PROXY STATEMENT

2008 ANNUAL MEETING OF STOCKHOLDERS

Tuesday, June 3, 2008

CORE-MARK HOLDING COMPANY, INC.

395 Oyster Point Blvd., Suite 415

South San Francisco, California 94080

GENERAL INFORMATION

Proxy Solicitation

These proxy materials are being mailed or otherwise sent to stockholders of Core-Mark Holding Company, Inc. (Core-Mark or the Company) on or about April 28, 2008 in connection with the solicitation of proxies by the Board of Directors for Core-Mark's Annual Meeting of Stockholders to be held at 2:00 p.m. PDT on Tuesday, June 3, 2008 at the Hyatt Regency San Francisco Airport Hotel, 1333 Bayshore Highway, Burlingame, California 94010. Directors, officers and other Core-Mark employees also may solicit proxies by telephone or otherwise. Brokers and other nominees will be requested to solicit proxies or authorizations from beneficial owners and will be reimbursed by Core-Mark for their reasonable expenses.

Stockholders Entitled to Vote

Stockholders of record at the close of business on April 7, 2008 are entitled to notice of and to vote at the meeting. As of such date, there were 10,535,767 shares of Core-Mark common stock outstanding, each entitled to one vote.

How to Vote

Shareowners of record described below may cast their votes by proxy by:

- (1) signing, completing and returning the enclosed proxy card in the enclosed postage-paid envelope; or
- (2) attending the Annual Meeting and voting in person.

Revocation of Proxies

Edgar Filing: Core-Mark Holding Company, Inc. - Form DEF 14A

A proxy may be revoked at any time before it is voted by delivering written notice of revocation to the Director of Investor Relations of Core-Mark at the address set forth above, by delivering a proxy bearing a later date or by voting in person at the meeting.

Quorum-Required Vote

The holders of a majority of the shares entitled to vote at the meeting must be present in person or represented by proxy to constitute a quorum. Abstentions and shares that brokers do not have the discretionary authority to vote on a matter in the absence of timely instructions from the beneficial owners (broker non-votes) are treated as present for the purposes of determining a quorum.

Directors are elected by a plurality of the votes of shares present in person or represented by proxy at the meeting and entitled to vote. Abstentions and broker non-votes will not be counted as votes cast and, accordingly, will have no effect on the outcome of the vote.

Table of Contents

Ratification of the selection of our independent registered public accounting firm (Proposal 2) requires the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote. Under Delaware law, in determining whether Proposal 2 has received the requisite number of affirmative votes, abstentions are treated as shares present or represented and entitled to vote, so abstaining has the same effect as a negative vote. Broker non-votes on Proposal 2 are not counted or deemed present or represented for purposes of determining whether stockholders have approved that proposal.

Other Matters

The Board of Directors is not aware of any matters to be presented at the meeting other than those set forth in the accompanying notice. If any other matters properly come before the meeting, the persons named in the proxy will vote on such matters in accordance with their best judgment.

Additional Information

Additional information regarding the Company appears in our Annual Report on Form 10-K for the year ended December 31, 2007, which accompanies this Proxy Statement.

Directors, executive officers and 10% Owners are required by SEC regulations to furnish Core-Mark with copies of all Section 16(a) forms they file. Based solely on a review of copies of such forms and written representations from Core-Mark's directors, executive officers and 10% Owners, Core-Mark believes that for fiscal year 2007, all of its directors, executive officers and 10% Owners were in compliance with the disclosure requirements of Section 16(a), except that Core-Mark believes that the PCT is currently out of compliance because it is aware of 1,647,838 additional shares having been distributed since the PCT's most recent filing of a Form 4 with the SEC on January 11, 2006. Finance and Investment Committee

The finance and investment committee, which was formed in 2006, provides assistance to the board of directors in reviewing and evaluating potential acquisition, divestiture, investment and other strategic opportunities and in sourcing and negotiating such strategic or financial opportunities. In addition, the finance and investment committee is responsible for assisting management and the board of directors in reviewing and evaluating our capital structure, including the appropriate mix of debt and equity and the issuance of dividends, and reporting and making recommendations to the board of directors concerning such capital structure matters. The members of the finance and investment committee are Robert A. Allen, Harvey L. Tepner, Randolph I. Thornton and J. Michael Walsh. Mr. Tepner is the Chairman of the finance and investment committee.

Board, Committee and Annual Meeting Attendance

For the fiscal year ended December 31, 2007, the Board and its Committees held the following aggregate number of regular and special meetings:

Board of Directors	8
Audit Committee	9
Compensation Committee	7
Nominating and Corporate Governance Committee	4
Finance and Investment Committee	8

Each of our directors attended 75% or more of the total number of the meetings of the Board and of the Committees on which he served during the year.

board of directors receives an annual fee of \$50,000 as consideration for acting as the Chairman of the board of directors. Corporate Governance

The Committee's Role and Responsibilities

Primary responsibility for Core-Mark's corporate governance practices rests with the Nominating and Corporate Governance Committee (the Governance Committee). The Governance Committee is responsible for, among other things, (i) identifying, screening and reviewing individuals qualified to serve as directors and recommending candidates for nomination for election or to fill vacancies; (ii) overseeing the Company's policies and procedures for the receipt of stockholder suggestions regarding Board composition and recommendations of candidates or nomination of candidates by the Board; (iii) developing, recommending and overseeing implementation of the Company's corporate governance guidelines and principles; and (iv) reviewing on a regular basis the overall corporate governance of the Company and recommending improvements when necessary. Described below are some of the significant corporate governance practices that have been instituted by the Core-Mark Board of Directors at the recommendation of the Governance Committee.

Director Independence

The Governance Committee reviews the independence of all directors annually and reports its findings to the full Board. The Governance Committee has determined that the following directors are independent within the meaning of the rules of the NASDAQ Global Market and relevant federal securities laws and regulations: Robert A. Allen, Stuart W. Booth, Gary F. Colter, L. William Krause and Randolph I. Thornton.

