x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2011

OR

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission File Number: 001-34568

KAR Auction Services, Inc.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

13085 Hamilton Crossing Boulevard

Carmel, Indiana 46032

(Address of principal executive offices, including zip code)

20-8744739
(I.R.S. Employer
Identification No.)

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

Registrant's telephone number, including area code: (800) 923-3725

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2011, 135,897,929 shares of the registrant's common stock, par value \$0.01 per share, were outstanding.

Notes to Consolidated Financial Statements

March 31, 2011 (Unaudited)

Note 1 Basis of Presentation and Nature of Operations

Defined Terms

Unless otherwise indicated, the following terms used herein shall have the following meanings:

we, us, our, KAR Auction Services and the Company refer, collectively, to KAR Auction Services, Inc. (formerly known as KAR Holdings, Inc.) and all of its subsidiaries unless the context otherwise requires;

ADESA refers, collectively, to ADESA, Inc., a wholly owned subsidiary of KAR Auction Services, and its subsidiaries;

AFC refers, collectively, to Automotive Finance Corporation, a wholly owned subsidiary of ADESA and its related subsidiaries;

Axle LLC refers to Axle Holdings II, LLC, which is owned by affiliates of certain of the Equity Sponsors (Kelso & Company and Parthenon), certain members or former members of IAAI management and certain co-investors in connection with the acquisition of IAAI in 2005. Axle LLC is the former ultimate parent company of IAAI and is a holder of common equity interests in KAR LLC;

Credit Agreement refers to the Credit Agreement, dated April 20, 2007, among KAR Auction Services, as the borrower, KAR LLC, as guarantor, the several lenders from time to time parties thereto and the administrative agent, the joint bookrunners, the co-documentation agents, the syndication agent and the joint lead arrangers named therein, as amended on June 10, 2009, October 23, 2009, November 11, 2010 and from time to time;

Equity Sponsors refers, collectively, to Kelso Investment Associates VII, L.P., GS Capital Partners VI, L.P., ValueAct Capital Master Fund, L.P. and Parthenon Investors II, L.P., which collectively own through their respective affiliates a majority of the equity of KAR Auction Services;

IAAI refers, collectively, to Insurance Auto Auctions, Inc., a wholly owned subsidiary of KAR Auction Services, and its subsidiaries; and

KAR LLC refers to KAR Holdings II, LLC, which is owned by affiliates of the Equity Sponsors and management of the Company.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, or U.S. GAAP, for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for annual financial statements. Operating results for interim periods are not necessarily indicative of results that may be expected for the year as a whole. In the opinion of management, the consolidated financial statements reflect all adjustments necessary, generally consisting of normal recurring accruals, for a fair statement of our financial results for the periods presented. The preparation of financial statements in conformity

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements and during the reporting period. Actual results could differ from these estimates.

These consolidated financial statements and condensed notes to consolidated financial statements are unaudited and should be read in conjunction with the audited consolidated financial statements and notes thereto

Table of Contents

KAR Auction Services, Inc.

Notes to Consolidated Financial Statements (Continued)

March 31, 2011 (Unaudited)

for the year ended December 31, 2010 included in our Annual Report on Form 10-K for the year ended December 31, 2010. The 2010 year-end consolidated balance sheet data included in this Form 10-Q was derived from the audited financial statements referenced above, but does not include all disclosures required by U.S. GAAP.

Business and Nature of Operations

As of March 31, 2011, we have a network of 70 ADESA whole car auctions and 159 IAAI salvage vehicle auctions which facilitate the sale of used and salvage vehicles through physical, online or hybrid auctions, and which permit internet buyers to participate in physical auctions. ADESA Auctions and IAAI are leading, national providers of wholesale and salvage vehicle auctions and related vehicle remarketing services for the automotive industry in North America. Remarketing services include a variety of activities designed to transfer used and salvage vehicles between sellers and buyers throughout the vehicle life cycle. ADESA Auctions and IAAI facilitate the exchange of these vehicles through an auction marketplace, which aligns sellers and buyers. As an agent for customers, the Company generally does not take title to or ownership to substantially all vehicles sold at the auctions. Generally fees are earned from the seller and buyer on each successful auction transaction in addition to fees earned for ancillary services.

ADESA has the second largest used vehicle auction network in North America, based upon the number of used vehicles sold through auctions annually, and also provides services such as inbound and outbound logistics, reconditioning, vehicle inspection and certification, titling, administrative and salvage recovery services. ADESA is able to serve the diverse and multi-faceted needs of its customers through the wide range of services offered at its facilities.

IAAI is one of the two largest providers of salvage vehicle auctions and related services in North America. The salvage auctions facilitate the remarketing of damaged vehicles that are designated as total losses by insurance companies, recovered stolen vehicles for which an insurance settlement with the vehicle owner has already been made and older model vehicles donated to charity or sold by dealers in salvage auctions. The salvage auction business specializes in providing services such as inbound and outbound logistics, inspections, evaluations, titling and settlement administrative services.

AFC is a leading provider of floorplan financing to independent used vehicle dealers and this financing was provided through 88 loan production offices located throughout North America at March 31, 2011. Floorplan financing supports independent used vehicle dealers in North America who purchase vehicles at ADESA, IAAI, independent auctions and auctions affiliated with other auction networks.

Note 2 Acquisition

During the first quarter of 2011, we completed the acquisition of a company that develops satellite-based, GPS technology for advanced vehicle tracking. The purchase agreement included contingent payments related to business deployments subsequent to the purchase date. The purchased assets included fixed assets, software, accounts receivable and other intangible assets. Financial results for the acquisition have been included in our consolidated financial statements from the date of acquisition. The financial impact of this acquisition, including pro forma financial results, was immaterial to our balance sheet and statement of income.

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)****Note 3 Stock-Based Compensation Plans**

We adopted the KAR Auction Services, Inc. 2009 Omnibus and Stock Incentive Plan (Omnibus Plan) in December 2009. The Omnibus Plan is intended to provide equity or cash based awards to our employees. On February 25, 2011, we granted approximately 0.2 million service options with an exercise price of \$14.44 per share under the Omnibus Plan. The service options have a ten year life and vest in four equal annual installments, commencing on the first anniversary of the grant date.

Our stock-based compensation expense includes expense associated with KAR Auction Services, Inc. service and exit option awards, KAR LLC operating unit awards and Axle LLC operating unit awards. We have classified the KAR LLC and Axle LLC operating units as liability awards. We have classified the KAR Auction Services, Inc. service and exit options as equity awards. The main difference between a liability-classified award and an equity-classified award is that liability-classified awards are remeasured each reporting period at fair value.

The compensation cost that was charged against income for all stock-based compensation plans was \$7.7 million and \$6.8 million for the three months ended March 31, 2011 and 2010, and the total income tax benefit recognized in the consolidated statements of income for options was approximately \$1.6 million for the three months ended March 31, 2011 and 2010. There is no income tax benefit associated with the KAR LLC and Axle LLC operating unit awards. We recognized compensation expense for the service and exit options of approximately \$4.4 million and \$4.5 million for the three months ended March 31, 2011 and 2010. We recognized compensation expense for the KAR LLC and Axle LLC operating unit awards of approximately \$3.3 million and \$2.3 million for the three months ended March 31, 2011 and 2010. We did not capitalize any stock-based compensation cost in the three months ended March 31, 2011 or 2010.

Note 4 Net Income Per Share

The following table sets forth the computation of net income per share (*in millions except per share amounts*):

	Three Months Ended March 31,	
	2011	2010
Net income	\$ 39.8	\$ 8.1
Weighted average common shares outstanding	135.6	134.5
Effect of dilutive stock options	1.5	1.5
Weighted average common shares outstanding and potential common shares	137.1	136.0
Net income per share basic and diluted	\$ 0.29	\$ 0.06

Basic net income per share was calculated by dividing net income by the weighted-average number of outstanding common shares for the period. Diluted net income per share was calculated consistent with basic net income per share including the effect of dilutive unissued common shares related to our stock-based employee compensation program. The effect of stock options on net income per share-diluted is determined through the application of the treasury stock method, whereby proceeds received by the Company based on assumed exercises are hypothetically used to repurchase our common stock at the average market price during the period. Stock options that would have an anti-dilutive effect on net income per share are excluded from the calculations.

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

Approximately 0.6 million options were excluded from the calculation of diluted net income per share for the three months ended March 31, 2011 and 2010. Total options outstanding at March 31, 2011 and 2010 were 9.2 million and 10.1 million.

Note 5 Finance Receivables and Obligations Collateralized by Finance Receivables

AFC sells the majority of its U.S. dollar denominated finance receivables on a revolving basis and without recourse to a wholly owned, bankruptcy remote, consolidated, special purpose subsidiary (AFC Funding Corporation), established for the purpose of purchasing AFC's finance receivables. A securitization agreement allows for the revolving sale by AFC Funding Corporation to a bank conduit facility of undivided interests in certain eligible finance receivables subject to committed liquidity. The agreement was set to expire on April 20, 2012. AFC Funding Corporation had committed liquidity of \$450 million from a third party conduit for U.S. finance receivables at March 31, 2011.

