Domestic Dividend Funds

The U.S equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for the broad U.S. equity market, rallied between 47% and 53% for the 12 month period ended March 31, 2010 (the period). These 12-month gains in stock prices came close to erasing the significant declines in those same benchmarks that ranged from 36% to 38% for the 12 months ended March 31, 2009. The broad U.S. market averages are now showing cumulative losses of 5-7% over the prior 24-months.

In the depths of the bear market that occurred in March 2009, investors were panicking about the safety of major financial institutions and those fears spread throughout the entire economy. At the close of the Funds fiscal year end in March 2010, concerns about a meltdown of the financial system have largely been taken off the table, though significant worries about the health of the economy remain. The Federal Reserve, led by Chairman Benjamin Bernanke, instituted a series of emergency lending programs that restored confidence in the financial system, jump started bank lending, and lowered the interest rates for consumers and businesses. These extraordinary measures included, but were not limited to, quantitative easing policies to keep long-term bond and mortgage rates low and the lowering of the Federal Funds target interest rate to a historically low level near zero. In addition to the easing monetary policies and the special Federal Reserve programs designed to restore confidence in the financial system, substantial fiscal policy support measures for the economy were enacted by newly elected President Barack Obama, who assumed office in January 2009. While the U.S. unemployment rate, a lagging economic indicator, remained stubbornly high at 9.7% in March 2010, consumer and investor confidence generally rose throughout the period.

TICKER	WISDOMTREE FUND	1 YEAR RETURN	CAPITALIZATION-WEIGHTED BENCHMARK INDEX	1 YEAR RETURN	1 YEAR RETURN FUND VS INDEX

As with the downturn, in which small cap stocks led the broader markets on the way down during the year ended March 31, 2009, small cap stocks led the markets higher during the year ended March 31, 2010. The perceived tendency of small cap stocks to outperform larger capitalization companies during the initial recovery phases of a bull market and their relative underperformance in recessions and bear markets is tied to many investors views that small cap stocks are more sensitive to the changing economic conditions than large capitalization stocks. This general tendency was played out during the period as many small cap stocks saw significant relative gains.

WisdomTree s dividend weighted funds are designed to track indexes based on the dividend stream generated by the companies included in the underlying WisdomTree index. There are two primary factors that drive performance differential versus market cap-weighted benchmarks: aggregate exposure to a sector and stock selection within a sector, both of which are determined as part of WisdomTree s rules-based index methodology. These exposures are not subjectively determined. Rather they are objectively determined at the index re-balancing dates based on the dividend stream.

Several market sectors enjoyed significant rebounds after the March 2009 lows. The best performing sector over the period was the financial sector. While this sector suffered significant downturns as the financial crisis unfolded, it recovered well as fears over the collapse of the system largely faded away. Management s Discussion of Funds Performance

Fund (DHS), WisdomTree MidCap Dividend Fund (DON), and WisdomTree SmallCap Dividend Fund (DES) therefore had better performance relative to funds with less financial sector exposure.

As investors started anticipating better economic times ahead, sectors most closely tied to cyclical growth also performed well. For example, the information technology and consumer discretionary sectors within the S&P 500 returned 70% and 58% during the period, respectively. Technology companies, which do not tend to pay a lot of dividends, were under-weighted in WisdomTree s dividend weighted strategies, which created a drag on Fund returns.

Also, non-cyclical sectors, such as telecommunications and utilities, which are generally regarded as stable during economic downturns, didn t fare as well during the recovery. Utilities and telecommunications were the two worst performing sectors during the period, returning 21% and 12%, respectively. These two sectors, which have historically had average dividend streams, received relatively more weight in WisdomTree s large capitalization funds the WisdomTree Total Dividend Fund (DTD), WisdomTree LargeCap Dividend Fund (DLN), and WisdomTree Equity Income Fund (DHS). The overweight to these sectors had a negative impact on the returns of these Funds.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The WisdomTree Total Dividend Fund (Ticker Symbol: DTD) returned 50.83% at net asset value (NAV) for the fiscal year ended March 31, 2010 (for more complete performance information, please see below). The Fund benefited from an overweighted position to Financials, which had above average returns and had a notable contribution to positive Fund performance. Information Technology, a sector that outperformed, was a significant underweight during the period, which created a drag on returns.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.38%.**

Performance as of 3/31/10

[1] Total returns are calculated based on the commencement of Fund trading on June 16, 2006.

