Edgar Filing: CASH AMERICA INTERNATIONAL INC - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter time that the registrant was required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company)

Accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

The aggregate market value of 29,040,423 shares of the registrant's Common Stock, par value \$0.10 per share, held by non-affiliates on June 30, 2012 was approximately \$1,278,940,229.

At February 19, 2013 there were 28,811,280 shares of the registrant's Common Stock, \$0.10 par value per share, issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive Proxy Statement pertaining to the 2012 Annual Meeting of Shareholders are incorporated herein by reference into Items 5, 10, 11, 12, 13 and 14 of Part III of this Annual Report on Form 10-K.

CAUTIONARY NOTE CONCERNING FACTORS THAT MAY AFFECT FUTURE RESULTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You should not place undue reliance on these statements. These forward-looking statements give current expectations or forecasts of future events and reflect the views and assumptions of senior management with respect to the business, financial condition, operations and prospects of Cash America International, Inc. and its subsidiaries (collectively, the Company). When used in this report, terms such as believes, estimates, should, could, would, plans, expects, anticipates, may, forecast, project and similar variations as they relate to the Company or its management are intended to identify forward-looking statements. Forward-looking statements address matters that involve risks and uncertainties that are beyond the ability of the Company to control and, in some cases, predict. Accordingly, there are or will be important factors that could cause the Company's actual results to differ materially from those indicated in these statements. Key factors that could cause the Company's actual financial results, performance or condition to differ from the expectations expressed or implied in such forward-looking statements include, but are not limited to, the following:

- changes in domestic and foreign pawn, consumer credit, tax and other laws and government rules and regulations applicable to the Company's business, or changes in the interpretation or enforcement thereof, and the anticipated regulation of consumer financial products and services by the Consumer Financial Protection Bureau;
- public perception of the Company's business, including its consumer loan business and its business practices;
- the deterioration of the political, regulatory or economic environment in foreign countries where the Company operates or in the future may operate;
- fluctuations in the price of gold or a deterioration in economic conditions;
- the effect of any current or future litigation proceedings and any judicial decisions or rule-making that affect the Company, its products or the legality or enforceability of its arbitration agreements;
- the actions of third parties who provide, acquire or offer products and services to, from or for the Company;
- the ability of the Company to maintain an allowance or liability for estimated losses on consumer loans that are adequate to absorb credit losses;
- changes in demand for the Company's services, changes in competition and the continued acceptance of the online channel by the Company's online consumer loan customers;
- the ability of the Company to attract and retain qualified executive officers;
- a prolonged interruption in the Company's operations of its facilities, systems and business functions, including its information technology and other business systems;
- the ability of the Company to open new locations in accordance with plans or to successfully integrate newly acquired businesses into the Company's operations;
- interest rate and foreign currency exchange rate fluctuations;
- changes in the capital markets, including the debt and equity markets;
- changes in the Company's ability to satisfy its debt obligations or to refinance existing debt obligations or obtain new capital to finance growth;
- cyber attacks or security breaches;
- acts of God, war or terrorism, pandemics and other events;
- the effect of any of the above changes on the Company's business or the markets in which the Company operates; and
- other risks and uncertainties described in this report or from time to time in the Company's filings with the Securities and Exchange Commission (the SEC).

The foregoing list of factors is not exhaustive and new factors may emerge or changes to these factors may occur that would impact the Company's business. Additional information regarding these and other factors may be contained in the Company's filings with the SEC, especially on Forms 10-K, 10-Q and 8-K. If one or more events related to these or other risks or uncertainties materialize, or if management's underlying assumptions prove to be incorrect, actual results may differ materially from what the Company anticipates. The Company disclaims any intention or obligation to update or revise any forward-looking statements to reflect events or circumstances occurring after the date of this report. All forward-looking statements are expressly qualified in their entirety by the foregoing cautionary statements.

Table of Contents

PART I

ITEM 1. BUSINESS

Overview

General

Cash America International, Inc. and its subsidiaries (collectively, the Company) provides specialty financial services to individuals through retail services locations and e-commerce activities. The Company was incorporated in Texas in 1984 and has been providing specialty financial services to its customers for approximately 28 years. The Company believes it was the nation's largest provider of pawn loans and the largest operator of pawn shops in the world in 2012.

The Company offers secured non-recourse loans, commonly referred to as pawn loans. Pawn loans are short-term loans (generally 30 to 90 days) made on the pledge of tangible personal property. Pawn loan fees and service charges revenue is generated from the Company's pawn loan portfolio. A related activity of the pawn lending operations is the disposition of collateral from unredeemed pawn loans and the liquidation of a smaller volume of merchandise purchased directly from customers or from third parties.

The Company originates, guarantees or purchases consumer loans (collectively referred to as consumer loans throughout this discussion). Consumer loans provide customers with cash, typically in exchange for an obligation to repay the amount advanced plus fees and any applicable interest. Consumer loans include short-term loans (commonly referred to as payday loans), line of credit accounts and installment loans.

Short-term loans include unsecured short-term loans written by the Company or by a third-party lender through the Company's credit services organization programs (CSO programs as further described below) that the Company guarantees. Line of credit accounts include draws made through the Company's line of credit product, and, from 2008 through October 2010, included micro line of credit (MLOC) receivables, which are participation interests in receivables acquired from a third-party lender in connection with MLOC services the Company offered. Installment loans are longer-term multi-payment loans that generally require the pay-down of portions of the outstanding principal balance in multiple installments and include unsecured loans and auto equity loans, which are secured by a customer's vehicle, that are written by the Company or by a third-party lender through the Company's CSO programs that the Company guarantees. The Company offers consumer loans over the Internet under the names CashNetUSA and NetCredit in the United States, under the names QuickQuid and Pounds to Pocket in the United Kingdom and under the name DollarsDirect in Australia and Canada. The Company also offers a line of credit product, which is similar to the MLOC product for which the Company previously provided services, under the name Debit Plus in Mexico.

Through the Company's CSO programs the Company provides services related to a third-party lender's consumer loan products in some markets by acting as a credit services organization or credit access business on behalf of consumers in accordance with applicable state laws. Services offered under the CSO programs include credit-related services such as arranging loans with independent third-party lenders and assisting in the preparation of loan applications and loan documents (CSO loans). Under the CSO programs, the Company guarantees consumer loan payment obligations to the third-party lender in the event that the customer defaults on the loan. CSO loans are not included in the Company's financial statements, but the Company has established a liability for the estimated losses in support of the guarantee on these loans in its consolidated balance sheets.

In addition, the Company provides check cashing and other ancillary services through many of its retail services locations and through its franchised check cashing centers. The ancillary services provided mainly include money orders, wire transfers, prepaid debit cards, tax filing services and auto insurance. Most of these ancillary services are provided through third-party vendors.

Table of Contents

The Company has two reportable operating segments: retail services and e-commerce. The retail services segment includes all of the operations of the Company's Retail Services Division, which is composed of both domestic and foreign storefront locations that offer some or all of the following services: pawn loans, consumer loans, the purchase and sale of merchandise, check cashing and other ancillary services such as money orders, wire transfers, prepaid debit cards, tax filing services and auto insurance. Most of these ancillary services offered in the retail services segment are provided through third-party vendors. See Recent Developments Business Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest section below for information related to the reorganization of the Company's Mexico-based pawn operations during 2012, which are included in the retail services segment. The e-commerce segment includes the operations of the Company's E-Commerce Division, which is composed of the Company's domestic and foreign online lending channels through which the Company offers consumer loans.

Retail Services Segment

The following table sets forth the number of domestic and foreign Company-owned and franchised locations in the Company's retail services segment offering pawn lending, consumer lending, and other services as of December 31, 2012, 2011 and 2010. The Company's domestic retail services locations operate under the names Cash America Pawn, SuperPawn, Cash America Payday Advance, Cashland and Mr. Payroll. In addition, certain recently acquired domestic retail services locations operate under various names that are expected to be changed to Cash America Pawn or SuperPawn during 2013. In January 2013, the Company's foreign retail services locations began operating exclusively under the name Cash America casa de empeño (and previously operated under the name Prenda Fácil).

	As of December 31,								
	2012			2011			2010		
	Domestic ^(a)	Foreign	Total	Domestic ^{(a)(b)}	Foreign	Total	Domestic ^{(a)(b)}	Foreign	Total
Retail services locations offering:									
Both pawn and consumer lending	581	-	581	572	-	572	567	-	567
Pawn lending only	167	47	214	126	190	316	124	180	304
Consumer lending only	83	-	83	86	-	86	88	-	88
Other ^(c)	91	-	91	110	-	110	122	-	122
Total retail services	922	47	969	894	190	1,084	901	180	1,081

(a) Except as described in (c) below, includes locations that operate in 22 states in the United States as of December 31, 2012, and 23 states as of both December 31, 2011 and 2010. In 2011, includes five retail services locations that the Company operated under management agreements with a former franchisee.

(b) Includes unconsolidated franchised locations as follows: one location operating under the name Cash America Pawn as of December 31, 2011, and nine locations operating under the names Cash America Pawn and SuperPawn as of December 31, 2010.

(c) As of December 31, 2012, 2011 and 2010, includes zero, six and six consolidated Company-owned check cashing locations and 91, 104 and 116 unconsolidated franchised check cashing locations, respectively. As of December 31, 2012, 2011 and 2010, includes locations that operate in 15, 18 and 17 states in the United States, respectively.

Table of Contents

E-Commerce Segment

As of December 31, 2012, 2011 and 2010, the Company's e-commerce segment operated in 32 states in the United States and in three other foreign countries:

in the United States at <http://www.cashnetusa.com> and <http://www.netcredit.com>,
in the United Kingdom at <http://www.quickquid.co.uk> and <http://www.poundstopocket.co.uk>,
in Australia at <http://www.dollarsdirect.com.au>, and
in Canada at <http://www.dollarsdirect.ca>.

As of December 31, 2012, the Company also offered a line of credit product in Mexico, which is similar to the MLOC product for which the Company previously provided services, under the trade name Debit Plus.

The Company's internet websites and the information contained therein or connected thereto are not intended to be incorporated by reference into this Annual Report on Form 10-K.

Recent Developments

Business Developments

Newly Appointed Chief Executive Officer of E-Commerce Division

On January 29, 2013, David A. Fisher was appointed Chief Executive Officer of Enova International, Inc. (Enova), a wholly-owned subsidiary of the Company that comprises its e-commerce segment (which includes the operations of the E-Commerce Division). Mr. Fisher will succeed Timothy S. Ho as the senior executive officer of Enova, who will step down as the President of Enova on March 29, 2013.

Voluntary Reimbursements to Ohio Customers

On December 4, 2012, the Company announced a voluntary program to fully reimburse approximately 14,000 Ohio customers for all funds collected, plus interest accrued from the date collected, in connection with legal collections proceedings initiated by the Company in Ohio from January 1, 2008 through December 4, 2012. In 2012, the Company determined that a small number of employees did not prepare certain court documents in many of its Ohio legal collections proceedings in accordance with court rules. In connection with the reimbursement program, for all trial court collections proceedings filed by the Company in Ohio from January 1, 2008 through December 4, 2012, with the exception of one appellate matter, the Company is in the process of filing dismissals, terminating all existing post-judgment collections activities, and requesting to vacate each judgment entered and/or notifying credit reporting bureaus of the vacated judgments, as necessary, for each case.

The Company estimates the cost of the reimbursement program and related expenses will be approximately \$13.4 million before taxes and has recorded this amount in Accounts payable and accrued expenses in the consolidated balance sheets and in Operations and administration expense in the consolidated statements of income for the year ended December 31, 2012.

Acquisition of Nine-Store Chain of Pawn Lending Locations in Arizona

On October 8, 2012, the Company's wholly-owned subsidiary, Cash America, Inc. of Nevada, entered into an agreement to acquire substantially all of the assets of a nine-store chain of pawn lending locations in Arizona owned by Ca\$h Corporation, Pawn Corp #1, Inc., Pawncorp #2, Inc. and Pawncorp #4, Inc. The aggregate cash consideration paid in 2012 for this transaction, which was funded with borrowings under the Company's line of credit, was approximately \$15.4 million. The closing for the transaction occurred on October 25, 2012.

Table of Contents

Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest

On September 24, 2012, the Company's Board of Directors approved a plan to significantly modify the business plan and strategy of the Company's Mexico-based pawn operations, which comprise the foreign component of its retail services segment. The Company reorganized these operations to include only full-service pawn locations that offer pawn loans based on the pledge of general merchandise and jewelry-based collateral and discontinued the operations of 148 of its Mexico-based pawn locations that primarily offered pawn loans based on the pledge of jewelry-based collateral (the Mexico Reorganization). The Mexico Reorganization was substantially completed as of December 31, 2012. As of December 31, 2012, the Company was operating 47 full-service pawn locations in Mexico. The Mexico Reorganization reflects management's decision to modify its strategy in Mexico to achieve profitability in its Mexico-based pawn operations and to evaluate the potential to expand its services to customers in Latin American markets.

In connection with the Mexico Reorganization, the Company incurred charges for employee termination costs, lease termination costs, asset impairments, loss on sale of assets, the recognition of a deferred tax asset valuation allowance, uncollectible receivables and other charges. The Company recognized \$28.9 million of charges related to the Mexico Reorganization during the year ended December 31, 2012. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - General - Recent Developments - Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest for further discussion of the Mexico Reorganization.

As of December 31, 2012, the Company's Mexico-based pawn operations were owned by Creazione Estilo, S.A. de C.V., a Mexican *sociedad anónima de capital variable* (Creazione). Prior to September 26, 2012, the Company owned 80% of the outstanding stock of Creazione. On September 26, 2012, the Company acquired all outstanding shares of Creazione that were held by minority shareholders (approximately 20% of the outstanding shares), and, as a result, Creazione became a wholly-owned subsidiary of the Company as of that date. The Company paid approximately \$5.6 million in cash and released the minority shareholders from certain contingent obligations estimated at approximately \$2.8 million. The Company accounted for this transaction as an acquisition of the remaining interest of a majority-owned subsidiary. The purchase resulted in a reduction to additional paid in capital of \$7.7 million, representing the excess of the cash amount paid and the released contingent obligations (totaling \$8.4 million) less the carrying amount of the noncontrolling interest of \$0.7 million. In January 2013, the Company's remaining Mexico-based pawn operations were sold by Creazione to another wholly-owned subsidiary, CA Empeños Mexico, S. de R.L. de C.V., and began operating exclusively under the name Cash America casa de empeño. In connection with the Mexico Reorganization, the Company intends to liquidate the remaining assets of Creazione, which are insignificant, in 2013.

Acquisition of 25-Store Chain of Pawn Lending Locations in Kentucky, North Carolina and Tennessee

On September 27, 2012, the Company and three of its wholly-owned subsidiaries, Cash America, Inc. of Tennessee, Cash America, Inc. of North Carolina and Cash America, Inc. of Kentucky, entered into an agreement to acquire substantially all of the assets of a 25-store chain of pawn lending locations located in Kentucky, North Carolina, and Tennessee owned by Standon, Inc., Casa Credit, Inc., Classic Credit, Inc. and Falcon Credit, Inc. As of that date, the Company assumed the economic benefits of all of these pawnshops by operating them under management agreements that commenced on September 27, 2012, and the final agreement terminated on December 16, 2012. The aggregate cash consideration for the transaction, which was funded with borrowings under the Company's line of credit, was approximately \$55.1 million, of which \$52.0 million was paid in September 2012. The remaining \$3.1 million of consideration was paid during the fourth quarter of 2012.

Table of Contents

Withdrawal of Proposed Initial Public Offering of Enova International, Inc.

On September 15, 2011, Enova filed a registration statement on Form S-1 (*Registration Statement*) with the Securities and Exchange Commission (the *SEC*) in connection with a proposed initial public offering (*IPO*) of its common stock. On July 25, 2012, Enova filed an Application for Withdrawal of Registration Statement with the SEC to withdraw its Registration Statement, together with all exhibits and amendments. The Registration Statement had not been declared effective by the SEC, and no securities have been sold in connection with the offering pursuant to the Registration Statement.

Recent Regulatory and Other Developments

Ohio Court Decision

On May 28, 2009, a subsidiary of the Company, Ohio Neighborhood Finance, Inc., doing business as Cashland (*Cashland*), filed a standard collections suit in an Elyria Municipal Court in Ohio against Rodney Scott seeking judgment against Mr. Scott in the amount of \$570.16, which was the amount due under his loan agreement. Cashland's loan was offered under the Ohio Mortgage Loan Act (*OMLA*), which allows for interest at a rate of 25% per annum plus certain loan fees allowed by the statute. The Municipal Court held that short-term, single-payment consumer loans made by Cashland are not authorized under the OMLA, and instead should have been offered under the Ohio Short-Term Lender Law, which was passed by the Ohio legislature in 2008 for consumer loans with similar terms. Due to a cap on interest and loan fees at an amount that is less than permitted under OMLA, the Company does not offer loans under the Ohio Short-Term Lender Law.

On December 3, 2012, the Ohio Ninth District Court of Appeals affirmed the Municipal Court's ruling in a 2-1 decision. Although this court decision is only legally binding in the Ninth District of Ohio, which includes four counties in northern Ohio where Cashland operates seven stores, other Ohio courts may consider this decision.

The Company filed an appeal of the Ninth District Court's decision with the Ohio Supreme Court on January 17, 2013 because it believes that this decision is contrary to the language of the OMLA, and the Ohio Supreme Court has not yet determined whether it will hear the appeal. If the Ninth District Court's decision is upheld by the Ohio Supreme Court on appeal, the Company's Ohio operations may be adversely affected. The Company relies on the OMLA to make short-term loans in its retail services locations in Ohio, and if the Company is unable to continue making short-term loans under this law, it will have to alter its short-term loan product in Ohio.

Delaware Legislation

In June 2012, the State of Delaware passed a bill, which took effect on January 1, 2013, to amend its short-term consumer loan law to, among other things, limit the number of loans a borrower may have in any twelve-month period and establish a statewide database to track these loans. The bill only affects the Company's short-term loan product in Delaware (and does not affect its installment loan product in that state). The impact of this bill will not have a material effect on the Company, including its consolidated revenue or operations.

Australia National Consumer Credit Protection Act Amendment

In Australia the Company acts as a finance broker, offering the lending products of unaffiliated third-party lenders, which is similar to the Company's CSO programs in the United States. In Australia, the Company follows the responsible lending guidelines under the National Consumer Credit Protection Act (2010) (the *NCCPA*), which has been recently amended. Part of the amendment will become effective on March 1, 2013, and the remainder will become effective on July 1, 2013. The amendment includes limitations on permissible fees charged on certain consumer loans, including consumer loans arranged by the Company. The Company is still assessing the impact of this amendment on the product offered in Australia, but the

Table of Contents

Company expects that the product will be modified as a result of this amendment, which could make the product less profitable or could eliminate the Company's ability to offer lending products in Australia. The Company may even need to exit Australia if the product cannot be modified in a way that retains its profitability in that country. If the Company has to exit Australia, it will not have a material effect on the Company, including its consolidated revenues or operations.

UK Office of Fair Trading

The Company offers consumer loans over the internet in the United Kingdom where the Company must follow the Irresponsible Lending Guidance of the Office of Fair Trading (the "OFT") and the Consumer Credit Act of 1974 that was amended by the Consumer Credit Act of 2006 (collectively, the "CCA"), among other rules and regulations. In December 2012, the U.K. Parliament passed the Financial Services Act of 2012 (the "Act"), certain provisions of which take effect on April 1, 2013 and April 1, 2014. The Act makes changes to the CCA and the Financial Services and Markets Act of 2000 (the "FSMA") and gives the OFT the power to suspend consumer credit licenses with immediate effect or from a date specified. The Act also creates the Financial Conduct Authority (the "FCA"), which will take over responsibility for regulating consumer credit from the OFT in April 2014. The FCA may regulate consumer credit pursuant to the guidance of the FSMA, which includes prescriptive regulations that currently govern the secured credit market and could possibly call for the repeal of the CCA or for enabling legislation in the United Kingdom. Prescriptive regulations, as contrasted with principles-based regulations that currently regulate the lending process in the United Kingdom, define what a lender may and may not do with a specific product, similar to U.S. law. However, the U.K. coalition government has reserved the option to retain the principles-based CCA provisions should it conclude that a regulatory model for unsecured consumer credit under the FSMA and FCA cannot be delivered in an effective regulatory manner. During the period of transition of regulatory responsibility over consumer credit from the OFT to the FCA, the OFT will continue to fully and rigorously regulate consumer credit, including the short-term consumer loan market. If prescriptive regulations are adopted, the Company's compliance costs will be significantly increased.

In addition, in October 2011, the OFT issued debt collection guidance that was revised in November 2012. This debt collection guidance allows consumer lenders such as the Company to debit a customer's account, which includes debits to both bank accounts and debit cards, in a reasonable and non-excessive manner. The Company has not experienced a material adverse impact on its business as a result of this guidance.

In February 2012, the OFT also announced that it had launched a review of the payday lending sector in the United Kingdom to assess the sector's compliance with the CCA, the OFT's Irresponsible Lending Guidelines and other relevant guidance and legal obligations. The OFT has announced that these inspections could be used to assess a licensee's fitness to hold a consumer credit license and could result in formal enforcement action where appropriate. The OFT is expected to announce its findings during the first quarter of 2013. It is unknown if the OFT's findings will result in significant changes to the Company's operations, business, and prospects.

Consumer Financial Protection Bureau

In July 2010, the U.S. Congress passed the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"), and Title X of the Dodd-Frank Act created the Consumer Financial Protection Bureau (the "CFPB"), which regulates consumer financial products and services, including certain short-term loans offered by the Company. On January 4, 2012, President Obama appointed a Director of the CFPB in a recess appointment bypassing Senate confirmation. Although there remain doubts about the legality of this appointment and the appointment is subject to legal challenge, the CFPB has begun exercising supervisory review over certain non-bank providers of consumer financial products and services, including providers of consumer loans such as the Company. The Dodd-Frank Act gave the CFPB, among other things, authority to examine and require registration of providers of consumer financial products and services, including providers of consumer loans such as the Company; the authority to adopt rules describing specified acts and practices as being unfair, deceptive or abusive, and hence unlawful; and the authority to impose record-keeping obligations. The Company does not currently know the nature and extent of the rules that the CFPB will consider with respect to consumer loan products and services such as those offered by the Company or the timeframe in which the CFPB may consider such rules. Although the CFPB does not have the authority to regulate interest rates, it is possible that at some time in the future the CFPB could propose and adopt rules that require certain changes to short-term consumer lending products and services, including certain short-term loans offered by or through the Company, which could make these products and services materially less profitable or even impractical to offer and could force the Company to modify or terminate certain of its product offerings. The CFPB could also adopt rules imposing new and potentially burdensome requirements and limitations with respect to other consumer loan products and services. Any such rules could have a material adverse effect on the Company's business, results of operations and financial condition or could make the continuance of all or part of its U.S. consumer loan business impractical or unprofitable.

In furtherance of its regulatory and supervisory powers, the CFPB has the authority to impose monetary penalties for violations of applicable federal consumer financial laws, require remediation of practices and pursue enforcement actions. For further discussion of the CFPB see Item 1A. Risk Factors - Risks Related to the Company's Business and Industry *The Consumer Financial Protection Bureau could have a significant impact on the Company's U.S. consumer loan business.*

Table of Contents

Services Offered by the Company

Pawn Lending

The Company's retail services segment offers pawn loans through its retail services locations in the United States and Mexico. The Company began offering pawn loans in the United States in 1984 and in Mexico in 2008. See *Recent Developments* above and *Item 8. Financial Statements and Supplementary Data Note 3* for additional information regarding the acquisition of retail services locations, including recent acquisitions and the acquisition of the Company's Mexico-based pawn lending locations. See also *Recent Developments Business Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest* above for recent developments related to the Company's Mexico-based pawn operations.

When receiving a pawn loan from the Company, a customer pledges personal property to the Company as security for the loan. The Company delivers a pawn transaction agreement, commonly referred to as a pawn ticket, to the customer, along with the proceeds of the loan. If the customer does not repay the loan and redeem the property, the Company either becomes the owner of the property or becomes the party responsible for the disposition of the collateral in satisfaction of the loan and unpaid fees.

The Company relies solely on the disposition of pawned property to recover the principal amount of an unpaid pawn loan, plus a yield on the investment, because the Company's pawn loans are non-recourse against the customer. As a result, the customer's creditworthiness is not a significant factor in the loan decision, and a decision to redeem pawned property does not affect the customer's personal credit status with other third-party creditors. Goods pledged to secure pawn loans are tangible personal property items such as jewelry, tools, televisions and other electronics, musical instruments and other miscellaneous items.

The Company contracts for pawn loan fees and service charges as compensation for the use of the funds loaned and to cover direct operating expenses related to the transaction. The pawn loan fees and service charges are typically calculated as a percentage of the pawn loan amount based on the size and duration of the transaction and generally range from 12% to 300% annually, as permitted by applicable laws. In addition, as required by applicable laws, the amounts of these charges are disclosed to the customer on the pawn ticket. These pawn loan fees and service charges contributed approximately 16.7% of the Company's total revenue in 2012, 17.8% in 2011 and 18.2% in 2010.

In the Company's pawn lending operations, the maximum pawn loan amount is generally assessed as a percentage of the pledged personal property's estimated disposition value. The Company relies on many sources to determine the estimated disposition value, including its proprietary automated product valuation system, catalogs, blue books, newspapers, internet research and its (or its employees') experience in disposing of similar items of merchandise. The Company does not use a standard or mandated percentage of estimated disposition value in determining the loan amount. Instead, its employees may set the percentage for a particular item and determine whether the item's disposition, if it is forfeited, would yield a profit margin consistent with the Company's historical experience with similar items.

The Company holds the pledged property through the term of the loan, unless earlier repaid, renewed or extended. The Company holds forfeited collateral until it is sold, as described in *Merchandise Disposition Activities* below. The typical loan term is 30 to 90 days and, in many cases, an additional grace period (typically 10 to 60 days) may be available to the borrower. The Company's pawn loans may be either paid in full with accrued pawn loan fees and service charges or, where permitted by law, may be renewed or extended by the customer's payment of accrued pawn loan fees and service charges. Accrued interest on loans that have passed the maturity date and the expiration of the grace period is not recognized as revenue until the underlying collateral has been sold. The Company does not record pawn loan losses or charge-offs because the amount advanced becomes the carrying cost of the forfeited collateral that is to be recovered through the merchandise disposition function described below. The Company typically experiences seasonal growth during the second, third and fourth quarter of each year due to loan balance growth that occurs after the heavy repayment period of pawn loans with tax refund proceeds received by customers in the first quarter each year.

Table of Contents

Merchandise Disposition Activities

A related activity of the Company's pawn lending operations is the disposition of collateral from unredeemed pawn loans and the liquidation of a smaller volume of merchandise purchased directly from customers or from third parties. The Company's retail services segment engages in merchandise disposition activities through its retail services locations in the United States and Mexico.

If a customer does not repay, renew or extend a pawn loan at the time a loan is due, the Company becomes the owner of the unredeemed collateral. With respect to the Company's foreign pawn operations, collateral underlying unredeemed pawn loans is not owned by the Company; however, the Company assumes the risk of loss on such collateral and is solely responsible for its care and disposition.

Once the Company owns the unredeemed collateral or becomes the party responsible for its care and disposition in satisfaction of the loan, the merchandise becomes available for disposition through either retail or commercial sales. Retail sales include the sale of jewelry and general merchandise direct to consumers through the Company's domestic and foreign retail services locations or over the Internet through auction and other similar sites. Commercial sales include the sale of refined gold, platinum, silver and diamonds to brokers or manufacturers.

Upon the sale of merchandise, the Company realizes gross profit, which is the difference between the Company's cost basis in the loan or the amount paid for purchased merchandise, both of which are recorded as cost of sales, and the amount of proceeds from the sale. The cost of disposed merchandise is computed on the specific identification basis. If the proceeds from the disposition of the collateral are less than the outstanding loan balance, a loss is recorded for the difference at the time the collateral is sold. In the case of its foreign operations, if within six months of the sale of the merchandise, the customer makes a claim to receive the excess proceeds, the Company refunds that amount to the customer and reduces revenue by the same amount.

The recovery of the amount advanced and the realization of a profit on the disposition of merchandise depends on the Company's initial assessment of the property's estimated disposition value when the pawn loan is made. While the Company has historically realized profits when disposing of merchandise, the improper assessment of the disposition value could result in the disposition of the merchandise for an amount less than the loan amount. The Company's retail services locations also sell used goods purchased from the general public and some new merchandise purchased from third parties, principally accessory merchandise that complements and enhances the marketability of items such as tools, consumer electronics and jewelry. Merchandise sales are typically highest during the first quarter tax refund and fourth quarter holiday seasons. Gross proceeds from merchandise disposition activities contributed approximately 39.1% of the Company's total revenue in 2012, 43.5% in 2011 and 44.0% in 2010.

The Company offers customers a 30-day satisfaction guarantee, whereby the customer can return merchandise and receive a full refund, a replacement item of comparable value or store credit. The Company provides an allowance for returns and valuation based on management's evaluation of the characteristics of the merchandise. Customers may purchase merchandise on a layaway plan under which the customer agrees to pay the purchase price for the item plus a layaway fee, makes an initial cash deposit representing a small portion of the disposition price and pays the balance in regularly scheduled, non-interest bearing payments. The Company segregates the layaway item and holds it until the customer has paid the full disposition price. If the customer fails to make a required payment, the item is returned to merchandise held for disposition. The layaway fee is recognized as revenue, and any amounts previously paid toward the item are returned to the customer as store credit.

Table of Contents

Consumer Loan Activities

In addition to pawn loans, the Company's retail services segment also offers consumer loans in many of its retail services locations in the United States, including short-term loans, unsecured installment loans and secured auto equity loans. The Company's e-commerce segment offers consumer loans over the Internet. The Company began offering short-term loans over the Internet in the United States under the name

CashNetUSA when that company was acquired in 2006. Since then, the Company expanded its online product offerings into the United Kingdom, Australia and Canada. The Company's e-commerce segment began offering longer-term unsecured installment loans over the internet to customers in the United States and United Kingdom in 2008 and 2010, respectively, and a secured auto equity product in the United States in 2012. The Company also began offering line of credit products over the internet in the United States in 2010. Additionally, the Company began offering a line of credit product in Mexico, which is similar to the MLOC product for which the Company previously provided services, in 2012.

The Company also provided MLOC services in the United States from 2008 through 2010, whereby advances were processed on behalf of, and participation interests in MLOC receivables were purchased from, a third-party lender. The Company's MLOC services generated earnings through loan processing services as well as from fees generated from the participation interests it acquired in MLOC advances made to the third-party lender's customers. The Company stopped providing MLOC services on behalf of the third-party lender in October 2010 when the third-party lender discontinued offering MLOC advances.