On April 26, 2011, AFC and AFC Funding Corporation entered into the Fourth Amended and Restated Receivables Purchase Agreement (the Receivables Purchase Agreement). The Receivables Purchase Agreement increases AFC Funding's U.S. committed liquidity to \$650 million and extends the facility's maturity date to June 30, 2014. In addition, the interest costs for amounts borrowed increased approximately 0.5% and certain of the covenants and termination events in the Receivables Purchase Agreement that are tied to the performance of the finance receivables portfolio were modified.

We completed an agreement for the securitization of Automotive Finance Canada, Inc.'s (AFCI) receivables in February 2010. This securitization facility provides up to C\$75 million in financing for eligible finance receivables through another third party conduit. The agreement expires on April 20, 2012.

The following table presents quantitative information about delinquencies, credit losses less recoveries (net credit losses) and components of securitized financial assets and other related assets managed. For purposes of this illustration, delinquent receivables are defined as receivables 31 days or more past due.

<i>(in millions)</i>	March 31, 2011 Principal Amount of:		Net Credit Losses Three Months Ended March 31, 2011	Net Credit Losses Three Months Ended March 31, 2010	December 31, 2010 Principal Amount of:	
	Receivables	Receivables Delinquent			Receivables	Receivables Delinquent
Floorplan receivables	\$ 740.4	\$ 2.9	\$ 2.7	\$ 2.7	\$ 765.0	\$ 4.8
Special purpose loans	6.4	0.8			6.6	0.8
Total receivables managed	\$ 746.8	\$ 3.7	\$ 2.7	\$ 2.7	\$ 771.6	\$ 5.6

AFC's allowance for losses of \$9.6 million and \$9.7 million at March 31, 2011 and December 31, 2010, respectively, includes an estimate of losses for finance receivables, as well as an allowance for any further deterioration in the finance receivables after they are repurchased from the bank conduit facility.

As of March 31, 2011 and December 31, 2010, \$741.8 million and \$763.9 million of finance receivables and a cash reserve of 1 percent of finance receivables securitized served as security for the \$492.1 million and \$520.1 million of obligations collateralized by finance receivables at March 31, 2011 and December 31, 2010. The amount of the cash reserve depends on circumstances which are set forth in the securitization agreements.

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

Proceeds from the revolving sale of receivables to the bank conduit facility are used to fund new loans to customers. AFC, AFC Funding Corporation and AFCI must maintain certain financial covenants including, among others, limits on the amount of debt AFC and AFCI can incur, minimum levels of tangible net worth, and other covenants tied to the performance of the finance receivables portfolio. The securitization agreements also incorporate the financial covenants of our credit facility. At March 31, 2011, we were in compliance with the covenants in the securitization agreements.

Note 6 Long-Term Debt

Long-term debt consisted of the following (*in millions*):

	Interest Rate	Maturity	March 31, 2011	December 31, 2010
Term Loan B	LIBOR + 2.75%	October 19, 2013	\$ 1,144.6	\$ 1,144.6
\$250 million revolving credit facility	LIBOR + 2.75%	April 19, 2013		
Floating rate senior notes	LIBOR + 4.00%	May 01, 2014	150.0	150.0
Senior notes	8.75%	May 01, 2014	450.0	450.0
Senior subordinated notes	10%	May 01, 2015	131.1	131.1
Canadian line of credit	CAD Prime + 1.5%			
Total debt			1,875.7	1,875.7
Less current portion of long-term debt				
Long-term debt			\$ 1,875.7	\$ 1,875.7

Credit Facilities

In 2007, we entered into senior secured credit facilities, comprised of a \$300.0 million revolving credit facility and a \$1,565.0 million term loan (Term Loan B in the table above). The revolver was entered into for working capital and general corporate purposes. As part of an amendment to the Credit Agreement in 2009, among other items, available borrowings under the revolving credit facility were reduced to \$250 million. There were no borrowings under the revolver at March 31, 2011 and December 31, 2010, although we did have related outstanding letters of credit in the aggregate amount of \$29.6 million and \$29.4 million at March 31, 2011 and December 31, 2010, respectively, which reduce the amount available for borrowings under our credit facility.

The senior secured credit facilities are guaranteed by KAR Auction Services and each of our direct and indirect present and future domestic subsidiaries, subject to certain exceptions (excluding among others, AFC Funding Corporation). The senior secured credit facilities are secured by a perfected first priority security interest in, and mortgages on, all present and future tangible and intangible assets of the Company and the guarantors, and our capital stock and that of each of our direct and indirect material domestic subsidiaries and 65% of the capital stock of certain foreign subsidiaries.

The terms of the Credit Agreement include a 0.5% commitment fee based on unutilized amounts, letter of credit fees and agency fees. The Credit Agreement also includes covenants that, among other things, limit or restrict us and our subsidiaries' abilities to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, including the senior notes, pay dividends, create liens, make equity or debt investments, make acquisitions, modify the terms of the indenture, engage in mergers, make capital expenditures and engage in certain transactions with affiliates. In addition, the senior secured credit facilities are

Table of Contents

KAR Auction Services, Inc.

Notes to Consolidated Financial Statements (Continued)

March 31, 2011 (Unaudited)

subject to a senior secured leverage ratio test, provided there are revolving loans outstanding. There were no revolving loans outstanding at March 31, 2011. We were in compliance with the covenants in the credit facility at March 31, 2011.

Senior Notes

In 2007, we issued \$450.0 million of 8 ³/₄% senior notes and \$150.0 million of floating rate senior notes both of which are due May 1, 2014. In addition, we issued \$425.0 million of 10% senior subordinated notes due May 1, 2015. In January 2010, we prepaid \$225.6 million principal amount of the 10% senior subordinated notes with proceeds received from the initial public offering and the underwriters option to purchase additional shares. We incurred a loss on the extinguishment of the notes of \$25.3 million in the first quarter of 2010.

Fair Value of Debt

As of March 31, 2011, the estimated fair value of our long-term debt amounted to \$1,882.7 million. The estimates of fair value are based on the market prices for our publicly-traded debt as of March 31, 2011. The estimates presented on long-term financial instruments are not necessarily indicative of the amounts that would be realized in a current market exchange.

Note 7 Derivatives

We are exposed to interest rate risk on our variable rate borrowings. Accordingly, interest rate fluctuations affect the amount of interest expense we are obligated to pay. In May 2009, we entered into an interest rate swap agreement with a notional amount of \$650 million to manage our exposure to interest rate movements on our variable rate Term Loan B credit facility. The interest rate swap agreement had an effective date of June 30, 2009, matures on June 30, 2012 and effectively results in a fixed LIBOR interest rate of 2.19% on \$650 million of the Term Loan B credit facility. We are exposed to credit loss in the event of non-performance by the counterparty; however, non-performance is not anticipated.

In May 2009, we also purchased an interest rate cap for \$1.3 million with a notional amount of \$250 million to manage our exposure to interest rate movements on our variable rate Term Loan B credit facility when one-month LIBOR exceeds 2.5%. The interest rate cap relates to a portion of the variable rate debt that is not covered by our interest rate swap agreement. The interest rate cap agreement had an effective date of June 30, 2009 and matures on June 30, 2011. The unamortized portion of the \$1.3 million investment is recorded in Other current assets on the consolidated balance sheet and is being amortized over the remaining life of the interest rate cap to interest expense. We are exposed to credit loss in the event of non-performance by the counterparty; however, non-performance is not anticipated.