Performance quoted represents past performance and past performance does not guarantee future results. Current performance may be higher or lower than the performance quoted. For the most recent month-end performance information visit www.wisdomtree.com. Investment in the Fund poses investment risk including the possible loss of principal. The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of $1,000 invested at the beginning of the period and held for the entire period from October 1, 2009 to March 31, 2010.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by $1,000 (for example, an $8,600 account value divided by $1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 10/01/09 to 3/31/10 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Notes to Financial Statements

March 31, 2010

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2010, the Trust offered 42 investment funds (each a Fund , collectively, the Funds). The Funds, described herein, commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree Total Dividend Fund (Total Dividend Fund), WisdomTree Equity Income Fund (Equity Income Fund), WisdomTree LargeCap Dividend Fund (LargeCap Dividend Fund), WisdomTree Dividend ex-Financials Fund (Dividend ex-Financials Fund), WisdomTree MidCap Dividend Fund (MidCap Dividend Fund) and WisdomTree SmallCap Dividend Fund (SmallCap Dividend Fund), together the Domestic Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) has become the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The Codification has superseded all existing non-SEC accounting and reporting standards.

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund s shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund s net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments will be valued in accordance with the Fund s pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV calculation time that may materially affect the value of a Fund s investment (*e.g.*, government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued. When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in Creation Units, which are typically in blocks of 50,000 shares or more. Fund shares are purchased and sold on national securities exchanges at market prices, which may be higher or lower than NAV. Each Fund may invest in money market funds, which are valued at NAV.

Fair Value Measurement GAAP provides guidance on fair value measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure about fair value measurements.

Notes to Financial Statements (continued)

Various inputs are used in determining the value of the Fund s investments. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund s assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund s net asset value is computed and that may materially affect the value of the Fund s investments).

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of March 31, 2010 in valuing the Fund s assets carried at fair value:

Notes to Financial Statements (continued)

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06 Improving Disclosures about Fair Value Measurements. ASU 2010-06 will require reporting entities to make new disclosures about amounts and reasons for significant transfers in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3, and information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures are required to be implemented for fiscal years beginning after December 15, 2009, except for the disclosures surrounding purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010. Management is currently evaluating the impact the adoption of ASU No. 2010-06 may have on the Fund s financial statement disclosures.

Derivative and Hedging Disclosure GAAP requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of this disclosure is effective for fiscal years beginning November 15, 2008 and interim periods within those fiscal years. The Funds did not invest in derivative instruments for the fiscal year ended March 31, 2010.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust s chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund s average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of $361,436 were paid on behalf of the Funds to the Independent Trustees for the fiscal year ended March 31, 2010.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds securities lending agent. It is the Fund s policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high grade debt obligations, equivalent to at least 100% of the market value of securities is maintained at all times. The collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund s securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund s policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any,

Notes to Financial Statements (continued)

are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

3. ADVISER FEES AND TRANSACTIONS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust s CCO, interest expenses and taxes, brokerage expenses and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. As of October 1, 2009, WTAM provides CCO services to the Trust. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Dividend Fund	0.28%
Equity Income Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend ex-Financials Fund	0.38%
MidCap Dividend Fund	0.38%
SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the fiscal year ended March 31, 2010, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2010, there was an unlimited number of $0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund s underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the fiscal year ended March 31, 2010 were as follows:

Fund	Purchases	Sales
Total Dividend Fund	$ 26,726,298	$ 18,752,233
Equity Income Fund	69,616,793	32,156,698

For the fiscal year ended March 31, 2010, the cost of in-kind purchases and the proceeds from in-kind redemptions were as follows:

Fund	Purchases	Sales
Total Dividend Fund	$ 10,972,873	$ 12,059,745
Equity Income Fund	8,493,702	74,813,247
LargeCap Dividend Fund	50,687,820	80,408,996
Dividend ex-Financials Fund	52,318,871	72,627,405
MidCap Dividend Fund	23,778,318	51,308,544
SmallCap Dividend Fund	24,553,994	48,995,908

Gains and losses on in-kind redemptions are not recognized at the Fund level for tax purposes.

6. FEDERAL INCOME TAXES

At March 31, 2010, the cost of investments (including securities on loan) for Federal income tax purposes was as follows:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Total Dividend Fund	$ 135,155,428	$ 10,743,189	$ (6,290,288)	$ 4,452,901

Notes to Financial Statements (concluded)

At March 31, 2010, for Federal income tax purposes, the Funds have capital loss carryforwards available to offset future capital gains through the years indicated. To the extent that these loss carryforwards are utilized, capital gains so offset will not be distributed to shareholders.

