SERVICE MARKS AND TRADE NAMES

Accredited Home Lenders, Inc. (AHL), a wholly owned subsidiary of the registrant, owns the following service marks and trademarks for its United States operations: Accredited Home Lenders[®], Accredited Home Lenders[®] and logo, Home Funds Direct[®] and logos, Axiom Financial Services[®], Axiom Financial Services[®] and logo, FRONTDOOR[®], FRONTDOOR[®] and logo, InzuraSM, InzuraSM and logo, Common Sense for Uncommon Loans[®], AAMES INVESTMENT[®], INFORMEDBROKER[®], LendingBridgeSM and logo, and Aames Direct[®], Aames Capital[®], Aames[®], Aames Investment[®], and Aames Home Loan[®]; and the following service marks and trademarks for the registrant's Canadian operations: Accredited Home Lenders Canada[®], Accredited Home Lenders[®] and logo, Common Sense for Uncommon Loans^{MC}, Prêteurs Résidentiels Accrédités Canada^{MC}, and We Give You Credit For Being Human[®].

FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements. When used in this report, statements which are not historical in nature, including the words anticipate, estimate, should, expect, believe, intend and similar expressions are intended to identify forward-looking statements. This report includes statements containing expectations regarding the integration of Aames Investment Corporation and other internal matters, external development and projections of revenues, earnings or losses, capital expenditures, dividends, capital structure or other financial terms.

The forward-looking statements in this report are based upon our management's beliefs, assumptions and expectations of our future operations and economic performance, taking into account the information currently available to them. These statements are not statements of historical fact. Forward-looking statements involve risks and uncertainties, some of which are not currently known to us, that may cause our actual results, performance or financial condition to be materially different from the expectations of future results, performance or financial condition we express or imply in any forward-looking statements. Some of the important factors that could cause our actual results, performance or financial condition to differ materially from expectations are:

our ability to operate at a profit, or sustain consecutive periods of net losses and remain a going concern, due to adverse market conditions and other factors beyond our control;

our ability to maintain sufficient liquidity to sustain operations;

whether or not our pending merger with an affiliate of Lone Star Fund V (U.S.), L.P. is consummated;

our ability to realize cost savings, synergies and economies of scale from our acquisition of Aames Investment Corporation and our ability to improve profitability of the combined operations;

repurchase rates on the mortgage loans that we sell or securitize, which may reduce our cash available for operations and liquidity;

acceleration of debt repayment obligations due to a failure to meet the covenants contained in our credit facilities, including covenants on minimum profitability, interest coverage, liquidity, and net worth requirements as well as limitations on total indebtedness;

the degree and nature of our competition, including without limitation their impact on the rates that we are able to charge our borrowers;

changes in demand for, or value of, mortgage loans due to the attributes, mix and performance of the mortgage loans we originate; the characteristics of our borrowers; and fluctuations in the real estate market, the interest rates or the market in which we sell or

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

securitize our mortgage loans;

a general deterioration in economic or political conditions, including without limitation any slow down in the national and/or local real estate markets;

our ability to accurately make estimates about matters that are inherently uncertain under our critical accounting policies;

changes in government regulations that affect our ability to originate and service mortgage loans;

changes in the credit markets, which affect our ability to borrow money to originate mortgage loans;

our ability to employ and retain qualified employees;

our ability to protect and hedge our mortgage loan portfolio against adverse interest rate movements;

our ability to adapt to and implement technological changes; and

Table of Contents

the other factors referenced in this report, including, without limitation, under the sections entitled ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, and ITEM 1A. Risk Factors.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur. We qualify any and all of our forward-looking statements entirely by these cautionary factors.

Table of Contents

In this Form 10-Q, unless the context requires otherwise, Accredited, Company, we, our, and us means Accredited Home Lenders Holding Co and its subsidiaries.

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements include the accounts of Accredited Home Lenders Holding Co. (Accredited or AHLHC), a Delaware corporation, and its wholly owned subsidiaries Accredited Home Lenders, Inc. (AHL), Accredited Home Lenders Canada, Inc., Vendor Management Services, LLC d/b/a Inzura Settlement Services, AHL s wholly owned subsidiaries Accredited Mortgage Loan REIT Trust, herein reported separately (the REIT), Aames Capital Corporation, and Inzura Insurance Services, Inc. (collectively referred to as Accredited). All intercompany balances and transactions are eliminated in consolidation. The accompanying consolidated financial statements included in this report for Accredited have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures, normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles, have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements and the related notes included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

In the opinion of the Company s management, any adjustments contained in the accompanying unaudited financial statements as of and for the three months ended March 31, 2007 are of a normal recurring nature. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

AHLHC operates in the highly volatile non-prime mortgage sector. In 2007, the non-prime mortgage sector has been characterized by turmoil and deteriorating conditions including the withdrawal of credit by warehouse credit lenders, bankruptcy of multiple industry participants, tightening of underwriting standards, increased mortgage delinquencies and defaults by borrowers, reduced origination of non-prime mortgages, downgrades by credit rating agencies, and reductions in personnel, among others. In response to these challenging conditions and to preserve liquidity, during 2007, AHLHC completed the sale of substantially all of its mortgage loans held for sale as of March 16, 2007 totaling approximately \$2.7 billion, borrowed \$230 million under a five-year term loan facility, restructured or terminated many credit facilities, terminated its asset-backed commercial paper program, acquired new warehouse credit facilities, and effected significant reductions in personnel. Also, beginning September 2007, Accredited substantially suspended U.S. mortgage origination operations pending the return of market conditions under which non-prime mortgage loans can be originated and sold or securitized at a profit.

In addition, in June 2007, Accredited entered into an agreement with affiliates of Lone Star Fund V (U.S.) L.P. (Lone Star), pursuant to which Lone Star agreed to acquire all of Accredited s outstanding common stock through a tender offer and subsequent merger. The acquisition was expected to be completed in the third quarter of 2007 and to provide Accredited with additional capital resources for future operations. However, in mid-August 2007, Lone Star stated that it would not accept the shares tendered by shareholders. Accredited has filed suit in Delaware Chancery Court seeking to enforce Lone Star s obligations to close the tender offer and complete the merger, and a trial is scheduled to begin on September 26, 2007. If the acquisition is not consummated or if Accredited is unable to obtain adequate capital resources to fund future operations, Accredited s financial and operational viability becomes increasingly uncertain. Whether the acquisition will ultimately be completed is not presently determinable. The accompanying consolidated financial statements do not include any adjustments related to the effects of this uncertainty.

Accredited s business is the origination, financing, securitizing, servicing and selling of non-prime mortgage loans secured by residential real estate. Accredited s business focuses on borrowers who may not meet conforming underwriting guidelines because of higher mortgage loan-to-value ratios, the nature or absence of income documentation, limited credit histories, high levels of consumer debt, or past credit difficulties. Accredited originates mortgage loans primarily based upon the borrower s willingness and ability to repay the mortgage loan and the adequacy of the collateral. As noted above, beginning September 2007, Accredited substantially suspended U.S. mortgage origination operations.

Securitizations of non-prime mortgage loans originated by AHL have generally been executed through AHL s subsidiary, the REIT. In such securitizations, AHL contributes the mortgage loans to the REIT as capital and assumes the AHL s related financing obligations, and the loans are accounted for at AHL s carrying value.

AHL also provides operating facilities, administration and mortgage loan servicing for the REIT. The REIT is, therefore, economically and operationally dependent on AHL, and, as such, the REIT s results of operation or financial condition would not be indicative of the conditions

that would have existed for its results of operations or financial condition if it had operated as an unaffiliated entity.

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Use of Estimates

The preparation of our financial statements requires us to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Although we base our estimates and assumptions on historical experience and on various other factors that we believe to be reasonable under the circumstances, our management exercises significant judgment in the final determination of our estimates. Actual results may differ from these estimates. The following areas require significant judgments by management:

lower of cost or market valuation allowance (LOCOM)

provisions for losses, reserves and repurchase reserves

interest rate risk, derivatives and hedging strategies

income taxes

mortgage loan sales

Cash and Cash Equivalents

For purposes of financial statement presentation, Accredited considers all liquid investments with an original maturity of three months or less to be cash equivalents. All liquid assets with an original maturity of three months or less which are not readily available for use, including cash deposits, are classified as restricted cash.

Mortgage Banking Activities

Accredited is in the business of originating, financing, securitizing, servicing and selling mortgage loans secured by residential real estate. Accredited recognizes interest income on mortgage loans held for sale and investment from the time that it originates the mortgage loan until the time the mortgage loans are sold. Interest income is also recognized over the life of the mortgage loans that Accredited has securitized in structures that require financing treatment. These securitizations are structured legally as sales, but for accounting purposes are treated as financings under SFAS No. 140 *Accounting for Transfer and Servicing of Financial Assets and Extinguishment of Liabilities – a replacement of FASB Statement No. 125* (SFAS No. 140). Gains on sale of mortgage loans are recognized upon the sale of mortgage loans for a premium to various third-party investors under purchase and sale agreements. Mortgage loan sales may be either on a servicing retained or released basis. Mortgage loan servicing income represents fees from interim servicing for whole mortgage loan buyers, and ancillary servicing revenue for mortgage loans that Accredited securitizes net of external servicing costs, if any. We do not recognize mortgage loan servicing income on our mortgage loans held for investment.

Mortgage Loans Held for Sale

Mortgage loans held for sale are carried at the lower of amortized cost or fair value (LOCOM). We estimate fair value by evaluating a variety of market indicators including recent trades, outstanding commitments or current investor yield requirements.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Transfers of financial assets are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from Accredited, (2) the transferee has the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) Accredited does not maintain effective control over the transferred assets through either (a) an agreement that entitles and obligates Accredited to repurchase or redeem them before their maturity or (b) the ability to unilaterally cause the holder to return specific assets.

Gains or losses resulting from loan sales are recognized at the time of sale, based on the difference between the net sales proceeds and the carrying value of the loans sold.

Accredited's sales of mortgage loans are subject to standard mortgage industry representations and warranties, material violations of which may require Accredited to repurchase one or more mortgage loans. Additionally, certain whole mortgage loan sale contracts include provisions requiring Accredited to repurchase a mortgage loan if a borrower fails to make one or more of the first mortgage loan payments due on the mortgage loan. In addition, an investor may request that Accredited refund a portion of the premium paid on the sale of mortgage loans if a mortgage loan is prepaid in full within a certain amount of time following the date of sale. Accredited records a provision for estimated repurchases and premium recapture on mortgage loans sold, which is charged to gain on sale of mortgage loans.

Table of Contents

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Mortgage Loans Held for Investment, Securitization Financing and Provision for Losses

Accredited's securitization program calls for the execution of securitization transactions as the principal means of increasing the size of its held for investment portfolio. In support of this program, Accredited periodically identifies mortgage loans meeting the applicable investor characteristics and transfers those mortgage loans from mortgage loans held for sale to mortgage loans held for securitization (held for investment).

Shortly before the execution of a securitization transaction, the mortgage loans held for securitization, which are originated by and to this point have been held in AHL, are contributed at the lower of cost or market (carrying amount), to the REIT. The carrying amount transferred to the REIT consists of the unpaid principal balance, the net deferred origination fees, the basis adjustment for fair value hedge accounting (from funding to contribution date) and the allowance for mortgage loan losses, and this amount is thereafter designated as mortgage loans held for investment. The loans remain in mortgage loans held for securitization for approximately 10 business days prior to the close of the securitization transaction.

Mortgage loans held for investment include mortgage loans that Accredited has securitized in structures that are accounted for as financings as well as mortgage loans held for a scheduled securitization at the REIT. During the three months ended March 31, 2007 and 2006, Accredited completed securitizations of United States mortgage loans totaling \$0.8 billion and \$1.0 billion, respectively.

These securitizations are structured legally as sales, but for accounting purposes are treated as financings under SFAS No. 140 *Accounting for Transfer and Servicing of Financial Assets and Extinguishment of Liabilities* a replacement of FASB Statement No. 125. These securitizations do not meet the qualifying special purpose entity criteria under SFAS No. 140 and related interpretations because after the mortgage loans are securitized, the securitization trusts may acquire derivatives relating to beneficial interests retained by Accredited and, Accredited, as servicer, subject to applicable contractual provisions, has discretion, consistent with prudent mortgage servicing practices, to determine whether to sell or work out any mortgage loans securitized through the securitization trusts that become troubled. Accordingly, the mortgage loans remain on the consolidated balance sheet as mortgage loans held for investment, retained interests are not created, and securitization bond financing replaces the warehouse debt or asset backed commercial paper originally associated with the mortgage loans held for investment. Accredited records interest income on mortgage loans held for investment and interest expense on the bonds issued in the securitizations over the life of the securitizations. Deferred debt issuance costs and discounts related to the bonds are amortized on a level yield basis over the estimated life of the bonds.

After the mortgage loans are designated as held for securitization, Accredited estimates the losses inherent in the portfolio at the balance sheet date and establishes an allowance for mortgage loan losses. The provision for mortgage loan losses on mortgage loans held for securitization is made in an amount sufficient to maintain credit loss allowances at a level considered appropriate to cover probable losses in the portfolio. Accredited defines a mortgage loan as non-accruing at the time the mortgage loan becomes more than 90 days delinquent under its payment terms. Probable losses are determined based on segmenting mortgage loans in the portfolio according to their contractual delinquency status and applying Accredited's expected loss experience. A number of other analytical tools are used to determine the reasonableness of the allowance for mortgage loan losses. Loss estimates are reviewed periodically and adjustments, if any, are reported in earnings. As these estimates are influenced by factors outside of Accredited's control, there is uncertainty inherent in these estimates, making it reasonably possible that they could change. Mortgage loans foreclosed upon or deemed uncollectible are carried at estimated fair value less cost to sell.

Derivative Financial Instruments

As part of Accredited's interest rate management process, Accredited uses derivative financial instruments such as futures contracts, options contracts, interest rate swap and interest rate cap agreements. It is not Accredited's policy to use derivatives to speculate on interest rates. In accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended and interpreted, derivative financial instruments are reported on the consolidated balance sheets at their fair value.

Fair Value Hedges

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Accredited designates certain derivative financial instruments as hedge instruments under SFAS No. 133, and, at trade date, these instruments and their hedging relationship are identified, designated and documented. Accredited has implemented fair value hedge accounting on its mortgage loans held for sale, whereby certain derivatives are designated as a hedge of the fair value of mortgage loans held for sale. This process includes linking derivatives to specific assets or liabilities on the balance sheet. Accredited also assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives used in hedge transactions are highly effective in offsetting changes in fair values of hedged items. Changes in the fair value of such derivative instruments and changes in the fair value of the hedged assets, which are determined to be effective, are recorded as a component of gain on sale in the period of change. When it is determined that a derivative is not highly effective as a hedge or that it has ceased to be a highly effective hedge, Accredited discontinues hedge accounting. If

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

hedge accounting is discontinued because it is determined that the relationship between the derivative and the underlying asset no longer qualifies as an effective hedge, the derivative will continue to be recorded on the balance sheet at its fair value. For terminated hedges or hedges no longer qualifying as effective, the formerly hedged asset will no longer be adjusted for changes in fair value and any previously recorded adjustment to the hedged asset will be included in the carrying basis. These amounts will be included in results of operations at the time we sell the loans. Should the hedge prove to be perfectly effective, the current period net impact to earnings would be minimal. Accordingly, the net amount recorded in the statement of operations relating to fair value hedge accounting is referred to as hedge ineffectiveness.

Cash Flow Hedges

Pursuant to SFAS No. 133 hedge instruments have been designated as hedging the exposure to variability of cash flows from our securitization debt attributable to interest rate risk. Cash flow hedge accounting requires that the effective portion of the gain or loss in the fair value of a derivative instrument designated as a hedge be reported as a component of other comprehensive income in stockholders' equity, and recognized into earnings in the period during which the hedged transaction affects earnings pursuant to SFAS No. 133. At the inception of the hedge and on an ongoing basis, Accredited assesses whether the derivatives used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. When it is determined that a derivative is not highly effective as a hedge, Accredited discontinues cash flow hedge accounting prospectively. In the instance cash flow hedge accounting is discontinued, the derivative will continue to be recorded on the balance sheet at its fair value. Any change in the fair value of a derivative no longer qualifying as an effective hedge is recognized in current period earnings. For terminated hedges or hedges that no longer qualify as effective, the effective portion previously recorded remains in other comprehensive income and continues to be amortized or accreted into earnings with the hedged item. The ineffective portion on the derivative instrument is reported in current earnings as a component of interest expense.

For derivative financial instruments not designated as hedge instruments, unrealized changes in fair value are recognized in the period in which the changes occur and realized gains and losses are recognized in the period when such instruments are settled.

Furniture, Fixtures and Equipment

Furniture, fixtures and equipment are recorded at cost and depreciated on a straight-line basis over the estimated useful life of the asset. Projects in process represent software development costs capitalized in accordance with Statement of Position 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. These projects are not yet substantially complete or ready for their intended use and therefore no depreciation has been recorded. These amounts will be reclassified to computer software upon their substantial completion and depreciated over their estimated useful life.

Accredited reviews its long-lived assets for impairment annually or when events or circumstances indicate that the carrying amount of these assets may not be recoverable. An asset is considered impaired when the expected undiscounted cash flows over the remaining useful life are less than the net book value. When impairment is indicated for an asset, the amount of impairment loss is the excess of the net book value over its fair value.

Mortgage Loan Origination Costs and Fees

Loan origination fees and certain direct origination costs are deferred as an adjustment to the carrying value of the loans. These fees and costs are recognized upon sale of loans to third-party investors or amortized over the life of the loan on a level yield basis for loans held for investment.

Interest Income

Interest income is recorded when earned. Interest income represents the interest earned on mortgage loans held for sale and on mortgage loans held for investment. For loans that are more than 90 days delinquent, Accredited reverses income previously recognized but not collected, and ceases to accrue income until all past-due amounts are collected. Interest income also includes revenue related to our mortgage loans held for investment (on-balance sheet securitizations), contractually designated as servicing income but classified as interest income for accounting purposes.

Loan Servicing and Other Fees

Fees for servicing sold loans are credited to income when received. Costs of servicing loans are expensed as incurred. Other loan fees, which include fees for the prepayment of loans, delinquent payment charges and miscellaneous loan services, are recorded as revenue when collected.

Table of Contents

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Escrow and Fiduciary Funds

Accredited maintains segregated bank accounts in trust for the benefit of investors for payments on securitized loans and mortgage loans serviced for investors. Accredited also maintains bank accounts for the benefit of borrower's property tax and hazard insurance premium payments that are escrowed by borrowers. These bank accounts totaled \$155.9 million and \$147.4 million at March 31, 2007 and December 31, 2006, respectively, and are excluded from Accredited's assets and liabilities.

Income Taxes

Deferred tax assets and liabilities are determined based on temporary differences between financial reporting and tax basis of assets and liabilities and are measured by applying enacted tax rates and laws to taxable years in which such temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established against the net deferred tax asset if realization of some or the entire deferred tax asset is questionable (realization is not more likely than not).

Real Estate Owned

Real estate acquired in settlement of mortgage loans generally results when property collateralizing a mortgage loan is foreclosed upon or otherwise acquired by Accredited in satisfaction of the mortgage loan. Real estate acquired through foreclosure is individually revalued at its estimated fair value less costs to dispose, and is carried at lower of cost or its estimated fair value less costs to dispose. Fair value is based on the net amount that Accredited could reasonably expect to receive for the asset in a current sale between a willing buyer and a willing seller, that is, other than in a forced or liquidation sale. Adjustments to the carrying value of real estate owned are made through valuation allowances and charge-offs are recognized through a charge to operations. Legal fees and other direct costs incurred after foreclosure are expensed as incurred.

Advertising

Accredited utilizes nondirect response advertising. As such, advertising costs are expensed as incurred.

Stock-Based Compensation

Effective January 1, 2006, Accredited adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (revised 2005), *Share-Based Payments (SFAS 123R)*, which establishes accounting standards for share-based payments issued in exchange for goods and services. SFAS 123R requires companies to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. That cost is recognized over the period during which an employee is to provide service in exchange for the award.

Accredited adopted the provisions of SFAS 123R, using the modified prospective application method. Under this transition method, financial statements for prior periods are not restated and compensation cost is recognized for all new awards and for the portion of prior awards for which the requisite service period was not complete as of the adoption date. Compensation cost for awards issued prior to the effective date is based on the grant-date fair value as determined under the pro forma provisions of SFAS No. 123, *Accounting for Stock-Based Compensation (SFAS 123)*. In addition, under the modified prospective method, unearned compensation is not included in Stockholders' Equity for share-based compensation plans. Rather, the awards are included in Stockholders' Equity when services required are rendered and expensed. Further information regarding share-based compensation can be found in Note 12.

Other Comprehensive Income (Loss)

Other comprehensive net income includes unrealized gains and losses that are excluded from the consolidated Statements of Operations and are reported as a separate component in stockholders' equity. The unrealized gains and losses include unrealized gains and losses on the effective portion of cash flow hedges and foreign currency translation adjustments.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Comprehensive income (loss) is determined as follows for the three months ended March 31:

	2007	2006
	(in thousands)	
Net income (loss)	\$ (260,168)	\$ 35,823
Net unrealized gains (losses) on cash flow hedges, net of taxes of \$0 and \$9,849, respectively	(13,885)	15,745
Reclassification adjustment into earnings for realized gain on derivatives, net of taxes of \$3,225 and \$2,741 respectively	(3,936)	(4,343)
Foreign currency translation adjustments	635	155
Total comprehensive income (loss)	\$ (277,354)	\$ 47,380

Segment Reporting

Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. These segments should engage in business activities and have discrete financial information available, such as revenue, expenses, and assets. While Accredited's management monitors originations and sales gains by wholesale and retail channels, it does not record any of the actual financial results other than direct expenses by these groups. Accordingly, Accredited operates as one reportable operating segment.

Stock Repurchase Plan

On September 14, 2006, the Board of Directors authorized Accredited to repurchase up to 5 million shares of the Company's common stock from time to time through October 1, 2007. Under the program adopted by the Board, shares of Accredited's common stock may be repurchased from time to time in both privately negotiated and open market transactions, including pursuant to a 10b5-1 plan, subject to management's evaluation of market conditions, applicable legal requirements and other factors. A 10b5-1 plan allows Accredited to repurchase shares at times when it would ordinarily not be in the market because of its trading policies and pending developments. The repurchases may be commenced or suspended at any time without prior notice and without further announcement. During the three months ended March 31, 2007 Accredited did not repurchase any shares.

Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 *Accounting For Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 beginning in fiscal year 2007 as detailed in Note 8 below. The implementation of FIN 48 did not have a material effect on the Company's results of operations, statements of condition or cash flows.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, (SFAS 157). SFAS 157 provides a framework for measuring fair value when such measurements are used for accounting purposes. The framework focuses on an exit price in the principal (or, alternatively, the most advantageous) market accessible in an orderly transaction between willing market participants. SFAS 157 establishes a three-tiered fair value hierarchy with Level 1 representing quoted prices for identical assets or liabilities in an active market and Level 3 representing estimated values based on unobservable inputs. Under SFAS 157, related disclosures are segregated for assets and liabilities measured at fair value based on the level used within the hierarchy to determine their fair values. The Company has not determined that it will adopt SFAS 157 on its effective date of January 1, 2008 and the financial impact, if any, upon adoption has not yet been determined.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115*, (SFAS 159). SFAS 159 permits fair value accounting to be irrevocably elected for certain financial assets and liabilities on an individual contract basis at the time of acquisition or at a remeasurement event date. Upon adoption of SFAS 159, fair value accounting may also be elected for existing financial assets and liabilities. For those instruments for which fair value accounting is elected, changes in fair value will be recognized in earnings and fees and costs associated with origination or acquisition will be recognized as incurred rather than deferred. SFAS 159 is effective January 1, 2008, with early adoption permitted as of January 1, 2007, if adopted concurrent with the adoption of SFAS 157. The Company has not determined that it will adopt SFAS 159 on January 1, 2008, and has not yet determined the financial impact, if any, upon adoption.

2. RESTRICTED CASH

Restricted cash consisted of the following deposits:

	March 31, 2007	December 31, 2006
	(in thousands)	
Reserve account in connection with asset-backed commercial paper facility (see Note 6)	\$ 83,000	\$ 65,170

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. CONCENTRATIONS OF RISK

Significant Customers

During the three months ended March 31, 2007, Accredited sold \$ 2.7 billion and \$0.6 billion in mortgage loans to two separate investors, which represented 76% and 16%, respectively, of total mortgage loans sold. During the three months ended March 31, 2006, Accredited sold \$1.2 billion, \$0.9 billion, and \$0.4 billion in mortgage loans to three separate investors, which represented 38%, 29%, and 14%, respectively, of total mortgage loans sold. No other sales to individual investors accounted for more than 10% of total mortgage loans sold during the three months ended March 31, 2007 and 2006.

Credit Repurchase Risk

Accredited's sales of mortgage loans are subject to standard mortgage industry representations and warranties, material violations of which may require Accredited to repurchase one or more mortgage loans. Additionally, certain whole loan sale contracts include provisions requiring Accredited to repurchase a loan if a borrower fails to make one or more of the first loan payments due on the loan. During the three months ended March 31, 2007 and 2006 loans repurchased totaled \$87.3 million and \$14.6 million, respectively, pursuant to these provisions. At March 31, 2007 and December 31, 2006, the reserve for potential future repurchase losses (see Note 9) totaled \$57.9 million and \$106.1 million, respectively.

Mortgage Loan Products

The following is a description of Accredited's U.S. mortgage loan products prior to the substantial suspension of U.S. mortgage loan origination operations beginning September 2007.

Accredited offered a range of non-prime mortgage and, to a lesser degree, Alt-A mortgage loan programs, including a variety of mortgage loan programs for first and second mortgages. The key distinguishing features of each program were the documentation required, the LTV, the mortgage and consumer credit payment history, the property type and the credit score necessary to qualify under a particular program. Nevertheless, each program relied upon an analysis of each borrower's ability to repay, the risk that the borrower will not repay, the fees and rates charged, the value of the collateral, the benefit provided to the borrower, and the mortgage loan amounts relative to the risk Accredited is taking.

In general, LTV maximums decreased with credit quality and within each credit classification. Additionally, LTV maximums varied depending on the property type. For example, LTV maximums for mortgage loans secured by owner-occupied properties were higher than for mortgage loans secured by properties that were not owner-occupied. LTV maximums for Lite Documentation and Stated Income Programs were generally lower than the LTV maximums for corresponding Full Documentation programs. Accredited's maximum debt service-to-income ratios ranged from 50% to 55% for Full Documentation Programs and from 45% to 55% for Lite Documentation and Stated Income Programs.

Mortgage loans have payment schedules based upon an interest rate that is (1) constant over the life of the mortgage loan, commonly referred to as fixed-rate mortgages or FRMs, or (2) fixed for the initial six-months, two, three, five or seven years and adjusts after the initial fixed period and every six months thereafter, sometimes referred to as adjustable-rate mortgage loans or ARMs. Generally, the payments on fixed-rate mortgage loans are calculated to fully repay the mortgage loans in 15 or 30 years. In the case of balloon mortgage loans, the payments are based on a 30-year or 40 year repayment schedule, with the unpaid principal balance due in a balloon payment at the end of 15 years or 30 years. The payments on adjustable-rate mortgage loans are calculated to fully repay the mortgage loans in 30 years, with payment amount adjustments following interest rate adjustments. Fixed-rate mortgages or adjustable-rate mortgage loans may have initial interest-only periods, typically five years, during which the monthly payments are limited to the amounts required to pay accrued interest due on the mortgage loans. At the end of the interest-only periods, the monthly payments are adjusted to fully repay the mortgage loans over their remaining 25-year terms. Accredited did not offer an interest-only option in conjunction with the 40-year-due-in-30 amortization program

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Geographical Concentration**

Properties securing the mortgage loans in Accredited's servicing portfolio (mortgage loans held for sale, mortgage loans held for investment and off-balance sheet securitizations), including mortgage loans serviced for others, are geographically dispersed throughout the United States. At March 31, 2007, and at December 31, 2006, 17% and 14% of the unpaid principal balance of mortgage loans in Accredited's servicing portfolio were secured by properties located in California and Florida, respectively. The remaining properties securing mortgage loans serviced did not exceed 10% in any other state at March 31, 2007 and December 31, 2006.

Mortgage loan originations are geographically dispersed throughout the United States and, to a much lesser extent, in Canada. During the three months ended March 31, 2007, 15% and 15% of mortgage loans originated were collateralized by properties located in California and Florida, respectively. During the three months ended March 31, 2006, 16% and 12% of mortgage loans originated were collateralized by properties located in California and Florida, respectively. The remaining originations did not exceed 10% in any other state during either of these periods.

An overall decline in the economy or the residential real estate market, or the occurrence of a natural disaster that is not covered by standard homeowners' insurance policies, such as an earthquake, hurricane or wildfire, could decrease the value of mortgaged properties. This decline, in turn, would increase the risk of delinquency, default or foreclosure on mortgage loans in our portfolio and restrict our ability to originate, sell, or securitize mortgage loans, which would significantly harm our business, financial condition and liquidity.

4. MORTGAGE LOANS**Mortgage Loans Held for Sale**

Mortgage loans held for sale were as follows:

	March 31, 2007	December 31, 2006
	(in thousands)	
Mortgage loans held for sale (1)	\$ 431,732	\$ 2,119,509
Basis adjustment for fair value hedge accounting		2,283
Net deferred origination fees	(5,431)	(11,999)
Market valuation allowance (LOCOM)	(6,813)	(36,525)
Mortgage loans held for sale, net	\$ 419,488	\$ 2,073,268

(1) Includes \$67.1 million of Canadian loans at March 31, 2007.

Mortgage Loans Held for Investment

Mortgage loans held for investment were as follows:

	March 31, 2007	December 31, 2006
	(in thousands)	
Mortgage loans securitized	\$ 7,825,489	\$ 7,783,432
Mortgage loans held for securitization (1)		883,313

Mortgage loans held for sale(1)	\$ 431,732	\$ 12,792	\$ 2,140,523	\$ 111,636
Mortgage loans held for investment	7,858,781	330,000	8,693,995	316,252
Real estate owned	190,283	190,283	145,182	145,182
On balance sheet portfolio	8,480,796	533,075	10,979,700	573,070
Mortgage loans sold servicing retained(2)	55,204	7,640	60,428	7,844
Total serviced portfolio	\$ 8,536,000	\$ 540,715	\$ 11,040,128	\$ 580,914

(1) Includes loans repurchased.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

- (2) Includes real estate owned, not included in accompanying balance sheets.
- (3) Loans acquired from Aames were recorded at fair value at purchase. The unpaid principal balances do not include these fair value adjustments.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. DERIVATIVE FINANCIAL INSTRUMENTS****Fair Value Hedges**

Accredited uses fair value hedge accounting in accordance with SFAS No. 133 for certain derivative financial instruments used to hedge its mortgage loans held for sale. Fair value adjustments to mortgage loan carrying amounts are detailed in Note 4. Hedge ineffectiveness recorded in earnings, included as a component of gain on sale of mortgage loans in the consolidated statements of operations, is as follows (in thousands):

	Three Months Ended March 31,	
	2007	2006
Hedge ineffectiveness gains (losses)	\$ 334	\$ (479)

Cash Flow Hedges

Accredited utilizes cash flow hedge accounting on the variable rate portion of its securitization debt in accordance with the provisions of SFAS No. 133. A total of \$5.5 million in net effective gains before taxes, included in other comprehensive income at March 31, 2007, is expected to be recognized in earnings during the next twelve months.