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

ASC 815 requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the balance sheet. In accordance with ASC 815, we have designated our interest rate derivatives as cash flow hedges. The fair values of the interest rate derivatives are based on quoted market prices for similar instruments from a commercial bank. The following table presents the fair value of our interest rate derivatives included in the consolidated balance sheet for the periods presented (*in millions*):

	Asset Derivatives				Liability Derivatives			
	March 31, 2011		December 31, 2010		March 31, 2011		December 31, 2010	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives Designated as Hedging Instruments Under ASC 815								
\$650 million notional interest rate swap	Other assets	\$	Other assets	\$	Other accrued expenses	\$ 14.1	Other accrued expenses	\$ 16.6
\$250 million notional interest rate cap	Other current assets	\$	Other current assets	\$	Other accrued expenses	\$	Other accrued expenses	\$

The earnings impact of the interest rate derivatives designated as cash flow hedges is recorded upon the recognition of the interest related to the hedged debt. Any ineffectiveness in the hedging relationships is recognized in current earnings. There was no significant ineffectiveness in the first three months of 2011 or 2010. Unrealized gains or losses on the interest rate derivatives are included as a component of Accumulated other comprehensive income. At March 31, 2011, there was a net unrealized loss totaling \$8.9 million, net of tax benefits of \$5.4 million. At December 31, 2010, there was a net unrealized loss totaling \$10.5 million, net of tax benefits of \$6.4 million. The following table presents the effect of the interest rate derivatives on our statement of equity and consolidated statements of income for the periods presented (*in millions*):

Derivatives in ASC 815	Amount of Gain / (Loss) Recognized in OCI on Derivative (Effective Portion) Three Months Ended March 31,		Location of Gain / (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain / (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) Three Months Ended March 31,	
	2011	2010		2011	2010
	Cash Flow Hedging Relationships				
\$650 million notional interest rate swap	\$2.5	(\$ 5.3)	Interest expense	(\$ 3.1)	(\$ 3.2)
\$250 million notional interest rate cap	\$0.2	(\$ 0.3)	N/A	\$	\$

Note 8 Income Taxes

During the first quarter of 2011, our effective tax rate of 2.5% benefited from the reversal of \$14.4 million in tax reserves for uncertain tax positions due to the expiration of certain statute of limitations. Excluding the effect of the release of the tax reserves, our effective tax rate for the three months ended March 31, 2011 would have been 37.9%.

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (*in millions*):

	March 31, 2011	December 31, 2010
Balance at beginning of period	\$ 25.9	\$ 26.4
Increase in tax positions related to acquisitions		
Increase in prior year tax positions	0.1	1.4
Decrease in prior year tax positions		(0.7)
Increase in current year tax positions	0.1	1.3
Settlements	(0.5)	(0.2)
Lapse in statute of limitations	(14.4)	(2.3)
Balance at end of period	\$ 11.2	\$ 25.9

Note 9 Commitments and Contingencies

We are involved in litigation and disputes arising in the ordinary course of business, such as actions related to injuries; property damage; handling, storage or disposal of vehicles; environmental laws and regulations; and other litigation incidental to the business such as employment matters and dealer disputes. Management considers the likelihood of loss or the incurrence of a liability, as well as the ability to reasonably estimate the amount of loss, in determining loss contingencies. We accrue an estimated loss contingency when it is probable that a liability has been incurred and the amount of loss (or range of possible losses) can be reasonably estimated. Management regularly evaluates current information available to determine whether accrual amounts should be adjusted. Accruals for contingencies including litigation and environmental matters are included in Other accrued expenses at undiscounted amounts and exclude claims for recoveries from insurance or other third parties. These accruals are adjusted periodically as assessment and remediation efforts progress, or as additional technical or legal information becomes available. If the amount of an actual loss is greater than the amount accrued, this could have an adverse impact on our operating results in that period. Legal fees are expensed as incurred. There has been no significant change in the legal and regulatory proceedings which were disclosed in our Annual Report on Form 10-K for the year ended December 31, 2010. Also reference Part II, Item I (Legal Proceedings) of this report.

Note 10 Comprehensive Income

The components of comprehensive income are as follows (*in millions*):

	Three Months Ended March 31,	
	2011	2010
Net income	\$ 39.8	\$ 8.1
Other comprehensive income, net of tax		
Foreign currency translation gain	8.1	6.4
Unrealized gain (loss) on interest rate derivatives	1.6	(3.4)
Comprehensive income	\$ 49.5	\$ 11.1

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

The composition of Accumulated other comprehensive income at March 31, 2011, net of related tax effects, consisted of the net unrealized loss on the interest rate derivatives of \$8.9 million, a \$0.2 million

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

unrealized gain on post-retirement benefit obligation and a foreign currency translation gain of \$44.9 million. The composition of Accumulated other comprehensive income at December 31, 2010, net of related tax effects, consisted of the net unrealized loss on the interest rate derivatives of \$10.5 million, a \$0.2 million unrealized gain on post-retirement benefit obligation and a foreign currency translation gain of \$36.8 million.

Note 11 Fair Value Measurements

We apply ASC 820, *Fair Value Measurements and Disclosures*, to our financial assets and liabilities. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The standard establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities, such as models or other valuation methodologies.

Level 3 Unobservable inputs that are based on our assumptions are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect our own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include instruments for which the determination of fair value requires significant management judgment or estimation.

The following tables summarize our financial assets and liabilities measured at fair value on a recurring basis in accordance with ASC 820 (*in millions*):

Description	March 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest rate cap	\$	\$	\$	\$
Liabilities:				
Interest rate swap	\$ 14.1	\$	\$ 14.1	\$

Description	December 31, 2010	Quoted Prices in Active Markets for Identical	Significant Other Observable Inputs	Significant Unobservable Inputs (Level 3)
-------------	-------------------------	--	--	--

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

	Assets (Level 1)		(Level 2)	
Assets:				
Interest rate cap	\$	\$	\$	\$
Liabilities:				
Interest rate swap	\$ 16.6	\$	\$ 16.6	\$

Table of Contents**KAR Auction Services, Inc.****Notes to Consolidated Financial Statements (Continued)****March 31, 2011 (Unaudited)**

Interest Rate Swap Under the interest rate swap agreement, we pay a fixed LIBOR rate on a notional amount and receive a variable LIBOR rate which effectively hedges a portion of the Term Loan B credit facility. The fair value of the interest rate swap is based on quoted market prices for similar instruments from a commercial bank.

Interest Rate Cap Under the interest rate cap agreement, we will receive interest on a notional amount when one-month LIBOR exceeds 2.5%. This agreement effectively hedges a portion of the Term Loan B credit facility. The fair value of the interest rate cap is based on quoted market prices for similar instruments from a commercial bank.

Note 12 Segment Information

ASC 280, *Segment Reporting*, requires reporting of segment information that is consistent with the manner in which the chief operating decision maker operates and views the Company. We have three reportable business segments: ADESA Auctions, IAAI and AFC. These reportable segments offer different services and are managed separately based on the fundamental differences in their operations.

The holding company is maintained separately from the three reportable segments and includes expenses associated with the corporate office, such as salaries, benefits, and travel costs for the corporate management team, certain human resources, information technology and accounting costs, and incremental insurance, treasury, legal and risk management costs. Holding company interest expense includes the interest expense incurred on the corporate debt structure. Intercompany charges relate primarily to interest on intercompany debt or receivables and certain information technology costs allocated by the holding company.

Financial information regarding our reportable segments is set forth below for the three months ended March 31, 2011 (*in millions*):

	ADESA Auctions	IAAI	AFC	Holding Company	Consolidated
Operating revenues	\$ 268.3	\$ 175.9	\$ 38.5	\$	\$ 482.7

Note 13 Supplemental Guarantor Information

Our obligations related to Term Loan B, the revolving credit facility, 10% senior subordinated notes, 8³/₄% senior notes and floating rate senior notes are guaranteed on a full, unconditional, joint and several basis by certain direct and indirect present and future domestic subsidiaries (the Guarantor Subsidiaries). AFC Funding Corporation and all of our foreign subsidiaries are not guarantors (the Non-Guarantor Subsidiaries). The following financial information sets forth, on a condensed consolidating basis, the balance sheets, statements of income and statements of cash flows for the periods indicated for KAR Auction Services, the Guarantor Subsidiaries, the Non-Guarantor Subsidiaries and the eliminations to arrive at KAR Auction Services on a consolidated basis.

The condensed consolidating financial statements are provided as an alternative to filing separate financial statements of the Guarantor Subsidiaries. The condensed consolidating financial statements should be read in conjunction with our consolidated financial statements and notes thereto.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and which are subject to certain risks, trends and uncertainties. In particular, statements made in this report on Form 10-Q that are not historical facts (including, but not limited to, expectations, estimates, assumptions and projections regarding the industry, business, future operating results, potential acquisitions, potential refinancings and anticipated cash requirements) may be forward-looking statements. Words such as should, may, will, anticipates, expects, intends, plans, believes, seeks, estimates and similar expressions identify forward-looking statements. Such statements, including statements regarding our future growth; anticipated cost savings, revenue increases and capital expenditures; strategic initiatives, greenfields and acquisitions; our competitive position; and our continued investment in information technology are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from the results projected, expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010 filed on February 24, 2011. Some of these factors include:

fluctuations in consumer demand for and in the supply of used, leased and salvage vehicles and the resulting impact on auction sales volumes, conversion rates and loan transaction volumes;

trends in new and used vehicle sales and incentives, including wholesale used vehicle pricing;

the ability of consumers to lease or finance the purchase of new and/or used vehicles;

the ability to recover or collect from delinquent or bankrupt customers;

economic conditions including fuel prices, foreign exchange rates and interest rate fluctuations;

trends in the vehicle remarketing industry;

changes in the volume of vehicle production, including capacity reductions at the major original equipment manufacturers;

the introduction of new competitors;

laws, regulations and industry standards, including changes in regulations governing the sale of used vehicles, the processing of salvage vehicles and commercial lending activities;

changes in the market value of vehicles auctioned, including changes in the actual cash value of salvage vehicles;

competitive pricing pressures;

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

costs associated with the acquisition of businesses or technologies;

litigation developments;

our ability to successfully implement our business strategies or realize expected cost savings and revenue enhancements;

our ability to develop and implement information systems responsive to customer needs;

business development activities, including acquisitions and integration of acquired businesses;

the costs of environmental compliance and/or the imposition of liabilities under environmental laws and regulations;

weather;

general business conditions;

Table of Contents

our substantial amount of debt;

restrictive covenants in our debt agreements;

our assumption of the settlement risk for vehicles sold;

any impairment to our goodwill;

our self-insurance for certain risks;

any losses of key personnel;

interruptions to service from our workforce;

changes in effective tax rates;

changes to accounting standards; and

other risks described from time to time in our filings with the SEC.