Board Evaluation

The Board of Directors has adopted a policy whereby the Governance Committee will assist the Board and its committees in evaluating their performance and effectiveness on an annual basis. As part of this evaluation, the Governance Committee assesses the progress in the areas targeted for improvement a year earlier and develops recommendations to enhance the respective Board or committee effectiveness over the next year.

Table of Contents

Director Nomination Process

The Governance Committee reviews the skills, characteristics and experience of potential candidates for election to the Board of Directors and recommends nominees for director to the full Board for approval. In addition the Governance Committee assesses the overall composition of the Board of Directors regarding factors such as size, composition, diversity, skills, significant experience and time commitment to Core-Mark.

It is the Governance Committee's policy to utilize a variety of means to identify prospective nominees for the Board, and it considers referrals from other Board members, management, stockholders and other external sources such as retained executive search firms. The Governance Committee utilizes the same criteria for evaluating candidates irrespective of their source.

The Governance Committee believes that any nominee must meet the following minimum qualifications:

Candidates should be persons of high integrity who possess independence, forthrightness, inquisitiveness, good judgment and strong analytical skills.

Candidates should demonstrate a commitment to devote the time required for Board duties including, but not limited to, attendance at meetings.

Candidates should possess a team-oriented ethic consistent with Core-Mark's core values, and be committed to the interests of all stockholders as opposed to those of any particular constituency.

When considering director candidates, the Governance Committee will seek individuals with backgrounds and qualities that, when combined with those of Core-Mark's other directors, provide a blend of skills and experience that will further enhance the Board's effectiveness. The Governance Committee has previously retained an executive search firm to assist it in its efforts to identify and evaluate potential director candidates.

To recommend a candidate for consideration, a stockholder should submit a written statement of the qualifications of the proposed nominee, including full name and address, to the Nominating and Corporate Governance Committee Chairman, c/o Core-Mark Holding Company, Inc., 395 Oyster Point Blvd., Suite 415, South San Francisco, CA 94080.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion provides an overview and analysis of our compensation programs and policies and the major factors that shape the creation and implementation of those policies. In this discussion and analysis, and in the more detailed tables and narrative that follow, we will discuss compensation and compensation decisions relating to the following persons, whom we refer to as our named executive officers:

J. Michael Walsh, our President and Chief Executive Officer (CEO);

Stacy Loretz-Congdon, our Senior Vice-President and Chief Financial Officer (CFO);

Basil P. Prokop, our President Canada;

Christopher L. Walsh, our Senior Vice President U.S. Distribution (West); and

Thomas B. Perkins, our Senior Vice President Resources.

Objectives of Our Compensation Programs

Our compensation program for executive officers is structured to achieve the following objectives:

Attract and retain talented professionals, while emphasizing the challenges and rewards associated with a fast paced, stimulating, entrepreneurial environment.

Align individual and organization *goals* with that of our *stakeholders and customers*. We believe that it is primarily the dedication, creativity, competence and experience of our entire workforce that enables us to compete, given the realities of the industry in which we operate. History has shown that our business is not easily nor quickly mastered by people attempting to migrate from other industries. We attempt to retain our experienced, long-term employees, avoid employee turnover, create a cadre of dedicated professionals focused on increasing stockholder value, align the interests of our employees and stockholders and foster an ownership mentality in our executives by giving our employees a meaningful stake in our success through our equity incentive and cash bonus programs.

Achieve meaningful results and add value to our Company through a results oriented reward structure. Since we operate on low margins we cannot afford to over-pay, and for this reason we attempt to link compensation closely to results by structuring a significant portion of executive compensation as a results-based bonus.

Tailor individual incentives within different segments of the organization depending on the priorities and needs existing at the time. This facilitates individual focus to capitalize on opportunities and to correct weaknesses in a particular segment of the organization. We view our Divisions as stand-alone businesses that require empowered, capable, local management expertise to operate effectively. We attempt to encourage an entrepreneurial approach in our division-level executives by using bonus targets tied to divisional or regional results and other, individually tailored, objectives.

Integrate strategic goals and objectives throughout all facets of the organization. This enables quicker, more effective execution of strategic corporate objectives. Our ability to modify and tailor the components of our cash bonus program allows us to revise these components from year to year and executive to executive as our strategic goals evolve.

Make proportionality and common sense the rule. We do not believe in a formulaic approach based to compensation on job classification. This means that compensation should be proportionate to the impact that an executive can have on the organization,

Edgar Filing: Core-Mark Holding Company, Inc. - Form DEF 14A

that equal contributors should be treated equally, that we respect the low margin nature of our business by linking pay to performance, and that we avoid excessive disparity between CEO or other senior level compensation and the compensation of the balance of our management team.

Table of Contents

Elements of Executive Compensation

Total compensation for our executive officers consists of the following elements of pay:

Base salary.

Annual cash incentive bonus dependent on our financial performance and achievement of individual objectives.

Long-term incentive compensation through grants of equity-based awards. Awards consist of restricted stock units, performance shares and stock options.

An Executive Severance Plan providing for severance payments upon involuntary termination of an executive other than for cause.

Participation in retirement benefits available to U.S. employees through a 401(k) Savings Plan and to employees in Canada through a Registered Retirement Savings Plan (RRSP). We do not offer other types of retirement or pension plans to our executive officers.

Health and welfare benefits that are available to substantially all our employees. We share the expense of such health and welfare benefits with our employees, the cost depending on the level of benefits coverage an employee elects to receive.

Group Life, Accidental Death & Dismemberment and Short and Long Term Disability insurances are also provided to both our executive officers and non-executive employees. However, executive officers and other senior officers and managers are also provided with additional group life insurance, determined as a percentage of base salary, subject to a cap.