Consumer loans offered by the Company are unsecured loans, with the exception of auto equity loans, which are secured by the customer's vehicle. Consumer loan fees include revenue from the loan portfolio owned by the Company and fees paid to the Company for arranging, guaranteeing and processing loans from independent third-party lenders for customers through the CSO programs. Due to the credit risk and high transaction costs of serving the Company's customer segment, the fees the Company charges are generally considered to be higher than the fees charged to customers with top-tier credit histories by commercial banks and similar lenders who are typically unwilling to make unsecured loans to alternative credit customers. Consumer loan fees earned by the Company contributed approximately 43.4% of the Company's total revenue in 2012, 37.8% in 2011 and 36.7% in 2010.

The Company offers short-term loans in the United States, the United Kingdom, Australia and Canada. Short-term loans generally have a loan term of seven to 45 days and are usually payable on the customer's next payday, unless the loan is renewed or extended in accordance with applicable laws. The fees the Company charges on short-term loans in the United States vary by jurisdiction but typically range between \$10 to \$25 per \$100 borrowed, and the fees the Company charges on short-term loans in the foreign markets in which the Company operates also vary but typically range between 20 and 29.50 per 100 borrowed in their respective currencies.

The Company offers line of credit accounts in several U.S. states, which allow customers to draw on the line of credit in increments of their choosing, up to their credit limit. Customers may pay off their account balance in full at any time or make required minimum payments in accordance with the terms of the line of credit agreement. As long as the customer's account is in good standing, customers may continue to borrow on their line of credit. The Company also offers a line of credit product in Mexico, which is similar to the MLOC product for which the Company previously provided services. In connection with this line of credit product, a customer is approved for a certain credit limit and may draw on their line of credit in increments of their choosing up to their credit limit. The full amount of the draw is due on the due date.

The Company's multi-payment installment loan products include unsecured installment loans and secured auto equity loans. Unsecured installment loans, which are offered in some states in the United States and in the United Kingdom, typically have terms between four and 12 months, but may have available terms up to 36 months. Secured auto equity loans, which are offered in some states in the United States, generally have contract terms between 12 and 42 months. Both unsecured and secured installment loans require the repayment of principal in installments over the term of the loan.

The Company monitors the performance of its portfolio of consumer loans and maintains either an allowance or liability for estimated losses on consumer loans (including fees and interest) at a level estimated to be adequate to absorb credit losses inherent in the portfolio. The allowance for losses on the Company's owned consumer loans reduces the

Table of Contents

outstanding loan balance in the consolidated balance sheets. In addition, the Company maintains a liability for estimated losses related to loans guaranteed under the CSO programs, which approximates the fair value of the liability, and is included in the consolidated balance sheets.

In 2012, revenue from the foreign component of the e-commerce segment was 49.5% of total revenue for the e-commerce segment, and 18.2% of total consolidated revenue. The total revenue in the foreign component of the e-commerce segment was primarily derived from operations in the United Kingdom. The percentage of total revenue from foreign operations to total revenue from the e-commerce segment and total consolidated revenue has increased over the last three years as the Company's e-commerce segment's operations in the United Kingdom have grown significantly.

The Company generally experiences seasonal growth in consumer loan fees in conjunction with the growth in loan balances that typically occurs after the heavy repayment period of consumer loans with tax refund proceeds received by customers in the United States in the first quarter each year. Due to the nature of the short-term loan product and the high velocity of loans written and renewed, seasonal trends are evidenced in quarter-to-quarter performance. In the typical business cycle, the combined consumer loan loss provision as a percent of combined consumer loans written and renewed is usually lowest in the first quarter and increases throughout the year, with the final two quarters generally combining for the peak levels of loss provision expense. See Item 7. Management's Discussion and Analysis Combined Consumer Loans Consumer Loan Loss Experience for additional information about the seasonality of consumer loan losses and for information about combined consumer loans.

Collection activities are an important aspect of the consumer loan product offering due to the high incidence of unpaid balances beyond stated terms. The Company operates centralized collection centers to maximize loan repayment, facilitate regulatory compliance and coordinate a consistent approach to customer service and collections.

Check Cashing and Other Financial Services

The Company provides check cashing and other ancillary services through its retail services locations. Other financial services include money orders, wire transfers, prepaid debit cards, tax filing services and auto insurance. Most of these ancillary services offered in the retail services segment are provided through third-party vendors. When the Company provides a check cashing service to its customers, it charges check cashing fees based on the type and face amount of the check being cashed. The Company receives check cashing fees from many of its retail services locations. In addition, the Company franchises its stand-alone check cashing business, Mr. Payroll, and each franchisee pays royalties based on the gross revenues of check cashing services provided within the franchisee's facility.

Financial Information on Segments and Areas

Additional financial information regarding the Company's operating segments and each of the geographic areas in which the Company does business is provided in Item 8. Financial Statements and Supplementary Data Note 21.

Operations

The executive officers of the Company, with the advice and oversight of the Company's Board of Directors, are responsible for establishing and maintaining the strategic direction of the Company, as well as assessing the Company's activities related to corporate goals and objectives. The Company's executive officers include the Chief Executive Officer, the Chief Financial Officer, the General Counsel, the President of the Retail Services Division and the Chief Executive Officer of the E-Commerce Division (or Enova). The President of the E-Commerce Division is also an executive officer, but he has announced that he will step down from this position on March 29, 2013. The Company does not currently expect to replace its E-Commerce Division President. See Recent Developments Business Developments Newly Appointed Chief Executive Officer of the E-Commerce Division for additional information about the recent appointment of the Chief Executive Officer of the E-Commerce Division.

Table of Contents

The Company's domestic and foreign retail services locations have store managers who are responsible for supervising each retail services location's personnel and assuring that each retail services location is managed in accordance with Company guidelines, policies and procedures. A Market Manager or Area Coordinator, who reports to a Regional Operations Director, manages each store manager. Each domestic Regional Operations Director is responsible for a portion of each domestic region and reports to a Region Vice President. Four Region Vice Presidents coordinate operations and strategy in the Company's domestic retail services locations and report to the Senior Vice President of Operations of the Retail Services Division, who reports to the President of the Retail Services Division. The foreign Regional Operations Director reports to the Senior Vice President of International Operations who reports to the President of the Retail Services Division and are responsible for the foreign retail services operations.

The operations and strategy of the Company's E-Commerce Division, which offers consumer loan products, is coordinated by the officers of the Company's online lending business, Enova, including Vice Presidents, Senior Vice Presidents, and until March 29, 2013, a President, who report to the Chief Executive Officer of the E-Commerce Division.

Tradenames and Trademarks

The Company operates under the trade names Cash America Pawn, Cash America Payday Advance, Cashland, Mr. Payroll, SuperPawn, Casa de Empeño, CashNetUSA, NetCredit, QuickQuid, DollarsDirect, Pounds to Pocket and Debit Plus. The Company has a number of trademarks that are registered under applicable trademark laws including, but not limited to, Cash America, Cashland, SuperPawn, CashNetUSA, Mr. Payroll, QuickQuid, DollarsDirect, Pounds to Pocket, NetCredit, Enova Financial and Enova's e logo. These trademarks have varying expiration dates. The Company believes these trademarks are of material importance to the Company and each of its segments and anticipates maintaining and renewing them. In addition, the Company has various other trademark applications pending in the United States and other countries in which it operates.

Franchises

Each of the Company's unconsolidated franchised check cashing locations is subject to franchise agreements that have varying durations that are negotiated individually with each franchisee. As of December 31, 2012, the Company had 91 unconsolidated franchised check cashing locations, and the revenue from these franchised locations was immaterial to the Company on a consolidated basis.

Personnel

As of December 31, 2012, the Company employed 7,035 persons in its operations, of whom 717 were in executive and administrative functions. Of the employee count above, the Company employed 6,042 persons in the retail services segment and 993 persons in the e-commerce segment.

Future Expansion

Storefront Expansion

The Company historically has expanded by acquiring existing retail services locations and by establishing new start-up locations. The Company intends to continue expanding its retail services business within its existing geographic markets and into other markets that meet its risk/reward considerations. Management believes that such expansion will continue to provide economies of scale in supervision, purchasing, administration and marketing by decreasing the overall average cost of such functions per unit owned. By concentrating multiple lending units in regional and local markets, the Company seeks to expand market penetration, enhance name recognition and leverage marketing programs.

Table of Contents

Over the last three years, the Company has expanded its domestic pawn lending presence in the United States. While the Company's strategy is to expand its domestic and foreign pawn lending operations, the Company periodically assesses whether the closure of certain locations would improve the overall profitability in its retail services segment. During 2011 and 2010, the Company closed certain under-performing locations in the United States and in Mexico to improve profitability of its domestic and foreign retail services segment operations. In connection with the Mexico Reorganization, which was approved during the third quarter of 2012, the Company closed 148 of its foreign retail services locations. See Recent Developments Business Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest for further discussion of the Mexico Reorganization. The table below outlines acquisitions, start-ups and closures for domestic and foreign Company-owned retail services locations, excluding Company-owned check cashing locations, for the years ended December 31, 2012, 2011 and 2010.

	As of December 31,		
	2012	2011	2010
Retail services locations at beginning of period	973	950	913
Acquired	37	8	44
Start-ups	22	20	40
Combined, or closed	(154)	(5)	(47)
Retail services locations at end of period	878	973	950

When considering acquiring an existing lending location, the Company evaluates, among other things, the annual volume of loan transactions at that location, the carrying cost of merchandise, outstanding loan balances and lease terms of the facility or, if it is to be purchased, the facility's fair market value. When considering the start-up of a new retail services location, the Company evaluates the location of the prospective site, whether conditions in the surrounding community indicate a sufficient level of potential customers, and whether a suitable facility is available on acceptable terms.

After the Company has leased or acquired a suitable location and obtained the required licenses in the United States, a new retail services location can be ready for business within four to eight weeks. The approximate start-up costs, which consist of the investment in property (excluding real estate) and equipment, for recently established retail services locations in the United States typically range from \$500,000 to \$650,000. The typical costs associated with start-up retail services locations in Mexico are estimated to be between \$100,000 and \$150,000 per shop, based on exchange rates as of December 31, 2012. The costs in Mexico are less than domestic costs primarily due to the lower cost of labor and materials. These start-up amounts do not include merchandise transferred from other locations, funds to advance on pawn loans and consumer loans or operating expenses.

Organic Growth and Development of New Credit Alternatives

The Company has the ability to leverage its existing retail services platform for pawn loan, consumer loan and check cashing activities to expand its operating margins and add incremental earnings through the addition of new customers. Domestically and internationally, the consumer credit market is evolving, which the Company believes will create new opportunities for the Company to reach customers who have not previously considered using its products and services. The Company plans to utilize marketing and promotional campaigns to pursue new customers and to gain market share by expanding the number of customers being served through its retail services and e-commerce operations.

The Company is actively exploring strategies to increase and enhance its Internet presence. The Company now offers an array of consumer credit products over the Internet under the names CashNetUSA, NetCredit, QuickQuid, Pounds to Pocket and DollarsDirect. Over the past few years, the Company has begun offering new credit alternatives, such as line of credit products and installment loan products, including unsecured installment loans and auto equity loans. The Company intends to continue pursuing the development of new products in the current markets that it serves that complement its Internet specialty financial services in order to meet the growing financial

Table of Contents

services needs of consumers, both in the United States and internationally. The Company continues to evaluate new markets in which to establish its Internet presence. Other countries are being evaluated for expansion of the Company's consumer loan products and any additional expansion will be pursued when the country-specific characteristics and requirements meet the Company's investment criteria.

The Company developed and utilizes proprietary and custom-designed technology platforms that are built for scalability and flexibility. The technology platforms are designed to be powerful enough to handle the large volumes of data required to evaluate customer applications and flexible enough to capitalize on changing customer preferences, market trends and regulatory changes. Further, the information gathered from these technology platforms allows the Company to focus on both existing and potential customers who it believes are more likely to provide the Company with better credit performance. Through this approach, the Company is able to build a valuable list of consumers who both use the credit products offered and to whom the Company can market its product offerings to help fulfill the customer's credit needs. The Company also developed a proprietary point-of-sale system that it began rolling out to its retail services locations in the second half of 2011. The Company will continue to pursue new customer acquisition through channels such as lead generation (sourcing potential customers via third-party lead providers, which use digital, email or other marketing efforts to acquire and provide the Company with loan applicants), traditional advertising and digital advertising.

In some instances in the past, legislative and regulatory activity affecting the Company's consumer loan products has led the Company to also explore new credit product alternatives to help its customers meet their short-term credit needs. While some legislative and regulatory actions in certain states where the Company operates has reduced the revenue per loan to levels that make the product less profitable or unattractive, these regulatory changes do not eliminate the credit needs of the Company's customers. The Company remains committed to finding new and innovative solutions to help its customers avoid higher cost alternatives, such as overdraft protection, returned check fees and late charges on bills, in the absence of alternatives such as the Company's consumer loan products.

Expansion Considerations for Retail Services Locations

The Company's retail services expansion program is subject to numerous unpredictable factors, such as the availability of attractive acquisition candidates or sites on suitable terms, market and regulatory conditions in the pawn or consumer loan business, general economic conditions and other factors. Among the primary factors that could affect the Company's future planned expansion are:

Statutory Requirements. The Company's ability to add start-up locations depends on the Company's ability to obtain all necessary licenses required to open a new location. In addition, the current statutory and regulatory environment of some states renders expansion into those states impractical.

Availability of Real Estate. The Company's ability to add start-up locations is subject to locating satisfactory real estate sites on terms and conditions acceptable to the Company. Factors that could limit the availability of acceptable real estate sites could include changes in general economic conditions, increases in real estate values or market rents, increases in competition for suitable real estate, changing demographics in surrounding areas, restrictive zoning or sign ordinances, limited visibility or accessibility to public streets, excessive finish-out costs and other factors.

Competition. Several competing pawnshop and consumer loan companies are also pursuing expansion and acquisition programs. A number of smaller companies and private equity firms have also entered the market. While the Company believes that it is the largest pawnshop operator and one of the largest consumer loan operators in the United States, there can be no assurance that it will be more successful than its competitors in pursuing acquisition opportunities and securing attractive start-up locations. Increased competition could also increase prices for attractive acquisition candidates and could adversely affect the performance of potential acquisition targets.

Availability of Qualified Store Management Personnel. The Company's ability to expand may also be limited by the availability of qualified store management personnel. While the Company seeks to train its existing personnel to enable those capable to assume management positions, there can be no assurance that sufficient qualified personnel will be available to satisfy the Company's needs with respect to its planned expansion.

Table of Contents

Capital Requirements. In some states, the Company is required by law to maintain a minimum amount of certain unencumbered net assets per licensed location. The Company's expansion plans will therefore be limited in these states to the extent the Company is able to maintain these required levels of unencumbered net assets. At present, these requirements do not limit the Company's growth opportunities.

Competition

Pawn Lending Activities

The Company has many competitors to its pawn lending activities, such as retailers of new merchandise and retailers of pre-owned merchandise, thrift shops, Internet retailers, Internet auction and other similar sites and other pawn shops. The pawnshop industry in the United States remains very fragmented, with approximately 10,000 stores nationwide operating in 2012 that were owned primarily by independent operators and, to a lesser extent, by publicly-traded companies. The Company believes that it is the largest operator of pawnshops in the world. The three largest publicly-traded pawnshop companies, First Cash Financial Services, Inc., EZCORP, Inc., and the Company, operated approximately 1,400 total pawnshops in the United States in 2012. During 2012, the Company was the largest publicly-traded pawnshop operator in the United States based on pawn loan balances and number of pawn lending locations. Management believes that the Company can achieve economies of scale and increased operating efficiencies by increasing the number of stores under operation and utilizing modern point-of-sale systems and proven operating methods. Management believes that the principal competitive factors in the pawnshop industry are location, quality customer service, the ability to loan competitive amounts at competitive rates and adequate low-cost working capital.

The pawnshop industry in Mexico is fragmented and remains substantially less developed than it is in the United States. There has been significant growth in the number of pawnshops servicing Mexico over the last several years to an estimated 5,000 locations operating in 2012. Most of these locations provide loans secured only by gold jewelry and are owned by independent operators and small chains, including some owned by not-for-profit organizations and publicly-traded companies. The Company's primary competitors in Mexico include Monte de Piedad, Luz Saviñón, Rafael Donde, First Cash Financial Services, Inc. and EZCORP, Inc. A large percentage of the population in Mexico is unbanked (or do not have a relationship with a bank) or underbanked (or have limited access to banking or other financial services) and has limited access to consumer credit. The Company believes there is a future opportunity for growth in the number of full-service pawn locations that offer loans secured by general merchandise as well as gold jewelry in Mexico due to the large number of potential customers underserved through traditional credit providers and the limited number of large pawnshop operators in the country.

Consumer Loan Activities

The Company offers consumer loans through many of its retail services locations and over the Internet. According to the Community Financial Services Association, industry analysts estimate that there were approximately 21,000 consumer loan storefront locations across the United States during 2012. While the consumer loan industry grew significantly during the 1990's into the early 2000's with the addition of new storefront locations, the storefront growth has begun to contract in the past several years. This is due in part to changes in laws and regulations governing consumer loans in various states. As a result, management believes that opportunities in the United States for growth are limited at the storefront level and has elected to concentrate its efforts on the online lending channel for growth in its consumer loan business both in the United States and in foreign countries.

Numerous competitors offer consumer loan products and services, and many significant competitors are privately held, making it difficult for the Company to determine its competitive position in the market. However, the Company believes its principal online competitors in the United States include Miami Nation Enterprises, Integrity Advance, Think Finance and certain offshore lenders, many of whom offer consumer loans under multiple brand names

Table of Contents

and domains. Storefront consumer loan lenders that offer loans online or in storefronts are also a source of competition in most of the markets where the Company offers consumer loans online or in storefronts, including Advance America, Ace Cash Express, Check n Go, Dollar Financial and Check Into Cash. In the United Kingdom, the Company believes that its principal online competitors include PaydayUK, Wonga and Lending Stream. In Australia, the Company believes its main online competitors are Cash Doctors, PaydayMate and First Stop Money. In Canada, the industry has been dominated by storefront lenders, and as a result, the Company's principal competitors are not online lenders but storefront lenders, such as Money Mart and The Cash Store.

Management believes that competition for the online lending channel continues to be fragmented and is primarily from competitors who may be operating either off-shore or by partnering with Native American tribes and utilizing their status as a sovereign nation and do not operate under the same complex regulatory environment as the Company. Management believes that the principal competitive factors in the consumer loan industry consist of the ability to provide sufficient loan size to consumers to meet their loan requests, speed of funding, customer privacy, ease of access, transparency of fees and interest, and customer service.

Impediments exist that prevent new entrants from easily entering the online lending market. New entrants must successfully implement underwriting and fraud prevention processes, incur high marketing and customer acquisition costs, overcome consumer brand loyalty and have sufficient capital to withstand early losses associated with unseasoned loan portfolios. In addition, there are substantial regulatory and compliance costs, including the need for expertise to customize products associated with licenses to lend in various states in the United States and in many international jurisdictions.

In addition to consumer loan lenders, the Company also competes with financial institutions, such as banks, credit unions, other consumer lenders and retail businesses offering similar financial services. Other lenders may and do lend money on terms more favorable than those offered by the Company. The Company believes that there is also indirect competition to some of its products and services, including bank overdraft facilities and banks' and retailers' insufficient funds policies, many of which may be more expensive alternative approaches for consumers to cover their bills and expenses than the consumer loan products and services offered by the Company.

Regulation

The Company's operations are subject to extensive regulation, supervision and licensing under various federal, state and local statutes, ordinances and regulations. (For a geographic breakdown of operating locations, see Item 2. Properties.)

Pawnshop Regulations

U.S. Regulation

The Company's pawn lending locations are regulated by the states and local jurisdictions in which they are located and generally must be licensed by the state. The statutes and regulations applicable to pawn lending locations vary from state to state and in each local jurisdiction. In general, these statutes and regulations establish licensing requirements for pawnbrokers and pawn lending locations and regulate various aspects of the pawn loan, such as the service charges and interest rates that a pawn lending location may charge, the maximum amount of a pawn loan, the minimum and/or maximum term of a pawn loan, the content and format of the pawn ticket, and the length of time after a loan default that a pawn lending location must hold defaulted pawned collateral or purchased items before disposing of the merchandise. Failure to observe a state's legal requirements for pawnbroking could result in, among other things, a loss of pawn licenses in that state, the imposition of fines or refunds, and other civil and/or criminal penalties. Additional federal regulations governing pawn operations are described in Other Regulations Affecting Lending Operations below.

Table of Contents

Many of the Company's pawn lending locations are also subject to ordinances in their local jurisdictions that may require, for example, local licenses or permits and specified recordkeeping procedures, among other things. Most of the Company's pawn lending locations voluntarily, or pursuant to applicable laws, work with local law enforcement agencies and other pawn lenders to determine conflicting claims of rightful ownership. Goods held to secure pawn loans or goods purchased that are determined to belong to an owner other than the borrower or seller are subject to recovery by the rightful owner. The Company historically has not experienced a material number of claims of this nature, and the claims experienced have not had a material adverse effect on the Company's results of operations.

Each pawn lending location that handles firearms must comply with the Brady Handgun Violence Prevention Act (the Brady Act). The Brady Act requires that federally licensed firearms dealers conduct a background check in connection with any disposition of handguns. In addition, the Company must comply with the regulations of the U.S. Department of Justice Bureau of Alcohol, Tobacco and Firearms that require each pawn lending location dealing in guns to maintain a permanent written record of all receipts and dispositions of firearms.

Mexico Regulation

The Cash America casa de empeño storefront locations are regulated by a federal consumer protection agency, Procuraduría Federal del Consumidor (PROFECO). PROFECO regulates the form and terms of pawn loan contracts and many operating standards and procedures for pawnshops, including retail operations. Certain amendments to Mexican federal consumer protection laws will take effect in July 2013. PROFECO will be charged with enforcing compliance with the amendments. The amendments will, among other things, require all pawnshops to register themselves and their contracts with PROFECO and report certain customer activities that PROFECO determines may be associated with stolen goods. Neither PROFECO nor federal statute imposes interest rate caps on pawn loans. The pawn industry in Mexico is also subject to various regulations in the areas of tax compliance, customs, consumer protection and employment matters, among others, by various federal, state and local governmental agencies. Additionally, certain Mexican states have pawn statutes that require pawnshops to be licensed and regulate certain aspects of a pawn operation such as rate, pawn tickets and other terms of the pawn transaction. Generally, however, federal regulations are intended to control over the state statutes with respect to the pawn operations in Mexico.

Consumer Loan Regulations

U.S. Regulation

Each state in the United States in which the Company originates consumer loan products has specific laws dealing with the conduct of this business. The same regulations generally apply to consumer loans made both in storefront locations and online. These laws and regulations typically restrict the amount of finance and service charges that may be assessed, including setting the maximum fees or interest rates that the Company can charge, and limit the customer's ability to renew or extend these consumer loans. In many instances, the regulations also limit the aggregate principal amount that a provider may advance (and, in some cases, the number of consumer loans the provider may make) to any one customer at one time. Some state statutes also specify minimum and maximum maturity dates for consumer loans and, in some cases, specify mandatory cooling-off periods between transactions. Consumer loan lenders typically must be licensed by the state licensing authority in order to offer the consumer loan product in that state and must file periodic written reports regarding business operations and undergo comprehensive examinations or audits from time to time to assess its compliance with applicable laws and regulations. Some states require consumer loan lenders to report their customers' consumer loan activities to a state-wide database, and such lenders are generally restricted from making consumer loans to customers who may have a certain amount of consumer loans outstanding with other lenders. Failure to observe a state's legal requirements for consumer loan lending could result in, among other things, a loss of consumer loan licenses in that state, the imposition of fines or customer refunds, and other civil and/or criminal penalties. As applicable or required, the Company maintains active licenses in each of the states or jurisdictions in which it operates.

Table of Contents

In states or jurisdictions (including certain municipalities in Texas), where the Company offers its CSO programs, it complies with that jurisdiction's Credit Services Organization Act or a similar statute or ordinance that generally defines the services that the Company can provide to consumers and requires the Company to provide a contract to the customer outlining its services and the cost of those services to the customer. In addition, these laws may require additional disclosures to consumers and may require the Company to be registered or licensed with the jurisdiction and/or be bonded.

The consumer loan business is also subject to various laws, rules and guidelines relating to the procedures and disclosures needed for debiting a debtor's checking account for amounts due via an ACH transaction, including the Electronic Funds Transfer Act. Additionally, the Company uses the Federal Fair Debt Collection Practices Act (FDCPA) as a guide to operating its collection activities and complies with applicable state collection practices laws. Furthermore, with respect to online consumer loans, the Company is subject to various state and federal e-signature rules mandating that certain disclosures be made and certain steps be followed in order to obtain and authenticate e-signatures. In addition, some states restrict the advertising content of marketing materials with respect to consumer loans.

Additional federal regulations governing consumer lending businesses are described in Other Regulations Affecting Lending Operations below.

Consumer loans have come under increased regulatory scrutiny in recent years that has resulted in increasingly restrictive regulations and legislation that has been introduced or adopted in a number of states, which has eliminated the offering of consumer loans in certain states or has made offering such loans less profitable or unattractive to the Company.

Foreign Regulation

In the United Kingdom, the Company's consumer lending activities must comply with the European Union Consumer Credit Directive, the CCA and with related rules and regulations, which, among other things, require the Company to obtain governmental licenses and prescribe the presentation, form and content of loan agreements, including statutory warnings and the layout of financial information. The Company must also follow the Irresponsible Lending Guidance of the OFT, which provides greater clarity for lenders as to business practices that the OFT believes constitute irresponsible lending under the CCA. In April 2014, the FCA will take over responsibility for regulating consumer credit from the OFT and may change the way consumer loans are regulated in the United Kingdom. The Company is also subject to the requirements of the Data Protection Act 1988 (the DPA) and is required to be fully registered as a data-controller under the DPA. The Company is also required to be certified under the European Union Safe Harbor provisions, which allows European Union data to be passed to non-European Union countries.

In Australia, the Company acts as a finance broker, offering the lending products of unaffiliated third-party lenders, which is similar to the Company's CSO programs in the United States. In Australia, the Company follows the responsible lending guidelines under the National Consumer Credit Protection Act (2010) (the NCCPA). In Canada, all regulation of the consumer lending industry is conducted at the provincial level. In general, the regulations require lenders to be licensed, set maximum fees and regulate collection practices.

For recent developments related to and a further discussion of the OFT, including the transition to regulation by the FCA, and the NCCPA, see Recent Developments Recent Regulatory and Other Developments UK Office of Fair Trading and Item 1A. Risk Factors Risks Related to the Company's Business and Industry Significant changes in, or a deterioration of, the political, regulatory or economic environment of Mexico, Australia, Canada or the United Kingdom could affect the Company's operations in these countries.

Table of Contents

Industry Best Practices

The Company is a member of the Community Financial Services Association of America (the "CFSA") in the U.S., the Online Lenders Alliance ("OLA") in the U.S. and the Consumer Finance Association (the "CFA") in the U.K. These associations have developed guidelines or best practices for responsible lending for their members to follow that often have more extensive requirements than federal, state and local regulatory requirements with which the Company is required to comply. The Company endeavors to adhere to the guidelines or best practices of these associations, which are summarized below.

The CFSA is a national association of lenders that encourages responsible industry practices and promotes consumer loan legislation and regulation to provide consumer loan customers with substantive consumer protections while preserving their access to short-term credit options. The CFSA requires its members to follow the CFSA's guidelines for responsible lending, to promote responsible lending practices in the consumer loan industry, and to ensure that customers have complete information about their loan and are treated fairly and in compliance with the laws applicable to their loan. Among other things, the guidelines developed by the CFSA include:

- Fully and clearly disclosing the terms of each loan, including prominent disclosure of the service fee amount as both a dollar amount and as an annual percentage rate, as required by the Federal Truth in Lending Act and applicable state laws;
- Providing customers who are unable to repay a loan according to its original terms an opportunity, at least once in a 12-month period, to repay the loan in four equal installments over an extended period at no extra cost;
- Limiting loan rollovers (or extensions of outstanding consumer loans) to four, or less if required by applicable state law;
- Complying with applicable laws, including limiting rates or fees charged to those permitted by applicable state or federal law;
- Providing customers a one-day right to rescind any consumer loan transaction without incurring any additional charges;
- Encouraging consumer responsibility by promoting responsible use of consumer loans;
- Collecting past due amounts in a professional, fair and lawful manner, and utilizing the FDCPA as guidance for collection activities;
- Prohibiting the taking or threatening of criminal action against a customer as a result of the customer's check being returned unpaid or the customer's account not being paid;
- Participating in self-policing the industry and reporting violations of CFSA's Best Practices to the CFSA, including agreeing to maintain and post a toll-free consumer hotline number; and
- Requiring that lenders providing payday advances through the Internet must be licensed in each state where their payday advance customers reside and must comply with the disclosure, rollover, rate, and other requirements imposed by each such state, unless such state does not require the lender to be licensed or to comply with such provisions.

The OLA is a professional organization representing the growing industry of companies offering online consumer loans in the United States. All member companies have agreed to OLA Best Practices and a Code of Conduct developed by OLA to ensure that consumer loan customers are fully informed, fairly treated and are using all lending products and practices responsibly. The OLA also has been tasked with clearing up misconceptions and myths surrounding the online lending industry and educating the public, legislators and regulators about the demand for and importance of consumer loan products on the Internet. The OLA Best Practices are summarized as follows:

- Disclose all loan terms in a transparent and easy to understand way to help consumers make educated decisions;
- Provide consumers a chance to change their mind by maintaining a reasonable cancellation policy;
- Comply with all applicable laws and regulations and be in good standing with applicable governing officials and regulatory bodies;

Table of Contents

Protect consumers' personal data with comprehensive website security and a privacy policy;
Help consumers help themselves by providing referrals to credit counseling, education and assistance where appropriate;
Follow all Truth-in-Lending practices;
Use advertising and marketing practices that promote the responsible use of short-term credit services;
Prohibit any false, misleading or deceptive acts or practices;
Provide comprehensive website security and fraud prevention practices that include timely and accurate reports on loan activity, consumer notification of account use, and validation of routing numbers;
Treat consumers with respect and use fair, professional and non-abusive collection practices; and
Prohibit the use of unlawful threats, intimidation, or harassment to collect accounts.

