Management's Discussion of Fund Performance

Fund Performance

Periods ended December 31, 2007

	Three Months	One Year	Average Annual Total Returns		
			Three Years	Five Years	Since Inception ^A
Total Fund Investment Return Based on:					
Market Value	(4.97)%	(5.79)%	1.50%	7.09%	6.47%
Net Asset Value	(2.16)%	2.17%	5.58%	9.91%	8.92%
Lehman High Yield Index ^B	(1.30)%	1.87%	5.39%	10.90%	8.82%
Lehman US Credit Index ^C	(2.19)%	5.11%	3.77%	4.84%	6.06%

The performance data quoted represents past performance and does not guarantee future results. The performance stated may have been due to extraordinary market conditions which may not be duplicated in the future. Current performance may be lower or higher than the performance data quoted. The investment return and principal value of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than the original cost. Calculations assume reinvestment of dividends and capital gain distributions. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

2007 was a tale of two markets. The first six months were reasonably benign. Then came the crisis in the fixed-income markets in the second half. The TED^D spread, a measure of systemic risk, rose four-fold during the period. The yield on the two-year Treasury declined 181 basis points^E (bps) from its June 30th level, driving a powerful rally in the Treasury market. Investors began to suspect that the Federal Reserve Board^F (Fed) had reached the end of its tightening cycle and would need to begin easing. These expectations were subsequently validated by the Fed's decision to cut the federal funds rate^G by a total of 100 bps at the final three Federal Open Market Committee^H meetings of the year. Short-term interest rates fell sharply, partly a result of the flight to quality. Long-term rates declined as well. Core inflation measures were tame but the Fed showed signs of hesitation in the use of monetary stimulus as headline measures remained uncomfortably high. Home prices declined and housing market indicators deteriorated markedly as the year progressed. Despite the ongoing weakness in residential construction and the collapse of the subprime lending market, economic growth picked up in the second and third quarters, largely due to a boom in nonresidential construction and net exports. Credit spreads widened significantly versus similar duration U.S. Treasuries with most of the losses arising in the second half of the year. Increasing uncertainty over the degree of subprime losses forced swap spreads sharply higher, negatively affecting mortgage-backed securities. The price of oil approached \$100 per barrel while gold prices reached new record highs. The dollar lost substantial value against a trade-weighted basket of currencies. Equity markets managed to produce small gains despite large losses in the final two months of the period.

The total return of the Fund, including reinvestment of dividends for the annual period ending December 31, 2007, was -5.79% based on market price. Based on net asset value (NAV), the annual return for the Fund was 2.17%. The Fund underperformed the Lehman U.S. Credit Index, which returned 5.11%. The Fund's discount to NAV increased from 2.33% at the end of 2006 to 7.92% at December 31, 2007. The Fund's exposure to high yield securities hurt performance as the Lehman High Yield Index returned 1.87%. An overweight to financials, and specifically capital securities within the financial arena, which returned 0.03%, hurt relative performance. Finally, issue selection detracted from performance due largely to exposure to Residential Capital, Countrywide Financial and GMAC, which returned -31.98%, -23.22% and -11.65%, respectively.

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

Western Asset Management Company

February 19, 2008

- ^A *The Fund's inception date is March 28, 2002.*
- ^B *Lehman High Yield Index* A market value-weighted index that tracks the daily price, coupon, and total return performance of non-investment grade, fixed rate, publicly placed, dollar-denominated, and non-convertible debt registered with the U.S. Securities and Exchange Commission. An index does not incur fees and expenses and cannot be purchased directly by investors.
- ^C *Lehman US Credit Index* This index consists of publicly issued U.S. corporate and specified foreign debentures and secured notes that meet the specified maturity, liquidity, and quality requirements. To qualify, bonds must be SEC-registered. The index includes both corporate (industrial, utility and finance) and non-corporate (sovereign, supranational, foreign agency, and foreign local government) sectors.
- ^D *Ted Spread (TED)* The price difference between three-month futures contracts for U.S. Treasuries and three-month contracts for euros having identical expiration months.
- ^E *100 basis points = 1.00%*
- ^F *The Federal Reserve Board (Fed) is charged with, among other things, managing the nation's monetary policy by influencing the monetary and credit conditions in the economy in pursuit of maximum employment, stable prices, and moderate long-term interest rates.*
- ^G *The federal funds rate is the interest rate at which a depository institution lends immediately available funds (balances at the Federal Reserve) to another depository institution overnight.*
- ^H *Federal Open Market Committee* The branch of the Federal Reserve Board that determines the direction of monetary policy. The FOMC is composed of the Board of Governors, which has seven members, and five reserve bank presidents. The president of the Federal Reserve Bank of New York serves continuously, while the presidents of the other reserve banks rotate in their service of one-year terms.

Per Common Share	\$0.09	\$0.01

The Fund

Western Asset Premier Bond Fund (WEA or the Fund) is a diversified, closed-end management investment company which seeks to provide current income and capital appreciation for its shareholders by investing primarily in a diversified portfolio of investment grade bonds. Substantially all of the Fund's net investment income (after payment of dividends to holders of preferred shares and interest in connection with other forms of leverage (if applicable)) is distributed to the Fund's common shareholders. A Dividend Reinvestment Plan is available to those common shareholders of record desiring it. The Fund's common shares are listed on the New York Stock Exchange (NYSE) where they trade under the symbol WEA.

Dividend Reinvestment Plan

The Fund and Computershare Trust Company N.A. (Agent), as the Transfer Agent and Registrar of the Fund, offer a convenient way to add shares of the Fund to your account. The Fund offers to all common shareholders a Dividend Reinvestment Plan (Plan). Under the Plan, cash distributions (e.g., dividends and capital gains) on the common shares are automatically invested in shares of the Fund unless the shareholder elects otherwise by contacting the Agent at the address set forth below.

As a participant in the Dividend Reinvestment Plan you will automatically receive your dividend or net capital gains distribution in newly issued shares of the Fund if the market price of a share on the date of the distribution is at or above the NAV of a Fund share, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market, the Agent will, as agent for the participants, buy shares of the Fund through a broker on the open market. The price per share of shares purchased for each participant's account with respect to a particular dividend or other distribution will be the average price (including brokerage commissions, transfer taxes and any other costs of purchase) of all shares purchased with respect to that dividend or other distribution. All common shares acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent. Full and fractional shares will be voted by Computershare in accordance with your instructions.