What We Reward, Why We Pay Each Element of Compensation and How Each Element Relates to Our Compensation Objectives

Our base salaries and our base benefits such as 401(k), RRSP, severance, group health and group life insurance are designed to attract and retain qualified and dedicated professionals by providing a base standard that is competitive in the markets in which we operate, and are intended to compensate for performing the basic functions of an executive position. Base salaries are not intended to provide the total compensation potential for an executive who has the capacity and opportunity to move our business forward. The higher up the organizational ladder an executive is, the lower that base salary as a percentage of total potential compensation becomes. That is, the more impact an executive can have on the organization, the more that executive will have to rely on performance based compensation and the larger performance based compensation will become as a percentage of the executive's total compensation.

Through our incentive bonus program, we attempt to tailor performance goals to each individual executive officer and to our current priorities and needs. Accordingly, the results we attempt to reward may vary from executive to executive and from year to year. In general, however, we seek to reward our executives based on the Company or relevant region meeting a pre-determined level of adjusted FIFO pre-tax net profit (which we define as net income plus income tax expense, plus LIFO expense or less LIFO income, as applicable, less cigarette manufacturers price increase holding profits), on the Company or region meeting a pre-determined level of revenue, and on the executives' meeting various individual goals. A more detailed discussion of factors used in 2007 in determining compensation appears below.

Through our equity incentive plans we attempt to align the interests of our executive officers with those of our stockholders by rewarding our executives based on increases in our stock price over time. Awards consist of restricted stock units, performance shares and stock options.

Table of Contents**How We Determine the Amounts We Pay***Base Salary*

In setting, reviewing and adjusting base salaries and the levels and scope of our benefits programs we consider a number of factors, including both external factors such as market conditions as well as other factors that are not readily measured by performance goals. Such factors include: the specific expertise, capabilities and potential of the individual; our perception of market wage conditions and the amounts required to attract and retain capable executives; and our experience in attracting and keeping managers with similar responsibilities. While we from time to time review publicly available salary data from companies we consider similar to Core-Mark, we did not rely on external salary data in setting base salaries for 2007.

We do not ascribe to rigid, formulaic, mandated salary brackets. Our Chief Executive Officer recommends base salaries for our executive management team (including our named executive officers) based on the CEO's subjective evaluation of each executive's general level of performance and contribution to the Company over the prior year. These recommendations are then evaluated, discussed, modified as appropriate and ultimately approved by the Compensation Committee of our Board of Directors. The Compensation Committee's review and approval occurs at the regularly scheduled meeting of the committee held in January of each year.

At a meeting held in January 2008, the Compensation Committee approved new base salaries for 2008. Base salaries of our named executive officers for 2007 and 2008 are disclosed in the table below.

Officer	2007 Base	2008 Base	Percentage Increase
J. Michael Walsh	\$ 456,750	\$ 470,452	3%
Stacy Loretz-Congdon	\$ 260,858	\$ 268,683	3%
Basil Prokop ^[1]	\$ 329,224	\$ 339,100	3%
Christopher L. Walsh	\$ 233,400	\$ 240,402	3%
Thomas B. Perkins	\$ 201,570	\$ 240,000	19%

[1] Amounts in Canadian dollars

The increase in Mr. Perkins base salary reflects his increased responsibilities due to his promotion to Senior Vice President Resources in June 2007. Mr. Perkins previously served as a Vice President of US Divisions.

Annual Incentive Bonus Program

We have established an annual bonus program that is designed around the Company's or relevant region's achievement of identified financial goals supplemented by a Management-By-Objectives format. This means that an executive's bonus potential is based on the Company's or region's actual performance against specified financial goals and on the executive achieving certain individual objectives that are above and beyond the basic functions of the job or that complement the Company's overall business objectives. Bonus payments are at risk and depend on both the results of the Company or region and the executive's department and/or division as well as to the executive's own, specific contribution to reaching such objectives. Overall Company-wide bonus levels are designed to provide an appropriate level of results-based incentives to our executive team while bearing in mind that the Company is a low margin business and must control costs.

Annual bonus objectives for our executive officers (other than the CEO) are developed through discussions between our CEO and the affected executives in conjunction with the annual business planning process. The proposed objectives for our named executive officers resulting from these discussions are then reviewed, adjusted if necessary and ultimately approved by our Compensation Committee after discussion with our CEO. Bonus objectives for our CEO are established through discussions between the CEO and the Compensation Committee. The applicable bonus criteria change to some degree each year to fit the current needs of the Company and/or region. The level of an executive's total maximum bonus opportunity is structured as a percentage of base salary.

Table of Contents

In 2007, total maximum bonus opportunities for our named executive officers were 125% of base salary for our CEO and 80% of base salary for our named executive officers. For 2008, the total maximum bonus opportunities for our named executive officers will be 150% of base salary for our CEO and 80% of base salary for our other named executive officers. The total maximum bonus for each executive is allocated among several bonus components, with a specified percentage of the maximum allocated to each component.

Our bonus objectives include a threshold requirement that the Company realize a certain percentage of its planned adjusted FIFO pre-tax net profit on a Company-wide basis (for corporate level executives) or an appropriate financial metric for a particular region. Satisfaction of the applicable requirement is a precondition to the payment of any bonuses. For 2007, the percentage threshold requirement was 80% and for 2008 it is 75%. For executives whose responsibilities are considered to be Company-wide (including our Chief Executive Officer and Chief Financial Officer) this threshold is based on overall Company results. For executives whose responsibilities relate primarily to a particular region, including Mr. Prokop (Canada), Mr. Perkins (previously U.S. Distribution-West) and Mr. C. Walsh (U.S. Distribution-West), this threshold is based on regional results. In 2007 this requirement was not satisfied on a Company-wide basis, as well as in the U.S. Distribution-East region or in the Canadian region. The Company achieved 78.8% of its planned adjusted FIFO pre-tax net profit on a Company-wide basis. In determining the Company-wide achievement of adjusted FIFO pre-tax net profit for the annual incentive bonus, it was deemed appropriate to exclude a refund of \$13.3 million received in 2007 from the State of Washington, which related to the overpayment of taxes for prior years. Additionally, the Company did not exclude from the calculation of the annual incentive bonus approximately \$5.9 million of bad debt expenses recognized in 2007 related primarily to two customers that filed for bankruptcy protection during 2007 (see the Company's 2007 Annual Report on Form 10K filed with the Securities and Exchange Commission (SEC) on March 14, 2008). Inclusion of the benefit of the tax refund from the State of Washington and/or excluding the bad debt expense would have resulted in achievement of the Company-wide threshold of 80% of the 2007 planned adjusted FIFO pre-tax net profit.