The CFA is a national association of lenders in the United Kingdom that encourages responsible industry practices and promotes consumer loan legislation and regulation to provide consumer loan customers with substantive consumer protections while preserving their access to short-term credit options. The CFA requires its members to follow the CFA Lending Code for Small Cash Advances and the industry Good Practice Customer Charter. These guidelines help to ensure responsible lending practices in the consumer loan industry and to ensure that customers have complete information about their loan and are treated fairly and in compliance with the laws applicable to their loan. Among other things, the guidelines developed by the CFA include:

Acting fairly, reasonably and responsibly in all dealings with consumers;
Not putting pressure on consumers to enter into any loan agreement or to extend (or roll over) the term of their existing loan agreement;
Telling consumers that a payday or short-term loan should be used for short-term financial needs and is not appropriate for long-term borrowing or if they are in financial difficulty;
Telling consumers how the loan works and the total cost of the loan (including providing an example of the price for each £100 borrowed, together with the fees and charges);
Checking whether the loan is suitable for the consumer by taking into account their specific circumstances;
Carrying out a sound, proper and appropriate affordability assessment and reviewing the creditworthiness of the consumer for each loan application and before a loan is extended (or rolled over) to check if the consumer can afford the loan;
Explaining how payments will be deducted from a consumer's bank account and how a consumer can contact a lender by phone, email or online;
Setting out clearly how continuous payment authority works (if used by a lender to electronically debit a consumer's bank account) and a consumer's rights to cancel this authority, so the consumer can decide if this type of repayment is acceptable to them;
Limiting extensions of short-term loans to three occasions;
Dealing with cases of financial difficulty sympathetically and positively and doing what is needed to help a consumer manage what they owe;
Telling a consumer about free and independent debt-counseling organizations who can help them; and
Telling a consumer about a lender's complaints-handling procedure when they take out a loan or when requested.

Table of Contents

Check Cashing Regulations

The Company offers check cashing services at many of its pawn lending locations and consumer loan storefront locations. Some states require check cashing companies to meet minimum bonding or capital requirements and to comply with record-keeping requirements. Some states require check cashers to be licensed and have adopted ceilings on check cashing fees. Failure to observe a state's legal requirements for check cashing could result, among other things, in a loss of the check cashing license in that state, the imposition of fines or customer refunds, and other civil and/or criminal penalties. In addition to state regulations applicable to check cashing companies, the Company's check cashing activities also must comply with applicable federal regulations. The principal federal regulations governing check cashing operations are described in *Other Regulations Affecting Lending Operations* below.

Other Regulations Affecting Lending Operations

Under the Federal Gramm-Leach-Bliley Act and its underlying regulations as well as under various state laws and regulations relating to privacy and data security, the Company must disclose to its customers its privacy policy and practices, including those relating to the sharing of customers' nonpublic personal information with third parties. This disclosure must be made to customers when the customer relationship is established and, in some cases, at least annually thereafter. These regulations also require the Company to ensure that its systems are designed to protect the confidentiality of customers' nonpublic personal information and many of these regulations dictate certain actions the Company must take to notify consumers if their personal information is disclosed in an unauthorized manner.

The Company is also subject to the Federal Truth-in-Lending Act (and its underlying regulations, known as Regulation Z) and the Fair Credit Reporting Act. These laws require the Company to provide certain disclosures to prospective borrowers and protect against unfair credit practices. The principal disclosures required under the Truth-in-Lending Act are intended to promote the informed use of consumer credit. Under the Truth-in-Lending Act, the Company, when acting as a lender, is required to disclose certain material terms related to a credit transaction, including, but not limited to, the annual percentage rate, finance charge, amount financed, total of payments, the number and amount of payments and payment due dates to repay the indebtedness. The Fair Credit Reporting Act regulates the collection, dissemination and use of consumer information, including consumer credit information. The Fair Credit Reporting Act requires the Company to promptly update any credit information reported to a credit reporting agency about a consumer and to allow a process by which consumers may inquire about credit information furnished by the Company to a consumer reporting agency. In addition, the Fair Credit Reporting Act requires that the Company must provide a loan applicant a Notice of Adverse Action when the Company denies an application for credit, which, among other things, informs the applicant of the action taken regarding the credit application and of their right to learn the specific reasons for the denial of credit. In addition, the Federal Equal Credit Opportunity Act prohibits discrimination against any credit applicant on the basis of any protected category, such as race, color, religion, national origin, sex, marital status, or age, and requires the Company to notify credit applicants of any action taken on the individual's credit application.

The Company is also subject to the USA PATRIOT Act under which the Company must maintain an anti-money laundering compliance program covering certain of its business activities. The program must include: (1) the development of internal policies, procedures, and controls; (2) designation of a compliance officer; (3) an ongoing employee training program; and (4) an independent audit function to test the program. In addition, the U.S. Treasury Department's Office of Foreign Assets Control requires that assets and transactions involving target countries and their nationals be frozen.

Under the Bank Secrecy Act and regulations of the U.S. Department of the Treasury, the Company must report transactions occurring in a single day involving currency in an amount greater than \$10,000 and also must retain records for five years for purchases of monetary instruments for cash in amounts from \$3,000 to \$10,000. In addition, multiple currency transactions must be treated as single transactions if the financial institution has knowledge that the transactions are by, or on behalf of, any person or entity and result in either cash in or cash out totaling more than

Table of Contents

\$10,000 during any one day. In addition, federal regulations require the Company to report suspicious transactions involving at least \$2,000 in a single day to the Financial Crimes Enforcement Network of the Treasury Department (FinCEN). The regulations generally describe three classes of reportable suspicious transactions one or more related transactions that the business knows, suspects, or has reason to suspect (1) involve funds derived from illegal activity or are intended to hide or disguise such funds, (2) are designed to evade the requirements of the Bank Secrecy Act, or (3) appear to serve no legitimate business or lawful purpose. Certain subsidiaries of the Company are registered as money services businesses with the U.S. Treasury Department and must re-register with FinCEN at least every two years. The Company must also maintain a list of names and addresses of, and other information about, the Company s stores and must make that list available to any requesting law enforcement agency. The store list must be updated at least annually.

Since October 2007, federal law caps the annual percentage rate that may be imposed on certain loans made to active duty military personnel or to active members of the National Guard or on active Reserve Duty, as well as their immediate dependents at 36%. This 36% annual percentage rate cap, which effectively prohibits the Company from offering certain of its consumer loan products to active members of the military or their dependents, applies to a variety of loan products, including certain consumer loans, though it does not apply to pawn loans.

The Federal Fair and Accurate Credit Transaction Act requires the Company to adopt written guidance and procedures for detecting, preventing, and responding appropriately to mitigate, identity theft and to adopt various coworker policies, procedures, and provide coworker training and materials, that address the importance of protecting non-public personal information and aid the Company in detecting and responding to suspicious activity, including suspicious activity that may suggest a possible identity theft red flag, as appropriate.

In addition, the Company is also subject to regulation by the Federal Trade Commission (FTC) in the United States. The FTC s Bureau of Consumer Protection s mandate is to work to protect consumers against unfair, deceptive, or fraudulent practices in the marketplace. In furtherance of consumer protection, the FTC provides guidance and enforces federal laws concerning truthful advertising and marketing practices; fair financial practices in lending, loan servicing and debt collection; and protection of sensitive consumer information.

The Dodd-Frank Act created the CFPB, which has begun exercising supervisory review over certain non-bank providers of consumer financial products and services, including providers of consumer loans such as the Company. For more information about the CFPB, see Recent Developments Recent Regulatory and Other Developments Consumer Financial Protection Bureau and Item 1A. Risk Factors Risks Related to the Company s Business and Industry *The Consumer Financial Protection Bureau could have a significant impact on the Company s U.S. consumer loan business.*

The failure to comply with any of the laws, rules or related regulations described in Other Regulations Affecting Lending Operations could result in, among other things, the issuance of cease and desist orders (which can include orders for restitution or rescission of contracts, as well as other kinds of affirmative relief), the imposition of fines or refunds, and other civil and/or criminal penalties, some of which could be significant in the case of knowing or reckless violations.

The Company s franchising activities are subject to various federal and state regulations that, among other things, mandate disclosures to prospective franchisees and other requirements.

The Company could be subject to changes in domestic and foreign laws and regulations as discussed under Item 1A. Risk Factors Risks Related to the Company s Business and Industry *Adverse changes in laws or regulations affecting the Company s products and services could negatively impact the Company s operations and Significant changes in, or a deterioration of, the political, regulatory or economic environment of Mexico, Australia, Canada or the United Kingdom could affect the Company s operations in these countries.*

Casualty insurance, including burglary coverage, is maintained for each of the Company s locations, and fidelity coverage is maintained on each of the Company s employees.

Table of Contents**Company and Website Information**

The Company's principal executive offices are located at 1600 West 7th Street, Fort Worth, Texas 76102-2599, and its telephone number is (817) 335-1100.

The Company's website is located at www.cashamerica.com. Through its website, the Company provides free access to its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to those reports filed or furnished pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practicable after such reports are electronically filed with or furnished to the SEC. The SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at www.sec.gov.

Executive Officers of the Registrant

The Company elects its executive officers annually. The Company's executive officers, and information about each, are listed below. There is no family relationship between any of the executive officers.

Name	Age	Position
Daniel R. Feehan	62	Chief Executive Officer and President
Thomas A. Bessant, Jr.	54	Executive Vice President Chief Financial Officer
David A. Fisher	43	Chief Executive Officer E-Commerce Division
Timothy S. Ho ^(a)	32	President E-Commerce Division
Dennis J. Weese	49	President Retail Services Division
J. Curtis Linscott	47	Executive Vice President General Counsel and Secretary

^(a) Mr. Ho will step down as President of the E-Commerce Division on March 29, 2013.

Daniel R. Feehan has been Chief Executive Officer and President since February 2000. He served as the Company's President and Chief Operating Officer from January 1990 until February 2000, except that he served as Chairman and Co-Chief Executive Officer of one of the Company's subsidiaries from February 1998 to February 1999 before returning to the position of President and Chief Operating Officer of the Company. Mr. Feehan received a Bachelor of Business Administration degree in Accounting from Texas A&M University.

Thomas A. Bessant, Jr. has been the Company's Executive Vice President Chief Financial Officer since July 1998. He joined the Company in May 1993 as Vice President Finance and Treasurer and was elected Senior Vice President Chief Financial Officer in July 1997. Prior to joining the Company, Mr. Bessant was a Senior Manager in the Corporate Finance Consulting Services Group of Arthur Andersen & Co., S.C. from June 1989 to April 1993. Prior to that, Mr. Bessant was a Vice President in the Corporate Banking Division of a major money center bank where he started his professional career in 1981. Mr. Bessant holds a Bachelor of Business Administration degree in Accounting and Finance from Texas Tech University and a Masters of Business Administration degree in Finance from Vanderbilt University.

David A. Fisher was appointed Chief Executive Officer of the E-Commerce Division of the Company on January 29, 2013. Prior to joining the Company, Mr. Fisher was Chief Executive Officer of optionsXpress Holdings, Inc. (optionsXpress) from October 2007 until The Charles Schwab Corporation acquired the business in September 2011. Following the acquisition, Mr. Fisher served as President of optionsXpress until March 2012. Mr. Fisher also served as the President of optionsXpress from March 2007 to October 2007 and as the Chief Financial Officer of optionsXpress from August 2004 to March 2007. Prior to joining optionsXpress, Mr. Fisher served as Chief Financial Officer of Potbelly Sandwich Works from February 2001 to July 2004, and before that in the roles of Chief Financial Officer and General Counsel for Prism Financial Corporation. In addition, Mr. Fisher has served on the Board of

Table of Contents

Directors of InnerWorkings, Inc., since November 2011 and has served on the Board of Directors of GrubHub, Inc., a venture-backed company, since May 2012. Mr. Fisher also served on the Board of Directors of optionsXpress from October 2007 until September 2011 and CBOE Holdings, Inc. from January 2007 until October 2011. Mr. Fisher received a Bachelor of Science degree in Finance from the University of Illinois and a law degree from Northwestern University School of Law.

Timothy S. Ho has been President E-Commerce Division since October 1, 2008 and has been the President and Chief Executive Officer of Enova since its formation in September 2011. Mr. Ho joined Enova International, Inc. (formerly known as CashNetUSA) in January 2006 as Director of Process Development, and he joined the Company in September 2006 as Vice President of Business Development in conjunction with the Company's acquisition of CashNetUSA. Mr. Ho served as Senior Vice President Strategic Development-E-Commerce Division from February 2008 until October 2008 where he oversaw the division's strategy, marketing and analytics. Prior to joining Enova, Mr. Ho worked in program management at GE Healthcare in Milwaukee, Wisconsin. He received a Bachelor of Science degree in Computer Science from the University of Illinois. Mr. Ho will step down as President of the E-Commerce Division on March 29, 2013.

Dennis J. Weese has been the President Retail Services Division since July 2008. He joined the Company as Executive Vice President & Chief Operating Officer Retail Services Division in September 2007. Prior to joining the Company, Mr. Weese was Chief Operating Officer of On The Border Mexican Grill and Cantina, a restaurant company within the Brinker International family of restaurants from July 2004 until September 2007. He also served in a number of Vice President and Director Level positions at Limited Brands Inc. from May 2001 until July 2004 and with YUM! Brands, Inc. from September 1990 to May 2001. He is a graduate of the United States Military Academy at West Point and has earned a Master's degree in Business Administration from Auburn University and a Master's degree in business management from the University of Central Texas.

J. Curtis Linscott has been Executive Vice President General Counsel and Secretary since May 2006. He was appointed Vice President, General Counsel and Corporate Secretary in May 2005. Mr. Linscott joined the Company in 1995, serving as Associate General Counsel and Vice President Associate General Counsel. Before joining the Company, he was in private law practice with Kelly, Hart & Hallman, P.C. for five years. He received his law degree from the University of Kansas School of Law in 1990 and an undergraduate degree in Marketing from Kansas State University.

ITEM 1A. RISK FACTORS

The Company's business and future results may be affected by a number of risks and uncertainties that should be considered carefully in evaluating the Company. There may be additional risks and uncertainties to those listed below that are not presently known to the Company or that management currently deems immaterial that may also impair the Company's business operations. The occurrence of one or more of the events listed below could have a significant adverse affect on the Company's business, prospects, financial condition, results of operations and cash flows.

Table of Contents

Risks Related to the Company's Business and Industry

Adverse changes in laws or regulations affecting the Company's products and services could negatively impact the Company's operations.

The Company's products and services are subject to extensive regulation and supervision under various federal, state, local and foreign laws, ordinances and regulations. In addition, as the Company develops new products and services, it will become subject to additional federal, state, local and foreign laws, ordinances and regulations. Failure to comply with applicable laws and regulations could subject the Company to regulatory enforcement action and/or could result in the assessment against the Company of civil, monetary or other penalties, could require the Company to refund interest or fees or could result in a determination that certain loans are not collectible. The Company faces the risk that restrictions or limitations resulting from the enactment, change, or interpretation of laws and regulations could negatively affect the Company's business activities or effectively eliminate some of the Company's current loan products.

In particular, consumer loans have come under increased regulatory scrutiny in the United States in recent years that has resulted in increasingly restrictive regulations and legislation that makes offering such loans in certain states less profitable or unattractive to the Company. Regulations adopted by some states require that all borrowers of certain short-term loan products be listed on a database and limit the number of loans a borrower may have outstanding. Other regulations adversely impact the availability of some of the Company's consumer loan products to active duty military personnel, active members of the National Guard or members on active reserve duty and their immediate dependents. Legislative or regulatory activities may also limit the amount of interest and fees to levels that do not permit the offering of consumer loans to be feasible or may limit the number of consumer loans that customers may receive or have outstanding.

Certain consumer advocacy groups and federal and state legislators have also asserted that laws and regulations should be tightened so as to severely limit, if not eliminate, the availability of certain consumer loan products to consumers, despite the significant demand for it. In particular, both the executive and legislative branches of the U.S. federal government continue to receive significant pressure from consumer advocates and other industry opposition groups, and those governmental branches have recently exhibited an increased interest in debating legislation that could further regulate consumer loan products. The U.S. Congress has debated, and may in the future adopt, proposed legislation that could, among other things, place a cap on the effective annual percentage rate on consumer loan transactions (which could encompass both the Company's consumer loan and pawn businesses), place a cap on the dollar amount of fees that may be charged for consumer loans, ban or limit loan renewals or extensions (where the customer agrees to pay the current finance charge on a loan for the right to make payment of the outstanding principal balance of such loan at a later date plus an additional finance charge), including the rates to be charged for loan renewals or extensions, require the Company to offer an extended payment plan, allow for only minimal origination fees for advances, require short-term lenders to be bonded or require lenders to report consumer loan activity to databases designed to monitor or restrict consumer borrowing activity.

The Company follows legislative and regulatory developments in each state where it does business. In addition, since 2007, legislative changes that have been enacted in Arizona, Colorado, Delaware, Illinois, Maryland, Minnesota, Montana, New Hampshire, Ohio, Oregon, Washington and Wisconsin impact some of the consumer loan products the Company has historically offered in those states. Due to these legislative changes, the Company has ceased offering consumer loans in the States of Arizona, Montana and New Hampshire and discontinued its Credit Services Organization program in Maryland. In addition, these changes have also altered the parameters upon which the Company offers some of its consumer loans to consumers in the other states mentioned above, which has generally had the effect of reducing the profitability and the volume of the consumer loans the Company offers to customers in these other states. See Item 1. Business Recent Developments Recent Regulatory and Other Developments for additional information regarding recent regulatory developments.

Table of Contents

The Company cannot currently assess the likelihood of any future unfavorable federal or state legislation or regulations being proposed or enacted that could affect the Company's products and services, including consumer loans and pawn loans. The Company is closely monitoring proposed legislation being discussed in states such as Kansas, Kentucky, Mississippi, Missouri, Ohio and Texas, among others. There can be no assurance that additional legislative or regulatory initiatives will not be enacted that could severely restrict, prohibit or eliminate the Company's ability to offer a consumer loan product. Any federal or state legislative or regulatory action that severely restricts, by imposing an annual percentage rate limit on consumer loan transactions or otherwise prohibits, or places restrictions on, consumer loans and similar services, if enacted, could have a material adverse impact on the Company's business, prospects, results of operations and financial condition and could impair the Company's ability to continue current operations.

In addition to state and federal laws and regulations, the Company's business is subject to various local rules and regulations such as local zoning regulation and permit licensing. Local jurisdictions' efforts to restrict pawnshop operations and short-term lending through the use of local zoning and permitting laws have been increasing. Actions taken in the future by local governing bodies to require special use permits for, or impose other restrictions on consumer lending or short-term lenders could have a material adverse effect on the Company's business, prospects, results of operations and financial condition and could impair the Company's ability to continue current operations.

As described further below, the Company is also subject to foreign laws in the countries in which it operates or offers loan products.

The Consumer Financial Protection Bureau could have a significant impact on the Company's U.S. consumer loan business.

In July 2010, the U.S. Congress passed the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act), and Title X of the Dodd-Frank Act created the Consumer Financial Protection Bureau (the CFPB), which regulates consumer financial products and services, including consumer loans offered by the Company. On January 4, 2012, President Obama appointed a Director of the CFPB in a recess appointment by bypassing Senate confirmation. Although there remain doubts about the legality of this appointment and the appointment is subject to legal challenge, the CFPB has begun exercising supervisory review over certain non-bank providers of consumer financial products and services, including providers of consumer loans such as the Company. The Dodd-Frank Act gave the CFPB, among other things, authority to examine and require registration of providers of consumer financial products and services, including providers of consumer loans such as the Company; the authority to adopt rules describing specified acts and practices as being unfair, deceptive or abusive, and hence unlawful; and the authority to impose record-keeping obligations. The Company does not currently know the nature and extent of the rules that the CFPB will consider with respect to consumer loan products and services such as those offered by the Company or the timeframe in which the CFPB may consider such rules.

The CFPB has indicated that it intends to systematically gather data to obtain a complete picture of the consumer loan market and its impact on consumers, and the CFPB has also released its Short-Term, Small-Dollar Lending Examination Procedures, which is the field guide for CFPB examiners to use when examining small-dollar lenders such as the Company. The CFPB's examination authority permits CFPB examiners to inspect the Company's books and records and ask questions about its business, and the examination procedures include specific modules for examining marketing activities, loan application and origination activities, payment processing activities and sustained use by consumers, collections, accounts in default, consumer reporting and third-party relationships, as well as the Company's compliance program. Although the CFPB does not have the authority to regulate interest rates, it is possible that at some time in the future the CFPB could propose and adopt new rules that require certain changes to short-term consumer lending products and services, including certain short-term loans offered by or through the Company, which could make these products and services materially less profitable or even impractical to offer and could force the Company to modify or terminate certain of its product offerings in the United States. The CFPB could also adopt rules imposing new and potentially burdensome requirements and limitations with respect to other consumer loan products and services. Any new rules adopted by the CFPB could also result in significant compliance costs to the Company. Any such rules could have a material adverse effect on the Company's business, results of operations and financial condition or could make the continuance of all or part of the Company's U.S. consumer loan business impractical or unprofitable.

Table of Contents

In furtherance of its regulatory and supervisory powers, the CFPB has the authority to impose monetary penalties for violations of applicable federal consumer financial laws, require remediation of practices and pursue enforcement actions. The CFPB has the authority to obtain cease and desist orders (which can include orders for restitution or rescission of contracts, as well as other kinds of affirmative relief) and monetary penalties ranging from \$5,000 per day for ordinary violations of federal consumer financial laws to \$25,000 per day for reckless violations and \$1 million per day for knowing violations. Also, where a company has violated Title X of the Dodd-Frank Act or CFPB regulations implemented under Title X of the Dodd-Frank Act, the Dodd-Frank Act empowers state attorneys general and state regulators to bring civil actions to remedy violations of state law. If the CFPB or one or more state attorneys general or state regulators or the Federal Trade Commission, acting under the Federal Trade Commission Act, believe that the Company has violated any of the applicable laws or regulations, they could exercise their enforcement powers in ways that could have a material adverse effect on the Company or its business.

Negative public perception of the Company's business, specifically its consumer loan business and its business practices, could cause demand for the Company's products to significantly decrease.

In recent years, consumer advocacy groups and some media reports have advocated governmental action to prohibit or place severe restrictions on short-term consumer loans. Such consumer advocacy groups and media reports generally focus on the Annual Percentage Rate to a consumer for this type of loan, which is compared unfavorably to the interest typically charged by banks to consumers with top-tier credit histories. The fees charged by the Company and others in the industry attract media publicity about the industry and can be perceived as controversial by those who do not focus on the credit risk and high transaction costs of serving the Company's customer segment. If the negative characterization of these types of loans becomes increasingly accepted by consumers, demand for any or all of the consumer loan products offered by the Company could significantly decrease, which could materially affect the Company's results of operations and financial condition. Additionally, if the negative characterization of these types of loans is accepted by legislators and regulators, the Company could become subject to more restrictive laws and regulations applicable to short-term loans or other consumer loan products offered by the Company that could materially adversely affect the Company's financial condition and results of operations and could impair the Company's ability to continue current operations.

In addition, the Company's ability to attract and retain customers is highly dependent upon the external perceptions of its level of service, trustworthiness, business practices, financial condition and other subjective qualities. Negative perceptions or publicity regarding these matters even if related to seemingly isolated incidents could erode trust and confidence and damage the Company's reputation among existing and potential customers, which could make it difficult for the Company to attract new customers and maintain existing ones and could significantly decrease the demand for the Company's products.

Significant changes in, or a deterioration of, the political, regulatory or economic environment of Mexico, Australia, Canada or the United Kingdom could affect the Company's operations in these countries.

Significant changes in, or a deterioration of, the political, regulatory or economic environment of Mexico, Australia, Canada or the United Kingdom could restrict the ability of the Company to sustain or expand its operations in these countries, which could materially adversely affect the Company's business, prospects, results of operations and financial condition and could impair the Company's ability to continue its operations in these countries.

In Mexico, restrictions and regulations affecting pawn services, including licensing restrictions, disclosure requirements and limits on interest rates have been and likely will in the future be proposed from time to time. The Company also maintains business relationships with significant third-party service providers. The failure of key service providers to fulfill their obligations as a result of regulatory, political, economic or other factors could disrupt the Company's operations in Mexico. The Company's business in Mexico is also subject to other potential risks and

Table of Contents

uncertainties that are beyond the Company's control, such as violence, social unrest, enforcement of property rights and public safety and security, which could restrict or eliminate the Company's ability to operate some or all of its locations in Mexico or significantly reduce customer traffic or demand.

In addition, the Company offers consumer loans, either directly or through an independent third-party lender, over the Internet to customers in Australia, Canada and the United Kingdom. The United Kingdom and Australia have recently exhibited an increasing interest in considering legislation that could regulate or restrict the consumer loan products the Company offers.

In Australia the Company acts as a finance broker, offering the lending products of unaffiliated third-party lenders, which is similar to the Company's credit services organization (CSO) programs in the United States. In Australia, the Company follows the responsible lending guidelines under the National Consumer Credit Protection Act (2010) (the NCCPA), which has been recently amended. Part of the amendment will become effective on March 1, 2013, and the remainder will become effective on July 1, 2013. The amendment includes limitations on permissible fees charged on certain consumer loans, including consumer loans arranged by the Company. The Company is still assessing the impact of this amendment on the product offered in Australia, but the Company expects that the product will be modified as a result of this amendment, which could make the product less profitable or could eliminate the Company's ability to offer lending products in Australia. The Company may even need to exit Australia if the product cannot be modified in a way that retains their profitability in that country.

In the United Kingdom, the Company must follow the Irresponsible Lending Guidance of the Office of Fair Trading (the OFT) and the Consumer Credit Act of 1974 that was amended by the Consumer Credit Act of 2006 (collectively, the CCA), among other rules and regulations. In December 2012, the U.K. Parliament passed the Financial Services Act of 2012 (the Act), certain provisions of which take effect on April 1, 2013 and April 1, 2014. The Act makes changes to the CCA and the Financial Services and Markets Act of 2000 (the FSMA) and gives the OFT the power to suspend consumer credit licenses with immediate effect or from a date specified. The Act also creates the Financial Conduct Authority (the FCA), which will take over responsibility for regulating consumer credit from the OFT in April 2014. The FCA may regulate consumer credit pursuant to the guidance of the FSMA, which includes prescriptive regulations that currently govern the secured credit market and could possibly call for the repeal of the CCA or for enabling legislation in the United Kingdom. Prescriptive regulations, as contrasted with principles-based regulations that currently regulate the lending process in the United Kingdom, define what a lender may and may not do with a specific product, similar to U.S. law. However, the U.K. coalition government has reserved the option to retain the principles-based CCA provisions should it conclude that a regulatory model for unsecured consumer credit under the FSMA and FCA cannot be delivered in an effective regulatory manner. During the period of transition of regulatory responsibility over consumer credit from the OFT to the FCA, the OFT will continue to fully and rigorously regulate consumer credit, including the short-term loan market. If prescriptive regulations are adopted, the Company's compliance costs will be significantly increased. Any of these changes could have a material adverse effect on the Company's business, prospects, results of operations and financial conditions and could impair its ability to continue current operations in the United Kingdom.

In addition, in October 2011, the OFT issued debt collection guidance that was revised in November 2012. This debt collection guidance allows consumer lenders such as the Company to debit a customer's account, which includes debits to both bank accounts and debit cards, in a reasonable and non-excessive manner. The Company has not experienced a material adverse impact on its business as a result of this guidance. The OFT may, in the future, issue additional guidance that could require further adjustments to the Company's collections processes and could result in lower collections on loans made by the Company and a decrease in the number of customers that it is able to approve.

In February 2012, the OFT also announced that it had launched a review of the payday lending sector in the United Kingdom to assess the sector's compliance with the CCA, the OFT's Irresponsible Lending Guidelines and other relevant guidance and legal obligations. The OFT has announced that these inspections could be used to assess a licensee's fitness to hold a consumer credit license and could result in formal enforcement action where appropriate. The OFT is expected to announce its findings during the first quarter of 2013. If the Company is required to make changes to its consumer loan operations in the United Kingdom as a result, such action could have a material adverse effect on the Company's foreign business, prospects, results or operations and financial condition and could impair the Company's ability to continue its current operations.

The Company's earnings and financial position are subject to changes in the value of gold. A significant or sudden decline in the price of gold could materially affect the Company's earnings.

A significant portion of the Company's pawn loans are secured by gold jewelry. The Company's pawn service charges, sales proceeds and ability to dispose of excess jewelry inventory at an acceptable margin depend on the value of gold. A significant decline in gold prices could result in decreases in merchandise sales margins, in inventory valuations, in the value of collateral securing outstanding pawn loans, and in the balance of pawn loans secured by gold jewelry. Any such change in the value of gold could materially adversely affect the Company's business, prospects, results of operations and financial condition.

Table of Contents

There can be no assurance that the Company will be able to operate at an acceptable level of profitability in Mexico after its Mexico-based pawn operations are reorganized.

During the third and fourth quarters of 2012, the Company substantially completed the reorganization of its Mexico-based pawn operations that comprise the foreign component of its retail services segment to include only full-service pawn locations that offer pawn loans based on the pledge of general merchandise and jewelry-based collateral (the Mexico Reorganization). The Company recognized \$28.9 million of charges related to the Mexico Reorganization during the year ended December 31, 2012. Following the Mexico Reorganization, the Company expects to continue operating 47 full-service pawn locations in Mexico. There is no assurance that these remaining full-service pawn locations will be able to operate in Mexico at an acceptable level of profitability. If these remaining pawn locations have to be closed in the future, the Company will incur additional charges, which could adversely affect the Company s results of operations in the period when it takes such charge.

Current and future litigation or regulatory proceedings could have a material adverse effect on the Company s business, prospects, results of operations and financial condition.

The Company has been and is currently subject to lawsuits (including purported class actions) that could cause it to incur substantial expenditures and generate adverse publicity. The Company is also likely to be subject to further litigation in the future. The consequences of an adverse ruling in any current or future litigation could cause the Company to have to refund fees and/or interest collected, refund the principal amount of advances, pay treble or other multiple damages, pay monetary penalties and/or modify or terminate the Company s operations in particular states. Defense of any lawsuit, even if successful, could require substantial time and attention of the Company s management and could require the expenditure of significant amounts for legal fees and other related costs. Settlement of lawsuits may also result in significant payments and modifications to the Company s operations. The Company is also subject to regulatory proceedings, and the Company could suffer losses from interpretations of state laws in those regulatory proceedings, even if it is not a party to those proceedings. Any of these events could have a material adverse effect on the Company s business, prospects, results of operations and financial condition and could impair the Company s ability to continue current operations.

