**Item 7.01 Regulation FD Disclosure**

On April 16, 2010, Windstream Corporation ( Windstream , we or the Company ) posted to its corporate website at [www.windstream.com](http://www.windstream.com) certain unaudited results of operations for the periods ended December 31, 2009 and 2008. These unaudited results of operations are presented on a pro forma basis to include the consolidated operating results of the Company with NuVox, Inc. ( NuVox ), which was acquired February 8, 2010. In addition, information on revenues derived from consumer, business and wholesale customers has been included along with certain key operating metrics relative to each. These pro forma results of operations represent a non-GAAP financial measure , which is defined as a numerical measure of a company s financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in the Company s financial statements. The non-GAAP financial measures used by the Company may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance or liquidity prepared in accordance with GAAP.

Windstream Corporation has entered into the following pending and completed transactions that may cause results reported under GAAP to be not necessarily indicative of future results:

Pending Transactions

On November 23, 2009, Windstream entered into a definitive agreement to acquire Iowa Telecommunications Services, Inc.

Completed Transactions

On February 8, 2010, Windstream completed the acquisition of NuVox.

On December 1, 2009, Windstream completed the acquisition of Lexcom, Inc. ( Lexcom ).

On November 10, 2009, Windstream completed the acquisition of D&E Communications, Inc. ( D&E ).

On August 21, 2009, Windstream completed the sale of its out of territory product distribution operations to Walker and Associates of North Carolina, Inc.

The unaudited consolidated results from current businesses presented on a pro forma basis either include or exclude the following items when compared to measures prepared in accordance with GAAP:

Includes:

Preacquisition results of operations of NuVox, Lexcom, and D&E, collectively referred to as the acquired businesses .

Merger and integration costs associated with the transactions discussed above,

Results from the out of territory product distribution operations, and

A non-cash impairment charge totaling \$6.5 million on acquired assets held for sale.

Windstream s purpose for including the preacquisition results of acquired businesses and for excluding non-recurring items and the results of the disposed operations is to provide investors with information which reflects the true earnings capacity of the Company s current businesses.

## Edgar Filing: WINDSTREAM CORP - Form 8-K

The Company uses pro forma results from current businesses as a key measure of its operational performance. Windstream management, including the chief operating decision-maker, uses these measures consistently for all purposes, including internal reporting, the evaluation of business objectives, opportunities and performance, and the determination of management compensation.

The Company's presentation of pro forma results of operations, and other communications from time to time, include a non-GAAP measure titled operating income before depreciation and amortization, or OIBDA. OIBDA can be calculated directly from the Company's financial statements by taking operating income and adding back depreciation and amortization expense. The Company will also at times make reference to pro forma OIBDA from current businesses, which is also a non-GAAP measure. Pro forma OIBDA from current businesses adjusts

OIBDA for the items that are either included or excluded from pro forma results from current businesses. Management considers OIBDA to be useful to investors because OIBDA provides information specific to the Company's operating performance.

In addition, from time to time, the Company's communications will also include the following non-GAAP measures:

Pro forma adjusted OIBDA, defined as pro forma OIBDA from current businesses adjusted to exclude the impacts of pension expense, restructuring charges and stock based compensation. Pro forma adjusted OIBDA is included to provide investors with useful information about the Company's operating performance before the impacts of certain non-cash items and to enhance the comparability of our operating results for the periods presented.