Additional Information Regarding the Plan

The Fund will pay all costs applicable to the Plan, except for brokerage commissions for open market purchases by the Agent under the Plan, which will be charged to participants. All shares acquired through the Plan receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Trustees may declare.

Annual Report to Shareholders

You may terminate participation in the Plan at any time by giving written notice to the Agent. Such termination will be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant will receive a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue Service (IRS) and only one Form 1099-DIV will be sent to participants each year.

Inquiries regarding the Plan, as well as notices of termination, should be directed to Computershare Trust Company, N.A. P.O. Box 43010, Providence, Rhode Island 02940-3010 Investor Relations Telephone number 1-800-426-5523.

Schedule of Portfolio Holdings

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. You may obtain a free copy of the Fund's Form N-Q by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the Securities and Exchange Commission's (SEC) website (<http://www.sec.gov>). Additionally, the Fund's Form N-Q can be viewed or copied at the SEC's Public Reference Room in Washington D.C. Information about the operation of the Public Reference Room can be obtained by calling 1-202-551-8090.

Annual Certifications

In May 2007, the Fund submitted its annual CEO certification to the NYSE in which the Fund's principal executive officer certified that he was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Proxy Voting

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information relating to the Fund) from the SEC's web site (<http://www.sec.gov>). You may request a free report regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund), from the SEC's website (<http://www.sec.gov>).

N.M. Not Meaningful.

^A Rule 144a Security A security purchased pursuant to Rule 144a under the Securities Act of 1933, which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund's investment adviser has determined to be liquid, represent 22.1% of net assets.

^B

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

Indexed Security The rates of interest earned on these securities are tied to the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) Index, the Consumer Price Index (CPI), the one-year Treasury Bill Rate or the ten-year Japanese Government Bond Rate. The coupon rates are the rates as of December 31, 2007.

^C *Stepped Coupon Security* A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends according to the predetermined schedule.

^D *All or a portion of this security is collateral to cover futures and options contracts written.*

^E *Pay-in-Kind (PIK) security* A security in which interest or dividends during the initial few years is paid in additional PIK securities rather than in cash.

Annual Report to Shareholders

^F *Credit Linked Security* The rates of interest earned on these securities are tied to the credit rating assigned by Standard & Poor's Rating Service and/or Moody's Investors Services.

^G *Subsequent to December 31, 2007 the Bond is in default.*

^H *Convertible Security* Security may be converted into the issuer's common stock.

^I *Zero coupon bond* A bond with no periodic interest payments which is sold at such a discount as to produce a current yield to maturity.

^J *Illiquid security valued at fair value under the procedures approved by the Board of Directors.*

^K *Yankee Bond* A dollar-denominated bond issued in the U.S. by foreign entities.

^L *Stripped Security* Security with interest-only or principal-only payment streams, denoted by a 1 or 2, respectively. For interest-only securities, the amount shown as principal is the notional balance used to calculate the amount of interest due.

^M *The coupon rates shown on variable rate securities are the rates at December 31, 2007. These rates vary with the weighted average coupon of the underlying loans.*

^N *Position, or a portion thereof, with an aggregate market value of \$16,205 has been segregated to collateralize reverse repurchase agreements.*

^O *Treasury Inflation-Protected Security* Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index for All Urban Consumers. Interest is calculated on the basis of the current adjusted principal value.

^P *When-issued Security* Security purchased on a delayed delivery basis. Final settlement amount and maturity date have not yet been announced.

^Q *Inflation-Protected Security* Security whose principal value is adjusted daily or monthly in accordance with changes to the relevant country's Consumer Price Index or its equivalent used as an inflation proxy. Interest is calculated on the basis of the current adjusted principal value.

^R *Amount less than 50.*

^S *At December 31, 2007, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes was substantially as follows:*

Gross unrealized appreciation	\$ 9,731
Gross unrealized depreciation	(9,855)
Net unrealized appreciation	\$ (124)

^T *Futures are described in more detail in the notes to financial statements.*

Securities are denominated in U.S. Dollars, unless otherwise noted.

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

- ^A *Computed using average daily shares outstanding.*
- ^B *Total expenses reflects operating expenses prior to any voluntary expense waivers and/or compensating balance credits. Expenses net of waivers reflects total expenses before compensating balance credits but net of any voluntary expense waivers. Expenses net of all reductions reflects expenses less any compensating balance credits and/or voluntary expense waivers.*
- ^C *Ratios are calculated on the basis of income and expenses applicable to both the common and preferred shares relative to the average net assets of common shareholders. Ratios of net investment income before preferred share dividends to average net assets of common shareholders are 8.45%, 9.21%, 8.99%, 8.85% and 9.11%, respectively.*
- ^D *Asset coverage on preferred shares equals the net assets of common shares plus the redemption value of the preferred shares divided by the value of outstanding preferred stock.*

See notes to financial statements.

Annual Report to Shareholders

Notes to Financial Statements

(Amounts in Thousands)

1. Significant Accounting Policies:

Western Asset Premier Bond Fund (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund commenced investment operations on March 28, 2002.

The Fund's investment objective is to provide current income and capital appreciation by investing primarily in a diversified portfolio of investment grade bonds. The Fund currently seeks to achieve its investment objective by investing substantially all of its assets in bonds, including corporate bonds, U.S. government and agency securities and mortgage-related securities. The ability of the issuers of the securities held by the Fund to meet their obligations might be affected by, among other things, economic developments in a specific state, industry or region.

Preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements:

Security Valuation

The Fund's securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The Fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

With respect to the Fund, when a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund's adviser to be the primary market. The Fund values its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.

Security Transactions

Security transactions are accounted for as of the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

For the year ended December 31, 2007, security transactions (excluding short-term investments) were as follows:

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

Purchases		Proceeds from Sales	
U.S. Gov t. Securities	Other	U.S. Gov t. Securities	Other
\$177,285	\$ 52,819	\$178,402	\$ 53,166

Foreign Currency Translation

Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars using currency exchange rates determined prior to the close of trading on the New York Stock Exchange, usually at 2:00 p.m. Eastern time. Purchases and sales of securities and income and expenses are translated into U.S. dollars at the prevailing market rates on the dates of such transactions. The effects of changes in non-U.S. currency exchange rates on investment securities and other assets and liabilities are included with the net realized and unrealized gain or loss on investment securities.