Many of these risk factors are outside of our control, and as such, they involve risks which are not currently known that could cause actual results to differ materially from those discussed or implied herein. The forward-looking statements in this document are made as of the date on which they are made and we do not undertake to update our forward-looking statements.

Our future growth depends on a variety of factors, including our ability to increase vehicle sold volumes and loan transaction volumes, acquire additional auctions, manage expansion, relocate and integrate acquisitions, control costs in our operations, introduce fee increases, expand our product and service offerings including information systems development and retain our executive officers and key employees. Certain initiatives that management considers important to our long-term success include substantial capital investment in e-business, information technology, facility relocations and expansions, as well as operating initiatives designed to enhance overall efficiencies, have significant risks associated with their execution, and could take several years to yield any direct monetary benefits. Accordingly, we cannot predict whether our growth strategy will be successful. In addition, we cannot predict what portion of overall sales will be conducted through online auctions or other remarketing methods in the future and what impact this may have on our auction business.

Overview

We provide whole car and salvage auction services in North America. Our business is divided into three reportable business segments, each of which is an integral part of the vehicle remarketing industry: ADESA Auctions, IAAI and AFC.

The ADESA Auctions segment consisted primarily of a 70 whole car auction network in North America at March 31, 2011. Vehicles at ADESA's auctions are typically sold by commercial fleet operators, financial institutions, rental car companies, used vehicle dealers and vehicle manufacturers and their captive finance companies to franchised and independent used vehicle dealers. ADESA also provides value-added ancillary services including inspections, storage, transportation, reconditioning and titling and other administrative services.

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

The IAAI segment consisted of salvage vehicle auctions and related services provided at 159 sites in North America at March 31, 2011. The salvage auctions facilitate the remarketing of damaged or low value vehicles designated as total losses by insurance companies and charity donation vehicles, as well as recovered stolen (or theft) vehicles. The salvage auction business specializes in providing services such as transportation, titling, salvage recovery and claims settlement administrative services.

The AFC segment provides short-term, inventory-secured financing, known as floorplan financing, primarily to independent used vehicle dealers. At March 31, 2011, AFC conducted business through 88 branches in North America.

Table of Contents

The holding company is maintained separately from the three reportable segments and includes expenses associated with the corporate office, such as salaries, benefits, and travel costs for our management team, certain human resources, information technology and accounting costs, and certain insurance, treasury, legal and risk management costs. Holding company interest expense includes the interest expense incurred on the corporate debt structure. Intercompany charges relate primarily to interest on intercompany debt or receivables and certain information technology costs allocated by the holding company.

Industry Trends

Whole Car

During the period from 1999 to 2009, despite fluctuations in economic conditions, new vehicle sales and churn (i.e., the rate of ownership transfer of vehicles in the used vehicle market), used vehicles sold in North America through whole car auctions remained within the relatively narrow range of approximately 9 million to 10 million used vehicles per year. We estimate that the vehicle population in the United States has increased from 209.5 million units in 1999 to in excess of 248 million units in 2010 and therefore the used vehicle market, and hence the used vehicle auction industry, have an even larger inventory of potential transactions to draw from. A larger vehicle population may partially offset any short-term decreases in new vehicle sales, which we believe has resulted in vehicle auction volumes remaining fairly consistent over the last several years. However, according to the National Auto Auction Association, whole car auction volume was approximately 8.4 million units for the year ended December 31, 2010. We believe that, despite challenging conditions in the overall economy and the automotive industry and the attendant fluctuations in new vehicle sales and churn, used vehicle auction volumes in North America in the foreseeable future will be within the range of approximately 8 million to 9 million used vehicles per year. The decline in industry auction volumes in 2010 as compared to the period from 1999 to 2009 reflects a reduction in units sold by institutional consignors. This decrease was partially offset by an increase in dealer consignment units sold in 2010 as compared to 2009.

Salvage

During the period from 2006 through 2009, the North American salvage vehicle auction industry volumes increased. Vehicles deemed a total loss by automobile insurance companies represent the largest category of vehicles sold in the salvage vehicle auction industry. As vehicles become more complex with additional enhancements, such as airbags and electrical components, they are more costly to repair following an accident and insurance companies are more likely to declare a damaged vehicle a total loss. The percentage of claims resulting in total losses steadily increased to over 14% in 2009 and was slightly below 14% in 2010. For the year ended December 31, 2010 as compared with the year ended December 31, 2009, we believe the salvage industry auction volumes were down slightly. To the extent this trend continues, it could have an adverse impact on IAAI's results of operations.

Automotive Finance

In 2008 and 2009, the overall economy and in particular the automotive finance industries faced pressures, which negatively affected the used vehicle dealer base. More than 6,300 independent dealers went out of business during 2008 and 2009, representing almost a 15% reduction in the independent dealer base. Used vehicle dealers experienced a significant decline in sales which resulted in a decrease in consumer auto loan originations and an increased number of dealers defaulting on their loans, which increased credit losses. In addition, the value of recovered collateral on defaulted loans was impacted to some degree by the volatility in the vehicle pricing market. To the extent these negative trends recur, they could have a material adverse impact on AFC's results of operations.

Despite the negative factors and trends impacting the automotive finance industry in 2008 and 2009, AFC's financial results improved in the second half of 2009 and throughout 2010. AFC implemented a number of strategic initiatives in 2008 and early 2009 designed to tighten credit standards and reduce risk and exposure in

Table of Contents

its portfolio of finance receivables. These initiatives have resulted in a substantial ongoing improvement in the aging of the managed portfolio, which was over 99 percent current at March 31, 2011. In addition, AFC's managed portfolio of finance receivables grew approximately 15 percent from March 31, 2010 to \$746.8 million at March 31, 2011.

General

In 2008 and 2009, significant changes occurred in the economy which impacted our business. A lack of availability of consumer credit for retail used vehicle buyers, a decline in consumer spending, a reduction in the number of franchised and independent used vehicle dealers in the United States, reduced miles driven and decreases in commodity prices such as steel and platinum all negatively impacted us. Additionally, factors that influenced our business in 2010 included increases in used vehicle prices, supply constraints resulting from the decline in new vehicle sales during the recession, a decrease in the number of repossessions, lower loan default rates and fewer vehicles being classified as total loss vehicles by the insurance industry.

The availability of financing to franchised dealerships and consumers from the vehicle manufacturers' captive finance companies and their respective remarketing programs may also impact the supply of vehicles to the wholesale auction industry in the future. A change in the supply of used vehicles could impact the value of used vehicles sold, conversion rates (calculated as the number of vehicles sold as a percentage of the number of vehicles entered for sale) and ADESA's profitability on the sale of vehicles. In addition, we believe the reduced number of lease originations in 2008 and 2009 will negatively impact the supply of off-lease vehicles available at auction in 2011 and 2012.

Seasonality

The volume of vehicles sold at our auctions generally fluctuates from quarter to quarter. This seasonality is caused by several factors including weather, the timing of used vehicles available for sale from selling customers, the availability and quality of salvage vehicles, holidays and the seasonality of the retail market for used vehicles, which affects the demand side of the auction industry. Used vehicle auction volumes tend to decline during prolonged periods of winter weather conditions. In addition, mild weather conditions and decreases in traffic volume can each lead to a decline in the available supply of salvage vehicles because fewer traffic accidents occur, resulting in fewer damaged vehicles overall. As a result, revenues and operating expenses related to volume will fluctuate accordingly on a quarterly basis. The fourth calendar quarter typically experiences lower used vehicle auction volume as well as additional costs associated with the holidays and winter weather.

Sources of Revenues and Expenses

Our revenue is derived from auction fees and related services at our whole car and salvage auction facilities and dealer financing fees and interest income at AFC. Although auction revenues primarily include the auction services and related fees, our related receivables and payables include the gross value of the vehicles sold.

Accounting Standards Update 2009-16 amended ASC 860, *Transfers and Servicing*, and we adopted the guidance on January 1, 2010. The guidance eliminated securitization income accounting and resulted in the recording of interest and fee income, provision for credit losses and interest expense for the finance receivable transactions under the revolving sale agreement. The elimination of the gain on sale treatment resulted in a reduction of revenue of \$2.8 million in the first quarter of 2010.

