**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or completed Interim Review**

During the preparation of the Annual Report on Form 10-K for the year ended December 31, 2007 of PRIMEDIA Inc. (the Company), the Company discovered an error in its reporting of cash and cash equivalents and available for sale securities in its condensed consolidated balance sheet, and of cash flows from investing activities and net increase in cash and cash equivalents in its condensed consolidated statement of cash flows, due to the inclusion of auction rate securities as a cash equivalent in its Quarterly Reports on Form 10-Q for the periods ended March 31, 2007, June 30, 2007 and September 30, 2007. This error had no impact on the Company's condensed consolidated statement of operations or cash flows from operating activities for any period.

As a result, on March 12, 2008, management recommended to the Chairman of the Audit Committee of the Board of Directors of the Company that the Company correct the above components of its condensed consolidated balance sheet as of March 31, 2007 and September 30, 2007 and the above components of its condensed consolidated statement of cash flows for the three months ended March 31, 2007, the six months ended June 30, 2007 and the nine months ended September 30, 2007. The Chairman agreed with management's recommendation, and it was concluded that the condensed consolidated balance sheet and condensed consolidated statement of cash flows as of and for the aforementioned periods should no longer be relied upon. Management has discussed this matter with Deloitte & Touche LLP, the Company's independent registered public accounting firm.

The error resulted in an overstatement of cash and cash equivalents and a corresponding understatement of available for sale securities as of March 31, 2007 and September 30, 2007. The error also resulted in an understatement of purchases of available for sale securities and proceeds from sale of available for sale securities during the three months ended March 31, 2007, the six months ended June 30, 2007 and the nine months ended September 30, 2007. Additionally, the error resulted in an overstatement of net cash provided by investing activities and increase in cash and cash equivalents for the three months ended March 31, 2007 and the nine months ended September 30, 2007.

A summary of the effects of the correction of these errors is (dollars in thousands):