For the U.S. Distribution-West region two separate sets of thresholds were developed due to a reorganization of the region in 2007. Initial fiscal year thresholds were set at the beginning of the year during which time Mr. Perkins had oversight responsibility for U.S. Distribution-West. During 2007, the U.S. Distribution-West region was reorganized by adding two distribution centers to the region. Following this reorganization, Mr. C. Walsh assumed oversight responsibilities for the region and a second set of fiscal year thresholds were established. At the end of 2007, certain thresholds were achieved by both Mr. Perkins and Mr. C. Walsh, as discussed in the following sections. Accordingly Mr. Perkins and Mr. C. Walsh earned pro-rated portions of bonuses for 2007.

In addition to this threshold requirement, each executive was given a set of individual objectives, each of which was assigned a weight, or percentage of the maximum available bonus. Specific objectives and relative weights for each named executive officer are discussed below. In general, for each executive these consisted of a component based on revenues (ranging from 10% to 25% of total bonus in 2007), a component based on adjusted FIFO pre-tax net profit (PTNP) (ranging from 25% to 55% of total bonus in 2007), and other components tailored to the responsibilities of that executive.

Our bonus plans provide for three levels of possible bonus for each component. Performance at the **Maximum** level for any component entitles an executive to the maximum amount allocated to that component. Performance at the **Target** level for any component entitles the executive to two-thirds of the maximum amount allocated to that component, and performance at the **Threshold** level for any component entitles the executive to one-third of the amount allocated to that component.

In general, for bonus targets the middle, or **Target** level represents the approved operating plan for the Company or the relevant region, the lowest, or **Threshold** level reflects the minimal level of performance deemed worthy of a bonus, and the highest, or **Maximum** level represents outstanding achievement well in excess of plan. However, the CEO has the authority, with the approval of the Compensation Committee, to

Table of Contents

establish different target levels based on his subjective evaluation of a region or the Company's operating plan. For example, if the CEO views a component of a plan as exceptionally aggressive or challenging, that plan, or amounts close to that plan, may be set as the Maximum performance level for that component of the bonus, and the Target and Threshold levels adjusted accordingly. Bonus payments are generally conditioned on an executive's continued employment as of December 31 of the relevant year, although this requirement may be waived by the Compensation Committee.

Our Company-wide bonus criteria for 2007 were as follows^[1]:

Company-Wide Measure	Threshold	Target	Maximum
Revenue	5,580	5,899	6,200
Adjusted FIFO PTNP	38.8	44.9	49.0

[1] Dollars in millions.

As discussed above, no bonuses were paid for 2007 based on Company-wide criteria.

Our initial bonus criteria for U.S. Distribution (West) established during Mr. Perkins' oversight were as follows^[1]:

U.S. Distribution (West) Measure	Initial Criteria	Threshold	Target	Maximum
Revenue		2,341	2,430	2,533
Adjusted FIFO PTNP		21.0	21.6	22.9
RONA		14.00%	14.40%	15.25%

[1] Dollars in millions.

At the end of fiscal 2007, Return on Net Assets (RONA) under the initial criteria in U.S. Distribution-West region reached the Maximum level, resulting in a bonus for Mr. Perkins (as discussed below). Revenue and adjusted FIFO PTNP under the initial criteria in U.S. Distribution-West region did not reach the Threshold level and thus no bonus was paid to Mr. Perkins with regard to these two criteria.

Our revised bonus criteria for U.S. Distribution (West) established during Mr. C. Walsh's oversight were as follows^[1]:

U.S. Distribution (West) Measure	Revised Criteria	Threshold	Target	Maximum
Revenue		2,794	2,900	3,023
Adjusted FIFO PTNP		23.8	24.5	26.0
RONA		14.00%	14.40%	15.25%

[1] Dollars in millions.

At the end of fiscal 2007, the U.S. Distribution-West region revenue reached the Threshold level, adjusted FIFO PTNP reached the Target level and RONA reached the Maximum level, each under the revised criteria. The achievement of these criteria levels resulted in a bonus for Mr. C. Walsh (see page 22).

All elements of our bonus program are subject to review and, where appropriate, waiver and adjustment in the discretion of our Compensation Committee, and the Compensation Committee has waived certain requirements when in its judgment such a waiver was appropriate and in the best interests of the Company. No waiver or adjustment was requested or approved for 2007.

Equity Incentive Program

Edgar Filing: Core-Mark Holding Company, Inc. - Form DEF 14A

We believe that the best way of assuring that management's decision-making is in alignment with the interests of our stockholders is to provide sufficiently meaningful stock ownership opportunities to management. To provide such opportunities we have previously made grants of stock options, restricted stock and restricted

Table of Contents

stock units to executives under our 2004 Long-Term Incentive Plan and 2005 Long-Term Incentive Plan. Allocation of grants has been based on an executive's level of responsibility, potential, and ability to affect the strategic interests of the Company. All such grants have been subject to a vesting period, generally over three years.

In May 2007, our stockholders approved the adoption of our 2007 Long-Term Incentive Plan. Following the approval the 2007 Plan, each of our named executive officers received identical grants of options, restricted stock units and performance shares under such plan. These awards were approved on July 2, 2007, and are discussed below with respect to each named executive officer. One-third of the options and restricted stock units granted vest on the first anniversary of the date of grant, with the remaining two-thirds vesting in equal quarterly installments over the following two years. Vesting of the performance shares was based upon the Company's achievement of certain financial goals related to revenues, new business generated and return on net assets during the second half of fiscal 2007. Each award specified a percentage of the performance shares that would vest upon the achievement of threshold, outstanding or exceptional goals in these measures.