Our operating expenses consist of cost of services, selling, general and administrative and depreciation and amortization. Cost of services is composed of payroll and related costs, subcontract services, supplies, insurance, property taxes, utilities, maintenance and lease expense related to the auction sites and loan offices. Cost of services excludes depreciation and amortization. Selling, general and administrative expenses are composed of payroll and related costs, sales and marketing, information technology services and professional fees.

Table of Contents**Results of Operations***Overview of Results of KAR Auction Services for the Three Months Ended March 31, 2011 and 2010:*

<i>(Dollars in millions except per share amounts)</i>	Three Months Ended March 31,	
	2011	2010
Revenues		
ADESA	\$ 268.3	\$ 273.6
IAAI	175.9	158.8
AFC	38.5	26.0
Total revenues	482.7	458.4
Cost of services*	263.1	256.0
Gross profit*	219.6	202.4
Selling, general and administrative	102.1	95.0
Depreciation and amortization	44.1	43.3
Operating profit	73.4	64.1
Interest expense	33.2	34.9
Other income, net	(0.6)	(2.9)
Loss on extinguishment of debt		25.3
Income before income taxes	40.8	6.8
Income taxes	1.0	(1.3)
Net income	\$ 39.8	\$ 8.1
Net income per share - basic and diluted	\$ 0.29	\$ 0.06

* Exclusive of depreciation and amortization

For the three months ended March 31, 2011, we had revenue of \$482.7 million compared with revenue of \$458.4 million for the three months ended March 31, 2010, an increase of 5%. For a further discussion of revenues, gross profit and selling, general and administrative expenses, see the segment results discussions below.

Depreciation and Amortization

Depreciation and amortization increased \$0.8 million, or 2%, to \$44.1 million for the three months ended March 31, 2011, compared with \$43.3 million for the three months ended March 31, 2010. The increase is representative of increased amortization resulting from certain assets placed in service during 2010 and the first quarter of 2011, partially offset by a decrease in depreciation expense due to certain assets becoming fully depreciated.

Interest Expense

Interest expense decreased \$1.7 million, or 5%, to \$33.2 million for the three months ended March 31, 2011, compared with interest expense of \$34.9 million for the three months ended March 31, 2010. The decrease in interest expense was primarily the result of \$143.3 million in prepayments on long-term debt in the fourth quarter of 2010. Partially offsetting the decrease was an increase in interest expense of \$0.7 million at AFC related to the increase in securitized finance receivables for three months ended March 31, 2011 compared with the three months ended March 31, 2010.

Table of Contents*Other Income*

Other income was \$0.6 million for the three months ended March 31, 2011, compared with \$2.9 million for the three months ended March 31, 2010. The change in other income was primarily representative of a decrease in foreign currency transaction gains.

Loss on Extinguishment of Debt

In connection with our initial public offering, we conducted a cash tender offer for certain of our notes. The tender offer was oversubscribed and as such, in accordance with the identified priority levels, only a portion of the 10% senior subordinated notes tendered were accepted for prepayment. In January 2010, we prepaid \$225.6 million principal amount of the 10% senior subordinated notes with proceeds received from the initial public offering and the underwriters option to purchase additional shares. In the first quarter of 2010, we recorded a \$25.3 million pretax charge representative of the net premiums payable related to the repurchase of the 10% senior subordinated notes, the write-off of certain unamortized debt issuance costs associated with our 10% senior subordinated notes and certain expenses related to the tender offer.

Income Taxes

Our effective tax rate was 2.5% for the three months ended March 31, 2011, compared with a benefit of 19.1% for the three months ended March 31, 2010. During the first quarter of 2011, our effective tax rate of 2.5% benefited from the reversal of \$14.4 million in tax reserves for uncertain tax positions due to the expiration of certain statute of limitations. Excluding the effect of discrete items, our effective tax rates for the three months ended March 31, 2011 and March 31, 2010 would have been 37.9% and 42.4%, respectively. The change in the tax rate, excluding the effect of discrete items, was primarily attributable to the reduction of expenses permanently nondeductible for tax purposes, the increase in consolidated pre-tax profits and lower tax rates in certain state jurisdictions.

ADESA Results

<i>(Dollars in millions)</i>	Three Months Ended March 31,	
	2011	2010
ADESA revenue	\$ 268.3	\$ 273.6
Cost of services*	155.0	156.0
Gross profit*	113.3	117.6
Selling, general and administrative	55.1	51.8
Depreciation and amortization	21.4	22.1
Operating profit	\$ 36.8	\$ 43.7

* Exclusive of depreciation and amortization

Revenue

Revenue from ADESA decreased \$5.3 million, or 2%, to \$268.3 million for the three months ended March 31, 2011, compared with \$273.6 million for the three months ended March 31, 2010. The decrease in revenue was primarily a result of a 6% decrease in the number of vehicles sold, partially offset by a 4% increase in revenue per vehicle sold to over \$580 for the three months ended March 31, 2011, compared to approximately \$560 for the three months ended March 31, 2010.

The 4% increase in revenue per vehicle sold was attributable to incremental fee income related to higher used vehicle values, increased auction fee revenue per vehicle resulting from the 18% increase in dealer consignment units sold and selective fee increases, which resulted in increased ADESA revenue of

Table of Contents

approximately \$4.8 million. In addition, fluctuations in the Canadian exchange rate resulted in increased ADESA revenue of approximately \$2.9 million, and increases in ancillary services resulted in increased ADESA revenue of approximately \$0.5 million.

The total number of used vehicles sold at ADESA decreased 6% for the three months ended March 31, 2011, compared with the three months ended March 31, 2010, and resulted in a decrease in ADESA revenue of approximately \$13.5 million. The decrease in volume sold was attributable to a decline in supplier inventory levels in the first three months of 2011 compared to the first three months of 2010. Online sales volumes for ADESA in the first three months of 2011 represented approximately 24% of the total vehicles sold by ADESA.

The used vehicle conversion percentage, calculated as the number of vehicles sold as a percentage of the number of vehicles entered for sale at our used vehicle auctions, decreased to 66.7% for the three months ended March 31, 2011, compared with 68.7% for the three months ended March 31, 2010. The decrease in conversion rates is representative of a change in the mix of vehicles sold toward more dealer consignment vehicles, which convert at a lower rate. For the three months ended March 31, 2011, dealer consignment vehicles represented more than 38% of used vehicles sold at ADESA, an increase from approximately 31% for the three months ended March 31, 2010.

Gross Profit

For the three months ended March 31, 2011, gross profit for ADESA decreased \$4.3 million, or 4%, to \$113.3 million, compared to \$117.6 million for the three months ended March 31, 2010. Gross profit for ADESA was 42.2% of revenue for the three months ended March 31, 2011, compared with 43.0% of revenue for the three months ended March 31, 2010. The decrease in gross profit as a percentage of revenue for the three months ended March 31, 2011, compared with the three months ended March 31, 2010 was primarily the result of the 6% decrease in the number of vehicles sold and the related decrease in revenue.

Selling, General and Administrative

Selling, general and administrative expenses for the ADESA segment increased \$3.3 million, or 6%, to \$55.1 million for the three months ended March 31, 2011, compared with \$51.8 million for the three months ended March 31, 2010, primarily due to increases for costs at acquired sites, fluctuations in the Canadian exchange rate and travel costs.

IAAI Results

<i>(Dollars in millions)</i>	Three Months Ended	
	March 31,	
	2011	2010
IAAI revenue	\$ 175.9	\$ 158.8
Cost of services*	100.4	93.5
Gross profit*	75.5	65.3
Selling, general and administrative	20.6	20.6
Depreciation and amortization	16.4	14.8
Operating profit	\$ 38.5	\$ 29.9

* Exclusive of depreciation and amortization

Revenue

Revenue from IAAI increased \$17.1 million, or 11%, to \$175.9 million for the three months ended March 31, 2011, compared with \$158.8 million for the three months ended March 31, 2010. The increase in

Table of Contents

revenue was primarily a result of an increase in fee revenue due to an increase in average selling price for vehicles sold at auction and the incremental revenue attributable to non-insurance vehicles sold in the three months ended March 31, 2011. For the three months ended March 31, 2011, total salvage vehicles sold increased approximately 4%. Online sales volumes for IAAI for the first three months of 2011 represented approximately half of the total vehicles sold by IAAI.

Gross Profit

For the three months ended March 31, 2011, gross profit at IAAI increased to \$75.5 million, or 42.9% of revenue, compared with \$65.3 million, or 41.1% of revenue, for the three months ended March 31, 2010. The gross profit increase was primarily the result of the increase in revenue. Cost of services increased primarily as a result of expenses associated with costs at acquired sites, increases in yard and auction expenses and an increase in purchased vehicles, which represent less than 5% of total salvage vehicles sold.