Hedge ineffectiveness recorded in earnings, included as a component of interest expense in the consolidated statements of operations, is as follows (in thousands):

	Three Months Ended March 31,	
	2007	2006
Hedge ineffectiveness gains	\$ 4,995	\$ 446

Effective unrealized gains, net of effective unrealized losses, recorded in other comprehensive income, reported as a component of stockholders equity is as follows (in thousands):

	Three Months Ended March 31,	
	2007	2006
Net effective unrealized gains (losses)	\$ (13,885)	\$ 25,594
Related income tax expense		(9,849)
Net amount deferred to other comprehensive income	\$ (13,885)	\$ 15,745

The following table presents the fair value of the Company's derivative instruments, including margin account balances at:

	3/31/2007		12/31/06	
	Notional amount	Fair value	Notional amount	Fair value

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

	(in thousands)			
Eurodollar futures	\$	\$	\$ 6,201,784	\$ 10,304
Options on Eurodollar futures			630,342	2,803
Interest rate swaps	5,588,112	11,246	2,363,702	490
Interest rate caps	1,113,044	1,586	880,717	7
	\$ 6,701,156	12,832	\$ 10,076,545	13,604
Margin account balances		N/A	1,932	N/A
		\$ 14,764		\$ 51,445
Total				

The fair value of derivative liabilities of \$9.8 million and \$31.7 million at March 31, 2007 and December 31, 2006 respectively which are included in accrued expenses and other liabilities on the consolidated balance sheet have been netted against the fair value of derivative assets shown in the table above. Notional swap amounts are not shown for securitizations in which we reverse the position of the swap embedded in the securitization trust; for these transactions the economic notional hedge amount and the net fair value of the derivatives is zero.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The change in the fair value of derivative financial instruments and the related hedged asset or liability recorded in the consolidated statements of operations is as follows:

	Interest Income	Interest Expense	Gain on Sale (in thousands)	Total
Three Months Ended March 31,				
2007:				
Net unrealized gain (loss)	\$ 1,822	\$ 20,480	\$ (8,492)	\$ 13,810
Net realized loss		(8,747)	(3,800)	(12,547)
Total	\$ 1,822	\$ 11,733	\$ (12,292)	\$ 1,263
2006:

Total	\$ 673	\$ 7,515	\$ 4,004	\$ 12,192

6. CREDIT FACILITIES LOANS HELD FOR SALE

Credit facilities consisted of the following:

	March 31, 2007	December 31, 2006
	(in thousands)	
\$500 million warehouse credit facility expiring March 2008	\$	\$
\$600 million warehouse credit facility expiring March 2008	212,927	44,785
\$650 million warehouse credit facility expired July 2007	43,886	358,504
\$300 million warehouse credit facility terminated April 2007	40,701	150,051
\$600 million warehouse credit facility expired August 2007	18,843	301,462
\$171.4 million warehouse credit facility expired June 2007	33,837	96,926
\$660 million warehouse credit facility terminated March 2007		401,081
\$500 million warehouse credit facility terminated March 2007		300,035
\$500 million warehouse credit facility terminated March 2007		232,506
Other credit facility expired March 2007		20,914
\$2.5 billion asset-backed commercial paper facility terminated May 2007	80,000	879,813
Total credit facilities	\$ 430,194	\$ 2,786,077

Outstanding credit facilities at March 31, 2007 consisted of committed warehouse lines and asset-backed commercial paper. The outstanding warehouse facilities accrued interest based on one-month LIBOR (one-month bankers acceptance rate for Canada) plus a spread. The spread over LIBOR varied depending on the mortgage asset class being financed. The interest rates (One-Month LIBOR plus the spread) ranged from 5.82% to 7.82% as of March 31, 2007.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

The warehouse facilities were collateralized by mortgage loans held for sale and certain restricted cash (See Note 2).

As part of its financing strategy, Accredited maintained a \$2.5 billion asset-backed commercial paper (ABCP) facility. Under the ABCP, the funding of mortgage loan originations was financed through the issuance of (i) short- term liquidity notes (SLN) with maturities ranging from one to one hundred eighty days and (ii) subordinated notes of \$80 million. This facility was repaid and terminated in May 2007.

Our credit facilities contain extensive restrictions and covenants including minimum profitability, interest coverage, liquidity, and net worth requirements and limitations on total indebtedness. If Accredited fails to comply with any of these covenants or otherwise defaults under a facility, the lender has the right to terminate the facility and require immediate payment which may require sale of the collateral at less than optimal terms. In addition, if Accredited defaults under one facility, it would generally trigger a default under the other facilities. From January 1 to September 5, 2007, several of the covenant requirements were amended or waived to allow that Accredited remained in compliance with all requirements at period end. We anticipate requiring additional amendments to or waivers of these covenants during 2007, and there can be no assurances the lenders will so agree. In the event such amendments or waivers are required and Accredited is unable to obtain them, it could have a material and adverse impact on our ability to fund mortgage loans.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During the three months ended March 31, 2007, the Company sold substantially all of its loans held for sale and entered into the Farallon Loan (see Note 7) providing cash and liquidity which was used to repay many of the warehouse facilities, after which such facilities were terminated. Specifically, the Company repaid and terminated the warehouse facilities with Lehman Brothers Bank, FSB, Residential Funding Company, LLC, Goldman Sachs Mortgage Company, Merrill Lynch Bank USA, Morgan Stanley Mortgage Capital Inc. and by IXIS Real Estate Capital Inc. (formerly known as CDC Mortgage Capital Inc.).

The Company, on March 30, 2007, amended the Amended and Restated Master Repurchase Agreement, dated as of December 30, 2005, with Credit Suisse First Boston Mortgage Capital LLC (CSFB), and entered into a Master Repurchase Agreement with Wachovia Bank, N.A. (Wachovia). Under the amended agreement with CSFB, the term of the CSFB repurchase facility was extended through March 31, 2008 and the maximum committed amount able to be borrowed remained at \$600 million. Under the agreement with Wachovia (which was amended on May 1, 2007 and on July 5, 2007), the maximum amount the Company is able to borrow is \$1 billion.

On September 4, 2007, the Company entered into an amendment to the Master Repurchase Agreement with Wachovia and on September 5, 2007 entered in an amendment to the Amended and Restated Master Repurchase Agreement with CSFB, effective on and after July 31, 2007. Pursuant to these amendments, the parties modified the definition of Adjusted Tangible Net Worth to include the amount of the Company's trust preferred securities issued January 11, 2007 (see Note 7). In addition, the CSFB amendment contains an additional sublimit for performing aged warehouse loans.

Accredited anticipates that its borrowings will be repaid from net proceeds from the sale of mortgage loans and other assets, cash flows from operations, or from refinancing the borrowings.

7. SECURITIZATION AND OTHER FINANCING

Securitization and other financing consisted of the following:

	March 31,	December 31,
	2007	2006
	(in thousands)	
Securitized bond financing	\$ 7,376,712	\$ 7,281,479
Canadian mortgage loan financing conduit	335,074	345,260
Other borrowings	317,153	24,742
	8,028,939	7,651,481
Unamortized discounts	(23,657)	(8,639)
Total financing, net	\$ 8,005,282	\$ 7,642,842

Securitized Bond Financing

At March 31, 2007, securitized bond financing included securitized bonds bearing interest at fixed rates (ranging from 2.90% to 5.68%) and at variable rate indexed to one-month LIBOR plus a spread (ranging from .04% to 2.75%) maturing through 2037. The bonds were collateralized by mortgage loans held for investment with an aggregate principal balance outstanding of \$7.5 billion at March 31, 2007 and at December 31, 2006. Unamortized debt issuance costs included in prepaid expenses and other assets were \$24.4 million and \$23.1 million at March 31, 2007 and December 31, 2006, respectively.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Amounts collected on the mortgage loans are remitted to the respective trustees, who in turn distribute such amounts each month to the bondholders, together with other amounts received related to the mortgage loans, net of fees payable to Accredited, the trustee and the insurer of the bonds. Any remaining funds after payment of fees and distribution of principal is known as excess interest .

The securitization agreements require that a certain level of over-collateralization be maintained for the bonds. A portion of the excess interest may be initially distributed as principal to the bondholders to increase the level of over collateralization. Once a certain level of over-collateralization has been reached, excess interest is no longer distributed as principal to the bondholders, but, rather, is passed through to Accredited. Should the level of over-collateralization fall below a required level, excess interest will again be paid as principal to the bondholders until the required level has been reached. The securitization agreements also provide that if delinquencies or losses on the underlying mortgage loans exceed certain maximums, the required level of credit enhancement is increased.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Due to the potential for prepayments of mortgage loans, the early distribution of principal to the bondholders and the optional clean-up call available under such securitizations, the bonds are not necessarily expected to be outstanding through the maturity date.

Canadian Mortgage Loan Financing Conduit

The facility bears interest at variable rates indexed to the prevailing commercial paper rate plus a spread (ranging from 0.25% to 0.85%). The notes are collateralized by Canadian residential mortgage loans originated by Accredited with an aggregate outstanding balance of \$340.7 million and \$351.0 million at March 31, 2007 and December 31, 2006, respectively, which are included in mortgage loans held for investment. In addition, \$16.5 million and \$17.8 million at March 31, 2007 and December 31, 2006, respectively, of restricted cash are pledged as collateral (see Note 2).

Other Borrowings

Accredited also maintains a \$75 million Senior Secured Credit Agreement which is scheduled to expire September 28, 2007, and is secured by mortgage servicing rights and servicing advances related to Accredited's securitizations. On March 30, 2007, the Company, as part of the Farallon Loan (described below), capped the amount that can be borrowed under this facility at \$49 million. The notes bear interest at LIBOR plus a spread of 1.5% for borrowings secured by servicing advances and 1.75% for borrowings secured by servicing rights. The balance outstanding was \$31.1 million and \$8.4 million at March 31, 2007 and December 31, 2006, respectively.

On August 30, 2007, the Company entered into an amendment to the Senior Secured Credit Agreement, effective on and after July 31, 2007. Pursuant to the amendment, the parties have modified the definition of Adjusted Tangible Net Worth to include the amount of the Company's trust preferred securities issued January 11, 2007. In addition, the amendment clarified additional terms and conditions contained in the Senior Secured Credit Agreement and capped the amount that could be borrowed under the facility at \$34 million.

On March 30, 2007, the Company and certain of its subsidiaries entered into a secured five-year term Loan Agreement with Mortgage Investment Fundings, L.L.C. (MIF), a lending entity managed by Farallon Capital Management (the Farallon Loan). Pursuant to the Loan Agreement, MIF extended term loans guaranteed by the Company in an aggregate principal amount of \$230 million (\$130 million with AHL and \$100 million with REIT). Interest accrues on the loan at 13% per annum and is payable quarterly. In conjunction with the Loan Agreement, the Company (i) issued to MIF a warrant to purchase 3,226,431 shares of common stock of the Company at an exercise price of \$10 per share and (ii) granted to MIF certain preemptive rights to purchase additional equity securities of the Company, certain registration rights with respect to its equity securities in the Company, and Board of Directors observer rights. The loans may be prepaid in full at any time, subject to payment of a premium of 7% of amounts prepaid during the first two years of the facility and a lesser premium thereafter. Upon the occurrence of a change of control, the lenders may demand prepayment of the loans and the loans shall be prepaid in full with a premium of 2% of the amount prepaid. At March 31, 2007 the balance outstanding under this agreement was \$213.9 million net of the discount which represented the fair value of the warrants at time of issuance of \$16.1 million, which is included in accrued expenses and other liabilities. The Company may be required under certain circumstances to purchase the warrants from the holders pursuant to put rights. The warrants will be adjusted to estimated fair value at each reporting period.

On January 11, 2007 Accredited issued trust preferred securities, the net proceeds of which were \$54.2 million. These unsecured securities have a 30-year term and are callable after January 30, 2012. Interest accrues at 9.01% until January 30, 2012, and at three-month LIBOR plus 3.95% thereafter. At March 31, 2007 the balance outstanding under this agreement was \$56.0 million.

Our credit facilities contain extensive restrictions and covenants including minimum profitability, interest coverage, liquidity, and net worth requirements and limitations on total indebtedness (see Note 6).

The following table summarizes the expected repayments relating to the securitization and other financing at March 31, 2007.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

	(in thousands)
Nine months ending December 31, 2007	\$ 4,047,306
Years ending December 31:	
2008	1,290,172
2009	900,372
2010	503,796
2011	318,283
2012	438,647
Thereafter	530,363
Total	\$ 8,028,939

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****8. INCOME TAXES**

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

The tax effects of significant items comprising Accredited's net deferred tax (liability) asset were as follows:

	March 31, 2007	December 31, 2006
	(in thousands)	
Deferred tax assets:		
Net operating losses	\$ 171,486	\$ 26,200
Market reserve on loans held for sale	20,922	40,457
Loan securitizations	103,017	111,348
State taxes		1,291
Other reserves and accruals	53,330	71,726
Loans held for sale	3,486	
Total deferred tax assets	352,241	251,022
Deferred tax liabilities:		
Loans held for sale		(6,858)
State taxes	(31)	
Mortgage-related securities	(8,393)	(8,239)
Cash flow hedging		(3,225)
Total deferred tax liabilities	(8,424)	(18,322)
Net deferred tax asset before valuation allowance	343,817	232,700
Valuation allowance	(223,019)	(112,140)
Net deferred tax asset after valuation allowance	\$ 120,798	\$ 120,560

The income tax provision consists of the following:

	Three Months Ended March 31, 2007		2006	
	(in thousands)			
Current:				
Federal	\$ 3,153		\$ 23,886	
Foreign	3,000			
State	489		6,129	
Total current provision	6,642		30,015	

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Deferred:		
Federal	3,206	(3,697)
State	(237)	(1,601)
Total deferred provision (benefit)	2,969	(5,298)
 Total provision	 \$ 9,611	 \$ 24,717

The deferred income tax (benefit) expense resulted from temporary differences in the recognition of revenues and expenses for tax and financial statement purposes. The primary sources of these differences were the origination and reversal of the following: mortgage securitizations where taxable income has been recognized in excess of book income and various reserves and accruals in which tax deductions exceed book deductions.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following is a reconciliation of the provision computed using the statutory federal income tax rate to the income tax provision reflected in the statements of operations:

	Three Months Ended March 31,	
	2007	2006
	(in thousands)	
Federal income tax at statutory rate	\$ (86,822)	\$ 22,062
State income tax benefit, net of federal effects	(14,975)	2,943
Federal/state valuation allowance	110,948	
REIT dividends on preferred stock	(873)	(873)
Other	1,333	585
 Total provision	 \$ 9,611	 \$ 24,717

During the first quarter of 2007, the Company recognized tax expense of \$9.6 million against a net loss before income taxes of \$248.1 million. The tax expense was attributed to profits generated in Canada, federal and state minimum income taxes incurred despite the overall losses, and the accrual of interest relating to its liability for uncertain tax positions recorded under FIN 48. No benefit was recorded in the current period for losses generated due to the increase in the Company's valuation allowance recorded against its deferred tax assets.

As a result of losses incurred in 2007 which indicate uncertainty as to the availability of future taxable earnings, it is not likely that 100% of our accumulated deferred tax asset will be realized. As such, a valuation allowance of \$223 million has been established decreasing the total accumulated net deferred tax asset of \$343.8 million to the \$120.8 million reported in the table above. The deferred tax asset of \$120.8 million represents federal and state income taxes paid in prior years which may be recovered by future losses as a result of reversing deductible temporary differences.

The Company adopted the provisions of FIN 48 on January 1, 2007. The total liability for unrecognized tax benefits as of the date of adoption was \$9.2 million. As a result of the implementation of FIN 48, the Company recognized a \$0.1 million increase in the liability for unrecognized tax benefits, which was recorded to deferred tax assets. In addition, the Company reduced its gross deferred tax assets by \$2.7 million for unrecognized tax benefits, which was offset by a reduction in its valuation allowance by the same amount.

Included in the balance of unrecognized tax benefits at January 1, 2007, are \$11.9 million of tax benefits that, if recognized, would affect the effective tax rate. Note that of this amount, \$2.7 million of tax benefit may also be impacted by an increase in the valuation allowance, depending upon the Company's financial condition at the time the benefits are recognized.

The Company recognizes interest and penalties related to unrecognized tax benefits in provision for income taxes.

The Company is subject to taxation in the U.S., various state and foreign tax jurisdictions. The Company's tax years for 2002 and forward are subject to examination by the U.S., foreign and state tax authorities due to the existence of net operating loss carryforwards.

During the first quarter of 2007, the Company's liability for unrecognized tax benefits was increased by \$0.2 million to a balance of \$9.4 million at March 31, 2007. The increase was the result of the accrual of additional interest on the liabilities for uncertain tax positions for certain federal, foreign and state tax returns.

9. ACCRUED EXPENSES AND OTHER LIABILITIES

Accounts payable and accrued liabilities were as follows:

	March 31, 2007	December 31, 2006
	(in thousands)	
Accrued liabilities payroll	\$ 23,930	\$ 28,591
Accrued liabilities merger transaction and direct acquisition costs	20,541	23,084
Accrued liabilities general	75,405	71,769
Derivative liabilities	9,763	31,703
Reserve for repurchases and premium recapture	61,753	110,909
 Total	 \$ 191,392	 \$ 266,056

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Activity in the reserve for repurchases and premium recapture was as follows (in thousands):

	Balance at Beginning of Period	Additions to Reserve(1)	Losses Incurred	Balance at End of Period
Three Months Ended March 31,				
2007:				
Reserve for repurchases	\$ 106,111	\$ 22,050	\$ (70,310)	\$ 57,851
Reserve for premium recapture	4,798	2,344	(3,240)	3,902
Total	\$ 110,909	\$ 24,394	\$ (73,550)	\$ 61,753
2006:				
Reserve for repurchases	\$ 7,434	\$ 1,049	\$ (441)	\$ 8,042
Reserve for premium recapture	3,317	2,105	(1,834)	3,588
Total	\$ 10,751	\$ 3,154	\$ (2,275)	\$ 11,630

(1) Reduces gain on sale of loans in the accompanying statement of operations.

10. MINORITY INTEREST IN REIT SUBSIDIARY

The minority interest in the REIT (a wholly owned subsidiary of AHL) represents Series A Preferred Shares issued to outside investors in the aggregate amount of \$102.3 million. The Series A Preferred Shares bear a dividend of 9.75% annually. The preferred shares are reported as minority interest in subsidiary in the consolidated balance sheet.

11. GAIN (LOSS) ON WHOLE LOAN SALES

The components of gain (loss) on sale of mortgage loans were as follows for the three months ended March 31, 2007 and 2006 (in thousands):

	2007	2006
Gross gain (loss) on sale of mortgage loans	\$ (147,173)	\$ 63,858
Net gain (loss) on derivatives	(12,292)	4,004
Provisions for market valuation (LOCOM), repurchases and premium recapture	(53,411)	(2,457)
Net origination points and fees	45,003	18,538
Direct mortgage loan origination expenses	(11,005)	(13,391)
 Gain (loss) on sale of mortgage loans, net	 \$ (178,878)	 \$ 70,552

12. STOCK-BASED COMPENSATION

Currently, Accredited has three types of equity instruments issued under its share-based compensation programs: stock options, restricted stock units, and restricted stock awards. Accredited discontinued its Employee Stock Purchase Plan on December 31, 2005.

Stock Option Plans

Accredited's 1995 Executive Stock Option Plan, 1995 Stock Option Plan, 1998 Stock Option Plan, and 2002 Stock Option Plan (collectively the Stock Option Plans), provide for the issuance of stock options to eligible directors, employees and consultants. Accredited's 2002 Stock Option Plan (2002 Plan) was adopted by the board of directors and approved by the stockholders in 2002. The share reserve established in the 2002 Plan consists of the number of shares remaining available for option grants and the number of options outstanding under all stock option plans

Stock options are generally granted with an exercise price equal to the closing market price on the date of grant, have a term of 10 years and vest within four years from the date of grant. However, on February 22, 2007, 100,000 options were granted to two members of executive management with an exercise price of \$27.77 when the market value was \$23.60. The remaining 399,980 options were granted on January 31, 2007 at an exercise price of \$27.77, which was the market price at the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes multiple option model. The assumptions used in the option-pricing model for options granted during the three months ended March 31, 2007 are noted in the following table:

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Weighted-average risk-free rate	4.79%
Weighted-average expected life	3.8yrs
Expected volatility	44%
Dividend yield	0%
Weighted-average grant date fair value	\$ 10.18

A summary of the change in options outstanding under Accredited's Stock Option Plans during the three months ended March 31, 2007 follows:

	Number of Options	Weighted- Average Exercise Price
	(in thousands)	
Outstanding at December 31, 2006	1,523	\$ 32.49
Options granted	500	\$ 27.77
Options exercised	(36)	\$ 6.13
Options cancelled	(249)	\$ 35.35
Outstanding at March 31, 2007	1,738	\$ 31.28

For the three months ended March 31, 2007, approximately \$1.6 million of compensation expense related to stock options was recorded.

Since the time of Accredited's initial public offering in 2003, Accredited has granted stock options, and outstanding stock options have been exercised, in reliance upon registration statements filed with the SEC on Form S-8. However, until Accredited is current on its required SEC filings under the Securities Exchange Act of 1934, as amended, Accredited cannot grant additional stock options, and outstanding stock options may not be exercised, in reliance upon such registration statements, unless an exemption from registration is available.

Deferred Compensation Plan

Accredited's Deferred Compensation Plan was adopted by the board of directors and approved by the stockholders in 2002, and became effective on January 1, 2003. The plan is an unfunded, nonqualified deferred compensation plan that benefits directors, certain designated key members of management and key employees. Under the plan, participants may defer up to 100% of their base salary, director fee, bonus and/or commissions on a pre-tax basis. The Deferred Compensation Plan permits the granting of restricted stock units (RSUs) to eligible participants. The RSUs generally vest 50% two years from the date of grant and 25% each year thereafter until fully vested and are payable in the Company's common stock upon distribution. RSUs granted to directors vest after 2 years. The fair value of restricted stock is based upon the market price of the underlying common stock at the date of grant. The per share weighted-average grant date fair value of units granted during the three months ended March 31, 2007 and 2006 was \$27.39, and \$52.20, respectively.

A summary of the change in RSUs outstanding under Accredited's Deferred Compensation Plan during the three months ended March 31, 2007 follows:

	Units (in thousands)
Outstanding at December 31, 2006	655
Granted	91
Released	(38)
Forfeited	(24)

Outstanding at March 31, 2007

684

Units vested not converted

237

For the three months ended March 31, 2007, approximately \$1.7 million of compensation expense related to restricted stock units was recorded.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Grants of RSU's under the Deferred Compensation Plan have been made in reliance upon registration statements filed with the SEC on Form S-8. However, until Accredited is current on its required SEC filings under the Securities Exchange Act of 1934, as amended, Accredited cannot grant additional RSU's in reliance upon such registration statements, unless an exemption from registration is available.

Restricted Stock Awards

Accredited issued 41,000 shares of restricted stock shares to two of its officers in 2005 as an inducement to employment. The expense for these shares is recognized over the awards' five-year vesting period. A summary of the change in the restricted stock awards during the three months ended March 31, 2007 follows:

	Awards (in thousands)
Outstanding at December 31, 2006	36
Granted	
Released	(3)
Forfeited	
Outstanding at March 31, 2007	33

For the three months ended March 31, 2007, approximately \$0.1 million of compensation expense related to restricted stock units was recorded.

These grants were made in reliance upon registration statements filed with the SEC on Form S-8. However, until Accredited is current on its required SEC filings under the Securities Exchange Act of 1934, as amended, Accredited cannot grant additional restricted stock awards in reliance upon such registration statements, unless an exemption from registration is available.

13. EARNINGS (LOSS) PER SHARE

Basic earnings per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding and the weighted average number of vested, restricted common stock units for the period. Diluted earnings per share reflects the potential dilution that could occur if net income were divided by the weighted average number of common shares and unvested, restricted common stock units, plus potential common shares from outstanding stock options and unvested restricted stock units where the effect of those securities is dilutive.

The computations for basic and diluted earnings (loss) per share are as follows:

	Net Income (loss) (numerator) (in thousands, except per share amounts)	Shares (denominator)	Per Share Amount
Three Months Ended March 31, 2007:			
Basic earnings (loss) per share	\$ (260,168)	25,282	\$ (10.29)
Effect of dilutive shares:			
Stock options			
Restricted stock units			

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Warrants			
Diluted earnings per share	\$ (260,168)	25,282	\$ (10.29)
Potentially dilutive shares not included above since they are antidilutive		1,911	
2006:			
Basic earnings per share	\$ 35,823	21,553	\$ 1.66
Effect of dilutive shares:			
Stock options		497	
Restricted stock units		229	
Diluted earnings per share	\$ 35,823	22,279	\$ 1.61

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

14. COMMITMENTS AND CONTINGENCIES

In the normal course of business to meet the financing needs of its borrowers, Accredited is party to financial instruments with off-balance sheet risk. These financial instruments primarily represent commitments to fund loans. These instruments involve, to varying degrees, elements of interest rate risk and credit risk in excess of the amount recognized in the balance sheet. The credit risk is mitigated by Accredited's evaluation of the creditworthiness of potential mortgage loan borrowers on a case-by-case basis. Accredited does not guarantee interest rates to potential borrowers when an application is received. Interest rates conditionally approved following the initial underwriting of applications are subject to adjustment if any conditions are not satisfied. Accredited commits to originate loans, in many cases dependent on the borrower's satisfying various terms and conditions. These commitments totaled \$473 million as of March 31, 2007.

Commitments to sell loans generally have fixed expiration dates or other termination clauses and may require payment of a commitment or a non-delivery fee.

Accredited periodically enters into other loan sale commitments. At March 31, 2007 forward loan sale commitments awaiting settlement amounted to \$400 million.

Accredited's mortgage banking business is subject to the rules and regulations of the Department of Housing and Urban Development (HUD). Those rules and regulations require, among other things, that Accredited maintain a minimum net worth of \$250,000. Accredited is in compliance with these requirements.

From time to time, Accredited enters into certain types of contracts that contingently require Accredited to indemnify parties against third party claims and other obligations customarily indemnified in the ordinary course of Accredited's business. The terms of such obligations vary and, generally, a maximum obligation is not explicitly stated. Therefore, the overall maximum amount of these obligations cannot be reasonably estimated. Historically, Accredited has not been obligated to make significant payments for these obligations and no liabilities have been recorded for these obligations on its balance sheet as of March 31, 2007.

Accredited irrevocably and unconditionally agrees to pay in full to the holders of each share of the REIT's Series A Preferred Shares: (i) all accrued and unpaid dividends, (ii) the redemption price and (iii) the liquidation preference. See further discussion under Note 11. Minority Interest in REIT Subsidiary.

Legal Matters

In September 2007, AHL was named in a class action complaint, *Hayes v. Accredited Home Lenders Holding, Co. and Accredited Home Lenders, Inc.* brought in the United States District Court for the Southern District of California. The complaint alleges that AHL violated the Worker Adjustment and Retraining Notification (WARN) Act by failing to provide 60 days' notice to plaintiffs who were terminated through no fault of their own as part of or as the reasonable consequence of a mass layoff and/or plant closing effectuated by AHL on or about August 22, 2007. The plaintiffs seek to recover, on behalf of themselves and other similarly situated former employees, the alleged wages for the work days in the 60 calendar days prior to their respective terminations along with benefits, interest, attorneys' fees and costs of suit. AHL has not been served with the action, a motion to certify a class has not been filed, and there has been no ruling on the merits of either the plaintiffs' individual claims or the claims of the putative class. AHL intends to vigorously defend this matter, but the ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable.

In August 2007, AHLHC and AHL were served with a class action complaint, *Taylor v. Accredited Home Lenders Holding, Co. and Accredited Home Lenders, Inc.* brought in the United States District Court for the Southern District of California. The complaint alleges AHLHC and AHL violated the Equal Credit Opportunity Act and Fair Housing Act by charging, through the use of a discretionary pricing policy, a higher Annual Percentage Rate (APR) to African-American borrowers than the APR charged to similarly situated Caucasian borrowers. The plaintiff seeks to recover, on behalf of herself and other similarly situated African-American borrowers, compensatory and punitive damages, declaratory and injunctive relief, and recovery of attorneys' fees and costs of suit. Neither AHLHC nor AHL have been served with the action, a motion to certify a class has not been filed, and there has been no ruling on the merits of either the plaintiffs' individual claims or the claims of the putative class. AHLHC and AHL intend to vigorously defend this matter, but the ultimate outcome of this matter and the amount of liability, if any, which may

result is not presently determinable.

In August 2007, AHL was served with a class action complaint, *Viera et al. v. Accredited Home Lenders Holding, Inc.[sic]*, brought in the United States District Court for the Western District of Texas. The complaint alleges that AHL

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

violated the WARN Act by failing to provide 60 days' notice to plaintiffs who were terminated through no fault of their own as part of or as the reasonable consequence of a mass layoff and/or plant closing effectuated by AHL on or about August 10 and 22, 2007. The plaintiffs seek to recover, on behalf of themselves and other similarly situated former employees, the alleged wages for the work days in the 60 calendar days prior to their respective terminations along with benefits, interest, attorneys' fees and costs of suit. A motion to certify a class has not yet been filed, and there has been no ruling on the merits of either the plaintiffs' individual claims or the claims of the putative class. AHL intends to vigorously defend this matter, but the ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable.

In August 2007, AHLHC filed a complaint, *Accredited Home Lenders Holding Co. v. Lone Star Fund V (U.S.), L.P., et al.*, in the Court of Chancery of the State of Delaware for New Castle County. The complaint alleges that Lone Star Fund V (U.S.), L.P. (Lone Star) and two of its affiliates breached contractual obligations to, among other things, close the tender offer for AHLHC's common stock pending under the Agreement and Plan of Merger entered into among such affiliates and AHLHC (the Merger Agreement). AHLHC seeks specific performance of the contractual obligations or, in the alternative, damages for breach of contract. The ultimate outcome of this matter is not presently determinable, but, if determined adversely to AHLHC, the outcome could have a material adverse effect on the business of AHLHC and its subsidiaries.

In July 2007 AHL, AHLHC and the REIT were served with a complaint, *National Community Reinvestment Coalition (NCRC) v. Accredited Home Lenders Holding Company [sic], et al.*, brought in the United States District Court for the District of Columbia. The complaint alleges that AHLHC, AHL and the REIT engaged in a practice of discriminating against African-Americans and Latinos by requiring minimum property values of \$100,000 on row homes for certain loan programs and prohibiting the use of row homes as collateral for certain other loan programs, without business justification for those restrictions. Plaintiff seeks compensatory and punitive damages, declaratory and injunctive relief, and recovery of attorneys' fees and costs of suit. There has been no ruling on the merits of plaintiff's claims. The Company intends to vigorously defend this action. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but the Company does not believe it will have a material adverse effect on its business.

In July 2007, AHL was named in a class action complaint, *National Association for the Advancement of Colored People (NAACP) v. Ameriquest Mortgage Company, et al.*, brought in the United States District Court for the Central District of California. The NAACP filed the action on behalf of itself and its African-American members, alleging that AHL and 12 other lenders violated the Fair Housing Act, Equal Credit Opportunity Act, and Civil Rights Act by steering African-American applicants who would otherwise qualify for prime loans into non-prime loans and charging African-American borrowers higher interest rates and fees than similarly situated Caucasians. Plaintiff seeks, on behalf of itself and others similarly situated, declaratory and injunctive relief and recovery of attorneys' fees and costs of suit. AHL has not been served with the complaint and is unaware of any motion to certify the class having been filed or of any ruling on the merits of either the plaintiff's individual claims or those of the putative class. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but AHL does not believe it will have a material adverse effect on its business.

In June 2007, AHLHC was served with two class action complaints, *Korsinski v. Accredited Home Lenders Holding Co., et al.* and *Wan v. Accredited Home Lenders Holding Co., et al.*, brought in the Superior Court of the State of California, County of San Diego. The complaints allege breaches of fiduciary duty by AHLHC and members of its Board of Directors in connection with AHLHC's entry into the Merger Agreement with affiliates of Lone Star. Plaintiffs seek to enjoin the tender offer for AHLHC common stock which is pending under the Merger Agreement, and recovery of attorneys' fees and costs of suit. The *Korsinski* matter has been voluntarily dismissed by the plaintiff without prejudice. In the *Wan* matter, parties have entered into a Memorandum of Understanding for settlement of the case, subject to certain conditions, including most significantly the completion of the tender offer at the offer price of \$15.10 per share. If the settlement is not consummated because the tender offer is not completed, the impact on the future of this matter is uncertain, but the Company does not believe this matter will have a material adverse effect on the Company's business.