Adverse court interpretations of the laws and regulations under which the Company operates could require the Company to alter the products it offers or impair the Company s ability to offer certain products.

On May 28, 2009, a subsidiary of the Company, Ohio Neighborhood Finance, Inc., doing business as Cashland (Cashland), filed a standard collections suit in an Elyria Municipal Court in Ohio against Rodney Scott seeking judgment against Mr. Scott in the amount of \$570.16, which was the amount due under his loan agreement. Cashland s loan was offered under the Ohio Mortgage Loan Act (OMLA), which allows for interest at a rate of 25% per annum plus certain loan fees allowed by the statute. The Municipal Court held that short-term, single-payment consumer loans made by Cashland are not authorized under the OMLA, and instead should have been offered under the Ohio Short-Term Lender Law, which was passed by the Ohio legislature in 2008 for consumer loans with similar terms. Due to a cap on interest and loan fees at an amount that is less than permitted under OMLA, the Company does not offer loans under the Ohio Short-Term Lender Law.

On December 3, 2012, the Ohio Ninth District Court of Appeals affirmed the Municipal Court s ruling in a 2-1 decision. Although this court decision is only legally binding in the Ninth District of Ohio, which includes four counties in northern Ohio where Cashland operates seven stores, other Ohio courts may consider this decision.

The Company filed an appeal of the Ninth District Court s decision with the Ohio Supreme Court on January 17, 2013 because it believes that this decision is contrary to the language of the OMLA, and the Ohio Supreme Court has not yet determined whether it will hear the appeal. If the Ninth District Court s decision is upheld by the Ohio Supreme Court on appeal, the Company s Ohio operations may be adversely affected. The Company relies on the OMLA to make short-term loans in its retail services locations in Ohio, and if the Company is unable to continue making short-term loans under this law, it will have to alter its short-term loan product in Ohio. In addition, the Company has received, and may in the future receive, claims that it improperly made loans under the OMLA, which could result in material losses to the Company or require the Company to make refunds in connection with certain short-term loans made under the OMLA.

Adverse court interpretations of the various laws and regulations under which the Company operates could require the Company to alter the products that it offers or cease doing business in the jurisdiction where the court interpretation is applicable. Any of these events could have a material adverse effect on the Company s business, prospects, results of operations and financial condition.

Table of Contents

The failure of third-parties who provide products, services or support to the Company to maintain their products, services or support could disrupt Company operations or result in a loss of revenue.

The Company's consumer loan revenues depend in part on the willingness and ability of unaffiliated third-party lenders to make loans to customers and other third parties to provide services to facilitate lending and loan underwriting in both the storefront and online lending consumer loan channels. The loss of the relationship with any of these third parties, and an inability to replace them or the failure of these third parties to maintain quality and consistency in their programs or services or to have the ability to provide their products and services, could cause the Company to lose customers and substantially decrease the revenues and earnings of the Company's consumer loan business. The Company offers other services provided by various third-party vendors available to its customers. If a third-party provider fails to provide its products or services, does not maintain its quality and consistency or fails to have the ability to provide its products and services, the Company could lose customers and related revenue from those products or services. The Company also uses third parties to support and maintain certain of its communication systems and computerized point-of-sale and information systems. The failure of such third parties to fulfill their support and maintenance obligations could disrupt the Company's operations. Any of these events could result in a loss of revenue and could have a material adverse effect on the Company's business, prospects, results of operations and financial condition.

A decreased demand for the Company's products and specialty financial services and failure of the Company to adapt to such decrease could result in a loss of revenue and could have a material adverse effect on the Company.

Although the Company's products and services are a staple of its customer base, the demand for a particular product or service may decrease due to a variety of factors, such as regulatory restrictions that reduce customer access to particular products, the availability of competing products or changes in customers' financial conditions. Should the Company fail to adapt to a significant change in its customers' demand for, or access to, its products, the Company's revenues could decrease significantly. Even if the Company does make adaptations or introduce new products to fulfill customer demand, customers may resist or may reject products whose adaptations make them less attractive or less available. In any event, the effect of any product change on the results of the Company's business may not be fully ascertainable until the change has been in effect for some time. In particular, the Company has changed, and will continue to change, some of the consumer loan operations of the Company and the products it offers. Any of these events could result in a loss of revenue and could have a material adverse effect on the Company's business, prospects, results of operations and financial condition.

If the Company's allowance for losses and liability for estimated losses on third-party lender-owned consumer loans are not adequate to absorb losses or if the Company does not successfully manage its credit risk for unsecured consumer loans, the Company's business, results of operations and financial condition may be adversely affected.

As more fully described under Item 8. Financial Statements and Supplementary Data Note 6, the Company utilizes a variety of underwriting criteria, monitors the performance of its consumer loan portfolios and maintains either an allowance or liability for estimated losses on consumer loans (including fees and interest) at a level estimated to be adequate to absorb credit losses inherent in the receivables portfolio and expected losses from loans guaranteed under the CSO programs. The allowance deducted from the carrying value of consumer loans was \$85.7 million at December 31, 2012, and the liability for estimated losses on third-party lender-owned consumer loans was \$3.5 million at December 31, 2012. These reserves are estimates, and if actual loan losses are materially greater than the Company's reserves, the Company's results of operations and financial condition could be adversely affected. In addition, if the Company does not successfully manage credit risk for its unsecured consumer loans through its loan underwriting, it could incur substantial credit losses due to customers being unable to repay their loans. Any failure to manage credit risk could materially adversely affect the Company's business, results of operations and financial condition.

Table of Contents

Increased competition from banks, savings and loans, other consumer lenders, and other entities offering similar financial services, as well as retail businesses that offer products and services offered by the Company, could adversely affect the Company's results of operations.

The Company has many competitors. Its principal competitors are other pawnshops, consumer loan companies, credit service organizations, online lenders, consumer finance companies and other financial institutions that serve the Company's primary customer base. Many other financial institutions or other businesses that do not now offer products or services directed toward the Company's traditional customer base, many of whom may be much larger than the Company, could begin doing so. Significant increases in the number and size of competitors for the Company's business could result in a decrease in the number of consumer loans or pawn loans that the Company writes, resulting in lower levels of revenues and earnings in these categories. Furthermore, the Company has many competitors to its retail operations, such as retailers of new merchandise, retailers of pre-owned merchandise, other pawnshops, thrift shops, internet retailers and internet auction sites. Increased competition or aggressive marketing and pricing practices by these competitors could result in decreased revenues, margins and turnover rates in the Company's retail operations.

The Company's success is dependent, in part, upon its executive officers, and if the Company is not able to attract and retain qualified executive officers, its business could be materially adversely affected.

The Company's success depends, in part, on its executive officers, which is comprised of a relatively small group of individuals. Many members of the senior management team have significant industry experience, and the Company believes that its senior management would be difficult to replace, if necessary. Because the market for qualified individuals is highly competitive, the Company may not be able to attract and retain qualified executive officers or candidates. In addition, increasing regulations on the consumer financial services industry could affect the Company's ability to attract and retain qualified executive officers. If the Company is unable to attract or retain qualified executive officers, it could materially adversely affect the Company's business.

The Company's business depends on the uninterrupted operation of the Company's facilities, systems and business functions, including its information technology and other business systems.

The Company's business, particularly its online lending business, depends highly upon its employees' ability to perform, in an efficient and uninterrupted fashion, necessary business functions, such as internet support, call centers, and processing and making consumer loans. Additionally, the Company's storefront operations depend on the efficiency and reliability of the Company's point-of-sale system. A shut-down of or inability to access the facilities in which the Company's internet operations, storefront point-of-sale system and other technology infrastructure are based, such as a power outage, a failure of one or more of its information technology, telecommunications or other systems, or sustained or repeated disruptions of such systems could significantly impair its ability to perform such functions on a timely basis and could result in a deterioration of the Company's ability to write and process internet consumer loans, perform efficient storefront lending and merchandise disposition activities, provide customer service, perform collections activities, or perform other necessary business functions. Any such interruption could materially adversely affect the Company's business, prospects, results of operations and financial condition.

The Company's expansion strategy is subject to external factors and other circumstances over which the Company has limited control or that are beyond the Company's control. These factors and circumstances could adversely affect the Company's ability to grow through the opening and acquisition of new operating units.

The Company's expansion strategy for its retail services segment includes acquiring existing stores and opening new ones. The success of this strategy is subject to numerous external factors, such as the availability of attractive acquisition candidates, the availability of sites with acceptable restrictions and suitable terms, the Company's ability to attract, train and retain qualified store management personnel, the ability to access capital, the ability to obtain required government permits and licenses, the prevailing laws and regulatory environment of each state or jurisdiction in which the Company operates or seeks to operate, which are subject to change at any time, the degree of competition in new

Table of Contents

markets and its effect on the Company's ability to attract new customers and the ability to adapt the Company's infrastructure and systems to accommodate its growth. Some of these factors are beyond the Company's control. The failure to execute this expansion strategy would adversely affect the Company's ability to expand its business and could materially adversely affect its business, prospects, results of operations and financial condition.

Future acquisitions and/or the failure to successfully integrate newly acquired businesses into the Company's operations could negatively impact the Company's performance.

The Company has historically grown through strategic acquisitions, and a key component of the Company's future strategy is to continue to pursue attractive acquisition opportunities in order to expand its product and service offerings and markets and grow its business in response to changing customer demands, regulatory environments, technologies and competitive pressures. In some circumstances, the Company may expand its offerings through the acquisition of complementary businesses, solutions or technologies rather than through internal development. The identification of suitable acquisition candidates can be difficult, time-consuming and costly, and the Company may not be able to successfully complete identified acquisitions. Furthermore, even if the Company successfully completes an acquisition, it may not be able to successfully assimilate and integrate the business, technologies, solutions, personnel or operations of the business that it acquires, particularly if key personnel of an acquired company decide not to work for the Company. In addition, the Company may issue equity securities to complete an acquisition, which would dilute its shareholders' ownership and could adversely affect the price of the Company's common stock. Acquisitions may also involve the entry into geographic or business markets in which the Company has little or no prior experience or may expose the Company to additional material liabilities. In addition, any acquisition has the risk that the Company may not realize a return on the acquisition or the Company's investment. Consequently, the Company may not achieve anticipated benefits of the acquisitions, which could materially adversely affect the Company's business, prospects, results of operations and financial condition.

The Company's foreign operations subject the Company to foreign exchange risk.

The Company is subject to the risk of unexpected changes in foreign currency exchange rates by virtue of its loans to residents of Australia, Canada and the United Kingdom and its operations in Mexico. The Company's results of operations and certain of its intercompany balances associated with the Company's Australia, Canada, United Kingdom and Mexico loans are denominated in their respective currencies and are, as a result, exposed to foreign exchange rate fluctuations. Upon consolidation, as exchange rates vary, net sales and other operating results may differ materially from expectations, and the Company may record significant gains or losses on the remeasurement of intercompany balances.

A sustained deterioration in the economy could reduce demand for the Company's products and services and result in reduced earnings.

A sustained deterioration in the economy could cause deterioration in the performance of the Company's pawn loan or consumer loan portfolios and in consumer demand for pre-owned merchandise such as the merchandise sold in the Company's pawnshops. An economic slowdown could result in a decreased number of consumer loans being made to customers due to higher unemployment or an increase in loan defaults in the Company's consumer loan products. During an economic slowdown, the Company could be required to tighten its underwriting standards, which would likely reduce consumer loan balances, and could face more difficulty in collecting defaulted consumer loans, which could lead to an increase in loan losses. While the credit risk for much of the Company's pawn lending is mitigated by the collateralized nature of pawn lending, a sustained deterioration in the economy could reduce the demand and resale value of pre-owned merchandise and reduce the amount that the Company could effectively lend on an item of collateral. Such reductions could adversely affect pawn loan balances, pawn loan redemption rates, inventory balances, inventory mixes and gross profit margins.

Table of Contents

Changes in the Company's financial condition or a potential disruption in the capital markets could reduce available capital.

In the past, the Company has accessed the debt capital markets to refinance existing debt obligations and to obtain capital to finance growth. Efficient access to these markets is critical to the Company's ongoing financial success; however, the Company's future access to the debt capital markets could become restricted due to a variety of factors, including a deterioration of the Company's earnings, cash flows, balance sheet quality, or overall business or industry prospects, a disruption or deterioration in the state of the capital markets or a negative bias toward the Company's industry by market participants. Disruptions and volatility in the capital markets may cause banks and other credit providers to restrict availability of new credit facilities and require higher pricing upon renewal of existing credit facilities. The Company's ability to obtain additional financing in the future will depend in part upon prevailing capital market conditions, and a potential disruption in the capital markets may adversely affect the Company's efforts to arrange additional financing on terms that are satisfactory to the Company. If adequate funds are not available, or are not available on acceptable terms, the Company may not be able to make future investments, take advantage of potential acquisitions or other opportunities, or respond to competitive challenges and this, in turn, could adversely affect the Company's ability to advance its strategic plans. Additionally, if the capital and credit markets experience volatility and the availability of funds is limited, third parties with whom the Company does business may incur increased costs or business disruption and this could adversely affect the Company's business relationships with such third parties.

Some of the Company's debt agreements contain financial covenants and other restrictions that may limit its ability to operate its business.

Some of the Company's debt agreements contain various restrictive covenants, compliance with which is essential to continued credit availability. These restrictive covenants, among other things, restrict the Company's ability to:

- incur additional debt;
- incur or permit certain liens to exist;
- make certain investments;
- merge or consolidate with or into, or convey, transfer, lease or dispose of all or substantially all of its assets to, another company;
- make certain dispositions;
- make certain payments; and
- engage in certain transactions with affiliates.

Some of the Company's debt agreements also require the Company to maintain certain financial ratios. The covenants and restrictions contained in the debt agreements could limit the Company's ability to fund its business, make capital expenditures, and make acquisitions or other investments in the future. Any failure to comply with any of these financial and other affirmative and negative covenants could constitute an event of default under the debt agreements, entitling the lenders to, among other things, terminate future credit availability under the agreement, and/or increase the interest rate on outstanding debt, and/or accelerate the maturity of outstanding obligations under that agreement. Any such default could materially adversely affect the Company's business, prospects, results of operations and financial condition and could impair the Company's ability to continue current operations.

Failure to satisfy the Company's debt obligations could have a material adverse effect on the Company's business.

As of December 31, 2012, the Company had \$578.3 million total debt outstanding, including the Company's line of credit, senior unsecured notes and 2009 Convertible Notes as more fully described under Item 8. Financial Statements and Supplementary Data Note 13. If the Company is unable to generate sufficient cash flow or otherwise obtain funds necessary to make required payments on these debt obligations or if it is in breach of the covenants contained in the debt agreements it would default under the terms of the applicable agreement or indenture. Any such

Table of Contents

default could result in an acceleration of the repayment obligations to such lenders as well as the lenders under any of its other debt agreements under applicable cross default provisions. Any such default could materially adversely affect the Company's business, prospects, results of operations and financial condition and could impair the Company's ability to continue current operations.

The Company is subject to impairment risk.

At December 31, 2012, the Company had goodwill totaling \$608.2 million, consisting of \$397.8 million related to the retail services segment and \$210.4 million related to the e-commerce segment, on its consolidated balance sheets, all of which represent assets capitalized in connection with the Company's acquisitions and business combinations. In addition, at December 31, 2012, the Company had intangible assets, net of accumulated amortization, of \$36.5 million, consisting of \$36.3 million related to its retail services segment and \$0.2 million related to the e-commerce segment. Accounting for goodwill and intangible assets requires significant management estimates and judgment. Events may occur in the future and the Company may not realize the value of its goodwill or intangible assets. Management performs periodic reviews of the carrying values of its goodwill and intangible assets to determine whether events and circumstances indicate that an impairment in value may have occurred. A variety of factors could cause the carrying value of goodwill or an intangible asset to become impaired. Should a review indicate impairment, a write-down of the carrying value of the goodwill or intangible asset would occur, resulting in a non-cash charge, which could adversely affect the Company's results of operations and could also lead to the Company's inability to comply with certain covenants in the Company's financing documents, which could cause a default under those agreements.

The Company may be unable to protect its proprietary technology or keep up with that of its competitors.

The success of the Company's business, particularly its online lending business, depends to a significant degree upon the protection of its software and other proprietary intellectual property rights. The Company may be unable to deter misappropriation of its proprietary information, detect unauthorized use or take appropriate steps to enforce its intellectual property rights. In addition, competitors could, without violating the Company's proprietary rights, develop technologies that are as good as or better than its technology. The Company's failure to protect its software and other proprietary intellectual property rights or to develop technologies that are as good as its competitors' could put the Company at a disadvantage to its competitors. Any such failures could have a material adverse effect on the Company's business.

The Company is subject to cyber security risks and security breaches and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.

The Company's business involves the storage and transmission of users' proprietary information, and security breaches could expose it to a risk of loss or misuse of this information, litigation, and potential liability. The Company's e-commerce segment is entirely dependent on the secure operation of its websites and systems as well as the operation of the internet generally. A number of companies have disclosed security breaches, some of which have involved intentional attacks. The Company may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyber attacks. Attacks may be targeted at the Company, its customers, or both. If an actual or perceived breach of security occurs, customer and/or supplier perception of the effectiveness of the Company's security measures could be harmed and could result in the loss of customers, suppliers or both. Actual or anticipated attacks and risks may cause the Company to incur increasing costs, including costs to deploy additional personnel and protection technologies, train employees, and engage third party experts and consultants.

A person who is able to circumvent the Company's security measures could misappropriate the Company's or its users' proprietary information, cause interruption in its operations, damage its computers or those of its users, or otherwise damage its reputation and business. Any compromise of security could result in a violation of applicable privacy and other laws, significant legal and financial exposure, damage to the Company's reputation, and a loss of confidence in its security measures, which could harm its business.

Table of Contents

Most of the Company's customers provide personal information, including bank account information when applying for consumer loans. The Company relies on encryption and authentication technology licensed from third parties to provide the security and authentication to effectively secure transmission of confidential information, including customer bank account and other personal information. Advances in computer capabilities, new discoveries in the field of cryptography or other developments may result in the technology used by the Company to protect transaction data being breached or compromised. Data breaches can also occur as a result of non-technical issues.

The Company's servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions, including denial-of-service type attacks. The Company may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach by the Company or by persons with whom it has commercial relationships that result in the unauthorized release of its users' personal information, could damage its reputation and expose it to a risk of loss or litigation and possible liability.

In addition, many of the third-parties who provide products, services or support to the Company could also experience any of the above cyber risks or security breaches, which could impact the Company's customers and the Company's business and could result in a loss of customers, suppliers or revenue.

Any of these events could result in a loss of revenue and could have a material adverse effect on the Company's business, prospects, results of operations and financial condition.

Judicial decisions, CFPB rule-making or amendments to the Federal Arbitration Act could render the arbitration agreements the Company uses illegal or unenforceable.

The Company includes arbitration provisions in its consumer loan agreements. These provisions are designed to allow the Company to resolve any customer disputes through individual arbitration rather than in court and explicitly provide that all arbitrations will be conducted on an individual and not on a class basis. The Company's arbitration agreements do not generally have any impact on regulatory enforcement proceedings.

The Company takes the position that the arbitration provisions in its consumer loan agreements are valid and enforceable; however, the enforceability of arbitration provisions is often challenged in court. If those challenges are successful, the Company's arbitration and class action waiver provisions could be unenforceable, which could subject the Company to additional litigation, including additional class action litigation.

In addition, the U.S. Congress has considered legislation that would generally limit or prohibit mandatory arbitration agreements in consumer contracts and has enacted legislation with such a prohibition with respect to certain mortgage loan agreements and also certain consumer loan agreements to members of the military on active duty and their dependents. Further, the Dodd-Frank Act directs the CFPB to study consumer arbitration and report to the U.S. Congress, and it authorizes the CFPB to adopt rules limiting or prohibiting consumer arbitration, consistent with the results of its study. Any such rule would apply to arbitration agreements entered into more than six months after the final rule becomes effective (and not to prior arbitration agreements).

Any judicial decisions, legislation or other rules or regulations that impair the Company's ability to enter into and enforce consumer arbitration agreements and class action waivers could significantly increase the Company's exposure to class action litigation as well as litigation in plaintiff-friendly jurisdictions. Such litigation would be costly and could have a material adverse effect on the Company's business, results of operations and financial condition.

Table of Contents

The Company's operations could be subject to natural disasters and other business disruptions, which could adversely impact its future revenue and financial condition and increase its costs and expenses.

The Company's services, operations and pawnshops from which it provides its products and services are vulnerable to damage or interruption from tornadoes, hurricanes, earthquakes, fires, floods, power losses, telecommunications failures, terrorist attacks, acts of war, human errors and similar events. A significant natural disaster, such as a tornado, hurricane, earthquake, fire or flood, could have a material adverse impact on the Company's business and the Company's insurance coverage may be insufficient to compensate the Company for losses that may occur. Acts of terrorism, civil unrest or violence could cause disruptions to the Company's business or the economy as a whole. More generally, any of these events could cause consumer confidence and spending to decrease or result in increased volatility in the U.S. economy and worldwide financial markets. Any of these occurrences could have a material adverse effect on the Company's business, prospects, results of operations and financial condition.

The Company may incur property, casualty or other losses not covered by insurance.

The Company maintains a program of insurance coverage for various types of property, casualty and other risks. The types and amounts of insurance that the Company obtains vary from time to time, depending on availability, cost and management's decisions with respect to risk retention. The policies are subject to deductibles and exclusions that result in the Company's retention of a level of risk on a self-insurance basis. Losses not covered by insurance could be substantial and may increase the Company's expenses, which could harm the Company's results of operations and financial condition.

The Company's reported results could be adversely affected by the implementation of new, or changes in the interpretation of existing, accounting principles or financial reporting requirements.

The Company prepares its financial statements in accordance with generally accepted accounting principles in the United States (GAAP), and GAAP and its interpretations are subject to change over time. If new rules or interpretations of existing rules require the Company to change its financial reporting, the Company's results of operations and financial condition could be materially adversely affected, and the Company could be required to restate historical financial reporting.

Adverse real estate market fluctuations could affect the Company's profits.

The Company leases most of its locations. A significant rise in real estate prices or real property taxes could result in an increase in store lease costs as the Company opens new locations and renews leases for existing locations.

Other risk factors are discussed under [Quantitative and Qualitative Disclosures about Market Risk](#).

Risks Related to the Company's Common Stock

The price of the Company's common stock has been volatile and could continue to fluctuate substantially.

The Company's common stock is traded on the New York Stock Exchange. The market price of the Company's common stock has been volatile and could fluctuate substantially based on a variety of factors, including the following:

- variations in results of operations;
- legislative or regulatory changes, and in particular, legislative or regulatory changes affecting the Company's consumer loan operations;
- fluctuations in commodity prices;
- general trends in the industry;
- market conditions;

Table of Contents

analysts' estimates; and
perceptions of and other events related to the consumer loan industry.

The market price for the Company's common stock has varied between a high of \$49.42 on March 28, 2012 and a low of \$34.21 on November 16, 2012 in the twelve-month period ended December 31, 2012. The Company's stock price is likely to continue to be volatile and subject to significant price and volume fluctuations in response to market and other factors, including the other factors discussed in "Risks Related to the Company's Business and Industry," variations in the Company's quarterly operating results from management's expectations or those of securities analysts or investors, downward revisions in securities analysts' estimates and announcements by the Company or its competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments.

In addition, the stock market in general may experience significant volatility that is unrelated to the operating performance of companies whose shares are traded. These market fluctuations could adversely affect the trading price of the Company's common stock, regardless of the Company's actual operating performance.

Future issuances of additional shares of the Company's common stock could cause dilution of ownership interests and adversely affect the Company's stock price.

The Company may, in the future, issue its previously authorized and unissued shares of common stock, including the potential issuance of shares of common stock upon conversion of the 2009 Convertible Notes (as more fully described under "Item 8. Financial Statements and Supplementary Data - Note 13"), resulting in the dilution of the ownership interests of the Company's shareholders. The Company is currently authorized to issue up to 80,000,000 shares of common stock, par value \$0.10 per share, and as of February 19, 2013, the Company had 28,811,280 shares of common stock issued and outstanding. The potential issuance of additional shares of common stock may create downward pressure on the trading price of the Company's common stock. The Company may also issue additional shares of its common stock or other securities that are convertible into or exercisable for common stock for capital-raising or other business purposes. Future sales of substantial amounts of common stock, or the perception that sales could occur, could have a material adverse effect on the price of the Company's common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

Table of Contents**ITEM 2. PROPERTIES**

The Company's headquarters that serve both the retail services and e-commerce segments, which the Company owns, are located in a nine-story office building adjacent to downtown Fort Worth, Texas. In addition, the Company has other corporate locations in Fort Worth, Texas and Cincinnati, Ohio that are used for both its retail services and e-commerce segment. Corporate locations in Chicago and Gurnee, Illinois are used in the Company's e-commerce segment, and a corporate location in Mexico City, Mexico is used in its retail services segment. These properties and substantially all of the Company's retail services locations are leased under non-cancelable operating leases with initial lease periods of one to 23 years that serve its retail services segment. In addition, as of December 31, 2012, the Company owned the real estate and buildings for 12 of its retail services locations.

In the table below, as of December 31, 2012, the retail services segment locations column includes the number of domestic and foreign Company-owned retail services locations that serve the Company's retail services segment and the e-commerce column includes the states in the United States and other foreign countries where the Company's e-commerce segment operates.

The Company considers its equipment, furniture and fixtures and owned buildings to be in good condition. The Company has its own construction supervisors who engage local contractors to selectively remodel and upgrade its retail services locations throughout the year.

The Company's leases typically require the Company to pay all maintenance costs, insurance costs and property taxes. For additional information concerning the Company's leases, see Item 8. Financial Statements and Supplementary Data Note 15.

ITEM 3. LEGAL PROCEEDINGS

On August 6, 2004, James E. Strong filed a purported class action lawsuit in the State Court of Cobb County, Georgia against Georgia Cash America, Inc., Cash America International, Inc. (together with Georgia Cash America, Inc., Cash America), Daniel R. Feehan, and several unnamed officers, directors, owners and stakeholders of Cash America. The lawsuit alleges many different causes of action, among the most significant of which is that Cash America made illegal short-term loans in Georgia in violation of Georgia's usury law, the Georgia Industrial Loan Act and Georgia's Racketeer Influenced and Corrupt Organizations Act (RICO). First National Bank of Brookings, South Dakota (FNB) and Community State Bank of Milbank, South Dakota (CSB) for some time made loans to Georgia residents through Cash America's Georgia operating locations. The complaint in this lawsuit claims that Cash America was the true lender with respect to the loans made to Georgia borrowers and that FNB and CSB's involvement in the process is a mere subterfuge. Based on this claim, the suit alleges that Cash America was the de facto lender and was illegally operating in Georgia. The complaint seeks unspecified compensatory damages, attorney's fees, punitive damages and the trebling of any compensatory damages. In November 2009 the case was certified as a class action lawsuit. In August 2011, Cash America filed a motion for summary judgment, and in October 2011, the plaintiffs filed a cross-motion for partial summary judgment. Hearings on the motions were held in October and November 2011, and the trial court entered an order granting summary judgment in favor of Cash America on one of the plaintiff's claims, denying the remainder of Cash America's motion and granting the plaintiff's cross-motion for partial summary judgment. Cash America filed a notice of appeal with the Georgia Court of Appeals in December 2011 on the grant of plaintiff's partial summary judgment, and on November 6, 2012, the Georgia Court of Appeals reversed the trial court's grant of partial summary judgment to plaintiffs and affirmed the trial court's denial of Cash America's motion for summary judgment. Cash America filed a Petition for Certiorari with the Supreme Court of Georgia to appeal the decision of the Georgia Court of Appeals regarding Cash America's motion for summary judgment on November 26, 2012, which was denied on February 18, 2013. The Company is currently unable to estimate a range of reasonably possible losses, as defined by ASC 450-20-20, *Contingencies Loss Contingencies Glossary*, for this litigation. Cash America believes that the Plaintiffs' claims in this suit are without merit and is vigorously defending this lawsuit.

The Company is also a defendant in certain routine litigation matters encountered in the ordinary course of its business. Certain of these matters are covered to an extent by insurance. In the opinion of management, the resolution of these matters is not expected to have a material adverse effect on the Company's financial position, results of operations or liquidity.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES****(a) Market for Registrant's Common Equity**

The New York Stock Exchange is the principal exchange on which the Company's common stock, par value \$0.10 per share, is traded under the symbol "CSH". There were 534 shareholders of record (not including individual participants in security listings) as of February 19, 2013. The high and low sales prices of common stock as quoted on the New York Stock Exchange and cash dividends declared per share during 2012 and 2011 were as follows:

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2012				
High	\$ 49.42	\$ 48.69	\$ 46.06	\$ 40.92
Low	40.02	40.35	34.85	34.21
Cash dividend declared per share	0.035	0.035	0.035	0.035
2011				
High	\$ 46.05	\$ 58.32	\$ 62.33	\$ 57.74
Low	36.65	42.49	48.86	45.00
Cash dividend declared per share	0.035	0.035	0.035	0.035

The Company expects that comparable cash dividends will continue to be paid in the future.

Table of Contents**(c) Issuer Purchases of Equity Securities**

The following table provides the information with respect to purchases made by the Company of shares of its common stock during each of the months in 2012:

Period	Total Number of Shares Purchased ^(a)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan ^(b)	Maximum Number of Shares that May Yet Be Purchased Under the Plan ^(b)
January 1 to January 31	18,791	\$ 40.37	-	2,065,000
February 1 to February 29	27,165	\$ 44.30	-	2,065,000
March 1 to March 31	-	\$ 0.00	-	2,065,000
April 1 to April 30	-	\$ 0.00	-	2,065,000
May 1 to May 31	40,026	\$ 43.57	40,000	2,025,000
June 1 to June 30	-	\$ 0.00	-	2,025,000
July 1 to July 31	-	\$ 0.00	-	2,025,000
August 1 to August 31	180,801	\$ 38.51	163,746	1,861,254
September 1 to September 30	180,000	\$ 39.94	180,000	1,681,254
October 1 to October 31	-	\$ 0.00	-	1,681,254
November 1 to November 30	192,348	\$ 37.69	192,318	1,488,936
December 1 to December 31	1,318	\$ 38.40	-	1,488,936
Total	640,449	\$ 39.28	576,064	

^(a) Includes the following: a repurchase of 1,211 shares in January by the Company from its Nonqualified Savings Plan, which no longer permits investments in the Company's common stock; shares withheld from employees as partial tax payments for shares issued under the Company's stock-based compensation plans of 17,580, 27,141, 17,027 and 1,318 shares for the months of January, February, August and December, respectively; and the reinvestment of dividends in the Company's nonqualified deferred compensation plan for its directors, which resulted in the purchase of 24, 26, 28 and 30 shares for the months of February, May, August and November, respectively.