The following table shows the metrics used for the award of performance shares for the second half of 2007^[1]:

Factor	Percentage of Total Shares	Threshold	Outstanding	Exceptional
Revenues	15%	2,846	2,908	3,041
New Business	15%	100	300	600
RONA	70%	8.4%	10.3%	12.2%

[1] Dollars in millions.

The Revenues factor was based on our Company-wide revenues during the second half of 2007 (excluding revenues attributable to acquisition and to unplanned excise tax increases). The New Business factor was based on the annualized revenues from new business from large accounts (those generating more than \$30 million in revenues each) awarded in the second half of 2007. The RONA factor was based on our Company-wide return on net assets for the second half of 2007.

At the Threshold level for any factor one-third of the performance shares allocable to that factor would be awarded, at the Outstanding level two-thirds would be awarded and at the Exceptional level all performance shares applicable to such factor would be awarded. In the case of performance falling between two levels, the percentage of shares awarded would be determined by linear interpolation between the two levels.

For the second half of 2007, revenues were \$2,850.8 million, slightly in excess of the Threshold level. This resulted in an award of 5.40% of the performance shares (slightly more than one-third of the 15% allocated to this factor). Qualifying new business was \$351 million, slightly above the Outstanding level. This resulted in an award of 10.85% of the performance shares (slightly more than two-thirds of the 15% allocated to this factor). RONA was 9.26%, approximately mid-way between the Threshold and Outstanding levels. This resulted in the award of 33.89% of the performance shares (slightly less than one-half of the 70% allocated to this factor). The total award of performance shares was the sum of the three awards or 50.14% of the potential performance share awards.

Executive Severance Plan

Under the terms of our Executive Severance Policy, corporate officers and vice presidents as well as division presidents are entitled to severance upon their involuntary termination for reasons other than cause, gross misconduct or an insured long term disability. Severance payments for U.S. based executives are based upon years of service and range from 2 months base salary for less than 2 years of service, up to 18 months of base salary for over 20 years of service. In addition, U.S. executives are entitled to a pro-rata bonus for the year terminated and would receive

Table of Contents

COBRA cost reimbursements during the severance period. Canada based executives receive severance in accordance with provincial law, which can range up to 2 years of base salary, bonus and benefits. To receive any benefits under the Executive Severance Policy, an executive must sign a release of liability for the benefit of the company. See the discussion under Potential Post-Employment Payments to Named Executive Officers below for a quantification of the amounts that would have been payable to our named executive officers upon a board approved retirement or upon a change of control as of December 31, 2007.

Perquisites

We generally do not provide automobile allowances, club memberships or other perquisites to our executives. However, in accordance with custom and practice in Canada, Mr. Prokop receives an annual automobile allowance of approximately Canadian \$11,400.

Other Benefits

All of our executive officers are eligible to participate in our Group Life, Accidental Death & Dismemberment and Short and Long Term Disability insurance programs, which are also available to our non-executive employees. In addition, our named executive officers and other senior officers and managers are provided with additional group life insurance, at a rate of one and one-half times base salary up to a maximum of \$300,000.

Our named executive officers are also entitled to participate in our 401(k) plan for United States employees and in our RRSP for Canadian employees on the same terms as our other employees. Under the 401(k) plan, the Company matches 100% of United States employee contributions up to 2% of base salary, and matches 25% of employee contributions from 2% to 6% of base salary. Company contributions for United States employees vest when paid in January of the year following the year for which they are made. Under the RRSP plan, the Company matches 50% of Canadian employee contributions up to 6% of base salary. Company contributions for Canadian employees vest on a biweekly basis throughout the year for which they are made.

Compensation of the Named Executive Officers for Fiscal Year Ended December 31, 2007

J. Michael Walsh Chief Executive Officer

Mr. Walsh's base salary for 2007 was \$456,750. His maximum annual incentive bonus for 2007 was \$570,938 (125% of base salary). Mr. Walsh's bonus opportunity was divided among components based on (i) total Company revenues (25%); (ii) Company adjusted FIFO pre-tax net profit (40%); (iii) Company asset management measures based on RONA relative to plan (15%); and (iv) various individual non-financial objectives (20%). Because the Company operations did not achieve at least 80% of its planned adjusted FIFO pre-tax net profit, Mr. Walsh was not eligible for and did not receive a bonus for 2007.

On July 2, 2007, we granted Mr. Walsh a total of 4,438 restricted stock units and 4,436 option shares under the 2007 Plan. One-third of the options and restricted stock units granted vest on the first anniversary of the date of grant, with the remaining two-thirds vesting in equal quarterly installments over the following two years. In addition, we granted Mr. Walsh the opportunity to earn a total of 4,436 performance shares under the 2007 Plan, subject to the Company meeting certain financial goals related to revenues, new business generated and return on net assets during the second half of fiscal 2007. Each award specified a percentage of the performance shares that would vest upon the achievement of threshold, outstanding or exceptional goals in these measures. Based upon the Company's performance with respect to these goals during the second half of fiscal 2007, Mr. Walsh earned a total of 2,224 performance shares (50.14% of his maximum potential award) which he received on March 3, 2008, as described above.

Stacy Loretz-Congdon Chief Financial Officer

Ms. Loretz-Congdon's base salary for 2007 was \$260,858. Her maximum aggregate bonus for 2007 was \$208,686 (80% of her base salary). Based on performance relative to these targets, the Compensation Committee approved a bonus of \$46,685.

On July 2, 2007, we granted Mr. Walsh a total of 4,438 restricted stock units and 4,436 option shares under the 2007 Plan. Change of Control Matters

None of our named executive officers have employment agreements, and all are employees at will. However, certain of our plans do provide for benefits that could be triggered by a change of control. Under our 2004 and 2005 Long-Term Incentive Plans (and related grant agreements), all options become fully exercisable and vested upon a change of control, and all restrictions on restricted stock units (and all deferral periods on deferred restricted stock units) lapse upon a change of control, including shares underlying such restricted stock units (or securities received with such grants). Under our 2007 Long-Term Incentive Plan (and related grant agreements), all options become fully exercisable and vested, all restrictions on restricted stock units (and all deferral periods on deferred restricted stock units) lapse and all performance shares vest at the target level upon a change of control, including shares underlying the grants (or securities to be received with respect to such grants) (See "Change of Control" section for further discussion). Refer to the discussion under "Potential Post-Employment Payments to Named Executive Officers" below for quantification of the amounts that would have been payable to our named executive officers upon a board approved retirement or upon a change of control as of December 31, 2007.

