit accounts; real estate, commercial, industrial, residential and consumer loans; and a variety of other specialized financial services such as wealth management. Its trust division offers a full range of client services.

Table of Contents

The Bank's customer base is such that loss of one customer relationship or a related group of depositors would not have a materially adverse effect on the business of the Bank.

The Bank's loan portfolio is diversified so that one industry, group of related industries or changes in household economic conditions would not comprise a material portion of the loan portfolio.

The Bank's business is not seasonal nor does it have any risks attendant to foreign sources.

HOLIDAY FINANCIAL SERVICES CORPORATION

In the fourth quarter of 2005, the Corporation formed Holiday Financial Services Corporation, a wholly owned subsidiary, and entered the consumer discount loan and finance business with one office located in Sidman, Pennsylvania. During 2006, three additional offices were opened in the communities of Hollidaysburg, Northern Cambria and Clearfield, Pennsylvania. Holiday Financial Services Corporation is currently not material to the Corporation based on revenue, net income or total asset measurements; however, the Corporation plans to continue growing this entity with three more new offices slated for 2007.

COMPETITION

The financial services industry in the Corporation's service area continues to be extremely competitive, both among commercial banks and with other financial service providers such as consumer finance companies, thrifts, investment firms, mutual funds and credit unions. The increased competition has resulted from changes in the legal and regulatory guidelines as well as from economic conditions. Mortgage banking firms, leasing companies, financial affiliates of industrial companies, brokerage firms, retirement fund management firms, and even government agencies provide additional competition for loans and other financial services. Some of the financial service providers operating in the Corporation's market area operate on a large-scale regional or national basis and possess resources greater than those of the Corporation. The Corporation is generally competitive with all competing financial institutions in its service area with respect to interest rates paid on time and savings deposits, service charges on deposit accounts and interest rates charged on loans.

SUPERVISION AND REGULATION

The Bank is subject to supervision and examination by applicable federal and state banking agencies, including the Pennsylvania State Department of Banking. The Bank is insured by and subject to some or all of the regulations of the Federal Deposit Insurance Corporation (FDIC). The Bank is also subject to various requirements and restrictions under federal and state law, including requirements to maintain reserves against deposits, restrictions on the types, amounts and terms and conditions of loans that may be granted, and limitation on the types of investments that may be made and the types of services that may be offered. Various consumer laws and regulations also affect the operation of the Bank. In addition to the impact of regulation, commercial banks are affected significantly by the actions of the Federal Reserve Board, including actions taken with respect to interest rates, as it attempts to control the money supply and credit availability in order to influence the economy.

EMPLOYEES

The Corporation has no employees who are not employees of CNB Bank except for eleven individuals who are employees of Holiday Financial Services Corporation. As of December 31, 2006, the Corporation had a total of 273 employees of which 226 were full time and 47 were part time.

MONETARY POLICIES

The earnings and growth of the banking industry are affected by the credit policies of monetary authorities, including the Federal Reserve System. An important function of the Federal Reserve System is to regulate the national supply of bank credit in order to control recessionary and inflationary pressures. Among the instruments of monetary policy used by the Federal Reserve to implement these objectives are open market activities in U.S. Government Securities, changes in the discount rate on member bank borrowings and changes in reserve requirements against member bank deposits. These operations are used in varying combinations to influence overall economic growth and indirectly, bank loans, securities, and deposits. These variables may also affect interest rates charged on loans or paid for deposits. The monetary policies of the Federal Reserve authorities have had a significant effect on the operating results of commercial banks in the past and are expected to continue to have such an effect in the future.

In view of the changing conditions in the national economy and in the money markets, as well as the effect of actions by monetary and fiscal authorities including the Federal Reserve System, no prediction can be made as to possible future changes in interest rates, deposit levels, loan demand or their effect on the business and earnings of the Corporation and the Bank.

- (1) Includes unamortized discounts and premiums. Average balance is computed using the carrying value of securities. The average yield has been computed using the historical amortized cost average balance for available for sale securities.
 - (2) Average yields are stated on a fully taxable equivalent basis.
 - (3) Average outstanding includes the average balance outstanding of all non-accrual loans. Loans consist of the average of total loans less average unearned income. The amount of loan fees included in the interest income on loans is not material.

The Provision for loan losses reflects the amount deemed appropriate by management to establish an adequate reserve to meet the present and foreseeable risk characteristics of the present loan portfolio. Management's judgment is based on the evaluation of individual loans, the overall risk characteristics of various portfolio segments, past experience with losses, the impact of economic condition on borrowers, and other relevant factors.

1. In determining the allocation of the allowance for loan losses, the Corporation considers economic trends, historical patterns and specific credit reviews.
2. With regard to the credit reviews, a watchlist is evaluated on a monthly basis to determine potential commercial losses. Consumer loans and mortgage loans are allocated using historical loss experience. The total of these reserves is deemed allocated, while the remaining balance is unallocated.