Fund	Capital Loss Available Through 2015	Capital Loss Available Through 2016	Capital Loss Available Through 2017	Capital Loss Available Through 2018	Capital Loss Available Total
Total Dividend Fund	$	$ 410,492	$ 4,674,701	$ 11,073,078	$ 16,158,271
Equity Income Fund	4,934	1,261,567	9,481,659	36,880,803	47,628,963
LargeCap Dividend Fund	5,452	3,165,417	12,904,697	32,859,591	48,935,157
Dividend ex-Financials Fund	16,309	1,204,674	9,972,192	68,035,975	79,229,150
MidCap Dividend Fund		517,017	7,127,052	16,904,294	24,548,363
SmallCap Dividend Fund	44,705	774,464	10,100,965	32,761,958	43,682,092

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund s next taxable year.

During the year ended March 31, 2010, the following Funds incurred and will elect to defer net post-October losses as follows:

Fund	Post-October Capital Losses
Total Dividend Fund	$ (10,906,066)
Equity Income Fund	(21,150,725)
LargeCap Dividend Fund	(33,093,373)
Dividend ex-Financials Fund	(1,563,047)
MidCap Dividend Fund	(5,714,945)
SmallCap Dividend Fund	(7,204,244)

At March 31, 2010, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Gain/(Loss)	Paid-in Capital
Total Dividend Fund	$ (2,583)	$ (2,338,797)	$ 2,341,380
Equity Income Fund	(5,812)	(4,825,609)	4,831,421
LargeCap Dividend Fund		(7,512,866)	7,512,866
Dividend ex-Financials Fund		(12,576,193)	12,576,193
MidCap Dividend Fund		(10,961,560)	10,961,560
SmallCap Dividend Fund	(50,746)	(15,434,299)	15,485,045

These differences are primarily due to redemptions-in-kind and the tax treatment of income earned from investments in partnerships.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund s understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2010, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the four year period ended March 31, 2010, remains subject to examination by taxing authorities.

7. SUBSEQUENT EVENT

In accordance with GAAP provisions, management of the Funds has evaluated the possibility of subsequent events existing in the Funds financial statements through the date the financial statements were issued. Management has determined that there are no material events that would require disclosure in the Funds financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund (six of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2010, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2010, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund of WisdomTree Trust at March 31, 2010, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 19, 2010, the Board of Trustees re-approved the Investment Advisory Agreement for each Fund. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM s operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds Sub-Adviser and oversight of the Sub-Adviser s compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM s anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund s fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable. The Board also re-approved the Sub-Advisory Agreement between WTAM and Mellon Capital Management (MCM), on behalf of each Fund, using essentially the same criteria it used in connection with the Advisory Agreement. The Board considered MCM s operational capabilities and resources and MCM s experience in serving as an adviser to ETFs, noting that MCM and Dreyfus currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation, an affiliate of MCM, serves as the Funds administrator, accountant, custodian, transfer agent and securities lending agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement for each Fund.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the re-approval of the Advisory Agreements and the Sub-Advisory Agreements was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreements and Sub-Advisory Agreements.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Differences between the closing times of the U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Funds that invest in non-U.S. securities. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund s market price but not in it s NAV (or vice versa).

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission (SEC) as series of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds prospectus for specific details regarding each Fund s risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Management s Discussion of Funds Performance (unaudited)

Domestic and International Earnings Funds

The U.S. equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for the broad U.S. equity markets, rallied between 47% and 53% for the 12 month period ended March 31, 2010 (the period). These 12-month gains in stock prices came close to erasing the significant declines in those same benchmarks that ranged from 36% to 38% for the 12 months ended March 31, 2009. The broad market averages are now showing cumulative losses of 5-7% over the prior 24-months.

In the depths of the bear market that occurred in March 2009, investors were panicking about the safety of major financial institutions and those fears spread throughout the entire economy. At the close of the Funds fiscal year end in March 2010, the concerns about a financial meltdown have largely been largely taken off the table, though significant worries about the health of the economy remain. The Federal Reserve, led by Chairman Benjamin Bernanke, instituted a series of emergency lending programs that have restored confidence in the financial system, jump started bank lending, and lowered the interest rates for consumers and businesses. These extraordinary measures included, but were not limited to, quantitative easing policies to keep long-term bond and mortgage rates low and the lowering of the Federal Funds target interest rate to a historically low level near zero. In addition to the easy monetary policies and all the special Federal Reserve programs designed to restore confidence in the financial system, substantial fiscal policy support measures for the economy were enacted by newly elected President Barack Obama, who assumed office in January 2009. While the U.S. unemployment rate, a lagging economic indicator, remained stubbornly high at 9.7% in March 2010, consumer and investor confidence generally rose throughout the period.