Tax and Accounting Considerations

Tax Considerations. Section 162(m) of the Internal Revenue Code of 1986, as amended places a limit of \$1,000,000 on the amount of compensation that we may deduct in any one year with respect to our Chief Executive Officer and each of the next four most highly compensated executive officers. The Compensation Committee considers the anticipated tax treatment of Core-Mark and its executive officers when reviewing the executive compensation programs. However, the Compensation Committee will not necessarily seek to limit executive compensation to amounts deductible under Section 162(m), as the Compensation Committee wishes to maintain flexibility to structure our executive compensation programs in ways that best promote the interests of the Company and its stockholders.

Accounting Considerations. With the adoption of FAS 123R, *Share-Based Payment*, we do not expect accounting treatment of differing forms of equity awards to have a material effect on the selection of forms of compensation.

Table of Contents

Other Considerations

The Compensation Committee has sole authority to engage and terminate outside advisors or consultants to assist in carrying out its responsibilities. Consultants are selected by the Compensation Committee and report directly to the Chair of the Compensation Committee. For 2007, the Compensation Committee retained the services of Towers Perrin HR Service as its independent compensation consultant. Towers Perrin conducted a review of all elements of compensation for executive officers considering compensation provided by peer companies to executives exercising similar responsibilities. Based upon this review, Towers Perrin provided recommendations and assistance in the preparation of the 2007 Long-Term Incentive Plan and recommendations and assistance with respect to total compensation of executive officers.

We have not adopted policies and procedures designed to reclaim or claw back incentive awards made on the basis of financial results that are later restated. However, our three Long-Term Incentive Plans (LTIP) do contain provisions providing for the recovery of all gains made by any executive from the exercise of options within one year prior to the executive's termination for Cause, as defined in the plans.

Our Board of Directors has also adopted a Statement of Policy providing that we will not engage in the re-pricing of stock options granted under our 2007 Long-Term Incentive Plan, and that shares awarded under that plan that are forfeited by grantees will not be available for re-grant.

There are currently no stock ownership requirements applicable to our executive officers and directors. Our Nominating and Governance Committee has considered such requirements in 2007 and expects to consider this issue again in 2008.

COMPENSATION COMMITTEE REPORT

The Compensation Committee (the Committee) administers Core-Mark's compensation program for executive officers. The Committee's role is to oversee Core-Mark's compensation plans and policies, annually review and approve all such executive officers' compensation, approve annual bonus awards, and administer Core-Mark's long-term incentive plans (including reviewing and approving grants to Core-Mark's executive officers).

The Committee's charter reflects these various responsibilities, and the Committee and the Board of Directors periodically review and revise the charter. The Board of Directors determines the Committee's membership, which currently consists of four non-employee directors. All of the Committee's members are independent under the rules of the NASDAQ Stock Market. The Committee meets at scheduled times during the year and it also considers and takes action by written consent. The Committee Chairman, Gary F. Colter, reports any Committee actions or recommendations to the full Board of Directors.

The Committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this Proxy Statement. Based on that review and those discussions, the Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

The Committee is pleased to submit this report to Core-Mark's stockholders.

2004 Long-Term Incentive Plan

The 2004 Long-Term Incentive Plan, or 2004 LTIP, authorizes the issuance of stock options, restricted stock units, restricted stock shares, stock appreciation rights, performance awards or any combination of the foregoing to officers and key employees. Currently only stock options, restricted stock units and restricted stock shares have been issued from the 2004 LTIP. For option grants, the exercise price equals the fair value of the Company's common stock on the date of grant. For restricted stock grants grantees must pay the par value (\$0.01) of the common stock upon the receipt of the underlying shares. In general, options and restricted stock units vest over a three year period; one-third of the options and restricted stock units cliff-vest on the first anniversary of the vesting commencement date and the remaining options and restricted stock units vest in equal monthly and quarterly installments, respectively, over the two year period following the first anniversary of the vesting commencement date. Stock options expire seven years after the date of grant. Restricted stock units do not have an expiration date.

2005 Long-Term Incentive Plan

The 2005 Long-Term Incentive Plan, or 2005 LTIP, authorizes the granting of restricted stock units, restricted stock units, performance awards or any combination of the foregoing to officers and key employees. Currently only restricted stock units have been issued from the 2005 LTIP. The majority of restricted stock units issued under the 2005 LTIP generally vest over three years: one-third of the restricted stock units cliff vest on the first anniversary of the vesting commencement date and the remaining restricted stock units vest in equal quarterly installments over the two year period following the first anniversary of the vesting commencement date. Restricted stock units do not have an expiration date.

2007 Long-Term Incentive Plan

The 2007 Long-Term Incentive Plan, or 2007 LTIP, authorizes the issuance of stock options, restricted stock units, restricted stock shares, stock appreciation rights, performance awards, performance shares or any combination of the foregoing to officers and key employees. Currently only stock options, restricted stock units and performance shares have been issued from the 2007 LTIP. For option grants, the exercise price equals the fair value of the Company's common stock on the date of grant. For restricted stock grants grantees must pay the par value (\$0.01) of the common stock upon the receipt of the underlying shares. In general, options and restricted stock units vest over a three year period; one-third of the options and restricted stock units cliff-vest on the first anniversary of the vesting commencement date and the remaining options and restricted stock units vest in equal quarterly installments, respectively, over the two year period following the first anniversary of the vesting commencement date. Stock options expire seven years after the date of grant. Restricted stock units do not have an expiration date. In general, the vesting of the performance shares is based upon the Company's achievement of certain financial goals set by the Compensation Committee and each award specifies a percentage of the performance shares that would vest upon the achievement of threshold, outstanding or exceptional goals in such measures. Performance Share grants made after January 1, 2008, generally also contain three year vesting periods, pursuant to which one-third of the performance shares earned will cliff-vest on the first anniversary of the vesting commencement date and the remaining performance shares earned will vest in equal quarterly installments, respectively, over the two year period following the first anniversary of the vesting commencement date.