In March 2007, AHLHC was served with a class action complaint, *Atlas v. Accredited Home Lenders Holding Co., et al.*, brought in the United States District Court for the Southern District of California. The complaint alleges violations of federal securities laws by AHLHC and certain members of senior management. AHLHC is aware that five similar securities class actions, *Joory v. Accredited Home Lenders Holding Co., et al.*, *Pourshafie v. Accredited Home Lenders Holding Co., et al.*, *Theda v. Accredited Home Lenders Holding Co., et al.*, *City of Brockton Retirement System v. Accredited Home Lenders Holding Co.*, and *Kornfeld v. James A. Konrath, et al.*, have been filed in the same court. Pursuant to the Private Securities Litigation Reform Act, these cases have been consolidated and a lead plaintiff has been selected. The

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

consolidated, amended complaint was filed on August 24, 2007, and added as defendants the REIT and certain directors of AHLHC. AHLHC's response to this complaint is currently scheduled to be due October 8, 2007. The Company intends to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result, is not presently determinable, but the Company does not believe this action will have a material adverse effect on its business.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In March 2007, AHL was served with a class action complaint, *Edwards v. Accredited Home Lenders, Inc., et al.*, brought in the United States District Court for the Southern District of Alabama. The complaint alleges violations of the federal Truth in Lending Act for allegedly failing to disclose title insurance charges and recording fees as part of finance charges. A motion to certify a class has not yet been filed, there has been no ruling on the merits of either the plaintiff's individual claims or the claims of the putative class, and AHL intends to continue to vigorously defend this action. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but the Company does not believe it will have a material adverse effect on its business.

In February 2007, AHL acknowledged service of a class action complaint, *Sierra v. Aames Home Loan*, brought in the Superior Court for Los Angeles County, California. As a result of the mergers between AHLHC and Aames Investment Corporation (AIC) and between certain of their respective subsidiaries, AHL has succeeded to the litigation interests of AIC and its subsidiaries, including the interest under this matter of Aames Home Loan (a trade name of Aames Funding Corporation (AFC)) in this lawsuit. The named plaintiff is a former commissioned loan officer of AFC, and the complaint alleges that AFC violated state law by requiring the plaintiff to work overtime without compensation. The plaintiff seeks to recover, on behalf of himself and other similarly situated employees, the allegedly unpaid overtime, general damages, multiple statutory penalties and interest, attorneys' fees and costs of suit. A motion to certify a class has not yet been filed, there has been no ruling on the merits of either the plaintiff's individual claims or the claims of the putative class, and AHL intends to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but the Company does not believe it will have a material adverse effect on its business.

In October 2006, as a result of the mergers referenced above, AHL succeeded to the position of AFC under a class action complaint, *Miller v. Aames Funding Corporation*, filed in the United States District Court, Eastern District of Texas. The complaint alleges that adjustable-rate home equity loans originated by AFC in Texas violate the Texas Constitution's requirement that such loans be scheduled to be repaid in substantially equal installments. The plaintiffs seek to recover, on behalf of themselves and similarly situated individuals, damages, declaratory and injunctive relief, attorneys' fees, and any other relief the court may grant. On September 29, 2006, the court on its own motion stayed the action, pending the resolution of class certification issues in a similar action pending before the court. A motion to certify a class has not yet been filed, there has been no ruling on the merits of either the plaintiff's individual claims or the claims of the putative class, and AHL intends to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable. If, however, a class were to be certified and were to prevail on the merits, the potential liability could have a material adverse effect on the Company's business.

In October 2006, by virtue of the mergers referenced above, AHLHC and AHL succeeded to the interests of AIC and AFC under the matters of *Webb, et al., v. Aames Investment Corporation, et al.* (U.S. District Court, Central District of California) and *Cooper, et al., v. Aames Funding Corporation* (U.S. District Court, Eastern District of Wisconsin), class action complaints which allege violations of the Fair Credit Reporting Act in connection with prescreened offers of credit and are similar in nature to the *Phillips* matter referenced below. The *Cooper* matter was transferred to the Central District of California and consolidated with the *Webb* matter by stipulation of counsel on September 29, 2006. A hearing on the motion to certify a class is currently scheduled for October 1, 2007. There has been no ruling on the merits of either the plaintiffs' individual claims or the claims of the putative class, and AHLHC and each affected subsidiary intend to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable. If, however, a class were to be certified and were to prevail on the merits, the potential liability could have a material adverse effect on the Company's business.

In March 2006, AHL was served with a class action complaint, *Cabrejas v. Accredited Home Lenders, Inc.*, brought in the Circuit Court for Prince George's County, Maryland. The complaint alleges that AHL's origination of second lien loans in Maryland violated the Maryland Secondary Mortgage Loan Law (the SMLL) and Consumer Protection Act in that fees charged on such loans exceeded 10% of the respective loan amounts. The plaintiffs seek to recover, on behalf of themselves and similarly situated individuals, damages, disgorgement of fees, pre-judgment interest, declaratory and injunctive relief, attorneys' fees, and any other relief the court may grant. On April 13, 2006, AHL removed the action to the United States District Court, District of Maryland. On May 15, 2006, AHL filed a motion to dismiss plaintiffs' second cause of action alleging a violation of the Maryland Consumer Protection Act on the basis that full disclosure of the fees cannot be an unfair or deceptive trade practice, which motion was granted on December 4, 2006. On January 3, 2007, plaintiffs filed a Second Amended Complaint, alleging that AHL's origination in Maryland of second lien loans with balloon payments was also a violation of the SMLL. On July 5, 2007, the court granted AHL's motion to dismiss this new claim on the basis that the SMLL's prohibition of balloon payments was and is preempted by the federal Alternative Mortgage Transactions Parity Act. A motion to certify a class has not yet been filed, there has been no ruling on the merits of either the plaintiff's remaining individual claims or the remaining claims of the putative class, and AHL intends to continue to vigorously defend

this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but the Company does not believe it will have a material adverse effect on its business.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In September 2005, AHL and AHLHC were served with a class action complaint, *Phillips v. Accredited Home Lenders Holding Company, et al.*, brought in the United States District Court, Central District of California. The complaint alleges violations of the Fair Credit Reporting Act in connection with prescreened offers of credit made by AHL. The plaintiff seeks to recover, on behalf of the named plaintiff and similarly situated individuals, damages, pre-judgment interest, declaratory and injunctive relief, attorneys' fees, and any other relief the court may grant. On January 4, 2006, the plaintiff re-filed the action in response to the court's December 9, 2005, decision granting AHL's and AHLHC's motion to (1) dismiss with prejudice plaintiff's claim that AHL's offer of credit failed to include the clear and conspicuous disclosures required by FCRA, (2) strike plaintiff's request for declaratory and injunctive relief, and (3) sever plaintiff's claims as to AHL and AHLHC from those made against other defendants unaffiliated with AHL or AHLHC. Plaintiff's remaining claim is that AHL's offer of credit did not meet FCRA's firm offer requirement. On May 15, 2007, the court granted plaintiff's motion to certify two subclasses, the first consisting of 58,750 recipients of the initial mailer received by the named plaintiff, and a second consisting of 70,585 recipients of the second mailer received by the named plaintiff. On May 24, 2007, AHL and AHLHC filed a Petition for Leave to Appeal with the Ninth Circuit Court of Appeals, seeking an immediate appeal from the Order granting class certification and a stay of the action in the District Court pending the outcome of that appeal. A ruling on this appeal is not expected until the third quarter of 2007. In the meantime, there has been no ruling on the merits of either the plaintiff's individual claims or the claims of the putative class, and AHL and AHLHC intend to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable. If, however, the class certification stands and either or both subclasses were to prevail on the merits, the potential liability could have a material adverse effect on the Company's business.

In January 2004, AHL was served with a complaint, *Yturalde v. Accredited Home Lenders, Inc.*, brought in Sacramento County, California. The named plaintiff is a former commissioned loan officer of AHL, and the complaint alleges that AHL violated California and federal law by misclassifying the plaintiff and other non-exempt employees as exempt employees, failing to pay the plaintiff on an hourly basis and for overtime worked, and failing to properly and accurately record and maintain payroll information. The plaintiff seeks to recover, on behalf of himself and all of our other similarly situated current and former employees, lost wages and benefits, general damages, multiple statutory penalties and interest, attorneys' fees and costs of suit, and also seeks to enjoin further violations of wage and overtime laws and retaliation against employees who complain about such violations. AHL has been served with eleven substantially similar complaints on behalf of certain other former and current employees, which have been consolidated with the Yturalde action. The parties have agreed to, and the court has approved, a settlement with respect to the named plaintiffs and with respect to a class of current and former AHL employees which the court has certified for settlement purposes. The amount payable by the Company under the settlement is not material to its financial condition or results of operations.

In December 2002, AHL was served with a complaint and motion for class certification in a class action lawsuit, *Wratchford et al. v. Accredited Home Lenders, Inc.*, brought in Madison County, Illinois under the Illinois Consumer Fraud and Deceptive Business Practices Act, the consumer protection statutes of the other states in which AHL does business and the common law of unjust enrichment. The complaint alleges that AHL has a practice of misrepresenting and inflating the amount of fees it pays to third parties in connection with the residential mortgage loans that it funds. The plaintiffs claim to represent a nationwide class consisting of others similarly situated, that is, those who paid AHL to pay, or reimburse AHL's payments of, third-party fees in connection with residential mortgage loans and never received a refund for the difference between what they paid and what was actually paid to the third party. The plaintiffs are seeking to recover damages on behalf of themselves and the class, in addition to pre-judgment interest, post-judgment interest, and any other relief the court may grant. On January 28, 2005, the court issued an order conditionally certifying (1) a class of Illinois residents with respect to the alleged violation of the Illinois Consumer Fraud and Deceptive Business Practices Act who, since November 19, 1997, paid money to AHL for third-party fees in connection with residential mortgage loans and never received a refund of the difference between the amount they paid to AHL and the amount AHL paid to the third party and (2) a nationwide class of claimants with respect to an unjust enrichment cause of action included in the original complaint who, since November 19, 1997 paid money to AHL for third-party fees in connection with residential mortgage loans and never received a refund of the difference between the amount they paid AHL and the amount AHL paid the third party. There has not yet been a ruling on the merits of either the plaintiffs' individual claims or the claims of the class, and AHL intends to continue to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, that may result is not presently determinable, but the Company does not believe it will have a material adverse effect on its business.

Accredited has accrued for loss contingencies with respect to the foregoing matters to the extent it is probable that a liability has been occurred at the date of the consolidated financial statements and the amount of the loss can be reasonably estimated. Management does not deem the amount of such accrual to be material.

Table of Contents**ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In addition, because the nature of Accredited's business involves the collection of numerous accounts, the validity of liens and compliance with various state and federal lending laws, Accredited is subject to various legal proceedings in the ordinary course of business related to foreclosures, bankruptcies, condemnation and quiet title actions, and alleged statutory and regulatory violations. Accredited is also subject to legal proceedings in the ordinary course of business related to employment matters. Accredited does not believe that the resolution of these lawsuits will have a material adverse effect on its financial condition or results of operations.

16. SUBSEQUENT EVENTS

On March 15, 2007, we received a notice from the staff of NASDAQ stating that our common stock may be subject to delisting because we had not filed with the Securities and Exchange Commissions (the "SEC") our Annual Report on Form 10-K ("10-K") for the year ended December 31, 2006 on a timely basis. We requested a hearing before the NASDAQ Listing Qualifications Panel (the "Panel") to appeal the NASDAQ staff's determination and to present our plan to regain compliance with NASDAQ's filing requirements. The hearing request automatically stayed the delisting of the common stock pending the Panel's review and decision. In addition, on May 15, 2007 and on August 14, 2007, we received additional deficiency notices from the staff of NASDAQ stating that the failure to timely file with the SEC our Quarterly Report on Form 10-Q ("10-Q") for the quarters ended March 31, 2007 and June 30, 2007, respectively, could serve as additional bases for the delisting of our common stock.

On July 23, 2007 the Panel determined to continue listing our common stock provided that we filed with the SEC our 10-K by September 12, 2007 and our 10-Q for the first quarter of 2007 by September 18, 2007. We filed our 10-K with the SEC on August 2, 2007. The Panel has not yet responded to our August 17, 2007 request for additional time to file our 10-Q for the second quarter of 2007, but we anticipate the Panel will not require such 10-Q to be filed before the September 18, 2007 deadline for the first quarter 10-Q.

In addition, for continued listing of our common stock on NASDAQ, we are required to, among other things, maintain certain minimum thresholds with regard to stockholders' equity and minimum closing bid prices. If we do not meet the continued listing requirements, our common stock could be subject to delisting from trading on NASDAQ. There can be no assurance that we will continue to meet all requirements for continued listing on NASDAQ.

If we are unable to continue to list our common stock for trading on NASDAQ, there may be an adverse impact on the market price and liquidity of our common stock, and our stock may be subject to the "penny stock rules" contained in Section 15(g) of the Securities Exchange Act of 1934, as amended, and the rules promulgated there under. Delisting of our common stock from NASDAQ could also materially adversely affect our business, including, among other things: our ability to raise additional financing to fund our operations; our ability to attract and retain customers; and our ability to attract and retain personnel, including management personnel. In addition, if our common stock were no longer

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

listed for trading on NASDAQ, many institutional investors would no longer be able to retain their interests in and/or make further investments in our common stock because of their internal rules and protocols.

In addition, by May 31, 2007, based upon market conditions adversely impacting the salability of any asset-backed commercial paper notes collateralized by non-prime mortgage loans, the Company voluntarily terminated its asset-backed commercial paper program and repaid all subordinated notes and SLNs.

Table of Contents

ACCREDITED HOME LENDERS HOLDING CO. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On June 4, 2007 Accredited and affiliates of Lone Star Fund V (U.S.) L.P. (Lone Star), entered into a definitive merger agreement pursuant to which Lone Star agreed to acquire all of the common stock of Accredited in an all-cash transaction. Under the terms of the agreement, Lone Star agreed to acquire each outstanding share of Accredited common stock at a price of \$15.10 per share, for a total consideration of approximately \$400 million. The acquisition is structured as an all-cash tender offer for all outstanding shares of Accredited common stock to be followed by a merger in which each remaining untendered share of Accredited will be converted into the same \$15.10 cash per share price paid in the tender offer. The outstanding 9.75% Series A Preferred Shares, par value \$1.00 per share (the Series A Preferred), of Accredited Mortgage Loan REIT Trust would be expected to remain outstanding following the consummation of the acquisition.

The merger agreement sets forth customary conditions to the closing of the tender offer, including the tender of a majority of the outstanding Accredited shares and the receipt of certain required regulatory approvals. We believe that all conditions to the closing of the tender offer were satisfied at the offer s scheduled expiration at midnight, New York City time, on August 14, 2007. However, on August 10, 2007, Lone Star alleged in a filing made with the SEC that, in light of the drastic deterioration in the financial and operational condition of the Company, among other things, Lone Star believed the Company would fail to satisfy the conditions to the closing of the tender offer and, accordingly, that Lone Star did not expect to be accepting shares tendered as of the scheduled expiration of the tender offer. On August 11, 2007, we filed a lawsuit against Lone Star in the Delaware Court of Chancery seeking specific performance of Lone Star s obligations to close the tender offer and complete the merger. A trial in the lawsuit is scheduled to begin on September 26, 2007

On August 17, 2007 we entered into a transaction treated as a financing for accounting purposes. The transaction includes a call provision exercisable by Accredited which results in the transaction failing to qualify for sale treatment in accordance with certain provisions of SFAS 140. The Company has agreed to trade approximately \$1 billion of loans at an advance rate comparable to the advance rates the Company was then receiving from warehouse lenders. The initial settlement consisted of a pool of approximately \$500 million mortgage loans and closed on August 17, 2007. The remaining loans are scheduled to trade every other week as borrowers make their first payments due under the subject loans. The final settlement of loans is expected to occur by October 2007. Under the agreement, Accredited has the right but not the obligation, in our sole discretion, to reacquire all of the loans traded through mid-November 2007 at a premium to the advance rate. If we do not reacquire the loans by mid-November, our right to reacquire the loans expires and the investor will keep the loans with limited recourse to the Company and the Company would then recognize the transaction as a sale.

Beginning in September 2007, we implemented a restructuring that includes the closing of all retail lending operations, a significant downsizing of wholesale lending operations, and substantial suspension of all U.S. lending unless and until the return of market conditions under which non-prime mortgage loans can again be originated and sold or securitized at a profit. These actions resulted in the closing of 60 retail branch locations, five centralized retail support locations, five wholesale divisions and the settlement services division, and reduced the workforce by approximately 1,600 employees to approximately 1,000 at September 14, 2007.

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Accredited Mortgage Loan REIT Trust (the "REIT") was formed on May 4, 2004 as a Maryland real estate investment trust for the purpose of acquiring, holding and managing real estate assets. All of the outstanding common shares of the REIT are held by Accredited Home Lenders, Inc. ("AHL"), a wholly owned subsidiary of Accredited Home Lenders Holding Co., ("Accredited"). The accompanying financial statements of the REIT have been prepared in accordance with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements included in this report for the REIT have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures, normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles, have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements and the related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

In the opinion of the Company's management, any adjustments contained in the accompanying unaudited financial statements as of and for the three months ended March 31, 2007 are of a normal recurring nature. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007.

In addition, during the first quarter of 2007, Accredited engaged financial advisors to evaluate strategic alternatives for the Company. As a result, in June 2007, Accredited entered into an agreement with affiliates of Lone Star Fund V (U.S.) L.P. ("Lone Star"), pursuant to which Lone Star agreed to acquire all of Accredited outstanding common stock through a tender offer and subsequent merger. The acquisition was expected to be completed in the third quarter of 2007 and to provide Accredited with additional capital resources for future operations. However, in mid-August 2007, Lone Star stated that it would not accept the shares tendered by shareholders. Accredited has filed suit in Delaware Chancery Court seeking to enforce Lone Star's obligations to close the tender offer and complete the merger, and a trial is scheduled to begin on September 26, 2007. If the acquisition is not consummated or if Accredited is unable to obtain adequate capital resources to fund future operations, Accredited's financial and operational viability becomes increasingly uncertain. Whether the acquisition will ultimately be completed is not presently determinable. The accompanying consolidated financial statements do not include any adjustments related to the effects of this uncertainty.

In August 2004, the REIT completed a public offering of 3,400,000 shares of 9.75% Series A Perpetual Cumulative Preferred Stock. In September 2004 the REIT sold an additional 100,000 Series A preferred shares pursuant to the exercise of the underwriters' over-allotment option. In October 2004, the REIT sold an additional 593,678 Series A preferred shares in a public offering.

The REIT engages in the business of acquiring, holding, financing, and securitizing non-prime mortgage loans secured by residential real estate. Generally, the REIT acquires mortgage assets and assumes related funding obligations from AHL, which are accounted for at AHL's carrying value, as contributions of capital from AHL. These mortgage assets consist primarily of residential mortgage loans, or interests in these mortgage loans, that have been originated or acquired by AHL. AHL focuses on borrowers who may not meet conforming underwriting guidelines because of higher loan-to-value ratios, the nature or absence of income documentation, limited credit histories, high levels of consumer debt, or past credit difficulties. AHL originates loans primarily based upon the borrower's willingness and ability to repay the loan and the adequacy of the collateral.

AHL also provides operating facilities, administration and loan servicing for the REIT. The REIT is, therefore, economically and operationally dependent on AHL, and, as such, the REIT's results of operation or financial condition may not be indicative of the conditions that would have existed for its results of operations or financial condition if it had operated as an unaffiliated entity.

The REIT has elected to be taxed as a real estate investment trust and to comply with the provisions of the Internal Revenue Code with respect thereto. Accordingly, the REIT will generally not be subject to federal or state income tax to the extent that its distributions to shareholders satisfy the real estate investment trust requirements and certain asset, income and share ownership tests are met.

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions included in our consolidated financial statements relate to the provision for loan losses, hedging policies and income taxes.

Cash and Cash Equivalents

For purposes of financial statement presentation, the REIT considers all liquid investments with an original maturity of three months or less to be cash equivalents. All liquid assets with an original maturity of three months or less which are not readily available for use, including cash deposits, are classified as restricted cash.

Loans Held for Investment, Securitization Bond Financing and Provision for Losses

Accredited's securitization program calls for the execution of securitization transactions as the principal means of increasing the size of its held for investment portfolio. In support of this program, Accredited periodically identifies mortgage loans meeting the applicable investor characteristics and transfers those mortgage loans from mortgage loans held for sale to mortgage loans held for securitization (held for investment).

Shortly before the execution of a securitization transaction, the mortgage loans held for securitization, which are originated by and to this point have been held in AHL, are contributed at the lower of cost or market (carrying amount), to the REIT. The carrying amount transferred to the REIT consists of the unpaid principal balance, the net deferred origination fees, the basis adjustment for fair value hedge accounting (from funding to contribution date) and the allowance for mortgage loan losses and are thereafter designated as mortgage loans held for investment. The mortgage loans remain mortgage loans held for securitization for approximately 10 business days prior to the close of the securitization transaction.

Mortgage loans held for investment include mortgage loans that the REIT has securitized in structures that are accounted for as financings for accounting purposes as well as mortgage loans held for a scheduled securitization. During the three months ended March 31, 2007 and 2006, the REIT completed securitizations of mortgage loans totaling \$0.8 billion and \$1.0 billion, respectively.

These securitizations are structured legally as sales, but for accounting purposes are treated as financings under SFAS No. 140 *Accounting for Transfer and Servicing of Financial Assets and Extinguishment of Liabilities* a replacement of FASB Statement No. 125. These securitizations do not meet the qualifying special purpose entity criteria under SFAS No. 140 and related interpretations because after the mortgage loans are securitized, the securitization trusts may acquire derivatives relating to beneficial interests retained by the REIT and, AHL, as servicer, subject to applicable contractual provisions, has discretion, consistent with prudent mortgage servicing practices, to determine whether to sell or work out any mortgage loans securitized through the securitization trusts that become troubled. Accordingly, the mortgage loans remain on the balance sheet as mortgage loans held for investment, retained interests are not created for accounting purposes, and securitization bond financing replaces the warehouse debt or asset backed commercial paper originally associated with the mortgage loans held for investment. The REIT records interest income on mortgage loans held for investment and interest expense on the bonds issued in the securitizations over the life of the securitizations. Deferred debt issuance costs and discounts related to the bonds are amortized on a level yield basis over the estimated life of the bonds.

After the mortgage loans are designated as held for securitization, the REIT estimates the losses inherent in the portfolio at the balance sheet date and establishes an allowance for mortgage loan losses. The provision for mortgage loan losses on mortgage loans held for securitization is made in an amount sufficient to maintain credit loss allowances at a level considered appropriate to cover probable losses in the portfolio. The REIT defines a mortgage loan as non-accruing at the time the mortgage loan becomes 90 days or more delinquent under its payment terms. Probable losses are determined based on segmenting mortgage loans in the portfolio according to their contractual delinquency status and applying the REIT and AHL's expected loss experience. A number of other analytical tools are used to determine the reasonableness of the allowance for

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

mortgage loan losses. Loss estimates are reviewed periodically and adjustments, if any, are reported in earnings. As these estimates are influenced by factors outside of the REIT's control, there is uncertainty inherent in these estimates, making it reasonably possible that they could change. Mortgage loans foreclosed upon or deemed uncollectible are carried at lower of cost or fair value less disposition costs.

Table of Contents

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)

Derivative Financial Instruments

As part of the REIT's interest rate management process, the REIT uses derivative financial instruments such as Eurodollar futures and options. In connection with some of the securitizations structured as financings, the REIT entered into interest rate cap agreements. In connection with five of the securitizations structured as financings, the REIT entered into interest rate swap agreements. It is not the REIT's policy to use derivatives to speculate on interest rates. In accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended and interpreted, derivative financial instruments are reported on the balance sheet at fair value.

Cash Flow Hedges

Pursuant to SFAS No. 133 hedge instruments have been designated as hedging the exposure to variability of cash flows from our securitization debt attributable to interest rate risk. Cash flow hedge accounting requires that the effective portion of the gain or loss in the fair value of a derivative instrument designated as a hedge be reported as a component of other comprehensive income in stockholders' equity, and recognized into earnings in the period during which the hedged transaction affects earnings pursuant to SFAS No. 133. At the inception of the hedge and on an ongoing basis, the REIT assesses whether the derivatives used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. When it is determined that a derivative is not highly effective as a hedge, the REIT discontinues cash flow hedge accounting prospectively. In the instance cash flow hedge accounting is discontinued, the derivative will continue to be recorded on the balance sheet at its fair value. Any change in the fair value of a derivative no longer qualifying as an effective hedge is recognized in current period earnings. For terminated hedges or hedges that no longer qualify as effective, the effective portion previously recorded remains in other comprehensive income and continues to be amortized or accreted into earnings with the hedged item. The ineffective portion on the derivative instrument is reported in current earnings as a component of interest expense.

For derivative financial instruments not designated as hedge instruments, unrealized changes in fair value are recognized in the period in which the changes occur and realized gains and losses are recognized in the period when such instruments are settled.

Mortgage Loan Origination Costs and Fees

Loan origination fees and certain direct origination costs are deferred as an adjustment to the carrying value of the loans. These fees and costs are amortized over the life of the loan on a level yield basis for mortgage loans held for investment or recognized when prepayments occur.

Interest Income

Interest income is recorded when earned. Interest income represents the interest earned on loans held for investment. The REIT does not accrue interest on loans that are more than 90 days delinquent.

Income Taxes

The REIT has elected to be subject to taxation as a real estate investment trust under the Internal Revenue Code of 1986. As a result, the REIT will generally not be subject to federal or state income tax to the extent that the REIT distributes its earnings to its shareholders and maintains its qualification as a real estate investment trust.

Real Estate Owned

Real estate acquired in settlement of mortgage loans generally results when property collateralizing a mortgage loan is foreclosed upon or otherwise acquired by AHL, as our servicer, in satisfaction of the mortgage loan. Real estate acquired through foreclosure is initially recorded at its estimated fair value less costs to dispose and is carried at the lower of cost or estimated fair value less costs to dispose. Fair value is based on the net amount that the REIT could reasonably expect to receive for the asset in a current sale between a willing buyer and a willing seller, that is, other than in a forced or liquidation sale. Adjustments to the carrying value of real estate owned are made through valuation allowances and charge-offs are recognized through a charge to earnings. Legal fees and other direct costs incurred after foreclosure are expensed as incurred.

Table of Contents**ACCREDITED MORTGAGE LOAN REIT TRUST****NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)****Other Comprehensive Income**

Other comprehensive income includes unrealized gains and losses that are excluded from the statement of operations and are reported as a separate component in stockholders' equity. The unrealized gains and losses include unrealized gains and losses on the effective portion of cash flow hedges.

Comprehensive income is determined as follows for the three months ended March 31:

	2007	2006
	(In thousands)	
Net income	\$ 25,983	\$ 40,752
Net unrealized gains (losses) on cash flow hedges	(14,576)	24,746
Reclassification adjustment into earnings for realized gain on derivatives	(6,354)	(6,887)
Total comprehensive income	\$ 5,053	\$ 58,611

2. CONCENTRATIONS OF RISK***Geographical Concentration***

Properties securing mortgage loans held for investment are geographically dispersed throughout the United States. At March 31, 2007, 18% and 15% of the unpaid principal balance of mortgage loans held for investment were secured by properties located in California and Florida, respectively. At December 31, 2006, 23% and 11% of the unpaid principal balance of mortgage loans held for investment were secured by properties located in California and Florida, respectively. The remaining properties securing mortgage loans did not exceed 10% in any other state at March 31, 2007 and December 31, 2006.

An overall decline in the economy or the residential real estate market, or the occurrence of a natural disaster that is not covered by standard homeowners' insurance policies, such as an earthquake, hurricane or wildfire, could decrease the value of mortgaged properties. This, in turn, would increase the risk of delinquency, default or foreclosure on mortgage loans in our portfolio. This could restrict our and AHL's ability to originate, sell, or securitize mortgage loans, and significantly harm our business, financial condition, liquidity and results of operations.

3. MORTGAGE LOANS HELD FOR INVESTMENT

Mortgage loans held for investment were as follows:

	March 31, 2007	December 31, 2006
	(in thousands)	
Mortgage loans held for investment	\$ 7,484,782	\$ 7,432,443
Basis adjustment for fair value hedge accounting	(10,415)	(10,971)
Net deferred origination fees	(26,931)	(19,983)
Allowance for loan losses	(133,716)	(129,936)
Loans held for investment, net	\$ 7,313,720	\$ 7,271,553

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Allowance for losses Activity in the allowance was as follows:

	Balance at Beginning of Period	Contributions from Parent	Provision for Losses (in thousands)	Charge offs, net	Balance at End of Period
Three Months Ended March 31,					
2007:					
Mortgage loans held for investment	\$ 129,936	\$ 4,676	\$ 534	\$ (1,430)	\$ 133,716
Real estate owned	22,783		14,055	(2,742)	34,096
Total	\$ 152,719	\$ 4,676	\$ 14,589	\$ (4,172)	\$ 167,812
2006:					
Mortgage loans held for investment	\$ 98,399	\$ 8,431	\$ 1,774	\$ (229)	\$ 108,375
Real estate owned	6,996		4,596	(1,906)	9,686
Total	\$ 105,395	\$ 8,431	\$ 6,370	\$ (2,135)	\$ 118,061

Table of Contents**ACCREDITED MORTGAGE LOAN REIT TRUST****NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)**

The following table summarizes delinquency amounts for mortgage loans and real estate owned before valuation allowance:

	At March 31, 2007		At December 31, 2006	
	Total Principal Amount (1)	Delinquent Principal Over 90 Days	Total Principal Amount (1)	Delinquent Principal Over 90 Days
Mortgage loans held for investment	\$ 7,518,075	\$ 315,320	\$ 7,466,508	\$ 271,375
Real estate owned	127,939	127,939	88,637	88,637
Total	\$ 7,646,014	\$ 443,259	\$ 7,555,145	\$ 360,012

(1) Loans acquired from Aames were recorded at fair value at purchase. The unpaid principal balances do not include these fair value adjustments.

4. DERIVATIVE FINANCIAL INSTRUMENTS***Fair Value Hedges***

AHL uses fair value accounting as defined by SFAS No. 133 for certain derivative financial instruments used to hedge its loans held for sale prior to being contributed to the REIT, and accordingly the basis of loans held for investment held by the REIT includes the fair value basis adjustment. Fair value adjustments to mortgage loan carrying amounts are detailed in Note 3.

Cash Flow Hedges

The REIT utilizes cash flow hedging and cash flow hedge accounting on the variable rate portion of its securitization debt in accordance with the provisions of SFAS No. 133. A total of \$3.4 million in net effective gains before taxes, included in other comprehensive income at March 31, 2007, is expected to be recognized in earnings during the next twelve months.

	Three Months Ended March 31,	
	2007	2006
Hedge ineffectiveness recorded in earnings, included as a component of interest expense in the consolidated statements of operations as of March 31:	\$ 5,277	\$ 522
Effective unrealized gains, net of effective unrealized losses, recorded in other comprehensive income, reported as a component of stockholders' equity as of March 31:	\$ (14,526)	\$ 24,746

The following table presents the fair value of the Company's derivative instruments, including margin account balances at:

	March 31, 2007		December 31, 2006	
	Notional amount	Fair value	Notional amount	Fair value
Eurodollar futures	\$	\$	\$ 3,758,974	\$ 4,970
Options on Eurodollar futures			630,342	2,803

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Interest rate swaps	5,267,221	9,859	1,951,392	(665)
Interest rate caps	1,113,044	1,586	880,717	7
	\$ 6,380,265	11,445	\$ 7,221,425	7,115
Margin account balances	N/A	684	N/A	28,408
Total		\$ 12,129		\$ 35,523

Table of Contents**ACCREDITED MORTGAGE LOAN REIT TRUST****NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)**

The fair value of derivative liabilities of \$9.2 million and \$29.1 million at March 31, 2007 and December 31, 2006, respectively, which are included in accrued expenses and other liabilities have been netted against the fair value of derivative assets shown in the table above. Notional swap amounts are not shown for securitizations in which we reverse the position of the swap embedded in the securitization trust; for these transactions the economic notional hedge amount and the net fair value of the derivatives is zero.