Repurchase Agreements

The Fund may engage in repurchase agreement transactions. Under the terms of a typical repurchase agreement, a fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and a fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the fund's holding period. This arrangement results in a

Annual Report to Shareholders

fixed rate of return that is not subject to market fluctuations during the fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligation, including interest. In the event of counterparty default, a fund has the right to use the collateral to satisfy the terms of the repurchase agreement. However, there could be potential loss to the fund in the event the fund is delayed or prevented from exercising its right to dispose of the collateral securities, including the risk of a possible decline in the value of the collateral securities during the period in which the fund seeks to assert its rights. The Fund's investment adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement, a fund sells a security subject to an obligation to repurchase the security from the buyer at an agreed-upon time and price, thereby determining the yield to the buyer during the buyer's holding period. A reverse repurchase agreement involves the risk, among others, that the market value of the collateral retained by the fund may decline below the price of the securities the fund has sold but is obligated to repurchase under the agreement. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the fund's use of the proceeds of the agreement may be restricted pending a determination by the party, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities. In entering into reverse repurchase agreements, the Fund will maintain cash, U.S. government securities or other liquid debt obligations at least equal in value to its obligations with respect to reverse repurchase agreements or will take other actions permitted by law to cover its obligations.

Options, Futures and Swap Agreements

The current market value of an exchange traded option is the last sale price or, in the absence of a sale, the mean between the closing bid and asked price. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As the contract's value fluctuates, payments known as variation margin are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a gain or loss when the contract is closed. Swap agreements are generally priced daily based upon valuations furnished by an independent pricing service and the change, if any, is recorded as unrealized appreciation or depreciation.

Forward Currency Exchange Contracts

As part of its investment program, the Fund may utilize forward currency exchange contracts. Forward foreign exchange contracts are marked-to-market daily using foreign currency exchange rates supplied by an independent pricing service. The change in the contract's market value is recorded by the Fund as an unrealized gain or loss. When a contract is closed or delivery is taken, the Fund records a realized gain or loss equal to the difference between the value of the contact at the time it was opened and the value at the time it was closed.

The use of forward foreign currency exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's securities, but it does establish a rate of exchange that can be achieved in the future. These forward foreign currency exchange contracts involve market risk in excess of amounts reflected in the financial statements. Although forward foreign currency exchange contracts used for hedging purposes limit the risk of loss due to the decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

The Fund had no outstanding forward foreign currency exchange contracts as of December 31, 2007.

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the market price of that security. The Fund must then borrow the security sold short and deliver it to the dealer that brokered the short sale. A gain, limited to the price at which the security was sold short, or a loss, potentially unlimited in size, will be recognized upon the termination of the short sale. With respect to each short sale, the Fund must maintain collateral in a segregated account consisting of liquid assets with a value at least equal to the current market value of the shorted securities, marked-to-market daily, or take other actions permitted by law to

Annual Report to Shareholders

Notes to Financial Statements Continued

cover its obligations. Dividend expenses and fees paid to brokers to borrow securities in connection with short sales are considered part of the cost of short sale transactions. Dividends declared on securities sold short are recorded as an expense on the ex-dividend date.

The Fund had no open short sales as December 31, 2007.

Distributions to Common Shareholders

Investment income and distributions to shareholders are recorded on the ex-dividend date. Dividends from net investment income are declared and paid monthly. Net capital gain distributions are declared and paid after the end of the tax year in which the gain is realized. An additional distribution may be made in December to the extent necessary in order to comply with federal excise tax requirements. Distributions are determined in accordance with federal income tax regulations, which may differ from those determined in accordance with accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under federal income tax regulations. Interest income and expenses are recorded on the accrual basis. Bond discounts and premiums are amortized and included in interest income for financial reporting and federal income tax purposes.

Compensating Balance Credits

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

Credit and Market Risk

Investments in structured securities collateralized by residential real estate mortgages are subject to certain credit and liquidity risks. When market conditions result in an increase in default rates of the underlying mortgages and the foreclosure values of underlying real estate properties are materially below the outstanding amount of these underlying mortgages, collection of accrued interest and principal on these investments may be doubtful. Such market conditions may significantly impair the value of these investments resulting in a lack of correlation between their credit ratings and values.

Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent upon claims that may be made against the Fund in the future and, therefore, cannot be estimated; however,

based on experience, the risk of material loss from such claims is considered remote.

2. Federal Income Taxes

It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of December 31, 2007, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue.

Annual Report to Shareholders

Reclassifications

Generally Accepted Accounting Principles (GAAP) requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. During the current year, the following reclassifications have been made:

	Net Investment Income	Accumulated Net Realized Loss/Gain	Paid-in Capital
(a)	\$ 23	\$	\$ (23)
(b)	725	(725)	

(a) *Reclassifications are primarily due to a non-deductible excise tax paid by the Fund.*

(b) *Reclassifications are primarily due to foreign currency transactions treated as ordinary income for tax purposes, income from mortgage backed securities treated as capital gains for tax purposes, book/tax differences in the treatment of credit default swaps, book/tax differences in the treatment of stepped coupon security and book/tax differences in the treatment of various items.*

Distributions to Shareholders:

The tax character of distributions paid during the fiscal year ended December 31 were as follows:

	2007	2006
Distributions paid from:		
Ordinary Income	\$ 14,734	\$ 16,088
Net Long-term Capital Gains	3,210	2,281
Total Distributions Paid	\$ 17,944	\$ 18,369

Accumulated Earnings on a Tax Basis:

As of December 31, 2007, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income net	\$ 464
Undistributed long-term capital gains net	467
Total undistributed earnings	\$ 931
Other book/tax temporary differences	247 ^(a)
Unrealized Appreciation / Depreciation	(124) ^(b)
Total accumulated earnings / (losses) net	\$ 1,054

^(a)Other book/tax temporary differences are attributable primarily to the tax deferral of losses on straddles, the realization for tax purposes of unrealized gains / (losses) on certain futures contracts and the deferral of post-October losses on credit default swaps for tax purposes, and differences in the book/tax

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

treatment of various items.