Table of Contents**Potential Payments Upon Termination or Change-In-Control****Severance Policy**

Each of our named executive officers and vice presidents are entitled to certain benefits under the Core-Mark Executive Severance Policy. Pursuant to the policy, upon the officer's involuntary termination other than for cause, gross misconduct (each as defined in the policy) or long term disability and upon our acceptance of an executed separation agreement, the officer is entitled to the following benefits based on the years of service and location of employment:

U.S. Employees

Number of Years of Service	Benefit
Less than two years	Two months of base salary
At least two years but less than five years	Four months of base salary
At least five years but less than ten years	Eight months of base salary
At least ten years but less than 20 years	12 months of base salary
More than 20 years	18 months of base salary

All payments under the severance policy are made in one lump sum at the first regularly scheduled payroll issuance following termination. In addition to above payments, such officer shall receive COBRA cost reimbursement for the same number of months of their base salary payment plus payment of a pro rated bonus for the year of their termination.

Canadian Employees. The severance benefits paid to any Canadian named executive officers are based on the applicable provincial laws.

Accelerated Option Vesting. In addition, an executive officer who has received an option grant under our 2004 Long-Term Incentive Plan and 2007 Long-Term Incentive Plan may be entitled to accelerated vesting of all such options should such executive officer be terminated without cause or resign his employment with good reason.

Retirement

Award grants made to our named executive officers under our 2005 Long-Term Incentive Plan and under our 2007 Long-Term Incentive Plan (during fiscal 2007) generally entitle such officers to accelerated vesting of all of their restricted stock units in the event that such executive retires, and the retirement is approved by our Board of Directors as a retirement that qualifies for such treatment. In addition, certain awards made to our named executive officers under our 2007 Long-Term Incentive Plan generally entitle such officers to accelerated vesting of a pro-rata portion of their options, restricted stock units and/or performance shares in the event that (1) such executive retires prior to the first vesting date of such award and (2) the retirement is approved by our Board of Directors as a retirement that qualifies for such treatment. In general the pro-rata portion of such award that is vested is based upon the number of months of service of such officer during the applicable vesting period under the award. Performance shares are vested pro-rata at the outstanding target level.

Change of Control

Award grants made to our named executive officers under our 2004, 2005 and 2007 Long-Term Incentive Plans generally entitle such officers to accelerated vesting of all of their option shares, restricted stock units and performance shares in the event that we are acquired by a non-public company. In addition, if we are acquired by a public company and the executive officer is terminated without cause or resigns with good reason within one year after we are acquired, then generally all such executive officer's unvested option shares, restricted stock units and performance shares will immediately vest. If the change of control under either scenario occurs before the completion of the applicable performance period under a performance share award, such performance share shall vest at the outstanding target level.

- [1] Core-Mark Holding Company, Inc. does not have an official retirement age; rather, named executive officers may be approved for retirement by the Board of Directors. The table assumes that all named executive officers would have been so approved if termination occurred on December 31, 2007. Upon retirement, unvested options are forfeited and vested options remain exercisable for a period of 90 days, and restrictions lapse on all restricted stock units.
- [2] Upon termination without cause, terminated executives are eligible for severance cash in accordance with the Core-Mark Executive Severance Policy. Also, options become fully vested and exercisable as of the date of termination and remain exercisable for a period of 90 days thereafter. Options terminate and are forfeited at the end of the 90-day period. Upon termination, all unvested restricted stock units are forfeited.
- [3] Upon a change in control, executives are eligible for all of the benefits of a without-cause termination. In addition, all restrictions lapse on restricted stock units and all unvested options are accelerated.
- [4] Executive officers and vice presidents in the U.S. may receive benefits under the Core-Mark Executive Severance Policy. If terminated on December 31, 2007, the following individuals would receive 12 months salary, payable in a lump sum: J. Michael Walsh, Stacy Loretz Congdon, Christopher L. Walsh, and Thomas B. Perkins. Basil P. Prokop would receive payments in accordance with the applicable provincial law in Canada. The above calculation assumes that he receives two years base salary and two years continuation of all benefits shown in the All Other Compensation column of the Summary Compensation Table, plus one times his 2006 bonus (\$0).

REPORT OF THE AUDIT COMMITTEE

The Audit Committee (the Committee) reviews Core-Mark's financial reporting process on behalf of the Board of Directors and reports to the Board on audit, financial and related matters. Core-Mark's management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls. Deloitte & Touche LLP (the independent registered public accounting firm for fiscal year ended December 31, 2007) was responsible for performing an independent audit of the Company's consolidated financial statements and internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States), and to issue its reports thereon. The Committee oversees these processes.

In this context, the Committee has met and held discussions with Core-Mark's management and the independent auditor. Management has represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the Committee reviewed and discussed the consolidated financial statements with management and the independent auditor. The Committee also discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 114, *The Auditor's Communication with Those Charged with Governance*.

In addition, the Committee discussed with the independent auditor such auditor's independence from the Company and its management, and the independent auditor provided to the Committee the written disclosures and communications required by the Independence Standards Board Standard No. 1 (Independence Discussions With Audit Committees).

The Committee discussed with the Company's internal audit staff and independent auditor the overall scope and plans for their respective audits. The Committee met with the internal audit staff and the independent auditor, with and without management present, to discuss the results of their examinations, their evaluations of Core-Mark's internal controls, and the overall quality of Core-Mark's financial reporting.