The change in the fair value of derivative financial instruments and the related hedged asset or liability recorded in the consolidated statements of operations for the three months ended March 31, 2007 and 2006 was as follows:

	Interest Income	Interest Expense (in thousands)	Total
Three Months Ended March 31,			
2007:			
Net unrealized gain	\$ 1,822	\$ 21,109	\$ 22,931
Net realized loss		(9,559)	(9,559)
Total	\$ 1,822	\$ 11,550	\$ 13,372
2006:			
Net unrealized gain (loss)	\$ 673	\$ (5,883)	\$ (5,210)
Net realized gain		13,278	13,278
Total	\$ 673	\$ 7,395	\$ 8,068

5. CREDIT FACILITIES

AHL and the REIT have entered into aggregate warehouse facilities to permit the securitization of mortgage loans. AHL is the primary obligor under these facilities until the loans are contributed to the REIT for securitization. The REIT then becomes the primary obligor until the loans are securitized, a period of 30 days or less. Each of the facility agreements has cross-default and cross-collateralization provisions and AHL provides a guarantee of the REIT's obligations under the facilities during the time that the REIT owns the mortgage loans.

At March 31, 2007 there were no balances outstanding under these facilities.

6. SECURITIZATION AND OTHER FINANCING

Securitization bond financing consisted of the following:

	March 31, 2007	December 31, 2006
	(in thousands)	
Securitized Bond Financing	\$ 7,376,711	\$ 7,281,480
Other borrowings	100,004	16,368
Total	7,476,715	7,297,848
Unamortized bond discounts	(13,171)	(8,639)

Total financing, net	\$ 7,463,544	\$ 7,289,209
----------------------	--------------	--------------

Table of Contents

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)

Securitized Bond Financing:

At March 31, 2007 securitized bond financing includes securitized bonds bearing interest at fixed rates (ranging from 2.90% to 5.68%) and at variable rates indexed to one-month LIBOR plus a spread (ranging from .04% to 2.75%) maturing through 2037. The bonds are collateralized by mortgage loans held for investment with an aggregate principal balance outstanding of \$7.5 billion at March 31, 2007 and at December 31, 2006. Unamortized debt issuance costs included in prepaid expenses and other assets were \$24.4 million and \$23.1 million at March 31, 2007 and December 31, 2006, respectively.

Amounts collected on the mortgage loans are remitted to the respective trustees, who in turn distribute such amounts each month to the bondholders, together with other amounts received related to the mortgage loans, net of fees payable to Accredited, the trustee and the insurer of the bonds. Any remaining funds after payment of fees and distribution of principal is known as excess interest.

The securitization agreements require that a certain level of overcollateralization be maintained for the bonds. A portion of the excess interest may be initially distributed as principal to the bondholders to increase the level of overcollateralization. Once a certain level of overcollateralization has been reached, excess interest is no longer distributed as principal to the bondholders, but, rather, is passed through to Accredited. Should the level of overcollateralization fall below a required level, excess interest will again be paid as principal to the bondholders until the required level has been reached. The securitization agreements also provide that if delinquencies or losses on the underlying mortgage loans exceed certain maximums, the required level of credit enhancement would be increased.

Due to the potential for prepayments of mortgage loans, the early distribution of principal to the bondholders and the optional clean-up call, the bonds are not necessarily expected to be outstanding through the stated maturity date set forth above.

Other Borrowings:

On March 30, 2007, the Company and certain of its subsidiaries entered into a secured five year term Loan Agreement with Mortgage Investment Fundings, L.L.C. (MIF), a lending entity managed by Farallon Capital Management. Pursuant to the Loan Agreement, MIF extended term loans guaranteed by the Company in an aggregate principal amount of \$230,000,000 (\$130 million with AHL and \$100 million with the REIT). In conjunction with the Loan Agreement, the Company (i) issued to MIF a warrant to purchase 3,226,431 shares of common stock of the Company at an exercise price of \$10 per share and (ii) granted to MIF certain preemptive rights to purchase additional equity securities of the Company, certain registration rights with respect to its equity securities in the Company and Board of Directors observer rights. The loans may be prepaid in full at any time, subject to payment of a premium of 7% of amounts prepaid during the first two years of the facility and a lesser premium thereafter. Upon the occurrence of a change of control, the lenders may demand prepayment of the loans and the loans shall be prepaid in full with a premium of 2% of the amount prepaid. At March 31, 2007 the balance outstanding in the REIT under this agreement was \$94.4 million which is net of the discount representing the fair value of the warrants at the time of issuance of \$5.6 million. The warrants are included in accrued expenses and other liabilities since Accredited may be required under certain circumstances to purchase the warrants from the holders pursuant to put rights. The warrants will be adjusted to estimated fair value at each reporting period.

Our credit facilities contain extensive restrictions and covenants including minimum profitability, interest coverage, liquidity, and net worth requirements and limitations on total indebtedness. If Accredited fails to comply with any of these covenants or otherwise defaults under a facility, the lender has the right to terminate the facility and require immediate payment which may require sale of the collateral at less than optimal terms. In addition, if Accredited defaults under one facility, it would generally trigger a default under the other facilities. From January 1 to September 5, 2007, several of the covenant requirements were amended or waived to allow Accredited to remain in compliance with all requirements. We anticipate requiring additional amendments to or waivers of these covenants during 2007, and there can be no assurance the lenders will so agree. In the event such amendments or waivers are required and Accredited is unable to obtain them, it could have a material and adverse impact on our ability to fund mortgage loans and continue as a going concern.

Table of Contents**ACCREDITED MORTGAGE LOAN REIT TRUST****NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)**

The following table summarizes the expected repayments relating to the securitization and other financing at March 31, 2007 and the securitized bonds are based on anticipated receipts of principal and interest on underlying mortgage loan collateral:

	(in thousands)
Nine months ending December 31, 2007	\$ 3,975,358
Year ending December 31:	
2008	1,170,377
2009	761,320
2010	474,996
2011	311,662
2012	308,639
Thereafter	474,363
Total	\$ 7,476,715

7. INCOME TAXES AND DISTRIBUTION OF EARNINGS

With the filing of its first Federal income tax return on September 9, 2005, the REIT elected to be treated as a real estate investment trust for income tax purposes in accordance with certain provisions of the Internal Revenue Code of 1986. As a result of this election, the REIT will generally not be subject to federal or state income tax to the extent that it distributes its earnings to its shareholders and maintains its qualification as a real estate investment trust. Currently the REIT plans to distribute substantially all of its taxable income to common and preferred shareholders.

The REIT adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, on January 1, 2007. As part of the implementation of FIN 48, the REIT evaluated its tax positions to identify and recognize any liabilities related to unrecognized tax benefits resulting from those positions that meet the provisions of FIN 48. As a result of this evaluation, the REIT determined that it did not have material liabilities.

The following is a reconciliation of the income tax provision computed using the statutory federal income tax rate to the income tax provision reflected in the statement of operations:

	Three Months Ended March 31, 2007	Three Months Ended March 31, 2006
	(in thousands)	
Federal income tax at statutory rate	\$ 9,377	\$ 14,263
Preferred stock dividends at statutory rate	(873)	(873)
Common stock dividends paid deduction and other	(8,504)	(13,390)
Total provision	\$	\$

8. ACCRUED EXPENSES AND OTHER LIABILITIES

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Accrued expenses and other liabilities were as follows at December 31:

	March 31, 2007	December 31, 2006
	(in thousands)	
Accrued interest	\$ 7,894	\$ 7,894
Derivative liabilities	9,247	29,141
Other liabilities general	17,481	17,977
Preferred stock dividend payable	2,495	2,495
Total	\$ 37,117	\$ 57,507

9. PREFERRED STOCK

The Board of Trustees, or a duly authorized committee thereof, may issue up to 200,000,000 shares of preferred stock from time to time in one or more classes or series. In addition, the Board of Trustees, or duly authorized committee thereof, may fix the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms and conditions of redemption.

Table of Contents

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)

9.75% Series A Perpetual Cumulative Preferred Shares

The Board of Trustees has classified and designated 4,093,678 preferred shares as Series A Preferred Shares. At March 31, 2007 and December 31, 2006, there were 4,093,678 preferred shares issued and outstanding.

On March 1, 2007, the REIT's board of trustees declared a quarterly cash dividend on the Preferred Shares at the rate of \$0.609375 per share to shareholders of record on March 15, which aggregated \$2.5 million for the three months ended March 31, 2007.

The Series A Preferred Shares contain covenants requiring the REIT to maintain a total shareholders' equity balance and total loans held for investment of at least \$50.0 million and \$2.0 billion, respectively, commencing on December 31, 2004 and at the end of each quarter thereafter. In addition, commencing with each of the four quarters ending December 31, 2006, the REIT is also required to maintain cumulative unencumbered cash flow (as defined in the agreement) greater than or equal to six times the cumulative preferred dividends required in those four quarters. If the REIT is not in compliance with any of these covenants, no dividends can be declared on the REIT's common shares until it is in compliance with all covenants as of the end of two successive quarters. As of March 31, 2007, the REIT was in compliance with the covenants applicable to date in 2007.

Accredited irrevocably and unconditionally agrees to pay in full to the holders of each share of the REIT's Series A Preferred Shares, as and when due, regardless of any defense, right of set-off or counterclaim which the REIT or Accredited may have or assert: (i) all accrued and unpaid dividends (whether or not declared) payable on the REIT's Series A Preferred Shares; (ii) the redemption price (including all accrued and unpaid dividends) payable with respect to any of the REIT's Series A Preferred Shares redeemed by the REIT and (iii) the liquidation preference, if any, payable with respect to any of the REIT's Series A Preferred Shares. Accredited's guarantee is subordinated in right of payment to Accredited's indebtedness, on parity with the most senior class of Accredited's preferred stock and senior to Accredited's common stock.

10. RECEIVABLE FROM PARENT AND ADMINISTRATION AND SERVICING AGREEMENT WITH PARENT

The REIT has an administration and servicing agreement with its parent company, AHL, whereby AHL provides loan servicing, treasury, accounting, tax and other administrative services for the REIT in exchange for a management fee equal to 0.5% per year on the outstanding principal balance of the loans serviced, plus miscellaneous fee income collected from mortgagors including late payment charges, assumption fees and similar items. Under this agreement, either party agrees to pay interest on the net average balance payable to the other party at an annual rate equal to the Six-Month LIBOR plus 1.0%. Management fee expense under this agreement totaled \$9.8 million and \$7.8 million for the three months ended March 31, 2007 and 2006, respectively. Interest income under this agreement totaled \$2.4 million and \$1.6 million for the three months ended March 31, 2007 and 2006, respectively. At March 31, 2007 and December 31, 2006, the net receivable from parent was \$200.5 million and \$112.4 million, respectively. The net receivable from parent results from advances of excess cash holdings by the REIT to AHL. We expect the net receivable will be reduced at the time the REIT pays common stock dividends to AHL. Pursuant to the right of offset under the agreement between the parties, the net receivable will accrue interest at an annual rate equal to the six-month LIBOR plus 1.0%.

	\$ (3,758)	\$ 8,594

12. COMMITMENTS AND CONTINGENCIES

In September 2007, we were named as a defendant under the consolidated, amended complaint in *Atlas v. Accredited Home Lenders Holding Co., et al.*, a class action pending in the United States District Court for the Southern District of California. The suit alleges violations of federal securities laws and originally named as defendants AHLHC and certain members of its senior management. Pursuant to the Private Securities Litigation Reform Act, five similar class actions were consolidated with the *Atlas* matter, and a lead plaintiff was selected. The consolidated, amended complaint was filed on August 24, 2007, and added as defendants the REIT and certain directors of AHLHC. However, as of September 17, 2007, we had not been served with the complaint. If we are served with the complaint, we intend to vigorously defend this matter. The ultimate outcome of this matter and the amount of liability, if any, which may result, is not presently determinable, but we do not believe it will have a material adverse effect on our business.

In July 2007, we, AHL and AHLHC were served with a complaint, *National Community Reinvestment Coalition (NCRC) v. Accredited Home Lenders Holding Company [sic], et al.*, brought in the United States District Court for the District of Columbia. The complaint alleges that we, AHL and AHLHC engaged in a practice of discriminating against African-American and Latinos by requiring minimum property values of \$100,000 on row homes for certain loan programs and prohibiting the use of row homes as collateral for certain other loan programs, without business justification for those restrictions. Plaintiff seeks compensatory and punitive damages, declaratory and injunctive relief, and recovery of attorneys' fees and costs of suit. There has been no ruling on the merits of plaintiff's claims. We, AHL and AHLHC intend to vigorously defend this action. The ultimate outcome of this matter and the amount of liability, if any, which may result is not presently determinable, but we do not believe it will have a material adverse effect on our business.

13. SUBSEQUENT EVENTS

On March 15, 2007, Accredited received a notice from the staff of NASDAQ stating that Accredited common stock may be subject to delisting because it had not filed its Annual Report on Form 10-K for the year ended December 31, 2006 on a timely basis. Accredited requested a hearing before the NASDAQ Listing Qualifications Panel (the Panel) to appeal the NASDAQ staff's determination and to present its plan to regain compliance with NASDAQ's filing requirements, which was held on May 3, 2007, followed by a written submission dated May 21, 2007. The hearing request automatically stayed the delisting of the common stock pending the Panel's review and decision. In addition, on May 15,

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

2007 and on August 14, 2007, Accredited received additional deficiency notices from the staff of NASDAQ stating that the failure to timely file with the SEC its Quarterly Report on Form 10-Q for the quarters ended March 31, 2007 and June 30, 2007, respectively could serve as an additional basis for the delisting of Accredited's securities from NASDAQ.

Table of Contents

ACCREDITED MORTGAGE LOAN REIT TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS (Continued)

On July 23, 2007 the Panel determined to continue listing Accredited's common stock provided that they filed with the SEC their 10-K by September 12, 2007 and their 10-Q for the first quarter of 2007 by September 18, 2007. The 10-K was filed with the SEC on August 2, 2007. The Panel has not yet responded to Accredited's August 17, 2007 request for additional time to file its 10-Q for the second quarter of 2007, but Accredited anticipates the Panel will not require such 10-Q to be filed before the September 18, 2007 deadline for the first quarter 10-Q.

If Accredited is unable to continue to list its common stock for trading on NASDAQ, there may be an adverse impact on the market price and liquidity of Accredited's common stock, and the stock may be subject to the penny stock rules contained in Section 15(g) of the Securities Exchange Act of 1934, as amended, and the rules promulgated thereunder. Delisting of Accredited's common stock from NASDAQ could also materially adversely affect its business, including, among other things: its ability to raise additional financing to fund its operations; its ability to attract and retain customers; and its ability to attract and retain personnel, including management personnel. In addition, if Accredited is unable to list its common stock for trading on NASDAQ, many institutional investors would no longer be able to retain their interests in and/or make further investments in Accredited common stock because of their internal rules and protocols.

In addition, by May 31, 2007, based upon market conditions adversely impacting the salability of any asset-backed commercial paper notes collateralized by non-prime mortgage loans, Accredited voluntarily terminated its asset-backed commercial paper program and repaid all amounts outstanding.

On June 4, 2007 Accredited entered into a definitive merger agreement with affiliates of Lone Star Fund V (U.S.), L.P. (Lone Star) to acquire all of Accredited's common stock in an all-cash transaction. Under the terms of the agreement, Lone Star agreed to acquire each outstanding share of Accredited's common stock at a price of \$15.10 per share, for a total consideration of approximately \$400 million on a fully diluted basis. Our outstanding Preferred Shares would be expected to remain outstanding following the consummation of the acquisition.

The merger agreement sets forth customary conditions to the closing of the tender offer, including the tender of a majority of the outstanding Accredited shares and the receipt of certain required regulatory approvals. Accredited believed that all conditions to the closing of the tender offer were satisfied at the offer's scheduled expiration at midnight, New York City time, on August 14, 2007. However, on August 10, 2007, Lone Star alleged in a filing made with the SEC that, in light of the drastic deterioration in the financial and operational condition of the Company, among other things, Lone Star believed the Company would fail to satisfy the conditions to the closing of the tender offer and, accordingly, that Lone Star did not expect to be accepting shares tendered as of the scheduled expiration of the tender offer. On August 11, 2007, Accredited filed a lawsuit against Lone Star in the Delaware Court of Chancery seeking specific performance of Lone Star's obligations to close the tender offer and complete the merger. A trial in the lawsuit is scheduled to begin on September 26, 2007.

In June and September 2007, we declared quarterly cash dividends on our Preferred Shares at the rate of \$0.609375 per share. The second quarter dividend was paid on July 2, 2007 to preferred shareholders of record at the close of business on June 15, 2007. The third quarter dividend is scheduled to be paid on October 1, 2007 to preferred shareholders of record at the close of business on September 14, 2007.

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be reviewed in conjunction with our consolidated financial statements and the related notes and other financial information appearing elsewhere in this report. In addition to historical information, the following discussion and other parts of this document contain forward-looking information that involves risks and uncertainties. Please refer to the section entitled "Forward-Looking Statements" on page 3 of this Form 10-Q. Our actual results could differ materially from those anticipated by such forward-looking information due to factors discussed under the section entitled "ITEM 1A. Risk Factors" and elsewhere in this report.

General

In response to the ongoing turmoil in the non-prime mortgage industry, beginning in September 2007, we restructured our operations by closing our retail lending operations, substantially reducing our wholesale lending operations, laying off approximately 60% of our workforce and substantially suspending U.S. mortgage loan originations. We do not intend to resume non-prime originations unless and until the return of market conditions under which non-prime mortgage loans can be originated and sold or securitized at a profit. We intend to continue and enhance our mortgage loan servicing operations, and we also intend to continue our Canadian mortgage origination operations, as long as financing and an acceptable secondary market remain available for our Canadian operations.

Prior to this restructuring, Accredited originated, financed, securitized, serviced and sold non-prime mortgage loans secured by residential real estate throughout the United States, and, to a lesser extent, in Canada. We conducted business in both the wholesale channel (funding loans to borrowers through independent mortgage brokers) and the retail channel (funding loans directly to borrowers). We focused on borrowers who did not meet conforming underwriting guidelines because of higher mortgage loan-to-value ratios, the nature or absence of income documentation, limited credit histories, high levels of consumer debt, or past credit difficulties. We primarily sold our mortgage loans in mortgage loan sales or we held our mortgage loans in portfolio for investment and financed them with securitized bond financing. If we resume U.S. mortgage loan originations, some or all of these operating activities will be part of the resumption, other than retail operations which we do not intend to resume in the foreseeable future.

Effective as of October 1, 2006, we acquired Aames Investment Corporation ("Aames") pursuant to an Agreement and Plan of Merger dated as of May 24, 2006. Aames, formerly a public REIT, managed a portfolio of nonprime residential mortgage loans and through its principal subsidiary originated, sold, and serviced residential mortgage loans through both wholesale and retail channels.

In July 2004, we formed Accredited Home Lenders Canada, Inc. ("AHLC"), as a wholly owned Canadian subsidiary and funded our first Canadian mortgage loan in November 2004. AHLC is a mortgage banking company that originates and finances mortgage loans for Canadian borrowers who are not normally eligible for traditional prime mortgages from the major Canadian banks. AHLC is currently originating mortgage loans in the provinces of Alberta, British Columbia, Manitoba, Ontario and Quebec and has current plans to expand beyond those five provinces.

In May 2004, we formed a Maryland real estate investment trust, Accredited Mortgage Loan REIT Trust (the "REIT"), for the purpose of acquiring, holding and managing real estate assets. All of the outstanding common shares of the REIT are held by Accredited Home Lenders, Inc., which in turn is a wholly owned subsidiary of Accredited Home Lenders Holding Co. The REIT has elected to be taxed as a real estate investment trust and to comply with the provisions of the Internal Revenue Code with respect thereto. Accordingly, the REIT will generally not be subject to federal or state income tax to the extent that it timely distributes its taxable income to its shareholders and satisfies the real estate investment trust requirements and meets certain asset, income and share ownership tests.

Lone Star acquisition of Accredited

On June 4, 2007 we entered into an Agreement and Plan of Merger with affiliates of Lone Star Fund V (U.S.) L.P. ("Lone Star") pursuant to which Lone Star agreed to acquire all of the common stock of the Company in an all-cash transaction. Under the terms of the agreement, Lone Star agreed to acquire each outstanding share of Accredited common stock at a price of \$15.10 per share, for a total consideration of approximately \$400 million on a fully diluted basis. We anticipate the outstanding 9.75% Series A Perpetual Cumulative Preferred Shares, par value \$1.00 per share (the "Series A Preferred"), of Accredited Mortgage Loan REIT Trust (NYSE:AHH-PA) will continue to remain outstanding.

On August 10, 2007, Lone Star stated in a filing made with the SEC that, in light of the drastic deterioration in the financial and operational condition of the Company, among other things, Lone Star believed the Company would fail to satisfy the conditions to the closing of the tender offer and, accordingly, that Lone Star did not expect to be accepting shares tendered as of the scheduled expiration of the tender offer at midnight, New York City time, on August 14, 2007.

Table of Contents

On August 11, 2007, we filed a lawsuit against Lone Star in the Delaware Court of Chancery seeking specific performance of Lone Star's obligations to close the tender offer and complete the merger. A trial in the lawsuit is scheduled to begin on September 26, 2007.

Recent Developments

Non-Prime Mortgage Market

In the third quarter of 2006, the non-prime mortgage market in which the Company operates was characterized by increased competition for loans and customers which simultaneously lowered profit margins on loans and caused lenders to be more aggressive in making loans to relatively less qualified customers. By the end of 2006, the non-prime mortgage industry was clearly being negatively impacted. The sustained pricing competition and higher risk portfolios of loans reduced the appetite for loans among whole loan buyers, who offered increasingly lower prices for loans, thereby shrinking profit margins for non-prime lenders. In addition, the higher levels of credit risk taken on by non-prime lenders resulted in higher rates of delinquency in the loans held for investment and in increasing frequency of early payment defaults and repurchase demands on loans that had been sold. These trends accelerated during the first quarter of 2007, and the industry experienced a period of turmoil which has continued into the second and third quarters of 2007. As of August 31 2007, more than 55 mortgage companies operating in the non-prime mortgage industry had failed and many others faced serious operating and financial challenges. The most notable of these failures is New Century Mortgage Corporation (New Century), one of the largest non-prime originators in recent years, which filed for bankruptcy protection in April 2007.

It now appears that an underlying reason for the deterioration of industry conditions was the relatively poor performance of loans originated in 2006 in comparison to loans originated in 2004 and 2005. While real estate markets were booming during 2004 and 2005, and some areas experienced significant home price appreciation, many originators extended credit and underwriting standards to meet market demands. When home price appreciation leveled off, or in some areas declined, many of the loans originated in 2006 did not perform up to expectations. This decline in performance led to increases in the cost of securitizing non-prime loans as the rating agencies which rate non-prime securitizations increased loss coverage levels, requiring higher credit support for non-prime securitizations.

2007 Mortgage Market Significant Events

During the first eight months of 2007, a number of significant industry events occurred, including the following:

New Century announced that it would restate results for the nine months ended September 30, 2006 to account for losses on defaulted loans that it was obligated to repurchase (February 7th);

HSBC Holdings PLC, one of the world's largest banks and non-prime lenders, announced an increase in its bad debt charge for 2006, which it attributed to problems in its U.S. non-prime mortgage lending division (February 8th);

Credit-Based Asset Servicing and Securitization LLC (C-BASS) and Fieldstone Investment Corporation (Fieldstone) announced that they had entered into a definitive merger agreement under which C-BASS would acquire all of Fieldstone's outstanding common stock (February 16th);

ACC Capital Holdings, the parent company of Ameriquest Mortgage Company and Argent Mortgage Company, two large non-prime mortgage originators, announced that it had secured additional capital from Citi's Markets and Banking Division and its majority shareholder, and that Citi had agreed to become the company's primary warehouse lender and had acquired an option to buy the company's wholesale mortgage business (February 28th);

Fremont General Corp. (Fremont), another significant non-prime mortgage originator, announced that it would exit its non-prime real estate lending operations and that it was in discussions with various parties regarding the sale of this business (March 2nd);

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

The New York Stock Exchange suspended trading of New Century's common stock based on uncertainties concerning its liquidity position (March 12th);

Fieldstone announced that it had amended its previously announced merger agreement with C-BASS to reduce the price of Fieldstone's common stock to \$4.00 per share (March 16th);

People's Choice Home Loan, Inc., another significant non-prime mortgage originator, filed for bankruptcy protection (March 20th);

Fremont sold approximately \$4.0 billion of non-prime residential real estate loans and entered into exclusive negotiations with the same institution to sell most of its residential real estate business (March 21st);

New Century filed for bankruptcy protection (April 2nd);

Table of Contents

NovaStar Financial, another significant non-prime mortgage originator, initiated a formal process to explore strategic alternatives and received \$100 million in financing (April 11th);

First Horizon National Corp. blamed difficulty selling mortgages in the secondary market and increased repurchase requests for its decision to shutter its subprime business (April 20th);

H&R Block Inc. announced the sale of Option One Mortgage Corp. (Option One), another large non-prime mortgage originator, to an affiliate of Cerberus Capital Management with a transaction value equal to Option One s tangible net assets as of the date of closing less \$300 million (April 20th);

WMC, a unit of General Electric Co., announced that it would cut 771 jobs (April 20th);

Standard & Poor s Ratings Service placed its credit ratings on 612 classes of residential mortgage-backed securities backed by U.S. non-prime collateral on credit watch with negative implications because of poor collateral performance, expectation of increasing losses on the underlying collateral pools, the consequent reduction of credit support, and changes that will be implemented with respect to the methodology for rating new transactions (July 10);

Moody s Investors Service downgraded 399 residential mortgage-backed securities and placed an additional 32 residential mortgage-backed securities under review for possible downgrade based on higher than anticipated rates of delinquency in the underlying collateral compared to current credit enhancement levels (July 10);

General Electric Co. announced plans to sell WMC Mortgage Corp, its three-year-old U.S. non-prime mortgage unit (July 12);

NovaStar Financial, Inc. announced an investment of \$48.8 million by MassMutual and Jefferies Capital Partners as part of a commitment to raise \$150 million in new equity to complete its formal process of exploring strategic alternatives (July 16);

Bear Stearns announced the collapse of two of its hedge funds that had invested in non-prime mortgage securities (July 18);

Countrywide Financial Corp. s second-quarter net income fell 33% because of softening home prices. Countrywide cut its 2007 earnings estimate because it expects a challenging second half, including difficulty in the housing and mortgage markets (July 24);

American Home Mortgage Investment Corp. announced a delayed payment of its quarterly cash dividend on the company s common stock and anticipated delaying payment of its quarterly cash dividends on its preferred stock in order to preserve liquidity until it obtains a better understanding of the impact that current market conditions in the mortgage industry and the broader credit market will have on the company s balance sheet and overall liquidity. American Home Mortgage said that the unprecedented disruption in the credit markets in the past few weeks caused major write-downs of its loan and security portfolios and consequently has caused significant margin calls with respect to its credit facilities (July 28);

MGIC Investment Corporation announced that it had concluded that the value of its investment in C-BASS had been materially impaired because the market for non-prime mortgages had experienced significant turmoil beginning in February 2007, with market dislocations accelerating to unprecedented levels beginning in approximately mid-July 2007 (July 30);

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

American Home Mortgage announced that it was unable to borrow on its credit facilities and to fund its lending obligations of approximately \$300 million on July 30 and that it did not anticipate funding approximately \$450 to \$500 million on July 31. (July 31);

American Home Mortgage filed for bankruptcy protection (August 6);

Aegis Mortgage suspends loan originations (August 6) and files for bankruptcy protection (August 10);

HomeBanc files for bankruptcy protection (August 10);

NovaStar Financial suspends wholesale originations (August 17) and sharply reduces retail originations (September 4);

Countrywide Financial Corp., facing unprecedented disruptions to its funding operations, tapped an \$11.5 billion credit line (August 16); Bank of America invests \$2 billion in Countrywide to prop up the country's largest mortgage banker (August 22);

Capital One shuts down its GreenPoint Mortgage subsidiary, cutting 1,900 jobs (August 20); and

Table of Contents

Lehman Brothers announced the closing of its subprime subsidiary, BNC Mortgage LLC (August 22).

The events outlined above chronicle the distress in the mortgage industry in 2007. One of the results of the contraction in the industry was a significant increase in the amount of distressed loans for sale in the market. This increase in loan supply and decrease in loan demand substantially reduced whole loan prices for most of 2007, providing a basis for warehouse line providers to mark down the collateral value of loans held in inventory and, as a result, to place margin calls on non-prime lenders. These increased margin calls resulted in more distressed sales which, in turn, put further downward pressure on whole loan sale prices, regenerating the cycle with escalating negative results.

2007 Mortgage Markets Response by Accredited***Strategic Restructurings***

We require substantial cash to fund our mortgage loan originations, to pay our mortgage loan origination expenses and to hold our mortgage loans pending sale or securitization. Also, as a servicer of mortgage loans, we are required to advance delinquent principal and interest payments, unpaid property taxes, hazard insurance premiums, and foreclosure and foreclosure-related costs. While we maintain warehouse and other credit facilities that provide substantial financing for our operations, we must originate mortgage loans and sell or securitize our mortgage loan originations at a profit in order to maintain our credit facilities and successfully fund our operations over time.

Due to the turbulence in the non-prime mortgage industry, we have not been able to sell or securitize at a profit most of the mortgage loans we have originated throughout 2007. Accordingly, beginning in September 2007, we restructured our operations by closing all retail lending operations, significantly reducing our wholesale lending operations, and substantially suspending all U.S. mortgage loan originations unless and until the return of market conditions under which non-prime mortgage loans can again be originated and sold or securitized at a profit. These actions resulted in the closing of 60 retail branch locations, five centralized retail support locations, five wholesale divisions, the settlement services division, and reduced the workforce by 1,600 employees to approximately 1,000 at September 14, 2007. The survival of our downsized operations will be primarily dependent upon income derived from our servicing operations, our residual interests in previously securitized loans and our Canadian mortgage loan originations. There can be no assurance that these sources of income will be sufficient to fund our downsized operations pending the return of market conditions under which mortgage loans can be originated and sold or securitized at a profit.

Funding and Liquidity Transactions

In February and March 2007, in response to the adverse operating environment and declining whole loan sale prices, our warehouse line creditors reduced their valuations of the mortgage loan collateral securing their warehouse financing to the Company and placed significant margin calls on the Company to post additional cash to cover the decrease. To alleviate the pressures from these margin calls, on March 16, 2007, the Company sold \$2.7 billion of loans held for sale at a substantial discount. This sale resulted in a pre-tax loss of \$150 million in the first quarter of 2007, but provided the Company with approximately \$134 million in cash after paying off credit providers. Management believes the sale of its loans at a discount was necessary to provide additional liquidity to the Company.

On March 30, 2007, the Company amended the Amended and Restated Master Repurchase Agreement, dated as of December 30, 2005, with Credit Suisse First Boston Mortgage Capital LLC (CSFB), and entered into a Master Repurchase Agreement with Wachovia Bank, N.A. (Wachovia). Under the amended agreement with CSFB, the term of the CSFB repurchase facility was extended through March 31, 2008 and the maximum committed amount able to be borrowed remained at \$600 million. Under the agreement with Wachovia, as amended on July 5, 2007 the maximum amount the Company is able to borrow is \$1 billion.