^(b) On January 26, 2011, the Board of Directors authorized the Company's repurchase of up to a total of 2,500,000 shares of the Company's common stock (the 2011 Authorization). On January 24, 2013, the Board of Directors cancelled the 2011 Authorization and approved a new authorization to repurchase up to a total of 2,500,000 shares of the Company's common stock.

(a) See Item 8. Financial Statements and Supplementary Data Note 3 for discussion of the Company's acquisitions in 2008, 2010, 2011 and 2012.

(b) Income from operations and income before income taxes for 2012 include unusual items of \$39.0 million, consisting of \$3.9 million, \$21.7 million and \$13.4 million of expenses related to the withdrawal of the proposed initial public offering (IPO) of the Company's wholly-owned subsidiary, Enova International, Inc. (Enova), the reorganization of the Company's Mexico-based pawn operations (the Mexico Reorganization) and the voluntary reimbursements to Ohio customers (the Ohio Reimbursements), respectively. Excluding these unusual items, non-generally accepted accounting principles (non-GAAP) adjusted income from operations and non-GAAP adjusted income before income taxes would have been \$254.9 million and \$225.3 million, respectively, in 2012. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Continuing Operations Highlights for additional information about these non-GAAP measures.

(c) Net income for 2012 includes unusual items of \$36.2 million, net of tax and noncontrolling interests, consisting of \$2.4 million, \$25.4 million and \$8.4 million of expenses related to the withdrawal of the proposed Enova IPO, the Mexico Reorganization and the Ohio Reimbursements, respectively. Excluding these unusual items, non-GAAP adjusted net income would have been \$143.7 million in 2012. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Continuing Operations Overview Non-GAAP Disclosure Adjusted Earnings and Adjusted Earnings Per Share for additional information about this non-GAAP measure.

(d) Diluted net income per share for 2012 includes unusual items of \$1.15, net of tax and noncontrolling interests, related to the withdrawal of the proposed Enova IPO, the Mexico Reorganization and the Ohio Reimbursements. Excluding these unusual items, non-GAAP adjusted diluted earnings per share would have been \$4.57 in 2012. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Continuing Operations Overview Non-GAAP Disclosure Adjusted Earnings and Adjusted Earnings Per Share for additional information about this non-GAAP measure.

(e) See Item 8. Financial Statements and Supplementary Data Notes 4, 15 and 24 for further discussion of the Mexico Reorganization, the Ohio Reimbursements and the withdrawal of the proposed Enova IPO, respectively, which occurred in 2012.

(f) Excludes loans originated by third-party lenders through the CSO programs. See Item 8. Financial Statements and Supplementary Data Notes 2 and 6 for further discussion.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

GENERAL

Cash America International, Inc. and its subsidiaries (collectively, the Company) provides specialty financial services to individuals through retail services locations and e-commerce activities.

The Company offers secured non-recourse loans, commonly referred to as pawn loans. Pawn loans are short-term loans (generally 30 to 90 days) made on the pledge of tangible personal property. Pawn loan fees and service charges revenue is generated from the Company's pawn loan portfolio. A related activity of the pawn lending operations is the disposition of collateral from unredeemed pawn loans and the liquidation of a smaller volume of merchandise purchased directly from customers or from third parties.

The Company originates, guarantees or purchases consumer loans (collectively referred to as consumer loans throughout this discussion). Consumer loans provide customers with cash, typically in exchange for an obligation to repay the amount advanced plus fees and any applicable interest. Consumer loans include short-term loans (commonly referred to as payday loans), line of credit accounts and installment loans.

Short-term loans include unsecured short-term loans written by the Company or by a third-party lender through the Company's credit services organization programs (CSO programs as further described below) that the Company guarantees. Line of credit accounts include draws made through the Company's line of credit product, and, from 2008 through October 2010, included micro line of credit (MLOC) receivables, which are participation interests in receivables acquired from a third-party lender in connection with MLOC services the Company offered. Installment loans are longer-term multi-payment loans that generally require the pay-down of portions of the outstanding principal balance in multiple installments and include unsecured loans and auto equity loans, which are secured by a customer's vehicle, that are written by the Company or by a third-party lender through the Company's CSO programs that the Company guarantees. The Company offers consumer loans over the Internet under the names CashNetUSA and NetCredit in the United States, under the names QuickQuid and Pounds to Pocket in the United Kingdom and under the name DollarsDirect in Australia and Canada. The Company also offers a line of credit product, which is similar to the MLOC product for which the Company previously provided services, under the name Debit Plus in Mexico.

Through the Company's CSO programs the Company provides services related to a third-party lender's consumer loan products in some markets by acting as a credit services organization or credit access business on behalf of consumers in accordance with applicable state laws. Services offered under the CSO programs include credit-related services such as arranging loans with independent third-party lenders and assisting in the preparation of loan applications and loan documents (CSO loans). Under the CSO programs, the Company guarantees consumer loan payment obligations to the third-party lender in the event that the customer defaults on the loan. CSO loans are not included in the Company's financial statements, but the Company has established a liability for the estimated losses in support of the guarantee on these loans in its consolidated balance sheets.

In addition, the Company provides check cashing and other ancillary services through many of its retail services locations and through its franchised check cashing centers. The ancillary services provided mainly include money orders, wire transfers, prepaid debit cards, tax filing services and auto insurance. Most of these ancillary services are provided through third-party vendors.

The Company has two reportable operating segments: retail services and e-commerce. The retail services segment includes all of the operations of the Company's Retail Services Division, which is composed of both domestic and foreign storefront locations that offer some or all of the following services: pawn loans, consumer loans, the purchase and sale of merchandise, check cashing and other ancillary services such as money orders, wire transfers, prepaid debit cards, tax filing services and auto insurance. Most of these ancillary services offered in the retail services

Table of Contents

segment are provided through third-party vendors. See Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest section below for information related to the reorganization of the Company's Mexico-based pawn operations during 2012, which are included in the retail services segment. The e-commerce segment includes the operations of the Company's E-Commerce Division, which is composed of the Company's domestic and foreign online lending channels through which the Company offers consumer loans.

During the first quarter of 2012, the Company changed the presentation of its operating segment information to report corporate operations separately from its retail services and e-commerce segment information. Corporate administrative expense, which was previously allocated to each segment based on personnel expense, is included under the Corporate heading in the tables throughout the Management's Discussion and Analysis of Financial Condition and Results of Operations. For comparison purposes, operations and administration expenses for prior years have been conformed to the current presentation. Corporate operations primarily include corporate expenses, such as legal, occupancy, and other costs related to corporate service functions, such as executive oversight, insurance and risk management, public and government relations, internal audit, treasury, payroll, compliance and licensing, finance, accounting, tax and information systems (except for online lending systems, which are included in the e-commerce segment). Corporate income includes miscellaneous income not directly attributable to the Company's segments. Corporate assets primarily include: corporate property and equipment, nonqualified savings plan assets, marketable securities, foreign exchange forward contracts and prepaid insurance.

Table of Contents**Retail Services Segment**

The following table sets forth the number of domestic and foreign Company-owned and franchised locations in the Company's retail services segment offering pawn lending, consumer lending, and other services as of December 31, 2012, 2011 and 2010. The Company's domestic retail services locations operate under the names Cash America Pawn, SuperPawn, Cash America Payday Advance, Cashland and Mr. Payroll. In addition, certain recently acquired domestic retail services locations operate under various names that are expected to be changed to Cash America Pawn or SuperPawn during 2013. In January 2013, the Company's foreign retail services locations began operating exclusively under the name Cash America casa de empeño (and previously operated under the name Prenda Fácil).

	2012		As of December 31,			2011		2010	
	Domestic ^(a)	Foreign	Total	Domestic ^{(a)(b)}	Foreign	Total	Domestic ^{(a)(b)}	Foreign	Total
Retail services locations offering:									
Both pawn and consumer lending	581	-	581	572	-	572	567	-	567
Pawn lending only	167	47	214	126	190	316	124	180	304
Consumer lending only	83	-	83	86	-	86	88	-	88
Other ^(c)	91	-	91	110	-	110	122	-	122
Total retail services	922	47	969	894	190	1,084	901	180	1,081

(a) Except as described in (c) below, includes locations that operate in 22 states in the United States as of December 31, 2012, and 23 states as of both December 31, 2011 and 2010. In 2011, includes five retail services locations that the Company operated under management agreements with a former franchisee.

(b) Includes unconsolidated franchised locations as follows: one location operating under the name Cash America Pawn as of December 31, 2011, and nine locations operating under the names Cash America Pawn and SuperPawn as of December 31, 2010.

(c) As of December 31, 2012, 2011 and 2010, includes zero, six and six consolidated Company-owned check cashing locations and 91, 104 and 116 unconsolidated franchised check cashing locations, respectively. As of December 31, 2012, 2011 and 2010, includes locations that operate in 15, 18 and 17 states in the United States, respectively.

E-Commerce Segment

As of December 31, 2012, 2011 and 2010, the Company's e-commerce segment operated in 32 states in the United States and in three other foreign countries:

in the United States at <http://www.cashnetusa.com> and <http://www.netcredit.com>,
in the United Kingdom at <http://www.quickquid.co.uk> and <http://www.poundstopocket.co.uk>,
in Australia at <http://www.dollarsdirect.com.au>, and
in Canada at <http://www.dollarsdirect.ca>.

As of December 31, 2012, the Company also offered a line of credit product in Mexico, which is similar to the MLOC product for which the Company previously provided services, under the trade name Debit Plus.

The Company's internet websites and the information contained therein or connected thereto are not intended to be incorporated by reference into this the Annual Report on Form 10-K.

Business Developments

Newly Appointed Chief Executive Officer of E-Commerce Division

On January 29, 2013, David A. Fisher was appointed Chief Executive Officer of Enova International, Inc. (Enova), a wholly-owned subsidiary of the Company that comprises its e-commerce segment (which includes the operations of the E-Commerce Division). Mr. Fisher will succeed Timothy S. Ho as the senior executive officer of Enova, who will step down as the President of Enova on March 29, 2013.

Voluntary Reimbursements to Ohio Customers

On December 4, 2012, the Company announced a voluntary program to fully reimburse approximately 14,000 Ohio customers for all funds collected, plus interest accrued from the date collected, in connection with legal collections proceedings initiated by the Company in Ohio from January 1, 2008 through December 4, 2012 (the Ohio Reimbursements). In 2012, the Company determined that a small number of employees did not prepare certain court documents in many of its Ohio legal collections proceedings in accordance with court rules. In connection with the reimbursement program, for all trial court collections proceedings filed by the Company in Ohio from January 1, 2008 through December 4, 2012, with the exception of one appellate matter, the Company is in the process of filing dismissals, terminating all existing post-judgment collections activities, and requesting to vacate each judgment entered and/or notifying credit reporting bureaus of the vacated judgments, as necessary, for each case.

The Company estimates the cost of the reimbursement program and related expenses will be approximately \$13.4 million before taxes and has recorded this amount in Accounts payable and accrued expenses in the consolidated balance sheets and in Operations and administration expense in the consolidated statements of income for the year ended December 31, 2012.

Acquisition of Nine-Store Chain of Pawn Lending Locations in Arizona

On October 8, 2012, the Company's wholly-owned subsidiary, Cash America, Inc. of Nevada, entered into an agreement to acquire substantially all of the assets of a nine-store chain of pawn lending locations in Arizona owned by Ca\$h Corporation, Pawn Corp #1, Inc., Pawncorp #2, Inc. and Pawncorp #4, Inc. The aggregate cash consideration paid in 2012 for this transaction, which was funded with borrowings under the Company's line of credit, was approximately \$15.4 million. The closing for the transaction occurred on October 25, 2012. The Company incurred an immaterial amount of acquisition costs related to the acquisition. The goodwill of \$7.7 million arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and these pawn lending locations. The activities and goodwill related to this acquisition are included in the results of the Company's retail services segment.

Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest

On September 24, 2012, the Company's Board of Directors approved a plan to significantly modify the business plan and strategy of the Company's Mexico-based pawn operations, which comprise the foreign component of its retail services segment. The Company reorganized these operations to include only full-service pawn locations that offer pawn loans based on the pledge of general merchandise and jewelry-based collateral and discontinued the operations of 148 of its Mexico-based pawn locations that primarily offered pawn loans based on the pledge of jewelry-based collateral (the Mexico Reorganization). The Mexico Reorganization was substantially completed as of December 31, 2012. As of December 31, 2012, the Company was operating 47 full-service pawn locations in Mexico. The Mexico Reorganization reflects management's decision to modify its strategy in Mexico to achieve profitability in its Mexico-based pawn operations and to evaluate the potential to expand its services to customers in Latin American markets.

Table of Contents

In connection with the Mexico Reorganization, the Company incurred charges for employee termination costs, lease termination costs, asset impairments, loss on sale of assets, the recognition of a deferred tax asset valuation allowance, uncollectible receivables and other charges. The Company recognized \$28.9 million of charges related to the Mexico Reorganization during the year ended December 31, 2012.

The following table summarizes the charges recognized for the year ended December 31, 2012 related to the Mexico Reorganization (dollars in thousands):

Type of expense	Description	Amount
Depreciation and amortization expenses	Impairment and losses on property and equipment	\$ 7,478
Provision for income taxes	Deferred tax asset valuation allowance	7,161
Depreciation and amortization expenses	Impairment of intangible assets	5,086
Operations and administration expenses	Employee termination costs	2,424
Operations and administration expenses	Inventory shrinkage and loss on sale of assets	2,395
Operations and administration expenses	Lease termination costs	1,628
Operations and administration expenses	Impairment of other assets	1,211
Operations and administration expenses	Other restructuring charges	798
Revenue	Uncollectible receivables	692
Total charges related to the Mexico Reorganization		\$ 28,873

As of December 31, 2012, the Company's Mexico-based pawn operations were owned by Creazione Estilo, S.A. de C.V., a Mexican *sociedad anónima de capital variable* (Creazione). Prior to September 26, 2012, the Company owned 80% of the outstanding stock of Creazione. On September 26, 2012, the Company acquired all outstanding shares of Creazione that were held by minority shareholders (approximately 20% of the outstanding shares), and, as a result, Creazione became a wholly-owned subsidiary of the Company as of that date. The Company paid approximately \$5.6 million in cash and released the minority shareholders from certain contingent obligations estimated at approximately \$2.8 million. The Company accounted for this transaction as an acquisition of the remaining interest of a majority-owned subsidiary. The purchase resulted in a reduction to additional paid in capital of \$7.7 million, representing the excess of the cash amount paid and the released contingent obligations (totaling \$8.4 million) less the carrying amount of the noncontrolling interest of \$0.7 million. In January 2013, the Company's remaining Mexico-based pawn operations were sold by Creazione to another wholly-owned subsidiary, CA Empeños Mexico, S. de R.L. de C.V., and began operating exclusively under the name Cash America casa de empeño. In connection with the Mexico Reorganization, the Company intends to liquidate the remaining assets of Creazione, which are insignificant, in 2013.

The Mexico Reorganization was considered a triggering event for purposes of impairment testing of the retail services segment. As a result, the Company tested goodwill, indefinite-lived intangible assets, other intangible assets and long-lived assets for impairment following the approval of the Mexico Reorganization as described below.

The Company tested goodwill for the retail services segment following the approval of the Mexico Reorganization and noted no impairment. Although no goodwill impairment was noted, there can be no assurance that future goodwill impairments will not occur. In addition, a 10% decrease in the estimated fair values of the Company's retail services segment for the assessment completed for September 2012 would not have resulted in a goodwill impairment charge.

The Company also tested indefinite-lived intangible assets and other intangible assets following the approval of the Mexico Reorganization. As a result, during the year ended December 31, 2012, the Company recognized impairment charges of \$5.1 million related to indefinite-lived intangible assets and other intangible assets, which is included in Depreciation and amortization expense in the consolidated statements of income. The Company also tested property and equipment following the approval of the Mexico Reorganization. As a result, during the year ended December 31, 2012, the Company recognized impairment charges and losses on property and equipment related to its Mexico operations of \$7.5 million (consisting of \$6.0 million of impairment charges recognized in the third quarter of 2012 and

Table of Contents

\$1.5 million of losses on disposition incurred in the fourth quarter of 2012), which is included in Depreciation and amortization expenses in the consolidated statements of income. The fair value measurements of intangible assets and property and equipment are considered Level 3 in the fair value hierarchy as they are based on management's judgment about future cash flows.

Acquisition of 25-Store Chain of Pawn Lending Locations in Kentucky, North Carolina and Tennessee

On September 27, 2012, the Company and three of its wholly-owned subsidiaries, Cash America, Inc. of Tennessee, Cash America, Inc. of North Carolina and Cash America, Inc. of Kentucky, entered into an agreement to acquire substantially all of the assets of a 25-store chain of pawn lending locations located in Kentucky, North Carolina, and Tennessee owned by Standon, Inc., Casa Credit, Inc., Classic Credit, Inc. and Falcon Credit, Inc. As of that date, the Company assumed the economic benefits of all of these pawnshops by operating them under management agreements that commenced on September 27, 2012, and the final agreement terminated on December 16, 2012. The aggregate cash consideration for the transaction, which was funded with borrowings under the Company's line of credit, was approximately \$55.1 million, of which \$52.0 million was paid in September 2012. The remaining \$3.1 million of consideration was paid during the fourth quarter of 2012. The Company incurred an immaterial amount of acquisition costs related to the acquisition. The goodwill of \$31.5 million arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and these pawn lending locations. The activities and goodwill related to this acquisition are included in the results of the Company's retail services segment.

Withdrawal of Proposed Initial Public Offering of Enova International, Inc.

On September 15, 2011, Enova filed a registration statement on Form S-1 (Registration Statement) with the Securities and Exchange Commission (the SEC) in connection with a proposed initial public offering (IPO) of its common stock. On July 25, 2012, Enova filed an Application for Withdrawal of Registration Statement with the SEC to withdraw its Registration Statement, together with all exhibits and amendments. The Registration Statement had not been declared effective by the SEC, and no securities have been sold in connection with the offering pursuant to the Registration Statement.

During the year ended December 31, 2012, expenses that were previously capitalized totaling \$3.9 million were recognized in earnings due to the withdrawal of the Registration Statement and are included in Operations and administration expenses in the consolidated statements of income.

Recent Regulatory and Other Developments

Ohio Court Decision

On May 28, 2009, a subsidiary of the Company, Ohio Neighborhood Finance, Inc., doing business as Cashland (Cashland), filed a standard collections suit in an Elyria Municipal Court in Ohio against Rodney Scott seeking judgment against Mr. Scott in the amount of \$570.16, which was the amount due under his loan agreement. Cashland's loan was offered under the Ohio Mortgage Loan Act (OMLA), which allows for interest at a rate of 25% per annum plus certain loan fees allowed by the statute. The Municipal Court held that short-term, single-payment consumer loans made by Cashland are not authorized under the OMLA, and instead should have been offered under the Ohio Short-Term Lender Law, which was passed by the Ohio legislature in 2008 for consumer loans with similar terms. Due to a cap on interest and loan fees at an amount that is less than permitted under OMLA, the Company does not offer loans under the Ohio Short-Term Lender Law.

On December 3, 2012, the Ohio Ninth District Court of Appeals affirmed the Municipal Court's ruling in a 2-1 decision. Although this court decision is only legally binding in the Ninth District of Ohio, which includes four counties in northern Ohio where Cashland operates seven stores, other Ohio courts may consider this decision.

The Company filed an appeal of the Ninth District Court's decision with the Ohio Supreme Court on January 17, 2013 because it believes that this decision is contrary to the language of the OMLA, and the Ohio Supreme Court has not yet determined whether it will hear the appeal. If the Ninth District Court's decision is upheld by the Ohio Supreme Court on appeal, the Company's Ohio operations may be adversely affected. The Company relies on the OMLA to make short-term loans in its retail services locations in Ohio, and if the Company is unable to continue making short-term loans under this law, it will have to alter its short-term loan product in Ohio.

Table of Contents

Delaware Legislation

In June 2012, the State of Delaware passed a bill, which took effect on January 1, 2013, to amend its short-term consumer loan law to, among other things, limit the number of loans a borrower may have in any twelve-month period and establish a statewide database to track these loans. The bill only affects the Company's short-term loan product in Delaware (and does not affect its installment loan product in that state). The impact of this bill will not have a material effect on the Company, including its consolidated revenue or operations.

Australia National Consumer Credit Protection Act Amendment

In Australia the Company acts as a finance broker, offering the lending products of unaffiliated third-party lenders, which is similar to the Company's CSO programs in the United States. In Australia, the Company follows the responsible lending guidelines under the National Consumer Credit Protection Act (2010) (the "NCCPA"), which has been recently amended. Part of the amendment will become effective on March 1, 2013, and the remainder will become effective on July 1, 2013. The amendment includes limitations on permissible fees charged on certain consumer loans, including consumer loans arranged by the Company. The Company is still assessing the impact of this amendment on the product offered in Australia, but the Company expects that the product will be modified as a result of this amendment, which could make the product less profitable or could eliminate the Company's ability to offer lending products in Australia. The Company may even need to exit Australia if the product cannot be modified in a way that retains its profitability in that country. If the Company has to exit Australia, it will not have a material effect on the Company, including its consolidated revenues or operations.

UK Office of Fair Trading

The Company offers consumer loans over the internet in the United Kingdom where the Company must follow the Irresponsible Lending Guidance of the Office of Fair Trading (the "OFT") and the Consumer Credit Act of 1974 that was amended by the Consumer Credit Act of 2006 (collectively, the "CCA"), among other rules and regulations. In December 2012, the U.K. Parliament passed the Financial Services Act of 2012 (the "Act"), certain provisions of which take effect on April 1, 2013 and April 1, 2014. The Act makes changes to the CCA and the Financial Services and Markets Act of 2000 (the "FSMA") and gives the OFT the power to suspend consumer credit licenses with immediate effect or from a date specified. The Act also creates the Financial Conduct Authority (the "FCA"), which will take over responsibility for regulating consumer credit from the OFT in April 2014. The FCA may regulate consumer credit pursuant to the guidance of the FSMA, which includes prescriptive regulations that currently govern the secured credit market and could possibly call for the repeal of the CCA or for enabling legislation in the United Kingdom. Prescriptive regulations, as contrasted with principles-based regulations that currently regulate the lending process in the United Kingdom, define what a lender may and may not do with a specific product, similar to U.S. law. However, the U.K. coalition government has reserved the option to retain the principles-based CCA provisions should it conclude that a regulatory model for unsecured consumer credit under the FSMA and FCA cannot be delivered in an effective regulatory manner. During the period of transition of regulatory responsibility over consumer credit from the OFT to the FCA, the OFT will continue to fully and rigorously regulate consumer credit, including the short-term consumer loan market. If prescriptive regulations are adopted, the Company's compliance costs will be significantly increased.

In addition, in October 2011, the OFT issued debt collection guidance that was revised in November 2012. This debt collection guidance allows consumer lenders such as the Company to debit a customer's account, which includes debits to both bank accounts and debit cards, in a reasonable and non-excessive manner. The Company has not experienced a material adverse impact on its business as a result of this guidance.

In February 2012, the OFT also announced that it had launched a review of the payday lending sector in the United Kingdom to assess the sector's compliance with the CCA, the OFT's Irresponsible Lending Guidelines and other relevant guidance and legal obligations. The OFT has announced that these inspections could be used to assess a licensee's fitness to hold a consumer credit license and could result in formal enforcement action where appropriate. The OFT is expected to announce its findings during the first quarter of 2013. It is unknown if the OFT's findings will result in significant changes to the Company's operations, business, and prospects.

Consumer Financial Protection Bureau

In July 2010, the U.S. Congress passed the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act), and Title X of the Dodd-Frank Act created the Consumer Financial Protection Bureau (the CFPB), which regulates consumer financial products and services, including certain short-term loans offered by the Company. On January 4, 2012, President Obama appointed a Director of the CFPB in a recess appointment bypassing Senate confirmation. Although there remain doubts about the legality of this appointment and the appointment is subject to legal challenge, the CFPB has begun exercising supervisory review over certain non-bank providers of consumer financial products and services, including providers of consumer loans such as the Company. The Dodd-Frank Act gave the CFPB, among other things, authority to examine and require registration of providers of consumer financial products and services, including providers of consumer loans such as the Company; the authority to adopt rules describing specified acts and practices as being unfair, deceptive or abusive, and hence unlawful; and the authority to impose record-keeping obligations. The Company does not currently know the nature and extent of the rules that the CFPB will consider with respect to consumer loan products and services such as those offered by the Company or the timeframe in which the CFPB may consider such rules. Although the CFPB does not have the authority to regulate interest rates, it is possible that at some time in the future the CFPB could propose and adopt rules that require certain changes to short-term consumer lending products and services, including certain short-term loans offered by or through the Company, which could make these products and services materially less profitable or even impractical to offer and could force the Company to modify or terminate certain of its product offerings. The CFPB could also adopt rules imposing new and potentially burdensome requirements and limitations with respect to other consumer loan products and services. Any such rules could have a material adverse effect on the Company s business, results of operations and financial condition or could make the continuance of all or part of its U.S. consumer loan business impractical or unprofitable.

In furtherance of its regulatory and supervisory powers, the CFPB has the authority to impose monetary penalties for violations of applicable federal consumer financial laws, require remediation of practices and pursue enforcement actions. For further discussion of the CFPB see Item 1A. Risk Factors Risks Related to the Company s Business and Industry *The Consumer Financial Protection Bureau could have a significant impact on the Company s U.S. consumer loan business.*

CRITICAL ACCOUNTING POLICIES

Management s Discussion and Analysis of Financial Condition and Results of Operations is based on the Company s consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the dates of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition on pawn loan fees and service charges and consumer loan fees, allowance for losses on merchandise held for disposition and consumer loans, goodwill, long-lived and intangible assets, income taxes, contingencies and litigation. Management bases its estimates on historical experience, empirical data and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates. The development and selection of the critical accounting policies and the related disclosures below have been reviewed with the Audit Committee of the Board of Directors of the Company.

Management believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Table of Contents**Change in Accounting Policy**

In the first quarter of 2012, the Company changed its accounting policy with respect to its foreign pawn operations to reflect pledged collateral underlying delinquent pawn loans as Merchandise held for disposition, net, the proceeds received from the disposition of this collateral as Proceeds from disposition of merchandise and the cost basis for this collateral as Cost of disposed merchandise in its consolidated financial statements. The Company believes this change, from one generally accepted accounting principle to another generally accepted accounting principle, is preferable because it enhances comparability of its financial statements by reporting financial results associated with its foreign pawn operations in the same manner as the financial results associated with its domestic pawn operations. The Company did not change its accounting policy with respect to its domestic pawn operations, and the change in the Company's accounting policy with respect to its foreign pawn operations had no impact on the Company's consolidated Net Revenue or Net Income previously reported. The change has been applied retrospectively. The following tables summarize the impact of the accounting change in the Company's consolidated financial statements as of December 31, 2011 and for the years ended December 31, 2011 and 2010, respectively (dollars in thousands):

	Year Ended December 31, 2011		Year Ended December 31, 2010	
	As previously reported	As Adjusted	As previously reported	As Adjusted
Consolidated Statements of Income

Table of Contents

Pawn Loan Fees and Service Charges

Pawn Loans and Pawn Loan Fees and Service Charges Receivable

Pawn loans are short-term loans made on the pledge of tangible personal property. The maximum pawn loan amount is generally assessed as a percentage of the personal property's estimated disposition value. The typical loan term is generally 30 to 90 days and, in many cases, an additional grace period (typically 10 to 60 days) may be available to the borrower. A pawn loan is considered delinquent if the customer does not repay or, where allowed by law, renew or extend the loan on or prior to its contractual maturity date plus any applicable grace period. Pawn loan fees and service charges do not accrue on delinquent pawn loans. When a pawn loan is considered delinquent, any accrued pawn loan fees and service charges are reversed and no additional pawn loan fees and service charges are accrued. Pawn loans written during each calendar month are aggregated and tracked for performance. This empirical data allows the Company to analyze the characteristics of its outstanding pawn loan portfolio and assess the collectability of the principal balance in addition to pawn loan fees and service charges.

Revenue Recognition

Pawn loan fees and service charges revenue are accrued ratably over the term of the loan for the portion of those pawn loans deemed collectible. If the future actual performance of the loan portfolio differs significantly (positively or negatively) from expectations, revenue for the next reporting period would be likewise affected.

At the end of the current year and based on the revenue recognition method described above, the Company had accrued \$49.0 million of pawn loan fees and service charges receivable. Assuming the year-end accrual of pawn loan fees and service charges revenue was overestimated or underestimated by 10%, pawn loan fees and service charges revenue would decrease or increase by \$4.9 million in 2012 and net income attributable to the Company would decrease or increase by \$3.1 million, net of taxes. Some or all of the decrease would potentially be mitigated through the profit on the disposition of the related forfeited loan collateral. Any increase would be realized as additional pawn loan fees and service charges revenue.

Consumer Loans and Allowance and Liability for Estimated Losses on Consumer Loans

Revenue Recognition

The Company recognizes consumer loan fees for each of the loan products it offers. Consumer loan fees in the consolidated statements of income include: interest income, finance charges, CSO fees, service charges, draw fees, minimum fees, late fees, nonsufficient funds fees and any other fees or charges permitted by applicable laws and pursuant to the agreement with the borrower. For short-term loans that the Company writes, revenue is recognized on an effective yield basis over the term of the loan, and fees are recognized when assessed to the customer. CSO fees, which are fees for services provided through the CSO programs, are recognized on an effective yield basis over the term of the loan. For line of credit accounts, interest is recognized on an effective yield basis over the term of the loan, and fees are recognized when assessed to the customer. For installment loans, revenue is recognized on an effective yield basis over the term of the loan and fees are recognized when assessed to the customer. Unpaid and accrued interest and fees are included in Consumer loans, net in the consolidated balance sheets.

Current and Delinquent Consumer Loans

The Company classifies its consumer loans as either current or delinquent. Short-term loans are considered delinquent when payment of an amount due is not made as of the due date. If a line of credit account or installment loan customer misses one payment, that payment is considered delinquent. If a line of credit account or installment loan customer does not make two consecutive payments, the entire account or loan is classified as delinquent. The Company allows for normal payment processing time before considering a loan delinquent but does not provide for any additional grace period.