Selling, General and Administrative

Selling, general and administrative expenses at IAAI were \$20.6 million for each of the three months ended March 31, 2011 and 2010.

AFC Results

<i>(Dollars in millions except volumes and per loan amounts)</i>	Three Months Ended March 31,	
	2011	2010
AFC revenue		
Interest and fee income	\$ 40.1	\$ 29.5
Other revenue	0.9	
Provision for credit losses	(2.5)	(3.5)
Total AFC revenue	38.5	26.0
Cost of services*	7.7	6.5
Gross profit*	30.8	19.5
Selling, general and administrative	4.5	3.8
Depreciation and amortization	6.2	6.2
Operating profit	\$ 20.1	\$ 9.5
Loan transactions	272,013	231,495
Revenue per loan transaction	\$ 142	\$ 113

* Exclusive of depreciation and amortization

Revenue

For the three months ended March 31, 2011, AFC revenue increased \$12.5 million, or 48%, to \$38.5 million, compared with \$26.0 million for the three months ended March 31, 2010. The increase in revenue was the result of a 26% increase in revenue per loan transaction for the three months ended March 31, 2011, compared with the same period in 2010 and an 18% increase in loan transactions to 272,013 for the three months ended March 31, 2011. In addition, managed receivables increased to \$746.8 million at March 31, 2011 from \$649.0 million at March 31, 2010.

Revenue per loan transaction, which includes both loans paid off and loans curtailed, increased 26% to \$142, primarily as a result of the adoption of Accounting Standards Update 2009-16 in 2010 (see below), a decrease in credit losses, and increases in the average portfolio duration, floorplan fee income, the average loan value and other revenue.

Table of Contents

Accounting Standards Update 2009-16 amended ASC 860, *Transfers and Servicing*, and we adopted the guidance on January 1, 2010. The guidance eliminated securitization income accounting and resulted in the recording of interest and fee income, provision for credit losses and interest expense for the finance receivable transactions under the revolving sale agreement. The elimination of the gain on sale treatment resulted in a reduction of revenue of \$2.8 million in the first quarter of 2010.

Gross Profit

For the three months ended March 31, 2011, gross profit for the AFC segment increased \$11.3 million, or 58%, to \$30.8 million compared with \$19.5 million for the three months ended March 31, 2010, primarily as a result of a 48% increase in revenue partially offset by an 18% increase in cost of services. The increase in cost of services was primarily the result of an increase in compensation expense associated with an increase in the number of employees, as well as an increase in lot audit expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses at AFC increased \$0.7 million, or 18%, for the three months ended March 31, 2011, compared with the three months ended March 31, 2010. The increase was primarily the result of increases in professional fees and other miscellaneous expenses.

Holding Company Results

<i>(Dollars in millions)</i>	Three Months Ended	
	March 31,	
	2011	2010
Selling, general and administrative	\$ 21.9	\$ 18.8
Depreciation and amortization	0.1	0.2
Operating loss	(\$ 22.0)	(\$ 19.0)

Selling, General and Administrative Expenses

For the three months ended March 31, 2011, selling, general and administrative expenses at the holding company increased \$3.1 million, or 16%, to \$21.9 million, compared with \$18.8 million for the three months ended March 31, 2010, primarily as a result of an increase in compensation and related employee benefit costs, partially offset by a net decrease in other miscellaneous expenses. The increase in compensation and related employee benefit costs included a \$1.0 million increase in stock-based compensation expense related to the KAR LLC and Axle LLC operating units (profit interests) which are remeasured each reporting period to fair value, as well as \$1.2 million of severance expense.

LIQUIDITY AND CAPITAL RESOURCES

We believe that the significant indicators of liquidity for our business are cash on hand, cash flow from operations, working capital and amounts available under our credit facility. Our principal sources of liquidity consist of cash generated by operations and borrowings under our revolving credit facility.

<i>(Dollars in millions)</i>	March 31, 2011	December 31, 2010	March 31, 2010
Cash and cash equivalents	\$ 242.3	\$ 119.1	\$ 228.0
Restricted cash	5.8	8.6	10.1
Working capital	345.9	287.9	319.9
Amounts available under credit facility*	250.0	250.0	250.0
Cash flow from operations	81.3		232.2

Edgar Filing: KAR Auction Services, Inc. - Form 10-Q

* There were related outstanding letters of credit totaling approximately \$29.6 million, \$29.4 million and \$32.7 million at March 31, 2011, December 31, 2010 and March 31, 2010, respectively, which reduce the amount available for borrowings under our credit facility.

Table of Contents

Working Capital

A substantial amount of our working capital is generated from the payments received for services provided. The majority of our working capital needs are short-term in nature, usually less than a week in duration. Due to the decentralized nature of the business, payments for most vehicles purchased are received at each auction and branch. Most of the financial institutions place a temporary hold on the availability of the funds deposited that generally can range up to two business days, resulting in cash in our accounts and on our balance sheet that is unavailable for use until it is made available by the various financial institutions. Over the years, we have increased the amount of funds that are available for immediate use and are actively working on initiatives that will continue to decrease the time between the deposit of and the availability of funds received from customers. There are outstanding checks (book overdrafts) to sellers and vendors included in current liabilities. Because a portion of these outstanding checks for operations in the U.S. are drawn upon bank accounts at financial institutions other than the financial institutions that hold the cash, we cannot offset all the cash and the outstanding checks on our balance sheet. Our available cash, which excludes cash in transit, was \$186.2 million at March 31, 2011.

AFC offers short-term inventory-secured financing, also known as floorplan financing, to used vehicle dealers. Financing is primarily provided for terms of 30 to 60 days. AFC principally generates its funding through the sale of its receivables. For further discussion of AFC's securitization arrangements, see [Securitization Facilities](#).

Credit Facilities

In 2007, we entered into senior secured credit facilities, comprised of a \$300.0 million revolving credit facility and a \$1,565.0 million term loan, or Term Loan B, pursuant to the terms and conditions of the Credit Agreement. The revolving credit facility was entered into for working capital and general corporate purposes. As part of an amendment to the Credit Agreement in 2009, among other items, available borrowings under the revolving credit facility were reduced to \$250 million. On March 31, 2011, \$1,144.6 million was outstanding on Term Loan B and there were no borrowings on the revolving credit facility. In addition, our Canadian operations have a C\$8 million line of credit which was undrawn as of March 31, 2011; however, there were related letters of credit outstanding totaling approximately C\$1.8 million at March 31, 2011, which reduce credit available under the Canadian line of credit, but do not affect amounts available for borrowings under our revolving credit facility.

The Credit Agreement contains certain restrictive loan covenants, including, among others, a financial covenant requiring a maximum consolidated senior secured leverage ratio be satisfied as of the last day of each fiscal quarter if revolving loans are outstanding, and covenants limiting our ability to incur indebtedness, grant liens, make acquisitions, consummate change of control transactions, dispose of assets, pay dividends, make capital expenditures, make investments and engage in certain transactions with affiliates. The leverage ratio covenant is based on consolidated Adjusted EBITDA which is EBITDA (earnings before interest expense, income taxes, depreciation and amortization) adjusted to exclude among other things (a) gains and losses from asset sales; (b) unrealized foreign currency translation gains and losses in respect of indebtedness; (c) certain non-recurring gains and losses; (d) stock option expense; (e) certain other noncash amounts included in the determination of net income; (f) management, monitoring, consulting and advisory fees paid to the equity sponsors; (g) charges and revenue reductions resulting from purchase accounting; (h) unrealized gains and losses on hedge agreements; (i) minority interest; (j) expenses associated with the consolidation of salvage operations; (k) consulting expenses incurred for cost reduction, operating restructuring and business improvement efforts; (l) expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts; (m) expenses incurred in connection with permitted acquisitions; and (n) any impairment charges or write-offs of intangibles.

The covenants contained within the senior credit facility are critical to an investor's understanding of our financial liquidity, as the violation of these covenants could result in a default and lenders could elect to declare all amounts borrowed immediately due and payable. In addition, the indentures governing our notes contain

Table of Contents

certain financial and operational restrictions on paying dividends and other distributions, making certain acquisitions or investments, incurring indebtedness, granting liens and selling assets. These covenants affect our operating flexibility by, among other things, restricting our ability to incur expenses and indebtedness that could be used to grow the business, as well as to fund general corporate purposes. We were in compliance with the covenants in the credit facility at March 31, 2011.

We believe our sources of liquidity from our cash and cash equivalents on hand, working capital, cash provided by operating activities, and availability under our credit facility are sufficient to meet our short and long-term operating needs for the foreseeable future. In addition, we believe the previously mentioned sources of liquidity will be sufficient to fund our capital requirements and debt service payments for the next twelve months.