Also on March 30, 2007, the Company and certain of its subsidiaries entered into a secured Loan Agreement with Mortgage Investment Fundings, L.L.C. (MIF), a lending entity managed by Farallon Capital Management (the Farallon Loan). Pursuant to the Loan Agreement, MIF extended term loans guaranteed by the Company in an aggregate principal amount of \$230 million. In conjunction with the Loan Agreement, the Company (i) issued to MIF a warrant to purchase 3,226,431 shares of common stock of the Company at an exercise price of \$10 per share and (ii) granted to MIF certain preemptive rights to purchase additional equity securities of the Company, certain registration rights with respect to its equity securities in the Company and Board of Directors observer rights. The loans may be repaid in full at any time, subject to payment of a premium of 7% of amounts prepaid during the first two years of the facility and a lesser premium thereafter. Upon the occurrence of a change of control, the lenders may demand prepayment of the loans and the loans shall be repaid in full with a premium of 2% of the amount repaid.

Utilizing proceeds obtained from the sale of loans in March 2007 and proceeds from the Farallon Loan, the Company repaid substantially all the debt then outstanding on its warehouse credit facilities. Concurrent with the repayment of these facilities, the Company terminated many of the warehouse credit lines and obtained waivers or amendments with respect to certain covenants on the remaining facilities. In exchange for the waivers granted, Accredited agreed that it would not seek additional borrowings under these credit agreements. As of August 31, 2007, those non-funding facilities had also been terminated.

Table of Contents

In May 2007, due to market conditions adversely impacting the salability of any asset-backed commercial paper notes collateralized by non-prime mortgage loans, the Company terminated its \$2.5 billion asset-backed commercial paper facility and repaid the related short-term liquidity notes and subordinated notes.

During the quarter ended June 30, 2007, we sold over \$1 billion of mortgage loans in whole loan sale transactions at a premium above par.

On August 17, 2007, the Company entered into an agreement to trade \$1 billion of loans to be settled in a series of transactions over a 60-day period with a single investor at an advance rate comparable to the advance rates the Company was receiving from its warehouse lenders at the time. Under the agreement, the Company has the ability but not the obligation, to repurchase all of the loans at a premium to the advance rate. If the loans are not repurchased by the Company by mid-November 2007, the Company's right to repurchase the loans expires and the investor will keep the loans with limited recourse to the Company. The transaction neither produced nor used any significant liquidity at time of funding. The transaction will reduce the Company's exposure to margin calls on these loans since the agreement does not permit the investor to decrease the advance rate during the 90-day repurchase period.

Increased Repurchase Activity

We have seen delinquencies and defaults, including early payment defaults, increasing substantially in our 2006 mortgage originations as compared to prior mortgage originations. In 2007, these credit issues caused increases in loans repurchased from investors from prior whole loan sales and higher loss provisions on mortgage loans held in portfolio. In addition, the number of mortgage loans we have repurchased has increased as a result of our merger with Aames, since we assumed their repurchase obligations upon the closing of the merger. In late 2006 continuing into 2007, certain investors became more aggressive regarding the identification and pursuit of repurchase claims against the Company. During the seven months ended July 31, 2007, we repurchased approximately \$207 million in mortgage loans and paid \$67 million in cash settlements to resolve repurchase claims and, in some cases, eliminates the requirement to repurchase mortgage loans in the future from certain investors.

Other 2007 Events and Transactions

This Quarterly Report on Form 10-Q has not been filed on a timely basis

Our Annual Report on Form 10-K (10-K) for the year ended December 31, 2006 and this Quarterly Report on Form 10-Q were not filed with the Securities and Exchange Commission (SEC) on a timely basis, and our Quarterly Report on Form 10-Q for the three months ended June 30, 2007 is delinquent. These delinquencies have had adverse consequences to us, and may continue to have certain adverse consequences even after they have been filed, including, for example, making us ineligible to register our securities for sale with the SEC using a short-form registration.

NASDAQ Delisting Notification

On March 15, 2007, we received a notice from the staff of NASDAQ stating that our common stock may be subject to delisting because we had not filed with the Securities and Exchange Commissions (the SEC) our Annual Report on Form 10-K (10-K) for the year ended December 31, 2006 on a timely basis. We requested a hearing before the NASDAQ Listing Qualifications Panel (the Panel) to appeal the NASDAQ staff's determination and to present our plan to regain compliance with NASDAQ's filing requirements. The hearing request automatically stayed the delisting of the common stock pending the Panel's review and decision. In addition, on May 15, 2007 and on August 14, 2007, we received additional deficiency notices from the staff of NASDAQ stating that the failure to timely file with the SEC our Quarterly Report on Form 10-Q (10-Q) for the quarters ended March 31, 2007 and June 30, 2007, respectively, could serve as additional bases for the delisting of our common stock.

On July 23, 2007 the Panel determined to continue listing our common stock provided that we filed with the SEC our 10-K by September 12, 2007 and our 10-Q for the first quarter of 2007 by September 18, 2007. We filed our 10-K with the SEC on August 2, 2007. The Panel has not yet responded to our August 17, 2007 request for additional time to file our 10-Q for the second quarter of 2007, but we anticipate the Panel will not require such 10-Q to be filed before the September 18, 2007 deadline for the first quarter 10-Q.

In addition, for continued listing of our common stock on NASDAQ, we are required to, among other things, maintain certain minimum thresholds with regard to stockholders' equity and minimum closing bid prices. If we do not meet the continued listing requirements, our common stock could be subject to delisting from trading on NASDAQ. There can be no assurance that we will continue to meet all requirements for continued listing on NASDAQ.

Table of Contents

If we are unable to continue to list our common stock for trading on NASDAQ, there may be an adverse impact on the market price and liquidity of our common stock, and our stock may be subject to the penny stock rules contained in Section 15(g) of the Securities Exchange Act of 1934, as amended, and the rules promulgated there under. Delisting of our common stock from NASDAQ could also materially adversely affect our business, including, among other things: our ability to raise additional financing to fund our operations; our ability to attract and retain customers; and our ability to attract and retain personnel, including management personnel. In addition, if our common stock were no longer listed for trading on NASDAQ, many institutional investors would no longer be able to retain their interests in and/or make further investments in our common stock because of their internal rules and protocols.

Class Action Lawsuits

In 2007, several class action lawsuits were filed against the Company and certain of its officers and directors. Certain of the lawsuits generally allege that, between November 1, 2005 and March 12, 2007, we issued materially false and misleading statements regarding our business and financial results causing the Company's stock to trade at artificially inflated prices. Other complaints allege breaches of fiduciary duty by the Company and members of its Board of Directors in connection with the Company's entry into an Agreement and Plan of Merger with affiliates of Lone Star Fund V (U.S.) L.P. The Company believes that the lawsuits have no merit and intends to vigorously defend the cases. For additional information, see Note 14 to the Notes to Unaudited Consolidated Financial Statements.

Securitized \$760 million of non-prime loans

We closed a securitization transaction involving \$760 million of non-prime loans on January 30, 2007.

Issuance of Trust Preferred Securities

On January 11, 2007, we completed a \$56 million private placement of trust preferred securities through our subsidiary, Accredited Preferred Securities Trust I. The trust preferred securities bear interest at a fixed rate of 9.01% until January 30, 2012, whereupon the rate floats at three-month LIBOR plus 3.95% thereafter until their maturity in January 2037, unless earlier redeemed. The trust preferred securities can be redeemed in whole or in part by Accredited beginning January 30, 2012 without penalty.

Paid first and second quarter dividends, and declared third quarter dividend on the REIT Series A Preferred Stock

The Pricing Committee of the Board of Trustees of the REIT authorized, and the REIT declared in March, June and September of 2007, the quarterly cash dividend on the REIT Series A Preferred Stock at the rate of \$0.609375 per share. The first and second quarter dividends were paid on April 2 and July 2, 2007, respectively, to preferred shareholders of record at the close of business on March 15, 2007 and June 15, 2007, respectively. The third quarter dividend is scheduled to be paid on October 1, 2007 to preferred shareholders of record at the close of business on September 14, 2007.

Revenue Model

Our operations generate revenues in three ways:

Interest income. We have two primary components to our interest income. We generate interest income over the life of the mortgage loan on the loans we have securitized in structures that require financing treatment. This interest is partially offset by the interest we pay on the bonds that we issue to fund these mortgage loans. We also generate interest income on mortgage loans held for sale and for securitization from the time we originate the mortgage loan until the time we sell or securitize the mortgage loan. This interest income is partially offset by our borrowing costs under our warehouse credit facilities used to finance these mortgage loans.

Gain on sale of mortgage loans. We generate gain on sale of mortgage loans by selling the mortgage loans we originate for a premium. However, due to the turmoil in the non-prime mortgage market, most mortgage loans originated in 2007 have been sold at a loss or discount to par.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Mortgage loan servicing income. Our mortgage loan servicing income represents all contractual and ancillary servicing revenue for mortgage loans that Accredited services for others, net of servicing costs and amortization of mortgage servicing rights.

Our revenues also include:

Provisions for losses on mortgage loans held for investment (which reduce net interest income)

Valuation adjustments for mortgage loans held for sale

Provisions for losses on repurchases and premium recapture on mortgage loans sold (which reduce gain on sale premiums)

Table of Contents

Net gains or losses on derivatives on our mortgage loans held for sale, and derivatives on certain of our mortgage loans held for investment, which reflect changes in the value of these instruments based on market conditions

We generate a significant portion of our revenue and cash flows from net interest income on securitizations. Our securitization transactions are legally structured as sales, but for accounting purposes are structured as financings. Accordingly, the mortgage loans remain on our balance sheet, retained interests are not created, and debt securities issued in the securitization replace the warehouse debt originally associated with the securitized mortgage loans. We record interest income on the mortgage loans and interest expense on the debt securities, as well as recognize ancillary fees and provision for loan losses over the life of the securitization, instead of recognizing a gain or loss upon the closing of the securitization transactions. This portfolio-based accounting closely matches the recognition of income with the actual receipt of cash payments.

We anticipate that our results of operations will fluctuate on a quarterly and annual basis. The timing and degree of fluctuation will depend upon several factors, including the resumption of our mortgage loan originations, competition, economic slowdowns and increased interest rates, in addition to those discussed under Risk Factors.

Results of Operations

Three Months Ended March 31, 2007 Compared to the Three Months Ended March 31, 2006

Executive Summary

We recorded a net loss of \$260.2 million for the three months ended March 31, 2007, or \$10.29 per diluted share, compared to net income of \$35.8 million, or \$1.61 per diluted share for the three months ended March 31, 2006. This net loss was the result of the following:

Mortgage loan origination volume dropped 47%, from \$3.6 billion for the three months ended March 31, 2006 to \$1.9 billion for the same period in 2007. Production was negatively impacted by extreme secondary market conditions and continued restrictions of our product menu and underwriting guidelines.

In March 2007, we sold \$2.7 billion of loans held for sale at a substantial discount in order to alleviate the cash demands from warehouse lender margin calls. The sale of these loans resulted in a pre-tax loss of \$150 million, but provided the Company with approximately \$134 million in cash after paying off the credit providers.

Net interest income before provision for loan losses declined by \$23.9 million or 29.0%, from \$82.3 million for the three months ended March 31, 2006 to \$58.4 million for the same period in 2007, due to a reduction in loans held for sale inventory, higher levels of non-performing loans and an increasing cost of funds.

The provision for market valuation losses on loans held for sale increased \$29.7 million, from a net recovery of (\$0.7) million for the three months ended March 31, 2006 to a provision of \$29.0 million for the same period in 2007. This increase was driven by increasing delinquencies on loans held for sale, which reduced gain on sale premiums.

Repurchase loan activity increased significantly in 2007. This resulted in an increase in the provision for losses on repurchases of \$21.0, from \$1.0 million for the three months ended March 31, 2006 to \$22.0 million for the same period in 2007.

Operating expenses increased \$34.8 million or 44.2%, from \$78.7 million for the three months ended March 31, 2006 to \$113.5 million for the same period in 2007, primarily due to additional personnel and occupancy expenses from the Aames operation acquired in the fourth quarter of 2006.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

The provision for income taxes was \$9.6 million for the three months ended March 31, 2007 and was attributable to profits from our Canadian operations and minimum federal and state income taxes, as we could not record a tax benefit resulting from the operating loss due to limitations on net operating loss carryforwards.

Net cost to originate, a key measure of our efficiency in originating mortgage loans, increased significantly from 1.60% for the three months ended March 31, 2006 to 3.94% for the same period in 2007 as operating expenses increased 44% and production declined 47% in the first quarter of 2007.

Table of Contents**Net Revenues**

Net revenues and key indicators that affect our net revenues are as follows for the three months ended March 31:

	2007	2006 (dollars in thousands)	Change	% Change
Interest income (1)	\$ 195,260	\$ 194,458	\$ 802	0.4%
Interest expense (2)	(136,876)	(112,136)	(24,740)	22.1%
Net interest income	58,384	82,322	(23,938)	(29.1)%
Provision for losses	(25,324)	(16,537)	(8,787)	53.1%
Net interest income after provision	33,060	65,785	(32,725)	(49.7)%
Gain (loss) on sale of mortgage loans	(178,878)	70,552	(249,430)	(353.5)%
Mortgage loan servicing income	2,908	3,407	(499)	(14.6)%
Other income	8,345	1,950	6,395	327.9%
Total net revenues	\$ (134,565)	\$ 141,694	\$ (276,259)	(195.0)%
Mortgage loan originations	\$ 1,881,961	\$ 3,587,541	\$ (1,705,580)	(47.5)%
Mortgage loan sales	\$ 3,626,584	\$ 3,040,534	\$ 586,050	19.3%
Mortgage loans securitized	\$ 755,523	\$ 1,003,751	\$ (248,228)	(24.7)%
Average inventory of mortgage loans	\$ 10,593,164	\$ 9,887,015	\$ 706,149	7.1%
Annualized interest income as a percentage of average inventory of mortgage loans	7.37%	7.87%		
Average outstanding borrowings	\$ 10,190,223	\$ 9,485,568	\$ 704,655	7.4%

(1) Interest income includes prepayment penalty income and gains and losses from certain hedging activities.

(2) Interest expense includes gains and losses from hedging activities and amortization of debt issuance costs.

Interest Spread on Mortgage Loans Held for Sale

Interest income on mortgage loans held for sale decreased \$30.3 million or 40.8%, from \$74.3 million for the three months ended March 31, 2006 to \$44.0 million for the same period in 2007. This was reflective of a 110 basis point decrease in the average interest rate on mortgage loans held for sale during 2007, from 8.15% in 2006 to 7.05% in 2007 and a \$1.1 billion decrease in the average portfolio of loans held for sale from \$3.6 billion in 2006 to \$2.5 billion in 2007. Due to increased competition in 2006, we dropped the interest rates charged on new loans to borrowers by 52 basis points from the first quarter of 2006 to the first quarter of 2007, and the yield was further reduced 58 basis points due to increases in non-performing loans, resulting in a net decrease in the average rate of 110 basis points. The average balance of non-performing mortgage loans held for sale increased from \$43 million in the first quarter of 2006 to \$219 million in the first quarter of 2007 as the rate of delinquencies and the level of repurchased loans increased. The \$1.1 billion decrease in the average portfolio of loans held for sale was the result of the 47% decline in mortgage loan production from the first quarter of 2006 to the first quarter of 2007 and the sale of substantially all (\$2.7 billion) of our loans held for sale inventory on March 16, 2007.

Interest expense on mortgage loans held for sale decreased \$10.8 million or 25.6% from \$42.2 million for the three months ended March 31, 2006 to \$31.4 million for the same period in 2007. This decrease in interest expense resulted from a 47 basis point increase in our cost of funds rate, from 5.18% in 2006 to 5.65% in 2006 offset by a \$1.1 billion decrease in our average warehouse borrowings, including the ABCP facility, from \$3.3 billion in 2006 to \$2.2 billion in 2007. While the average One Month LIBOR rate the base cost of funds index on our warehouse credit facilities increased 71 basis points from the first quarter of 2006 (4.61%) to the first quarter of 2007 (5.32%), our cost of funds only increased 47 basis points, as we were successful in lowering the spread over LIBOR charged by our warehouse lenders and used the lower rate ABCP facility to finance a larger portion of the mortgage loans held for sale portfolio in 2007 compared to 2006. The amortization of commitment fees paid to warehouse lenders increased \$1.8 million in 2007 due to our termination of certain warehouse agreements, and at 62 basis points of our average warehouse borrowings, represented an increase of 42 basis points over the 20 basis point rate in 2006.

For the three months ended March 31, 2007, the resulting interest spread on our portfolio of mortgage loans held for sale declined \$21.3 million or 199 basis points, from 2.77% in 2006 to 0.78% in 2007, as interest expense, including commitment fees, decreased \$9.0 million or 89 basis

points and interest income decreased by \$30.3 million or 110 basis points.

Table of Contents***Interest Spread on Mortgage Loans Held for Investment***

Interest income on mortgage loans held for investment increased \$30.5 million or 28.1%, from \$108.4 million for the three months ended March 31, 2006 to \$138.9 million for the same period in 2007. This increase was primarily the result of a \$1.9 billion or 29.8% increase in the average portfolio of loans held for investment (including \$1.2 billion from Aames) from \$6.2 billion in 2006 to \$8.1 billion in 2007, as we continued to execute our securitization program and added securitized loans acquired from Aames. The interest rates on loans held for investment decreased slightly, from 6.95% in 2006 to 6.86% in 2007. Prepayment penalty fees received and other income was \$12.4 million in 2007 consistent with \$11.8 million in 2006, although the yield rate declined slightly, from 75 basis points in 2006 to 61 basis points in 2007. The \$1.9 billion increase in the average portfolio of loans held for investment was caused by the addition of \$2.2 billion in securitized loans during the twelve months ended March 31, 2007 and the \$1.2 billion in securitized loans acquired from Aames held during the first quarter of 2007, less normal portfolio run-off due to principal repayments.

Interest expense on mortgage loans held for investment increased \$37.2 million or 51.2% from \$72.7 million for the three months ended March 31, 2006 to \$109.9 million for the same period in 2007. This increase in interest expense was primarily the result of the \$1.8 billion or 28.5% increase in our average securitized bond financing (including \$1.2 billion from Aames), from \$6.2 billion in 2006 to \$8.0 billion in 2007 plus an 82 basis points increase in our cost of funds rate, from 4.70% in 2006 to 5.52% in 2007 less a 19 basis point (\$5.0 million) increase in hedging gains (that served to lower the effective cost of funds rate). The 82 basis point rate increase in our cost of funds was caused by the increase in the average One Month LIBOR rate. The \$1.8 billion increase in the average securitized bond financing was the result of the addition of \$2.2 billion in securitized bonds during the twelve months ended March 31, 2007 and the \$1.2 billion in securitized bonds acquired from Aames and held during the first quarter of 2007, less normal bond amortization.

For the three months ended March 31, 2007, the resulting interest spread on our mortgage loans held for investment portfolio declined slightly to \$50.8 million, although the interest margin declined 86 basis points, from 3.28% in 2006 to 2.42% in 2007, as the average portfolio of loans held for investment increased by \$1.9 billion.

Interest expense on other term debt was \$1.5 million for the three months ended March 31, 2007 and represented interest on (1) the \$56 million in trust preferred securities (from issuance on January 11, 2007), (2) the \$230 million Farallon loan (from issuance on March 30, 2007) and (3) the revolving balances outstanding during the quarter on the senior credit facility secured by mortgage servicing rights and servicing advances.

The components of our net interest income were as follows for the three months ended March 31:

	2007			2006		
	Interest	Average		Interest	Average	
	Income	Balance	Average	Income	Balance	Average
	(Expense)	Outstanding	Rate	(Expense)	Outstanding	Rate
(dollars in thousands)						
Mortgage loans held for sale (1):						
Interest income	\$ 43,956	\$ 2,492,238	7.05%	\$ 74,305	\$ 3,644,869	8.15%
Interest expense	(31,370)	2,220,950	(5.65)	(42,152)	3,282,474	(5.18)
Commitment fee expense	(3,434)		(0.62)	(1,682)		(0.20)
Spread	9,152		0.78	30,471		2.77
Mortgage loans held for investment:						
Interest income	138,863	8,100,927	6.86	108,389	6,242,146	6.95

(1) Includes mortgage loans held for sale and mortgage loans held for securitization.

Table of Contents

Provisions and Reserves for Losses

We make provisions for losses on our portfolio of mortgage loans held for investment based upon our estimate of expected losses resulting from loans in various stages of delinquency, calculated using assumptions of loss frequency and loss severity.

We make market valuation provisions (*LOCOM*) for classes of loans within our portfolio of mortgage loans held for sale that are current, delinquent, aged or have documentation exceptions, when the current prices in the secondary market for loans with these characteristics are lower than our cost.

Certain mortgage loan sale contracts include provisions requiring Accredited to repurchase a mortgage loan if a borrower fails to make one or more of the first mortgage loan payments due on the loan an early payment default. In addition, an investor may request that Accredited refund a portion of the premium paid on the sale of mortgage loans if a mortgage loan is prepaid in full within a certain amount of time from the date of sale. We estimate provisions for repurchase losses on mortgage loans sold in the secondary market based upon our estimate of the expected frequency of repurchase claims and a loss severity rate assumption.

The assumptions used in estimating losses are updated periodically based on our actual experience as well as current market trends.

The total provision for losses detailed below increased \$59.7 million or 314.5%, from \$19.0 million for the three months ended March 31, 2006 to \$78.7 million for the same period in 2007. This provision increase was driven by increasing delinquencies in our mortgage loan portfolio, declining prices for delinquent loans in the secondary market and an increase in the level of repurchase claims. Loans more than 30 days delinquent (excluding mortgage loans acquired from Aames) increased steadily from 2.84% at March 31, 2006 to 7.68% at March 31, 2007. The primary reasons for the increase in 30+ day delinquencies were the aging of the portfolio, higher delinquencies from the late 2005 and 2006 securitizations and additional delinquencies from repurchased loans.

The combined provisions for mortgage loans held for investment and real estate owned (*REO*) increased \$8.8 million or 53.1%, from \$16.5 million for the three months ended March 31, 2006 to \$25.3 million for the same period in 2007. The combined provision increased due to the higher volume of delinquencies and a \$156.0 million increase in REO from \$34.3 million at March 31, 2006 to \$190.3 million at March 31, 2007.

The provision for *LOCOM* on loans held for sale increased \$29.7 million, from a net recovery of (\$.7) million for the three months ended March 31, 2006 to \$29.0 million for the same period in 2007, and represented the largest portion of the increase in the total provision for losses. This provision increase was the result of increasing delinquencies in loans originated and repurchased, coupled with a sharp decline in secondary market prices for first and second lien non-prime mortgage loans. The secondary market investors were especially punitive on second-lien non-prime mortgage loans and first lien non-prime mortgage loans with low credit scores, high loan-to-value ratios and stated income documentation in 2007. In response to these market factors, we continued to change our credit guidelines during the first quarter of 2007 and reduce our menu of loan programs to restrict the number of loans we originated with these characteristics, including first and second lien combo loans.

The provision for repurchase losses increased \$21.0 million, from \$1.0 million for the three months ended March 31, 2006, to \$22.0 million for the same period in 2007. In late 2006 continuing into the first quarter of 2007, certain investors became more aggressive regarding the identification and pursuit of repurchase claims against the Company. During the three months ended March 31, 2007, we repurchased approximately \$87.6 million in mortgage loans and paid \$59.4 million in cash settlements to resolve repurchase claims and, in some cases, eliminate the requirement to repurchase mortgage loans in the future from certain investors both of these actions reduced the repurchase reserve during the first quarter of 2007. At March 31, 2007, we had \$135.6 million in qualified repurchase claims and a reserve for losses on repurchase claims of \$57.9 million.

The total reserves for losses outlined below decreased \$61.2 million, from \$326.0 million at December 31, 2006 to \$264.8 million at March 31, 2007. In addition, the key ratio of loss reserves on mortgage loans held for investment to principal balance outstanding on mortgage loans held for investment increased from 1.84% at December 31, 2006 to 2.04% at March 31, 2007.

Table of Contents

The total provision for losses and their related reserve balances were comprised of the following:

	2007	2006 (dollars in thousands)	Change	% Change
Provision for losses for the three months ended March 31:				
Mortgage loans held for investment (1)	\$ 442	\$ 9,923	\$ (9,481)	(95.5)%

Premium recapture (5)	3,903	4,798	(895)	(18.7)%
Total reserves for losses	\$ 264,838	\$ 326,047	\$ (61,209)	(18.8)%
Principal balance at period end (1):				
Mortgage loans held for investment	\$ 6,686,048	\$ 7,503,245	\$ (817,197)	(10.9)%

Reserve balance as a percentage of mortgage loans held for investment (6) 2.04% 1.84%

- (1) The provision for losses on mortgage loans held for investment in 2007 excludes the provision for losses on Aames mortgage loans due to the effect of purchase accounting. The reserve for losses on mortgage loans held for investment and principal balance of mortgage loans held for investment at March 31, 2007 also exclude any Aames related balances for consistency in presentation within this table.
- (2) Reserve for losses on mortgage loans held for investment is included in mortgage loans held for investment on the consolidated balance sheets.
- (3) Reserve for losses on real estate owned is included in real estate owned on the consolidated balance sheets.
- (4) Reserve for LOCOM valuation losses are included in loans held for sale on the consolidated balance sheets.
- (5) Reserves for repurchases and premium recapture are included in accrued expenses and other liabilities on the consolidated balance sheets.
- (6) The reserve balance percentages for mortgage loans held for investment are calculated by dividing the reserve for losses on mortgage loans held for investment by the principal balance of mortgage loans held for investment

Gain (Loss) on Sale of Mortgage Loans

We recorded a gross loss on sale of mortgage loans of \$147.2 million (\$159.5 million after derivative losses) on loan sales of \$3.6 billion for the three months ended March 31, 2007 compared to a gross gain on sale of mortgage loans of \$63.9 million (\$67.9 million after derivative gains) on loan sales of \$3.0 billion for the same period in 2006. These results translate into loans sold at a 4.40% discount to par (95.60% sell price) for the \$3.6 billion in loans sold during the three months ended March 31, 2007 compared to loans sold at a 2.23% premium to par (102.23% sell price) during the same period in 2006. This significant change in the sale prices on our whole loan sales resulted from the following factors:

Intense competition for non-prime borrowers compressed the interest rate spread on our 2007 originations, which reduced the relative value of the mortgage loans to secondary market investors.

Table of Contents

The steady increase in delinquency and default rates on non-prime loans coupled with the decline in home price appreciation and declining home prices in many of the markets we serve reduced the premiums investors were willing to pay for non-prime mortgage loans.

In March 2007, we sold \$2.7 billion of loans held for sale at a substantial discount in order to alleviate the cash demands from warehouse lender margin calls. The sale of these loans resulted in a pre-tax loss of \$150 million, but provided the Company with approximately \$134 million in cash after paying off the credit providers.

The net loss on mortgage loan sales (after derivative losses) of \$159.5 million in 2007 was further increased by provisions for market valuation of \$29.0 million and provisions for repurchases and premium recapture of \$24.4 million. Each of these provisions were significantly higher in 2007 than during the comparable period in 2006 as outlined in the previous section Provisions and Reserves for Losses. The \$26.5 million increase in net origination points and fees in 2007, which offset a portion of the increased provision expenses, was due to reduced yield spread premium fees paid to brokers and increased fees collected from borrowers, due in large part, to the increase in retail loan originations.

The components of the gain (loss) on sale of mortgage loans were as follows for the three months ended March 31:

	2007	2006 (1)	Change	% Change
	(dollars in thousands)			
Gross gain (loss) on mortgage loan sales	\$ (147,173)	\$ 63,858	\$ (211,031)	(330.5)%
Net gain (loss) on derivatives	(12,292)	4,004	(16,296)	(407.0)%
Net gain (loss) on sale of mortgage loans	(159,465)	67,862	(227,327)	(335.0)%
Provision for market valuation LOCOM	(29,017)	696	(29,713)	4269.1%
Provision for loss on repurchases and premium recapture	(24,394)	(3,153)	(21,241)	673.7%
Net origination points and fees recognized on sale	45,003	18,538	26,465	142.8%
Direct mortgage loan origination expenses	(11,005)	(13,391)	2,386	(17.8)%
Total net gain (loss) on sale of mortgage loans (2)	\$ (178,878)	\$ 70,552	\$ (249,430)	(353.5)%
Whole loan sales (2)	\$ 3,626,584	\$ 3,040,534	\$ 586,050	19.3%
Gain (loss) on sale rates (3):				
Gross gain (loss) on mortgage loan sales	(4.06)%	2.10%		
Net gain (loss) on derivatives	(0.34)%	0.13%		
Net gain (loss) on sale of mortgage loans	(4.40)%	2.23%		

(1) Reclassified to conform to 2007 presentation.

(2) In accordance with purchase accounting requirements, mortgage loans acquired from Aames were recorded at fair market value, therefore no significant gains or losses were recognized on the sale of mortgage loans acquired from Aames.

(3) Gain on sale rates are calculated based on the respective amounts divided by whole loan sales, excluding Aames whole loan sales.

Operating Expenses

Operating expenses were as follows for the three months ended March 31:

	2007	2006	Change	% Change
	(dollars in thousands)			
Salaries, wages and benefits	\$ 64,612	\$ 47,526	\$ 17,086	36.0%
General and administrative	21,127	15,154	5,973	39.4%
Occupancy	15,234	6,398	8,836	138.1%

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Advertising and promotion	7,834	5,154	2,680	52.0%
Depreciation and amortization	4,690	4,427	263	5.9%
Total operating expenses	\$ 113,497	\$ 78,659	\$ 34,838	44.3%
Total serviced loans at period end	\$ 9,142,212	\$ 9,604,050	\$ (461,838)	(4.8)%
Total number of employees at period end	2,920	2,626	294	11.2%

Table of Contents

Salaries, Wages and Benefits. Salaries, wages and benefits increased \$17.1 million or 36.0% during the three months ended March 31, 2007 due to the growth in headcount resulting from the merger with Aames. Average headcount was 2,680 during the first quarter of 2006 compared to 3,469 during the first quarter of 2007. Headcount declined steadily during the first quarter of 2007 as a result of several factors: (1) elimination of transition staff related to the Aames acquisition, (2) loss of staff across all departments due to attrition and (3) our election to close poor performing branch offices. These actions reduced headcount from 4,196 employees at January 1, 2007 to 2,920 employees at March 31, 2007.

General and Administrative. General and administrative expenses increased \$6.0 million or 39.4% during the three months ended March 31, 2007 due to increases in legal fees and related expenses, outsourced loan operations expenses and technology related expenses.

Occupancy. Occupancy expenses increased \$8.8 million or 138.1% during the first quarter of 2007 primarily due to increased leasing costs associated with the additional Aames locations acquired in the merger. In addition, we recorded a \$3.5 million expense in the first quarter of 2007 to record the acceleration of the lease obligations associated with the closure of several poor performing branches.

Advertising and Promotion. Advertising and promotion expenses increased \$2.7 million or 52.0% for the three months ended March 31, 2007 driven by an increase in spending on referrals and leads to support our retail mortgage origination platform.

Depreciation and Amortization. Depreciation and amortization remained essentially flat at \$4.7 in the first quarter of 2007 compared to the first quarter of 2006.

Net Cost to Originate

We monitor our net cost to originate mortgage loans, as we believe that it provides a measurement of efficiency in our mortgage loan origination process. The calculation of this net cost to originate was as follows for the three months ended March 31:

	2007	2006	% Change
	(dollars in thousands)		
Total operating expenses	\$ 113,497	\$ 78,659	44.3%
Add: Deferred direct mortgage loan origination expenses (1)	3,677	12,798	(71.3)%
Less: Servicing cost (2)	(14,773)	(6,947)	112.7%
Mortgage loan origination expenses	102,401	84,510	21.2%
Less: Net origination points and fees collected (3)	(28,234)	(27,206)	3.8%
Net cost to originate	\$ 74,167	\$ 57,304	29.4%
Total mortgage loan originations	\$ 1,881,961	\$ 3,587,541	(47.5)%
Net cost to originate as percentage of volume	3.94%	1.60%	

(1) Represents the amount of direct expenses incurred and deferred in the period in accordance with SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases*.