Where permitted by law, a customer may choose to renew a short-term loan contract or extend the due date on a short-term loan before it is considered delinquent by agreeing to pay the current finance charge for the right to make a later payment of the outstanding principal balance plus an additional finance charge. In addition, in some instances, customers agree to repay a

Table of Contents

new short-term loan in two or three payments, and in these cases the Company considers the obligation to make the first payment a new loan and the obligation to make the second and third payments renewals or extensions of that loan because the customer pays the finance charge due at the time of each payment, similar to a loan that has been renewed or extended. All references to renewals include both renewals and extensions made by customers to their existing short-term loans. If a short-term loan is renewed, but the customer fails to pay that loan's current finance charge as of the due date, the unpaid finance charge is classified as delinquent.

The Company generally does not accrue interest on delinquent consumer loans and does not resume accrual of interest unless a loan is returned to current status. Delinquent consumer loans may not be renewed, and if, during its attempt to collect on a delinquent consumer loan, the Company allows additional time for payment through a payment plan or a promise to pay, it is still considered delinquent. All payments received are first applied against accrued but unpaid interest and fees and then against the principal balance of the loan.

Allowance and Liability for Estimated Losses on Consumer Loans

The Company monitors the performance of its consumer loan portfolio and maintains either an allowance or liability for estimated losses on consumer loans (including fees and interest) at a level estimated to be adequate to absorb credit losses inherent in the portfolio. The allowance for losses on the Company's owned consumer loans reduces the outstanding loan balance in the consolidated balance sheets. The liability for estimated losses related to loans guaranteed under the CSO programs, which approximates the fair value of the liability, is included in Accounts payable and accrued expenses in the consolidated balance sheets.

In determining the allowance or liability for estimated losses on consumer loans, the Company applies a documented systematic methodology. In calculating the allowance or liability for loan losses, outstanding loans are divided into discrete groups of short-term loans, line of credit accounts and installment loans and are analyzed as current or delinquent. Increases in either the allowance or the liability, net of charge-offs and recoveries, are recorded as a Consumer loan loss provision in the consolidated statements of income. The allowance or liability for short-term loans classified as current is based on historical loss rates adjusted for recent default trends for current loans. During the fourth quarter of 2012, in order to better reflect portfolio trends, management revised the estimation process for evaluating the adequacy of the allowance and liability for estimated losses on consumer loans. This change is described below and did not have a material impact on the financial statements.

For delinquent short-term loans, the allowance or liability is based on a six-month rolling average of loss rates by stage of collection. For line of credit and installment loan portfolios, the Company generally uses a migration analysis to estimate losses inherent in the portfolio. The allowance or liability calculation under the migration analysis is based on historical charge-off experience and the loss emergence period, which represents the average amount of time between the first occurrence of a loss event to the charge-off of a loan. The factors the Company considers to assess the adequacy of the allowance or liability include past due performance, historical behavior of monthly vintages, underwriting changes and recent trends in delinquency in the migration analysis.

The Company fully reserves and generally charges off consumer loans once the loan or a portion of the loan has been classified as delinquent for 60 consecutive days. If a loan is deemed uncollectible before it is fully reserved, it is charged off at that point. Consumer loans classified as delinquent generally have an age of one to 59 days from the date any portion of the loan became delinquent, as defined above. Recoveries on loans previously charged to the allowance are credited to the allowance when collected.

Table of Contents

As of December 31, 2012, the allowance for losses on consumer loans was \$85.7 million and the liability for estimated losses on third-party lender-owned consumer loans guaranteed by the Company was \$3.5 million, in aggregate representing 20.3% of the combined consumer loan portfolio.

For the year ended December 31, 2012, the consumer loan loss provision for the combined consumer loan portfolio was \$316.3 million and reflects 9.3% of gross combined consumer loans written and renewed by the Company and third-party lenders. If the loss provision increased or decreased by 10%, or \$31.6 million, from 2012 levels (a 0.9% change in the percentage of gross combined consumer loans written and renewed), net income attributable to the Company would decrease or increase by \$19.9 million, net of taxes, for 2012, assuming the same volume of consumer loans written and renewed in 2012.

Merchandise Held for Disposition

Merchandise held for disposition consists primarily of forfeited collateral from pawn loans not repaid and merchandise that is purchased directly from customers or from third parties. The carrying value of the forfeited collateral and other merchandise held for disposition is stated at the lower of cost (which is the cost basis in the loan or the amount paid for purchased merchandise) or fair value. With respect to the Company's foreign pawn operations, collateral underlying unredeemed pawn loans is not owned by the Company; however, the Company assumes the risk of loss on such collateral and is solely responsible for its care and disposition. Accordingly, the Company classifies these domestic and foreign assets as Merchandise held for disposition, net in the consolidated balance sheets. The Company provides an allowance for returns and an allowance for valuation based on management's evaluation of the current trends in performance, characteristics of the merchandise and historical shrinkage rates. Because the Company's pawn loans are made without recourse to the borrower, the Company does not investigate or rely upon the borrower's creditworthiness, but instead bases its lending decision on an evaluation of the pledged personal property. The amount financed is typically based on a percentage of the pledged personal property's estimated disposition value. The Company uses numerous sources in determining an item's estimated disposition value, including the Company's automated product valuation system as well as catalogs, blue books, newspapers, internet research and previous disposition experience. The Company performs a physical count of its merchandise in each location on multiple occasions on a cyclical basis and reviews the composition of inventory by category and age in order to assess the adequacy of the allowance.

Goodwill and Other Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired in each business combination. In accordance with ASC 350-20-35, *Goodwill - Subsequent Measurement*, the Company tests goodwill and intangible assets with an indefinite life for potential impairment annually as of June 30 and between annual tests if an event occurs or circumstances change that would more-likely-than-not reduce the fair value of a reporting unit below its carrying amount.

The Company uses the income approach to complete its annual goodwill assessment. The income approach uses future cash flows and estimated terminal values for each of the Company's reporting units that are discounted using a market participant perspective to determine the fair value of each reporting unit, which is then compared to the carrying value of that reporting unit to determine if there is impairment. The income approach includes assumptions about revenue growth rates, operating margins and terminal growth rates discounted by an estimated weighted-average cost of capital derived from other publicly-traded companies that are similar but not identical from an operational and economic standpoint. The Company completed its annual assessment of goodwill as of June 30, 2012 and determined that the fair value is significantly in excess of carrying value, and, as a result, no impairment existed at that date. See *Recent Developments - Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest* for a discussion of additional impairment testing performed in September 2012.

Table of Contents

Long-Lived Assets and Other Intangible Assets

An evaluation of the recoverability of property and equipment and intangible assets subject to amortization is performed whenever the facts and circumstances indicate that the carrying value may be impaired. An impairment loss is recognized if the future undiscounted cash flows associated with the asset and the estimated fair value of the asset are less than the asset's corresponding carrying value. The amount of the impairment loss, if any, is the excess of the asset's carrying value over its estimated fair value.

The Company amortizes intangible assets subject to amortization on the basis of their expected periods of benefit, generally three to ten years. The costs of start-up activities and organization costs are charged to expense as incurred. See *Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest* for a discussion of additional impairment testing performed in September 2012.

Equity Securities

The Company accounts for its marketable and non-marketable equity securities in accordance with ASC 323-10, *Investments Equity Method and Joint Ventures* and ASC 325-20, *Investments Other Cost Method Investments*, respectively. The Company's marketable securities, except for marketable securities related to the Company's Nonqualified Savings Plan, which are described below, are classified as available-for-sale and unrecognized gains and losses, net of tax, are recorded in *Accumulated other comprehensive income (loss)* in the consolidated statements of equity. The Company's non-marketable equity securities are recorded on a cost basis. The Company evaluates marketable and non-marketable equity securities for impairment on a quarterly basis. If an impairment of an equity security is determined to be other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary-impairment is identified. Marketable and non-marketable equity securities are held in *Other assets* in the consolidated balance sheets.

The Company also holds marketable securities related to its Nonqualified Savings Plan. See *Item 8. Financial Statements and Supplementary Data Note 17* for a description of the Nonqualified Savings Plan. The securities are classified as trading securities, and the unrealized gains and losses on these securities are netted with the costs of the plans in *Operations and administration expenses* in the consolidated statements of income. These marketable securities are recorded at fair value and have an offsetting liability of equal amount. The Nonqualified Savings Plan assets are held in *Other Assets*, and the offsetting liability is held in *Accounts payable and accrued expenses* in the Company's consolidated balance sheets.

Income Taxes

As part of the process of preparing its consolidated financial statements, the Company is required to estimate income taxes in each of the jurisdictions in which it operates. This process involves estimating the actual current tax expense together with assessing temporary differences in recognition of income for tax and accounting purposes. These differences result in deferred tax assets and liabilities and are included within the Company's consolidated balance sheets. Management must then assess the likelihood that the deferred tax assets will be recovered from future taxable income and, to the extent it believes that recovery is not likely, it must establish a valuation allowance. An expense or benefit is included within the tax provision in the statement of operations for any increase or decrease in the valuation allowance for a given period.

The Company performs an evaluation of the recoverability of its deferred tax assets on a quarterly basis. The Company establishes a valuation allowance if it is more-likely-than-not (greater than 50 percent) that all or some portion of the deferred tax asset will not be realized. The Company analyzes several factors, including the nature and frequency of operating losses, the Company's carry-forward period for any losses, the reversal of future taxable temporary differences, the expected occurrence of future income or loss and the feasibility of available tax planning strategies to protect against the loss of deferred tax assets.

Table of Contents

In 2012, the Company recorded a valuation allowance of \$21.8 million, including \$12.0 million related to net deferred tax assets at its Mexico-based pawn operations (see General Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest above for further information related to the Mexico Reorganization), \$0.5 million related to the net deferred tax assets in Mexico generated by the e-commerce segment, and \$9.3 million related to deferred tax assets associated with the Company's excess tax basis over its basis for financial reporting purposes in the stock of Creazione.

The Company accounts for uncertainty in income taxes recognized in the consolidated financial statements in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740-10-25, *Accounting for Uncertainty in Income Taxes* (ASC 740-10-25). ASC 740-10-25 requires that a more-likely-than-not threshold be met before the benefit of a tax position may be recognized in the consolidated financial statements and prescribes how such benefit should be measured. Management must evaluate tax positions taken on the Company's tax returns for all periods that are open to examination by taxing authorities and make a judgment as to whether and to what extent such positions are more likely than not to be sustained based on merit.

Management's judgment is required in determining the provision for income taxes, the deferred tax assets and liabilities and any valuation allowance recorded against deferred tax assets. Management's judgment is also required in evaluating whether tax benefits meet the more-likely-than-not threshold for recognition under ASC 740-10-25.

RECENT ACCOUNTING PRONOUNCEMENTS

See Item 8. Financial Statements and Supplementary Data Note 2 for a discussion of recent accounting pronouncements.

Table of Contents

RESULTS OF CONTINUING OPERATIONS

Highlights

The Company's financial results for the year ended December 31, 2012 (2012) are summarized below.

Consolidated total revenue increased 13.7%, to \$1.8 billion for 2012 compared to the year ended December 31, 2011 (2011).

Consolidated net revenue increased \$96.2 million, or 10.6%, to \$1.0 billion, in 2012 compared to \$909.8 million in 2011. Consumer loan fees, net of consumer loan loss provision, increased 24.7%, or \$92.3 million, for 2012 compared to 2011. Net revenue from pawn related activities, which is the sum of pawn loan fees and service charges and the net proceeds from the disposition of merchandise, increased 0.6%, or \$3.1 million, for 2012 compared to 2011.

Income from operations was \$215.9 million in 2012, compared to \$244.3 million in 2011. Excluding unusual items of \$39.0 million, consisting of \$3.9 million, \$21.7 million and \$13.4 million of expenses related to the withdrawal of the proposed Enova IPO, the Mexico Reorganization and the Ohio Reimbursements, respectively, non-GAAP adjusted income from operations would have been \$254.9 million, an increase of 4.3% compared to 2011, excluding these amounts.

Net income was \$107.5 million in 2012 compared to \$136.0 million in 2011. Excluding unusual items of \$36.2 million, net of tax and noncontrolling interests, consisting of \$2.4 million, \$25.4 million and \$8.4 million of expenses related to the withdrawal of the proposed Enova IPO, the Mexico Reorganization and the Ohio Reimbursements, respectively, non-GAAP adjusted net income would have been \$143.7 million in 2012, an increase of 5.7% from 2011.

Diluted net income per share was \$3.42 in 2012 compared to \$4.25 in 2011. Excluding the unusual items mentioned above, net of tax and noncontrolling interests, non-GAAP adjusted diluted earnings per share would have been \$4.57 in 2012, an increase of 7.5% from 2011. Management believes that the adjustments to the GAAP measures shown above for unusual items related to events that occurred during 2012, including the withdrawal of the proposed Enova IPO, the Mexico Reorganization and the Ohio Reimbursements, are useful to investors in order to allow them to compare the Company's financial results for the current year with previous years and to analyze the Company's operating performance. See [Overview](#) [Non-GAAP Disclosure](#) [Adjusted Earnings](#) and [Adjusted Earnings Per Share](#) for additional information.

Table of Contents**OVERVIEW****Consolidated Net Revenue**

Consolidated net revenue is composed of total revenue less cost of disposed merchandise and consumer loan loss provision. Net revenue is the income available to satisfy all remaining expenses and is the measure management uses to evaluate top-line performance.

The following tables show the components of net revenue for the years ended December 31, 2012, 2011 and 2010 by segment and corporate operations on a consolidated basis (dollars in thousands):

	Year Ended December 31, 2012							
	Retail Services		E-Commerce		Corporate		Consolidated	
	Amount	% of Total	Amount	% of Total	Amount	% of Total	Amount	% of Total

Net revenue	\$ 557,150	100.0%	\$ 213,360	100.0%	\$ 1,679	100.0%	\$ 772,189	100.0%

Table of Contents

For 2012, net revenue increased \$96.2 million, or 10.6%, to \$1.0 billion from \$909.8 million in 2011. Net revenue from pawn lending activities accounted for 52.3% and 57.5% of total net revenue in 2012 and 2011, respectively. Net revenue from pawn lending activities increased \$3.0 million to \$526.5 million in 2012 from \$523.5 million in 2011, which accounted for 3.2% of the increase in consolidated net revenue. The increase in the pawn-related net revenue was primarily due to an \$18.7 million increase in pawn loan fees and service charges that resulted from higher average domestic pawn loan balances as a result of new locations and higher average pawn loan yields in domestic retail operations. This increase was partially offset by a decrease in pawn loan fees and service charges from foreign markets and a decrease of \$15.7 million in gross profit on the disposition of merchandise on commercial sales during 2012 compared to 2011, which was primarily due to a decrease in gross profit margin on commercial goods and a decrease in commercial goods available for sale as a result of lower forfeitures and purchases.

Consumer loan activities accounted for 46.3% and 41.0% of total consolidated net revenue in 2012 and 2011, respectively. Net revenue from consumer loan activities increased \$92.3 million, to \$465.2 million during 2012 from \$373.0 million in 2011. This increase accounted for 95.9% of the overall increase in consolidated net revenue, mainly due to an increase in consumer loan fees that resulted from higher average consumer loan balances in the e-commerce segment.

Non-GAAP Disclosure

In addition to the financial information prepared in conformity with GAAP the Company provides historical non-GAAP financial information. Management believes that presentation of non-GAAP financial information is meaningful and useful in understanding the activities and business metrics of the Company's operations. Management believes that these non-GAAP financial measures reflect an additional way of viewing aspects of the Company's business that, when viewed with its GAAP results, provide a more complete understanding of factors and trends affecting its business.

Management provides non-GAAP financial information for informational purposes and to enhance understanding of the Company's GAAP consolidated financial statements. Readers should consider the information in addition to, but not instead of or superior to, its financial statements prepared in accordance with GAAP. This non-GAAP financial information may be determined or calculated differently by other companies, limiting the usefulness of those measures for comparative purposes.

Table of Contents**Adjusted Earnings and Adjusted Earnings Per Share**

In addition to reporting financial results in accordance with GAAP, the Company has provided adjusted earnings and adjusted earnings per share, which are non-GAAP measures. Management believes that the presentation of these measures provides investors with greater transparency and facilitates comparison of operating results across a broad spectrum of companies with varying capital structures, compensation strategies, derivative instruments and amortization methods, which provides a more complete understanding of the Company's financial performance, competitive position and prospects for the future. Management also believes that investors regularly rely on non-GAAP financial measures, such as adjusted earnings and adjusted earnings per share, to assess operating performance and that such measures may highlight trends in the Company's business that may not otherwise be apparent when relying on financial measures calculated in accordance with GAAP. In addition, management believes that the adjustments shown below, especially the adjustments for charges related to events that occurred during 2012, such as the Mexico Reorganization, the withdrawal of the proposed Enova IPO, and the charges related to the Ohio Reimbursements, are useful to investors in order to allow them to compare the Company's financial results for the current year with the previous years shown. The following table provides a reconciliation between net income attributable to the Company and diluted earnings per share calculated in accordance with GAAP to adjusted earnings and adjusted earnings per share, respectively, which are shown net of tax (dollars in thousands, except per share data):

	Year Ended December 31,					
	2012	Per Diluted Share	2011	Per Diluted Share	2010	Per Diluted Share
	\$		\$		\$	
Net income and diluted earnings per share attributable to Cash America International, Inc.	\$ 107,470	\$ 3.42	\$ 135,963	\$ 4.25	\$ 115,538	\$ 3.67
Adjustments:						
Charges related to withdrawn proposed Enova IPO ^(a)	2,424	0.07	-	-	-	-
Charges related to the Mexico Reorganization ^(b)	25,421	0.81	-	-	-	-
Charges related to Ohio Reimbursements ^(c)	8,442	0.27	-	-	-	-
Subtotal	143,757	4.57	135,963	4.25	115,538	3.67
Other adjustments (net of tax):						
Intangible asset amortization	2,791	0.09	3,905	0.12	2,993	0.09
Non-cash equity-based compensation	3,007	0.10	3,064	0.10	2,384	0.08
Convertible debt non-cash interest and issuance cost amortization	2,386	0.07	2,214	0.07	2,088	0.06
Foreign currency transaction loss	196	0.01	786	0.02	289	0.01
Adjusted earnings and adjusted earnings per share	\$ 152,137	\$ 4.84	\$ 145,932	\$ 4.56	\$ 123,292	\$ 3.91

(a) Represents charges directly related to the proposed Enova IPO that was withdrawn in July 2012. For the year ended December 31, 2012, represents \$3.9 million of charges, net of tax benefit of \$1.5 million.

(b) Represents charges related to the Mexico Reorganization. For the year ended December 31, 2012, represents \$28.9 million of charges, net of tax benefit of \$1.2 million and noncontrolling interest of \$2.3 million.

(c) Represents charges related to the Ohio Reimbursements. For the year ended December 31, 2012, represents \$13.4 million of charges, net of tax benefit of \$5.0 million.

Table of Contents**Adjusted EBITDA**

The table below shows adjusted EBITDA, a non-GAAP measure that the Company defines as earnings excluding depreciation, amortization, interest, foreign currency transaction gains or losses, equity in earnings or loss of unconsolidated subsidiary, taxes and including the net income or loss attributable to noncontrolling interests. Management believes adjusted EBITDA is used by investors to analyze operating performance and evaluate the Company's ability to incur and service debt and its capacity for making capital expenditures. Adjusted EBITDA is also useful to investors to help assess the Company's liquidity and estimated enterprise value. In addition, management believes that the adjustments shown below, especially the adjustments for charges related to events that occurred during 2012, such as the Mexico Reorganization, the withdrawal of the proposed Enova IPO, and the charges related to the Ohio Reimbursements, are useful to investors in order to allow them to compare the Company's financial results for the current year with the previous years shown. The computation of adjusted EBITDA as presented below may differ from the computation of similarly-titled measures provided by other companies (dollars in thousands):

	2012	Year Ended December 31, 2011	2010
Net income attributable to Cash America International, Inc.	\$ 107,470	\$ 135,963	\$ 115,538
Adjustments:			
Charges related to withdrawn proposed Enova IPO ^(a)	3,879	-	-
Charges related to Mexico Reorganization ^(b)	28,873	-	-
Charges related to Ohio Reimbursements ^(c)	13,400	-	-
Depreciation and amortization expenses	62,864 ^(d)	54,149	43,923
Interest expense, net	28,987	25,447	22,020
Foreign currency transaction loss	313	1,265	463
Equity in loss of unconsolidated subsidiary	295	104	136
Provision for income taxes	77,495 ^(e)	82,360	69,269
Net loss attributable to the noncontrolling interest	(5,806) ^(f)	(797)	(294)
Adjusted EBITDA	\$ 317,770	\$ 298,491	\$ 251,055
Adjusted EBITDA margin calculated as follows:			
Total revenue	\$ 1,800,430	\$ 1,583,064	\$ 1,337,050
Adjusted EBITDA	317,770	298,491	251,055
Adjusted EBITDA as a percentage of total revenue	17.6%	18.9%	18.8%

(a) Represents charges directly related to the proposed Enova IPO that was withdrawn in July 2012, before tax benefit of \$1.5 million.

(b) Represents charges related to the Mexico Reorganization, before tax benefit of \$1.2 million and noncontrolling interest of \$2.3 million. Includes \$12.6 million and \$7.2 million of depreciation and amortization expenses and charges for the recognition of a deferred tax asset valuation allowance, respectively, as noted in (d) and (e) below.

(c) Represents charges related to the Ohio Reimbursements, before tax benefit of \$5.0 million.

(d) Excludes \$12.6 million of depreciation and amortization expenses, which are included in "Charges related to the Mexico Reorganization" in the table above.

(e) Excludes a \$7.2 million charge for the recognition of a deferred tax asset valuation allowance, which is included in "Charges related to the Mexico Reorganization" in the table above. Includes an income tax benefit related to the Mexico Reorganization of \$1.2 million.

(f) Includes \$2.3 million of noncontrolling interests related to the Mexico Reorganization.

Table of Contents**YEAR ENDED 2012 COMPARED TO YEAR ENDED 2011****Pawn Lending Activities**

Pawn lending activities consist of pawn loan fees and service charges from the retail services segment during the period and the profit on disposition of collateral from unredeemed pawn loans, as well as the sale of merchandise acquired from customers directly or from third parties.

The following table sets forth selected data related to the Company's pawn lending activities as of and for the years ended December 31, 2012 and 2011 (dollars in thousands):

Year Ended December 31,	2012			2011		
	Domestic	Foreign	Total	Domestic	Foreign	Total
Pawn loan fees and service charges	\$ 288,161	\$ 12,768	\$ 300,929	\$ 261,829	\$ 20,368	\$ 282,197
Average pawn loan balance outstanding	\$ 225,066	\$ 12,055	\$ 237,121	\$ 205,610	\$ 20,037	\$ 225,647
Amount of pawn loans written and renewed	\$ 916,215	\$ 60,476	\$ 976,691	\$ 869,203	\$ 118,126	\$ 987,329
Annualized yield on pawn loans	128.0%	105.9%	126.9%	127.3%	101.7%	125.1%
Average amount per pawn loan (in ones)	\$ 131	\$ 88	\$ 124	\$ 127	\$ 103	\$ 124
Gross profit margin on disposition of merchandise	33.5%	12.0%	32.1%	36.4%	18.6%	35.0%
Merchandise turnover	2.9	3.9	3.0	3.0	5.0	3.1

As of December 31,

Ending pawn loan balances	\$ 240,573	\$ 4,067	\$ 244,640	\$ 238,399	\$ 15,120	\$ 253,519
Ending merchandise balance, net	\$ 161,655	\$ 5,754	\$ 167,409	\$ 151,274	\$ 10,610	\$ 161,884

Pawn Loan Fees and Service Charges

Consolidated pawn loan balances as of December 31, 2012 were \$244.6 million, which was \$8.9 million, or 3.5%, lower than as of December 31, 2011, due primarily to the reduction in business activities in the Company's foreign pawn operations in 2012. Despite the decrease in the balance at the end of the period, the average consolidated balance of pawn loans outstanding increased by \$11.5 million, or 5.1%, in 2012 compared to 2011.

Domestic Pawn Loan Balances

The average balance of domestic pawn loans outstanding increased by \$19.5 million, or 9.5%, in 2012 compared to 2011, primarily due to the acquisition of 41 domestic retail services locations in late 2011 and in 2012. Higher collateral values from higher average gold prices in preceding periods contributed to the increase in the average amount per loan to \$131 for 2012 compared to \$127 in 2011. The increase in average domestic pawn loan balances was partially offset by lower pawn loan balances in same-store domestic retail services locations in 2012 and a decrease in the length of the loan period in certain markets, as described below.

Domestic pawn loan fees and service charges increased \$26.4 million, or 10.1%, to \$288.2 million in 2012 from \$261.8 million in 2011. The increase was mainly due to the addition of retail services locations, which resulted in higher average pawn loan balances during most of 2012 and contributed \$24.8 million of the increase. The increase was also due to a higher average pawn loan yield due to a decrease in forfeitures, which resulted in better pawn loan performance, and an increase in the statutorily permitted rate in some markets. In addition, pawn loan balances throughout 2012 were lower due to a shortening of the maximum loan term from 90 to 60 days in certain locations in late 2011. This change contributed to the higher annualized loan yields as customer payments of pawn loan fees and service charges occur in higher frequency on the reduced loan balance.

Table of Contents*Foreign Pawn Loan Balances*

The average balance of foreign pawn loans outstanding during 2012 decreased by \$8.0 million, or 39.8%, compared to 2011, primarily due to the closure of 148 pawn lending locations associated with the Mexico Reorganization. In addition, there was a decrease in demand for gold-based pawn loans that was partially offset by an increase in demand for loans on general merchandise, which were introduced in certain of the Company's foreign retail services locations beginning in 2011. Also, during 2012, the Company reduced the loan period from 60 to 45 days, causing a decrease in loans outstanding. The preceding factors led to lower average foreign pawn loan balances, which resulted in a decrease in pawn loan fees and service charges of \$7.6 million, or 37.3%, to \$12.8 million in 2012 from \$20.4 million in 2011. The annualized yield on foreign pawn loan balances increased to 105.9% in 2012 compared to 101.7% in 2011, primarily due to a change in the rates charged on these loans during 2012, a decrease in the maximum loan term from 60 days to 45 days during 2012 and a higher mix of general merchandise loans, which have a higher pawn loan yield than jewelry loans. The average amount per loan decreased to \$88 in 2012 compared to \$103 in 2011, primarily due to the modification of lending rates and the effect of the change in foreign exchange rates.

Proceeds From Disposition of Merchandise

Profit from the disposition of merchandise represents the proceeds received from the disposition of merchandise in excess of the cost of disposed merchandise, which is the Company's cost basis in the loan or the amount paid for purchased merchandise. The following table summarizes the proceeds from the disposition of merchandise and the related profit for the years ended December 31, 2012 and 2011 (dollars in thousands):

	Year Ended December 31,					
	2012			2011		
	Retail	Commercial	Total	Retail	Commercial	Total
Proceeds from disposition	\$ 391,566	\$ 312,201	\$ 703,767	\$ 358,695	\$ 330,189	\$ 688,884
Gross profit on disposition	\$ 144,095	\$ 81,493	\$ 225,588	\$ 137,620	\$ 103,647	\$ 241,267
Gross profit margin	36.8 %	26.1 %	32.1 %	38.4 %	31.4 %	35.0 %
Percentage of total gross profit	63.9 %	36.1 %	100.0 %	57.0 %	43.0 %	100.0 %

The total proceeds from disposition of merchandise increased \$14.9 million, or 2.2%, during 2012 from 2011. The total gross profit from the disposition of merchandise decreased \$15.7 million, or 6.5%, during 2012 from 2011, primarily due to lower gross profit on commercial sales. The overall profit margin percentage decreased to 32.1% in 2012 from 35.0% in 2011, due mainly to a higher cost of goods sold on commercial sales compared to 2011, and to a lesser extent, a decrease in gross profit percentage on retail sales in 2012 compared to 2011. The consolidated merchandise turnover rate decreased slightly to 3.0 times during 2012 compared to 3.1 times in 2011.

Proceeds from retail dispositions of merchandise increased \$32.9 million, or 9.2%, during 2012 from 2011. Domestic retail operations contributed \$21.7 million of the increase, primarily due to the net addition of new retail services locations through organic growth and acquisitions. Foreign retail operations contributed \$11.2 million of the increase, primarily due to increased sales of general merchandise in 2012 compared to 2011. The Company's domestic and foreign operations both experienced a decrease in retail gross profit margin, as the consolidated gross profit margin on the retail disposition of merchandise decreased to 36.8% in 2012 from 38.4% in 2011. The decrease was primarily due to the continued discounting of merchandise prices to encourage retail sales activity.

Proceeds from commercial dispositions decreased \$18.0 million, or 5.4%, during 2012 over 2011. Proceeds from dispositions decreased \$16.7 million and \$1.3 million, respectively, in foreign and domestic markets. The \$16.7 million decrease in foreign proceeds was due mostly to lower volumes of gold sold in 2012 as compared to 2011. The \$1.3 million decrease in domestic markets was composed of a \$5.1 million decrease due to lower volumes of gold sold, primarily as a result of lower purchases of gold from customers during 2012, and, to a lesser extent lower forfeitures of jewelry items during 2012 compared to 2011. This decrease was partially offset by a \$3.9 million increase in proceeds from commercial dispositions from higher sales of diamonds in 2012 as compared to 2011.

Table of Contents

Consolidated gross profit from commercial dispositions decreased \$22.2 million to \$81.5 million, of which domestic operations contributed \$16.2 million and foreign operations contributed \$6.0 million. The gross profit margin on commercial sales decreased to 26.1% in 2012 from 31.4% in 2011. The decrease in gross profit from commercial dispositions was mainly due to lower volumes of gold sold and a higher average cost of gold sold relative to a smaller increase in the market price per ounce of gold sold in both domestic and foreign operations.

The table below summarizes the age of merchandise held for disposition related to the Company's pawn operations before valuation allowance of \$0.9 million and \$0.7 million as of December 31, 2012 and 2011, respectively (dollars in thousands):

	As of December 31,			
	2012		2011	
	Amount	%	Amount	%
Jewelry held for one year or less	\$ 99,466	59.1	\$ 99,683	61.3
Other merchandise held for one year or less	59,914	35.6	56,483	34.8
Total merchandise held for one year or less	159,380	94.7	156,166	96.1
Jewelry held for more than one year	3,283	2.0	2,626	1.6
Other merchandise held for more than one year	5,597	3.3	3,792	2.3
Total merchandise held for more than one year	8,880	5.3	6,418	3.9
Total merchandise held for disposition	\$ 168,260	100.0	\$ 162,584	100.0

Consumer Loan Activities**Consumer Loan Fees**

Consumer loan fees increased \$182.9 million, or 30.5%, to \$781.5 million in 2012 compared to \$598.6 million in 2011. The increase in consumer loan fees is due to growth in the e-commerce segment. The percentage of consumer loan fees from foreign operations to consumer loan fees from the e-commerce segment and total consolidated consumer loan fees increased in 2012 compared to 2011 as the Company's e-commerce business continued to experience growth in the United Kingdom and other foreign markets. In 2012, consumer loan fees from the foreign component of the e-commerce segment were 49.6% of consumer loan fees for the e-commerce segment and 41.8% of consolidated consumer loan fees, up from 47.0% and 37.6% of the e-commerce segment and consolidated consumer loan fees in 2011, respectively.

