Date: May 28, 2009

By: /s/ Alexander Y. Torbakhov  
Name: Alexander Y. Torbakhov  
Title: General Director

**Moscow and New York (May 28, 2009) - Open Joint Stock Company Vimpel-Communications ( VimpelCom or the Company ) (NYSE: VIP)**, the leading provider of telecommunications services in Russia and the Commonwealth of Independent States (CIS), today announced its financial and operating results for the quarter ended March 31, 2009.

**First Quarter 2009 Financial and Operating Highlights**

Net operating revenues reached 66.8 billion Russian rubles\*, an increase of 30.7% versus 1Q08 and a decrease of 4.1% versus 4Q08.

OIBDA reached 32.2 billion rubles, an increase of 5.0% versus 4Q08.

Consolidated OIBDA margin improved to 48.1% from 44.0% reported in the 4Q08.

Operating income reached 19.3 billion rubles, an increase of 239.5% versus 4Q08.

Net loss amounted to 8.5 billion rubles due to a 23.6 billion ruble foreign exchange loss.

Mobile subscribers increased by 1.7 million versus 4Q08, reaching 62.7 million.

\* In order to align the reporting currency with the predominant functional currency of the Company and simplify comparative performance analysis the Company has decided to change its reporting currency to the Russian ruble. The RUR/USD exchange rate at the end of 1Q2009 was 34.01 and the average rate for the quarter ended March 31, 2009 was 33.93, the RUR/USD exchange rate at the end of 4Q2008 was 29.38 and the average rate for the quarter ended December 31, 2008 was 27.27.

VimpelCom Announces First Quarter 2009 Financial and Operating Results

Commenting on the performance of the Company, Boris Nemsic, Chief Executive Officer of VimpelCom, said, "During the first quarter of 2009 the economies of Russia and the CIS countries went through a period of intense macroeconomic turmoil with a significant decline in overall business confidence, rapid currency devaluations, a drop in industrial production and rising unemployment. Despite the unfavorable macroeconomic conditions and usual seasonal slowdown, we managed to deliver strong quarterly results with revenues of 66.8 billion rubles and OIBDA of 32.2 billion rubles with a healthy OIBDA margin of over 48%. The relatively minor impact of the economic environment on the operational side of our business reconfirms our belief in the resilience of the telecom industry."

During the quarter we increased the number of active mobile subscribers from 61.0 million to 62.7 million. Our residential broadband business grew ahead of our initial expectations. In the fixed-line corporate segment we observed good performance with revenues increasing by 5% quarter-on-quarter.

The set of measures that we implemented at the beginning of the macroeconomic uncertainty has started to bear fruit. Integration synergies and a focus on cost-control, coupled with the usual seasonal effect, yielded a consolidated OIBDA margin of over 48%, a 5% increase in OIBDA quarter-on-quarter.

Our cash flow from operations increased by 34% over the previous quarter and amounted to 28.0 billion rubles, which equals US\$826 million at the average exchange rate of 33.93 RUR/USD. Looking forward we think that the most recent macroeconomic developments, if maintained, give us reason for cautious optimism .

\* Only one month of Golden Telecom's operations was consolidated in 1Q08.

\*\* y-o-y stands for 1Q09 vs. 1Q08 comparison.

\*\*\* q-o-q stands for 1Q09 vs. 4Q08.

\*\*\*\* See definitions in Attachment A.

Net operating revenues 1Q 2009***** (RUR, millions)	Russia	CIS	Eliminations	Total
Mobile business	45,653	9,331	-67	54,917
Fixed business	13,308	2,169	-459	15,018
Eliminations	-2,689	-213	-190	-3,092
Total net operating revenue	56,272	11,287	-716	66,843

\*\*\*\*\* Due to the increasing integration between different parts of our business, we include inter-company transactions in the reported revenues of geographic and business segments, and indicate the amount of inter-company eliminations within and between the segments.

The first quarter net operating revenues reflect the underlying stability of our business with the 10.5% quarterly growth in revenues in the fixed segment partially offsetting the 6.2% decline in our mobile revenues.

VimpelCom Announces First Quarter 2009 Financial and Operating Results

With the onset of the economic crisis we shifted our focus to cash generation and preservation. Cost reduction efforts helped to improve our consolidated OIBDA margin and deliver 5% quarterly OIBDA growth. While in absolute terms our quarterly OIBDA increased by 17.8% versus one year ago, the decrease in OIBDA margin year-on-year can be attributed largely to two factors. The first factor is the significant reversal in the first quarter of 2008 of prior accruals related to stock-based compensation for employees and the second factor is the fact that we began consolidating the lower margin fixed business of Golden Telecom only in March 2008.

In the first quarter we took a prudent approach to investment and focused on effective cash management. As a result, we invested 3.9 billion rubles in CAPEX during the first quarter of 2009, 54.9% less than in the first quarter of 2008.