(2) Servicing cost consists of direct expenses and allocated corporate overhead of the servicing division.

(3) Total net origination points and fees represent amounts received from borrowers during the period less amounts paid to brokers, on all mortgage loans originated during the period.

Income Taxes

The provision for income taxes was \$9.6 million for the three months ended March 31, 2007 and was attributable to profits from our Canadian operations and minimum federal and state income taxes, as we could not record a tax benefit resulting from the operating loss due to limitations on net operating loss carryforwards.

As of December 31, 2006, we had net operating loss carry-forwards for tax purposes of approximately \$75 million and \$9 million for federal and state tax purposes respectively, which have been classified as a deferred tax asset. The net operating loss carry-forwards are attributable to the Aames transaction which occurred in 2006. Utilization of the net operating loss carry-forwards acquired in the Aames transaction are subject to

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

federal and state income tax rules that limit the utilization due to the occurrence of an ownership change under IRC Section 382. The amount of deferred tax asset recorded for these net operating loss carryforwards has considered any existing limitations on their utilization under Section 382. Note

Table of Contents

that it is possible that additional limitations on the utilization of these losses could be incurred if additional ownership changes were to occur. If not used, these carry-forwards will expire in varying amounts during fiscal years 2017 through 2025.

As a result of losses incurred by the Company in the fourth quarter of 2006 as well as continued losses in 2007, the availability of future taxable earnings to fully utilize net operating loss carry-forwards obtained in the Aames acquisition is uncertain. Consequently, a valuation allowance of \$112.1 million was established and reflected in the year ended December 31, 2006 against the net deferred tax assets of \$232.7 million as of December 31, 2006. The deferred tax asset of \$120.8 million at March 31, 2007 represents federal and state income taxes paid in prior years.

REIT Operating Results

Net revenues for the REIT were \$36.1 million for the three months ended March 31, 2007, resulting primarily from net interest income after provision for losses from securitizations. The REIT incurred expenses of \$10.1 million for the same period related to servicing and management fees charged by AHL in accordance with an administration and servicing agreement between the two parties. The REIT recorded net income of \$26.0 million for the three months ended March 31, 2007.

Liquidity and Capital Resources

As a mortgage banking company, our cash requirements include the funding of mortgage loan originations, repurchases of previously sold mortgage loans, interest expense on and repayment of principal on credit facilities and securitization bond financing, including posting additional cash collateral as required under margin provisions of various warehouse credit requirements, operational expenses, servicing advances, hedging margin requirements, and tax payments. Our cash requirements also included the funding of quarterly dividends on preferred shares issued by our REIT subsidiary. We fund these cash requirements with cash received from mortgage loan sales, borrowings under warehouse credit facilities and asset backed commercial paper and securitization and other financing secured by mortgage loans and related assets, cash distributions from our mortgage-related securities, interest collections on mortgage loans held for sale and mortgage loans held for investment, servicing assets, servicing fees and other servicing income, and points and fees collected from the origination of mortgage loans.

Warehouse Facilities

We use our various warehouse credit facilities to finance the funding of our loan originations. We sell or securitize our mortgage loans generally within one to four months from origination and use the proceeds primarily to pay down the warehouse credit facilities. The majority of our current warehouse credit facilities also contain a sub-limit for wet funding, which is the funding of loans for which the collateral custodian has not yet received the related loan documents.

Except as otherwise noted below, all of our warehouse credit facilities accrued interest at a rate based upon One-Month LIBOR plus a specified spread and as of March 31, 2007 had other material terms and features as follows:

	Outstanding	Facility
	Amount	Amount
	(in thousands)	
Wachovia Bank, LLC expiring March 2008	\$	\$ 500,000
Credit Suisse First Boston Mortgage Capital LLC expiring March 2008(1)	212,927	600,000
Morgan Stanley Mortgage Capital Inc. expired July 2007	43,886	650,000
Residential Funding Company, LLC terminated April 2007	40,701	300,000
IXIS Real Estate Capital Inc. expired August 2007	18,843	600,000
Merrill Lynch Canada Capital Inc. expired June 2007(2)	33,837	171,400
Total credit facilities	\$ 350,194	\$ 2,821,400

(1) Interest at overnight LIBOR plus a specified spread.

(2) Interest at one-month Bankers Acceptance rate plus a spread.

Table of Contents

One or more of our credit facilities include sublimits for aged and delinquent loans, as well as for real estate owned (properties acquired through foreclosure of defaulted mortgage loans or through deeds in lieu of foreclosure) and subordinated asset-backed bonds.

Our warehouse and other credit facilities contain customary covenants including maximum leverage, minimum liquidity, profitability and net worth requirements, and limitations on other indebtedness. If we fail to comply with any of these covenants or otherwise default under a facility, the lender has the right to terminate the facility and require immediate repayment that may require sale of the collateral at less than optimal terms. In addition, if we default under one facility, it would generally trigger a default under our other facilities. As of March 31, 2007, we were in compliance with all covenant requirements for each of the facilities.

In 2007, the Company sold substantial amounts of its loans held for sale and obtained the \$230 million Farallon Loan providing cash and liquidity which was used to repay many of the Company's then-existing warehouse facilities, after which such facilities were terminated. Specifically, through July 31, 2007, the Company repaid and terminated the warehouse facilities with Lehman Brothers Bank, FSB, Residential Funding Company, LLC, Goldman Sachs Mortgage Company and Merrill Lynch Bank USA. Additionally, in August 2007, the Company has repaid all amounts outstanding under, and terminated, the facilities provided by Morgan Stanley Bank and Morgan Stanley Mortgage Capital Inc., by IXIS Real Estate Capital Inc. (formerly known as CDC Mortgage Capital Inc.) and by Merrill Lynch Canada Capital Inc. The Company, on March 30, 2007, amended the Amended and Restated Master Repurchase Agreement, dated as of December 30, 2005, with Credit Suisse First Boston Mortgage Capital LLC (CSFB), and entered into a Master Repurchase Agreement with Wachovia Bank, N.A. (Wachovia). Under the amended agreement with CSFB, the term of the CSFB repurchase facility was extended through March 31, 2008 and the maximum committed amount able to be borrowed remained at \$600 million. Under the agreement with Wachovia (which was amended on May 1, 2007 and on July 5, 2007), the maximum amount the Company is able to borrow is \$1 billion.

On September 4, 2007, the Company entered into an amendment to the Master Repurchase Agreement with Wachovia and on September 5, 2007 entered in an amendment to the Amended and Restated Master Repurchase Agreement with CSFB, effective on and after July 31, 2007. Pursuant to these amendments, the parties modified the definition of Adjusted Tangible Net Worth to include the amount of the Company's pool trust preferred securities. In addition, the CSFB amendment contains an additional sublimit for performing aged warehouse loans.

As of July 31, 2007, the company had warehouse facilities outstanding as follows:

Except as otherwise noted below, all of the warehouse facilities at July 31, 2007, accrued interest at a rate based upon one-month LIBOR plus a specified spread as follows (dollars in millions):

Warehouse Lender	Outstanding Amount	Total Facility Amount	Expiration Date
Credit Suisse First Boston Mortgage Capital LLC(1)	\$ 586	\$ 600	03/28/2008
Wachovia Bank, LLC	778	1,000	03/25/2008
Deutsche Bank AG, Canada Branch (2)	18	135	06/28/2007
Total	\$ 1,382	\$ 1,735	

(1) Interest at overnight LIBOR plus a specified spread.

(2) Interest at one-month Bankers' Acceptance rate plus a spread.

At July 31, 2007, Accredited had total liquidity of approximately \$175 million which consisted of cash and cash equivalents plus available collateralized borrowing capacity on our warehouse and other lines of credit.

Asset Backed Commercial Paper Facility

As part of its financing strategy, Accredited at December 31, 2006 maintained a \$2.5 billion asset-backed commercial paper (ABCP) facility. Based upon adverse market conditions for asset-backed commercial paper collateralized by non-prime mortgage loans, the Company paid off the SLNs and subordinated notes and terminated the ABCP facility effective in May 2007.

REIT Activity

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

At March 31, 2007 the REIT had cash of \$59.2 million, an increase of \$35.9 million from December 31, 2006. During the three months ended March 31, 2007, net cash provided by operating activities totaled \$25.3 million net cash provided by investing activities totaled \$668.5 million and net cash used in financing activities totaled \$657.9 million.

Table of Contents

In January 2007, we completed a securitization containing \$0.8 billion of first and second priority residential mortgage loans through the REIT. The securitization utilized a senior/subordinated structure consisting of senior and subordinated notes with a final stated maturity date in approximately thirty years. The securitization is structured as a financing; therefore, both the mortgage loans and the debt represented by the notes will remain on our consolidated balance sheet. We used the proceeds from this securitization primarily to repay warehouse financing for the mortgage loans.

The Pricing Committee of the Board of Trustees of the REIT authorized, and the REIT declared in March, June and September of 2007, the quarterly cash dividend on the REIT Series A Preferred Stock at the rate of \$0.609375 per share. The first and second quarter dividends were paid on April 2 and July 2, 2007, respectively, to preferred shareholders of record at the close of business on March 15, 2007 and June 15, 2007, respectively. The third quarter dividend is scheduled to be paid on October 1, 2007 to preferred shareholders of record at the close of business on September 14, 2007.

Accredited irrevocably and unconditionally agrees to pay in full to the holders of each share of the REIT's Series A Preferred Shares, as and when due, regardless of any defense, right of set-off or counterclaim which the REIT or Accredited may have or assert: (i) all accrued and unpaid dividends (whether or not declared) payable on the REIT's Series A Preferred Shares, (ii) the redemption price (including all accrued and unpaid dividends) payable with respect to any of the REIT's Series A Preferred Shares redeemed by the REIT and (iii) the liquidation preference, if any, payable with respect to any of the REIT's Series A Preferred Shares. Accredited's guarantee is subordinated in right of payment to Accredited's indebtedness, on parity with the most senior class of Accredited's preferred stock and senior to Accredited's common stock. At March 31, 2007, the aggregate redemption value of the total preferred shares outstanding was \$102.3 million. Based on total preferred shares outstanding at March 31, 2007, the REIT's current annual dividend obligation totals \$10.0 million.

As previously noted, beginning in September 2007, we have substantially suspended U.S. mortgage origination operations pending the return of market conditions under which non-prime mortgages can be sold or securitized at a profit, and it is uncertain whether our liquidity, credit facilities and capital resources will be sufficient to fund our operations pending the return of favorable market conditions.

Market Risk

Market risks generally represent the risk of loss that may result from the potential change in the value of a financial instrument due to fluctuations in interest and foreign exchange rates and in equity and commodity prices. Our market risk relates primarily to interest rate fluctuations. We may be directly affected by the level of and fluctuations in interest rates, which affect the spread between the rate of interest received on our mortgage loans and the related financing rate. Our profitability could be adversely affected during any period of unexpected or rapid changes in interest rates, by impacting the value of loans held for sale, loans held for investment and loans sold with retained interests. A significant change in interest rates could also change the level of loan prepayments, thereby adversely affecting our long-term net interest income and servicing income.

The objective of interest rate risk management is to control the effects that interest rate fluctuations have on the value of our assets and liabilities. Our management of interest rate risk is intended to mitigate the volatility of earnings associated with fluctuations in the unrealized gain (loss) on mortgage-related securities, the market value of loans held for sale and the net interest on loans held for investment due to changes in the current market rate of interest.

We use several internal reports and risk management strategies to monitor, evaluate, and manage the risk profile of our loan portfolio in response to changes in the market risk. We cannot assure you, however, that we will adequately offset all risks associated with interest rate fluctuations impacting our loan portfolio.

Derivative Instruments and Hedging Activities

As part of our interest rate management process, we use derivative financial instruments such as Eurodollar futures and options on Eurodollar futures. In connection with our securitizations structured as financings, we entered into interest rate cap and interest rate swap agreements. It is not our policy to use derivatives to speculate on interest rates. In accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended and interpreted, derivative financial instruments are reported on the consolidated balance sheets at their fair value.

Fair Value Hedges

We designate certain derivative financial instruments as hedge instruments under SFAS No. 133, and, at trade date, these instruments and their hedging relationship are identified, designated and documented. For derivative financial instruments designated as hedge instruments, we

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

evaluate the effectiveness of these hedges against the mortgage loans being hedged to ensure that there remains adequate correlation in the hedge relationship. To hedge the adverse effect of interest rate changes on the fair market value of mortgage loans held for sale or securitization, we use derivatives as fair value hedges

Table of Contents

under SFAS No. 133. Once the hedge relationship is established, the realized and unrealized changes in fair value of both the hedge instruments and mortgage loans are recognized in the consolidated statement of operations in the period in which the changes occur. Any change in the fair value of mortgage loans held for sale recognized as a result of hedge accounting is reversed at the time the mortgage loans are sold. The net amount recorded in the consolidated statement of operations is referred to as hedge ineffectiveness.

Cash Flow Hedges

During the third quarter of 2004, we implemented the use of cash flow hedging on our securitization debt under SFAS No. 133. Pursuant to SFAS No. 133, hedge instruments have been designated as hedging the exposure to variability of cash flows from our securitization debt attributable to interest rate risk. During the third quarter 2005, Accredited implemented the use of cash flow hedging on its variable rate debt in Canada under SFAS No. 133. Pursuant to SFAS No. 133, hedge instruments have been designated as hedging the exposure to variability of cash flows from our variable rate debt in Canada attributable to interest rates. Cash flow hedge accounting requires that the effective portion of the gain or loss in the fair value of a derivative instrument designated as a hedge be reported as a component of other comprehensive income in stockholders' equity, and recorded into earnings in the period during which the hedged transaction affects earnings pursuant to SFAS No. 133. The ineffective portion on the derivative instrument is reported in current earnings as a component of interest expense.

For derivative financial instruments not designated as hedge instruments, unrealized changes in fair value are recognized in the period in which the changes occur and realized gains and losses are recognized in the period when such instruments are settled.

Interest Rate Simulation Sensitivity Analysis

Changes in market interest rates affect our estimations of the fair value of our mortgage loans held for sale, loans held for investment and the related derivatives. Changes in fair value that are stated below are derived based upon immediate and equal changes to market interest rates of various maturities. All derivative financial instruments and interest rate sensitive financial assets and liabilities have been included within the sensitivity analysis presented. We model the change in value of our derivative financial instruments using outside valuation models generally recognized within the industry. Projected changes in the value of our loans as stated below are determined based on the change in net present value arising from the selected hypothetical changes in market interest rates. We are exposed to interest rate risk from the time the loans are funded to the time the loans are settled because the interest paid on the various warehouse facilities is based on the spot One-Month LIBOR rate. The interest rate risk associated with the interest expense paid on the various warehouse facilities has been included based on the average holding period from the time of funding to settlement. Changes in the fair value of our derivative positions with optionality have been included based on an immediate and equal change in market interest rates.

The base or current interest rate curve is adjusted by the levels shown below as of March 31, 2007:

	+50 bp	+100 bp (In thousands)	-50 bp	-100 bp
Change in fair value of:				
Mortgage loans committed and held for sale	\$ (7,303)	\$ (14,457)	\$ 7,456	\$ 15,072
Derivatives related to mortgage loans committed and held for sale				
Warehouse debt	(292)	(584)	292	584
Securitized debt	(45,369)	(90,025)	46,068	92,893
Derivatives related to securitized debt	35,870	71,742	(36,374)	(72,747)
Total	\$ (17,094)	\$ (33,324)	\$ 17,442	\$ 35,802

The simulation analysis reflects our efforts to balance the repricing characteristics of our interest-bearing assets and liabilities.

Table of Contents**Contractual Obligations**

The following table summarizes our contractual obligations, excluding future interest, at March 31, 2007, and the effect such obligations are expected to have on our liquidity and cash flows in future periods:

	Payments Due by Period				More than
	Total	Less than			
		1 year	1-3 Years (in thousands)	3-5 Years	
Credit facilities	\$ 430,194	\$ 430,194	\$	\$	\$
Securitization bond financing(1)	7,711,786	4,016,165	2,190,544	822,079	682,998
Other borrowings	317,153	31,141		230,012	56,000
Operating lease obligations	152,531	27,031	55,958	36,239	33,303
Total	\$ 8,611,664	\$ 4,504,531	\$ 2,246,502	\$ 1,088,330	\$ 772,301

- (1) Amounts represent the expected repayment requirements based on anticipated receipts of principal and interest on underlying mortgage loan collateral. The securitization bond financing represents obligations of the respective trusts that issue the notes and the assets sold to these issuers are not available to satisfy claims of Accredited's creditors. The noteholders' recourse is limited to the pledged collateral.

Off-Balance Sheet Financing Arrangements

In the normal course of business, in order to meet the financing needs of our borrowers, we are a party to various financial instruments with off-balance sheet risk. These financial instruments primarily represent commitments to individual borrowers to fund their loans. These instruments involve, to varying degrees, elements of interest rate risk and credit risk in excess of the amount recognized in the consolidated balance sheets. We seek to mitigate the credit risk by evaluating the creditworthiness of potential mortgage loan borrowers on a case-by-case basis. We do not guarantee interest rates to potential borrowers when an application is received. We quote interest rates to borrowers which are generally subject to change by us. Although we make every effort to honor such quotes, the quotes do not constitute interest rate lock commitments. Interest rates conditionally approved following the initial underwriting of applications are subject to adjustment if any conditions are not satisfied. We commit to originating loans, in many cases dependent upon the borrower's satisfying various conditions. These commitments to fund individual borrower loans totaled \$473 million as of March 31, 2007.

Accredited irrevocably and unconditionally agrees to pay in full to the holders of each share of the REIT's Series A Preferred Shares, as and when due, regardless of any defense, right of set-off or counterclaim which the REIT or Accredited may have or assert: (i) all accrued and unpaid dividends (whether or not declared) payable on the REIT's Series A Preferred Shares, (ii) the redemption price (including all accrued and unpaid dividends) payable with respect to any of the REIT's Series A Preferred Shares redeemed by the REIT and (iii) the liquidation preference, if any, payable with respect to any of the REIT's Series A Preferred Shares. Accredited's guarantee is subordinated in right of payment to Accredited's indebtedness, on parity with the most senior class of Accredited's preferred stock and senior to Accredited's common stock. At March 31, 2007, the aggregate redemption value of the total preferred shares outstanding was \$102.3 million. Based on total preferred shares outstanding at March 31, 2007, the REIT's current annual dividend obligation totals \$10.0 million.

Inflation

Inflation affects us most significantly in the area of mortgage loan originations by affecting interest rates. Interest rates normally increase during periods of high inflation (or in periods when the Federal Reserve Bank attempts to prevent inflation) and decrease during periods of low inflation. Inflation did not have a material impact on our operations during 2006, 2005 or 2004.

Table of Contents**Critical Accounting Policies**

The preparation of our financial statements requires us to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although we base our estimates and assumptions on historical experience and on various other factors that we believe to be reasonable under the circumstances, our management exercises significant judgment in the final determination of our estimates. Actual results may differ from these estimates. The following areas require significant judgments by management:

mortgage loan sales

lower of cost or market (LOCOM) valuation allowance on mortgage loans held for sale

repurchase reserves on loans sold

provision for losses

interest rate risk, derivatives and hedging strategies

income taxes deferred taxes

Accounting for Mortgage Loan Sales

We generally sell mortgage loans for cash or place our mortgage loans in transactions that are accounted for in our financial statements as securitizations structured as a financing or mortgage loan sales.

During the three months ended March 31, 2007 and the years ended December 31, 2006 and 2005, we completed one, two and four securitizations, respectively. These securitizations were structured as financings. The transactions were legally structured as sales of mortgage loans, but for accounting purposes were treated as financings under SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities - a replacement of FASB Statement No. 125*. When we enter into a securitization structured as a financing, the mortgage loans remain on our balance sheet, retained interests are not created, and debt securities issued in the securitization replace the warehouse debt originally associated with the securitized mortgage loans. We record interest income on the mortgage loans and interest expense on the debt securities, as well as ancillary fees, over the life of the securitization, instead of recognizing a gain or loss upon closing of the transaction.

When we sell our mortgage loans in whole loan sales, the transaction is structured as a sale of mortgage loans for legal and accounting purposes and we dispose of our entire interest in the mortgage loans. Gain on sale revenue is recorded at the time we sell mortgage loans, but not when we securitize mortgage loans in transactions structured as financings. Accordingly, our financial results are significantly impacted by the timing of our mortgage loan sales and the securitization structure we may elect to implement. If we hold a significant pool of mortgage loans at the end of a reporting period, those mortgage loans will remain on our balance sheet, along with the related debt used to fund the mortgage loans. The revenue (or expense) that we generate from those mortgage loans will not be recorded until the subsequent reporting period when we sell the mortgage loans. If we elect to complete a securitization structured as a financing rather than a transaction that would generate gain on sale revenue, our gain on sale revenue will be lower and our interest income will be higher than it would have been otherwise. A number of factors influence the timing of our mortgage loan sales, our targeted disposition strategy and the whole loan sale premiums we receive, including the current market demand for our mortgage loans, the quality of the mortgage loans we originate, the sufficiency of our mortgage loan documentation, liquidity needs, and our strategic objectives. From time to time, management has delayed the sale of mortgage loans to a later period, and may do so again in the future.

Mortgage Loans Held for Sale - LOCOM

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Mortgage loans held for sale are carried at the lower of amortized cost or fair value. We estimate fair value by evaluating a variety of market indicators including recent trades, outstanding commitments or current investor yield requirements. More specifically we stratify the mortgage loans held for sale portfolio into first and second lien position then further break those categories into 30 day aging buckets beginning with a 0 to 29 day bucket and ending with a 60+ day past due bucket. After these buckets are established we apply fair value estimates to these buckets to arrive at a valuation allowance which is applied against our carrying amount resulting in a net fair value estimate for mortgage loans held for sale. The fair value estimate for each of the aging buckets by lien position is derived from recent trade history and pending commitments tempered by professional judgment which takes into consideration current and projected demand, an evaluation of our specific market's direction and other current macro and micro economic conditions.

Table of Contents*Repurchase reserves on loans sold*

We also accrue for liabilities associated with mortgage loans sold, which we may be requested to repurchase due to breaches of representations and warranties and early payment defaults. This repurchase liability which is reported in other liabilities is derived from an estimate of the frequency for repurchases on loans sold multiplied by the estimated severity of loss when loans are repurchased reduced by actual repurchase costs incurred for the loans sold. As these estimates are influenced by factors outside of our control, including future market conditions, and as uncertainty is inherent in these estimates, it is reasonably possible that these estimates could change and our estimated liability could prove to be too high or too low.

Provisions for Losses

We provide market valuation adjustments on certain nonperforming mortgage loans. These adjustments are based upon our estimate of expected losses, calculated using loss frequency and loss severity rate assumptions, and are based upon the value that we could reasonably expect to obtain from a sale, other than in a forced or liquidation sale. Specifically, we take into account two methods. The purpose of the dual methodology is to incorporate a hybrid approach so that we are taking into account a long-term view of losses which is flexible enough to readily adapt the loss reserve model to changes in the short and medium term. The following methods are applied at the securitization pool level. At March 31, 2007 we had 16 securitized pools and one held for securitization pool to which this methodology was applied.

The first method is a forecast of losses projected using our securitization pool cash flow models. This method is designed to adequately reserve for losses in the short- to medium-term. We monitor the various assumptions used, including prepayment, default, and loss curves, through management portfolio performance reports. In the second method, losses are forecasted for mortgage loans with defaults based on the various delinquency categories and an estimated lifetime loss frequency rate is applied to each bucket using severities based on historical and forecast data. This method is designed to estimate losses over the life of the pool. This is based on historical and forecast data and accounts for the seasoning of the mortgage loans in the study. We monitor the loss frequency and severity assumptions used through management portfolio performance reports and adjust our assumptions as necessary. For both methods, management considers actual historical trends, current market conditions, and forecasted future market conditions in determining assumptions.

Each reporting period an allowance for losses on mortgage loans held for investment is recorded in an amount sufficient to maintain appropriate coverage for probable losses on such mortgage loans. We periodically evaluate the estimates used in calculating expected losses, and any adjustments are reported in current earnings. As these estimates are influenced by factors outside of our control and as uncertainty is inherent in these estimates, it is reasonably possible that they could change and our estimated liability prove to be too high or too low at the measurement date.

Our estimate of expected losses could increase if our actual loss experience or repurchase activity is different than originally estimated, or if economic factors change the value we could reasonably expect to obtain from a sale. In particular, if actual losses increase or if values reasonably expected to be obtained from a sale decrease, the provision for losses would increase. Any increase in the provision for losses would adversely affect our results of operations.

Interest Rate Risk, Derivatives and Hedging

We regularly originate, securitize and sell fixed and variable rate mortgage loans. We face three primary periods of interest rate risk: during the period from approval of a mortgage loan application through mortgage loan funding; on our mortgage loans held for sale from the time of funding to the date of sale; and on the mortgage loans underlying our mortgage-related securities and on our mortgage loans held for investment subject to portfolio-based accounting.

Interest rate risk exists during the period from approval of a mortgage loan application through mortgage loan funding and from the time of funding to the date of sale because the premium earned on the sale of these mortgage loans is partially contingent upon the then-current market rate of interest for mortgage loans as compared to the contractual interest rate of the mortgage loans. Our use of derivatives is intended to mitigate the volatility of earnings associated with fluctuations in the gain on sale of mortgage loans due to changes in the current market rate of interest.

The interest rate risk on the mortgage loans underlying our mortgage-related securities and on our mortgage loans held for investment subject to portfolio-based accounting exists because some of these mortgage loans have fixed interest rates for a period of two, three or five years while the rate passed through to the investors in the mortgage-related securities and the holders of the securitization bonds is based upon an adjustable rate. We also have interest rate risk for six month adjustable mortgage loans and when the mortgage loans become adjustable after their two, three or five year fixed rate period. This is due to the mortgage loan rates resetting every six months, subject to various caps and floors, versus

the monthly reset on the rate passed through to the investors in the mortgage-related securities and holders of the securitization bonds. Our use of

Table of Contents

derivatives is intended to mitigate the volatility of earnings associated with fluctuations in the unrealized gain (loss) on the mortgage-related securities and changes in the cash flows of our mortgage loans held for investment subject to portfolio-based accounting due to changes in LIBOR rates.

As part of our interest rate management process, we use derivative financial instruments such as interest rate swaps and caps, Eurodollar futures and options on Eurodollar futures. In connection with the securitizations structured as financings, we have entered into interest rate cap agreements and interest rate swap agreements. We do not use derivatives to speculate on interest rates. Derivative financial instruments are reported on the consolidated balance sheets at their fair value.

Fair Value Hedges

We designate certain derivative financial instruments as hedge instruments under SFAS No. 133, and at trade date, these instruments and their hedging relationship are identified, designated and documented. For derivative financial instruments designated as hedge instruments, we evaluate the effectiveness of these hedges against the mortgage loans being hedged to ensure there remains a highly effective correlation in the hedge relationship. To hedge the effect of interest rate changes on the fair value of mortgage loans held for sale, we are using derivatives as fair value hedges under SFAS No. 133. Once the hedge relationship is established, the realized and unrealized changes in fair value of both the hedge instrument and mortgage loans attributable to changes in interest rates are recognized in the period in which the changes occur. Any change in the fair value of mortgage loans held for sale attributable to changes in interest rates recognized as a result of hedge accounting is reversed at the time we sell the mortgage loans. This results in a correspondingly higher or lower gain on sale revenue at such time. The net amount recorded in the consolidated statements of operations is referred to as hedge ineffectiveness.

Cash Flow Hedges

During the third quarter 2004, we implemented the use of cash flow hedge accounting on our securitization debt under SFAS No. 133. Pursuant to SFAS No. 133, hedge instruments have been designated as hedging the exposure to variability of cash flows from our securitization debt attributable to interest rate risk. During the third quarter 2005, Accredited implemented the use of cash flow hedging on its variable rate debt in Canada under SFAS No. 133. Pursuant to SFAS No. 133, hedge instruments have been designated as hedging the exposure to variability of cash flows from our variable rate debt in Canada attributable to interest rates. Cash flow hedge accounting requires that the effective portion of the gain or loss in the fair value of a derivative instrument designated as a hedge be reported as a component of other comprehensive income in stockholders' equity, and recorded into earnings in the period during which the hedged transaction affects earnings. The ineffective portion on the derivative instrument is reported in current earnings as a component of interest expense.

For derivative financial instruments not designated as hedge instruments, unrealized changes in fair value are recognized in the period in which the changes occur and realized gains and losses are recognized in the period when such instruments are settled.

Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 *Accounting For Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 on January 1, 2007. The implementation of FIN 48 did not have a material effect on the Company's results of operations, statements of condition or cash flows.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, (SFAS 157). SFAS 157 provides a framework for measuring fair value when such measurements are used for accounting purposes. The framework focuses on an exit price in the principal (or, alternatively, the most advantageous) market accessible in an orderly transaction between willing market participants. SFAS 157 establishes a three-tiered fair value hierarchy with Level 1 representing quoted prices for identical assets or liabilities in an active market and Level 3 representing estimated values based on unobservable inputs. Under SFAS 157, related disclosures are segregated for assets and liabilities measured at fair value based on the level used within the hierarchy to determine their fair values. The Company has not determined that it will adopt SFAS 157 on its effective date of January 1, 2008 and the financial impact, if any, upon adoption has not yet been determined.

Table of Contents

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115*, (SFAS 159). SFAS 159 permits fair value accounting to be irrevocably elected for certain financial assets and liabilities on an individual contract basis at the time of acquisition or at a remeasurement event date. Upon adoption of SFAS 159, fair value accounting may also be elected for existing financial assets and liabilities. For those instruments for which fair value accounting is elected, changes in fair value will be recognized in earnings and fees and costs associated with origination or acquisition will be recognized as incurred rather than deferred. SFAS 159 is effective January 1, 2008, with early adoption permitted as of January 1, 2007. The Company has not determined that it will adopt SFAS 159 concurrent with the adoption of SFAS 157 on January 1, 2008, and has not yet determined the financial impact, if any, upon adoption.

Risk Factors

You should carefully consider the following risks, together with other matters described in this Form 10-Q in evaluating our business and prospects. If any of the events referred to below actually occur, our business, financial condition, liquidity and results of operations could suffer. In that case, the trading price of our common stock could decline. The risks described below are not the only ones we face. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. Certain statements in this Form 10-Q (including certain of the following risk factors) constitute forward-looking statements. Please refer to the section entitled *Forward-Looking Statements* on page 3 of this Form 10-Q.

Risks Related to Our Business

We face significant challenges due to adverse conditions in the non-prime mortgage industry, and we cannot assure you that we will continue to operate as a going concern.

In the third quarter of 2006, the non-prime mortgage market in which the Company operates was characterized by increased competition for loans and customers which simultaneously lowered profit margins on loans and caused lenders to be more aggressive in making loans to relatively less qualified customers. By the end of 2006, the non-prime mortgage industry was clearly being negatively impacted. The sustained pricing competition and higher risk portfolios of loans reduced the appetite for loans among whole loan buyers, who offered increasingly lower prices for loans, thereby shrinking profit margins for non-prime lenders. In addition, the higher levels of credit risk taken on by non-prime lenders resulted in higher rates of delinquency in the loans held for investment and in increasing frequency of early payment defaults and repurchase demands on loans that had been sold. These trends accelerated during the first quarter of 2007, and the industry experienced a period of turmoil which has continued into the second and third quarters of 2007. As of August 31, 2007, more than 55 mortgage companies operating in the non-prime mortgage industry have failed and many others face serious operating and financial challenges. The most notable of these failures is New Century Mortgage Corporation (*New Century*), one of the largest non-prime originators in recent years, which announced in early April 2007 that it would file for bankruptcy protection.

