(3) Changes in accounting procedures since the last consolidated fiscal year: None.

Note: See 4.Others of Qualitative Information, Financial Statements and Others on page 5 for more details.

2

[Qualitative Information, Financial Statements and Others]

1. Management Performance (Consolidated)

Notes: 1) In accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, certain business results of the operations, which were discontinued during the fiscal year ended March 31, 2007, are reclassified retrospectively for nine months ended December 31, 2006.

2) From the fiscal year ending March 31, 2008, Komatsu changes its business segment into two, i.e., Construction and Mining Equipment, and Industrial Machinery, Vehicles and Others. The figures for the corresponding nine months period last year are reclassified accordingly.

Consolidated net sales for nine months of the fiscal year, ending March 31, 2008, increased 21.6% over the corresponding nine-month period a year ago, to ¥1,629.0 billion (US\$14,290 million, at US\$1=¥114). Operating income for nine months reached ¥241.4 billion (US\$2,118 million), advancing 42.9% over the previous nine-month period. Both sales and operating income renewed record highs for all nine-month periods. The operating income ratio for nine months improved by 2.2 percentage points to 14.8%. Construction and Mining Equipment and Industrial Machinery, Vehicles and Others businesses continued to expand earnings.

We at the Komatsu Group anticipate that demand for our products will continue to expand against the backdrop of resource and infrastructure developments around the world. We are going to build another new plant to produce super-large hydraulic excavators near the Port of Kanazawa in Ishikawa Prefecture in Japan, a new plant to make crawlers for construction equipment in Shandong, China, and a new plant to manufacture medium-sized hydraulic excavators, forklift trucks and other equipment, in Yaroslavl, Russia.

Results by operation are summarized below.

Note: Segment profits mentioned in the review of operations below are obtained by subtracting cost of sales and selling, general and administrative expenses from net sales.

Construction and Mining Equipment

Consolidated net sales of construction and mining equipment for nine months under review advanced 23.1% over the corresponding nine-month period a year ago, to ¥1,377.6 billion (US\$12,085 million). As demand for our equipment continued to expand, we increased our production capacity in collaboration with our suppliers, and we also began our efforts to establish a cross-sourcing operation designed to meet changes in regional demand. We also worked to expand sales of DANTOTSU products, realize our prices and reinforce our product support capability.

In Europe & CIS, China, Asia & Oceania, and the Middle East & Africa, we boosted sales by capitalizing on thriving demand for our equipment in infrastructure development and mining sectors. In the Americas, while North American demand dropped, that in Latin America remained strong, and we sustained sales at about the same level as those for the corresponding nine-month period a year ago. In Japan, sales increased slightly due mainly to intensified competition and the withdrawal from unprofitable businesses.

Segment profit of the construction and mining equipment business advanced 42.3% over the corresponding nine-month period a year ago, to ¥217.3 billion (US\$1,906 million).

Sales of Construction and Mining Equipment by Region

			Millions of	yen

Middle East & Africa	153,224	106,772	46,452	43.5%
Total	1,377,653	1,118,815	258,838	23.1%

Industrial Machinery, Vehicles and Others

Consolidated net sales of industrial machinery, vehicles and other operations reached \(\frac{4}{251.3}\) billion (US\\$2,205\) million), registering an increase of 13.9% over the corresponding nine-month period a year ago. In addition to expanding sales of forklift trucks in Greater Asia markets, such as Asia, CIS and the Middle East, we accelerated sales of industrial machinery, such as large presses and machine tools, especially in India where sales of automobiles was expanding sharply in volume.

Segment profit of the industrial machinery, vehicles and others business improved 19.3% over the corresponding nine-month period a year ago, to ¥25.4 billion (US\$223 million).

The ARION Hybrid, an electric hybrid forklift truck made by Komatsu Utility Co., Ltd., received The Minister of Economy, Trade and Industry Award, the highest award in the FY2006 Awards for Energy-Conserving Machinery sponsored by The Japan Machinery Federation.

2. Financial Conditions (Consolidated)

Total assets at December 31, 2007 amounted to ¥1,992.0 billion (US\$17,474 million), an increase of ¥148.0 billion from March 31, 2007. This particularly reflects increased inventories resulting from expanded production in response to thriving demand for construction and mining equipment. Interest-bearing debt increased by ¥34.2 billion from March 31, 2007, to ¥383.3 billion (US\$3,363 million). Shareholders equity reached ¥892.8 billion (US\$7,832 million), an increase of ¥116.1 billion. As a result, shareholders equity ratio increased by 2.7 percentage points, to 44.8%. Net debt-to-equity ratio * translated into 0.30, compared to 0.33 at March 31, 2007.

4

^{*} Net debt-to-equity ratio = (Interest-bearing debt Cash and cash equivalents Time deposits)/Shareholders equity

3. Projections for the Fiscal Year Ending March 31, 2008 (Consolidated)

(From April 1, 2007 to March 31, 2008)

As of the date of this news release, no changes have been made to the projection of October 30, 2007. While the U.S. dollar is depreciating against the Japanese yen in light of the exchange rate which we anticipated, we are projecting more-than-anticipated sales, especially in emerging economies.

With respect to foreign exchange rates, which are preconditions for our projection of business results, we are assuming ¥106 per US\$1 and ¥156 per EUR1 on average for the fourth quarter (January through March 2008). For the full fiscal year, we have changed the earlier assumptions of ¥117 per US\$1 and ¥159 per EUR1 to ¥114 and ¥162, respectively.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management s current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for the Company s principal products, owing to changes in the economic conditions in the Company s principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving the Company s objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of the Company s research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.