(b)The difference between book-basis and tax-basis unrealized appreciation / (depreciation) is attributable primarily to the tax deferral of losses on wash sales and other book/tax basis adjustments.

Tax Cost of Investments:

As of December 31, 2007, the aggregate cost of investments for federal income tax purposes was \$246,937

3. Financial Instruments:

Option Transactions

As part of its investment program, the Fund may utilize options. Options may be written (sold) or purchased by the Fund. When the Fund purchases a put or call option, the premium paid is recorded as an investment and its value is marked-to-market daily. When the Fund writes a put or call option, an amount equal to the premium received by the Fund is recorded as a liability and its value is marked-to-market daily.

Annual Report to Shareholders

Notes to Financial Statements Continued

When options, whether written or purchased, expire, are exercised or are closed (by entering into a closing purchase or sale transaction), the Fund realizes a gain or loss as described in the chart below:

Purchased option:	Impact on the Fund:
The option expires	Realize a loss in the amount of the cost of the option.
The option is closed through a closing sale transaction	Realize a gain or loss depending on whether the proceeds from the closing sale transaction are greater or less than the cost of the option.
The Fund exercises a call option	The cost of the security purchased through the exercise of the option will be increased by the premium originally paid to purchase the option.
The Fund exercises a put option	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be reduced by the premium originally paid to purchase the put option.
Written option:	Impact on the Fund:
The option expires	Realize a gain equal to the amount of the premium received.
The option is closed through a closing purchase transaction	Realize a gain or loss without regard to any unrealized gain or loss on the underlying security and eliminate the option liability. The Fund will realize a loss in this transaction if the cost of the closing purchase exceeds the premium received when the option was written.
A written call option is exercised by the option purchaser	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be increased by the premium originally received when the option was written.
A written put option is exercised by the option purchaser	The amount of the premium originally received will reduce the cost of the security that the Fund purchased when the option was exercised.

The risk associated with purchasing options is limited to the premium originally paid. Options written by the Fund involve, to varying degrees, risk of loss in excess of the option value reflected in the statement of assets and liabilities. The risk in writing a covered call option is that the Fund may forgo the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is the risk the Fund may not be able to enter into a closing transaction because of an illiquid secondary market or, for over-the-counter options, because of the counterparty's inability to perform.

There was no activity in written options during the year ended December 31, 2007.

Futures

Upon entering into a futures contract, the Fund is required to deposit with the broker cash or cash equivalents in an amount equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses and the Fund recognizes a realized gain or loss when the contract is closed. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded.

The Fund may enter into futures contracts as a hedge against anticipated changes in interest rates. There are several risks in connection with the use of futures contracts as a hedging device. Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. The change in the value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in the value of the hedged instruments. In addition, there is the risk that a Fund may not be able to enter into a

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

closing transaction because of an illiquid secondary market.

The open futures positions and related appreciation or depreciation at December 31, 2007 are listed at the end of the Fund's portfolio of investments.

Annual Report to Shareholders

Reverse Repurchase Agreements

As of December 31, 2007, the Fund had entered into a reverse repurchase agreement (Reverse Repurchase Agreement) with Deutsche Bank. The Reverse Repurchase Agreement, which matured on January 15, 2008, was recorded at cost and was collateralized by U.S. Government securities and corporate bonds with a par value of \$13,770 and a market value as of December 31, 2007, of \$16,254.

For the year ended December 31, 2007, the average amount of reverse repurchase agreement outstanding was \$19,241 and the daily weighted average interest rate was 5.01%.

Broker	Interest Rate	Maturity	Amount
Deutsche Bank	3.9%	1/15/08	\$ 3,901
Deutsche Bank	3.9	1/15/08	3,232
Deutsche Bank	3.9	1/15/08	3,446
Deutsche Bank	3.9	1/15/08	3,027
Deutsche Bank	3.9	1/15/08	2,599
			\$ 16,205

Swap Agreements

The Fund may invest in swaps for the purpose of managing their exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with ordinary portfolio transactions.

Credit default swaps involve the exchange of a fixed rate premium for protection against the loss in value of an underlying debt instrument in the event of a defined credit event (such as payment default or bankruptcy). Under the terms of the swap, one party acts as a guarantor, receiving a periodic payment that is a fixed percentage applied to a notional principal amount. In return, the party agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. The Fund may enter into credit default swaps in which the Fund or its counterparty act as guarantors. By acting as the guarantor of a swap, the Fund assumes the market and credit risk of the underlying instrument, including liquidity and loss of value.

Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation/(depreciation). Gains or losses are realized upon termination of the swap agreement. Periodic payments and premiums received or made by a Fund are recorded in the accompanying statement of operations as realized gains or losses, respectively. Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with the terms of the swap contracts. Risks may exceed amounts recognized on the statement of assets and liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts terms, and the possible lack of liquidity with respect to the swap agreements.

If the Fund is a seller of protection and a credit event occurs, as defined under the terms of the particular swap agreement, the Fund will pay to the buyer of the protection an amount up to the notional value of the swap and in certain instances, take delivery of the security.

Annual Report to Shareholders

Notes to Financial Statements Continued

As of December 31, 2007, the one-month London Interbank Offered Rate (LIBOR) was 4.60%.

The following is a summary of open credit default swap contracts outstanding as of December 31, 2007.

4. Common Shares (amounts are not in thousands):

Of the 11,469,943 shares of common stock outstanding at December 31, 2007, Western Asset owns 10,539 shares.

5. Preferred Shares (amounts are not in thousands):

There are 2,880 shares of Auction Market Preferred Shares (Preferred Shares) authorized. The Preferred Shares have rights as set forth in the Fund's Agreement and Declaration of Trust, as amended to date, and its Bylaws, as amended to date (the Bylaws), or as otherwise determined by the Trustees. The 2,880 Preferred Shares outstanding consist of two series, 1,440 shares of Series M and 1,440 shares of Series W. The Preferred Shares have a liquidation value of \$25,000 per share, plus any accumulated but unpaid dividends whether or not earned or declared.