Consumer Loan Loss Provision

The consumer loan loss provision increased by \$90.6 million, to \$316.3 million in 2012 from \$225.7 million in 2011. The loss provision as a percentage of consumer loan fees increased to 40.5% in 2012 from 37.7% in 2011. The loss provision as a percentage of consumer loan fees increased in both the Company's retail services and e-commerce segments, primarily due to a greater mix of installment loans and line of credit accounts as a percentage of the total consumer loan portfolio. Installment loans and line of credit account portfolios have higher loss rates because they are less seasoned than the Company's short-term loan portfolios. Also contributing to the increase was the expansion of the Company's line of credit and installment loan products in the United States, which has resulted in an increase in new customers. New customers tend to have a higher risk of default than customers with a history of successfully repaying loans. The loss provision as a percentage of consumer loan fees decreased in the Company's foreign e-commerce operations, mainly because the portfolio is beginning to have a higher percentage of customers with established payment

Table of Contents

histories. Despite the decrease in foreign loss provision as a percentage of consumer loan fees in 2012 compared to 2011, because the foreign e-commerce operations experienced higher loss rates than domestic operations, and due to the greater mix of foreign consumer loans in 2012 compared to 2011, the foreign e-commerce operations contributed to the increase in loss provision as a percentage of consumer loan fees in 2012. Future loss rates will continue to be influenced by the mix of new customers to existing customers, the mix of short-term, line of credit and longer-term consumer loan products in the Company's domestic and foreign operations and the mix of foreign consumer loans as a percentage of consolidated consumer loans.

The following table sets forth consumer loan fees by segment, adjusted for the deduction of the loan loss provision for the years ended December 31, 2012 and 2011 (dollars in thousands):

	2012			2011		
	Retail Services	E-Commerce	Total	Retail Services	E-Commerce	Total
Interest and fees on short-term loans	\$ 109,972	\$ 459,793	\$ 569,765	\$ 110,071	\$ 400,810	\$ 510,881

Consumer loan loss provision as a % of consumer loan fees	24.0 %	43.5 %	40.5 %	20.1 %	42.1 %	37.7 %

Combined Consumer Loans

In addition to reporting consumer loans owned by the Company and consumer loans guaranteed by the Company, which are either GAAP items or disclosures required by GAAP, the Company has provided combined consumer loans, which is a non-GAAP measure. In addition, the Company has reported consumer loans written and renewed, which is statistical data that is not included in the Company's financial statements. The Company also reports allowances and liabilities for estimated losses on consumer loans individually and on a combined basis, which are GAAP measures that are included in the Company's financial statements.

Management believes these measures provide investors with important information needed to evaluate the magnitude of potential loan losses and the opportunity for revenue performance of the consumer loan portfolio on an aggregate basis. The comparison of the aggregate amounts from period to period is more meaningful than comparing only the residual amount on the Company's balance sheet since both revenue and the loss provision for loans are impacted by the aggregate amount of loans owned by the Company and those guaranteed by the Company as reflected in its financial statements.

Consumer Loan Balances

The outstanding combined portfolio balance of consumer loans, net of allowances and liability for estimated losses, increased \$71.6 million, or 25.6%, to \$350.7 million at December 31, 2012 from \$279.1 million at December 31, 2011, primarily due to increased demand for all consumer loan products from the e-commerce segment in both domestic and foreign markets.

Table of Contents

The combined loan balance includes \$375.1 million and \$285.9 million at December 31, 2012 and 2011, respectively, of Company-owned consumer loan balances before the allowance for losses of \$85.7 million and \$63.1 million provided in the consolidated financial statements for December 31, 2012 and 2011, respectively. The combined loan balance also includes \$64.7 million and \$59.4 million at December 31, 2012 and 2011, respectively, of consumer loan balances that are guaranteed by the Company, which are not included in the Company's financial statements, before the liability for estimated losses of \$3.5 million and \$3.1 million provided in the consolidated financial statements for December 31, 2012 and 2011, respectively.

The following table summarizes consumer loan balances outstanding as of December 31, 2012 and 2011 (dollars in thousands):

^(a) GAAP measure. The consumer loan balances guaranteed by the Company represent loans originated by third-party lenders through the CSO programs, so these balances are not recorded in the Company's financial statements. However, the Company has established a liability for estimated losses in support of its guarantee of these loans, which is reflected in the table above and included in its consolidated balance sheets.

^(b) Except for allowance and liability for estimated losses, amounts represent non-GAAP measures.

Consumer Loans Written and Renewed

Where permitted by law, a customer may choose to renew a short-term loan contract or extend the due date on a short-term loan before it is considered delinquent by agreeing to pay the current finance charge for the right to make a later payment of the outstanding principal balance plus an additional finance charge. In addition, in some instances, customers agree to repay a new short-term loan in two or three payments, and in these cases the Company considers the obligation to make the first payment a new loan and the obligation to make the second and third payments renewals or extensions of that loan because the customer pays the finance charge due at the time of each payment, similar to a loan that has been renewed or extended. All references to renewals include both renewals and extensions made by customers to their existing short-term loans.

Table of Contents

The amount of combined consumer loans written and renewed was \$3.42 billion in 2012 and increased \$384.5 million, or 12.7%, from \$3.03 billion in 2011, mainly due to an increase in demand for all consumer loan products from the e-commerce segment in domestic and foreign markets.

The average amount per consumer loan increased to \$528 from \$514 during 2012 compared to 2011, due largely to an increase in longer-term installment loans, which typically have a larger average loan amount than short-term loans, and an increase in the average amount of short-term loans. Management expects the average amount per consumer loan to increase in 2013 due to the continued growth in installment lending.

Table of Contents

The following table summarizes the consumer loans written and renewed for the years ended December 31, 2012 and 2011:

(b) Loans guaranteed by the Company represent loans originated by third-party lenders through the CSO programs.

Table of Contents*Consumer Loans Written to New and Existing Customers in the E-commerce Segment*

For its e-commerce segment, the Company measures the amount and number of consumer loans written and renewed that are Company-owned or guaranteed by the Company, as well as the mix between transactions with new customers and existing customers with whom it has a previous relationship. The amount and number of loans written to new customers reflect the Company's ability to acquire customers through its marketing programs and by providing new products, in addition to its ability to enter new markets. The amount and number of loans written to existing customers reflect the Company's ability to retain its customer base through high levels of customer service and customer satisfaction with the products offered by the Company. Loans written to existing customers include both new loans with customers who have borrowed from the Company's e-commerce segment before, either in the current year or in prior years (including customers who may have borrowed through different consumer loan products or brands offered by the e-commerce segment), and loan renewals.

The following table shows, for the e-commerce segment, the amount of consumer loans written and renewed to new customers and to existing customers for the years ended December 31, 2012 and 2011 (dollars in thousands):

	For the year ended December 31,					
	Company Owned ^(a)	2012 Guaranteed by the Company ^{(a)(b)}	Combined ^(a)	Company Owned ^(a)	2011 Guaranteed by the Company ^{(a)(b)}	Combined ^(a)

(a) The disclosure regarding the amount and number of consumer loans written and renewed is statistical data that is not included in the Company's financial statements.

(b) Loans guaranteed by the Company represent loans originated by third-party lenders through the CSO programs.

Consumer Loan Loss Experience

The Company monitors the performance of its consumer loan portfolio and maintains either an allowance or liability for estimated losses on consumer loans (including fees and interest) at a level estimated to be adequate to absorb credit losses inherent in the portfolio. The allowance for losses on the Company's owned consumer loans reduces the outstanding loan balance in the consolidated balance sheets. The liability for estimated losses related to loans guaranteed under the CSO programs, which approximates the fair value of the liability, is included in Accounts payable and accrued expenses in the consolidated balance sheets.

The combined allowance and liability for estimated losses as a percentage of combined consumer loans and fees receivable increased to 20.3% in 2012 from 19.2% in 2011, primarily due to the change in the mix of loans in the e-commerce segment, as discussed in the Consumer loan loss provision section above.

The consumer loan loss provision in 2012 and 2011 was \$316.3 million and \$225.7 million, respectively, and included \$0.4 million and \$0.2 million related to loans guaranteed by the Company through the CSO programs. Consolidated charge-offs, net recoveries, were \$293.2 million and \$201.3 million in 2012 and 2011, respectively.

Table of Contents

The following tables show consumer loan balances and fees and the relationship of the allowance for losses to the combined balances of consumer loans by quarter and for the years ended December 31, 2012 and 2011 (dollars in thousands):

	2012

(a) Represents loans originated by third-party lenders through the CSO programs, which are not included in the Company's financial statements.

(b) Non-GAAP measure.

Due to the nature of the short-term loan product and the high velocity of loans written and renewed, seasonal trends are evidenced in quarter-to-quarter performance. In the typical business cycle, the combined consumer loan loss provision as a percent of combined consumer loans written and renewed is usually lowest in the first quarter and increases throughout the year, with the final two quarters generally combining for the peak levels of loss provision expense. The loss provision as a percentage of combined consumer loans written and renewed increased to 9.3% in 2012 compared to 7.4% in 2011, primarily due to growth of installment loans and line of credit accounts in the United States, both of which have a higher percentage of new customers.

Table of Contents

The following tables show the Company's loss experience relative to the volume of consumer loans by quarter and for the years ended December 31, 2012 and 2011 (dollars in thousands):

	First Quarter	Second Quarter	2012 Third Quarter	Fourth Quarter	Fiscal Year
Consumer loans written and renewed:^(a)					
Company owned	\$ 553,713	\$ 588,422	\$ 627,297	\$ 663,021	\$ 2,432,453

Depreciation and amortization	15,576	2,009	3,694	21,279	4,740	2,704	2,782	10,226
Total	\$ 56,186	\$ 63,246	\$ 5,193	\$ 124,625	\$ 47,829	\$ 39,655	\$ 12,876	\$ 100,360
Year-over-year change %	13.9%	34.3%	6.8%	18.7%	13.4%	27.4%	20.4%	17.8%

Consolidated total expenses increased \$124.6 million, or 18.7%, to \$790.0 million in 2012 compared to \$665.4 million in 2011. Total expenses for the retail services segment increased \$56.2 million, or 13.9%, to \$461.1 million during 2012 compared to \$404.9 million in 2011. Expenses of \$21.1 million related to the Mexico Reorganization are included in the retail services segment total expenses in 2012, which is comprised of operations and administration expenses of \$8.5 million and depreciation and amortization expenses of \$12.6 million. See *General Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest* above for information regarding the Mexico Reorganization. Additionally, in the Retail Services segment, the Company incurred \$13.4 million of charges related to the Ohio Reimbursements in 2012. See *General Recent Developments Voluntary Reimbursements to Ohio Customers* above for further discussion. Total expenses for the e-commerce segment increased \$63.2 million, or 34.3%, to \$247.6 million in 2012. Charges of \$3.9 million related to activities associated with the proposed Enova IPO, which was withdrawn in July 2012, are included in the e-commerce segment in the third quarter. See *General Recent Developments Withdrawal of Proposed Initial Public Offering of Enova International, Inc.* section above for information regarding the withdrawal of this proposed IPO.

Operations and Administration Expenses

Operations and administration expenses for the retail services segment increased \$40.6 million, or 10.9%, to \$413.5 million during 2012 compared to 2011. Personnel expense for the retail services segment increased \$9.7 million, or 4.6%, during 2012, primarily due to normal personnel additions and merit increases due to additional personnel resulting from organic growth and acquisitions and \$2.4 million of employee termination costs related to the Mexico Reorganization. Occupancy expense increased \$15.9 million, or 16.6%, during 2012, primarily due to normal rent increases, organic growth, the locations acquired in late 2011 and 2012 and lease termination costs related to the Mexico Reorganization of approximately \$1.6 million. Other expenses increased \$16.1 million during 2012, primarily due to the Ohio Reimbursements of \$13.4 million and \$4.4 million of charges related to the Mexico Reorganization, consisting of impairment on other assets, inventory shrinkage, loss on sales of assets and other restructuring charges.

Table of Contents

Operations and administration expenses for the e-commerce segment increased \$61.2 million, or 35.4%, to \$234.4 million during 2012. Personnel expense increased \$14.8 million, or 22.9%, primarily due to the addition of new personnel to support the e-commerce segment's growth. Marketing expense increased \$35.5 million, or 48.4%, mainly due to the online lending channel's efforts to expand the Company's customer base in both domestic and foreign markets. Online and other marketing costs, excluding lead purchase costs, increased \$29.2 million, primarily due to higher expenses for television marketing and sponsored search expenses. In addition, lead purchase expenses increased \$6.3 million. The increase in other expenses was primarily due to costs related to the proposed Enova IPO and associated activities, including \$3.9 million of deferred expenses directly related to the proposed IPO, which were expensed during 2012 due to the withdrawal of the Registration Statement on July 25, 2012.

Corporate administration expense increased \$1.5 million, or 2.3%, to \$66.8 million in 2012, primarily due to expenses for due diligence conducted on an abandoned acquisition opportunity in a foreign market, which were \$2.3 million in 2012, partially offset by decreased personnel expense due to lower expenses related to incentives.

Depreciation and Amortization Expenses

Consolidated depreciation and amortization expenses increased \$21.3 million, or 39.3%, primarily due to increased expenses in the retail services segment. Depreciation and amortization expenses at the retail services segment increased \$15.6 million, or 48.6%, to \$47.6 million primarily due to impairment charges and losses in the Company's Mexico operations on property and equipment, indefinite-lived assets and other intangible assets of \$7.5 million (consisting of \$6.0 million of impairment charges recognized in the third quarter of 2012 and \$1.5 million of losses on disposition incurred in the fourth quarter of 2012), \$2.5 million and \$2.6 million, respectively. The remaining increase was mainly due to additional depreciation expenses associated with the Company's new proprietary domestic point-of-sale system, locations acquired in late 2011 and 2012, and normal facility upgrades and remodels. Depreciation and amortization expenses at the e-commerce segment increased \$2.0 million, or 17.8%, to \$13.3 million. Depreciation and amortization expenses for corporate operations increased \$3.7 million, or 34.0%, to \$14.5 million, primarily related to additional depreciation expenses associated with the Company's new proprietary domestic point-of-sale system.

Expenses related to the Reorganization of Mexico-based Pawn Operations

As discussed in Operations and administration expenses and Depreciation and amortization expenses above, in connection with the Mexico Reorganization, the Company recognized \$28.9 million in reorganization charges during 2012.

The following table summarizes the charges recognized for the year ended December 31, 2012 related to the Mexico Reorganization (dollars in thousands):

Type of expense	Description	Amount
Depreciation and amortization expenses	Impairment and losses on property and equipment	\$ 7,478
Provision for income taxes	Deferred tax asset valuation allowance	7,161
Depreciation and amortization expenses	Impairment of intangible assets	5,086
Operations and administration expenses	Employee termination costs	2,424
Operations and administration expenses	Inventory shrinkage and loss on sale of assets	2,395
Operations and administration expenses	Lease termination costs	1,628
Operations and administration expenses	Impairment of other assets	1,211
Operations and administration expenses	Other restructuring charges	798
Revenue	Uncollectible receivables	692
Total charges related to the Mexico Reorganization		\$ 28,873

Table of Contents

Interest Expense

Interest expense increased \$3.6 million, or 14.1%, to \$29.1 million in 2012 compared to \$25.5 million in 2011. The average amount of debt outstanding increased \$53.4 million to \$519.8 million during 2012 from \$466.4 million in 2011, primarily due to borrowings associated with two acquisitions in the second half of 2012. The Company's effective blended borrowing rate decreased to 4.8% in 2012 from 4.9% in 2011. The Company incurred non-cash interest expense of \$3.8 million in 2012 compared to \$3.6 million in 2011 from the 2009 Convertible Notes due 2029 (the 2009 Convertible Notes) and debt issuance costs. See Item 8. Financial Statements and Supplementary Data Note 13 for further discussion of the 2009 Convertible Notes.

Income Taxes

The Company's effective tax rate was 45.4% in 2012 compared to 37.9% in 2011. During 2012, the Company recorded a deferred tax asset of \$9.3 million related to the Company's excess tax basis over its basis for financial reporting purposes in the stock of Creazione. The Company expects the basis difference will reverse in the foreseeable future as a result of the liquidation of the remaining assets of Creazione. In addition, the Company recorded a valuation allowance of \$21.8 million, including \$12.0 million related to the net deferred tax assets at its Mexico-based pawn operations (see General Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest above for further information related to the Mexico Reorganization), \$0.5 million related to the net deferred tax assets in Mexico generated by the e-commerce segment, and \$9.3 million related to the deferred tax asset associated with the Creazione stock basis difference. Without the effect of these items the Company's effective tax rate for 2012 would have been 38.6%. The increase of 0.7% over the 2011 rate was primarily due to increased losses from foreign operations subject to lower foreign statutory tax rates.

Net Loss Attributable to the Noncontrolling Interest

Net loss attributable to the noncontrolling interest increased by \$5.0 million from 2011 to 2012, primarily due to increased losses in foreign retail services operations and expenses related to the Mexico Reorganization.

Prior to 2012, the Company had a contractual relationship with a third-party entity, Huminal, S.A. de C.V., a Mexican *sociedad anónima de capital variable* (Huminal), to compensate and maintain the labor force of its Mexico pawn operations. On January 1, 2012, the labor force of the Mexico pawn operations was transferred from Huminal to a wholly-owned subsidiary of Creazione. However, Prenda Fácil qualifies as the primary beneficiary of Huminal in accordance with FASB ASC 810. Therefore, the results and balances of Huminal are consolidated and allocated to net income attributable to noncontrolling interests. Upon completing the purchase of the noncontrolling interest in Creazione in September 2012, Huminal became the only remaining noncontrolling interest reported by the Company.

Table of Contents**YEAR ENDED 2011 COMPARED TO YEAR ENDED 2010****Pawn Lending Activities**

The following table sets forth selected data related to the Company's pawn lending activities as of and for the years ended December 31, 2011 and 2010 (dollars in thousands):

Year Ended December 31,	2011			2010		
	Domestic	Foreign	Total	Domestic	Foreign	Total
Pawn loan fees and service charges	\$ 261,829	\$ 20,368	\$ 282,197	\$ 221,335	\$ 22,378	\$ 243,713
Average pawn loan balance outstanding	\$ 205,610	\$ 20,037	\$ 225,647	\$ 166,163	\$ 21,783	\$ 187,946
Amount of pawn loans written and renewed	\$ 869,203	\$ 118,126	\$ 987,329	\$ 689,476	\$ 89,746	\$ 779,222
Annualized yield on pawn loans	127.3%	101.7%	125.1%	133.2%	102.7%	129.7%
Average amount per pawn loan (in ones)	\$ 127	\$ 103	\$ 124	\$ 118	\$ 112	\$ 117
Gross profit margin on disposition of merchandise	36.4%	18.6%	35.0%	36.7%	18.0%	35.0%
Merchandise turnover	3.0	5.0	3.1	3.0	7.7	3.2

As of December 31,

Ending pawn loan balances	\$ 238,399	\$ 15,120	\$ 253,519	\$ 197,301	\$ 20,101	\$ 217,402
Ending merchandise balance, net	\$ 151,274	\$ 10,610	\$ 161,884	\$ 124,399	\$ 6,557	\$ 130,956

Pawn Loan Fees and Service Charges

Consolidated pawn loan balances at December 31, 2011 were \$253.5 million, which was \$36.1 million, or 16.6%, higher than at December 31, 2010. The average consolidated balance of pawn loans outstanding increased by \$37.7 million, or 20.1%, for 2011 compared to the year ended December 31, 2010 (2010).

Domestic Pawn Loan Balances

The average balance of domestic pawn loans outstanding during 2011 increased by \$39.4 million, or 23.7%, compared to 2010, primarily due to pawn loan growth in existing domestic retail services locations and additional pawn loan balances resulting from the net addition of new retail services locations as a result of acquisitions in the fourth quarters of 2011 and 2010, respectively. In late 2011, the Company acquired a seven-store chain of pawn lending locations, and in the fourth quarter of 2010, the Company acquired a 39-store chain of pawn lending locations. Higher average gold prices contributed to the growth in pawn loan balances in domestic markets, as increased collateral values supported customer demand, resulting in an increase in the average amount per loan, to \$127 for 2011 compared to \$118 in 2010. Domestic pawn loan fees and service charges increased \$40.5 million, or 18.3%, to \$261.8 million in 2011 from \$221.3 million in 2010. The increase was mainly due to higher average pawn loan balances during 2011, partially offset by lower annualized yield on pawn loans. The lower pawn loan yield in the domestic portfolio was mainly due to a higher concentration of pawn loans in states with lower statutory loan yields.

Foreign Pawn Loan Balances

The average balance of foreign pawn loans outstanding during 2011 decreased by \$1.7 million, or 8.0%, compared to 2010. Foreign pawn loan fees and service charges decreased \$2.0 million, or 9.0%, to \$20.4 million in 2011 from \$22.4 million in 2010. The decrease in the average balance of foreign pawn loan balances outstanding was mainly due to lower amounts of loans secured by jewelry and increased forfeiture rates.

Table of Contents**Proceeds From Disposition of Merchandise**

The following table summarizes the proceeds from the disposition of merchandise and the related profit for the years ended December 31, 2011 and 2010 (dollars in thousands):

	Year Ended December 31,					
	2011			2010		
	Retail	Commercial	Total	Retail	Commercial	Total
Proceeds from disposition	\$ 358,695	\$ 330,189	\$ 688,884	\$ 313,206	\$ 274,984	\$ 588,190
Gross profit on disposition	\$ 137,620	\$ 103,647	\$ 241,267	\$ 123,701	\$ 82,022	\$ 205,723
Gross profit margin	38.4%	31.4%	35.0%	39.5%	29.8%	35.0%
Percentage of total gross profit	57.0%	43.0%	100.0%	60.1%	39.9%	100.0%

The total proceeds from disposition of merchandise increased \$100.7 million, or 17.1%, during 2011 from 2010, and the total profit from the disposition of merchandise increased \$35.5 million, or 17.3%, during 2011 from 2010. The increase in proceeds and profit was mainly due to an increase in merchandise available for sale generated from forfeitures from the Company's higher pawn loan balances and an increase in merchandise purchased from customers and third parties. The consolidated merchandise turnover rate decreased slightly to 3.1 times in 2011 from 3.2 times in 2010.

Proceeds from retail sales, including jewelry, increased \$45.5 million, or 14.5%, during 2011 compared to 2010. The increase was primarily due to organic growth in the Company's domestic retail operations and the acquisition of retail services locations in late 2010 and 2011. However, the profit margin on retail sales decreased slightly to 38.4% in 2011 from 39.5% in 2010, due primarily to discounting of merchandise prices to encourage retail sales activity.

Proceeds from commercial dispositions increased \$55.2 million, or 20.1%, in 2011 compared to 2010. The profit margin on commercial sales increased to 31.4% in 2011 from 29.8% in 2010. These increases were mainly due to a higher average market price of gold and diamonds sold, which more than offset a lower volume of gold sold during 2011 compared to 2010 as a result of lower forfeiture rates on the Company's pawn loan portfolio secured by jewelry.

The table below summarizes the age of merchandise held for disposition related to the Company's pawn operations before valuation allowance of \$0.7 million as of both December 31, 2011 and 2010 (dollars in thousands):

	As of December 31,			
	2011		2010	
	Amount	%	Amount	%
Jewelry held for one year or less	\$ 99,683	61.3	\$ 85,117	64.7
Other merchandise held for one year or less	56,483	34.8	40,815	31.0
Total merchandise held for one year or less	156,166	96.1	125,932	95.7
Jewelry held for more than one year	2,626	1.6	2,685	2.0
Other merchandise held for more than one year	3,792	2.3	3,039	2.3
Total merchandise held for more than one year	6,418	3.9	5,724	4.3
Total merchandise held for disposition	\$ 162,584	100.0	\$ 131,656	100.0

Table of Contents**Consumer Loan Activities****Consumer Loan Fees**

Consumer loan fees increased \$107.6 million, or 21.9%, to \$598.6 million in 2011 compared to \$491.0 million in 2010. The increase in consumer loan fees was primarily due to growth in the e-commerce segment from lending in the foreign markets in which the Company operates and, to a lesser extent, the expansion of the Company's installment loan and line of credit products in the United States, offset by a decrease in revenue from domestic markets in which consumer loans are no longer offered due to changes in laws and the absence of fees from the Company's MLOC services business. The Company stopped providing MLOC services in the United States on behalf of a third-party lender in October 2010 when the lender discontinued offering MLOC advances.

Consumer Loan Loss Provision

The consumer loan loss provision increased by \$43.3 million to \$225.7 million in 2011 from \$182.4 million in 2010, primarily due to higher consumer loan balances in 2011 compared to 2010. The loss provision as a percentage of consumer loan fees increased to 37.7% in 2011 from 37.2% in 2010, primarily due to increased charge-offs in the Company's retail services segment as a result of growth in loans to new customers that have less established payments histories. The loss provision as a percentage of consumer loan fees in the e-commerce segment was slightly lower in 2011 as compared to 2010, primarily due to a slightly lower loss provision in domestic markets, which was attributed to the maturing of the short-term loan portfolio in 2011, leading to lower losses, partially offset by a higher loss provision as a percentage of consumer loan fees in foreign markets due to growth in loans written and a higher percentage of new customers.

The following table sets forth consumer loan fees by segment, adjusted for the deduction of the loan loss provision for the years ended December 31, 2011 and 2010 (dollars in thousands):

	2011			2010		
	Retail Services	E-Commerce	Total	Retail Services	E-Commerce	Total
Interest and fees on short-term loans	\$ 110,071	\$ 400,810	\$ 510,881	\$ 112,679	\$ 332,541	\$ 445,220
Interest and fees on line of credit accounts		30,590	30,590		33,655	33,655
Interest and fees on installment loans	9,121	48,054	57,175	1,294	10,783	12,077
Consumer loan fees	\$ 119,192	\$ 479,454	\$ 598,646	\$ 113,973	\$ 376,979	\$ 490,952

Consumer loan fees, net of loss provision	\$ 95,191	\$ 277,767	\$ 372,958	\$ 96,536	\$ 212,022	\$ 308,558
Year-over-year change - \$	\$ (1,345)	\$ 65,745	\$ 64,400	\$ 181	\$ 67,337	\$ 67,518
Year-over-year change - %	(1.4)%	31.0 %	20.9 %	0.2 %	46.5 %	28.0 %
Consumer loan loss provision as a % of consumer loan fees	20.1 %	42.1 %	37.7 %	15.3 %	43.8 %	37.2 %

Combined Consumer Loans**Consumer Loan Balances**

The outstanding combined portfolio balance of consumer loans, net of allowances and liability for estimated losses, increased \$90.0 million, or 47.6%, to \$279.1 million at December 31, 2011 from \$189.1 million at December 31, 2010, primarily due to increased demand for consumer loan products in domestic and foreign markets in both the retail services and e-commerce segments, the expansion of the Company's installment loan product in the domestic and

Table of Contents

United Kingdom markets and the expansion of the Company's line of credit products in the United States.

The combined loan balance includes \$285.9 million and \$178.3 million at December 31, 2011 and 2010, respectively, of Company-owned consumer loan balances, before the allowance for losses of \$63.1 million and \$38.9 million, which has been provided in the consolidated financial statements for December 31, 2011 and 2010, respectively. The combined loan balance also includes \$59.4 million and \$52.6 million at December 31, 2011 and 2010, respectively, of consumer loan balances that are guaranteed by the Company, which are not included in the Company's financial statements, before the liability for estimated losses of \$3.1 million and \$2.8 million, which has been provided in the consolidated financial statements for December 31, 2011 and 2010, respectively.

The following table summarizes consumer loan balances outstanding as of December 31, 2011 and 2010 (dollars in thousands):

(a) GAAP measure. The consumer loan balances guaranteed by the Company represent loans originated by third-party lenders through the CSO programs, so these balances are not recorded in the Company's financial statements. However, the Company has established a liability for estimated losses in support of its guarantee of these loans, which is reflected in the table above and included in its consolidated balance sheets.

(b) Except for allowance and liability for estimated losses, amounts represent non-GAAP measures.

Table of Contents

Consumer Loans Written and Renewed

The amount of combined consumer loans written and renewed increased \$108.9 million, or 3.7%, to \$3.03 billion in 2011, from \$2.92 billion in 2010, due primarily to growth in consumer loans written and renewed from the e-commerce segment in foreign markets, growth in installment loans in the domestic and United Kingdom markets, and, to a lesser extent, the expansion of the Company's line of credit product in the United States. These increases more than offset a decrease in loans written and renewed in domestic markets in which consumer loans are no longer offered due to changes in laws and the absence of consumer loans written and renewed in the MLOC services business.

The average amount per consumer loan increased to \$514 from \$431 during 2011 over 2010, due to the absence of loans purchased through the MLOC services business, which generally have a lower average loan amount per loan, and an increase in longer-term installment loans, which typically have a higher average loan amount than short-term loans.

(a) The disclosure regarding the amount and number of consumer loans written and renewed is statistical data that is not included in the Company's financial statements.

(b) Loans guaranteed by the Company represent loans originated by third-party lenders through the CSO programs.

(c) 2010 amounts include MLOC receivables, which are participation interests in receivables acquired from a third-party lender in connection with the MLOC services the Company offered. The Company stopped providing MLOC services in the United States on behalf of a third-party lender in October 2010.

Table of Contents*Consumer Loans Written to New and Existing Customers in the E-commerce Segment*

Consumer Loan Loss Experience

The combined allowance and liability for estimated losses as a percentage of combined consumer loans and fees receivable increased in 2011 to 19.2% from 18.1% in 2010, predominately due to the change in the mix of loans in the e-commerce segment, as discussed in the Consumer loan loss provision section above.

The consumer loan loss provision in 2011 was \$225.7 million, which was composed of \$225.5 million related to Company-owned consumer loans and \$0.2 million related to loans guaranteed by the Company through CSO programs. The consumer loan loss provision in 2010 was \$182.4 million, which was composed of \$182.5 million related to Company-owned consumer loans, offset by \$0.1 million related to loans guaranteed by the Company through CSO programs. Charge-offs, net of recoveries, were \$201.3 million and \$170.9 million in 2011 and 2010, respectively.