While real estate markets were booming during 2004 and 2005, and some areas experienced significant home price appreciation, many originators extended credit and underwriting standards to meet market demands. When home price appreciation leveled off, or in some areas declined, many of the loans originated in 2006 did not perform up to expectations. This decline in performance led to increases in the cost of securitizing non-prime loans as the rating agencies which rate non-prime securitizations increased loss coverage levels, requiring higher credit support for non-prime securitizations.

During the first eight months of 2007, a number of significant industry events occurred, including the following:

New Century announced that it would restate results for the nine months ended September 30, 2006 to account for losses on defaulted loans that it was obligated to repurchase (February 7th);

HSBC Holdings PLC, one of the world's largest banks and non-prime lenders, announced an increase in its bad debt charge for 2006, which it attributed to problems in its U.S. non-prime mortgage lending division (February 8th);

Credit-Based Asset Servicing and Securitization LLC (*C-BASS*) and Fieldstone Investment Corporation (*Fieldstone*) announced that they had entered into a definitive merger agreement under which C-BASS would acquire all of Fieldstone's outstanding common

stock (February 16th);

ACC Capital Holdings, the parent company of Ameriquest Mortgage Company and Argent Mortgage Company, two large non-prime mortgage originators, announced that it had secured additional capital from Citi's Markets and Banking Division and its majority shareholder, and that Citi had agreed to become the company's primary warehouse lender and had acquired an option to buy the company's wholesale mortgage business (February 28th);

Table of Contents

Fremont General Corp. (Fremont), another significant non-prime mortgage originator, announced that it would exit its non-prime real estate lending operations and that it was in discussions with various parties regarding the sale of this business (March 2nd);

The New York Stock Exchange suspended trading of New Century s common stock based on uncertainties concerning its liquidity position (March 12th);

Fieldstone announced that it had amended its previously announced merger agreement with C-BASS to reduce the price of Fieldstone s common stock to \$4.00 per share (March 16th);

People s Choice Home Loan, Inc., another significant non-prime mortgage originator, filed for bankruptcy protection (March 20th);

Fremont sold approximately \$4.0 billion of non-prime residential real estate loans and entered into exclusive negotiations with the same institution to sell most of its residential real estate business (March 21st);

New Century filed for bankruptcy protection (April 2nd);

NovaStar Financial, another significant non-prime mortgage originator, initiated a formal process to explore strategic alternatives and received \$100 million in financing (April 11th);

First Horizon National Corp. blamed difficulty selling mortgages in the secondary market and increased repurchase requests for its decision to shutter its subprime business (April 20th);

H&R Block Inc. announced the sale of Option One Mortgage Corp. (Option One), another large non-prime mortgage originator, to an affiliate of Cerberus Capital Management with a transaction value equal to Option One s tangible net assets as of the date of closing less \$300 million (April 20th);

WMC, a unit of General Electric Co., announced that it would cut 771 jobs (April 20th);

Standard & Poor s Ratings Service placed its credit ratings on 612 classes of residential mortgage-backed securities backed by U.S. non-prime collateral on credit watch with negative implications because of poor collateral performance, expectation of increasing losses on the underlying collateral pools, the consequent reduction of credit support, and changes that will be implemented with respect to the methodology for rating new transactions (July 10);

Moody s Investors Service downgraded 399 residential mortgage-backed securities and placed an additional 32 residential mortgage-backed securities under review for possible downgrade based on higher than anticipated rates of delinquency in the underlying collateral compared to current credit enhancement levels (July 10);

General Electric Co. announced plans to sell WMC Mortgage Corp, its three-year-old U.S. non-prime mortgage unit (July 12);

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

NovaStar Financial, Inc. announced an investment of \$48.8 million by MassMutual and Jefferies Capital Partners as part of a commitment to raise \$150 million in new equity to complete its formal process of exploring strategic alternatives (July 16);

Bear Stearns announced the collapse of two of its hedge funds that had invested in non-prime mortgage securities (July 18);

Countrywide Financial Corp. s second-quarter net income fell 33% because of softening home prices. Countrywide cut its 2007 earnings estimate because it expects a challenging second half, including difficulty in the housing and mortgage markets (July 24);

American Home Mortgage Investment Corp. announced a delayed payment of its quarterly cash dividend on the company s common stock and anticipated delaying payment of its quarterly cash dividends on its preferred stock in order to preserve liquidity until it obtains a better understanding of the impact that current market conditions in the mortgage industry and the broader credit market will have on the company s balance sheet and overall liquidity. American Home Mortgage said that the unprecedented disruption in the credit markets in the past few weeks caused major write-downs of its loan and security portfolios and consequently has caused significant margin calls with respect to its credit facilities (July 28);

MGIC Investment Corporation announced that it had concluded that the value of its investment in C-BASS had been materially impaired because the market for non-prime mortgages had experienced significant turmoil beginning in February 2007, with market dislocations accelerating to unprecedented levels beginning in approximately mid-July 2007 (July 30);

American Home Mortgage announced that it was unable to borrow on its credit facilities and to fund its lending obligations of approximately \$300 million on July 30 and that it did not anticipate funding approximately \$450 to \$500 million on July 31. (July 31);

Table of Contents

American Home Mortgage filed for bankruptcy protection (August 6);

Aegis Mortgage suspends loan originations (August 6) and files for bankruptcy protection (August 10);

HomeBanc files for bankruptcy protection (August 10);

NovaStar Financial suspends wholesale originations (August 17) and sharply reduces retail originations (September 4);

Countrywide Financial Corp., facing unprecedented disruptions to its funding operations, tapped \$11.5 billion credit line (August 16); Bank of America invests \$2 billion in Countrywide to prop up the country's largest mortgage banker (August 22);

Capital One shuts down its GreenPoint Mortgage subsidiary, cutting 1,900 jobs (August 20); and

Lehman Brothers announced the closing of its subprime subsidiary, BNC Mortgage LLC (August 22).

The combination of these events with the continued heavy repurchase demands from whole loan purchasers experienced during this period created a cycle beginning with a significant increase in the amount of distressed loans for sale in the market. This increase in loan supply reduced whole loan prices, providing a basis for warehouse line providers to mark down the collateral value of loans held in inventory and, as a result, to place margin calls on non-prime lenders. These increased margin calls resulted in more distressed sales which, in turn, put further downward pressure on whole loan sale prices, regenerating the cycle with escalating negative results.

All of these general market conditions may affect the performance of the mortgage loans originated by us and, even if they do not affect performance, have and may continue to adversely affect our common stock price.

We have restructured our operations and suspended U.S. mortgage loan originations, and we do not intend to resume non-prime originations unless and until the return of market conditions under which non-prime mortgage loans can be originated at a profit.

We require substantial cash to fund our mortgage loan originations, to pay our mortgage loan origination expenses and to hold our mortgage loans pending sale or securitization. Also, as a servicer of mortgage loans, we are required to advance delinquent principal and interest payments, unpaid property taxes, hazard insurance premiums, and foreclosure and foreclosure-related costs. While we maintain warehouse and other credit facilities that provide substantial financing for our operations, we must originate mortgage loans and sell or securitize our mortgage loan originations at a profit in order to maintain our credit facilities and successfully fund our operations over time.

Due to the turbulence in the non-prime mortgage industry, we have not been able to sell or securitize at a profit most of the mortgage loans we have originated throughout 2007. Accordingly, we made the decision to restructure our operations, beginning September 2007, to eliminate all retail lending operations, significantly downsize wholesale lending operations, and suspend substantially all U.S. lending unless and until market conditions return under which non-prime mortgage loans can again be originated and sold or securitized at a profit. As a consequence, the survival of our downsized operations will be primarily dependent upon income derived from our servicing operations, our residual interests in previously securitized loans and our Canadian mortgage loan originations. There can be no assurance that these sources of income will be sufficient to fund our downsized operations pending the return of market conditions under which mortgage loans can be originated and sold or securitized at a profit.

Our credit facilities are subject to margin calls based on the lender's opinion of the value of our related collateral. An unanticipated large margin call could severely harm our liquidity.

The financing we receive under our credit facilities depends in large part on the lenders' valuation of the collateral securing the financing. Each credit facility allows the lender to revalue the collateral at any time to values that the lender, in their discretion, considers to be market values. In the event that a lender determines that the value of the collateral has decreased, it may initiate a margin call requiring us to post additional collateral to cover the decrease. When we are subject to such a margin call, we must provide the lender with additional collateral or repay a

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

portion of the outstanding borrowings with minimal notice. Any such margin call could harm our liquidity, results of operation, financial condition and business prospects. If the frequency, volume or size of margin calls increases significantly, it would have a material and adverse impact on our ability to continue as a going concern. Additionally, in order to obtain cash to satisfy a margin call, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses and adversely affect our results of operations and financial condition.

Table of Contents

If we fail to comply with the requirements of our credit facilities, or obtain waivers of compliance, or if one or more lenders determines that we have suffered a material adverse change, the credit facilities may be terminated, all amounts advanced under the credit facilities may become immediately due and payable, and collateral pledged under the facilities may be subject to foreclosure.

All of our credit facilities contain requirements that we must comply with in order to maintain outstanding and further borrowings under the facilities. These requirements address, among other things:

minimum profitability, liquidity and net worth levels;

maximum indebtedness-to-net worth ratios;

asset quality and mortgage loan performance tests;

restrictions on indebtedness, investments and acquisitions; intercompany dividends; repurchase or redemption of capital stock; and mergers or consolidations or other changes of control;

mortgage loan attributes;

limits on time periods for holding mortgage loans;

loss of servicer ratings;

maximum cumulative losses;

financial reporting requirements, including timely filing of reports required under the Securities Exchange Act of 1934;

delivery of audited financial statements and auditors' opinion (without a going concern qualification); and

material adverse change restrictions.

If we fail to meet or satisfy any of these requirements or do not obtain waivers of compliance, we would be in default under these agreements and our lenders could elect to terminate the credit facility, declare all amounts outstanding under the agreements immediately due and payable, enforce their interests against collateral pledged under such agreements, and restrict our ability to make future borrowings.

Our lenders have the ability to reasonably determine in their sole discretion whether a material adverse change has occurred and if they were to do so we would be in default under these facilities. There can be no assurance that our lenders will not determine that a material adverse change has occurred and cause us to be in default under these facilities. These agreements also contain cross-default provisions, so that if a default occurs under any one agreement, the lenders under our other agreements could also declare a default. Our lenders have the right to liquidate the collateral pledged under such agreements upon the occurrence of a default and there can be no assurance that the proceeds realized from such a sale would be an amount equal to what would be realized by a sale of the collateral in a non-liquidation setting.

Our inability to obtain additional or replacement sources of financing may substantially harm our business.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Our ability to obtain additional sources of financing may be limited to the extent that we have pledged our mortgage loans, our servicing rights and advances, and our economic residual interests in previously securitized loans to warehouse and other credit facility providers. Additionally, on March 30, 2007, we pledged substantially all of our remaining unencumbered assets to secure a \$230 million loan from an affiliate of Farallon Capital Management (Farallon). To the extent that we are not successful in maintaining, replacing or obtaining alternative financing sources on acceptable terms, our business may be significantly harmed.

We may not meet the continued listing criteria for the NASDAQ Capital Market, which could materially and adversely affect the price and liquidity of our common stock, our business and our financial condition.

On March 15, 2007, we received a notice from the staff of NASDAQ stating that our common stock may be subject to delisting because we had not filed with the Securities and Exchange Commissions (the SEC) our Annual Report on Form 10-K (10-K) for the year ended December 31, 2006 on a timely basis. We requested a hearing before the NASDAQ Listing Qualifications Panel (the Panel) to appeal the NASDAQ staff 's determination and to present our plan to regain compliance with NASDAQ 's filing requirements. The hearing request automatically stayed the delisting of the common stock pending the Panel 's review and decision. In addition, on May 15, 2007 and on August 14, 2007, we received additional deficiency notices from the staff of NASDAQ stating that the failure to timely file with the SEC our Quarterly Report on Form 10-Q (10-Q) for the quarters ended March 31, 2007 and June 30, 2007, respectively, could serve as additional bases for the delisting of our common stock.

Table of Contents

On July 23, 2007, the Panel determined to continue listing our common stock provided that we filed with the SEC our 10-K by September 12, 2007 and our 10-Q for the first quarter of 2007 by September 18, 2007. We filed our 10-K with the SEC on August 2, 2007. The Panel has not yet responded to our August 17, 2007 request for additional time to file our 10-Q for the second quarter of 2007, but we anticipate the Panel will not require such 10-Q to be filed before the September 18, 2007 deadline for the first quarter 10-Q.

In addition, for continued listing of our common stock on NASDAQ, we are required to, among other things, maintain certain minimum thresholds with regard to stockholders' equity and minimum closing bid prices. If we do not meet the continued listing requirements, our common stock could be subject to delisting from trading on NASDAQ. There can be no assurance that we will continue to meet all requirements for continued listing on NASDAQ.

If we are unable to continue to list our common stock for trading on NASDAQ, there may be an adverse impact on the market price and liquidity of our common stock, and our stock may be subject to the penny stock rules contained in Section 15(g) of the Securities Exchange Act of 1934, as amended, and the rules promulgated there under. Delisting of our common stock from NASDAQ could also materially adversely affect our business, including, among other things: our ability to raise additional financing to fund our operations; our ability to attract and retain customers; and our ability to attract and retain personnel, including management personnel. In addition, if our common stock were no longer listed on NASDAQ, many institutional investors would no longer be able to retain their interests in and/or make further investments in our common stock because of their internal rules and protocols.

Repurchases of defective mortgage loans such as loans that experience early payment defaults may harm our business.

In connection with the sale and securitization of our mortgage loans, we are required to make a variety of customary representations and warranties regarding our company and the mortgage loans. These representations and warranties address, among other things:

the timely payment of early payments due on the loan, typically the first one or two (an Early Payment Default);

fraud in the origination process;

compliance with laws;

regulations and underwriting standards;

the accuracy of information in the mortgage loan documents and mortgage loan file; and

the characteristics and enforceability of the mortgage loan.

With the exception of the Early Payment Default warranty, we are subject to these representations and warranties for the life of the mortgage loan.

If, after a mortgage loan is sold or securitized, a breach of any such representation or warranty is identified and asserted, we may be obligated to repurchase the mortgage loan and bear any associated loss directly, or we may be obligated to indemnify the purchaser or securitization trust against any such losses, either of which could reduce our cash available for operations and liquidity. During the years ended December 31, 2006 and 2005, mortgage loans repurchased totaled \$205.2 million and \$72.3 million, respectively, pursuant to these obligations. In late 2006 continuing into 2007, certain purchasers became more aggressive regarding the identification, notification and collection of repurchase requests to the Company. In addition, the number of mortgage loans that we have been required to repurchase has increased as a result of our merger with Aames, since we assumed their repurchase obligations upon the closing of the merger. During the seven months ended July 31, 2007, we repurchased approximately \$207 million in mortgage loans and paid \$67 million in cash settlements to eliminate the requirement to repurchase mortgage loans in the future from investors.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Once we repurchase a mortgage loan, we may either sell it or retain such loan as part of our portfolio and bear any associated losses. We seek to minimize such losses from defective mortgage loans by correcting flaws if possible and selling or re-selling such mortgage loans. If we sell such a loan, the sale would be at a discount, which could be quite severe. A mortgage loan that does not comply with these representations and warranties may take longer to sell, impact our ability to obtain third party financing for such mortgage loan, and be unsaleable or saleable only at a discount. We create allowances to provide for defective mortgage loans in our financial statements.

We cannot assure you that we have not and will not make mistakes and breach such representations and warranties, or that certain employees will not deliberately violate our lending policies. We cannot assure you that losses associated with defective mortgage loans will not harm our results of operations or financial condition.

Table of Contents

We face steeply declining employee morale, and our inability to retain qualified employees could significantly harm our business.

As a result of the ongoing turbulence in the non-prime mortgage industry, our headcount has declined from approximately 4,200 at December 31, 2006 to approximately 1,000 following the completion of the restructuring we have implemented in September 2007. In light of the decision to suspend substantially all U.S. lending as part of the restructuring, it will be very difficult to motivate and retain the remaining sales personnel who expect to derive significant income from commissions and bonuses on closed loans. It will also be difficult to motivate and retain non-commissioned personnel who are faced with great uncertainty regarding their future employment and advancement prospects with the Company. The inability to retain or replace sufficient qualified personnel may jeopardize our ability to run our downsized operations or successfully resume U.S. lending operations should the opportunity arise.

We rely, to a significant degree, on a few key executives.

The Company's success is significantly reliant upon a few key individuals, including but not limited to, James Konrath, the Chairman and Chief Executive Officer, Joseph Lydon, the President and Chief Operating Officer, Stuart Marvin, the Executive Vice President, and Jeffrey Crawford, the Director of Operations.

None of the above mentioned executives are subject to employment contracts which would provide an incentive to the executives to remain at the Company. In addition, for the year ended December 31, 2006, many of the members of management, including these executives, had their incentive compensation reduced substantially from amounts historically paid or targeted for the year ended December 31, 2006.

Based upon the above, there can be no assurance that such executives, or other executives at the Company, will remain with the Company.

Ratings downgrades of our servicing operations will make future securitizations more difficult and costly to execute, even if secondary mortgage market conditions become more favorable.

If favorable secondary mortgage market conditions return and we resume mortgage loan origination operations, we may want to securitize our mortgage loans to realize a greater percentage of the full economic value of the mortgage loans. However, our ability to complete securitizations of our mortgage loans will depend upon a number of factors in addition to market conditions, many of which are beyond our control, including the availability of credit enhancements to support the securities sold in securitizations, such as financial guarantee insurance, a senior subordinated structure or other means, and the performance of our mortgage loans previously held for investment. As a result of the ongoing turbulence within the non-prime mortgage industry, credit enhancement requirements for securitizations of non-prime mortgage loans have been significantly increased and may be further increase in the future. This generally has the effect of increasing the overall expense of executing securitizations and reducing the earnings therefrom. Moreover, our ratings as a mortgage loan servicer have been downgraded in recent months and may be downgraded further, limiting our ability to act as servicer of our securitizations without a backup servicer. As a result of the foregoing, we cannot assure you, that we will be able to resume mortgage loan securitizations on terms that are favorable to us.

As a result of the merger with Aames, we acquired deferred tax assets that we may not be able to realize.

As a result of the acquisition of Aames, we acquired deferred tax assets. Based upon the ongoing turbulence in the non-prime mortgage industry, there can be no assurance that the Company will be able to achieve profitable operations in the future and therefore realize the value of certain deferred tax assets obtained in the acquisition of Aames. Based upon these events and circumstances, we established a valuation allowance against certain tax assets as of December 31, 2006.

As a result of our acquisition of Aames, our management has been and may continue to be distracted from their focus on our business and operations in order to attend to issues arising out of the acquisition.

There is a significant degree of difficulty and management distraction inherent in the process of acquiring a business such as Aames. The acquisition has caused and continues to cause an interruption of, or loss of momentum in, the activities of our business. Members of our senior management have devoted and may be required to continue to devote considerable amounts of time to the acquisition process, which has decreased and may decrease the time have to manage our business and develop new strategies. If our senior management is not able to effectively manage the acquisition process, or if any significant business activities are interrupted as a result of the acquisition process, our business could suffer further.

Table of Contents

Our use of repurchase agreements to borrow funds may give our lenders greater rights in the event that either we or a lender files for bankruptcy.

Historically, most of our warehouse lending facilities and the REIT's residual financing facilities have been structured as repurchase agreements. Our borrowings under repurchase agreements may qualify for special treatment under the Bankruptcy Code, giving the lenders the ability to avoid the automatic stay provisions of the Bankruptcy Code and to take possession of and liquidate our collateral under the repurchase agreements without delay in the event that we file for bankruptcy. Our business relies upon access to funds in order to originate mortgages. In the event of a bankruptcy filing and the lenders' seizure of the collateral securing our obligations to them, we would likely have great difficulty in obtaining replacement credit facilities because we would not have sufficient collateral to secure the loans we require to continue operating. Without such replacement credit, we would be unable to continue as a going concern. Furthermore, the special treatment of repurchase agreements under the Bankruptcy Code may make it difficult for us to recover our pledged assets in the event that a lender liquidates. Thus, the use of repurchase agreements exposes our pledged assets to risk in the event of a bankruptcy or other insolvency filing by either a lender or us.

The REIT is bound by certain covenants in connection with its Series A Preferred Shares, and if the REIT breaches such covenants, no dividends can be paid on the REIT's common shares which we hold, which may adversely affect our liquidity.

In connection with the issuance of the REIT's Series A Preferred Shares, the REIT agreed to be bound by the following covenants:

Commencing with the quarter ending December 31, 2004, the REIT was required to have on its balance sheet total shareholders equity, as of the end of each quarter and determined in accordance with accounting principles generally accepted in the United States of America, equal to at least \$50 million;

Commencing with the quarter ending December 31, 2004, the REIT was required to have on its balance sheet loans held for investment (generally defined as securitized loans and loans held for securitization), as of the end of each quarter and determined in accordance with accounting principles generally accepted in the United States of America, greater than or equal to \$2 billion; and

Commencing with the quarter ending December 31, 2005, the REIT was required, for the four fiscal quarters most recently ended, to have cumulative unencumbered cash flow (generally defined as earnings before interest expense, income tax expense, depreciation and amortization adjusted to exclude extraordinary gains or losses, gains (but not losses) from sales of assets outside the ordinary course of business and income from subsidiaries of the REIT to the extent that such subsidiaries are restricted by law or agreement from distributing such income to the REIT, except to the extent such income is actually distributed in a period) greater than or equal to six times the cumulative dividend required to be distributed to holders of the REIT's Series A Preferred Shares in those four quarters.

If the REIT is not in compliance with any of the foregoing covenants as of the end of any quarter and remains in default on one or more covenants as of the end of the following quarter, then no dividends are payable on the REIT's common shares until it is in compliance with all of the covenants as of the end of two successive quarters. At June 30, 2007, the REIT was in compliance with all of the foregoing covenants.

We own all of the REIT's common shares and rely heavily on the dividend received from the REIT on the common shares. If the REIT violates the covenants in connection with the Series A Preferred Shares, we will not be able to receive any dividends on our common shares of the REIT which will adversely affect our business and operations. In 2006, the aggregate dividend we received on the common shares of the REIT was approximately \$200 million.

Significant losses on the economic residual interests from securitizations that we retain in the REIT and its subsidiary will reduce our earnings, negatively affect our liquidity, and otherwise negatively affect our business.

The economic residual interests for securitizations that we retain in the REIT and its subsidiary are unrated and involve significant investment risk. By holding these economic residual interests from securitizations, we retain the first loss risk associated with the underlying pool of mortgage loans. As a result, the credit performance and prepayment rates of the non-prime loans underlying these residual interests directly affect our returns on these residual interests. Significant realized losses from our economic residual interests could harm our results of operations and financial condition.

Table of Contents

We are in the business of originating non-prime mortgage loans which generally have higher delinquency and default rates than prime mortgage loans. If we do not adequately underwrite and price for this risk, our business could be harmed.

We are in the business of originating, financing, selling, securitizing and servicing non-prime mortgage loans. Non-prime mortgage loans generally have higher delinquency and default rates than prime mortgage loans. Delinquency interrupts the flow of projected interest income from a mortgage loan and a default can ultimately lead to a loss if the net realizable value of the real property securing the mortgage loan is insufficient to cover the principal and interest due on the mortgage loan. Also, our cost of financing and servicing a delinquent or defaulted mortgage loan is generally higher than for a performing mortgage loan. We bear the risk of delinquency and default on mortgage loans beginning when we originate them until we sell them and we continue to bear the risk of delinquency and default after we securitize mortgage loans or sell mortgage loans with a retained interest. Mortgage loans that become delinquent prior to sale or securitization may become unsaleable or saleable only at a discount, and the longer we hold mortgage loans prior to sale or securitization, the greater the chance we will bear the costs associated with the mortgage loans' delinquency. Factors that may increase the time held prior to sale or securitization include the time required to accumulate mortgage loans for securitizations or sales of large pools of mortgage loans, the amount and timing of third-party due diligence in connection with sales or securitizations, defects in the mortgage loans and the investor demand for whole loan pools and securitization debt.

We also reacquire the risks of delinquency and default for mortgage loans that we are obligated to repurchase. Repurchase obligations are typically triggered in mortgage loan sale transactions if an Early Payment Default occurs on the mortgage loan after sale or in any sale or securitization if the mortgage loan materially violates our representations or warranties.

If we experience higher-than-expected levels of delinquency or default in pools of mortgage loans that we service, we may lose our servicing rights, which would result in a loss of future servicing income and may damage our reputation as a mortgage loan servicer.

We attempt to manage these risks with risk-based mortgage loan pricing and appropriate underwriting policies and mortgage loan collection methods. However, if such policies and methods are insufficient to control our delinquency and default risks and do not result in appropriate mortgage loan pricing and collecting, our business, financial condition, liquidity and results of operations could be significantly harmed. Our total delinquency rate (30 or more days past due, including mortgage loans in foreclosure and converted into real estate owned) for our servicing portfolio was 8.9% at March 31, 2007. Historically, our delinquency rate has increased, and we anticipate an increase in the future, as the mortgage loans in our portfolio age.

We may change our policies in ways that harm our financial condition or results of operations.

Our investment and financing policies and our policies with respect to other activities, including our growth, debt capitalization, distributions, REIT status of the REIT and operating policies are determined by our board of directors. Our board of directors may change these policies at any time without a vote of our stockholders. A change in these policies might harm our financial condition, results of operations or business prospects.

Our accounting policies and methods are fundamental to how we report our financial condition and results of operations, and they may require management to make estimates about matters that are inherently uncertain.

We have identified several accounting policies as being critical to the presentation of our financial condition and results of operations because they require management to make particularly subjective or complex judgments about matters that are inherently uncertain and because of the likelihood that materially different amounts would be recorded under different conditions or using different assumptions. These critical accounting policies relate to, without limitation, securitizations structured as financings, allowance for losses on mortgage loans held for investment, valuation adjustments for mortgage loans held for sale to the lower of cost or market (LOCOM), allowance for repurchase losses, gain on sale of mortgage loans, income taxes and derivative instruments designated and documented as hedges. Because of the inherent uncertainty of the estimates associated with these critical accounting policies, we cannot provide any assurance that we will not make significant subsequent adjustments to the related amounts recorded.

We face intense competition that could adversely impact our market share and our revenues.

We face intense competition from finance and mortgage banking companies, from Internet-based lending companies where entry barriers are relatively low, and from traditional bank and thrift lenders that have entered the non-prime mortgage industry. Some of our competitors are much larger, have better name recognition, and have far greater financial and other resources than us.

Table of Contents

The government-sponsored entities Fannie Mae and Freddie Mac are also participants in the non-prime mortgage industry. These government-sponsored entities have a size and cost-of-funds advantage that allows them to purchase mortgage loans with lower rates or fees than we are willing to offer. Continued expansion of the government sponsored entities involvement in the market to originate or purchase non-prime mortgage loans could continue to change the dynamics of the industry by virtue of their sheer size, pricing power and the inherent advantages of a government charter. In addition, if as a result of their purchasing practices, these government-sponsored entities experience significantly higher-than-expected losses, such losses could adversely affect the overall investor perception of the non-prime mortgage industry. The recent announcement by Freddie Mac that it is curtailing its purchase of certain non-prime mortgages could also adversely affect investor perception of the non-prime mortgage industry.

Competition in the industry can take many forms, including interest rates and costs of a mortgage loan, less stringent underwriting standards, offering of mortgage loan products which we do not offer, convenience in obtaining a mortgage loan, customer service, amount and term of a mortgage loan and marketing and distribution channels. The need to maintain mortgage loan volume in this competitive environment creates a risk of price competition in the non-prime mortgage industry. Price competition could prevent us from raising rates in response to a rising cost of funds or cause us to lower the interest rates that we charge borrowers, which could adversely impact our profitability and lower the value of our mortgage loans. If our competitors adopt less stringent underwriting standards, we will be pressured to do so as well, which would result in greater mortgage loan risk without compensatory pricing. If we do not relax underwriting standards in response to our competitors, we may lose market share. Any increase in these pricing and underwriting pressures could reduce the volume of our mortgage loan originations and sales and significantly harm our business, financial condition, liquidity and results of operations. The risks described in this paragraph have already contributed significantly to the current condition of the non-prime mortgage industry.

Any future economic slowdown could increase delinquencies, defaults and foreclosures and impair our ability to originate mortgage loans.

Any future economic slowdown or recession may be accompanied by decreased demand for consumer credit, decreased real estate values, and increased rates of delinquencies, defaults and foreclosures. Any material decline in real estate values would increase the mortgage loan-to-value ratios (LTVs) on mortgage loans that we hold pending sale and mortgage loans in which we have a residual or retained interest, weaken our collateral coverage and increase the possibility and severity of a loss if a borrower defaults. We are in the business of originating mortgage loans to borrowers who make little or no down payment, resulting in higher LTVs. A lack of equity in the home may reduce the incentive a borrower has to meet his payment obligations during periods of financial hardship, which might result in higher delinquencies, defaults and foreclosures. These factors would impair our ability to originate mortgage loans and increase our losses on mortgage loans in which we have a residual or retained interest. In addition, mortgage loans we may originate during an economic slowdown may not be as valuable to us because potential purchasers of our mortgage loans might reduce the premiums they pay for the mortgage loans to compensate for any increased risks arising during such periods. Any sustained increase in delinquencies, defaults or foreclosures is likely to significantly harm the pricing of any future mortgage loan sales and securitizations and also our ability to finance mortgage loan originations. The risks described in this paragraph have already contributed significantly to the current condition of the non-prime mortgage industry.

A future increase in interest rates could harm future mortgage loan origination volumes, and result in an increase in delinquency, default and foreclosure rates and a reduction in the value of, and income from, our mortgage loans.

The following are some of the risks we face related to an increase in interest rates:

A substantial and sustained increase in interest rates could harm our ability to originate mortgage loans because refinancing an existing mortgage loan would be less attractive and qualifying for a purchase mortgage loan may be more difficult.

Existing borrowers with adjustable-rate mortgages or higher risk mortgage loan products may incur higher monthly payments as the interest rate increases, or experience higher delinquency and default rates.

If prevailing interest rates increase after we fund a mortgage loan, the value that we would receive upon the sale or securitization of the mortgage loan decreases.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

The cost of financing our mortgage loans prior to sale or securitization is based primarily upon the London Inter-Bank Offered Rate (LIBOR). The interest rates we charge on our mortgage loans are based, in part, upon prevailing interest rates at the time of origination, and the interest rates on all of our mortgage loans are fixed for at least the first six months. If LIBOR increases after the time of mortgage loan origination, our net interest income which represents the difference between the interest rates we receive on our mortgage loans pending sale or securitization and our LIBOR-based cost of financing such mortgage loans will be reduced. The weighted average cost of financing our mortgage loans, prior to sale or securitization, was 6.27% during the quarter ended March 31, 2007.

Table of Contents

When we securitize mortgage loans, the income we receive from the economic residual interests we retain are also based on LIBOR to the extent the underlying mortgage loans have an adjustable interest rate. This is because the income we receive from these interests is based on the difference between the fixed rates payable on the mortgage loans for the initial fixed-rate periods, and an adjustable LIBOR-based yield payable to the senior security holders. We also have interest rate risk when the mortgage loans become adjustable after their initial fixed-rate periods. This is due to the mortgage loan rates resetting every six months, subject to various caps and floors, versus the monthly reset on the rate passed through to the holders of the securitization bonds that is not typically subject to any caps or floors.

Accordingly, our business, financial condition, liquidity and results of operations may be significantly harmed as a result of increased interest rates.

Our business may be significantly harmed by a slowdown in the economy or a natural disaster in the states of California or Florida, where we conduct a significant amount of business.