Dividends on the Series M and Series W Preferred Shares are cumulative and are paid at a rate typically reset every seven and twenty-eight days, respectively, based on the results of an auction. Dividend rates ranged from 4.85% to 6.50% between January 1, 2007 to December 31, 2007. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The Preferred Shares are redeemable at the option of the Fund, in whole or in part, on the second business day preceding any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Shares are also subject to mandatory redemption at \$25,000

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

per share plus any accumulated but unpaid dividends, whether or not earned or declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Bylaws are not satisfied.

Preferred shareholders, who are entitled to one vote per Preferred Share, generally vote as a single class with the common shareholders, but will vote separately as a class (and, in certain circumstances, vote separately by series) with respect to certain matters set forth in the Bylaws. The preferred shareholders are entitled to elect two Trustees of the Fund.

6. Securities Lending

Subject to applicable restrictions in the Fund's Bylaws, the Fund may lend its securities to approved brokers to earn additional income, and will receive cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of the loaned securities. As of December 31, 2007, there were no securities on loan.

Annual Report to Shareholders

7. Transactions with Affiliates:

The Fund has a management agreement with Western Asset Management Company (Western Asset). Pursuant to the terms of the management agreement, the Fund pays Western Asset an annual fee, payable monthly, in an amount equal to 0.55% of the average weekly value of the Fund's total managed assets. Total managed assets means the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities. The liquidation preference of any Preferred Shares outstanding is not considered a liability. Pursuant to a Portfolio Management Agreement between Western Asset and Western Asset Management Company Limited (WAML), Western Asset pays a portion of the fees it receives from the Fund to WAML at an annual rate of 0.425% of the average weekly value of the Fund's total managed assets that WAML manages. Western Asset and WAML are wholly owned subsidiaries of Legg Mason, Inc.

On May 1, 2007, Legg Mason Fund Adviser, Inc. replaced Princeton Administrators, LLC (Princeton) as administrator for the Fund. Under the terms of the Administration Agreement among the Fund, Western Asset and Legg Mason Fund Adviser, Inc. (LMFA), Western Asset pays LMFA, a monthly fee at an annual rate of 0.125% of the Fund's average weekly total managed assets, subject to a monthly minimum fee of \$12,500. The compensation arrangements between the Fund and LMFA are identical to the previous arrangements between the Fund and Princeton.

8. Trustee Compensation (amounts are not in thousands):

Each Independent Trustee receives an aggregate fee of \$60,000 annually for serving on the combined Board of Trustees/Directors of the Fund, Western Asset Income Fund and Western Asset Funds, Inc. Each Trustee also receives a fee of \$7,500 and related expenses for each meeting of the Board attended in-person and a fee of \$2,500 for participating in each telephonic meeting. The Chairman of the Board and the Chairman of the Audit Committee each receive an additional \$25,000 per year for serving in such capacities. Each member of the Audit Committee receives a fee of \$5,000 for serving as a member of the Audit Committee. Other committee members receive \$2,500 for serving as a member of each committee upon which they serve. Committee members also receive a fee of \$2,500 for participating in each telephonic committee meeting. All such fees are allocated among the Fund, Western Asset Income Fund and Western Asset Funds, Inc. according to each such investment company's average annual net assets. Mr. Olson receives from Western Asset an aggregate fee of \$60,000 annually for serving on the combined Board of Trustees/Directors of the Fund, Western Asset Income Fund and Western Asset Funds, Inc., as well as a fee of \$7,500 and related expenses for each meeting of the Board attended in person and a fee of \$2,500 for participating in each telephonic meeting.

9. Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation 48 (FIN 48 or the Interpretation), *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109*. FIN 48 supplements FASB Statement 109, *Accounting for Income Taxes* and establishes financial reporting rules regarding recognition, measurement, presentation, and disclosure in its financial statements of tax positions that a fund has taken or expects to take on a tax return. FIN 48 became effective for fiscal periods beginning after December 15, 2006. Effective January 1, 2007, the Fund adopted FIN 48. There was no material impact to the financial statements or disclosure thereto as a result of this adoption.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Management has evaluated the implications of FAS 157 and does not believe the adoption of FAS 157 will materially impact the amounts recorded in the financial statements, however, additional disclosure will be required in subsequent reports.

Annual Report to Shareholders

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Western Asset Premier Bond Fund:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statement of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the Western Asset Premier Bond Fund (the Fund) at December 31, 2007, the results of its operations, the changes in its net assets, and the financial highlights for each of the fiscal periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2007 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Annual Report to Shareholders

Federal Tax Information (Unaudited)

The following information is provided with respect to the ordinary income distributions paid during the taxable year ended December 31, 2007:

	January 2007 - December 2007
Qualified Dividend Income for individuals	3.33%
Dividends Qualifying for the Dividends Received Deduction for Corporation	3.33%
Interest from Federal Obligations	5.78%

The law varies in each state as to whether and what percentage of dividend income attributable to Federal obligations is exempt from state income tax. We recommend that you consult with your tax adviser to determine if any portion of the dividends you received is exempt from state income taxes.

Additionally, the following summarized the per share long-term capital gain distributions paid by the Fund during the taxable year ended December 31, 2007:

	Payable Date	Long-Term Capital Gain
Common Shareholders	05/31/07	\$ 0.058100
Common Shareholders	12/31/07	\$ 0.135000
Taxable Auction Rate Cumulative Preferred M Shareholders	01/09/07	\$ 16.050000
Taxable Auction Rate Cumulative Preferred M Shareholders	05/29/07	\$ 24.790000
Taxable Auction Rate Cumulative Preferred M Shareholders	06/05/07	\$ 24.690000
Taxable Auction Rate Cumulative Preferred M Shareholders	06/12/07	\$ 24.550000

^A On February 13, 2007, the Board of Trustees elected Avedick B. Poladian as an independent Trustee of the Fund. Mr. Poladian is currently Executive Vice President, Chief Financial Officer and Chief Administrative Officer of Lowe Enterprises, Inc., which invests in, develops and manages real estate and hospitality assets. Mr. Poladian also serves on the Board of Directors of California Pizza Kitchen, Inc. He was previously a senior partner in the public accounting firm of Arthur Andersen LLP.