Due to the nature of the short-term loan product and the high velocity of loans written and renewed, seasonal trends are evidenced in quarter-to-quarter performance. In the typical business cycle, the combined consumer loan loss provision as a percent of combined consumer loans written and renewed is usually lowest in the first quarter and increases throughout the year, with the final two quarters generally combining for the peak levels of loss provision expense. The loss provision as a percentage of combined loans written and renewed increased to 7.4% in 2011, compared to 6.2% in 2010, due to growth in loans written and renewed in foreign e-commerce markets and the growth of the installment loan and line of credit products, which have a higher percentage of new customers, as discussed in the Consumer loan loss provision section above.

Table of Contents

Total expenses	\$ 404,887	\$ 184,384	\$ 76,146	\$ 665,417	\$ 357,058	\$ 144,729	\$ 63,270	\$ 565,057
Year-over-year change \$								
Operations and administration	\$ 43,089	\$ 36,951	\$ 10,094	\$ 90,134	\$ 23,870	\$ 47,889	\$ 1,319	\$ 73,078
Depreciation and amortization	4,740	2,704	2,782	10,226	300	1,262	772	2,334
Total	\$ 47,829	\$ 39,655	\$ 12,876	\$ 100,360	\$ 24,170	\$ 49,151	\$ 2,091	\$ 75,412
Year-over-year change %	13.4%	27.4%	20.4%	17.8%	7.3%	51.4%	3.4%	15.4%

Total expenses increased \$100.4 million, or 17.8%, to \$665.4 million in 2011 compared to 2010. Total expenses at the retail services segment increased \$47.8 million, or 13.4%, to \$404.9 million during 2011 compared to \$357.1 million in 2010. Total expenses for the e-commerce segment increased \$39.7 million, or 27.4%, to \$184.4 million in 2011 compared to \$144.7 million in 2010.

Operations and Administration Expenses

Operations and administration expenses for the retail services segment increased \$43.1 million, or 13.1%, to \$372.9 million during 2011 compared to 2010. Personnel expense for the retail services segment increased \$22.3 million, or 11.8%, during 2011, which was primarily related to increased personnel expense as a result of the addition of 45 retail services locations, net of closures, from October 1, 2010 to December 31, 2011, and to normal personnel additions and merit increases. Occupancy expense increased \$8.5 million, or 9.7%, during 2011, which mainly related to additional locations and to normal rent increases. The increase in other operating expenses was due in part to adjustments made by the Company during 2011 totaling \$2.5 million in the foreign operations that are included in the retail services segment, predominately related to the impairment of the existing point-of-sale system, which the Company replaced in 2011, as well as adjustments for other impaired assets, severance and miscellaneous operating expenses. In addition, other operating expenses increased due to increased maintenance, travel and office expenses and general expense increases.

Operations and administration expenses for the e-commerce segment increased \$37.0 million, or 27.1%, to \$173.1 million during 2011 compared to \$136.2 million in 2010. Personnel expense increased \$9.3 million, or 16.7%, primarily due to the addition of new personnel to support the e-commerce segment's growth in foreign markets. Marketing expense increased \$14.1 million, or 23.9%, mainly due to the online lending channel's efforts to expand the Company's customer base in both domestic and foreign markets. The increase in other expenses was primarily due to increased legal expenses and costs related to the proposed Enova IPO and associated activities. See General Recent Developments Withdrawal of Proposed Initial Public Offering of Enova International, Inc. section above for information regarding the withdrawal of this proposed IPO.

Table of Contents

Corporate administration expenses increased \$10.1 million, or 18.3%, to \$65.3 million 2011 compared to \$55.2 million in 2010, primarily due to increased personnel expense.

Depreciation and Amortization Expenses

Consolidated depreciation and amortization expenses increased \$10.2 million, or 23.3%, primarily due to increased expenses in the retail services segment and in corporate operations. Depreciation and amortization expense at the retail services segment increased \$4.7 million, or 17.4%, to \$32.0 million mainly due to additional depreciation expenses associated with new and acquired locations and investments in facility upgrades, relocations and remodels. Depreciation and amortization expenses at the e-commerce segment increased \$2.7 million, or 31.6%, to \$11.3 million primarily related to systems development in support of new products, as well as normal system upgrades. Depreciation and amortization expenses for corporate operations increased \$2.8 million or 34.5%, to \$10.9 million, primarily related to additional depreciation expenses associated with the Company's new proprietary domestic point-of-sale system, which was placed in service in July 2011.

Interest Expense

Interest expense increased \$3.2 million, or 14.2%, to \$25.5 million in 2011, compared to \$22.3 million in 2010, primarily due to an increase of \$47.0 million in the average amount of debt outstanding, to \$466.4 million in 2011 from \$419.4 million during 2010. The increase in the average amount of debt outstanding was primarily due to additional funding under the Company's line of credit to support growth in the Company's pawn loan and consumer loan balances. In addition, an acquisition in the fourth quarter of 2010 was funded by borrowings under the Company's line of credit of approximately \$59.6 million. The Company's effective blended borrowing cost was 4.9% for both the years ended December 31, 2011 and 2010. The Company incurred non-cash interest expense of \$3.6 million in 2011 compared to \$3.3 million in 2010, from the 2009 Convertible Notes due 2029 (the 2009 Convertible Notes) and debt issuance costs. See Item 8. Financial Statements and Supplementary Data Note 13 for further discussion of the 2009 Convertible Notes.

Foreign Currency Transaction Gain/Loss

The Company is impacted by foreign currency transactions due to certain of its subsidiaries conducting business in currencies other than the U.S. dollar. In 2011, the Company recorded a foreign currency transaction loss of approximately \$1.3 million related to its operations in foreign countries compared to a \$0.5 million loss in 2010.

Income Taxes

The Company's effective tax rate was 37.9% for 2011 compared to 37.5% for 2010. The increase in the Company's effective tax rate for 2011 was mainly attributable to an increase in state taxes.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

The Company manages its liquidity and capital positions to satisfy three primary objectives. First, near-term liquidity is managed to ensure that adequate resources are available to fund the Company's seasonal working capital growth, which is driven by demand for the Company's loan products. Second, longer-term refinancing strategies are used to manage the Company's debt refinancing risk, and third, long-term capital strategies are used to provide the capital necessary to fund the Company's long-term strategic growth objectives. Near-term liquidity is provided through operating cash flows and the utilization of borrowings under the Company's unsecured bank line of credit. Long-term liquidity is provided through long-term debt financing and the issuance of debt securities. Long-term capital needs are managed by assessing the growth capital needs of the Company over time and balancing those needs against the internal and external capital resources available. Longer-term refinancing risk is managed by staggering the Company's debt maturities and issuing new long-term debt securities from time to time as market conditions permit.

During 2013, the Company's Domestic and Multi-currency Line amount will decrease by \$100.0 million, from \$380.0 million to \$280.0 million. The decrease is scheduled to occur on May 29, 2013. However, the Company is assessing its long-term debt needs with respect to its line of credit and may obtain additional financing, by entering into a new domestic line of credit or otherwise, to preserve this additional debt capacity and accommodate new growth.

The Company historically has generated significant cash flow through normal operating activities for funding both long-term and short-term needs. As a result, operating cash flow is expected to meet the needs of near-term operating objectives without reliance on short-term credit instruments such as warehouse lines of credit, asset-backed securities or commercial paper. Management considers additional sources of long-term funding when strategic transactions, such as large scale acquisitions, are necessary or desirable. Historically, funding for long-term strategic transactions has been supplemented by the Company's long-term unsecured bank line of credit or other long-term security issuances.

As of December 31, 2012, 2011 and 2010, the Company was in compliance with all financial ratios, covenants and other requirements set forth in its debt agreements. A significant decline in demand for the Company's products and services or other unexpected changes in financial condition may result in a violation of the Company's debt agreements that could result in an acceleration of the Company's debt, increase the Company's borrowing costs, and possibly adversely affect the Company's ability to renew its existing bank line of credit or obtain new credit on favorable terms in the future. The Company does not anticipate a significant decline in demand for its services and has historically been successful in maintaining compliance with, and renewing, its debt agreements. To the extent the Company experiences short-term or long-term funding disruptions; the Company has the ability to address these risks through a variety of adjustments related to the current assets of the business, which predominately have short durations. Such actions could include the immediate liquidation of jewelry inventory, which is comprised primarily of gold items that would be refined into pure gold and sold on the open market and adjustments to short-term lending to consumers that would reduce cash outflow requirements while increasing cash inflows through repayments of consumer loans. Additional alternatives may include the sale of assets, reductions in capital spending and/or the issuance of debt or equity securities, all of which could be expected to generate additional liquidity.

Table of Contents**Cash Flows**

The Company's cash flows and other key indicators of liquidity are summarized as follows (dollars in thousands):

	Year Ended December 31,		
	2012	2011	2010
Cash flows provided by operating activities	\$ 518,281	\$ 454,004	\$ 359,160
Cash flows used in investing activities			
Pawn loans	\$ 2,449	\$ (54,912)	\$ (13,253)
Consumer loans	(375,032)	(297,029)	(217,022)
Acquisitions	(78,217)	(49,539)	(82,263)
Property and equipment additions	(79,399)	(75,049)	(59,697)
Proceeds from sale of assets	5,471	-	-
Investment in equity securities	(1,000)	(5,000)	(5,652)
Other investing	(926)	(515)	822
Total cash flows used in investing activities	\$ (526,654)	\$ (482,044)	\$ (377,065)
Cash flows provided by financing activities	\$ 7,028	\$ 51,643	\$ 10,222
Working capital	\$ 710,566	\$ 644,891	\$ 491,298
Current ratio	4.8x	4.8x	4.8x
Merchandise turnover	3.0x	3.1x	3.2x
Total debt to adjusted EBITDA ratio ^(a)	1.8x	1.8x	1.8x

^(a) Non-GAAP measure. See Overview Adjusted EBITDA section for a reconciliation of adjusted EBITDA to net income attributable to the Company.

Cash Flows from Operating Activities

Net cash provided by operating activities increased \$64.3 million, or 14.2%, from \$454.0 million in 2011 to \$518.3 million in 2012. A significant component of the increase in net cash provided by operating activities during 2012 compared to 2011 was a \$90.6 million increase in the consumer loan loss provision, a non-cash expense, primarily as a result of loan growth in the e-commerce segment which is reflected in investing activities. In addition, depreciation and amortization expenses, which are also non-cash expenses, increased \$21.3 million, primarily due to the disposition activities related to the Mexico Reorganization, the implementation of the Company's domestic point-of-sale system, which was placed in service in July 2011, and the investments in retail services locations in 2012 and 2011. Also, a decrease in merchandise purchased from customers and other third parties increased cash provided by operating activities by \$17.4 million compared to 2011. The increase in cash provided by operating activities was partially offset by decreases in cash provided by current and deferred income taxes. Prior year results were positively impacted by a \$12.3 million and \$25.6 million current and deferred tax benefit, respectively, which related to lower income tax payments in 2011, resulting from a change in the timing of tax deductions for internally-developed software costs as well as the impact of increased bonus depreciation rules in effect for all of 2011. The increase in cash flows from operating activities was also offset by a decrease of \$33.5 million in net income.

The Company recognized \$28.9 million of charges in 2012 related to the Mexico Reorganization, which did not have a material impact on the Company's cash flows from operations. The primary components of these charges are reflected as a \$12.6 million increase in depreciation and amortization and a \$7.2 million decrease to deferred income taxes, both of which are non-cash items. The remaining charges are reflected in changes to other operating assets and liabilities in the consolidated statement of cash flows. The Company does not expect to incur material charges or changes in cash flows related to the Mexico Reorganization in 2013.

Table of Contents

Net cash provided by operating activities increased \$94.8 million, or 26.4%, from \$359.2 million in 2010 to \$454.0 million in 2011. A significant component of the increase in net cash provided by operating activities was a \$19.9 million increase in net income during 2011. An additional \$43.3 million of net cash provided by operating activities during 2011 was generated by an increase in the consumer loan loss provision, a non-cash expense, primarily as a result of increased loan volume in the e-commerce segment. Increases in current income taxes payable and deferred income taxes provided cash of \$34.4 million in 2011 compared to 2010. The increase was primarily due to the implementation in 2011 of a change in the timing of tax deductions related to internally developed software costs as well as the impact of increased bonus depreciation rules in effect for all of 2011.

Management believes that its expected cash flows from operations and available cash balances and borrowings will be sufficient to fund the Company's operating liquidity needs. In connection with the final liquidation of Creazione, the Company may take a worthless stock deduction for tax purposes on its 2013 federal income tax return for its tax basis in the stock of Creazione by approximately \$30.0 million. Management believes that the deduction may be treated as an ordinary loss, which would reduce its cash taxes paid in 2013. However, if the deduction is determined to be a capital loss, and the Company does not have capital gains to offset the loss, the Company's cash taxes paid will not be reduced. The Company is pursuing a Private Letter Ruling with the Internal Revenue Service to confirm that the deduction should be treated as an ordinary loss.

Cash Flows from Investing Activities

Net cash used in investing activities increased \$44.7 million, or 9.3%, from \$482.0 million in 2011 to \$526.7 million in 2012. The primary components of this increase were \$78.2 million of cash used for acquisition activity as described below, an increase of \$28.7 million over 2011, and \$78.0 million of additional cash used in consumer loan lending activities, primarily as a result of growth in loans written from the Company's e-commerce business. These uses were offset by a \$57.4 million increase in cash provided by pawn lending activities, primarily due to a lower rate of growth in the Company's domestic pawn loan portfolio, an increase in pawn loans repaid and lower balances in the Mexico pawn loan portfolio as a result of the Mexico Reorganization.

On September 27, 2012, the Company entered into an agreement to acquire substantially all of the assets of a 25-store chain of pawn lending locations located in Kentucky, North Carolina, and Tennessee. The Company assumed the economic benefits of all of these pawnshops by operating them under management agreements that commenced on September 27, 2012, and the final agreement terminated on December 16, 2012. The aggregate cash consideration for the transaction, which was funded with borrowings under the Company's line of credit, was approximately \$55.1 million, of which \$52.0 million was paid in September 2012. The remaining \$3.1 million of consideration was paid during the fourth quarter of 2012. The goodwill of \$31.5 million arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and these pawn lending locations.

On October 25, 2012, the Company completed the acquisition of substantially all of the assets of a nine-store chain of pawn lending locations located in Arizona. The aggregate cash consideration paid in 2012 for this transaction, which was funded with borrowings under the Company's line of credit, was approximately \$15.4 million. The goodwill of \$7.7 million arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and these pawn lending locations.

Also, during 2012, in addition to the two acquisitions described above, the Company acquired three domestic retail services locations, which primarily operate as pawn lending businesses, for approximately \$3.3 million, and the e-commerce segment acquired approximately \$0.2 million of intangible assets. Similar acquisition activity in the retail services segment totaled approximately \$0.3 million in 2011 for the purchase of one retail services location.

Table of Contents

Net cash used in investing activities increased \$104.9 million, or 27.8%, from \$377.1 million for 2010 to \$482.0 million for 2011. The combination of consumer loans made or purchased net of consumer loans repaid increased the Company's use of cash by \$80.0 million when compared to 2010, primarily due to increases in consumer loans made or purchased in the foreign markets of the Company's e-commerce segment. Cash used in pawn lending activities increased \$41.7 million due to growth in the Company's domestic pawn portfolio.

During 2011, cash used for acquisition activities decreased by \$32.7 million, or 39.8%, to \$49.5 million in 2011 due to a lower aggregate amount paid for acquisitions in 2011 compared to \$82.3 million in 2010. Details of the acquisitions that occurred in 2011 and 2010 are explained below.

During 2011, the Company acquired a seven-store chain of pawn lending locations located in Tucson, Flagstaff and Yuma, Arizona. The Company paid aggregate consideration of \$53.6 million, which was funded with borrowings under the Company's line of credit, including \$49.3 million that was paid during 2011 and \$4.3 million that was paid in 2012 following the receipt of applicable licensing and regulatory approvals. The goodwill related to this acquisition was \$26.7 million.

During 2010, the Company acquired a 39-store chain of pawn lending locations in Washington and Arizona under the names Maxit and Pawn X-Change. The consideration for the acquisition included cash consideration of approximately \$58.2 million, which was funded with borrowings under the Company's line of credit, and 366,097 shares of the Company's common stock, with a fair value of \$10.9 million as of the closing date. The goodwill related to this acquisition was \$26.2 million.

Additionally, in 2010, the Company made supplemental payments of approximately \$21.2 million related to the Debit Plus, LLC (formerly known as Primary Innovations) acquisition that occurred in 2008. See Item 8. Financial Statements and Supplementary Data Note 3 for further discussion of these acquisitions.

During 2011, expenditures for property and equipment used \$75.0 million of cash, compared to \$59.7 million in 2010. The \$15.3 million additional use of cash primarily related to increased expenditures at the Company's retail services locations, including the remodeling of existing locations, the relocation of other retail services locations and point-of-sale system enhancements in the Company's domestic and foreign retail services locations.

Management anticipates that expenditures for property and equipment related to its domestic and foreign operations for 2013 will be between \$60 million and \$70 million, excluding acquisitions or retail services locations, primarily for the remodeling of stores, facility upgrades, technology infrastructure and the establishment of approximately 20 to 25 new retail services locations.

Cash Flows from Financing Activities

Net cash provided by financing activities decreased \$44.6 million, or 86.4%, from \$51.6 million of cash provided in 2011 to \$7.0 million provided in 2012. This was primarily due to a \$41.8 million decrease in the amount of borrowings, net of repayments and debt issuance costs, in 2012 compared to 2011. During 2012, the Company used \$4.6 million more in 2012 than 2011 for the repurchase of shares of Company common stock through open market transactions, pursuant to a 2011 authorization by the Board of Directors of the Company. Additionally, the Company used \$5.6 million of cash for the purchase of the outstanding shares of minority interest shareholders associated with the Company's Mexico-based pawn operations. See General Recent Developments Reorganization of Mexico-based Pawn Operations and Purchase of Noncontrolling Interest for additional information.

On August 28, 2012, the Company issued and sold a total of \$52.0 million in long-term notes in two series, including \$47.0 million aggregate principal amount of its 6.00% Series A Senior Notes due August 28, 2019 (the Series A Notes) and \$5.0 million aggregate principal amount of its 6.58% Series B Senior Notes due August 28, 2022 (the Series B Notes, and together with the Series A Notes, the Notes). The Notes were sold in a private placement

Table of Contents

pursuant to a Note Purchase Agreement dated August 28, 2012 by and among the Company and certain purchasers listed therein. The Notes are senior unsecured obligations of the Company. The Series A Notes are payable in five annual installments of \$9.4 million beginning August 28, 2015, and the Series B Notes are payable in seven annual installments of approximately \$0.7 million beginning August 28, 2016. In addition, the Company may, at its option, prepay all or a minimum portion of \$1.0 million of the Notes at a price equal to the principal amount thereof plus a make-whole premium and accrued interest. The Notes are guaranteed by all of the Company's U.S. subsidiaries. The Company used a portion of the net proceeds of the offering to repay existing indebtedness, including outstanding balances under the Domestic and Multi-Currency Line, and used the remaining portion for general corporate purposes.

Net cash provided by financing activities increased \$41.4 million, or 405.2%, from \$10.2 million for 2010 to \$51.6 million for 2011. During 2011, the Company's borrowings, net of repayments and debt issuance costs, were \$50.2 million greater than in 2010. Net cash provided by financing activities in 2011 included proceeds of \$50.0 million for long-term debt issued by the Company in March 2011 (as more fully described below) and \$65.8 million of net proceeds drawn under its line of credit. The Company made debt payments of \$38.1 million during 2011 based on the terms of certain note obligations. In addition, the Company used \$6.0 million more in 2011 than 2010 for the repurchase of shares of Company common stock through open market transactions, pursuant to a 2011 authorization by the Board of Directors of the Company, and through the repurchase of shares of common stock for tax payments related to stock based compensation.

On March 30, 2011, the Company entered into a new credit agreement for up to \$330.0 million of credit with a group of commercial banks (the Original Credit Agreement). On November 29, 2011, the Company amended the Original Credit Agreement to increase the amount available by \$100.0 million to \$430.0 million (the Credit Agreement). The Credit Agreement consists of a \$380.0 million line of credit, which includes the ability to borrow up to \$50.0 million in specified foreign currencies or U.S. dollars (the Domestic and Multi-currency Line) and a \$50.0 million term loan facility (the 2015 Variable Rate Notes). The Domestic and Multi-currency Line amount will decrease by \$100.0 million to \$280.0 million on the earlier of May 29, 2013 or the second business day following the closing of an initial public offering of common stock of Enova that results in Enova no longer being considered a majority-owned subsidiary of the Company. The Domestic and Multi-currency Line matures on March 31, 2015. Beginning March 31, 2012, the 2015 Variable Rate Notes became payable in equal quarterly principal installments of \$2.1 million with any outstanding principal remaining due at maturity on March 31, 2015.

In conjunction with the entry into the Original Credit Agreement, the Company repaid all outstanding revolving credit loans under its \$300.0 million domestic line of credit due 2012 (the USD Line of Credit) and its variable rate senior unsecured note due 2012 with proceeds of the Original Credit Agreement.

On March 30, 2011, in conjunction with the establishment of the Original Credit Agreement, the Company entered into a separate credit agreement for the issuance of up to \$20.0 million in letters of credit (the Letter of Credit Facility). The Company had outstanding letters of credit of \$17.7 million at December 31, 2012. Previously, these letters of credit were provided under the USD Line of Credit by reducing the amount available to the Company.

On January 28, 2010, the Company issued and sold \$25.0 million aggregate principal amount of its 2017 Notes in a private placement pursuant to a note purchase agreement dated January 28, 2010 by and among the Company and certain purchasers listed therein. The 2017 Notes are senior unsecured obligations of the Company. The 2017 Notes are payable in five annual installments of \$5.0 million beginning January 28, 2013. In addition, the Company may, at its option, prepay all or a minimum portion of no less than \$1.0 million of the 2017 Notes at a price equal to the principal amount thereof plus a make-whole premium and accrued interest. The 2017 Notes are guaranteed by all of the Company's U.S. subsidiaries. The Company used a portion of the net proceeds of the 2017 Notes to repay existing indebtedness, including outstanding balances under its bank line of credit. The remaining portion was used for general corporate purposes.

Table of Contents

Each of the Company's credit agreements and senior unsecured notes require the Company to maintain certain financial ratios. As of December 31, 2012, the Company was in compliance with all covenants and other requirements set forth in its debt agreements. Management believes that the \$79.0 million of borrowings available under its Domestic and Multi-currency Line at December 31, 2012, cash generated from operations and current working capital of \$710.6 million are sufficient to meet the Company's anticipated capital requirements for its businesses.

Contractual Obligations and Commitments

The following table summarizes the Company's contractual obligations at December 31, 2012, and the effect such obligations are expected to have on its liquidity and cash flow in future periods (dollars in thousands):

	2013	2014	2015	2016	2017	Thereafter	Total
Bank line of credit ^(a)	\$ 21,011	\$ -	\$ 280,000	\$ -	\$ -	\$ -	\$ 301,011
Other long-term debt ^(b)	22,606	22,606	48,674	24,387	17,387	141,659	277,319
Interest on other long-term debt ^(c)	13,795	9,913	5,897	4,403	2,861	8,611	45,480
Non-cancelable leases ^(d)	52,531	43,774	33,584	26,332	16,913	34,288	207,422
Total	\$ 109,943	\$ 76,293	\$ 368,155	\$ 55,122	\$ 37,161	\$ 184,558	\$ 831,232

(a) The amount shown in 2013 matures on the earlier of May 29, 2013 or the second business day following the closing of an initial public offering of common stock of Enova.

(b) The 2009 Convertible Notes are net of a discount of \$4.8 million. The 2009 Convertible Notes have a stated maturity date of May 15, 2029; however, the Company expects to repay the \$115.0 million balance owed in cash during 2014. If the balance is paid in 2014 as expected, the 2014 total contractual obligations of the Company would be \$191,293, and the total contractual obligations for Thereafter would be \$69,558. See Item 8. Financial Statements and Supplementary Data Note 13.

(c) Represents cash payments for interest and excludes interest obligations on all of the Company's variable-rate debt. See Item 8. Financial Statements and Supplementary Data Note 13 for further discussion of the Company's long-term debt.

(d) Represents obligations due under long-term operating leases. See Item 8. Financial Statements and Supplementary Data Note 15 for further discussion of the Company's operating lease obligations.

Share Repurchases

During 2012, the Company repurchased shares of its common stock pursuant to a share repurchase authorization that was approved by the Board of Directors of the Company on January 26, 2011 for the repurchase of up to 2.5 million shares of common stock of the Company to return equity capital in excess of its business needs to shareholders. These share repurchases both offset the issuance of new shares as part of employee compensation plans and reduce shares outstanding. During the year ended December 31, 2012, the Company purchased 576,064 shares of its common stock on the open market at an average price of \$39.07.

At December 31, 2012, there were 1,488,936 shares remaining under the 2011 authorization to repurchase shares. Generally, the Company retains the shares upon repurchase in treasury, which are not considered outstanding for earnings per common share computation purposes. For additional information regarding the Company's share repurchases during the year ended December 31, 2012, see Item 5(c) Issuer Purchases of Equity Securities in Part II.

On January 24, 2013, the Board of Directors of the Company authorized a new share repurchase program for the repurchase of up to 2.5 million shares of the Company's common stock and cancelled the previous share repurchase authorization from January 2011. Management anticipates that it will continue to periodically purchase shares under this authorization based on its assessment of market characteristics, the liquidity position of the Company and alternative prospects for the investment of capital to expand the business and pursue strategic objectives.

Table of Contents

Off-Balance Sheet Arrangements

In certain markets, the Company arranges for consumers to obtain consumer loan products from one of several independent third-party lenders through its CSO programs. For consumer loan products originated by third-party lenders under the CSO programs, each lender is responsible for providing the criteria by which the consumer's application is underwritten and, if approved, determining the amount of the consumer loan. The Company in turn is responsible for assessing whether or not the Company will guarantee such loans. When a consumer executes an agreement with the Company under the CSO programs, the Company agrees, for a fee payable to the Company by the consumer, to provide certain services to the consumer, one of which is to guarantee the consumer's obligation to repay the loan received by the consumer from the third-party lender if the consumer fails to do so. The guarantee represents an obligation to purchase specific loans that go into default. Short-term loans that are guaranteed generally have terms of less than 90 days. Secured auto equity loans that are guaranteed generally have terms up to 42 months. As of December 31, 2012 and 2011, the outstanding amount of active consumer loans originated by third-party lenders under the CSO programs was \$64.7 million and \$59.4 million, respectively, which were guaranteed by the Company. The estimated fair value of the liability for estimated losses on consumer loans guaranteed by the Company of \$3.5 million and \$3.1 million as of December 31, 2012 and 2011, respectively.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks relating to the Company's operations result primarily from changes in interest rates, gold prices and foreign currency exchange rates. The Company does not engage in speculative or leveraged transactions, nor does it hold or issue financial instruments for trading purposes.

Interest Rate Risk

Management's objective is to minimize the cost of borrowing over the long term through an appropriate mix of fixed and floating rate debt. Derivative financial instruments, such as interest rate cap agreements, have historically been used for the purpose of managing fluctuating interest rate exposures that exist from floating rate debt obligations that are expected to remain outstanding. As of December 31, 2012, the Company did not have any outstanding interest rate cap agreements. As of December 31, 2011, the Company had one outstanding interest rate cap agreement with a notional amount of \$15.0 million. This interest rate cap was perfectly effective at December 31, 2011. The Company had variable rate borrowings outstanding of \$342.7 million and \$330.8 million at December 31, 2012 and 2011, respectively. If prevailing interest rates were to increase 100 basis points over the rates at December 31, 2012, and the variable rate borrowings outstanding remained constant, the Company's interest expense would increase by \$3.0 million, and net income attributable to the Company would decrease by \$1.9 million for the year ended December 31, 2012. See Item 8. Financial Statements and Supplementary Data Note 13.

Gold Price Risk

The Company periodically uses forward sale contracts with a major gold bullion bank to sell a portion of the expected amount of refined gold produced in the normal course of business from its liquidation of gold merchandise. A significant decrease in the price of gold would result in a reduction of proceeds from the disposition of refined gold to the extent that the aggregate amount sold exceeded the amount of contracted forward sales. In addition, a significant and sustained decline in the price of gold would negatively impact the value of some of the goods pledged as collateral by customers and other items which are now, or could be in the future, identified for liquidation as refined gold. In this instance, management believes some customers would be willing to add additional items of value to their pledge in order to obtain the desired loan amount. However, those customers unable or unwilling to provide additional collateral would receive lower loan amounts, possibly resulting in a lower balance of pawn loans outstanding for the Company.

Table of Contents**Foreign Currency Exchange Risk**

The Company periodically uses forward currency exchange contracts to minimize risk of foreign currency exchange rate fluctuations in the United Kingdom and Australia. The Company's forward currency exchange contracts are non-designated derivatives. Any gain or loss resulting from these forward contracts is recorded as income or loss and is included in Foreign currency transaction gain (loss) in the Company's consolidated statement of income. The following tables set forth, by each foreign currency hedged, the notional amounts of forward currency exchange contracts as of December 31, 2012 and 2011, the total gains or losses recorded in 2012 and 2011, and sensitivity analysis of hypothetical 10% declines in the exchange rates of the currencies (U.S. dollars in thousands).

	Notional amount of outstanding contracts as of December 31, 2012	Gain/(loss) recorded in 2012 ^(a)	Sensitivity Analysis ^(b)
British pound	\$ 92,571	\$ (4,561)	\$ 6,043
Australian dollar	1,242	(233)	81
Total	\$ 93,813	\$ (4,794)	\$ 6,124

	Notional amount of outstanding contracts as of December 31, 2011	Gain/(loss) recorded in 2011 ^(a)	Sensitivity Analysis ^(b)
British pound	\$ 77,364	\$ 2,035	\$ 5,010
Mexican peso	-	1,303	-
Australian dollar	3,011	(179)	198
Total	\$ 80,375	\$ 3,159	\$ 5,208

^(a) The gains (losses) on these derivatives substantially offset the (losses) gains on the hedged portion of foreign intercompany balances.

^(b) Represents the decrease to net income attributable to the Company due to a hypothetical 10% strengthening of the foreign currency against the U.S. dollar.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Cash America International, Inc.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, comprehensive income, equity, and cash flows present fairly, in all material respects, the financial position of Cash America International, Inc. and its subsidiaries (the Company) at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the Report of Management on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