TICKER	WISDOMTREE FUND	1 YEAR RETURN	CAPITALIZATION-WEIGHTED BENCHMARK INDEX	1 YEAR RETURN	1 YEAR RETURN FUND vs INDEX

As with the downturn, in which small cap stocks led the broader markets on the way down during the year ended March 31, 2009, small cap stocks led the markets higher during the year ended March 31, 2010. The perceived tendency of small cap stocks to outperform larger capitalization companies during the initial recovery phases of a bull market and their relative underperformance in recessions and bear markets is tied to many investors views that small cap stocks are more sensitive to the changing economic conditions than large capitalization stocks. This general tendency was played out during the period as many small cap stocks saw significant relative gains.

The WisdomTree Total Earnings Fund (EXT) performed better than its corresponding cap-weighted index over the period. However, this was not as significant as the relative outperformance of the WisdomTree mid- and small-cap earnings Funds against their corresponding capitalization-weighted indexes.

WisdomTree s earnings weighted funds are designed to track indexes based on the earnings stream generated by companies included in the underlying WisdomTree index. There are two primary factors that drive performance differential versus market cap-weighted benchmarks: aggregate exposure to a sector and stock selection within a sector, both of which are determined as part of WisdomTree s rules-based index methodology. These exposures are not subjectively determined. Rather they are objectively determined at the re-balancing dates based on the earnings stream.

Table of Contents

Management s Discussion of Funds Performance (unaudited) (concluded)

For the Total Earnings Fund (EXT) and the Earnings 500 Fund (EPS) better stock selection in the materials and health care sectors impacted returns positively, while higher exposure to the energy sector, which under-performed the market, was a negative factor.

In the SmallCap Earnings Fund (EES) three sectors with significant positive performance were given above average weight as a result of our rules-based index methodology: consumer discretionary, energy, and materials sectors. These sectors helped drive the significant performance differential of EES over its cap-weighted benchmark.

Internationally, India is the only region of the world where WisdomTree sets portfolio weights based on earnings. This is because the tax regulations in India act as a disincentive to dividend payments. During the period, emerging markets led the global economy and financial markets higher, and India was one of the best performing countries in the world. The WisdomTree India Earnings Fund (EPI) was up over 110%, led by sectors such as the consumer discretionary sector.

The views expressed in this report reflect those of WisdomTree Asset Management only through the end of the period of the report as stated on the cover. Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see page 12 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree Total Earnings Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree Earnings Index.

The WisdomTree Total Earnings Fund (Ticker Symbol: EXT) returned 53.82% at net asset value (NAV) for the fiscal year ending March 31, 2010 (for more complete performance information, please see below). The Fund benefited from an overweighted position to Materials, which had above average returns and had a notable contribution to positive Fund performance. Energy stocks had below average returns and an overweight position in the sector contributed to a drag on returns.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. The WisdomTree LargeCap Value Fund seeks investment results that correspond to the price and yield performance before fees and expenses, of the WisdomTree LargeCap Value Index. The LargeCap Value Index is a fundamentally weighted index that measures the performance of large-cap value companies. The Index consists of U.S. companies that have positive cumulative earnings over the past four fiscal quarters and that meet WisdomTree s market capitalization, liquidity, and other requirements as of the Index measurement date. Effective June 19, 2009, the WisdomTree Low P/E Fund changed its investment objective and was renamed the WisdomTree LargeCap Value Fund.

The WisdomTree LargeCap Value Fund (Ticker Symbol: EZY) returned 55.57% at net asset value (NAV) for the fiscal year ended March 31, 2010 (for more complete performance information, please see below). The Fund benefited from an underweighted position to Health Care, which had below average returns. This underweighting had a notable contribution to positive Fund performance. An underweight position in Financials, which outperformed, contributed to a drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The WisdomTree LargeCap Growth Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree LargeCap Growth Index.

The WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI) returned 37.46% at net asset value (NAV) for the fiscal year ended March 31, 2010 (for more complete performance information, please see below). The Fund benefited from an underweighted position to Health Care, which had below average returns. This underweighting had a notable contribution to positive Fund performance. Energy stocks had below average returns and an overweight position in the sector contributed to a drag on returns.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.38%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of $1,000 invested at the beginning of the period and held for the entire period from October 1, 2009 to March 31, 2010.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by $1,000 (for example, an $8,600 account value divided by $1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 10/01/09 to 3/31/10 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