^B Each of the Trustees of the Fund holds office until the next annual meeting of shareholders at which Trustees are elected as required by applicable law or the rules of any exchange on which the Fund's shares are listed and until his or her respective successor is elected and qualified, or until he or she sooner dies, resigns, retires, or is disqualified or removed from office. Each officer holds office until his or her respective successor is chosen and qualified, or in each case until he or she sooner dies, resigns, is removed with or without cause or becomes disqualified.

^C Each Trustee also serves as a Director of Western Asset Income Fund (closed-end investment company) and Western Asset Funds, Inc. (open-end investment company), which are considered part of the same Fund Complex as the Fund.

^D Mr. Olson is considered to be an interested person (as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended) of the Fund because his law firm provides legal services to the Fund's investment adviser, Western Asset Management Company.

^E Mr. Gerken is considered to be an interested person of the Fund (as defined above) because he is employed by Legg Mason & Co.

Annual Report to Shareholders

Board Consideration of the Management Agreements

The Executive and Contracts Committee of the Board of Trustees considered the Investment Management Agreement (the Management Agreement) between the Fund and Western Asset Management Company (Western Asset) and the Portfolio Management Agreement (together with the Management Agreement, the Agreements) between Western Asset Management Company and Western Asset Management Company Limited (WAML) with respect to the Fund at meetings held on September 11, 2007, October 11, 2007 and October 27, 2007. At a meeting held on November 6, 2007, the Executive and Contracts Committee reported to the full Board of Trustees its considerations with respect to the Agreements, and the Board of Trustees, including a majority of the Independent Trustees, considered and approved renewal of the Agreements.

In arriving at their decision to renew the Agreements, the Trustees met with representatives of Western Asset and WAML (together, the Advisers), including relevant investment advisory personnel; reviewed a variety of information prepared by the Advisers and materials provided by Lipper Inc. (Lipper) and counsel to the Independent Trustees; and reviewed performance and expense information for peer groups of comparable funds, selected and prepared by Lipper. These reviews were in addition to information obtained by the Trustees at their regular quarterly meetings with respect to the Fund's performance and other relevant matters, such as information on differences between the Fund's share price and net asset value per share, and related discussions with the Advisers' personnel.

As part of their review, the Trustees examined the Advisers' ability to provide high quality investment management services to the Fund. The Trustees considered the investment philosophy and research and decision-making processes of the Advisers; the experience of their key advisory personnel responsible for management of the Fund; the ability of the Advisers to attract and retain capable research and advisory personnel; the capability and integrity of the Advisers' senior management and staff; and the level of skill required to manage the Fund. In addition, the Trustees reviewed the quality of the Advisers' services with respect to regulatory compliance and compliance with the investment policies of the Fund and conditions that might affect the Advisers' ability to provide high quality services to the Fund in the future under the Agreements, including the Advisers' business reputation, financial condition and operational stability. Based on the foregoing, the Trustees concluded that the Advisers' investment process, research capabilities and philosophy were well suited to the Fund given its investment objectives and policies, and that the Advisers would be able to meet any reasonably foreseeable obligations under the Agreements.

In reviewing the quality of the services provided to the Fund, the Trustees also reviewed comparisons of the performance of the Fund to the performance of certain comparable leveraged funds in two peer groups of funds that invest at least 65% of their assets in corporate and government debt issues rated in the top four grades. The Trustees noted that the performance of the Fund was well above the average of each peer group for the one-, three-, five- and since-inception periods ended August 31, 2007.

The Trustees also considered the management fee and total expenses payable by the Fund. They reviewed information concerning management fees paid to investment advisers of similarly-managed funds, as well as fees paid by the Advisers' other clients, including separate accounts managed by the Advisers. The Trustees observed that the management fee paid by the Fund to Western Asset was below or at the median of its Lipper peer group with respect to its common shares and preferred shares, respectively, and that Western Asset was responsible for payment of the management fee to WAML. They noted that the management fee paid by the Fund was generally higher than the fees paid by other clients of the Advisers with similar investment strategies, but that the administrative and operational responsibilities for the Advisers with respect to the Fund were also relatively higher. In light of these differences, the Trustees concluded that the differences in management fees from those paid by the Advisers' other clients were reasonable. The Trustees also noted that although the Fund's total expenses were above the median of the funds in its Lipper peer group with respect to each of its common and preferred shares, the difference was primarily attributable to investment related expenses associated with the use of reverse repurchase agreements.

The Trustees further evaluated the benefits of the advisory relationship to the Advisers, including, among others, the profitability of the relationship to the Advisers and the direct and indirect benefits that the Advisers may receive from their relationship with the Fund, including

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSR

any fallout benefits, such as reputational value derived from serving as investment adviser. In that connection, the Trustees concluded that the Advisers' profitability was consistent with levels of profitability that had been determined by courts not to be excessive.

Annual Report to Shareholders

Board Consideration of the Management Agreements Continued

Finally, the Trustees considered, in light of the profitability information provided by the Advisers, the extent to which economies of scale would be realized by the Advisers as the assets of the Fund grow. The Trustees concluded that, because the Fund is a closed-end fund and does not make a continuous offer of its securities, the Fund's size was relatively fixed and it would be unlikely that the Advisers would realize economies of scale from the Fund's growth.

In their deliberations with respect to these matters, the Independent Trustees were advised by their independent counsel, who are independent of the Advisers within the meaning of the SEC rules regarding the independence of counsel. The Independent Trustees weighed the foregoing matters in light of the advice given to them by their independent counsel as to the law applicable to the review of investment advisory contracts. In arriving at a decision, the Trustees, including the Independent Trustees, did not identify any single matter as all-important or controlling, and the foregoing summary does not detail all the matters considered. The Trustees judged the terms and conditions of the Agreements, including the investment advisory fees, in light of all of the surrounding circumstances.

Based upon their review, the Trustees, including all of the Independent Trustees, determined, in the exercise of their business judgment, that they were satisfied with the quality of investment advisory services being provided by the Advisers; that the fees to be paid to the Advisers under the Agreements were fair and reasonable, given the scope and quality of the services rendered by the Advisers; and that approval of the Agreements was in the best interest of the Fund and its shareholders.