A significant portion of the mortgage loans we have originated, purchased or serviced has been secured by properties in California and Florida. During the quarter ended March 31, 2007, 15% and 15% of the principal balance of the mortgage loans we originated were collateralized by properties located in California and Florida, respectively. At March 31, 2007, 17% and 14% of the unpaid principal balance of mortgage loans we serviced were collateralized by properties located in California and Florida, respectively. An overall decline in the economy or the residential real estate market, or the occurrence of a natural disaster that is not covered by standard homeowners' insurance policies, such as an earthquake, hurricane or wildfire, could decrease the value of mortgaged properties in these states. This, in turn, would increase the risk of delinquency, default or foreclosure on mortgage loans in our portfolio or that we have sold to others. This could restrict our ability to originate, sell, or securitize mortgage loans, and significantly harm our business, financial condition, liquidity and results of operations.

Our hedging strategies may not be successful in mitigating our risks associated with interest rates.

We use various derivative financial instruments to provide a level of protection against interest rate risks, but no hedging strategy can protect us completely. When rates change, we expect to record a gain or loss on derivatives which would be offset by an inverse change in the value of mortgage loans held for sale and the amount of interest expense paid related to our securitization bonds. We cannot assure you, however, that our use of derivatives will offset the risks related to changes in interest rates. There have been periods, and it is likely that there will be periods in the future, during which we will not have offsetting gains or losses in mortgage loan values after accounting for our derivative financial instruments. The derivative financial instruments we select may not have the effect of reducing our interest rate risk. In addition, the nature and timing of hedging transactions may influence the effectiveness of these strategies. Poorly designed strategies, improperly executed and recorded transactions or inaccurate assumptions could actually increase our risk and losses. In addition, hedging strategies involve transaction and other costs. We cannot assure you that our hedging strategy and the derivatives that we use will adequately offset the risk of interest rate volatility or that our hedging transactions will not result in losses.

Our rights to cash flow from our securitized mortgage loans are subordinate to senior interests and may fail to generate any cash flow for us if the mortgage loan payment stream only generates enough cash flow to pay the senior interest holders.

As part of the credit enhancement for our securitizations, the net cash flow that we receive from the economic residual interests that we retain generally represents the excess of amounts, if any, generated by the underlying mortgage loans over the amounts required to be paid to the senior security holders. This excess amount is also calculated after deduction of servicing fees and any other specified expenses related to the securitization. These excess amounts are derived from, and are affected by, the interplay of several factors, including:

the extent to which the interest rates of the mortgage loans exceed the interest rates payable to the senior security holders;

the level of losses and delinquencies experienced on the underlying mortgage loans; and

the extent to which the underlying mortgage loans are prepaid by borrowers in advance of scheduled maturities.

During the three months ended March 31, 2007, we completed one securitization of \$0.8 billion of mortgage loans, and during each year ended December 31, 2006, 2005 and 2004, we completed securitizations of mortgage loans totaling \$2.4 billion, \$4.2 billion and \$3.3 billion, respectively. Any combination of the factors listed above may reduce the income we receive from and the value of our economic residual interests.

Table of Contents

If we do not manage the size of operations effectively, our financial performance could be harmed.

Prior to 2007, we experienced rapid growth that placed certain pressures on our management, administrative, operational and financial infrastructure. In addition to growth by direct expansion, we grew by acquiring the stock or assets of other mortgage companies. For example, our acquisition of Aames added approximately 1,450 employees upon its completion in October 2006. As of December 31, 2006, we had approximately 4,200 employees (1,177 of which were attributable to our acquisition of Aames). Many of these employees had very limited experience with us and a limited understanding of our systems and controls. In connection with the restructuring implemented in September 2007, we are downsizing to approximately 1,000 employees, and we may implement additional reductions in our number of employees and other cost-saving measures. In light of these recent challenges, we cannot assure you that we will be able to:

meet our capital needs;

retain qualified employees;

size our systems effectively;

allocate our human resources optimally;

satisfactorily perform our servicing obligations; or

effectively integrate the components of any businesses that we may acquire in our effort to achieve growth.

The failure to manage the size of our operations would significantly harm our business, financial condition, liquidity and results of operations.

Failure to keep pace with technological changes or an interruption in, or breach of, our information systems may further harm our business.

We rely heavily upon communications and information systems to conduct our business. The intense competition in the non-prime mortgage industry has led to rapid technological developments, evolving industry standards and frequent releases of new products and enhancements. As mortgage products are offered more widely through alternative distribution channels, such as the Internet, we may be required to make significant changes to our current retail and wholesale structure and information and technology systems to compete effectively. Our inability to continue enhancing our current Internet capabilities, or to adapt to other technological changes in the industry, could significantly harm our business, financial condition, liquidity and results of operations. In addition, we rely on software and other technology-based programs to gather and analyze competitive and other data from the marketplace. Problems with our technology or inability to implement technological changes may, therefore, result in delayed detection of market trends and conditions. Also, any failure, interruption or breach in the security of our information systems or the third-party information systems on which we rely could cause underwriting or other delays and could result in fewer mortgage loan applications being received, slower processing of applications and reduced efficiency in mortgage loan servicing. We cannot assure you that such failures or interruptions will not occur, or if they do occur that they will be adequately addressed by us or the third parties on which we rely. The occurrence of any failures or interruptions could significantly harm our business.

If we resume mortgage loan originations, the success and growth of our business will be affected by our ability to adapt to and implement technological changes.

The ability to effectively interface with brokers, borrowers and other third parties in the mortgage loan origination process, and efficiently process mortgage loan applications and closings strongly affects the ability to originate mortgage loans. The origination process is becoming more dependent upon technological advancement, such as the ability to process applications over the Internet, accept electronic signatures, provide status updates instantly, and other customer-expected conveniences. In addition, competition and increasing regulation may increase our reliance on technology as a means to improve efficiency. Implementing this new technology and becoming proficient with it may also require significant capital expenditures. If we resume mortgage loan originations, we will have to keep pace with technological developments to become

and remain competitive.

We may not be able to successfully resume our wholesale lending operations if we are unable to maintain or re-establish our network of independent brokers.

Historically, a significant majority of our originations of mortgage loans have come from independent brokers. During 2006, 85% of our mortgage loan originations were originated through our broker network. Our brokers are not contractually obligated to do business with us if we resume our wholesale lending operations. Further, our competitors also have relationships with our brokers and actively compete with us for their business. Accordingly, there can be no assurance that we will be able to maintain or re-establish our broker relationships if we decide to resume wholesale lending operations, thereby jeopardizing the success of any such resumption.

Table of Contents

Our financial results fluctuate as a result of seasonality and other timing factors, which makes it difficult to predict our future performance and may affect the price of our common stock.

Our business is generally subject to seasonal trends. These trends reflect the general pattern of housing sales, which typically peak during the spring and summer seasons. Our quarterly operating results have fluctuated in the past and are expected to fluctuate in the future, reflecting, in part, the seasonality of the industry. Further, if the closing of a sale of mortgage loans is postponed, the recognition of gain from the sale is also postponed. If such a delay causes us to recognize income in the next quarter, our results of operations for the previous quarter could be significantly depressed.

We are subject to losses due to fraudulent and negligent acts on the part of mortgage loan applicants, mortgage brokers, other vendors and our employees.

When we originate mortgage loans, we rely heavily upon information supplied by third parties including the information contained in the mortgage loan application, property appraisal, title information and employment and income documentation. If any of this information is intentionally or negligently misrepresented and such misrepresentation is not detected prior to mortgage loan funding, the value of the mortgage loan may be significantly lower than expected. Whether a misrepresentation is made by the mortgage loan applicant, the mortgage broker, another third party or one of our own employees, we generally bear the risk of loss associated with the misrepresentation. If a mortgage loan is subject to a material misrepresentation, we are typically unable to sell or are required to repurchase the loan if it was sold prior to detection of the misrepresentation. Even though we may have rights against persons and entities who made or knew about the misrepresentation, such persons and entities are often difficult to locate and it is often difficult to collect any monetary losses that we have suffered as a result of their actions.

We have controls and processes designed to help us identify misrepresented information in our mortgage loan origination operations. We cannot assure you, however, that we have detected or will detect all misrepresented information in our mortgage loan originations. We are subject to losses due to fraudulent and negligent acts in other parts of our operations. If we experience or detect a significant number of such fraudulent or negligent acts, our business, financial condition, liquidity and results of operations would be significantly harmed.

We may be required to conform to the standards of the recent Ameriquest settlement, which could harm our business.

In January 2006, ACC Capital Holding Corporation and its subsidiaries Ameriquest Mortgage Company, Town & Country Credit Corporation and AMC Mortgage Services Inc., formerly known as Bedford Home Loans, which we refer to collectively as Ameriquest, reached a settlement with various state Attorneys General resolving some of the regulatory complaints and consumer claims made against Ameriquest relating to alleged predatory home mortgage lending. By the terms of the settlement, the second largest federal consumer protection settlement in history, Ameriquest agreed to implement certain new standards and to pay \$325 million to the states, with most of the money to be used to pay restitution to consumers who obtained mortgage loans from Ameriquest between January 1999 and December 2005.

In the settlement, Ameriquest denied all allegations but agreed to implement certain new standards and practices meant to prevent a recurrence of its alleged abuses and unfair and deceptive practices. Many of the settlement's requirements far exceed any express requirements of existing lending laws. Although we believe our historical controls and practices have operated effectively to mitigate the risk of the abuses alleged in the Ameriquest settlement, in many cases our controls and policies are not identical to those prescribed by the Ameriquest settlement. However, some Attorneys General have made public statements that the conduct required by the Ameriquest settlement should be seen as new standards applicable to the entire industry and that they may pursue actions against lenders who do not adhere to the new standards. If the Attorneys General seek to apply these standards to the entire industry or our company in particular, some of our own practices could be called into question and our revenues, business, results of operations and profitability could be harmed. In addition, if it becomes accepted practice that settlements entered with Attorneys General establish new standards for the industry as a whole and supersede existing express legislative requirements, the standards by which we are governed will become less predictable and the risks associated with our business will increase.

Table of Contents

Various legal proceedings are pending and more may be filed in the future which could adversely affect our financial condition or results of operations.

We are named as a defendant in a number of lawsuits seeking significant monetary damages. See Legal Proceedings under Item 1 for a description of material legal actions in which we are involved.

Additional litigation may be filed against us or disputes may arise in the future concerning these or other business practices. In addition, lawsuits have been filed, and other lawsuits may be filed in the future, against our competitors and other businesses, and although we are not a party to such litigation, the results of such lawsuits may create additional risks for, or impose additional costs or limitations on, our business operations.

As courts resolve individual or class action litigation related to our industry, regulations and standards could emerge necessitating material increases in our costs of doing business or preventing us from participating in certain business activities in which we currently engage or may wish to resume in the future. The outcome of litigation and other legal matters is always uncertain. One or more legal matters could result in losses material to our financial condition, results of operations, business and profitability.

If the prepayment rates for our mortgage loans are different than expected, our results of operations may be significantly harmed.

When a borrower pays off a mortgage loan prior to the mortgage loan's scheduled maturity, the impact on us depends upon when such payoff or prepayment occurs. Our prepayment losses generally occur after we sell or securitize our mortgage loans and the extent of our losses depends on when the prepayment occurs. If the prepayment occurs:

within 12 to 18 months following a whole mortgage loan sale, we may have to reimburse the purchaser for all or a portion of the premium paid by the purchaser for the mortgage loan, resulting in a loss of or reduction in our profit on the mortgage loan; or

after we have securitized the mortgage loan, we lose the future income from that mortgage loan.

Prepayment rates on mortgage loans vary from time to time and tend to increase during periods of declining interest rates. Of the securitized mortgage loans we serviced during the quarter ended March 31, 2007, 28% were prepaid. We seek to minimize our prepayment risk through a variety of means, including originating a significant portion of mortgage loans with prepayment penalties with terms of two to five years. No strategy, however, can completely insulate us from prepayment risks, whether arising from the effects of interest rate changes or otherwise. See Statutory and Regulatory Risks below for a discussion of statutes related to prepayment penalties.

Our interest-only mortgage loans may have a higher risk of default than our fully-amortizing mortgage loans and, therefore, may be considered less valuable than other types of mortgage loans in the sales and securitization process.

Our fixed-rate mortgages or adjustable-rate mortgage loans may have initial interest-only periods, typically five years, during which the monthly payments are limited to the amounts required to pay accrued interest due on the mortgage loans. During the quarter ended March 31, 2007, originations of interest-only mortgage loans totaled \$290.2 million, or 15.4%, of total originations. The interest-only feature may reduce the likelihood of prepayment during the interest-only period due to the smaller monthly payments relative to a fully-amortizing mortgage loan. However, upon expiration of the interest-only payment, the borrower's payment will increase to cover the fully amortizing payment. The adjustment to the higher payment amount increases the risk that the borrower will default or prepay the mortgage loan. Because no principal payments may be made on such mortgage loans for an extended period following origination, if the borrower defaults, the unpaid principal balance of the related mortgage loan will be greater than otherwise would be the case, increasing the risk of loss in that situation. For those reasons, among others, these interest-only mortgage loans may be less valuable in the secondary market and may result in lesser proceeds to us when sold or securitized as compared to fully amortizing mortgage loans.

Decreasing home prices or increasing interest rates may impair future earnings from cash-out refinancings.

During the quarter ended March 31, 2007, approximately 70% of our mortgage loan production volume consisted of cash-out refinancings. A substantial and sustained increase in interest rates could significantly reduce the number of borrowers who would qualify or elect to pursue a cash-out refinancing and result in a decline in that origination source. Similarly, decreasing home prices reduce the amount of equity available to be borrowed against in cash-out refinancings and could result in a decrease in mortgage loan production volume from that origination source. Therefore, reliance on cash-out refinancings as a significant source of origination volume would subject us to risks that could harm our results of

operations, financial condition and business prospects.

Table of Contents

If many of our borrowers become subject to the Servicemembers Civil Relief Act of 2003, our cash flows from our residual securities and our securitizations structured as financings may be harmed.

Under the Servicemembers Civil Relief Act, which in 2003 re-enacted the Soldiers and Sailors Civil Relief Act of 1940, a borrower who enters military service after the origination of the borrower's mortgage loan generally may not be charged interest above an annual rate of 6% during the period of the borrower's active duty status. The Act also applies to a borrower who was on reserve status and is called to active duty after origination of the mortgage loan. A prolonged, significant military mobilization as part of the war on terrorism or the war in Iraq could increase the number of the borrowers in our securitized pools who are subject to the Act and thereby reduce the interest payments collected from those borrowers. To the extent the number of borrowers subject to the Act is significant, the cash flows we receive from mortgage loans underlying the securitizations in which we have retained economic residual interests would be reduced, which could cause us to reduce the carrying value of our residual interests and could decrease our earnings. In addition, the Act imposes limitations that would impair the ability of the servicer to foreclose on an affected mortgage loan during the borrower's period of active duty status, and, under certain circumstances, during an additional three month period thereafter. Any such reduction in our cash flows or impairment of our ability to exercise our rights that would otherwise be available could harm our results of operations, financial condition and business prospects.

We are exposed to environmental liabilities, with respect to properties that we take title to upon foreclosure, that could increase our costs of doing business and harm our results of operations.

In the course of our servicing activities, we may foreclose and take title to residential properties and become subject to environmental liabilities with respect to those properties. We may be held liable to a governmental entity or to third parties for property damage, personal injury, investigation and clean-up costs incurred by these parties in connection with environmental contamination, or may be required to investigate or clean up hazardous or toxic substances or chemical releases at a property. The costs associated with investigation or remediation activities could be substantial. Moreover, as the owner or former owner of a contaminated site, we may be subject to common law claims by third parties based upon damages and costs resulting from environmental contamination emanating from the property. If we ever become subject to significant environmental liabilities, our business, financial condition, liquidity and results of operations would be significantly harmed.

Statutory and Regulatory Risks

The scope of our operations exposes us to risks of noncompliance with an increasing and inconsistent body of complex laws and regulations at the federal, state and local levels.

Because our business is set up to originate mortgage loans in all 50 states, in the District of Columbia and Canada, when we originate mortgage loans, we must comply with the laws and regulations, as well as judicial and administrative decisions, of all of these jurisdictions, as well as an extensive body of federal and international laws and regulations. The volume of new or modified laws and regulations has increased in recent years, and, in addition, individual cities and counties have begun to enact laws that restrict non-prime mortgage loan origination activities in those cities and counties. The laws and regulations of each of these jurisdictions are different, complex and, in some cases, in direct conflict with each other. As this proliferation of laws and regulations continues, it may be more difficult to comprehensively identify, to accurately interpret and to properly program our technology systems and effectively train our personnel with respect to all of these laws and regulations, thereby potentially increasing our exposure to the risks of noncompliance with these laws and regulations.

In light of the recent challenges in the mortgage industry, numerous legislative and regulatory proposals have been offered or enacted at the federal, state, and local government levels to address perceived market failures, address abusive lending practices, and restrict loan products, terms and conditions. For example at the federal level, the federal banking agencies published *Interagency Guidance on Nontraditional Product Risks* on October 4, 2006 and a *Statement on Subprime Lending* on June 29, 2007. At the state level, the Conference of State Bank Supervisors (CSBS) and the American Association of Residential Mortgage Regulators (AARMR) issued *Guidance on Nontraditional Mortgage Product Risks* on November 14, 2006 and, on July 17, 2007, the CSBS, AAMR and the National Association of Consumer Credit Administrators issued a *Statement on Subprime Mortgage Lending*, each of which guidance documents are intended to substantially mirror the federal guidance. More than three dozen states have adopted in some fashion the *Guidance on Nontraditional Mortgage Product Risks* and the CSBS has asserted that 26 states are prepared to adopt on an expedited basis the *Statement on Subprime Mortgage Lending*.

In addition, government enforcement actions and private litigation may increase given the current scrutiny of the industry. These developments could, among other things, limit the range of loan products, reduce the pool of applicants who are eligible to obtain loans and restrict the volume and profitability of loan origination, investment and servicing activities, in addition to increasing exposure to risks of noncompliance with governing laws and regulations. As a result, these developments could have a material adverse impact on our results of operations, financial condition and business prospects.

Table of Contents

In addition, recently enacted and changed laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new Securities and Exchange Commission regulations and stock exchange rules, are creating uncertainties for companies like ours. These new or changed laws, regulations and standards are subject to varying interpretations due, in many cases, to their lack of specificity. As their applications evolve over time and new guidance is provided by regulatory and governing bodies, we may incur higher costs of compliance resulting from ongoing revisions to our disclosure and governance practices.

Our failure to comply with these laws can lead to:

civil and criminal liability;

loss of approved status;

demands for indemnification or mortgage loan repurchases from purchasers of our mortgage loans;

class action lawsuits;

administrative enforcement actions; or

delisting of our shares from securities markets.

Stockholder refusal to comply with regulatory requirements may interfere with our ability to do business in certain states.

Some states in which we operate may impose regulatory requirements on our officers and directors and persons holding certain amounts, usually 10% or more, of our common stock. If any person holding such an amount of our stock fails to meet or refuses to comply with a state's applicable regulatory requirements for mortgage lending, we could lose our authority to conduct business in that state.

We may be subject to fines or other penalties based upon the conduct of our independent brokers.

The mortgage brokers which are the source of wholesale mortgage loan originations are subject to legal obligations which are parallel to, but separate from, the legal obligations that we are subject to as a lender. While these laws may not explicitly hold the originating lenders responsible for the legal violations of mortgage brokers, federal and state agencies have increasingly sought to impose such assignee liability.

For example, the United States Federal Trade Commission (FTC) entered into a settlement agreement with a mortgage lender in which the FTC characterized a broker that had placed all of its mortgage loan production with a single lender as the agent of the lender. The FTC imposed a fine on the lender in part because, as principal, the lender was legally responsible for the mortgage broker's unfair and deceptive acts and practices. Also, the United States Justice Department in the past has sought to hold a non-prime mortgage lender responsible for the pricing practices of its mortgage brokers, alleging that the mortgage lender was directly responsible for the total fees and charges paid by the borrower under the Fair Housing Act even if the lender neither dictated what the mortgage broker could charge nor kept the money for its own account. Accordingly, we may be subject to fines or other penalties based upon the conduct of our independent mortgage brokers.

The increasing number of federal, state and local anti-predatory lending laws may restrict our ability to originate, or increase our risk of liability with respect to, certain mortgage loans and could increase our cost of doing business.

In recent years, several federal, state and local laws, rules and regulations have been adopted, or are under consideration, that are intended to eliminate so-called predatory lending practices. These laws, rules and regulations impose certain restrictions on mortgage loans on which certain points and fees or the annual percentage rate (APR) exceeds specified thresholds, commonly referred to as high cost mortgage loans. Some of these restrictions expose a lender to risks of litigation and regulatory sanction no matter how carefully a mortgage loan is underwritten. In addition, an increasing number of these laws, rules and regulations seek to impose liability for violations on purchasers of mortgage loans,

regardless of whether a purchaser knew of or participated in the violation.

We have generally avoided and will continue to avoid originating high cost mortgage loans because the rating agencies generally will not rate securities backed by such mortgage loans, and the companies that buy our mortgage loans and/or provide financing for our mortgage loan origination operations generally do not want to buy or finance such mortgage loans. The continued enactment or adoption of these laws, rules and regulations may prevent us from making certain mortgage loans that we would otherwise make, may cause us to cease operations in certain jurisdictions altogether and may cause us to reduce the APR or the points and fees on mortgage loans that we do make. In addition, the difficulty of managing the risks presented by these laws, rules and regulations may decrease the availability of warehouse financing and the overall demand for non-prime mortgage loans, making it difficult to fund, sell or securitize any of our mortgage loans. If we decide to relax our restrictions on mortgage loans subject to these laws, rules and regulations, we will be subject to greater risks for

Table of Contents

actual or perceived non-compliance with such laws, rules and regulations, including demands for indemnification or mortgage loan repurchases from our lenders and mortgage loan purchasers, class action lawsuits, increased defenses to foreclosure of individual mortgage loans in default, individual claims for significant monetary damages, and administrative enforcement actions. If nothing else, the growing number of these laws, rules and regulations will increase our cost of doing business, as we are required to develop systems and procedures to ensure that we do not violate any aspect of these new requirements. Any of the foregoing could significantly harm our business, financial condition, liquidity and results of operations.

Risks Related to Our Capital Structure

Our guarantee of the Series A preferred shares of the REIT is senior to claims of our common stockholders.

Our guarantee of dividend and principal payments on the Series A preferred shares of the REIT is subordinate to all of our existing and future indebtedness but is senior to our common stock. As a result, upon any distribution to our creditors in a bankruptcy, liquidation or reorganization or similar proceeding, the holders of the Series A preferred shares will be entitled to be paid in full under the guarantee before any payment may be made to holders of our common stock.

Our right to participate in distribution of assets of our subsidiaries upon the latter's liquidation or reorganization will be subject to prior claims of the subsidiary's creditors.

We are a holding company and our assets consist primarily of investments in our subsidiaries. Substantially all of our consolidated liabilities have been incurred by our subsidiaries. Therefore, our right to participate in the distribution of assets of any subsidiary upon the latter's liquidation or reorganization will be subject to prior claims of the subsidiary's creditors, including trade creditors, except to the extent that we may be a creditor with recognized claims against the subsidiary, in which case our claims would still be subject to the prior claims of any secured creditor of such subsidiary and of any holder of indebtedness of such subsidiary that is senior to that held by us.

If the REIT fails to maintain its status as a real estate investment trust, the REIT will be subject to federal and state income tax on taxable income at regular corporate rates, and the value of our common stock may be adversely impacted as a result.

The REIT was organized to qualify for taxation as a real estate investment trust under the Internal Revenue Code of 1986, as amended (the Code). The REIT has conducted, and intends to continue to conduct, its operations so as to qualify as a real estate investment trust. Qualification as a real estate investment trust involves the satisfaction of numerous requirements, some on an annual and some on a quarterly basis, established under highly technical and complex provisions of the Code for which there are only limited judicial and administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within the REIT's control. For instance, in order to qualify as a real estate investment trust, the REIT's shares of beneficial interest must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of twelve months (other than the first year for which an election to be a real estate investment trust has been made) or during a proportionate part of a shorter taxable year. Also, no more than 50% of the value of the outstanding shares of beneficial interest of the REIT may be beneficially owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) (the Ownership Test). Furthermore, each year the REIT must distribute to its shareholders at least 90% of the REIT's taxable income (the Annual Distribution Requirements). We cannot assure you that the REIT will at all times satisfy these rules and tests.

If the REIT were to fail to timely meet the Annual Distribution Requirements, satisfy the Ownership Test or otherwise qualify as a real estate investment trust in any taxable year, the REIT would be subject to federal and state income tax, including any applicable alternative minimum tax, on its taxable income at regular corporate rates. Moreover, unless entitled to relief under certain statutory provisions, the REIT would also be disqualified from treatment as a real estate investment trust for the four taxable years following the year during which the qualification is lost. This treatment would reduce the REIT's net earnings and cash flow available for distribution to shareholders, including to us as holder of the REIT's common shares, because of its additional tax liability for the years involved. Additionally, distributions to shareholders would no longer be required to be made by the REIT. Accordingly, the REIT's failure to qualify as a real estate investment trust could have a material adverse impact on our financial results and the value of the common stock held by our stockholders.

Moreover, in order to satisfy the Ownership Test, among other purposes, the REIT's Declaration of Trust establishes certain ownership restrictions on its shares of beneficial interest. For example, no person, unless exempted by the REIT's board of trustees, may beneficially own more than 9.8% of the value of all outstanding shares of the REIT. Even with this restriction, depending on the concentration of ownership of our stock and the relative value in the REIT's common and preferred shares, it is possible that our ownership of the REIT's common shares would cause the REIT to fail to satisfy the Ownership Test. In such a situation, the Declaration of Trust would require that the number of the REIT common shares held

Table of Contents

by us which causes the REIT to fail to satisfy the Ownership Test be transferred to a charitable trust at a price no greater than the fair market value of the REIT common shares as of such date, and we would have no future beneficial interest in such REIT common shares (including the right to vote or receive dividends on such REIT common shares).

The market price of our common stock has been and in the future may be volatile.

The market price for our common stock has fluctuated due to a number of factors, including:

the current turbulence in the non-prime mortgage industry, the failure of many industry participants, and our own financial troubles;

the perceived viability of our lawsuit against Lone Star for specific performance of their obligations to close their tender offer and complete the merger with the Company;

changes in housing costs;

variations in quarterly operating results;

investor perceptions of our company and the mortgage industry generally (including the non-prime and nonconforming mortgage industry);

the potential issuance of new equity securities pursuant to a future offering;

changes in interest rates;

the depth and liquidity of the market for our common stock;

general economic and other national conditions and the impact they may have on the operating assets of the Company;

competitive developments, including announcements by us or our competitors of new products or services or significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments; and

changes in financial estimates and forecasts published by securities analysts, or changes in ratings.

We can make no assurances that the market price for our common stock will not continue to experience substantial fluctuations. In addition, renewed terrorist attacks, or threats of attacks, may contribute to global unrest, an economic slowdown and to instability in the U.S. and other global equity markets. All of these factors may increase the volatility of our stock price.

Some provisions of our certificate of incorporation and bylaws may deter takeover attempts, which may limit the opportunity of our stockholders to sell their shares at a favorable price.

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

Some of the provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire us, even if doing so might be beneficial to our stockholders by providing them with the opportunity to sell their shares possibly at a premium over the then market price.

For example, our board of directors is divided into three classes. At each annual meeting of stockholders, the terms of approximately one-third of the directors will expire, and new directors will be elected to serve for three years. The term of the first class expires at the 2007 annual meeting of stockholders, the term of the second class expires in 2008, and the term of the third class expires in 2009. Thus, it will take at least two annual meetings to effect a change in control of our board of directors because a majority of the directors cannot be elected at a single meeting, which may delay, discourage, prevent or make it more difficult or costly to acquire or effect a change in control, even if such a change in control would be favorable to our stockholders.

In addition, our certificate of incorporation authorizes the board of directors to issue up to 5,000,000 shares of preferred stock. The preferred stock may be issued in one or more series, the terms of which may be determined at the time of issuance by our board of directors without further action by the stockholders. These terms may include voting rights including the right to vote as a series on particular matters, preferences as to dividends and liquidation, conversion rights, redemption rights and sinking fund provisions. No shares of preferred stock are presently outstanding. The issuance of any preferred stock in the future could diminish the rights of holders of our common stock, and therefore could reduce the value of our common stock. In addition, specific rights granted to future holders of preferred stock could be used to restrict our ability to merge with, or sell assets to, a third party. The ability of our board of directors to issue preferred stock could delay, discourage, prevent or make it more difficult or costly to acquire or effect a change in control, even if such a change in control would be favorable to our stockholders.

Table of Contents

Our bylaws contain provisions that require stockholders to act only at a duly-called meeting and make it difficult for any person other than management to introduce business at a duly-called meeting by requiring such other person to follow certain notice procedures.

Finally, we are also subject to Section 203 of the Delaware General Corporation Law which, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder. The preceding provisions of our certificate of incorporation and bylaws, as well as Section 203 of the Delaware General Corporation Law, could discourage potential acquisition proposals, or delay or prevent a change of control and prevent changes in our management, even if such things would be in the best interests of our stockholders.

Risk Factors Related to the Proposed Merger

Our businesses may be adversely impacted by the pending merger with Lone Star and if the pending merger is not consummated.

We have spent significant time and money preparing for our pending merger with Lone Star. There are uncertainties and other factors that may affect our business prior to the closing of Lone Star's tender offer for our common stock and the consummation of the merger, including:

the outcome of any litigation and judicial actions that have been or may be instituted against us and others relating to the merger agreement, including legislative action, referenda and taxation;

certain costs relating to the merger, such as legal, accounting and financial advisory fees, are payable by us whether or not the merger is completed;

risks that the proposed transaction disrupts our current plans and operations, and the potential difficulties for our employee retention as a result of the announcement of the merger; and

the effect of the announcement of the merger on our customer relationships, operating results and business generally.

There are also uncertainties and other factors that may affect the timing of the closing of the tender offer and the consummation of the merger, as well as if the merger will be consummated, including:

The outcome of our pending lawsuit against Lone Star for specific performance of their obligations to close the tender offer and consummate the merger;

the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement;

the inability to complete the merger due to the failure to obtain 50% of the shares through the tender offer, stockholder approval or the failure to satisfy other conditions to consummation of the merger;

the failure of the merger to close for any other reason;

risks that the proposed transaction disrupts our current plans and operations, and the potential difficulties for our employee retention as a result of (a) any delay of the completion of the merger, or (b) the completion of the merger; and

Edgar Filing: ACCREDITED HOME LENDERS HOLDING CO - Form 10-Q

the effect of the completion of the merger on our customer relationships, operating results and business generally. In addition, the current market price of our common stock may reflect a market assumption that the merger will occur, and failure to complete the merger could result in a decline in the market price of our common stock.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

See discussion under Market Risk in ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. Accredited maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e). Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of March 31, 2007, our disclosure controls and procedures were not effective because of the identification of material weaknesses in our internal controls over financial reporting as of March 31, 2007, relating to the application of U.S. generally accepted accounting principles relating to the merger of Aames Investment Corporation as discussed in Part II, Item 9A. Controls and Procedures in Form 10-K for the year ended December 31, 2006.

As of the filing date of this report, the Company has not fully remediated the material weaknesses in the Company's internal controls over financial reporting as of December 31, 2006. However, during 2007, management will take a number of steps that it believes will impact the effectiveness of our internal control over our financial reporting including the following:

For any future business combinations, management will take steps to improve the analysis of the impact to resources, training, education, documentation and accounting reviews to ensure that all relevant internal personnel involved understand and interpret proper accounting principles relating to purchase accounting. In addition, the Company anticipates focusing additional resources on accounting for hedge activities.

(b) Changes in Internal Controls. There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