Our financial results again were negatively affected by the currency devaluations in Russia, Kazakhstan and Armenia. This resulted in a 23.6 billion ruble net foreign exchange loss primarily due to the revaluation of our long-term foreign currency debt.

## VimpelCom Announces First Quarter 2009 Financial and Operating Results

**Russia - Financial and Operating Results**

<b>RUSSIA (RUR, millions)</b>	<b>1Q 2009</b>	<b>1Q 2008</b>	<b>y-o-y</b>	<b>4Q 2008</b>	<b>q-o-q</b>
Net operating revenues	56,272	43,597	29.1%	58,809	-4.3%
OIBDA	27,227	24,081	13.1%	25,849	5.3%
OIBDA margin, %	48.4%	55.2%		44.0%	
Operating income	17,719	16,260	9.0%	7,847	125.8%
Operating income margin, %	31.5%	37.3%		13.3%	
SG&A	14,936	10,514	42.1%	18,198	-17.9%
including Sales & Marketing Expenses	4,485	3,823	17.3%	6,706	-33.1%
including General & Administrative Costs	10,451	6,691	56.2%	11,492	-9.1%
SG&A percentage	26.5%	24.1%		30.9%	
Net (loss)/income	-6,722	14,954	n/a	-12,132	n/a

Our quarterly net operating revenues in Russia amounted to 56.3 billion rubles, a decline of 4.3% compared to the previous quarter. The consolidated OIBDA margin in Russia was 48.4%, improving versus the previous quarter largely due to our continuing cost optimization efforts.

In the mobile segment, we increased our subscriber base by 1.7 million. MOU was down by 10.9% compared with the previous quarter, reflecting seasonal trends and the impact of the economic environment. The drop in MOU, coupled with stable pricing, led to a decrease in ARPU of 10.0%.

MOU grew by 2.2% in comparison to the first quarter of 2008. This, coupled with a strong increase in our subscriber base over the past year, resulted in year-on-year mobile revenue growth of 12.3%.

Our fixed-line revenues grew by 11.3% quarter-on-quarter, representing 19.6% of our total revenues in Russia. We are especially pleased with the improvement in our fixed-line OIBDA margin to 30.1% from 24.6% reported in the fourth quarter.

We continue gaining subscribers in the fast growing residential broadband market in Russia providing both fixed and mobile access. In the first quarter of 2009 our total number of residential broadband subscribers in Russia including FTTB and mobile broadband increased by 0.3 million subscribers and reached 1.5 million.

Broadband subscribers <sup>*)</sup> ( 000)	40	12	233.3%	24	66.7%

The share of revenues from our operations in the CIS markets increased to 16.9% of our total consolidated revenues reflecting regional and functional diversity. Although in absolute terms our CIS revenues decreased 1.3% quarter-on-quarter, revenues showed a remarkable year-on-year growth of 46.8%. However, the revenue dynamics vary country-to-country when expressed in local currencies (Please see Attachment F for the applicable exchange rates).

The consolidated OIBDA from our CIS operations increased 3.9% quarter-on-quarter to 5.1 billion rubles, reflecting cost optimization throughout the Group. In the first quarter of 2009 we reported a net loss in the CIS of 0.4 billion rubles primarily due to a 1.8 billion ruble foreign exchange loss in Kazakhstan.

VimpelCom Announces First Quarter 2009 Financial and Operating Results

**Other Operations**

In May 2009, we launched commercial operations in Cambodia, offering our services under our Beeline brand. During the first stage our services will be available in the 11 largest provinces reaching 37% of the country's population. By the end of 2009, we plan to provide coverage to an area with more than two thirds of the country's population.

In Vietnam, we remain on track with the rollout of our joint-venture's networks and sales channels build-out and plan to launch commercial operations in mid-summer.

The Company's management will discuss its first quarter 2009 results during a conference call and slide presentation on May 28, 2009 at 6:30 pm Moscow time (10:30 am US ET). The call and slide presentation may be accessed via webcast at the following URL address <http://www.vimpelcom.com>. The conference call replay will be available through June 10, 2009. The slide presentation webcast will also be available for download on VimpelCom's website <http://www.vimpelcom.com>.

The VimpelCom Group consists of telecommunications operators providing voice and data services through a range of mobile, fixed and broadband technologies. The Group includes companies operating in Russia, Kazakhstan, Ukraine, Uzbekistan, Tajikistan, Georgia, Armenia, as well as Vietnam and Cambodia, in territories with a total population of about 340 million. VimpelCom was the first Russian company to list its shares on the New York Stock Exchange ( NYSE ). VimpelCom's ADSs are listed on the NYSE under the symbol VIP .