Privacy Policy

The Fund is committed to keeping nonpublic personal information secure and confidential. This notice is intended to help a shareholder understand how the Fund fulfills this commitment.

From time to time, the Fund, through its Service Providers, may collect a variety of personal information, including:

Information received on applications and forms, via the telephone, and through websites;

Information about transactions with the Fund, affiliates, or others (such as purchases, sales, or account balances); and

Information about shareholders received from consumer reporting agencies.

The Fund does not disclose shareholder nonpublic personal information, except as permitted by applicable law or regulation. For example, the Fund may share this information with others in order to process transactions. Any information provided to companies that perform services on behalf of the Fund, such as printing and mailing, or to other financial institutions with which the Fund has joint marketing agreements are required to protect the confidentiality of shareholders information and to use it only to perform the services for which the companies were hired.

The Fund, through its Service Providers, maintains physical, electronic, and procedural safeguards to protect shareholder non-public personal information. Access to this information is restricted.

If a shareholder decides at some point either to close his/her account(s) or become an inactive customer, the Fund will continue to adhere to these privacy policies and practices with respect to shareholder nonpublic personal information.

This report is transmitted to the shareholders of Western Asset Premier Bond Fund for their information. This is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in this report.

In accordance with Section 23(c) of the Investment Company Act of 1940, the Fund hereby gives notice that it may, from time to time, repurchase its shares in the open market at the option of the Board of Trustees and on such terms as the Board of Trustees shall determine.

LMF-WEA/A(02/08)TN08-1537

Item 2. Code of Ethics

- (a) Western Asset Premier Bond Fund (Registrant) has adopted a Code of Ethics, as defined in the instructions to Item 2 of Form N-CSR, that applies to the Registrant s principal executive, financial and accounting officers, a copy of which is attached as an exhibit to this Form N-CSR.
- (b) Omitted.
- (c) Not applicable.
- (d) Not applicable.
- (e) Not applicable.

Item 3. Audit Committee Financial Expert

The Audit Committee of the Registrant's Board of Trustees is comprised solely of Trustees who are independent (as such term has been defined by the Securities and Exchange Commission (SEC) in regulations implementing Section 407 of the Sarbanes-Oxley Act of 2002 (the Regulations)). In addition, the Board of Trustees of the Registrant has determined that Mr. Ronald J. Arnault qualifies as an audit committee financial expert (as such term has been defined in the Regulations) based on its review of his pertinent experience, knowledge and education. The SEC has stated that the designation or identification of a person as an audit committee financial expert pursuant to this Item 3 of Form N-CSR does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liabilities imposed on such person as a member of the Audit Committee and the Board of Trustees in absence of such designation or identification.

Item 4. Principal Accounting Fees and Services

(a) Audit Fees

Fiscal Year Ended December 31, 2006 \$34,900

Fiscal Year Ended December 31, 2007 \$36,600

(b) Audit-Related Fees

Fiscal Year Ended December 31, 2006 \$9,200

Fiscal Year Ended December 31, 2007 \$9,900

Services include interim audit security pricing, and review of the rating agency compliance testing for the Registrant's auction market preferred shares outstanding.

PricewaterhouseCoopers LLP billed fees in the amount of \$145,000 and \$208,000 for non-audit services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's fiscal years ended December 31, 2006 and December 31, 2007, respectively.

During each of the years ended December 31, 2006 and December 31, 2007, PricewaterhouseCoopers LLP conducted a SAS 70 audit to review and test operating effectiveness of controls placed in operation for Western Asset Management Company. During the year end December 31, 2007, PricewaterhouseCoopers LLP reviewed the Australian Superannuation Circular.

(c) Tax Fees

Fiscal Year Ended December 31, 2006 \$1,100

Fiscal Year Ended December 31, 2007 \$2,400

Services include preparation of federal and state income tax returns and preparation of excise tax returns.

PricewaterhouseCoopers LLP did not bill fees for tax services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(d) All Other Fees

There were no fees billed to the Registrant during each of the last two fiscal years by PricewaterhouseCoopers LLP that were not disclosed in Items 4(a), (b) or (c).

PricewaterhouseCoopers LLP did not bill fees for services not included in Items 4(a), (b) or (c) above that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(e)(1) The Audit Committee has determined that all work performed for the Registrant by PricewaterhouseCoopers LLP will be pre-approved by the full Audit Committee and, therefore, has not adopted preapproval policies and procedures.

(2) None.

(f) Not applicable.

(g) Non-Audit Fees

Fiscal Year Ended December 31, 2006 \$327,554

Fiscal Year Ended December 31, 2007 \$472,000

(h) The Audit Committee of the Registrant has considered whether the non-audit services that were rendered by the Registrant's principal accountant to the Registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling,

controlled by, or under common control with the investment adviser and that were not preapproved by the Audit Committee are compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants

The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee of the Registrant is comprised of Ronald J. Arnault, William E.B. Siart, Louis A. Simpson and Jaynie Miller Studenmund.

Item 6. Schedule of Investments

The schedule of investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the annual report to shareholders contained in Item 1 hereof.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Registrant has delegated the voting of proxies relating to its portfolio securities to its advisers, Western Asset Management Company and Western Asset Management Company Limited (together, the Advisers). The Proxy Voting Policies and Procedures of the Advisers are attached as an exhibit to this Form N-CSR.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

As of December 31, 2007, a team of investment professionals at the Advisers, led by Chief Investment Officer S. Kenneth Leech, Deputy Chief Investment Officer Stephen A. Walsh and Portfolio Manager Ronald D. Mass manages the Western Asset Premier Bond Fund (the Fund).

Messrs. Leech, Walsh and Mass have each served as portfolio managers for the Advisers for over five years.

The Fund is managed by a team of portfolio managers, sector specialists and other investment professionals. Messrs. Leech, Walsh and Mass serve as co-team leaders responsible for day-to-day strategic oversight of the Fund's investments and for supervising the day-to-day operations of the various sector specialist teams dedicated to the specific asset classes in which the Fund invests.

