FORWARD-LOOKING STATEMENTS

Certain statements contained in this Form 6-K may be viewed as forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual performance, financial condition or results of operations of China Telecom Corporation Limited (the Company) to be materially different from any future performance, financial condition or results of operations implied by such forward-looking statements. The forward-looking statements include, without limitation, the continued growth of the telecommunications industry in China; the development of the regulatory environment; and the Company's ability to successfully execute its business strategies.

Such forward-looking statements reflect the current views of the Company with respect to future events. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation, any changes in the regulatory policies of the Ministry of Information Industry and other relevant government authorities; any changes in telecommunications and related technology and applications based on such technology; and changes in political, economic, legal and social conditions in China, including the Chinese government's policies with respect to economic growth, foreign exchange, foreign investment and entry by foreign companies into China's telecommunications market. Please also see the Risk Factors section of the Company's latest Annual Report on Form 20-F, as filed with the Securities and Exchange Commission.

In response to an increasingly competitive environment in the first quarter of 2007, especially from the mobile operators' free incoming call packages promotion, the Group emphasized the principle of a profitable development of the voice business. Instead of directly competing on pricing and driving revenue growth solely based on subscriber base expansion, the Group accelerated the development of integrated information services, enriched the value content of the transformation business, and consolidated the traditional business through integrated development leveraging its multi-services offering edge. Meanwhile the Group strictly controlled the total amount of capital expenditure, and allocated resources skew towards high-return businesses. During the first quarter of 2007, the business of the Group sustained steady development as a whole. Local access lines in service reached 224 million, representing a net increase of 0.74 million. The broadband subscribers reached 30.5 million, representing a net increase of 2.18 million. Businesses like Internet access and value-added services continued its robust growth momentum. Excluding the amortisation of upfront connection fees of RMB833 million, operating revenues for the first quarter of 2007 was RMB42,662 million, representing an increase of 2.2% over the corresponding period of last year. The profit attributable to equity holders of the Company reached RMB6,140 million, representing an increase of 3.9% over the corresponding period of last year. EBITDA was RMB22,524 million, representing an increase of 0.8% over the corresponding period of last year. EBITDA margin was 52.8%, sustained at a relatively high level.

The Group will continue to deepen the implementation of its strategic transformation, strengthen its execution capability, actively capitalize on its strength of multi-services convergence offering, and accelerate the development of the Internet, value-added business and integrated information services. The Group will also strengthen brand oriented operations and multi-services bundling and packaging to consolidate the traditional voice business, promote healthy and stable overall development of the Company and proactively build up a solid foundation for future full services convergence offering to enhance its enterprise value, customer value and shareholder value altogether.

The Board wishes to remind investors that the above financial and business data are based on the Group's unaudited management accounts. Investors are cautioned not to unduly rely on such data.

In the meantime, investors are advised to exercise caution in dealing in the securities of the Company.
