**ChipMOS REPORTS FIRST QUARTER 2008 RESULTS**

**Hsinchu, Taiwan, May 14, 2008** ChipMOS TECHNOLOGIES (Bermuda) LTD. ( ChipMOS or the Company ) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the first quarter ended March 31, 2008. All U.S. dollar figures in this release are based on the exchange rate of NT\$30.37 against US\$1.00 as of March 31, 2008.

Net revenue on a US GAAP basis for the first quarter of 2008 was NT\$4,779.0 million or US\$157.4 million, a decrease of 16.5% from NT\$5,723.0 million or US\$188.4 million for the same period in 2007 and a decrease of 21.7% from NT\$6,101.6 million or US\$200.9 million in the fourth quarter of 2007. Under US GAAP, the gross margin for the first quarter of 2008 was 9.1%, compared to 27.2% for the same period in 2007 and 24.6% for the fourth quarter of 2007.

Net income on a US GAAP basis for the first quarter of 2008 was NT\$209.0 million or US\$6.9 million, and NT\$2.49 or US\$0.08 per basic common share, compared to NT\$1,231.8 million or US\$40.6 million, and NT\$14.70 or US\$0.48 per basic common share, for the fourth quarter of 2007. Net income under US GAAP includes non-cash gains for changes in the fair value of the embedded derivative liabilities of NT\$129.6 million or US\$4.3 million and amortization of discount on convertible notes of NT\$86.7 million or US\$2.9 million for the first quarter of 2008 and non-cash gains for changes in the fair value of the embedded derivative liabilities of NT\$554.4 million or US\$18.3 million and amortization of discount on convertible notes of NT\$84.2 million or US\$2.8 million for the fourth quarter of 2007. Excluding the above special items regarding the convertible notes, non-GAAP adjusted net income for the first quarter of 2008 was NT\$166.1 million or US\$5.5 million, and NT\$1.98 or US\$0.06 per basic common share, compared to non-GAAP adjusted net income of NT\$761.6 million or US\$25.1 million, and NT\$9.09 or US\$0.30 per basic common share in the fourth quarter of 2007.

The unaudited consolidated financial results of ChipMOS for the first quarter ended March 31, 2008 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS Japan Inc., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, As expected, our revenue and gross margin in the first quarter of 2008 declined as compared to the first and fourth quarters of 2007. These declines were primarily the results of low DRAM capacity utilization rates and DRAM backend service price erosion. In addition, compared to the fourth quarter of 2007, the weak results in the first quarter of 2008 reflected a seasonal slowdown in driver IC demand and fewer working days in February that resulted from the Chinese New Year holidays. Revenues from our LCD driver IC and flash businesses also decreased in the first quarter of 2008 compared to the fourth quarter of 2007, primarily as a result of the seasonal slowdown in demand and fewer working days in February. Nonetheless, we are pleased to report that our revenue in the first quarter of 2008 was higher than our previous guidance. We will continue our efforts in reducing costs and enhancing profitability.

S.K. Chen, Chief Financial Officer of ChipMOS, said, Our CapEx in the first quarter of 2008 was US\$36.1 million, which was down from US\$39.8 million in the fourth quarter of 2007. The improved cash flow made our net debt to equity ratio significantly reduced from 73.5% in the fourth quarter of 2007 to 68.0% in the first quarter of 2008. Our net debt is calculated by subtracting cash and cash equivalents and financial assets at fair value through profit or loss from the sum of short-term bank loans, long-term debts and current portion of long-term debts. We intend to remain conservative with our capital expenditures going forward to generate more free cash flow from our operation, and we intend to use the cash savings to reduce our debt.

**Selected Operation Data**

**Second Quarter 2008 Outlook**

Mr. Cheng continued, The overall DRAM market visibility in following quarters remains limited. However, as we currently expect introduction of new 1Gbit DDR II by our customers in May or June 2008, we currently believe the backend demand, especially for testing, may increase gradually in the second half of 2008 accordingly. In addition, based on customer forecast, we also believe that our LCD driver business may improve slightly in the second quarter of 2008 over the first quarter of 2008 due to an expected increase panel demand. However, we remain cautious about the LCD market in 2008. Flash revenue contributed approximately 31.7% of our total revenue in the first quarter of 2008, and we currently expect flash revenue to maintain approximately the same weight in the second quarter of 2008 based on our continued business relationships with our Taiwan and US customers. In the current down cycle, we plan on continuing our disciplined capital expenditures and focus primarily on equipment upgrade and capacity maintenance rather than capacity expansion.

Considering the overall market situation among our product segments, we currently expect that Q2 revenue will be in the range of approximately US\$157 million to US\$162 million, which is around flat to 3% of growth as compared to Q1. The Company currently expects US GAAP gross margin on a consolidated basis for the second quarter of 2008 to be in the range of approximately 8% to 11%, primarily due to lower capacity utilization. While we expect the market to be difficult in the second quarter of 2008, ChipMOS expects to have sufficient cash flow, and will continue its efforts on its cost savings to maintain profitability.

**Investor Conference Call / Webcast Details**

ChipMOS will review detailed first quarter 2008 results on Wednesday, May 14, 2008 at 7:00PM ET (7:00AM, May 15, Taiwan time). The conference call-in number is 1-201-689-8562. **Use of Non-GAAP Financial Information**

To supplement our consolidated income statement (unaudited) for the three months ended Mar. 31, 2008 on a US GAAP basis, the Company uses a non-GAAP measure of net income, which is US GAAP net income adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income and non-GAAP net income per share to evaluate the performance of our core businesses, to estimate future core performance and to compensate employees. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.

- (2) The Company's management believes excluding non-cash special item for the changes in the fair value of the embedded derivative liabilities from its non-GAAP financial measure of net income is useful for itself and investors as such gain (expense) does not have any impact on cash available to the Company.
- (3) The Company's management believes excluding non-cash amortization expense of discount on convertible notes from its non-GAAP financial measure of net income is useful for itself and investors as such expense does not have any impact on cash available to the Company.
- (4) Non-GAAP diluted net loss per share for the first quarter of 2008 is US\$0.04, and Non-GAAP diluted net income per share for the fourth quarter of 2007 is US\$0.24, same as those under US GAAP since US GAAP adjusted diluted net income (loss) has excluded the two non-cash special items for non-GAAP reconciliation.