Other Accounts

As of December 31, 2007, in addition to the Fund, the portfolio manager(s) were responsible for the day-to-day management of certain other accounts, as follows:

S. Kenneth Leech:

Type of Account	Number of Accounts Managed	Total Assets Managed	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based
Registered Investment Companies	114	\$ 121,634,477,840	0	0
Other pooled investment vehicles	239	\$ 211,995,391,168	0	0
Other accounts	1069	\$ 300,567,840,634	95	\$ 32,730,534,560

Ronald D. Mass:

Registered Investment Companies		\$	0	0
Other pooled investment vehicles	14	\$	4,641,733,172	0
Other accounts		\$		\$

Stephen A. Walsh:

Registered Investment Companies	114	\$	121,634,477,840	0	0
Other pooled investment vehicles	239	\$	211,995,391,168	0	0
Other accounts	1069	\$	300,567,840,634	95	\$ 32,730,534,560

Note: With respect to Mr. Leech and Mr. Walsh, the numbers above reflect the overall number of portfolios managed by the Advisers.

Mr. Leech and Mr. Walsh are involved in the management of all the Advisers' portfolios, but they are not solely responsible for particular portfolios. The Advisers' investment discipline emphasizes a team approach that combines the efforts of groups of specialists working in different market sectors. The individuals that have been identified are responsible for overseeing implementation of the Advisers' overall investment ideas and coordinating the work of the various sector teams. This structure ensures that client portfolios benefit from a consensus that draws on the expertise of all team members.

Potential Conflicts of Interest (as of December 31, 2007)

Potential conflicts of interest may arise in connection with the management of multiple accounts (including accounts managed in a personal capacity). These could include potential conflicts of interest related to the knowledge and timing of the Fund's trades, investment opportunities and broker selection. Portfolio managers may be privy to the size, timing and possible market impact of the Fund's trades.

It is possible that an investment opportunity may be suitable for both the Fund and other accounts managed by a portfolio manager, but may not be available in sufficient quantities for both the Fund and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by the Fund and another account. A conflict may arise where the portfolio manager may have an incentive to treat an account preferentially as compared to the Fund because the account pays a performance-based fee or the portfolio manager, the Advisers or an affiliate has an interest in the account. The Advisers have adopted procedures for allocation of portfolio transactions and investment opportunities across multiple client accounts on a fair and equitable basis over time. All eligible accounts that can participate in a trade share the same price on a pro-rata allocation basis in an attempt to mitigate any conflict of interest. Trades are allocated among similarly managed accounts to maintain consistency of portfolio strategy, taking into account cash availability, investment restrictions and guidelines, and portfolio composition versus strategy.

With respect to securities transactions for the Fund, the Adviser determines which broker or dealer to use to execute each order, consistent with their duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered investment companies and other accounts managed for organizations and individuals), the Advisers may be limited by the client with respect to the selection of brokers or dealers or may be instructed to direct trades through a particular broker or dealer. In these cases, trades for the Fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or the other account(s) involved. Additionally, the management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of the Fund and/or other account.

It is theoretically possible that portfolio managers could use information to the advantage of other accounts they manage and to the possible detriment of the Fund. For example, a portfolio manager could short sell a security for an account immediately prior to the Fund's sale of that security. To address this conflict, the Advisers have adopted procedures for reviewing and comparing selected trades of alternative investment accounts (which may make directional trades such as short sells) with long-only accounts (which includes the Fund) for timing and pattern related issues. Trading decisions for alternative investment and long-only accounts may not be identical even though the same portfolio manager may manage both types of accounts. Whether an

Adviser allocates a particular investment opportunity to only alternative investment accounts or to alternative investment and long-only accounts will depend on the investment strategy being implemented. If, under the circumstances, an investment opportunity is appropriate for both its alternative investment and long-only accounts, then it will be allocated to both on a pro-rata basis.

A portfolio manager may also face other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict of interest that could be deemed to exist in managing both the Fund and the other accounts listed above.

Compensation of Portfolio Managers (as of December 31, 2007)

With respect to the compensation of the portfolio managers, the Advisers' compensation system assigns each employee a total compensation target and a respective cap, which are derived from annual market surveys that benchmark each role with their job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience, and ability to produce desired results.

Standard compensation includes competitive base salaries, generous employee benefits, and a retirement plan.

In addition, employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Advisers, and are determined by the professional's job function and performance as measured by a formal review process. All bonuses are completely discretionary. One of the principal factors considered is a portfolio manager's investment performance versus appropriate peer groups and benchmarks. Because portfolio managers are generally responsible for multiple accounts (including the Fund) with similar investment strategies, they are compensated on the performance of the aggregate group of similar accounts, rather than a specific account. A smaller portion of a bonus payment is derived from factors that include client service, business development, length of service to the Advisers, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Advisers' business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason, Inc. stock options and long-term incentives that vest over a set period of time past the award date.

Portfolio Manager Ownership of Fund Securities

The following table provides the dollar range of securities beneficially owned by each portfolio manager as of December 31, 2007:

Portfolio Manager	Dollar Range of Fund Securities Beneficially Owned
S. Kenneth Leech	None
Ronald D. Mass	None
Stephen A. Walsh	None

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers
Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that have been implemented since the Registrant last provided disclosure in response to the requirements of this Item 10.

Item 11. Controls and Procedures

- (a) Based on an evaluation of the Disclosure Controls and Procedures of the registrant as of a date within 90 days of the filing date of this report, the registrant's principal executive and principal financial officers have concluded that the Disclosure Controls and Procedures are effectively designed to ensure that information required to be disclosed in this report is recorded, processed, summarized, and reported within required time periods, and accumulated and communicated to the registrant's management, including the registrant's principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

A material weakness in internal controls relating to the manual pricing for three CDX High Yield Tranche credit default swaps to ensure that they were properly valued was identified and corrected prior to the filing of this report.

- (b) There were no changes in the Registrant's internal control over financial reporting during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits

- (a)(1) Code of Ethics subject to the disclosure required by Item 2 filed as an exhibit hereto.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 filed as an exhibit hereto.

- (a)(3) Not applicable.

- (b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 filed as an exhibit hereto.

- (c) Proxy Voting Policies and Procedures pursuant to the disclosure required by Item 7 filed as an exhibit hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