Securitization Facilities

AFC sells the majority of its U.S. dollar denominated finance receivables on a revolving basis and without recourse to a wholly owned, bankruptcy remote, consolidated, special purpose subsidiary (AFC Funding Corporation), established for the purpose of purchasing AFC's finance receivables. A securitization agreement allows for the revolving sale by AFC Funding Corporation to a bank conduit facility of undivided interests in certain eligible finance receivables subject to committed liquidity. The agreement expires on June 30, 2014. AFC believes the current aggregate maximum commitment totaling \$650 million as of April 26, 2011 and available cash will be adequate to fund additional growth in its U.S. finance receivables.

We completed an agreement for the securitization of Automotive Finance Canada, Inc.'s (AFCI) receivables in February 2010. This securitization facility provides up to C\$75 million in financing for eligible finance receivables through another third party conduit. Consistent with the U.S. securitization facility, we expect the Canadian facility to be extended through June 30, 2014 prior to its expiration on April 20, 2012.

ASU 2009-16 amended ASC 860, *Transfers and Servicing*, and we adopted the guidance on January 1, 2010. The guidance specifies that the finance receivable transactions on or subsequent to January 1, 2010 under our revolving sale agreement be included in our balance sheet. This resulted in an increase in assets and related obligations in 2010. In addition, the guidance eliminated securitization income accounting and resulted in the recording of fee and interest income and interest expense for the finance receivable transactions under the revolving sale agreement. The elimination of securitization income accounting resulted in a reduction of pre-tax income of approximately \$2.8 million in the first quarter of 2010.

AFC managed total finance receivables of \$746.8 million and \$771.6 million at March 31, 2011 and December 31, 2010.

AFC's allowance for losses of \$9.6 million and \$9.7 million at March 31, 2011 and December 31, 2010, respectively, includes an estimate of losses for finance receivables as well as an allowance for any further deterioration in the finance receivables after they are repurchased from the bank conduit facility.

As of March 31, 2011 and December 31, 2010, \$741.8 million and \$763.9 million of finance receivables and a cash reserve of 1 percent of finance receivables securitized serve as security for the \$492.1 million and \$520.1 million of obligations collateralized by finance receivables at March 31, 2011 and December 31, 2010. The amount of the cash reserve depends on circumstances which are set forth in the securitization agreements. After the occurrence of a termination event, as defined in the U.S. securitization agreement, the bank conduit facility may, and could, cause the stock of AFC Funding Corporation to be transferred to the bank conduit facility, though as a practical matter the bank conduit facility would look to the liquidation of the receivables under the transaction documents as their primary remedy.

Proceeds from the revolving sale of receivables to the bank conduit facility are used to fund new loans to customers. AFC, AFC Funding Corporation and AFCI must maintain certain financial covenants including, among others, limits on the amount of debt AFC and AFCI can incur, minimum levels of tangible net worth, and

Table of Contents

other covenants tied to the performance of the finance receivables portfolio. The securitization agreements also incorporate the financial covenants of our credit facility. At March 31, 2011, we were in compliance with the covenants in the securitization agreements.

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA, as presented herein, are supplemental measures of our performance that are not required by, or presented in accordance with, generally accepted accounting principles in the United States, or GAAP. They are not measurements of our financial performance under GAAP and should not be considered substitutes for net income (loss) or any other performance measures derived in accordance with GAAP or as substitutes for cash flow from operating activities as measures of our liquidity.

EBITDA is defined as net income (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for the items of income and expense and expected incremental revenue and cost savings, as described above in the discussion of certain restrictive loan covenants under Credit Facilities.

Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about one of the principal measures of performance used by our creditors. In addition, management uses Adjusted EBITDA to evaluate our performance and to evaluate results relative to incentive compensation targets. EBITDA and Adjusted EBITDA have limitations as analytical tools, and should not be considered in isolation or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

The following tables reconcile EBITDA and Adjusted EBITDA to net income (loss) for the periods presented:

<i>(Dollars in millions)</i>	Three Months Ended March 31, 2011				
	ADESA	IAAI	AFC	Corporate	Consolidated
Net income (loss)	\$ 25.8	\$ 19.2	\$ 15.0	(\$ 20.2)	\$ 39.8
Add back:					
Income taxes	(2.1)	9.4	6.2	(12.5)	1.0
Interest expense, net of interest income	0.2	0.6	2.1	30.3	33.2
Depreciation and amortization	21.4	16.4	6.2	0.1	44.1
Intercompany	13.2	9.6	(3.2)	(19.6)	
EBITDA	58.5	55.2	26.3	(21.9)	118.1
Adjustments	3.2	2.4	(1.4)	5.0	9.2
Adjusted EBITDA	\$ 61.7	\$ 57.6	\$ 24.9	(\$ 16.9)	\$ 127.3

<i>(Dollars in millions)</i>	Three Months Ended March 31, 2010				
	ADESA	IAAI	AFC	Corporate	Consolidated
Net income (loss)	\$ 22.8	\$ 11.8	\$ 5.8	(\$ 32.3)	\$ 8.1
Add back:					
Income taxes	9.8	8.5	4.5	(24.1)	(1.3)
Interest expense, net of interest income	0.2	0.5	1.4	32.8	34.9

Table of Contents

Certain of our loan covenant calculations utilize financial results for the most recent four consecutive fiscal quarters. The following table reconciles EBITDA and Adjusted EBITDA to net income for the periods presented:

	Three Months Ended				Twelve Months
	June 30, 2010	September 30, 2010	December 31, 2010	March 31, 2011	Ended March 31, 2011
<i>(Dollars in millions)</i>					
Net income	\$ 28.6	\$ 25.6	\$ 7.3	\$ 39.8	\$ 101.3
Add back:					
Income taxes	19.9	11.1	(2.5)	1.0	29.5
Interest expense, net of interest income	35.9	35.5	35.0	33.2	139.6
Depreciation and amortization	41.8	42.2	44.0	44.1	172.1
EBITDA	126.2	114.4	83.8	118.1	442.5
Nonrecurring charges	3.0	2.8	8.4	2.8	17.0
Noncash charges	3.6	5.8	12.9	8.5	30.8
AFC interest expense	(1.8)	(1.9)	(2.1)	(2.1)	(7.9)
Adjusted EBITDA	\$ 131.0	\$ 121.1	\$ 103.0	\$ 127.3	\$ 482.4

Summary of Cash Flows

	Three Months Ended	
	March 31, 2011	March 31, 2010
<i>(Dollars in millions)</i>		
Net cash provided by (used for):		
Operating activities	\$ 81.3	\$ 232.2
Investing activities	5.0	(549.6)
Financing activities	36.1	181.1
Effect of exchange rate on cash	0.8	0.4
Net increase (decrease) in cash and cash equivalents	\$ 123.2	(\$ 135.9)

Cash flow from operating activities was \$81.3 million for the three months ended March 31, 2011, compared with \$232.2 million for the three months ended March 31, 2010. The decrease in operating cash flow was primarily impacted by changes in operating assets and liabilities. The change in operating assets was driven by the reduction in retained interests in finance receivables sold and a reduction in finance receivables held for sale in 2010, which resulted from the adoption of ASU 2009-16.

Net cash provided by investing activities was \$5.0 million for the three months ended March 31, 2011, compared with net cash used for investing activities of \$549.6 million for the three months ended March 31, 2010. The change in net cash provided by investing activities was primarily the result of the 2010 net increase in finance receivables held for investment, which resulted from the adoption of ASU 2009-16. The guidance specifies that the finance receivable transactions on or subsequent to January 1, 2010 under our revolving sale agreement be included in our balance sheet. In addition, we spent \$7.5 million more for capital items in the first three months of 2011 compared with the first three months of 2010. For a discussion of the Company's capital expenditures, see [Capital Expenditures](#) below.

Net cash provided by financing activities was \$36.1 million for the three months ended March 31, 2011, compared with \$181.1 million for the three months ended March 31, 2010. The decrease in cash provided by financing activities was primarily attributable to the \$433.9 million increase in obligations collateralized by finance receivables in 2010, which resulted from the adoption of ASU 2009-16 as discussed above. The change in obligations collateralized by finance receivables was partially offset by a decrease in payments on long-term debt, as the Company made no payments on long-term debt in the first three months of 2011 compared with a payment for the early extinguishment of debt and a related prepayment penalty totaling \$271.9 million in the first three months of 2010.

Table of Contents

Capital Expenditures

Capital expenditures for the three months ended March 31, 2011 and the year ended December 31, 2010 approximated \$16.1 million and \$78.9 million, respectively. Capital expenditures were funded primarily from internally generated funds. We continue to invest in our core information technology capabilities and capacity expansion. Capital expenditures are expected to be approximately \$80 million for fiscal year 2011. Anticipated expenditures are primarily attributable to ongoing information system projects, upkeep and improvements at existing vehicle auction facilities, improvements in information technology systems and infrastructure and expansion and relocation of existing auction sites that are at capacity. Future capital expenditures could vary substantially based on capital project timing and the initiation of new information systems projects to support our business strategies.