Analysis of the Allowance for Loan Losses

The unallocated component of the allowance for loan losses has declined over the last year as management has refined its methodology for monitoring and measuring credit risk. In 2006 additional individual loans were subject to specific review, resulting in an increase in specific allowance allocations. In addition, consideration of current economic risk factors were applied to individual pools of homogeneous pools of loans. In prior years, economic risk factors were applied to the portfolio of loans as a whole and were reflected as unallocated.

ITEM 1A. RISK FACTORS

Investments in CNB Financial Corporation common stock involve risk. The market price of CNB Financial Corporation common stock may fluctuate significantly in response to a number of items which are mainly beyond the control of the Corporation and could include, but are not limited to, the following:

Changes in the market valuations of similar corporations

Changes in interest rates

Volatility of stock market prices and volumes

Rumors or erroneous information

New developments in the financial services industry

Variations in quarterly or annual operating results

Litigation or regulatory actions

Changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or other regulatory agencies.

Business conditions in the communities we serve.

If CNB Financial Corporation does not adjust to future changes in the financial services industry, its financial performance may suffer. As such, the Corporation's ability to maintain its history of strong financial performance and return on investment to shareholders will depend in part on its ability to expand its scope of available financial services to its customers. In addition to other banks, competitors include securities dealers, brokers, mortgage bankers, investment advisors, and finance and insurance companies. The increasingly competitive environment is, in part, a result of changes in regulation, changes in technology and product delivery systems, and the accelerating pace of consolidation among financial service providers.

Future governmental regulation and legislation could limit growth. CNB Financial Corporation and its subsidiaries are subject to extensive regulation, supervision and legislation that govern nearly every aspect of its operations. Changes to these laws could affect CNB Financial Corporation's ability to deliver or expand its services and diminish the value of its business.

Table of Contents

Changes in interest rates could reduce income and cash flow. CNB Financial Corporation's income and cash flow depends to a great extent on the difference between the interest earned on loans and investment securities, and the interest paid on deposits and other borrowings. Interest rates are beyond CNB Financial Corporation's control, and they fluctuate in response to general economic conditions and the policies of various governmental and regulatory agencies, in particular, the Federal Reserve Board. Changes in monetary policy, including changes in interest rates, will influence the origination of loans, the purchase of investments, the generation of deposits and the rates received on loans and investment securities and paid on deposits.

Additional factors could have a negative effect on the financial performance of CNB Financial Corporation and CNB Financial Corporation common stock. Some of these factors are general economic and financial market conditions, competition, continuing consolidation in the financial services industry, litigation, regulatory actions, and losses.

ITEM 2. PROPERTIES

The headquarters of the Corporation and the Bank are located at 1 South Second Street, Clearfield, Pennsylvania, in a building owned by the Corporation. The Bank operates 22 full-service and 2 loan production offices. Of these 24 offices, 18 are owned and 6 are leased from independent owners. Holiday Financial Services Corporation has four full-service offices of which three are leased from independent owners and one is leased from the Bank. There are no incumbrances on the offices owned, and the rental expense on the leased property is immaterial in relation to operating expenses. The lease terms range from five to ten years.

ITEM 3. LEGAL PROCEEDINGS

There are no material pending legal proceedings to which the Corporation or any of its subsidiaries is a party, or of which any of their property is the subject, except ordinary routine proceedings which are incidental to the business. In the opinion of management, pending legal proceedings will not have a material adverse effect on the consolidated financial position of the Corporation.

ITEM 9A. CONTROLS AND PROCEDURES

We carried out an evaluation, under the supervision and with the participation of the Corporation's management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based on that evaluation, our principal executive officer and principal financial officer concluded that as of December 31, 2006 our disclosure controls and procedures were effective to ensure that the financial and nonfinancial information required to be disclosed by the Corporation in the reports that it files or submits under the Securities Exchange Act of 1934, including this Annual Report on Form 10-K for the year ended December 31, 2006, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Management's responsibilities related to establishing and maintaining effective disclosure controls and procedures include maintaining effective internal controls over financial reporting that are designed to produce reliable financial statements in accordance with accounting principles generally accepted in the United States. As disclosed in the Report on Management's Assessment of Internal Control Over Financial Reporting on page 28 of our Annual Report to Shareholders for 2006, management assessed the Corporation's system of internal control over financial reporting as of December 31, 2006, in relation to criteria for effective internal control over financial reporting as described in Internal Control-Integrated Framework, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management believes that as of December 31, 2006, its system of internal control over financial reporting met those criteria and is effective. Our auditors attested to the fairness of our assessment that we maintained effective internal control over financial reporting and their report is included on page 29 of our Annual Report to Shareholders for 2006, which page is provided as part of Exhibit 13 hereto.

During the fourth quarter of 2006 there was no change in the Corporation's internal controls over financial reporting or in other factors that has materially affected, or is reasonably likely to materially affect, our internal controls or material weaknesses in such internal controls requiring corrective actions. As a result, no corrective actions were taken.