Based on the reviews and discussions with management and the independent auditor referred to above, the Committee recommended to the Board of Directors, and the Board of Directors has approved, that the audited financial statements be included in Core-Mark's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, for filing with the Securities and Exchange Commission.

At the Annual Meeting, the stockholders are being asked to ratify the appointment of D&T as Core-Mark's independent auditor for fiscal year 2008. If ratification is withheld, the Audit Committee will reconsider its selection. A representative of D&T will attend our Annual Meeting to respond to appropriate questions and will have the opportunity to make a statement if the representative desires to do so.

The Board of Directors recommends that the stockholders vote FOR Proposal 2.

Pre-Approval of Audit and Non-Audit Services

Core-Mark's Audit Committee is responsible for appointing Core-Mark's independent auditor and approving the terms of the independent auditor's services. The Audit Committee has established a policy for the pre-approval of all audit and permissible non-audit services to be provided by the independent auditor, as described below and must pre-approve any internal control related service, including any changes in the nature, scope or extent of such services.

Changes In And Disagreements With Accountants On Accounting and Financial Disclosure

PricewaterhouseCoopers LLP. On March 20, 2006, PricewaterhouseCoopers LLP (PWC) notified us that it declined to stand for re-election as our independent registered public accounting firm upon completion of the audit and subsequent filing of our financial statements as of and for the year ended December 31, 2005 to be included in our 2005 Annual Report on Form 10-K.

PWC 's report on our financial statements as of December 31, 2005 did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principle.

During the period from January 1, 2005 and through the audit for the year ended December 31, 2005, there were no disagreements with PWC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of PWC would have caused them to make reference thereto in their reports on our financial statements for such periods, other than disagreements that arose in connection with PWC 's review of our unaudited condensed consolidated financial statements as of and for the three and nine month periods ended September 30, 2005 related to (i) the accounting for loss on extinguishment of debt and (ii) the preparation of the cash flow statement with respect to changes in foreign currency exchange rates. The disagreement regarding the accounting for loss on extinguishment of debt consisted of a difference of opinion on the appropriate period within which a \$2.3 million pre-tax charge associated with the termination of a credit facility was to be recorded. The disagreement regarding the preparation of the cash flow statement with respect to changes in foreign currency exchange rates centered on the method for computing the effect of changes in foreign exchange rates. Prior to the filing of our Form 10-Q for the third quarter of 2005, each of these disagreements was resolved to the satisfaction of PWC. The Audit Committee discussed the subject matter of these disagreements with PWC. We have authorized PWC to respond fully to the inquiries of D&T concerning the subject matter of these disagreements.

In connection with PWC 's audit of our consolidated financial statements as of and for the year ended December 31, 2005, PWC advised us of the existence of eleven deficiencies in our internal control over financial reporting, all of which the Audit Committee determined constituted material weaknesses in our internal control over financial reporting. A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Two of the material weaknesses were related to the control environment, commitment and lack of sufficient technical resources to manage, review, and ensure certain accounts and balances were adequately accounted for and disclosed properly. These two material weaknesses contributed to the remaining nine material weaknesses that specifically related to certain transactions.

PWC initially advised us of certain of these control deficiencies in connection with their review of our unaudited condensed consolidated financial statements as of and for the three and nine month periods ended September 30, 2005 and we grouped these for disclosure in our Form 10-Q for the third quarter of 2005.

To address these material weaknesses, the Audit Committee directed management, with the assistance of an outside consultant, to formulate an enhancement of our remediation plan described in our Form 10-Q for the third quarter of 2005 initially developed to address the deficiencies identified at the time of filing of the Form 10-Q. The results of our remediation plan are discussed below.

The Audit Committee discussed the subject matter of these material weaknesses with PWC. We have authorized PWC to respond fully to the inquiries of D&T concerning the subject matter of the material weaknesses. We have provided PWC with a copy of the disclosure contained in this section.

Table of Contents

Deloitte & Touche LLP. On April 20, 2006, Deloitte & Touche LLP (D&T) was engaged as our independent registered public accounting firm for the fiscal year ending December 31, 2006. The Audit Committee of our Board of Directors approved D&T 's engagement on the same date. During our fiscal years 2004 and 2005 and for the period from January 1, 2006 through April 20 2006, neither the Company nor anyone on its behalf consulted with D&T regarding any of the matters referenced in Item 304(a)(2) of Regulation S-K, including the application of accounting principles to a specific transaction, the type of audit opinion that might be rendered, or any matter that was the subject of disagreement with PWC.

D&T 's report on our financial statements as of December 31, 2006 did not contain an adverse opinion or a disclaimer of opinion, was not qualified or modified as to uncertainty or audit scope and included an explanatory paragraph related to the adoption of two new accounting standards. D&T 's report on our financial statements as of December 31, 2007 did not contain an adverse opinion or a disclaimer of opinion, was not qualified or modified as to uncertainty or audit scope and included an explanatory paragraph related to the adoption of two new accounting standards in 2006 and one new accounting interpretation in 2007. During the period from April 20, 2006 and through the audit for the year ended December 31, 2007, there were no disagreements with D&T on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of D&T would have caused them to make reference thereto in their reports on our financial statements for such periods.

As disclosed in Item 9A of our 2006 Annual Report on Form 10-K and in our quarterly reports on Form 10-Q filed during 2007, management had identified one material weakness in our internal control over financial reporting as of December 31, 2006. The material weakness was the result of the Company not maintaining effective controls over the financial reporting process due to an insufficient complement of personnel with an appropriate level of accounting knowledge, experience and training in the application of generally accepted accounting principles commensurate with its financial reporting requirement and the complexity of the Company 's operations and transactions. The Audit Committee discussed the subject matter of this material weakness with D&T.

During 2007 management completed the enhancement of its financial accounting structure, as well as testing of newly established policies, procedures and control activities designed to address such material weakness. As a result, management believes that such material weakness was remediated as of December 31, 2007.

In our 2007 Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 14, 2008, D&T issued a report on internal control over financial reporting (see 2007 Form 10-K, Part II, Item 9.A., Controls and Procedures, page 78), stating that the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007.