Critical Accounting Estimates

In preparing the financial statements in accordance with U.S. generally accepted accounting principles, management must often make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements and during the reporting period. Some of those judgments can be subjective and complex. Consequently, actual results could differ from those estimates. Accounting measurements that management believes are most critical to the reported results of our operations and financial condition include: uncollectible receivables and allowance for credit losses and doubtful accounts, goodwill and long-lived assets, self-insurance programs, legal proceedings and other loss contingencies and income taxes.

In addition to the critical accounting estimates, there are other items used in the preparation of the consolidated financial statements that require estimation, but are not deemed critical. Changes in estimates used in these and other items could have a material impact on our financial statements.

We continually evaluate the accounting policies and estimates used to prepare the consolidated financial statements. In cases where management estimates are used, they are based on historical experience, information from third-party professionals, and various other assumptions believed to be reasonable. Our critical accounting estimates are discussed in the *Critical Accounting Estimates* section of *Management's Discussion and Analysis of Financial Condition and Results of Operations* in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the Securities and Exchange Commission. In addition, our most significant accounting policies are discussed in Note 2 and elsewhere in the Notes to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2010, which includes audited financial statements.

New Accounting Standards

In October 2009, the FASB issued new guidance (Accounting Standards Update 2009-13) on multiple-deliverable revenue arrangements. The new guidance which amends ASC 605, *Revenue Recognition*, addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services separately rather than as a combined unit and modifies the manner in which the transaction consideration is allocated across the separately identified deliverables. In addition, ASU 2009-13 significantly expands the disclosure requirements for multiple-deliverable revenue arrangements. The new guidance is effective for the first annual reporting period beginning on or after June 15, 2010, and may be applied retrospectively for all periods presented or prospectively to arrangements entered into or materially modified after the adoption date. The adoption of the new guidance did not have a material impact on the consolidated financial statements.

Recent Developments

In April 2011, we announced that we intend to refinance a portion of our existing indebtedness to extend the maturities of our existing debt and to provide greater flexibility to prepay debt by taking advantage of current market conditions. We intend to complete the planned refinancing only if these purposes can be achieved. As part of the refinancing we anticipate utilizing \$20 million to \$25 million of our available cash to cover a portion of fees, expenses and redemption premiums incurred in the refinancing transactions.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**
Foreign Currency

Our foreign currency exposure is limited and arises from transactions denominated in foreign currencies, particularly intercompany loans, as well as from translation of the results of operations from our Canadian and, to a much lesser extent, Mexican subsidiaries. However, fluctuations between U.S. and non-U.S. currency values may adversely affect our results of operations and financial position. In addition, there may be tax inefficiencies in repatriating cash from non-U.S. subsidiaries. To the extent such repatriation is necessary for us to meet our debt service or other obligations, these tax inefficiencies may adversely affect us. We have not entered into any foreign exchange contracts to hedge changes in the Canadian or Mexican exchange rates. Canadian currency translation positively affected net income by approximately \$0.4 million for the three months ended March 31, 2011. Currency exposure of our Mexican operations is not material to the results of operations.

Interest Rates

We are exposed to interest rate risk on borrowings. Accordingly, interest rate fluctuations affect the amount of interest expense we are obligated to pay. We use interest rate derivative agreements to manage the variability of cash flows to be paid due to interest rate movements on our variable rate debt. We have designated our interest rate derivatives as cash flow hedges. The earnings impact of the derivatives designated as cash flow hedges are recorded upon the recognition of the interest related to the hedged debt. Any ineffectiveness in the hedging relationships is recognized in current earnings. There was no significant ineffectiveness in the first three months of 2011 or 2010.

In May 2009, we entered into an interest rate swap agreement with a notional amount of \$650 million to manage our exposure to interest rate movements on our variable rate Term Loan B credit facility. The interest rate swap agreement had an effective date of June 30, 2009, matures on June 30, 2012 and effectively results in a fixed LIBOR interest rate of 2.19% on \$650 million of the Term Loan B credit facility.

In May 2009, we also purchased an interest rate cap for \$1.3 million with a notional amount of \$250 million to manage our exposure to interest rate movements on our variable rate Term Loan B credit facility when one-month LIBOR exceeds 2.5%. The interest rate cap relates to a portion of the variable rate debt that is not covered by an interest rate swap agreement. The interest rate cap agreement had an effective date of June 30, 2009 and matures on June 30, 2011.

The fair values of the interest rate derivatives are based on quoted market prices for similar instruments from a commercial bank. At March 31, 2011 and December 31, 2010, respectively, the fair value of the interest rate swap was a \$14.1 million unrealized loss and a \$16.6 million unrealized loss recorded in Other accrued expenses on the consolidated balance sheet. In addition, at March 31, 2011 and December 31, 2010, respectively, the fair value of the interest rate cap was \$0 and a less than \$0.1 million asset recorded in Other current assets on the consolidated balance sheet. Unrealized gains or losses on the interest rate derivatives are included as a component of Accumulated other comprehensive income. At March 31, 2011, there was a net unrealized loss totaling \$8.9 million, net of tax benefits of \$5.4 million. At December 31, 2010, there was a net unrealized loss totaling \$10.5 million, net of tax benefits of \$6.4 million. We are exposed to credit loss in the event of non-performance by the counterparties; however, non-performance is not anticipated. We have only partially hedged our exposure to interest rate fluctuations on our variable rate debt. A sensitivity analysis of the impact on our variable rate debt instruments to a hypothetical 100 basis point increase in short-term rates for the three months ended March 31, 2011 would have resulted in an increase in interest expense of approximately \$1.6 million.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the quarter ended March 31, 2011, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in litigation and disputes arising in the ordinary course of business, such as actions related to injuries; property damage; handling, storage or disposal of vehicles; environmental laws and regulations; and other litigation incidental to the business such as employment matters and dealer disputes. Such litigation is generally not, in the opinion of management, likely to have a material adverse effect on our financial condition, results of operations or cash flows. Legal and regulatory proceedings which could be material are discussed below.

Certain legal proceedings in which the Company is involved are discussed in Note 16 to the consolidated financial statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2010 and Part I, Item 3 of the same Annual Report. The following discussion is limited to certain recent developments concerning our legal and regulatory proceedings and should be read in conjunction with the Annual Report. Unless otherwise indicated, all proceedings discussed in the Annual Report remain outstanding.

IAAI Lower Duwamish Waterway

On March 25, 2008, the United States Environmental Protection Agency, or EPA, issued a General Notice of Potential Liability pursuant to Section 107(a), and a Request for Information pursuant to Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act, or CERCLA to IAAI for a Superfund site known as the Lower Duwamish Waterway Superfund Site in Seattle, Washington, or LDW. At this time, the EPA has not demanded that IAAI pay any funds or take any action apart from responding to the Section 104(e) Information Request. The EPA has advised IAAI that, to date, it has sent out approximately 60 general notice letters to other parties, and has sent Section 104(e) Requests to more than 250 other parties. A remedial investigation has been conducted for this site by some of the potentially responsible parties, who have also commenced a feasibility study pursuant to CERCLA. IAAI is aware that certain authorities plan to bring Natural Resource Damage claims against potentially responsible parties. In addition, the Washington State Department of Ecology is working with the EPA in relation to LDW, primarily to investigate and address sources of potential contamination contributing to LDW. IAAI, the owner, and predecessor at their Tukwila location, which is adjacent to the LDW, are currently in discussion with the Washington State Department of Ecology concerning possible source control obligations, including an investigation of the water and soils entering the stormwater system, an analysis of the source of any contamination identified within the system and possible repairs and upgrades to the stormwater capture and filtration system. In 2010, IAAI began implementing a stormwater sampling plan to comply with the Washington State Department of Ecology source control requirements.

Item 1A. Risk Factors

In addition to the other information set forth in this report, readers should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 4. Removed and Reserved

Table of Contents

Item 6. Exhibits

(a) Exhibits. The Exhibit Index is incorporated herein by reference.

The agreements incorporated by reference as exhibits to this Quarterly Report on Form 10-Q contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties were made solely for the benefit of the other parties to the applicable agreement and (i) were not intended to be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate; (ii) may have been qualified in such agreement by disclosures that were made to the other party in connection with the negotiation of the applicable agreement; (iii) may apply contract standards of materiality that are different from materiality under the applicable securities laws; and (iv) were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement.

The Company acknowledges that, notwithstanding the inclusion of the foregoing cautionary statements, it is responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to make the statements in this Quarterly Report on Form 10-Q not misleading. Additional information about KAR Auction Services may be found elsewhere in this Quarterly Report on Form 10-Q and KAR Auction Services' other public filings, which are available without charge through the SEC's website at <http://www.sec.gov>.