VimpelCom Announces First Quarter 2009 Financial and Operating Results

*This press release contains forward-looking statements, as the phrase is defined in Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to the Company's development plans in Cambodia and Vietnam and management's expectations about macroeconomic developments and the resilience of the telecommunications industry. These and other forward-looking statements are based on management's best assessment of the Company's strategic and financial position and of future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of continued volatility in the economies in the markets in which the Company operates, unforeseen developments from competition, governmental regulation of the telecommunications industries, general political uncertainties in the markets in which the Company operates and/or litigation with third parties. The actual outcome may also differ materially if the Company is unable to obtain all necessary corporate approvals relating to its business, if the Company is unable to successfully integrate newly-acquired businesses, including Golden Telecom, and other factors. There can be no assurance that such risks and uncertainties will not have a material adverse effect on the VimpelCom Group. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risks described in the Company's Annual Report on Form 20-F for the year ended December 31, 2008 and other public filings made by the Company with the United States Securities and Exchange Commission, which risk factors are incorporated herein by reference. VimpelCom disclaims any obligation to update developments of these risk factors or to announce publicly any revision to any of the forward-looking statements contained in this release, or to make corrections to reflect future events or developments.*

VimpelCom Announces First Quarter 2009 Financial and Operating Results

**- Definitions and tables are attached**

**Attachment A: Definitions**

**Mobile subscribers** are those subscribers in the registered subscriber base who were a party to a revenue generating activity in the past three months and remain in the base at the end of the reported period. Such activities include all incoming and outgoing calls, subscriber fee accruals, debits related to service, outgoing SMS, MMS, data transmission and receipt sessions, but do not include incoming SMS and MMS sent by our Company or abandoned calls.

**Each ADS** represents 0.05 of one share of common stock. This ratio was established effective August 21, 2007.

**ARPU** (Monthly Average Revenue per User), a non-U.S. GAAP financial measure, is calculated by dividing the Company's service revenue during the relevant period, including roaming revenue and interconnect revenue, but excluding revenue from connection fees, sales of handsets and accessories and other non-service revenue, by the average number of the Company's subscribers during the period and dividing by the number of months in that period. The Company believes that ARPU provides useful information to investors because it is an indicator of the performance of the Company's business operations and assists management in budgeting. The Company also believes that ARPU provides management with useful information concerning usage and acceptance of the Company's services. ARPU should not be viewed in isolation or an alternative to other figures reported under U.S. GAAP.

**Broadband subscribers** are those subscribers in the registered subscriber base who were a party to a revenue generating activity in the past three months. Such activities include monthly internet access using FTTB, xDSL and WiFi technologies as well as mobile home internet service via USB modems.

**CIS Geographic Segment** for the purpose of VimpelCom reporting includes our operations in the following countries: Kazakhstan, Ukraine, Uzbekistan, Tajikistan, Armenia and Georgia.

**Fixed-line subscriber** is an authorized user of fixed-line communications services.

**General and administrative costs (G&A)** include salaries and outsourcing costs, including related social contributions required by Russian law; stock price-based compensation expenses; repair and maintenance expenses; rent, including lease payments for base station sites; utilities; other miscellaneous expenses, such as insurance, operating taxes, license fees, and accounting, audit and legal fees.

**Households passed** are households located within buildings, in which indoor installation of all the FTTB equipment necessary to install terminal residential equipment has been completed.

**Market share** of subscribers for each relevant area is calculated by dividing the estimated number of our mobile subscribers in Russia, Kazakhstan, Ukraine, Uzbekistan, Tajikistan, Georgia and Armenia, respectively, by the total estimated number of mobile subscribers in Russia, Kazakhstan, Ukraine, Uzbekistan, Tajikistan, Georgia and Armenia, respectively, and is provided by AC&M-Consulting.

**Mobile services** are wireless voice and data transmission services excluding WiFi.

VimpelCom Announces First Quarter 2009 Financial and Operating Results

**MOU** (Monthly Average Minutes of Use per User) is calculated by dividing the total number of minutes of usage for incoming and outgoing calls during the relevant period (excluding guest roamers) by the average number of mobile subscribers during the period and dividing by the number of months in that period.

**OIBDA** is a non-U.S. GAAP financial measure. OIBDA, previously referred to as EBITDA by the Company, is defined as operating income before depreciation, amortization and impairment loss. The Company believes that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our business operations, including our ability to finance capital expenditures, acquisitions and other investments and our ability to incur and service debt. While depreciation, amortization and impairment loss are considered operating costs under U.S. GAAP, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculations are commonly used as bases for some investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the telecommunications industry. OIBDA should not be considered in isolation as an alternative to net income, operating income or any other measure of performance under U.S. GAAP. OIBDA does not include our need to replace our capital equipment over time. Reconciliation of OIBDA to operating income, the most directly comparable U.S. GAAP financial measure, is presented below in the reconciliation tables section.

**OIBDA margin** is OIBDA expressed as a percentage of net operating revenues. Reconciliation of OIBDA margin to operating income as a percentage of net operating revenues, the most directly comparable U.S. GAAP financial measure, is presented below in the reconciliation tables section.

**Prepaid subscribers** are those subscribers who pay for their services in advance.

**Sales and marketing costs (S&M)** include marketing, advertising and dealer commissions expenses.

**Take-up rate** for the FTTB network is calculated by dividing the number of FTTB subscribers by the total number of households passed.
